### **Introduction**

Croydon ARC was set up to help low income families by providing low cost furniture and domestic appliances, providing a training facility for unemployed people and reducing waste and landfill. We have one of the best-equipped domestic appliance repair workshops in the country, and our skilled engineers refurbish washing machines, fridges, cookers and other white goods to the highest standards.

### **Reused Furniture & White Goods**

We have a large stock of low priced reused furniture and white goods available in our showrooms in central Croydon, fully refurbished, guaranteed and ready to be delivered direct to your door.

### **Furniture Donations & House Clearances**

We can provide a full house clearance service or accept donations of individual items. Just call us to discuss your requirements and one of our friendly staff will be able to help you. We can assure you that any waste collected will be reused or recycled to the highest standards, thereby minimising landfill and we can generally arrange collection within 3 working days.

### **Collections of Waste Electrical Equipment**

With over 7 year's experience of dealing with commercial waste electrical equipment we are able to deal with all difficult disposal problems, such as laboratory equipment, hospital equipment etc. Croydon ARC is a fully compliant and registered waste carrier, and is able to collect for recycling almost any end of life electrical equipment, both domestic and commercial.
