

Norbury Library Update – December 2020

The refurbishment project set out to refresh the space to create a modern library, re-introduce original features, and re-invigorate the upstairs Community Room.

More details about the re-opening of the library will be announced in January, and will be in accordance with the relevant guidelines.

The main library has been transformed with new shelving and furniture:

The original roof lights have been cleaned and repaired where necessary and allow natural light to flood in from the new glass roof above

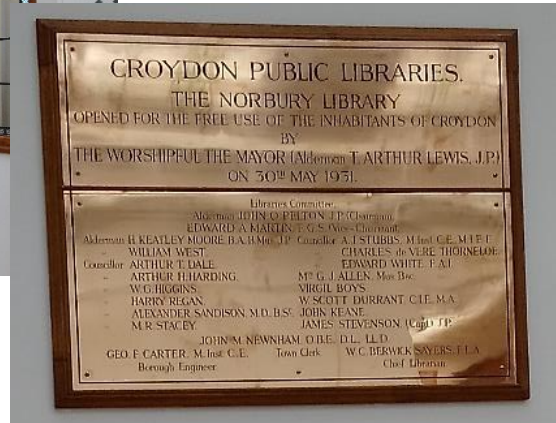

The computer room is equipped with new computers, and the study area has several options for working or relaxing with a book:

The new children's library is a space for younger readers and families to enjoy:

Original features have been sympathetically restored:

Access to the upstairs Community Room has been improved by the installation of a lift, and the room itself has been redecorated and retains the original parquet floor:
