

SELSDON LIBRARY

- We want Croydon libraries to be modern, welcoming spaces where people of all ages and backgrounds come to learn, read, work, meet people and get involved.
- During public engagement activities in 2016 and 2018, library users consistently responded that access to books, together with space to study, learn and to use computers were most important to them about their library.
- Selston Library will soon be redesigned to provide a more flexible library space with new furniture, shelving, flooring and lighting.
- We will also be installing a faster IT network, new computers and improved wi-fi.
- These images represent how the new space will look when the work is complete.

SELSDON LIBRARY

- Open+ technology will be introduced to extend the opening hours for library members who have registered. This is a system that allows users to enter the building with their card and a pin when the library is unstaffed. You will be able to sign up when the library has re-opened.
- In order for the work to be carried out, we will need to close the library at 5.00pm on Saturday 1 June. The new-look library will re-open at 9.00am on Saturday 3 August. During the library closure a "pop-up" library will be available at certain times in the building foyer. Details will be advertised later in May.
