Total Expenditure	100%	91,240,000							

HRA Monitoring & Budget Setting

- As part of the development of the Housing Improvement Programme which seeks to ensure HRA-funded services meet the needs of the Council's tenant and leaseholders, our monitoring of the HRA expenditure has indicated that further work is required on:
 - Direct proportion of costs incurred by departments where they provide a service to tenants
 - Indirect proportioning of cost from central council departments
- This work is in progress and will form the basis of the budget setting for 2023-24

HRA Future Spend

- The HRA maintains a reserve balance ensuring the financial viability of the HRA business plan position is sustained over the business plan life cycle.
- As at 31 March 2022, the HRA reserves balance was £27m.
- Modelling is underway on the funding required for the redevelopment projects.
- The option to borrow through the HRA can be considered as there is capacity within the current business plan to allow for that
- HRA currently has borrowing of £322.5m
