Duty of Care visits

Customer fly-tip reports by channel

Highlights this period

- ❖ The number of confirmed fly-tip incidents was 19.2% less than last month and 27.3% less than the same period last year.
- ❖ Performance in the volume of fly tips cleared within 48 hrs continues to be significantly higher than the target of 80%.
- ❖ There were 6 further clear up event this month – residents took part in removing litter and fly tips from The Boulevard, Thornton Heath alleyways, Temple Copse, Haling Passage, Havelock Road, Outram Road, Mulberry Lane, Elgin Road and Dacre Road clearing a total of 18 bags and 1.5 tonnes of waste.

Top issues and risks

- ❖ More responsive removal services may encourage more fly-tipping - this risk is being managed through enforcement action.
- ❖ A review is currently underway to identify what further action is required to encourage greater reuse and recycling of waste and to reduce litter and fly-tipping in target areas.

Focus for future action

- ❖ Roll out of vacuum units at Broad Green and Thornton heath during September to aid street cleansing operations
- ❖ Continue to review street cleaning and street bin provision to focus on the fly-tip hot spots and district centres and improve facilities for recycling in those flats/areas where these are limited
- ❖ Deliver multi-agency enforcement led operations to tackle fly-tip hot spots using the full range of interventions including prosecution
- ❖ Continuing rollout of time banded waste collections to different locations following successful trial on Thornton Heath High Street so that residential and trade waste is only put out between 6pm and 9am.
