Duty of Care visits

Customer fly-tip reports by channel

Highlights this period

- ❖ Performance in the volume of fly tips cleared within 48 hrs continues to be significantly higher than the target of 80%.
- ❖ There were 5 further clear up events this month – residents took part in removing litter and fly tips from Godstone Road, Whitehorse Rec, Norwood Junction underpass, Croydon Minster grounds and Tollers Estate Coulsdon clearing a total of 130 bags and 1 cage load of waste.

Top issues and risks

- ❖ The number of confirmed fly-tip incidents was 3.5% less than last month and 9.4% less than the same period last year.
- ❖ Duty of care visits are not being undertaken as the team have been focussed on other priorities.
- ❖ More responsive removal services may encourage more fly-tipping - this risk is being managed through enforcement action.
- ❖ A review is currently underway to identify what further action is required to encourage greater reuse and recycling of waste and to reduce litter and fly-tipping in target areas.

Focus for future action

- ❖ Roll out of vacuum units at Broad Green and Thornton heath during September to aid street cleansing operations
- ❖ Continue to review street cleaning and street bin provision to focus on the fly-tip hot spots and district centres and improve facilities for recycling in those flats/areas where these are limited
- ❖ Deliver multi-agency enforcement led operations to tackle fly-tip hot spots using the full range of interventions including prosecution
- ❖ Continuing rollout of time banded waste collections to different locations following successful trial on Thornton Heath High Street so that residential and trade waste is only put out between 6pm and 9am.
