Duty of Care visits

Customer fly-tip reports by channel

Highlights this period

- ❖ Excellent performance in the volume of fly tips cleared within 48 hrs.
- ❖ There were 1 further clear up event this month – residents took part in removing litter and flytips in Ross Road clearing 3 tonnes of waste.
- ❖ 102 FPNs were issued which is above the target threshold. 36 of which was due to flytipping.

Top issues and risks

- ❖ Number of confirmed fly-tip incidents was 0.7% less than last month and 21.6% more than the same period last year.
- ❖ Duty of care visits are down as team have been focussed on other priorities
- ❖ More responsive removal services may encourage more fly-tipping - this risk is being managed through enforcement action
- ❖ A review is currently underway to identify what further action is required to encourage greater reuse and recycling of waste and to reduce litter and fly-tipping in target areas.

Focus for future action

- ❖ Continue to review street cleaning and street bin provision to focus on the fly-tip hot spots and district centres and improve facilities for recycling in those flats/areas where these are limited
- ❖ Deliver multi-agency enforcement led operations to tackle fly-tip hot spots using the full range of interventions including prosecution
- ❖ Continuing rollout of time banded waste collections to different locations following successful trial on Thornton Heath High Street so that residential and trade waste is only put out between 6pm and 9am.
