

Croydon Council Adult Learning Disability Day Operations Support Services

Croydon Day Operations offers Day and Evening opportunities for adults with learning disabilities who have a variety of support needs.

An ever evolving menu of opportunities is offered to enable individuals to achieve their personal outcomes with experienced, knowledgeable staff, all working to a person centred ethos.

Sessions and Support is offered from several Hubs and through Outreach in the local community.

Independence, friendship, social networking, emotional and physical wellbeing and valuing employability skills guide the development and delivery of these sessions.

The varied support options available can be matched to the Social and learning outcomes that an individual requires and specific teams are skilled at working with identified support needs.

For more information on the Hubs, Outreach and the Sessions and Support offered please contact: Paul Wallingford - Adult Learning Disability & Autism Support Services Manager on:
