Mr S Litchfield  
Object  
DM43.4  
502  
Reasons for Objecting:  
- The development would cause a detrimental effect to the Amenities of Adjoining Owners in the local area.  
- The proposed development is on Green Belt.  
- Surely a sensible site should be on Brownfield or Industrial Land as in an ever increasing urbanised area where developments and buildings are being built at an alarming rate we are losing all green space.  
- To use the Sites would require a Change of Land Use.  
- Why on earth are two of the proposed sites in such close proximity from one another in an area the size of the borough of Croydon?  
- There is a complete imbalance across the borough with all Sites being Proposed in the South of Croydon.  
- Potential increased crime in our local area (this was highlighted only last week when the South Croydon area (Brighton Road and surrounding areas) came to a stand still and hit national press with the eviction of travellers found to have firearms. The local School I worked in had to lock its gates and not allow students into the surrounding area until the conflict had been dealt with) my young families security and happiness are paramount, hence the reason I chose South Croydon to live in and paid the large additional house price to ensure my family were free from this sort of activity.  
- My preference would be to simply expand the existing permanent Gypsy Site in Lathams Way off Beddington Farm Road, would this not provide a simple and cost effective option for the council and far less issues to a huge number of law abiding citizens in the Croydon Borough???? If the council is unwilling to do this then from the proposals then Pear Tree Farm & Pear Tree Farm Cottage, Featherbed Lane should be one of the selected sites.

The alternative suggested site that would have far less impact on the local area and its residents (not all being on Green Belt either!!!!) in my opinion would be:

16 - Heath Clark playing fields, Stafford Road, Waddon  
120 - Timblebridge Community Centre, Field Way, New Addington  
518 - Land adjacent to 103 Goodenough Way, The Admirals Walk, Old Coulsdon  
522 - Wandle Road surface car park, Wandle Road, Croydon Opportunity Area  
536 - Land of former Croydon Airport runaway, south of Imperial Way, Waddon  
552 - Land adjacent to Ashburton playing fields at rear of 2-88 Colderidge Road, Addiscombe  
553 - By Pavilion Playing Fields, Purley Way, Waddon  
632 - Land south of Threshalhpenny Woods, Kent Gate Way, Bridle Way, Addington  
636 - Land west of Timblebridge Community Centre, Lodge Lane, Elmside, Addington  
797 - Cane Hill-south part, Hollymeaok Road / Portnalls Road, Coulsdon  

Change  
The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Kaljit Gata-Aura  
Object  
DM43.4  
502  
Objection to the use of following locations as gypsy or traveller sites: Coombe Farm off Oaks Road - Ref 502  

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Mr & Mrs Belsey  
Object: DM43.4 502  
The area where the travellers site is being suggested is Greenbelt. We must not build on Greenbelt sites, as these are areas for relaxation, wildlife and nature. Again this will result in a decrease in wildlife and more flooding.

Change: The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Melissa Chu  
Object: DM43.4 502  
I am a Croydon resident and am writing to object to the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference number 661, policy number DM44; and Coombe Farm off Oaks Road, site reference number 502; policy number DM43. Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane, site reference number 755, policy number DM32. All three sites are in the Green Belt, with one bordering a site of Nature Conservation. The proposed use of each of these sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b and would not be consistent with Policy E of ‘Planning Policy for Traveller Sites’ published by the Government. If additional sites are required in the Borough it would more appropriate to expand existing sites eg the site off the Purley Way. In addition none of the sites has easy access to local school, healthcare, retail and other amenities; the vehicular access into sites 661 and 502 is problematic and egress onto Coombe Lane/Oaks Road at the road junction is likely to create additional road hazards.

Change: The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Natwarlal Patel  
Object: DM43.4 502  
I object to the use of the site for gypsy and traveller accommodation.

Change: The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
4081/01/002/DM43.4/O Mr & Mrs Hyde

Object DM43.4

We object to:
- the proposed de-designation of Croham Hurst and Coombe Road playing fields as Green Belt.
- the proposed use of Coombe Lodge Nurseries (site 661) and Coombe Farm (site 502) as gypsy & traveller sites.
- These linked areas, which connect with Lloyd Park & Shirley Hills, contribute hugely to the amenity of the borough. This public continuum is precious to many from across Croydon and beyond. Development and traveller sites would change the character of the amenity, particularly the Conduit Lane footpath.

Change
- The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

4082/01/002/DM43.4/O Philip Jupp

Object DM43.4

I object to the use of the site for gypsy and traveller accommodation.

Change
- The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

4083/01/009/DM43.4/O Mr Reuben Gata-Aura

Object DM43.4

Object to The use of following locations as gypsy or traveller sites:
- Coombe Farm off Oaks Road - Ref 502
- Coombe Lodge Nurseries off Conduit Lane - Ref 661

Change
- The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

4087/01/001/DM43.4/O Kelly Welly

Object DM43.4

I have been advised by a neighbour that a rumour is circulating regarding a Travellers site being given planning permission on the Shirley oaks village (Primrose Land) green land! I am extremely concerned about this as my house backs onto said land. Can you confirm if this is true and if so confirm the exact location of the proposed site?

Change
- The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
the Council has identified two locations on the edge of Shirley for gypsy/traveller sites: Coombe Farm off Oaks Road, which is identified as suitable for 15-20 pitches (pages 449-450, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 502). “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

Change
The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Mr Vince Hemment

<td>Mr &amp; Mrs Chang</td>
<td></td>
<td>We read with dismay and grave concern about Croydon council’s plans to build three gypsy/travellers sites in the Green Belt of Shirley. This ill conceived act of allowing housing on some of our precious Green spaces and back gardens will totally decimate and change the character and the environment of this area. The traffic infrastructure will be totally inadequate with traffic problems already a big issue during peak hours as it is. It is already terrifying to see the number of tower blocks going up along East Croydon station resulting in the ever changing skyline of Croydon, turning the town into a massive concrete jungle. We sincerely implore you to reconsider your plans and not to destroy our beautiful green belt and protecting the environment in and around this area. We have lived in Shirley for forty years and over this period we have seen so many new buildings and green open spaces lost to developers.</td>

Mr V Bhuwanee

Object: Soundness

Soundness Justified

DM43.4

502

I would like to object to the proposed travellers sites for the following reasons which I believe are material grounds to refuse these plans:

• The Council has an obligation to consider all potential sites across the borough. It also needs to demonstrate this, and provide information that details what sites were considered (both private and publicly) together with full assessments on these sites. This I cannot see has been done.

• The suggested sites are in close proximity to each other in a huge borough. This cannot be correct. Fine, allow one - but all three? This is politically motivated.

• There is currently not enough amenities locally and no plans to increase them. School places and GPs are already full.

• Transport concerns. PTAL ratings or similar, where are they?

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Ms V Cruickshank

Object: DM43.4

502

I object to the use of the following locations as gypsy/traveller sites:

Coombe Farm off Oaks Road; reference number 502; and Coombe Lodge Nurseries off Conduit Lane; reference number 661.

These are both in the Green Belt, where Policy E of Planning for Traveller Sites clearly says that “travellers sites (temporary or permanent) in the Green Belt are inappropriate development”.

This is also likely to have a negative effect on the Site of nature conservation interest that one of the sites would border, and both sites are a distance from public services. It is also likely to create increased traffic problems in an area that is not best suited for such sites.

Consideration should be given to the refurbishment of the existing sites, or where this is not possible, alternative and more appropriate sites.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
I have been made aware of the proposals for Site References 661, 502 and 755 for use as traveller sites. I object on the grounds that these are Green Belt sites covered by Policy SP2.7a and SP2.7b and are therefore unsuitable for traveller camps. I use both sites near Coombe Lodge fairly regularly and was frightened by loose and dangerous dogs when the site was being used illegally by travellers, and I noticed that the woods were being used as a toilet. The amenities of that area would be lost to everyone else if these proposals were to proceed.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

I am writing to object to the use of Coombe Farm off Oaks Road, site reference 502 as gypsy and traveller site as this site would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

I object to the use of the following locations as gypsy and traveller sites: Coombe Farm off Oaks Road, site 502;

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
As a local Resident in the Croham Ward of South Croydon the subject area is well known to me and my family, and in my opinion its use as proposed, or indeed for any kind of development, is wholly inappropriate, and accordingly I object. I have carefully reviewed the documentation prepared by the Council, and specifically looked at the Assessment and Selection of Sites for Gypsy and Travellers. Whilst the document is very comprehensive, I am unclear as to whether or not it is a universally adopted one that is used for the whole Country, and in any event question the methodology with its use of selective criteria and the RAG scoring which is very subjective. I noticed that the scoring for the subject site includes a positive ±5 under the criteria heading of Green Belt/Metropolitan Open Land. This appears incorrect, and if I am reading and interpreting the document accurately then the score should be a negative -5. Assuming this is an error then it distorts the resultant figure by ten. Given this error, are there indeed others awry? I also noted in the Gypsy and Traveller Accommodation Needs Assessment prepared by Croydon Council that it highlights a substantially higher level of additional pitches required in the first five years (2013-2018) where 27 pitches are stated, whereas in the subsequent five year periods only 7 or 8 pitches are scheduled for each of the three periods through to 2033. I would suggest that these lower figures in the latter years are unrealistic and in all probability are likely to rise. If so, then the pressure to enlarge the overall area of the subject site will increase, and it will of course be easier for the Council to justify and probably win the argument because of the established use and precedent. Therefore, the size of the subject site and/or another one in the locality, will in all probability substantially increase. Fundamentally, this location is ‘Green Belt’ land and notwithstanding that it has some development and land use, the proposed use, or indeed for any kind of development, is wrong and in my opinion would not comply with Policy SP2.7a and SP2.7b. It is also my understanding that under Central Government policy if such land is designated as ‘Green Belt’, then it should enjoy the protection from all forms of development and not favour any particular group or person within the community unless there are special circumstances. In this case there are no such special circumstances. If any private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
business person or organisation wanted to create a caravan and/or static home site in this location it would not receive Planning Permission - this is the ‘test’ for such a proposal, and we should not have differing sets of rules for the Council and the Public. In addition to the above I also note a list of other salient points as to why in my opinion the use of the subject land as proposed is inappropriate:
- Notwithstanding some nominal use of the area for local business, housing, and school purposes, the general locality is one of woodland, playing fields, parkland, and rural space. Any kind of use for more intense housing, and possibly associated businesses as well, for any sector of the community whether it be caravans, static homes, prefabricated houses, or traditional housing would be inappropriate.
- This area of Coombe is of some historical significance with several notable houses of architectural merit. Notwithstanding that some of the area and buildings have changed and indeed increased over the more recent decades, it still retains a relatively rural and spacious charm which should be respected and retained for current and future generations.
- More intense housing for any sector of the community will increase noise and light pollution and would be inappropriate.
- Local nature and wildlife is present in this area and as such should not be subjected to pressure from an increased resident population. Lloyd Park, Coombe Park, and the woods of Addington Hills which border and/or are in close proximity to the subject development site are of high public interest and could be negatively impacted by the proposals.
- The access road from Oaks Road that will form the route to the subject site is relatively narrow and already used by other residents and those accessing the playing fields. This road would need to be up-graded at considerable expense if the proposal were to proceed.
- Vehicle access onto Oaks Road is restricted with reduced visibility as well as being in very close proximity of the tram/road crossing.
- Notwithstanding the presence of the local Tramlink service, public transport is otherwise very limited and as such will force new residents to use private vehicles and thus cause more environmental pollution in an otherwise rural locality.
- Local amenities and facilities such as shops, health centres, possibly suitable schools are essentially non-existent and will force the residents to
use private vehicles unnecessarily.
- The proposed subject site is relatively large, and if approved, would potentially house a significant number of people and which may be further exacerbated by the possible location of another similar site in relatively close proximity. My understanding is that gypsy and traveller families actually prefer smaller sites.
- Development of this subject site with new and extended infrastructure in the form of services, sewage, power, fencing, roads, and hardstanding is likely to be very expensive, and indeed disruptive in providing.

Other locations, some thus far dismissed but there may be others, will almost certainly offer better use of the limited public funds available. Partial infrastructure may well be already in place or more readily available in these other locations and help to lessen the burden on the public purse. Also, in comprehensively reviewing other locations, it may be possible to address suitable brownfield sites that in all but easy situations private developers ignore and disregard, but which nevertheless remain a serious blight on the landscape of the Borough.

4121/01/003/DM43.4/O Janet Norris Object I am writing to object to the use of Coombe Farm, Oaks Road 502 as a gypsy/traveller site DM43.4 502 I am writing to object to the use of Coombe Farm, Oaks Road 502 as a gypsy/traveller site Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
All three sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. Furthermore, Policy E of ‘Planning Policy for Traveller Sites’, published by the Government in August, states very clearly that ‘Traveller sites (temporary or permanent) in the Green Belt are inappropriate development’. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the ‘Assessment and Selection of Sites for Gypsy and Travellers’. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of ‘extensive political consultation’. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Whilst I agree that we desperately need new housing, it should be built on brownfield sites not our remaining precious green spaces! I understand the Council has identified two locations on the edge of Shirley for gypsy/traveller sites: Coombe Farm off Oaks Road, which is identified as suitable for 15-20 pitches (pages 449-450, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 502); and Coombe Lodge Nurseries off Conduit Lane, which is identified as suitable for 15-25 pitches (pages 468-469, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 661). I object to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: 'Traveller sites (temporary or permanent) in the Green Belt are inappropriate development'. The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

<td>Mrs S Chandarana</td>
<td>Build a school please. School is a viable option as there no schools in our area. The plan makers have missed a big point that existing infrastructure cannot cope with the influx of additional population at such a fast pace. Also it has to be planned over few years. It should never ben on a green belt attached to a green belt sites as it is disastrous for the environment. There are quite a few brownfield sites in Croydon should be explored. What are the criteria behind selecting two sites within 1 mile of each other? The plan makers do not know the grass root situation. They have just assumed things without actually knowing the facts. This is a grave situation. There are quite a few public and independent schools in the nearby area. Building a new school will support Selsdon and nearby citizens. Besides we do not have a Grammar school in Croydon. So, it would be ideal if we build a grammar school in Croydon on one of the proposed sites. Existing infrastructure just cannot cope with additional population in Croydon: - We have to wait at least 4-5 days to get appointment at doctors many times do not get appointment - We have to wait at least 15 minutes to get a turn to play swing/slides for my son in any local park. The parks are so crowded during summer. Already children are getting very less exercise. If 40 families come over with more than 80 children then it would be extremely over crowded. - There are not enough schools in the area. We should build more schools - There is very limited green space in Croydon. Government policy states that you cannot build temporary or permanent sites on Green Belt. Putting the travellers sites near green belt will endanger. - Conduit lane is a no drive zone. Increased traffic due to a planned school and travellers sites will cause traffic chaos. - We need green belts for good health of the citizens. Steps like these would encourage the encroachment of green belts</td>

DM43.4 502

Build a school please. School is a viable option as there no schools in our area. The plan makers have missed a big point that existing infrastructure cannot cope with the influx of additional population at such a fast pace. Also it has to be planned over few years. It should never be on a green belt/attached to a green belt sites as it is disastrous for the environment. There are quite a few brownfield sites in Croydon should be explored. What are the criteria behind selecting two sites within 1 mile of each other? The plan makers do not know the grass root situation. They have just assumed things without actually knowing the facts. This is a grave situation. There are quite a few public and independent schools in the nearby area. Building a new school will support Selsdon and nearby citizens. Besides we do not have a Grammar school in Croydon. So, it would be ideal if we build a grammar school in Croydon on one of the proposed sites. Existing infrastructure just cannot cope with additional population in Croydon:
- We have to wait at least 4-5 days to get appointment at doctors many times do not get appointment
- We have to wait at least 15 minutes to get a turn to play swing/slide for my son in any local park. The parks are so crowded during summer. Already children are getting very less exercise. If 40 families come over with more than 80 children then it would be extremely over crowded.
- There are not enough schools in the area. We should build more schools
- There is very limited green space in Croydon. Government policy states that you cannot build temporary or permanent sites on Green Belt. Putting the travellers sites near green belt will endanger.
- Conduit lane is a no drive zone. Increased traffic due to a planned school and travellers sites will cause traffic chaos.
- We need green belts for good health of the citizens. Steps like these would encourage the encroachment of green belts.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Mr S Illingworth
Object
DM43.4 502

There has been a history of unauthorised "pitches" in this area over the past few years, in particular on the field adjacent to the practise area and 5th hole on the golf course. On each occasion these pitches have been accompanied by residual mess, threatening behaviour and mindless theft of golf club property. Each time that Gypsies/Travellers have been in the area, they have trespassed onto the golf course while club members are playing, threatening those members with physical and verbal abuse on numerous occasions. This behaviour is totally unacceptable and very demoralising, and should either of these pitches go ahead I am sure that it will have a serious detrimental affect on both the club and its members.

Mrs S Deshpande
Object
Soundness - Consistent with National DM43.4 502

I am writing to object to:
1. The use of the following location as a gypsy and traveller site:
   Coombe Farm off Oaks Road, site reference 502
   as the site would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.
   There is also an error in the calculation for the Green Belt score in the selection criteria. The site should be scored -5 for being in Green Belt and not +5.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
I am grateful to the Council for consulting on the detailed policies and proposals that will make up the Croydon Local Plan. There is much in the document that I agree with, but some of the proposals would, in my opinion, change the character of parts of Croydon very much for the worse. I hope you will forgive me if I focus on these areas of contention. I am therefore writing to formally object to:

3. the use of the following locations as gypsy and traveller sites:
   • Coombe Farm off Oaks Road reference number 502;
   • Coombe Lodge Nurseries off Conduit Lane reference number 661; and
   • Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane reference number 755;

As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the government in August, says very clearly:

“Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.”

The Council’s approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

We object on the basis that both sites are on Green Belt land and one is adjacent to a Site of Nature Conservation Interest. This proposed siting appears to be contrary to the Government’s published policy which says that such sites in the Green Belt are inappropriate development.
Object Soundness - Justified DM43.4 502 Under no circumstances do we agree with a Gypsy and Traveller site at this location.

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Object DM43.4 502 I am writing to object to The use of Coombe Farm off Oaks Road reference number 502; and Coombe Lodge Nurseries off Conduit Lane reference number 661 as locations for gypsy/traveller sites. Both sites are within the Green Belt, are a substantial distant from public services such doctors and schools and one is adjacent to a Site of Nature Conservation Interest.

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Object DM43.4 502 National guidelines clearly state 'Travellers Sites emporary or per,nanent) hi the Green Bell are inappropriate development'. The Council’s proposals, therefore, clearly breach such guidelines. Also, we question the Council’s assertion that it needs to quadruple the number of travellers/gypsy sites in the Borough. Apart from this major objection, the above sites identified for such use would have:
- poor access via narrow roads/lanes for large vehicles;
- consequent impact upon local traffic congestion with movements of large vehicles;
- no safe paved walking routes to schools, shops, doctors, etc.;
- additional requirement for services and facilities for hygienic occupation;
- increased pressure on local schools, medical facilities, waste disposal, etc.;
- impact upon local facilities and amenities of current residents. Also, we understand that the proposed pitches would accommodate considerably more caravans and associated vehicles than can be controlled by planning restrictions.

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Object DM43.4 502 am writing to object to the use of the following locations as gypsy and traveller sites at Coombe Lodge Nurseries off Conduit Lane, site reference 661 and Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
The GTANA report (2013) does not consider why there is a requirement to provide such facilities and refers to the CLG’s document Planning Policy for Traveller Sites (March 2014) which states that Local Authorities should in producing their local plans, consider joint development plans that set targets on a cross authority basis. This proposal seems to have been produced in isolation from other neighbouring councils even though the above clearly indicates that nearby councils such as Sevenoaks, Tandridge and Bromley have higher demand. Proposals in the Housing and Planning Bill 2015-2016 are to remove the statutory requirement on local authorities to assess the specific accommodation needs of Gypsies and Travellers - the emphasis being that when authorities are carrying out a review of housing needs that it considers the needs of all the people residing in their district, without any reference to Gypsies and Travellers. We hope this means that Croydon Council will consider our needs and the needs of our neighbours and local services and businesses as weighty as those of Gypsy and Travelling people. We understand that there is a lot of opposition to the proposed sites from people currently residing in the district due to the threat to the Green Belt, increased traffic and increased pressure on local services. Surely such low scores within the “Assessment and Selection of Sites for Gypsy and Travellers” (August 2015) should have resulted in an acceptance that none of the sites are really particularly suitable and that the council will need to liaise with other councils if determined to make provision. All three sites are in Green Belt land - Policy E of Planning Policy for Traveller Sites - traveller sites (temporary and permanent) in the Green Belt are inappropriate development. Further concern for the impact upon Green Belt is highlighted in the GTANA Stakeholder consultation. The sites are contrary to the Strategic Policies (April 2013) in terms of access from roads and proximity to bus routes; and access to essential services including health and education facilities.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

DM43.4

502

I am a Croydon resident and am writing to object to the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference number 661, policy number DM44; and Coombe Farm off Oaks Road, site reference number 502, policy number DM43; Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane, site reference number 755, policy number DM32. All three sites are in the Green Belt, with one bordering a site of Nature Conservation. The proposed use of each of these sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b and would not be consistent with Policy E of 'Planning Policy for Traveller Sites' published by the Government. If additional sites are required in the Borough it would more appropriate to expand existing sites eg the site off the Purley Way. In addition none of the sites has easy access to local school, healthcare, retail and other amenities; the vehicular access into sites 661 and 502 is problematic and egress onto Coombe Lane/Oaks Road at the road junction is likely to create additional road hazards.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Mr Brian Mole

4178/01/001/DM43.4/O

DM43.4

502

It is in a green belt area. National guidelines say that travellers/gypsy sites in the greenbelt are inappropriate development. There is a long history of planning application refusals and avoidance of planning permission at Coombe Farm. The reasons for this should be re-visited. The site is on a single track lane with a very narrow access onto Oaks Road which is not suitable for large mobile homes, or the additional traffic from travellers trucks, cars, vans and trailers as well. The site has no safe walking route to schools, shops, doctors, etc. There is no pavement along Oaks Lane and very poor lighting when dark. There is only partial pavement on one side of the road along Oaks Road as well. The size of the pitches would accommodate far greater number of caravans than can be controlled by planning restrictions. Even if the restrictions are adhered to, there could be as many as three families on each pitch allowing for 60 mobile homes. This would totally overwhelm the residents of Oaks Farm, Oaks Road and Oaks Lane and would not be conducive to social cohesion. The proposed site is not within the required distance to both schooling and medical needs. The closest schools are oversubscribed so would be unable to meet the needs of so many new children to the area. The (and is in private ownership at Coombe Farm, and any funds spent on (compulsory or otherwise) purchase could surely be spent more wisely on behalf of the population of Croydon. Several businesses which make a big contribution to the Local economy and also provide much needed amenity to the public will be detrimentally affected by the site.

As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

4206/01/002/DM43.4/O Dr K Parka | Object DM43.4 502 | I object to the use of the site for gypsy and traveller accommodation. | Change | The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
I object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and one borders a site of Nature Conservation Interest. Such development is in breach of Policy EAT Planning Policy for Traveller Sites, which says that ‘Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development’. All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites now, and 39 by 2036 is excessive and will have an adverse effect on the borough. If the number of Gypsy/Traveller sites really needs to be increased by this amount then a more appropriate location would be around the existing site at Purley Way. The positioning of a Gypsy/Traveller site adjacent to the car park for Coombe Woods, between the Chateau Restaurant and the Hotel/restaurant, would probably deter me from using any of these attractions.

For the reasons given above:
1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability of future generations to meet their own needs.
4. I recommend that consultation documents of such importance are given much wider publicity.

I have restricted my objections to those plans that primarily affect the area of Shirley I which I live, but the same objections apply to other proposals in other parts of the borough.

DM43.4
5. Proposed Policy DM43 Creation of Gypsy/Traveller sites at Coombe Farm, off Oaks Road, Coombe Lodge Nurseries, off Conduit Lane and Pear Tree Farm and Pear Tree Cottage, Featherbed Lane.

Proposed Policy DM43 Creation of Gypsy/Traveller sites at Coombe Farm, off Oaks Road, and Coombe Lodge Nurseries, off Conduit Lane. I object to the use of any of these locations for the creation of Gypsy/Traveller sites. All these locations are within the Green Belt and one borders a site of Nature Conservation Interest. Such development is in breach of Policy EAT Planning Policy for Traveller Sites, which says that ‘Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development’. All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites now, and 39 by 2036 is excessive and will have an adverse effect on the borough. If the number of Gypsy/Traveller sites really needs to be increased by this amount then a more appropriate location would be around the existing site at Purley Way. The positioning of a Gypsy/Traveller site adjacent to the car park for Coombe Woods, between the Chateau Restaurant and the Hotel/restaurant, is totally undesirable. As users of the restaurants, gardens, park and golf course it would be hard to imagine we wish to visit these attractions if it is blighted in this way. As members of Shirley Park Golf Club we have experienced threatening behaviour, trespass, verbal abuse and staining mess that travellers create. The golf club provides social and sporting activity for some 700 members and many visitors including junior players who play during school holidays and weekends. Their safe environment will be endangered. We understand that the proposed sites fail to meet criteria with regard to schooling and medical needs and it seems obvious that these proposals need to be scrapped as soon as possible.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Object DM43.4

502

I am writing to object to:

1. the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference 661; Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
It is in a green belt area. National guidelines say that travellers' gypsy sites in the greenbelt are inappropriate development. Even if the properties are demolished to provide for the pitches there will still be a large spill over into the green belt. This means that planning permission should not be available.

- The site is on a single track lane with a very narrow access onto Oaks Road which the large mobile homes will not be able to access. The lane is also used by aggregate lorries (shorter than mobile homes), local residents, members of the sports ground and opposing teams and visitors to Loyd Park.

- The site has no safe walking routes to schools, shops, doctors etc. There is no pavement along Oaks Lane and very poor lighting when dark. There is only partial pavement on one side of Oaks Road as well. The safeguard of so many additional people including a great number of children must make this site un-feasible. This is unsustainable as everyone will have to use cars to access everything involved in their day to day lives.

- The size of the pitches would accommodate a far greater number of caravans that can be controlled by planning restrictions. Even if the restrictions are adhered to, there could be as many as three families on each pitch. This equates to 60 possible families, 60 mobile homes, with additional tow trucks, vans, trailers and cars.

- National guidelines state that the site should not overwhelm the next nearest settlement. The residents of Oaks Farm, Oaks Road and Oaks Lane (all in isolated positions) would certainly be overwhelmed. We are also concerned about conflict between Romany Travelers and Irish Travellers.

- There is a long history of planning refusals and avoidance of planning permissions at Coombe Farm. Reasons for this should be re-visited.

- Oaks Farm is the adjacent property to Coombe Farm and whenever travellers are in the vicinity this local wedding business is adversely affected. Local businesses should be supported in many ways including the surrounding environments use.

- Shirley Park Golf Club is another local business that I believe has been adversely affected by travellers' presence. In this instance through verbal and physical abuse to club members. This is not acceptable and must be considered as part of this objection. We understand the proposed sites are not within the required distance to both schooling and medical needs.
therefore am objecting on that basis also. The land is in private ownership at Coombe Farm, and any funds spent on “compulsory or otherwise purchase” could surely be better spent on behalf of the population of Croydon.

4218/01/001/DM43.4/O Mr & Ms Morgan & Mason

DM43.4
502

I object to the use of the following locations as gypsy/traveller sites: Coombe Farm off Oaks Road reference number 502 - As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development. The Council’s approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Putley Way where...
I am a Croydon resident and am writing to object to the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference number 661, policy number DM44; and Coombe Farm off Oaks Road, site reference number 502, policy number DM43. All three sites are in the Green Belt, with one bordering a site of Nature Conservation. The proposed use of each of these sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b and would not be consistent with Policy E of 'Planning Policy for Traveller Sites' published by the Government. If additional sites are required in the Borough it would more appropriate to expand existing sites e.g. the site off the Purley Way. In addition none of the sites has easy access to local school, healthcare, retail and other amenities; the vehicular access into sites 661 and 502 is problematic and egress onto Coombe Lane/Oaks Road at the road junction is likely to create additional road hazards.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Object: Soundness - Justified

DM43.4

02 September 2016

Coombe Farm Site (ref. no. 502)

This is also located in a Green Belt area. Under National Guidelines, Travellers/Gypsy sites in the Green Belt are inappropriate development. Even if properties are demolished to provide space for the pitches, there will be a significant overspill into the Green Belt. This means that planning permission should not be granted.

2. The site is situated on a single track lane with a very narrow access onto Oaks Road which the large mobile homes will not be able to access. The lane is also used by aggregate Lorries (shorter than mobile homes), local residents, members of the sports ground and opposing teams and visitors to Lloyds Park, a much loved and cherished public amenity.

3. The site offers no safe walking route to schools, shops, doctors, etc. There is no pavement along Oaks Lane and very poor lighting when dark. There is only partial pavement on one side of the road along Oaks Road as well. It will not be possible to safeguard so many additional people including a great number of children. This development is unsustainable as everyone will have to use cars to access the basics of life.

4. The size of the pitches would accommodate for a greater number of caravans than can be controlled by planning restrictions. Even if the restrictions are adhered to, there could be as many as three families on each pitch. With planning for 20 pitches this would mean 60 families and 60 mobile homes, not to mention additional caravans in tow, trucks, vans, trailers and cars.

5. According to National Guidelines, the site should not overwhelm the next nearest settlement. However the residents of Oaks Farm, Oaks Road and Oaks Lane, which are all in isolated positions, would certainly be overwhelmed. It will not be possible to attain social cohesion with the local residents. Residents are also gravely concerned about conflicts between Romany Travellers and Irish Travellers.

6. There is a long history of planning application refusals and avoidance of planning permission at Coombe Farm. The reasons for this should be re-visited.

7. Oaks Farm is the adjacent property to Coombe Farm. The presence of Travellers in the vicinity has an adverse effect on the businesses located in that area and will also
adversely affect the numerous suppliers and staff that are reliant on those businesses.

B. Shirley Park Golf Club is also affected by these proposals and have written separately on many different aspects of flaws in the Planning proposals, including misuse of MOL Policies. They have also added this regarding both sites:

The history of unauthorised "pitches" in this area over the past few years has left a bitter resentment, especially in view of the residual mess and threatening behaviour that has always accompanied their trespass. On each occasion that Gypsies/Travellers have been in the area, the club members here have been threatened with physical and verbal abuse. This behaviour is totally unacceptable and despite the subsequent eviction of the Travellers on each occasion, the residual psychological effect on tax payers and constituents' lives cannot be trivialised. We also have a large Junior Section and children play the course during holidays as well as weekends. They are often unaccompanied and the parents need to know they are in a safe environment. This would certainly not be the case in the parents' minds if there was any chance of aggressive behaviour, as previously experienced, towards these children. I am certain that the Council would not wish to be responsible for putting children in any sort of potentially dangerous situation. Surely these detailed real issues must be taken into account when determining any permanent site.

I understand that the proposed sites are not within the required distance to both schooling and medical needs, therefore I also object on this basis. The land is in private ownership at Coombe Farm. Any funds spent on "compulsory or otherwise" purchase clearly could be spent more wisely on behalf of the population of Croydon. No doubt Central Grants will be available, but Council owned land in an area that will not radically impact on established residents' lives would be a sensible and prudent choice.
Object  
DM43.4 502  

5. Proposed Policy DM43 Creation of Gypsy Traveller sites at Coombe Farm, off Oaks Road, Coombe Lodge Nurseries, off Conduit Lane and Pear Tree Farm and Pear Tree Cottage Featherbed Lane.

I object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and one borders a site of Nature Conservation Interest. Such development is in breach of Policy Eat Planning Policy for Traveller Sites, which says that ‘Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development”. All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites now, and 39 by 2036 is excessive and will have an adverse effect on the borough. If the number of Gypsy/Traveller sites really needs to be increased by this amount then a more appropriate location would be around the existing site at Purley Way. The positioning of a Gypsy/Traveller site adjacent to the car park for Coombe Woods, between the Chateau Restaurant and the Hotel/restaurant, would probably deter me from using any of these attractions.

For the reasons given above:
1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability of future generations to meet their own needs.
4. I recommend that consultation documents of such importance are given much wider publicity.

I have restricted my objections to those plans that primarily affect the area of Shirley I which I live, but the same objections apply to other proposals in other parts of the borough.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

DM43.4

502

Incorrect calculation in the selection criteria for 502 (Coombe Farm)

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
I wish to strongly object to Croydon Council's proposal to site a Gypsy / Traveller site at Coombe Farm. There are numerous reasons for my objection, including:

- The Coombe Farm site is in designated Green Belt and as a result should not be developed. The Government's Planning Policy for Traveller Sites (published August 2015) states:
  - “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”
- The site is close to Coombe Wood and Park which is enjoyed by many visitors each day, including the very young. It has a very good Cafe. These tranquil amenities will be spoilt by the influx of Traveller/Gypsy families who would have access to the Park and Woodland making it a no go area for other Families.
- The site is close to the other proposed Traveller/Gypsy site 661 in Conduit Lane. This will attract an exchange of visits of the occupants from both sites, regularly visiting one another, and also increasing Traveller/Gypsy visitors to the Park.
- Potential for extra litter / fly tipping both in Oaks Road and in the Park/Woodland in Conduit Lane.
- Travellers/Gypsy’s form the 2 sites would dominate the current Parking Bays adjacent to the Park entrance making it impossible for the general public to park
- All three of Croydon Council’s proposed Gypsy / Traveller sites are within a 3 mile radius of one another and in adjacent wards. This is unfair and inequitable for those living in the area.
- There is already a shortage of local school places
- Doctor surgeries — same as above
- How will Croydon Council control & monitor official number of travellers — could easily be overrun
- How will they police the area as there is already very little police presence in the area (and even less going forward).
- The traffic using Oaks Road would increase causing additional waiting time to enter into Coome Lane and to cross over the lights at the Tram track junction.

Change:
The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Mrs Rita Evans

Object

DM43.4

502

The proposals for two Gypsy and Traveller sites on Green Belt land at the periphery of Shirley is in direct contravention of the Government's Planning Policy for Traveller Sites which clearly states that such are ‘inappropriate development’ in the Green Belt. It has been stated that any such sites must be for true Travellers. Planning Resource highlights that the new Planning Policy document published in August 2015 redefines Traveller to exclude those who no longer travel permanently, thus avoiding the need for static homes which has greatly reduced the number of pitches that Councils are required to provide. Could this be a long-term strategy to de-designate Green Belt land, then when it is under-used, claim it for housing?

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now difficult it will no longer be considered for this use.

502 I am writing to object to the use of the following locations as gypsy and traveller sites at Coombe Lodge Nurseries off Conduit Lane, site reference 661 and Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b;

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Object DM43.4
502 I am a Croydon resident and am writing to object to the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference number 661, policy number DM44: and Coombe Farm off Oaks Road, site reference number 502, policy number DM43 Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane, site reference number 755, policy number DM32. All three sites are in the Green Belt, with one bordering a site of Nature Conservation. The proposed use of each of these sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b and would not be consistent with Policy E of 'Planning Policy for Traveller Sites' published by the Government. If additional sites are required in the Borough it would be more appropriate to expand existing sites eg the site off the Purley Way. In addition none of the sites has easy access to local school, healthcare, retail and other amenities; the vehicular access into sites 661 and 502 is problematic and egress onto Coombe Lane/Oaks Road at the road junction is likely to create additional road hazards.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Proposed Policy DM43 Creation of Gypsy Traveller sites at Coombe Farm, off Oaks Road, Coombe Lodge Nurseries, off Conduit Lane and Pear Tree Farm and Pear Tree Cottage Featherbed Lane.

We object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and one borders a site of Nature Conservation Interest. Such development is in breach of Policy Eat Planning Policy for Traveller Sites, which says that ‘Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development’. All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites now, and 39 by 2036 is excessive and will have an adverse effect on the borough. If the number of Gypsy/Traveller sites really needs to be increased by this amount then a more appropriate location would be around the existing site at Purley Way. The positioning of a Gypsy/Traveller site adjacent to the car park for Coombe Woods, between the Chateau Restaurant and the Hotel/restaurant, would probably deter me from using any of these attractions.

For the reasons given above:
1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability of future generations to meet their own needs.
4. I recommend that consultation documents of such importance are given much wider publicity.

I have restricted my objections to those plans that primarily affect the area of Shirley I which I live, but the same objections apply to other proposals in other parts of the borough.

Soundness - Justified

DM43.4

502

I wish to protest vehemently about your plans to destroy Shirley which is a village by building hundred of homes and setting up a Gypsy and Traveller site. You will destroy the Green Belt and increase the traffic in the area thus polluting the environment and the air we breathe.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
I am writing to object to the use of the following locations as gypsy/traveller sites:
• Coombe Farm off Oaks Road reference number 502; and
• Coombe Lodge Nurseries off Conduit Lane reference number 661;
These proposals will have a detrimental effect on the settled community and in no way do they take into consideration the 2008 DCLG Designing Gypsy and Traveller Sites: Good Practice Guide, point 3.8, which states: Consideration must be given to the relationship of sites to the surrounding community. The last time travellers settled in that area my nieces and nephews were confronted by gypsy kids and my sister's property was trespassed by the gypsies who stole her kids’ bikes and scooters. So I can volúch for the fact that having gypsies permanently in the area is not good consideration of the relationship of the site to the community already living there.
Furthermore, if the Council were not willing to develop the Green Belt land to build more beautiful homes in line with the properties already in the area, how is it possible that there is now a proposal to create gypsy and traveller sites in the area and burden the area and the community there with all that comes with travellers such as anti-social behaviour and loud noise and to top it off destroy the current property prices?
I am strongly opposed to this proposal and feel that the gypsy site in Purley Way should be extended to house the more space needed gypsies and travellers there.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
The proposed use of land to create gypsy/traveller sites (reference 502 and 661) is particularly unwelcome. Residents and the council have bitter experience of disruption and the waste left by travellers when they have visited Croydon. Any encouragement of this situation should be avoided, as it will encourage additional travellers to come to our town.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

I object to the proposed use of the following locations as gypsy/traveller sites; at Coombe Farm (off Oaks Road) ref Number 502 and at Coombe Lodge Nurseries (off Conduit Lane) ref Number 661. The areas proposed are completely unsuitable for the proposed purpose being adjacent to the Tram link, Lloyd Park, Golf Course, Recreational Woodland, Ornamental Park, School and Small Businesses. Both proposed the sites are in the Green Belt and one borders a Site of Nature Conservation interest. Government Policy E of Planning Policy for Traveller Sites states that "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development."

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

We have seen information suggesting that 3 Traveller sites maybe placed around the Forestdale and Shirley Areas, and also plans to Intensify the Housing of Forestdale! We believe the plans for Traveller sites are wholly unfair and building on land which is Green Belt is inappropriate development. Policy E of Planning for Traveller Sites, published by the Government in August indeed states this also. The building of such sites would also be hugely detrimental to house values, and totally unacceptable. We completely object to this so these plans need to be scrapped NOW!

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

I wish to object to the use of the following sites: The use of Coombe Farm for a gypsy/traveller site. Such sites become eyesores and would seriously affect Coombe Farm as a useful wedding centre and to some extent the gold course (Ref 502)

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Mrs L Woods

Object

DM43.4
502

In particular I have grave concerns about the choice of location for the proposed gypsy and traveller sites and also the building of 750 new homes at Shirley Oaks Village. The local schools are already struggling to cope with ever increasing numbers of children, and the journey from Shirley into Croydon can be extremely congested at peak times. The extra traffic generated by the proposals would cause misery in my opinion. The loss of green spaces in the proposed areas of development would also be most detrimental. I would therefore urge Croydon Council to consider and respect the very real concerns and fears of the majority of residents in the Shirley area.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Mrs Parveen Majeed

Object

DM43.4
502

I am writing to object to the use of the following locations as gypsy/traveller sites: Coombe Farm off Oaks Road reference number 502; and Coombe Lodge Nurseries off Conduit Lane reference number 661; I am so upset to hear of these proposals for my family living close by to Coombe Farm. My daughter who lives in Scotland was also living close to gypsies and every single day she had a different problem. They steal, they fight, they make so much noise and they throw their rubbish all over the place and they have rough dogs who bark at everyone. We stopped visiting her because it was too much trouble. This area you are choosing is so nice and quiet, so clean and pretty. Why would you chose to ruin it with traveller sites. This is a most stupid decision and also very thoughtless to the people who live in that area. They will have to build 6 feet high walls all around their homes. Is the council going to pay for the extra security needed? I cannot stress enough how much I am against this proposal.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
I am writing to object to the use of the following locations as gypsy/traveller sites:
• Coombe Farm off Oaks Road reference number 502; and
• Coombe Lodge Nurseries off Conduit Lane reference number 661;
I am strongly against these proposals for a number of reasons. Both the proposed sites are on Green Belt land and as such are inappropriate and harmful to the land. The area is pretty and supports plenty of wildlife which we love discovering with the grandchildren. The effect on the community already settled in that area, which includes my daughter and grandchildren, will be detrimental in many ways. I fear for their safety and security if this proposal were to be passed as the gypsies have tried to settle there before. My grandchildren were bullied and my daughter experienced vandalism to her property and theft from the garden. I cannot begin to imagine what it might be like if the travellers became permanent residents in the Coombe Farm and Coombe Lodge area. It would be disastrous. How can you think of placing a gypsy and traveller site in Conduit Lane, in the green belt, next to the award winning Coombe Wood Gardens? That place would be ruined within a very short space of time. If gypsies began frequenting the Coombe Wood it would mean that elderly people such as myself would no longer feel safe taking our grandchildren to the gardens and that would be a huge loss for us in so many ways. I urge you to re-think and place the gypsies and travellers in areas that would be better suited to them and would less infringe upon the lives of already settled and happy communities.

Change
The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
am writing to object to Reference Numbers 502 and 661—Location of Gypsy and Travellers sites in Coombe Lane and Coombe Lodge Nurseries. The reasons of my objections are as follows:

• They are being built in Green Belt areas.
• The sites are built on single track lanes but in your document you state "In addition Gypsy and Traveller sites need good access to the road network as they often need to move larger vehicles as part of their livelihood and way of life." Neither has good access especially for larger vehicles, if there are to be 39 pitches with at least 2 families on each pitch and an average of 3 vehicles per family that is 234 vehicles. I don’t think you could park that many vehicles in these sites let alone access on a one vehicle wide road.
• I really do not believe these pitches are within the required distance of schools, doctors, shops.
• I understand that Croydon wishes to increase Travellers sites fourfold yet I have seen no explanation why that number is used.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

We are objecting very strongly to a gypsy and traveller site in Conduit Lane and at Coombe Farm. Both sites are green belt and should not be used for any other purposes. You should listen to all the objections of all the people living around these sites. We can not understand why the council has to pick sites in South Croydon when other places would be much more suitable.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Oaks Farm as an alternative site situated between a public path and much loved public woodland is not much better than Coombe Lodge Nurseries as a site for Gypsy and Traveller pitches.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Object to the 1e Travellers site as it would be in be in a Green Belt and in breach of government guidance and there would be no services local to the area

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
8822/01/010/DM43.4/O Mrs M Davies

Object DM43.4

I object to the following:
- The use of the site at Coombe Farm for a gypsy traveller site (502)
- The use of the site at Coombe Lodge for a gypsy traveller site (661)

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

0115/04/008/DM43.4/O Mr Bob Sleeman

Object DM43.4

I am therefore writing to formally object to:
- the use of the following five sites for housing:- Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

0120/02/025/DM43.4/O Addiscombe Residents Association

Object DM43.4

If the Council will not keep them as Metropolitan Open Land, the five sites should at least be designated as Local Green Spaces and not used for housing.

The site should be Local Green Space.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
I am therefore writing to formally object to:

1. de-designation of the Metropolitan Open Land around Shirley Oaks Village;
2. the use of the following five sites for housing:
   • land at Poppy Lane reference number 128;
   • Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
   • land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
   • land to the west of Shirley Oaks Road reference number 542; and
   • land to the rear of 5-13 Honeysuckle Gardens reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?
Object DM43.4

De-designation of the Metropolitan Open Land bordering Addiscombe Place (around Shirley Oaks Village) – OBJECT

If the Council will not keep them as Metropolitan Open Land, the five sites should at least be designated as Local Green Spaces and not used for housing:
Ref 128: Land at Poppy Lane
Ref 594: Stroud Green Pumping Station, 140 Primrose Lane
Ref 541: Land east of Shirley Oaks Road and to the rear of Beech House and Ash House, Shirley Oaks Road
Ref 542: Land to west of Shirley Oaks Road, Shirley Oaks Road
Ref 548: Land to rear of 5-13 Honeysuckle Gardens

Designate as Local Green Spaces and not use for housing

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Object Soundness - Justified DM43.4

Whilst we welcome the approach to meeting these two Vision elements: A Sustainable City: A place that sets the pace amongst London boroughs on promoting environmental sustainability and where the natural environment forms the arteries and veins of the city
A Caring City: A place noted for its safety, openness and community spirit where all people are welcome to live and work and where individuals and communities feel empowered to deliver solutions for themselves

London Wildlife Trust is concerned at the assessment undertaken to identify potential new travellers’ sites (Assessment and Selection of sites for Gypsy and Travellers, Evidence for the Local Plan: Detailed Policies and Proposals (P&A Options), August 2015). It sets out criteria and scoring for the assessment of sites in Table 1.

For Green Belt/MOL:
- No built form -10
- Built form -5
- Not GB/MOL +10

There is no +5 score amber or green. Yet for the GB/MOL scoring of each site in Table 5, a score in amber of +5 is sometimes used. This is incorrect as it overscores sites by 10 points (i.e. +5 when it should be -5). Therefore the accumulated site For this site Green Belt/Metropolitan Open Land should be listed as a policy designation prohibiting further exploration of options. This means that for this site it should not have a positive score.

Change

The evidence base will be corrected, although this will not affect the preferred use of the site which was discounted on other grounds as being unsuitable for Gypsy and Traveller pitches.
Mr & Mrs K Davenport

DM43.4 504
I hereby inform you of my STRONG OBJECTION to allow development on the land noted on your Policy Map 43. Ref 541; Ref 542; Ref 548; Ref 128; Ref 504
This land forms the reason why I, along with the majority of my neighbors purchased our homes. As freehold property owners we each have a shareholding in the company owning the land and do not wish for this, OUR land to be built on. We also find it unbelievable that the Council wishes to have a legal battle against 800 of its residents who not just own the land but are determined that the land keeps its “Metropolitan Open Land” protected status. The idea of building on these main green spaces when the existing houses were built with minimal sized gardens is disastrous, such development would obviously not just spoil the look and value of the area but would damage the health of the residents. This is the land where the residents catch the summer sun, go for walks, jog, children play, and has the most amazing natural wildlife that we all enjoy.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Balvir & Shobhna Patel

I as resident of Shirley Oaks Village am against any change of our Metropolitan Land (with protection to being built on) being allowed as acceptable for development. I have been living in the Village for almost 30 years and paying for this land to be maintained as grass areas. We own the land as shareholder in our management company (Once designated as Amenity Open Land and transference to our Management company.)
I strongly oppose any moves to develop on these grass areas.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
I am writing to express my objection to the planning proposals in the Shirley Oaks area. The land has been set aside for our use as we have very undersized gardens on the estate and we have also paid to keep those areas in a well maintained condition. The road around Shirley Oaks only has 2 exits as well, so would make it very congested as there are only 2 options for traffic to leave and enter and there are already a lot of problems at the Wickham Road end as people drive in and out.

I object to the following Ref Numbers:
Ref 541, Ref 542, Ref 548, Ref 128, Ref 504

I would appreciate any information you could send me in relation to upcoming meeting's about the proposals.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. 1690/01/003/DM43.4/O Mrs Christine Clark

Object DM43.4 504

I am writing to strongly object to the development of land on Shirley Oakes Village. The land was shared between residents and in 1985 designated by Croydon Council as "Amenity Open Land" because of our undersized gardens. The land was transferred to the Management Company, with each property owner as a shareholder in that company. I intend to fight for the use of this land. My front garden is approximately 6’ x 4’, and the lawn in my back garden is only 6’ x 5’. Both my parents and I use the land for exercising dogs as the gardens are so small. This whole thing has come as a huge shock to all of us. With regard to the traveller site. Travellers move around the countryside so why put a traveller site in such a residential area? I appreciate the Borough needs affordable homes but the land on the estate is so restricted in size and the in and out roads to the estate are already extremely dangerous owing to the bends in the road. Health and Safety issues need to be addressed. I strongly object to this development and will explore every possible way to restrict the development of these homes.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

1691/01/002/DM43.4/O Daniela Reynolds

Object DM43.4 504

I wish to object the following planned proposals; ref:541, ref:542, ref:548, ref:128 and ref:504 These planned proposals will not fit within the current aesthetics of the estate so please accept this email as an objection to the proposal.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
Re your development plans 541, 542, 548, 128 and 504.
Consultation. I am writing in response to your notices for development of the greenfield sites on the Shirley Oaks Village estate, changing the status of this land to allow development of around 700 new homes. When I bought my house here 18 years ago, it was on the understanding that this had been designated by Croydon Council as metropolitan amenity open land, an attractive feature of the original development, important not least due to the relatively small gardens of some properties, a mixture of unit sizes in an harmonious design. Thus there is a mixture of family unit sizes and age groups at home here. For many years, I and my fellow-resident members of the Shirley Oaks Management Ltd company have contributed regularly to First Port Property Services and their predecessors under our common upkeep obligation, including provision of boundary posts at various points of these areas to ensure that visiting Travellers could not reoccupy them. As I understand your plans, you now wish to "designate" this as non-metropolitan land, on which purchasers could build however suits their purposes. This does of course risk a complete change in the nature of our Village. I cannot pretend to understand how you can effectively cut a swathe through all of this, even if you do consider it justified. Some residents might I imagine now be considering the impact on their original investment and individual legal aspects. Against these general considerations, I would like to highlight some specific and practical concerns at the outset.

ROAD SAFETY
The perimeter road via Primrose Lane and Shirley Oaks Road is arguably no longer fit for purpose, increased car ownership and parking, fast through traffic including commercial and public transport all contributing. Buses on the 367 route for example frequently mount pavements to pass each other. There have been accidents, some serious, even fatal and involving elderly pedestrian residents. The road surface is nowadays subject to excessive heavy usage. Clearly, 700 new homes will surely accentuate these problems and dangers.

ENVIRONMENT
Your plans will effectively remove an important greenfield area and with it much unique wildlife. Residents will...
lose many of the valuable areas for walking, exercise and fresh-air, as will visitors. Any balanced village appearance and community feel to the estate will be consumed by so many new properties of different designs.

In summary many will surely feel betrayed by a Council which proposes removing green-fields against all promises. Some might also suspect that, whatever the social arguments, their interests are being sacrificed against political and ultimately commercial imperatives.

Once the area surrounding Shirley Oaks Village is re-designated the Council plans to build 751 homes on 5 separate sites. Supposing the average house is for 4 people, 3000 people in total will move to the area. The housing will attract families - potentially half being children. The Council mention no where in their 700 page document about the building of new schools (primary and secondary) nor the building of doctor surgeries, nor the expanding of the local shopping area let alone the already stretched local road infra structure. Our local area can't cope as it is - St John's primary school has applied for an extension to cope with the current demand on its places. During rush hour buses frequently don't stop at bus stops because they are full. Traffic is often diverted down our road, Shirley Church Road, if there is an accident on Wickham Road or Gravel Hill. The dual carriage way (Shirley Park) is crawling along during rush hour. The council are planning to add another 1000 plus cars to this equation. Shirley is often described according to estate agents as leafy, popular, excellent schools. Prices reflect this. Just walking around the area people look after their houses and take pride in living here. People pay more money to live in this area. By building 751 more homes the character of the area will change completely.

</table>
I am writing to object to: 1. THE DESIGNATION of the following five pieces of land as Metropolitan Open Land around Shirley Oaks Village and their proposed use as housing: Stroud Green Pumping Station, 140 Primrose Lane reference number 504.

There is only one narrow very winding road which runs through the village and this could not cope safely with any additional traffic. It is single file around bends as it is and the local road infrastructure would be over-burdened.

These open spaces are collectively designated as Metropolitan Open Land and it would be unacceptable to lose a link to this chain. Additionally, this area is a flood plain and there is a sink pond to the rear of Honeysuckle Gardens. There would be a detrimental effect and potential flooding of existing and planned properties.

Stroud Green Pumping Station reference number 504 - this land is not only Metropolitan Open Land but it is owned by Thames Water and there is a listed building on the site currently used as offices by Thames Water.

In your consultation document ‘Assessment and Selection of sites for Gypsy and Travellers’ you have also referred to this land as suitable for a Gypsy site, page 15 reference number 504. In the column “use proposed for site or policy designation prohibiting further exploration of option” you have failed to mention that it is also considered a site suitable for 68 homes. Which is it? Is it suitable for homes or a Gypsy site? Surely it can’t be both? This is not only Metropolitan Open Land but has a listed building which Thames Water use as offices. It is also prone to flooding and in the Planning Policy for Traveller’s Sites published in August 2015 it clearly says in Policy B reference 13g: do not locate sites in areas at high risk of flooding, including functional floodplains, given the particular vulnerability of

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
I am writing to voice my full-throated objections to the above proposals because of the irreparable damage it would do to the character of one of the leafier, more pleasant, parts of the borough. The council seeks de-designation of Metropolitan open land that, as a homeowner in Shirley Oaks Village, I own a share of, and it is protected by covenant. Such thoughtless destruction of our precious little green space (we were granted this Amenity Open Land in 1985 by the council due to our undersized gardens) is obnoxious, ill-conceived and damaging to the value of our properties, as planning blight could linger for a decade. Myriad other neglected parts of the borough are far more appropriate for such massive development and would not stir up so much ire from the current residents, nor would they require the politically-expedient moving of goalposts regarding land use. Our village simply does not currently have the infrastructure nor the capacity to expand in order to cope with these proposals. There is barely enough parking space available in the village at present, so quite where up to 683 other families will park and seek recreation, I do not know. Quite how all the construction vehicles involved in such huge building works would access the proposed sites without further detriment to the quality of life of the residents is another issue I raise. We are served by one bus route that can only use small, single decker buses. The roads are too narrow for larger vehicles. How would this be overcome? Additionally, the fact that the council would seek to house the travelling community so close to the town centre, on land where in 2012 a group of them set up an illegal encampment and defecated in our woodland, beggars belief. If the council has an inexplicable legal obligation to designate land to travellers, then expand capacity at their existing sites in Beddington Lane and Featherbed Lane rather than dispersing them further across the borough into otherwise salubrious areas. I do hope that common sense prevails and that all five of the above proposals are quickly abandoned. I chose to live in this area precisely because it is not blighted by these hideous developments. I am sure that many other residents echo my sentiments.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
I object to the following specific proposals for the building of new homes on this site, as detailed in Changes to the Policies Map arising from Proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan, Detailed Policies & Proposals:

Policy DM43, reference Site 128 to build new homes at Poppy Lane
Policy DM43, reference Site 504 to build new homes at Stroud Green Pumping Station (including the conversion of the pumping station which is a locally-listed building)
Policy DM43, reference Site 541 & 542 to build new homes on land to the East & West of Shirley Oaks Road
Policy DM43, reference Site 548 to build new homes on land to the rear of Honeysuckle Gardens

Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the local schools are over-subscribed as well as the already-stretched social and healthcare facilities would be overloaded.

For the reasons given above:
1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability to meet the needs of future generations.
4. I recommend that consultation documents of such importance are given much wider publicity.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
This land is owned by Shirley Oaks Management Limited (SOML). This is the management company for the estate whose shareholders are the home owning residents. SOML owns and manages the open spaces on behalf of and for the benefit of the residents for whom the land is ‘amenity open land’, i.e. communal, recreational space. The land was transferred to SOML’s ownership in 1985 whilst the estate was under development. I believe that the developer had infringed planning regulations by reducing the sizes of the gardens included with the dwellings that it was building in order to increase the density of the housing beyond that which had been agreed with the local planning authority. The open land, which is currently being scrutinised as part of the Council’s policy proposals review, was effectively, a penalty levied on the developer whereby an amount of green space was given over to SOML to own and manage as redress and compensation to the residents for skimping on the sizes of individual gardens. I am assured by a Director of SOML that the company has documentary proof of all of the above points. The residents pay a service charge that, inter alia, covers the cost of managing and maintaining these open spaces. SOML is bound by its covenants with the residents that this land shall be managed and maintained as communal open areas for the collective enjoyment and benefit of residents as long as the estate should be in existence. Thus, there is no scope on SOML’s part for participating in any effort to develop these spaces and any attempt to develop them undermines the importance of those spaces in providing amenity open land, as previously ordered by the local Council.
I am writing to object to the use of the following five sites for housing:
- Land at poppy lane reference number 128
- Stroud green pumping station, 140 primrose lane reference number 504
- Land to the west of shirley oaks road and to the rear of beech house and ash house reference number 542
- Land to the rear of 5-13 Honeysuckle gardens reference number 548

If the council will not keep them as metropolitan open land these five site should at least be designated as local green spaces.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

I hereby would like to register my serious OBJECTION to the councils proposal to build 750 new homes in Shirley OAK road and 35 new homes on shrub lands estate to create gypsy traveller sites. As I live on Devonshire I also have serious object to allow 4 storeys in this area.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). Also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn’t cope with the additional traffic.

If the Council won’t keep it as MOL, it should at least designate it as Local Green Space so that it has some protection.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. DM43.4

504

I have just read a letter from Mick Hewish, Resident Director of Shirley Oaks Management Ltd and I would like to object to the proposals for developing areas around Shirley Oaks.

Those are as follows:

- Ref: 541 Shirley Oaks Road East side
- Ref: 542 Shirley Oaks Road West side
- Ref: 548 Land rear of Honeysuckle Gardens
- Ref: 129 Poppy Lane
- Ref: 504 Water Board HQ Primrose Lane

The high density of new homes would put considerable strain on the environment, including overcrowding, drainage, traffic and parking.

Objection to the allocation of Site 504, Land rear of Honeysuckle Gardens, for proposed development as the high density of new homes would put considerable strain on the environment, including overcrowding, drainage, traffic and parking.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

I strongly object to many of the proposed developments within the Shirley area. I believe that allowing low rise developments around Shirley library will alter the balance of properties in that area, which are mainly detached and semi-detached. People have moved to this 'sought after area' precisely because of its current character. I also object to the intensive developments proposed on the Metropolitan open land around Shirley Oaks. We need open land to reduce carbon emissions, for wildlife and for our own well being. Both of the above developments would put a huge strain on the services in the area, schools, doctors, buses and the already congested road system. I urge you not to progress with these proposals.

I also think that the two proposed travellers site in Shirley are inappropriate as they would be on Green Belt land, which is against your own policy and would be a blight on one of the few areas that are beautiful and wildlife friendly within Croydon.

I am always defending Croydon to those that mock it, saying that we have some lovely open spaces in which to walk and enjoy the diversity of nature. They only see the high rise blocks and litter. If these proposals go ahead, Croydon will have nothing left to commend itself.
1926/01/04/DM43.4/O Councillor Luke Clancy

Object Soundness - Justified

DM43.4

504

Site 504, Stroud Green Pumping Station, 140 Primrose Lane, is identified as suitable for 26 to 68 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Primrose Lane.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Object

DM43.4

504

Shocked at the scale of proposals for Shirley and will fundamentally change the nature of the area. Front gardens are an asset to the local street scene. The proposals for focussed intensification associated with gradual character of an areas local character under Policy DM31.4 put this stability at risk, and may have an impact on the services we all need from the Council. Object to the de-designation of MOL - at a minimum it should be designated as local green space. We object to this site being used for residential use as it would change the character of the area, overload the already difficult local road structure. It would damage the vital green corridor between Shirley Oaks and the surrounding areas and reduce the habitat for wildlife.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

The proposal to build new houses in Honeysuckle Gardens does not fall within the Strategic Objectives because:

Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise.

Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.

Objective 5: This development is not high quality and will not enhance the borough’s natural environment but will reduce the natural environment by turning a green area into housing.

Objective 7: This development will reduce the area as a safe, healthy and cohesive community and making the area overcrowded with residential property.

Objective 10: This development will reduce the quality and accessibility of green spaces and nature.

If this development is undertaken it will not deliver the strategic objective.

This development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generation will suffer because of this. This proposed development of new housing in Honeysuckle Gardens is not within keeping with the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in this area.

Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area.

Building a traveler’s site will increase noise levels and ruin the character of the area and this development would overwhelm this green area.

Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions.

This development would diminish the area of green fields and recreational land within the area.
Site 504, Stroud Green Pumping Station, 140 Primrose Lane, is identified as suitable for 26 to 68 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. I and many residents in Shirley object to the following. 700 new homes to be built in Shirley oaks village with no provision for extra facilities like schools, doctors etc; No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
2128/02/002/DM43.4/O Cllr Steve O'Connell AM Object DM43.4 504

I object to the de-designation of Metropolitan Open Land for the purpose of house building. My objection references MOL bearing the same protection from development as the Green Belt. If the Council will not agree to maintain the MOL status, designation as Local Green Space would lessen the negative impact on the local environment. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well-used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Primrose Lane.

The site should be at least designated as Local Green Space.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

2131/01/002/DM43.4/O Ronald H. Street

Object DM43.4 504

The planning permissions proposals below I object to ref 504. If the Council will not keep the land as MOL it should at least be designated as Local Green Space.

I am particularly concerned about the effect of local roads that the suggested development will have as, when Heron Homes built the original development some years ago they were prevented by the local council form building the number of houses now proposed because of inadequate access roads onto the estate. Under present conditions the A232 Wickham Road is particularly subject to traffic delays especially in term time. Your proposed developments would also have a detrimental effect on our already crowded local schools and doctor's surgeries.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

2135/02/001/DM43.4/O Mrs Susan Lockyer

Object DM43.4 504

It is unrealistic to develop this land with a functional listed building in situ. The 'local character area' (in the borough character appraisal) is described as industrial estates - what does this refer to? I do not consider it deliverable therefore it will not meet the present needs, let alone future needs. There is mention of a gypsy site here - by definition of 'travellers' this is not a sustainable use of land. The transient nature means that this would be a temporary use not a sustainable one. It would have a negative impact of every single existing property thereby compromising on the needs of the current as well as future generations. This does not in anyway tick the sustainability box. Transport issues will arise with sprawl as well social problems.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Object DM43.4

504

I am writing to object to:

The de-designation of the five pieces of land as metropolitan open land and their proposed use of housing land at poppy lane reference number 128. I feel that building more houses on the green land would totally destroy the wildlife in the area and would run an area of beauty, and that the one road into the village wouldn't be able to cope with more traffic as it's already busy.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances.

2147/01/002/DM43.4/O Patrick Thomas

Object DM43.4

504

I am writing at this time to record my objections on the following basis - the use of this site, 504, for housing

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should aim to reduce flood risk in the area overall.

2185/01/002/DM43.4/O Jonathan E Miller

Object DM43.4

504

I object to ref 504 - I am writing to you with regard to the recent changes in Planning policies by Croydon Council and their impact on the designation of grass areas in Shirley Oaks Village. These areas were formerly designated as Metropolitan Open Land and had protection form being built on. However my understanding is that these areas may now be changed to no Metropolitan Land thus allowing their use for future housing developments. As a resident of Shirley I would like to point out that our land was designated as 'Amenity Open Land' in 1985 by Croydon Council because of our undersized gardens and transferred to a Management Company, with each property owner as a shareholder of the Company. Whilst I fully accept the need for new housing in Croydon, in particular affordable housing for first time owners, it is clear the sheer scale of the proposed development and the resultant destruction of a precious greenfield site in Shirley Oaks Village that I object to. I would have no issue with a much smaller scale development of the village, as part of an overall plan for Croydon where new housing was primarily targeted toward development of brownfield sites under the council's jurisdiction. I urge you to consideration of my suggestions in the weeks ahead and look forward to receiving feedback in due course.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should aim to reduce flood risk in the area overall.
2195/01/003/DM43.4/O Mrs Jane Smith

Object to development on these sites as they are MOL and amenity land used by surrounding residents. This would be detrimental to the area as the existing houses on the Estate have undersized gardens and would be obtrusive and lead to increase in traffic and access problems and noise issues.

No change

2301/01/004/DM43.4/O Breda Mohan

I object to the use of the Stroud Green Pumping Station, 140 Primrose Lane reference number 504 for housing.

No change

2302/01/003/DM43.4/O Brenda Stratford

The use of the following 5 sites for housing; ref no. 128, 504, 541, 542, 548. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as local green spaces.

No change

2371/01/004/DM43.4/O Christopher Palmer

I object to the use of the Stroud Green Pumping Station, 140 Primrose Lane reference number 504 for housing.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces.

Developing these sites with the amount of homes suggested would increase the volume of traffic in an area which is already congested in morning and afternoon rush hours and would put increased pressures on local schools and public transport.

I am aware that more affordable houses are needed but please reconsider these plans which will totally change the area in which we have chosen to live and definitely not for the better.

No change
Mr & Mrs E Abdul-Nabi

Object Soundness - Justified DM43.4 504

Object to the use of this site for housing.

If the Council will not keep it as Metropolitan Open Land it should be at least designated as Local Green Space.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Andy Stranack
Croydon Council

Object Soundness - Justified DM43.4 504

Site 504, Stroud Green Pumping Station, 140 Primrose Lane, is identified as suitable for 26 to 68 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Primrose Lane.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Mr & Mrs Jeffrey

Object DM43.4 504

I thoroughly object to these proposals, the traffic has built up over time and I wouldn't even want to begin to imagine what Shirley Oakd would be like if another 600+ homes where to be built, that would be practically doubling the size of Shirley Oaks as it is at present.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Mr & Mrs Jeffrey

Object DM43.4 504

I will be objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). If the Council won't keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. I will also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
We strongly object to Croydon Council’s local planning proposals and plans for development to the site being used for residential development. We strongly object to the de-designation of the Metropolitan Open Land around Shirley Oaks Village. No more housing should be built on MO land and it is inappropriate for development since it would over-stretch the local road infrastructure with the additional traffic. The road in and out of Shirley Oaks Village is very narrow and there is hardly enough room for the bus to get by. The increased volume of traffic and parked vehicles would be unmanageable bringing traffic in all directions to a complete standstill. We believe the council needs to rethink its proposals for the sites, but would hope that in any event, an overwhelming majority of homeowners living in the village will reject the council’s proposals. Not only would the area be an eyesore, but the proposal to build a whopping 700 new homes is unrealistic as the open green spaces are very small. You would also be destroying the wildlife by cutting down our precious trees and removing the open green spaces. It was agreed, and we believe documented, that after the build of phase 5 on Shirley Oaks Village that no more houses would be built, and this was a deciding factor when individuals bought their properties on Shirley Oaks Village. If over 700 new homes are built, it would no longer be a village but instead an ugly built-up housing estate, changing the character of the landscape completely. From our perspective, if the proposals were approved, we would have no choice but to move away from the area. It would be too upsetting to see our open green spaces developed to excess with over 700 new homes. I have no doubt that developing the land would also devalue the property prices in the future. We find the council’s proposals ludicrous and unreasonable. It is imperative that we protect the precious remaining green spaces around Shirley Oaks Village. On that basis, we vigorously object to the council’s proposal to develop the land.

**Lydia Benady**

We strongly object to the changes to designations of our grass areas. As a resident and shareholder I point out that our land was designated by Croydon Council in 1985 as Amenity Open Land because of our under-sized gardens. This land is for our use. Not only would building be detrimental to our health and well-being but also to the varied and protected wildlife that we have. There are plenty of rundown places in Croydon which should be regenerated and can be built on without impinging into our green spaces.

**Mrs Sandra Cooper**

I object to the designation of Metropolitan Open Land around Shirley Oaks enabling parts of this land to be used for housing and in particular site 548, with which I have an adjoining boundary. Should the Council not keep this land as Metropolitan Open Land these spaces should at the least be designated as Local Green Space.

**Ms Susanne Million**

I object to the use of the site for housing. If the Council will not keep this site as MOL, it should at least be designated as Local Green Spaces.

DM43.4 504

Our Local Green Belt should remain as such and not dedesignated as Metropolitan Open Land which then could be used for new housing. Strongly object to this proposal. Plans for residential development:

Ref No. 128 - the land at Poppy Lane is identified as suitable for 51-107 homes.

Ref No. 504 - Stroud Green Pumping Station, 140 Primrose Lane including the conversion of the locally-listed pumping station, is identified as suitable for 26-68 homes.

Ref No. 541 - land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 26-68 homes.

Ref No. 542 - land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes.

Ref No. 548 - land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes.

Development on any of these sites would change the whole character of the area, and surely add to the congestion of local roads, which would increase the risk of accidents.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Ms Karen Fletcher

Object

DM43.4 504

We wish to register our objection to the proposals to change the policy map 43 in relation to Metropolitan Open Land at Shirley Oaks Village. Like many residents we purchased our home on the understanding that the MOL was owned by the residents themselves and would not be developed. It was a strong factor in our decision to purchase our house. The land itself was transferred to the management company by a transfer dating 30 July 1991 made between Heron Homes Limited and Shirley Oaks Management Limited. The third schedule to this transfer contains restrictive covenants and I have attached the relevant clauses. These clauses that the land is to be used as open space so I do not understand how you can ignore this and grant planning permission to build houses. We understand the need for more housing but feel that this is not the way forward. It would be far better to look at the buildings/land owned by the London Borough of Croydon first to see which could be used as residential properties. The old Ashburton Library in Ashburton Park is such a building that could be redeveloped and used for housing and I am sure there are many more.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances.

Please note that I wish to object to the proposals set out in reference numbers 504, 541, 542, 548 and 128, for the following reasons:

- There has been insufficient notice of the consultation period, and the proposals are not clearly set out as pertaining to Shirley Oaks Village.
- This land is designated as Metropolitan Open Land, and I do not agree that it does not meet the criteria, as it does contribute to the physical structure of London, and there currently are open-air facilities, which serve significant parts of London.
- Increasing the housing density in this development will have a detrimental effect on the overall environment, and will decrease the value of these homes, as the development contains smaller gardens than those originally planned, and the surrounding green spaces were left vacant to compensate for the lack of adequate open space.
- Any change in the restrictions will adversely affect the accessibility to nature and wildlife of the area, which contains features of metropolitan importance.
- There is inadequate infrastructure in the locality to accommodate such an increase in population.
- There has not been a true ‘fit for purpose’ investigation of the ‘brownfield sites’, which already exist in the borough, or of other open land which could be used without.

In view of the above please register my objection to all five proposals, and please acknowledge receipt of this email.

Please note that I wish to object to the proposals set out in reference numbers 504, 541, 542, 548 and 128, for the following reasons:

- There has been insufficient notice of the consultation period, and the proposals are not clearly set out as pertaining to Shirley Oaks Village.
- This land is designated as Metropolitan Open Land, and I do not agree that it does not meet the criteria, as it does contribute to the physical structure of London, and there currently are open-air facilities, which serve significant parts of London.
- Increasing the housing density in this development will have a detrimental effect on the overall environment, and will decrease the value of these homes, as the development contains smaller gardens than those originally planned, and the surrounding green spaces were left vacant to compensate for the lack of adequate open space.
- Any change in the restrictions will adversely affect the accessibility to nature and wildlife of the area, which contains features of metropolitan importance.
- There is inadequate infrastructure in the locality to accommodate such an increase in population.
- There has not been a true ‘fit for purpose’ investigation of the ‘brownfield sites’, which already exist in the borough, or of other open land which could be used without.

In view of the above please register my objection to all five proposals, and please acknowledge receipt of this email.

Please note that I wish to object to the proposals set out in reference numbers 504, 541, 542, 548 and 128, for the following reasons:

I am concerned about this proposal. When I bought my house in Angelica Gardens, Shirley Oaks Village, it was my understanding that I would also become a communal owner of the surrounding Amenity Open Land. This was guaranteed by each freeholder in Shirley Oaks owning a share of the Shirley Oaks Management Limited, which in turn owns and manages the Amenity Open Land.

Like many residents, I purchased my house partly due to the pleasant areas of green space available in my surroundings. I also think that the character of the current surrounding gives each property the value that it currently has.

I would also object to attempts by Croydon Council or other agencies to attempt to purchase the land from Shirley Oaks Management Limited in the future.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
I am emailing to outline my objections to the planning notices in relation to the above reference numbers which concern land near to Shirley Oaks Road, Honeysuckle Gardens, Poppy Lane and Primrose Lane.

I object to these proposed developments for the following reasons:

1. The move to unravel the protection of Metropolitan open land from significant housing developments is a disappointing and avoidable move by Croydon Council. This sets an unnecessary precedent. This land should be protected by its designation and the council has sufficient options elsewhere in the borough on land that has no such designation.

2. Much of the land concerned was designated by Croydon Council in 1985 as "Amenity Open Land" because of the under-sized gardens of many of the Shirley Oaks property. I live with a young family on Shirley Oaks with a very small garden and object to the loss of this open land which is regularly used by young families and residents of the area who do not have large gardens or any gardens at all in some instances.

3. Such proposals will unduly change the character and desirability of the local area which is defined by its open space. Shirley Oaks remains one of the few genuine peaceful residential areas within the borough and such thoughtless development will threaten this.

4. The roads leading to Shirley Oaks are roads not given to significant volumes of traffic. Increasing the density of the population within the immediate area as substantially as you are proposing creates challenges for traffic and parking. The scale of the developments will exponentially increase the volume of traffic and create challenges for parking.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
Sue Ridenton

Object

DM43.4 504

I would like to raise my objection to the proposed land changes for the Ref. 504 - Up to 68 new homes or GYPSY site at the water board HW, Primmrose lane

The land we are talking about above was designated by Croydon council in 1985 as Amenity Open Land, because of our under-sized gardens and transferred to the Management Company – with each property owner as a shareholder in that company.

No one in the village will want any more homes built, the open space keeps the village unique and a nice place to live

Any more homes will not enhance the village at all and of course will lower our house prices and a GYPSY site what on earth are the council thinking!!

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

DM43.4 504

I am writing to register my household’s objection to the proposed developments in Shirley. The projected number of homes will impact dramatically not only on the existing residents and the open feel of the site, but essentially on the transport infrastructure. Wickham Road is a major route, prone to congestion at peak hours and any significant increase in road users will have a dramatic knock on effect not for residents and also for commuters in all directions. The Trinity roundabout is a major junction with many bus routes passing through, this would grind to even more of a halt. The potential number of proposed properties is unacceptably high.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
Ian Broyd
Object DM43.4 504
If the Council will not keep them as Metropolitan Open Land, the five sites should at least be designated as Local Green Spaces and not used for housing.
The site should be Local Green Space.
No change
The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Miss P Jones
Object DM43.4 504
Having lived in Shirley for over 50 years I strongly object to Croydon Council plans to de-designate the Metropolitan open land so that most of this land will be used for new housing. At the moment it has the same Protection as Green Belt. Firstly, this would entail the loss of a vital green corridor between Shirley Oaks and the surrounding area, changing the character of the area, more importantly the road infrastractive couldn't cope with the additional traffic. Try getting out to the Wickham Road from Orchard Avenue in rush hour.
No change
The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. I am writing to you in my capacity as secretary of the Addiscombe Woodside and Shirley Leisure Gardens Ltd, with the full endorsement of the Executive Committee. AWSLF is an allotment society comprising in excess of 400 plots, adjacent to Stroud Green Pumping Station and bounded by Primrose Lane, Poppy Lane and Glenthorne Avenue.

I am writing to object to two issues detailed in the above document which are relevant to our land.

De-designation of the following piece of land as Metropolitan Open Land and its proposed use as housing:

- Stroud Green Pumping Station 140 Primrose Lane ref 504
- Stroud Green Pumping Station is not only Metropolitan Open Land but is owned by Thames Water. There is a listed building on the site currently used as offices by Thames Water.

- In your consultation document "Assessment and Selection of sites for Gypsy and Travellers" you have also referred to this land as suitable for a Gypsy site - page 15 ref 504. In the column "use proposed for site or policy designation prohibiting further exploration of option" you have failed to mention that it is also considered suitable for 68 homes.

It is also prone to flooding and in the planning policy for Traveller's sites published in August 2015 it clearly says in Policy B reference 13g.2 do not locate sites in areas at high risk of flooding, including functional floodplains, given the particular vulnerability of caravans.”
Mr & Mrs Kellas

I would say to the Council Croydon is full and kindly leave our precious Shirley open spaces and attractive streets alone, we don’t need an odd assortment of blocks of flats amongst the semi-detached and small detached properties here, or in similar Croydon suburbs - it would be an architectural disaster along the lines of the 1950s concrete jungle development of the centre of Croydon. And we don’t have the infrastructure to cope with more people, or the roads to cope with the traffic we already have. 
No change

Mr & Mrs Hunt

I am writing to object to:

- The use of the following five sites for housing:
  - Land at Poppy Lane reference number 128
  - Stroud Green Pumping Station, 140 Primrose Lane reference number 504
  - Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541
  - Land to the west of Shirley Oaks Road reference number 542
  - Land to the rear of 5-13 Honeysuckle Gardens reference number 548

- The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
We are writing to object to the use of the following five sites for housing:
- Land at Poppy Lane, reference number 128
- Stroud Green Pumping Station, 140 Primrose Lane, ref no. 504
- Lane to the East of Shirley Oaks Road and to the rear of Beech House and ash House reference number 541
- Land to the west of Shirley Oaks Road, ref number 542
- Land to the rear of 5-13 Honeyuckle Gardens, ref number 548.

If council will not keep them as metropolitan open land, these sites should at least be designated as green spaces.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

I object to the use of the Stroud Green Pumping Station, 140 Primrose Lane reference number 504 for housing.

Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Object this site as building on it would lead to a loss of greenspace between Shirley oaks and the surrounding area.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
I am writing regarding the Council's plans for a massive redevelopment in the Shirley Area. More houses mean more traffic on our already crowded roads. I no longer go into Croydon because of the journey times. How long would it be before the Council considered bringing in a congestion charge. When you build all these properties do you consider the local amenities and the effect that more people would have on these. Where are the school places for all of these children? Regarding doctors. Unless it is an emergency I have to wait at least a week for an appointment. This waiting time can only increase if there are more patients. Is it the Council's policy to build over green belt land to the detriment of locals? I sincerely hope not. I think you need to seriously reconsider these plans.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
These open spaces are collectively designated as Metropolitan Open Land. It would be disastrous to lose a link in this chain.

THE SHIRLEY GREEN CHAIN
The green open spaces of Shirley Oaks Village provide several links in the Shirley Green Chain. This chain starts at the South Norwood Country Park in the north and runs south through Ryland Fields, Long Lane Woods, Ashburton Playing Fields, the open spaces of Shirley Oaks Village, Trinity School playing fields, Shirley Park Golf Course and up to the Shirley Hills. From there the Green Chain continues through Heathfield, Bramley Bank Nature Reserve, Littleheath Woods and via Selsdon Park to Kings Wood at Hamsey Green. These open spaces are collectively designated as Metropolitan Open Land. It would be disastrous to lose a link in this chain.

Planning Policy Guidance Note 9
This guidance stresses the importance of nature conservation, not only on nationally important sites, but also suggests that many urban sites for nature conservation have enhanced local importance as a consequence of the relative lack of wildlife sites in built up areas. Statutory and nonstatutory sites which provide wildlife corridors, links or stepping stones from one habitat site to another, all help to form a network necessary to endure the maintenance of the current range and diversity of our flora and fauna.

The Green Spaces in Shirley Oaks Village were designated as Metropolitan Open Land and today still meet the criteria for this protection. The sites (1) contain conservation and habitat interest of value at a metropolitan level and (2) forms part of the Shirley Green Chain. These are two of the criteria for Metropolitan Open Land. The Green Spaces in Shirley Oaks Village were designated as Metropolitan Open Land and today still meet the criteria for this protection. The sites (1) contain conservation and habitat interest of value at a metropolitan level and (2) form part of the Shirley Green Chain. These are two of the criteria for Metropolitan Open Land.

These sites possibly have a section 52 agreement, and are part ownerships shared by each of the Shirley Oaks Village residents. Re-designation of MOL falls foul of

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
the London Plan.

Existing dwellings to be retained or demolished? If retained the Site Area should be adjusted to take account of the existing dwellings: The Lodge, Beech House & Ash House? On the East site And the Synagogue and the two house (can't read their names) on the West side.

Infrastructure not specified to support development.

Schools are oversubscribed; GP Surgeries oversubscribed

Road system could not cope with the increase in traffic during peak travel times

Area has high water table and is subject to flooding.

London Plan

POLICY 7.17 METROPOLITAN OPEN LAND

Strategic
A The Mayor strongly supports the current extent of Metropolitan Open Land (MOL), its extension in appropriate circumstances and its protection from development having an adverse impact on the openness of MOL.

Planning decisions
B The strongest protection should be given to London's Metropolitan Open Land and inappropriate development refused, except in very special circumstances, giving the same level of protection as in the Green Belt. Essential ancillary facilities for appropriate uses will only be acceptable where they maintain the openness of MOL.

LDF preparation
C Any alterations to the boundary of MOL should be undertaken by Boroughs through the LDF process, in consultation with the Mayor and adjoining authorities.

D To designate land as MOL boroughs need to establish that the land meets at least one of the following criteria:

a) it contributes to the physical structure of London by being clearly distinguishable from the built up area
b) it includes open air facilities, especially for leisure, recreation, sport, the arts and cultural activities, which serve either the whole or significant parts of London

c) it contains features or landscapes (historic, recreational, biodiversity) of either national or metropolitan valued if it forms part of a Green Chain or a link in the network of green infrastructure and meets one of the above criteria.
The London Plan 7.56

The policy guidance of paragraphs 79-92 of the NPPF on Green Belts applies equally to Metropolitan Open Land (MOL). MOL has an important role to play as part of London’s multifunctional green infrastructure and the Mayor is keen to see improvements in its overall quality and accessibility. Such improvements are likely to help human health, biodiversity and quality of life. Development that involves the loss of MOL in return for the creation of new open space elsewhere will not be considered appropriate. Appropriate development should be limited to small scale structures to support outdoor open space uses and minimise any adverse impact on the openness of MOL. Green chains are important to London’s open space network, recreation and biodiversity. They consist of footpaths and the open spaces that they link, which are accessible to the public. The open spaces and links within a Green Chain should be designated as MOL due to their London-wide importance.

2775/01/041/DM43.4/0 Cllr Tim Pollard
London Borough of Croydon

Object Soundness - Justified
Site 504, Stroud Green Pumping Station, 140 Primrose Lane, is identified as suitable for 26 to 68 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Primrose Lane.

The preferred approach is not the most appropriate for Croydon to help meet strategic objectives. No - the land is current Green Belt or Metropolitan Open Land or otherwise designated green land and should not be built on.

I disagree that it "does not contribute to the physical structure of London". Just because it has no facilities does not mean that it is not an asset to the life of London. Yes, it is deliverable but should not be delivered on that land. No, it is not sustainable because it removes the need for green space for future generations. The building is locally listed so its curtilage should be protected as if it was a Grade II Listed Building.

Site 504, Stroud Green Pumping Station, 140 Primrose Lane, is identified as suitable for 26 to 68 homes. <td></td>
<td>Residential development on either side of Shirley Oaks Road and around Shirley Oaks Village (reference numbers 128, 504, 541, 542, 548 on Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies &amp; Proposals) This is Metropolitan Open Land which is accorded the same level of statutory protection as the Green Belt. Changing this designation in order to allow building amounts to an abuse of the planning process. The area is liable to localised flooding, which anyway makes it unsuitable for residential housing. There appears to be no provision for additional infrastructure which would support the building of up to 750 new homes. In particular, local roads are already inadequate; morning traffic queues are already common in this area, especially towards the town centre. The proposals cannot but fundamentally alter the character of this part of Shirley, again, for the worse</td>

I object to the use of the following five sites for housing:
- Land at Poppy Lane reference number 128;
- Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
- Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
- Land to the west of Shirley Oaks Road reference number 542; and
- Land to the rear of 5-13 Honeysuckle Gardens reference number 548.
If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
I write concerning Croydon Council's proposals contained in the consultation document of the Croydon Local Plan that includes the re-designation of Metropolitan Open Land in Shirley and specifically within the confines of Shirley Oaks. I consider these proposals and others listed above to be inappropriate as they would significantly change the character of the area in which I have lived all 61 years of my life and I wish to add my voice to those already expressing concerns and objections about these proposals.

I strongly object to the proposal to re-designate Metropolitan Open Land to facilitate the building of new homes on land in Shirley Oaks and the provision of temporary or permanent traveller/gypsy sites in areas that are acknowledged by the Council to be in the green belt at Coombe Farm and Coombe Lodge Nurseries in Conduit Lane.

These proposals are totally out of keeping with the character of the area which predominantly comprise owner-occupied semi and detached homes. Surely areas considered to be brownfield sites are more appropriate than the unacceptable use of Metropolitan Open Land?

The proposals affecting the area surrounding Shirley Library are also of concern as this would adversely change the character of the area and potentially result in the establishment of additional unsightly car-parking sites on the south side of Wickham Road, similar to that at the front of the Shirley Medical Centre at 370 Wickham Road.
Mr Roohi F Khan

Object

This area is close to the exit from Primrose lane into Shirley Road, a heavily congested road. This exit is shared by the adjacent ambulance station and at present is marred by locals who park their cars to attend the Shirley Health clinic (proposed to be developed into a neighbourhood centre and therefore more parking) also by those who park daily to catch local transport to Croydon Centre and London and residents cars of the opposite social housing accommodation whose parking area is inadequate. This area also backs onto the Addiscombe and Shirley Woods leisure Garden Ltd which has an entrance onto Primrose Lane adjacent to this area. This proposal could make access to the Leisure Gardens difficult and could lead to increased criminal damage within the Gardens. Any residential building in this area will increase the congestion which is already evident at the exit into Shirley Road. The increase in parking and road usage would definitely be restrictive to the emergency exits of ambulances. It is noted that this area was accessed as a potential site for Travellers but not highlighted as a preferred site. ALL RESIDENTS STRONGLY OBJECT TO THIS

I pay a quarterly charge towards its upkeep. The traffic is already too much for the road through the village. Please do not allow our village to be destroyed.
The proposal to build new houses in Honeysuckle Gardens does not fall within the Strategic Objectives because:

Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise.

Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.

Objective 5: This development is not high quality and will not enhance the borough’s natural environment but will reduce the natural environment by turning a green area into housing.

Objective 7: This development will reduce the area as a safe, healthy and cohesive community but making the area overcrowded with residential property.

Objective 10: This development will reduce the quality and accessibility of green space and nature. This proposed development of new housing in Honeysuckle Gardens is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in the area. Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area.

Building a travelers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area.

Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions. This development would diminish the area of green fields and recreational land within the area.

This development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generation will suffer because of this.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
2974/01/004/DM43.4/O Jane Bowden Object Soundness - Justified

2) I understand that the Council are seeking to de-designate various pieces of land on either side of Shirley Oaks Road and around Shirley Oaks village, so that it is no longer Metropolitan Open Land, with a view to potentially building between 304 and 751 new homes. (Reference numbers 128, 504, 541, 542 & 548).

Open, green land is essential to maintain a pleasant living area, and to maintain the character of the area. In addition, this number of additional dwellings would seriously overwhelm the local infrastructure. In particular, the local road infrastructure could not cope with the additional traffic.

No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

---

3001/01/005/DM43.4/O Mr. John Helen Object Stroud Green Pumping Station, 140 Primrose Lane, including the conversion of the locally-listed pumping station, is identified as suitable for 26 to 68 homes (pages 451-452, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 504).

I will be objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). If the Council won’t keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. I will also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn’t cope with the additional traffic.

I am happy for the Council to replace under-used garages with much-needed homes, but I will be objecting to building on precious open space.

No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

---

3002/01/005/DM43.4/O Mr. John Hitchcock Object Our family has lived on Shirley Oaks Village approx 20 years ago and understood the village to be a Private estate and I am writing to object to the de-designation of the open land around the village and to the use of five sites for housing.

The land rightfully belongs to the residents, the area and roads will become congested and property values will decrease.

No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
Mr John Roberts

Object

DM43.4

504

I am writing to object to:
The use of the Stroud Green Pumping Station, 140 Primrose Lane, reference number 504, for housing:

If the Council will not keep these areas as Metropolitan Open Land, these 5 sites should at least be designated as Local Green Space.

My objections are based on the following:

i. The change in local designation and subsequent development would lead to a material reduction to an important green space and amenity within a basically urban area,

ii. The effect and congestion on the local infra-structure which would be caused by the building of more housing to an already densely developed site,

iii. The effect on existing property values of property to Shirley Oaks and surrounding areas caused by the reduced amenity and congestion.

I urge that the Council should take these and other objections in consideration and not continue with their plans to re-designate the areas described above.

Mr Joseph Rowe

Soundness - Justified

DM43.4

504

Land currently designated as Metropolitan Open Land at Poppy Lane, Stroud Green Pumping Station, to the east of Shirley Oaks Road, to the west of Shirley Oaks Road and to the rear of 5-13 Honeysuckle Gardens has been identified as suitable for up to 741 homes (pages 445-446, 451-452, 453-454, 455-456, 457-458 Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference numbers 128, 504, 541, 542 and 548).

I object to these proposals on the grounds that:

This land is designated as Metropolitan Open Land and there is no justification for re-designation. An increase of up to 741 homes on this land would put local services including schools, transport and already crowded roads under further pressure.
Once the area surrounding Shirley Oaks Village is re-designated the Council plans to build 751 homes on 5 separate sites. Supposing the average house is for 4 people, 3000 people in total will move to the area. The housing will attract families - potentially half being children. The Council mention no where in their 700 page document about the building of new schools (primary and secondary) nor the building of doctor surgeries, nor the expanding of the local shopping area let alone the already stretched local road infrastructure. Our local area can't cope as it is - St John's primary school has applied for an extension to cope with the current demand on its places. During rush hour buses frequently don't stop at bus stops because they are full. Traffic is often diverted down our road, Shirley Church Road, if there is an accident on Wickham Road or Gravel Hill. The dual carriageway (Shirley Park) is crawling along during rush hour. The council are planning to add another 1000 plus cars to this equation. Shirley is often described according to estate agents as leafy, popular, excellent schools. By building 751 more homes the character of the area will change completely.

No change
The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

3028/01/005/DM43.4/O Mr Nick Barnes

Object Soundness - Justified

Having read both local plans for the Shirley area, I strongly object to all aspects in both plans, this includes the 750 new homes on Shirley Oaks Village, 35 new homes in Shrublands, the two gypsy sites at Combe Fram and Conduit Nursery and the development for up the four storeys along Wickham Road.

None of these plans will benefit Shirley and I object to them all.

No change
The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

3029/01/003/DM43.4/O Mr Paul Newton
Addington Village Residents Assoc

Object Soundness - Justified

Objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). Also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic.

If the Council won't keep it as MOL, it should at least designate it as Local Green Space so that it has some protection.

Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
Sarah Minter

Object DM43.4

I strongly object to the proposed development plans for the Shirley Area. I have lived here all my life and have seen a steady influx of people, and a massive reduction in the green space in the area. The roads are already far too congested and the social infrastructure is already struggling to cope with the number of residents. There are many areas in the Croydon borough much more suited to such large scale development. I am thinking particularly of areas around Purley Way. There are also many brownfield sites in the borough that could be put to more effective use as housing without affecting the green areas. I guess the council prefers to redevelop the green areas rather than the brownfield areas due to cost. As I said I do not want my local area turned into a concrete jungle where there is nowhere for people to relax in the open.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances.

Mr Stuart Marsh

Object DM43.4

I object to the use of the site for housing.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
I am writing to object to all the proposed changes and plans affecting the Shirley neighbourhood as advised to me by Gavin Barwell and the Executive Committee of Spring Park Residents Association.

1) I object strongly to any plans to change the definition of existing land and use.

2) When dealing with the further extension of Shirley Oaks site I am disturbed by the fact there are just two access points i.e., Shirley Road and Wickham Road the latter being onto the A232 which is very busy all day and particularly during rush hour periods, when traffic backs up westwards to the Shirley Road roundabout and beyond.

3) The proposals for Shirley Oaks, given to me indicate land being suitable for between 304 and 751 additional homes. As many properties nowadays have at least one car this will have a serious additional congestion to Shirley and Wickham Roads.

4) Additionally, development of this size would have a serious demand on existing schools (primary particularly), doctors and other local services.
Object  DM43.4 504

I am writing to express my objection to the proposals of development to the Shirley oaks estate, on website www.croydon.gov.uk/policiesmap on "Changes to the policy Map 43" those being:-

Ref:541. Shirley oaks road East side, up to 215 new homes!!
Ref:542. Shirley oaks road west side, up to 236 new homes!!
Ref:548. Land rear of honeysuckle gardens, up to 125 new homes!!!
Ref:128. Poppy lane, up to 107 new homes!!!
Ref:504. Up to 68 new homes or gypsy site at the water board HQ, primrose lane!!!!!!!!

I brought my home on 5 Flag Close, Shirley Oaks, Surrey, CR0 8XT as it was on a green and pleasant estate and on the understanding this land was designated to us as because of our undersized gardens. We were told this land would never be built on and each of the properties on the estate are shareholders of this land as it was designated "amenity open land" by the Croydon council and transferred to our management company.

We are forming groups and seeking legal advice and looking into the legal implications and small print to your proposals and will not take this laying

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Object  DM43.4 504

I object to the use of the site for housing. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

No change

DM43.4
504
Object to the dedesignation of MOL around Shirley Oaks Village as it will change the character of the area if they are not MOL they should at least be Local Open Land. Building Houses on them would lead to the loss of a vital green corridor and set a precedent

No change
The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

I am writing to lodge my objection to some of the proposals contained in the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals. In particular:

1. Shirley Oaks
The proposal to re-designate the Metropolitan Open Land on Shirley Oaks Road and around Shirley Oaks Village so that it can be used for new housing (page 68, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Part Review and the Croydon Local Plan: Detailed Policies & Proposals). My main objections are:
This would result in the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area. The local road network could not cope with the additional traffic. Insufficient local infrastructure to cope with the increased population. Conclusion
The proposals I have highlighted can only be viewed as negative. If adopted, they will increase the local population - and the density of that population - without providing any supporting infrastructure. The new residents from the planned apartment blocks and traveller sites will need additional public services such as schools, medical services and shops. Older residents will give way to young families who require greater social support, yet no additional resources are identified to help manage the changing demographic. Traffic congestion along already busy roads will increase, as will pollution and accident black-spots. The few remaining green spaces will disappear. Overall, the proposals signal a reduction in the quality of life for both the existing residents and the newcomer
Carolyn Heath

Object

DM43.4

I am writing to object to:
1. The use of the following locations as gypsy and traveller sites:
   • Coombe Lodge Nurseries (site ref 661)
   • Coombe Farm off Oaks Road (site ref 502)
   • Poppy Lane (site ref 128)
   • Stroud Green Pumping Station (site ref 504)
   • Shirley Oaks Road/Beech House (site ref 541)
   • Shirley Oaks Road (site ref 542)
   • Honeysuckle Gardens (site ref 548)
   • Pear Tree Farm & Pear Tree Cottage (site ref 755)

All areas provide vital green space in already densely populated areas, and there is insufficient infrastructure to cope with the additional traffic/population. Some of these areas are in the Green Belt, others are in Metropolitan Open Land. They would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

DM43.4

I have read Gavin Barwell's assessment of policies and proposals in the Croydon Local Plan and totally agree that if implemented would destroy the character of Shirley.

The infrastructure in Shirley is already stretched to the limit and can not withstand any further burdens.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
I am also objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic.

I have major concerns over the planned development of the Shirley Area. This is currently one of the nicest areas of Croydon and you plan to swamp it with a number of housing developments and some travellers sites. This will be very detrimental to the whole area.

I understand that nationally we need to have more accommodation for families. We need to achieve this with ought destroying the whole fabric of our society. This scale of development will transform the whole area into a old fashioned “Estate”.

There are not sufficient services in the wider area to support such an influx of families.

The road infrastructure already struggles at time and these developments will make the whole situation much worse.

I have major concerns over the planned development of the Shirley Area. This is currently one of the nicest areas of Croydon and you plan to swamp it with a number of housing developments and some travellers sites. This will be very detrimental to the whole area.

| 3204/01/003/DM43.4/O  | Mr Steve Hopkins | Object | DM43.4 504 | As a resident of Shirley Oaks from Day one, I totally oppose any new buildings to be approved or built on my private estate. | No change | The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall. |

| 3208/01/003/DM43.4/O  | Mr Stephen Smith | Object | DM43.4 504 | 1. I am writing to object to re-designation of the Metropolitan Open Land around Shirley Oaks Village and the intention to build on open sites at Poppy Lane (ref 128), Primrose Lane (ref 504), Shirley Oaks Road (refs 541 + 542) and Honeysuckle Gardens (ref 548). | No change | The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall. |
I am therefore writing to formally object to:

1. The de-designation of the Metropolitan Open Land around Shirley Oaks Village;

2. The use of the following five sites for housing:
   - land at Poppy Lane reference number 128;
   - Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
   - land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
   - land to the west of Shirley Oaks Road reference number 542; and
   - land to the rear of 5-13 Honeysuckle Gardens reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

---

We bought our property at the original building phase in Shirley Oaks many years ago and were informed that there would be no further development in this area and that all grassed areas were to remain undeveloped and were for the use of residents and local people at leisure, further to this we have paid yearly a maintenance cost to ensure these areas were up kept for this use. This is the main reason we invested in this property. The grassed areas are in constant use and development of these areas would change the natural village atmosphere that exists here and is one of the few areas of Croydon that there is an abundance of wildlife close to an urban area. The proposed development and designation of our grass areas is unacceptable and would infringe our rights as in our original contracts with Heron homes who built the site.

No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances.

If the council will not keep them as Metropolitan Open Land, these five sites should be at least designated as Local Green Spaces.
Mr Matthew Carey

Object

The area of Shirley Oaks Village and its adjacent road infrastructure is already at breaking point. Any slight build up of traffic seriously hinders movement for residents. The 2 main arterial routes into Croydon or towards Bromley (being wickham road & lower addiscombe road) are extremely busy with traffic and often lead to extended journey times for those of us who wish to head in to one of these town centres or further afield in to London for work. As proven only yesterday when a traffic accident in the Shirley area led to a 3 hour journey home from bromley back to Shirley. The road network around here is poor. The interlink between Shirley Oaks village and its surrounding area is poor. To add hundreds of houses within this area will only lead to increased volume of traffic on the surrounding roads and leave Shirley itself in an almost permanent state of gridlock. Shirley Oaks Road is always busy with vehicles parked up. This is due to a number of reasons;
The excessive traffic on wickham road leading to people abandoning their vehicles to try and walk nearer to Croydon to catch a tram or bus. The unreliable 367 bus route which is often hindered by traffic or accidents outside of Shirley Oaks Village leading to people driving closer to other bus routes. The use of the local synagogue. Combine these issues above with the additional housing being proposed and the vehicles that come with them, Shirley Oaks will become even cut off than it already is. There are many elderly residents in this area that rely on carers (friends etc) being able to visit them. They often complain about the issues I have raised above and I can only see this getting worse should the proposals for Shirley go ahead.

Croydon is a massive borough so there must be other areas that these proposals could be met.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances.

Mr Terrence McCarthy

Object

I object to the use of the site for housing. If the Council will not it as Metropolitan Open Land, it should at least be designated as Local Green Spaces. Building housing on it would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas and change the character of this area.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
I object to the use of the site for housing. No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
To help you identify my specific objections, the five proposals mentioned so far and to which I wish to object as being detrimental to the character of the area are:

- the land at Poppy Lane is identified as suitable for 51 to 107 homes (pages 445-446, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 128);
- Stroud Green Pumping Station, 140 Primrose Lane, including the conversion of the locally-listed pumping station, is identified as suitable for 26 to 68 homes (pages 451-452, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 504);
- land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 80 to 215 homes (pages 453-454, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 541);
- land to the west of Shirley Oaks Road is identified as suitable for 88 to 236 homes (pages 455-456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542); and
- land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59 to 125 homes (pages 457-458, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 548).

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. I object to the site for use for housing.
No change

Mr John Mullis
Object  DM43.4 504
In response to your notices for the development of the greenfield sites on Shirley Oaks Village and the intention to change the status of this land, I make the following observations:
In 1985 Croydon Council designated land within Shirley Oaks Village as "Amenity Open Land" because our gardens were small due to the layout and construction of the area by Heron Homes. This amenity land is owned collectively by the property owners who own 1 share each. The shares are held by the current trust company - First Port, who also maintain this estate. Is compulsory purchase envisaged? If a total of some 700 homes the village would need vast changes to its infrastructure to accommodate these properties. The present main road - Primrose Lane/Shirley Oaks Road is barely able to cope now - with just a single-decker bus allied to a growing number of cars. There is a regular flooding problem during heavy downpours - particularly from Primrose Lane into Laburnum Gardens. The loss of a wildlife conservation area is surely against wider interests including many present owners.
No change

I strongly object to these plans as a resident of hazel close I am a shareholder of Shirley oaks management and feel strongly that the land be left as it is as we have very small gardens and pay for these open land areas to be kept and maintained for our use and enjoyment. Also these plans especially the ref 504 will devalue my property immensely and will downgrade the area dramatically.

To whom this may concern

I strongly object to these plans as a resident of hazel close I am a shareholder of Shirley Oaks management and feel strongly that the land be left as it is as we have very small gardens and pay for these open land areas to be kept and maintained for our use and enjoyment. Also these plans especially the ref 504 will devalue my property immensely and will downgrade the area dramatically.
One of the requirements of the Pitt review of 2007 was for the Environment Agency to provide some warning for surface water flooding, as was already the practise for river and coastal flooding. The result was the LIDAR returns which are provided on the Environment Agency’s website under what’s in my backyard. This shows clearly how the lie of the land amongst the Shirley Oaks Estate causes surface water to run from South to North joining another stream which runs in from the SW from Shirley road into Primrose Lane. On numerous occasions over recent wet winters we have had a constant stream of water running across the kerb into Primrose Lane which has on occasion caused substantial amounts of ice to form. No doubt your winter maintenance department could confirm this is an area where they have to regularly do spot treatments of rock salt- since they do Primrose lane as it is a bus route, when other parts of the network are totally dry and do not require treatment.

From the Pitt Review of 2007 -
RECOMMENDATION 7: There should be a presumption against building in high flood risk areas, in accordance with PPS2S, including giving consideration to all sources of flood risk, and ensuring that developers make a full contribution to the costs both of building and maintaining any necessary defences. Section 5.14 of the report reiterates that PPS2S applies to all sources of flood risk. This states that an SFRA (surface flooding risk assessment) should assess surface water flood risk and identify critical drainage areas. Good information is therefore needed from sewerage undertakers and other sources, including local knowledge, historic flooding and risk modelling. Local authorities should ensure that SFRAs carried out on their behalf adequately address this type of flooding. I find it difficult to believe this has been done as otherwise there would have never been a suggestion of using the remaining green parts of the estate in this way.

Any increase in the built up area around the estate would thus exacerbate the already on occasion saturated surface. Having investigated in detail the benefits in the reduction of flooding by the provision of trees, I have found that Oak trees can use up to 50 gallons a day and some trees on a hot day will utilise 150-200 gallons (wiki-answers.com). Trees admittedly are most effective when we are in the
growing season at excess water removal, but that is also when we tend to have the most extreme rainfall events. Having looked at 'Heavy falls in a day' and 'Heavy falls in short Periods' both produced in part for British Rainfall by the Met Office (my employer), I have found that invariably the most extreme rainfall happens in SE England between June and September. This is just when a tree is in full leaf so not only intercepts falling rain by the size of its canopy, but also as it is growing, that rain which reaches the soil is quickly extracted for use in the tree’s transpiration. Preliminary research results from the University of Manchester indicate that trees can reduce runoff by as much as 80% compared to asphalt. Thus the best way to alleviate summer extreme rainfall surface water flooding is not to remove trees.

The soil on which Shirley Oaks is located is of a clay type and is therefore impervious; another reason why it reacts to surface water flooding the way it does. The large area of grassland is ideal for ‘making room for water’ as a water storage area; thus to remove this pooling facility will mean the rain will have to find somewhere else to go, which would inevitably mean flooding for Shirley Oaks residents. Also I have learned, from Meteorological Office memorandum No 80—the properties of soils in NW Europe, that the root system of grassland provides a channel through which some rainfall does manage to slowly percolate through beneath the surface even with clay soils. However, without the grassland root system the water just tends to form bodies of water lying on the surface. This effect of our grassland is very helpful in alleviating the surface water flooding in winter, which occurs when prolonged rainfall totally saturates the area, and the trees are no longer as effective at its removal.

So in conclusion
- We need trees to mitigate effects of extreme rainfall in summer, something which will become increasingly frequent with global warming
- We need open grassland for water to accumulate in winter when trees are less effective at water removal from the system, whilst in addition their root systems help to aid percolation beneath the soil reducing surface flooding. Over the last 40 years winter rainfall has been increasing throughout the UK
- Soil behaviours also dictate risk of flooding. We have issues because:
1) We are on a clay soil type so low permeability and heavy rain does not soak in but floods.
2) We are on sloping ground with tendency for run off to flow south to north across the site.
3) We, also because of having a clay soil, have a high water table, so in winter many areas of the site are wet and all parts stay damp throughout. Thus water-logging very quickly occurs and there would with the proposed building work be less and less places for the water to flow to.

Mr. Stuart Day

I am writing to you to object to the council's planned proposals.

Ref: 541
Ref: 542
Ref: 548
Ref: 128
Ref: 504

I moved to the area with the understanding that the grass areas had protection from being built upon and I strongly object to the council proposing the new developments as referenced above. This will make the area I live in with my family crowded and I bought my property with the understanding that the grass areas would not be built on.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
First, the Council plans to de-designate the Metropolitan Open Land on either side of Shirley Oaks Road and all around Shirley Oaks Village (page 68, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals). Metropolitan Open Land has the same protection from development as the Green Belt. The Council is proposing to remove this designation so that most of this land can be used for new housing. The draft Local Plan identifies five sites:

- the land at Poppy Lane is identified as suitable for 51 to 107 homes (pages 445-446, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 128);
- Stroud Green Pumping Station, 140 Primrose Lane, including the conversion of the locally-listed pumping station, is identified as suitable for 26 to 68 homes (pages 451-452, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 504);
- land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 80-215 homes (pages 453-454, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 541);
- land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455-456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542; and
- land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes (pages 457-458, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 548).

I will be objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). If
the Council won't keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. I will also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic.

3381/01/005/DM43.4/O Mr Daniel James

Object

I am writing to object to the Council's proposition to allow the development at the following sites: Ref: 541, 542, 548, 128 and 504 in Shirley Oaks Village. I have only lived on Shirley Oaks for 5 years, but one of the things I love the most is walking my children over to the grass areas so they can play. As you probably already know, our gardens are quite small so it's really nice to have space to take full advantage of. Another thing that disappoints me, is that one of the selling points of our house, is the fact that all the land around the estate is protected from building on. I strongly disagree with any of your plans to build upon this land, and along with other Shirley Oaks residents will do my best to get our voices heard.

3386/01/002/DM43.4/O Ms Aditya Doshi

Object

I believe that building of 68 new homes or a gypsy site on Primrose lane would be to the significant detriment of the local community and so should not be an avenue that is explored. The land on which this is being built had been designated by the Council in 1985 as 'Amenity open land' because of our under-sized gardens and to take that away would be unacceptable.

DM43.4

504

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

<td>As a resident of Shirley Oaks Village, I wish to register my objection to the above proposals to allow the development of new homes on the designated Amenity Open Land which is available for my use and that of my fellow residents. This use was allowed by Croydon Council because of the undersized gardens which is a negative feature of the current development and which hinders enjoyment and comfort of my property. For example, it is not possible for children to play with footballs/other toys (play noisily without disturbing the adjoining and physically very close neighbours). You are no doubt aware that there are no nearby children's parks. Also my garden can easily be overlooked by at least 4 sets of neighbours and which I believe is typical of the other gardens on the development. Having the Amenity Open Land available is some compensation for the above lack of privacy and if it was to be withdrawn it would have a detrimental impact on No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. DM43.4

504

I would like to object to the following Metropolitan open land proposals - Poppy Lane - Ref 128 - Stroud Green Pumping Station - Ref 504 - Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House - Ref 541 - Land to the east of Shirley Road ref 542 - Land to the rear of 5-13 Honeysuckle Gardens ref 548. The Metropolitan land provide several links in the Shirley Garden Chain.

Under the Planning Policy Guidance Note 9 the importance of nature conservation is stressed. This combined with the extra traffic seems unacceptable.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Mr Donald Speakman

Object

Soundness

DM43.4

504

Site 504, Stroud Green Pumping Station, 140 Primrose Lane, is identified as suitable for 26 to 68 homes. This land should not be desiganted as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space.

This would total change the character of the area and have a great impact on the local road infrastructure impacting Primrose Lane.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
We wish to object in the strongest terms to the plans being discussed regarding the proposed development of land for new housing in the Shirley area, specifically the building of Gypsy/Traveller sites on our doorstep, and the inherent increase in crime and anti-social behaviour that always follows, and can be seen in many examples nationally. Not only this, but the whole ‘Village’ feel of the area will be completely obliterated, and the very things that attracted us to move to Shirley (off Orchard Ave) will be no more. Of course people need a place to live and raise families, but time and again we have seen the resultant decline of neighbourhoods, with rubbish, noise and theft frequent occurrences. We urge you to think again and take heed of Gavin Barwell’s very real concerns, and those of what I’m sure are many of his constituents, and other Shirley dwellers. We are particularly concerned that you should take into account the fears of ordinary hard working people like us, who want to enjoy life (we’re not ‘oldies’) in a pleasant community, and think again about the following proposals:

Stroud Green Pumping Station, 140 Primrose Lane, including the conversion of the locally-listed pumping station, is identified as suitable for 26 to 68 homes (pages 451-452, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 504).

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
We object to the use of the following locations in Green Belt areas as travellers/gypsy sites: Coombe Farm off Oaks Road (15-20 pitches); Coombe Lodge Nurseries off Conduit Lane (15-20 pitches); Pear Tree Farm on Featherbed Lane (15-20 pitches). National guidelines clearly state 'Travellers Sites (temporary or permanent) in the Green Belt are inappropriate development'. The Council’s proposals, therefore, clearly breach such guidelines. Also, we question the Council’s assertion that it needs to quadruple the number of travellers/gypsy sites in the Borough. Apart from this major objection, the above sites identified for such use would have poor access via narrow roads/lanes for large vehicles; consequent impact upon local traffic congestion with movements of large vehicles; no safe paved walking routes to schools, shops, doctors, etc.; additional requirement for services and facilities for hygienic occupation; increased pressure on local schools, medical facilities, waste disposal, etc.; impact upon local facilities and amenities of current residents.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Objecting to the use of Stroud Green Pumping Station, 140 Primrose Lane for use as housing. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances.

Objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). Also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn’t cope with the additional traffic.

If the Council won’t keep it as MOL, it should at least designate it as Local Green Space so that it has some protection.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
Mrs E Thomas Object

I wish to log my objection to the borough-wide planned changes Croydon Council are proposing to make in their Local Plans for 2016-2036. These proposals are 750 new homes in Shirley Oaks and 35 new homes on the Shrublands Estate. Also the proposed work to the two large gypsy/travellers site in Combe Farm and the Combe Nursery of Coombe Road.

No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Mr & Mrs Proctor Object

We are writing to object most strongly to the Croydon Council's Local Plan for housing on Green Belt land, with particular reference to Shirley. Our Green Belt should be protected at all costs and brown field sites must be targeted. In this respect, we support our MP Gavin Barwell’s objections, which you will doubtless have received.

No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Mr F Kurum Object

I am writing to object to the use of the following five sites for housing: - land at poppy lane (128) - Stroud Green pumping station, 140 Primrose Lane (504) - land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House (541) - Land to the west of Shirley Oaks road (542) - Land to the rear of 5-13 Honey suckle Gardens (548)

No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Mr & Mrs Hobbs Object

I am writing to you to object to the use of the following sites for housing development. • The land at Poppy Lane. Ref. No. 128 • Strudwick Green Pumping Station. Ref. No.504 • Land to the east of Shirley Oaks Road and rear of Beech and Ash House. Ref no. 541 • Land to the west of Shirley Oaks Road. Ref no. 542 • Land to rear of part of Honey Suckle Gardens. Ref no. 548

No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
| 3473/01/006/DM43.4/O | Mr Dave Brown | Object | DM43.4 504 | I object to the these proposals to build on the land ref 504. If the land should be left as it is | No change | The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. DM43.4

504

The proposal to build new houses in Honeysuckle Gardens does not fall within the Strategic Objectives because:

Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise.

Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.

Objective 5: This development is not high quality and will not enhance the borough’s natural environment but will reduce the natural environment by turning a green area into housing.

Objective 7: This development will reduce the area as a safe, healthy and cohesive community but making the area overcrowded with residential property.

Objective 10: This development will reduce the quality and accessibility of green space and nature. This development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generation will suffer because of this. This proposed development of new housing in Honeysuckle Gardens is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in the area. Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area. Building a travellers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area. Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions. This development would diminish the area of green fields and recreational land within the area.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Mr Gary Smithers  
Object  
DM43.4 504  
The planning permissions proposals below I object to ref 504  
I have friends who live in Shirley oaks village and I know them and myself along with many others all object to the proposals to build on the green areas. This grass area is used by many and would totally change the area if built on and we don't want it. Part of the charm of this area is those green areas and it has something that you don't find often in Croydon so please let us keep the green areas as we all object to them being built on.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Mr Gary Kenney  
Object  
DM43.4 504  
I am writing to show that I object to a number of your plans around the Shirley area. I contest that you need to build on our green sites and bring in new ‘traveler’ sites into Shirley.

On top of this I cannot understand the need to bring ‘medium’ high rise buildings in and around Shirley, including Devonshire way and the new proposals around Hartland way.

Please can you let me know if my objection has been noted and how I can make it more official?

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Mr John Albert  
Object  
Soundness - Justified  
DM43.4 504  
As a long term resident and shareholder residing in Shirlry Oaks Village, I and my partner object to the proposals to Changes to the Policy Map 43 - REF’S 541, 542, 548, 128 & 504. These areas have metropolitan open land and had protection from being built on!

Our land was designated by Croydon Council in 1985, as Amenity Open Land because of our under sized gardens and transferred to the management company whom we our shareholders of this land is for our use and want it to stay this way! Having lived here for 20 years we do not want it further condensed by more homes and totally not fit for purpose!

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Katrina Neal  
Object  
DM43.4 504  
As a long term resident of Shirley/West Wickham and one who has seen many changes over the years, I am strongly objecting to Stroud Green Station - ref 504 for housing use. If these are not kept as MOL then at least keep them as Local Green Spaces.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances.
Jenny Hayden

Object DM43.4 504

The proposals for Shirley will have a huge impact on the area, the current infrastructure is already at bursting point and the building of new homes on green spaces will add further stress to the current situation.

Ref nos. 128, 504, 541, 542, 548... these relate to the building of additional homes. From the information available in the Council's documentation, this could be up to 800 new homes. I would like to know what sort of homes these are likely to be... social, housing associations or private... I doubt that any of them would be affordable homes for first time buyers. How will the local roads cope with the extra traffic. There will be a need for more schools, doctors' surgeries etc to support the intended increase to the local population. I would therefore like to object to the Council's decision to use these five sites for future residential development. Apart from putting extra burden on the local roads, it would also mean losing valuable green spaces. I believe any new residential development should be on brownfield sites. The addition of so many extra homes would have an adverse affect on the character of Shirley, in my opinion.

Rhodri Flower

Object Soundness - Justified DM43.4 504

I write with reference to your document 'Changes to the Policies Map (Policy DM43)', and in specific reference to sites 541, 542, 548, 128 and 504. These sites are all open space surrounding the development known as Shirley Oaks Village.

I wish to object to the proposals to reclassify the land and make it eligible for planning permission and the building of homes. In my opinion it is essential to preserve the open space for the use of local residents. It is well used for recreation, dog walking etc. It is also an important part of the character of Shirley Oaks Village and would change the nature of that development.

I bought a house on Primrose Lane in June 2015 and a large factor in my decision to buy was the amount of open space available locally. I understand that Croydon Council designated this land as 'Amenity Open Land' in 1985 because of under-sized gardens in Shirley Oaks Village and transferred it to the Shirley Oaks Management Company, which has maintained it ever since. As a house owner I am a shareholder in that company.

I strongly object to your proposals.
I refer to the proposed changes to the planning policies to allow Croydon Council to build new homes on the Amenity Open Land at the above. The Amenity Open Land was granted in part, due to the extremely small rear gardens. Also I and other people in the village for many years here contributed to its upkeep at no cost to Croydon Council. To lose this land will greatly impact on the peaceful enjoyment that I and my neighbours have in using this land as well as the general impact on the area of high density building, changing the character of our village forever.

No doubt this development will result in many trees and flowers being sacrificed which help to sustain the urban wildlife such as various birds, bats, foxes, badgers and bees etc.

There seems to be little consideration for this urban oasis!

Whilst I understand central government's drive for more houses, I find it hard to believe that Croydon Council needs this land in order to fulfill its housing quota, given the Westfield and other developments proposed in Croydon. There are also other lands, such as those owned by the local NHS hospital that would be suitable for development and at the same time give ready money to the NHS.

Furthermore, the existing main roads are already inadequate to service the village without adding a further 751 homes along with the years of road works that will be associated with upgrading the utilities, make traveling through the village more difficult and dangerous.

I urge you to reconsider your plans.

No change
Mr Mark Hawkins

Kindly note that as a homeowner (and shareholder) of Shirley Oaks Village, resident here for over 25 years, I am deeply concerned that Croydon Council seems to think it has the right to change the nature of the estate from being protected Metropolitan land to being unprotected land ripe for excessive building. Not only is the green space around the current estate, a much loved feature, it also provides a sanctuary for wildlife and allows for nice walks for local people. The road was built to be narrow and already there are problems with passing places for traffic to the hospital and synagogue. Last year the council allowed a resident to build a fence which obstructs drivers vision when turning out of Cornflower Lane and has caused several minor incidents. Simply put, the roads here were not built for traffic! The idea of ruining my neighbourhood by cramming more housing onto unsuitable roads, lacking shops and facilities whilst depriving me of the green spaces I love and part own makes me sick to my stomach. There are so many brownfield sites that could be built on and provide more suitable housing in and around Croydon that I feel that this attack on Shirley is politically motivated. I formally ask the council to re-consider the proposals.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Mr I Fuell

I am writing to object to:
3. The use of the following 5 sites for housing:
• Land at Poppy Lane: reference number 128;
• Stroud Green Pumping Station, 140 Primrose Lane: reference number 504;
• Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House; reference number 541;
• Land to the west of Shirley Oaks Road; reference number 542; and
• Land to the rear of 5 – 13 Honeysuckle Gardens; reference number 548.

If the Council will not keep them as Metropolitan Open Land, these 5 sites should at least be designated as local green spaces.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
I would like to raise my objection to the proposed land changes for the following references: Ref. 504 - Up to 68 new homes or GYPSY site at the water board HW, Primrose lane. The land was designated by Croydon council in 1985 as "Amenity Open Land", because of our under-sized gardens and transferred to the Management Company - with each property owner as a shareholder in that company. As for looking at a Gypsy site, you should have seen what a mess they made when they camped illegally at Shirley Oaks just over a year ago - it was disgusting!

DM43.4 504

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). Also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic.

If the Council won't keep it as MOL, it should at least designate it as Local Green Space so that it has some protection.

DM43.4 504

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

The de-designation of the Metropolitan Open Land around Shirley Oaks Village in particular such as the use of the following for housing:-
- land at Poppy Lane Stroud Green Pumping Station, 140 Primrose Lane
- land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House
- land to the west of Shirley Oaks Road and to the rear of 5-13 Honeysuckle Gardens
Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. There is a lot of history around here and the loss of the Shirley Lodge in the late 1990s was a big mistake. Generally in Croydon there is no room for more traffic that new building will generate and judging from what I have seen around Croydon squeezed housing units with small garages not fit to store cars and little or no off street parking will only add to stress and problems in the future.

DM43.4 504

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
Mr Peter Newsham
Object
I wish to register my objection in the strongest possible terms to the proposal for new housing, (ref. 504), in these areas of Metropolitan Open Land, which is essential for recreational purposes in an already overcrowded place, is unacceptable and the proposed re-designation of the land so that it can be used for high-density urban development will find no local support, but instead, a huge and vocal opposition.

No change
The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances.

Mr Nick Barnes
Object
Having read both local plans for the Shirley area, I strongly object to all aspects in both plans, this includes the 750 new homes on Shirley Oaks Village, 35 new homes in Shrublands, the two gypsy sites at Combe Fram and Conduit Nursery and the development for up the four storeys along Wickham Raod.

None of these plans will benefit Shirley and I object to them all.

No change
The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Mrs Margaret Hawkins
Object
Ref. 504 – Land at Stroud Green Pumping Station Development of this site as housing would be problematic and expensive. Is there any evidence that it will ever not be needed by Thames Water? It has also been referred to in your document “Assessment and Selection of Sites for Gipsies and Traveller” as suitable for a traveller site (page 15, ref 504). Use of it as a traveller site would be wholly inappropriate and inconsistent with preserving the locally listed status of the building. The site has a high water table, and the danger to life when caravans are flooded is well documented.

No change
The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Cllr J Cummings
Object
Site 504, Stroud Green Pumping Station, 140 Primrose Lane, is identified as suitable for 26 to 68 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would totally change the character of the area and have a great impact on the local road infrastructure impacting Primrose Lane.

No change
The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
Ms J Fasham

DM43.4 504

I object to the Councils proposal to de-designate the Metropolitan Open Land of Shirley Oaks Road and Shirley Oaks Village as the local infrastructure could not cope. No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances.

Ms J Stokes

Object

DM43.4 504

I object to the proposals to completely change Shirley Oaks Road which is a green lung for that part of the Borough. The amount of car ownership will rise significantly as the bus service is infrequent. The traffic will clog up the Wickham Road even more than now. St. John’s school has already plans for more classrooms and the intake will rise in all the local schools. Also pulling down established houses and putting up more flats is detrimental to the character of the area. We had a once in a lifetime chance to improve the look of Croydon, on a human scale. Instead of which we are building hideous tower blocks, while in other parts of the country they are pulling them down. Nobody should have to raise a family in a block 44 storeys high. They will eventually become the slums of the future. No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Jenny Tighe

Object

DM43.4 504

Development of these sites will have a negative impact on the local area by changing the character of Shirley, and well as being a loss of green space, wildlife habitat and a vital green corridor. No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Mrs J Middleton

Object

DM43.4 504

I object to the site for use for housing. No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
Miss Amanda Smithers Object DM43.4 504 The planning permissions proposals below I object to ref 504 -My partner is a resident of Betony close Shirley oaks village and we definitely do not want the surrounding areas to be built on. No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Ms Jennifer Addis Object DM43.4 504 I strongly object to the development proposals by the council for the above areas on Shirley Oaks Village. All the gardens on our houses are tiny so this green land which was designated as 'Amenity Open Land' was supposed to be for the use of the residents. There are enough houses on this area already! This will have a huge detrimental effect on all the residents in the area. No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances.

Mr Tim Duce Object Soundness - Justified DM43.4 504 I strongly object to any plan to build on Metropolitan Open Land. There are plenty of brown field sites available in Croydon and the MOL should be re-designated as Local Green Space. No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Mr J Patel Object DM43.4 504 I am writing to record my objection to various planning as follows. Your Ref No: 128,504,541,542,548 and 938. I don't think it will be good for the area. No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances.

Diane Simpson Object Soundness - Justified DM43.4 504 Objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). Also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic. If the Council won't keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
| Mr K George | DM34.4 504 | I am also concerned that you consider there is space for up to 751 houses in the Shirley Oaks Road area. References 128. 504 541 542 548. This would lead to the elimination of green space in that area and therefore I think at least 3 of these areas should be Local Green Spaces if not Metropolitan open land. |
| No change | The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall. |
RE: LAND ON EITHER SIDE OF SHIRLEY OAKS ROAD, SHIRLEY OAKS VILLAGE, POPPY LANE, STROUD GREEN PUMPING STATION, COOMBE FARM, COOMBE LODGE NURSERIES off Conduit Lane, land west of Shirley Oaks Road, rear of 5-13 Honeysuckle Gardens OBJECTION TO DE-DESIGNATION GREEN BELT; SHIRLEY, NEW ADDINGTON, FOREST HILL

We have lived in the Borough of Croydon for 30 years and value its vibrancy and diversity.

As Croydon ratepayers we object to the de-designation of Metropolitan Open Land generally, especially land detailed above, which will change forever Croydon’s character.

We would ask you to encourage policies/development to:

1. Build new housing on brown field sites by all means AND preserve invaluable green space for the benefit of the community of Croydon; 2. Protect green belt land and preserve the green corridors we desperately vital for wildlife and biodiversity; 3. Amend the tall buildings policy and keep the tall building zone where it is suited in the centre of town; 4. Utilise brownfield sites for new low-level housing only where it can be developed alongside new GP surgeries, schools and improved public transport; 5. Traveller sites are not appropriate in the green belt and is a clear breach Policy E of Planning Policy for Traveller Sites. When travellers camped on Addington Playing Fields in 2012/13 they left rubbish, debris, waste, and deterioration to a local green space.

"Nowadays people know the price of everything and the value of nothing", Green Belt is vital and precious. Once lost for future generations and will not be replaced by developers.

We understand the need for housing, schools, hospitals and infrastructure. Are the Developers investing these also alongside their building investments?

Please protect our few remaining green spaces on the borough map, by making better use of brown field sites.
We are objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). If the Council will not keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. We are also objecting to any of these five sites being used for residential development.

Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure could not cope with the additional traffic.
I am writing this email to voice my deep concern about the planned development in the private estate that I have lived in for many years, namely:

- Ref 541, Ref 542, Ref 548, Ref 128 and Ref 504 – all on Shirley Oaks Village private estate.

Firstly, it would have been nice to be informed about any planning ideas in writing rather than see small notices pinned to lamp post around the estate. I would also like to draw your attention that our land was designated by Croydon Council in 1985 as ‘Amenity Open Land’ for the residents and for which we pay a quarterly fee for maintenance of the green open land, but more importantly can I bring to your notice that this land was transferred to the Shirley Oaks Management Company, with each property owner as a shareholder in that company. This land is for our use and not for developing a concrete jungle on every single green inch of land in Croydon.

The Shirley Oaks estate has a great community spirit and has become a real sought after location for families to live due to the community nature and the lovely open land that we have, by developing on this land you will be taking away all of the good that has been built up over the years by the many residents we have as well as making the village overcrowded, bringing in more traffic thus resulting in more danger on the main Primrose Lane for people crossing and driving, congestion for parking and so on. I can also bring to your attention that we have already had a couple of fatalities on that main road that runs through the village and this will make it worse for the safety of our kids.

I am sure you have now had many hundreds of emails from residents like myself voicing the same concerns with your planning proposals!

This land belongs to us as residents so I feel it’s harsh to take this away and start your own developments.

DM43.4

504

I write to you with my objections to the proposed Croydon Local Plan, specifically on the points below:

• the land at Poppy Lane is identified as suitable for 51 to 107 homes (pages 445-446, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 128);

• Stroud Green Pumping Station, 140 Primrose Lane, including the conversion of the locally-listed pumping station, is identified as suitable for 26 to 68 homes (pages 451-452, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 504);

• land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 80-215 homes (pages 453-454, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 541);

• land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455-456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542); and

• land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes (pages 457-458, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 548).

I object to the decision to designate this land as Metropolitan Open Land (MOL). If the Council won't keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. I also object to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

I write to you having received this email from Gavin Barwell MP, the tone of which I find inflammatory and discriminatory towards the Gypsy and Traveller communities, and smacks of “not in my backyard”.

I write as a resident of Addiscombe who recognises the huge problem of lack of affordable housing to buy and to rent in London promulgated by this Conservative government and the previous coalition government.

I fully support Croydon Council’s proposals.

---

I object to site 504

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

---

I am resident at 35 Primrose Lane, Shirley Oaks Village, along with 4 other members of my family.

I am writing to express my objection/disagreement to the following:

1. de-designation of the Metropolitan Open Land around Shirley Oaks Village

2. The use of the following five sites for housing:
   - Land at Poppy Lane ref 128
   - Stroud Green Pumping Station, ref 504
   - Land to east of Shirley Oaks Road and to the rear of Beach House and Ash House, ref 541
   - Land to the west of Shirley Oaks Road, ref 542
   - Land to the rear of 5-13 Honeysuckle Gardens, ref 548

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Mr M Foster

Object

DM43.4
504

I wish to lodge an objection to all five sites where the decision to de-designate this land as Metropolitan Open space land and to build housing open them, not only would we be losing vital open space and change the very character of the area, I believe the local road infrastructure would not cope with any more traffic, why must the council continual to try and run areas that people like.

At the moment this area as a rural feel to it, nice green spaces and a open aspect which we would loose if these plans were to go ahead.

I would ask the council to think very hard before implementing these plans before we have another area that people want to move out of instead of to, these plans will not improve the area quite the reverse, where at the moment people like to live here.
Miss Rebecca Thomas

I email to express my formal concern and objection to the proposal to build additional housing in the green areas of Shirley Oaks Village. I currently reside in Beckenham, 1 Hamilton House, Orchard Way, BR33ER, on the Shirley boarder, and was previously a resident of Shirley for 30 years. The addition of these houses will not only bring down the areas reputation, spoil views from current properties, but also cause additional congestion to an already busy area. We should be looking to preserve our green areas, and Shirley Oaks Village should remain just that, a village! I believe that the Wickham Road has already been flagged as one of the busiest roads in the area, with a fatal road accident occurring both this year and last. Additional housing/congestion will only add to this danger. This proposal will cause residents of the local area to be driven from their homes unfairly, I am sure that they did not purchase properties to be overlooked and to lose the view of the land that they have been paying to maintain for, in most cases, a number of years. I am contactable on my home address/phone should wish me to validate my views further.

Ms M Torres Ward

I am writing to express my objection to the planning proposals in the Shirley Oaks area. The land has been set aside for our use as we have very undersized gardens on the estate and we have also paid to keep those areas in a well maintained condition. The road around Shirley Oaks only has 2 exits as well, so would make it very congested as there are only 2 options for traffic to leave and enter and there are already a lot of problems at the Wickham Road end as people drive in and out.

Mr Nicholas Barnes

Having read both local plans for the Shirley area, I strongly object to all aspects in both plans, this includes the 755 new homes on Shirley Oaks Village, 35 new homes in Shrublands, the two gypsy sites at Combe Fram and Conduit Nursery and the development for up the four storeys along Wickham Road.

None of these plans will benefit Shirley and I object to them all.
Mr M Lockeyear

I wish to register my objection to these proposals for the following reasons: I purchased my property on the understanding that all the open grassed land surrounding the village was designated by Croydon Council in 1985 as "Amenity Open Land" because of our under-sized gardens and transferred to the Management Company, with each property owner as a shareholder in that company.

Edwina Morris

I object to the use of the Stroud Green Pumping Station, 140 Primrose Lane, reference number 504 for housing.

Mrs Barbara Cumming

I object to the planned site being used for residential development in Shirley, Croydon. Stroud Green Pumping Station, 140 Primrose Lane, including the conversion of the locally listed pumping station, is identified as suitable for 26 to 68 homes. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure will not be able to cope with the additional traffic. Whilst I agree that we desperately need new housing, it should be built on brownfield sites - not our remaining precious green spaces!

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
Ms M Bailey

Object DM43.4 504

The Metropolitan Open Land on either side of Shirley Oaks and all around Shirley Oaks Village should not be de-designated, but designated as Local Green space. It is very important that Croydon needs green spaces as these give the feeling of openness and a pleasant environment in which to live. Upwards of approximately 700 hundred odd homes could be built in this area which will lead to possible flooding of areas as rain water will not be able to drain away as easily as it would if it was left as a green belt area. Secondly the local road infrastructure would not be able to cope with the additional traffic stemming from these additional homes, and this includes public transport. Thirdly are the NHS facilities in the area able to cope with this large influx?

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances.

Jan Payne

Object DM43.4 504

I object to the use of the site for housing.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
Every year we get proposals and consultations for building more homes or structures on Shirley Oaks green land. But must admit the above proposal is the worst and the most ridiculous so far. From what we read, the proposal suggests to build around 750 new homes on what’s left of green patches in the village.

The village is already over crowded with Shirley Oaks road and Primrose road looking like a huge PARKING LOT throughout the day. One cannot begin to imagine what it would like with more residents and obviously with at least double the number of cars to that of the number of the new homes proposed.

We bought our property back in 1989, paying above market value at the time, for the sole purpose that the village is quiet and has some green land. Our home was one of the last phases of any buildings to be erected in the village, or so we were promised and confirmed in writing. Since then, a synagogue was built, bus 367 goes through the narrow winding road, every year for the last few years we get proposals to use our green land for one suggestion or another and now this proposal.

We completely oppose this proposal and hope that the council will appreciate that it’s not all about the money and just building more houses, but quality of life matters just the same. On one hand the government and councils encourage and push people to plant more trees, grow their veg, recycle etc... Yet on the other hand come up with proposals to use every last green patch to build more structures and homes. Doesn’t make any sense.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
Ms E Rudduck Object

I object to the use of the Stroud Green Pumping Station, 140 Primrose Lane reference number 504 for housing. I am aware that more affordable houses are needed but please reconsider these plans which will totally change the area in which we have chosen to live and definitely not for the better.

Mr & Mrs Frederick Banjo Object

As property owners/Residents and shareholders in the company that manages Shirley Oaks Village, we are writing to state our objection to the above mentioned proposal. The land/s in question is designated as 'Amenity open Land' for the use of the property owners and residents of Shirley Oaks Village and must not be built upon. The proposal to build on these lands will simply destroy the peace & tranquillity of the village. The enjoyment of the open land by residents will be lost not to mentioned the increased traffic situation amongst other things. We strongly object to these proposals to build upon these lands.

Mr & Mrs Ishaq Object

I would like to object to the use of Stroud Green Pumping Station, 140 Primrose Lane reference number 504 for new homes or Gypsy site.

The land does not meet the criteria for designation as Metropolitan Open Land. It has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

I am a resident of Shirley and strongly object to the current proposals to build on green belt land on the Shirley Oaks and surrounding areas. There are plenty of brown sites that are unoccupied and could fulfil the purpose of providing new homes. Shirley is already tight for school places. St John's, in Spring Park Road, is increasing to 2 form entry already with the number of children living locally requiring education. The 367 bus serving the Shirley Oaks Village is infrequent and much more transport will be required. Parking is already a nightmare and with the lack of parking contemplated with the new build supply the problem will only get worse. There will be an incredible build up of traffic on the already congested Wickham Road and other local roads. I believe this proposed building of traveller's sites and homes will change the whole ethos of Shirley and cause resentment and the lowering of living standards. This is a particular area of standard housing and should not be changed by the building of blocks of houses. Garden land should not be built on and this is an inappropriate development and should not be allowed to go ahead. Metropolitan Open Land has the same protection as the Green Belt and the rules should be followed accordingly.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Having lived on Shirley Oaks for almost 30 years, I strongly feel that any changes to the current planning policies would have serious and negative consequences for the current residents. Not only would properties lose significant value, the estate would also lose its 'village-like' feel that lead us to move there in the first place. We were also told at the time of purchase that Shirley Oaks would always remain as metropolitan open land, and this also heavily influenced our purchase. To add to this, there is also the issue of increased traffic through the estate. There was a fatal accident only a couple of years ago by the bend of Poppy Lane and I feel that with the prospect of even more houses being added to the estate there will be a significantly higher risk of further accidents.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
I object on the grounds of appalling overcrowding, your plan would bring at least 2000 more vehicles onto the estate. It is already nearly impossible to get in and out of the estate by car at rush hours. The roads on the estate can barely cope as it is with the bus route. The extra vehicles would include many commercial vans which would be parked over night and weekends causing havoc on the narrow roads of the estate. A single bus route as at present running every 20mins causes problems how do you intend to increase public services more bus routes and more frequent timetables...more chaos! I along with others pay to maintain and the open space as a share holder. Your proposal would seriously devalue our properties and I for one will be seeking serious compensation for this, I trust Croydon has very big capital reserves to meet our legal challenges and compensation. Our gardens are small this is why the land has been designated open land so we have some open space in common with the surrounding houses. Your plans are ill conceived and will effectively destroy Croydon further. There are large areas of open land in Addington which Croydon could use and I presume already own without spending our money attempting to purchase land which will be extremely costly to Croydon in terms of the compensation that you will need to pay out and in the legal fees entailed.

I object to the decision to de-designate this land as metropolitan open land for the use of residential development for the following reasons. These areas are also being used every day and regularly by myself, family members, neighbours friends and many visitors wanting to take there dog for a walk or spending time with family and kids. Ref 548, 542, 541, and 128 are owned by Shirley oaks management. 488 residents are shareholders in this company. There was a decision in 1985 for this land to be open for use by the local residents because the gardens of all homes were considered small. I would also like to mention the increase in road traffic and pollution due to the development. So for those reasons I would once again like to object to building on this land.
Ms S Ikpa

Object

DM43.4 504

The use of the following five sites for housing: land at Poppy Lane site reference number 128, Stroud Green Pumping Station, 140 Primrose Lane site reference number 504, land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House site reference number 541, and to the west of Shirley Oaks Road site reference number 542; and land to the rear of S-13 Honeysuckle Gardens site reference number 548. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas and change the character of this area.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

No change
The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Object

Object to the decision to de-designate this land as Metropolitan Open Land (MOL). Also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks Road and the surrounding areas, changing the character of the area, the local road infrastructure couldn’t cope with the additional traffic.

Object Soundness - Justified

Objecting to the planning permission proposals below: I object to ref 504. We don’t want building on the green areas in Shirley oaks people live there because they have choose a quiet place with green areas good for their mental and physical well being: this is a place for others to enjoy as well as residents there is no where else the same as this in Croydon.

Object

Mrs S Smithers  
Object DM43.4 504  
The planning permissions proposals below I object to ref 504  
Shirley Oaks Village is lovely I go walking round the green areas there and this is such a lovely area. We do not want houses built here and to loose our land that we really like to use.

No change

Mr s Hiku Abdo  
Object DM43.4 504  
Ref 541, 542, 548, 128 and 504 in Shirley Oaks Village  
I was shocked to learn about the changes proposed to our grass areas. These changes, if implemented, will change the very nature of our village. It will not only deprive the residents of very essential open green areas, but it will make the whole place very crowded, much more polluted and quite uglier. This would rob us of essential attractions that made us come to this village in the first place.  
I strongly object to any of these changes and trust that every resident on this estate feels the way I feel. I did not speak to everyone, but the many I spoke with feel as strongly as I do towards this unfair proposal.  
I have been living in this village with my family since 1985, I would like to see the Croydon Council improve it rather than ruin it. I hope the Council will reconsider its plans.

No change
I am grateful to the Council for consulting on the detailed policies and proposals that will make up the Croydon Local Plan. There is much in the document that I agree with, but some of the proposals would, in my opinion, change the character of parts of Croydon very much for the worse. I hope you will forgive me if I focus on these areas of contention. I am therefore writing to formally object to:

1. de-designation of the Metropolitan Open Land around Shirley Oaks Village;

2. the use of the following five sites for housing:
   - land at Poppy Lane reference number 128;
   - Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
   - land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
   - land to the west of Shirley Oaks Road reference number 542; and
   - land to the rear of 5-13 Honeysuckle Gardens reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

3. the use of the following locations as gypsy/traveller sites:
   - Coombe Farm off Oaks Road reference number 502;
   - Coombe Lodge Nurseries off Conduit Lane reference number 681; and
   - Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane reference number 796.

As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
"Traveller sites (temporary or permanent) in the Green Belt are inappropriate development".

The Council's approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is);

4. Focussed intensification associated with gradual change of an area's local character under Policy DM31.4 of the Shirley Road Shopping Parade, Shirley local centre and Forestdale. Shirley Road Shopping Parade is surely worthy of protecting rather than replacing with medium-rise blocks? Shirley local centre is defined not just as a stretch of the Wickham Road (where some intensification may be appropriate) but Ridgemount Avenue, Wickham Avenue, Peregine Gardens, West Way Gardens, the northern section of Hartland Way and the western parts of Bennets Way and Devonshire Way. Replacing the largely semi-detached buildings in these residential roads with medium-rise blocks would completely change the character of Shirley. Replacing the largely terraced housing and small blocks of flats in Forestdale with medium-sized blocks would completely change that area too;

5. Policy DM2 on development on garden land, which is too subjective and therefore too weak. There should be a much stronger presumption against development on garden land; and

6. Policy DM28, which should allow higher levels of parking in developments of low public transport accessibility. Restricting parking spaces in such areas doesn't lead to fewer people owning their own car; it just leads to greater competition for existing spaces.
Mr Matt Knight

Object

I object to the use of the site for housing.

No change

The land does not meet the criteria for designation as Metropolitan Open Land; it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Mr S Sasankan

I am resident at 35 Primrose Lane, Shirley Oaks Village, along with 4 other members of my family.

I am writing to express my objection/disagreement to the following:

1. de-designation of the Metropolitan Open Land around Shirley Oaks Village

2. The use of the following five sites for housing:
   - Land at Poppy Lane, ref 128
   - Stroud Green Pumping Station, ref 504
   - Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House, ref 541
   - Land to the west of Shirley Oaks Road, ref 542
   - Land to the rear of 5-13 Honeyuckle Gardens, ref 548

No change

The land does not meet the criteria for designation as Metropolitan Open Land; it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Mrs Mary Gray

As residents whose small rear garden backs onto part of the Shirley Oaks Metropolitan Open Land, we know full well what impact proposals 128, 504, 541, 542 and 548 would have to the area. There would be an increase in noise from 1) the building work, 2) increased traffic. There would be a substantial impact on the road system. Wickham Road already gets gridlocked at rush hours and school start/end times. The roads into Shirley Oaks are already too narrow for cars to pass if there are any cars parked, which there are always many of since the majority of driveways are too short to accommodate reasonable size car parking for many.

Shirley Road also has a problem with queuing traffic towards Long Lane which will also be compounded by these proposals.

These developments would increase the drainage issues this area suffers from. The whole area is built on London clay and regularly these areas suffer standing water which has gone through our property in the past. Increasing the density of building in Shirley Oaks will increase this problem too.

The lands around Shirley Oaks remain because of the compact nature of the village, whose properties, as well as our own, have small garden areas and as such these areas are used daily for sports activities, exercise and dog walking.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. </tbody>
</table>
We are writing to object to the proposals to:
1. de-designate the Metropolitan Open Land around Shirley Oaks Village;
2. the use of the following sites for housing:
   • land at Poppy Lane reference number 128;
   • Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
   • land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
   • land to the West of Shirley Oaks Road reference number 542;
   • land to the rear of 5-13 Honeysuckle Gardens reference number 548;

The Shirley Oaks Village site currently provides a balance of high density housing offset by areas of green space. The proposals for de-designation of the Metropolitan Open Land and additional housing on the areas of green space would disrupt that balance and greatly increase the density of housing to an unacceptable level. Access to the Shirley Oaks site is by way of Poppy Lane and Shirley Oaks Road which feed into Shirley Road and Wickham Road respectively. Both Shirley Road and Wickham Road are used heavily throughout the day and subject of long delays particularly at peak times. This has resulted in Poppy Lane and Shirley Oaks Road experiencing heavier traffic flows than they were designed for as commuters cut through between Shirley Road and Wickham Road.

Public transport within the Shirley Oaks site is limited to a small single decker bus due to the road infrastructure and road system. Whilst there are bus services which serve Shirley Road and Wickham Road these are already oversubscribed and subject to delay due to existing traffic congestion.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
Mr Trevor Watkins  
Object DM43.4 504  
The use of the following five sites for housing: land at Poppy Lane site reference number 128; Stroud Green Pumping Station, 140 Primrose Lane site reference number 504; land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House site reference number 541; and to the west of Shirley Oaks Road site reference number 542; and land to the rear of 5-13 Honeysuckle Gardens site reference number 548. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas and change the character of this area.

Carol Holmes  
Object DM43.4 504  
I object to both the de-designation and also to the subsequent house-building at the following sites:  
• Land at Poppy Lane (reference number 128);  
• Stroud Green Pumping Station, 140 Primrose Lane (reference number 504);  
• Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House (reference number 541);  
• Land to the west of Shirley Oaks Road (reference number 542);  
• Land to the rear of 5-13 Honeysuckle Gardens (reference number 548).  
The very minimum designation for the proposed sites should be as Local Green Spaces, in order to give some protection against over-development.

Mr B Williams  
Object DM43.4 504  
I object to the de-designation of the land as Metropolitan Open Land and its proposed use for housing. The open spaces are collectively designated as Metropolitan Open Land and provide several links in the Shirley Green Chain. They help to form the sort of network necessary to ensure the maintenance of the current range and diversity of our flora and fauna. In addition this is a floodplain. There is a sink pond to the rear of Honeysuckle Gardens and if this overflows any properties would be flooded. There is also the potential for flooding of future planned properties. The one road through Shirley Oaks Village could not cope with the additional traffic and its exit on to the A232 would cause yet another bottleneck on this already congested road.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
I am writing to object to the following matters in this document:-
2. the use of the following five sites for housing
   a) Ref No. 128— land at Poppy Lane
   b) Ref No. 504— Stroud Green Pumping station
   c) Ref No. 541 — land to the east of Shirley Oaks Road and to the rear of Ash House and Beech House
   d) Ref No. 542 — land to the west of Shirley Oaks Road
   e) Ref No. 548— land to the rear of 5-13 Honeysuckle Gardens

If the Council do not keep these sites as Metropolitan Open Land, then at least these five sites should be designated as Local Green Spaces.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
Mr & Mrs DB Good

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Sheila Newman

Mr Melvin Howard

Object DM43.4 504

If the Council will not keep the site as MOL, the site should at least be designated as Local Green Space. Building on this site will not only mean the loss of vital green space it will over burden local services and road infrastructure.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

S Wallace

Object DM43.4 504

Development of Shirley

As residents for many, many years in the Shirley area we strongly disapprove of the proposed development of Shirley Oaks, Devonshire Way and all the other areas in Shirley. The Shirley area has already had many new developments example - Lawdon Estate, Shirley Oaks, The Glade etc and this new proposed development will change the face of Shirley completely, with more cars and traffic, more crowds busses more strain on medical practises and schools and what about the sewage etc? we are totally against these development plans.

I object to Stroud Green Pumping Station, 140 Primrose Lane, including the conversion of the locally-listed pumping station, is identified as suitable for 26 to 68 homes (pages 451-452, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 504);

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Object Soundness - Justified DM43.4 504

I am writing to object to the following matters in this document:-

2. the use of the following five sites for housing
   a) Ref No. 128— land at Poppy Lane
   b) Ref No. 504— Stroud Green Pumping station
   c) Ref No. 541 — land to the east of Shirley Oaks Road and to the rear of Ash House and Beech House
   d) Ref No. 542 — land to the west of Shirley Oaks Road
   e) Ref No. 548— land to the rear of 5-13 Honeysuckle Gardens

If the Council do not keep these sites as Metropolitan Open Land, then at least these five sites should be designated as Local Green Spaces.

No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Object DM43.4 504

The use of the following five sites for housing; land at Poppy Lane site reference number 128, Stroud Green Pumping Station, 140 Primrose Lane site reference number 504, land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House site reference number 541, and to the west of Shirley Oaks Road site reference number 542, and land to the rear of 5-13 Honeysuckle Gardens site reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas and change the character of this area.

No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Object DM43.4 504

The use of the following five sites for housing; land at Poppy Lane site reference number 128, Stroud Green Pumping Station, 140 Primrose Lane site reference number 504, land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House site reference number 541, and to the west of Shirley Oaks Road site reference number 542, and land to the rear of 5-13 Honeysuckle Gardens site reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas and change the character of this area.

No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
| 4365/01004/DM43.4/O | The Judge Family | Object | DM43.4 | 504 | We object to Policy DM43, reference Site 504 to build new homes at Stroud Green Pumping Station (Including the conversion of the pumping station which is a locally-listed building) | No change | The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall. |
| 4366/01004/DM43.4/O | Ms Gemma Sturgeon | Object | DM43.4 | 504 | I object to Policy DM43, reference Site 504 to build new homes at Stroud Green Pumping Station (Including the conversion of the pumping station which is a locally-listed building) | No change | The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall. |
I object to the de-designation of Metropolitan Open Land in the vicinity of Shirley Oaks Road and Shirley Oaks Village. The land should be at least be designated as Local Green Space, for its protection from development. This open space provides a green corridor between Shirley Oaks and the surrounding areas, and should be retained in its present form.

I also object to the following specific proposals for the building of new homes on this site, as detailed in Changes to the Policies Map arising from Proposals contained within the Croydon Local Plan; Strategic Policies Partial Review and the Croydon Local Plan, Detailed Policies & Proposals:

- Policy DM43, reference 128 to build new homes at Poppy Lane
- Policy DM43, reference 504 to build new homes at Stroud Green - Pumping Station (including the conversion of the pumping station which is a locally-listed building)
- Policy DM43, reference 542 to build new homes on land to the west of Shirley Oaks Road
- Policy DM43, reference 548 to build new homes on land to the rear of Honeysuckle Gardens

Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the already-stretched social and healthcare facilities would be overloaded.

For the reasons given above:

1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability of future generations to meet their own needs.
4. I recommend that consultation documents of such importance are given much wider publicity.

DM43.4

I object to the use of the following five sites for housing - land at Poppy Lane reference number 128; Stroud Green Pumping Station, 140 Primrose Lane reference number 504; land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541; land to the west of Shirley Oaks Road reference number 542; and land to the rear of 5-13 Honeysuckle Gardens reference number 548; If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. The Council should focus on developing other land in the Croydon borough such as unused office blocks, derelict corporate buildings/factories/warehouses which have not been occupied for years instead of attacking the green areas which are enjoyed by the residents in their respective areas. The proposals to build circa 700 houses in such a small area will cause the following detrimental effects to the local residents: depreciation of the value of the houses purchased in the relevant areas, too much strain on the water and sewerage systems in the locality where there is already a high water table. This could result in undue flooding and drainage problems, structural problems in years to come as the land is not fit for such intensive building, increase in traffic on Shirley Road, Wickham Road, Lower Addiscombe and Addiscombe which is already congested. This will unduly increase pollution levels which are already toxic. This will undoubtedly cause an increase in the health problems of the people in the locality such as lung cancer and other respiratory illnesses which will in turn place greater stress on the NHS services, cause more people to take sick days which will result in lower incomes obtained and eventually less tax revenue generated. This will have a knock on effect on the economy which is to say at the very least, bleak, the three green spaces in the Shirley Oaks Village are owned by the 488 Freeholders. Each Freeholder owns one share in the nominee company, Shirley Oaks Management Limited which owns the land on behalf of its shareholders. Building upon this land would serious undermine the value of the land purchased by the Freeholders and reduce quality of life. If the residents wanted to move, it would prove near impossible because of the resulting lower sale prices of their respective houses imposed by the Council's building plans. This would appear to be unfair for the Council to impose
such hardship on the residents. I would urge the council to build upon land in the Croydon borough which is derelict and contains buildings which have not been used for years. These buildings can be knocked down to build the much needed housing for generations to come. These unused or derelict buildings serve no purpose to the local residents and are of no value to the residents. The Council should endeavour to create value where it is needed. This will in turn improve the condition of the abandoned areas. This will also prevent squatting and other unlawful uses of such buildings. I witnessed one example last year where the old post office building next to East Croydon Station was used as a rave containing over 1,000 people. This posed a risk to the safety of the passers by and the increase in crime. The Council's redevelopment of such spaces could be highly beneficial to the area. The green spaces are however of great importance to the local residents. The residents enjoy these spaces for walking their dogs, recreational and outdoor activities, space for children to play, piece of mind for the resident who works in the city and comes home to a peaceful environment and it provides space for those residents who already have very small back gardens.

7284/01/006/DM43.4/O Dr I Jayamanne

Object Soundness - Justified

DM43.4

504

I wish to protest vehemently about your plans to destroy Shirley which is a village by building hundred of homes and setting up a Gypsy and Traveller site. You will destroy the Green Belt and increase the traffic in the area thus polluting the environment and the air we breathe.

No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
The use of the following five sites for housing:
- Land at Poppy Lane (ref number 128)
- Stroud Green Pumping Station, 140 Primrose Lane (ref number 504)
- Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House (ref number 541)
- Land to the west of Shirley Oaks Road (ref number 542)
- Land to the rear of 5-13 Honeysuckle Gardens (ref number 548)

When the London Borough of Lambeth closed the children's home, known as Shirley Oaks, Croydon Council determined to keep the building redevelopment of the site broadly in line with the building density that had existed for most of the previous hundred years and subsequent applications by the then developer for increased housing density were rejected. There were a number of reasons for maintaining the original policy amongst which were the need to maintain the established green corridor, retain the character of the area and to maintain the surrounding traffic volumes at a manageable level. The decision to designate the land as Metropolitan Open Land was to ensure that in future further building on the land could not take place thus re-affirming the principles established by the original policy decisions. Nothing has changed in the ensuing years to justify any variation to that policy.

No change. The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
I am dismayed at the consideration being given to the above, particularly concerning that proposed in the Shirley area. I have been a Shirley resident for almost 30 years and to date have enjoyed what the area does offer both for the community and with regard to open green spaces, which are precious to the health and wellbeing of all ages. Why should future generations be unable to continue to benefit from an outdoor environment as hitherto?

I strongly object to de-designation of the current Metropolitan Open Land and would hope that at least it could be protected as Local Green Space with regard to future development. This is particularly pertinent with regard to the proposals being considered for the Shirley Oaks area. The present road infrastructure through the estate leaves a lot to be desired and any more traffic will be a great cause for concern, to say nothing of the loss of wildlife and spacious living. If we had wanted to live in a highly densely populated area, we would not have chosen the Shirley area to relocate into, rather the centre of the town. The redevelopment of brownfield sites is more acceptable and there must be many of these in the Croydon area to develop without encroaching on valued green spaces.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
I wish to formally object to:

1. All the proposed policies relation to the re-designation of land to allow building development at Shirley Oaks Road and land around Shirley Oaks Village.
2. The land at Poppy Lane (reference 128)
3. Stroud Green Pumping Station, 140 Primrose Lane including the conversion of the locally listed pumping station (reference 504)
4. Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House (reference 541)
5. Land to the West of Shirley Oaks Road (reference 542)
6. Land to the rear of 5-13 Honeysuckle Gardens (reference 548)

These proposals are NOT appropriate for Croydon to meet its Strategic Objectives. Additionally the proposals are NOT DELIVERABLE or SUSTAINABLE as:

• Croydon have already announced that it is not necessary to deliberately destroy MOL to reach their housing requirements.
• National and London Plans do NOT require or expect Local Authorities to degrade MOL to generate additional housing.
• The loss of this MOL will entail the LOSS of a vital green corridor between Shirley Oaks through to Ashburton Playing fields, across to South Norwood Park and surrounding Areas.
• The above areas are vital to sustain the drainage of surrounding flood areas.
• The above mentioned areas are referred to the "lungs of Croydon" as they sustain carbon dioxide capture (photosynthesis), oxygen release (photosynthesis) and biodiversity. Local wildlife includes badgers and bats.
• Green areas increase the character, desirability and amenity of residential areas.
• Green areas have a strong positive impact of the character of surrounding residential areas.
• The proposed increase in housing will put an additional burden on public transport, roadways and street parking and other services. The additional volume of traffic will create additional road hazards.

No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
Object: I object to the de-designation of the Metropolitan Open Land around Shirley Oaks Village; reference Numbers, 128, 504, 541, 542 and 548. This is currently Green Space and provides vital green recreational area and buffer between Shirley Oaks and the surrounding area.

DM43.4
504

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Object: The de-designation of Metropolitan Open Land around Shirley Oaks Village and either side of Shirley Oaks Road. At present I understand that Metropolitan Open Land has the same protection as the Green Belt and I believe that it is vitally important to retain the controls around our green spaces in Shirley. If any additional homes were to be considered for this area then they should be restricted in number and carefully planned in order to retain the character of this area. The idea of building up to 750 new homes is totally out of keeping with this objective and would be considerable strain on local infrastructure and resources. New housing on this scale would lead to a significant increase in traffic along the Wickham Road which is already extremely busy not only servicing the residents of Shirley but as an important thoroughfare into Croydon.

DM43.4
504

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

Object: I am writing to object to:
2. The use of the following five sites for housing
a) Land at Poppy Lane reference number 128
b) Stroud Green Pumping Station reference Number 504
c) Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541
d) Land to the west of Shirley Oaks Road reference number 542 and
e) Land to the rear of 5-13 Honeysuckle Gardens reference numbers 543

I just hope that there has been enough consideration about the fact that Shirley is built on springs and Heron Homes and Wren both had problems with flooding the area down at Woodmere Avenue.

DM43.4
504

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.
Use of formerly open land for housing (references 128, 504, 541, 542 and 548): Again, this open land should not be lost. Furthermore, there is no infrastructure in place to support the huge increase in population density that such development would represent.

Development of the site of the former pumping station (reference 504): It was established at the time the Shirley Oaks village was built that this land could not be built on, as there is an Artesian well on the land and any development would risk polluting the water source. Furthermore, a ‘travellers’ site would be inappropriate on this site.

No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

I am writing to object to the proposed use of:
- the land to the east of Shirley Oaks Road (541)
- The land to the west of Shirley Oaks Road (542)
- The land at Poppy Lane, Shirley Road (128)
- Stroud Green Pumping Station, 140 Primrose Lane (504)
- Land to the rear of honeysuckle gardens (548)
- Open space land at shrublands estate (938)

No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and is therefore considered suitable for development subject to consideration of specific site circumstances. Any development of the site should not result in an increase of flood risk in the area, and should in fact aim to reduce flood risk in the area overall.

I am therefore writing to formally object to:
- the use of the following five sites for housing:
- and to the east of Shirley Oaks Road
- and to the rear of Beech House and Ash House reference number 54

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

If the Council will not keep them as Metropolitan Open Land, the five sites should at least be designated as Local Green Spaces and not used for housing.

The site should be Local Green Space.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
I am therefore writing to formally object to:

1. de-designation of the Metropolitan Open Land around Shirley Oaks Village;

2. the use of the following five sites for housing:
   - land at Poppy Lane reference number 128;
   - Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
   - land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
   - land to the west of Shirley Oaks Road reference number 542; and
   - land to the rear of 5-13 Honeysuckle Gardens reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
De-designation of the Metropolitan Open Land bordering Addiscombe Place (around Shirley Oaks Village) – OBJECT

If the Council will not keep them as Metropolitan Open Land, the five sites should at least be designated as Local Green Spaces and not used for housing:
- Ref 126: Land at Poppy Lane
- Ref 504: Stroud Green Pumping Station, 140 Primrose Lane
- Ref 541: Land east of Shirley Oaks Road and to the rear of Beech House, Shirley Oaks Road
- Ref 542: Land to west of Shirley Oaks Road, Shirley Oaks Road
- Ref 548: Land to rear of, 5-13 Honeysuckle Gardens

designate as Local Green Spaces and not used for housing

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

We object to the proposed development on green spaces, which should remain designated as part of the Shirley Oaks MOL (see comments on Policy SP7 (Table 9.1)).

This site meets criteria for Metropolitan Open Land, in terms of its nature conservation value.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

I am horrified at the proposals regarding Shirley. There may be a need for more housing but there are alternatives and it is up to the Council to find these rather than making it easier and more profitable for builders which is what is now happening.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
A Arbisman  
Object DM43.4 541
I hereby inform you of my STRONG OBJECTION to allow development on the land noted on your Policy Map 43.
Ref 541
Ref 542
Ref 548
Ref 128
Ref 504
This land forms the reason why I, along with the majority of my neighbors purchased our homes. As freehold property owners we each have a shareholding in the company owning the land and do not wish for this, OUR land to be built on.
We also find it unbelievable that the Council wishes to have a legal battle against 800 of its residents who not just own the land but are determined that the land keeps its “Metropolitan Open Land” protected status.
The idea of building on these main green spaces when the existing houses were built with minimal sized gardens is disastrous, such development would obviously not just spoil the look and value of the area but would damage the health of the residents.
This is the land where the residents catch the summer sun, go for walks, jog, children play, and has the most amazing natural wildlife that we all love.

Balvir & Shobhna Patel  
Object DM43.4 541
I as resident of Shirley Oaks Village am against any change of our Metropolitan Land (with protection to being built on) being allowed as acceptable for development. I have been living in the Village for almost 30 years and paying for this land to be maintained as grass areas. We own the land as shareholder in our management company (Once designated as Amenity Open Land and transference to our Management company.)
I strongly oppose any moves to develop on these grass areas.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
I am writing to express my objection to the planning proposals in the Shirley Oaks area. The land has been set aside for our use as we have very undersized gardens on the estate and we have also paid to keep those areas in a well maintained condition.

The road around Shirley Oaks only has 2 exits as well, so would make it very congested as there are only 2 options for traffic to leave and enter and there are already a lot of problems at the Wickham Road end as people drive in and out.

I object to the following Ref Numbers:

Ref 541
Ref 542
Ref 548
Ref 128
Ref 504

I would appreciate any information you could send me in relation to upcoming meeting's about the proposals.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

<td>Mrs Christine Clark</td>
<td>I am writing to strongly object to the development of land on Shirley Oakes Village. The land was shared between residents and in 1985 designated by Croydon Council as &quot;Amenity Open Land&quot; because of our undersized gardens. The land was transferred to the Management Company, with each property owner as a shareholder in that company. I intend to fight for the use of this land. My front garden is approximately 6’ x 4’ and the lawn in my back garden is only 6’ x 5’. Both my parents and I use the land for exercising dogs as the gardens are so small. This whole thing has come as a huge shock to all of us. With regard to the traveller site, Travellers move around the countryside so why put a traveller site in such a residential area. I appreciate the Borough needs affordable homes but the land on the estate is so restricted in size and the in and out roads to the estate are already extremely dangerous owing to the bends in the road. Health and Safety issues need to be addressed. I strongly object to this development and will explore every possible way to restrict the development of these homes.</td>
</tr>
<tr>
<td>Daniela Reynolds</td>
<td>I wish to object the following planned proposals; ref:541, ref:542, ref:549, ref:128 and ref:504 These planned proposals will not fit within the current aesthetics of the estate so please accept this email as an objection to the proposal.</td>

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Re your development plans 541,542,548,128 and 504. Consultation.

I am writing in response to your notices for development of the greenfield sites on the Shirley Oaks Village estate, changing the status of this land to allow development of around 700 new homes.

When I bought my house here 18 years ago, it was on the understanding that this had been designated by Croydon Council as metropolitan amenity open land, an attractive feature of the original development, important not least due to the relatively small gardens of some properties, a mixture of unit sizes in an harmonious design. Thus there is a mixture of family unit sizes and age groups at home here. For many years, I and my fellow-resident members of the Shirley Oaks Management Ltd company have contributed regularly to First Port Property Services and their predecessors under our common upkeep obligation, including provision of boundary posts at various points of these areas to ensure that visiting Travellers could not reoccupy them.

As I understand your plans, you now wish to “designate” this as non-metropolitan land, on which purchasers could build however suits their purposes. This does of course risk a complete change in the nature of our Village. I cannot pretend to understand how you can effectively cut a swathe through all of this, even if you do consider it justified. Some residents might I imagine now be considering the impact on their original investment and individual legal aspects. Against these general considerations, I would like to highlight some specific and practical concerns at the outset.

ROAD SAFETY
The perimeter road via Primrose Lane and Shirley Oaks Road is arguably no longer fit for purpose, increased car ownership and parking, fast through traffic including commercial and public transport all contributing. Buses on the 367 route for example frequently mount pavements to pass each other. There have been accidents, some serious, even fatal and involving elderly pedestrian residents. The road surface is nowadays subject to excessive heavy usage. Clearly, 700 new homes will surely accentuate these problems and dangers.

ENVIRONMENT

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
Your plans will effectively remove an important green-field area and with it much unique wildlife. Residents will lose many of the valuable areas for walking, exercise and fresh-air, as will visitors. Any balanced village appearance and community feel to the estate will be consumed by so many new properties of different designs.

In summary many will surely feel betrayed by a Council which proposes removing green-fields against all promises. Some might also suspect that, whatever the social arguments, their interests are being sacrificed against political and ultimately commercial imperatives.

Once the area surrounding Shirley Oaks Village is re-designated the Council plans to build 751 homes on 5 separate sites. Supposing the average house is for 4 people, 3000 people in total will move to the area. The housing will attract families - potentially half being children. The Council mention no where in their 700 page document about the building of new schools (primary and secondary) nor the building of doctor surgeries, nor the expanding of the local shopping area let alone the already stretched local road infrastructure. Our local area can't cope as it is - St John's primary school has applied for an extension to cope with the current demand on its places. During rush hour buses frequently don't stop at bus stops because they are full. Traffic is often diverted down our road, Shirley Church Road, if there is an accident on Wickham Road or Gravel Hill. The dual carriage way (Shirley Park) is crawling along during rush hour. The council are planning to add another 1000 plus cars to this equation. Shirley is often described according to estate agents as leafy, popular, excellent schools. Prices reflect this. Just walking around the area people look after their houses and take pride in living here. People pay more money to live in this area. By building 751 more homes the character of the area will change completely.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
We are also writing to object to Croydon Council’s plans to de-designate the Metropolitan Open Land on either side of Shirley Oaks Road and all around Shirley Oaks Village, changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542).

Your draft Local Plan identifies five sites:

1. the land at Poppy Lane is identified as suitable for 51 to 107 homes (pages 445-446, reference number 128);
2. Stroud Green Pumping Station, 140 Primrose Lane, including the conversion of the locally-listed pumping station, is identified as suitable for 26 to 68 homes (pages 451-452, reference number 504);
3. land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 80-215 homes (pages 453-454, reference number 541);
4. land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455-456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542);
5. land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes (pages 467-458, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542).

Change
As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
As a resident of Shirley Oaks I am writing to object the proposals for housing development on the estate and surroundings. Having lived in Shirley all of my life I would be deeply disappointed to see it change unrecognisably. I envisage the property on Shirley Oaks Road will either be demolished or surrounded by high density housing. Either eventuality will be highly detrimental.

I have viewed the Detail Policies and Proposals on Croydon Councils website and object the following plans, references - Ref 128, Ref 504, Ref 541, Ref 542, Ref 548, Ref 938, Ref 502, Ref 661

Object to Site 541

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). Also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic.

If the Council won't keep it as MOL, it should at least designate it as Local Green Space so that it has some protection.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
I am writing to object to:

1. THE DE-DESIGNATION of the following five pieces of land as Metropolitan Open Land around Shirley Oaks Village and their proposed use as housing:

   Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541

   There is only one narrow very winding road which runs through the village and this could not cope safely with any additional traffic. It is single file around bends as it is and the local road infrastructure would be overburdened.

   These open spaces are collectively designated as Metropolitan Open Land and it would be unacceptable to lose a link to this chain.

   Additionally, this area is a flood plain and there is a sink pond to the rear of Honeysuckle Gardens. There would be a detrimental effect and potential flooding of existing and planned properties.

   Three of these sites are owned by the residents of Shirley Oaks Village through the Shirley Oaks Management Company in which every freeholder has a share. The three land sites in question are:

   1. Land to the east of Shirley Oaks Road reference number 541
   2. Land to the west of Shirley Oaks Road reference number 542
   3. Land to the rear of 5-13 Honeysuckle Gardens reference number 548

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
I am writing to voice my full-throated objections to the above proposals because of the imparable damage it would do to the character of one of the leafier, more pleasant, parts of the borough. The council seeks de-designation of Metropolitan open land that, as a homeowner in Shirley Oaks Village, I own a share of, and it is protected by covenant. Such thoughtless destruction of our precious little green space (we were granted this Amenity Open Land in 1985 by the council due to our undersized gardens) is obnoxious, ill-conceived and damaging to the value of our properties, as planning blight could linger for a decade. Myriad other neglected parts of the borough are far more appropriate for such massive development and would not stir up so much ire from the current residents, nor would they require the politically-expeditant moving of goalposts regarding land use. Our village simply does not currently have the infrastructure nor the capacity to expand in order to cope with these proposals. There is barely enough parking space available in the village at present, so quite where up to 683 other families will park and seek recreation, I do not know. Quite how all the construction vehicles involved in such huge building works would access the proposed sites without further detriment to the quality of life of the residents is another issue I raise. We are served by one bus route that can only use small, single decker buses. The roads are too narrow for larger vehicles. How would this be overcome? Additionally, the fact that the council would seek to house the travelling community so close to the town centre, on land where in 2012 a group of them set up an illegal encampment and defecated in our woodland, beggars belief. If the council has an inexplicable legal obligation to designate land to travellers, then expand capacity at their existing sites in Beddington Lane and Featherbed Lane rather than dispersing them further across the borough into otherwise salubrious areas. I do hope that common sense prevails and that all five of the above proposals are quickly abandoned. I chose to live in this area precisely because it is not blighted by these hideous developments. I am sure that many other residents echo my sentiments.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
also object to the following specific proposals for the building of new homes on this site, as detailed in Changes to the Policies Map arising from Proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan, Detailed Policies & Proposals:

Policy DM43, reference Site 128 to build new homes at Poppy Lane
Policy DM43, reference Site 504 to build new homes at Stroud Green Pumping Station (including the conversion of the pumping station which is a locally-listed building)
Policy DM43, reference Site 541 & 542 to build new homes on land to the East & West of Shirley Oaks Road
Policy DM43, reference Site 548 to build new homes on land to the rear of Honeysuckle Gardens

Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the local schools are over-subscribed as well as the already-stretched social and healthcare facilities would be overloaded.

For the reasons given above:
1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability to meet the needs of future generations.
4. I recommend that consultation documents of such importance are given much wider publicity.

Change
As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
This land is owned by Shirley Oaks Management Limited (SOML). This is the management company for the estate whose shareholders are the home owning residents. SOML owns and manages the open spaces on behalf of and for the benefit of the residents for whom the land is 'amenity open land', i.e. communal, recreational space. The land was transferred to SOML's ownership in 1985 whilst the estate was under development. I believe that the developer had infringed planning regulations by reducing the sizes of the gardens included with the dwellings that it was building in order to increase the density of the housing beyond that which had been agreed with the local planning authority. The open land, which is currently being scrutinized as part of the Council's policy proposals review, was effectively, a penalty levied on the developer whereby an amount of green space was given over to SOML to own and manage as redress and compensation to the residents for skimping on the sizes of individual gardens. I am assured by a Director of SOML that the company has documentary proof of all of the above points. The residents pay a service charge that, inter alia, covers the cost of managing and maintaining these open spaces. SOML is bound by its covenants with the residents that this land shall be managed and maintained as communal open areas for the collective enjoyment and benefit of residents as long as the estate should be in existence. Thus, there is no scope on SOML's part for participating in any effort to develop these spaces and any attempt to develop them undermines the importance of those spaces in providing amenity open land, as previously ordered by the local Council.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

I have just read an email from Gavin Barwell, our Conservative MP, and my husband and I are horrified that the green fields of Shirley Oaks are to be built upon. Especially if the land is to be put aside for gypsies! How can this be right when so many young families are denied council housing and are forced to pay for private lets because of the lack of social housing. My back garden backs onto The main road that runs through the Shirley Oaks estate so you can understand my concerns.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

1924/01/002/DM43.4/P Pamela Lees Object I strongly object to many of the proposed developments within the Shirley area. I believe that allowing low rise developments around Shirley library will alter the balance of properties in that area, which are mainly detached and semi-detached. People have moved to this 'sought after area' precisely because of its current character. I also object to the intensive developments proposed on the Metropolitan open land around Shirley Oaks. We need open land to reduce carbon emissions, for wildlife and for our own well being. Both of the above developments would put a huge strain on the services in the area, schools, doctors, busses and the already congested road system. I urge you not to progress with these proposals.

I also think that the two proposed travellers site in Shirley are inappropriate as they would be on Green Belt land, which is against your own policy and would be a blot on one of the few areas that are beautiful and wildlife friendly within Croydon.

I am always defending Croydon to those that mock it, saying that we have some lovely open spaces in which to walk and enjoy the diversity of nature. They only see the high rise blocks and litter. If these proposals go ahead, Croydon will have nothing left to commend itself.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

1926/01/042/DM43.4/C Councillor Luke Clancy Object Site 541, Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House, Shirley Oaks Road, is identified as suitable for 80-215 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Verdayne Avenue and Firsby Avenue.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

1942/01/005/DM43.4/M Margaret West Object To the de-designation of Metropolitan Land and proposed use for housing at sites 128 504 502 541 542 and 548. If development is allowed it will impact on the sense of community and have an adverse impact of trees and could be subject to flooding. It would also impact on access arrangements and the wildlife

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

</table>
The proposal to build new houses in Shirley Oaks Road does not fall within the Strategic Objectives because:-

Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise

Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.

Objective 5: This development is not high quality and will not enhance the borough’s natural environment by turning a green area into housing

Objective 7: This development will reduce the area as a safe, healthy and cohesive community but making the area overcrowded with residential property

Objective 10: This development will reduce the quality and accessibility of green space and nature.

If this development is undertaken it will not deliver the strategic objective.

This development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generations will suffer because of this.

This proposed development of new housing in Shirley Oak Road is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in the area.

Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area.

Building a travelers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area.

Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions.

This development would diminish the area of green fields and recreational

Object

DM43.4

541

This could not be developed in addition to 542. It would have to be one or the other. The land is privately owned. The local management company has worked hard to maintain the green area and retain areas suitable for wildlife. The privately owned land is used by the residents as the properties do not have private gardens. The road is already congested with private cars making the bus route difficult. I do not consider it deliverable therefore it will not meet the present needs, let alone future needs. It is unrealistic to expect the land to sustain a limitless growth in population on relatively small patches. Transport will reach gridlock, the more land that is covered over limits drainage. More pipes will be channelled underground to bring in services and take away waste. Changes to due to global warming etc will be exacerbated if the population continues to converge on small land masses rather than spreading over the planet. In addition to the physical problems we would be creating, social problems will occur with people living in closer proximity in congested space.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

2145/02/004/DM43.4/O Paul Vernon & Natalie Payne

Object

DM43.4

541

I am writing to object to:

The de-designation of the five pieces of land as metropolitan open land and their proposed use of housing land at poppy lane reference number 128. I feel that building more houses on the green land would totally destroy the wildlife in the area and would ruin an area of beauty, and that the one road into the village wouldn't be able able to cope with more traffic as its already busy.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

DM43.4

541

I object to ref 541 I am writing to you with regard to the recent changes in Planning policies by Croydon Council and their impact on the designation of grass areas in Shirley Oaks Village. These areas were formerly designated as Metropolitan Open Land and had protection form being built on. However my understanding is that these areas may now be changed to no Metropolitan Land thus allowing their use for future housing developments. As a resident of Shirley I would like to point out that our land was designated as "Amenity Open Land" in 1985 by Croydon Council because of our undersized gardens and transferred to a Management Company, with each property owner as a shareholder of the Company. Whilst I fully accept the need for new housing in Croydon, in particular affordable housing for first time owners, it is clear the sheer scale of the proposed development and the resultant destruction of a precious greenfield site in Shirley Oaks Village that I object to. I would have no issue with a much smaller scale development of the village, as part of an overall plan for Croydon where new housing was primarily targeted toward development of brownfield sites under the council's jurisdiction. I urge you to consideration of my suggestions in the weeks ahead and look forward to receiving feedback in due course.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become "white land" (land with no designation) in the Local Plan.

Mrs Jane Smith

Object

DM43.4

541

I object to development on these sites as they are MOL and amenity land used by surrounding residents. This would be detrimental to the area as the existing houses on the Estate have undersized gardens and would be obtrusive and lead to increase in traffic and access problems and noise issues.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become "white land" (land with no designation) in the Local Plan.

Breda Mohan

Brenda Stratford

Object

The use of the following 5 sites for housing: ref no. 128, 504, 541, 542, 548. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as local green spaces.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Alan Chitty

Object

Soundness - Justified

My objections are based on the fact that the proposals are not in the best interests of the electorate of the borough and that the proposals will only be harmful to the environment offering no benefits to the community. Building on the Green Belt is not the best option.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Christopher Palmer

Object

I object to the use of the Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541 for housing:

1. If the Council will not keep it as Metropolitan Open Land, it should be at least designated as Local Green Space.

Developing these sites with the amount of homes suggested would increase the volume of traffic in an area which is already congested in morning and afternoon rush hours and would put increased pressures on local schools and public transport.

I am aware that more affordable houses are needed but please reconsider these plans which will totally change the area in which we have chosen to live and definitely not for the better.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mr & Mrs E Abdul-Nabi

Object

Soundness - Justified

Object to the use of this site for housing.

If the Council will not keep it as Metropolitan Open Land it should be at least designated as Local Green Space.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Site 541, Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House, Shirley Oaks Road, is identified as suitable for 80-215 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would totally change the character of the area and have a great impact on the local road infrastructure impacting Verdayne Avenue and Firsby Avenue.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

I will be objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). If the Council won’t keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. I will also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn’t cope with the additional traffic.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

I thoroughly object to these proposals, the traffic has built up over time and I wouldn’t even want to begin to imagine what Shirley Oaks would be like if another 600+ homes where to be built, that would be practically doubling the size of Shirley Oaks as it is at present.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
We strongly object to Croydon Council’s local planning proposals and plans for development to the site being used for residential development. We strongly object to the de-designation of the Metropolitan Open Land around Shirley Oaks Village. No more housing should be built on MO land and it is inappropriate for development since it would over-stretch the local road infrastructure with the additional traffic. The road in and out of Shirley Oaks Village is very narrow and there is hardly enough room for the bus to get by. The increased volume of traffic and parked vehicles would be unmanageable bringing traffic in all directions to a complete standstill. We believe the council needs to rethink its proposals for the sites, but would hope that in any event, an overwhelming majority of homeowners living in the village will reject the council’s proposals. Not only would the area be an eyesore, but the proposal to build a whopping 700 new homes is unrealistic as the open green spaces are very small. You would also be destroying the wildlife by cutting down our precious trees and removing the open green spaces. It was agreed, and we believe documented, that after the build of phase 5 on Shirley Oaks Village that no more houses would be built, and this was a deciding factor when individuals bought their properties on Shirley Oaks Village. If over 700 new homes are built, it would no longer be a village but instead an ugly built up housing estate, changing the character of the landscape completely. From our perspective, if the proposals were approved, we would have no choice but to move away from the area. It would be too upsetting to see our open green spaces developed to excess with over 700 new homes. I have no doubt that developing the land would also devalue the property prices in the future. We find the council’s proposals ludicrous and unreasonable. It is imperative that we protect the precious remaining green spaces around Shirley Oaks Village. On that basis, we vigorously object to the council’s proposal to develop the

541

I wish to register my objection to the proposed plans for the housing development on the green areas around the Shirley Oaks Estate.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object DM43.4
541

I am writing in response to your notice for development of the greenfield sites on the Shirley Oaks Village estate to change the status of this land to allow development of 751 new homes. My husband and I bought our home in 1987 when the estate was being developed the overriding factor in our decision was the village nature of the development and the assurance that the surrounding green fields of the site would ultimately be transferred to a management company and each purchaser of a property would acquire a share in the company.

It was agreed that through the management company the owners and occupiers would assume responsibility for the peripheral land and incidental open spaces. Subsequently it was arranged that every quarter a payment is made by each household for the maintenance of the grounds. Your proposed development will completely alter the pleasant aspect of the village and negate the intention of the original development. I fail to understand how you can possibly consider completely ignoring our rights as shareholders of this land.

As you are aware, the village has only one through road and there are already problems with buses mounting the pavements and the volume of traffic using the road with the existing housing stock. Ad additional 751 houses would make the problem so much worse. We have already had one fatality and I understand a number of less serious accidents. Therefore, I strongly object to your proposed development plans.
Mrs Shirley M Kall

Our Local Green Belt should remain as such and not redesignated as Metropolitan Open Land which then could be used for new housing. Strongly object to this proposal.

Plans for residential development:
- Ref No. 128 - the land at Poppy Lane is identified as suitable for 51-107 homes.
- Ref No. 504 - Stroud Green Pumping Station, 140 Primrose Lane including the conversion of the locally-listed pumping station is identified as suitable for 26-68 homes.
- Ref No. 541 - land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 26-68 homes.
- Ref No. 542 - land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes.
- Ref No. 548 - land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes.

Development on any of these sites would change the whole character of the area and surely add to the congestion of local roads, which would increase the risk of accidents.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Ms Karen Fletcher

We wish to register our objection to the proposals to change the policy map 43 in relation to Metropolitan Open Land at Shirley Oaks Village. Like many residents we purchased our home on the understanding that the MOL was owned by the residents themselves and would not be developed. It was a strong factor in our decision to purchase our house. The land itself was transferred to the management company by a transfer dating 30 July 1991 made between Heron Homes Limited and Shirley Oaks Management Limited. The third schedule to this transfer contains restrictive covenants and I have attached the relevant clauses. These clauses that the land is to be used as open space so I do not understand how you can ignore this and grant planning permission to build houses. We understand the need for more housing but feel that this is not the way forward. It would be far better to look at the buildings/land owned by the London Borough of Croydon first to see which could be used as residential properties. The old Ashburton Library in Ashburton Park is such a building that could be redeveloped and used for housing and I am sure there are many more.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Mr John Booroff

Object Soundness - Justified

DM43.4 541

Please note that I wish to object to the proposals set out in reference numbers 504, 541, 542, 548 and 128, for the following reasons:

- There has been insufficient notice of the consultation period, and the proposals are not clearly set out as pertaining to Shirley Oaks Village.
- This land is designated as Metropolitan Open Land, and I do not agree that it does not meet the criteria, as it does contribute to the physical structure of London, and there currently are open-air facilities, which serve significant parts of London.
- Increasing the housing density in this development will have a detrimental effect on the environment, and will decrease the value of these homes, as the development contains smaller gardens than those originally planned, and the surrounding green spaces were left vacant to compensate for the lack of adequate open space.
- Any change in the restrictions will adversely affect the accessibility to nature and wildlife of the area, which contains features of metropolitan importance.
- There is inadequate infrastructure in the locality to accommodate such an increase in population.
- There has not been a true 'fit for purpose' investigation of the 'brownfield sites', which already exist in the borough, or of other open land which could be used without.

In view of the above please register my objection to all five proposals, and please acknowledge receipt of this email.

Mr Keith Simmonds

DM43.4 541

As a resident I would like to object to you proposals to build homes on the existing amenity land on Shirley Oaks due to the fact that the infrastructure could not cope and these area's are of natural beauty and full of wildlife, this is a sanctuary that must not be removed

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Mr Keith Harris

Developments Reference Numbers
541, 542, 548, 128, 504

This we cause dangerous increase
traffic through Shirley Oaks Road &
Primrose Lane, and also increase parking by the
Synagogue which is bad at the best of
times.

Mr Lewis Reynolds

I wish to object to planned proposals;
ref 541

These planned proposals will not fit
within the current aesthetics of the
estate so please accept this email as
an objection to the proposal.

Mr Tau Wey

I am concerned about this proposal.
When I bought my house in Angelica
Gardens, Shirley Oaks Village, it was
my understanding that I would also
become a communal owner of the
surrounding Amenity Open Land.
This was guaranteed by each
freeholder in Shirley Oaks owning a
share of the Shirley Oaks
Management Limited, which in turn
owns and manages the Amenity
Open Land.

Like many residents, I purchased my
house partly due to the pleasant
areas of green space available in my
surroundings. I also think that the
character of the current surrounding
gives each property the value that it
currently has.

I would also object to attempts by
Croydon Council or other agencies to
attempt to purchase the land from
Shirley Oaks Management Limited in
the future.
I am emailing to outline my objections to the planning notices in relation to the above reference numbers which concern land near to Shirley Oaks Road, Honeysuckle Gardens, Poppy Lane and Primrose Lane.

I object to these proposed developments for the following reasons:

1. The move to unravel the protection of Metropolitan open land from significant housing developments is a disappointing and avoidable move by Croydon Council. This sets an unnecessary precedent. This land should be protected by its designation and the council has sufficient options elsewhere in the borough on land that has no such designation.

2. Much of the land concerned was designated by Croydon Council in 1985 as "Amenity Open Land" because of the under-sized gardens of many of the Shirley Oaks property. I live with a young family on Shirley Oaks with a very small garden and object to the loss of this open land which is regularly used by young families and residents of the area who do not have large gardens or any gardens at all in some instances.

3. Such proposals will unduly change the character and desirability of the local area which is defined by its open space. Shirley Oaks remains one of the few genuine peaceful residential areas within the borough and such thoughtless development will threaten this.

4. The roads leading to Shirley Oaks are roads not given to significant volumes of traffic. Increasing the density of the population within the immediate area as substantially as you are proposing creates challenges for traffic and parking. The scale of the developments will exponentially increase the volume of traffic and create challenges for parking.

As a resident I would like to object to you proposals to build homes on the existing amenity land on Shirley Oaks due to the fact that the infrastructure could not cope and these areas are of natural beauty and full of wildlife, this is a sanctuary that must not be removed.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
Ms Ellie London
Object DM43.4 541

I object to the use of the site for housing.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Ms Sue Ridenton
Object DM43.4 541

I would like to raise my objection to the proposed land changes for the Ref. 541 - Shirley Oaks road east side - up to 215 new homes.

The land we are talking about above was designated by Croydon council in 1985 as Amenity Open Land, because of our under-sized gardens and transferred to the Management Company -- with each property owner as a shareholder in that company.

No one in the village will want any more homes built. The open space keeps the village unique and a nice place to live.

Any more homes will not enhance the village at all and of course will lower our house prices and a GYPSY site... what on earth are the council thinking!!

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Ms Rachel James
Object DM43.4 541

I object to the following proposal for Shirley Oaks Village: Ref. 541, Ref. 542, Ref. 548, Ref. 128, Ref. 504.

I love my home currently on Shirley Oaks and our gardens are considerably small in size and I daily take walks on the land with my 2 children and husband. I feel this would depreciate the area and I wouldn’t be happy with any of the above plans.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Helen Armstrong
Object DM43.4 541

I am writing to register my household’s objection to the proposed developments in Shirley. The projected number of homes will impact dramatically not only on the existing residents and the open feel of the site, but essentially on the transport infrastructure. Wickham Road is a major route, prone to congestion at peak hours and any significant increase in road users will have a dramatic knock on effect not for residents and also for commuters in all directions. The Trinity roundabout is a major junction with many bus routes passing through. This would grind to even more of a halt. The potential number of proposed properties is unacceptably high.

Objection to the development of site 541

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

</tr>
<tr>
<td>Nicola Hodgson</td>
<td>The Society objects to the proposals to de-designate the Metropolitan Open Land on either side of Shirley Oaks Road and on land surrounding Shirley Oaks Village, in particular the proposals on page 68. This land is currently protected from development similar to protection of green belt land. The Society objects in principle to the decision of the council to de-designate land currently held as Metropolitan Open Land. Even if parts of the areas were designated as local green space, in accordance with the National Planning Policy Framework, there would still be a huge loss of open space. If development were allowed in these areas it would be detrimental to the amenity value of the area for the benefit of the public.</td>
</tr>
<tr>
<td>Miss P Jones</td>
<td>Having lived in Shirley for over 50 years I strongly object to Croydon Council plans to de-designate the Metropolitan open land so that most of this land can be used for new housing. At the moment it has the same Protection as Green Belt. Firstly, this would entail the loss of a vital green corridor between Shirley Oaks and the surrounding area, changing the character of the area. More importantly the road infrastructure couldn’t cope with the additional traffic. Try getting out to the Wickham Road from Orchard Avenue in rush hour.</td>

---

**Object Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House, Shirley Oaks Road, is identified as suitable for 80-215 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Verdayne Avenue and Firsby Avenue.**

**Object Soundness - Effective**

The more specific site allocations represent a large reduction in the amount of designated and non-designated open space. While we acknowledge the need to build new homes and associated infrastructure such as schools, Croydon’s growing population also needs quality open spaces for all the human amenity and ecosystem services which they provide.

We object to the proposed development on green spaces, which are currently designated, and should remain designated, as part of the Shirley Oaks MOL. As mentioned as part of our response to SP7, we feel that most of the site still warrants its MOL designation. We object to the following site allocations as they will fragment the green space impacting on residents’ amenity and wildlife’s use of the area (both current and potential).

The presence of scattered detached housing does not impact the overall openness of the site, and therefore is not a reason to remove the designation of MOL and allocate for further development.

Object to proposals at this site because of the increased risk of flooding and adverse impact on air quality. New Housing should be on brownfield sites.

<td>Ms S Mawaziny</td>
<td>DM43.4 541</td>
<td>There are many reasons why houses should not be built on the MOL of Shirley Oaks Village, but I will mention only one simply because I do not want the council to make a huge mistake. If you check it out you will find that a previous proposal to build many more houses than are now there was abandoned. This is because of difficulties encountered in building the foundations of houses in some areas were immense and would have been very expensive. Underground water seems to be a problem. My brother, who lives in Woodmere Ave where it borders on Shirley Oaks, has had water streaming across his back garden (during wet weather) ever since new houses were built in the area behind the houses on the south side of Woodmere Ave. The council really must investigate this problem. I object to the use of the Land to the east of Shirley Oaks Road and to the rear of Beach House and Ash House reference number 541 for housing.</td>

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
We are writing to object to the use of the following five sites for housing:
- Land at Poppy Lane, reference number 128
- Stroud Green Pumping Station, 140 Primrose Lane, ref no. 504
- Lane to the East of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541.
- Land to the west of Shirley Oaks Road, ref number 542.
- Land to the rear of 5-13 Honeysuckle Gardens, ref number 548.

If council will not keep them as metropolitan open land, these sites should at least be designated as green spaces.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

I object to the use of the Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541 for housing.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object to this site: building on it would lead to a loss of greenspace between Shirley Oaks and the surrounding area.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

I am writing regarding the Council's plans for a massive redevelopment in the Shirley Area. More houses mean more traffic on our already crowded roads. I no longer go into Croydon because of the journey times. How long would it be before the Council considered bringing in a congestion charge. When you build all these properties do you consider the local amenities and the effect that more people would have on these. Where are the school places for all of these children? Regarding doctors. Unless it is an emergency I have to wait at least a week for an appointment. This waiting time can only increase if there are more patients. Is it the Council's policy to build over green belt land to the detriment of locals? I sincerely hope not. I think you need to seriously reconsider these plans.
As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Object Soundness - Justified 541 These open spaces are collectively designated as Metropolitan Open Land. It would be disastrous to lose a link in this chain.

THE SHIRLEY GREEN CHAIN

The green open spaces of Shirley Oaks Village provide several links in the Shirley Green Chain. This chain starts at the South Norwood Country Park in the north and runs south through Ryland Fields, Long Lane Woods, Ashburton Playing Fields, the open spaces of Shirley Oaks Village, Trinity School playing fields, Shirley Park Golf Course and up to the Shirley Hills. From there the Green Chain continues through Heathfield, Bramley Bank Nature Reserve, Littleheath Woods and via Selsdon Park to Kings Wood at Hamsey Green. These open spaces are collectively designated as Metropolitan Open Land. It would be disastrous to lose a link in this chain.

Planning Policy Guidance Note 9

This guidance stresses the importance of nature conservation, not only on nationally important sites, but also suggests that many urban sites for nature conservation have enhanced local importance as a consequence of the relative lack of wildlife sites in built up areas. Statutory and non-statutory sites which provide wildlife corridors, links or stepping stones from one habitat site to another, all help to form a network necessary to endure the maintenance of the current range and diversity of our flora and fauna.

The Green Spaces in Shirley Oaks were designated as Metropolitan Open Land and today still meet the criteria for this protection. The sites (1) contain conservation and habitat interest of value at a metropolitan level and (2) forms part of the Shirley Green Chain. These are two of the criteria for Metropolitan Open Land. The Green Spaces in Shirley Oaks Village were designated as Metropolitan Open Land and today still meet the criteria for this protection.

The sites (1) contain conservation and habitat interest of value at a metropolitan level and (2) form part of the Shirley Green Chain. These are two of the criteria for Metropolitan Open Land.

These sites possibly have a section 52 agreement, and are part ownerships shared by each of the Shirley Oaks Village residents.

Re-designation of MOL falls foul of
the London Plan.

Existing dwellings to be retained or demolished? If retained the Site Area should be adjusted to take account of the existing dwellings: The Lodge, Beech House & Ash House? On the East site And the Synagogue and the two house (can’t read their names) on the West side.

Infrastructure not specified to support development.

Schools are oversubscribed; GP Surgeries oversubscribed

Road system could not cope with the increase in traffic during peak travel times

Area has high water table and is subject to flooding.

London Plan

POLICY 7.17 METROPOLITAN OPEN LAND

Strategic

A The Mayor strongly supports the current extent of Metropolitan Open Land (MOL), its extension in appropriate circumstances and its protection from development having an adverse impact on the openness of MOL.

Planning decisions

B The strongest protection should be given to London’s Metropolitan Open Land and inappropriate development refused, except in very special circumstances, giving the same level of protection as in the Green Belt. Essential ancillary facilities for appropriate uses will only be acceptable where they maintain the openness of MOL.

LDF preparation

C Any alterations to the boundary of MOL should be undertaken by Boroughs through the LDF process, in consultation with the Mayor and adjoining authorities.

D To designate land as MOL Boroughs need to establish that the land meets at least one of the following criteria:

a) it contributes to the physical structure of London by being clearly distinguishable from the built up area

b) it includes open air facilities, especially for leisure, recreation, sport, the arts and cultural activities, which serve either the whole or significant parts of London

c) it contains features or landscapes (historic, recreational, biodiversity) of either national or metropolitan value if it forms part of a Green Chain or a link in the network of green infrastructure and meets one of the above criteria.
The London Plan 7.56

The policy guidance of paragraphs 79-92 of the NPPF on Green Belts applies equally to Metropolitan Open Land (MOL). MOL has an important role to play as part of London’s multifunctional green infrastructure and the Mayor is keen to see improvements in its overall quality and accessibility. Such improvements are likely to help human health, biodiversity and quality of life. Development that involves the loss of MOL in return for the creation of new open space elsewhere will not be considered appropriate. Appropriate development should be limited to small scale structures to support outdoor open space uses and minimise any adverse impact on the openness of MOL. Green chains are important to London’s open space network, recreation and biodiversity. They consist of footpaths and the open spaces that they link, which are accessible to the public. The open spaces and links within a Green Chain should be designated as MOL due to their London-wide importance.

2775/01/042/DM43.4/O Cllr Tim Pollard
London Borough of Croydon
Object Soundness - Justified DM43.4 Site 541, Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House, Shirley Oaks Road, is identified as suitable for 80-215 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Verdayne Avenue and Firsby Avenue.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
The preferred approach is not the most appropriate for Croydon to meet the Strategic Objectives - the land is current Green Belt or Metropolitan Open Land or otherwise designated green land and should not be built on. I disagree that it "does not contribute to the physical structure of London". Just because it has no facilities does not mean that it is not an asset to the life of London. Yes, it is deliverable but should not be delivered on that land. No, it is not sustainable because it removes the need for green space for future generations.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Site 541, Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House, Shirley Oaks Road, is identified as suitable for 80-215 homes. Object Soundness - Justified

Site 541, Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House, Shirley Oaks Road, is identified as suitable for 80-215 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Verdayne Avenue and Firsby Avenue.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Residential development on either side of Shirley Oaks Road and around Shirley Oaks Village (reference numbers 128, 504, 541, 542, 548 on Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals) This is Metropolitan Open Land which is accorded the same level of statutory protection as the Green Belt. Changing this designation in order to allow building amounts to an abuse of the planning process. The area is liable to localised flooding, which anyway makes it unsuitable for residential housing. There appears to be no provision for additional infrastructure which would support the building of up to 750 new homes. In particular, local roads are already inadequate; morning traffic queues are already common in this area, especially towards the town centre. The proposals cannot but fundamentally alter the character of this part of Shirley, again, for the worse.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object to the development at the rear of Beech House and Ash House as it is protected land as MOL

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
The site is owned by Shirley Oaks Management Company. The site is currently designated MOL. There is a legal agreement which relates to the land and identifies an area of which the site is part. It requires that the site be transferred to a management company and be held as amenity open space. The company is the successor in the title to the original developer. The Section 52 agreement prevents development of the site and therefore it is not deliverable. The MOL designation should remain. Should the decision to de-designate the site as MOL, it should be designated at local green space. Development of the site would not comply with the NPPF nor would it be sustainable development for the reasons set out above and those identified in respect to the objection to Policy SP7. The highway network is already at saturation point and in any event any proposed residential development would generate an unacceptable amount of traffic. The site has a high water table.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
Ms Debbie Butler  

Object: Soundness - Justified  

DM43.4  

I object to the use of the following five sites for housing:  
• Land at Poppy Lane reference number 128;  
• Stroud Green Pumping Station, 140 Primrose Lane reference number 504;  
• Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;  
• Land to the west of Shirley Oaks Road reference number 542; and  
• Land to the rear of 5-13 Honeysuckle Gardens reference number 545;  

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces.  

Change: As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
I write concerning Croydon Council's proposals contained in the consultation document of the Croydon Local Plan that includes the re-designation of Metropolitan Open Land in Shirley and specifically within the confines of Shirley Oaks. I consider these proposals and others listed above to be inappropriate as they would significantly change the character of the area in which I have lived all 61 years of my life and I wish to add my voice to those already expressing concerns and objections about these proposals.

I strongly object to the proposal to re-designate Metropolitan Open Land to facilitate the building of new homes on land in Shirley Oaks and the provision of temporary or permanent traveller/gypsy sites in areas that are acknowledged by the Council to be in the green belt at Coombe Farm and Coombe Lodge Nurseries in Conduit Lane.

These proposals are totally out of keeping with the character of the area which predominantly comprise owner-occupied semi and detached homes. Surely areas considered to be brownfield sites are more appropriate than the unacceptable use of Metropolitan Open Land?

The proposals affecting the area surrounding Shirley Library are also of concern as this would adversely change the character of the area and potentially result in the establishment of additional unsightly car-parking sites on the south side of Wickham Road, similar to that at the front of the Shirley Medical Centre at 370 Wickham Road.
2924/01/006/DM43.4/O Mr Roohi F Khan

Object DM43.4

541

These areas allowed by Shirley Oaks Management Ltd. 488 residents are shareholders in this company. This land was transferred to the above company in 1985 and designated as open amenity land by Croydon Council for use of residents as the gardens of the dwellings built by Heron Homes were very small. These areas of open amenity land are fully utilised by the residents and others for recreation and leisure and are clearly identified as private land. High density building in these areas would result in lack of pleasure and leisure amenity for present residents, increase traffic congestion and an increased risk to residents personal safety and health especially through high pollution levels.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

2931/01/008/DM43.4/O Mr John Newman

Object DM43.4

541

I object to the use of the site for housing.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

2948/01/003/DM43.4/O Mrs Carolyn Dare

Object Soundness - Justified DM43.4

541

I raise strong objection to the allocation of this site for development. I am a shareholder in Shirley Oaks Management Company which owns the land and maintains it. I pay a quarterly charge towards its upkeep. The traffic is already too much for the road through the village. Please do not allow our village to be destroyed.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

2948/01/003/DM43.4/O Mrs Carolyn Dare

The proposal to build new houses in Shirley Oaks Road does not fall within the Strategic Objectives because:

Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise

Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.

Objective 5: This development is not high quality and will not enhance the borough’s natural environment but will reduce the natural environment by turning a green area into housing

Objective 7: This development will reduce the area as a safe, healthy and cohesive community but making the area overcrowded with residential property

Objective 10: This development will reduce the quality and accessibility of green space and nature. This proposed development of new housing in Shirley Oak Road is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in the area. Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area

Building a travelers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area.

Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions. This development would diminish the area of green fields and recreational land within the area.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
Mrs Janet Hills

Object: Soundness - Justified

DM43.4 541

Change

This cannot be allowed:

1) I own the Land and am not prepared to sell my Share!
2) This open pastureland is used by children (playing) and dog walkers from other parts of Shirley. I know this because friends of mine walk their dogs - and pick up their litter. We’re all being encouraged to exercise more yet you’re taking away the possibilities of doing so on our own ‘home ground’!
3) It will grossly decrease the value of my property. !!!
4) I am in my 70’s (I moved here 8 yrs ago because of the tranquility) and haven’t the energy to move again!
5) The Wickham Road is already congested a lot of the time, I can’t imagine what it’ll be like with the introduction of 750 ‘new builds’ on Shirley Oaks + the plans for altering other parts of Shirley.
6) There are wild birds, and animals, living here as well as us you know!!

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Jane Bowden

Object: Soundness - Justified

DM43.4 541

Change

2) I understand that the Council are seeking to de-designate various pieces of land on either side of Shirley Oaks Road and around Shirley Oaks village, so that it is no longer Metropolitan Open Land, with a view to potentially building between 304 and 751 new homes. (Reference numbers 128, 504, 541, 542 & 548). Open, green land is essential to maintain a pleasant living area, and to maintain the character of the area. In addition, this number of additional dwellings would seriously overwhelm the local infrastructure. In particular, the local road infrastructure could not cope with the additional traffic.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Mr John Helen

Object: Soundness - Justified

DM43.4 541

Change

3) We are objecting to the decision to de-designate this land as Metropolitan Open Land (MOL) - if the Council won’t keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. I will also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn’t cope with the additional traffic.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
Mr John Hitchcock

Our family has lived on Shirley Oaks Village approx 20 years ago and understood the village to be a Private estate and I am writing to object to the de-designation of the open land around the village and to the use of five sites for housing.

The land rightfully belongs to the residents, the areas and roads will become congested and property values will decrease.

Mr John Roberts

I am writing to object to:
The use of the Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House, reference number 541 for housing.

If the Council will not keep these areas as Metropolitan Open Land, these 5 sites should at least be designated as Local Green Space.

My objections are based on the following:
i. The change in local designation and subsequent development would lead to a material reduction to an important green space and amenity within a basically urban area, ii. The effect and congestion on the local infrastructure which would be caused by the building of more housing to an already densely developed site, iii. The effect on existing property values of property to Shirley Oaks and surrounding areas caused by the reduced amenity and congestion.

I urge that the Council should take these and other objections in consideration and not continue with their plans to re-designate the areas described above.
Land currently designated as Metropolitan Open Land at Poppy Lane, Stroud Green Pumping Station, to the east of Shirley Oaks Road, to the west of Shirley Oaks Road and to the rear of 5-13 Honeysuckle Gardens has been identified as suitable for up to 741 homes (pages 445-446, 451-452, 453-454, 455-456, 457-458 Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference numbers 128, 504, 541, 542 and 548).

I object to these proposals on the grounds that:

This land is designated as Metropolitan Open Land and there is no justification for re designation. An increase of up to 741 homes on this land would put local services including schools, transport and already crowded roads under further pressure.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

---

2. REF:128, REF:504, REF:541, REF:542, REF:548 (Shirley Oaks Village)

Once the area surrounding Shirley Oaks Village is re-designated the Council plans to build 751 homes on 5 separate sites.

Supposing the average house is for 4 people, 3000 people in total will move to the area. The housing will attract families - potentially half being children. The Council mention no where in their 700 page document about the building of new schools (primary and secondary) nor the building of doctor surgeries, nor the expanding of the local shopping area let alone the already stretched local road infrastructure. Our local area can't cope as it is - St John's primary school has applied for an extension to cope with the current demand on its places. During rush hour buses frequently don't stop at bus stops because they are full. Traffic is often diverted down our road, Shirley Church Road, if there is an accident on Wickham Road or Gravel Hill. The dual carriage way (Shirley Park) is crawling along during rush hour. The council are planning to add another 1000 plus cars to this equation. Shirley is often described according to estate agents as leafy, popular, excellent schools. By building 751 more homes the character of the area will change completely.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Sarah Minter

Object DM43.4

I strongly object to the proposed development plans for the Shirley Area. I have lived here all my life and have seen a steady influx of people, and a massive reduction in the green space in the area. The roads are already far too congested and the social infrastructure is already struggling to cope with the number of residents. There are many areas in the Croydon borough much more suited to such large scale development. I am thinking particularly of areas around Purley Way. There are also many brownfield sites in the borough that could be put to more effective use as housing without affecting the green areas. I guess the council prefers to redevelop the green areas rather than the brownfield areas due to cost. As I said I do not want my local area turned into a concrete jungle where there is nowhere for people to relax in the open.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mr Brian Jacobs

Object Soundness - Justified DM43.4

I am writing to object to all the proposed changes and plans affecting the Shirley neighbourhood as advised to me by Gavin Barwell and the Executive Committee of Spring Park Residents Association. 1) I object strongly to any plans to change the definition of existing land and use. 2) When dealing with the further extension of Shirley Oaks site I am disturbed by the fact there are just two access points i.e. Shirley Road and Wickham Road the later being onto the A232 which is very busy all day and particularly during rush hour periods, when traffic backs up westwards to the Shirley Road roundabout and beyond. 3) The proposals for Shirley Oaks, given to me indicate land being suitable for between 304 and 751 additional homes. As many properties nowadays have at least one car this will have a serious additional congestion to Shirley and Wickham Roads. 4) Additionally, development of this size would have a serious demand on existing schools (primary particularly), doctors and other local services.

Christine McCarthy

Object DM43.4

I object to all the proposals set out for new housing and travellers sites in Shirley. I feel it will ruin the area by taking up all the open spaces.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
I am writing to express my objection to the proposals of development to the Shirley oaks estate, on website www.croydon.gov.uk/policiesmap on “Changes to the policy Map 43” those being:-
Ref:541. Shirley oaks road East side, up to 215 new homes!!!
Ref:542. Shirley oaks road west side, up to 236 new homes!!!
Ref:548. Land rear of honeysuckle gardens, up to 125 new homes!!!
Ref:128. Poppy lane, up to 107 new homes!!!
Ref:504. Up to 68 new homes or gypsy site at the water board HQ, primrose lane!!!!!!!!!

I brought my home on 5 Flag Close, Shirley Oaks, Surrey, CR0 8XT as it was on a green and pleasant estate and on the understanding this land was designated to us as because of our undersized gardens. We were told this land would never be built on and each of the properties on the estate are shareholders of this land as it was designated “amenity open land” by the Croydon council and transferred to our management company.

We are forming groups and seeking legal advice and looking into the legal implications and small print to your proposals and will not take this laying

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

I object to the use of the site for housing. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
Mrs Halina Tutt

Object

DM43.4

This lovely part of Croydon seems to be the worst affected by the Council’s proposals. Croydon Council plans to de-designate the Metropolitan Open Land on either side of Shirley Oaks Road and all around Shirley Oaks Village. Metropolitan Open Land has the same protection from development as the Green Belt. The Council are proposing to remove this designation so that most of this land can be used for new housing. I am objecting to the decision to de-designate this land as Metropolitan Open Land. If the Council won’t keep it as such, it should at least designate it as Local Green Space so that it has some protection. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, but trust me, the local roads couldn’t cope with the additional traffic. If you ever travel on Wickham Road, Addiscombe Road or Lower Addiscombe Road at rush hour you will agree with me. The traffic is already horrendous and more housing would simply treble this problem.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Mr Paul Grosser

Object

DM43.4

The planning permissions proposals below I object to ref 541 I have friends who live in Shirley Oaks village and I know them and myself along with many others all object to the proposals to build on the green areas. This grass area is used by many and would totally change the area if built on and we don’t want it. Part of the charm of this area is those green areas and it has something that you don’t find often in Croydon so please let us keep the green areas as we all object to them being built on.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Mr Ben Lynam

Object

DM43.4

I object to the de-designation of Metropolitan Open Land in the vicinity of Shirley Oaks Road and Shirley Oaks Village. The land should be at least designated as Local Green Space, for its protection from development. This open space provides a green corridor between Shirley Oaks and the surrounding areas, and should be retained in its present form. Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the local schools are over-subscribed as well as the already-stretched social and healthcare facilities would be overloaded.

Change

Object | DM43.4 641
--- | ---
I am writing to lodge my objection to some of the proposals contained in the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals.

In particular:
1. **Shirley Oaks**
   - The proposal to re-designate the Metropolitan Open Land on Shirley Oaks Road and around Shirley Oaks Village so that it can be used for new housing (page 68, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals).
   - My main objections are:
     - This would result in the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area.
     - The local road network could not cope with the additional traffic.
     - Insufficient local infrastructure to cope with the increased population.

**Conclusion**
The proposals I have highlighted can only be viewed as negative. If adopted, they will increase the local population - and the density of that population - without providing any supporting infrastructure. The new residents from the planned apartment blocks and traveller sites will need additional public services such as schools, medical services and shops. Older residents will give way to young families who require greater social support, yet no additional resources are identified to help manage the changing demographic. Traffic congestion along already busy roads will increase, as will pollution and accident black-spots. The few remaining green spaces will disappear. Overall, the proposals signal a reduction in the quality of life for both the existing residents and the newcomer.

| Change | As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan. |

Object

DM43.4

541

I am writing to object to:
1. The use of the following locations as gypsy and traveller sites:
   - Coombe Lodge Nurseries (site ref 661)
   - Coombe Farm off Oaks Road (site ref 502)
   - Poppy Lane (site ref 128)
   - Stroud Green Pumping Station (site ref 504)
   - Shirley Oaks Road/Beech House (site ref 541)
   - Shirley Oaks Road (site ref 542)
   - Honeysuckle Gardens (site ref 548)
   - Pear Tree Farm & Pear Tree Cottage (site ref 755)
All areas provide vital green space in already densely populated areas, and there is insufficient infrastructure to cope with the additional traffic/population. Some of these areas are in the Green Belt, others are in Metropolitan Open Land. They would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become “white land” (land with no designation) in the Local Plan.

Mr Graeme Monk

Object

DM43.4

I have read some of the planning proposals for Croydon, and I fear that some would seem to be poorly thought through. Any development around the Shirley Road area would need major road development also, which, in a major residential area would be catastrophic. Shirley Road has serious traffic congestion in both directions from the Lower Addiscombe Road to the Wickham Road; Addiscombe Road has congestion in both directions from Croydon; the Lower Addiscombe is congested from Croydon & towards Beckenham. If you add the number of houses in the green areas which you are proposing, we will have total gridlock. To think that these new developments will not own cars is living in a dream world. Buses will be in no better position to get through as there is no space for bus lanes. There are more suitable areas in Croydon for necessary housing which will cause less chaos for current residents, and a more pleasant environment for new residents.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Mr Jim Cowan

I am also objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn’t cope with the additional traffic.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
Mr Stan Minter

I have major concerns over the planned development of the Shirley Area. This is currently one of the nicest areas of Croydon and you plan to swamp it with a number of housing developments and some travellers sites. This will be very detrimental to the whole area.

I understand that nationally we need to have more accommodation for families. We need to achieve this with ought destroying the whole fabric of our society. This scale of development will transform the whole area into a old fashioned “Estate”.

There are not sufficient services in the wider area to support such an influx of families.

The road infrastructure already struggles at time and these developments will make the whole situation much worse.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

I am writing to object to re-designation of the Metropolitan Open Land around Shirley Oaks Village and the intention to build on open sites at Poppy Lane (ref 128), Primrose Lane (ref 504), Shirley Oaks Road (refs 541 + 542) and Honeysuckle Gardens (ref 548).

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Mr Steve White

ASPRA

Object

Soundness - Justified

DM43.4
541

I am therefore writing to formally object to:

1. de-designation of the Metropolitan Open Land around Shirley Oaks Village;

2. the use of the following five sites for housing:
   - land at Poppy Lane reference number 128;
   - Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
   - land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
   - land to the west of Shirley Oaks Road reference number 542; and
   - land to the rear of 5-13 Honeysuckle Gardens reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?
3218/01/001/DM43.4/O Shirley Beddoes

Object DM43.4 541

We bought our property at the original building phase in Shirley Oaks many years ago and were informed that there would be no further development in this area and that all grassed areas were to remain undeveloped and were for the use of residents and local people at leisure, further to this we have paid yearly a maintenance cost to ensure these areas were up kept for this use. This is the main reason we invested in this property. The grassed areas are in constant use and development of these areas would change the natural village atmosphere that exists here and is one of the few areas of Croydon that there is an abundance of wildlife close to an urban area. The proposed development and designation of our grass areas is unacceptable and would infringe our rights as in our original contracts with Heron homes who built the site.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

3219/01/002/DM43.4/O Mr & Mrs Nair

Object DM43.4 541

I write further to the recent proposals to develop on our green areas.

I have been a resident for over 30yrs and strongly oppose these changes.

Roads will be congested and property values will decline should these go ahead.

This land is private and belongs solely to residents who have been paying maintenance charges for the upkeep of the area.

I object to the new build on this land which will turn our quiet and safe community into an overpopulated area.

Please reconsider these proposals as none of the residents are in support of this.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

3235/01/006/DM43.4/O Mr Peter Kenny

Object DM43.4 541

I am writing to object to The use of the following sites for housing: Land at Poppy Lane reference number 128 Stroud Green Pumping Station, 140 Primrose Lane Reference number 504 Land to the east of Shirley Oaks Road and the rear of Beech House and Ash House reference number 541 Land to the West is Shirley Oaks Road reference number 542 Land to the rear of 5-13 Honeysuckle Gardens reference number 548

If the council will not keep them as Metropolitan Open Land, these five sites should be at least designated as Local Green Spaces.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Mr Matthew Carey
Object DM43.4 S41

The area of Shirley Oaks Village and it's adjacent road infrastructure is already at breaking point. Any slight build up of traffic seriously hinders movement for residents. The 2 main arterial routes into Croydon or towards Bromley (being wickham road & lower addiscombe road) are extremely busy with traffic and often lead to extended journey times for those of us who wish to head in to one of these town centres or further afield in to London for work. As proven only yesterday when a traffic accident in the Shirley area led to a 3 hour journey home from bromley back to Shirley. The road network around here is poor. The interlink between Shirley Oaks village and its surrounding area is poor. To add hundreds of houses within this area will only lead to increased volume of traffic on the surrounding roads and leave Shirley itself in an almost permament state of gridlock. Shirley Oaks Road is always busy with vehicles parked up. This is due to a number of reasons; The excessive traffic on wickham road leading to people abandoning their vehicles to try and walk nearer to Croydon to catch a tram or bus. The unreliable 367 bus route which is often hindered by traffic or accidents outside of Shirley Oaks Village leading to people driving closer to other bus routes. The use of the local synagogue. Combine these issues above with the additional housing being proposed and the vehicles that come with them, Shirley Oaks will become even cut off than it already is. There are many elderly residents in this area that rely on carers (friends etc) being able to visit them. They often complain about the issues I have raised above and I can only see this getting worse should the proposals for Shirley go ahead. Croydon is a massive borough so there must be other areas that these proposals could be met.

Mr Terrence McCarthy
Object DM43.4 S41

I object to the use of the site for housing. If the Council will not it as Metropolitan Open Land, it should at least be designated as Local Green Spaces. Building housing on it would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas and change the character of this area.
Object 3278/01/002/DM43.4/O Tracey Lewin

It has been brought to my attention that there are proposals for new houses to be built on the green space behind my house in Shirley Oaks. Whilst I understand the need for new housing surely this can be built in brownfield spaces. I chose to live in my house because of the green area behind my garden, we are not overlooked at all and have the trees and wildlife. I do not wish to be overlooked and have the added noise, this will have a direct input into the value of my property or are you going to compensate for the loss of value to my house? It will increase the traffic in the area and we already struggle with traffic jams in the rush hours! It is a struggle to get children into local schools now and the strain on the local Dr's surgeries are also apparent. I am strongly opposed to these proposals and would like to be kept informed of what is going on.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object 3279/01/005/DM43.4/O Terry Lewin

I object to the use of the site for housing.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
To help you identify my specific objections, the five proposals mentioned so far and to which I wish to object as being detrimental to the character of the area are:

- the land at Poppy Lane is identified as suitable for 51 to 107 homes (pages 445-446, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 128);
- Stroud Green Pumping Station, 140 Primrose Lane, including the conversion of the locally-listed pumping station, is identified as suitable for 26 to 68 homes (pages 451-452, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 504);
- land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 80-215 homes (pages 453-454, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 541);
- land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455-456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542); and
- land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes (pages 457-458, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 548).

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). Also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn’t cope with the additional traffic.

If the Council won’t keep it as MOL, it should at least designate it as Local Green Space so that it has some protection.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Change Summary:
- Dr Bob Wenn: Object to the site for use for housing.
- Mr John Mullis: In response to your notices for the development of the greenfield sites on Shirley Oaks Village and the intention to change the status of this land, I make the following observations: In 1985 Croydon Council designated land within Shirley Oaks Village as "Amenity Open Land" because our gardens were small due to the layout and construction of the area by Heron Homes. This amenity land is owned collectively by the property owners who own 1 share each. The shares are held by the current trust company - First Port, who also maintain this estate. Is compulsory purchase envisaged? If a total of some 700 homes the village would need vast changes to its infrastructure to accommodate these properties. The present main road - Primrose Lane/Shirley Oaks Road is barely able to cope now - with just a single decker bus affored to a growing number of cars. There is a regular flooding problem during heavy downpours - particularly from Primrose Lane into Laburnum Gardens. The loss of a wildlife conservation area is surely against wider interests including many present owners. |
- Mr Rishi Gohill: Objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). Also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic. If the Council won't keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. |

Regarding the proposal to build around Shirley Oaks Rd. I wish to register my disapproval and hope the land will remain Open Land.
Change
As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

3370/01/004/DM43.4/O Claire Rutland
Object DM43.4 S41
As a shareholder of the open space in Shirley Oaks I would like to object to the proposals made in Policy Map 43.
One of the reasons I bought the property was for the nice open spaces that surround the houses.
Building unnecessarily on this land will change the whole look and feel of the community of Shirley Oaks Village. We have one road in and out of the village and cramping in 700+ homes onto our lovely open space will also create congestion on the one road.
Shirley Oaks is privately owned and we take pride in our village and how it looks and will fight against these proposals.
Change
As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

I strongly object to these plans as a resident of hazel close I am a shareholder of Shirley Oaks management and feel strongly that the land be left as it is as we have very small gardens and pay for these open land areas to be kept and maintained for our use and enjoyment. Also these plans especially the ref 504 will devalue my property immensely and will downgrade the area dramatically.
Change
As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
One of the requirements of the Pitt review of 2007 was for the Environment Agency to provide some warning for surface water flooding, as was already the practise for river and coastal flooding. The result was the LIDAR returns which are provided on the Environment Agency’s website under ‘what’s in my backyard’. This shows clearly how the lie of the land amongst the Shirley Oaks Estate causes surface water to run from South to North joining another stream which runs in from the SW from Shirley Road into Primrose Lane. On numerous occasions over recent wet winters we have had a constant stream of water running across the kerb into Primrose Lane which has on occasion caused substantial amounts of ice to form. No doubt your winter maintenance department could confirm this is an area where they have to regularly do spot treatments of rock salt-since they do Primrose lane as it is a bus route, when other parts of the network are totally dry and do not require treatment.

From the Pitt Review of 2007, RECOMMENDATION 7: There should be a presumption against building in high flood risk areas, in accordance with PPS25, including giving consideration to all sources of flood risk, and ensuring that developers make a full contribution to the costs both of building and maintaining any necessary defences. Section 5.14 of the report reiterates that PPS25 applies to all sources of flood risk. This states that an SFRA (surface flooding risk assessment) should assess surface water flood risk and identify critical drainage areas. Good information is therefore needed from sewerage undertakers and other sources, including local knowledge, historic flooding and risk modelling. Local authorities should ensure that SFRAs carried out on their behalf adequately address this type of flooding. I find it difficult to believe this has been done as otherwise there would have never been a suggestion of using the remaining green parts of the estate in this way.

Any increase in the built up area around the estate would thus exacerbate the already on occasion saturated surface. Having investigated in detail the benefits in the reduction of flooding by the provision of trees, I have found that Oak trees can use up to 50 gallons a day and some trees on a hot day will utilise 150-200 gallons (wiki-answers.com). Trees admittedly are most effective when we are in the Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
growing season at excess water removal, but that is also when we tend to have the most extreme rainfall events. Having looked at ‘Heavy falls in a day’ and ‘Heavy falls in short Periods’ both produced in part for British Rainfall by the Met Office (my employer), I have found that invariably the most extreme rainfall happens in SE England between June and September. This is just when a tree is in full leaf so not only intercepts falling rain by the size of its canopy, but also as it is growing, that rain which reaches the soil is quickly extracted for use in the tree’s transpiration. Preliminary research results from the University of Manchester indicate that trees can reduce runoff by as much as 80% compared to asphalt. Thus the best way to alleviate summer extreme rainfall surface water flooding is not to remove trees.

The soil on which Shirley Oaks is located is of a clay type and is therefore impervious: another reason why it reacts to surface water flooding the way it does. The large area of grassland is ideal for ‘making room for water’ as a water storage area, thus to remove this pooling facility will mean the rain will have to find somewhere else to go, which would inevitably mean flooding for Shirley Oaks residents. Also I have learned, from Meteorological Office memorandum No 80-the properties of soils in NW Europe, that the root system of grassland provides a channel through which some rainfall does manage to slowly percolate through beneath the surface even with clay soils. However, without the grassland root system the water just tends to form bodies of water lying on the surface. This effect of our grassland is very helpful in alleviating the surface water flooding in winter, which occurs when prolonged rainfall totally saturates the area, and the trees are no longer as effective at its removal.

So in conclusion
- We need trees to mitigate effects of extreme rainfall in summer, something which will become increasingly frequent with global warming
- We need open grassland for water to accumulate in winter when trees are less effective at water removal from the system, whilst in addition their root systems help to aid percolation beneath the soil reducing surface flooding. Over the last 40 years winter rainfall has been increasing throughout the UK.
- Soil behaviours also dictate risk of flooding. We have issues because:
1) We are on a clay soil type so low permeability and heavy rain does not soak in but floods. 
2) We are on sloping ground with tendency for run off to flow south to north across the site. 
3) We, also because of having a clay soil, have a high water table, so in winter many areas of the site are wet and all parts stay damp throughout. Thus waterlogging very quickly occurs and there would with the proposed building work be less and less places for the water to flow to.

3377/01/002/DM43.4/O Mr Stuart Day

Object DM43.4 541

I am writing to you to object to the councils planned proposals Ref:541 Ref:542 Ref:548 Ref:128 Ref:504

I moved to the area with the understanding that the grass areas had protection from being built upon and I strongly object to the council proposing the new developments as referenced above. This will make the area I live in with my family crowded and I bought my property with the understanding that the grass areas would not be built on.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
First, the Council plans to de-designate the Metropolitan Open Land on either side of Shirley Oaks Road and all around Shirley Oaks Village (page 68, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals). Metropolitan Open Land has the same protection from development as the Green Belt. The Council is proposing to remove this designation so that most of this land can be used for new housing. The draft Local Plan identifies five sites:

- the land at Poppy Lane is identified as suitable for 51 to 107 homes (pages 445-446, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 128);
- Stroud Green Pumping Station, 140 Primrose Lane, including the conversion of the locally-listed pumping station, is identified as suitable for 26 to 68 homes (pages 451-452, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 504);
- land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 80-215 homes (pages 453-454, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 541);
- land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455-456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542); and
- land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes (pages 457-458, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 548).

I will be objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
the Council won’t keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. I will also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn’t cope with the additional traffic.

3381/01/006/DM43.4/O Mr Daniel James Object

DM43.4 S41

I am writing to object to the council’s proposition to allow the development at the following sites:- Ref: 541, 542, 548, 128 and 504 in Shirley Oaks Village.

I have only lived on Shirley Oaks for 5 years, but one of the things I love the most is walking my children over to the grass areas so they can play. As you probably already know, our gardens are quite small so it’s really nice to have space to take full advantage of. Another thing that disappoints me, is that one of the selling points of our house, is the fact that all the land around the estate is protected from building on. I strongly disagree with any of your plans to build upon this land, and along with other Shirley Oaks residents will do my best to get our voices heard.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

3391/01/003/DM43.4/O Ms Aileen Deeney Object

DM43.4 S41

As a resident of Shirley Oaks Village, I wish to register my objection to the above proposals to allow the development of new homes on the designated Amenity Open Land which is available for my use and that of my fellow residents. This use was allowed by Croydon Council because of the undersized gardens which is a negative feature of the current development and which hinders enjoyment and comfort of my property. For example, it is not possible for children to play with footballs/other toys/play noisily without disturbing the adjoining and physically very close neighbours. You are no doubt aware that there are no nearby children’s parks. Also my garden can easily be overlooked by at least 4 sets of neighbours and which I believe is typical of the other gardens on the development. Having the Amenity Open Land available is some compensation for the above lack of privacy and if it was to be withdrawn it would have a detrimental impact on

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
Mr Alan Heathcote

This is to object strongly to your ill-conceived proposals for high density dwellings on greenbelt parkland, on existing semi-detached housing areas, and gardens in the Shirley Oaks / Library region. Also for travellers sites in the vicinity of Coombe farm. All as outlined in Gavin Barwell's email.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Ms A Pavon-Lopez

I object to the use of the site for housing.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mr & Mrs Cyril Nazareth

As a resident of Croydon Borough and in particular Shirley Oaks, I am contacting you to voice my objection to the following development proposals: Ref 541 Shirley Oaks Road East Side

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mr Chris McInerney

Objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). Also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic.

If the Council won't keep it as MOL, it should at least designate it as Local Green Space so that it has some protection.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
I would like to object to the following Metropolitan open land proposals -
Poppy Lane - Ref 128 -Stroud Green Pumping Station - Ref 504 -Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House - ref 541 -Land to the west of Shirley Road ref 542 -Land to the rear of 5-13 Honeysuckle Gardens ref 548. The Metropolitan land provide several links in the Shirley Garden Chain.
Under the Planning Policy Guidance Note 9 the importance of nature conservation is stressed. This combined with the extra traffic seems unacceptable. Three of the proposed sites are owned by the residents of Shirley Oaks Village of which my house backs onto. We have several friends that live there all of which have raised the problems regarding such a development.
The three areas are:
- Ref 541 - land east of Shirley Oaks Road
- Ref 542 - land west of Shirley Oaks Road
- Ref 548 - land to the rear of 5-13 Honeysuckle Gardens

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Mr Daniel Nuthall

Object

DM43.4

541

Site 541, Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House, Shirley Oaks Road, is identified as suitable for 80-215 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Verdayne Avenue and Firby Avenue.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Mr Donald Speakman

Soundness - Justified

DM43.4

541
Mr David Wilson

Object DM43.4 541

We wish to object in the strongest terms to the plans being discussed regarding the proposed development of land for new housing in the Shirley area, specifically the building of Gypsy/Traveller sites on our doorstep, and the inherent increase in crime and anti-social behaviour that always follows, and can be seen in many examples nationally. Not only this, but the whole ‘Village’ feel of the area will be completely obliterated, and the very things that attracted us to move to Shirley (off Orchard Ave) will be no more. Of course people need a place to live and raise families, but time and again we have seen the resultant decline of neighbourhoods, with rubbish, noise and theft frequent occurrences. We urge you to think again and take heed of Gavin Barwell’s very real concerns, and those of what I’m sure are many of his constituents, and other Shirley dwellers. We are particularly concerned that you should take into account the fears of ordinary hard working people like us, who want to enjoy life (we’re not ‘oldies’) in a pleasant community, and think again about the following proposals:

- land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 80-215 homes (pages 453-454, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 541).

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Mr D Lane

Object DM43.4 541

I object to the use of Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House for housing. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
3445/01/004/DM43.4/O Mr E King OBE

Object: Soundness - Justified

DM43.4 541

Object to the decision to de-designate this land as Metropolitan Open Land (MOL). Also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic.

If the Council won't keep it as MOL, it should at least designate it as Local Green Space so that it has some protection.

3449/01/006/DM43.4/O Mrs E Thomas

Object: DM43.4 541

I wish to log my objection to the borough-wide planned changes Croydon Council are proposing to make in their Local Plans for 2016-2036. These proposals are 750 new homes in Shirley Oaks and 35 new homes on the Shrublands Estate. Also the proposed work to the two large gypsy/travellers site in Coombe Farm and the Conduit Nursery of Coombe Road.

Change: As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

3453/01/004/DM43.4/O Mr & Mrs Proctor

Object: DM43.4 541

We are writing to object most strongly to the Croydon Council's Local Plan for housing on Green Belt land, with particular reference to Shirley.

Our Green Belt should be protected at all costs and brown field sites must be targetted. In this respect, we support our MP Gavin Barwell's objections, which you will doubtless have received.

Change: As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

3461/01/005/DM43.4/O Mr F Kurum

Object: DM43.4 541

I am writing to object to the use of the following five sites for housing:
- land at poppy lane (128)
- Stroud Green pumping station, 140 Primrose Lane (504)
- land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House (541)
- Land to the west of Shirley Oaks road (542)
- Land to the rear of 5-13 Honeysuckle Gardens (938)

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Space.

Change: As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

<td>3464/01/001/DM43.4/O Frances Pickering</td>
<td>I would like to oppose the redevelopment of Shirley Oaks Village most strongly. We brought our property 8 years ago and were told that no further building would happen as our property runs along the side of one of your proposed sights. My understanding was that we paid a quarterly maintenance for the upkeep of our surrounding therefore making us shareholders of the estate. Nobody to date has said anything to us as shareholders except the posters on lampposts a couple of years ago we had to pay extra to keep gypsies out of our village. Now you are proposing to invite them to come and live with us. Croydon is not a nice place to live and the only escape we have is our home and now you want to take that away from us. The development would have a fast impact on the schooling, utility’s, hospital etc in the area. Where and when will this all stop? We pay our rates are law abiding citizens and feel all you are interested in is destroying all we have worked hard for.</td>
<td>As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.</td>

| 3465/01/006/DM43.4/O Mr & Mrs Hobbs | I am writing to you to object to the use of the following sites for housing development.  
• The land at Poppy Lane. Ref. No. 128  
• Strudwick Green Pumping Station. Ref. No. 504  
• Land to the east of Shirley Oaks Road and rear of Beech and Ash House. Ref no. 541  
• Land to the west of Shirley Oaks Road. Ref no. 542  
• Land to rear of part of Honey Suckle Gardens. Ref no. 548 | As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan. |
| 3473/01/002/DM43.4/O Mr Dave Brown | I object to these proposals to build on the land ref 541. The land should be left as it is. | As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan. |
I wish to lodge a serious objection to the proposals for the building of houses on Shirley Oaks Village. That name speaks for itself. I have lived on Shirley Oaks Village for 30 years and during that time have paid the management company a contribution to maintain the amenity open land. The residents each own a share of the land and over the years the open areas have been enjoyed by families for games walking and enjoying the lovely trees not to mention the wildlife. When the land was sold by Lambeth in 1984 the intention was to create a village! Has any thought been given to the effect on the infrastructure by adding 751 properties? the pressures on the roads in particular.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
The proposal to build new houses in Shirley Oaks Road does not fall within the Strategic Objectives because:

Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise.

Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.

Objective 5: This development is not of high quality and will not enhance the borough’s natural environment but will reduce the natural environment by turning a green area into housing.

Objective 7: This development will reduce the area as a safe, healthy and cohesive community but making the area overcrowded with residential property.

Objective 10: This development will reduce the quality and accessibility of green space and nature. This development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generation will suffer because of this. This proposed development of new housing in Shirley Oak Road is not within keeping with the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in the area. Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area. Building a traveller site will increase noise levels and ruin the character of the area and this development would overwhelm this green area. Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions. This development would diminish the area of green fields and recreational land within the area.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission Draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Object DM43.4 541

Re the above proposals with Ref nos 541, 542, 548, 504, and 128 I wish to object in the possible strongest sense. This land was not designated for this use and hence our homes all have very small gardens to protect this open space. We already have problems with the road through the estate and it cannot possibly take any more traffic. The allowed parking on this road particularly on the curves gives cause for real concern. I have avoided two accidents only by making an emergency stop. If the council goes ahead with these proposals then we will fight and please note we are depending on support from local councillors and our MP. Think again please

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object DM43.4 541

I am writing to object to the plans to build gypsy/traveller sites in the area of Shirley and the building of anything on any area of green belt land, green spaces or back gardens

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object DM43.4 541

I wish to object strongly to the proposed developments at Shirley Oaks - Ref 541. Shirley Oaks Road East side - 215 new homes

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object DM43.4 541

Please see this email as my objection to the proposed housing. This is ridiculous. The village is small and the road going through the village would NOT suffice the extra traffic! I pay a maintenance charge and moved here as it is a quiet location. I have been burgled a couple years back due I believe to the travellers that squatted on the land here and I do not want that fear again. Please rethink this crazy idea and let me know how I can further stop this.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Mr Gary Smithers

Object DM43.4 541

The planning permissions proposals below I object to ref 541

I have friends who live in Shirley Oaks Village and I know them and myself along with many others all object to the proposals to build on the green areas. This grass area is used by many and would totally change the area if built on and we don't want it. Part of the charm of this area is those green areas and it has something that you don't find often in Croydon so please let us keep the green areas as we all object to them being built on.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mr Gary Kenney

Object DM43.4 541

I am writing to show that I object to a number of your plans around the Shirley area. I contest that you need to build on our green sites and bring in new 'traveler' sites into Shirley.

On top of this I cannot understand the need to bring 'medium' high rise buildings in and around Shirley, including Devonshire way and the new proposals around Hartland way.

Please can you let me know if my objection has been noted and how I can make it more official?

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mr John Albert

Object Soundness - Justified DM43.4 541

As a long term resident and shareholder residing in Shirley Oaks Village, I and my partner object to the proposals to Changes to the Policy Map 43 - REFs 541, 542, 548, 128 & 504

These areas have metropolitan open land and had protection from being built on!

Our land was designated by Croydon Council in 1985, as Amenity Open Land because of our under sized gardens and transferred to the management company whom we our shareholders of and this land is for our use and want it to stay this way!

Having lived here for 20 years we do not want it further condensed by more homes and totally not fit for purpose!

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Object 3508/01/006/DM43.4/O Jennifer Worstall

I object to proposals to destroy open green spaces in Shirley Village. The Council wants to take away the status of Metropolitan Open Land for some of these green spaces, to make them easier to build on. What is the necessity or precedent for this? If all the open spaces in Shirley Village are to be built over with blocks of flats, the character of the area (green spaces with 2/3 storey houses/flats) will be changed forever. There is potentially a problem with drainage too as the open green spaces absorb much of the heavy rainfall we experience now. The local roads in this development as it is now, are far too small to cope with the increase there would be in traffic.

Change
As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object 3510/01/002/DM43.4/O Katrina Neal

As a long term resident of Shirley/West Wickham and one who has seen many changes over the years, I am strongly objecting to Land east of Shirley Oak Road (rear of Beech House) ref 541 for housing use. If these are not kept as MOL then at least keep them as Local Green Spaces.

Change
As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object 3511/01/006/DM43.4/O Jenny Hayden

The proposals for Shirley will have a huge impact on the area, the current infrastructure is already at bursting point and the building of new homes on green spaces will add further stress to the current situation. Ref nos, 128,504,541,542, 548... these relate to the building of additional homes. From the information available in the Council's documentation, this could be up to 800 new homes. I would like to know what sort of homes these are likely to be... social, housing associations or private... I doubt that any of them would be affordable homes for first time buyers. How will the local roads cope with the extra traffic. There will be a need for more schools, doctors' surgeries etc to support the intended increase to the local population. I would therefore like to object to the Council's decision to use these five sites for future residential development. Apart from putting extra burden on the local roads, it would also mean losing valuable green spaces. I believe any new residential development should be on brownfield sites. The addition of so many extra homes would have an adverse affect on the character of Shirley, in my opinion.

Change
As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

<td>Rhodri Flower</td>
<td>DM43.4</td>
<td>I write with reference to your document 'Changes to the Policies Map (Policy DM43)'; and in specific reference to sites 541, 542, 548, 128 and 504. These sites are all open space surrounding the development known as Shirley Oaks Village. I wish to object to the proposals to re-classify the land and make it eligible for planning permission and the building of homes. In my opinion it is essential to preserve the open space for the use of local residents. It is well used for recreation, dog walking etc. It is also an important part of the character of Shirley Oaks Village and would change the nature of that development. I bought a house on Primrose Lane in June 2015 and a large factor in my decision to buy was the amount of open space available locally. I understand that Croydon Council designated this land as 'Amenity Open Land' in 1985 because of under-sized gardens in Shirley Oaks Village and transferred it to the Shirley Oaks Management Company, which has maintained it ever since. As a house owner I am a shareholder in that company. I strongly object to your proposals.</td>

Ms Geraldine Pyatt

Object

DM43.4

I am writing to object to the Council's proposals to allow the land in Shirley Oaks Village to be acceptable for development. The areas have been Metropolitan Open Land and had protection from being built upon. Our land was designated by the Council in 1985 as "Amenity Open Land" because of our under-sized gardens and transferred to the Management Company. Each property owner is a shareholder in the Management Company and we pay towards the upkeep and maintenance of the land. I object to the Council's proposal to change the title of the land in order to proceed with development plans. This is Our land and for our use.

When I bought my house I paid a higher price because of the sought after location and the appeal of the well kept green areas and the privacy of the land in my area. I feel that by allowing development of so many more houses on our land, it is going to affect house prices and my house will loose value. Roads will be congested and property values will decrease and much more. I am concerned how so many houses can be justified and how additional parking on dangerous bends will affect the bus route, extra traffic and especially emergency vehicles and therefore I object to the Council's plans of development.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

The policy relating to Shirley should not be read in isolation. It should be read in conjunction with other policies contained within the Local Plan such as but not limited to policies in the Transport and Communication section of the plan.

Matters relating to the house valuations are not matters that can be considered through the Local Plan process.
I refer to the proposed changes to the planning policies to allow Croydon Council to build new homes on the Amenity Open Land at the above. The Amenity Open Land was granted in part, due to the extremely small rear gardens. Also I and other people in the village for many years here contributed to its upkeep at no cost to Croydon Council. To lose this land will greatly impact on the peaceful enjoyment that I and my neighbours have in using this land as well as the general impact on the area of high density building, changing the character of our village forever.

No doubt this development will result in many trees and flowers being sacrificed which help to sustain the urban wildlife such as various birds, bats, foxes, badgers and bees etc. There seems to be little consideration for this urban oasis!

Whilst I understand central government’s drive for more houses, I find it hard to believe that Croydon Council needs this land in order to fill its housing quota, given the Westfield and other developments proposed in Croydon. There are also other lands, such as those owned by the local NHS hospital that would be suitable for development and at the same time give ready money to the NHS.

Furthermore, the existing main roads are already inadequate to service the village without adding a further 751 homes along with the years of road works that will be associated with upgrading the utilities, make traveling through the village more difficult and dangerous.

I urge you to reconsider your plans.
Kindly note that as a homeowner (and shareholder) of Shirley Oaks Village, resident here for over 25 years, I am deeply concerned that Croydon Council seems to think it has the right to change the nature of the estate from being protected Metropolitan land to being unprotected land ripe for excessive building. Not only is the green space around the current estate, a much loved feature, it also provides a sanctuary for wildlife and allows for nice walks for local people. The road was built to be narrow and already there are problems with passing places for traffic to the hospital and synagogue. Last year the council allowed a resident to build a fence which obstructs drivers’ vision when turning out of Cornflower Lane and has caused several minor incidents. Simply put, the roads here were not built for traffic! The idea of ruining my neighbourhood by cramming more housing onto unsuitable roads, lacking shops and facilities whilst depriving me of the green spaces I love and part own makes me sick to my stomach. There are so many brownfield sites that could be built on and provide more suitable housing in and around Croydon that I feel that this attack on Shirley is politically motivated. I formally ask the council to re-consider the proposals.

I am writing to object to:
3. The use of the following 5 sites for housing:
   • Land at Poppy Lane: reference number 128;
   • Stroud Green Pumping Station, 140 Primrose Lane: reference number 504;
   • Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House; reference number 541;
   • Land to the west of Shirley Oaks Road; reference number 542; and
   • Land to the rear of 5 – 13 Honeysuckle Gardens; reference number 548.

If the Council will not keep them as Metropolitan Open Land, these 5 sites should at least be designated as local green spaces.

Mr Michael Hewish

Object

DM43.4

541

Please see my objections to your proposals as detailed below.

DM43

Ref 541 Land east of Shirley Oaks Road

Ref 542 Land west of Shirley Oaks Road

Ref 548 Land to rear Honeysuckle Gardens

These areas of Metropolitan Open Land are not “incidental open spaces” or “Grassland with a few detached houses” as your report states. These areas were designated by Croydon Council as residents “Amenity Open Spaces” under a section 52 agreement on the 4th December 1985. This was to ensure that the residents were provided with adequate open space following a dispute between the Council and Heron Homes, the developer. These areas were then handed over to the Shirley Oaks Management Limited, a company with the property owners as shareholders.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Feb 28, 2016

Mr Michael Hewish

Object

DM43.4

541

I wish to make the following comments in relation to land east of Shirley Oaks Road and to the rear of Beech House and Ash House, Shirley Oaks Road, reference number 541 (Site). The Site is owned by Shirley Oaks Management Limited (Company). There are over 400 shareholders of which I am one. The Site is presently protected by the designation of the Metropolitan Open Land. Separate objections have been made in relation to the proposal to de-designate this land as MOL. Those objections are repeated for the purpose of this representation. The designation as MOL should remain if the decision to re-designate this land as MOL proceeds. If the decision to de-designate proceeds, the Site should be designated as Local Green Space. The proposed development of the Site in the event that the present designation remains or that re-designation takes place as Local Green Space would not be consistent with national policy under the NPPF and such a proposal would be incompatible. The proposed approach is not appropriate nor would it enable sustainable development for the reasons set out above and those identified in respect to the objection to Policy SP7. The highway network is already at saturation point and in any event any proposed residential development would generate an unacceptable amount of traffic. The site also has a high water table.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
Mr Nick Barnes Object Soundness - Justified DM43.4 541

Having read both local plans for the Shirley area, I strongly object to all aspects in both plans, this includes the 750 new homes on Shirley Oaks Village, 35 new homes in Shrublands, the two gypsy sites at Combe Fram and Conduit Nursery and the development for up to four storeys along Wickham Road.

None of these plans will benefit Shirley and I object to them all.

Mrs Margaret Hawkins Object DM43.4 541

Refer 541 - Land East of Shirley Oaks Road and to the rear of Beech House and Ash House.

I am objecting to the proposal for de-designation of this area as Metropolitan Open Land, with a view to “working with the landowner” to bring development of up to 215 houses forward. It is a vital part of the green chain and wildlife corridor through Shirley. This can clearly be seen by viewing Google satellite photos of the area. There are mature trees on this land which would be damaged by digging near the roots, as well as woodland, hedgerow and meadow habitats. Badgers, woodpeckers, jays, goldfinches and a huge variety of insects live in this area. This land is used as a local amenity by many local people, not just residents of Shirley Oaks. The land is jointly owned by 500 equal share-holders, which would make “working with the landowner” a complex issue. The council would be unlikely to get the co-operation of all 500 shareholders. Development of this area would put extra stress on the road junction between Shirley Oaks Road and the A232 Wickham Road. Traffic in this area is already extremely slow at peak times.

Cllr J Cummings Object Soundness - Justified DM43.4 541

Site 541, Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House. Shirley Oaks Road, is identified as suitable for 80-215 homes. This site should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would totally change the character of the area and have a great impact on the local road infrastructure impacting Verdayne Avenue and Firsby Avenue.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Change

<td>I object to the proposals to completely change Shirley Oaks Road which is a green lung for that part of the Borough. The amount of car ownership will rise significantly as the bus service is infrequent. The traffic will dog up the Wickham Road even more than now. St John’s school has already plans for more classrooms and the intake will rise in all the local schools. Also pulling down established houses and putting up more flats is detrimental to the character of the area. We had a once in a lifetime chance to improve the look of Croydon, on a human scale. Instead of which we are building hideous tower blocks, while in other parts of the country they are pulling them down. Nobody should have to raise a family in a block 44 stories high. They will eventually become the slums of the future.</td>

Mr J Menhinnitt  
Object  
DM43.4  
541  

I live in Verdayne Avenue, on the odd side, and objecting to these plans sounds like simple "NIMBY ism" but, literally this development is in my back garden. With this development what little is left of the "green" character of Shirley will lost under a wave of concrete. Surely all the "brown field" sites should be identified and developed first. When the Shirley Oaks estate was first built the fact that the houses had small gardens was compensated by the greenery of the area around them, that "compensation" is now going to disappear. The plans for the new homes seem to show that these buildings will be of greater density and crowding. On the plans there doesn't appear to be any infrastructure planned to go with the homes. The schools, in Shirley, are full, filled by children "bussed" in from other parts of the borough. Does this, then, mean the children from the new homes will have to catch buses out of Shirley to attend schools else where?  

Though the bus routes through Shirley are good most of the time there is chaos at school times especially in the afternoon as the schools empty and the pupils leave the area to go home. It would appear that the whole of the school population of Croydon will be moving every morning and evening. The transport system on the Wickham Road works at the moment but extra traffic, people and cars, would put it under considerable strain. The tram stops are not close enough to Shirley to help dissipate the human traffic. Will the roads around the area be widened, especially in the Shirley Oaks estate, to take extra vehicle traffic? At present the buses and refuse lorries have difficulty negotiating the narrow road. The same argument goes for doctors. Again the surgeries, in Shirley, are full at present, where in the plans are the provision for this new health centres? Are they suppose to attend the A&E department at "Mayday" hospital which even now has problems coping. There have been previous plans to build on the land but they have failed due to the unsuitability of the ground, high water table etc. These problems, I take it, have "gone" away?

Change  
As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

We have lived in the Borough of Croydon for 30 years and value its vibrancy and diversity.

As Croydon ratepayers we object to the de-designation of Metropolitan Open Land generally, especially land detailed above, which will change forever Croydon’s character.

We would ask you to encourage policies/development to:

1. Build new housing on brown field sites by all means AND preserve invaluable green space for the benefit of the community of Croydon; 2. Protect green belt land and preserve the green corridors we desperately vital for wildlife and biodiversity; 3. Amend the tall buildings policy and keep the tall building zone where it is suited in the centre of town; 4. Utilise brownfield sites for new low-level housing only where it can be developed alongside new GP surgeries, schools and improved public transport; 5. Traveller sites are not appropriate in the green belt and is a clear breach Policy E of Planning Policy for Traveller Sites. When travellers camped on Addington Playing Fields in 2012/13 they left rubbish, debris, waste, and deterioration to a local green space. Sadly true of most traveller sites.

"Nowadays people know the price of everything and the value of nothing”. Green Belt is vital and precious. Once lost for future generations and will not be replaced by developers.

We understand the need for housing, schools, hospitals and infrastructure. Are the Developers investing these also alongside their building investments?

Please protect our few remaining green spaces on the borough map, by making better use of brown field sites.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become "white land" (land with no designation) in the Local Plan.

I am writing this email to voice my deep concern about the planned development in the private estate that I have lived in for many years, namely:

- Ref 541, Ref 542, Ref 548, Ref 128 and Ref 504 – all on Shirley Oaks Village private estate.

Firstly, it would have been nice to be informed about any planning ideas in writing rather than see small notices pinned to lamp post around the estate. I would also like to draw your attention that our land was designated by Croydon Council in 1985 as ‘Amenity Open Land’ for the residents and for which we pay a quarterly fee for maintenance of the green open land, but more importantly can I bring to your notice that this land was transferred to the Shirley Oaks Management Company, with each property owner as a shareholder in that company. This land is for our use and not for developing a concrete jungle on every single green inch of land in Croydon.

The Shirley Oaks estate has a great community spirit and has become a real sought after location for families to live due to the community nature and the lovely open land that we have, by developing on this land you will be taking away all of the good that has been built up over the years by the many residents we have as well as making the village overcrowded, bringing in more traffic thus resulting in more danger on the main Primrose Lane for people crossing and driving, congestion for parking and so on. I can also bring to your attention that we have already had a couple of fatalities on that main road that runs through the village and this will make it worse for the safety of our kids.

I am sure you have now had many hundreds of emails from residents like myself voicing the same concerns with your planning proposals!

This land belongs to us as residents so I feel its harsh to take this away and start your own developments.
3785/01/003/DM43.4/O Jenny Greenland

541

To save you looking it up, and to help you identify my specific objections, the five sites mentioned so far and to which I wish to object as being detrimental to the character of the area are:

- Land to the east of Shirley Oaks Road and to the rear of Bleech House and Ash House is identified as suitable for 80-215 homes (pages 453-454, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 541).

Change
As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
3793/01/006/DM43.4/O Mr Stephen Barnes

Object

DM43.4 541

Second, the Council plans to de-designate the Metropolitan Open Land on either side of Shirley Oaks Road and all around Shirley Oaks Village (page 68, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals). Metropolitan Open Land has the same protection from development as the Green Belt. The Council is proposing to remove this designation so that most of this land can be used for new housing. The draft Local Plan identifies five sites:

- land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 80-215 homes (pages 453-454, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 541);

I object to the decision to de-designate this land as Metropolitan Open Land (MOL). If the Council won't keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. I also object to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

3803/01/002/DM43.4/O Mr Denis Perrott

Object

DM43.4 541

I object to the use of the Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541 for housing:

- If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces.

Developing these sites with the amount of homes suggested would increase the volume of traffic in an area which is already congested in morning and afternoon rush hours and would put increased pressures on local schools and public transport.

I am aware that more affordable houses are needed but please reconsider these plans which will totally change the area in which we have chosen to live and definitely not for the better.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Site 541, Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House, Shirley Oaks Road, is identified as suitable for 80-215 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. Mr M Foster

Object DM43.4 541

I wish to lodge an objection to all five sites where the decision to de-designate this land as Metropolitan Open space land and to build housing on them, not only would we be losing vital open space and change the very character of the area, I believe the local road infrastructure would not cope with any more traffic, why must the council continual to try and ruin areas that people like. At the moment this area as a rural feel to it, nice green spaces and a open aspect which we would loose if these plans were to go ahead. I would ask the council to think very hard before implementing these plans before we have another area that people want to move out of instead of to, these plans will not improve the area quite the reverse, where at the moment people like to live here.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

---

Miss Rebecca Thomas

Object DM43.4 541

I email to express my formal concern and objection to the proposal to build additional housing in the green areas of Shirley Oaks Village. I currently reside in Beckenham, 1 Hamilton House, Orchard Way, BR33ER, on the Shirley boarder, and was previously a resident of Shirley for 30 years. The addition of these houses will not only bring down the areas reputation, spoil views from current properties but also cause additional congestion to an already busy area. We should be looking to preserve our green areas, and Shirley Oaks Village should remain just that, a village! I believe that the Wickham Road has already been flagged as one of the busiest roads in the area, with a fatal road accident occurring both this year and last. Additional housing/congestion will only add to this danger. This proposal will cause residents of the local area to be driven from their homes unfairly, I am sure that they did not purchase properties to be overlooked and to lose the view of the land that they have been paying to maintain for, in most cases, a number of years. I am contactable on my home address/phone should wish me to validate my views further.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Ms M Tomas Ward
Object
I am writing to express my objection to the planning proposals in the Shirley Oaks area. The land has been set aside for our use as we have very undersized gardens on the estate and we have also paid to keep those areas in a well maintained condition. The road around Shirley Oaks only has 2 exits as well so would make it very congested as there are only 2 options for traffic to leave and enter and there are already a lot of problems at the Wickham Road end as people drive in and out.

Mr Nicholas Barnes
Object
Having read both local plans for the Shirley area, I strongly object to all aspects in both plans, this includes the 750 new homes on Shirley Oaks Village, 35 new homes in Shrublands, the two gypsy sites at Combe Fram and Conduit Nursery and the development for up the four storeys along Wickham Road. None of these plans will benefit Shirley and I object to them all.

Mr M Lockeyear
Object
I wish to register my objection to these proposals for the following reasons: I purchased my property on the understanding that all the open grassed land surrounding the village was designated by Croydon Council in 1985 as “Amenity Open Land” because of our under-sized gardens and transferred to the Management Company, with each property owner as a shareholder in that company.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

DM43.4 541

With regard to the 'very scant' notices that have been posted on Shirley Oaks Village, in places that are not in visible of all residents, I must object VERY STRONGLY to these plans. (1) The land is owned by the residents with a covenant on it. Our houses are condensed with tiny gardens, the compensation for which is the open ground (owned by all residents) that we are able to use. My understanding is that the original development was curtailed by the then council because of the density of housing/population on Shirley Oaks.

(2) Drainage on Shirley Oaks is very poor. I am given to understand that the water table is very high and indeed during the winter months the open spaces are sodden, holding water which could probably present a flooding problem. It is so bad in some places that the ducks move in!

(3) Could the services (sewerage etc) really support the number of properties proposed. There have already problems from time to time, especially down Shirley Oaks Road.

(4) Realistically, whatever type of property would be built, you could expect an average of two cars per dwelling. Shirley Oaks Road/Primrose Lane are extremely hazardous and would not be able to sustain another probably 500/1000 cars. Where would people park. There are enough problems on here already with regard to parking, deliveries etc. Both Shirley Oaks Road at the Wickham Road end and Primrose Road at the Shirley Road end are used as car parks and quite often it takes a bit of delicate maneuvering to get round, especially if you meet a bus.

(5) Planning permission has been refused for the plot in Poppy Lane (128) a number of times. The area was declared as a nature reserve some time back and I was unaware that this had changed. Part of the reason for the last planning application was the high water table, so how come there has been a change of mind?

Edwina Morris

Object: DM43.4 541

I object to the use of the Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541 for housing.

Change: As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

<td>Mrs Barbara Cumming</td>
<td>I object to the planned five sites being used for residential development in Shirley, Croydon: Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 80-215 homes. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure will not be able to cope with the additional traffic. Whilst I agree that we desperately need new housing, it should be built on brownfield sites - not our remaining precious green spaces!</td>
</tr>
<tr>
<td>Ms M Bailey</td>
<td>The Metropolitan Open Land on either side of Shirley Oaks and all around Shirley Oaks Village should not be de-designated, but designated as Local Green space. It is very important that Croydon needs green spaces as these give the feeling of openness and a pleasant environment in which to live. Upwards of approximately 700 hundred odd homes could be built in this area which will lead to possible flooding of areas as rain water will not be able to drain away as easily as it would if it was left as a green belt area. Secondly the local road infrastructure would not be able to cope with the additional traffic stemming from these additional homes, and this includes public transport. Thirdly are the NHS facilities in the area able to cope with this large influx?</td>

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Every year we get proposals and consultations for building more homes or structures on Shirley Oaks green land. But must admit the above proposal is the worst and the most ridiculous so far. From what we read, the proposal suggests to build around 750 new homes on what's left of green patches in the village.

The village is already over crowded with Shirley Oaks road and Primrose road looking like a huge PARKING LOT throughout the day. One cannot begin to imagine what it would like with more residents and obviously with at least double the number of cars to that of the number of the new homes proposed.

We bought our property back in 1989, paying above market value at the time, for the sole purpose that the village is quiet and has some green land. Our home was one of the last phases of any buildings to be erected in the village, or so we were promised and confirmed in writing. Since then, a synagogue was built, bus 367 goes through the narrow winding road, every year for the last few years we get proposals to use our green land for one suggestion or another and now this proposal.

We completely oppose this proposal and hope that the council will appreciate that it's not all about the money and just building more houses, but quality of life matters just the same. On one hand the government and councils encourage and push people to plant more trees, grow their veg, recycle etc... Yet on the other hand come up with proposals to use every last green patch to build more structures and homes. Doesn't make any sense.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

I object to the use of the Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541 for housing.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces.

Developing these sites with the amount of homes suggested would increase the volume of traffic in an area which is already congested in morning and afternoon rush hours and would put increased pressures on local schools and public transport.

I am aware that more affordable houses are needed but please reconsider these plans which will totally change the area in which we have chosen to live and definitely not for the better.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
I am a resident of Shirley and strongly object to the current proposals to build on green belt land on the Shirley Oaks and surrounding areas.

There are plenty of brown sites that are unoccupied and could fulfill the purpose of providing new homes. Shirley is already tight for school places. St John’s, in Spring Park Road, is increasing to 2 form entry already with the number of children living locally requiring education. The 367 bus serving the Shirley Oaks Village is infrequent and much more transport will be required. Parking is already a nightmare and with the lack of parking contemplated with the new build supply the problem will only get worse. There will be an incredible build up of traffic on the already congested Wickham Road and other local roads.

I believe this proposed building of traveller’s sites and homes will change the whole ethos of Shirley and cause resentment and the lowering of living standards. This is a particular area of standard housing and should not be changed by the building of blocks of houses. Garden land should not be built on and this is an inappropriate development and should not be allowed to go ahead. Metropolitan Open Land has the same protection as the Green Belt and the rules should be followed accordingly.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
Ms M D Chandler

DM43.4

541

I object on the grounds of appalling over-crowding, your plan would bring at least 2000 more vehicles onto the estate. It is already nearly impossible to get in and out of the estate by car at rush hours. The roads on the estate can barely cope as it is with the bus route. These extra vehicles would include many commercial vans which would be parked over night and weekends causing havoc on the narrow roads of the estate. A single bus route as at present running every 20mins causes problems how do you intend to increase public services more bus routes and more frequent timetables....more chaos! I along with others pay to maintain and the open space as a share holder. Your proposal would seriously devalue our properties and I for one will be seeking serious compensation for this, I trust Croydon has very big capital reserves to meet our legal challenges and compensation. Our gardens are small this is why the land has been designated open land so we have some open space in common with the surrounding houses. Your plans are ill conceived and will effectively destroy Croydon further. There are large areas of open land in Addington which Croydon could use and I presume already own without spending our money attempting to purchase land which will be extremely costly to Croydon in terms of the compensation that you will need to pay out and in the legal fees entailed.

Mr N Oratis

Object

DM43.4

541

I object to the decision to de-designate this land as metropolitan open land for the use of residential development for the following reasons. These areas are also being used every day and regularly by myself, family members, neighbours friends and many visitors wanting to take there dog for a walk or spending time with family and kids. Ref 548, 542, 541, and 128 are owned by Shirley oaks management. 488 residents are shareholders in this company. There was a decision in 1985 for this land to be open for use by the local residents because the gardens of all homes were considered small. I would also like to mention the increase in road traffic and pollution due to the development. So for those reasons I would once again like to object to building on this land.

Change

As this site does not have a willing land owner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
The use of the following five sites for housing: land at Poppy Lane site reference number 128, Stroud Green Pumping Station, 140 Primrose Lane site reference number 504, land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House site reference number 541, and to the west of Shirley Oaks Road site reference number 542; and land to the rear of 5-13 Honeysuckle Gardens site reference number 548. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas and change the character of this area.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

I am writing to object to the de-designation of Metropolitan Open Land around Shirley Oaks Village; in particular to the use of the following five sites for housing:

i) land at Poppy Lane reference number 128
ii) Stroud Green Pumping Station, 140 Primrose Lane reference number 504
iii) land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541
iv) land to the west of Shirley Oaks Road reference number 542
v) land to the rear of Honeysuckle Gardens reference number 548

If the Council cannot keep this land as Metropolitan Open Land, these five sites should be at least designated as Local Green Spaces.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

I wholly disagree with the plans to develop the land on Shirley Oaks Village.

This is metropolitan land and will not be built on.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Ref. 541, 542, 548, 128 and 504 in Shirley Oaks Village

I was shocked to learn about the changes proposed to our grass areas. These changes, if implemented, will change the very nature of our village. It will not only deprive the residents of very essential open green areas, but it will make the whole place very crowded, much more polluted and quite uglier. This would rob us of essential attractions that made us come to this village in the first place.

I strongly object to any of these changes and trust that every resident on this estate feels the way I feel. I did not speak to everyone, but the many I spoke with feel as strongly as I do towards this unfair proposal. I have been living in this village with my family since 1985, I would like to see the Croydon Council improve it rather than ruin it. I hope the Council will reconsider its plans.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
I am grateful to the Council for consulting on the detailed policies and proposals that will make up the Croydon Local Plan. There is much in the document that I agree with, but some of the proposals would, in my opinion, change the character of parts of Croydon very much for the worse. I hope you will forgive me if I focus on these areas of contention. I am therefore writing to formally object to:

1. de-designation of the Metropolitan Open Land around Shirley Oaks Village;
2. the use of the following five sites for housing:
   - land at Poppy Lane reference number 128;
   - Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
   - land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
   - land to the west of Shirley Oaks Road reference number 542; and
   - land to the rear of 5-13 Honeysuckle Gardens reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

3. the use of the following locations as gypsy/traveller sites:
   - Coombe Farm off Oaks Road reference number 502;
   - Coombe Lodge Nurseries off Conduit Lane reference number 661; and
   - Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane reference number 750.

As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site...
Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

“Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.

The Council’s approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is);

4. Focused intensification associated with gradual change of an area’s local character under Policy DM31.4 of the Shirley Road Shopping Parade, Shirley local centre and Forestdale. Shirley Road Shopping Parade is surely worthy of protecting rather than replacing with medium-rise blocks? Shirley local centre is defined not just as a stretch of the Wickham Road (where some intensification may be appropriate) but Ridgemount Avenue, Wickham Avenue, Peregrine Gardens, West Way Gardens, the northern section of Hartland Way and the western parts of Bennetts Way and Devonshire Way. Replacing the largely semi-detached buildings in these residential roads with medium-rise blocks would completely change the character of Shirley. Replacing the largely terraced housing and small blocks of flats in Forestdale with medium-sized blocks would completely change that area too;

5. Policy DM2 on development on garden land, which is too subjective and therefore too weak. There should be a much stronger presumption against development on garden land;

6. Policy DM28, which should allow higher levels of parking in developments of low public transport accessibility. Restricting parking spaces in such areas doesn’t lead to fewer people owning their own car; it just leads to greater competition for existing spaces.

| Object | Soundness - Justified | DM43.4 541 | As residents whose small rear garden backs onto part of the Shirley Oaks Metropolitan Open Land, we know full well what impact proposals 128, 504, 541, 542 and 548 would have to the area. There would be an increase in noise from 1) the building work, 2) increased traffic. There would be a substantial impact on the road system. Wickham Road already gets gridlocked at rush hours and school start/end times. The roads into Shirley Oaks are already too narrow for cars to pass if there are any cars parked, which there are always many of since the majority of driveways are too short to accommodate reasonable size car parking for many. Shirley Road also has a problem with queuing traffic towards Long Lane which will also be compounded by these proposals. These developments would increase the drainage issues this area suffers from. The whole area is built on London clay and regularly these areas suffer standing water which has gone through our property in the past. Increasing the density of building in Shirley Oaks will increase this problem too. The lands around Shirley Oaks remain because of the compact nature of the village, whose properties, as well as our own, have small garden areas and as such these areas are used daily for sports activities, exercise and dog walking. | Change | As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan. |

Kajit Gata-Aura

DM43.4

Object

I object to ref 541

The planning permissions proposals below I object to ref 541

I have friends who live in Shirley Oaks village and I know them and myself along with many others all object to the proposals to build on the green areas. This grass area is used by many and would totally change the area if built on and we don't want it. Part of the charm of this area is those green areas and it has something that you don't find often in Croydon so please let us keep the green areas as we all object to them being built on.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Melissa Chu

DM43.4

Object

The use of the following five sites for housing: land at Poppy Lane site reference number 128, Stroud Green Pumping Station, 140 Primrose Lane site reference number 504, land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House site reference number 541, and to the west of Shirley Oaks Road site reference number 542, and land to the rear of 5-13 Honeysuckle Gardens site reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas and change the character of this area.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mr Reuben Gata-Aura

DM43.4

Object

The use of the following five sites for housing: land at Poppy Lane - Ref 128 Stroud Green Pumping Stn - Ref 504 land to east of Shirley Oaks Road - Ref 541 land to west of Shirley Oaks Road - Ref 542 land to rear of Honeysuckle Gardens - Ref 548.

If the Council will not keep them as MOP - these 5 sites should at least be designated as Local Green Spaces.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Victoria Moore

DM43.4

Object

land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 80-215 homes (pages 453-454, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 541).

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Mr Vince Hemment

I am therefore writing to formally object to:
- the de-designation of the Metropolitan Open Land around Shirley Oaks Village; the use of the following five sites for housing:
  - land at Poppy Lane reference number 128;
  - Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
  - land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
  - land to the west of Shirley Oaks Road reference number 542; and
  - land to the rear of 5-13 Honeysuckle Gardens reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on.

Change
As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Terrence & Jacqueline Spriggs

Objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). Also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn’t cope with the additional traffic.

If the Council won’t keep it as MOL, it should at least designate it as Local Green Space so that it has some protection.

Change
As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Ms V Cruickshank

I object to the use of the following five sites for housing:
- Land at Poppy Lane: reference number 128;
- Stroud Green Pumping Station, 140 Primrose Lane: reference number 504;
- Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House: reference number 541;
- Land to the west of Shirley Oaks Road: reference number 542; and
- Land to the rear of 5 – 13 Honeysuckle Gardens: reference number 548.

Change
As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
I'm writing in response to your notice for development of the greenfield sites on the Shirley Oaks Village estate to change the status of this land to allow development of 751 new homes. When I bought my house 18 months ago it was purchased on the understanding that together with the other householders on the estate that we would have joint ownership in the land directly surrounding the estate and that a quarterly bill would be levied to cover the maintenance of the land. I purchased the property in the knowledge that there were designated areas of green space surrounding the estate and was led to believe that these would remain. I strongly object to the proposal of building any further houses on the land surrounding the estate on the grounds that the main road through the estate is dangerous enough as it is. To more than double the amount of residents using the estate is ludicrous. The road was designed to cope with a certain amount of traffic and is already dangerous at time.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

02 September 2016
4146/01/004/DM43.4/O  Mr & Mrs Carpenter  

Object  

DM43.4  
541  

These proposals to build up to 750 homes on land (assuming it is de-designated) will mean the loss of vital open spaces and will place burdens on local transport, roads, schools and medical facilities which are already under pressure.

Change  

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

4147/01/003/DM43.4/O  Mr & Mrs A Catherall  

Object  

DM43.4  
541  

The de-designation of Metropolitan Open Land status on Shirley Oak will be vigorously opposed. I can see no reasoned explanation in the planning document for such a course of action nor is there any evidence of the thinking of the Council in the previous plan or 2012 Inspector's Report to explain how MOL status has been revisited with the conclusion that MOL designation be withdrawn. It also seems to have escaped the planning process that Shirley Oaks is governed by a Section 52 Agreement under the 1971 Town and Country Planning Act controlling development of the 'amenity lands' on Shirley Oaks. Further, the land is owned by the 488 Shirley Oaks resident property owners as shareholders of Shirley Oaks Management Ltd that owns the land. There is, therefore, no likelihood of the land ever being sold voluntarily. In summary, this part of the proposed Local Plan is undeliverable.

Change  

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Mr & Mrs Kennard

Object

We are writing to object to the proposals to:

1. de-designate the Metropolitan Open Land around Shirley Oaks Village;
2. the use of the following sites for housing:
   - land at Poppy Lane reference number 128;
   - Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
   - land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
   - land to the West of Shirley Oaks Road reference number 542;
   - land to the rear of 5-13 Honeysuckle Gardens reference number 548;

The Shirley Oaks Village site currently provides a balance of high density housing offset by areas of green space. The proposals for de-designation of the Metropolitan Open Land and additional housing on the areas of green space would disrupt that balance and greatly increase the density of housing to an unacceptable level. Access to the Shirley Oaks site is by way of Poppy Lane and Shirley Oaks Road which feed into Shirley Road and Wickham Road respectively. Both Shirley Road and Wickham Road are used heavily throughout the day and subject of long delays particularly at peak times. This has resulted in Poppy Lane and Shirley Oaks Road experiencing heavier traffic flows than they were designed for as commuters cut through between Shirley Road and Wickham Road.

Public transport within the Shirley Oaks site is limited to a small single decker bus due to the road infrastructure and road system. Whilst there are bus services which serve Shirley Road and Wickham Road these are already oversubscribed and subject to delay due to existing traffic congestion.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
Mr Trevor Watkins

Object DM43.4 541  The use of the following five sites for housing: land at Poppy Lane site reference number 128, Stroud Green Pumping Station, 140 Primrose Lane site reference number 504, land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House site reference number 541, and to the west of Shirley Oaks Road site reference number 542; and land to the rear of 5-13 Honeysuckle Gardens site reference number 548. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas and change the character of this area.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Carol Holmes

Object DM43.4 541  I object to both the de-designation and also to the subsequent house-building at the following sites: •Land at Poppy Lane (reference number 128); •Stroud Green Pumping Station, 140 Primrose Lane (reference number 504); •Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House (reference number 541); •Land to the west of Shirley Oaks Road (reference number 541); •Land to the rear of 5-13 Honeysuckle Gardens (reference number 548).

The very minimum designation for the proposed sites should be as Local Green Spaces, in order to give some protection against over-development.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mr B Williams

Object DM43.4 541  I object to the de-designation of the land as Metropolitan Open Land and its proposed use for housing. The open spaces are collectively designated as Metropolitan Open Land and provide several links in the Shirley Green Chain. They help to form the sort of network necessary to ensure the maintenance of the current range and diversity of our flora and fauna. In addition this is a floodplain. There is a sink pond to the rear of Honeysuckle Gardens and if this overflows any properties would be flooded. There is also the potential for flooding of future planned properties. The one road through Shirley Oaks Village could not cope with the additional traffic and its exit on to the A232 would cause yet another bottleneck on this already congested road.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
I am writing to object to the following matters in this document:–

2. the use of the following five sites for housing:
   a) Ref No. 128—land at Poppy Lane
   b) Ref No. 504—Stroud Green Pumping station
   c) Ref No. 541 —land to the east of Shirley Oaks Road and to the rear of Ash House and Beech House
   d) Ref No. 542 —land to the west of Shirley Oaks Road
   e) Ref No. 548—land to the rear of 5-13 Honeysuckle Gardens

If the Council do not keep these sites as Metropolitan Open Land, then at least these five sites should be designated as Local Green Spaces.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

I am writing to object to the following:

2. The use of the following five sites for housing:

   - Land at Poppy Lane, reference number 128
   - Stroud Green Pumping Station, 140 Primrose Lane, reference number 504
   - Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House, reference number 541
   - Land to the west of Shirley Oaks Road, reference number 542, and
   - Land to the rear of 5-13 Honeysuckle Gardens, reference number 543.

If the Council do not keep them as Metropolitan Open Land, these five sites should at a minimum be designated as Local Green Spaces.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

This land is owned by Shirley Oaks Management Ltd of which I am a shareholder. There is a section 52 legal agreement in place which requires this site to be transferred to a management company and be held as amenity open space.

The highway network is already at saturation point and in any event any proposed development would generate an unacceptable amount of traffic.

The site has a high water table.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object DM43.4 541 I object to Policy DM43, reference Site 541 to build new homes on land to the East & West of Shirley Oaks Road
Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

3406/01/004/DM43.4/O Mrs Kathleen Swan
Object DM43.4 541 I would like to strongly object to the planned five sites being used for residential development in Shirley, Croydon; land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 80-215 homes (pages 453-454). Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 541); Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure will not be able to cope with the additional traffic.
Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

3409/01/005/DM43.4/O Mrs Rita Evans
Object DM43.4 541 The proposal to de-designate Metropolitan Open Land around Shirley Oaks Village and use it for five housing sites surely flies in the face of current recommendations to preserve Green Belt equivalent land as a vital amenity and ecological asset?
Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

3412/01/005/DM43.4/O Doreen Jansen
Object DM43.4 541 Object to site. Schools in the area are already over-subscribed, so the number of homes proposed will increase the problem
Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Object: Mrs J Furmanska
Soundness: Justified

I am writing to object to the following matters in this document: -

2. the use of the following five sites for housing:
   a) Ref No. 128 — land at Poppy Lane
   b) Ref No. 504 — Stroud Green Pumping station
   c) Ref No. 541 — land to the east of Shirley Oaks Road and to the rear of Ash House and Beech House
   d) Ref No. 542 — land to the west of Shirley Oaks Road
   e) Ref No. 548 — land to the rear of 5-13 Honeysuckle Gardens

If the Council do not keep these sites as Metropolitan Open Land, then at least these five sites should be designated as Local Green Spaces.

Change: As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object: Mr P Bhanji

The use of the following five sites for housing: land at Poppy Lane site reference number 128, Stroud Green Pumping Station, 140 Primrose Lane site reference number 504, land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House site reference number 541, and to the west of Shirley Oaks Road site reference number 542, and land to the rear of 5-13 Honeysuckle Gardens site reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas and change the character of this area.

I object to the use of the following five sites for housing - land at Poppy Lane reference number 128; Stroud Green Pumping Station, 140 Primrose Lane reference number 504; land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541; land to the west of Shirley Oaks Road reference number 542; and land to the rear of 5-13 Honeysuckle Gardens reference number 548; If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. The Council should focus on developing other land in the Croydon borough such as unused office blocks, derelict corporate buildings/factories/warehouses which have not been occupied for years instead of attacking the green areas which are enjoyed by the residents in their respective areas. The proposals to build circa 700 houses in such a small area will cause the following detrimental effects to the local residents: depreciation of the value of the houses purchased in the relevant areas, too much strain on the water and sewerage systems in the locality where there is already a high water table. This could result in undue flooding and drainage problems, structural problems in years to come as the land is not fit for such intensive building, increase in traffic on Shirley Road, Wickham Road, Lower Addiscombe and Addiscombe which is already congested. This will unduly increase pollution levels which are already toxic. This will undoubtedly cause an increase in the health problems of the people in the locality such as lung cancer and other respiratory illnesses which will in turn place greater stress on the NHS services, cause more people to take sick days which will result in lower incomes obtained and eventually less tax revenue generated. This will have a knock on effect on the economy which is to say at the very least, bleak, the three green spaces in the Shirley Oaks Village are owned by the 488 Freeholders. Each Freeholder owns one share in the nominee company, Shirley Oaks Management Limited which owns the land on behalf of its shareholders. Building upon this land would serious undermine the value of the land purchased by the Freeholders and reduce quality of life. If the residents wanted to move, it would prove near impossible because of the resulting lower sale prices of their respective houses imposed by the Council’s building plans. This would appear to be unfair for the Council to impose...
such hardship on the residents. I would urge the council to build upon land in the Croydon borough which is derelict and contains buildings which have not been used for years. These buildings can be knocked down to build the much needed housing for generations to come. These unused or derelict buildings serve no purpose to the local residents and are of no value to the residents. The Council should endeavour to create value where it is needed. This will in turn improve the condition of the abandoned areas. This will also prevent squatting and other unlawful uses of such buildings. I witnessed one example last year where the old post office building next to East Croydon Station was used as a rave containing over 1,000 people. This posed a risk to the safety of the passers by and the increase in crime. The Council’s redevelopment of such spaces could be highly beneficial to the area. The green spaces are however of great importance to the local residents. The residents enjoy these spaces for walking their dogs, recreational and outdoor activities, space for children to play, piece of mind for the resident who works in the city and comes home to a peaceful environment and it provides space for those residents who already have very small back gardens.

7284/01/007/DM43.4/O Dr I Jayamanne

Object Soundness - Justified

DM43.4 S41

I wish to protest vehemently about your plans to destroy Shirley which is a village by building hundred of homes and setting up a Gypsy and Traveller site. You will destroy the Green Belt and increase the traffic in the area thus polluting the environment and the air we breathe.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
The use of the following five sites for housing:
- Land at Poppy Lane (ref number 128)
- Stroud Green Pumping Station, 140 Primrose Lane (ref number 504)
- Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House (ref number 541)
- Land to the west of Shirley Oaks Road (ref number 542) and land to the rear of 5-13 Honeysuckle Gardens (ref number 548)

When the London Borough of Lambeth closed the children's home, known as Shirley Oaks, Croydon Council determined to keep the building redevelopment of the site broadly in line with the building density that had existed for most of the previous hundred years and subsequent applications by the then developer for increased housing density were rejected. There were a number of reasons for maintaining the original policy amongst which were the need to maintain the established green corridor, retain the character of the area and to maintain the surrounding traffic volumes at a manageable level. The decision to designate the land as Metropolitan Open Land was to ensure that in future further building on the land could not take place thus re-affirming the principles established by the original policy decisions. Nothing has changed in the ensuing years to justify any variation to that policy.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
I am dismayed at the consideration being given to the above, particularly concerning that proposed in the Shirley area. I have been a Shirley resident for almost 30 years and to date have enjoyed what the area does offer both for the community and with regard to open green spaces, which are precious to the health and well-being of all ages. Why should future generations be unable to continue to benefit from an outdoor environment as hitherto?

I strongly object to de-designation of the current Metropolitan Open Land and would hope that at least it could be protected as Local Green Space with regard to future development. This is particularly pertinent with regard to the proposals being considered for the Shirley Oaks area. The present road infrastructure through the estate leaves a lot to be desired and any more traffic will be a great cause for concern, to say nothing of the loss of wildlife and spacious living. If we had wanted to live in a highly densely populated area, we would not have chosen the Shirley area to relocate into, rather the centre of the town. The redevelopment of brownfield sites is more acceptable and there must be many of these in the Croydon area to develop without encroaching on valued green spaces.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
I wish to formally object to:
1. All the proposed policies relating to the re-designation of land to allow building development at Shirley Oaks Road and land around Shirley Oaks Village.
2. The land at Poppy Lane (reference 128).
3. Stroud Green Pumping Station, 140 Primrose Lane including the conversion of the locally listed pumping station (reference 504).
4. Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House (reference 541).
5. Land to the West of Shirley Oaks Road (reference 542).

These proposals are NOT appropriate for Croydon to meet its Strategic Objectives. Additionally the proposals are NOT DELIVERABLE or SUSTAINABLE as:

• Croydon have already announced that it is not necessary to deliberately destroy MOL to reach their housing requirements.
• National and London Plans do NOT require or expect Local Authorities to degrade MOL to generate additional housing.
• The loss of this MOL will entail the LOSS of a vital green corridor between Shirley Oaks through to Ashburton Playing fields, across to South Norwood Park and surrounding Areas.
• The above areas are vital to sustain the drainage of surrounding flood areas.
• The above mentioned areas are referred to the "lungs of Croydon" as they sustain carbon dioxide capture (photosynthesis), oxygen release (photosynthesis) and biodiversity. Local wildlife includes badgers and bats.
• Green areas increase the character, desirability and amenity of residential areas.
• Green areas have a strong positive impact of the character of surrounding residential areas.
• The proposed increase in housing will put an additional burden on public transport, roadways and street parking and other services. The additional volume of traffic will create additional road hazards.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

<td>DM43.4 541</td>
<td>The de-designation of Metropolitan Open Land around Shirley Oaks Village and either side of Shirley Oaks Road. At present I understand that Metropolitan Open Land has the same protection as the Green Belt and I believe that it is vitally important to retain the controls around our green spaces in Shirley. If any additional homes were to be considered for this area then they should be restricted in number and carefully planned in order to retain the character of this area. The idea of building up to 750 new homes is totally out of keeping with this objective and would be considerable strain on local infrastructure and resources. New housing on this scale would lead to a significant increase in traffic along the Wixham Road which is already extremely busy not only servicing the residents of Shirley but as an important thoroughfare into Croydon.</td>

I hereby inform you of my STRONG OBJECTION to allow development on the land noted on your Policy Map 43.

Ref 541
Ref 542
Ref 548
Ref 128
Ref 504

This land forms the reason why I, along with the majority of my neighbors purchased our homes. As freehold property owners we each have a shareholding in the company owning the land and do not wish for this, OUR land to be built on.

We also find it unbelievable that the Council wishes to have a legal battle against 800 of its residents who not just own the land but are determined that the land keeps its “Metropolitan Open Land” protected status.

The idea of building on these main green spaces when the existing houses were built with minimal sized gardens is disastrous, such development would obviously not just spoil the look and value of the area but would damage the health of the residents.

This is the land where the residents catch the summer sun, go for walks, jog, children play, and has the most amazing natural wildlife that we all enjoy.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

I hereby inform you of my STRONG OBJECTION to allow development on the land noted on your Policy Map 43.

Ref 541
Ref 542
Ref 548
Ref 128
Ref 504

I as resident of Shirley Oaks Village am against any change of our Metropolitan Land (with protection to being built on) being allowed as acceptable for development. I have been living in the Village for almost 30 years and paying for this land to be maintained as grass areas. We own the land as shareholder in our management company (Once designated as Amenity Open Land and transference to our Management company.) I strongly oppose any moves to develop on these grass areas.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
Object  

I am writing to express my objection to the planning proposals in the Shirley Oaks area. The land has been set aside for our use as we have very undersized gardens on the estate and we have also paid to keep those areas in a well maintained condition.

The road around Shirley Oaks only has 2 exits as well, so would make it very congested as there are only 2 options for traffic to leave and enter and there are already a lot of problems at the Wickham Road end as people drive in and out.

I object to the following Ref Numbers:

Ref 541
Ref 542
Ref 548
Ref 128
Ref 504

I would appreciate any information you could send me in relation to upcoming meeting's about the proposals.

Change  

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Mrs Christine Clark

Object DM43.4

I am writing to strongly object to the development of land on Shirley Oaks Village.

The land was shared between residents and in 1985 designated by Croydon Council as “Amenity Open Land” because of our undersized gardens. The land was transferred to the Management Company, with each property owner as a shareholder in that company. I intend to fight for the use of this land.

My front garden is approximately 6’ x 4’ and the lawn in my back garden is only 6’ x 5’. Both my parents and I use the land for exercising dogs as the gardens are so small. This whole thing has come as a huge shock to all of us.

With regard to the traveller site. Travellers move around the countryside so why put a traveller site in such a residential area.

I appreciate the Borough needs affordable homes but the land on the estate is so restricted in size and the in and out roads to the estate are already extremely dangerous owing to the bends in the road. Health and Safety issues need to be addressed.

I strongly object to this development and will explore every possible way to restrict the development of these homes.

Daniela Reynolds

Object DM43.4

I wish to object the following planned proposals; ref:541, ref:542, ref:548, ref:128 and ref:504.

These planned proposals will not fit within the current aesthetics of the estate so please accept this email as an objection to the proposal.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
Mr David Cox

Object

Re your development plans 541,542,548,128 and 504. Consultation.

I am writing in response to your notices for development of the greenfield sites on the Shirley Oaks Village estate, changing the status of this land to allow development of around 700 new homes.

When I bought my house here 18 years ago, it was on the understanding that this had been designated by Croydon Council as metropolitan amenity open land, an attractive feature of the original development, important not least due to the relatively small gardens of some properties, a mixture of unit sizes in an harmonious design. Thus there is a mixture of family unit sizes and age groups at home here. For many years, I and my fellow-resident members of the Shirley Oaks Management Ltd company have contributed regularly to First Port Property Services and their predecessors under our common upkeep obligation, including provision of boundary posts at various points of these areas to ensure that visiting Travellers could not reoccupy them.

As I understand your plans, you now wish to "designate" this as non-metropolitan land, on which purchasers could build however suits their purposes. This does of course risk a complete change in the nature of our Village. I cannot pretend to understand how you can effectively cut a swathe through all of this, even if you do consider it justified. Some residents might I imagine now be considering the impact on their original investment and individual legal aspects. Against these general considerations, I would like to highlight some specific and practical concerns at the outset.

ROAD SAFETY

The perimeter road via Primrose Lane and Shirley Oaks Road is arguably no longer fit for purpose, increased car ownership and parking, fast through traffic including commercial and public transport all contributing. Buses on the 367 route for example frequently mount pavements to pass each other. There have been accidents, some serious, even fatal and involving elderly pedestrian residents. The road surface is nowadays subject to excessive heavy usage. Clearly, 700 new homes will surely accentuate these problems and dangers.

ENVIRONMENT

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Your plans will effectively remove an important green-field area and with it much unique wildlife. Residents will lose many of the valuable areas for walking, exercise and fresh-air, as will visitors. Any balanced village appearance and community feel to the estate will be consumed by so many new properties of different designs.

In summary many will surely feel betrayed by a Council which proposes removing green-fields against all promises. Some might also suspect that, whatever the social arguments, their interests are being sacrificed against political and ultimately commercial imperatives.

Once the area surrounding Shirley Oaks Village is re-designated the Council plans to build 751 homes on 5 separate sites. Supposing the average house is for 4 people, 3000 people in total will move to the area. The housing will attract families - potentially half being children. The Council mention no where in their 700 page document about the building of new schools (primary and secondary) nor the building of doctor surgeries, nor the expanding of the local shopping area let alone the already stretched local road infra-structure. Our local area can't cope as it is - St John's primary school has applied for an extension to cope with the current demand on its places. During rush hour buses frequently don't stop at bus stops because they are full. Traffic is often diverted down our road, Shirley Church Road, if there is an accident on Wickham Road or Gravel Hill. The dual carriage way (Shirley Park) is crawling along during rush hour. The council are planning to add another 1000 plus cars to this equation. Shirley is often described according to estate agents as leafy, popular, excellent schools. Prices reflect this. Just walking around the area people look after their houses and take pride in living here. People pay more money to live in this area. By building 751 more homes the character of the area will change completely.
We are also writing to object to Croydon Council’s plans to de-designate the Metropolitan Open Land on either side of Shirley Oaks Road and all around Shirley Oaks Village, changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan:

Your draft Local Plan identifies five sites:

1. the land at Poppy Lane is identified as suitable for 51 to 107 homes (pages 445-446, reference number 128);

2. Stroud Green Pumping Station, 140 Primrose Lane, including the conversion of the locally-listed pumping station, is identified as suitable for 26 to 68 homes (pages 451-452, reference number 504);

3. land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 80-215 homes (pages 453-454, reference number 541);

4. land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455-456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542);

5. land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes (pages 467-468, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 548).

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

I am writing to object to:

1. THE DE-DESIGNATION of the following five pieces of land as Metropolitan Open Land around Shirley Oaks Village and their proposed use as housing:

   - Land to the west of Shirley Oaks Road reference number 542
   - There is only one narrow very winding road which runs through the village and this could not cope safely with any additional traffic. It is single file around bends as it is and the local road infrastructure would be overburdened.
   - These open spaces are collectively designated as Metropolitan Open Land and it would be unacceptable to lose a link to this chain.

   - Additionally, this area is a flood plain and there is a sink pond to the rear of Honeysuckle Gardens. There would be a detrimental effect and potential flooding of existing and planned properties.

   - Three of these sites are owned by the residents of Shirley Oaks Village through the Shirley Oaks Management Company in which every freeholder has a share. The three land sites in question are:
     1. Land to the east of Shirley Oaks Road reference number 541
     2. Land to the west of Shirley Oaks Road reference number 542
     3. Land to the rear of 5-13 Honeysuckle Gardens reference number 548
     - Also on the land to the west of Shirley Oaks Road coming from the Wickham Road there is a Synagogue. The Synagogue, their car park and frontage are owned by the Jewish Community and they have no plans to sell this land. The Synagogue is on consecrated land and is in fact the only Synagogue in Croydon. It is discriminatory to have identified this site without first consulting with the Board of Management.

   - As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

DM43.4

542

I am writing to voice my full-throated objections to the above proposals because of the immeasurable damage it would do to the character of one of the leafier, more pleasant, parts of the borough. The council seeks de-designation of Metropolitan open land that, as a homeowner in Shirley Oaks Village, I own a share of, and it is protected by covenant. Such thoughtless destruction of our precious little green space (we were granted this Amenity Open Land in 1985 by the council due to our undersized gardens) is obnoxious, ill-conceived and damaging to the value of our properties, as planning blight could linger for a decade. Myriad other neglected parts of the borough are far more appropriate for such massive development and would not stir up so much ire from the current residents, nor would they require the politically-expedient moving of goalposts regarding land use. Our village simply does not currently have the infrastructure nor the capacity to expand in order to cope with these proposals. There is barely enough parking space available in the village at present, so quite where up to 683 other families will park and seek recreation, I do not know. Quite how all the construction vehicles involved in such huge building works would access the proposed sites without further detriment to the quality of life of the residents is another issue I raise. We are served by one bus route that can only use small, single-decker buses. The roads are too narrow for larger vehicles. How would this be overcome? Additionally, the fact that the council would seek to house the travelling community so close to the town centre, on land where in 2012 a group of them set up an illegal encampment and defecated in our woodland, beggars belief. If the council has an inexplicable legal obligation to designate land to travellers, then expand capacity at their existing sites in Beddington Lane and Featherbed Lane rather than dispersing them further across the borough into otherwise salubrious areas. I do hope that common sense prevails and that all five of the above proposals are quickly abandoned. I chose to live in this area precisely because it is not blighted by these hideous developments. I am sure that many other residents echo my sentiments.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become "white land" (land with no designation) in the Local Plan.
This land is owned by Shirley Oaks Management Limited (SOML). This is the management company for the estate whose shareholders are the home owning residents. SOML own and manage the open spaces on behalf of and for the benefit of the residents for whom the land is ‘amenity open land’, i.e., communal, recreational space. The land was transferred to SOML’s ownership in 1985 whilst the estate was under development. I believe that the developer had infringed planning regulations by reducing the sizes of the gardens included with the dwellings that it was building in order to increase the density of the housing beyond that which had been agreed with the local planning authority. The open land, which is currently being scrutinized as part of the Council’s policy proposals review, was effectively, a penalty levied on the developer whereby an amount of green space was given over to SOML to own and manage as redress and compensation to the residents for skimping on the sizes of individual gardens. I am assured by a Director of SOML that the company has documentary proof of all of the above points. The residents pay a service charge that, inter alia, covers the cost of managing and maintaining these open spaces. SOML is bound by its covenants with the residents that this land shall be managed and maintained as communal open areas for the collective enjoyment and benefit of residents as long as the estate should be in existence. Thus, there is no scope on SOML’s part for participating in any effort to develop these spaces and any attempt to develop them undermines the importance of those spaces in providing amenity open land, as previously ordered by the local Council.

I have just read an email from Gavin Barwell, our Conservative MP, and my husband and I are horrified that the green fields of Shirley Oaks are to be built upon. Especially if the land is to be put aside for gypsies! How can this be right when so many young families are denied council housing and are forced to pay for private lets because of the lack of social housing. My back garden backs onto The main road that runs through the Shirley Oaks estate so you can understand my concerns.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

1923/01/003/DM43.4/O Jane Anson

Object DM43.4

I have just read a letter from Mick Hewish, Resident Director of Shirley Oaks Management Ltd and I would like to object to the proposals for developing areas around Shirley Oaks.

These are as follows:
- Ref: 541 Shirley Oaks Road East side
- Ref: 542 Shirley Oaks Road West side
- Ref: 548 Land rear od Honeysuckle Gardens
- Ref: 128 Poppy Lane
- Ref: 504 Water Board HQ Primrose Lane

The high density of new homes would put considerable strain on the environment, including overcrowding, drainage, traffic and parking.

Objection to the allocation of Site 542 Shirley Oaks Road West side for proposed development as the high density of new homes would put considerable strain on the environment, including overcrowding, drainage, traffic and parking.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

1924/01/005/DM43.4/O Pamela Lees

Object DM43.4

I strongly object to many of the proposed developments within the Shirley area. I believe that allowing low rise developments around Shirley library will alter the balance of properties in that area, which are mainly detached and semi detached. People have moved to this 'sought after area' precisely because of its current character. I also object to the intensive developments proposed on the Metropolitan open land around Shirley Oaks. We need open land to reduce carbon emissions, for wildlife and for our own well being. Both of the above developments would put a huge strain on the services in the area, schools, doctors, busses and the already congested road system. I urge you not to progress with these proposals.

I also think that the two proposed travellers site in Shirley are inappropriate as they would be on Green Belt land, which is against your own policy and would be a blight on one of the few areas that are beautiful and wildlife friendly within Croydon.

I am always defending Croydon to those that mock it, saying that we have some lovely open spaces in which to walk and enjoy the diversity of nature. They only see the high rise blocks and litter. If these proposals go ahead, Croydon will have nothing left to commend itself.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object: Shirley Hills Residents Association

Object: Shirley Oaks Village open land being built upon. We have lived here happily for 13 years. We want to say we don't want houses or a gypsy site down the road. I will be writing to my local MP Gavin Barwell to defend our way of life in Shirley Oaks village. Leave our open / green spaces alone.

Change: As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
The proposal to build new houses in Shirley Oaks Road does not fall within the Strategic Objectives because:-

Objective 2: This development will not foster an environment where existing enterprise can prosper, but will reduce enterprise.

Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.

Objective 5: This development is not high quality and will not enhance the borough’s natural environment but will reduce the natural environment by turning a green area into housing.

Objective 7: This development will reduce the area as a safe, healthy and cohesive community but making the area overcrowded with residential property.

Objective 10: This development will reduce the quality and accessibility of green spaces and nature.

If this development is undertaken it will not deliver the strategic objective. This development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generations will suffer because of this. This proposed development of new housing in Shirley Oak Road is not in keeping with the surrounding area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in the area.

Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area.

Building a traveler's site will increase noise levels and ruin the character of the area and this development would overwhelm this green area.

Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions.

This development would diminish the area of green fields and recreational land within the area.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
2056/01/027/DM43.4/C Councillor Dudley Mead London Borough of Croydon

Comment
DM43.4 542

Site 542, Land to the west of Shirley Oaks Road, Shirley Oaks Road, is identified as suitable for 88-236 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Shirley Avenue and Wickham Road.

Change

Development at this site would be detrimental to the openness, character, visual amenity and setting of Metropolitan Open Land. It would affect the residential amenity and result in the loss of trees and vegetation to the detriment of the surrounding area.

Change
As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
We do accept that Croydon does need to provide new housing but this has to be on appropriate sites, i.e. previously developed land and not greenfield/metropolitan open land. We are firmly against this idea as it would set a precedent for inappropriate development/piecemeal development.

I and many residents in Shirley object to the following. 700 new homes to be built in Shirley oaks village with no provision for extra facilities like schools, doctors etc.

I object to the de-designation of Metropolitan Open Land for the purpose of house building. My objection references MOL bearing the same protection from development as the Green Belt. If the Council will not agree to maintain the MOL status, designation as Local Green Space would lessen the negative impact on the local environment. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Shirley Avenue and Wickham Road.

The planning permissions proposals below I object to ref 542. If the Council will not keep the land as MOL it should at least be designated as Local Green Space. I am particularly concerned about the effect of local roads that the suggested development will have as, when Heron Homes built the original development some years ago they were prevented by the local council from building the number of houses now proposed because of inadequate access roads onto the estate. Under present conditions the A232 Wickham Road is particularly subject to traffic delays especially in term time. Your proposed developments would also have a detrimental effect on our already crowded local schools and doctor's surgeries.
Mrs Susan Lockyer

DM43.4
542

I accept that more housing is needed but this could not be developed in addition to 541. It would have to be one or the other. Some may be achievable but certainly not 236, that is approx. half of the rest of the estate put together! However the land is privately owned. The local management company has worked hard to maintain the green area and retain areas suitable for wildlife. The privately owned land is used by the residents as the properties do not have private gardens. The road is already congested with private cars making the bus route difficult. I do not consider it deliverable as planned, therefore it will not meet the present needs, let alone future needs. It is unrealistic to expect the land to sustain a limitless growth in population on relatively small patches. Transport will reach gridlock, the more land that is covered over limits drainage. More pipes will be channelled underground to bring in services and take away waste. Changes to due to global warming etc will be exacerbated if the population continues to converge on small land masses rather than spreading over the planet. In addition to the physical problems we would be creating, social problems will occur with people living in closer proximity in congested space.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
I object to ref 542-I am writing to you with regard to the recent changes in Planning policies by Croydon Council and their impact on the designation of grass areas in Shirley Oaks Village. These areas were formerly designated as Metropolitan Open Land and had protection form being built on. However my understanding is that these areas may now be changed to no Metropolitan Land thus allowing their use for future housing developments. As a resident of Shirley I would like to point out that our land was designated as 'Amenity Open Land' in 1985 by Croydon Council because of our undersized gardens and transferred to a Management Company, with each property owner as a shareholder of the Company. Whilst I fully accept the need for new housing in Croydon, in particular affordable housing for first time owners, it is clear the sheer scale of the proposed development and the resultant destruction of a precious greenfield site in Shirley Oaks Village that I object to. I would have no issue with a much smaller scale development of the village, as part of an overall plan for Croydon where new housing was primarily targeted toward development of brownfield sites under the council's jurisdiction. I urge you to consideration of my suggestions in the weeks ahead and look forward to receiving feedback in due course.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object

DM43.4

542

I object to the use of the land to the west of Shirley Oaks Road reference number 542 for housing.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object

DM43.4

542

I object to development on these sites as they are MOL and amenity land used by surrounding residents. This would be detrimental to the area as the existing houses on the Estate have undersized gardens and would be intrusive and lead to increase in traffic and access problems and noise issues.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object
Object The use of the following 5 sites for housing; ref no. 128, 504, 541, 542, 548. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as local green spaces.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Support Soundness - Justified My objections are based on the fact that the proposals are not in the best interests of the electorate of the borough and that the proposals will only be harmful to the environment offering no benefits to the community. Building on the Green Belt is not the best option.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object I object to the use of the Land to the west of Shirley Oaks Road reference number 542 for housing:

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces.

Developing these sites with the amount of homes suggested would increase the volume of traffic in an area which is already congested in morning and afternoon rush hours and would put increased pressures on local schools and public transport.

I am aware that more affordable houses are needed but please reconsider these plans which will totally change the area in which we have chosen to live and definitely not for the better.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object to the use of this site for housing.

If the Council will not keep it as Metropolitan Open Land it should be at least designated as Local Green Space.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Object Soundness - Justified

DM43.4 542

Site 542, Land to the west of Shirley Oaks Road, Shirley Oaks Road, is identified as suitable for 88-236 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Shirley Avenue and Wickham Road.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object DM43.4 542

Mr & Mrs Jeffrey

I thoroughly object to these proposals, the traffic has built up over time and I wouldn't even want to begin to imagine what Shirley Oaks would be like if another 600+ homes where to be built, that would be practically dubling the size of Shirley Oaks as it is at present.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object DM43.4 542

Mr & Mrs Jeffrey

I will be objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). If the Council won't keep it as MOL it should at least designate it as Local Green Space so that it has some protection. I will also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
We strongly object to Croydon Council’s local planning proposals and plans for development to the site being used for residential development. We strongly object to the de-designation of the Metropolitan Open Land around Shirley Oaks Village. No more housing should be built on MO land and it is inappropriate for development since it would over-stretch the local road infrastructure with the additional traffic. The road in and out of Shirley Oaks Village is very narrow and there is hardly enough room for the bus to get by. The increased volume of traffic and parked vehicles would be unmanageable bringing traffic in all directions to a complete standstill. We believe the council needs to rethink its proposals for the sites, but would hope that in any event, an overwhelming majority of homeowners living in the village will reject the council’s proposals. Not only would the area be an eyesore, but the proposal to build a whopping 700 new homes is unrealistic as the open green spaces are very small. You would also be destroying the wildlife by cutting down our precious trees and removing the open green spaces. It was agreed, and we believe documented, that after the build of phase 5 on Shirley Oaks Village that no more houses would be built, and this was a deciding factor when individuals bought their properties on Shirley Oaks Village. If over 700 new homes are built, it would no longer be a village but instead an ugly built-up housing estate, changing the character of the landscape completely. From our perspective, if the proposals were approved, we would have no choice but to move away from the area. It would be too upsetting to see our open green spaces developed to excess with over 700 new homes. I have no doubt that developing the land would also devalue the property prices in the future. We find the council’s proposals ludicrous and unreasonable. It is imperative that we protect the precious remaining green spaces around Shirley Oaks Village. On that basis, we vigorously object to the council’s proposal to develop the
Object

DM43.4

We strongly object to the changes to designations of our grass areas. As a resident and shareholder I point out that our land was designated by Croydon Council in 1985 as Amenity Open Lan because of our under-sized gardens. This land is for our use. Not only would building be detrimental to our health and well being but also to the varied and protected wildlife that we have. There are plenty of rundown places in Croydon which should be regenerated and can be built on without impinging into our green spaces.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object

DM43.4

Soundness - Justified

I object to the designation of Metropolitan Open Land around Shirley Oaks enabling parts of this land to be used for housing and in particular site 542, with which I have an adjoining boundary. Should the Council not keep this land as Metropolitan Open Land these spaces should at the least be designated as Local Green Space.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object

DM43.4

I object to the use of the site for housing. If the Council will not keep this site as MOL, it should at least be designated as Local Green Spaces.

Change

Object

DM43.4

I object to the use of the site for housing. If the Council will not keep the site as MOL, it should at least be designated as Local Green Spaces.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Object DM43.4 To build on this land would alter for
the worse, the character of the
neighbourhood and present social
problems of overcrowding. The
current infrastructure could not
support such a development.

Change As this site does not have a
willing landowner it is unlikely that it would be
developed. Therefore the
proposed allocation will not be
carried forward into the
Proposed Submission draft
and the land will in effect
become 'white land' (land with
no designation) in the
Local Plan.

Object DM43.4 I wish to register my objection to the
proposed plans for the housing
development on the green areas
around the Shirley Oaks Estate.

Change As this site does not have a
willing landowner it is unlikely that it would be
developed. Therefore the
proposed allocation will not be
carried forward into the
Proposed Submission draft
and the land will in effect
become 'white land' (land with
no designation) in the
Local Plan.

Object DM43.4 I strongly object to your proposed
development plans for this site.

Change As this site does not have a
willing landowner it is unlikely that it would be
developed. Therefore the
proposed allocation will not be
carried forward into the
Proposed Submission draft
and the land will in effect
become 'white land' (land with
no designation) in the
Local Plan.

Object DM43.4 Our Local Green Belt should remain
as such and not de-designated as
Metropolitan Open Land which then
could be used for new
housing. I strongly object to this
proposal.

Change As this site does not have a
willing landowner it is unlikely that it would be
developed. Therefore the
proposed allocation will not be
carried forward into the
Proposed Submission draft
and the land will in effect
become 'white land' (land with
no designation) in the
Local Plan.
Ms Karen Fletcher

Object DM43.4 542

We wish to register our objection to the proposals to change the policy map 43 in relation to Metropolitan Open Land at Shirley Oaks Village. Like many residents we purchased our home on the understanding that the MOL was owned by the residents themselves and would not be developed. It was a strong factor in our decision to purchase our house. The land itself was transferred to the management company by a transfer dating 30 July 1991 made between Heron Homes Limited and Shirley Oaks Management Limited. The third schedule to this transfer contains restrictive covenants and I have attached the relevant clauses. These clauses that the land is to be used as open space so I do not understand how you can ignore this and grant planning permission to build houses. We understand the need for more housing but feel that this is not the way forward. It would be far better to look at the buildings/land owned by the London Borough of Croydon first to see which could be used as residential properties. The old Ashburton Library in Ashburton Park is such a building that could be redeveloped and used for housing and I am sure there are many more.

Mrs S White

Object DM43.4 542

I object to the use of the land to the west of Shirley Oaks Road reference number 542 for housing.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Mr John Booroff

Object: Soundness - Justified

DM43.4

Please note that I wish to object to the proposals set out in reference numbers 504, 541, 542, 548 and 128, for the following reasons:

- There has been insufficient notice of the consultation period, and the proposals are not clearly set out as pertaining to Shirley Oaks Village.
- This site is designated as Metropolitan Open Land, and I do not agree that it does not meet the criteria, as it does contribute to the physical structure of London, and there currently are open-air facilities, which serve significant parts of London.
- Increasing the housing density in this development will have a detrimental effect on the overall environment, and will decrease the value of these homes, as the development contains smaller gardens than those originally planned, and the surrounding green spaces were left vacant to compensate for the lack of adequate open space.
- Any change in the restrictions will adversely affect the accessibility to nature and wildlife of the area, which contains features of metropolitan importance.
- There is inadequate infrastructure in the locality to accommodate such an increase in population.
- There has been an inadequate investigation of the brownfield sites, which already exist in the borough, or of other open land which could be used instead.

In view of the above, please register my objection to all five proposals, and please acknowledge receipt of this email.

Change:
As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mr John Booroff

Object: Soundness - Justified

DM43.4

Land at Poppy Lane and Primrose Lane, Shirley Oaks Village.

Residential development.

Can you please inform me why?

- All three consultation documents have only appeared in the last few days, yet the consultation meetings are for 25th and 28th of November. This is surely insufficient notice.
- I have tried to view the proposals on your website without success. Why would this be?

In view of the insufficient notice and lack of both digital as well as hard information, please register this email as an objection.

Change:
As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
2572/01/002/DM43.4/O Mr Keith Simmonds

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

2578/01/003/DM43.4/O Mr Tau Wey

Object

DM43.4
542

I am concerned about this proposal. When I bought my house in Angelica Gardens, Shirley Oaks Village, it was my understanding that I would also become a communal owner of the surrounding Amenity Open Land. This was guaranteed by each freeholder in Shirley Oaks owning a share of the Shirley Oaks Management Limited, which in turn owns and manages the Amenity Open Land.

Like many residents, I purchased my house partly due to the pleasant areas of green space available in my surroundings. I also think that the character of the current surrounding gives each property the value that it currently has.

I would also object to attempts by Croydon Council or other agencies to attempt to purchase the land from Shirley Oaks Management Limited in the future.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
I am emailing to outline my objections to the planning notices in relation to the above reference numbers which concern land near to Shirley Oaks Road, Honeysuckle Gardens, Poppy Lane and Primrose Lane.

I object to these proposed developments for the following reasons:

1. The move to unravel the protection of Metropolitan open land from significant housing developments is a disappointing and avoidable move by Croydon Council. This sets an unnecessary precedent. This land should be protected by its designation and the council has sufficient options elsewhere in the borough on land that has no such designation.

2. Much of the land concerned was designated by Croydon Council in 1985 as "Amenity Open Land" because of the under-sized gardens of many of the Shirley Oaks property. I live with a young family on Shirley Oaks with a very small garden and object to the loss of this open land which is regularly used by young families and residents of the area who do not have large gardens or any gardens at all in some instances.

3. Such proposals will unduly change the character and desirability of the local area which is defined by its open space. Shirley Oaks remains one of the few genuine peaceful residential areas within the borough and such thoughtless development will threaten this.

4. The roads leading to Shirley Oaks are roads not given to significant volumes of traffic. Increasing the density of the population within the immediate area as substantially as you are proposing creates challenges for traffic and parking. The scale of the developments will exponentially increase the volume of traffic and create challenges for parking.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Ms Ellie London

Object DM43.4

I object to the use of the site for housing.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Ms Rachel James

Object DM43.4

I object to the following proposal for shirley oaks village. Ref: 541, Ref: 542, Ref: 548, Ref: 128, Ref: 504

I love my home currently on shirley oaks our gardens are considerably in the small side and I daily take walks on to the land with have with my 2 children and husband. I feel this would depreciate the area and I wouldn't be happy with any of the above plans.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Helen Armstrong

Object DM43.4

I am writing to register my household's objection to the proposed developments in Shirley. The projected number of homes will impact dramatically not only on the existing residents and the open feel of the site, but essentially on the transport infrastructure. Wickham Road is a major route, prone to congestion at peak hours and any significant increase in road users will have a dramatic knock on effect not for residents and also for commuters in all directions. The Trinity roundabout is a major junction with many bus routes passing through, this would grind to even more of a halt. The potential number of proposed properties is unacceptably high.

Objection to the proposed development of Site 542

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Ian Broyd

Object DM43.4

If the Council will not keep them as Metropolitan Open Land, the five sites should at least be designated as Local Green Spaces and not used for housing.

The site should be Local Green Space.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

</table>
The more specific site allocations represent a large reduction in the amount of designated and non-designated open space. While we acknowledge the need to build new homes and associated infrastructure such as schools, Croydon’s growing population also needs quality open spaces for all the human amenity and ecosystem services which they provide.

We object to the proposed development on green spaces, which are currently designated, and should remain designated, as part of the Shirley Oaks MOL. As mentioned as part of our response to SP7, we feel that most of the site still warrants its MOL designation. We object to the following site allocations as they will fragment the green space impacting on residents’ amenity and wildlife’s use of the area (both current and potential).

The presence of scattered detached housing does not impact the overall openness of the site, and therefore is not a reason to remove the designation of MOL and allocate for further development.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Object Soundness - Effective DM43.4 542

Mrs Y Sussey

object to proposals at this site because of the increased risk of flooding and adverse impact on air quality. New Housing should be on brownfield sites

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Ms S Mawaziny

I object to the use of the Land to the west of Shirley Oaks Road reference number 542 for housing:

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

C Morley-Smith

Respect green fields and use brown field land first. Don’t just build to reach targets without proper research, debate and thought of the long term consequences.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
Mrs Patricia Harding: Object DM43.4 S42 I would like it known for the record that I strongly object to any changes of use to the open land within Shirley Oaks Village. Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mr & Mrs Kellas: Object DM43.4 S42 I would say to the Council Croydon is full and kindly leave our precious Shirley open spaces and attractive streets alone, we don't need an odd assortment of blocks of flats amongst the semi-detached and small detached properties here, or in similar Croydon suburbs - it would be an architectural disaster along the lines of the 1950s concrete jungle development of the centre of Croydon. And we don't have the infrastructure to cope with more people, or the roads to cope with the traffic we already have. Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mr & Mrs Perry: Object DM43.4 S42 The proposal to build 750 homes on our amenity open land is depicable, we have lived here since 1986 and paid yearly for these grounds to be maintained. Croydon needs open spaces and trees for the town to breathe. The process of building in this small area would be intolerable and increase the traffic at the Wickham Road and Shirley Road would be horrific. We will complain to our MP to stop this lunacy. Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mr Beresford Walker: Object DM43.4 S42 I object to Policy DM43, reference Site 542 to build new homes on land to the East & West of Shirley Oaks Road. Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mr & Mrs Panagakis: Object DM43.4 S42 Object to the use of land to the west of Shirley Oaks Road (reference number 542) for housing. Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

<td>Object to site 542 as the site is undeliverable for the following: lack of evidence to support de-designation as the report relies entirely on opinion uninformed by actual specifics of land use and forms an important of Shirley's green infrastructure. The land is used for recreation and its loss would be contrary to the Mayor's Pan Policy 17.7 which highlights the positive aspects of MOL such as play areas for children and amenity areas for grandparents to play with their children, play areas for kids going home from school and also for others such as dogwalkers. The land should be retained as MOL as it meets the criteria set out by the London Plan.</td>
</tr>
</tbody>
</table>
I am writing to object to:
The use of the following five sites for housing:
• Land at Poppy Lane reference number 128
• Stroud Green Pumping Station, 140 Primrose Lane reference number 504
• Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541
• Land to the west of Shirley Oaks Road reference number 542
• Land to the rear of 5-13 Honeysuckle Gardens reference number 548

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. People buy property on Shirley Oaks Village because of the green open spaces, the peace and tranquility, the beautiful old Oak Trees. You cannot suddenly take that away these surroundings; people have spent hard earned money to live on this Village. Residents also pay for maintaining these green open spaces. The service road will not take any more traffic; two buses can hardly pass, and indeed were not supposed to drive round the estate together because of the small service road. There is a hospital and ambulance station on the estate, and any increase in traffic will interfere with their services.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Soundness - Justified
I am writing regarding the Council’s plans for a massive redevelopment in the Shirley Area. More houses mean more traffic on our already crowded roads. I no longer go into Croydon because of the journey times. How long would it be before the Council considered bringing in a congestion charge. When you build all these properties do you consider the local amenities and the effect that more people would have on these. Where are the school places for all of these children? Regarding doctors. Unless it is an emergency I have to wait at least a week for an appointment. This waiting time can only increase if there are more patients. Is it the Council’s policy to build over green belt land to the detriment of locals? I sincerely hope not. I think you need to seriously reconsider these plans.
Change

</table>
These open spaces are collectively designated as Metropolitan Open Land. It would be disastrous to lose a link in this chain.

**THE SHIRLEY GREEN CHAIN**
The green open spaces of Shirley Oaks Village provide several links in the Shirley Green Chain. This chain starts at the South Norwood Country Park in the north and runs south through Ryland Fields, Long Lane Woods, Ashburton Playing Fields, the open spaces of Shirley Oaks Village, Trinity School playing fields, Shirley Park Golf Course and up to the Shirley Hills. From there the Green Chain continues through Heathfield, Bramley Bank Nature Reserve, Littleheath Woods and via Selsdon Park to Kings Wood at Hamsey Green. These open spaces are collectively designated as Metropolitan Open Land. It would be disastrous to lose a link in this chain.

**Planning Policy Guidance Note 9**
This guidance stresses the importance of nature conservation, not only on nationally important sites, but also suggests that many urban sites for nature conservation have enhanced local importance as a consequence of the relative lack of wildlife sites in built up areas. Statutory and non-statutory sites which provide wildlife corridors, links or stepping stones from one habitat site to another, all help to form a network necessary to endure the maintenance of the current range and diversity of our flora and fauna.

The Green Spaces in Shirley Oaks were designated as Metropolitan Open Land and today still meet the criteria for this protection. The sites (1) contain conservation and habitat interest of value at a metropolitan level and (2) forms part of the Shirley Green Chain. These are two of the criteria for Metropolitan Open Land. The Green Spaces in Shirley Oaks Village were designated as Metropolitan Open Land and today still meet the criteria for this protection.

These sites possibly have a section 52 agreement, and are part ownerships shared by each of the Shirley Oaks Village residents.

Re-designation of MOL falls foul of

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
the London Plan.

Existing dwellings to be retained or demolished? If retained the Site Area should be adjusted to take account of the existing dwellings: The Lodge, Beech House & Ash House? On the East site And the Synagogue and the two house (can’t read their names) on the West side.

Infrastructure not specified to support development.

Schools are oversubscribed; GP Surgeries oversubscribed

Road system could not cope with the increase in traffic during peak travel times

Area has high water table and is subject to flooding.

London Plan

POLICY 7.17 METROPOLITAN OPEN LAND

Strategic

A The Mayor strongly supports the current extent of Metropolitan Open Land (MOL), its extension in appropriate circumstances and its protection from development having an adverse impact on the openness of MOL.

Planning decisions

B The strongest protection should be given to London’s Metropolitan Open Land and inappropriate development refused, except in very special circumstances, giving the same level of protection as in the Green Belt. Essential ancillary facilities for appropriate uses will only be acceptable where they maintain the openness of MOL.

LDF preparation

C Any alterations to the boundary of MOL should be undertaken by Boroughs through the LDF process, in consultation with the Mayor and adjoining authorities.

D To designate land as MOL boroughs need to establish that the land meets at least one of the following criteria:

a) it contributes to the physical structure of London by being clearly distinguishable from the built up area
b) it includes open air facilities, especially for leisure, recreation, sport, the arts and cultural activities, which serve either the whole or significant parts of London
c) it contains features or landscapes (historic, recreational, biodiversity) of either national or metropolitan valued it forms part of a Green Chain or a link in the network of green infrastructure and meets one of the above criteria.
The policy guidance of paragraphs 79-92 of the NPPF on Green Belts applies equally to Metropolitan Open Land (MOL). MOL has an important role to play as part of London's multifunctional green infrastructure and the Mayor is keen to see improvements in its overall quality and accessibility. Such improvements are likely to help human health, biodiversity and quality of life. Development that involves the loss of MOL in return for the creation of new open space elsewhere will not be considered appropriate. Appropriate development should be limited to small scale structures to support outdoor open space uses and minimise any adverse impact on the openness of MOL. Green chains are important to London's open space network, recreation and biodiversity. They consist of footpaths and the open spaces that they link, which are accessible to the public. The open spaces and links within a Green Chain should be designated as MOL due to their London-wide importance.

2775/01/043/DM43.4/O Cllr Tim Pollard
London Borough of Croydon
Object Soundness - Justified DM43.4
Site 542, Land to the west of Shirley Oaks Road, Shirley Oaks Road, is identified as suitable for 88-236 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Shirley Avenue and Wickham Road.
Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object

The preferred approach is not the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3. The land is current Green Belt or Metropolitan Open Land or otherwise designated green land and should not be built on. I disagree that it "does not contribute to the physical structure of London". Just because it has no facilities does not mean that it is not an asset to the life of London. Yes, it is deliverable but should not be delivered on that land. No, it is not sustainable because it removes the need for green space for future generations.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

The site is owned by Shirley Oaks Management Company. The site is currently designated MOL. There is a legal agreement which relates to the land and identifies an area of which the site is part. It requires that the site be transferred to a management company and be held as amenity open space. The company is the successor in the title to the original developer. The Section 52 agreement prevents development of the site and therefore it is not deliverable. The MOL designation should remain. Should the decision to de-designate the site as MOL, it should be designated at local green space. Development of the site would not comply with the NPPF nor would it be sustainable development for the reasons set out above and those identified in respect to the objection to Policy SP7. The highway network is already at saturation point and in any event any proposed residential development would generate an unacceptable amount of traffic. The site has a high water table.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

I object to the use of the following five sites for housing:
- Land at Poppy Lane reference number 128;
- Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
- Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
- Land to the west of Shirley Oaks Road reference number 542; and
- Land to the rear of 5-13 Honeysuckle Gardens reference number 545.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
I write concerning Croydon Council's proposals contained in the consultation document of the Croydon Local Plan that includes the re-designation of Metropolitan Open Land in Shirley and specifically within the confines of Shirley Oaks. I consider these proposals and others listed above to be inappropriate as they would significantly change the character of the area in which I have lived all 61 years of my life and I wish to add my voice to those already expressing concerns and objections about these proposals.

I strongly object to the proposal to re-designate Metropolitan Open Land to facilitate the building of new homes on land in Shirley Oaks and the provision of temporary or permanent traveller/gypsy sites in areas that are acknowledged by the Council to be in the green belt at Coombe Farm and Coombe Lodge Nurseries in Conduit Lane.

These proposals are totally out of keeping with the character of the area which predominantly comprise owner-occupied semi and detached homes. Surely areas considered to be brownfield sites are more appropriate than the unacceptable use of Metropolitan Open Land?

The proposals affecting the area surrounding Shirley Library are also of concern as this would adversely change the character of the area and potentially result in the establishment of additional unsightly car-parking sites on the south side of Wickham Road, similar to that at the front of the Shirley Medical Centre at 370 Wickham Road.
These areas allowed by Shirley Oaks Management Ltd. 488 residents are shareholders in this company. This land was transferred to the above company in 1985 and designated as open amenity land by Croydon Council for use of residents as the gardens of the dwellings built by Heron Homes were very small.

These areas of open amenity land are fully utilised by the residents and others for recreation and leisure and are clearly identified as private land. High density building in these areas would result in lack of pleasure and leisure amenity for present residents, increase traffic congestion and an increased risk to residents personal safety and health especially through high pollution levels.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object

I object to the use of the site for housing.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object

I raise strong objection to the allocation of this site for development. I am a shareholder in Shirley Oaks Management Company which owns the land and maintains it. I pay a quarterly charge towards its upkeep. The traffic is already too much for the road through the village. Please do not allow our village to be destroyed.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

The proposal to build new houses in Shirley Oaks Road does not fall within the Strategic Objectives because:-

Objective 2: This development will not foster an environment where existing enterprise can prosper, but will reduce enterprise.

Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.

Objective 5: This development is not of high quality and will not enhance the borough's natural environment but will reduce the natural environment by turning a green area into housing.

Objective 7: This development will reduce the area as a safe, healthy and cohesive community but making the area overcrowded with residential property.

Objective 10: This development will reduce the quality and accessibility of green space and nature.

This proposed development of new housing in Shirley Oak Road is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in the area. Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area.

Building a travelers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area.

Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions. This development would diminish the area of green fields and recreational land within the area.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Mrs Janet Hills

Object: Soundness - Justified

DM43.4 542

1) I own pt the Land and am not prepared to sell my Share!
2) This open pasturage is used by children (playing) and dog walkers from other parts of Shirley. I know this because friends of mine walk their dogs - and pick up their litter.
3) It will grossly decrease the value of my property. !!!
4) I am in my 70's (I moved here 8 yrs ago because of the tranquility) and haven't the energy to move again !
5) The Wickham Road is already congested a lot of the time, I can't imagine what it'll be like with the introduction of 750 'new builds' on Shirley Oaks + the plans for altering other parts of Shirley.
6) There are wild birds, and animals, living here as well as us you know!!

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Jane Bowden

Object: Soundness - Justified

DM43.4 542

2) I understand that the Council are seeking to de-designate various pieces of land on either side of Shirley Oaks Road and around Shirley Oaks village, so that it is no longer Metropolitan Open Land, with a view to potentially building between 304 and 751 new homes. (Reference numbers 128, 504, 541, 542 & 548).

Open, green land is essential to maintain a pleasant living area, and to maintain the character of the area. In addition, this number of additional dwellings would seriously overwhelm the local infrastructure. In particular, the local road infrastructure could not cope with the additional traffic.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Mr John Helen

Object: DM43.4 542

Land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455-456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542).

I will be objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). If the Council won’t keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. I will also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn’t cope with the additional traffic.

I am happy for the Council to replace under-used garages with much-needed homes, but I will be objecting to building on precious open space.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
Our family has lived on Shirley Oaks Village approx 20 years ago and understood the village to be a Private estate and I am writing to object to the de-designation of the open land around the village and to the use of five sites for housing. The land rightfully belongs to the residents, the area and roads will become congested and property values will decrease.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

I am writing to object to the use of the Land to the west of Shirley Oaks Road, reference number 542, for housing:

1. The change in local designation and subsequent development would lead to a material reduction to an important green space and amenity within a basically urban area.
2. The effect and congestion on the local infrastructure which would be caused by the building of more housing to an already densely developed site.
3. The effect on existing property values of property to Shirley Oaks and surrounding areas caused by the reduced amenity and congestion.

I urge that the Council should take these and other objections in consideration and not continue with their plans to re-designate the areas described above.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Land currently designated as Metropolitan Open Land at Poppy Lane, Stroud Green Pumping Station, to the east of Shirley Oaks Road, to the west of Shirley Oaks Road and to the rear of 5-13 Honeysuckle Gardens has been identified as suitable for up to 741 homes (pages 445-446, 451-452, 453-454, 455-456, 457-458 Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference numbers 128, 504, 541, 542 and 548).

I object to these proposals on the grounds that:

This land is designated as Metropolitan Open Land and there is no justification for re designation. An increase of up to 741 homes on this land would put local services including schools, transport and already crowded roads under further pressure.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Once the area surrounding Shirley Oaks Village is re-designated the Council plans to build 751 homes on 5 separate sites. Supposing the average house is for 4 people, 3000 people in total will move to the area. The housing will attract families - potentially half being children. The Council mention no where in their 700 page document about the building of new schools (primary and secondary) nor the building of doctor surgeries, nor the expanding of the local shopping area let alone the already stretched local road infrastructure. Our local area can't cope as it is - St John's primary school has applied for an extension to cope with the current demand on its places. During rush hour buses frequently don't stop at bus stops because they are full. Traffic is often diverted down our road, Shirley Church Road, if there is an accident on Wickham Road or Gravel Hill. The dual carriage way (Shirley Park) is crawling along during rush hour. The council are planning to add another 1000 plus cars to this equation. Shirley is often described according to estate agents as leafy, popular, excellent schools. By building 751 more homes the character of the area will change completely.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

I strongly object to the proposed development plans for the Shirley Area. I have lived here all my life and have seen a steady influx of people, and a massive reduction in the green space in the area. The roads are already far too congested and the social infrastructure is already struggling to cope with the number of residents. There are many areas in the Croydon borough much more suited to such large scale development. I am thinking particularly of areas around Purley Way. There are also many brown field sites in the borough that could be put to more effective use as housing without affecting the green areas. I guess the council prefers to redevelop the green areas rather than the brown field areas due to cost. As I said I do not want my local area turned into a concrete jungle where there is nowhere for people to relax in the open.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
Mr Brian Jacobs

I am writing to object to all the proposed changes and plans affecting the Shirley neighbourhood as advised to me by Gavin Barwell and the Executive Committee of Spring Park Residents Association.

1) I object strongly to any plans to change the definition of existing land and use.
2) When dealing with the further extension of Shirley Oaks site I am disturbed by the fact there are just two access points i.e. Shirley Road and Wickham Road the latter being onto the A232 which is very busy all day and particularly during rush hour periods, when traffic backs up westwards to the Shirley Road roundabout and beyond.
3) The proposals for Shirley Oaks, given to me indicate land being suitable for between 304 and 751 additional homes. As many properties nowadays have at least one car this will have a serious additional congestion to Shirley and Wickham Roads.
4) Additionally, development of this size would have a serious demand on existing schools (primary particularly), doctors and other local services.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Christine McCarthy

I object to all the proposals set out for new housing and travellers sites in Shirley. I feel it will ruin the area by taking up all the open spaces.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Claire Hunt  
Object DM43.4  
542

I am writing to express my objection to the proposals of development to the Shirley oaks estate, on website www.croydon.gov.uk/policiesmap on "Changes to the policy Map 43" those being:-
Ref:541. Shirley oaks road East side, up to 215 new homes!!!
Ref:542. Shirley oaks road west side, up to 238 new homes!!!
Ref:548. Land rear of honeysuckle gardens, up to 125 new homes!!!
Ref:128. Poppy lane, up to 107 new homes!!!
Ref:504. Up to 68 new homes or gypsy site at the water board HQ, primrose lane!!!!!!!!!!!

I brought my home on 5 Flag Close, Shirley Oaks, Surrey, CR0 8XT as it was on a green and pleasant estate and on the understanding this land was designated to us as because of our undersized gardens. We were told this land would never be built on and each of the properties on the estate are shareholders of this land as it was designated "amenity open land" by the Croydon council and transferred to our management company.

We are forming groups and seeking legal advice and looking into the legal implications and small print to your proposals and will not take this laying

Mr John Mills  
Object DM43.4  
542

I object to the use of the site for housing. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?
Mrs Halina Tutt

Object DM43.4 542

This lovely part of Croydon seems to be the worst affected by the Council’s proposals. Croydon Council plans to de-designate the Metropolitan Open Land on either side of Shirley Oaks Road and all around Shirley Oaks Village. Metropolitan Open Land has the same protection from development as the Green Belt. The Council are proposing to remove this designation so that most of this land can be used for new housing. I am objecting to the decision to de-designate this land as Metropolitan Open Land. If the Council won’t keep it as such, it should at least designate it as Local Green Space so that it has some protection. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, but trust me, the local roads couldn’t cope with the additional traffic. If you ever travel on Wickham Road, Addiscombe Road or Lower Addiscombe Road at rush hour you will agree with me. The traffic is already horrendous and more housing would simply treble this problem.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Mr Paul Grosser

Object DM43.4 542

The planning permissions proposals below I object to ref 542. I have friends who live in Shirley Oaks village and I know them and myself along with many others all object to the proposals to build on the green areas. This grass area is used by many and would totally change the area if built on and we don’t want it. Part of the charm of this area is those green areas and it has something that you don’t find often in Croydon so please let us keep the green areas as we all object to them being built on.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Mr Ben Lynam

Object DM43.4 542

I object to the de-designation of Metropolitan Open Land in the vicinity of Shirley Oaks Road and Shirley Oaks Village. The land should be at least designated as Local Green Space, for its protection from development. This open space provides a green corridor between Shirley Oaks and the surrounding areas, and should be retained in its present form. Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the local schools are over-subscribed as well as the already-stretched social and healthcare facilities would be overloaded.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

DM43.4
542

I am writing to lodge my objection to some of the proposals contained in the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals. In particular:

1. Shirley Oaks
The proposal to re-designate the Metropolitan Open Land on Shirley Oaks Road and around Shirley Oaks Village so that it can be used for new housing (page 68, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals).

My main objections are:
This would result in the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area. The local road network could not cope with the additional traffic. Insufficient local infrastructure to cope with the increased population.

Conclusion
The proposals I have highlighted can only be viewed as negative. If adopted, they will increase the local population – and the density of that population – without providing any supporting infrastructure. The new residents from the planned apartment blocks and traveller sites will need additional public services such as schools, medical services and shops. Older residents will give way to young families who require greater social support, yet no additional resources are identified to help manage the changing demographic. Traffic congestion along already busy roads will increase, as will pollution and accident black-spots. The few remaining green spaces will disappear. Overall, the proposals signal a reduction in the quality of life for both the existing residents and the newcomer.

Change
As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
I am writing to object to:
1. The use of the following locations as gypsy and traveller sites:
   • Coombe Lodge Nurseries (site ref 661)
   • Coombe Farm off Oaks Road (site ref 502)
   • Poppy Lane (site ref 128)
   • Stroud Green Pumping Station (site ref 504)
   • Shirley Oaks Road/Beech House (site ref 541)
   • Shirley Oaks Road (site ref 542)
   • Honeysuckle Gardens (site ref 548)
   • Pear Tree Farm & Pear Tree Cottage (site ref 755)

   All areas provide vital green space in already densely populated areas, and there is insufficient infrastructure to cope with the additional traffic/population. Some of these areas are in the Green Belt, others are in Metropolitan Open Land. They would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mr David Harwood
Object DM43.4
542
(1) I object to residential development at the following sites & to the policy of de-designate of metropolitan open land at the following:
Land at the west of Shirley Oaks Road reference no 542

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

6 marigold way cr08yd objects to the planning proposals which are being planned for shirley oak village, this land rightfully belongs to the residents, leave our green areas alone.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Mr Graeme Monk

Object

I have read some of the planning proposals for Croydon, and I fear that some would seem to be poorly thought through. Any development around the Shirley Road area would need major road development also, which, in a major residential area would be catastrophic. Shirley Road has serious traffic congestion in both directions from the Lower Addiscombe Road to the Wickham Road; Addiscombe Road has congestion in both directions from Croydon; the Lower Addiscombe is congested from Croydon & towards Beckenham. If you add the number of houses in the green areas which you are proposing, we will have total gridlock. To think that these new developments will not own cars is living in a dream world. Buses will be in no better position to get through as there is no space for bus lanes. There are more suitable areas in Croydon for necessary housing which will cause less chaos for current residents, and a more pleasant environment for new residents.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mr Jim Cowan

Object

Soundness - Justified

I have read Gavin Barwell’s assessment of policies and proposals in the Croydon Local Plan and totally agree that if implemented would destroy the character of Shirley. The infrastructure in Shirley is already stretched to the limit and can not withstand any further burdens.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Sonya Millen

Object

I am also objecting to any of these sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn’t cope with the additional traffic.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
I have major concerns over the planned development of the Shirley Area. This is currently one of the nicest areas of Croydon and you plan to swamp it with a number of housing developments and some travellers sites. This will be very detrimental to the whole area.

I understand that nationally we need to have more accommodation for families. We need to achieve this with ought destroying the whole fabric of our society. This scale of development will transform the whole area into a old fashioned “Estate”.

There are not sufficient services in the wider area to support such an influx of families.

The road infrastructure already struggles at time and these developments will make the whole situation much worse.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
1. I am writing to object to re-designation of the Metropolitan Open Land around Shirley Oaks Village and the intention to build on open sites at Poppy Lane (ref 128), Primrose Lane (ref 504), Shirley Oaks Road (refs 541 & 542) and Honeysuckle Gardens (ref 548).

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

I am therefore writing to formally object to:

1. de-designation of the Metropolitan Open Land around Shirley Oaks Village;
2. the use of the following five sites for housing:
   • land at Poppy Lane reference number 128;
   • Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
   • land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
   • land to the west of Shirley Oaks Road reference number 542; and
   • land to the rear of 5-13 Honeysuckle Gardens reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?
Shirley Beddoes

We bought our property at the original building phase in Shirley Oaks many years ago and were informed that there would be no further development in this area and that all grassed areas were to remain undeveloped and were for the use of residents and local people at leisure, further to this we have paid yearly a maintenance cost to ensure these areas were up kept for this use. This is the main reason we invested in this property. The grassed areas are in constant use and development of these areas would change the natural village atmosphere that exists here and is one of the few areas of Croydon that there is an abundance of wildlife close to an urban area. The proposed development and designation of our grass areas is unacceptable and would infringe our rights as in our original contracts with Heron homes who built the site.

Mr & Mrs Nair

I write further to the recent proposals to develop on our green areas. I have been a resident for over 30yrs and strongly oppose these changes. Roads will be congested and property values will decline should these go ahead.

This land is private and belongs solely to residents who have been paying maintenance charges for the upkeep of the area.

I object to the new build on this land which will turn our quiet and safe community into an overpopulated area.

Please reconsider these proposals as none of the residents are in support of this.

Mr Peter Kenny

I am writing to object to The use of the following sites for housing: Land at Poppy Lane reference number 128 Stroud Green Pumping Station, 140 Primrose Lane Reference number 504 Land to the east of Shirley Oaks Road and the rear of Beech House and Ash House reference number 541 Land to the West is Shirley Oaks Road reference number 542 Land to the rear of 5-13 Honeysuckle Gardens reference number 548 If the council will not keep them as Metropolitan Open Land, these five sites should be at least designated as Local Green Spaces.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
The area of Shirley Oaks Village and its adjacent road infrastructure is already at breaking point. Any slight build up of traffic seriously hinders movement for residents. The 2 main arterial routes into Croydon or towards Bromley (being wickham road & lower addiscombe road) are extremely busy with traffic and often lead to extended journey times for those of us who wish to head in to one of these town centres or further afield in to London for work. As proven only yesterday when a traffic accident in the Shirley area led to a 3 hour journey home from bromley back to Shirley. The road network around here is poor. The interlink between Shirley Oaks village and it's surrounding area is poor. To add hundreds of houses within this area will only lead to increased volume of traffic on the surrounding roads and leave Shirley itself in an almost permanent state of gridlock. Shirley Oaks Road is always busy with vehicles parked up. This is due to a number of reasons; The excessive traffic on wickham road leading to people abandoning their vehicles to try and walk nearer to Croydon to catch a tram or bus. The unreliable 367 bus route which is often hindered by traffic or accidents outside of Shirley Oaks Village leading to people driving closer to other bus routes. The use of the local synagogue. Combine these issues above with the additional housing being proposed and the vehicles that come with them, Shirley Oaks will become even cut off than it already is. There are many elderly residents in this area that rely on carers (friends etc) being able to visit them. They often complain about the issues I have raised above and I can only see this getting worse should the proposals for Shirley go ahead. Croydon is a massive borough so there must be other areas that these proposals could be met.

I object to the use of the site for housing. If the Council will not it as Metropolitan Open Land, it should at least be designated as Local Green Spaces. Building housing on it would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas and change the character of this area.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

| 3355/01/002/DM43.4/O | Mr John Mullis | Object | DM43.4 542 | In response to your notices for the development of the greenfield sites on Shirley Oaks Village and the intention to change the status of this land, I make the following observations: In 1985 Croydon Council designated land within Shirley Oaks Village as "Amenity Open Land" because our gardens were small due to the layout and construction of the area by Heron Homes. This amenity land is owned collectively by the property owners who own 1 share each. The shares are held by the current trust company - First Port, who also maintain this estate. Is compulsory purchase envisaged? If a total of some 700 homes the village would need vast changes to its infrastructure to accommodate these properties. The present main road - Primrose Lane/Shirley Oaks Road is barely able to cope now - with just a single decker bus allied to a growing number of cars. There is a regular flooding problem during heavy downpours - particularly from Primrose Lane into Laburnum Gardens. The loss of a wildlife conservation area is surely against wider interests including many present owners. | Change | As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan. |

Change

Regarding the proposal to build around Shirley Oaks Rd. I wish to register my disapproval and hope the land will remain Open Land.

Change

As a shareholder of the open space in Shirley Oaks I would like to object to the proposals made in Policy Map 43.

One of the reason I bought the property was for the nice open spaces that surround the houses.

Building unnecessarily on this land will change the whole look and feel of the community of Shirley Oaks Village. We have one road in and out of the village and cramping in 700+ homes onto our lovely open space will also create congestion on the one road.

Shirley Oaks is privately owned and we take pride in our village and how it looks and will fight against these proposals.

Change

I strongly object to these plans as a resident of hazel close I am a shareholder of Shirley oaks management and feel strongly that the land be left as it is as we have very small gardens and pay for these open land areas to be kept and maintained for our use and enjoyment. Also these plans especially the ref 504 will devalue my property immensely and will downgrade the area dramatically.

Change
One of the requirements of the Pitt review of 2007 was for the Environment Agency to provide some warning for surface water flooding, as was already the practise for river and coastal flooding. The result was the LIDAR returns which are provided on the Environment Agency’s website under ‘what’s in my backyard’. This shows clearly how the lie of the land amongst the Shirley Oaks Estate causes surface water to run from South to North joining another stream which runs in from the SW from Shirley road into Primrose Lane. On numerous occasions over recent wet winters we have had a constant stream of water running across the kerb into Primrose Lane which has on occasion caused substantial amounts of ice to form. No doubt your winter maintenance department could confirm this is an area where they have to regularly do spot treatments of rock salt- since they do Primrose lane as it is a bus route, when other parts of the network are totally dry and do not require treatment.

From the Pitt Review of 2007, RECOMMENDATION 7: There should be a presumption against building in high flood risk areas, in accordance with PPS25, including giving consideration to all sources of flood risk, and ensuring that developers make a full contribution to the costs both of building and maintaining any necessary defences. Section 5.14 of the report reiterates that PPS25 applies to all sources of flood risk. This states that an SFRA (surface flooding risk assessment) should assess surface water flood risk and identify critical drainage areas. Good information is therefore needed from sewerage undertakers and other sources, including local knowledge, historic flooding and risk modelling. Local authorities should ensure that SFRAs carried out on their behalf adequately address this type of flooding. I find it difficult to believe this has been done as otherwise there would have never been a suggestion of using the remaining green parts of the estate in this way.

Any increase in the built up area around the estate would thus exacerbate the already on occasion saturated surface. Having investigated in detail the benefits in the reduction of flooding by the provision of trees, I have found that Oak trees can use up to 50 gallons a day and some trees on a hot day will utilise 150-200 gallons (wiki-answers.com). Trees admittedly are most effective when we are in the
growing season at excess water removal, but that is also when we tend to have the most extreme rainfall events. Having looked at ‘Heavy falls in a day’ and ‘Heavy falls in short Periods’ both produced in part for British Rainfall by the Met Office (my employer), I have found that invariably the most extreme rainfall happens in SE England between June and September. This is just when a tree is in full leaf so not only intercepts falling rain by the size of its canopy, but also as it is growing, that rain which reaches the soil is quickly extracted for use in the tree’s transpiration. Preliminary research results from the University of Manchester indicate that trees can reduce runoff by as much as 80% compared to asphalt. Thus the best way to alleviate summer extreme rainfall surface water flooding is not to remove trees.

The soil on which Shirley Oaks is located is of a clay type and is therefore impervious; another reason why it reacts to surface water flooding the way it does. The large area of grassland is ideal for ‘making room for water’ as a water storage area; thus to remove this pooling facility will mean the rain will have to find somewhere else to go, which would inevitably mean flooding for Shirley Oaks residents. Also I have learned, from Meteorological Office memorandum No 80 the properties of soils in NW Europe, that the root system of grassland provides a channel through which some rainfall does manage to slowly percolate through beneath the surface even with clay soils. However, without the grassland root system the water just tends to form bodies of water lying on the surface. This effect of our grassland is very helpful in alleviating the surface water flooding in winter, which occurs when prolonged rainfall totally saturates the area, and the trees are no longer as effective at its removal.

So in conclusion:
- We need trees to mitigate effects of extreme rainfall in summer, something which will become increasingly frequent with global warming.
- We need open grassland for water to accumulate in winter when trees are less effective at water removal from the system, whilst in addition their root systems help to aid percolation beneath the soil reducing surface flooding. Over the last 40 years winter rainfall has been increasing throughout the UK.
- Soil behaviours also dictate risk of flooding. We have issues because:
1) We are on a clay soil type so low permeability and heavy rain does not soak in but floods.
2) We are on sloping ground with tendency for run off to flow south to north across the site.
3) We, also because of having a clay soil, have a high water table, so in winter many areas of the site are wet and all parts stay damp throughout. Thus water-logging very quickly occurs and there would with the proposed building work be less and less places for the water to flow to.

I moved to the area with the understanding that the grass areas had protection from being built upon and I strongly object to the council proposing the new developments as referenced above. This will make the area I live in with my family crowded and I bought my property with the understanding that the grass areas would not be built on.
First, the Council plans to de-designate the Metropolitan Open Land on either side of Shirley Oaks Road and all around Shirley Oaks Village (page 68, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals). Metropolitan Open Land has the same protection from development as the Green Belt. The Council is proposing to remove this designation so that most of this land can be used for new housing. The draft Local Plan identifies five sites:

- the land at Poppy Lane is identified as suitable for 51 to 107 homes (pages 445-446, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 128);
- Stroud Green Pumping Station, 140 Primrose Lane, including the conversion of the locally-listed pumping station, is identified as suitable for 26 to 68 homes (pages 451-452, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 504);
- land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 80-215 homes (pages 453-454, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 541);
- land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455-456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542); and
- land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes (pages 457-458, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 548).

I will be objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). If
the Council won't keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. I will also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic.

I have only lived on Shirley Oaks for 5 years, but one of the things I love the most is walking my children over to the grass areas so they can play. As you probably already know, our gardens are quite small so it's really nice to have space to take full advantage of. Another thing that disappoints me, is that one of the selling points of our house, is the fact that all the land around the estate is protected from building on. I strongly disagree with any of your plans to build upon this land, and along with other Shirley Oaks residents will do my best to get our voices heard.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Mr Alan Heathcote

We wish to object in the strongest terms to the plans being discussed regarding the proposed development of land for new housing in the Shirley area, specifically the building of Gypsy/Traveller sites on our doorstep, and the inherent increase in crime and anti-social behaviour that always follows, and can be seen in many examples nationally. Not only this, but the whole ‘Village’ feel of the area will be completely obliterated, and the very things that attracted us to move to Shirley (off Orchard Ave) will be no more. Of course people need a place to live and raise families, but time and again we have seen the resultant decline of neighbourhoods, with rubbish, noise and theft frequent occurrences. We urge you to think again and take heed of Gavin Barwell’s very real concerns, and those of what I’m sure are many of his constituents, and other Shirley dwellers. We are particularly concerned that you should take into account the fears of ordinary hard working people like us, who want to enjoy life (we’re not ‘oldies’) in a pleasant community, and think again about the following proposals:

- land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455-456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542);

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Mr D Lane

Mrs E Thomas

Object DM43.4 S42

I wish to log my objection to the borough-wide planned changes Croydon Council are proposing to make in their Local Plans for 2016-2036. These proposals are 750 new homes in Shirley Oaks and 35 new homes on the Shrublands Estate. Also the proposed work to the two large gypsy/travellers site in Coombe Farm and the Conduit Nursery of Coombe Road.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mr & Mrs Proctor

Object DM43.4 S42

We are writing to object most strongly to the Croydon Council's Local Plan for housing on Green Belt land, with particular reference to Shirley.

Our Green Belt should be protected at all costs and brown field sites must be targeted. In this respect, we support our MP Gavin Barwell’s objections, which you will doubtless have received.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mr F Kurum

Object DM43.4 S42

I am writing to object to the use of the following five sites for housing:
- land at poppy lane (128)
- Stroud Green pumping station, 140 Primrose Lane (504)
- land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House (541)
- Land to the west of Shirley Oaks road (542)
- Land to the rear of 5-13 Honeysuckle Gardens (938)

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Space.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
I would like to oppose the redevelopment of Shirley Oaks Village most strongly, we brought our property 8 years ago and were told that no further building would happen as our property runs along the side of one of your proposed sights. My understanding was that we paid a quarterly maintenance for the upkeep of our surrounding therefore making us shareholders of the estate nobody to date has said anything to us as shareholders except the posters on lamp post, a couple of years ago we had to pay extra to keep gypsy out of our village now you are proposing to invite them to come and live with us. Croydon is not a nice place to live and the only escape we have is our home and now you want to take that away from us. The development would have a fast impact on the schooling, utility’s hospital ect in the area where and when will this all stop we pay our rates are law abiding citizens and feel all you are interested in is destroying all we have worked hard for.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

I am writing to you to object to the use of the following sites for housing development.
- The land at Poppy Lane. Ref. No. 128
- Strudwick Green Pumping Station. Ref. No. 504
- Land to the east of Shirley Oaks Road and rear of Beech and Ash House. Ref no. 541
- Land to the west of Shirley Oaks Road. Ref no. 542
- Land to rear of part of Honey Suckle Gardens. Ref no. 548

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

I object to the these proposals to build on the land ref 542, the land should be left as it is

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
I wish to lodge a serious objection to the proposals for the building of houses on Shirley Oaks Village. That name speaks for itself. I have lived on Shirley Oaks Village for 30 years and during that time have paid the management company a contribution to maintain the amenity open land. The residents each own a share of the land and over the years the open areas have been enjoyed by families for games walking and enjoying the lovely trees not to mention the wildlife. When the land was sold by Lambeth in 1984 the intention was to create a village. Has any thought been given to the effect on the infrastructure by adding 751 properties? The pressures on the roads in particular.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Object DM43.4

542

The proposal to build new houses in Shirley Oaks Road does not fall within the Strategic Objectives because:

Objective 2: This development will not foster an environment where existing enterprise can prosper, but will reduce enterprise.

Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.

Objective 5: This development is not high quality and will not enhance the borough’s natural environment but will reduce the natural environment by turning a green area into housing.

Objective 7: This development will reduce the area as a safe, healthy and cohesive community but making the area overcrowded with residential property.

Objective 10: This development will reduce the quality and accessibility of green space and nature. This development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generation will suffer because of this. This proposed development of new housing in Shirley Oak Road is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in the area.

Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area. Building a travellers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area. Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions. This development would diminish the area of green fields and recreational land within the area.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
Mr Gary Stewart  
Object  
DM43.4 542  
Re the above proposals with Ref nos 541, 542, 548, 504, and 128 I wish to object in the possible strongest sense. This land was not designated for this use and hence our homes all have very small gardens to protect this open space. We already have problems with the road through the estate and it cannot possibly take any more traffic. The allowed parking on this road particularly on the curves gives cause for real concern. I have avoided two accidents only by making an emergency stop. If the council goes ahead with these proposals then we will fight and please note we are depending on support from local councillors and our MP. Think again please

Helen Silk

<td>Jenny Hayden</td>
<td>Object DM43.4 542</td>
<td>The proposals for Shirley will have a huge impact on the area, the current infrastructure is already at bursting point and the building of new homes on green spaces will add further stress to the current situation. Ref nos. 128,504,541,542, 548... these relate to the building of additional homes. From the information available in the Council's documentation, this could be up to 800 new homes. I would like to know what sort of homes these are likely to be... social, housing associations or private... I doubt that any of them would be affordable homes for first time buyers. How will the local roads cope with the extra traffic. There will be a need for more schools, doctors' surgeries etc to support the intended increase to the local population. I would therefore like to object to the Council's decision to use these five sites for future residential development. Apart from putting extra burden on the local roads, it would also mean losing valuable green spaces. I believe any new residential development should be on brownfield sites. The addition of so many extra homes would have an adverse affect on the character of Shirley, in my opinion.</td>
</tr>
</tbody>
</table>

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
I write with reference to your document ‘Changes to the Policies Map (Policy DM43)’, and in specific reference to sites 541, 542, 548, 128 and 504. These sites are all open space surrounding the development known as Shirley Oaks Village.

I wish to object to the proposals to re-classify the land and make it eligible for planning permission and the building of homes. In my opinion it is essential to preserve the open space for the use of local residents. It is well used for recreation, dog walking etc. It is also an important part of the character of Shirley Oaks Village and would change the nature of that development.

I bought a house on Primrose Lane in June 2015 and a large factor in my decision to buy was the amount of open space available locally. I understand that Croydon Council designated this land as ‘Amenity Open Land’ in 1985 because of under-sized gardens in Shirley Oaks Village and transferred it to the Shirley Oaks Management Company, which has maintained it ever since. As a house owner I am a shareholder in that company.

I strongly object to your proposals.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

As a local affected resident, I am registering my comments and objections to the proposals as documented in the Croydon Local Plans CLP1.1 and CLP2.

I object to the de-designation of Metropolitan Open Land in the vicinity of Shirley Oaks Village. The land should be at least designated as Local Green Space, for its protection from development. This open space provides a green corridor between Shirley Oaks and the surrounding areas, and should be retained in its present form.

Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the local schools are over-subscribed as well as the already-stretched social and healthcare facilities would be overloaded.
I am writing to object to the Council's proposals to allow the land in Shirley Oaks Village to be acceptable for development. The areas have been Metropolitan Open Land and had protection from being built upon. Our land was designated by the Council in 1985 as "Amenity Open Land" because of our under-sized gardens and transferred to the Management Company. Each property owner is a shareholder in the Management Company and we pay towards the upkeep and maintenance of the land. I object to the Council's proposal to change the title of the land in order to proceed with development plans. This is Our land and for our use.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become "white land" (land with no designation) in the Local Plan.

SHIRLEY OAKS VILLAGE-
I refer to the proposed changes to the planning policies to allow Croydon Council to build new homes on the Amenity Open Land at the above. The Amenity Open Land was granted in part, due to the extremely small rear gardens. Also I and other people in the village for many years here contributed to its upkeep at no cost to Croydon Council. To lose this land will greatly impact on the peaceful enjoyment that I and my neighbours have in using this land as well as the general impact on the area of high density building, changing the character of our village forever.

No doubt this development will result in many trees and flowers being sacrificed which help to sustain the urban wildlife such as various birds, bats, foxes, badgers and bees etc. There seems to be little consideration for this urban oasis!

Whilst I understand central government's drive for more houses, I find it hard to believe that Croydon Council needs this land in order to fulfil its housing quota, given the Westfield and other developments proposed in Croydon. There are also other lands, such as those owned by the local NHS hospital that would be suitable for development and at the same time give ready money to the NHS.

Furthermore, the existing main roads are already inadequate to service the village without adding a further 751 homes along with the years of road works that will be associated with upgrading the utilities, make traveling through the village more difficult and dangerous. I urge you to reconsider your plans.
Mr Mark Hawkins

Object

DM43.4

542

3546/01/007/DM43.4/O

Kindly note that as a homeowner (and shareholder) of Shirley Oaks Village, resident here for over 25 years, I am deeply concerned that Croydon Council seems to think it has the right to change the nature of the estate from being protected Metropolitan land to being unprotected land ripe for excessive building. Not only is the green space around the current estate, a much loved feature, it also provides a sanctuary for wildlife and allows for nice walks for local people. The road was built to be narrow and already there are problems with passing places for traffic to the hospital and synagogue. Last year the council allowed a resident to build a fence which obstructs drivers vision when turning out of Cornflower Lane and has caused several minor incidents. Simply put, the roads here were not built for traffic! The idea of ruining my neighbourhood by cramming more housing onto unsuitable roads, lacking shops and facilities whilst depriving me of the green spaces I love and part own makes me sick to my stomach. There are so many brownfield sites that could be built on and provide more suitable housing in and around Croydon that I feel that this attack on Shirley is politically motivated. I formally ask the council to reconsider the proposals.

Mr I Fuell

Object

DM43.4

542

3547/01/007/DM43.4/O

I am writing to object to:

3. The use of the following 5 sites for housing:

- Land at Poppy Lane: reference number 126;
- Stroud Green Pumping Station, 140 Primrose Lane: reference number 504;
- Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House; reference number 541;
- Land to the west of Shirley Oaks Road; reference number 542; and
- Land to the rear of 5 – 13 Honeysuckle Gardens; reference number 548.

If the Council will not keep them as Metropolitan Open Land, these 5 sites should at least be designated as local green spaces.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Object We have got objection for above proposal. We are not happy, it would cause lots of traffic and not ideal for residents.

Object DM43.4

I would like to raise my objection to the proposed land changes for the following references:
Ref. 542 - Shirley Oaks road west side - up to 236 new homes. The land was designated by Croydon council in 1985 as "Amenity Open Land", because of our under-sized gardens and transferred to the Management Company - with each property owner as a shareholder in that company. As for looking at a Gypsy site, you should have seen what a mess they made when they camped illegally at Shirley Oaks just over a year ago – it was disgusting!

Object DM43.4

Objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). Also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn’t cope with the additional traffic.

If the Council won’t keep it as MOL, it should at least designate it as Local Green Space so that it has some protection.

Object DM43.4

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Object DM43.4

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

<td>02 September 2016</td>
<td>Mr Mike Jones</td>
<td>The de-designation of the Metropolitan Open Land around Shirley Oaks Village in particular such as the use of the following for housing:- land at Poppy Lane Stroud Green Pumping Station, 140 Primrose Lane land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House land to the west of Shirley Oaks Road land to the rear of 5-13 Honeysuckle Gardens Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. There is a lot of history around here and the loss of the Shirley Lodge in the late 1990s was a big mistake. Generally in Croydon there is no room for more traffic that new building will generate and judging from what I have seen around Croydon squeezed housing units with small garages not fit to store cars and little or no off street parking will only add to stress and problems in the future.</td>
<td>As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.</td>
<td></td>

</table>
I wish to object to the detailed proposal in Policy DM43 in relation to land west of Shirley Oaks Road, reference number 542 (Site). The Site is owned by Shirley Oaks Management Limited (Company). There are over 480 shareholders of which I am one. The Site is presently protected by the designation of the Metropolitan Open Land. Separate objections have been made in relation to the proposal to designate this land as MOL. Those objections are repeated for the purpose of this representation. The designation as MOL should remain. If its decided de-designation proceeds, the Site should be designated as Local Green Space.

Proposed development of the Site in the event that the present designation remains or that re-designation takes place as Local Green Space would not be consistent with national policy under the NPPF and such a proposal would be incompatible. The proposed approach is not appropriate nor would it enable sustainable development for the reasons set out above and those identified in respect to the objection to Policy SP7. The highway network is already at saturation point and in any event any proposed residential development would generate an unacceptable amount of traffic. The site also has a high water table.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Please see my objections to your proposals as detailed below. DM43
Ref 541 Land east of Shirley Oaks Road
Ref 542 Land west of Shirley Oaks Road
Ref 548 Land to rear Honeysuckle Gardens

These areas of Metropolitan Open Land are not "incidental open spaces" or "Grassland with a few detached houses" as your report states. These areas were designated by Croydon Council as residents "Amenity Open Spaces" under a section 52 agreement on the 4th December 1985. This was to ensure that the residents were provided with adequate open space following a dispute between the Council and Heron Homes, the developer. These areas were then handed over to the Shirley Oaks Management Limited, a company with the property owners as shareholders.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

DM43.4

542

Ref. 542 - Land West of Shirley Oaks Road

I am objecting to the proposal for de-designation of this area as Metropolitan open land, with a view to "working with the landowner" to bring development of up to 236 houses forward. It is a vital part of the green chain and wild-life corridor through Shirley. This can clearly be seen by viewing Google satellite photos of the area. This land contains hedgerow and meadow habitats as well as some mature trees. On the Northernmost part of this land meadow flowers have been sown by the management company to encourage insects and other wildlife. Most of this land is jointly owned by 500 equal share-holders, which would make "working with the landowner" a complex issue. The council would be unlikely to get the co-operation of all 500 shareholders. Part of this land is consecrated land owned by the Jewish community. The Synagogue, car park and frontage I understand will not willingly be sold. Development of this area would put extra stress on the road junction between Shirley Oaks Road and the A232 Wickham Road. Traffic in this area is already extremely slow at peak times. If you look back through the records, planning permission was once sought for a supermarket where the synagogue now stands. It was denied on the basis of the increased traffic and stress on the road junction. Putting all the parcels of Shirley Oaks land (for which the council has plans) together (ref 541, 542, 548 and 128) would potentially add 683 new homes. Peak road traffic would be extremely problematic.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Cllr J Cummings

Object

Soundness - Justified

DM43.4

542

Site 542, Land to the west of Shirley Oaks Road, Shirley Oaks Road, is identified as suitable for 88-236 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Shirley Avenue and Wickham Road.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Ms J Fasham

Object DM43.4 542

I object to the Councils proposal to de-designate the Metropolitan Open Land of Shirley Oaks Road and Shirley Oaks Village as the local infrastructure could not cope. Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mrs J Horton

Object DM43.4 542

I wish to log my objection to the borough-wide planned changes Croydon Council are proposing to make in their Local Plans for 2016-2036. These proposals are 750 new homes in Shirley Oaks and 35 new homes on the Shrublands Estate. Also the proposed work to the two large gypsy/travellers site in Coombe Farm and the Conduit Nursery of Coombe Road. Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Ms J Stokes

Object DM43.4 542

I object to the proposals to completely change Shirley Oaks Road which is a green lung for that part of the Borough. The amount of car ownership will rise significantly as the bus service is infrequent. The traffic will dog the Wickham Road even more than now. St. John's school has already plans for more classrooms and the intake will rise in all the local schools. Also pulling down established houses and putting up more flats is detrimental to the character of the area. We had a once in a lifetime chance to improve the look of Croydon, on a human scale. Instead of which we are building hideous tower blocks, while in other parts of the country they are pulling them down. Nobody should have to raise a family in a block 44 stories high. They will eventually become the slums of the future. Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Jenny Tighe

Object DM43.4 542

Development of these sites will have a negative impact on the local area by changing the character of Shirley, and well as being a loss of green space, wildlife habitat and a vital green corridor Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

I live in Verdayne Avenue, on the odd side, and objecting to these plans sounds like simple "NIMBY ism" but, literally this development is in my back garden. With this development what little is left of the "green" character of Shirley will lost under a wave of concrete. Surely all the "brown field" sites should be identified and developed first. When the Shirley Oaks estate was first built the fact that the houses had small gardens was compensated by the greenery of the area around them, that "compensation" is now going to disappear. The plans for the new homes seem to show that these buildings will be of greater density and crowding. On the plans there doesn't appear to be any infrastructure planed to go with the homes. The schools, in Shirley, are full, filled by children "bussed" in from other parts of the borough. Does this, then, mean the children from the new homes will have to catch buses out of Shirley to attend schools else where? Though the bus routes through Shirley are good most of the time there is chaos at school times especially in the afternoon as the schools empty and the pupils leave the area to go home. It would appear that the whole of the school population of Croydon will be moving every morning and evening. The transport system on the Wickham Road works at the moment but extra traffic, people and cars, would put it under considerable strain. The tram stops are not close enough to Shirley to help dissipate the human traffic. Will the roads around the area be widened, especially in the Shirley Oaks estate, to take extra vehicle traffic? At present the buses and refuse lorries have difficulty negotiating the narrow road. The same argument goes for doctors. Again the surgeries, in Shirley, are full at present, where in the plans are the provision for this new health centres? Are they suppose to attend the A&E department at "Mayday" hospital which even now has problems coping. There have been previous plans to build on the land but they have failed due to the unsuitability of the ground, high water table etc. These problems, I take it, have "gone" away?
Mr K George

Object DM43.4

542

I am also concerned that you consider there is space for up to 751 houses in the Shirley Oaks Road area. References 128, 504, 541, 542, 548. This would lead to the elimination of green space in that area and therefore I think at least 3 of these areas should be Local Green Spaces if not Metropolitan open land.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mr & Mrs Walker

Object DM43.4

542

RE: LAND ON EITHER SIDE OF SHIRLEY OAKS ROAD, SHIRLEY OAKS VILLAGE, POPPY LANE; STROUD GREEN PUMPING STATION; COOMBE FARM, COOMBE LODGE NURSERIES off Conduit Lane, land west of Shirley Oaks Road, rear of 5-13 Honeysuckle Gardens OBJECTION TO DE-DESIGNATION GREEN BELT; SHIRLEY, NEW ADDINGTON, FOREST HILL

We have lived in the Borough of Croydon for 30 years and value its vibrancy and diversity.

As Croydon ratepayers we object to the de-designation of Metropolitan Open Land generally, especially land detailed above, which will change forever Croydon’s character.

We would ask you to encourage policies/development to:

1. Build new housing on brownfield sites by all means AND preserve invaluable green space for the benefit of the community of Croydon;
2. Protect green belt land and preserve the green corridors we desperately need for wildlife and biodiversity;
3. Amend the tall buildings policy and keep the tall building zone where it is suited in the centre of town;
4. Utilise brownfield sites for new low-level housing only where it can be developed alongside new GP surgeries, schools and improved public transport;

"Nowadays people know the price of everything and the value of nothing". Green Belt is vital and precious. Once lost for future generations and will not be replaced by developers.

We understand the need for housing, schools, hospitals and infrastructure. Are the Developers investing these also alongside their building investments?

Please protect our few remaining green spaces on the borough map, by making better use of brownfield sites.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
We are also writing to object to Croydon Council’s plans to de-designate the Metropolitan Open Land on either side of Shirley Oaks Road and all around Shirley Oaks Village, changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: We are objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). If the Council will not keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. We are also objecting to any of these five sites being used for residential development.

Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure could not cope with the additional traffic.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
I am writing this email to voice my deep concern about the planned development in the private estate that I have lived in for many years, namely:

• Ref 541, Ref 542, Ref 548, Ref 128 and Ref 504 – all on Shirley Oaks Village private estate.

Firstly, it would have been nice to be informed about any planning ideas in writing rather than see small notices pinned to lamp post around the estate. I would also like to draw your attention that our land was designated by Croydon Council in 1985 as 'Amenity Open Land' for the residents and for which we pay a quarterly fee for maintenance of the green open land, but more importantly can I bring to your notice that this land was transferred to the Shirley Oaks Management Company, with each property owner as a shareholder in that company. This land is for our use and not for developing a concrete jungle on every single green inch of land in Croydon.

The Shirley Oaks estate has a great community spirit and has become a real sought after location for families to live due to the community nature and the lovely open land that we have, by developing on this land you will be taking away all of the good that has been built up over the years by the many residents we have as well as making the village overcrowded, bringing in more traffic thus resulting in more danger on the main Primrose Lane for people crossing and driving, congestion for parking and so on. I can also bring to your attention that we have already had a couple of fatalities on that main road that runs through the village and this will make it worse for the safety of our kids.

I am sure you have now had many hundreds of emails from residents like myself voicing the same concerns with your planning proposals!

This land belongs to us as residents so I feel its harsh to take this away and start your own developments.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Object DM43.4

Jenny Greenland I object to the de-designation of the site in Shirley as MOL. If the Council won't keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. I enjoy this space every weekend and meet many like-minded people. I also be object to the site being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic as it struggles now. I am happy for the Council to replace under-used garages with much-needed homes, but I object to building on open space.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object DM43.4

Mr Paul Slaughter Objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). Also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic.

If the Council won't keep it as MOL, it should at least designate it as Local Green Space so that it has some protection.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object DM43.4

Mr Simon Bradley To save you looking it up, and to help you identify my specific objections, the five sites mentioned so far and to which I wish to object as being detrimental to the character of the area are:

Land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455-456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542).
Second, the Council plans to de-designate the Metropolitan Open Land on either side of Shirley Oaks Road and all around Shirley Oaks Village (page 68, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals). Metropolitan Open Land has the same protection from development as the Green Belt. The Council is proposing to remove this designation so that most of this land can be used for new housing. The draft Local Plan identifies five sites:

- Land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455-456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542)

I object to the decision to de-designate this land as Metropolitan Open Land (MOL). If the Council won’t keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. I also object to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn’t cope with the additional traffic.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

---

I object to the use of the land to the west of Shirley Oaks Road reference number 542 for housing:

- If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces.

Developing these sites with the amount of homes suggested would increase the volume of traffic in an area which is already congested in morning and afternoon rush hours and would put increased pressures on local schools and public transport.

I am aware that more affordable houses are needed but please reconsider these plans which will totally change the area in which we have chosen to live and definitely not for the better.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
Site 542, Land to the west of Shirley Oaks Road, Shirley Oaks Road, is identified as suitable for 88-236 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Shirley Avenue and Wickham Road.

Change
As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
I write to you with my objections to the proposed Croydon Local Plan, specifically on the points below.

- The land at Poppy Lane is identified as suitable for 51 to 107 homes (pages 445-446, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 128).
- Stroud Green Pumping Station, 140 Primrose Lane, including the conversion of the locally-listed pumping station, is identified as suitable for 26 to 68 homes (pages 451-452, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 504).
- Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 80-215 homes (pages 453-454, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 541).
- Land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455-456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542).
- Land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes (pages 457-458, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 548).

I object to the decision to designate this land as Metropolitan Open Land (MOL). If the Council won't keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. I also object to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Mr Ian Leonard

DM43.4

542

Land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455-456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542); I object to the decision to de-designate this land as Metropolitan Open Land (MOL). If the Council will not keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. I also object to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, thereby disastrously changing the character of the area, additionally, the local road infrastructure will not be able to cope with the additional traffic.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

DM43.4

542

I write to you having received this email from Gavin Barwell MP, the tone of which I find inflammatory and discriminatory towards the Gypsy and Traveller communities, and smacks of "not in my backyard". I write as a resident of Addiscombe who recognises the huge problem of lack of affordable housing to buy and to rent in London promulgated by this Conservative government and the previous coalition government. I fully support Croydon Council's proposals.

Welcome support

| 3845/01/005/DM43.4/O | Mr M Foster | I wish to lodge an objection to all five sites where the decision to de-designate this land as Metropolitan Open space land and to build housing upon them, not only would we be losing vital open space and change the very character of the area, I believe the local road infrastructure would not cope with any more traffic, why must the council continual to try and ruin areas that people like. At the moment this area as a rural feel to it, nice green spaces and a open aspect which we would loose if these plans were to go ahead. I would ask the council to think very hard before implementing these plans before we have another area that people want to move out of. Instead of to, these plans will not improve the area quite the reverse, where at the moment people like to live here. | Change as this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become "white land" (land with no designation) in the Local Plan. |
Miss Rebecca Thomas

Object

I email to express my formal concern and objection to the proposal to build additional housing in the green areas of Shirley Oaks Village. I currently reside in Beckenham, 1 Hamilton House, Orchard Way, BR3 3ER, on the Shirley boarder, and was previously a resident of Shirley for 30 years. The addition of these houses will not only bring down the areas reputation, spoil views from current properties but also cause additional congestion to an already busy area. We should be looking to preserve our green areas, and Shirley Oaks Village should remain just that, a village! I believe that the Wickham Road has already been flagged as one of the busiest roads in the area, with a fatal road accident occurring both this year and last. Additional housing/congestion will only add to this danger. This proposal will cause residents of the local area to be driven from their homes unfairly, I am sure that they did not purchase properties to be overlooked and to lose the view of the land that they have been paying to maintain for, in most cases, a number of years. 

I am contactable on my home address/phone should wish me to validate my views further.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Ms M Torres Ward

Object

I am writing to express my objection to the planning proposals in the Shirley Oaks area. The land has been set aside for our use as we have very undersized gardens on the estate and we have also paid to keep those areas in a well maintained condition. The road around Shirley Oaks only has 2 exits as well, so would make it very congested as there are only 2 options for traffic to leave and enter and there are already a lot of problems at the Wickham Road end as people drive in and out.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Mr Nicholas Barnes

Object

Soundness - Justified

Having read both local plans for the Shirley area, I strongly object to all aspects in both plans. This includes the 750 new homes on Shirley Oaks Village, 35 new homes in Shrublands, the two gypsy sites at Combe Fram and Conduit Nursery and the development for up the four storeys along Wickham Road.

None of these plans will benefit Shirley and I object to them all.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
Mr M Lockyear Object DM43.4

I wish to register my objection to these proposals for the following reasons: I purchased my property on the understanding that all the open grassed land surrounding the village was designated by Croydon Council in 1985 as "Amenity Open Land" because of our under-sized gardens and transferred to the Management Company, with each property owner as a shareholder in that company.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Ms M Gibson Object Soundness - Justified DM43.4

With regard to the 'very scant' notices that have been posted on Shirley Oaks Village, in places that are not in visible of all residents, I must object VERY STRONGLY to these plans.

(1) The land is owned by the residents with a covenant on it. Our houses are condensed with tiny gardens, the compensation for which is the open ground (owned by all residents) that we are able to use. My understanding is that the original development was curtailed by the then council because of the density of housing/population on Shirley Oaks.

(2) Drainage on Shirley Oaks is very poor. I am given to understand that the water table is very high and indeed during the winter months the open spaces are sodden, holding water which could probably present a flooding problem. It is so bad in some places that the ducks move in!

(3) Could the services (sewerage etc) really support the number of properties proposed. There have already problems from time to time, especially down Shirley Oaks Road.

(4) Realistically, whatever type of property would be built, you could expect an average of two cars per dwelling. Shirley Oaks Road/Primrose Lane are extremely hazardous and would not be able to sustain another probably 500/1000 cars. Where would people park.

There are enough problems on here already with regard to car parking, deliveries etc. Both Shirley Oaks Road at the Wickham Road end and Primrose Road at the Shirley Road end are used as car parks and quite often it takes a bit of delicate manoeuvring to get round, especially if you meet a bus.

(5) Planning permission has been refused for the plot in Poppy Lane (128) a number of times. The area was declared as a nature reserve some time back and I was unaware that this had changed. Part of the reason for the last planning application was the high water table, so how come there has been a change of mind?

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Edwina Morris

Object DM43.4 542

I object to the use of the Land to the west of Shirley Oaks Road reference number 542 for housing:

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mrs Barbara Cumming

Object DM43.4 542

I object to the planned five sites being used for residential development in Shirley, Croydon: Land to the west of Shirley Oaks Road identified as suitable for 88-236 homes.

Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure will not be able to cope with the additional traffic.

Whilst I agree that we desperately need new housing, it should be built on brownfield sites - not our remaining precious green spaces!

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Ms M Bailey

Object DM43.4 542

The Metropolitan Open Land on either side of Shirley Oaks and all around Shirley Oaks Village should not be de-designated, but designated as Local Green space. It is very important that Croydon needs green spaces as these give the feeling of openness and a pleasant environment in which to live. Upwards of approximately 700 hundred odd homes could be built in this area which will lead to possible flooding of areas as rain water will not be able to drain away as easily as it would if it was left as a green belt area. Secondly the local road infrastructure would not be able to cope with the additional traffic stemming from these additional homes, and this includes public transport. Thirdly are the NHS facilities in the area able to cope with this large influx?

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Jan Payne

Object DM43.4 542

I object to the use of the site for housing.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Every year we get proposals and consultations for building more homes or structures on Shirley Oaks green land. But must admit the above proposal is the worst and the most ridiculous so far. From what we read, the proposal suggests to build around 750 new homes on what’s left of green patches in the village.

The village is already over crowded with Shirley Oaks road and Primrose road looking like a huge PARKING LOT throughout the day. One cannot begin to imagine what it would like with more residents and obviously with at least double the number of cars to that of the number of the new homes proposed.

We bought our property back in 1989, paying above market value at the time, for the sole purpose that the village is quiet and has some green land. Our home was one of the last phases of any buildings to be erected in the village, or so we were promised and confirmed in writing. Since then, a synagogue was built, bus 367 goes through the narrow winding road, every year for the last few years we get proposals to use our green land for one suggestion or another and now this proposal.

We completely oppose this proposal and hope that the council will appreciate that it’s not all about the money and just building more houses, but quality of life matters just the same. On one hand the government and councils encourage and push people to plant more trees, grow their veg, recycle etc... Yet on the other hand come up with proposals to use every last green patch to build more structures and homes. Doesn’t make any sense.

Site 542, Land to the west of Shirley Oaks Road. Shirley Oaks Road, is identified as suitable for 88-236 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Shirley Avenue and Wickham Road.
3899/02/005/DM43.4/O Ms E Rudduck

Object

I object to the use of the Land to the west of Shirley Oaks Road reference number 542 for housing:

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces.

Developing these sites with the amount of homes suggested would increase the volume of traffic in an area which is already congested in morning and afternoon rush hours and would put increased pressures on local schools and public transport.

I am aware that more affordable houses are needed but please reconsider these plans which will totally change the area in which we have chosen to live and definitely not for the better.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

3901/01/005/DM43.4/O Mr & Mrs Frederick Banjo

Object Soundness - Justified

As property owners/Residents and shareholders in the company that manages Shirley Oaks Village, we are writing to state our objection to the above mentioned proposal

The land/s in question is designated as 'Amenity open Land' for the use of the property owners and residents of Shirley Oaks Village and must not be built upon.

The proposal to build on these lands will simply destroy the peace & tranquility of the village. The enjoyment of the open land by residents will be lost not to mentioned the increased traffic situation amongst other things

We strongly object to these proposals to build upon these lands.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

3923/01/004/DM43.4/O Ms A Smithers

Object

The planning permissions proposals below I object to ref 542. I object to this as Shirley oaks village and surrounding areas are lovely and people go there for their green space to walk their dogs and have a nice time, this would ruin the whole area and what it currently stands for and I amongst many will be upset if the green areas are built on.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mrs J Jeffery-Reynolds

Object Reference Policy Numbers:- DM31.4 DM28 DM2

Reference:- 128 504 541 542 548

I am a resident of Shirley and strongly object to the current proposals to build on green belt land on the Shirley Oaks and surrounding areas.

There are plenty of brown sites that are unoccupied and could fulfill the purpose of providing new homes. Shirley is already tight for school places. St John's, in Spring Park Road, is increasing to 2 form entry already with the number of children living locally requiring education. The 367 bus serving the Shirley Oaks Village is infrequent and much more transport will be required. Parking is already a nightmare and with the lack of parking contemplated with the new build supply the problem will only get worse. There will be an incredible build up of traffic on the already congested Wickham Road and other local roads.

I believe this proposed building of traveller's sites and homes will change the whole ethos of Shirley and cause resentment and the lowering of living standards. This is a particular area of standard housing and should not be changed by the building of blocks of houses. Garden land should not be built on and this is an inappropriate development and should not be allowed to go ahead. Metropolitan Open Land has the same protection as the Green Belt and the rules should be followed accordingly.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mrs L McLoughlin

Object DM31.4

Having lived on Shirley Oaks for almost 30 years, I strongly feel that any changes to the current planning policies would have serious and negative consequences for the current residents. Not only would properties lose significant value, the estate would also lose its 'village-like' feel that lead us to move there in the first place. We were also told at the time of purchase that Shirley Oaks would always remain as metropolitan open land, and this also heavily influenced our purchase. To add to this, there is also the issue of increased traffic through the estate. There was a fatal accident only a couple of years ago by the bend of Poppy Lane and I feel that with the prospect of even more houses being added to the estate there will be a significantly higher risk of further accidents.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Object: DM43.4

Ms M D Chandler

I object on the grounds of appalling overcrowding, your plan would bring at least 2000 more vehicles onto the estate. It is already nearly impossible to get in and out of the estate by car at rush hours. The roads on the estate can barely cope as it is with the bus route. The extra vehicles would include many commercial vans which would be parked over night and weekends causing havoc on the narrow roads of the estate. A single bus route as at present running every 20 mins causes problems how do you intend to increase public services more bus routes and more frequent timetables...more chaos! I along with others pay to maintain and the open space as a share holder. Your proposal would seriously devalue our properties and I for one will be seeking serious compensation for this. I trust Croydon has very big capital reserves to meet our legal challenges and compensation. Our gardens are small this is why the land has been designated open land so we have some open space in common with the surrounding houses. Your plans are ill conceived and will effectively destroy Croydon further. There are large areas of open land in Addington which Croydon could use and I presume already own without spending our money attempting to purchase land which will be extremely costly to Croydon in terms of the compensation that you will need to pay out and in the legal fees entailed.

Change:
As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object: DM43.4

Mr N Oratis

I object to the decision to de-designate this land as metropolitan open land for the use of residential development for the following reasons. These areas are also being used every day and regularly by myself, family members, neighbours, friends and many visitors wanting to take there dog for a walk or spending time with family and kids. Ref 548, 542, 541, and 128 are owned by Shirley oaks management. 488 residents are shareholders in this company. There was a decision in 1985 for this land to be open for use by the local residents because the gardens of all homes were considered small. I would also like to mention the increase in road traffic and pollution due to the development. So for those reasons I would once again like to object to building on this land.

Change:
As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Ms S Ikpa

Object: The use of the following five sites for housing: land at Poppy Lane site reference number 128, Stroud Green Pumping Station, 140 Primrose Lane site reference number 504, land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House site reference number 541, and to the west of Shirley Oaks Road site reference number 542; and land to the rear of 5-13 Honeysuckle Gardens site reference number 548. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas and change the character of this area.

Change: As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Patricia Wood

Object: I am writing to object to the designation of Metropolitan Open Land around Shirley Oaks Village; in particular to the use of the following five sites for housing: i) land at Poppy Lane reference number 128 ii) Stroud Green Pumping Station, 140 Primrose Lane reference number 504 iii) land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541 iv) land to the west of Shirley Oaks Road reference number 542 v) land to the rear of Honeysuckle Gardens reference number 548

If the Council cannot keep this land as Metropolitan Open Land, these five sites should be at least designated as Local Green Spaces.

Change: As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mr P Andrews

Object: I wholly disagree with the plans to develop the land on Shirley Oaks Village. This is metropolitan land and will not be built on.

Change: As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
I am therefore writing to formally object to:

1. de-designation of the Metropolitan Open Land around Shirley Oaks Village;
2. the use of the following five sites for housing:
   - land at Poppy Lane REFERENCE NO. 128;
   - Stroud Green Pumping Station, 140 Primrose Lane REFERENCE NUMBER 504;
   - land to the east of Shirley Oaks Road and to the rear of Ash House REFERENCE NUMBER 541;
   - land to the west of Shirley Oaks Road REFERENCE NUMBER 542, and
   - land to the rear of 5-13 Honeysuckle Gardens REFERENCE NUMBER 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building houses on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built upon. Why has Shirley Oaks been singled out in this way?

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Mr & Mrs Turner

We are writing to object to the following sites for housing and traveller sites.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Mr R Horton

I wish to log my objection to the borough-wide planned changes Croydon Council are proposing to make in their Local Plans for 2016-2036. These proposals are 750 new homes in Shirley Oaks and 35 new homes on the Shrublands Estate. Also the proposed work to the two large gypsy/travellers site in Coombe Farm and the Conduit Nursery of Coombe Road.

am a resident at 35 Primrose Lane, Shirley Oaks Village, along with 4 other members of my family.

I am writing to express my objection/disagreement to the following:
- Object to the de-designation of the Metropolitan Open Land around Shirley Oaks Village and in particular to the use of the following five sites for housing:
  - Land at Poppy Lane ref 128
  - Stroud Green Pumping Station, ref 504
  - Land to east of Shirley Oaks Road and to the rear of Beech House and Ash House, ref 541
  - Land to the west of Shirley Oaks Road, ref 542
  - Land to the rear of 5-13 Honeysuckle Gardens, ref 548

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

---

<td>Ref: 541, 542, 548, 128 and 504 in Shirley Oaks Village I was shocked to learn about the changes proposed to our grass areas. These changes, if implemented, will change the very nature of our village. It will not only deprive the residents of very essential open green areas, but it will make the whole place very crowded, much more polluted and quite uglier. This would rob us of essential attractions that made us come to this village in the first place. I strongly object to any of these changes and trust that every resident on this estate feels the way I feel. I did not speak to everyone, but the many I spoke with feel as strongly as I do towards this unfair proposal. I have been living in this village with my family since 1985. I would like to see the Croydon Council improve it rather than ruin it. I hope the Council will reconsider its plans.</td>

I am grateful to the Council for consulting on the detailed policies and proposals that will make up the Croydon Local Plan. There is much in the document that I agree with, but some of the proposals would, in my opinion, change the character of parts of Croydon very much for the worse. I hope you will forgive me if I focus on these areas of contention. I am therefore writing to formally object to:

1. de-designation of the Metropolitan Open Land around Shirley Oaks Village;

2. the use of the following five sites for housing:
   - land at Poppy Lane reference number 128;
   - Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
   - land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
   - land to the west of Shirley Oaks Road reference number 542; and
   - land to the rear of 5-13 Honeysuckle Gardens reference number 548.

   If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

3. the use of the following locations as gypsy/traveller sites:
   - Coombe Farm off Oaks Road reference number 502;
   - Coombe Lodge Nurseries off Conduit Lane reference number 661; and
   - Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane reference number 756.

As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site Change. As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
of Nature Conservation Interest.

Policy E of Planning Policy for
Traveller Sites, published by the
Government in August, says very
clearly:

“Traveller sites (temporary or
permanent) in the Green Belt are
inappropriate development”.

The Council’s approach is clearly in
breach of that policy. All three sites
are also some distance from public
services and they are all in the same
part of the borough (two are in
Heathfield ward, one just over the
border in Croham). Why has
Heathfield been singled out in this
way? If the Council really needs, as
it claims, to quadruple the number of
gypsy/traveller sites in the borough -
which I would question - they should
look elsewhere (for example, off the
Purley Way where the existing site is);

4. focussed intensification associated
with gradual change of an area’s
local character under Policy DM31.4
of the Shirley Road Shopping Parade,
Shirley local centre and Forestdale.
Shirley Road Shopping Parade is
surely worthy of protecting rather than
replacing with medium-rise blocks?
Shirley local centre is defined not just
as a stretch of the Wickham Road
(where some intensification may be
appropriate) but Ridgemount Avenue,
Wickham Avenue, Peregrine
Gardens, West Way Gardens, the
northern section of Hartland Way and
the western parts of Bennetts Way
and Devonshire Way. Replacing the
largely semi-detached buildings in
these residential roads with medium-
rise blocks would completely change
the character of Shirley. Replacing
the largely terraced housing and
small blocks of flats in Forestdale
with medium-sized blocks would
completely change that area too;

5. Policy DM2 on development on
garden land, which is too subjective
and therefore too weak. There
should be a much stronger
presumption against development on
garden land; and

6. Policy DM28, which should allow
higher levels of parking in
developments of low public transport
accessibility. Restricting parking
spaces in such areas doesn’t lead to
fewer people owning their own car; it
just leads to greater competition for
existing spaces.

Mr & Mrs Keith & Susan Hobbs  I object to the use of the site for housing. Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mr & Mrs Whitehead  Soundness - Justified

As residents whose small rear garden backs onto part of the Shirley Oaks Metropolitan Open Land, we know full well what impact proposals 128, 504, 541, 542 and 548 would have to the area.

There would be an increase in noise from 1) the building work, 2) increased traffic

There would be a substantial impact on the road system. Wickham Road already gets gridlocked at busy hours and school start/end times. The roads into Shirley Oaks are already too narrow for cars to pass if there are any cars parked, which there are always many of since the majority of driveways are too short to accommodate reasonable size car parking for many.

Shirley Road also has a problem with queuing traffic towards Long Lane which will also be compounded by these proposals.

These developments would increase the drainage issues this area suffers from. The whole area is built on London clay and regularly these areas suffer standing water which has gone through our property in the past. Increasing the density of building in Shirley Oaks will increase this problem too.

The lands around Shirley Oaks remain because of the compact nature of the village, whose properties, as well as our own, have small garden areas and as such these areas are used daily for sports activities, exercise and dog walking.
4065/01/005/DM43.4/O Mr Clive Jarvis
Object DM43.4 542 I object to the use of the site for housing. Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

4066/01/009/DM43.4/O Dr Chandra Pawa
Object DM43.4 542 the use of land to the west of Shirley Oaks Road site reference number 542 for housing. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas and change the character of this area; Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

4067/01/005/DM43.4/O Mrs Marilyn Loader
Object DM43.4 542 I object to the use of the site for housing. Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

4068/01/005/DM43.4/O Mr S Soundararajan
Object DM43.4 542 I am writing to object to strongly the De-designation of the following five pieces of land as Metropolitan Open Land and their proposed use as housing - Land to the west of Shirley Oaks Road reference number 542 the site is owned by the residents of Shirley Oaks Village through the Shirley Oaks Management Company in which every freeholder has a share. Your proposal will lead to a huge set of issues for the local residents. I strongly object to the plan and proposal Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

4075/01/004/DM43.4/O Kaljit Gata-Aura
Object DM43.4 542 The planning permissions proposals below I object to ref 542. I have friends who live in Shirley oaks village and I know them and myself along with many others all object to the proposals to build on the green areas. This grass area is used by many and would totally change the area if built on and we don't want it. Part of the charm of this area is those green areas and it has something that you don't find often in Croydon so please let us keep the green areas as we all object to them being built on. Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Melissa Chu: The use of the following five sites for housing: land at Poppy Lane site reference number 128, Stroud Green Pumping Station, 140 Primrose Lane site reference number 504, land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House site reference number 541, and to the west of Shirley Oaks Road site reference number 542; and land to the rear of 5-13 Honeysuckle Gardens site reference number 548. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas and change the character of this area.

Mr. Reuben Gata-Aura: The use of the following five sites for housing: land at Poppy Lane - Ref 128, Stroud Green Pumping Stn - Ref 504, land to east of Shirley Oaks Road - Ref 541, land to west of Shirley Oaks Road - Ref 542, land to rear of Honeysuckle Grdns - Ref 548. If the Council will not keep them as MOP, these 5 sites should at least be designated as Local Green Spaces.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Victoria Moore: Land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455-456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542).

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
Mr Vince Hemment

Object

DM43.4 542

I am therefore writing to formally object to:

de-designation of the Metropolitan Open Land around Shirley Oaks Village; the use of the following five sites for housing:

- land at Poppy Lane reference number 128;
- Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
- land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
- land to the west of Shirley Oaks Road reference number 542, and
- land to the rear of 5-13 Honeysuckle Gardens reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Terrence & Jacqueline Spriggs

Object

DM43.4 542

Objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). Also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn’t cope with the additional traffic.

If the Council won’t keep it as MOL, it should at least designate it as Local Green Space so that it has some protection.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Ms V Cruickshank

Object

DM43.4 542

I object to the use of the following five sites for housing:

Land at Poppy Lane: reference number 128;
- Stroud Green Pumping Station, 140 Primrose Lane: reference number 504;
- land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House; reference number 541;
- land to the west of Shirley Oaks Road; reference number 542; and
- land to the rear of 5 – 13 Honeysuckle Gardens; reference number 548.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
I'm writing in response to your notice for development of the greenfield sites on the Shirley Oaks Village estate to change the status of this land to allow development of 751 new homes. When I bought my house 18 months ago it was purchased on the understanding that together with the other householders on the estate that we would have joint ownership in the land directly surrounding the estate and that a quarterly bill would be levied to cover the maintenance of the land. I purchased the property in the knowledge that there were designated areas of green space surrounding the estate and was led to believe that these would remain. I strongly object to the proposal of building any further houses on the land surrounding the estate on the grounds that the main road through the estate is dangerous enough as it is. To more than double the amount of residents using the estate is ludicrous. The road was designed to cope with a certain amount of traffic and is already dangerous at time.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Site 542, Land to the west of Shirley Oaks Road, Shirley Oaks Road, is identified as suitable for 88-236 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Shirley Avenue and Wickham Road;

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

I object to the de-designation of land on either side of Shirley Oaks Road and all around Shirley Oaks Village as Metropolitan Open Land, page 68 of the Policies Map.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Councillor M. Fisher

Object: Soundness - Justified

DM43.4 542

Site 542, Land to the west of Shirley Oaks Road, Shirley Oaks Road, is identified as suitable for 88-236 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would totally change the character of the area and have a great impact on the local road infrastructure impacting Shirley Avenue and Wickham Road.

Change: As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mr. Christopher Swan

Object

DM43.4 542

land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455–456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542);

Change: As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mr. Edward Swan

Object

DM43.4 542

I would like to strongly object to the planned five sites being used for residential development in Shirley, Croydon: land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455–456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Radial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542);

Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure will not be able to cope with the additional traffic.

Change: As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Mrs S Rudduck

Object

4137/01/005/DM43.4/O

I object to the use of the land to the west of Shirley Oaks Road reference number 542 for housing:

- If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces.

- Developing these sites with the amount of homes suggested would increase the volume of traffic in an area which is already congested in morning and afternoon rush hours and would put increased pressures on local schools and public transport.

- I am aware that more affordable houses are needed but please reconsider these plans which will totally change the area in which we have chosen to live and definitely not for the better.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Ms S Rao

The use of the land to the west of Shirley Oaks Road (site ref 542) for housing

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mr & Mrs Andrews

Object

4145/01/005/DM43.4/O

Soundness - Justified

I am grateful to the Council for consulting on the detailed policies and proposals that will make up the Croydon Local Plan. There is much in the document that I agree with, but some of the proposals would, in my opinion, change the character of parts of Croydon very much for the worse. I hope you will forgive me if I focus on these areas of contention; I am therefore writing to formally object to:

1. the use of the following five sites for housing:
   - land at Poppy Lane reference number 128;
   - Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
   - land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
   - land to the west of Shirley Oaks Road reference number 542; and
   - land to the rear of 5-13 Honeysuckle Gardens reference number 548.

2. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Object  DM43.4 542  These proposals to build up to 750 homes on land (assuming it is de-designated) will mean the loss of vital open spaces and will place burdens on local transport, roads, schools and medical facilities which are already under pressure.

Change  As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Object  DM43.4 542  The de-designation of Metropolitan Open Land status on Shirley Oak will be vigorously opposed. I can see no reasoned explanation in the planning document for such a course of action nor is there any evidence of the thinking of the Council in the previous plan or 2012 Inspector's Report to explain how MOL status has been revisited with the conclusion that MOL designation be withdrawn. It also seems to have escaped the planning process that Shirley Oaks is governed by a Section 52 Agreement under the 1971 Town and Country Planning Act controlling development of the 'amenity lands' on Shirley Oaks. Further, the land is owned by the 488 Shirley Oaks resident property owners as shareholders of Shirley Oaks Management Ltd that owns the land. There is, therefore, no likelihood of the land ever being sold voluntarily. In summary, this part of the proposed Local Plan is undeliverable.

Change  As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
We are writing to object to the proposals to:
1. de-designate the Metropolitan Open Land around Shirley Oaks Village.
2. the use of the following sites for housing:
   • land at Poppy Lane reference number 128;
   • Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
   • land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
   • land to the West of Shirley Oaks Road reference number 542;
   • land to the rear of 5-13 Honeysuckle Gardens reference number 548;

The Shirley Oaks Village site currently provides a balance of high density housing offset by areas of green space. The proposals for de-designation of the Metropolitan Open Land and additional housing on the areas of green space would disrupt that balance and greatly increase the density of housing to an unacceptable level. Access to the Shirley Oaks site is by way of Poppy Lane and Shirley Oaks Road which feed into Shirley Road and Wickham Road respectively. Both Shirley Road and Wickham Road are used heavily throughout the day and subject of long delays particularly at peak times. This has resulted in Poppy Lane and Shirley Oaks Road experiencing heavier traffic flows than they were designed for as commuters cut through between Shirley Road and Wickham Road.

Public transport within the Shirley Oaks site is limited to a small single decker bus due to the road infrastructure and road system. Whilst there are bus services which serve Shirley Road and Wickham Road these are already oversubscribed and subject to delay due to existing traffic congestion.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
Mr Trevor Watkins

Object

The use of the following five sites for housing: land at Poppy Lane site reference number 128, Stroud Green Pumping Station, 140 Primrose Lane site reference number 504, land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House site reference number 541, and to the west of Shirley Oaks Road site reference number 542; and land to the rear of 5-13 Honeysuckle Gardens site reference number 548. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas and change the character of this area.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Carol Holmes

Object

I object to both the de-designation and also to the subsequent house-building at the following sites:
• Land at Poppy Lane (reference number 128);
• Stroud Green Pumping Station, 140 Primrose Lane (reference number 504);
• Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House (reference number 541);
• Land to the west of Shirley Oaks Road (reference number 541);
• Land to the rear of 5-13 Honeysuckle Gardens (reference number 548).

The very minimum designation for the proposed sites should be as Local Green Spaces, in order to give some protection against over-development.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

Mr B Williams

Object

I object to the de-designation of the land as Metropolitan Open Land and its proposed use for housing. The open spaces are collectively designated as Metropolitan Open Land and provide several links in the Shirley Green Chain. They help to form the sort of network necessary to ensure the maintenance of the current range and diversity of our flora and fauna. In addition this is a floodplain. There is a sink pond to the rear of Honeysuckle Gardens and if this overflows any properties would be flooded. There is also the potential for flooding of future planned properties. The one road through Shirley Oaks Village could not cope with the additional traffic and its exit on to the A232 would cause yet another bottleneck on this already congested road.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.

4245/01/005/DM43.4/O Mr & Mrs Maguire Object I object to the use of the site for housing. Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

4268/01/010/DM43.4/O Mr D Nesterovitch Object The use of the following five sites for housing: land at Poppy Lane site reference number 128, Stroud Green Pumping Station, 140 Primrose Lane site reference number 504, land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House site reference number 541, and to the west of Shirley Oaks Road site reference number 542; and land to the rear of 5-13 Honeysuckle Gardens site reference number 548. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas and change the character of this area. Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

4278/01/009/DM43.4/O Mr Melvin Howard Object If the Council will not keep the site as MOL, the site should at least be designated as Local Green Space. Building on this site will not only mean the loss of vital green space it will over burden local services and road infrastructure. Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

4294/01/004/DM43.4/O S Wallace Object I object to land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455-456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542); Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Mrs Glenna Fullick

Object DM43.4

I object to Policy DM43, reference Site 542 to build new homes on land to the East & West of Shirley Oaks Road

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mrs Kathleen Swan

Object DM43.4

I would like to strongly object to the planned five sites being used for residential development in Shirley, Croydon; land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455-456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Radial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542); Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure will not be able to cope with the additional traffic.

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mrs Rita Evans

Object DM43.4

The proposal to de-designate Metropolitan Open Land around Shirley Oaks Village and use it for five housing sites surely flies in the face of current recommendations to preserve Green Belt equivalent land as a vital amenity and ecological asset?

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Doreen Jansen

Object DM43.4

Objection to site. Schools in the area are already over-subscribed, so the number of homes proposed will increase the problem

Change As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
I object to the de-designation of Metropolitan Open Land in the vicinity of Shirley Oaks Road and Shirley Oaks Village. The land should be at least be designated as Local Green Space, for its protection from development.

This open space provides a green corridor between Shirley Oaks and the surrounding areas, and should be retained in its present form.

I also object to the following specific proposals for the building of new homes on this site, as detailed in Changes to the Policies Map arising from Proposals contained within the Croydon Local Plan, Strategic Policies Partial Review and the Croydon Local Plan, Detailed Policies & Proposals:

- Policy DM43, reference 128 to build new homes at Poppy Lane
- Policy DM43, reference 504 to build new homes at Stroud Green Pumping Station (including the conversion of the pumping station which is a locally-listed building)
- Policy DM43, reference 542 to build new homes on land to the west of Shirley Oaks Road
- Policy DM43, reference 548 to build new homes on land to the rear of Honeysuckle Gardens

Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the already-stretched social and healthcare facilities would be overloaded.

Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the already-stretched social and healthcare facilities would be overloaded.

For the reasons given above:

1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability of future generations to meet their own needs.
4. I recommend that consultation documents of such importance are given much wider publicity.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Jennifer Carrozzo Object DM43.4 542 I am writing to object to the use of the following five sites for housing:
-land at Poppy Lane site reference number 128;
-Stroud Green Pumping Station, 140 Primrose Lane site reference number 504;
-land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House site reference number 541;
-land to the west of Shirley Oaks Road site reference number 542, and
-land to the rear of 5-13 Honeysuckle Gardens site reference number 548;
If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces;

Ms N Nesterovich Object DM43.4 542 The use of the following five sites for housing: land at Poppy Lane site reference number 128, Stroud Green Pumping Station, 140 Primrose Lane site reference number 504, land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House site reference number 541, and to the west of Shirley Oaks Road site reference number 542, and land to the rear of 5-13 Honeysuckle Gardens site reference number 548. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas and change the character of this area.

Mrs Janet Baine Object DM43.4 542 I object to the use of the land to the west of Shirley Oaks Road reference number 542 for housing;

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
I object to the use of the following five sites for housing: land at Poppy Lane reference number 128; Stroud Green Pumping Station, 140 Primrose Lane reference number 504; land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541; land to the west of Shirley Oaks Road reference number 542; and land to the rear of 5-13 Honeysuckle Gardens reference number 548. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. The Council should focus on developing other land in the Croydon borough such as unused office blocks, derelict corporate buildings/factories/warehouses which have not been occupied for years instead of attacking the green areas which are enjoyed by the residents in their respective areas. The proposals to build circa 700 houses in such a small area will cause the following detrimental effects to the local residents: depreciation of the value of the houses purchased in the relevant areas, too much strain on the water and sewerage systems in the locality where there is already a high water table. This could result in undue flooding and drainage problems, structural problems in years to come as the land is not fit for such intensive building, increase in traffic on Shirley Road, Wickham Road, Lower Addiscombe and Addiscombe which is already congested. This will unduly increase pollution levels which are already toxic. This will undoubtedly cause an increase in the health problems of the people in the locality such as lung cancer and other respiratory illnesses which will in turn place greater stress on the NHS services, cause more people to take sick days which will result in lower incomes obtained and eventually less tax revenue generated. This will have a knock on effect on the economy which is to say at the very least, bleak, the three green spaces in the Shirley Oaks Village are owned by the 488 Freeholders. Each Freeholder owns one share in the nominee company, Shirley Oaks Management Limited which owns the land on behalf of its shareholders. Building upon this land would serious undermine the value of the land purchased by the Freeholders and reduce quality of life. If the residents wanted to move, it would prove near impossible because of the resulting lower sale prices of their respective houses imposed by the Council’s building plans. This would appear to be unfair for the Council to impose

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
such hardship on the residents. I would urge the council to build upon land in the Croydon borough which is derelict and contains buildings which have not been used for years. These buildings can be knocked down to build the much needed housing for generations to come. These unused or derelict buildings serve no purpose to the local residents and are of no value to the residents. The Council should endeavour to create value where it is needed. This will in turn improve the condition of the abandoned areas. This will also prevent squatting and other unlawful uses of such buildings. I witnessed one example last year where the old post office building next to East Croydon Station was used as a rave containing over 1,000 people. This posed a risk to the safety of the passers by and the increase in crime. The Council's redevelopment of such spaces could be highly beneficial to the area. The green spaces are however of great importance to the local residents. The residents enjoy these spaces for walking their dogs, recreational and outdoor activities, space for children to play, piece of mind for the resident who works in the city and comes home to a peaceful environment and it provides space for those residents who already have very small back gardens.

7284/01/008/DM43.4/O Dr I Jayamanne

Object | Soundness | Change
--- | --- | ---
I wish to protest vehemently about your plans to destroy Shirley which is a village by building hundred of homes and setting up a Gypsy and Traveller site. You will destroy the Green Belt and increase the traffic in the area thus polluting the environment and the air we breathe. | Justified | As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
The use of the following five sites for housing:
- Land at Poppy Lane (ref number 128)
- Stroud Green Pumping Station, 140 Primrose Lane (ref number 504)
- Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House (ref number 541)
- Land to the west of Shirley Oaks Road (ref number 542)
- Land to the rear of 5-13 Honeysuckle Gardens (ref number 548)

When the London Borough of Lambeth closed the children’s home, known as Shirley Oaks, Croydon Council determined to keep the building redevelopment of the site broadly in line with the building density that had existed for most of the previous hundred years and subsequent applications by the then developer for increased housing density were rejected. There were a number of reasons for maintaining the original policy amongst which were the need to maintain the established green corridor, retain the character of the area and to maintain the surrounding traffic volumes at a manageable level. The decision to designate the land as Metropolitan Open Land was to ensure that in future further building on the land could not take place thus re-affirming the principles established by the original policy decisions. Nothing has changed in the ensuing years to justify any variation to that policy.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
I am dismayed at the consideration being given to the above, particularly concerning that proposed in the Shirley area.

I have been a Shirley resident for almost 30 years and to date have enjoyed what the area does offer both for the community and with regard to open green spaces, which are precious to the health and wellbeing of all ages. Why should future generations be unable to continue to benefit from an outdoor environment as hitherto?

I strongly object to de-designation of the current Metropolitan Open Land and would hope that at least it could be protected as Local Green Space with regard to future development. This is particularly pertinent with regard to the proposals being considered for the Shirley Oaks area. The present road infrastructure through the estate leaves a lot to be desired and any more traffic will be a great cause for concern, to say nothing of the loss of wildlife and spacious living. If we had wanted to live in a highly densely populated area, we would not have chosen the Shirley area to relocate into, rather the centre of the town. The redevelopment of brownfield sites is more acceptable and there must be many of these in the Croydon area to develop without encroaching on valued green spaces.

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become ‘white land’ (land with no designation) in the Local Plan.
I wish to formally object to:
1. All the proposed policies relation to the re-designation of land to allow building development at Shirley Oaks Road and land around Shirley Oaks Village.
2. The land at Poppy Lane (reference 128)
3. Stroud Green Pumping Station, 140 Primrose Lane including the conversion of the locally listed pumping station (reference 504)
4. Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House (reference 541)
5. Land to the West of Shirley Oaks Road (reference 542)
6. Land to the rear of 5-13 Honeysuckle Gardens (reference 548)
These proposals are NOT appropriate for Croydon to meet its Strategic Objectives.
Additionally the proposals are NOT DELIVERABLE or SUSTAINABLE as:
• Croydon have already announced that it is not necessary to deliberately destroy MOL to reach their housing requirements.
• National and London Plans do NOT require or expect Local Authorities to degrade MOL to generate additional housing.
• The loss of this MOL will entail the LOSS of a vital green corridor between Shirley Oaks through to Ashburton Playing fields, across to South Norwood Park and surrounding Areas.
• The above areas are vital to sustain the drainage of surrounding flood areas.
• The above mentioned areas are referred to the "lungs of Croydon" as they sustain carbon dioxide capture (photosynthesis), oxygen release (photosynthesis) and biodiversity. Local wildlife includes badgers and bats.
• Green areas increase the character, desirability and amenity of residential areas.
Green areas have a strong positive impact of the character of surrounding residential areas.
• The proposed increase in housing will put an additional burden on public transport, roadways and street parking and other services. The additional volume of traffic will create additional road hazards.

Change
As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.
Mr John Carley

Object Soundness - Justified

DM43.4 542

I object to the de-designation of the Metropolitan Open Land around Shirley Oaks Village; reference Numbers, 128, 604, 541, 542 and 548. This is currently Green Space and provides vital green recreational area and buffer between Shirley Oaks and the surrounding area.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

P L Johnson

Object

DM43.4 542

I wish to object to the use of the following sites for housing:
- Land to the east of Shirley Oaks Road (ref no 541)
- Land to the west of Shirley Oaks Road (ref no 542)

We should preserve these pastoral and woodland sites for environmental reasons; for nature and humanity. Due to high traffic usage of the A232 and Upper Shirley Road - particularly when the M25 gets closed - the air quality in this area is not perfect.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

Mr Steve Westray

Object

DM43.4 542

The de-designation of Metropolitan Open Land around Shirley Oaks Village and either side of Shirley Oaks Road. At present I understand that Metropolitan Open Land has the same protection as the Green Belt and I believe that it is vitally important to retain the controls around our green spaces in Shirley. If any additional homes were to be considered for this area then they should be restricted in number and carefully planned in order to retain the character of this area. The idea of building up to 750 new homes is totally out of keeping with this objective and would be considerable strain on local infrastructure and resources. New housing on this scale would lead to a significant increase in traffic along the Wickham Road which is already extremely busy not only servicing the residents of Shirley but as an important thoroughfare into Croydon.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

8822/01/004/DM43.4/O Mrs M Davies

Object DM43.4 542

I am writing to object to the proposed use of:
- the land to the east of Shirley Oaks Road (541)
- The land to the west of Shirley Oaks Road (542)
- The land at Poppy Lane, Shirley Road (128)
- Stroud Green Pumping Station, 140 Pimrose Lane (504)
- Land to the rear of honeysuckle gardens (548)
- Open space land at shrublands estate (038)

DM43.4

As this site does not have a willing landowner it is unlikely that it would be developed. Therefore the proposed allocation will not be carried forward into the Proposed Submission draft and the land will in effect become 'white land' (land with no designation) in the Local Plan.

0115/04/12/DM43.4/O Mr Bob Sleeman

Object DM43.4 548

I am therefore writing to formally object to:
- the use of the following five sites for housing:
  - land to the rear of 5-13 Honeysuckle Gardens reference number 548.
If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

DM43.4

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

0120/02/02B/DM43.4/O Addiscombe Residents Association

Object DM43.4 548

If the Council will not keep them as Metropolitan Open Land, the five sites should at least be designated as Local Green Spaces and not used for housing.

DM43.4

The site should be Local Green Space.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
I am therefore writing to formally object to:

1. de-designation of the Metropolitan Open Land around Shirley Oaks Village;

2. the use of the following five sites for housing:
   - land at Poppy Lane reference number 128;
   - Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
   - land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
   - land to the west of Shirley Oaks Road reference number 542; and
   - land to the rear of 5-13 Honeysuckle Gardens reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
De-designation of the Metropolitan Open Land bordering Addiscombe Place (around Shirley Oaks Village) – OBJECT

If the Council will not keep them as Metropolitan Open Land, the five sites should at least be designated as Local Green Spaces and not used for housing:
Ref 128: Land at Poppy Lane
Ref 504: Stroud Green Pumping Station, 140 Primrose Lane
Ref 541: Land east of Shirley Oaks Road and to the rear of Beech House and Ash House, Shirley Oaks Road
Ref 542: Land to west of Shirley Oaks Road, Shirley Oaks Road
Ref 548: Land to rear of, 5-13 Honeysuckle Gardens

designate as Local Green Spaces and not use for housing

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Object Soundness - Justified DM43.4 548

We object to the proposed development on green spaces, which should remain designated as part of the Shirley Oaks MOL (see comments on Policy SP7 (Table 9.1)).
This site meets criteria for Metropolitan Open Land, in terms of its nature conservation value.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Object Soundness - Justified DM43.4 548

I am horrified at the proposals regarding Shirley. There may be a need for more housing but there are alternatives and it is up to the Council to find these rather than making it easier and more profitable for builders which is now happening.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
I hereby inform you of my STRONG OBJECTION to allow development on the land noted on your Policy Map 43.

Ref 541
Ref 542
Ref 548
Ref 128
Ref 504

This land forms the reason why I, along with the majority of my neighbors purchased our homes. As freehold property owners we each have a shareholding in the company owning the land and do not wish for this, OUR land to be built on.

We also find it unbelievable that the Council wishes to have a legal battle against 800 of its residents who not just own the land but are determined that the land keeps its “Metropolitan Open Land” protected status.

The idea of building on these main green spaces when the existing houses were built with minimal sized gardens is disastrous, such development would obviously not just spoil the look and value of the area but would damage the health of the residents.

This is the land where the residents catch the summer sun, go for walks, jog, children play, and has the most amazing natural wildlife that we all

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

I as resident of Shirley Oaks Village am against any change of our Metropolitan Land (with protection to being built on) being allowed as acceptable for development. I have been living in the Village for almost 30 years and paying for this land to be maintained as grass areas. We own the land as shareholder in our management company (Once designated as Amenity Open Land and transference to our Management company.) I strongly oppose any moves to develop on these grass areas.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
I am writing to express my objection to the planning proposals in the Shirley Oaks area. The land has been set aside for our use as we have very undersized gardens on the estate and we have also paid to keep those areas in a well-maintained condition.

The road around Shirley Oaks only has 2 exits as well, so would make it very congested as there are only 2 options for traffic to leave and enter and there are already a lot of problems at the Wickham Road end as people drive in and out.

I object to the following Ref Numbers:

Ref 541
Ref 542
Ref 548
Ref 128
Ref 504

I would appreciate any information you could send me in relation to upcoming meetings about the proposals.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

I am writing to strongly object to the development of land on Shirley Oakes Village.

The land was shared between residents and in 1985 designated by Croydon Council as “Amenity Open Land” because of our undersized gardens. The land was transferred to the Management Company, with each property owner as a shareholder in that company. I intend to fight for the use of this land.

My front garden is approximately 6’ x 4’ and the lawn in my back garden is only 6’ x 5’. Both my parents and I use the land for exercising dogs as the gardens are so small. This whole thing has come as a huge shock to all of us.

With regard to the traveller site. Travellers move around the countryside so why put a traveller site in such a residential area.

I appreciate the Borough needs affordable homes but the land on the estate is so restricted in size and the in and out roads to the estate are already extremely dangerous owing to the bends in the road. Health and Safety issues need to be addressed.

I strongly object to this development and will explore every possible way to restrict the development of these homes.

I wish to object to the following planned proposals; ref:541, ref:542, ref:548, ref:128 and ref:504

These planned proposals will not fit within the current aesthetics of the estate so please accept this email as an objection to the proposal.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
I am writing in response to your notices for development of the greenfield sites on the Shirley Oaks Village estate, changing the status of this land to allow development of around 700 new homes.

When I bought my house here 18 years ago, it was on the understanding that this had been designated by Croydon Council as metropolitan amenity open land, an attractive feature of the original development, important not least due to the relatively small gardens of some properties, a mixture of unit sizes in an harmonious design. Thus there is a mixture of family unit sizes and age groups at home here. For many years, I and my fellow-resident members of the Shirley Oaks Management Ltd company have contributed regularly to First Port Property Services and their predecessors under our common upkeep obligation, including provision of boundary posts at various points of these areas to ensure that visiting Travellers could not reoccupy them.

As I understand your plans, you now wish to "designate" this as non-metropolitan land, on which purchasers could build however suits their purposes. This does of course risk a complete change in the nature of our Village. I cannot pretend to understand how you can effectively cut a swathe through all of this, even if you do consider it justified. Some residents might I imagine now be considering the impact on their original investment and individual legal aspects. Against these general considerations, I would like to highlight some specific and practical concerns at the outset.

ROAD SAFETY
The perimeter road via Primrose Lane and Shirley Oaks Road is arguably no longer fit for purpose, increased car ownership and parking, fast through traffic including commercial and public transport all contributing. Buses on the 367 route for example frequently mount pavements to pass each other. There have been accidents, some serious, even fatal and involving elderly pedestrian residents. The road surface is nowadays subject to excessive heavy usage. Clearly, 700 new homes will surely accentuate these problems and dangers.

ENVIRONMENT
Your plans will effectively remove an important green-field area and with it much unique wildlife. Residents will lose many of the valuable areas for walking, exercise and fresh-air, as will visitors. Any balanced village appearance and community feel to the estate will be consumed by so many new properties of different designs.

In summary many will surely feel betrayed by a Council which proposes removing green-fields against all promises. Some might also suspect that, whatever the social arguments, their interests are being sacrificed against political and ultimately commercial imperatives.

| 1713/02/006/DM43.4/O | Alison Connor | Object | Soundness - Justified | DM43.4 548 | Once the area surrounding Shirley Oaks Village is re-designated the Council plans to build 751 homes on 5 separate sites. Supposing the average house is for 4 people, 3000 people in total will move to the area. The housing will attract families - potentially half being children. The Council mention no where in their 700 page document about the building of new schools (primary and secondary) nor the building of doctor surgeries, nor the expanding of the local shopping area let alone the already stretched local road infra structure. Our local area can't cope as it is – St John's primary school has applied for an extension to cope with the current demand on its places. During rush hour buses frequently don't stop at bus stops because they are full. Traffic is often diverted down our road, Shirley Church Road, if there is an accident on Wickham Road or Gravel Hill. The dual carriage way (Shirley Park) is crawling along during rush hour. The council are planning to add another 1000 plus cars to this equation. Shirley is often described according to estate agents as leafy, popular, excellent schools. Prices reflect this. Just walking around the area people look after their houses and take pride in living here. People pay more money to live in this area. By building 751 more homes the character of the area will change completely.

|                      |               | Change | As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development. |
We are also writing to object to Croydon Council’s plans to de-designate the Metropolitan Open Land on either side of Shirley Oaks Road and all around Shirley Oaks Village, changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan:

Your draft Local Plan identifies five sites:

1. the land at Poppy Lane is identified as suitable for 51 to 107 homes (pages 445-446, reference number 128);

2. Stroud Green Pumping Station, 140 Primrose Lane, including the conversion of the locally-listed pumping station, is identified as suitable for 26 to 68 homes (pages 451-452, reference number 504);

3. land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 80-215 homes (pages 453-454, reference number 541);

4. land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455-456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542);

5. land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes (pages 467-458, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 548).

Change As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
As a resident of Shirley Oaks I am writing to object the proposals for housing development on the estate and surroundings. Having lived in Shirley all of my life I would be deeply disappointed to see it change unrecognisably. I envisage the property on Shirley Oaks Road will either be demolished or surrounded by high density housing. Either eventuality will be highly detrimental.

I have viewed the Detail Policies and Proposals on Croydon Councils website and object the following plans, references - Ref 128 Ref 504 Ref 541 Ref 542 Ref 548 Ref 938 Ref 502 Ref 661

Object to Site 548

Change  As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). Also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn’t cope with the additional traffic.

If the Council won’t keep it as MOL, it should at least designate it as Local Green Space so that it has some protection.

Change  As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
I am writing to object to:

1. THE DE-DESIGNATION of the following five pieces of land as Metropolitan Open Land around Shirley Oaks Village and their proposed use as housing:

   Land to the rear of 5-13 Honeysuckle Gardens reference number 548.

   There is only one narrow very winding road which runs through the village and this could not cope safely with any additional traffic. It is single file around bends as it is and the local road infrastructure would be overburdened.

   These open spaces are collectively designated as Metropolitan Open Land and it would be unacceptable to lose a link to this chain.

   Additionally, this area is a flood plain and there is a sink pond to the rear of Honeysuckle Gardens. There would be a detrimental effect and potential flooding of existing and planned properties.

   Three of these sites are owned by the residents of Shirley Oaks Village through the Shirley Oaks Management Company in which every freeholder has a share. The three land sites in question are:

   1. Land to the east of Shirley Oaks Road reference number 541
   2. Land to the west of Shirley Oaks Road reference number 542
   3. Land to the rear of 5-13 Honeysuckle Gardens reference number 548

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
I am writing to voice my full-throated objections to the above proposals because of the irreparable damage it would do to the character of one of the leafier, more pleasant, parts of the borough. The council seeks de-designation of Metropolitan open land that, as a homeowner in Shirley Oaks Village, I own a share of, and it is protected by covenant. Such thoughtless destruction of our precious little green space (we were granted this Amenity Open Land in 1985 by the council due to our undersized gardens) is obnoxious, ill-conceived and damaging to the value of our properties, as planning blight could linger for a decade. Myriad other neglected parts of the borough are far more appropriate for such massive development and would not stir up so much ire from the current residents, nor would they require the politically-expedient moving of goalposts regarding land use. Our village simply does not currently have the infrastructure nor the capacity to expand in order to cope with these proposals. There is barely enough parking space available in the village at present, so quite where up to 683 other families will park and seek recreation, I do not know. Quite how all the construction vehicles involved in such huge building works would access the proposed sites without further detriment to the quality of life of the residents is another issue I raise. We are served by one bus route that can only use small, single decker buses. The roads are too narrow for larger vehicles. How would this be overcome? Additionally, the fact that the council would seek to house the travelling community so close to the town centre, on land where in 2012 a group of them set up an illegal encampment and defecated in our woodland, beggars belief. If the council has an inexplicable legal obligation to designate land to travellers, then expand capacity at their existing sites in Beddington Lane and Featherbed Lane rather than dispersing them further across the borough into otherwise salubrious areas. I do hope that common sense prevails and that all five of the above proposals are quickly abandoned. I chose to live in this area precisely because it is not blighted by these hideous developments. I am sure that many other residents echo my sentiments.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
also object to the following specific proposals for the building of new homes on this site, as detailed in Changes to the Policies Map arising from Proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan, Detailed Policies & Proposals:

Policy DM43, reference Site 128 to build new homes at Poppy Lane
Policy DM43, reference Site 504 to build new homes at Stroud Green Pumping Station (including the conversion of the pumping station which is a locally-listed building)
Policy DM43, reference Site 541 & 542 to build new homes on land to the East & West of Shirley Oaks Road
Policy DM43, reference Site 548 to build new homes on land to the rear of Honeysuckle Gardens

Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the local schools are over-subscribed as well as the already-stretched social and healthcare facilities would be overloaded.

For the reasons given above:
1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability to meet the needs of future generations.
4. I recommend that consultation documents of such importance are given much wider publicity.

Change:

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Mr C Johnson  

Object  

DM43.4 548  

This land is owned by Shirley Oaks Management Limited (SOML). This is the management company for the estate whose shareholders are the home owning residents. SOML owns and manages the open spaces on behalf of and for the benefit of the residents for whom the land is ‘amenity open land’ ie communal, recreational space. The land was transferred to SOML’s ownership in 1985 whilst the estate was under development. I believe that the developer had infringed planning regulations by reducing the sizes of the gardens included with the dwellings that it was building in order to increase the density of the housing beyond that which had been agreed with the local planning authority. The open land, which is currently being scrutinised as part of the Council’s policy proposals review, was effectively a penalty levied on the developer whereby an amount of green space was given over to SOML to own and manage as redress and compensation to the residents for skimping on the sizes of individual gardens. I am assured by a Director of SOML that the company has documentary proof of all of the above points. The residents pay a service charge that, inter alia, covers the cost of managing and maintaining these open spaces. SOML is bound by its covenants with the residents that this land shall be managed and maintained as communal open areas for the collective enjoyment and benefit of residents as long as the estate should be in existence. Thus, there is no scope on SOML’s part for participating in any effort to develop these spaces and any attempt to develop them undermines the importance of those spaces in providing amenity open land, as previously ordered by the local Council.

Change  

As this site does not have a willing landowner it is unlikely that it would be developed. Object DM43.4 548
I have just read a letter from Mick Hewish, Resident Director of Shirley Oaks Management Ltd and I would like to object to the proposals for developing areas around Shirley Oaks. These are as follows:
- Ref: 541 Shirley Oaks Road East side
- Ref: 542 Shirley Oaks Road West side
- Ref: 548 Land rear od Honeysuckle Gardens
- Ref: 129 Poppy Lane
- Ref: 504 Water Board HQ Primrose Lane

The high density of new homes would put considerable strain on the environment, including overcrowding, drainage, traffic and parking.

Objection to the allocation of Site 548 Land rear of Honeysuckle Gardens for proposed development as the high density of new homes would put considerable strain on the environment, including overcrowding, drainage, traffic and parking.

Change
As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Object

1924/01/006/DM43.4/O Pamela Lees

I strongly object to many of the proposed developments within the Shirley area. I believe that allowing low rise developments around Shirley library will alter the balance of properties in that area, which are mainly detached and semi detached. People have moved to this ‘sought after area’ precisely because of its current character. I also object to the intensive developments proposed on the Metropolitan open land around Shirley Oaks. We need open land to reduce carbon emissions, for wildlife and for our own well being. Both of the above developments would put a huge strain on the services in the area, schools, doctors, busses and the already congested road system. I urge you not to progress with these proposals.

I also think that the two proposed travellers site in Shirley are inappropriate as they would be on Green Belt land, which is against your own policy and would be a blight on one of the few areas that are beautiful and wildlife friendly within Croydon.

I am always defending Croydon to those that mock it, saying that we have some lovely open spaces in which to walk and enjoy the diversity of nature. They only see the high rise blocks and litter. If these proposals go ahead, Croydon will have nothing left to commend itself.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. Object DM43.4 548

Graham & Kate Marsden

Shocked at the scale of proposals for Shirley and will fundamentally change the nature of the area. Front gardens are an asset to the local street scene. The proposals for focussed intensification associated with gradual change of an areas local character under Policy DM31.4 put this stability at risk, and may have an impact on the services we all need from the Council.

Object to the de-designation of MOL - at a minimum it should be designated as local green space. We object to this site being used for residential use as it would change the character of the area, overload the already difficult local road structure. It would damage the vital green corridor between Shirley Oaks and the surrounding areas and reduce the habitat for wildlife.

Change As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Object DM43.4 548

Joe Rowe

Shirley Hills Residents Association

This land is designated as Metropolitan Open Land and there is no justification for re-designation. An increase of up to 741 homes on this land would put local services including schools, transport and already crowded roads under further pressure.

Change As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

We do accept that Croydon does need to provide new housing but this has to be on-appropriate sites, i.e. previously developed land and not greenfield/metropolitan open land. We are firmly against this idea as it would set a precedent for inappropriate development/piecemeal development.

Change
As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Development at this site would be detrimental to the openness, character, visual amenity and setting of Metropolitan Open Land. It would affect the residential amenity and result in the loss of trees and vegetation to the detriment of the surrounding area.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

I and many residents in Shirley object to the following. 700 new homes to be built in Shirley oaks village with no provision for extra facilities like schools, doctors etc.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

I object to the de-designation of Metropolitan Open Land for the purpose of house building. My objection references MOL bearing the same protection from development as the Green Belt. If the Council will not agree to maintain the MOL status, designation as Local Green Space would lessen the negative impact on the local environment. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would totally change the character of the area and have a great impact on the local road infrastructure impacting Tower View, Edgewood View and Primrose Lane.

The site should be at least designated as Local Green Space.

The planning permissions proposals below I object to ref 548. If the Council will not keep the land as MOL it should at least be designated as Local Green Spaces. I am particularly concerned about the effect of local roads that the suggested development will have as, when Heron Homes built the original development some years ago they were prevented by the local council form building the number of houses now proposed because of inadequate access roads onto the estate. Under present conditions the A232 Wickham Road is particularly subject to traffic delays especially in term time. Your proposed developments would also have a detrimental effect on our already crowded local schools and doctor’s surgeries.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
It is unrealistic to develop this land which is at the far end of the estate due to poor accessibility. The land is privately owned. Residents purchased their property in the knowledge that the land is privately owned and designated such that it cannot be built on. The local management company has worked hard to maintain the green area and retain areas suitable for wildlife. The road is already congested with private cars making the bus route difficult. I do not consider it deliverable therefore it will not meet the present needs, let alone future needs. It is unrealistic to expect the land to sustain a limitless growth in population on relatively small patches. Transport will reach gridlock, the more land that is covered over leads to drainage issues. More pipes will be channeled underground to bring in services and take away waste. Changes to due to global warming etc will be exacerbated if the population continues to converge on small land masses rather than spreading over the planet. In addition to the physical problems we would be creating, social problems will occur with people living in closer proximity in congested space.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

I am writing to object: The de-designation of the five pieces of land as metropolitan open land and their proposed use of housing land at Poppy Lane reference number 128. I feel that building more houses on the green land would totally destroy the wildlife in the area and would ruin an area of beauty, and that the one road into the village wouldn't be able to cope with more traffic as it's already busy.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

I am writing at this time to record my objections on the following basis - the use of this site, 548, for housing

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

<td>I object to ref 548-I am writing to you with regard to the recent changes in Planning policies by Croydon Council and their impact on the designation of grass areas in Shirley Oaks Village. These areas were formerly designated as Metropolitan Open Land and had protection form being built on. However my understanding is that these areas may now be changed to no Metropolitan Land thus allowing their use for future housing developments. As a resident of Shirley I would like to point out that our land was designated as 'Amenity Open Land ' in 1985 by Croydon Council because of our undersized gardens and transferred to a Management Company, with each property owner as a shareholder of the Company. Whilst I fully accept the need for new housing in Croydon, in particular affordable housing for first time owners, it is clear the sheer scale of the proposed development and the resultant destruction of a precious greenfield site in Shirley Oaks Village that I object to. I would have no issue with a much smaller scale development of the village, as part of an overall plan for Croydon where new housing was primarily targeted toward development of brownfield sites under the council's jurisdiction. I urge you to consideration of my suggestions in the weeks ahead and look forward to receiving feedback in due course.</td>

Object Soundness - Justified

Site 548, Land to the rear of 5-13 Honeysuckle Gardens, is identified as suitable for 59-125 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Tower View, Edgewood View and Primrose Lane.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Object DM43.4

I thoroughly object to these proposals, the traffic has built up over time and I wouldn't even want to begin to imagine what Shirley Oaks would be like if another 600+ homes where to be built, that would be practically doubling the size of Shirley Oaks as it is at present.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Object DM43.4

I will be objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). If the Council won't keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. I will also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
We strongly object to Croydon Council’s local planning proposals and plans for development to the site being used for residential development. We strongly object to the de-designation of the Metropolitan Open Land around Shirley Oaks Village. No more housing should be built on MO land and it is inappropriate for development since it would over-stretch the local road infrastructure with the additional traffic. The road in and out of Shirley Oaks Village is very narrow and there is hardly enough room for the bus to get by. The increased volume of traffic and parked vehicles would be unmanageable bringing traffic in all directions to a complete standstill.

We believe the council needs to rethink its proposals for the sites, but would hope that in any event, an overwhelming majority of homeowners living in the village will reject the council’s proposals. Not only would the area be an eyesore, but the proposal to build a whopping 700 new homes is unrealistic as the open green spaces are very small. You would also be destroying the wildlife by cutting down our precious trees and removing the open green spaces.

It was agreed, and we believe documented, that after the build of phase 5 on Shirley Oaks Village that no more houses would be built, and this was a deciding factor when individuals bought their properties on Shirley Oaks Village. If over 700 new homes are built, it would no longer be a village but instead an ugly built up housing estate, changing the character of the landscape completely.

From our perspective, if the proposals were approved, we would have no choice but to move away from the area. It would be too upsetting to see our open green spaces developed to excess with over 700 new homes. I have no doubt that developing the land would also devalue the property prices in the future.

We find the council’s proposals ludicrous and unreasonable. It is imperative that we protect the precious remaining green spaces around Shirley Oaks Village. On that basis, we vigorously object to the council’s proposal to develop the land.

Miss Margaret A Williams  

Object DM43.4 548  

I wish to register my objection to the proposed plans for the housing development on the green areas around the Shirley Oaks Estate.

Change  

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

M.K White  

Object DM43.4 548  

I strongly object to your proposed development plans for this site.

Change  

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Mrs Shirley M Kall  

Object DM43.4 548  

Our Local Green Belt should remain as such and not dedesignated as Metropolitan Open Land which then could be used for new housing. I strongly object to this proposal. Plans for residential development:

Ref.No.128 - the land at Poppy Lane is identified as suitable for 51-107 homes.
Ref.No.504 - Stroud Green Pumping Station, 140 Primrose Lane including the conversion of the locally-listed pumping station is identified as suitable for 26-68 homes.
Ref.No.541 - land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 59-125 homes.
Ref.No.542 - land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes.
Ref.No.548 - land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes.

Development on any of these sites would change the whole character of the area, and surely add to the congestion of local roads which would increase the risk of accidents.

Change  

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
We wish to register our objection to the proposals to change the policy map 43 in relation to Metropolitan Open Land at Shirley Oaks Village. Like many residents we purchased our home on the understanding that the MOL was owned by the residents themselves and would not be developed. It was a strong factor in our decision to purchase our house. The land itself was transferred to the management company by a transfer dated 30 July 1991 made between Heron Homes Limited and Shirley Oaks Management Limited. The third schedule to this transfer contains restrictive covenants and I have attached the relevant clauses. These clauses state that the land is to be used as open space so I do not understand how you can ignore this and grant planning permission to build houses. We understand the need for more housing but feel that this is not the way forward. It would be far better to look at the buildings/land owned by the London Borough of Croydon first to see which could be used as residential properties. The old Ashburton Library in Ashburton Park is such a building that could be redeveloped and used for housing and I am sure there are many more.

Mrs S White

I object to the use of the Land to the rear of 5-13 Honeysuckle Gardens reference number 548 for housing:

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Object Soundness - Justified

DM43.4
548

Please note that I wish to object to the proposals set out in reference numbers 504, 541, 542, 548 and 128, for the following reasons:

- There has been insufficient notice of the consultation period, and the proposals are not clearly set out as pertaining to Shirley Oaks Village.
- This land is designated as Metropolitan Open Land, and I do not agree that it does not meet the criteria, as it does contribute to the physical structure of London, and there currently are open-air facilities, which serve significant parts of London.
- Increasing the housing density in this development will have a detrimental effect on the overall environment, and will decrease the value of these homes, as the development contains smaller gardens than those originally planned, and the surrounding green spaces were left vacant to compensate for the lack of adequate open space.
- Any change in the restrictions will adversely affect the accessibility to nature and wildlife of the area, which contains features of metropolitan importance.
- There is inadequate infrastructure in the locality to accommodate such an increase in population.
- There has not been a true ‘fit for purpose’ investigation of the ‘brownfield sites’, which already exist in the borough, or of other open land which could be used without.

In view of the above please register my objection to all five proposals, and please acknowledge receipt of this email.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Land at Poppy Lane and Primrose Lane, Shirley Oaks Village. Residential development.

Can you please inform me why?

- All three consultation documents have only appeared in the last few days, yet the consultation meetings are for 25th and 28th of November? This is surely insufficient notice.
- I have tried to view the proposals on your website without success. Why would this be?

In view of the insufficient notice and lack of both digital as well as hard information, please register this email as an objection.

Mr Steven Hunt

Object

2580/01/008/DM43.4/O

DM43.4 548

I am emailing to outline my objections to the planning notices in relation to the above reference numbers which concern land near to Shirley Oaks Road, Honeysuckle Gardens, Poppy Lane and Primrose Lane.

I object to these proposed developments for the following reasons:

1. The move to unravel the protection of Metropolitan Open Land from significant housing developments is a disappointing and avoidable move by Croydon Council. This sets an unnecessary precedent. This land should be protected by its designation and the council has sufficient options elsewhere in the borough on land that has no such designation.

2. Much of the land concerned was designated by Croydon Council in 1985 as "Amenity Open Land" because of the under-sized gardens of many of the Shirley Oaks property. I live with a young family on Shirley Oaks with a very small garden and object to the loss of this open land which is regularly used by young families and residents of the area who do not have large gardens or any gardens at all in some instances.

3. Such proposals will unduly change the character and desirability of the local area which is defined by its open space. Shirley Oaks remains one of the few genuine peaceful residential areas within the borough and such thoughtless development will threaten this.

4. The roads leading to Shirley Oaks are roads not given to significant volumes of traffic. Increasing the density of the population within the immediate area as substantially as you are proposing creates challenges for traffic and parking. The scale of these developments will exponentially increase the volume of traffic and create challenges for parking.

Eli Simmonds

Sue Ridenton

Object

DM43.4 548

I would like to raise my objection to the proposed land changes for the Ref. 548 - Land to rear of Honeysuckle Gardens - up to 125 new homes.

The land we are talking about above was designated by Croydon council in 1985 as Amenity Open Land, because of our under-sized gardens and transferred to the Management Company - with each property owner as a shareholder in that company.

No one in the village will want any more homes built the open space keeps the village unique and a nice place to live. Any more homes will not enhance the village at all and of course will lower our house prices and a GYPSY site what on earth are the council thinking!!

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Ms Rachel James

Object

DM43.4 548

I object to the following proposal for Shirley oaks village.

Ref. 541, Ref. 542, Ref. 548, Ref. 128, Ref. 504 I love my home currently on Shirley Oaks our gardens are considerably in the small side and I daily take walks on to the land with have with my 2 children and husband. I feel this would depreciate the area and I wouldn't be happy with any of the above plans.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
I am writing to register my household's objection to the proposed developments in Shirley. The projected number of homes will impact dramatically not only on the existing residents and the open feel of the site, but essentially on the transport infrastructure. Wickham Road is a major route, prone to congestion at peak hours and any significant increase in road users will have a dramatic knock on effect not for residents and also for commuters in all directions. The Trinity roundabout is a major junction with many bus routes passing through, this would grind to even more of a halt. The potential number of proposed properties is unacceptably high.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

If the Council will not keep them as Metropolitan Open Land, the five sites should at least be designated as Local Green Spaces and not used for housing.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

The Society objects to the proposals to de-designate the Metropolitan Open Land on either side of Shirley Oaks Road and on land surrounding Shirley Oaks Village, in particular the proposals on page 68. This land is currently protected from development similar to protection of green belt land.

The Society objects to the proposals to de-designate land currently held as Metropolitan Open Land. Even if parts of the areas were designated as local green space, in accordance with the National Planning Policy Framework, there would still be a huge loss of open space.

If development were allowed in these areas it would be detrimental to the amenity value of the area for the benefit of the public.
Having lived in Shirley for over 50 years I strongly object to Croydon Council plans to de-designate the Metropolitan open land so that most of this land can be used for new housing. At the moment it has the same protection as Green Belt.

Firstly, this would entail the loss of a vital green corridor between Shirley Oaks and the surrounding area, changing the character of the area. More importantly, the road infrastructure couldn't cope with the additional traffic. Try getting out to the Wickham Road from Orchard Avenue in rush hour.

Land to the rear of 5-13 Honeysuckle Gardens, is identified as suitable for 59-125 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Tower View, Edgewood View and Primrose Lane.

The more specific site allocations represent a large reduction in the amount of designated and non-designated open space. While we acknowledge the need to build new homes and associated infrastructure such as schools, Croydon’s growing population also needs quality open spaces for all the human amenity and ecosystem services which they provide.

We object to the proposed development on green spaces, which are currently designated, and should remain designated, as part of the Shirley Oaks MOL. As mentioned as part of our response to SP7, we feel that most of the site still warrants its MOL designation. We object to the following site allocations as they will fragment the green space impacting on residents’ amenity and wildlife’s use of the area (both current and potential).

Contrary to the council’s statement in the Draft Local Plan, this site meets criteria for MOL in terms of its ecological value including nature conservation and habitat interest, with its mature trees and biodiversity, and has potential to be enhanced as per the NPPF and London Plan for leisure and recreation activities site.

I am writing to object to:

- The use of the following five sites for housing:
  - Land at Poppy Lane reference number 128
  - Stroud Green Pumping Station, 140 Primrose Lane reference number 504
  - Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541
  - Land to the west of Shirley Oaks Road reference number 542
  - Land to the rear of 5-13 Honeysuckle Gardens reference number 548

- If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces.

People buy property on Shirley Oaks Village because of the green open spaces, the peace and tranquillity, the beautiful old Oak Trees. You cannot suddenly take that away these surroundings; people have spent hard earned money to live on this Village. Residents also pay for maintaining these green open spaces.

The service road will not take any more traffic; two buses can hardly pass, and indeed were not supposed to drive round the estate together because of the small service road. There is a hospital and ambulance station on the estate, and any increase in traffic will interfere with their services.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Mr Ian K White

Soundness - Justified

DM43.4
548

I am writing regarding the Council’s plans for a massive redevelopment in the Shirley Area. More houses mean more traffic on our already crowded roads. I no longer go into Croydon because of the journey times. How long would it be before the Council considered bringing in a congestion charge. When you build all these properties do you consider the local amenities and the effect that more people would have on these. Where are the school places for all of these children? Regarding doctors. Unless it is an emergency I have to wait at least a week for an appointment. This waiting time can only increase if there are more patients. Is it the Council’s policy to build over green belt land to the detriment of locals? I sincerely hope not. I think you need to seriously reconsider these plans.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Mr David Jenner

Object

DM43.4
548

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
These open spaces are collectively designated as Metropolitan Open Land. It would be disastrous to lose a link in this chain.

THE SHIRLEY GREEN CHAIN

The green open spaces of Shirley Oaks Village provide several links in the Shirley Green Chain. This chain starts at the South Norwood Country Park in the north and runs south through Ryland Fields, Long Lane Woods, Ashburton Playing Fields, the open spaces of Shirley Oaks Village, Trinity School playing fields, Shirley Park Golf Course and up to the Shirley Hills. From there the Green Chain continues through Heathfield, Bramley Bank Nature Reserve, Littleheath Woods and via Selston Park to Kings Wood at Hamsey Green. These open spaces are collectively designated as Metropolitan Open Land. It would be disastrous to lose a link in this chain.

Planning Policy Guidance Note 9

This guidance stresses the importance of nature conservation, not only on nationally important sites, but also suggests that many urban sites for nature conservation have enhanced local importance as a consequence of the relative lack of wildlife sites in built up areas. Statutory and nonstatutory sites which provide wildlife corridors, links or stepping stones from one habitat site to another, all help to form a network necessary to endure the maintenance of the current range and diversity of our flora and fauna.

The Green Spaces in Shirley Oaks Village were designated as Metropolitan Open Land and today still meet the criteria for this protection. The sites (1) contain conservation and habitat interest of value at a metropolitan level and (2) forms part of the Shirley Green Chain. These are two of the criteria for Metropolitan Open Land. The Green Spaces in Shirley Oaks Village were designated as Metropolitan Open Land and today still meet the criteria for this protection. The sites (1) contain conservation and habitat interest of value at a metropolitan level and (2) form part of the Shirley Green Chain. These are two of the criteria for Metropolitan Open Land.

These sites possibly have a section 52 agreement, and are part of the Shirley Oaks Village residents.

Re-designation of MOL falls foul of...
the London Plan.

Existing dwellings to be retained or demolished? If retained the Site Area should be adjusted to take account of the existing dwellings: The Lodge, Beech House & Ash House? On the East site And the Synagogue and the two house (can't read their names) on the West side.

Infrastructure not specified to support development.

Schools are oversubscribed; GP Surgeries oversubscribed

Road system could not cope with the increase in traffic during peak travel times

Area has high water table and is subject to flooding.

London Plan

POLICY 7.17 METROPOLITAN OPEN LAND

Strategic

A The Mayor strongly supports the current extent of Metropolitan Open Land (MOL), its extension in appropriate circumstances and its protection from development having an adverse impact on the openness of MOL.

Planning decisions

B The strongest protection should be given to London's Metropolitan Open Land and inappropriate development refused, except in very special circumstances, giving the same level of protection as in the Green Belt.

Essential ancillary facilities for appropriate uses will only be acceptable where they maintain the openness of MOL.

LDF preparation

C Any alterations to the boundary of MOL should be undertaken by Boroughs through the LDF process, in consultation with the Mayor and adjoining authorities.

D To designate land as MOL boroughs need to establish that the land meets at least one of the following criteria:

   a) it contributes to the physical structure of London by being clearly distinguishable from the built up area
   b) it includes open air facilities, especially for leisure, recreation, sport, the arts and cultural activities, which serve either the whole or significant parts of London
   c) it contains features or landscapes (historic, recreational, biodiversity) of either national or metropolitan value
   d) it forms part of a Green Chain or a link in the network of green infrastructure and meets one of the above criteria.
The London Plan 7.56

The policy guidance of paragraphs 79-92 of the NPPF on Green Belts applies equally to Metropolitan Open Land (MOL). MOL has an important role to play as part of London’s multifunctional green infrastructure and the Mayor is keen to see improvements in its overall quality and accessibility. Such improvements are likely to help human health, biodiversity and quality of life. Development that involves the loss of MOL in return for the creation of new open space elsewhere will not be considered appropriate. Appropriate development should be limited to small scale structures to support outdoor open space uses and minimise any adverse impact on the openness of MOL. Green chains are important to London’s open space network, recreation and biodiversity. They consist of footpaths and the open spaces that they link, which are accessible to the public. The open spaces and links within a Green Chain should be designated as MOL due to their London-wide importance.

2. Do you think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3? Whether yes or no please state your reasons:

- No, the land is current Green Belt or Metropolitan Open Land or otherwise designated green land and should not be built on. I disagree that it "does not contribute to the physical structure of London". Just because it has no facilities does not mean that it is not an asset to the life of London. Yes, it is deliverable but should not be delivered on that land. No, it is not sustainable because it removes the need for green space for future generations.

Change: As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Object:

It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Object:

Site 548. Land to the rear of 5-13 Honeysuckle Gardens, is identified as suitable for 59-125 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Tower View, Edgewood View and Primrose Lane.

Change: As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

<td>Residential development on either side of Shirley Oaks Road and around Shirley Oaks Village (reference numbers 128, 504, 541, 542, 548) on Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies &amp; Proposals) This is Metropolitan Open Land which is accorded the same level of statutory protection as the Green Belt. Changing this designation in order to allow building amounts to an abuse of the planning process. The area is liable to localised flooding, which anyway makes it unsuitable for residential housing. There appears to be no provision for additional infrastructure which would support the building of up to 750 new homes. In particular, local roads are already inadequate; morning traffic queues are already common in this area, especially towards the town centre. The proposals cannot but fundamentally alter the character of this part of Shirley, again, for the worse</td>

Object DM43.4 548

The site is owned by Shirley Oaks Management Company. The site is currently designated MOL. There is a legal agreement which relates to the land and identifies an area of which the site is part. It requires that the site be transferred to a management company and held as amenity open space. The company is the successor in the title to the original developer. The Section 52 agreement prevents development of the site and therefore it is not deliverable. The MOL designation should remain.

Should the decision to de-designate the site as MOL it should be designated at local green space. Development of the site would not comply with the NPPF nor would it be sustainable development for the reasons set out above and those identified in respect to the objection to Policy SP7. The highway network is already at saturation point and in any event any proposed residential development would generate an unacceptable amount of traffic. The site has a high water table.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Soundness - Justified

DM43.4 548

I object to the use of the following five sites for housing:

• Land at Poppy Lane reference number 128;
• Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
• Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
• Land to the west of Shirley Oaks Road reference number 542; and
• Land to the rear of 5-13 Honeysuckle Gardens reference number 545;

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
I write concerning Croydon Council’s proposals contained in the consultation document of the Croydon Local Plan that includes the re-designation of Metropolitan Open Land in Shirley and specifically within the confines of Shirley Oaks. I consider these proposals and others listed above to be inappropriate as they would significantly change the character of the area in which I have lived all 61 years of my life and I wish to add my voice to those already expressing concerns and objections about these proposals.

I strongly object to the proposal to re-designate Metropolitan Open Land to facilitate the building of new homes on land in Shirley Oaks and the provision of temporary or permanent traveller/gypsy sites in areas that are acknowledged by the Council to be in the green belt at Coombe Farm and Coombe Lodge Nurseries in Conduit Lane.

These proposals are totally out of keeping with the character of the area which predominantly comprise owner-occupied semi and detached homes. Surely areas considered to be brownfield sites are more appropriate than the unacceptable use of Metropolitan Open Land?

The proposals affecting the area surrounding Shirley Library are also of concern as this would adversely change the character of the area and potentially result in the establishment of additional unsightly car-parking sites on the south side of Wickham Road, similar to that at the front of the Shirley Medical Centre at 370 Wickham Road.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

<td>Object</td>
<td>These areas allowed by Shirley Oaks Management Ltd. 488 residents are shareholders in this company. This land was transferred to the above company in 1985 and designated as open amenity land by Croydon Council for use of residents as the gardens of the dwellings built by Heron Homes were very small. These areas of open amenity land are fully utilised by the residents and others for recreation and leisure and are clearly identified as private land. High density building in these areas would result in lack of pleasure and amenity for present residents, increase traffic congestion and an increased risk to residents personal safety and health especially through high pollution levels. Change: As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.</td>

</tbody>
</table>
2969/01/003/DM43.4/O Mrs Janet Hills Object 1) I own pt the Land and am not prepared to sell my Share!
2) This open pastureland is used by children (playing) and dog walkers from other parts of Shirley. I know this because friends of mine walk their dogs - and pick up their 'litter'. We're all being encouraged to exercise more yet you're taking away the possibilities of doing so on our own 'home ground'!
3) It will grossly decrease the value of my property. !!!
4) I am in my 70's (I moved here 8 yrs ago because of the tranquility) and haven't the energy to move again!
5) The Wickham Road is already congested a lot of the time, I can't imagine what it'll be like with the introduction of 750 'new builds' on Shirley Oaks + the plans for altering other parts of Shirley.
6) There are wild birds, and animals, living here as well as us you know!!

Change As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

2974/01/007/DM43.4/O Jane Bowden Object Soundness - Justified 2) I understand that the Council are seeking to de-designate various pieces of land on either side of Shirley Oaks Road and around Shirley Oaks village, so that it is no longer Metropolitan Open Land, with a view to potentially building between 304 and 751 new homes. (Reference numbers 128, 504, 541, 542 & 548). Open, green land is essential to maintain a pleasant living area, and to maintain the character of the area. In addition, this number of additional dwellings would seriously overwhelm the local infrastructure. In particular, the local road infrastructure couldn't cope with the additional traffic.

Change As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

3001/01/008/DM43.4/O Mr John Helen Object land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes (pages 457-458, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 548).

I will be objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). If the Council won't keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. I will also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic.

I am happy for the Council to replace under-used garages with much-needed homes, but I will be objecting to building on precious open space.

Change As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
3002/01/008/DM43.4/O  Mr John Hitchcock  
**Object**  
DM43.4  
548  
Our family has lived on Shirley Oaks Village approx 20 years ago and understood the village to be a Private estate and I am writing to object to the de-designation of the open land around the village and to the use of five sites for housing.  

The land rightfully belongs to the residents, the area and roads will become congested and property values will decrease.

**Change**  
As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

3005/01/005/DM43.4/O  Mr John Roberts  
**Object**  
DM43.4  
548  
I am writing to object to:  

The use of the Land to the rear of 5-13 Honeysuckle Gardens, reference number 548 for housing:  

If the Council will not keep these areas as Metropolitan Open Land, these 5 sites should at least be designated as Local Green Space.  

My objections are based on the following:  

i. The change in local designation and subsequent development would lead to a material reduction to an important green space and amenity within a basically urban area,  

ii. The effect and congestion on the local infra-structure which would be caused by the building of more housing to an already densely developed site,  

iii. The effect on existing property values of property to Shirley Oaks and surrounding areas caused by the reduced amenity and congestion.  

I urge that the Council should take these and other objections in consideration and not continue with their plans to re-designate the areas described above

**Change**  
As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Land currently designated as Metropolitan Open Land at Poppy Lane, Stroud Green Pumping Station, to the east of Shirley Oaks Road, to the west of Shirley Oaks Road and to the rear of 5-13 Honeysuckle Gardens has been identified as suitable for up to 741 homes (pages 445-446, 451-452, 453-454, 455-456, 457-458 Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference numbers 128, 504, 541, 542 and 548).

I object to these proposals on the grounds that:

This land is designated as Metropolitan Open Land and there is no justification for re-designation. An increase of up to 741 homes on this land would put local services including schools, transport and already crowded roads under further pressure.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Once the area surrounding Shirley Oaks Village is re-designated the Council plans to build 751 homes on 5 separate sites.

Supposing the average house is for 4 people, 3000 people in total will move to the area. The housing will attract families - potentially half being children. The Council mention no where in their 700 page document about the building of new schools (primary and secondary) nor the building of doctor surgeries, nor the expanding of the local shopping area let alone the already stretched local road infrastructure. Our local area can't cope as it is - St John's primary school has applied for an extension to cope with the current demand on its places. During rush hour buses frequently don't stop at bus stops because they are full. Traffic is often diverted down our road, Shirley Church Road, if there is an accident on Wickham Road or Gravel Hill. The dual carriage way (Shirley Park) is crawling along during rush hour. The council are planning to add another 1000 plus cars to this equation. Shirley is often described according to estate agents as leafy, popular, excellent schools. By building 751 more homes the character of the area will change completely.
3028/01/008/DM43.4/O Mr Nick Barnes
Object  Soundness - Justified  DM43.4 548
Having read both local plans for the Shirley area, I strongly object to all aspects in both plans, this includes the 750 new homes on Shirley Oaks Village, 35 new homes in Shrublands, the two gypsy sites at Combe Fram and Conduit Nursery and the development for up the four storeys along Wickham Road.
None of these plans will benefit Shirley and I object to them all.

Change  As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

3029/01/006/DM43.4/O Mr Paul Newton
Addington Village Residents Assoc
Object  Soundness - Justified  DM43.4 548
Objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). Also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn’t cope with the additional traffic.
If the Council won’t keep it as MOL, it should at least designate it as Local Green Space so that it has some protection.

Change  As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

3041/01/005/DM43.4/O Sarah Minter
Object  DM43.4 548
I strongly object to the proposed development plans for the Shirley Area. I have lived here all my life and have seen a steady influx of people, and a massive reduction in the green space in the area. The roads are already far too congested and the social infrastructure is already struggling to cope with the number of residents. There are many areas in the Croydon borough much more suited to such large scale development. I am thinking particularly of areas around Purley Way. There are also many brown field sites in the borough that could be put to more effective use as housing without affecting the green areas. I guess the council prefers to redevelop the green areas rather than the brown field areas due to cost. As I said I do not want my local area turned into a concrete jungle where there is nowhere for people to relax in the open.

Change  As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

3045/01/007/DM43.4/O Mr Stuart Marsh
Object  DM43.4 548
I object to the use of the site for housing.

Change  As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
I am writing to object to all the proposed changes and plans affecting the Shirley neighbourhood as advised to me by Gavin Barwell and the Executive Committee of Spring Park Residents Association. 

1) I object strongly to any plans to change the definition of existing land and use.

2) When dealing with the further extension of Shirley Oaks site I am disturbed by the fact there are just two access points i.e., Shirley Road and Wickham Road the latter being onto the A232 which is very busy all day and particularly during rush hour periods, when traffic backs up westwards to the Shirley Road roundabout and beyond.

3) The proposals for Shirley Oaks, given to me indicate land being suitable for between 304 and 751 additional homes. As many properties nowadays have at least one car this will have a serious additional congestion to Shirley and Wickham Roads.

4) Additionally, development of this size would have a serious demand on existing schools (primary particularly), doctors and other local services. 

Change As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
I am writing to express my objection to the proposals of development to the Shirley oaks estate, on website www.croydon.gov.uk/policiesmap on "Changes to the policy Map 43" those being:-

Ref:541. Shirley oaks road East side, up to 215 new homes!!
Ref:542. Shirley oaks road west side, up to 236 new homes!!
Ref:548. Land rear of honeysuckle gardens, up to 125 new homes!!!
Ref:128. Poppy lane, up to 107 new homes!!
Ref:504. Up to 68 new homes or gypsy site at the water board HQ, primrose lane!!!!!!!!!!

I brought my home on 5 Flag Close, Shirley Oaks, Surrey, CR0 8XT as it was on a green and pleasant estate and on the understanding this land was designated to us as because of our undersized gardens. We were told this land would never be built on and each of the properties on the estate are shareholders of this land as it was designated “amenity open land” by the Croydon council and transferred to our management company.

We are forming groups and seeking legal advice and looking into the legal implications and small print to your proposals and will not take this laying change As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

I object to the use of the site for housing. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Mr Paul Grosser

Object

DM43.4
548

The planning permissions proposals below I object to ref 548.

I have friends who live in Shirley Oaks Village and I know them and myself along with many others all object to the proposals to build on the green areas. This grass area is used by many and would totally change the area if built on and we don’t want it. Part of the charm of this area is those green areas and it has something that you don’t find often in Croydon so please let us keep the green areas as we all object to them being built on.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Mr Derrick Thurley

Object

DM43.4
548

1 De-designation of the Metropolitan Open Land around Shirley Oaks Village thus enabling the following sites to be built on:

a) Policy DM43, Reference 128 Land to build 51 to 107 homes in Poppy Lane
b) Policy DM43, Reference 504 Land to build 26 to 68 homes at Stroud Green Pumping Station, 140 Primrose Lane including conversion of the pumping station
c) Policy DM43, Reference 541 Land to build 80 to 215 homes to the east of Shirley road and rear of Beech House
d) Policy DM43, Reference 542 Land to build 88 to 236 homes to the west of Shirley Oaks Road

e) Policy DM43, Reference 548 Land to build 5 to 13 homes to the rear of 5 to 13 Honeysuckle Gardens

This entails loss of green space, changing the character of the area and local road infrastructure unable to cope.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Mr Richard Horton

I wish to log my objection to the borough-wide planned changes Croydon Council are proposing to make in their Local Plans for 2016-2036. These proposals are 750 new homes in Shirley Oaks and 35 new homes on the Shrublands Estate. Also the proposed work to the two large gypsy/travellers site in Coombe Farm and the Conduit Nursery of Coombe Road.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Mr Dominic Quinn

A3 Architecture London LTD

Object

DM43.4
548

Object to the dedesignation of MOL around Shirley Oaks Village as it will change the character of the area. If they are not MOL they should at least be Local Open Land. Building Houses on them would lead to the loss of a vital green corridor and set a precedent.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
I am writing to lodge my objection to some of the proposals contained in the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals. In particular:

1. Shirley Oaks

The proposal to re-designate the Metropolitan Open Land on Shirley Oaks Road and around Shirley Oaks Village so that it can be used for new housing (page 68, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals).

My main objections are:

- This would result in the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area.
- The local road network could not cope with the additional traffic.
- Insufficient local infrastructure to cope with the increased population.

Conclusion

The proposals I have highlighted can only be viewed as negative. If adopted, they will increase the local population - and the density of that population - without providing any supporting infrastructure. The new residents from the planned apartment blocks and traveller sites will need additional public services such as schools, medical services and shops. Older residents will give way to young families who require greater social support, yet no additional resources are identified to help manage the changing demographic. Traffic congestion along already busy roads will increase, as will pollution and accident black-spots. The few remaining green spaces will disappear. Overall, the proposals signal a reduction in the quality of life for both the existing residents and the newcomer.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Carolyn Heath

Object DM43.4 548

I am writing to object to:
1. The use of the following locations as gypsy and traveller sites:
   • Coombe Lodge Nurseries (site ref 661)
   • Coombe Farm off Oaks Road (site ref 502)
   • Poppy Lane (site ref 128)
   • Stroud Green Pumping Station (site ref 504)
   • Shirley Oaks Road/Beech House (site ref 541)
   • Shirley Oaks Road (site ref 542)
   • Honeysuckle Gardens (site ref 548)
   • Pear Tree Farm & Pear Tree Cottage (site ref 755)

All areas provide vital green space in already densely populated areas, and there is insufficient infrastructure to cope with the additional traffic/population. Some of these areas are in the Green Belt, others are in Metropolitan Open Land. They would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

David Harwood

Object DM43.4 548

(1) I object to residential development at the following sites & to the policy of de-designate of metropolitan open land at the following:
Land at the rear of 5-13 Honey Suckle Road reference number 548

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Jim Cowan

Object Soundness - Justified DM43.4 548

I have read Gavin Barwell’s assessment of policies and proposals in the Croydon Local Plan and totally agree that if implemented would destroy the character of Shirley. The infrastructure in Shirley is already stretched to the limit and can not withstand any further burdens.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Sonya Millen

Object DM43.4 548

I am also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn’t cope with the additional traffic.

Object DM43.4

I have major concerns over the planned development of the Shirley Area. This is currently one of the nicest areas of Croydon and you plan to swamp it with a number of housing developments and some travellers sites. This will be very detrimental to the whole area.

I understand that nationally we need to have more accommodation for families. We need to achieve this with ought destroying the whole fabric of our society. This scale of development will transform the whole area into a old fashioned “Estate”.

There are not sufficient services in the wider area to support such an influx of families.

The road infrastructure already struggles at time and these developments will make the whole situation much worse.

Shirley Beddoes

We bought our property at the original building phase in Shirley Oaks many years ago and were informed that there would be no further development in this area and that all grassed areas were to remain undeveloped and were for the use of residents and local people at leisure, further to this we have paid yearly a maintenance cost to ensure these areas were up kept for this use. This is the main reason we invested in this property. The grassed areas are in constant use and development of these areas would change the natural village atmosphere that exists here and is one of the few areas of Croydon that there is an abundance of wildlife close to an urban area. The proposed development and designation of our grass areas is unacceptable and would infringe our rights as in our original contracts with Heron homes who built the site.

Mr Peter Kenny

I am writing to object to The use of the following sites for housing: Land at Poppy Lane reference number 128 Stroud Green Pumping Station, 140 Primrose Lane Reference number 504 Land to the east of Shirley Oaks Road and the rear of Beech House and Ash House reference number 541 Land to the West is Shirley Oaks Road reference number 542 Land to the rear of 5-13 Honeysuckle Gardens reference number 548. If the council will not keep them as Metropolitan Open Land, these five sites should be at least designated as Local Green Spaces.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
The area of Shirley Oaks Village and its adjacent road infrastructure is already at breaking point. Any slight build up of traffic seriously hinders movement for residents. The 2 main arterial routes into Croydon or towards Bromley (being Wickham Road & Lower Addiscombe Road) are extremely busy with traffic and often lead to extended journey times for those of us who wish to head into one of these town centres or further afield in to London for work. As proven only yesterday when a traffic accident in the Shirley area led to a 3 hour journey home from Bromley back to Shirley. The road network around here is poor. The interlink between Shirley Oaks village and its surrounding area is poor. To add hundreds of houses within this area will only lead to increased volume of traffic on the surrounding roads and leave Shirley itself in an almost permanent state of gridlock. Shirley Oaks Road is always busy with vehicles parked up. This is due to a number of reasons; The excessive traffic on Wickham Road leading to people abandoning their vehicles to try and walk nearer to Croydon to catch a tram or bus. The unreliable 367 bus route which is often hindered by traffic or accidents outside of Shirley Oaks Village leading people driving closer to other bus routes. The use of the local synagogue. Combine these issues above with the additional housing being proposed and the vehicles that come with them, Shirley Oaks will become even more cut off than it already is. There are many elderly residents in this area that rely on carers (friends etc) being able to visit them. They often complain about the issues I have raised above and I can only see this getting worse should the proposals for Shirley go ahead.

Croydon is a massive borough so there must be other areas that these proposals could be met.

Mr Terrence McCarthy

Soundness - Justified
To help you identify my specific objections, the five proposals mentioned so far and to which I wish to object as being detrimental to the character of the area are:
• the land at Poppy Lane is identified as suitable for 51 to 107 homes (pages 445-446, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 128);
• Stroud Green Pumping Station, 140 Primrose Lane, including the conversion of the locally-listed pumping station, is identified as suitable for 26 to 68 homes (pages 451-452, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 504);
• land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 80-215 homes (pages 453-454, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 541);
• land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455-456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542); and
• land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes (pages 457-458, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 548).

Change

Mr John Mullis

Object DM43.4 548

In response to your notices for the development of the greenfield sites on Shirley Oaks Village and the intention to change the status of this land, I make the following observations:

- In 1985 Croydon Council designated land within Shirley Oaks Village as “Amenity Open Land” because our gardens were small due to the layout and construction of the area by Heron Homes. This amenity land is owned collectively by the property owners who own 1 share each. The shares are held by the current trust company - First Port, who also maintain this estate. Is compulsory purchase envisaged? If a total of some 700 homes the village would need vast changes to its infrastructure to accommodate these properties. The present main road - Primrose Lane/Shirley Oaks Road is barely able to cope now - with just a single decker bus allied to a growing number of cars. There is a regular flooding problem during heavy downpours - particularly from Primrose Lane into Laburnum Gardens.

The loss of a wildlife conservation area is surely against wider interests including many present owners.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Object DM43.4 548
As a shareholder of the open space in Shirley Oaks I would like to object to the proposals made in Policy Map 43.
One of the reason I bought the property was for the the nice open spaces that surround the houses.
Building unnecessarily on this land will change the whole look and feel of the community of Shirley Oaks Village. We have one road in and out of the village and cramping in 700+ homes onto our lovely open space will also create congestion on the one road. Shirley Oaks is privately owned and we take pride in our village and how it looks and will fight against these proposals. Change As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

I strongly object to these plans as a resident of hazel close I am a shareholder of Shirley oaks management and feel strongly that the land be left as it is as we have very small gardens and pay for these open land areas to be kept and maintained for our use and enjoyment. Also these plans especially the ref 554 will devalue my property immensely and will downgrade the area dramatically. Change As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
One of the requirements of the Pitt review of 2007 was for the Environment Agency to provide some warning for surface water flooding, as was already the practise for river and coastal flooding. The result was the LIDAR returns which are provided on the Environment Agency’s website under ‘what’s in my backyard’. This shows clearly how the lie of the land amongst the Shirley Oaks Estate causes surface water to run from South to North joining another stream which runs in from the SW from Shirley road into Primrose Lane. On numerous occasions over recent wet winters we have had a constant stream of water running across the kerb into Primrose Lane which has on occasion caused substantial amounts of ice to form. No doubt your winter maintenance department could confirm this is an area where they have to regularly do spot treatments of rock salt- since they do Primrose lane as it is a bus route, when other parts of the network are totally dry and do not require treatment.

From the Pitt Review of 2007, RECOMMENDATION 7: There should be a presumption against building in high flood risk areas, in accordance with PPS2S, including giving consideration to all sources of flood risk, and ensuring that developers make a full contribution to the costs both of building and maintaining any necessary defences. Section 5.14 of the report reiterates that PP525 applies to all sources of flood risk. This states that an SFRA (surface flooding risk assessment) should assess surface water flood risk and identify critical drainage areas. Good information is therefore needed from sewerage undertakers and other sources, including local knowledge, historic flooding and risk modelling. Local authorities should ensure that SFRAs carried out on their behalf adequately address this type of flooding. I find it difficult to believe this has been done as otherwise there would have never been a suggestion of using the remaining green parts of the estate in this way.

Any increase in the built up area around the estate would thus exacerbate the already on occasion saturated surface. Having investigated in detail the benefits in the reduction of flooding by the provision of trees, I have found that Oak trees can use up to 50 gallons a day and some trees on a hot day will utilise 150-200 gallons (wiki-answers.com). Trees admittedly are most effective when we are in the Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
growing season at excess water removal, but that is also when we tend to have the most extreme rainfall events. Having looked at ‘Heavy falls in a day’ and ‘Heavy falls in short Periods’ both produced in part for British Rainfall by the Met Office (my employer); I have found that invariably the most extreme rainfall happens in SE England between June and September. This is just when a tree is in full leaf so not only intercepts falling rain by the size of its canopy, but also as it is growing, that rain which reaches the soil is quickly extracted for use in the tree’s transpiration. Preliminary research results from the University of Manchester indicate that trees can reduce runoff by as much as 80% compared to asphalt. Thus the best way to alleviate summer extreme rainfall surface water flooding is not to remove trees.

The soil on which Shirley Oaks is located is of a clay type and is therefore impervious; another reason why it reacts to surface water flooding the way it does. The large area of grassland is ideal for ‘making room for water’ as a water storage area; thus to remove this pooling facility will mean the rain will have to find somewhere else to go, which would inevitably mean flooding for Shirley Oaks residents. Also I have learned, from Meteorological Office memorandum No 80-the properties of soils in NW Europe, that the root system of grassland provides a channel through which some rainfall does manage to slowly percolate through beneath the surface even with clay soils. However, without the grassland root system the water just tends to form bodies of water lying on the surface. This effect of our grassland is very helpful in alleviating the surface water flooding in winter, which occurs when prolonged rainfall totally saturates the area, and the trees are no longer as effective at its removal.

So in conclusion:
- We need trees to mitigate effects of extreme rainfall in summer, something which will become increasingly frequent with global warming.
- We need open grassland for water to accumulate in winter when trees are less effective at water removal from the system, whilst in addition their root systems help to aid percolation beneath the soil reducing surface flooding. Over the last 40 years winter rainfall has been increasing throughout the UK.
- Soil behaviours also dictate risk of flooding. We have issues because:
1) We are on a clay soil type so low permeability and heavy rain does not soak in but floods.
2) We are on sloping ground with tendency for run off to flow south to north across the site.
3) We, also because of having a clay soil, have a high water table, so in winter many areas of the site are wet and all parts stay damp throughout. Thus water-logging very quickly occurs and there would with the proposed building work be less and less places for the water to flow to.

I am writing to you to object to the council’s planned proposals.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

I moved to the area with the understanding that the grass areas had protection from being built upon and I strongly object to the council proposing the new developments as referenced above. This will make the area I live in with my family crowded and I bought my property with the understanding that the grass areas would not be built on.
First, the Council plans to de-designate the Metropolitan Open Land on either side of Shirley Oaks Road and all around Shirley Oaks Village (page 68, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals). Metropolitan Open Land has the same protection from development as the Green Belt. The Council is proposing to remove this designation so that most of this land can be used for new housing. The draft Local Plan identifies five sites:

- the land at Poppy Lane is identified as suitable for 51 to 107 homes (pages 445-446, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 128);
- Stroud Green Pumping Station, 140 Primrose Lane, including the conversion of the locally-listed pumping station, is identified as suitable for 26 to 68 homes (pages 451-452, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 504);
- land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 80-215 homes (pages 453-454, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 541);
- land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455-456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542); and
- land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes (pages 457-458, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 548).

I will be objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). If
the Council won’t keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. I will also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, but the local road infrastructure couldn’t cope with the additional traffic.

3381/01/008/DM43.4/O  Mr Daniel James  Object  DM43.4 548  I am writing to object to the councils proposition to allow the development at the following sites:-Ref: 541, 542, 548, 128 and 504 in Shirley Oaks Village

I have only lived on Shirley Oaks for 5 years, but one of the things I love the most is walking my children over to the grass areas so they can play. As you probably already know, our gardens are quite small so it’s really nice to have space to take full advantage of. Another thing that disappoints me, is that one of the selling points of our house, is the fact that all the land around the estate is protected from building on. I strongly disagree with any of your plans to build upon this land, and along with other Shirley Oaks residents will do my best to get our voices heard.

Change  As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

3391/01/005/DM43.4/O  Ms Aileen Deeney  Object  DM43.4 548  I wish to register my objection to the above proposals to allow the development of new homes on the designated Amenity Open Land which is available for my use and that of my fellow residents. This use was allowed by Croydon Council because of the undersized gardens which is a negative feature of the current development and which hinders enjoyment and comfort of my property. For example, it is not possible for children to play with footballs/other toys /play noisily without disturbing the adjoining and physically very close neighbours. You are no doubt aware that there are no nearby children’s parks. Also my garden can easily be overlooked by at least 4 sets of neighbours which I believe is typical of the other gardens on the development. Having the Amenity Open Land available is some compensation for the above lack of privacy and if it was to be withdrawn it would have a detrimental impact on

Change  As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
This is to object strongly to your ill-conceived proposals for high density dwellings on greenbelt parkland, on existing semi-detached housing areas, and gardens in the Shirley Oaks / Library region. Also for travellers sites in the vicinity of Coombe farm. All as outlined in Gavin Barwell’s email.

I object to the use of the site for housing. This will amount to a complete destruction of local character, a huge increase in local population without any increase in local services or access, and a destruction of green space which is currently protected.

As a resident of Croydon Borough and in particular Shirley Oaks, I am contacting you to voice my objection to the following development proposals: Ref: 548 Land to the rear of Honeysuckle Gardens.

Objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). Also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn’t cope with the additional traffic.

If the Council won’t keep it as MOL, it should at least designate it as Local Green Space so that it has some protection.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Mr Daniel Nuthall Object DM43.4 548 I would like to object to the following Metropolitan open land proposals - Poppy Lane - Ref 125 - Stroud Green Pumping Station - Ref 504 - Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House - Ref 541 - Land to the west of Shirley Road ref 542 - Land to the rear of 5-13 Honeysuckle Gardens ref 548. The Metropolitan land provide several links in the Shirley Garden Chain.

Under the Planning Policy Guidance Note 9 the importance of nature conservation is stressed. This combined with the extra traffic seems unacceptable. Three of the proposed sites are owned by the residents of Shirley Oaks Village of which my house backs onto. We have several friends that live there all of which have raised the problems regarding such a development.

The three areas are
- Ref 541 - Land east of Shirley Oaks Road
- Ref 542 - Land west of Shirley Oaks Road
- Ref 548 - Land to the rear of 5-13 Honeysuckle Gardens

Change As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Mr Donald Speakman Object Soundness - Justified DM43.4 548 Site 548, Land to the rear of 5-13 Honeysuckle Gardens, is identified as suitable for 59-125 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Tower View, Edgewood View and Primrose Lane.

Change As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Mr David Wilson

Object

We wish to object in the strongest terms to the plans being discussed regarding the proposed development of land for new housing in the Shirley area, specifically the building of Gypsy/Traveller sites on our doorstep, and the inherent increase in crime and anti-social behaviour that always follows, and can be seen in many examples nationally. Not only this, but the whole ‘Village’ feel of the area will be completely obliterated, and the very things that attracted us to move to Shirley (off Orchard Ave) will be no more. Of course people need a place to live and raise families, but time and again we have seen the resultant decline of neighbourhoods, with rubbish, noise and theft frequent occurrences. We urge you to think again and take heed of Gavin Barwell’s very real concerns, and those of what I’m sure are many of his constituents, and other Shirley dwellers. We are particularly concerned that you should take into account the fears of ordinary hard working people like us, who want to enjoy life (we're not ‘oldies’) in a pleasant community, and think again about the following proposals:

- land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes (pages 457-458, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 548).

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Mr D Lane

Object

I object to use of Land to the rear of 5-13 Honeysuckle Gardens for housing. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). Also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn’t cope with the additional traffic. If the Council won’t keep it as MOL, it should at least designate it as Local Green Space so that it has some protection.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

I wish to log my objection to the borough-wide planned changes Croydon Council are proposing to make in their Local Plans for 2016-2036. These proposals are 750 new homes in Shirley Oaks and 35 new homes on the Shrublands Estate. Also the proposed work to the two large gypsy/travellers site in Coombe Farm and the Conduit Nursery of Coombe Road.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

We are writing to object most strongly to the Croydon Council’s Local Plan for housing on Green Belt land, with particular reference to Shirley. Our Green Belt should be protected at all costs and brown field sites must be targeted. In this respect, we support our MP Gavin Barwell’s objections, which you will doubtless have received.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

I would like to oppose the redevelopment of Shirley Oaks Village most strongly, we brought our property 8 years ago and were told that no further building would happen as our property runs along the side of one of your proposed sights. My understanding was that we paid a quarterly maintenance for the upkeep of our surrounding therefore making us shareholders of the estate nobody to date has said anything to us as shareholders except the posters on lampost a couple of years ago we had to pay extra to keep gypsy out of our village now you are proposing to invite them to come and live with us. Croydon is not a nice place to live and the only escape we have is our home and now you want to take that away from us. The development would have a fast impact on the schooling, utility’s, hospital etc in the area where and when will this all stop we pay our rates are law abiding citizens and feel all you are interested in is destroying all we have worked hard for.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Mr & Mrs Hobbs

Object: DM43.4

I am writing to you to object to the use of the following sites for housing development.

- The land at Poppy Lane. Ref. No. 128
- Strudwick Green Pumping Station. Ref. No. 504
- Land to the east of Shirley Oaks Road and rear of Beech and Ash House. Ref no. 541
- Land to the west of Shirley Oaks Road. Ref no. 542
- Land to rear of part of Honey Suckle Gardens. Ref no. 548

Change: As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Mr Dave Brown

Object: DM43.4

I object to the these proposals to build on the land ref 548, the land should be left as it is

Change: As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Sheila Desmond

Object: DM43.4

Ref 541
Ref 542
Ref 548
Ref 128
Ref 504

I wish to lodge a serious objection to the proposals for the building of houses on Shirley Oaks Village That name speaks for itself I have lived on Shirley Oaks Village for 30 years and during that time have paid the management company a contribution to maintain the The amenity open Land The residents each own a share of the Land and over the years the open areas have been enjoyed by families for games walking and enjoying the lovely trees not to mention the wildlife. When the land was sold by Lambeth in 1984 the intention was to create a village It has any thought been given to the effect on the infrastructure by adding 751 properties? the pressures on the roads in particular.

Change: As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
3486/01/005/DM43.4/O Mr Gary Stewart Object DM43.4 548 Re the above proposals with Ref nos 541, 542, 548, 504, and 128 I wish to object in the possible strongest sense. This land was not designated for this use and hence our homes all have very small gardens to protect this open space. We already have problems with the road through the estate and it cannot possibly take any more traffic. The allowed parking on this road particularly on the curves gives cause for real concern. I have avoided two accidents only by making an emergency stop. If the council goes ahead with these proposals then we will fight and please note we are depending on support from local councillors and our MP. Think again please.

3492/01/005/DM43.4/O Helen Silk Object DM43.4 548 I am writing to object to the plans to build gypsy/traveller sites in the area of Shirley and the building of anything on any area of green belt land, green spaces or back gardens.

3498/01/004/DM43.4/O Mr Ian Marsh Object DM43.4 548 I wish to object strongly to the proposed developments at Shirley Oaks - Ref 548 Land to rear of Honeysuckle Gardens - 125 new homes.

3501/01/008/DM43.4/O Gaynor Lawrence Object DM43.4 548 Please see this email as my objection to the proposed housing. This is ridiculous. The village is small and the road going through the village would NOT suffice the extra traffic! I pay a maintenance charge and moved here as it is a quiet location. I have been burgled a couple years back due I believe to the travellers that squatted on the land here and I do not want that fear again. Please rethink this crazy idea and let me know how I can further stop this.
Mr Gary Smithers
Object
The planning permissions proposals below I object to ref 548
I have friends who live in Shirley oaks village and I know them and myself along with many others all object to the proposals to build on the green areas. This grass area is used by many and would totally change the area if built on and we don't want it. Part of the charm of this area is those green areas and it has something that you don't find often in Croydon so please let us keep the green areas as we all object to them being built on.

Mr Gary Kenney
Object
I am writing to show that I object to a number of your plans around the Shirley area. I contest that you need to build on our green sites and bring in new 'traveler' sites into Shirley.
On top of this I cannot understand the need to bring 'medium' high rise buildings in and around Shirley, including Devonshire way and the new proposals around Hartland way.
Please can you let me know if my objection has been noted and how I can make it more official?

Mr John Albert
Object
As a long term resident and shareholder residing in Shirlry Oaks Village, I and my partner object to the proposals to Changes to the Policy Map 43 - REF's 541, 542, 548, 128 & 504 These areas have metropolitan open land and had protection from being built on!
Our land was designated by Croydon Council in 1985, as Amenity Open Land because of our under sized gardens and transferred to the management company whom we our shareholders of and this land is for our use and want it to stay this way!! Having lived here for 20 years we do not want it further condensed by more homes and totally not fit for purpose!

Katrina Neal
Object
As a long term resident of Shirley/West Wickham and one who has seen many changes over the years, I am strongly objecting to Land to rear of Honeyeuckle Gardens - ref 548 for housing use. If these are not kept as MOL: then at least keep them as Local Green Spaces.
Jenny Hayden

Object DM43.4

The proposals for Shirley will have a huge impact on the area, the current infrastructure is already at bursting point and the building of new homes on green spaces will add further stress to the current situation.

Ref nos, 128,504,541,542, 548... these relate to the building of additional homes. From the information available in the Council's documentation, this could be up to 800 new homes. I would like to know what sort of homes these are likely to be... social, housing associations or private... I doubt that any of them would be affordable homes for first-time buyers. How will the local roads cope with the extra traffic. There will be a need for more schools, doctors' surgeries etc to support the intended increase to the local population. I would therefore like to object to the Council's decision to use these five sites for future residential development. Apart from putting extra burden on the local roads, it would also mean losing valuable green spaces. I believe any new residential development should be on brownfield sites. The addition of so many extra homes would have an adverse affect on the character of Shirley, in my opinion.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Rhodri Flower

Object DM43.4

I write with reference to your document 'Changes to the Policies Map (Policy DM43)', and in specific reference to sites 541, 542, 548, 128 and 504. These sites are all open space surrounding the development known as Shirley Oaks Village.

I wish to object to the proposals to reclassify the land and make it eligible for planning permission and the building of homes. In my opinion it is essential to preserve the open space for the use of local residents. It is well used for recreation, dog walking etc. It is also an important part of the character of Shirley Oaks Village and would change the nature of that development.

I bought a house on Primrose Lane in June 2015 and a large factor in my decision to buy was the amount of open space available locally. I understand that Croydon Council designated this land as 'Amenity Open Land' in 1985 because of under-sized gardens in Shirley Oaks Village and transferred it to the Shirley Oaks Management Company, which has maintained it ever since. As a house owner I am a shareholder in that company.

I strongly object to your proposals.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
I refer to the proposed changes to the planning policies to allow Croydon Council to build new homes on the Amenity Open Land at the above. The Amenity Open Land was granted in part, due to the extremely small rear gardens. Also I and other people in the village for many years here contributed to its upkeep at no cost to Croydon Council. To lose this land will greatly impact on the peaceful enjoyment that I and my neighbours have in using this land as well as the general impact on the area of high density building, changing the character of our village forever. No doubt this development will result in many trees and flowers being sacrificed which help to sustain the urban wildlife such as various birds, bats, foxes, badgers and bees etc. There seems to be little consideration for this urban oasis! Whilst I understand central government's drive for more houses, I find it hard to believe that Croydon Council needs this land in order to fulfil its housing quota, given the Westfield and other developments proposed in Croydon. There are also other lands, such as those owned by the local NHS hospital that would be suitable for development and at the same time give ready money to the NHS. Furthermore, the existing main roads are already inadequate to service the village without adding a further 751 homes along with the years of road works that will be associated with upgrading the utilities, make traveling through the village more difficult and dangerous. I urge you to reconsider your plans.
Mr Mark Hawkins

Object

Kindly note that as a homeowner (and shareholder) of Shirley Oaks Village, resident here for over 25 years, I am deeply concerned that Croydon Council seems to think it has the right to change the nature of the estate from being protected Metropolitan land to being unprotected land ripe for excessive building. Not only is the green space around the current estate, a much loved feature, it also provides a sanctuary for wildlife and allows for nice walks for local people. The road was built to be narrow and already there are problems with passing places for traffic to the hospital and synagogue. Last year the council allowed a resident to build a fence which obstructs drivers vision when turning out of Cornflower Lane and has caused several minor incidents. Simply put, the roads here were not built for traffic! The idea of ruining my neighbourhood by cramming more housing onto unsuitable roads, lacking shops and facilities whilst depriving me of the green spaces I love and part own makes me sick to my stomach. There are so many brownfield sites that could be built on and provide more suitable housing in and around Croydon that I feel that this attack on Shirley is politically motivated. I formally ask the council to reconsider the proposals.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Mr I Fuell

Object

Soundness - Justified

I am writing to object to:

3. The use of the following 5 sites for housing:

- Land at Poppy Lane: reference number 128;
- Stroud Green Pumping Station, 140 Primrose Lane: reference number 504;
- Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House; reference number 541;
- Land to the west of Shirley Oaks Road; reference number 542; and
- Land to the rear of 5 – 13 Honeysuckle Gardens; reference number 548.

If the Council will not keep them as Metropolitan Open Land, these 5 sites should at least be designated as local green spaces.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
We have got objection for above proposal. We are not happy; it would cause lots of traffic and not ideal for residents.

I would like to raise my objection to the proposed land changes for the following references:
Ref. 548 - Land to rear of Honeysuckle Gardens - up to 125 new homes. The land was designated by Croydon council in 1985 as "Amenity Open Land", because of our under-sized gardens and transferred to the Management Company - with each property owner as a shareholder in that company. As for looking at a Gypsy site, you should have seen what a mess they made when they camped illegally at Shirley Oaks just over a year ago - it was disgusting!

Objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). Also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Mr Mike Jones

Object

DM43.4 548

The de-designation of the Metropolitan Open Land around Shirley Oaks Village in particular such as the use of the following for housing:

- land at Poppy Lane
- Stroud Green Pumping Station, 140 Primrose Lane
- land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House
- land to the west of Shirley Oaks Road
- land to the rear of 5-13 Honeysuckle Gardens

Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. There is a lot of history around here and the loss of the Shirley Lodge in the late 1990s was a big mistake. Generally in Croydon there is no room for more traffic that new building will generate and judging from what I have seen around Croydon squeezed housing units with small garages not fit to store cars and little or no off street parking will only add to stress and problems in the future.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Mr Peter Newsham

Object

DM43.4 548

I wish to register my objection in the strongest possible terms to the proposal for new housing, (ref. 548), in these areas of Metropolitan Open Land, which is essential for recreational purposes in an already overcrowded place, is unacceptable and the proposed re-designation of the land so that it can be used for high-density urban development will find no local support, but instead, a huge and vocal opposition.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Please see my objections to your proposals as detailed below.

DM43 Ref 541 Land east of Shirley Oaks Road
Ref 542 Land west of Shirley Oaks Road
Ref 548 Land to rear Honeysuckle Gardens

These areas of Metropolitan Open Land are not "incidental open spaces" or "Grassland with a few detached houses" as your report states. These areas were designated by Croydon Council as residents "Amenity Open Spaces" under a section 52 agreement on the 4th December 1985. This was to ensure that the residents were provided with adequate open space following a dispute between the Council and Heron Homes, the developer. These areas were then handed over to the Shirley Oaks Management Limited, a company with the property owners as shareholders.

The designation as MOL should remain. If it is decided de-designation proceeds, the Site should be designated as Local Green Space. Proposed development of the Site in the event that the present designation remains or that re-designation takes place as Local Green Space would not be consistent with national policy under the NPPF and such a proposal would be incompatible. The proposed approach is not appropriate nor would it enable sustainable development for the reasons set out above and those identified in respect to the objection to Policy SP7. The highway network is already at saturation point and in any event any proposed residential development would generate an unacceptable amount of traffic. The site has a high water table with water running off and flooding properties on the Mere End side of the site. Additional planting of trees and shrubs has been introduced to try to compensate. Any development is likely to worsen this situation for properties on that boundary line.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Mr Nick Barnes  
Object: Soundness - Justified  
DM43.4 S48  
Having read both local plans for the Shirley area, I strongly object to all aspects in both plans, this includes the 750 new homes on Shirley Oaks Village, 35 new homes in Shrublands, the two gypsy sites at Combe Fram and Conduit Nursery and the development for up the four storeys along Wickham Road. None of these plans will benefit Shirley and I object to them all.

Change  
As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Mrs Margaret Hawkins  
Object: DM43.4 S48  
Ref 548 – Land to the rear of 5-13 Honeysuckle Gardens  
I am objecting to the proposal for de-designation of this area as Metropolitan open land, with a view to "working with the landowner" to bring development of up to 125 houses forward. It is a vital part of the green chain and wild-life corridor through Shirley. This can clearly be seen by viewing Google satellite photos of the area. This land contains hedgerow and water habitats. A stream runs through it. The land is jointly owned by 500 equal share-holders, which would make "working with the landowner" a complex issue. The council would be unlikely to get the co-operation of all 500 shareholders. Access to this site is situated on a steep bend on a narrow road. It already poses a danger to pedestrians, cars, buses and delivery vehicles, particularly when they meet. There are 3 other such spots on this access road. On 2 of them the associated houses have had their garden walls knocked down at regular intervals over the past 30 years, and there has been at least one fatality. Construction traffic would pose an unacceptable risk to children and pedestrians in the area.

Change  
As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Cllr J Cummings  
Object: Soundness - Justified  
DM43.4 S48  
Site 548, Land to the rear of 5-13 Honeysuckle Gardens, is identified as suitable for 59-125 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Tower View, Edgewood View and Primrose Lane.

Change  
As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Change: As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Miss Amanda Smithers

Object

The planning permissions proposals below I object to ref 548. My partner is a resident of Betony close Shirley Oaks Village and we definitely do not want the surrounding areas to be built on.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Ms Jennifer Addis

Object

I strongly object to the development proposals by the council for the above areas on Shirley Oaks Village. All the gardens on our houses are tiny so this green land which was designated as 'Amenity Open Land' was supposed to be for the use of the residents. There are enough houses on this area already! This will have a huge detrimental effect on all the residents in the area.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Mr Tim Duce

Object

Soundness - Justified

I strongly object to any plan to build on Metropolitan Open Land. There are plenty of brown field sites available in Croydon and the MOL should be re-designated as Local Green Space.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Mr J Patel

Objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). Also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn’t cope with the additional traffic.

If the Council won’t keep it as MOL, it should at least designate it as Local Green Space so that it has some protection.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
I am also concerned that you consider there is space for up to 751 houses in the Shirley Oaks Road area. References 128, 504 541 542 548. This would lead to the elimination of green space in that area and therefore I think at least 3 of these areas should be Local Green Spaces if not Metropolitan open land.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
RE: LAND ON EITHER SIDE OF SHIRLEY OAKS ROAD, SHIRLEY OAKS VILLAGE, POPPY LANE; STROUD GREEN PUMPING STATION; COOMBIE FARM, COOMBIE LODGE NURSERIES off Conduit Lane, land west of Shirley Oaks Road, rear of 5-13 Honeysuckle Gardens OBJECTION TO DE-DESIGNATION GREEN BELT; SHIRLEY, NEW ADDINGTON, FOREST HILL

We have lived in the Borough of Croydon for 30 years and value its vibrancy and diversity.

As Croydon ratepayers we object to the de-designation of Metropolitan Open Land generally, especially land detailed above, which will change forever Croydon’s character.

We would ask you to encourage policies/development to:

1. Build new housing on brown field sites by all means AND preserve invaluable green space for the benefit of the community of Croydon; 2. Protect green belt land and preserve the green corridors we desperately vital for wildlife and biodiversity; 3. Amend the tall buildings policy and keep the tall building zone where it is suited in the centre of town; 4. Utilise brownfield sites for new low-level housing only where it can be developed alongside new GP surgeries, schools and improved public transport; 5. Traveller sites are not appropriate in the green belt and is a clear breach Policy E of Planning Policy for Traveller Sites. When travellers camped on Addington Playing Fields in 2012/13 they left rubbish, debris, waste, and deterioration to a local green space. Sadly true of most traveller sites.

"Nowadays people know the price of everything and the value of nothing". Green Belt is vital and precious. Once lost for future generations and will not be replaced by developers.

We understand the need for housing, schools, hospitals and infrastructure. Are the Developers investing these also alongside their building investments?

Please protect our few remaining green spaces on the borough map, by making better use of brown field sites.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

I am writing this email to voice my deep concern about the planned development in the private estate that I have lived in for many years, namely:

- Ref 541, Ref 542, Ref 548, Ref 128 and Ref 504 – all on Shirley Oaks Village private estate.

Firstly, it would have been nice to be informed about any planning ideas in writing rather than see small notices pinned to lamp post around the estate. I would also like to draw your attention that our land was designated by Croydon Council in 1985 as ‘Amenity Open Land’ for the residents and for which we pay a quarterly fee for maintenance of the green open land, but more importantly can I bring to your notice that this land was transferred to the Shirley Oaks Management Company, with each property owner as a shareholder in that company. This land is for our use and not for developing a concrete jungle on every single green inch of land in Croydon.

The Shirley Oaks estate has a great community spirit and has become a real sought after location for families to live due to the community nature and the lovely open land that we have, by developing on this land you will be taking away all of the good that has been built up over the years by the many residents we have as well as making the village overcrowded, bringing in more traffic thus resulting in more danger on the main Primrose Lane for people crossing and driving, congestion for parking and so on. I can also bring to your attention that we have already had a couple of fatalities on that main road that runs through the village and this will make it worse for the safety of our kids.

I am sure you have now had many hundreds of emails from residents like myself voicing the same concerns with your planning proposals!

This land belongs to us as residents so I feel its harsh to take this away and start your own developments.

Second, the Council plans to de-designate the Metropolitan Open Land on either side of Shirley Oaks Road and all around Shirley Oaks Village (page 68, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals). Metropolitan Open Land has the same protection from development as the Green Belt. The Council is proposing to remove this designation so that most of this land can be used for new housing. The draft Local Plan identifies five sites: - land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes (pages 457-458, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 548).

I object to the decision to de-designate this land as Metropolitan Open Land (MOL). If the Council won't keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. I also object to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic.

Change As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

I object to the use of the Land to the rear of 5-13 Honeysuckle Gardens reference number 548 for housing: If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Developing these sites with the amount of homes suggested would increase the volume of traffic in an area which is already congested in morning and afternoon rush hours and would put increased pressures on local schools and public transport. I am aware that more affordable houses are needed but please reconsider these plans which will totally change the area in which we have chosen to live and definitely not for the better.

Change As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

| Ms L Sasankan | DM43.4 548 | I am resident at 35 Primrose Lane, Shirley Oaks Village, along with 4 other members of my family. I am writing to express my objection/agreement to the following: 1. de-designation of the Metropolitan Open Land around Shirley Oaks Village 2. The use of the following five sites for housing: Land at Poppy Lane ref 128 Stroud Green Pumping Station, ref 504 land to east of Shirley Oaks Road and to the rear of Beech House and Ash House, ref 541 Land to the west of Shirley Oaks Road, ref 542 Land to the rear of 5-13 Honeysuckle Gardens, ref 548 | Change |
| Lee Kirby-Walker | DM43.4 548 | I am writing to object to: The use of the following five sites for housing • Land at Poppy Lane reference number 128 • Stroud Green Pumping Station, 140 Primrose Lane reference number 504 • Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541 • Land to the west of Shirley Oaks Road reference number 542 and • Land to the rear of 5-13 Honeysuckle Gardens reference number 548 If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated a Local Green Space. | Change |

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Mr M Foster

Object  

I wish to lodge an objection to all five sites where the decision to designate this land as Metropolitan Open space land and to build housing upon them, not only would we be losing vital open space and change the very character of the area, I believe the local road infrastructure would not cope with any more traffic, why must the council continual to try and ruin areas that people like.

At the moment this area as a rural feel to it, nice green spaces and a open aspect which we would loose if these plans were to go ahead. I would ask the council to think very hard before implementing these plans before we have another area that people want to move out of instead of to, these plans will not improve the area quite the reverse, where at the moment people like to live here.

Change  

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Miss Rebecca Thomas

Object  

I email to express my formal concern and objection to the proposal to build additional housing in the green areas of Shirley Oaks Village. I currently reside in Beckenham, 1 Hamilton House, Orchard Way, BR33ER, on the Shirley boarder, and was previously a resident of Shirley for 30 years.

The addition of these houses will not only bring down the areas reputation, spoil views from current properties but also cause additional congestion to an already busy area. We should be looking to preserve our green areas, and Shirley Oaks Village should remain just that, a village! I believe that the Wickham Road has already been flagged as one of the busiest roads in the area, with a fatal road accident occurring both this year and last. Additional housing/congestion will only add to this danger.

This proposal will cause residents of the local area to be driven from their homes unfairly, I am sure that they did not purchase properties to be overlooked and to lose the view of the land that they have been paying to maintain for, in most cases, a number of years.

I am contactable on my home address/phone should wish me to validate my views further.

Change  

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Object DM43.4 548

I am writing to express my objection to the planning proposals in the Shirley Oaks area. The land has been set aside for our use as we have very undersized gardens on the estate and we have also paid to keep those areas in a well-maintained condition. The road around Shirley Oaks only has 2 exits as well, so would make it very congested as there are only 2 options for traffic to leave and enter and there are already a lot of problems at the Wickham Road end as people drive in and out.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

3858/01/006/DM43.4/O

Mr Nicholas Barnes

Object Soundness - Justified

DM43.4 548

Having read both local plans for the Shirley area, I strongly object to all aspects in both plans, this includes the 750 new homes on Shirley Oaks Village, 35 new homes in Shrublands, the two gypsy sites at Combe Fram and Conduit Nursery and the development for up the four storeys along Wickham Road.

None of these plans will benefit Shirley and I object to them all.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

3860/01/004/DM43.4/O

Mr M Lockeyear

Object DM43.4 548

I wish to register my objection to these proposals for the following reasons: I purchased my property on the understanding that all the open grassed land surrounding the village was designated by Croydon Council in 1985 as "Amenity Open Land" because of our under-sized gardens and transferred to the Management Company, with each property owner as a shareholder in that company.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
With regard to the 'very scant' notices that have been posted on Shirley Oaks Village in places that are not in visible of all residents, I must object VERY STRONGLY to these plans. (1) The land is owned by the residents with a covenant on it. Our houses are condensed with tiny gardens, the compensation for which is the open ground (owned by all residents) that we are able to use. My understanding is that the original development was curtailed by the then council because of the density of housing/population on Shirley Oaks.

(2) Drainage on Shirley Oaks is very poor. I am given to understand that the water table is very high and indeed during the winter months the open spaces are sodden, holding water which could probably present a flooding problem. It is so bad in some places that the ducks move in!

(3) Could the services (sewerage etc) really support the number of properties proposed. There have already problems from time to time, especially down Shirley Oaks Road. (4) Realistically, whatever type of property would be built, you could expect an average of two cars per dwelling. Shirley Oaks Road/Primrose Lane are extremely hazardous and would not be able to sustain another probably 500/1000 cars. Where would people park. There are enough problems on here already with regard to parking, deliveries etc. Both Shirley Oaks Road at the Wickham Road end and Primrose Road at the Shirley Road end are used as car parks and quite often it takes a bit of delicate manoeuvring to get round, especially if you meet a bus.

(5) Planning permission has been refused for the plot in Poppy Lane (128) a number of times. The area was declared as a nature reserve some time back and I was unaware that this had changed. Part of the reason for the last planning application was the high water table, so how come there has been a change of mind?

Change
As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Edwina Morris

Object DM43.4 548

I object to the use of the Land to the rear of 5-13 Honeysuckle Gardens reference number 548 for housing:

We think that sites 548, 128, 504, 541 and 548 should be retained as Metropolitan Open Land, but if not they should be designated as Local Green Spaces.

We consider that building housing on these sites will result in the loss of a vital green corridor between Shirley Oaks and the surrounding areas and will change the character of the area. It will also over-burden the local road infrastructure, which already suffers from heavy congestion during morning and evening periods.

Change As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Mrs Barbara Cumming

Object DM43.4 548

I object to the planned five sites being used for residential development in Shirley, Croydon: Land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure will not be able to cope with the additional traffic.

Whilst I agree that we desperately need new housing, it should be built on brownfield sites - not our remaining precious green spaces!

Change As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Ms M Bailey

Object DM43.4 548

The Metropolitan Open Land on either side of Shirley Oaks and all around Shirley Oaks Village should not be de-designated, but designated as Local Green space. It is very important that Croydon needs green spaces as these give the feeling of openness and a pleasant environment in which to live. Upwards of approximately 700 hundred odd homes could be built in this area which will lead to possible flooding of areas as rain water will not be able to drain away as easily as it would if it was left as a green belt area. Secondly the local road infrastructure would not be able to cope with the additional traffic stemming from these additional homes, and this includes public transport. Thirdly are the NHS facilities in the area able to cope with this large influx?

Change As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Jan Payne

Object

I object to the use of the site for housing.

DM43.4 548

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Mr & Mrs Asfahani

Soundness - Justified

DM43.4 548

Every year we get proposals and consultations for building more homes or structures on Shirley Oaks green land. But must admit the above proposal is the worst and the most ridiculous so far. From what we read, the proposal suggests to build around 750 new homes on what's left of green patches in the village.

The village is already over crowded with Shirley Oaks road and Primrose road looking like a huge PARKING LOT throughout the day. One cannot begin to imagine what it would like with more residents and obviously with at least double the number of cars to that of the number of the new homes proposed.

We bought our property back in 1989, paying above market value at the time, for the sole purpose that the village is quiet and has some green land. Our home was one of the last phases of any buildings to be erected in the village, or so we were promised and confirmed in writing. Since then, a synagogue was built, bus 367 goes through the narrow winding road, every year for the last few years we get proposals to use our green land for one suggestion or another and now this proposal.

We completely oppose this proposal and hope that the council will appreciate that it's not all about the money and just building more houses, but quality of life matters just the same. On one hand the government and councils encourage and push people to plant more trees, grow their veg, recycle etc... Yet on the other hand come up with proposals to use every last green patch to build more structures and homes. Doesn't make any sense.
Cllr M Neal

**Object**

Site 548, Land to the rear of 5-13 Honeysuckle Gardens, is identified as suitable for 59-125 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well-used amenity space. This would totally change the character of the area and have a great impact on the local road infrastructure impacting Tower View, Edgewood View and Primrose Lane.

**Change**

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Ms E Rudduck

**Object**

I object to the use of the Land to the rear of 5-13 Honeysuckle Gardens reference number 548 for housing:

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces.

Developing these sites with the amount of homes suggested would increase the volume of traffic in an area which is already congested in morning and afternoon rush hours and would put increased pressures on local schools and public transport.

I am aware that more affordable houses are needed but please reconsider these plans which will totally change the area in which we have chosen to live and definitely not for the better.

**Change**

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Mr & Mrs Frederick Banjo

**Object**

As property owners/Residents and shareholders in the company that manages Shirley Oaks Village, we are writing to state our objection to the above mentioned proposal.

The land/s in question is designated as ‘Amenity open Land’ for the use of the property owners and residents of Shirley Oaks Village and must not be built upon.

The proposal to build on these lands will simply destroy the peace & tranquility of the village. The enjoyment of the open land by residents will be lost not to mentioned the increased traffic situation amongst other things.

We strongly object to these proposals to build upon these lands.

**Change**

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

</tbody>
</table>
I am a resident of Shirley and strongly object to the current proposals to build on green belt land on the Shirley Oaks and surrounding areas.

There are plenty of brown sites that are unoccupied and could fulfil the purpose of providing new homes. Shirley is already tight for school places. St John’s, in Spring Park Road, is increasing to 2 form entry already with the number of children living locally requiring education. The 367 bus serving the Shirley Oaks Village is infrequent and much more transport will be required. Parking is already a nightmare and with the lack of parking contemplated with the new build supply the problem will only get worse. There will be an incredible build up of traffic on the already congested Wickham Road and other local roads.

I believe this proposed building of traveller's sites and homes will change the whole ethos of Shirley and cause resentment and the lowering of living standards. This is a particular area of standard housing and should not be changed by the building of blocks of houses. Garden land should not be built on and this is an inappropriate development and should not be allowed to go ahead. Metropolitan Open Land has the same protection as the Green Belt and the rules should be followed accordingly.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Having lived on Shirley Oaks for almost 30 years, I strongly feel that any changes to the current planning policies would have serious and negative consequences for the current residents. Not only would properties lose significant value, the estate would also lose its 'village-like' feel that lead us to move there in the first place. We were also told at the time of purchase that Shirley Oaks would always remain as metropolitan open land, and this also heavily influenced our purchase. To add to this, there is also the issue of increased traffic through the estate. There was a fatal accident only a couple of years ago by the bend of Poppy Lane and I feel that with the prospect of even more houses being added to the estate there will be a significantly higher risk of further accidents.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
I object on the grounds of appalling over crowding, your plan would bring at least 2000 more vehicles onto the estate. It is already nearly impossible to get in and out of the estate by car at rush hours. The roads on the estate can barely cope as it is with the bus route. The extra vehicles would include many commercial vans which would be parked over night and weekends causing havoc on the narrow roads of the estate. A single bus route as at present running every 20mins causes problems how do you intend to increase public services more bus routes and more frequent timetables...more chaos! I along with others pay to maintain and the open space as a share holder. Your proposal would seriously devalue our properties and I for one will be seeking serious compensation for this, I trust Croydon has very big capital reserves to meet our legal challenges and compensation. Our gardens are small this is why the land has been designated open land so we have some open space in common with the surrounding houses. Your plans are ill conceived and will effectively destroy Croydon further. There are large areas of open land in Addington which Croydon could use and I presume already own without spending our money attempting to purchase land which will be extremely costly to Croydon in terms of the compensation that you will need to pay out and in the legal fees entailed.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Mr N Oratis

Object DM43.4 548

I object to the decision to de-designate this land as metropolitan open land for the use of residential development for the following reasons. I would first like to begin with reference number 548. This area sits beautifully behind my home, I have a lovely view of the park as do many of my neighbours. I do not want this area to be demolished as I love the character as do visitors and neighbours. This area is used every day and regularly by myself, family members, neighbours and countless visitors wanting to take their dog for a walk or spending time with family and kids. This area has amazing character with huge green, tall trees, a small walk bridge with a lake underneath for people passing by to enjoy. There would also be disturbance and loss of wildlife as there is evidence of badgers in this location also in the above reference numbers. Ref 548, 542, 541, and 128 are owned by Shirley oaks management. 488 residents are shareholders in this company. There was a decision in 1985 for this land to be open for use by the local residents because the gardens of all homes were considered small.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Ms S Ikpa

Object DM43.4 548

The use of the following five sites for housing: land at Poppy Lane site reference number 128, Stroud Green Pumping Station, 140 Primrose Lane site reference number 504, land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House site reference number 541, and to the west of Shirley Oaks Road site reference number 542; and land to the rear of 5-13 Honeyeucke Gardens site reference number 548. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas and change the character of this area.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
I am writing to object to the de-designation of Metropolitan Open Land around Shirley Oaks Village, in particular to the use of the following five sites for housing:

(i) land at Poppy Lane reference number 128
(ii) Stroud Green Pumping Station, 140 Primrose Lane reference number 504
(iii) land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541
(iv) land to the west of Shirley Oaks Road reference number 542
(v) land to the rear of Honeysuckle Gardens reference number 548

If the Council cannot keep this land as Metropolitan Open Land, these five sites should be at least designated as Local Green Spaces.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

I wholly disagree with the plans to develop the land on Shirley Oaks Village. This is metropolitan land and will not be built on.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
I am therefore writing to formally object to:

1. the de-designation of the Metropolitan Open Land around Shirley Oaks Village;
2. the use of the following five sites for housing:
   - land at Poppy Lane REFERENCE NO. 128;
   - Stroud Green Pumping Station, 140 Primrose Lane REFERENCE NUMBER 504;
   - land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House REFERENCE NUMBER 541;
   - land to the west of Shirley Oaks Road REFERENCE NUMBER 542; and
   - land to the rear of 5-13 Honeysuckle Gardens REFERENCE NUMBER 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building houses on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built upon. Why has Shirley Oaks been singled out in this way?

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

<tr>
<td>4041/01/008/DM43.4/O</td>
<td>Mr s Hilu Abdo</td>
<td>DM43.4 548</td>
<td>Ref: 541, 542, 548, 126 and 504 in Shirley Oaks Village I was shocked to learn about the changes proposed to our grass areas. These changes, if implemented, will change the very nature of our village. It will not only deprive the residents of very essential open green areas, but it will make the whole place very crowded, much more polluted and quite uglier. This would rob us of essential attractions that made us come to this village in the first place. I strongly object to any of these changes and trust that every resident on this estate feels the way I feel. I did not speak to everyone, but the many I spoke with feel as strongly as I do towards this unfair proposal. I have been living in this village with my family since 1989, I would like to see the Croydon Council improve it rather than ruin it. I hope the Council will reconsider its plans.</td>
</tr>
</tbody>
</table>
I am grateful to the Council for consulting on the detailed policies and proposals that will make up the Croydon Local Plan. There is much in the document that I agree with, but some of the proposals would, in my opinion, change the character of parts of Croydon very much for the worse. I hope you will forgive me if I focus on these areas of contention. I am therefore writing to formally object to:

1. the de-designation of the Metropolitan Open Land around Shirley Oaks Village;
2. the use of the following five sites for housing:
   - land at Poppy Lane reference number 128;
   - Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
   - land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
   - land to the west of Shirley Oaks Road reference number 542; and
   - land to the rear of 5-13 Honeysuckle Gardens reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

3. the use of the following locations as gypsy/traveller sites:
   - Coombe Farm off Oaks Road reference number 502;
   - Coombe Lodge Nurseries off Conduit Lane reference number 661; and
   - Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane reference number 750.

As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site Change As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

“Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.

The Council’s approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is);

4. Focussed intensification associated with gradual change of an area’s local character under Policy DM31.4 of the Shirley Road Shopping Parade, Shirley local centre and Forestdale. Shirley Road Shopping Parade is surely worthy of protecting rather than replacing with medium-rise blocks? Shirley local centre is defined not just as a stretch of the Wickham Road (where some intensification may be appropriate) but Ridgemount Avenue, Wickham Avenue, Peregine Gardens, West Way Gardens, the northern section of Hartland Way and the western parts of Bennets Way and Devonshire Way. Replacing the largely semi-detached buildings in these residential roads with medium-rise blocks would completely change the character of Shirley. Replacing the largely terraced housing and small blocks of flats in Forestdale with medium-sized blocks would completely change that area too;

5. Policy DM2 on development on garden land, which is too subjective and therefore too weak. There should be a much stronger presumption against development on garden land; and

6. Policy DM28, which should allow higher levels of parking in developments of low public transport accessibility. Restricting parking spaces in such areas doesn’t lead to fewer people owning their own car; it just leads to greater competition for existing spaces.

Soundness - Justified

As residents whose small rear garden backs onto part of the Shirley Oaks Metropolitan Open Land, we know full well what impact proposals 128, 504, 541, 542 and 548 would have to the area.

There would be an increase in noise from 1) the building work, 2) increased traffic.

There would be a substantial impact on the road system. Wickham Road already gets gridlocked at rush hours and school start/end times. The roads into Shirley Oaks are already too narrow for cars to pass if there are any cars parked, which there are always many of since the majority of driveways are too short to accommodate reasonable size car parking for many.

Shirley Road also has a problem with queuing traffic towards Long Lane which will also be compounded by these proposals.

These developments would increase the drainage issues this area suffers from. The whole area is built on London clay and regularly these areas suffer standing water which has gone through our property in the past. Increasing the density of building in Shirley Oaks will increase this problem too.

The lands around Shirley Oaks remain because of the compact nature of the village, whose properties, as well as our own, have small garden areas and as such these areas are used daily for sports activities, exercise and dog walking.
4065/01/006/DM43.4/O Mr Clive Jarvis

4068/01/006/DM43.4/O Mr S Soundararajan
Object DM43.4 548 I am writing to object strongly to the de-designation of the following five pieces of land as Metropolitan Open Land and their proposed use as housing.

Land to the rear of 5-13 Honeysuckle Gardens reference number 548-the above site is owned by the residents of Shirley Oaks Village through the Shirley Oaks Management Company in which every freeholder has a share. The land in question is. Land to the rear of 5-13 Honeysuckle Gardens reference number 548

Your proposal will lead to a huge set of issues for the local residents. I strongly object to the plan and proposal.
Change As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Given the existing levels of brownfield sites in the area, these should be exhausted before encroaching on areas that would significantly alter the character of the area.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

The planning permissions proposals below I object to ref 548
I have friends who live in Shirley Oaks village and I know them and myself along with many others all object to the proposals to build on the green areas. This grass area is used by many and would totally change the area if built on and we don't want it. Part of the charm of this area is these green areas and it has something that you don't find often in Croydon so please let us keep the green areas as we all object to them being built on.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

The use of the following five sites for housing: land at Poppy Lane site reference number 128, Stroud Green Pumping Station, 140 Primrose Lane site reference number 504, land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House site reference number 541, and to the west of Shirley Oaks Road site reference number 542; and land to the rear of 5-13 Honeysuckle Gardens site reference number 548. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas and change the character of this area.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

The use of the following five sites for housing: land at Poppy Lane - Ref 128
Stroud Green Pumping Stn - Ref 504
land to east of Shirley Oaks Road - Ref 541
land to west of Shirley Oaks Road - Ref 542
land to rear of Honeysuckle Gdns - Ref 548
If the Council will not keep them as MOP - these 5 sites should at least be designated as Local Green Spaces

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Victoria Moore

DM43.4 548

Land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes (pages 457-458, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 548).

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Mr Vince Hemment

DM43.4 548

I am therefore writing to formally object to: de-designation of the Metropolitan Open Land around Shirley Oaks Village; the use of the following five sites for housing:

- land at Poppy Lane reference number 128;
- Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
- land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
- land to the west of Shirley Oaks Road reference number 542; and
- land to the rear of 5-13 Honeysuckle Gardens reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on.

DM43.4  
548  
Site 548, Land to the rear of 5-13 Honeysuckle Gardens, is identified as suitable for 59-125 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Tower View, Edgewood View and Primrosa Lane. 

Change  
As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Mr Christopher Swan

Object

DM43.4

land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes (pages 457-458, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 548). Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure will not be able to cope with the additional traffic.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Mr Edward Swan

Object

DM43.4

I would like to strongly object to the planned five sites being used for residential development in Shirley, Croydon: land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes (pages 457-458, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 548). Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure will not be able to cope with the additional traffic.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Mrs S Rudduck

Object

DM43.4

I object to the use of the land to the rear of 5-13 Honeysuckle Gardens reference number 548 for housing: If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Developing these sites with the amount of homes suggested would increase the volume of traffic in an area which is already congested in morning and afternoon rush hours and would put increased pressures on local schools and public transport.

I am aware that more affordable houses are needed but please reconsider these plans which will totally change the area in which we have chosen to live and definitely not for the better.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Ms S Rao

Object DM43.4

The use of the land to the rear of Honeysuckle Gardens (site ref 548) for housing

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Mr & Mrs Andrews

Object DM43.4

Soundness - Justified

I am grateful to the Council for consulting on the detailed policies and proposals that will make up the Croydon Local Plan. There is much in the document that I agree with, but some of the proposals would, in my opinion, change the character of parts of Croydon very much for the worse. I hope you will forgive me if I focus on these areas of contention. I am therefore writing to formally object to:

2. the use of the following five sites for housing:
   - land at Poppy Lane reference number 128;
   - Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
   - land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
   - land to the west of Shirley Oaks Road reference number 542, and
   - land to the rear of 5-13 Honeysuckle Gardens reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

Mr & Mrs Carpenter

Object DM43.4

These proposals to build up to 750 homes on land (assuming it is de-designated) will mean the loss of vital open spaces and will place burdens on local transport, roads, schools and medical facilities which are already under pressure.

Change

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
<table>
<thead>
<tr>
<th>Object</th>
<th>DM43.4 548</th>
<th>The de-designation of Metropolitan Open Land status on Shirley Oak will be vigorously opposed. I can see no reasoned explanation in the planning document for such a course of action nor is there any evidence of the thinking of the Council in the previous plan or 2012 Inspector's Report to explain how MOL status has been revisited with the conclusion that MOL designation be withdrawn. It also seems to have escaped the planning process that Shirley Oaks is governed by a Section 52 Agreement under the 1971 Town and Country Planning Act controlling development of the 'amenity lands' on Shirley Oaks. Further, the land is owned by the 488 Shirley Oaks resident property owners as shareholders of Shirley Oaks Management Ltd that owns the land. There is, therefore, no likelihood of the land ever being sold voluntarily. In summary, this part of the proposed Local Plan is undeliverable.</th>

<td></td>
</tr>
</tbody>
</table>
Mr & Mrs Kennard

We are writing to object to the proposals to:

1. de-designate the Metropolitan Open Land around Shirley Oaks Village.
2. the use of the following sites for housing:
   - land at Poppy Lane reference number 128;
   - Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
   - land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
   - land to the West of Shirley Oaks Road reference number 542;
   - land to the rear of 5-13 Honeysuckle Gardens reference number 548;

The Shirley Oaks Village site currently provides a balance of high density housing offset by areas of green space. The proposals for de-designation of the Metropolitan Open Land and additional housing on the areas of green space would disrupt that balance and greatly increase the density of housing to an unacceptable level. Access to the Shirley Oaks site is by way of Poppy Lane and Shirley Oaks Road which feed into Shirley Road and Wickham Road respectively. Both Shirley Road and Wickham Road are used heavily throughout the day and subject of long delays particularly at peak times. This has resulted in Poppy Lane and Shirley Oaks Road experiencing heavier traffic flows than they were designed for as commuters cut through between Shirley Road and Wickham Road.

Public transport within the Shirley Oaks site is limited to a small single decker bus due to the road infrastructure and road system. Whilst there are bus services which serve Shirley Road and Wickham Road these are already oversubscribed and subject to delay due to existing traffic congestion.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Mr Trevor Watkins

**Object**

The use of the following five sites for housing: land at Poppy Lane site reference number 128; Stroud Green Pumping Station, 140 Primrose Lane site reference number 504; land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House site reference number 541; and to the west of Shirley Oaks Road site reference number 542; and land to the rear of S-13 Honeysuckle Gardens site reference number 548. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas and change the character of this area.

**Change**

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

---

Carol Holmes

**Object**

I object to both the de-designation and also to the subsequent house-building at the following sites:

- Land at Poppy Lane (reference number 128);
- Stroud Green Pumping Station, 140 Primrose Lane (reference number 504);
- Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House (reference number 541);
- Land to the west of Shirley Oaks Road (reference number 542);
- Land to the rear of 5-13 Honeysuckle Gardens (reference number 548).

The very minimum designation for the proposed sites should be as Local Green Spaces, in order to give some protection against over-development.

**Change**

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

---

Mr B Williams

**Object**

I object to the de-designation of the land as Metropolitan Open Land and its proposed use for housing. The open spaces are collectively designated as Metropolitan Open Land and provide several links in the Shirley Green Chain. They help to form the sort of network necessary to ensure the maintenance of the current range and diversity of our flora and fauna. In addition this is a floodplain. There is a sink pond to the rear of Honeysuckle Gardens and if this overflows any properties would be flooded. There is also the potential for flooding of future planned properties. The one road through Shirley Oaks Village could not cope with the additional traffic and its exit on to the A232 would cause yet another bottleneck on this already congested road.

**Change**

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
I am writing to object to the following matters in this document:-

2. the use of the following five sites for housing:
   a) Ref No. 128— land at Poppy Lane
   b) Ref No. 504— Stroud Green Pumping station
   c) Ref No. 541 — land to the east of Shirley Oaks Road and to the rear of Ash House and Beech House
   d) Ref No. 542 — land to the west of Shirley Oaks Road
   e) Ref No. 548— land to the rear of 5-13 Honeysuckle Gardens

If the Council do not keep these sites as Metropolitan Open Land, then at least these five sites should be designated as Local Green Spaces.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

I am writing to object to:

2. The use of the following five sites for housing:
   - Land at Poppy Lane, reference number 128
   - Stroud Green Pumping Station, 140 Primrose Lane, reference number 504
   - Land to the east of Shirley Oaks road and to the rear of Beech House and Ash House, reference number 541
   - Land to the west of Shirley Oaks Road, reference number 542, and
   - Land to the rear of 5-13 Honeysuckle Gardens, reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at a minimum be designated as Local Green spaces.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

This land is owned by Shirley Oaks Management Ltd of which I am a shareholder. There is a section 52 legal agreement in place which requires this site to be transferred to a management company and be held as amenity open space.

The highway network is already at saturation point and in any event any proposed development would generate an unacceptable amount of traffic.

The site has a high water table with water running off and flooding properties on the Mere End side of the site. Any development is likely to worsen this situation.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

The use of the following five sites for housing:

- Land at Poppy Lane site reference number 128,
- Stroud Green Pumping Station,
- 140 Primrose Lane site reference number 504,
- Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House site reference number 541, and
to the west of Shirley Oaks Road site reference number 542;
- Land to the rear of 5-13 Honeysuckle Gardens site reference number 548.

If the council does not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas and change the character of this area.

As this site does not have a willing landowner, it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

I object to Policy DM43, reference Site 548 to/build new homes on land to the rear of Honeysuckle Gardens.

As this site does not have a willing landowner, it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

As 541, 542 & 548 would consist of 750 residences, the present utilities, particularly the drains, are likely to be inadequate. I assume that provision will be made for Shirley Oaks Hospital to function during the building and afterwards with the increase in traffic pollution and NHS ambulance access to their base. Healthcare facilities for such an increase in local residents cannot be sustained for the area. If the council will not keep bullet points 1 & 2 as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces.

As this site does not have a willing landowner, it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

I object to the use of the site for housing.

As this site does not have a willing landowner, it is unlikely that it would be developed. Object 3 Proposed Policy DM43 De-designation of Metropolitan Open Land around Shirley Oaks Road
I object to the de-designation of Metropolitan Open Land in the vicinity of Shirley Oaks Road and Shirley Oaks Village. The land should be at least be designated as Local Green Space, for its protection from development.
This open space provides a green corridor between Shirley Oaks and the surrounding areas, and should be retained in its present form.
I also object to the following specific proposals for the building of new homes on this site, as detailed in Changes to the Policies Map arising from Proposals contained within the Croydon Local Plan; Strategic Policies Partial Review and the Croydon Local Plan, Detailed Policies & Proposals:
- Policy DM43, reference 128 to build new homes at Poppy Lane
- Policy DM43, reference 504 to build new homes at Stroud Green Pumping Station (including the conversion of the pumping station which is a locally-listed building)
- Policy DM43, reference 542 to build new homes on land to the west of Shirley Oaks Road
- Policy DM43, reference 548 to build new homes on land to the rear of Honeysuckle Gardens
Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the already-stretched social and healthcare facilities would be overloaded.
For the reasons given above:
1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability of future generations to meet their own needs.
4. I recommend that consultation documents of such importance are given much wider publicity.

Change
As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Jennifer Carrozzi

DM43.4 548
The use of the following five sites for housing: land at Poppy Lane site reference number 128, Stroud Green Pumping Station, 140 Primrose Lane site reference number 504, land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House site reference number 541, and to the west of Shirley Oaks Road site reference number 542, and land to the rear of 5-13 Honeysuckle Gardens site reference number 548. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas and change the character of this area.
Change
As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Mrs Janet Baine
Object
DM43.4 548
I object to the use of the land to the rear of 5-13 Honeysuckle Gardens site reference number 548 for housing:
If the Council will not keep these areas as Metropolitan Open Land, they should at least be designated as Local Green Spaces. People choose to live on Shirley Oaks because of the peace and quiet. One such friend has had long-term illness but at least she knows she can be quiet there.
Change
As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
I object to the use of the following five sites for housing: land at Poppy Lane reference number 128; Stroud Green Pumping Station, 140 Primrose Lane reference number 504; land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541; land to the west of Shirley Oaks Road reference number 542; and land to the rear of 5-13 Honeysuckle Gardens reference number 548. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. The Council should focus on developing other land in the Croydon borough such as unused office blocks, derelict corporate buildings/warehouses which have not been occupied for years instead of attacking the green areas which are enjoyed by the residents in their respective areas. The proposals to build circa 700 houses in such a small area will cause the following detrimental effects to the local residents: depreciation of the value of the houses purchased in the relevant areas, too much strain on the water and sewerage systems in the locality where there is already a high water table. This could result in undue flooding and drainage problems, structural problems in years to come as the land is not fit for such intensive building, increase in traffic on Shirley Road, Wickham Road, Lower Addiscombe and Addiscombe which is already congested. This will unduly increase pollution levels which are already toxic. This will undoubtedly cause an increase in the health problems of the people in the locality such as lung cancer and other respiratory illnesses which will in turn place greater stress on the NHS services, cause more people to take sick days which will result in lower incomes obtained and eventually less tax revenue generated. This will have a knock on effect on the economy which is to say at the very least, bleak, the three green spaces in the Shirley Oaks Village are owned by the 488 Freeholders. Each Freeholder owns one share in the nominee company, Shirley Oaks Management Limited which owns the land on behalf of its shareholders. Building upon this land would seriously undermine the value of the land purchased by the Freeholders and reduce quality of life. If the residents wanted to move, it would prove near impossible because of the resulting lower sale prices of their respective houses imposed by the Council’s building plans. This would appear to be unfair for the Council to impose...
such hardship on the residents. I would urge the council to build upon land in the Croydon borough which is derelict and contains buildings which have not been used for years. These buildings can be knocked down to build the much needed housing for generations to come. These unused or derelict buildings serve no purpose to the local residents and are of no value to the residents. The Council should endeavour to create value where it is needed. This will in turn improve the condition of the abandoned areas. This will also prevent squatting and other unlawful uses of such buildings. I witnessed one example last year where the old post office building next to East Croydon Station was used as a rave containing over 1,000 people. This posed a risk to the safety of the passers by and the increase in crime. The Council’s redevelopment of such spaces could be highly beneficial to the area. The green spaces are however of great importance to the local residents. The residents enjoy these spaces for walking their dogs, recreational and outdoor activities, space for children to play, peace of mind for the resident who works in the city and comes home to a peaceful environment and it provides space for those residents who already have very small back gardens.

I wish to protest vehemently about your plans to destroy Shirley which is a village by building hundred of homes and setting up a Gypsy and Traveller site. You will destroy the Green Belt and increase the traffic in the area thus polluting the environment and the air we breathe. As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
The use of the following five sites for housing:
Land at Poppy Lane (ref number 128)
Stroud Green Pumping Station, 140 Primrose Lane (ref number 504)
Land to the east of Shirley Oaks Road and to the rear of Beach House and Ash House (ref number 541)
Land to the west of Shirley Oaks Road (ref number 542) and land to the rear of 5-13 Honeysuckle Gardens (ref number 548)

When the London Borough of Lambeth closed the children’s home, known as Shirley Oaks, Croydon Council determined to keep the building redevelopment of the site broadly in line with the building density that had existed for most of the previous hundred years and subsequent applications by the then developer for increased housing density were rejected. There were a number of reasons for maintaining the original policy amongst which were the need to maintain the established green corridor, retain the character of the area and to maintain the surrounding traffic volumes at a manageable level. The decision to designate the land as Metropolitan Open Land was to ensure that in future further building on the land could not take place thus re-affirming the principles established by the original policy decisions. Nothing has changed in the ensuing years to justify any variation to that policy.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
I am dismayed at the consideration being given to the above, particularly concerning that proposed in the Shirley area. I have been a Shirley resident for almost 30 years and to date have enjoyed what the area does offer both for the community and with regard to open green spaces, which are precious to the health and wellbeing of all ages. Why should future generations be unable to continue to benefit from an outdoor environment as hitherto?

I strongly object to de-designation of the current Metropolitan Open Land and would hope that at least it could be protected as Local Green Space with regard to future development. This is particularly pertinent with regard to the proposals being considered for the Shirley Oaks area. The present road infrastructure through the estate leaves a lot to be desired and any more traffic will be a great cause for concern, to say nothing of the loss of wildlife and spacious living. If we had wanted to live in a highly densely populated area, we would not have chosen the Shirley area to relocate into, rather the centre of the town. The redevelopment of brownfield sites is more acceptable and there must be many of these in the Croydon area to develop without encroaching on valued green spaces.

As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
I wish to formally object to:
1. All the proposed policies relating to the re-designation of land to allow building development at Shirley Oaks Road and land around Shirley Oaks Village.
2. The land at Poppy Lane (reference 128).
3. Stroud Green Pumping Station, 140 Primrose Lane including the conversion of the locally listed pumping station (reference 504).
4. Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House (reference 541).
5. Land to the West of Shirley Oaks Road (reference 542).

These proposals are NOT appropriate for Croydon to meet its Strategic Objectives. Additionally, the proposals are NOT deliverable or sustainable as:
• Croydon has already announced that it is not necessary to deliberately destroy MOL to reach their housing requirements.
• National and London Plans do NOT require or expect Local Authorities to degrade MOL to generate additional housing.
• The loss of this MOL will entail the loss of a vital green corridor between Shirley Oaks through to Ashburton Playing fields, across to South Norwood Park and surrounding areas.
• The above areas are vital to sustain the drainage of surrounding flood areas.
• The above mentioned areas are referred to as the "lungs of Croydon" as they sustain carbon dioxide capture (photosynthesis), oxygen release (photosynthesis), and biodiversity. Local wildlife includes badgers and bats.
• Green areas increase the character, desirability and amenity of residential areas.
• Green areas have a strong positive impact of the character of surrounding residential areas.
• The proposed increase in housing will put an additional burden on public transport, roadways and street parking and other services. The additional volume of traffic will create additional road hazards.

As this site does not have a willing landowner, it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.
Mr John Carley

Object Soundness - Justified

DM43.4 548

I object to the de-designation of the Metropolitan Open Land around Shirley Oaks Village; reference Numbers 128, 504, 541, 542 and 548. This is currently Green Space and provides vital green recreational area and buffer between Shirley Oaks and the surrounding area.

Change As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Mr Steve Westray

Object DM43.4 548

The de-designation of Metropolitan Open Land around Shirley Oaks Village and either side of Shirley Oaks Road. At present I understand that Metropolitan Open Land has the same protection as the Green Belt and I believe that it is vitally important to retain the controls around our green spaces in Shirley. If any additional homes were to be considered for this area then they should be restricted in number and carefully planned in order to retain the character of this area. The idea of building up to 750 new homes is totally out of keeping with this objective and would be considerable strain on local infrastructure and resources. New housing on this scale would lead to a significant increase in traffic along the Wickham Road which is already extremely busy not only servicing the residents of Shirley but as an important thoroughfare into Croydon.

Change As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

Mrs Ann Sebire

Object DM43.4 548

I am writing to object to:
2. The use of the following five sites for housing:
a) Land at Poppy Lane reference number 128)  
b) Stroud Green Pumping Station reference Number 504  
c) Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541  
d) Land to the west of Shirley Oaks Road reference number 542 and  
e) Land to the rear of 5-13 Honeysuckle Gardens reference numbers 543

I just hope that there has been enough consideration about the fact that Shirley is built on springs and Heron Homes and Wren both had problems with flooding the area down at Woodmere Avenue.

Change As this site does not have a willing landowner it is unlikely that it would be developed. It has been reconsidered against the criteria for designation as Local Green Space and found to meet the criteria so it will be designated as Local Green Space, protecting the site from inappropriate development.

The proposal to build new houses on the Shrublands Estate does not fall within the Strategic Objectives because:

Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise.

Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.

Objective 5: This development is not high quality and will not enhance the borough’s natural environment but will reduce the natural environment by turning a green area into housing.

Objective 7: This development will reduce the area as a safe, healthy and cohesive community but making the area overcrowded with residential property.

Objective 10: This development will reduce the quality and accessibility of green spaces and nature.

If this development is undertaken it will not deliver the strategic objective.

This development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generation will suffer because of this.

This proposed development of new housing in Shrublands Estate is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in the area.

Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area. This development would overwhelm this green area.

Building a traveler’s site will increase noise levels and ruin the character of the area and this development would overwhelm this green area.

Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions.

This development would diminish the area of green fields and recreational

2618/01/009/DM43.4/O Miss P Jones
Object DM43.4 938
Having lived in Shirley for over 50 years I strongly object to Croydon Council plans to de-designate the Metropolitan open land so that most of this land can be used for new housing. At the moment it has the same Protection as Green Belt.

Firstly, this would entail the loss of a vital green corridor between Shirley Oaks and the surrounding area, changing the character of the area more importantly the road infrastructure couldn’t cope with the additional traffic. Try getting out to the Wickham Road from Orchard Avenue in rush hour.

Change This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.

2657/01/005/DM43.4/O Rebecca Pullinger CPRE London
Object Soundness - Effective DM43.4 938
A large number of the sites allocated for development through Detailed Policies and Proposals may result in the loss of green space. This appears to run counter to the Borough’s Strategic Objective 10 (The need to utilise brownfield areas first) and could be replaced with a goal to promote good quality high density developments that protect Croydon’s green spaces. Even undesignated green spaces provide important ecosystem services to Croydon’s growing population.

The Council should provide a map of the site allocation to ensure that it is clear which area is proposed for redevelopment. We object to any proposed development of open spaces in the Estate; any proposals must ensure that the open spaces are protected and enhanced. This should be reflected in this document to guide future planning applications.

Object

DM43.4
938

I would say to the Council Croydon is full and kindly leave our precious Shirley open spaces and attractive streets alone, we don’t need an odd assortment of blocks of flats amongst the semi-detached and small detached properties here, or in similar Croydon suburbs - it would be an architectural disaster along the lines of the 1950s concrete jungle development of the centre of Croydon. And we don’t have the infrastructure to cope with more people, or the roads to cope with the traffic we already have.

Change

This site comprised a collection of sites rather than one individual site. It will not be included in the Local Plan.

Mr & Mrs Iles

Object

DM43.4
938

Whilst we can see the sense of removing unused garages on the Shrublands Estate and building new housing is fair enough but it is unthinkable that open spaces on or about the site should suffer the same fate. Traffic on Bridle Road is already heavy, there have been numerous accidents due to speeding drivers from the Estate. Why add more problems to an existing one. More inhabitants means more cars, more people on an already crowded public transport. What little green space there is around Shrublands should be protected not built on thus making the area worse than it already is.

Change

This site comprised a collection of sites rather than one individual site. It will not be included in the Local Plan.

Mr Beresford Walker

Object

DM43.4
938

I am sympathetic to the building of homes on the under-used garages on the Shrublands Estate as detailed in Changes to the Policies Map arising from Proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan, Detailed Policies & Proposals: reference number 938. However, I object to the building of any homes on communal open spaces and loss of amenity on the Shrublands Estate.

For the reasons given above:
1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability to meet the needs of future generations.
4. I recommend that consultation documents of such importance are given much wider publicity.

Object DM43.4 938

The proposal to build new houses on the Shrublands Estate does not fall within the Strategic Objectives because:-

Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise

Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.

Objective 5: This development is not high quality and will not enhance the borough’s natural environment but will reduce the natural environment by turning a green area into housing

Objective 7: This development will reduce the area as a safe, healthy and cohesive community but making the area overcrowded with residential property

Objective 10: This development will reduce the quality and accessibility of green space and nature.

This proposed development of new housing in Shrublands Estate is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in the area. Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area.

Building a travellers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area.

Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions. This development would diminish the area of green fields and recreational land within the area.

This development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generations will suffer because of this.

Change This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.

Object DM43.4 938

I understand that the Council plan to build on open land in the Shrublands Estate (reference number 938). The Council should not be building on precious open space. As stated above, open, green land is essential to maintain a pleasant living area, and to maintain the character of the area.

Change This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.
Object | DM43.4 | 938 | the Council plans to build on under-used garages and open spaces on the Shrublands Estate. These sites are identified as suitable for 35 homes (pages 459-460, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 938).

I am happy for the Council to replace under-used garages with much-needed homes, but I will be objecting to building on precious open space. | Change | This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.

Object | DM43.4 | 938 | 3 REF: 938 (Shrublands)
I am happy for the Council to replace under-used garages with much-needed homes, but strongly object to building on precious open space. | Change | This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.

Object | Soundness - Justified | DM43.4 | 938 | Having read both local plans for the Shirley area, I strongly object to all aspects in both plans, this includes the 750 new homes on Shirley Oaks Village, 35 new homes in Shrublands, the two gypsy sites at Combe Fram and Conduit Nursery and the development for up the four storeys along Wickham Road.

None of these plans will benefit Shirley and I object to them all. | Change | This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.

Object | DM43.4 | 938 | I object to all the proposals set out for new housing and travellers sites in Shirley. I feel it will ruin the area by taking up all the open spaces. | Change | This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.

Object | DM43.4 | 938 | Second, the Council plans to build on under-used garages and open spaces on the Shrublands Estate. These sites are identified as suitable for 35 homes. I do not know how many under-used garages there are in Shrublands but I can’t imagine that area can cope with any additional housing. Its bursting at the seams as it is, but I am especially objecting to building on precious open spaces. Unlike New Addington that has vast open spaces (that should remain I’d just like to point out!) Shrublands hardly has any, so to propose to build on those is an outrage. | Change | This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.

Object | DM43.4 | 938 | The open spaces on Shrublands Estate (no objection to building on the sites of garages) | Change | This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.
| 3102/02/008/DM43.4/O Mr Richard Horton | Object DM43.4 938 | I wish to log my objection to the borough-wide planned changes Croydon Council are proposing to make in their Local Plans for 2016-2036. These proposals are 750 new homes in Shirley Oaks and 35 new homes on the Shrublands Estate. Also the proposed work to the two large gypsy/travellers site in Coombe Farm and the Conduit Nursery of Coombe Road. | Change | This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan. |
The draft identifies two areas of Shirley as locations where ‘Medium-rise blocks with associated grounds’, ‘Large buildings with spacing’ and ‘Large buildings with strong frontages will be gradually introduced’ (page 132). Shirley Road Shopping Parade and the area around Shirley Library are identified as areas where the Council wants to see “focussed intensification associated with gradual change of area’s local character”, under Policy DM31.4 (page 129). This includes the Wickham Road, Ridgemount Avenue, Wickham Avenue, Peregrine Gardens, West Way Gardens, Hartland Way, Bennetts Way and Devonshire Way (page 166).

In practice, this means that existing family dwellings, mainly semi-detached buildings, will give way to medium-rise blocks in these particular streets. My main objections are:

- It will depress house prices throughout those streets and the surrounding streets. This will in turn result in property developers buying up many of the existing family homes and making a profit by building low-quality apartment blocks along narrow side-streets. Those roads will become crowded and overpopulated.
- Insufficient local infrastructure to cope with the increased population. Longer term, this will completely change the character of Shirley. Of course, this is the intention. However, it will be a change for the worse, not the better. Many of the current residents - some, like myself, brought up on a council estate - have worked hard for many years in order to improve their quality of life and provide a better environment for their children. We will desert the town as it ceases to be the relatively quiet, aspirational location we moved to and transforms into a busier, overcrowded and underfunded suburb.

Conclusion

The proposals I have highlighted can only be viewed as negative. If adopted, they will increase the local population - and the density of that population - without providing any supporting infrastructure. The new residents from the planned apartment blocks and traveller sites will need additional public services such as schools, medical services and shops. Older residents will give way to young families who require greater social support, yet no additional resources are identified to help manage the changing demographic. Traffic congestion along already busy roads will increase, as will pollution and accident black-spots. The few
remaining green spaces will disappear. Overall, the proposals signal a reduction in the quality of life for both the existing residents and the newcomer.

Change: This site comprised a collection of sites rather than one individual site. It will may come forward through the Council New Build Programme but will not be included in the Local Plan.
Second, the Council plans to build on under-used garages and open spaces on the Shrublands Estate. These sites are identified as suitable for 35 homes (pages 459-460, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 938).

I am happy for the Council to replace under-used garages with much-needed homes, but I will be objecting to building on precious open space.

On the Shrublands estate (pages 459-460), built so that people needing less expensive housing could enjoy green space, there needs to be deep thought given to the wisdom of any development. The proposed use of disused or under used garage blocks may be acceptable. Will the residents will be properly consulted?

Happy for the Council to replace under-used garages with much-needed homes, but will be objecting to building on precious open space.

Happy for the Council to replace under-used garages with much-needed homes, but will be objecting to building on precious open space.

I wish to log my objection to the borough-wide planned changes Croydon Council are proposing to make in their Local Plans for 2016-2036. These proposals are 750 new homes in Shirley Oaks and 35 new homes on the Shrublands Estate. Also the proposed work to the two large gypsy/travellers site in Combe Farm and the Conduit Nursery of Coombe Road.

I am writing to object to: 3. The use of open spaces on the Shrublands Estate for housing (ref 938).
I am writing to object to the use of the green spaces surrounding Shrubland Estate for housing. (reference number 938)

This site comprised a collection of sites rather than one individual site. It may come forward through the Council New Build Programme but will not be included in the Local Plan.
The proposal to build new houses on the Shrublands Estate does not fall within the Strategic Objectives because:-

Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise.

Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.

3503/01/009/DM43.4/O Mr Gary Kenney

Object DM43.4 938

I am writing to show that I object to a number of your plans around the Shirley area. I contest that you need to build on our green sites and bring in new ‘traveler’ sites into Shirley.

On top of this I cannot understand the need to bring ‘medium’ high rise buildings in and around Shirley, including Devonshire way and the new proposals around Harland way.

Please can you let me know if my objection has been noted and how I can make it more official?

The use of open spaces on the Shrublands Estate (site ref 938) for housing.

Mr & Mrs Carpenter

Object

DM43.4 938

Again open space should be retained. We have no objection to the use of the sites of redundant garages.

Mr & Mrs Kennard

Object

DM43.4 938

I am writing to show that I object to a number of your plans around the Shirley area. I contest that you need to build on our green sites and bring in new 'traveler' sites into Shirley.

On top of this I cannot understand the need to bring 'medium' high rise buildings in and around Shirley including Devonshire way and the new proposals around Hartland way.

Please can you let me know if my objection has been noted and how I can make it more official?

Mr Trevor Watkins

DM43.4 938

Shrublands Estate development (reference number 938) Open spaces on this estate should not be used for building.
4197/01/002/DM43.4/O Mr E McNulty
Object DM43.4 938
As a Shrublands resident of over 50 years, I strongly object to plans to use the estate's open spaces for housing. There are plenty of brownfield sites for new developments before resorting to the type of infilling which would change the character of our estate forever, leading to environmental degradation and a worsening of residents' quality of life.
Change This site comprised a collection of sites rather than one individual site. It will come forward through the Council New Build Programme but will not be included in the Local Plan.

Object  DM43.4

the use of open spaces on the Shrublands Estate for housing reference number 938. The Council should focus on developing other land in the Croydon borough such as unused office blocks, derelict corporate buildings/factories/warehouses which have not been occupied for years instead of attacking the green areas which are enjoyed by the residents in their respective areas. The proposals to build circa 700 houses in such a small area will cause the following detrimental effects to the local residents: depreciation of the value of the houses purchased in the relevant areas, too much strain on the water and sewerage systems in the locality where there is already a high water table. This could result in undue flooding and drainage problems, structural problems in years to come as the land is not fit for such intensive building, increase in traffic on Shirley Road, Wickham Road, Lower Addiscombe and Addiscombe which is already congested. This will unduly increase pollution levels which are already toxic. This will undoubtedly cause an increase in the health problems of the people in the locality such as lung cancer and other respiratory illnesses which will in turn place greater stress on the NHS services, cause more people to take sick days which will result in lower incomes obtained and eventually less tax revenue generated. This will have a knock on effect on the economy which is to say at the very least, bleak, the three green spaces in the Shirley Oaks Village are owned by the 488 Freeholders. Each Freeholder owns one share in the nominee company, Shirley Oaks Management Limited which owns the land on behalf of its shareholders. Building upon this land would seriously undermine the value of the land purchased by the Freeholders and reduce quality of life. If the residents wanted to move, it would prove near impossible because of the resulting lower sale prices of their respective houses imposed by the Council’s building plans. This would appear to be unfair for the Council to impose such hardship on the residents. I would urge the council to build upon land in the Croydon borough which is derelict and contains buildings which have not been used for years. These buildings can be knocked down to build the much needed housing for generations to come. These unused or derelict buildings serve no purpose to the local residents and are of no value to the residents. The Council should endeavour to create value where it is needed. This will in turn...
improve the condition of the abandoned areas. This will also prevent squatting and other unlawful uses of such buildings. I witnessed one example last year where the old post office building next to East Croydon Station was used as a rave containing over 1,000 people. This posed a risk to the safety of the passers by and the increase in crime. The Council's redevelopment of such spaces could be highly beneficial to the area. The green spaces are however of great importance to the local residents. The residents enjoy these spaces for walking their dogs, recreational and outdoor activities, space for children to play, piece of mind for the resident who works in the city and comes home to a peaceful environment and it provides space for those residents who already have very small back gardens.

Marie Hillman

I have lived on Shrublands for 54 and a half years. It is known for its fresh and open green areas. It is a small estate and to take that away and build on it is would be a travesty. There is nothing here for us anyway, so take the ball court and the prettiness away from us would be awful for young and old. We don't wish to feel catastrophic and feel we have no say where we lived. A very crafty unlaizing, disrespectful move on your part for not informing the residents in good time to get our objections in! The main park was removed a year ago and replaced with a smaller one in Fir Tree Gardens which is in inadequate for the amount of children up here. Our shops aren't much to speak of either and very depressing for us as there is nothing to do up here. Why don't you try to improve where we lived, instead of taking more away from us by ruining it even further? New Addington is the biggest estate in Europe with far more amenities than Shrublands- go build there!

Dr I Jayamanne

I wish to protest vehemently about your plans to destroy Shirley which is a village by building hundred of homes and setting up a Gypsy and Traveller site. You will destroy the Green Belt and increase the traffic in the area thus polluting the environment and the air we breathe.

Mr Ian Fraser

Object: Soundness - Justified

DM43.4 938

I also object to the use of open spaces on the Shrublands Estate (reference 938). The whole character of the Shrublands estate is determined by its openness. The Shrublands Estate has little else to justify its current design! Any loss of land to housing development will expotentially degrade this estates character.

Change

This site comprised a collection of sites rather than one individual site. It will come forward through the Council New Build Programme but will not be included in the Local Plan.

P L Johnson

Object: DM43.4 938

I wish to object to the use of the following sites for housing: The use of open spaces on the shrublands estate (ref no 938) The shrublands estate lacks adequate road access and already traffic from and to it causes serious congestion in Oak Ave and other roads.

Change

This site comprised a collection of sites rather than one individual site. It will come forward through the Council New Build Programme but will not be included in the Local Plan.

Mrs M Davies

Object: DM43.4 938

I am writing to object to the proposed use of:
- the land to the east of Shirely Oaks Road (541)
- The land to the west of shirely Oaks Road (542)
- The land at Poppy Lane, Shirley Road (128)
- Stroud Green Pumping Station, 140 Primrose Lane (504)
- Land to the rear of honeysuckle gardens (548)
- Open space land at shrublands estate (938)

Change

This site comprised a collection of sites rather than one individual site. It will come forward through the Council New Build Programme but will not be included in the Local Plan.
The proposal to build new houses in Shirley Oaks Hospital, Poppy Lane does not fall within the Strategic Objectives because:

Objective 2: This development will not foster an environment where existing enterprise can prosper, but will reduce enterprise.

Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.

Objective 5: This development is not high quality and will not enhance the borough’s natural environment but will reduce the natural environment by turning a green area into housing.

Objective 7: This development will reduce the area as a safe, healthy and cohesive community but making the area overcrowded with residential property.

Objective 10: This development will reduce the quality and accessibility of green spaces and nature.

If this development is undertaken it will not deliver the strategic objective. This development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generations will suffer because of this.

This proposed development of new housing in Shirley Oaks Hospital is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in the area.

Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area.

Building a travelers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area.

Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions.

This development would diminish the area of green fields and recreational land within the area.

Site A546 was an alternative site and had not come forward for development. It is designated in the Local Plan as a site that would be difficult (in terms of character) to integrate with the built-up area of the borough and has not been allocated for development on that basis.

In the light of this comment it will be designated as Local Green Space along with the allotments and Peabody Close playing field.
I am writing to you in my capacity as secretary of the Addiscombe Woodside and Shirley Leisure Gardens Ltd, with the full endorsement of the Executive Committee. AWSLF is an allotment society comprising in excess of 400 plots, adjacent to Stoud Green Pumping Station and bounded by Primrose Lane, Poppy Lane and Glenthorne Avenue.

I am writing to object to two issues detailed in the above document which are relevant to our land.

Land opposite Shirley Oaks Hospital, Poppy Lane. Policy DM43 Shirley Ref A546
- The land detailed in the map on page 444 is the freehold property of the shareholders of the AWSLF Ltd. On these grounds alone we object to its development.
- In addition to this, in recent years this land has been turned into a nature reserve, now home to numerous flora and fauna including, we understand protected species. This is a vital asset of the Society, much used by its members and visitors and previously prone to flooding before being properly managed.

This site was allocated as an alternative site. It is not considered appropriate to carry this site through to the next stage of the Local Plan and so is therefore removed.

In the light of this comment it will be designated as Local Green Space along with the allotments and Peabody Close playing field.
The proposal to build new houses in Shirley Oaks Hospital, Poppy Lane does not fall within the Strategic Objectives because:

Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise.

Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.

Objective 5: This development is not high quality and will not enhance the borough’s natural environment but will reduce the natural environment by turning a green area into housing.

Objective 7: This development will reduce the area as a safe, healthy and cohesive community but making the area overcrowded with residential property.

Objective 10: This development will reduce the quality and accessibility of green space and nature. This proposed development of new housing in Shirley Oaks Hospital is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in the area.

Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area.

Building a travelers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area.

Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions. This development would diminish the area of green fields and recreational land within the area.

As set out in the Croydon Local Plan: Changes to the Policies Map document, the reason that the site is not a preferred option is because the site would be difficult to integrate with the built up area of the borough. The site has not come forward as part of the consultation process and will therefore not be carried forward into the proposed submission stage of the plan.

In the light of this comment it will be designated as Local Green Space along with the allotments and Peabody Close playing field.
The proposal to build new houses in Shirley Oaks Hospital, Poppy Lane does not fall within the Strategic Objectives because:

Objective 2: This development will not foster an environment where existing enterprise can prosper, but will reduce enterprise.

Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.

Objective 5: This development is not high quality and will not enhance the borough’s natural environment but will reduce the natural environment by turning a green area into housing.

Objective 7: This development will reduce the area as a safe, healthy and cohesive community but making the area overcrowded with residential property.

Objective 10: This development will reduce the quality and accessibility of green space and nature. This development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generation will suffer because of this. This proposed development of new housing in Shirley Oaks Hospital is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in the area.

Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area. Building a travellers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area. Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions. This development would diminish the area of green fields and recreational land within the area.

In the light of this comment it will be designated as Local Green Space along with the allotments and Peabody Close playing field.
Object Soundness - Justified DM44.2
I strongly object to your policies.

Local shopping parades are empty due to draconian parking charges. Whitgift and Centrale are empty. Office blocks empty.

DM2 DM40 DM40.4 DM41.3 DM44.2 DM28 DM3 DM31.4

No change The Local Plan is required to allocate sites for development so it is not possible to remove this policy.

Object DM44.2
We object to this policy

No change The sites identified are required to meet the demand and to serve the needs of the borough.

Object DM44.2
I would like to object.

No change No change can be made as a result of this comment as it is not detailed enough as to what is being objected to.

Object DM44.2
I would like to register my anxieties as regards some of the proposals in the draft "local plan". They are 44.2

No change No change can be made as a result of this comment because it is not clear as to what is being objected to.

Councillor Luke Clancy
London Borough of Croydon

Comment Soundness - Effective DM44.2 345
Site 345, Normanton Park Hotel, 34-36 Normanton Road. The rear of the site should be considered for possible expansion of St. Peter's School, as it adjoins the school play areas.

The rear of the site should be considered for possible expansion of St. Peter's School as it adjoins the school play areas.

Change The proposed allocation will be amended to include the potential expansion of the school if it is required for school expansion at the point of any application being made.

Councillor Dudley Mead
London Borough of Croydon

Comment DM44.2 345
Site 345, Normanton Park Hotel, 34-36 Normanton Road. The rear of the site should be considered for possible expansion of St. Peter's School, as it adjoins the school play areas.

The rear of the site should be considered for possible expansion of St. Peter's School as it adjoins the school play areas.

Change The proposed allocation will be amended to include the potential expansion of the school if it is required for school expansion at the point of any application being made.

Councillor Jason Perry
London Borough of Croydon

The proposed allocation will be amended to include the potential expansion of the school if it is required for school expansion at the point of any application being made.

A large number of the sites allocated for development through Detailed Policies and Proposals may result in the loss of green space. This appears to run counter to the Borough’s Strategic Objective 10 (The need to utilise brownfield areas first) and could be replaced with a goal to promote good quality high density developments which protect Croydon’s green spaces. Even undesignated green spaces provide important ecosystem services to Croydon’s growing population.

We are concerned about the potential loss of green space through this site allocation.

The Council should provide additional text in these policies to encourage developers to propose good quality, high density developments which promote the protection and enhancement of green space.

The proposed allocation will be amended to include the potential expansion of the school if it is required for school expansion at the point of any application being made.

Site 345, Normanton Park Hotel, 34-36 Normanton Road. The rear of the site should be considered for possible expansion of St. Peter’s School, as it adjoins the school play areas.

The rear of the site should be considered for possible expansion of St. Peter’s School, as it adjoins the school play areas.

The proposed allocation will be amended to include the potential expansion of the school if it is required for school expansion at the point of any application being made.
I would suggest that some of the land is devoted to extending the playing fields of the school next to the property which has itself doubled its intake of children in recent years and probably needs more space. I would also suggest that fewer houses are built, with space for more cars to park away from Normanton Road. The traffic flow on Normanton Rd is really awful now, mainly because most of the road-space is taken up by parked cars. Visitors to, and residents in, the many relatively new flats tend to park on the street because parking area within the apartment complexes is inadequate.

The proposed allocation will be amended to include the potential expansion of the school if it is required for school expansion at the point of any application being made.

Riddlesdown Residents Association

Object DM44.2

This is a greenbelt site, and it is not appropriate to build a traveller’s site on. Policy E of "Planning Policy for Traveller Sites", published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. We note of proposals also for travellers sites at Coombe Farm, off Oaks Road and Pear Tree Farm, Featherbed Lane. All three sites in our opinion would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. No travellers’ sites should be considered or allowed on any green belt land.

This site should not be allocated as a Gypsy and Traveller site.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mr Bob Sleeman

Call for a review including increased weighting for needs for transport, education and health facilities for all sites suitable for 15 + pitches with site area greater than 4.0.

Coombe Lodge Nursery (Central Nursery), Conduit Lane, Coombe Road, South Croydon, CR0 5RQ

As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. The Council’s approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mr Bob Sleeman

Object DM44.2

As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Change: This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
We note the council comment “should not have an unacceptable adverse impact on the biodiversity of the borough. In spite of this we feel that the 3 sites that are being offered will have a biodiversity impact. I have received many comments on the wrong choice of sites, but do understand that the choice is limited. Any chance of a review?

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I am emailing to formally object to your worrying proposals to build 3 gypsy traveller sites in Croydon on Green Belt sites, and your proposals to build housing on some of our precious green spaces and back gardens. We have to protect our green belt at all costs, and we feel that as residents that we are under constant attack having to protect land which is sacrosanct. You can’t just keep changing the goal posts to suit your purposes. I have lived in the area all my life and have never been so alarmed about council proposals. It is hugely stressful for residents, who use and appreciate the green spaces, to be threatened with your proposals. I fully support and agree with the objections raised by my MP Gavin Barwell, and ask you to reconsider your plans to prevent irreversible damage to Croydon and its green spaces.

DM44.2

661

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

When Gypsies and Travellers set up an unauthorised encampment near to Coomba Lane tramstop the Council had to clear up 85 pieces of used toilet paper with faeces on it that were blowing around into people’s gardens. It was a health hazard.

A Gypsy and Traveller site will also ruin the countryside. Green space is exactly that. Leave it alone.

Therefore I object to a Gypsy and Traveller site at Coomba Lodge Nurseries.

Proposals in General:
Green Belt and Metropolitan Open Land ensure that areas close to high density building, and in particular house, were maintained such that people who lived and worked nearby could benefit from open green space to exercise, relax and maintain a balanced lifestyle. By de-designating the space, not only is a very valuable facility being removed, but the population density that need to benefit from the space is being increase. The proposals fail to identify what alternative facilities of equivalent benefit would be made available and how many people will be affected by the loss of these facilities.

Proposal Ref 661: I specifically object to this proposal as they are contraty to Policy E of the Planning Policy for Travellers Sites “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. If the land is misguidedly de-designated it makes no difference in that the site has not changed, nor have the environment or the reason for it being designated in the first instance. Hence the reasoning for deeming it inappropriate for travellers still stands.

Notwithstanding the reasons for maintaining the current use of the areas in question, the occupation of these areas raises significant security issues for both travellers or any other new inhabitants, and those enjoying the adjacent areas. Access to both Coombe Farm and Coombe Lodge Nurseries have very poor sight lines onto Oaks Road and Coombe Road presenting a traffic hazard to both pedestrians and goods vehicles turning in and out.

The lack of local transport infrastructure in the area and the lack of pedestrian pavements and other walkways would result in a significant increase in vehicle movement.

Notwithstanding the reasons for maintaining the current use of the areas in question, the occupation of these areas raises significant security issues for both travellers or any other new inhabitants.
Object Gypsy/traveler sites: OBJECT
Croydon has very few green places that are actually loved and residents are proud of so they need to be left as they are or enhanced. The proposal to place travelers site is not acceptable. Also, these sites are far from schools and shops therefore not suitable.

Whilst we welcome the approach to meeting these two Vision elements:

A Sustainable City: A place that sets the pace amongst London boroughs on promoting environmental sustainability and where the natural environment forms the arteries and veins of the city

A Caring City: A place noted for its safety, openness and community spirit where all people are welcome to live and work and where individuals and communities feel empowered to deliver solutions for themselves

London Wildlife Trust is concerned at the assessment undertaken to identify potential new travellers’ sites (Assessment and Selection of sites for Gypsy and Travellers, Evidence for the Local Plan: Detailed Policies and Proposals (P&A Options), August 2015). It sets out criteria and scoring for the assessment of sites in Table 1.

For Green Belt/MOL:
- No built form -10
- Built form -5
- Not GB/MOL +10

There is no +5 score amber or green. Yet for the GB/MOL scoring of each site in Table 5, a score in amber of +5 is sometimes used. This is incorrect as it overscores sites by 10 points (i.e. +5 when it should be -5). Therefore the accumulated site

For this site Green Belt/Metropolitan Open Land should be listed as a policy designation prohibiting further exploration of options.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I strongly object to the proposed Traveller Site at Coombe Lodge Nurseries. My objections mirror those of Mr Khimji who is also a CR2 resident. I would like to reinforce the exact objections that he has also raised as outline below:

1. Croydon residents have had to endure innumerable hardship as we have been treated – both in practice and reputation – as one of the ‘poor’ London Boroughs, following riots on the trams and the fires in 2011, as well as an illegal rave last year and bad press with the assault of an old lady on a Croydon bus this month. The lodging of this site here will do nothing but increase that reputation at a time when massive amount of investments are due to pour in for the Westfield Regeneration project. It will also serve to put off potential purchasers of property and reduce house prices in what is currently a well-to-do area, with no justification.

2. Rather than serving the travelling community, this site should be used to build new houses and flats to serve the existing, Croydon community, which could also be no doubt sold for profit in what is a ‘win-win’ for all concerned.

3. There is no reason to appease the travelling community when the number of beneficiaries would be largely outweighed by the number of existing Residents that would be adversely affected by the scheme.

4. There will inevitably be a ‘spillover’ effect to the site, which the Council (and by definition, local tax payers) will have to foot the bill for, and there appears to be no justification for Croydon residents paying for the upkeep of the site – what contributions will we expect to receive in return?

I look forward to receiving feedback on the concerns that I have raised, above.
Object DM44.2

I am writing to you today in regards to the proposed Traveller site at Coombe Lodge Nurseries.

I have certain objections to the proposed use of the land, namely:

1. I believe that the proposed site would be against the very essence of the existing Croydon plan to improve the borough, and that the knock-on effects of this will be an adverse impact on the desirability and gentrification of Croydon. I believe this site would undo all the good work the Council have so far achieved and have planned for the coming years.

2. Considering the lack of affordable housing for existing Croydon Residents, this land would be put to better use to build the required housing that is desperately needed for those who have chosen to live within the borough, and who ultimately want to contribute to the community. Any such project will have an undeniably higher value for the Council and for the borough.

3. I find it unfair that Travellers' requirements are put above the needs of existing Croydon residents, when there is no evidence of any community contribution - both economically and in social terms.

4. I am unsure as to the reasoning behind this proposal. What are the economic benefits of the proposal, and how will this serve to improve the Borough of Croydon? Has a cost/benefit analysis been performed?

5. I am concerned at the apparent lack of controls around the encampment proposed, mainly in regards to safety and population limits. What are the criteria for being able to pitch on this site? Will numbers be restricted relating to the space of the site? What infrastructure services will be provided, at what costs, and ultimately who will pay for this? As a taxpaying resident of Croydon, it is unfair for me to be funding these costs when I have similar costs which I pay for myself.

Thank you for taking the time to consider these objections.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
I am writing to object to:

1. the use of the following locations as gypsy and traveller sites:
   - Coombe Lodge Nurseries off Conduit Lane, site reference 661;
   - Coombe Farm off Oaks Road, site reference 502;

as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. The additional traffic at the junctions of Coombe Road and Oaks Road and Conduit Lane that this proposal will generate. These junctions are already dangerous for vehicles and this area has the potential with this proposal to become a major accident black spot without significant very costly improvements to the local road network.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
I have been a resident and homeowner in South Croydon for over 40 years. I was attracted to the area because of the green belt within its boundaries as well as very good railway connections to Central London. I am dismayed to learn that Croydon Council have identified three locations where they propose to set up permanent Gypsy and Traveller sites. I am particularly concerned with the proposed sites on Conduit Lane and Coombe Farm off Oaks Road. Both these are on green belt and in an area of natural beauty that I would have thought our elected council would go out of its way to preserve. How can this be when The Department for Communities and Local Government's Planning policy for traveller sites dated August 2015 states under Policy E: Local Government's Planning policy for traveller sites dated August 2015, paragraph 16 that “Inappropriate development is harmful to the Green Belt and should not be approved, except in very special circumstances. Traveller sites (temporary or permanent) in the Green Belt are inappropriate development. Subject to the best interests of the child, personal circumstances and unmet need are unlikely to clearly outweigh harm to the Green Belt and any other harm so as to establish very special circumstances”?

What are the very special circumstances that make your proposals “appropriate”? How can you go against current Government Policy so blatantly when surely in Croydon, with its many industrial estates, brownfield sites and urban sprawl, there are far more suitable sites for such developments. The Government policy/guideline is to have new sites near to existing developments. Clearly this would not be the case with this recommendation.

These proposals are clearly harmful for the Green Belt and would have a negative impact on the environment and wildlife in Coombe Wood, Shirley Hills and Lloyd Park. It would create a precedent for further erosion of our valuable local amenity. Coombe Road and Coombe Lane are already very busy roads and one of the main arteries into the town centre. The additional traffic emanating from these two sites, without significant road improvements, would exacerbate the traffic congestion, not to mention the additional pressure on the already stretched local services such as schooling and general health centres, schools and other local amenities. The traveller community favour smaller sites to avoid risk of inter-family tensions. These sites go against this.

change: This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

The travellers sites sites 661 and 502 will have a negative impact on the environment and wildlife, and impact on traffic congestion, add to an already dangerous junction of Coombe Road and Oaks Road and Conduit Lane. Road improvements would be needed. Will add pressure on local schools and general practitioners. The two sites will not meet the needs of the Traveller community not within walking distance of shops, health centres, schools and other local amenities. The traveller community favour smaller sites to avoid risk of inter-family tensions. These sites go against this.
practitioners. The access roads to these proposed sites are clearly unsuitable for the larger vehicles that this community use as part of their livelihood and way of life. The junctions at Coombe Road, Oaks Road and Conduit Lane are already dangerous for vehicles and this area has the potential with this proposal to become a major accident black spot without significant very costly improvements to the local road network.

In summary not only do I feel that these proposed sites are very unsuitable for the area but also they would not meet the needs of the traveller community. Neither of the proposed sites are within walking distance of shops, health centres, schools and other local amenities which I believe is their preference. The Traveller Community favour smaller sites as there is less likelihood of inter-family tensions. These plans clearly go against this.

I would urge you to give more thought to and reconsider this planning application as it is my strong opinion that it neither suits the Traveller Community nor the local residents.
This is Green Belt land which is inappropriate for traveller sites. Our community does not wish to lose any of its green belt land. We don't want the start of development in green belt leading to a precedent and subsequent further loss. Also there would be a negative effect on the environment, wildlife etc to lose any green belt land. The site does not meet anyone's needs. It would be detrimental to one local community. Also, it doesn't meet the needs requested by gypsy and traveller communities. They prefer smaller family sites. They require good access to roads, especially for their large vehicles. They do not request public transport, which was stated as a benefit, but it is not relevant to these communities. There are not any shops or amenities near by. These community groups request that too. On every level these sites do not fit traveller needs and they would create a negative impact on the local community's needs. This site is unsuitable to develop. There are not adequate roads, schools, shops, health facilities etc to cope with such development. The cost to put this infrastructure in place is huge. I think that overwhelming costs would outweigh any benefits. The site has local, environmental, conservation, historical and natural significance. It is too important to lose. I think that the area doesn't suit the needs of any travellers. As stated there is no infrastructure to cope with these numbers. Our local area would be compromised. It is most likely there will be an adverse reaction on local businesses. The areas (e.g. Coombe Woods, Coombe Lodge Nurseries) would be negatively impacted by the plans.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
I have lived at my address for nearly 30 years and am writing to object to the use of land at Coombe Lodge Nurseries, off Conduit Lane, (site reference 661) on the following grounds:

The site would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

The site is located within the Green Belt considered to be inappropriate for development as 'Traveler sites', Planning Policy for Traveler Sites, DCLG, August 2015.

Selection of the site should have a bias towards 'brownfield or industrial land' not Green Belt.

Insufficient local infrastructure to accommodate the plans.

Lack of necessary amenities in the vicinity.

Imbalance across the Croydon Borough with two proposed sites [sic. Sites 661 and 562] being in South Croydon in close proximity to each other.

It would be detrimental to the rights of adjoining owners.

Could I respectfully suggest that alternative sites such as Pear Tree Farm, Featherbed Lane or that at Lathams Way, off Beddington Farm Road, would be much less detrimental to the environment.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Object to use of site 661 for gypsy and travellers as not the most appropriate to help Croydon meet Strategic Objectives as in Green Belt. Not in line with Government planning policy on the Green Belt.

Detail:
• Government planning policy with regards to traveller sites wants to ensure that plan-making and decision-taking should protect Green Belt from inappropriate development.
• The proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the Planning Policy: “Inappropriate development is harmful to the Green Belt and should not be approved, except in very special circumstances.” There are no very special circumstances.
• The National Planning Policy Framework makes it clear that unmet housing need (including for traveller sites) is unlikely to outweigh the harm to the Green Belt and other harm to constitute the “very special circumstances” justifying inappropriate development on a site within the Green Belt.
• The local character description is clearly at odds with the proposal.
• The justification acknowledges the Green Belt issue, though insufficiently, but relies on the fact that there are existing structures. These are not in fact substantial — being glasshouses — and could be said to be at least environmentally consistent with the Green Belt. But there is no very special circumstance justification proposed as required by Planning Policies.
• Approving the proposal would set a precedent and open the surrounding areas to be subject to similar development. It is not in the community’s interests to allow the erosion of the green spaces surrounding the community and we object to the impact this site could have on the environment and wildlife. In the light of these issues, it is not appropriate simply to weight Green Belt as one of many factors to be considered, but rather it presents an overarching policy objection that cannot be over-ridden in the way proposed. The decision making process is contrary to Government guidance.

Change
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
I wish to place on record my objection to the above proposal with is contrary to Government policy (Policy E of Planning Policy for Traveller Sites) which state “Traveller Sites (temporary or Permanent) in the Green Belt are inappropriate development” I assume that you are aware of Government Policy. Croydon Council tell me that money is tight and they are cancelling the Green Waste collection, I am therefore at a loss to understand why you are wasting time and money considering this proposal in an area that is not near any schools or shops.

My wife and I wish to object strongly to the proposal for two traveller sites in our local area. As a couple keen on wildlife, we moved to Melville Avenue mainly for its green location and quick access to unspoilt lanes and open areas in what we were led to believe were green belt. Now these are under threat.

We have had a fair bit of experience with travellers in the local area in the past, encamped on the Coombe Lodge Playing Fields, in Lloyd Park and on Addington Hills and in all cases have been dismayed by their lack of conscience. They have taken down fences and burnt them as bonfires, destroyed turf on pitches, disturbed our neighbours’ beehives, and left considerable amounts of rubbish scattered behind, making no effort even to tidy it into one spot. You will see why then we are less than enthusiastic about the proposals.

Both Conduit Lane and Oaks Lane are tranquil places, very good for wildlife which we enjoy watching. There are few such places within easy access of Croydon and we feel very strongly they should be

am writing to object to the use of the following locations as gypsy and traveller sites at Coombe Lodge Nurseries off Conduit Lane, site reference 661 and Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b;
Barbara Wilkins

I would like to register my opposition to allowing gypsy sites on Coombe Lodge Nurseries. Croydon is a densely populated and built up area. To allow gypsy sites on these two areas of precious Green Belt is totally inappropriate and I understand contrary to Government planning policy.

Amanda Stretton

As a resident of Shirley residing very near Lloyd Park we are writing to object to:

1. The use of the following locations as gypsy and traveller sites:
   - Coombe Lodge Nurseries off Conduit Lane, site reference 661
   - Coombe Farm off Oaks Road, site reference 502

   as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

   As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

   “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.

   The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough they should look elsewhere (for example, off the Purley Way where the existing site is).

D Northcote

Please note that my family and I are absolutely against a site being set up. We had trouble with ‘travellers’ very recently and are very aware of the trouble they cause.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
1782/01/003/DM44.2/O Angus & Olivia Bloom

Object Soundness - Justified DM44.2 661

As a resident of Shirley Oaks I am writing to object the proposals for housing development on the estate and surroundings. Having lived in Shirley all of my life I would be deeply disappointed to see it change unrecognisably. I envisage the property on Shirley Oaks Road will either be demolished or surrounded by high density housing. Either eventuality will be highly detrimental.

I have viewed the Detail Policies and Proposals on Croydon Councils website and object the following plans, references - Ref 128 Ref 504 Ref 541 Ref 542 Ref 548 Ref 938 Ref 502 Ref 661

Objection to Site 661

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

1788/01/006/DM44.2/O Alice Desira

Object Soundness - Justified DM44.2 661

Policy DM44.2, Table 11.17, site 661 (p179). I totally object to the council plans to create a Gypsy/Traveller site here. This is a greenbelt site and Policy E of "Planning Policy for Traveller Sites", published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". This is quite a beautiful part of Croydon and having this site here would just ruin the area. I have regular experience of travellers where I work on Imperial Way in Croydon and the rubbish that is left by the travellers is disgusting. I can just see Lloyd Park being used as a dumping ground by travellers and the whole area looking unsightly. Please, please do not allow this policy to go through.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

1793/01/001/DM44.2/O Amit Patel

Object Soundness - Justified DM44.2 661

The council plans to create a Gypsy/Traveller site here. This is a greenbelt site, and it's not appropriate to put a traveller site here. Policy E of "Planning Policy for Traveller Sites", published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development".

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Andrea Telman, Object DM44.2 661

I totally disagree to the following planning applications which would spoil the character of our local environment and threaten our green belt. I choose to live in an area that is peaceful and quiet and resent the changes that are being forced upon me. In the spirit of true democracy I wish to make clear my objection to the following developments - Policy DM40.1 (p165), Policy 40.4, Table 11.3, Site 30 (p168), Policy DM41.3, Table 11.14, site 308 (p171), Policy DM44.2, Table 11.17, site 661 (p179), Policy DM44.2, Table 11.17, site 662 (p179), Policy DM35, Table 11.8, Site 945 (p146), and Policy DM31.4 (p126).

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Bernard Nelligan, Object DM44.2 661

I understand the draft local plan is out for consultation and feedback is requested. Regarding the consultation my comments are as follows:

Policy DM44.2: There should be no development on Greenbelt sites - no erosion or exception to this principle. A proposed Traveller site on Conduit Lane would be on greenbelt land and should not be permitted as this would be inappropriate development.

Policy DM44.2 Loss of greenbelt: Coombe playing fields, Crohamhurst and Sandemead plantation - none of these sites should be downgraded from Greenbelt to metropolitan open land or any other designation. They are greenbelt and this protection should not be withdrawn and the Council should both respect and vigorously defend the greenbelt.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Carly Litchfield, Object DM44.2 661

Objection to the policy; no other information/justification provided.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
In response to details of The Croydon Local Plan, I am objecting to the suggested plans to change the current Green Belt land at Coombe Farm AND AT Coombe Lodge Nurseries into temporary or permanent areas for Traveller/Gypsy sites. The reason being in my opinion it will drastically change the character of our area very much for the worse. We desperately need new housing, but it should be built on brownfield sites not our remaining precious green spaces, particularly in this area.

Object

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object Soundness - Justified

I wish to notify you of my objections to some of the Council’s proposals in the Croydon Local Plan, which has recently been brought to my attention. As I understand from Gavin Barwell MP (Croydon Central) there are plans to build three gypsy/traveller camps in the Green Belt (eg Coombe Farm), and to allow large housing developments on some of our precious green spaces. Once gone these are gone forever. The character of parts of the Borough could be dramatically changed for the worse and this might discourage people from living, working, shopping and investing in the area. Whilst I acknowledge that there is a need for more accommodation in Croydon it is preferable to utilise effectively those brownfield sites which I am given to understand do exist in the area. More brownfield sites might become available in the future and I should like to think that the Council is establishing and/or maintaining and updating a list of suitable locations.

Object Soundness - Justified

Object to the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference 661; object to: Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b;

661

I am writing to object to:

1. the use of the following locations as gypsy and traveller sites:

Coombe Lodge Nurseries off Conduit Lane, site reference 661; Coombe Farm off Oaks Road, site reference 502;

as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b;

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
I object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and one borders a site of Nature Conservation Interest. Such development is in breach of Policy E of Planning Policy for Traveller Sites, which says that "Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development". All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites now, and 39 by 2036 is excessive and will have an adverse effect on the borough. If the number of Gypsy/Traveller sites really needs to be increased by this amount, then a more appropriate location would be around the existing site at Purley Way. The positioning of a Gypsy/Traveller site adjacent to the car park for Coombe Woods, between the Chateau Restaurant and the Hotel/restaurant, would probably deter me from using any of these attractions.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object

Coombe Lodge Nurseries off Conduit Lane reference number 661: As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". The Council’s approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
I would like to register my concern in relation to the specific proposal to develop a Gypsy/Traveller site on Conduit Lane, next to Coombe Wood Gardens. My objection is based on the following: This is a greenbelt site, and it is not appropriate to put a traveller site here. It is in contravention of Policy E of ‘Planning Policy for Traveller Sites’, published by the Government in August, says very clearly: ‘Traveller sites (temporary or permanent) in the Green Belt are inappropriate development. The site is too close to current and proposed schools in the immediate vicinity and presents safety concerns to the many children who will occupying these schools in addition to them travelling to and from their schools. The impact on businesses close to the proposed site will be severally blighted. The enjoyment of local parks, and in particular the gardens in Conduit Lane will be adversely impacted and the like loss of very limited parking in the area will be severe. I trust my objections will be duly noted and taken into consideration when taking action on this proposed development.'

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
I am writing to register my objections for the following proposed sites for Gypsy and Travellers Sites:

- Coombe Lodge Nurseries off Conduit Lane - Reference 661

The Policies laid out on the Mayor of London - London Assembly website, and Policy 7.17 clearly states that the Mayor’s office truly supports the protection of Metropolitan Open Land, and indeed states that “The strongest protection should be given to London’s MOL and inappropriate development refused”. The Policy lays out what needs to be established to designate an area as MOL, but does not make it clear how a Council can re-designate an area. I therefore object to any permanent Traveller site being constructed on MOL and especially if the area is simply going to be re-designated without any consultation with the local residents and businesses.

I object strongly that Croydon Council can re-designate Metropolitan Open Land or Green Belt land to suit their needs to accommodate a permanent pitch. I cannot see any Planning justification to change the designation, nor for the intrusion into the lives of the residents of Oaks Road and surrounding area. This will massively affect the urban attractiveness of the area and have both emotional and financial repercussions on many lives.

Policy 7.18 relating to Protection of Open Spaces clearly states that open spaces in London must be protected, and any loss must be resisted. I cannot believe the Council would want to go against both of these policies laid down by The London Assembly.

This Club not only provides sport and social activities to over 700 members in the local vicinity, but also provides an important ecological role in the area. The proposed site of Coombe Farm as a site for Gypsies and Travellers has come as a shock to everyone in the area, as borne out by the recent press coverage and attendance at the Consultation Meetings.

The history of unauthorised “pitches” in this area over the past few years has left a bitter resentment, especially in view of the residual mess and threatening behaviour that has always accompanied their trespass. On each occasion that Gypsies/Travellers have been in the area, the club members here have been threatened with physical and verbal abuse. This behaviour is totally unacceptable and despite the subsequent eviction of the Travellers on each occasion, the residual...
psychological effect on tax payers and constituents’ lives cannot be trivialised. We also have a large Junior Section and children play the course during holidays as well as weekends. They are often unaccompanied and the parents need to know they are in a safe environment. This would certainly not be the case in the parents’ minds if there was any chance of aggressive behaviour, as previously experienced, towards these children. I am certain that you would not wish to be responsible for putting children in any sort of potentially dangerous situation.

Surely these detailed real issues must be taken into account when determining any permanent site.

I understand that the proposed sites are not within the required distance to both schooling and medical needs, therefore I also object on that basis. The land is in private ownership at Coombe Farm, and any funds spent on “compulsory or otherwise” purchase could surely be spent more wisely on behalf of the population of Croydon. No doubt Central Grants will be available, but Council owned land in an area that will not radically impact on established residents’ lives would be a sensible and prudent choice.
We want to object to the locating of three traveller sites in and around South Croydon. The building of these sites on green land is wrong and will change significantly the area we live in. We live in Gravel Hill between Featherbed Lane and Coombe Lodge Nurseries and we will therefore be impacted by two if not all three of these sites. As the Council acknowledges the sites is within the Green Belt and borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development" and the Council’s approach is clearly a breach of this policy.

Gypsy and Traveller sites should not be located in the Green Belt.

Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of pitches then why not increase the size of the site on the Purley Way where the existing site is.

The sites should be closer to public services and located where the existing site is.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Mr Dermot O'Reilly

I am writing to register my objections for the following proposed sites for Gypsy and Travellers Sites:

Coombe Lodge Nurseries off Conduit Lane - Reference 661

The Policies laid out on the Mayor of London - London Assembly website, and Policy 7.17 clearly states that the Mayor’s office truly supports the protection of Metropolitan Open Land, and indeed states that “The strongest protection should be given to London’s MOL and inappropriate development refused”. The Policy lays out what needs to be established to designate an area as MOL, but does not make it clear how a Council can re-designate an area. I therefore object to any permanent Traveller site being constructed on MOL and especially if the area is simply going to be re-designated without any consultation with the local residents and businesses.

I object strongly that Croydon Council can re-designate Metropolitan Open Land or Green Belt land to suit their needs to accommodate a permanent pitch. I cannot see any Planning justification to change the designation, nor for the intrusion into the lives of the residents of Oaks Road and surrounding area. This will massively affect the urban attractiveness of the area and have both emotional and financial repercussions on many lives.

Policy 7.18 relating to Protection of Open Spaces clearly states that open spaces in London must be protected, and any loss must be resisted. I cannot believe the Council would want to go against both of these policies laid down by The London Assembly.

This Club not only provides sport and social activities to over 700 members in the local vicinity, but also provides an important ecological role in the area. The proposed site of Coombe Farm as a site for Gypsies and Travellers has come as a shock to everyone in the area, as borne out by the recent press coverage and attendance at the Consultation Meetings.

The history of unauthorised “pitches” in this area over the past few years has left a bitter resentment, especially in view of the residual mess and threatening behaviour that has always accompanied their trespass. On each occasion that Gypsies/Travellers have been in the area, the club members here have
been threatened with physical and verbal abuse. This behaviour is totally unacceptable and despite the subsequent eviction of the Travellers on each occasion, the residual psychological effect on tax payers and constituents’ lives cannot be trivialised. We also have a large Junior Section and children play the course during holidays as well as weekends. They are often unaccompanied and the parents need to know they are in a safe environment. This would certainly not be the case in the parents’ minds if there was any chance of aggressive behaviour, as previously experienced, towards these children. I am certain that you would not wish to be responsible for putting children in any sort of potentially dangerous situation.

Surely these detailed real issues must be taken into account when determining any permanent site.

I understand that the proposed sites are not within the required distance to both schooling and medical needs, therefore I also object on that basis. The land is in private ownership at Coombe Farm, and any funds spent on “compulsory or otherwise” purchase could surely be spent more wisely on behalf of the population of Croydon. No doubt Central Grants will be available, but Council owned land in an area that will not radically impact on established residents’ lives would be a sensible and prudent choice.
1896/01/001/DM44.2/O Divya Kumar
Object DM44.2
661
I object to the use of the site for gypsy and traveller accommodation.

Change
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

1904/01/008/DM44.2/C Emma Smith
Object DM44.2
661
I object to the following locations as gypsy/traveller sites: Coombe Lodge Nurseries off conduit lane reference number 661

Change
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

1908/01/002/DM44.2/O Alisdair Davis
Object DM44.2
661
Soundness - Justified

These Gypsy and Traveller sites are being situated in Green Belt areas which goes against Policy E of Planning Policy for Traveller Sites issued by the Government. The sites also do not match the criteria described in Paragraph 4.17 in that the location of new pitches do not enable the residents to access services including schools and health facilities in the same way that residents of new houses need to be able to access community facilities. Both sites do by any stretch of the imagination give Gypsy and Traveller sites good access to the road network. Indeed both or accessed by single track roads For reasons stated above I do not believe this approach is deliverable and also will alienate existing Croydon residents to building these sites in Green Belt areas. The approach does not enable sustainable development as it compromises areas of outstanding beauty with vehicles which are the opposite. The main tenet of this proposal is Strategic Objective 10: Improve the quality and accessibility of green space and nature, whilst protecting and enhancing biodiversity

Change
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

1915/01/005/DM44.2/O Andrew Hilton
Object DM44.2
661
Table 11.17, site 661 proposes a Traveller site on a greenbelt site which seems to run contrary to Government Policy (Policy E, Planning Policy for Traveller sites) which states such sites, whether permanent or temporary, in green Belt are inappropriate development. I do therefore wish to object to this proposal.

Change
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
**1918/01/008/DM44.2/O**  Mr Gareth Champion  
Object  Soundness - Justified  
DM44.2  661  
Objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: Traveller sites (temporary or permanent) in the Green Belt are inappropriate development. The Council's approach is clearly in breach of that policy. Both sites are also some distance from public services.  
If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).  
**Change**  This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

**1920/01/003/DM44.2/O**  Mr and Mrs Andrew and Kim Hack  
Object  Soundness - Justified  
DM44.2  661  
We are writing to say that we strongly object to the proposed plans in regards to two locations in Croydon becoming traveller sites.  
i) Coombe Farm off Oaks Road  
ii) Coombe Lodge Nurseries off Conduit Lane  
**Change**  This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

**1922/01/001/DM44.2/C**  Ann Simpson  
Gypsy and traveller site in south Croydon  
Inappropriate development and I would therefore object to the proposal  
**Change**  This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

**1926/01/046/DM44.2/C**  Councillor Luke Clancy  
Comment  Soundness - Effective  
DM44.2  661  
Site 661, Coombe Lodge Nurseries, Conduit lane. Transition Town have expressed an interest in restoring this site to a proper nursery facility, utilising the existing greenhouses for the growing of food, which would be a sustainable and appropriate activity within this green belt site.  
**Change**  This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
All three sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. Furthermore, Policy E of ‘Planning Policy for Traveller Sites’, published by the Government in August, states very clearly that ‘Traveller sites (temporary or permanent) in the Green Belt are inappropriate development’. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the ‘Assessment and Selection of Sites for Gypsy and Travellers’. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of ‘extensive political consultation’. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -6. This begs the question as to how many other inaccuracies are in the document.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
I am e-mailing you to register total opposition regarding your proposal to put traveller’s sites in Coombe Farm and Coombe Lodge. I am and have been a resident of Oaks Road for 20 years and apart from myself being strongly against such an idea, I do not know of one neighbour that is in agreement with this proposal. Apart from there not being adequate amenities in these areas, there is not sufficient transport, road ways, schools to support such a venture. Why would you want to put caravans in these areas, surely in this modern day and age people should live in houses? Also, both these areas are a natural area of beauty with wild life, birds etc…; travellers would lower the whole tone of this and bring mess and litter, such as in the past when we had illegal “visits” before they were moved on. I am also informed that these areas are “green belt” and that no such proposal would or should be allowed. I state once again that I am totally against these potential destructive proposals that would spoil a very beautiful part of Croydon if you go ahead with this scheme, or perhaps this is your plan as this is one of the other Conservative Wards that you are targeting to make your changes?

Mr Charles Marriott

Object DM44.2

objection to extremely worrying proposals to build 3 gypsy traveller sites in Croydon on Green Belt sites.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Writing to object to the proposed sites for Gypsy and Travellers at Coombe Lodge Nurseries off Conduit Lane, Reference 661. The Policies laid out on the Mayor of London-London Assembly website and Policy 7.17 clearly state that the Mayor’s office truly supports the protection of Metropolitan Open Land and states the strongest protection should be given and inappropriate development refused. The Policy does not make it clear how a Council can de-designate an area. I object to any permanent Traveller site being constructed on MOL and especially if the area is simply going to be de-designated without any consultation with the local residents and businesses. I object strongly that Croydon council can de-designate Metropolitan Open Land or Green Belt land to suit their needs to accommodate a permanent pitch. I cannot see any Planning justification to change the designation, nor for the intrusion into the lives of residents of Oaks Road and surrounding area. This will massively affect the urban attractiveness of the area and have both emotional and financial repercussions on many lives. Policy 7.18 relating to the Protecting of Open Spaces clearly states that open spaces in London must be protected, and any loss must be resisted. I cannot believe the Council would want to go against both of these policies laid down by the London Assembly. In relation to Shirley Park golf course and 700 members, the club provides sport and social activities and also provides an important ecological role in the area. The proposed site of Coombe Farm as a site for Gypsy and Travellers has come as a shock to everyone in the area, as borne out by the recent press coverage and attendance at the Consultation Meetings. The history of unauthorised ‘pitches’ in this area over the past few years has left a bitter resentment, especially in view of the residual mess and threatening behaviour that has always accompanied their trespass. On each occasion that Gypsy/Travellers have been in the area, the club members have been threatened with physical and verbal abuse. This behaviour is totally unacceptable and despite the subsequent eviction of the Travellers on each occasion, the residual effect on tax payers and constituents’ lives cannot be trivialised. We also have a large Junior section and children play the course during holidays as well as weekends. They are often unaccompanied and the parents
need to know they are in a safe environment. This would certainly not be the case in the parent’s minds if there was any chance of aggressive behaviour as previously experienced, towards these children. I am certain that you would not wish to be responsible for putting children in any sort of potentially dangerous situation. Surely those detailed mail issues must be taken in to account when determining a permanent site. I understand that the proposed sites are not within the required distance to both schooling and medical needs, therefore I also object on that basis. The land is in private ownership at Coombe Farm and any funds spent on compulsory or otherwise purchase could surely be spent more wisely on behalf of the population of Croydon. No doubt central grants will be available, but Council owned land in an area that will not radically impact on established residents’ lives would be a sensible and prudent choice.

1944/01/001/DM44.2/O Mr Mark Barrows

Object DM44.2

I am writing to object to:

Coombe Lodge Nurseries off Conduit Lane, site reference 661 for use as a gypsy and traveller site as this site would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b; or with Policy E of “Planning Policy for Traveller Sites” published by Government in August which states “Traveller sites in the Green Belt are inappropriate development”;

1955/01/002/DM44.2/O Christine McLaughlin

Object DM44.2

Strongly objects to the proposals for permanent encampments on the grounds of safety of the people who use the area, expenditure and environmental damage.

1970/01/001/DM44.2/O Derek Mezo

Object DM44.2

Inappropriate development at Coombe Lodge Nurseries off Conduit Lane - as a member of Shirley Park Golf Course for over 50 years, I wish to express by support for the objections to this development.

DM44.2

661

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

DM44.2

661

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

DM44.2

661

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Dr Kevin Barber

Object Site 502, Coome Farm is in the middle of Lloyd Park. This is Green Belt land given by the Lloyd family to the people of Croydon for recreation. People walk here enjoying the peace and beauty. Joggers, dog walkers, whole families go there and in one area sports are played. In another there is a café for people to sit and relax and enjoy the ambience and clean air in relative safety.

Site 661 Coombe Lodge Nursery is next to the popular beautiful gardens with lovely tea room, of Coombe Wood with its wooded area. And many enjoy the peace and beauty and space, joggers, dog walkers and families. It is an inappropriate location for a gypsy and traveller site. A few years ago a group of travellers pitched up at the end of Grimwade Avenue at the top of Sandilands. The camp was quite unsightly and when they were persuaded to move on a pile of mess remained which Croydon Council, and in turn Croydon residents had to pay to clear up.

Object to Site 502 and 661 for gypsy and travellers sites on grounds of impact on surrounding environment and use of open spaces nearby.

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

E McNally

Object I am writing to object to the use of Coombe Lodge Nurseries off Conduit Lane, site reference 661 as gypsy and traveller site as this site would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b;

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mr & Mrs E Soper

Object because:
- inappropriate use of Green Belt and against Govt advice (DCLG, 20115)
- selection of sites should be biased towards brownfield or industrial sites
- detrimental to amenity of residents
- lack of infrastructure to accommodate the demands and other sites should be considered

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

</table>
Objection to the proposed Gypsy and Traveller site at Coombe Farm (site 502).

The London Plan in Policy 7.17 supports the protection of Metropolitan Open Land and inappropriate development should be refused. This policy sets out the criteria for designation as Metropolitan Open Land but does not make it clear how a Council can re-designate an area. I object to any permanent Traveller site being constructed on MOL.

I cannot see any planning justification to change the designation, nor for the intrusion into the lives of residents of Oaks Road and surrounding area. This will massively affect the urban attractiveness of the area and have both emotional and financial repercussions on many lives.

Policy 7.18 of the London Plan relating to open spaces clearly states that open spaces in London must be protected and any loss must be resisted. I cannot believe the Council would want to go against both Policy 7.17 and Policy 7.18 laid down by the London Assembly.

The history of unauthorised pitches in the area over the past few years has left a bitter resentment, especially in view of the residual mess and threatening behaviour that has been accompanied by their trespass. On each occasion that Gypsies and Travellers have been in the area the club members of Shirley Park Golf Club have been threatened with physical and verbal abuse. This behaviour is totally unacceptable and despite the subsequent eviction of the Travellers on each occasion, the residual psychological effect on people's lives cannot be trivialised. The golf club has a large junior section and children play the course during holidays as well as weekends. They are often unaccompanied and parents need to know they are in a safe environment. This would certainly not be the case in the parent's mind if there were any chance of aggressive behaviour as previously experienced towards the children.

Surely these detailed real issues must be taken into account when determining any permanent site.

I understand that the proposed site is not within the required distance to both schooling and medical needs, therefore I object on that basis.
I object to the proposal as Coombe Lodge Nurseries is Green Belt Land. Policy E of the Planning Policy for Traveller Sites, published by the Government in August states very clearly that “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. Previous use does not mitigate this policy. The proximity of this site to the Coombe Farm site, also proposed, would mean a total of up to 45 pitches on 2 sites within a very small area of the Borough.

Paragraph 4.19 refers to the need for good access to roads, stating that Gypsies and Travellers “often need to move larger vehicles as part of their livelihood and way of life”. Coombe Road junctions with Oaks Road and Conduit Lane are busy and potentially hazardous intersections and are unsuitable for increased, safe movement and manoeuvring of larger vehicles, especially entering and existing these sites. The proposed Coombe Lodge Nurseries site is adjacent to a Site of Nature Conservation Interest which would be vulnerable.

The close proximity of the proposed sites to one another has not been taken into account. All three sites are proposed for a small area in the South of the Borough when there seems to be a successful site in Purley Way which could be expanded. None of three sites proposed has good access to schools, shops and other services. The consequent need for private transport goes against environment and climate initiatives. Government Guidelines ask that local planning authorities policies ensure that children can attend school on a regular basis. These three sites are well away from schools, particularly primary schools and clearly do not reflect the aims of Guidelines or facilitate regular school attendance. The number of Gypsy/Traveller sites in Croydon is to increase from 1 to 4 when our recent experience locally is of travellers responsible for damage, parking illegally, leaving piles of rubbish behind when they are moved on an even engaged in firearms confrontation with the police.

</tbody>
</table>
The proposal to develop Coombe Lodge Nurseries, Conduit Lane as a residential development for a Gypsy and travelers site does not fall within the Strategic Objectives because:

Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise.

Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.

Objective 5: This development is not high quality and will not enhance the borough’s natural environment but will reduce the natural environment by turning a farm into a travelers housing site.

Objective 7: This development will reduce the area as a safe, healthy and cohesive community.

Objective 10: This development will reduce the quality and accessibility of green space and nature.

If this development is undertaken it will not deliver the strategic objective. This development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generation will suffer because of this.

This proposed development of a travelers site within the Coombe Road area is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with out housing in the area.

Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area.

Building a travelers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area.

Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions.

This development would diminish the striking view of the area of Addington.
Hills and Coombe Farm area.

All three sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. Furthermore, Policy E of ‘Planning Policy for Traveller Sites’, published by the Government in August, states very clearly that ‘Traveller sites (temporary or permanent) in the Green Belt are inappropriate development’. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the ‘Assessment and Selection of Sites for Gypsy and Travellers’. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of ‘extensive political consultation’. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

1.1 Object to use of Coombe Nursery site 661, as stated in Policy E of Planning Policy for Traveller Sites 2015 that ‘Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development’. Previous use does not mitigate against this policy.

1.2 The site is too close to the Coombe Farm Site also proposed and would mean a total of up to 45 pitches on 2 sites in a very small area of the Borough.

1.3 The Croydon Local Plan paragraph 4.19 (CLP1.1) refers to the need for good access to roads. Coombe Road junctions with Oaks Road and Conduit Lane are busy and potentially hazardous intersections and are unsuitable for increased, safe movement and manoeuvring of larger vehicles, especially entering and exiting these sites. Travellers ‘often need to move larger vehicles as part of their livelihood and way of life’.

1.4 The proposed Coombe Lodge Nurseries site is adjacent to a Site of Nature Conservation interest which would be vulnerable. None of the three sites have good access to schools, shops and other services. The consequent need for private transport goes against environment and transport initiatives. Government Guidelines ask that local planning authorities’ policies ensure that children can attend school on a regular basis. These three sites are well away from schools, particularly primary schools and clearly do not reflect the aims of the Guidelines or facilitate regular school attendance.

None of the three sites take into account the need for good access to roads as in CLP1.1 Para 4.19. Oaks Road, Coombe Road, Conduit Lane and Featherbed Lane are unsuitable for safe increased movement and manoeuvring of larger vehicles, especially entering and exiting these sites.

Object to Site 661 for use as a travellers site, as goes against Government policy. Sites 502 and 661 as proposed traveller sites are too close to each other with potentially 45 pitches in a small area of the Borough. Object to location as issues with busy, potentially hazardous roads roads for larger vehicles the travellers need and junctions and entrance and exit from both site 502 and 661.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

The site should be allocated for the growing of food.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Cllr Steve O'Connell AM

Object

DM44.2 661

Transition Town have expressed an interest in restoring this site to a proper nursery facility, utilising the existing greenhouses for the growing of food, which would be a sustainable and appropriate activity within this green belt site.

The site should be allocated for the growing of food.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Cllr Steve O’Connell AM

Object DM44.2 661

The site would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. Furthermore, Policy E of ‘Planning Policy for Traveller Sites’, published by the Government in August, states very clearly that ‘Traveller sites (temporary or permanent) in the Green Belt are inappropriate development’. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites. I am also concerned by the evidence base for these selections, namely the ‘Assessment and Selection of Sites for Gypsy and Travellers’. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of ‘extensive political…consultation’. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document.

The site should not be allocated as a Gypsy and Traveller site.

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

R. W. Taylor

Object DM44.2 661

I object to the planned new sites for travellers, why not expand the site they have at present, on the same basis as the expansion of the housing that is being mooted for estates such as Forestside and New Addington. I object to Travellers being treated differently. Why should they be given new private prime sites?

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

</table>
Objection to gypsy and traveller site on site 661 as inappropriate, not sustainable, and not deliverable. From the Croydon gypsy and traveller accommodation needs assessment 2013, gypsies and travellers living in the Croydon area for a small family sized sites, with similar size to size having fewer into family tensions. The plan is clearly go against this. There is evidence of periodic overcrowding on traveller sites throughout the year and at peak during winter months. This would yet further increase demand on local services. The plan makers have made no indication that they would take this into consideration or look to them at overcrowding.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
This site is not suitable for the use and the access is not practical. Conduit Lane is a bridalway. In principle I have no objection for the sitting of a school on this site, as long as a practical and safe access can be provided. This proposed development will result in the loss of Greenbelt land which does compromise on the ability of future generations to meet their own needs.

Coombe Wood is a beautiful and delicate environment and needs to be protected not developed into a traveller’s site. The access into Conduit Lane bridalway has no through vehicle access and is not suitable for the amount of vehicle movement. This is designated as Greenbelt Land and should be for the benefit of residents of the Borough, for the purpose of recreational pursuits. We know for a fact that a travellers site will result in higher crime, flytipping and vandalism. We have recent, recorded evidence. This site ould be better used as a school, but even then it has difficult access and Coombe Road would be very dangerous for children. If a traffic and access solution can be found, a school is a far more sustainable development and brings far better benefit to the borough and its community.

The Council have chosen two site within 1/2 a mile of each other, both in open green space and adjacent to delicate woodland.

Croydon Council’s plans to build three gypsy/traveller sites in the Green Belt, allow housing on some of our precious green spaces and back gardens and completely change the character of the borough. I agree with Gavin Barwell With regards this destruction of our green belt land.

The respondent objects to the proposal to site three gypsy and travellers sites in the green belt, allowing housing on some of the Precious green spaces and back gardens and would completely change the character of the borough. The sewage and water is up to the limit.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
I consider the development at Coombe Lodge Nurseries to be inappropriate for the following reasons:
- The site is in a green belt area. National guidelines say that traveller sites in the green belt are inappropriate development.
- The access road to the site, Conduit Lane, is completely unsuitable for a large number of such large vehicles - it simply was not designed for the high traffic levels we can expect with the additional residents.
- Conduit Lane is used for parking for people to access the beautiful Coombe Gardens. The high levels of traffic that the traveller site will create could not be accommodated while maintaining these parking bays which narrow the road. If these parking bays go and the high traffic levels make the road much more difficult to cross for children and the elderly, then accessibility to the park will be reduced.
- The size of the development will completely dwarf Coombe Gardens, which is a wonderful local amenity. It is a beautiful public park containing numerous memorial stones and benches to commemorate war dead and more recently lost loved ones. Many local residents choose this location because it is such a tranquil and beautiful place.
- The access to Conduit Lane is from Coombe Road, and is already very congested at rush hour and this will be made worse by the traveller traffic.
- The traveller development will damage the three local businesses which thrive as a result of their unusual and rural location so close to Croydon. These being Coombe Lodge - Beefeater and Travel Lodge, Coombe Park, Coffee Shop and the Chateau Napoleon restaurant and wedding venue. The Council should be looking to grow the local economy, not hamper these businesses that offer good service to the population.
- The proposed size of the traveller site is 15-25 pitches, which can each house 3 mobile homes so there could be up to 75 mobile homes on the site. Should further caravans pitch up to use the site, it is unclear how this could be monitored or controlled - so the numbers could even increase. Even at proposed level, the size of this traveller population, compared to the local community on Coombe Road, Oaks Lane and Oaks Road is totally overwhelming and would not be conducive to social cohesion in the area.
- The schools in this area are so over subscribed that there has been some proposals that a new school needs to be developed off Coombe Road. With

</tbody>
</table>
Croydon has a poor reputation across London as a grey, urban, nasty place. I hear this often. If we are to attract inward investment then we must retain our green spaces in their pristine, green condition, by not permitting any changes to Conduit Lane, Addington Hills or Coombe Wood.

The areas around Conduit Lane have seen a recent revival. Many more people are visiting the now attractive tea rooms and are dining there. At the same time they are exploring the very beautiful grounds and also the woods.

I adore living in Croydon, and have been paying full council tax as a resident since July 2011, and I love it mainly because of its fabulous woods, hills and green spaces. Let’s celebrate and keep them pristine and unaltered. This matters even more now that the town centre is being heavily redeveloped - which I applaud. The green spaces afford a balance and areas of respite from the town centre for many people I know, and many people who we introduce to our green spaces.

These proposals would also have a considerable negative impact on local wildlife.

Permitting alterations to such wonderful, green spaces is a dangerous precedent to set. Please do not allow this proposal to proceed.

This is an inappropriate use of Green Belt. It would be detrimental to the owners of local owners, and there is insufficient local infrastructure to support the planned development. All this goes to show how ill thought out the plans are.

It is not deliverable without considerable cost to Council taxpayers, huge disruption to amenities and permanent problems for traffic flows into Croydon which are already very congested and slow, even outside rush hours.

We do not know of any people that believe that Gypsy / Traveller Sites are compatible with achieving a nice neighbourhood and neither do we. Using green spaces for this purpose would be a double whammy in bringing down the quality of life in Croydon Borough.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

</table>
The council plans to create a Gypsy/Traveller site here. This is a greenbelt site, and it is not appropriate to put a traveller site here. Policy E of "Planning Policy for Traveller Sites", published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.

I would have thought it would be in the Council’s interest to arrange for travellers to be in permanent housing and send their children to school. This is because I understand that many travellers do have permanent housing that they live in during the winter and other months when their caravans would get stuck in the mud.

I believe the Council should look to existing sites (e.g. off the existing site on Purley Way) and brownfield sites but only where local services are already available, or even on redeveloping under-used garage spaces, with much needed permanent housing.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

The traveller site will have an adverse impact on what is a prime recreational and green area of Croydon which is used by people from all over the borough. This area has recently won a Green Flag award as one of the best kept green spaces in the country and such a development would obviously affect this status. It will have a detrimental effect on local businesses which are adjacent to the site. There are not enough local amenities – schools, health facilities, shops etc. to support a site of this size in the immediate vicinity. The proposed approach does not enable sustainable development due to the detrimental effect the site will have on the surrounding green belt land and adjacent businesses.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

My objections are based on the fact that the proposals are not in the best interests of the electorate of the borough and that the proposals will only be harmful to the environment offering no benefits to the community. Building on the Green Belt is not the best option. In the case of the proposed traveller sites PTF is green belt, there are no suitable transport, school or social services in the vicinity. Combe Farm is green belt and Conduit Lane are both close to well-established businesses which will be blighted by having such sites in close proximity:

Conduit Lane would be better used as an educational establishment for young adults or people with learning difficulties giving them an opportunity to make a contribution to the local economy.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
All three sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. Furthermore, Policy E of 'Planning Policy for Traveller Sites', published by the Government in August, states very clearly that 'Traveller sites (temporary or permanent) in the Green Belt are inappropriate development'. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the 'Assessment and Selection of Sites for Gypsy and Travellers'. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of 'extensive political consultation'. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -6. This begs the question as to how many other inaccuracies are in the document.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

<td>Mr &amp; Mrs Jeffrey</td>
<td>It will be objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).</td>

| DM44.2 661 | Alan Warner | The purpose of this e mail is to register my objections to the proposed change to the designation of Green Belt and Metropolitan Open Land. I understand that the Council have identified two locations for travellers/gypsy sites at Coombe Lodge Nurseries ref 661. These proposals are contrary to Government Policy (Policy E of Planning Policy for Travellers sites) which states that Travellers sites (temporary or permanent) in the Green Belt are inappropriate development. | This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found. |

| DM44.2 661 | Ben Plummer | I object to the use of the site for gypsy and traveller accommodation. | This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found. |

<p>| DM44.2 661 | Mrs Sandra Cooper | I object to the use of this site as a Gypsy and Traveller site. | This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found. |</p>

**Object DM44.2 661:** Coombe Lodge Nurseries off Conduit Lane reference number 661 for the use as a Gypsy/Traveller site.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object to proposed Gypsy and Traveller site at Coombe Lodge Nurseries off Conduit Lane (reference number 661). This site is in the Green Belt and would not comply with Policy SP2.7a and SP2.7b: - inappropriate development is harmful to the Green Belt and should not be approved, except in exceptional circumstances. Traveller sites (temporary or permanent) in the Green Belt are inappropriate development. There are no ‘very special circumstances’ that warrant the proposed use of these Green Belt sites.

Exit and entrance to the Conduit Lane site is limited and would have to be improved, resulting in additional cost to the Council and considerable disruption to traffic in Oaks Road (an already busy main road) and the Tram Line. Would such widening of the road (which would have to be implemented) mean concreting over part of historic gardens at Coombe Wood, a site of Nature Conservation Interest (SNCI)? This would clearly have repercussions for the community gardens/ café/park.

Additionally, Conduit Lane is part of the Vanguard Way, a historic path used by ramblers, walkers, families etc for generations.

The site does not have any local amenities-shops, healthcare, primary schools (I think there is only one secondary school in the immediate area), so will not serve the traveller community. Surely expanding the existing brownfield site in Purley Way would be more cost effective and preferable to the travellers as it provides opportunities for employment, schools and medical care in the immediate vicinity, which the proposed sites do not.
Mr William Barnett

Object
DM44.2
Site 661 and 502

Objection to Site 661 and 502 for a gypsy and traveller site as inappropriate development within the Green Belt, with traffic issues at Coombe Road junction and the proposed sites are not within reasonable walking distance of local amenities. Walkways are inadequate and it is difficult for pedestrians to cross Coombe Road in heavy traffic. Also object to the alternative option of a school on site 661 as there is already a school at the other end of Melville Avenue which causes traffic during term time in the morning and evening in the surrounding area. Traffic in Melville Avenue which is approached via Crohan Road or Coombe Road (busy roads) is often chaotic and any increase should not be countenanced and may lead to accidents.

Objection to alternative use of site 661 as a school on grounds of traffic impact.

Change
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

---

Mr & Mrs Robert & Patricia Cole

Object
Soundness - Justified
DM44.2
Site 661

The plans for travellers sites on the local green belt are unacceptable and will change the character of the area and also overburden the already problematic local road infrastructure.

Change
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

---

Sally Grenville

Object
DM44.2
Site 661

I am writing to object to Coombe Lodge nurseries off Conduit Lane site ref 661. Site would constitute inappropriate development in the green belt and would not comply with policy SP2.7a & SP2.7b. In the consultation process with the Gypsy & Travellers they requested small sites that are more manageable. Site is close to a busy road and tram lines that could be dangerous to children. They also requested sites near to doctors, primary schools and shops. There is a suitable brownfield site/ existing site along the Purley way, offering more opportunities for employment. It is very important that the sites offer safe entrance and exits to sites to ensure there is no danger of accidents. This site is not suitable and would be costly to the council's already stretched budget. The consultation refers for the need for good access to roads as they often move larger vehicles as part of their livelihood and way of life. Coombe Road and Oaks Road are already very busy, the sites would cause no end of delays and frustration to drivers.

Change
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

</tbody>
</table>
I am writing to object about Site References 661/502, both being inappropriate use and development of Green Belt land. There are adjacent areas of outstanding beauty, sites with biological significance, as well as playing fields for the local community. These would all be affected, not least during the construction of Travellers Sites. The London Plan does not advocate such a development and seems unrealistic for two such sites to be located in the London Borough of Croydon, already over-stretched owing to refugees and asylum seekers arriving at the borough’s Home Office. Not only will this proposed development overburden Croydon as a whole, but also our homes (within 2 miles of said sites). Amenities, Schools, GP practices and the like will be inadequate for an influx of such a population.

Without adequate provision of facilities more than homes alone, not only will the Travellers be disappointed but also local residents who chose to live, close to this location owing to the outstanding open spaces. We have seen the Riots of 2012. Many foreign visitors have sought to live in our Borough. However, the very nature of the name ‘Traveller’, suggests this new group of people may be transitory; we may find our Schools and Hospitals will be overstretched and with a nomadic population, teachers and doctors to name but a few will be unable to provide continuity of care, to the excellent standard we desire for the existing community.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I am writing to oppose the proposed traveler site at conduit Lane. I frequently visit Coombe Gardens with my family and would be concerned for the potential damage to these woods, considering a historic disregard and lack of respect for their surroundings in the traveler communities. I would be equally concerned at our safety, as we have in the past, been subjected to verbal abuse from travellers playing in the playground at Ashburnton park when they managed to break in there last year.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Object DM44.2 661

Objections to allocate 661 site for Gypsies and Travellers Inappropriate use of Green Belt land lack of relevant amenities close to hand adverse affect on neighbouring businesses and leisure amenities site has a more appropriate use for a school

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object DM44.2 661

I am writing to give my objections to the following location as a traveller/gypsy site: Coombe Lodge Nurseries -off Conduit Lane Ref 661

This site is on the green belt and so inappropriate for development according to government policy. Coombe Wood is a site of Nature Conservation Interest (SNCI) and is on the list of historical parks and Gardens (2008). The area is a local beauty spot used for recreation by people all over the borough. This peaceful area would disappear. The Borough Character Appraisal 2015 has listed this area as having special character. The proposed development is not sensitive to this. The access along Conduit Lane is not suitable for large vehicles. The exit onto Coombe Lane is dangerous with limited visibility. There are no footpaths along Coombe Lane in that area making it dangerous for pedestrians. There are few local amenities in the area. There are no shops within walking distance. There are no buses along Coombe Lane. Lt is a dangerous walk along the road to the tram stop.

I am writing to give my objections to the following location as a traveller/gypsy site: Coombe Lodge Nurseries -off Conduit Lane Ref 661

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object DM44.2 661

I am writing to object to site 661's use as a gypsy and traveller site. This would constitute inappropriate development in the Green Belt and would not comply with SP2.7a and b.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
The proposals to develop this site for Gypsy and Traveller pitches is completely inappropriate because:

- It is in Green Belt and is therefore contrary to Policy E of Planning for Traveller Sites (government guidance)
- The site is some distance from public services
- A site should be found in the Purley Way area instead where the existing site is
- A site here would compromise the ability of the current generation and future generations to enjoy this green space
- Damage to this green space would make Croydon a less attractive place to live in and discourage business relocation to Croydon reducing employment opportunities for Croydon's residents
- The scoring system does not reflect the importance of green spaces and is highly objectively
- There is a mistake in the scoring system and it should be recorded as -5 for being in Green Belt, not +5
- The social deprivation criterion is illogical as pressures on services apply equally across Croydon

The assessment should be reassessed by an independent party.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Object: Coombe Lodge Nurseries off Conduit Lane, reference number 661

1. This site is also in the green belt and according to Government Policy is deemed inappropriate.
2. The council has gone to great expense to protect the site from mobile travellers and this seems to have been a great waste of taxpayers' money if they now allow a permanent site.
3. Several businesses which make a big contribution to the local economy and also provide much needed amenity to the public will be detrimentally affected by the site.
4. Coombe Park which is a beautiful landscaped park and contains many memorials to war dead and families' loved ones will be completely overwhelmed by this enormous traveller development for up to 75 mobile homes right next door. The huge amount of traffic going along Conduit Lane will make access to the park from the parking bays on the other side of the road much more difficult and dangerous. These parking bays are used by the very young and the very old to give them easy and safe access to this beautiful public park.
5. Again the size of the site will totally overwhelm the nearest settlement of residents on Coombe Road, Oaks Road and Oaks Lane.

Change: This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object: DM44.2 661

Incorrect calculation in the selection criteria for 681 (Conduit Lane)

Change: This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Comment: This is inappropriate in this location.

Change: This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

</tbody>
</table>
Summary:
Not in line with Government planning policy on the Green Belt.

Detail:
• Government planning policy with regards to traveller sites wants to ensure that plan-making and decision-taking should protect Green Belt from inappropriate development.

• The proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the Planning Policy: “Inappropriate development is harmful to the Green Belt and should not be approved, except in very special circumstances.” There are no very special circumstances.

• The National Planning Policy Framework makes it clear that unmet housing need (including for traveller sites) is unlikely to outweigh the harm to the Green Belt and other harm to constitute the “very special circumstances” justifying inappropriate development on a site within the Green Belt.

• The local character description is clearly at odds with the proposal.
• The justification acknowledges the Green Belt issue, though insufficiently, but relies on the fact that there are existing structures. These are not in fact substantial – being glasshouses – and could be said to be at least environmentally consistent with the Green Belt. But there is no very special circumstance justification proposed as required by Planning Policies.

• Approving the proposal would set a precedent and open the surrounding areas to subject to similar development. It is not in the community’s interests to allow the erosion of the green spaces surrounding the community and we object to the impact this site could have on the environment and wildlife.

In the light of these issues, it is not appropriate simply to weight Green Belt as one of many factors to be considered, but rather it presents an overarching policy objection that cannot be over-ridden in the way proposed.

The decision making process is contrary to Government guidance. To be considered deliverable, sites should be available now, offer a suitable location for development now and we do not believe that the site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Assessment and selection of sites for Gypsy and Travellers undertaken was credible.

Plan makers have not considered the time it will take to commence development on site need for infrastructure improvements – roads, GPS, schools and transport.

There is basis for challenging the way in which this potential site has been selected.

1 Para 3.1 – Green Belt sites included for review of eligible sites “to ensure that all locations for a site considered”, but at the same time “Exclusion of sites in Croydon Metropolitan Centre and within District Centres and Strategic Industrial Locations and Conservation Areas due to viability, deliverability and impact on heritage considerations”. Is this a balanced view?

4 Para 4.1 sets out the criteria and weightings. As indicated above, Green Belt with no built form is given a weighting (-10) which, though high, is not very significant given that there are 29 or 30 criteria and can easily be outweighed by other factors that are less significant in policy terms. Furthermore, Coombe Nurseries has been weighted -5 for Green Belt, in recognition of the fact that there are some structures on the site, AND has been given 5 for the fact that (in the assessor’s view) such structures as there are can be converted to traveller use (if the buildings had to be demolished, on a green field site, this would have attracted -5).

1 SP2.7 on the Council’s proposals to deliver 39 additional gypsy and traveller sites indicates that land will be allocated in accordance with the proposals, but that any ADDITIONAL sites that are not so allocated should meet some stated criteria, including good access to local shops and essential services and good transport access; these seem to be criteria that were excluded from the proposed allocation, suggesting that any alternative proposals would need to meet stiffer criteria. Is this a fair view?

2 The bases for site criteria weightings are unclear.

The proposed development does not meet the needs of the present (see further info in section 3). Gypsies and Travellers needs are not addressed: not enough local amenities, sites are too big, unfit
local roads.

The proposed development does compromise the future of the local area.

- Government planning policy is to ensure local planning authorities have due regard to the protection of local amenities and the local environment.
- It is likely the proposals will have an adverse effect on local businesses.
- Coombe Wood is a Site of Nature Conservation Interest (SNCI) (List of Historical Park and Gardens 2008) and borders the proposed Coombe Lodge Nurseries site, and would be negatively impacted by the plans. Croydon Council has already recognised this in its Development Management Policies document.
- The Borough Character Appraisal of 2015, the local area is listed as having special character. The proposed development is not sensitive to, and does not respect, this.

Based on survey responses, most Gypsies and Travellers living in the Croydon area would prefer small, family-sized sites. Stakeholder comments suggested that smaller sites have fewer inter-family tensions and are therefore easier to manage. The plan goes against these wishes.

- The proposed plan does not take into account the need for good access to roads. The Croydon Local Plan paragraph 4.19 refers to the need for good access to roads, stating that Gypsies and Travellers "often need to move larger vehicles as part of their livelihood and way of life", this may be an assertion relevant to the assessment of sites and the narrowness of Coombe Lane. The proposed sites are not suitable for traveller vehicles.
- It is very important that the site has a safe entrance and exit. There are very strict Highway regulations about visibility at the entrance/exit to sites to ensure there is no danger of accidents. This links into the insufficient local infrastructure and we know how dangerous the junctions Coombe Road/ Oaks Road/ Conduit Lane can be. Both sites are accessed by single lane roads and the proposed plans do not take into consideration the potential extensive alterations needed to the local road network.

10.18 The settled community neighboring the sites should also be involved in the consultation from an early stage. There may be scope for expanding existing sites to meet some of the need. However, the
preference is for smaller sites which tend to be easier to manage.

• Is there not scope for extending existing sites in the Borough to meet some of the need? It is not clear how much consideration has been given to this.

10.19 In terms of identifying broad locations for new sites, there are a number of factors which could be considered including:

Social
School catchment areas
The area is not in a school catchment area.

10.21 Gypsies and Travellers undertaking the survey also suggested that new sites should be close to amenities such as shops, schools, nurseries and hospitals.

• There are no local shops and there is no local hospital.

10.22 CLG (2012) guidance suggests that Local planning authorities should ensure that no Gypsies and Travellers undertake mixed-use employment sites (as they often run a business from the place where they live). The proposed sites are too isolated. Gypsies and Travellers often need mixed-use employment sites as they often run a business from the place where they live. The proposed sites are too isolated and far away from local facilities and amenities such as shops, schools, nurseries and hospitals.

• The site is well away from schools (particularly primary school provision) and clearly does not reflect the above.

• From Government Guidelines, Local planning authorities should ensure that their policies ensure that children can attend school on a regular basis. The site is well away from schools (particularly primary school provision) and clearly does not reflect the above.

• The site is not in a school catchment area.
aim, or facilitate regular school attendance. Widely recognised by Government source that literacy can be an issue within the Travelling community, this would place even more pressure on local schools to provide for support of their needs. Recent studies suggest a greater proportion of ill-health amongst the travelling community, adding more pressure to local health centres. In addition to going against Government Planning Policy for traveller sites, the closest services will therefore have further demands placed on them.

- There is evidence of periodic overcrowding on traveller sites, throughout the year and at a peak during winter months. This would yet further increase demand on local services. The plan makers have made no indication that they would take this into consideration or look to limit overcrowding.

The Croydon Local Plan Note that paragraph 4.19 in referring to the need for good access to roads, states that “they often need to move larger vehicles as part of their livelihood and way of life” – this may be an assertion relevant to the assessment of sites and the narrowness of Coombe Lane. The local roads would not be suitable for the continuous use of “larger” vehicles.

- gypsy-traveller.org - The best type of land is a ‘brown field’ site. The site should be close to local amenities. It is very important that the site has a safe entrance and exit. There are very strict Highway regulations about visibility at the entrance/exit to sites to ensure there is no danger of accidents and this is very important.

The objections may be summarized as:

- inappropriate use of Green Belt land
- lack of relevant amenities close to hand
- Lack of supportive infrastructure
- adverse effect on neighboring businesses and leisure amenities
- site has a more appropriate use for a school
2599/01/008/DM44.2/O Helen Armstrong
Object DM44.2 661 Coombe Lodge should be acknowledged as Green Belt Coombe Farm should be acknowledged as Green Belt
Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

2600/01/002/DM44.2/O Hitesh Patel
Object DM44.2 661 I am writing to register my objections for the following proposed sites for Gypsy and Travellers Site Coombe Lodge Nurseries off Conduit Lane - Reference 661.

Following up from the letter sent by Steve Murphy (General Manage). I too am not happy with what you are planning to impose on our lives. Rattle the travellers/Gypsies are very rude & me being of Indian origin, little children of not older than 6 or 7 came over, took our golf balls, calling me racially abusive names with their guardians not standing more than few yards. I do not believe a society of such vulgarity should be accommodated at the cost of decent law abiding citizens. I'm not being a Nimby, just want to enjoy my time at this beautiful golf course at the weekends in the main, so please put yourself in our shoes. Please reconsider your options. As a suggestion, opposite Purley way playing fields would be ideal place to create an enclosure.

Its also not fair that whereas we pay for our way in life these get handed pieces of land at our expense. I've every faith in you & your team to make the right choice without upsetting the apple cart.

2604/01/003/DM44.2/O I and W Smith
Object DM44.2 661 We are writing to object to the use of the following locations as gypsy/traveller sites: - Coombe Lodge Nurseries off Conduit Lane reference number 661

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Croydon has very few green places that are actually loved and residents are proud of so they need to be left as they are or enhanced. The proposal to place travellers site is not acceptable. These sites are stated by the Council to be in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". Also these sites are far from schools and shops therefore not suitable for the proposed change of use.

The site should not be allocated as gypsy and traveller site.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Re Proposals for Traveller’s Site on Conduit Lane Proposal for School on Coombe Playing Fields

We are writing to object to the above proposals. We have grown up in South Croydon and have been regular visitors to Coombe Wood and gardens, and now with our young daughter. This green belt refuge in dense suburban Croydon would suffer great from any development in Conduit Lane. A traveller site would be inappropriate and adversely affect the character of this special environment.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I am writing on behalf of the school and its Governors to object to the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference 661; The ground for my objections is:

- both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b, with Policy SP7.2 and the protection of the green grid or with 6.15 Strategic Objective 10 relating to the green grid;

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Why do Gypsies and Travellers have preferential treatment with regard to having sites where public transport accessibility is not an issue disregarding government guidance. Likewise over privacy.

This site will require access to Coombe Road at a staggered junction which is congested at the best of times and a nightmare in the morning and evening peaks.

If Green Belt sites are being considered why not consider sites such as Site 536, 632 or 767 as well?

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

<td>661</td>
<td>The proposed gypsy and traveller site at Coombe Road Nurseries has inadequate access. The site has no local amenities for mothers and young children. There are no local shops or schools. This development is harmful to the green belt. There is a need for improved infrastructure; roads, Primary schools, doctors surgeries etc and therefore gypsies and travellers needs are not addressed. The proposed development compromises the future of the local area; (a) adverse impact on local business (b) Coombe Wood is a site of nature conservation interest, which borders Coombe Lodge nurseries site and would be negatively impacted by the plans ©The plans are not sensitive to the Borough Character Appraisal 2015, where the area is listed as having special character. Gypsies and travellers prefer smaller sites.</td>

661, Coombe Lodge Nurseries, Conduit lane. Transition Town have expressed an interest in restoring this site to a proper nursery facility, utilising the existing greenhouses for the growing of food, which would be a sustainable and appropriate activity within this green belt site

**Change**

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Object

I object to the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site 661; Coombe Farm off Oaks Road, site 502; Pear Tree Farm and Pear Tree Farm Cottage, Featherbed Lane, site 755; as all three sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. Furthermore, Policy E of ‘Planning Policy for Traveller Sites’, published by the Government in August, states very clearly that ‘Traveller sites (temporary or permanent) in the Green Belt are inappropriate development’. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the ‘Assessment and Selection of Sites for Gypsy and Travellers’. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of ‘extensive political consultation’. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/R/O, when the score should be 6. This begs the question as to how many other inaccuracies are in the document.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Object Coombe Lodge Nurseries, Conduit Lane is on the Green Belt.
Not in line with Government Planning policy on the Green Belt.

- Government Planning Policy with regards to traveller sites wants to ensure that plan-making and decision-taking should protect Green Belt from inappropriate development.

- The proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the Planning Policy

"Inappropriate development is harmful to the Green Belt and should not be approved, except in very special circumstances. There are no very special circumstances. The preferred approach is not deliverable. To be considered deliverable, the sites should be available now, offer a suitable location for development now and we do not believe that the Assessment and selection of the sites for Gypsy and Travellers undertaken was credible.

Plan makers have not considered the time it will take to commence development on site, need for infrastructure improvements - roads.

There is basis for challenging the way in which this potential site has been selected.

1. Para 3.1 Green Belt sites included for review of eligible sites "to ensure that all locations for a site considered" but at the same time "Exclusion of sites in Croydon Metropolitan Centre and within District Centres and Strategic Industrial Locations and Conservation Areas due to viability, deliverability and impact on heritage considerations". Is this even handed?

4. Para 4.1 sets out the criteria and weightings. As indicated above, Green Belt with no built form is given a weighting (-10) which, though high, is not very significant given that there are 29 or 30 criteria and can easily be outweighed by other factors that are less significant in policy terms. Furthermore, Coombe Nurseries has been weighted -5 for green belt, in recognition of the fact that (in the assessors view) such structures as they are can be converted to traveller use (if the buildings had to be demolished, on a green field site, this would have attracted -5).

1. SP2.7 on the Council's proposals to deliver 39 additional gypsy and traveller sites indicates that land will be allocated in accordance with the proposals, but that any ADDITIONAL sites that are not so allocated should meet some stated criteria, including good access to local shops and essential services and good transport.
access; these seem to be the criteria that were excluded from the proposed allocation, suggesting that any alternative proposals would need to meet stiffer criteria. Is this fair and even handed? The basis of the criteria weightings are unclear.

-The national planning policy framework makes it clear that unmet housing need (including for traveller sites) is unlikely to outweigh the harm to the Green Belt and other harm to constitute the “very special circumstances” justifying inappropriate development on a site within a green belt.
- The local character description is clearly at odds with the proposal.
- The justification acknowledges the green belt issue, though insufficiently, but relies on the fact that there are existing structures. These are not in fact substantial - being glass houses, and could be said to be at least environmentally consistent with the green belt. But there is no very special circumstance justification proposed as required by planning policies.
- Approving the proposal would set a precedent and open the surrounding areas to be subject to similar development. It is not in the community's interests to allow the erosion of the green spaces surrounding the community and we object to the impact this site could have on the environment and wildlife.

In light of these issues, it is not appropriate simply to weight Green Belt as one of the many factors to be considered, but rather it presents an overarching policy objection that cannot be over-ridden in the way proposed. The decision-making process is contrary to Government guidance.
Building on the green belt does not meet the strategic objectives. The National Planning Policy for Travellers states that temporary and permanent sites are inappropriate development in the green belt. This would set an unwanted precedent and there are no apparent exceptional circumstances that could warrant the proposed use of this green belt site.

The road infrastructure is inadequate to allow caravans and vans in and out of Conduit Lane. The road is already dangerous considering the existing junction with Oaks Road. Conduit Lane is currently used as a car park for the historic gardens at Coombe Wood, which is an SNCI and any impacts on the community gardens and parking arrangements must be considered. The Council has stated it will protect and enhance parks and gardens that are part of the borough's historical heritage.

There are no services such as schools.

Conduit Lane is an important public right of way and part of Vanguard Way, used by many walkers, dog walkers and families. The interests of the local community must be considered equally as part of the planning process.

If sustainable development is a strategic objective for the Council then we must consider returning the site to its former use and develop a local sustainable organic food source. Such a project could be combined with education to enable children from across the borough to learn about food sources and sustainable development for future generations.

National policy states that the Council must relate the number of pitches or plots to the circumstances of the specific size and location of the site and the surrounding population's size and density, when planning for a traveller site. With 10 houses accessed directly from the proposed site, these properties are relatively isolated and would be dominated by a community situated at the north end of Conduit Lane. The interests of residents at the south end of Conduit Lane must also be considered. The interests of local businesses and employees must be considered. An impact assessment must also be considered.

Very special circumstances must be provided if a school is to be delivered on the site. There are existing playing
fields that could be incorporated in to plans for a new school which are currently under-utilised. The area is currently lacking in state school provision. There will be extreme pressure exerted on primary schools and secondary schools. This would suggest that use of the site for a school would be preferable and essential - but very special circumstances would need to be proven.

Mr John Walsh

Object DM44.2

661

Objects to all gypsy and traveller sites (as chairman of Campion Close Freeholders Limited and Parkland Management Company Limited which comprise 75 properties). This site could be used as a community asset using the existing greenhouses. The proposals conflict with Policy E “Planning Policy for Traveller Sites” which states that temporary or permanent sites are inappropriate development in the green belt. What happens if the travelling community outgrow these sites? Surely the many industrial sites in the area would be more suitable, or Valley Park?

The proposals would clearly harm the green belt and would have a negative impact on the environment and wildlife in Coombe Wood, Shirley Hills and Lloyd Park some of which is a Site of Nature Conservation Interest and it would create a precedent for further erosion of our valuable local amenity.

Coombe Road and Coombe Lane are already very busy roads. These proposals would exacerbate this problem if significant road improvements were not carried out. These proposals would also exert pressure on local services that are already stretched. The junctions at Coombe Road, Oaks Road and Conduit Lane are already dangerous.

What social and economic benefits would a gypsy and travelling community bring to the existing local community in this area as well?

Mrs E Ballard

Object Soundness - Justified DM44.2

661

I object to the allocation of Coombe Farm as a Gypsy and Traveller site. In the past few years we have suffered from frightening results from unauthorised Travellers sites. Residents and local businesses alike have experienced unsociable behaviour problems and unacceptable mess, with both physical and psychological effects. I urge you to see that these plans are not allowed.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
I am writing to object to: The use of the following locations as traveller sites: Coombe Lodge Nurseries off Conduit Lane Site reference 661, Coombe Farm off Oaks Road Site reference 502, Pear Tree Farm Featherbed Lane 755. Because these sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

To build so close to award winning gardens such as Coombe Gardens, Heathfield or a picturesque Wedding Venue such as Coombe Farm will be detrimental for the local businesses and residents. People from the wider area also enjoy these places. People travel from miles around - even by the coachload - to see these parks in Croydon. If they are built right up to with mobile homes or prefabs and other semi-permanent residences, they cannot fail to appear less attractive. With regard to homes for Travellers, I do not wish to stereotype any group in our society, but first-hand experience of travellers staying recently in Sunken Lane has shown that they do not respect our precious green areas in the same way as the Heathfield and Ballards Farm residents do. I visited Sunken Lane after their recent departure and saw bathroom suites, mattresses and piles of other waste including dirty nappies and rubbish dumped in and around the beautiful Shirley Hills area. Pathways were blocked and cars could not turn in Sunken lane. Street lights in the local area had been broken so that this fly tipping could not be filmed by CCTV. In the days before, my sons had felt intimidated when travelling home from school by the travellers' children and had to call me to collect them by car from the Coombe Rd tram stop. I took the time to visit the Layhams Farm Traveller site so that I could make an informed opinion and I was greeted by dogs off leads and groups of men gathering as soon as I approached. They did not trouble me, but I was made to feel decidedly unwelcome. Outside of the area some of the teenagers were crouched in the road and were smashing the top off bottles and then sprinkling glass in the road where cars were passing. If the sites proposed are to be like this, then I would be very unhappy if the plans were to go ahead.

<td>Croydon Transition Town, a local community group, would like to register its objection to the proposals outlined in the Croydon Local Plan 2 to the proposed (preferred and alternative options) to the Coombe Lodge Nurseries off Conduit Lane in South Croydon. Although Croydon Transition town accept and understand the assessment that there is an identification of need to have more gypsy and traveller sites within the borough, the group would like to object to the preferred and alternative option proposed for site 661 for the reason outlined below. The loss of the greenhouses at the Nurseries site (Conduit Lane) has potential significance for community, educational and employment opportunities. Croydon Transition Town first made enquiries in April 2015 about bringing the glasshouses in Conduit lane back into serviceable condition and wished to discuss feasibility of starting a food growing project there as a community based initiative. Initial enquiries have been made with the Place department and Quadron about using the site and, although in its early stages, the group is very keen to register the site as an asset of community value and to present an alternative plan. Therefore, for this reason Croydon Transition Town oppose the current proposal. This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</td>

Premier Inn Hotels

Object

The assessment and selection of sites for Gypsy and Travellers has been unacceptably skewed in favour of remote and unsustainable sites. Premier Inn Hotel Ltd objectives to the proposed allocation for the following reasons:

- The site is located in Metropolitan Green Belt. The DCLG’s Planning Policy for Traveller Sites explicitly states in Policy E that traveller sites are inappropriate development in the Green Belt. It also notes that unmet need is not ‘very special circumstances’ that would justify development in the Green Belt. The proposed allocation is contrary to this policy.

- In the Council's assessment it states that a score of -5 will be applied to sites with ‘built form' in the Green Belt. However, in the assessment a score of +5 was applied to this site. The importance of this site's Green Belt designation has been undervalued. The assessment draws a distinction between Green Belt sites with and without ‘built form', a distinction that is not supported by national level policies and guidance. Other assessment criteria (e.g Flood Zone) with -5 is given a "red" status whereas the -5 for Green Belt has only been given "amber". This indicates that the Green Belt has not been properly taken into account.

- The Council notes that the Gypsy and Traveller population prefer to use their own transport and be located away from the existing residential community. This is contrary to CLG guidance.

- The changes proposed in the Housing and Planning Bill are also relevant as this indicates that Central Government is against Gypsy and Traveller housing being treated in isolation from the rest of the population, contrary to the approach adopted by Croydon Council in this assessment.

- The Council's assessment under ‘privacy' gives a score of +10 to sites away from existing residential areas and -10 for sites in existing residential areas. Other criteria only have a 5 point swing. The assessment therefore gives a strongly weighted preference to comparatively remote and unsustainable potential sites that are considered to be ‘private’ while understating factors that are relevant to the sustainability of potential sites which is directly contrary to the NPPF.

- Premier Inn would also question whether the Gypsy and Traveller community would agree with the assessment that this site is private. The site shares a boundary with the Coombe Lodge Beefeater restaurant.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

The site should not be allocated for a Gypsy and Traveller site and the assessment criteria should be reviewed.
and Premier Inn hotel. At the nearest point hotel bedrooms are just a few meters from the boundary of the site and the beer garden also faces onto the boundary. The proposed allocation would therefore not deliver the preferences of the Gypsy and Traveller community.

- The site has been given a score of +5 for ‘Building on Greenfield site’. A score of +5 indicates that there are ‘buildings on site that can possibly be converted for the gypsy and traveller use’. However, the majority of the buildings on site are glass houses associated with the former use which are unlikely to be reused by the Gypsy and Traveller community in any meaningful way. A score of -5, indicating that there are buildings on site that will need to be demolished, is more appropriate for this site.

In conclusion the proposed allocation is the result of a flawed assessment and should be removed from the Local Plan in favour of a more sustainable site.
Oaks Farm Receptions Ltd objects to the proposed allocation of Coombe Lodge Nurseries, Conduit Lane and Coombe Farm, Oaks Road as Gypsy and traveller sites for the following reasons. Both sites are located within the Metropolitan Green Belt. Policy E of the DCLG’s Planning Policy for Traveller Sites (August 2015) explicitly states that traveller sites are inappropriate development in the Green Belt. It also notes that unmet need is not a “very special circumstance” that would justify development in the Green Belt. The proposed allocation is therefore contrary to this policy.

Table 1 of Croydon Council’s Assessment and Selection of Sites for Gypsy and Travellers (ASSGT, August 2015) states that a score of -5 will be applied to sites (with “built form”) in the Green Belt. However, in the assessment (page 8 for site no.502, Coombe Farm and page 9 for site no.661, Coombe Lodge Nurseries) a score of +5 was actually applied to each site. The importance of this site’s Green Belt designation has therefore been undervalued in the assessment that led to these sites’ proposed allocation. Further, the assessment methodology draws a distinction between Green Belt sites with and without “built form”, a distinction that is not supported by national level policies and guidance. (In other words, the fact that there was pre-existing appropriate development on these sites does not mean that the proposed inappropriate development becomes more acceptable.)

In conclusion, the proposed allocation of Coombe Farm, Oaks Road (site number 502) and Coombe Lodge Nurseries, Conduit Lane (site number 661) as Gypsy and traveller sites is the result of a flawed assessment process. These proposed allocations should be removed from the Local Plan and more sustainable sites that would not result in inappropriate development in the Green Belt should be sought.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
1. Travellers/Gypsy Sites: We echo concerns raised by other voices in Croydon. While accepting the need for appropriate sites for travellers and gypsies we question the ability of the Council with current levels of resourcing to manage an increased number of sites effectively. With specific reference to Coombe Lodge Nurseries and Coombe Farm:
• The loss of the greenhouses at the Nurseries site (Conduit Lane) has potential significance for community, educational and employment opportunities.
• This will be a new, permanent development on green belt land.
• Access to and from the site on a dangerous section of Coombe Road will impact on traffic flow and road safety more generally.
• There is no overflow space if and when the site becomes full.
• There is likely impact on parking for access to Coombe Woods, the café and on the elderly visiting the area.
• As the two nearest schools (Royal Russell and Cedars Catholic) are independent, does this satisfy the criteria that travellers sites be located close to schools?
• Similarly, the criteria that sites should be close to shops will not be met.
• There is a real concern that there will be a negative impact on the environment of Coombe Woods, its biodiversity and the contamination of groundwater. Recent experience in Lloyd Park demonstrates a potentially serious problem with litter and lack of rubbish disposal. This leads to the Council having to collect rubbish and the creation of a hazardous refuse collection point.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

<td>Rebecca Pullinger</td>
<td>The more specific site allocations represent a large reduction in the amount of designated and non-designated open space. While we acknowledge the need to build new homes and associated infrastructure such as schools, Croydon's growing population also needs quality open spaces for all the human amenity and ecosystem services which they provide. This area of Green Belt has not been removed from the Green Belt via the Review process, therefore it must be assumed that it continues to meet the criteria for designation and the proposed Gypsy and Traveller Site would be inappropriate development: the council would need to prove exceptional circumstances exist to allow development here. The fact that it may in part be brownfield is not a reason in itself to waive this protection. We request clarification that any proposed development at the site would use the same footprint of the building without any height increase, ensuring that the openness of the Green Belt is not affected.</td>

<td>Mr Paul Quaintance</td>
<td>Building a secondary school and traveller pitches in this area will not be in keeping with the area. The area is very green and popular as a place to spend time in Croydon's natural areas for many many people. Building these sites on green belt land here would not be appropriate. It would detract from the special characteristics of the local area. It would also bring heavy traffic with regards to the secondary school to an area where there is also difficulty parking in the week with other schools / nursery's also in this area. I believe it would affect negatively the local amenities and also would be inappropriate for people enjoying Lloyd Park, Coombe Lodge Café and the wooded areas around these very important local areas. Coombe Wood and Lloyd Park are some of Croydon's few special places. We should not be building on Green Belt land and detracting from the special characteristics of local areas. We should keep and protect the few special places that Croydon has such as Lloyd Park and its surrounding areas and woodland. This is critical given all the development in the centre of Croydon for people to escape and relax in.</td>

<td>The proposal will not help to meet strategic objective 5, 9 and 10. The greatest impact will be on Strategic Objective 10 as the increased traffic, noise and light will affect the fauna of the area, including badgers, deer, owl and pheasants. The access road is narrow and currently used for parking for users of Coombe Wood Gardens and the café. Increased regular traffic will adversely affect these users. There is a lack of amenities in the immediate area. Lack of amenities will adversely affect the intended users of the site. Development in the Green Belt is inappropriate because the Green Belt is designed to prevent urban sprawl. The increased development in central Croydon will increase the population of the area and that population will need green space. Returning the site to use as woodland would provide better protection for the SNCI.</td>

Mrs M Goodwin
Object
Coombe Lodge Nurseries off Conduit Lane, reference number 661

1. This site is also in the green belt and according to government policy is deemed inappropriate.
2. The Council has gone to great expense to protect the site from mobile travellers and this seems to have been a waste of taxpayers' money if they now allow a permanent site.
3. Several businesses which make a big contribution to the local economy and also provide much needed amenity to the public will be detrimentally affected by the site.
4. Coombe Park which is a beautiful landscaped park and contains many memorials to war dead and families' loved ones will be completely overwhelmed by this enormous traveller for up to 75 mobile homes right next door. The huge amount of traffic going along Conduit Lane will make access to the park from the parking bays on the other side of the road much more difficult and dangerous. These parking bays are used by the very young and very old to give them easy and safe access to this beautiful public park.
5. Again the size of the site will totally overwhelm the nearest settlement of residents on Coombe Road, Oaks Road and Oaks Lane.

Ms Lorna Bennett
Object
Soundness - Justified

I have witnessed numerous incidents where travellers have occupied parts of Lloyd Park and the surrounding area without permission. I have always felt intimidated and have been personally threatened and insulted by them. I believe it would be a gross misuse of our vital Green Belt and a detriment to the whole area for this site to be used for Gypsy and Traveller pitches.

Mrs Valerie Mickelburgh
Object

The site is on green belt.

Mr Beresford Walker

Object

5. Proposed Policy DM43 Creation of Gypsy/Traveller sites at Coombe Farm, off Oaks Road, Coombe Lodge Nurseries, off Conduit Lane and Pear Tree Farm and Pear Tree Cottage Featherbed Lane.

I object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and one borders a site of Nature Conservation Interest. Such development is in breach of Policy Eat Planning Policy for Traveller Sites, which says that ‘Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development”. All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites now, and 39 by 2036 is excessive and will have an adverse effect on the borough. If the number of Gypsy/Traveller sites really needs to be increased by this amount then a more appropriate location would be around the existing site at Purley Way. The positioning of a Gypsy/Traveller site adjacent to the car park for Coombe Woods, between the Chateau Restaurant and the Hotel/restaurant, would probably deter me from using any of these attractions.

For the reasons given above:
1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability of future generations to meet their own needs.
4. I recommend that consultation documents of such importance are given much wider publicity.

I have restricted my objections to those plans that primarily affect the area of Shirley I which I live, but the same objections apply to other proposals in other parts of the borough.

</table>
We wish to object to the proposal Gypsy/Traveller site Ref 661 for the following reasons:

- Sustainability of the proposed site and the need for any such provision

The current proposals seem to have been produced in isolation from the other neighbouring Councils even though the above clearly indicated that nearby councils such as Sevenoaks, Tandridge and Bromley have a higher demand. Proposals in the Housing and Planning Bill 2015-16 are to remove the statutory requirement on local authorities to assess the specific accommodation needs of Gypsy and Travellers - the emphasis being that when authorities are carrying out a review of housing need that it considers the needs of all the people residing in or resorting to their district, without any references to Gypsies or Traveller.

We hope that the Council will consider the needs of our neighbours and local services and businesses as weighty as those of the Gypsy and Travelling people. There is a lot of opposition to the proposed sites from people currently residing in the district due to the threat of the Green Belt, increase traffic and increased pressure on local services.

The Assessment selection for the sites for Gypsies and Travellers scored lowly should have resulted in an acceptance that none of the sites are really particularly suitable and that the Council will need to liaise with other Councils if determined to make provision.

With regard to the sustainability of the sites, following on utilising the scoring assessment, we strongly object on a number of grounds:
- All sites lie within the Green Belt. This raises concerns about the impact on the Green Belt as a result of having to provide amenity blocks, communal facilities, safe play areas and areas for grazing horses.
- All three sites are unsuitable because they do not have good means to transport.
- Sites should have access to essential services including health and education facilities and access to local shops. None of the sites have good access to local schools (the nearest primary is over subscribed and the nearest post office is 1.7 miles away.)

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

<td>Object to proposed Gypsy and Traveller site at Coombe Lodge Nurseries off Conduit Lane (reference number 661). This site is in the Green Belt and borders a Site of Nature Conservation Importance. Policy E of Planning Policy for Travellers Sites published by the government in August [2015] says very clearly: &quot;Traveller sites (temporary or permanent) in the Green Belt are inappropriate development&quot;. Traffic along Coombe Road is already heavy and the development of these sites would make this even worse. The site is someway from public services. Finally from past experience of Gypsy stays (illegal) in the area, a large amount of rubbish</td>
<td></td>
</tr>
</tbody>
</table>
We enclose our statement of objection to the local development plan which we believe would profoundly damage the Shirley area and in particular, we wish to oppose the proposed use of the Coombe Farm site Ref 502 for use as a Gypsy/Traveller site.

We have unpleasant first-hand experience of living in close proximity to gatherings of travellers who have from time to time descended on fields neighbouring our house. We believe that allowing large groups to have sites in the same vicinity as the borough is proposing, is likely to bring similar problems. In the past the site of their encampment has been left strewn with litter and with evidence close to the mobile homes themselves, of illegal fly tipping. At times, we found the behaviours of some individuals to be intimidating.

The case against the broader proposals as well as against the choice of the traveller sites as is well made in the documents to which we have added our signatures.

There may in the fullness of time be a case for making a legal objection to the Borough's plans along the lines of a judicial review, given the apparent breach by the borough of regulations designated to protect the green belt in the interest of the wider community, a legal objection we believe would command the support of many local residents who share our views.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
We strenuously object to the redevelopment of Conduit Lane.

We are concerned about the proposals to convert the Coombe Lodge Nurseries at Conduit Lane into a site for gypsies and travellers.

Clearly this would be significant change of use for a site which is located in the green belt. Furthermore it is designated as being of special character and as such merits protection from redevelopment which would be contrary to the conservation of the local habitat. As in other boroughs such development tends to precipitate and accelerate the erosion of natural conservation areas.

The proposed development site is adjacent to Addington Hills, Coombe Gardens, Lloyd Park and Coombe Lodge playing fields. Such development would be totally inappropriate for the area as the character of these local areas of leisure and relaxation would be seriously impacted.

A private contractor proposing to develop the site for residential housing would have been rejected without further consideration. We do not feel that this proposed redevelopment would be desirable nor in the local interest.

It is hard to believe that there are no vacant brownfield sites (such as the former Redgate School site, Cherry Orchard Road/East Croydon Sites etc) in the borough that have remained empty which could be better utilized for a gypsy/traveller site.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Quadron Services Limited currently occupy the site known as Coombe Lodge Nurseries under a lease from the Mayor and Burgesses of the London Borough of Croydon for the term of 5 years from and including the 1st February 2014. The site is used for the performance of a number of key Quadron Service operations for its operation of the Grounds Maintenance Contract for the London Borough of Croydon. Currently the site houses and facilitates the following:
- The contract mechanical engineering workshop for all plant and equipment
- The handyman workshop
- The Rangers operational office and welfare facilities
- The contract administration and management offices
- The GM staff welfare facilities
- The central training facilities
- Machinery and equipment storage facilities
- Parking and storage for both GM and road going vehicles
- An agreed location for the use of a 35 yard skip critical to the cleansing operation
- A central hub for all tractor operations

The site is the operational base for up to 60 staff. The site facilitates the use of public transport by these staff or the safe parking of privately owned vehicles. The site's geographical location lends itself to the borough wide operation, this being key to operational performance and service delivery to our client. A substantial amount has been invested in the site by Quadron Services in the past 20 months to improve H&S, security, welfare facilities, storage facilities and office provision. Should the proposal for the site proceed, Quadron Services Limited would require an alternative operational site within the Borough in order to fulfil its contractual obligations to the Borough and the minimum operational requirements are as follows:
- Office space required of approximately 100sqm
- Welfare facilities for 7 depot based staff plus visitors
- Welfare facilities for approx 60 staff operating out of the depot
- Overnight parking for approx 25 vehicles
- Vehicle and plan workshop of approx 700sqm
- Secure covered storage of approx 1400sqm
- Open yard space of approx 6000sqm

If the site is to be allocated an alternative site should be found for the existing occupier.

Change
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Mr Alan Magrath  
Object  
DM44.2  
661  
It is green belt. The Council has spent a lot of money keeping travellers out of this area up until not and it seems strange now to allow a permanent site. The site will be an appalling eyesore in the middle of a beautiful area.

Mrs & Mrs Rutherford  
Object  
DM44.2  
661  
I am writing to object to: Coombe Lodge Nurseries off Conduit Lane, site reference 661 for use as a gypsy and traveller site as this site would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b, or with Policy E of “Planning Policy for Traveller Sites” published by Government in August which states “Traveller sites in the Green Belt are inappropriate development”

Based upon the Scoring criteria Table 1, there are errors in the scoring in the policy designation assessment table under the GB/MOL. In view of the errors the following site should be considered:

16 - Heath Clark playing fields, Stafford Road Waddon  
518 - Wandle Road surface car park, Wandle Road, Croydon Opportunity Area.  
536 - Land of former Croydon Airport runway, south of Imperial Way, Waddon.  
552 - Wandle Road surface car park, Wandle Road Croydon Opportunity Area.  
632 - Land south of Threehalfpenny Woods, Kent Gateway, Bridle Way Addington.  
767 - Cane Hill south part, Hollymuck Road, Portraits Road, Coulsdon.

Change  
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mrs & Mrs Rutherford

Change  
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Object Page 5 Green Belt designation - the applicable scores are -10, -5 and +10. The proposed sites all scored +5. The applicable score should be -5. Page 6 Privacy - this attracts a +10 or -10. A Green Belt/Open Land site will naturally provide greater privacy and so attracts +10, meaning the difference in score from a site with privacy to a site without privacy is 20 points - a sizable margin that impacts heavily on the ultimate score for each site. Page 6 Social Deprivation - why should these areas be treated differently and therefore attract a score of -10? Page 6 Access to Services - attracts a neutral 0 score. Why is access to essential services scored as unimportant? Page 6 Employment and community use re-provision - only scores -5. This should be higher if businesses need to relocate or cease to exist with loss of employment, such as the wedding venue business on the Oaks Farm land. Page 7 Brownfield vs Greenfield site - The criteria indicated that a brownfield site that has a building that can be converted for traveller use will score 0, whilst a Greenfield site with the same criteria score +5. Please explain.

Object I note with some concern the proposals in the Croydon Council Local Plan dated August 2015. In particular, the proposal to develop three sites in close proximity for the use of the travelling population and the proposal to build a new Secondary School on Coombe Road Playing Fields.

Croydon is acknowledged as the ‘greenest’ Borough in South London, with many Croydon parks and open spaces achieving ‘Green Flag’ status including Lloyd park and Coombe Woods. These are accreditations that we should be proud of and wish to preserve.

Royal Russell School objects to these proposals on the basis of the development of Green Belt land and flaws and inconsistencies in the scoring criteria that identified these sites as appropriate for development.

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Mr A Zelisko

Object  Soundness - Justified  DM44.2 661

I object to the use of this site as a Gypsy and Traveller site. The site is in Green Belt and contrary to national policy (as it is inappropriate development in the Green Belt).

The immediate area is sparsely populated. National guidelines state the such sites should not overwhelm the nearest settlements and this site would.

The Croydon GTANA 2013 specifies that proposed sites for Gypsies and Travellers should have good access to local shops. There are none near this site.

The Croydon GTANA 2013 specifies that proposed sites for Gypsies and Travellers should be near bus routes and have good access to roads, with a specific reference to larger vehicles. This site is a considerable distance from public transport.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mr David Martin

Object  DM44.2 661

I object to the use of the site for gypsy and traveller accommodation.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mr D Lawton

Object  DM44.2 661

I object to the use of the site for gypsy and traveller accommodation as it would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. I believe that in your report you have miscalculated. The category where the mistake has been made is GB/MOL where an amber rating has been correctly given. The score for an amber is -5 and a +5 score has been incorrectly allocated. This reduces the overall score for the site by ten points from 26 to 16.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mr Colin Campbell

Object  Soundness - Justified  DM44.2 661

I am writing go object to:

1. The use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference 661

as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

</table>
School is a viable option as there are no schools in our area.

Criteria of selection:
The plan makers have missed a big point that existing infrastructure cannot cope with the influx of additional population at such a fast pace. Also, it has to be planned over few years. It should never be on a green belt/attached to green belt sites as it is disastrous for the environment. There are quite a few brown field sites in Croydon. Those should be explored. What are the criteria behind selecting two sites within 1 mile of each other? The plan makers do not know the grass root situation. They have just assumed things without actually knowing the facts. This is a grave situation.

There are quite a few public and independent schools in the nearby area. Building a new school will support the selsdon and nearby citizens. Besides we do not have a Grammar school in Croydon. So, it would be ideal if we build a grammar school in croydon on one of the proposed sites.

Existing infrastructure just cannot cope with additional population in Croydon:
1. We have to wait for at least 4-5 days to get appointment at doctors – many times we do not get appointment
2. We have to wait for at least 15 minutes to get a turn to play swing/slide for my son in any local park. The parks are so crowded during summer. Already children are getting very less exercise. If 40 families come over with more than 80 children then it would be extremely over crowded.
3. There are not enough schools in the area. We should build more schools
4. There is very limited green space in Croydon. Government policy states that you cannot build temporary or permanent sites on green belt. Putting the travellers site near green belt will endanger the
5. Conduit lane is a no drive through zone. Increased traffic due to a planned school and travellers sites will cause traffic chaos.
6. We need green belts for good health of the citizens. Steps like these would encourage the encroachment of green belts

Incorrect calculation in the selection criteria for 661 (Conduit Lane) and 502 (Coombe Farm) - if a site is Green Belt/MOL- built form then it is marked as (Amber/Orange), which...
means a score of "-5". "+5" has been used which increases the rating by 10 points. Error in calculating site access for 661: There are cars parked on that road and the entrance is through a very busy main road. The site cannot have a rating of "+5". It should be "-2. That is a difference of 7 rating points.

The site requires re-designation and this would be contrary to London policies to protect the Green Belt and would detract from the attractiveness of the open space. It would also cause traffic and access problems in the area. The proposed use as a travellers site would be incompatible with the "green link" status and a mobile home site of any kind is unacceptable. Also concern regarding the costs of the facilities that would be necessary.

The appropriateness of a school adjacent to a travellers site is questionable.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

This site is within the green belt. Schools/shops and medical facilities are a considerable distance from the site and therefore could result in increased vehicle use of Conduit Lane and exacerbate the present hazards at Oaks Rd/Coombe Rd/Coombe Lane junction. The potential number of families/homes could overwhelm the existing community.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Change

Change

Change

Change
Object 661
The Council acknowledges that the site is in the Green Belt (and one of the sites borders an SNCI). The Planning Policy for Traveller Sites states that traveller sites in the Green Belt are inappropriate development. The Council’s approach is clearly in breach of that policy. Brownfield or industrial land should have been proposed not green belt. Why does the Council need to quadruple the number of sites for gypsy and travellers. The intention may be to do away with illegal encampments but may instead mean the area becomes a hub for travellers.

Why were no appropriate sites suggested for Coulsdon? Opening sites at Coombe Lodge Nurseries and Coombe Farm will be detrimental to the amenities of adjoining owners. There is a lack of amenities close as hand. There are insufficient local infrastructure to accommodate the plans.

Other sites the council should reconsider instead of both Coombe Lodge Nurseries and Coombe Farm are: Expand existing permanent sites in Lathams Way off Beddington Farm Road Heath Clark playing fields, Stafford Rd, Waddon Timebridge Community Centre, Field Way, New Addington Land adjacent to 103 Goodenough Way, Old Coulsdon Wandle Road, car park, Wandle Rd, Croydon Land of former Croydon Airport runway, south of Imperial Way, Waddon Land adjacent to Ashburton playing fields at rear of 2-88 Coleridge Rd, Addiscombe By Pavilion Playing Fields, Purley Way Land south Of Threehalfpenny Woods, Kent Gate Way, Beddington Village West of Timbebridge Community Centre, Lodge Lande, Elmside, Addington Cane Hill-south part, Hollymeak Road, Portnalls Rd, Coulsdon

Object Soundness - DM44.2

All three sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

Furthermore, Policy E of ‘Planning Policy for Traveller Sites’, published by the Government in August, states very clearly that ‘Traveller sites (temporary or permanent) in the Green Belt are inappropriate development’. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the ‘Assessment and Selection of Sites for Gypsy and Travellers’. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of ‘extensive political consultation’. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross-party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria.

Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document.

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mr and Mrs Michael Somers

Object

It is surely totally inappropriate to consider Greenfield areas as gipsy encampments. There must be brownfield sites available as alternatives which not result in a loss of amenity to local residents.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Jim Gibbons

Object

The council plans to create a Gypsy/Traveller site and it is not appropriate to put a traveller site here because of the nature of the existing use. A conspiracy theorist would opine that the proposed development of such a site relieves the Council of the need to maintain the facility.

Croydon has one of, if not the densest populations in London and therefore open spaces are at a premium. ‘Housing’ which a site of this nature is, should be sited on a brown field site and not an area used for recreation and bio-diversity. For this reason, Policy E of Planning Policy for Traveller Sites, published by Central Government states very clearly: ‘Traveller sites (temporary or permanent) in the Green Belt are inappropriate development’.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

John Bannon

Object

Soundness - Justified

The proposals to develop this site for Gypsy and Traveller pitches is completely inappropriate because:
- It is in Green Belt and is therefore contrary to Policy E of Planning for Traveller Sites (government guidance)
- The site is some distance from public services
- A site should be found in the Purley Way area instead where the existing site is
- A site here would compromise the ability of the current generation and future generations to enjoy this green space
- Damage to this green space would make Croydon a less attractive place to live in and discourage business relocation to Croydon reducing employment opportunities for Croydon’s residents
- The scoring system does not reflect the importance of green spaces and is highly objectively
- There is a mistake in the scoring system and it should be recorded as -5 for being in Green Belt, not +5
  - The social deprivation criterion is illogical as pressures on services apply equally across Croydon

The assessment should be reassessed by an independent party.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
In addition to my comments below, which have been acknowledged, I would like to add that your calculation published in the paper in August 2015 shows the weighting and calculations for site 661 incorrectly. Please see attached for the correct calculation.

Using the colour keys and weighting published in the August 2015 paper, this site needs to be recalculated. I would also suggest you re-check the figures for all sites, as this is a very basic and fundamental error.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Objections summarised as:
- Inappropriate use of Green Belt land
- Lack of relevant amenities close to had
- Adverse effect on neighbouring businesses and leisure amenities
- Site has a more appropriate use for a school

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

DM44.2

661

02 September 2016 Page 3072 of 4384
Site 661, Coombe Lodge Nurseries, Conduit lane. Transition Town have expressed an interest in restoring this site to a proper nursery facility, utilising the existing greenhouses for the growing of food, which would be a sustainable and appropriate activity within this green belt site.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Detrimental to the amenities of adjoining owners. 
Inappropriate use of green belt land. 
-Sites that are located on green belt, considered to be inappropriate development for traveller sites (temporary or permanent) and against Government Policy ("Planning policy for Traveller Sites" DCLG, August 2015). 
-Lack of relevant amenities close to hand. 
-Insufficient Local Infrastructure to accommodate plans. 
-Selection of proposed Site should have bias towards brownfield or industrial land not green belt. 
-Why are two sites in very close proximity to one another being proposed. 
-Imbalance across the borough with all sites being proposed in the south of Croydon. 
-Why not expand the existing permanent gypsy site in Lathams Way off Beddington Farm Road. 
-If one has to select one of the proposed sites, the preference s for Pear Tree Farm and Pear Tree Farm Cottage, Featherbed Lane. 

Other sites that the Council should reconsider instead of both Coombe Lodge Nurseries and Coombe Farm are the following. 

- 16 Heath Clark playing fields, Stafford Road Waddon 
- 120 Timbridge Community Centre Field Way, New Addington 
- 518 Land adjacent to 103 Goodenough Way, The Admirals Walk, Old Coulsdon 
- 522 Wandle Road surface car park, Wandle Road, Croydon Opportunity Area 
- 536 Land of farmer Croydon Airport runway, south of imperial way, Waddon 
- 552 Land adjacent to Ashburton playing fields at rear of 2-88 Coleridge Road, Addiscombe 
- 533 By Pavilion playing fields Purley Way, Waddon 
- 632 Land south of Threehalfpenny Woods, Kent Gate Way, Braidy Way, Addington 
- 636 Land west of Timbridge Community Centre, Lodge Lane, Elmside, Addington 
- 707 Cane Hill south part, Hollymeak Road/Portnalls Road, Coulsdon

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Our client is deeply concerned about the manner in which the Evidence for the Croydon Local Plan: Detailed Policies and Proposals (Preferred and Alternative Options) ("the Evidence Paper") has been prepared. The scoring assessment applied by the Council is reductionist and disregards the wider context (for example outreach programme and supports) within which sites sit. Without that appreciation we do not consider that the Evidence Paper adequately supports the Council’s Strategic Objectives. The Evidence Paper identifies four “absolutes” for the initial screening. In the absence of any justification and evidence backed rationale behind these “absolutes” we are left to conclude that there is none. A site should be available and deliverable. We consider that to be an appropriate test in determining the suitability of a site for development. There is little explanation as to what factors the Council has taken into account for the purposes of scoring whether a site is deliverable—particularly over a 20 year period. No consideration is given to the use of CPO powers where a site for example could be suitable save for possible issues over deliverability. The use of CPO powers should be a consideration for the purposes of deliverability.

The existence of contamination cannot be considered in isolation. There does not appear to be any detailed analysis of whether the extent of contamination on some sites, and the costs of remediating that contamination, would render that site undeliverable in the plan period. A failure to acknowledge the need for sites to be located in proximity of public transport services does not support the principle of sustainable development.

In adopting this flawed approach the Council have failed to consider the contribution that smaller sites could make in delivering sites for gypsy and traveller communities. As a result, the initial screening process was biased towards larger sites despite the evidence base showing that such sites were not supported by the gypsy and traveller community. As a result, the Council has not properly considered if there are exceptional circumstances which justify any of the identified Green Belt sites coming forward for use as traveller sites.

To ensure transparency in the planning process the same tests should be applied to allocated sites and windfall sites.

For the reasons detailed above, the assessment proceeded from an erroneous starting point of “absolute” requirements that were neither justified nor supported by the Council’s existing gypsy and traveller policy. The Evidence Paper is lacking in detail, and the scoring criteria overly simplistic. As a result, the evidence put forward by the Council is lacking in transparency and is an unsound base for policy making.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

DM44.2 661

02 September 2016 Page 3075 of 4384
Object 661

Incorrect calculation in the selection criteria for sites 661 and 502. If a site is Green Belt/MOL built form then it is marked Amber/Orange which means a score of -5 but +5 has been used which increase rating by 10 points. Error in calculating site access for 661, there are cars parked in that road and the entrance is through a very busy main road. The site site cannot have a rating of +5. It should be -2. That is a difference of 7 rating points.

Change
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object 661

I wish to oppose the proposed gypsy site at Conduit Lane, South Croydon, CR0 5RQ (ref 661) for the following reasons. I suggest that the plan has overlooked some important issues that will affect the site and also the RAG calculation in the Councils 'Policy Designation Assessment' of is mathematically incorrect.
1) The site is a green belt site, which, referring to "4.1. The criteria and scoring" is as follows …..Green Belt/MOL- built form and this carries a weighted score of -5. In the 'Policy Designation Assessment' it is as shown as +5.
2) The Gypsy Community by their very nature are users of industrial vehicles including trailers and flatbed lorries and tipper trucks. The access at Conduit Road is not only restricted in width, the entrance is also shared by a Tea Room, The Coach House Café, serving walkers and locals. However, the Council seem to have allowed use of Industrial Vehicles to be classified as ‘Private Vehicles’ for the purposes of scoring. This is incorrect.
Conduit Lane also exits onto Coombe Road, a narrow main road where there have been several serious accidents in recent times including fatalities. The additional use of a plethora of industrial vehicles presents a real danger of personal injury.
3) The proposed site at Conduit Lane is currently used as a wood reclamation unit which reclaims tree cuttings in wood pellets. This is a green recycling unit and the loss of which will not only mean the wood having to be processed elsewhere but a loss of employment for those working there.
I strongly oppose the development and wish my views to be taken into account when re-evaluating the situation in order to present the true mathematical values and corrected mistakes.
I wish to object to the proposed gypsy site at Conduit Lane, South Croydon, CR0 5RQ (ref 661) for the following reasons.

I suggest that the plan has overlooked some important issues that will affect the site and also the RAG calculation in the Councils ‘Policy Designation Assessment’ of is mathematically incorrect.

661

Site 661, Coombe Lodge Nurseries, Conduit lane. Transition Town have expressed an interest in restoring this site to a proper nursery facility, utilising the existing greenhouses for the growing of food, which would be a sustainable and appropriate activity within this green belt site.

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
My answer: School is a viable option as there are no schools in our area. Criteria of selection: The plan makers have missed a big point that existing infrastructure cannot cope with the influx of additional population at such a fast pace. Also, it has to be planned over few years. It should never be on a green belt or attached to green belt sites as it is disastrous for the environment. There are quite a few brown field sites in Croydon. Those should be explored.

What are the criteria behind selecting two sites within 1 mile of each other? The plan makers do not know the grass root situation. They have just assumed things without actually knowing the facts. This is a grave situation.

There are quite a few public and independent schools in the nearby area. Building a new school will support the selsdon and nearby citizens. Besides we do not have a Grammar school in Croydon. So, it would be ideal if we build a grammar school in croydon on one of the proposed sites.

Existing infrastructure just cannot cope with additional population in Croydon:
1. We have to wait for at least 4-5 days to get appointment at doctors – many times we do not get appointment
2. We have to wait for at least 15 minutes to get a turn to play swing/slide for my son in any local park. The parks are so crowded during summer. Already children are getting very less exercise. If 40 families come over with more than 80 children then it would be extremely overcrowded.
3. There are not enough schools in the area. We should build more schools
4. There is very limited green space in Croydon. Government policy states that you cannot build temporary or permanent sites on green belt. Putting the travellers site near green belt will endanger the
5. Conduit lane is a no drive through zone. Increased traffic due to a planned school and travellers sites will cause traffic chaos.
6. We need green belts for good health of the citizens. Steps like these would encourage the encroachment of green belts.

Change
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Incorrect calculation in selection criteria for site 661 and 502. If site is in Green Belt/MOL built form then it is marked as Amber/Orange which means a score of -5, +5 has been used which increase the rating by 10 points. Error in calculating site access for 661: There are cars parked on that road and the entrance is through a very busy main road. The site cannot have a rating of +5. It should be -2. That is a difference of 7 rating points.

The Methodology to assess the sites is flawed:
1) 3.8 It does not consider the Public Transport Accessibility Level. This is understood that it was established that the gypsy and traveller population have their own transport. However, the accessibility of the site in Coombe Lodge Nursery is not suitable for high level traffic for heavy vehicles such as those used by the gypsy and traveller community. I do not see how this has been taken into account when deciding on this site.
2) The area is a park that has constant access to the public and children. The higher level of traffic poses a danger for pedestrians and children using the park.
3) The score on the Rag Rating is not accurate. The nursery in Coombe Lodge Nursery is designated green belt/MOL – built form. This should be a rag rating of -5, not 5 as shown in the table. This means the assessment is wrong as it impacts on the final score of suitability.
4) The present area is used for recycling wood. Where would this go?

Heathfield and Coombe Wood is an area of natural beauty, which should be preserved for the enjoyment of Croydon residents. While not directly objections to the erection of static sites for gypsy and travellers in this area. It is a great concern that passing travellers may overuse the site and cause disruption and degeneration. This comes from experience when travellers left a trail of devastation when parked on the current Coombe Field Playing Fields.

<td>Object DM44.2 661</td>
<td>The Gypsy/Traveller site proposal on Conduit Lane, next to Coombe Wood Gardens, is out of step with Government Policy and a completely inappropriate suggestion for the use of this green belt land (Policy DM 44.2, Table 11.17, site 661 (p 179). Policy F of “Planning Policy for Traveller Sites (temporary or permanent) published in August states clearly that “traveller sites in the Green Belt are inappropriate development.” This location brings pleasure to many people in the borough, and it is staggering that something like a traveller site (with all its potential to have such a negative environmental impact) is proposed for an area that must be a contender for the most picturesque in Croydon. The site should not be allocated as a Gypsy and Traveller site.</td>

Additional Objections raised to the use of the following locations as Gypsy/Traveller sites:-
Coombe Farm off Oaks Road Reference Number 502
Coombe Lodge Nurseries off Conduit Lane Reference Number 661

1. How has the London Borough of Croydon involved its Community in the planning of the Coombe Farm and Coombe Gardens Traveller Sites? What opportunity was given by Croydon Council for the local residents to put forward their own ideas and participate in the development of the Sites? See - London Borough of Croydon's “Statement of Community Involvement - October 2012” (https://www.croydon.gov.uk/sites/default/files/articles/downloads/involvement-oct12.pdf) Reference 2.11 & 2.12 - these Guidance Rules have been ignored
2. There is no pavement access to either of the proposed sites therefore most travel to and from these sites to local amenities, (shops/doctor/schools) would be by vehicle – causing even greater traffic problems to the Coombe and Oaks Road junction.
3. Residents call for an independent (i.e non-Labour) lead enquiry into the full extent Mr Ansari (owner of Coombe Farm, a proposed traveller site) has been able to influence Croydon Council specifically & Labour Government more broadly through financial bribery?

Quote from the 2011 Localism Act; "Through the Localism Act, the Government has abolished the Standards Board regime. Instead, local authorities will draw up their own codes, and it will become a criminal offence for councillors to deliberately withhold or misrepresent a financial interest."
Tens of thousands of pounds including cash equivalent goods & services (e.g supply of rent-free premises for council business, travel expenses and campaign donations) have been disclosed but misrepresented as donations. These are in fact bribes in return for planning leniency (see press article.) http://insidecroydon.com/2015/08/21/property-developer-ansari-donates-to-cooper-and-khan/
4. In the restrictive Covenants for Coombe Farm, (defined as 80 Oaks Road) which are for "the Settlers and their successors in title" states "No part of the Property shall be used for any offensive noisy, dangerous pursuit or occupation of any
purpose which shall or may grow to be in any way a nuisance damage grievance or annoyance to neighbouring properties or the neighbourhood."

2867/01/002/DM44.2/O J Giles Object DM44.2 661 I object to the site for the following reasons: -Detrimental to the Amenities of Adjoining Owners -Inappropriate use of Green Belt Land -Sites that are located on the Green Belt, considered to be inappropriate development for Traveller sites (temporary or permanent) and against Government Policy (Planning policy for Traveller Sites, DCLG, August 2015) -Lack of relevant Amenities close at hand -Insufficient Local Infrastructure to accommodate the plans -Selection of Proposed Sites should have a bias towards Brownfield or Industrial Land not Green Belt -Why are the Two Sites in very close proximity to one another being proposed -Imbalance across borough with all Sites being Proposed in the South of Croydon -Why not Expand the Existing Permanent Gypsy Site in Lathams Way off Beddington Farm Road -If one has to select one of the proposed sites, the Preference is for Pear Tree Farm & Pear Tree Farm Cottage, Featherbed Lane

Pear Tree Farm should be allocated or Lathams Way should be extended. The Council should also consider sites 16, 120, 518, 522, 536, 552, 553, 632, 636 and 767.

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

2868/01/006/DM44.2/O Graham Lyon Object DM44.2 661 Council's approach breaches national policy. The site is some distance from services. The Purley Way should be looked at.

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
I am objecting to the following sites being considered as suitable as Permanent Sites for the above use:
1) Coombe Lodge Nurseries, Conduit Lane, Coombe Road, South Croydon, CR0 5RQ
2) Coombe Farm, Oaks Road, Shirley, CR0 5HL

I am very disturbed to hear of the proposed plans for providing permanent sites for the Gypsy and Traveller people on these sites, mainly on the grounds that they are both much valued and appreciated areas of natural beauty and relatively unspoiled areas on Green Belt land, which I consider is an inappropriate use of such areas. I understand, in fact, that it is against stated Government Policy (“Planning policy for Traveller Sites” DCLG, August 2015).

My objections are based on the following grounds:

1) Neither of these areas has local amenities nearby, or sufficient infrastructure to accommodate these plans.

2) Whilst it is a statutory duty of local councils to provide these sites for travelling people - and, indeed, an act of common humanity that such groups are catered for - it is usual that brownfield or industrial land is used, rather than open greenbelt land.

3) Both these sites are comparatively close to each other, certainly both are in residential areas in South Croydon, thus impacting on amenities of local owners, and arousing local feelings. What is the reason behind this decision?

4) Can the existing permanent site in Lathams Way off Beddington Farm Road be expanded?

There are many sites which might be considered which are not near areas of heavy residential occupancy, in the Waddon playing fields areas, for example. The Pear Tree Farm area in Featherbed Lane is also more suitable.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
School is a viable option as there are no schools in our area.

Criteria of selection:
The plan makers have missed a big point that existing infrastructure cannot cope with the influx of additional population at such a fast pace. Also, it has to be planned over a few years. It should never be on a green belt/attached to green belt sites as it is disastrous for the environment. There are quite a few brown field sites in Croydon. Those should be explored.

What are the criteria behind selecting two sites within 1 mile of each other? The plan makers do not know the grass root situation. They have just assumed things without actually knowing the facts. This is a grave situation.

There are quite a few public and independent schools in the nearby area. Building a new school will support the residents and nearby citizens. Besides we do not have a Grammar school in Croydon. So, it would be ideal if we build a Grammar school in Croydon on one of the proposed sites.

Existing infrastructure just cannot cope with additional population in Croydon:
1. We have to wait for at least 4-5 days to get appointment at doctors – many times we do not get appointment
2. We have to wait for at least 15 minutes to get a turn to play swing-slide for my son in any local park. The parks are so crowded during summer. Already children are getting very less exercise. If 40 families come over with more than 80 children then it would be extremely overcrowded.
3. There are not enough schools in the area. We should build more schools
4. There is very limited green space in Croydon. Government policy states that you cannot build temporary or permanent sites on green belt. Putting the travellers site near green belt will endanger the
5. Conduit Lane is a no drive through zone. Increased traffic due to a planned school and travellers sites will cause traffic chaos.
6. We need green belts for good health of the citizens. Steps like these would encourage the encroachment of green belts.

Incorrect calculation in the selection criteria for 661 (Conduit Lane) and 502 (Coombe Farm) - if a site is Green Belt/MOL built form then it is marked as (Amber/Orange), which
means a score of "-5". "+5" has been used which increases the rating by 10 points. Error in calculating site access for 661: There are cars parked on that road and the entrance is through a very busy main road. The site cannot have a rating of "+5". It should be -2. That is a difference of 7 rating points.
I will oppose the gypsy site on the following grounds:

1. Mis-calculation of the score while selecting the site:
   - If a site is Green Belt/MOL- built form then it is marked as (Amber/Orange), which means a score of -5
   - If you go to page number 9 of the document in the link below, you can find that Amber is scored as +5 as opposed to -5.
   - Also, the score for the site access should be -2 as there are issues with the site access. This brings the overall score down to 12. Please, check the other scores too before finalising this site. This site is clearly not suitable for building on the gypsy site as it is a green belt site.

2. I will be objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

   “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.”

   The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

Criteria of selection:

The plan makers have missed a big point that existing infrastructure cannot cope with the influx of additional population at such a fast pace. Also, it has to be planned over few years. It should never be on a green belt/attached to green belt sites as it is disastrous for the environment. There are quite a few brown field sites in Croydon. Those should be explored.

My answer: School is a viable option. Building a new school will support the Selsdon and nearby citizens. Besides we do not have a Grammar school in Croydon. So, it would be ideal if we build a grammar school in Croydon on one of the proposed sites.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
knowing the facts. This is a grave situation.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
I am writing to register my strongest possible objection to the following proposals for gypsy and travellers sites: - Coombe Farm, Oaks Road - Reference 502 - Coombe Lodge Nurseries off Conduit Lane - Reference 661

I am an active member of Shirely Park Golf Club and vividly recall the hugely, disruptive presence of the gypsies when they trespassed onto Coombe Farm a couple of years ago. There is sometimes a romantic notion that gypsy/traveller community wish to get on with their lives and not affect the urban population wherever they pitch up; I am afraid that the bare facts reveal that this to be a complete fallacy and the stark reality is far from this rosy, TV documentary image.

It will come as no surprise to you to learn that there were numerous, illegal intrusions onto the golf course during their unwelcomed stay. Sadly but I am afraid rather predictably, these incursions resulted (of course) in a plethora of petty thefts and incidents of mindless damage to the course as well as necessitating a "marshalling" of parts of the course. These factors coupled with the constant verbal abuse made play almost untenable and at one point, a decision was made to close certain parts of the course until they were finally evicted.

I think it is important to stress that this is not just about my personal feelings, there are more far reaching implications. Certainly if their presence was to be made permanent, there is no way I personally would continue my membership at Shirley Park Golf Club and I can safely say a lot of the members feel the same way. It was apparent what the inhabitants of Croydon thought when another historic business at Reeves Corner was attached not so long ago.

Shirley Park Golf Club has been a valuable part of our community for over 100 years providing enjoyment for thousands of members, safe recreation for youngsters and of course valuable employment for many, not to mention the thousands of pounds raised to help Croydon Opportunities.

The success of the club also allowed the purchase of the land in recent history and it often surprises my guests to see this beautiful side of Croydon. Surely it is not right to jeopardise this great part of our local heritage in attempting to temporarily resolve this long running problem? Croydon is attracting huge investment and is seemingly working...

Mr Peter Lawton  
Object DM44.2 661  
I object to the use of this site for a gypsy and traveller site.  
Change  
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Object

- Detrimental to the Amenities of Adjoining Owners
- Inappropriate use of Green Belt Land. Sites that are located on the Green Belt, considered to be inappropriate development for Traveller sites (temporary or permanent) and against Government Policy (Planning policy for Traveller Sites, DCLG, August 2015)
- Lack of relevant Amenities close at hand
- Insufficient Local Infrastructure to accommodate the plans
- Selection of Proposed Sites should have a bias towards Brownfield or Industrial Land not Green Belt
- Why are the Two Sites in very close proximity to one another being proposed and also imbalance across borough with all Sites being Proposed in the South of Croydon.
- Expansion of the Existing Permanent Gypsy Site in Lathams Way off Beddington Farm Road would be better solution
- If one has to select one of the proposed sites, the Preference is for Pear Tree Farm & Pear Tree Farm Cottage, Featherbed Lane as this would have least impact of the 3 sites.

Other Sites that the Council should reconsider instead of both Coombe Lodge Nurseries and Coombe Farm are the following. Just because a number of the following Sites are GB/MOL (Green Belt / Metropolitan Open Land) this should not preclude them, as it’s not impossible to have them redesignated:

16 - Heath Clark playing fields, Stafford Road, Waddon
129 - Timesbridge Community Centre, Field Way, New Addington
518 - Land adjacent to 103 Goodenough Way, The Admirals Walk, Old Coulsdon
522 - Wandle Road surface car park, Wandle Road, Croydon Opportunity Area
536 - Land of former Croydon Airport runway, south of Imperial Way, Waddon
552 - Land adjacent to Ashburton playing fields at rear of 2-88 Cotenloge Road, Addiscombe
553 - By Pavilion Playing Fields, Purley Way, Waddon
632 - Land south of Threehalfpenny Woods, Kent Gate Way, Birdley Way, Addington

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
I am a member of Shirley Park Gold Club as well as a local resident. I am writing to register my objection to the following proposed gypsy and traveller sites:
- Coombe Farm, Oaks Road, Ref 502
- Coombe Lodge Nurseries, Conduit Lane, Ref 661

The policies laid out on the Mayor of London, policy 7.7 clearly states that the mayor’s office fully supports the protection of Metropolitan Open Land, and states that the strongest protection should be given to London MOL and inappropriate development refused. The policy lays out what needs to be established to designate an area as MOL but does not make it clear how Council can de-designate an area.

I therefore object to any permanent traveller site being constructed on MOL, especially if the area is simply going to be de-designated without any consultation with local residents and businesses.

I object strongly that Croydon Council can de-designate MOL or Green Belt to suit their needs to accommodate a permanent pitch. I cannot see any justification to change the designation, and intrude into the lives of the residents of Oaks Road and surrounding area. This will massively affect the attractiveness of the area and both the emotional and financial reprehension for many lives.

Policy 7.18 relating to protection of open spaces clearly states that open spaces within London must be protected and any loss must be resisted. I cannot believe the Council would want to go against both of these policies laid down by London assembly.

The Shirley Gold Club provides sport and social activities for up to 700 members in the local vicinity, and also provides an important ecological node in the area. The proposed sites for gypsies and travelers has come as a shock to everyone in the area, as come out of the recent press coverage and attendance at the consultation meetings.

The history of unauthorised "pitches" in this area over the past four years has left a bitter resentment, especially in view of the residual mess and littering, and crime that is accompanied their trespass. This does not change when the site is official. On each occasion that gypsies/travellers have been in the area, the residents have been affected by verbal and physical abuse. We also have a junior section at the club and children play in the comp during holiday period, as well as weekends. They are often unaccompanied and parents need to
know that they are in a safe environment. The proposed sites would change that. Please consider other sites.

I object to the use of the site for gypsy and traveller site as it would constitute inappropriate development I the Green Belt and would not comply with Policy SP2.7a and SP2.7b. An incorrect calculation has been applied to the selection criteria for the site. If a site is Green Belt/MOL built form then it is marked as (Amber/Orange), which means a score of -5. A score of +5 has been used which increases the rating by 10 points. There are cars parked on that road and the entrance is through a very busy main road. The site cannot have a rating of +5. It should be -2. That is a difference of 7 rating points.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

The existing infrastructure cannot cope with an increased population. The site should be used as a school

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I am deeply concerned about the proposed site. As a ladies golf member of the golf club, I use the area by the 4th hole regularly to play and practice golf. I remember the last time when the traveller/Gypsies were in the area and the mess and debris that were constantly left behind on the Shirley Park golf course. It was extremely upsetting and worrying. There was a lot of unacceptable behaviour like verbal abuse and bikes being used on the golf course. Additionally, as a mother of two teenage boys who are very fond of this sport and play golf I felt extremely uncomfortable and unsafe for them to use that area for practice or golf play when the gypsies and travellers were in the area last time. I would certainly discourage them to use that area in the future if these plans go ahead due to possible aggressive behaviour and verbal abuse from the gypsies and travellers.

I agree with the Club that Policy 7.18 relating to Protection of Open Spaces clearly states that open spaces in London must be protected and any loss resisted. I am shocked that Croydon Council would want to go against both of these policies laid down by the London Assembly.
I write concerning Croydon Council’s proposals contained in the consultation document of the Croydon Local Plan that includes the re-designation of Metropolitan Open Land in Shirley and specifically within the confines of Shirley Oaks. I consider these proposals and others listed above to be inappropriate as they would significantly change the character of the area in which I have lived all 61 years of my life and I wish to add my voice to those already expressing concerns and objections about these proposals.

I strongly object to the proposal to re-designate Metropolitan Open Land to facilitate the building of new homes on land in Shirley Oaks and the provision of temporary or permanent traveller/gypsy sites in areas that are acknowledged by the Council to be in the green belt at Coombe Farm and Coombe Lodge Nurseries in Conduit Lane.

These proposals are totally out of keeping with the character of the area which predominantly comprise owner-occupied semi and detached homes. Surely areas considered to be brownfield sites are more appropriate than the unacceptable use of Metropolitan Open Land?

The proposals affecting the area surrounding Shirley Library are also of concern as this would adversely change the character of the area and potentially result in the establishment of additional unsightly car-parking sites on the south side of Wickham Road, similar to that at the front of the Shirley Medical Centre at 370 Wickham Road.

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
The planning authorities should protect local amenity and environment. These do the opposite and will do nothing but harm. Travellers sites in the Green Belt are inappropriate development. The scale of such sites should not dominate the nearest settled community whose interest should be respected. These sites will have a highly deleterious effect on four neighbouring businesses namely The Chateau restaurant, Coach House Café in Coombe Wood, the Premier Inn and the Oaks Farm wedding venue. The numbers being housed will be greater than the occupants already living along Oaks Road. In addition there is no nearby public transport, schooling, doctors surgery or shops. There are not even pavements on both sides of the roads involved. They will be damaging to the nearby site of Nature Conservation Interest. The Council has already spent time and money ensuring that travellers could not park in Conduit Lane. They must have had a reason for so doing. If travellers are allowed on the nursery site there is will make Coombe Wood and gardens a no go area. Why is the Council intending to destroy one of the few remaining unspoilt green spaces in the borough. There must be less sensitive sites within the Croydon boundary where the establishment of a base for the travelling and gypsy communities would be more harmonious.

I object to the allocation of a traveller site at Conduit Lane. I do not think a traveller site is appropriate for this site; it is inappropriate in this location, out of keeping with parkland location of Coombe Gardens and Lloyd Park.

The proposals are contrary to the Government's Planning Policy for Traveller Sites and are totally unsuitable for the location for large numbers of families with young children.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

2931/01/016/DM44.2/O Mr John Newman

Object DM44.2 661

I object to the use of the site for a gypsy and traveller site. All three sites are in the Green Belt and one borders a site of Nature Conservation. The proposed use would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b and would not be consistent with Policy E of Planning for Traveller Sites published by the Government. If additional sites are required in the borough, it would be more appropriate to expand existing sites eg. Off the Purley Way. None of these sites have easy access to local schools, healthcare, retail and other amenities. The vehicular access into sites 661 and 502 is problematic and egress onto Coombe Lane/Oaks Road at the junction is likely to create additional road hazards.

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

2932/01/001/DM44.2/O Mr James Lawton

Object DM44.2 661

I object to the use of the site as a gypsy and traveller site.

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

2934/01/002/DM44.2/O J A Meyer

Object DM44.2 661

I object to the use of the site for a gypsy and traveller site as it would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. There are incorrect calculations in the selection criteria for the site. If a site is Green Belt/MOL - built form then it is marked as (Amber/Orange), which means a score of -5. A score of +5 has been used which increases the rating by 10 points. There is also an error in calculating the site access for the site. There are cars parked on that road and the entrance is thought a very busy main road. The site cannot have a rating of +5. It should be -2. That is a difference of 7 rating points.

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

2935/01/003/DM44.2/O Mr Ian Cameron

Object DM44.2 661

The proposed travellers sites are not suitable and are in breach of the Government's statement that "sites are inappropriate in the Green Belt". These sites are also some distance from public services.

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

<tr>
<td>Mr John Lingwood</td>
<td>This would be in breach of the Government's intentions - Policy E of the Planning Policies for Traveller Sites and that travellers sites (temporary or permanent) are inappropriate development in the greenbelt. This would drain Council resources and reflect on the quality of other services that the Council is required to provide. It would result in the reduction in free and easy access that is currently enjoyed by many. The proposal would have a considerable effect on the business at Oaks Farm and the Premier Travel Inn, forcing these to close potentially. Extending the site at Purley Way should be considered.</td>

Object DM44.2

The proposal to develop Coombe Lodge Nurseries, Conduit Lane as a residential development for a Gypsy and travelers site does not fall within the Strategic Objectives because:

1. Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise.
2. Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.
3. Objective 5: This development is not of high quality and will not enhance the borough’s natural environment but will reduce the natural environment by turning a farm into a travelers housing site.
4. Objective 7: This development will reduce the area as a safe, healthy and cohesive community.
5. Objective 10: This development will reduce the quality and accessibility of green space and nature.

This proposed development of a travelers site within the Coombe Road area is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with out housing in the area.

Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area.

Building a travelers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area.

Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions.

This development will diminish the striking view of the area of Addington Hills and Coombe Farm area, this development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generation will suffer because of this.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Mrs Mary Warner

DM44.2

Not in line with Government planning policy on the Green Belt. Sites are located on the Green Belt, considered to be inappropriate development for Traveller sites (temporary or permanent) and against Government Policy ("Planning policy for traveller sites", DCLG, August 2015): the proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the Planning Policy. Inappropriate development, harmful to the Green Belt, should only be approved in very special circumstances. There are no very special circumstances that have been, or can be, advanced to allow the use of this land (The National Planning Policy Framework makes it clear that unmet housing need (including for traveller sites) does NOT constitute exceptional circumstance). It is not in the surrounding community's interest for the Green Belt to be eroded - approving this application would also set a precedent and open the surrounding areas to be subject to similar planning applications. Negative impact on the local environment and wildlife. Inappropriate to simply weight Green Belt as one of many factors to be considered in the assessment process, rather it presents a policy objection that cannot be over-ridden in the way proposed.

- Government planning policy with regards to traveller sites wants to ensure that plan-making and decision-taking should protect Green Belt from inappropriate development.
- The proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the Planning Policy: "Inappropriate development is harmful to the Green Belt and should not be approved, except in very special circumstances." There are no very special circumstances.
- The National Planning Policy Framework makes it clear that unmet housing need (including for traveller sites) is unlikely to outweigh the harm to the Green Belt and other harm to constitute the "very special circumstances" justifying inappropriate development on a site within the Green Belt.
- The local character description is clearly at odds with the proposal.
- The justification acknowledges the Green Belt issue, though insufficiently, but relies on the fact that there are existing structures. These are not in fact substantial, being glasshouses and could be said to be at least environmentally consistent with the Green Belt. But
there is no very special circumstance justification proposed as required by Planning Policies.

- Approving the proposal would set a precedent and open the surrounding areas to be subject to similar development. It is not in the community’s interests to allow the erosion of the green spaces surrounding the community and we object to the impact this site could have on the environment and wildlife. In the light of these issues, it is not appropriate simply to weight Green Belt as one of many factors to be considered, but rather it presents an overarching policy objection that cannot be over-ridden in the way proposed. To be considered deliverable, sites should be available now, offer a suitable location for development now and we do not believe that The Assessment and selection of sites for Gypsy and Travellers undertaken was credible. The site is clearly not a suitable location for development Plan makers have not considered the time it will take to commence development on site:

  - Need for infrastructure improvements (roads), need for local amenities improvement (primary school, doctor)
  - Plan makers have not considered the time and necessity to show due diligence in assessing the sites:
    - need for an Environmental Impact Assessment (this would be a schedule 2 development having significant effects on the environment and needing an EIA)
    - need for a Local Biodiversity Action plan to determine the sensitivity of the location
  - Plan makers have not ensured that the process has credibility and acceptance; the bases for site criteria weightings are unclear.
  - Plan makers will need to provide robust, up to date evidence to support the deliverability of sites, ensuring that their judgements on deliverability are clearly and transparently set out.
  - Plan makers have not taken the cost and time needed to mitigate the impact of the development on the sites. Croydon Council has already recognised in its Development Management Policies document that the Site of Nature Conservation Interest (SNCI) which borders the Coombe Lodge Nurseries Site, Coombe Wood (List of Historical Park and Gardens 2008) would be negatively impacted by the proposed development.

There is basis for challenging the way in which this potential site has been selected.
Para 3.1 Green Belt sites included for review of eligible sites "to ensure that all locations for a site considered", but at the same time "Exclusion of sites in Croydon Metropolitan Centre and within District Centres and Strategic Industrial Locations and Conservation Areas due to viability, deliverability and impact on heritage considerations". Is this even-handed?

Para 4.1 sets out the criteria and weightings. As indicated above, Green Belt with no built form is given a weighting (-10) which, though high, is not very significant given that there are 29 or 30 criteria and can easily be outweighed by other factors that are less significant in policy terms. Furthermore, Coombe Nurseries has been weighted -5 for Green Belt, in recognition of the fact that there are some structures on the site, AND has been given 5 for the fact that (in the assessor’s view) such structures as there are can be converted to traveller use (if the buildings had to be demolished, on a green field site, this would have attracted -5).

SP2.7 on the Council’s proposals to deliver 39 additional gypsy and traveller sites indicates that land will be allocated in accordance with the proposals, but that any ADDITIONAL sites that are not so allocated should meet some stated criteria, including good access to local shops and essential services and good transport access; these seem to be criteria that were excluded from the proposed allocation, suggesting that any alternative proposals would need to meet stiffer criteria. Is this fair and even-handed?

The proposed development does compromise the future of the local area. Government planning policy is to ensure local planning authorities have due regard to the protection of local amenities and the local environment. It is likely the proposals will have an adverse effect on local businesses Coombe Wood is a Site of Nature Conservation Interest (SNCI) (List of Historical Park and Gardens 2008) and borders the proposed Coombe Lodge Nurseries site, and would be negatively impacted by the plans. Croydon Council has already recognised this in its Development Management Policies document. The Borough Character Appraisal of 2015, the local area is listed as having special character. The proposed development is not sensitive to, and does not respect, this.
The objections may be summarized as:
- inappropriate use of Green Belt land
- lack of relevant amenities close to hand
- adverse effect on neighbouring businesses and leisure amenities
- site has a more appropriate use for a school
Not in line with Government planning policy on the Green Belt. The objections may be summarized as:

- inappropriate use of Green Belt land
- lack of relevant amenities close to hand
- adverse effect on neighbouring businesses and leisure amenities
- site has a more appropriate use for a school

2962/02/002/DM44.2/O Charlotte Lewis Object DM44.2 661 I object to the council’s plans to create a Gypsy/Traveller site on Conduit Lane, next to Coombe Wood Gardens; travellers bring with them a whole host of anti-social problems & criminal activity such as the rubbish they leave behind, also I worry about the safety of people’s pets with them around. A colleague of my fiancé’s was threatened with extreme violence by travellers when he went to their site to try & read their electricity/gas meters.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

2965/01/004/DM44.2/O Janet Nightingale Object DM44.2 661 Recently I have heard of Croydon Council’s plans for the borough over the next 20 years. I object strongly to the plans for permanent sites for travellers using green belt land. My experience of travellers is not a happy one. In my opinion they are inclined to make a dreadful mess of any area they occupy. They then move on leaving the Council to clear up after them. If they have to be provided with another permanent site please choose somewhere which is not green belt.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

2967/01/002/DM44.2/O Janet Willings Object DM44.2 661 Government policy excludes green belt land from use as a site for Travellers. Coombe Wood Gardens is green belt land. Coombe Wood and Lloyd Park areas are surely one of the jewels in Croydon’s crown. They provide a green space of beauty, peace and fresh air and are well used by the people of Croydon. There are other places where Travellers sites could be located.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
I understand that the following Policies will threaten our green spaces. I was born in Croydon and have lived in this area all my life (I am now 63). My parents came here from Scotland in the early 1950s. They chose this area specifically for its green spaces and it is quite unique in that facility. I spent more than 35 years in Real Estate in this area and know very well that the reason people continue to move here, is exactly for these facilities and yet remaining within easy reach of other amenities, London, the coast and airports. Of course, more housing is required but I believe the alternative suggestions to these proposals to be very valid and much more in keeping with the neighbourhood thus maintaining its attractiveness and good standard.

These proposals are ill conceived and will change this particular neighbourhood beyond all recognition and take away that for which it is well known and valued. Please hear the voices of people like me and do NOT continue with the proposed policies set out below and which can be found in your Local Plan:

6. Policy DM44.2, Table 11.17, site 661 (p179): This is a greenbelt site, and it is not appropriate to put a traveller site here. Policy E of “Planning Policy for Traveller Sites”, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Soundness - Justified
DM44.2 661

Change

Having learnt from reading frightening stories regarding the above, I now understand they are true. I hope you are going to listen to the people of Croydon in that this is not what we want

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4) I understand that the Council has identified two sites in Shirley for gypsy/traveller sites, Coombe Farm off Oaks Road and Coombe Lodge Nurseries off Conduit Lane. (Reference numbers 502 & 661). Both of these are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. Both Coombe Farm and Coombe Lodge Nurseries are some distance from public services and traveller sites here risk damaging some of the Borough’s precious green spaces. Extending sites in areas such as the one at Purley Way would be more suitable.

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I wish to register my objection to what I am hearing are your plans to develop the above areas.

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

No, No, No, we should not be losing greenbelt land for a traveller site.

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

We both agree that we do not want to lose any of our green belt. And the parking in the area is truly so bad especially in Coulsdon.

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Mrs Jeanne Driscoll  
Object DM44.2 661  I wish to add my objections made on this document by our local M.P. Chris Philp.  
Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Jennifer Houghton  
Object DM44.2 661  I object to the proposal to down grade the above site from green belt to Metropolitan. Croydon is a London Borough known for having green spaces and parks which are much appreciated by all the local residents and adds to its positive image. I also object to the proposed provision of Gypsy/ traveller site at Conduit Lane this is a green belt site. There are limited facilities for families who would be living there - no local shops or health centre. There is a shortage of local primary school places and no primary school within walking distance, I understand it is of paramount importance to encourage traveller family to send their children to school so that they can continue their education.  
Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mrs Angela Oakley  
Object DM44.2 661  We do not need or want anymore tower blocks at New Addington, nor do we need another school on Rowdown fields. The travellers when up here cause trouble being rude to people and stealing from the shops, which I have witness, also this happen many years ago on Forestdale shops, where I worked, do you really want to spoil all the green belt, there is the old Stewart Plastic site at Purley Way which has been left empty for years.  
Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Object: Soundness - Justified

DM44.2

661

Gypsy/Traveller site on Conduit Lane, next to Coombe Wood Gardens. Policy DM44.2, Table 11.17, site 661 (p179). The council plans to create a Gypsy/Traveller site here. This is a greenbelt site, and it is not appropriate to put a traveller site here. Policy E of “Planning Policy for Traveller Sites”, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.”

Change: This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object: DM44.2

661

I particularly wish to object to the proposal to locate a traveller site in the area of Conduit Lane. This is not in Heathfield Ward, but the area around Conduit Lane is a local amenity. The Gardens with their cafe and Coombe Woods are enjoyed not only by myself but by countless others for relaxation and exercise, and it beggars belief that the Council wishes to destroy such a lovely area.

Change: This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object: DM44.2

661

I am writing to object to:

1. The use of the following locations as gypsy and traveller sites:
   - Coombe Lodge Nurseries off Conduit Lane, site reference 661;
   - Coombe Farm off Oaks Road, site reference 502;
   - Policy E of “Planning Policy for Traveller Sites”, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.

Change: This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object: DM44.2

661

I will be objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of “Planning Policy for Traveller Sites”, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.

Change: This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I would like to register my objection to DM44.2, Table 11.17, Site 661 (Gypsy/Traveller Site)
I am writing to you to express my objection to potential travellers sites in two locations and to detail the reasons why.

Coombe Lodge Nurseries (Conduit Lane) Ref 661

1. The land is green belt land and therefore deemed inappropriate by national guidelines.
2. The size of the site would mean that it could not be accommodated by simply demolishing exiting structures and hence would spill over into unspoiled land.
3. The area already struggles with amenities such schooling, doctors etc and this additional influx would be difficult to accommodate.
4. The site would add additional traffic to conduit lane/coombe lane intersection which could not be accommodated without major traffic improvements.
5. The traveller site would be next to Coobe park and overwhelming in terms of size.
6. Parking to access the Coombe Park and Coombe woods is already at a premium. The development would bring massive amounts of additional traffic.
7. The site will totally overwhelm near by residents on Coombe Lane and Oaks Road.
8. The site is very close to some of Croydon most unspoilt areas such as Coombe Woods, Combe Park and Lloyd Park. The additional influx of vehicles and residents would have a detrimental effect on the local environment.
9. The site has no amenities near by - shops, post offices etc and none within walking distance which means a massive increase in traffic to the local area.

Both locations would massively change the local characteristics of an area of Croydon which is largely unspoilt by development in an area with very few local amenities. Schooling is already an issue in this area. In my view Green Belt land is specifically created to prevent urbanisation of green spaces which this proposal amounts to.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Mr Jonathan Butcher  
Object Soundness - Justified  
DM44.2 661

I object in the strongest possible terms to the Council’s proposal to build gypsy/traveller sites in Croydon!!! We absolutely mustn’t lose our green open spaces. We have too few of them as it is.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
I object to this proposal on the following grounds:

1.1 Coombe Lodge Nurseries is Green Belt Land. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly that "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". Previous use and Council ownership do not mitigate against this policy.

1.2 The proximity of this site to the Coombe Farm site, also proposed, would mean a total of up to 45 pitches on 2 sites within a very small area of the Borough.

1.3 The Croydon Local Plan paragraph 4.19 refers to the need for good access to roads, stating that Gypsies and Travellers "often need to move larger vehicles as part of their livelihood and way of life". Coombe Road junctions with Oaks Road and Conduit Lane are busy and potentially hazardous intersections and are unsuitable for increased, safe movement and manoeuvring of larger vehicles.

1.4 The proposed Coombe Lodge Nurseries site is adjacent to a Site of Nature Conservation interest which would be vulnerable.

All of the three preferred sites are on Green Belt Land, contrary to Government Policy.

The close proximity of the proposed sites to one another has not been taken into account. All three sites are proposed for a small area in the South of the Borough when there seems to be a successful site in Purley Way which could be expanded.

None of the three sites proposed have good access to schools, shops and other services. The consequent need for private transport goes against environment and climate initiatives. Government Guidelines ask that local planning authorities policies ensure that children can attend school on a regular basis. These three sites are well away from schools, particularly...
primary schools, and clearly do not reflect the aims of the Guidelines or facilitate regular school attendance.

The proposed plan does not take into account the need for good access to roads. The Croydon Local Plan paragraph 4.19 refers to the need for good access to roads. "Oaks Road, Coombe Road, Conduit Lane and Featherbed Lane are unsuitable for safe increased movement and manoeuvring of larger vehicles, especially entering and exiting these sites.

The number of Gypsy/Traveller sites in Croydon is to increase from 1 to 4, when our recent experience locally is of travellers responsible for damage, parking illegally, leaving piles of rubbish behind when they are moved on and even engaged in firearms confrontation with the police.

I am emailing to object to the proposed travellers sites to be built in the Shirley/Croydon/South Croydon areas.

There are numerous reasons for my objections.

1. This is green belt land and should remain as such. We are lucky to have local green areas that I have enjoyed since my childhood and that my own family benefit from now. Green belt land is not appropriate for any form of dwelling. We need to preserve what we have in the area. Travellers are known to leave their mess around them, this is not what we want on our green belt land.

2. There are insufficient local school places as it is. The children (including my own) in the area will be adversely affected by an influx of travellers who normally have large extended families.

3. Travellers cause trouble, my son was set upon by a group of travellers in Lloyd's Park recently and we now avoid this area when the travellers are illegally staying there. I would like my children to be able to use the local parks and amenities without worrying about people who regularly do not abide by the law of the land.

4. My elderly parents who live in the Shirley hills area are vulnerable victims of crime as it is. Do we really need to add to their fears by making the area less safe with a group of people who generally have no regard for the law.

5. Crime rates in Croydon are up as it is. Do we really need more residents for our already overstretched police force to watch over.

6. And finally, the clue is in the name. These people are travellers and therefore travel, meaning there is no need for a permanent dwelling for them.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
The Council are proposing in total 45 permanent pitches. Both sites are some distance from public services. They should consider instead the expanding the existing site off the Purley Way.

More importantly the Council are in breach of policy E Planning Policy for Traveller Sites published by the Government in August which clearly states: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". The Council have acknowledged both sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest.

The access to both Coombe Farm and Coombe Lodge is totally inadequate and the additional traffic would be dangerous. The Council should be promoting the interests of the people of Croydon who they are supposed to represent.

Policy DM43, reference Site 502
Coombe Farm reference Site 661
Coombe Lodge Nurseries and reference Site 755 Pear Tree Farm and Pear Tree Cottage. I object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and Coombe Farm is on a site of an Archaeological Priority Zone and contains an area of Nature Conservation Importance. Such development is in breach of Policy E of Planning Policy for Traveller Sites, which says that "Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development". All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites by 2017 and 39 by 2036 is excessive and will have an adverse effect on the borough.
I am writing to object to the use of the following locations as gypsy/traveller sites:-
• Coombe Farm off Oaks Road Reference Number 502
• Coombe Lodge Nurseries off Conduit Lane Reference Number 661

1. What is the Council’s rationale for proposing Traveller Sites on the very land previous illegal incursions, fly tipping and theft have occurred?
2. On what basis has Croydon’s Labour Council rejected the prior Conservative Council’s proposal for a second Traveller site located on the Purley Way, Roundshaw Open Space?
3. Under the Freedom of Information Act, what is the total tax payer investment, Croydon Council has made over the last 5 years securing land, preventing and obstructing illegal incursions?
4. Council representatives are referring to Travellers (universally) as “homeless Croydon residents”, yet they are of ‘no fixed abode’, not registered (with the Council) as homeless, not on the electoral role - let alone contributing to the use of amenities. Please clarify the difference between a ‘resident’ and a ‘visitor’. 
5. Council representatives advise ‘It is the right of a Traveller to live in a caravan and is part of their ethnic rights’. Has an Equality Impact Assessment (Government Planning Document) been conducted to ensure the rights of the settled community are not being infringed? (It is understood this is a requirement where there has been significant local opposition as in the case of Croydon).
6. Please confirm a) whether a traveller must reside within a given schools catchment area to attend and b) whether the proposed sites were selected with this in mind?
7. Actual number of fixed plots revealed during (verbal) consultation was 49, not 39 as documented, indicating likely expansion of a site(s) at later date. (See Dale Farm, Essex for unauthorised ‘sprawl’ beyond designated site)
8. What consideration has the Council given to the societal impact of introducing both Romany Gypsy & Irish Travellers (known to feud) into two locations just 500m apart on local community?
9. Government planning for Gypsies & Travellers determined Green Belt Development as ‘inappropriate’. (See Dale Farm, Essex eviction from Green Belt land). What is the rationale for Croydon looking at Green Belt vs. Brown Field?

9. Two of proposed sites in same Ward and the third in adjoining area, all held as Conservative seats with 2 locations less than 500m apart. Why are there no suitable locations in Labour held seats?

10. Croydon Council acknowledge these proposals will not prevent further illegal incursions, fly tipping, damage and theft at the residents/tax payer’s expense, suggesting more fixed sites are not the solution. The current investments in the prevention of illegal incursions are working to protect the settled community.

11. Coombe Farm itself is a listed building, yet at least one other site was dropped from the shortlist for this very reason. Why has the evaluation criteria for site selection not been applied in an unbiased, uniform manner?

12. Note Basildon Council ended up “leasing” land they did not already own to accommodate travellers. If Croydon Council is blocked from using its own land for the purpose of a Traveller Site, can it be confirmed that the Council will uphold Green Belt planning restrictions and decline private planning applications for the same? (Ref: Dr A Ansari).

13. ‘Homeless’ travellers evicted from Dale Farm returned to their "homes" in Ireland. (4:08 onwards. Http://youtu.be/T253zUOfXe0). What is Croydon Council’s position where a “homless Traveller” owns property? What investigation is carried out into the legitimacy of their homeless claim?

14. Taxpayers in Essex ended up funding Traveller-only amenities such as a community hall. What societal integration studies have been completed for homes, schools & businesses adjoining Coombe Farm and Coombe Lodge Nurseries? Precedent suggests their needs are greater than just plots.

15. Why was Coombe Farm initially considered for both Residential and Traveller site prior to Consultation only to be changed to Traveller-only during Consultation?

16. The proposed Coombe Farm Traveller site is:-
   a) Green Belt
   b) A listed Historic Property
   c) Is within ‘panoramic view’ of
Addington Hills
d) Has a number of covenants on its usage dating back to the 1950's set by the Garwood Family.

17. On what basis has Croydon Council classified these Travellers as homeless? They have the means to purchase their own vehicles, mobile accommodation and plant machinery. Why wouldn't they register with Croydon Council as homeless (if that is indeed their claim) and be 'Means Tested'?

17 a) Council representatives (at the recent Consultation) deemed adding Travellers to the homeless register as 'unworkable' as the housing waiting list was too long. Does this mean Travellers are being given PRIORITY over legitimate refugees and asylum seekers who are already on the housing register?

18. The introduction of a single traveller site (let alone two) in the Green Belt Heathfield Ward will increase localised fly tipping (please see area immediately surrounding the existing fixed site, Latham’s Way, CROYDON) and will therefore be in direct contravention to the NATURE CONSERVATION STRATEGY, Supplementary Planning Guidance No.5 for Croydon on the following grounds;

4.41 "Five of the 8 Golf Courses in Croydon (note; Shirley Park adjoins Oaks Farm) contain all or parts of Metropolitan Nature Conservation Importance in Croydon."

4.63 Problems –cites pollution as one of 7 key problems identified which particularly apply to Croydon."

5.5 "56 sites in Croydon are outlined in the Ecology Handbook 32 'Nature Conservation Guidelines for London' (updated in 1994). The criteria have been used by the Council to protect sites from harmful development through the operation of its own town planning powers."

6.9 Have the "Wardens for the green belt" (a role within the Council) a) been appointed in line with this policy and b) been consulted on the potential impact?

6.6 - Access [to the countryside] for All: "There are physiological & physical barriers [...] putting the countryside beyond the reach of some residents [...] They may be restricted by [list of reasons] or of not feeling safe in the countryside." The presence of at least one Traveller Site will be viewed as a deterrent with valid concerns for the personal safety of local residents and visitors alike.

- What consideration has been given to existing Tree Preservation Orders, Ancient Woodland (Oaks) & Hedgerows both on the Coombe Farm site as well as the shared access? Development of the access
road would lead inevitably to the loss of further wildlife habitat.
- protected species in the area include deer, badgers (sets in and around Coombe Farm) and bats in the listed building & outbuildings.
(4.13, 4.15 & 4.16) "Heathland is one of the rarest habitat types in London. The remnants of "Heather" heathland found on Croham Hurst & Addington Hills [...] are the most significant in London. Heathland is also increasingly rare on a national basis with much of its characteristic wildlife endangered".
Full Document can be found - https://www.croydon.gov.uk/sites/default/files/articles/downloads/spg5.pdf
19. Excerpt from the Aug 2015 'Planning and Travellers: proposed changes to planning policy and guidance' - Consultation response document Specifically: "re: sites on land designated as Green Belt; sites protected under the Birds and Habitats Directive and / or sites designated as Sites of Special Scientific Interest; Local Green Space; an Area of Outstanding Natural Beauty, or within a National Park (or the Broads)."
19a. How will the provision of a fixed site prevent the issue of illegal incursion, raised in the above consultation document, specifically Question 10, harm caused by intentional unauthorised occupation? Croydon Council representatives concede it will not, therefore please explain what positive outcome this proposal hopes to produce.
20. Excerpt - Planning policy for Traveller Sites:
"The new policy will help ensure that traveller sites are developed in appropriate places and not on Green Belt land, ensure planning policy is clear and consistent and thus can operate most effectively in a new localist planning system, and reduce community tensions that can arise over perceptions that planning policy for traveller sites is more lenient than planning policy for housing for settled communities." Perception upheld.
20a. During local Consultation, Counsellors advised repeatedly of a Central Government target being applied to Croydon for Traveller Sites. Excerpt from the 'Planning policyholders traveller’s sites - Equality Impact Assessment'
suggests otherwise:  

"Now the Localism Act is in place, the current policy points to a process that no longer exists for setting future traveller site targets because the Act removed the framework for regional strategies meaning that no further regional strategies can be created. The Government will expect local authorities to plan for strategic matters, including accommodation for Gypsies and Travellers, in their Local Plans. Through this process, local authorities will have to justify their policies for traveller site provision using robust evidence that will be tested at the Local Plan examination. However, it will not be clear if the circulars were left in place that local authorities should set targets as part of their decisions on the right level of provision in their areas. The new policy, therefore, asks local authorities to set targets based on their evidence of need and to bring forward land in their plans to meet these." 

21. Under the Freedom of Information Act, please supply burglary, assault, theft, disturbances, illegal incursion, damage and arrest data relating specifically to Travellers of 'No Fixed' address immediately following their arrival up to and including their eviction.

22. Under the Freedom of Information Act, please provide all Environmental Agency data relating to the treatment of Travellers waste during and after their occupation and specifically how a fixed site (providing basic sanitation & waste collection) will prevent illegally fly tipped builders waste all over the surrounding area. (See reports for all prior illegal incursions).

23. How has the London Borough of Croydon involved its Community in the planning of the Coombe Farm and Coombe Gardens Traveller Sites? What opportunity was given by Croydon Council for the local residents to put forward their own ideas and participate in the development of the Sites? See - London Borough of Croydon’s “Statement of Community Involvement - October 2012” (https://www.croydon.gov.uk/sites/default/files/articles/downloads/involvement-oct12.pdf) Reference 2.11 & 2.12 - these Guidance Rules have been ignored

24. In the restrictive Covenants for Coombe Farm, (defined as 80 Oaks Road) which are for "the Settlers and their successors in title" states "No part of the Property shall be used for any offensive noisy, dangerous pursuit or occupation or for any purpose which shall or may be grow to be in any way a nuisance damage grievance or annoyance to
neighbouring properties or the neighbourhood?.
25. There is no pavement access to either of the proposed sites therefore most travel to and from these sites to local amenities, (shops/schools) would be by vehicle – causing even greater traffic problems to the Coombe and Oaks Road junction.
26. If these proposals go ahead will the council be offering ‘blight’ compensation to all of the affected local residents and businesses?
27. Will the travellers be required to pay council tax, rent, gas, electricity, and all other charges?
I look forward to your response to the above questions/concerns.

3028/01/010/DM44.2/O Mr Nick Barnes
Object Soundness - Justified DM44.2 661
Having read both local plans for the Shirley area, I strongly object to all aspects in both plans, this includes the 750 new homes on Shirley Oaks Village, 35 new homes in Shrublands, the two gypsy sites at Combe Fram and Conduit Nursery and the development for up the four storeys along Wickham Road.
None of these plans will benefit Shirley and I object to them all.

3029/01/008/DM44.2/O Mr Paul Newton
Object Soundness - Justified DM44.2 661
Happy for the Council to replace under-used garages with much-needed homes, but will be objecting to building on precious open space.
Objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:
Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.
The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services.

3038/01/008/DM44.2/O Samantha Freeman
Object Soundness - Consistent with National DM44.2 661
In particular I object to -
4. Use of greenbelt land for a traveller site (DM44.2)

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
I am writing to protest in the strongest possible terms to the council’s proposals to create traveller sites at Coombe Lodge Nurseries and Coombe Farm.

As you know, both of these sites are in the green belt, with one of them bordering a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, states: “Traveller sites (temporary or permanent) in the green belt are inappropriate development.”

The areas of Coombe Lodge Nurseries and Coombe Farm are not wasteland nor are they brownfield sites (as the current travellers’ encampment in Croydon is). Instead, they are precious stretches of green land well loved and well used by Croydon residents for sports and leisure activities. They also provide an invaluable habitat for wildlife, including deer.

I urge you to reconsider and will be continuing to campaign against this entirely inappropriate plan which will result in the desecration of two of Croydon’s valuable green spaces.
I object to the use of the site for gypsy and traveller accommodation.

I strongly object to this policy and the plan to create a traveller site at this location as it is a greenbelt site and not appropriate for this purpose, as per Policy E of "Planning Policy for Traveller Sites".

I believe this is inappropriate use of a green belt site. Brownfield sites are better suited to this purpose. In addition, government policy states green belt sites are 'inappropriate' for development.

I should like to protest against the site chosen for gypsy camps and a new secondary school being built on green belt. There must be better sites for them as we must protect our green belt sites.

I strongly object to this council building or using Green Belt sites for this and any other purpose. Also high rise flats will upset the balance of the areas. I do accept that we need more housing but these should be build on existing empty or land filled sites.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Mr Christopher Andrews  

Object  

DM44.2  

661  

Government planning Policy is clear that Traveler Sites are inappropriate developments within a green belt. The plan to create a Traveler Site is not in accordance with Government policy and should not therefore be under consideration.

Change  

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mrs Clare Gardner  

Object  

Soundness - Consistent with National  

DM44.2  

661  

I am writing to object to:

1. The use of the following locations as gypsy and traveller sites:  

   • Coombe Lodge Nurseries off Conduit Lane, site reference 661;  
   • Coombe Farm off Oaks Road, site reference 502;  
   • Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane, site reference 756

   as all these sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

   (If the Council really needs to quadruple the number of gypsy/traveller sites in the borough they should look elsewhere, e.g., off the Purley Way where the existing site is.)

Change  

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mr John Kallas  

Object  

DM44.2  

661  

The preferred approach would not be appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3 due to the following reasons:

1 Green Belt.  

   The proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the DCLG “Planning policy for traveller sites” (August 2015) (“the Planning Policy”)  

2 Access to amenities

   The site is well away from schools (particularly primary school provision), shops, doctors, dentists, etc., and clearly does not reflect the above aim, or facilitate regular school attendance.

3 Adverse effect on neighbouring businesses and leisure facilities

   It would not be practicable to site a traveller site adjacent to the proposed new school in Coombe Road Playing Fields, since the combined effect of additional school and traveller traffic would be too much.

An alternative and appropriate use of the Coombe Lodge Nursery site would be to use it for the school otherwise proposed for Coombe Road Playing Fields. To site the school on the playing fields is entirely inappropriate as it would eliminate a facility that is already used by other schools in the borough. If the school is built on the nursery site, the playing fields would be preserved for the new school’s use and for other schools as at present.

Change  

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Object DM44.2 661  I object to the use of the site for a gypsy and traveller site. As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. The Council’s approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

Change  This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object DM44.2 661  Policy DM44.2, Table 11.17, site 661 (p179). The council plans to create a Gypsy/Traveller site here. This is a greenbelt site, and it is not appropriate for this purpose.

Change  This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object DM44.2 661  I wish to comment on the proposals for the following sites: Coombe Lodge Nurseries, Conduit Lane (site 661) The proposal to use these sites as gypsy and traveller sites does not comply with Policy SP2.7a and SP2.7b. Both sites are clearly isolated in respect of local services. Site 661 would be unsuitable for school use as it lacks access to nearby public transport. Both sites would be acceptable for residential development and at least would not be worse served than some other housing in the area.

Change  This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

<p>| Object | DM44.2 661 | Third, the Council has identified two locations on the edge of Shirley for gypsy/traveller sites - Coombe Farm off Oaks Road and Coombe Lodge Nurseries off Conduit Lane. I am objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in Green Belt areas and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs to quadruple the number of gypsy/traveller sites in Croydon why don’t you develop the existing site at Purley Way? It is an outrage that our diminishing open spaces will be turned into Gypsy sites. Coombe Road is so busy. It is the link between Shirley, Addington, Forest Hill, Warlingham, Selby etc to central Croydon. It does not need more traffic nor traveller sites on it. We should be trying to diminish traveller sites, not expanding them or using valuable land to allow for more. I currently work for the Department of Work and Pensions and we have a joint operation with the local Police and other local service providers in our area to reduce fraud, rubbish, fly tipping etc. and we have been very successful in concentrating our efforts on gypsy areas. I do not want that for Croydon, especially near to where I live and where my children will grow up. My husband has his own house removals business and the amount of families he is moving from Croydon to other areas in England is astonishing. These families are not just moving down the road to the next borough to get away from Croydon, they are moving to Sussex, Devon, and Scotland etc. I wonder why??? | Change | This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found. |</p>

Mr Ben Lynam
Object DM44.2
661
Policy DM43, reference Site 502
Coombe Farm reference Site 661
Coombe Lodge Nurseries and
reference Site 755 Pear Tree Farm
and Pear Tree Cottage. I object to the
use of any of these locations for the
creation of Gypsy/Traveller sites. All
three locations are within the Green
Belt and Coombe Farm is on a site of
an Archaeological Priority Zone and
contains an area of Nature
Conservation Importance. Such
development is in breach of Policy E
of Planning Policy for Traveller Sites,
which says that “Traveller Sites
(temporary or permanent) in the Green
Belt are inappropriate development”. All
three sites are also a considerable
distance from public
services. I believe that the proposal
to create three new Gypsy/Traveller
sites by 2017 and 39 by 2036 is
excessive and will have an adverse
effect on the borough.

Mr Derrick Thurley
Object DM44.2
661
Locations for 15 to 25 gypsy/traveller
sites at Coombe Lodge Nurseries off
Conduit Lane
These are both on Green Belt land
which is in breach of Government
policy which states as being
inappropriate development. Existing
site at Purley Way should be
expanded

Gillian Custance
Object DM44.2
661
I oppose to the site of Coombe Lodge
Nurseries being used as a travellers’
site for the following reasons.
Coombe Gardens and café are an
area of natural beauty an oasis in the
Croydon area. They are our pride and
joy not only visited by people who live
in Croydon but by people who live
outside the area. We, as Croydon
residents, are very proud of them.
They are a peaceful tranquil area to
get refreshments and then followed
by a walk around the picturesque
gardens. If you allow a travellers’ site
to be built all this will change. The
businesses in the area will suffer
huge losses and probably even close
down. I can understand the need for
a permanent site but this is not the
location. It will also have a
detrimental affect on adjoining owners.
I am asking you to walk around this
site and imagine the changes it will
bring to the elderly, children and
families who value this area, gardens
and café.

This site has been found to be unsuitable for any form of
residential development, including Gypsy and
Traveller pitches, due to the noise from industrial
machinery located on an
adjacent site. Therefore, the
proposed allocation will be
deleted and an alternative
site found.

Object

DM44.2 661

Build a school please?

School is a viable option as there are no schools in our area. The Plan makers have missed a big point that existing infrastructure cannot cope with the influx of additional population at such a fast pace. Also, it has to be planned over a few years. It should never be on a green belt attached to a green belt sites as it is disastrous for the environment. There are quite a few brownfield sites in Croydon. Those should be explored. What are the criteria behind selecting two sites within 1 mile of each other? The plan makers do not know the grass root situation. They have just assumed things without knowing the facts. This is a grave situation. There are quite a few public and independent schools in the nearby area. Building a new school will support the resident and nearby citizens. Besides we do not have a grammar school in Croydon. So it would be ideal if we build a grammar school in Croydon on one of the proposed sites. Existing infrastructure just cannot cope with additional population in Croydon:

1) We have to wait at least 4-5 days to get a dr’s appointment
2) We have wait for at least 15 minutes to get a turn to play swing/ball for my son in any local park. The parks are so crowded during summer. Already children are getting very less exercise. If 40 families come over with more than 80 children then it would be extremely over crowded.
3) There are not enough schools in the area. We should build more schools.
4) There is very limited green space in Croydon. Government policy states that you cannot build temporary or permanent sites on green belt.
5) Conduit lane is a no drive through zone. Increased traffic due to a planned school and travellers sites will cause traffic chaos.
6) We need green belts for good health of the citizens. Steps like these would encourage the encroachment of green belts.

Build a school instead of a travellers site.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
The proposals to locate traveller sites at Coombe Farm, Ref 502 and Coombe Lodge Nurseries, Ref 661, are both inappropriate. As the Council acknowledges, both sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development."

The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services. If the council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is). The proposals to locate traveller sites at Coombe Farm, Ref 502 and Coombe Lodge Nurseries, Ref 661, if adopted, would compromise the ability of the current generation and future generations to enjoy these green spaces. Enjoyment of green spaces is a basic need of any community. This is particularly relevant given the redevelopment of Croydon and the fact that many more people will be living in the centre of Croydon and will want and need to use these green spaces ("green lungs" of Croydon. Companies looking to relocate businesses to Croydon do not only consider factors such as cost, transport links and housing for staff - they also consider environmental factors. The damage to these two green spaces, which would inevitably arise should these proposals go ahead, would make Croydon a less attractive place to live in and would discourage businesses relocation to the area. This would reduce employment opportunities for Croydon’s residents. SP2.7 makes no mention of impact on the surroundings of the site or local residents. Accordingly, an additional criterion should be added as follows: “f. Must be entirely acceptable in relation to its impact on nearby public spaces and residents and businesses in the area” If this were included in the proposals, Ref. 502 Coombe Farm and Ref 661, Coombe Lodge Nurseries, would immediately be inappropriate. Coombe Farm is green belt land and Lloyd Park, Lloyd Park was left to the people of Croydon by the Lloyd Family. At present families enjoy the open space, children play in the play
area, joggers and walkers exercise, people walk their dogs, sports are played, and families snack in the café. Coombe Lodge Nursery is by the lovely gardens of Coombe Wood with its popular tea room and wooded area.

The proposals RE 502 and ref 661 if implemented would not be in accordance with the Green Grid concept (reference green Spaces 6.15, 6.16) in that they would significantly damage these two valuable assets and discourage their use by the residents of Croydon. I note under the Plan: “Local Green Spaces which make a contribution to the borough’s heritage value, visual character, recreational opportunities, tranquility, and amenity qualities will be protected and safeguarded. These proposals would have exactly the opposite effect.

I would make the following comments on the “Assessment and Selection of Sites for Gypsy and Travellers”:

A) The scoring system does not reflect the importance of the preservation of Green Spaces and is inconsistent with the Green Grid concept.

B) For both sites the scoring appears highly subjective.

C) In particular for both sites the scores for “green space”, “impact on local character”, “privacy”, and “local character” need to be reconsidered - they are all quite clearly wrong.

D) Site 502 is on a single track lane with very narrow access to Oaks Road. It would be practically inaccessible for large mobile homes. This fact is not reflected in the assessment.

E) For both sites “GB/MOL” is shown as amber and should therefore be minus 5 not plus 5.

F) The “social deprivation” criterion is illogical as pressures on local services apply equally across Croydon. If one was considering a large area such as a Country Park it would make sense; it makes no sense at the borough level. This criterion should be removed from the assessment.

I would recommend that this Assessment be reassessed by an independent party. I am sure that such a reassessment would indicate the unsuitability of these two sites.

I value Lloyd Park and Coombe Wood very highly, as, I am sure, do many other residents of Croydon. Lloyd Park and Coombe Wood are important and irreplaceable assets of our town, to be cherished. They should not be damaged by proceeding with these proposals.
Mrs Michelle Sawyer

DM44.2 661

It is inappropriate development to locate Travellers sites at Coombe Farm (502) and Coombe Lodge Nurseries (661) as they are both in the Green belt.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Dr Natasha Newlands

Object

DM44.2 661

I am writing regarding two proposed Traveller site developments at the Coombe Lodge Nurseries (661). I am concerned about these developments for a number of reasons:

1) The two sites are proposed to be in locations that are not in easy walking distance of everyday amenities such as shops, schools and health services. This will mean that the Travellers who move in to these sites will have to drive to use these services adding further burden to an already very congested main route in to Croydon, Coombe Road.

2) Local schools and health services are also already stretched in catering for the current local population.

3) I feel it is important to discuss these propositions with local residents as many are unaware of the plans. It may alter how residents and visitors use the park and also the developments are likely to have a significant impact on local businesses.

4) Coombe Farm is situated within Lloyd Park and any change in usage should comply with the conditions with which it was donated.

5) These sites are in Green Belt areas and government publications advise that Traveller sites in the Green Belt are inappropriate developments - Ref: Policy E of Planning Policy for Traveller Sites

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

DM44.2

Not in line with government planning policy on the Green Belt.

Detail:

- Government planning policy with regards to traveller sites wants to ensure that plan-making and decision-taking should protect Green Belt from inappropriate development.
- The proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the Planning Policy "Inappropriate development is harmful to the Green Belt and should not be approved, except in very special circumstances". There are no very special circumstances.
- The National Planning Policy Framework makes it clear that unmet housing need (including traveller sites) is unlikely to outweigh the harm to the Green Belt and other harm to constitute the "very special circumstances". Justifying inappropriate development on a site within the Green Belt.
- The local character description is clearly at odds with the proposal.
- The justification acknowledges the Green Belt issue, although insufficiently, but relies on the fact that there are existing structures. These are not in fact substantial, being glass houses - and could be said to be at least environmentally consistent with the Green Belt. But there is no very special circumstance justification proposed as required by the planning policies.
- Approving the proposal would set a precedent and open the surrounding areas to be subject to similar development. It is not in the community's interests to allow the erosion of the green spaces surrounding the community and we object to the impact this site could have on the environment and wildlife. The fact that this is a green belt area should be the end of the discussion. Green belt areas are designated as such, and should not be allowed to be disrupted when it is suitable for these Council. This opens up the area to manipulation, and is not in line with the character of the area.
- The current residents should be able to decide how they see the area being developed, and the current crisis around school places is much higher on the priority list. The needs of the majority of children and residents should not be swept aside. This is not a democratic outcome.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
My main objections are:

Both sites are some distance from the nearest public services, making them inherently inappropriate locations for the purpose intended. Increased congestion in the adjacent, and rather narrow, local roads. In turn, this will result in increased pollution and accident black-spots. Both sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, states: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. If enacted, the Council would be in breach of that policy.

Conclusion

The proposals I have highlighted can only been viewed as negative. If adopted, they will increase the local population - and the density of that population - without providing any supporting infrastructure. The new residents from the planned apartment blocks and traveller sites will need additional public services such as schools, medical services and shops. Older residents will give way to young families who require greater social support, yet no additional resources are identified to help manage the changing demographic. Traffic congestion along already busy roads will increase, as will pollution and accident black-spots. The few remaining green spaces will disappear. Overall, the proposals signal a reduction in the quality of life for both the existing residents and the newcomer.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I want to object very strongly to the use of Conduit Lane (661) and Coombe Farm (502) being used as gypsy and traveller sites. It would be totally inappropriate for these greenfield, Green Belt sites being used for this kind of development. It would also be in contravention of other policies (SP2.7a and SP2.7c) which are there to protect the green grid.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
With reference to the above mentioned document, I am writing to strongly object to the following: The use of the following locations as gypsy/traveller sites:
1. Coombe Farm off Oaks Road (reference no. 502)
2. Coombe Lodge Nurseries off Conduit Lane (reference no. 661)

The selection of these sites is clearly in breach of Policy E of the Planning Policy for Traveller Sites - published by Government in August 2015, which clearly states;
"Traveller sites (temporary or permanent) in the green belt are in inappropriate development."

Can you please confirm why the Council is considering the use of Green Belt sites over Brownfield sites?

I live very close to the above mentioned sites and feel that this inappropriate development will destroy the local area and community. I have worked extremely hard to be able to afford to live in this area and would like the Council to re-consider their proposal.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
I am writing to object to the use of the following locations as gypsy/traveller sites on Green Belt Land:

- Coombe Lodge Nurseries off Conduit Lane reference number 661

This site will very much change the character of the area and should be located on alternative disused industrial sites, not our precious green space.

When camped illegally near the hills, these people have shown no respect for local residents or our beautiful surroundings. The children sped across Addington Hills on electric scooters and cars making it very dangerous for families, dog walkers and their dogs who have made good use of this location for many years. The rubbish and excrement was abysmal.

The proposed locations of these sites will adversely affect the local businesses such as the Coombe Garden Café, as no doubt the parking bays will be in constant use by the travellers and not available to those people who frequently use the café but who have to drive to that location. It will make Conduit Lane and other local roads a hazard. The local schools are also not within walking distance of these sites and as there is very little public transport nearby this will put more pressure on the already overcrowded tram.

As someone who has lived in Shirley for 25 years and a frequent walker in our surrounding area I see these proposals changing our local environment for the worst.

Please, please, please do not proceed with these sites but find alternatives away from our precious green space.

---

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mr Laurie King

**Object**

DM44.2

661

Gypsy / Traveller sites in Featherbed Lane and off Coombe Road / Conduit Lane / Oaks Lane - These areas are Green Belt so why would the Council consider these suitable for such developments when this contravenes the current legislation? Additionally, the areas currently have considerable residential and community leisure activities and facilities, so again why would the Council be wanting to destroy the environment to create these Gypsy/Traveller sites for persons of no fixed abode and who are temporary residents to the borough only. It strikes me that this is an imbalance of priorities over the current fixed residents of Croydon and a set of proposals that I object to most strongly.

No change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Carole Shorey

DM44.2

661

I am emailing to object to a number of the proposals.

My parents live in Forestdale so are close to Addington and Shirley and I worry for them if there are more gypsy sites located in the area.

My son was involved in a road traffic incident with a traveller from the Layhams Farm site, the traveller caused the accident by pulling out of the road next to the site in front of my son's oncoming right of way car, he then jumped out of his car and ran from the scene and the police were too frightened to enter the site. My view of the police has been very jaded since this incident. My son could have been killed in this crash. If the police are too frightened to patrol these sites, these people are above the law. I definitely do not want to see more sites in or around my local area, I feel very strongly about this.

I basically do not agree with many of the plans listed in Gavins email. I do agree we need more housing but that is mainly because too many people are being let into the country in the first place, housing them all is not the answer as other amenities will not be able to cope even if we build more houses.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Carolyn Heath

Object  
DM44.2  
661  

I am writing to object to:  
1. The use of the following locations as gypsy and traveller sites:  
   • Coombe Lodge Nurseries (site ref 661)  
   • Coombe Farm off Oaks Road (site ref 502)  
   • Poppy Lane (site ref 128)  
   • Stroud Green Pumping Station (site ref 504)  
   • Shirley Oaks Road/Beech House (site ref 541)  
   • Shirley Oaks Road (site ref 542)  
   • Honeysuckle Gardens (site ref 548)  
   • Pear Tree Farm & Pear Tree Cottage (site ref 755)  

All areas provide vital green space in already densely populated areas, and there is insufficient infrastructure to cope with the additional traffic/population. Some of these areas are in the Green Belt, others are in Metropolitan Open Land. They would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

Change  

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Caroline Kohn

Object  
DM44.2  
661  

I am writing concerning the draft Croydon Local Plan. I have objections to the sites which have been designated for travellers sites including Coombe Lodge Nurseries Policy DM44 Site number 661, and Coombe Farm, Policy DM43, Site 502.

While accepting the need for appropriate sites for travellers and gypsies, I question the ability of the Council with current levels of resourcing to manage an increased number of sites effectively. In addition, this will be a new, permanent development on green belt land, which is against government policy.

Access to and from the site on a dangerous section of Coombe Road will impact on traffic flow and road safety.

There is no access to local amenities at these sites, including shops, schools and doctors surgeries, something recommended for travellers sites.

There is also a concern that there will be a negative impact on the environment of Coombe Woods, its biodiversity and the contamination of groundwater.

Change  

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
I do not agree with the plans for Coombe Nurseries. Change: This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Mr Clive Hodgson

I am writing to object to the use of the following locations as travellers / gypsy sites:
- Coombe farm site (ref no 502)
- Coombe lodge nurseries (ref no 661)

Both sites are in a beautiful green belt area which the public use a lot. I believe national guidelines do not agree with the use of green belt areas for these sites.

There are covenants which bind Croydon council to use the Lloyd park area only for recreational purposes which does not include these proposed sites.

The lane from busy oaks rd to Coombe farm is very narrow with potholes and no pavements, the lighting is poor and obviously this area is not suitable for lots of heavy traffic and caravans.

The families who would live on these sites would have children and need to use the lane to get to all needs facilities such as shops, schools, buses and trams etc.

There would be much coming and going along the narrow lane on to busy oaks rd and Coombe rd which are main thoroughfares to Croydon. This all creates a dangerous situation.

Nearby is Cedars school who use Lloyd park for rugby and other sports and this school is receiving more pupils in the future increasing the number of vehicle and people movement in the area of Lloyd park and the main roads to and from Croydon.

Large number of people use not only Lloyd park but also the nearby conduit lane, these visitors need to park in conduit lane to go to Coombe woods and gardens and to the local cafe there.

School parties often visit these woods and have to use conduit lane and it would be crazy and dangerous to have gypsy travellers using this lane to get to a permanent site there.

All of us have seen the terrible mess that these travellers have created wherever they have been and the owner of Coombe farm has himself allowed rubbish accumulation on his land in Lloyd park which the public have had to complain about.

The Coombe farm and conduit lane areas are just not suitable for permanent gypsy travellers sites and the council should find more suitable areas with less problems.

CHANGE

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

<td>Lisa Dinnick</td>
<td>I live on the Forestdale Estate and thankfully our management committee via Gavin have advised us of the Councils plans to build three gypsy/traveller sites in the Green Belt. I totally agree with Gavin that these plans will completely change the character of parts of the borough, including where I live. As resident of Croydon and employee of Croydon Council I completely understand the need for more housing and I am looking forward to the regeneration taking place in the town centre over the next few years. However one of the reasons I love Croydon and continue to defend its negative reputation is the mix of city feel and countryside. If the Council continue with these plans you will effect the character of the area and you will ultimately fail in your efforts to change peoples perception of Croydon.</td>

I'm writing to protest about the Council’s plan to designate two areas of Green Belt land (reference numbers 502, 661 and 775) suitable for gypsy/traveller sites. I acknowledge that such sites are needed but NOT on Green Belt land. I believe it is unlawful to build on such land and once this is ignored one wonders how far it will be allowed to encroach by default over the years. In fact I believe that Government policy states that traveller sites (temporary or permanent) on the Green Belt are inappropriate development.

The use of the following locations to be established as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference 661; Coombe Farm off Oaks Road, site reference 502; I believe both sites would be found an inappropriate development in the Green Belt and would be in breach of Policy SP2.7a and SP2.7b, in addition to Policy SP7.2 and the protection of the green grid or with 6.15 Strategic Objective 10 relating to the green grid.

I believe both sites would be found an inappropriate development in the Green Belt and would be in breach of Policy SP2.7a and SP2.7b, in addition to Policy SP7.2 and the protection of the green grid or with 6.15 Strategic Objective 10 relating to the green grid.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3185/01/006/DM44.2/O Mr Stephen Woodward

Object DM44.2

We have lived in Sanderstead for over 40 years, and have thoroughly enjoyed the areas to the south of Croydon being unspoilt. In our view these ill conceived proposals will change this area beyond recognition and take away that for which it is well known and valued. Please rethink, and do not continue with the proposed policies set out below and which can be found in your Local Plan: Policy DM44.2, Table 11.17, site 661 (p179). This is a greenbelt site, and it is not appropriate to put a traveller site here. Policy E of “Planning Policy for Traveller Sites”, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Mr Simon Taylor

I am writing to object to the proposed new travellers site at Coombe Farm and Conduit lane.

The siting of a permanent traveller camp will have a serious detrimental effect on the local areas Residents and Businesses, and our ability to enjoy safely the local area and amenities.

The Premier inn and Coombe lodge are major draws in the immediate area adjacent to conduit lane and Coombe farm. I have seen first-hand in areas in and around parts of Chelmsford where large groups travellers have completely overwhelmed local businesses including bars & restaurants and leisure facilities rendering them unusable by anyone else unconnected with the traveller community.

On a couple of occasions recently we have seen Travellers illegally set up camp in Sunken Road next to Coombe lane tram stop. This road and the near surrounding areas become a ‘no go ’ area with mountains of rubbish dumped in the road and in Shirley hills. We see youths riding around on motorbikes in the parks and woods without helmets apparently unchecked by the local Police force. This coincides with a rise in thefts from Gardens and Sheds in the area, as well as an increase in unsolicited and sometimes aggressive doorstep sales techniques for various building or landscaping works.

We are absolutely positive that this area cannot support a large community of people that will not assimilate, and actively distance themselves from the wider community in this area.

Sheila Childs

I attended the open meeting on Wed 25th in Seladon and wish to express my concern over the 3 proposed travellers sites. Whilst I understand the council have to provide these I have to ask why are they all within a few miles of each other and all south of the borough ? Indeed the Oaks Farm and Conduit lane are only yard away. If you could address these proximity issues I would be pleased to hear why they cannot be more evenly spread and assume the plans will improve assess to them .
Sheila Wicks

DM44.2
661

It is inappropriate to put a Gypsy / Travellers Site here. Policy E of planning policy for travellers site published by government says quite clearly Travellers Site temporary or permanent in Green belt are inappropriate development. Even considering two sites right close to one another is unbelievable. It will kill the trade of the three restaurants close by to the proposed sites stone dead. The smaller restaurant is run by local people who have taken ages to build up their trade. Why not support instead of destroy local businesses? I know of another restaurant not far away who had travellers come into it demanding children’s meals for many adults, manager hid and the staff were terrified and the police refused to come. I have seen a shopkeeper in Elmfield visibly upset by travellers coming in en-masse into a shop. Just recently Shortlands have had Travellers coming into shops wanting to change large money notes without buying anything and when the shopkeepers in a small row of shops asked the police for help, nothing. I remember the Sunken Road at the top of Gravel Hill when the Council had to foot the bill of a clean up when the Travellers went. I think the travellers should be housed on an open site where I have previously seen them live unofficially before - Purley Way

Sharon Smith

I am writing to support my local MP Chris Phelp in his objections

Mr Stephen Massey
Object
DM44.2
661

I would like to register my objection to the proposed pitches for travellers/gypsy sites (ref 502 & ref 661). These are in an area of Green Belt and Metropolitan open land. As a resident of this area on Sandpits Road I strongly object these changes would massively effect the character of our area, the waste from when they have previously camped there was strewn all over the neighbouring roads for weeks after they had moved.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
3. The use of the following locations as gypsy/traveller sites:
   - Coombe Farm off Oaks Road reference number 502;
   - Coombe Lodge Nurseries off Conduit Lane reference number 661; and
   - Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane reference number 755;

   As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

   “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.

   The Council’s approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

   Change

   This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Sarah Anderson

Object

I would like to make my objection known regarding the proposed travellers sites at Coombe Lodge Nurseries, Conduit Lane and Coombe Farm, Oaks Road. Detrimental to the amenities of adjoining owners, inappropriate use of green belt land. Sites that are located on the green belt, considered to be inappropriate development for Traveller sites (temporary or permanent) and against Government Policy (planning policy for Traveller sites DCLG, Aug 2015). Lack of relevant Amenities close at hand. Insufficient local infrastructure to accommodate the plans. Selection of proposed sites should have a bias towards Brownfield or Industrial Land and not Green Belt. The two proposed sites are in very close proximity to one another Imbalances across the borough with all sites being proposed in South Croydon. Could the existing permanent Gypsy Site in Lathams Way be expanded? If one has to select one of the proposed sites, the preference is for Pear Tree Farm & Pear Tree Farm Cottage, Featherbed Lane.

Saundra Dudman

Object

Soundness - Consistent with National

6) Gypsy/traveller site Policy DM44.2 Table 11.17 site 661 p179 green belt site. The Governments Policy E of Planning Policy for Traveller sites published in August States that Green Belt sites are inappropriate for this type of permanent or temporary development, and I wholly agree with this.

Mr Paul Ashton

Object

I would like to register my strong objection to the Council’s proposals for the consideration of Coombe Farm and Coombe Lodge Nurseries as gypsy/traveller sites (Croydon Local Plan: Strategic Policies Partial Review and Croydon Local Plan: Detailed Policies & Proposals). The sites are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. The Government’s policy is I believe that traveller sites should not be located in the Green Belt, but that hardly needs stating, surely? I cannot imagine why such sites would be considered at all, or in preference to other, clearly more suitable and higher-scoring sites cited in Assessment and selection of sites for Gypsy and Travellers August 2015 – there appears to be no logic to this approach.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Change

re Traveller Site at Conduit Lane near Coombe Wood Gardens. Seems to be in direct contravention of stated government policy that says development of Green Belt land for traveller sites is inappropriate development. This seems a perfectly reasonable stance to preserve to amenity of an area that should not be ignored by the local council.

Change  
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Detrimental to the Amenities of Adjoining owners, inappropriate use of Green Belt Land against government policy ("planning policy for Traveller Sites" DCLG Aug 2015), lack of relevant Amenities close at hand and insufficient local infrastructure to accommodate the plans. Alternative suggested sites: Pear tree farm & Pear tear cottage, Addington.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I am writing to object to the use of the following locations as gypsy and traveller site as it would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. Therefore, the proposed allocation will be deleted and an alternative site found.
Object

The location in Green Belt should preclude all development per se apart from GDO rights to the few existing dwellings at Coombe Farm. The Conduit Lane site has been rejected in the past as unsuitable. Such erosion of the Green Belt runs wholly against the interests of the local community. It would set a precedent that can be used to further erode local and national planning policy. The impact would be more pronounced on both sites as the subject Group need mixed use sites. This is because they often run businesses from where they live. This issue is not addressed by the Consultation. Such a mixed use requirement is wholly inappropriate on both sites. Both sites are not deliverable now. Each would require the construction of a new access road as a minimum particularly to Coombe Farm. The construction of a two lane highway here with footpaths either side is bound to change the semi rural nature of this location as the existing access here is a narrow lane. A new access at Conduit Lane might be shorter but would put further pressure onto an already dangerous staggered junction with Oaks Road. This is again contrary to current policy. The Coombe Farm site is bound to require the application of more scarce resources into the maintenance of Lloyd Park if a large number of new residents are located onto its edge. This is a facility that serves the whole Borough, not just the surrounding area. Any impact here due to the development will affect adversely many in the Borough. Coombe Farm is not immediately available and as such again puts it outside Government policy. The proposal highlights the proximity to public transport at both sites. This is a consideration of low importance here as the subject socio-economic group concerned are known to be infrequent users of public transport. It ignores however the clear lack of local facilities nearby. The lack of local facilities goes against the stated preference of the particular Group concerned to be within a short walk of everyday amenities. These circumstances will promote the use of personal vehicles which is against environmental policy. The proposal mentions only the number of pitches at each site. No account is taken of the number of people who might use each site due to the tight knit nature of the subject community. The number of residents may therefore result in overcrowding which will be difficult to control. This is detrimental to public health and so in breach of environmental

Please do not destroy your area of responsibility. DM2 will lead to more flooding - it's already happened in Purley through too much development. DM40.4 the Government want us to be fitting and this is the only public swimming pool in the area. DM44.2 Coombe Wood Gardens - a beautiful area for your voters both north and south of the borough the green belt is precious to everyone. DM28 If you don't want to destroy local businesses you must allow people to park their cars. More homes will just mean more cars.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

With reference to the Local Plan which has been proposed, please note my objection to the following policies:

- Garden Grabbing > Policy DM2
- Purley Skyscraper authorisation > Policy DM40.1
- Purley Pool > Policy 40.4, Table 11.3, Site 30
- Purley Parking > Policy 40.4, Table 11.3.
- Sanderstead "Lidl" Site > Policy DM41.3, Table 11.14, site 306
- Gypsy/Traveller site on Conduit Lane, next to Coombe Wood Gardens > Policy DM44.2, Table 11.17, site 661
- Loss of Green Belt – (1) Coombe Playing Fields, (2) Croham Hurst, (3) Sanderstead Plantation > The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662
- Lack of Parking in new developments > Policy DM28
- More Protection; Less "Intensification" > Policy DM31.4

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
I am a Croydon resident and am writing to object to the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference number 661, policy number DM44; and Coombe Farm off Oaks Road, site reference number 502, policy number DM43. pear tree farm and pear tree farm cottage on featherbed lane, site reference number 755, policy number DM32. All three sites are in the Green Belt, with one bordering a site of Nature Conservation. The proposed use of each of these sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b and would not be consistent with Policy E of ‘Planning Policy for Traveller Sites’ published by the Government. If additional sites are required in the Borough it would more appropriate to expand existing sites e.g. the site off the Purley Way or by smaller developments on the Croydon Airport site which is currently wasteland. In addition none of the sites has easy access to local school, healthcare, retail and other amenities; the vehicular access into sites 661 and 502 is problematic and egress onto Coombe Lane/Oaks Road at the road junction is likely to create additional road hazards. The current road traffic on Coombe Road is heavy and this will only serve to add to the congestion.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Mr Terrence McCarthy Object I am a Croydon resident and am writing to object to the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference number 661; Coombe Farm off Oaks Road, site reference number 502; and Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane, site reference number 755. All three sites are in the Green Belt, with one bordering a site of Nature Conservation. The proposed use of each of these sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b and would not be consistent with Policy E of ‘Planning Policy for Traveller Sites’ published by the Government. If additional sites are required in the Borough it would more appropriate to expand existing sites e.g. the site off the Purley Way or by smaller developments on the Croydon Airport site which is currently wasteland. In addition none of the sites has easy access to local school, healthcare, retail and other amenities; the vehicular access into sites 661 and 502 is problematic and egress onto Coombe Lane/Oaks Road at the road junction is likely to create additional road hazards. The current road traffic on Coombe Road is heavy and this will only serve to add to the congestion.

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Terry Lewin Object I object to the use of the site as a traveller site.

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mr William Harland Object I am writing to object to: 1. The use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference 661; ...

<td>It is absolutely crazy to allow or encourage development on green belt land and/or green spaces in such a built-up area as Croydon; people need green spaces for numerous leisure and recreation activities. From a general health point of view people need to be able to play sport or go for a walk. After the Paris summit isn't it obvious that action is needed to arrest the damaging consequences of climate change. Green spaces absorb carbon dioxide, they are the green lungs of towns and cities. Allowing woods and tress to be destroyed is environmental vandalism and flies in the face of climate change science.</td>

3294/01/002/DM44.2/O Mr Barry O'Neal  
Object DM44.2 661  
I object in the strongest possible way to the plans outlined for this development in my local area, Shirley and Addiscombe. In particular, I understand the Council has identified two locations on the edge of Shirley for gypsy/traveller sites. I object to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". The Council's approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs to quadruple the number of gypsy/traveller sites in the borough, I think they should look elsewhere (for example, off the Purley Way where the existing site is).

Change  
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3312/01/006/DM44.2/O Mr Richard Brandwood  
Object DM44.2 661  
In my years of dog walking at Lloyd Park, there has been a number of occasions where travellers have set up site for weeks at a time. They seem to have no respect for the park and leave rubbish and mess all around. Plus they do not clean up after their animals which is a hazard for my young children who often use the park. Another concern of mine is the impact which travellers will have on the ratings of local schools and also the decrease in house prices. It is exciting times for Croydon with the new building developments, including Westfield - much needed for the reputation of Croydon after the riots and fires of 4 years ago. I strongly urge you not to approve the proposals for the traveller sites at Coombe Farm and Coombe Lodge Nurseries. It will result in good families and people who care about the community moving away from Croydon.

Change  
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3314/01/002/DM44.2/O Mrs Dawn White  
Object DM44.2 661

Change  
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
6) Gypsy/traveller site Policy DM44.2 Table 11.17 site 661 p179 green belt site. The Government's Policy E of Planning Policy for Traveller sites published in August states that Green Belt sites are inappropriate for this type of permanent or temporary development, and I wholly agree with this.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mr Ron Thomas
Object Soundness - Justified
Policy DM44.2 Table 11.17 Site 661 (p179) What a hair brained idea! Can you imagine the harm this would do to the countryside and the tram system.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Finally, the Council has identified two locations on the edge of Shirley for gypsy/traveller sites:

• Coombe Farm off Oaks Road, which is identified as suitable for 15-20 pitches (pages 449-450, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 502); and

• Coombe Lodge Nurseries off Conduit Lane, which is identified as suitable for 15-25 pitches (pages 468-469, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 661).

I vigorously object to the use of either of these locations as gypsy/traveller sites. As you have to be aware, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

“Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.

The Council’s approach is blatantly in breach of that policy. Both sites are a considerable distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question – there must be more suitable sites which are closer to local amenities (there is nothing in the way of shops or even a bus-stop at these sites, necessitating extra vehicular traffic on an already busy road at best or pedestrians attempting to cross at a very dangerous point with blind bends and junctions at worst). There have to be sites which are not in Green Belt land, perhaps even sites which already exist and could be expanded (such as the one on Purley Way).
Mr Roger Williams

If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

Ms Maura Keane

Object

DM44.2

661

I appreciate that we all need somewhere to live. However, I have had severe problems with gypsies in the past (criminal damage with police involved and, separately quite a lot of fly tipping. As the 3 areas are generally quite attractive, I am loathe to have them destroying the ambiance: they certainly have a reputation for doing so (and of not paying Council tax, so I have been told recently).

Conduit Lane, near the award winning Coombe Woods would be too busy for others to park and enjoy the amenity, albeit the site is away from Coombe Road. The school would also create traffic in the Lane and on the very busy Coombe Road at specific times but, maybe, this would be a pleasant site for the children.

Similarly, the site in Oaks Road would be spilt.

Coming to Featherbed Lane: sadly, the place is already an eyesore. If planning permission carries with it a responsibility to improve the look of the place from Featherbed Lane, great. However, I doubt it can. What is needed here is a tidy up, not an increase in the mess. I suspect the Council has a duty to provide a site. If so, Featherbed Lane

DM44.2

<td>This is a greenbelt site, and I am strongly opposed to this proposal as it is not appropriate to put a traveller site here. Many local residents, myself included, frequently visit Coombe Wood and Gardens, as well as the very popular Coach House Café. Having a Traveller site within striking distance of these beautiful green spaces will undoubtedly stop people visiting. Additionally, and based on my previous experience with Travellers, they fly tip and pollute sites they use. I doubt that this will be any different if the site is permanently allocated to them. Another reason for my objection is that I frequently walk with my dog along the famous Vanguard Way, which passes through Conduit Lane. I would not feel safe to do this were the Travellers allocated the site, and I imagine that it would put many other walkers and horse-riders off using this path. I also wonder if this historic route will be passable given proposed changes. Policy E of &quot;Planning Policy for Traveller Sites&quot;, published by the Government in August, says very clearly: &quot;Traveller sites (temporary or permanent) in the Green Belt are inappropriate development&quot;.</td>
<td>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</td>
<td></td>
</tr>
</tbody>
</table>
I am writing to register my objections for the following proposed sites for Gypsy and Travellers Sites:

- Coombe Farm, Oaks Road - Reference 502
- Coombe Lodge Nurseries off Conduit Lane - Reference 661

The Policies laid out on the Mayor of London - London Assembly website, and Policy 7.17 clearly states that the Mayor’s office truly supports the protection of Metropolitan Open Land, and indeed states that “The strongest protection should be given to London’s MOL and inappropriate development refused. The Policy lays out what needs to be established to designate an area as MOL, but does not make it clear how a Council can re-designate an area. I therefore object to any permanent Traveller site being constructed on MOL, and especially if the area is simply going to be re-designated without any consultation with the local residents and businesses.

I object strongly that Croydon Council can re-designate Metropolitan Open Land or Green Belt land to suit their needs to accommodate a permanent pitch. I cannot see any Planning justification to change the designation, nor for the intrusion into the lives of the residents of Oaks Road and surrounding area. This will massively affect the urban attractiveness of the area and have both emotional and financial repercussions on many lives.

Policy 7.18 relating to Protection of Open Spaces clearly states that open spaces in London must be protected, and any loss must be resisted. I cannot believe the Council would want to go against both of these policies laid down by The London Assembly.

I am a member of Shirley Park Golf Club, which not only provides sport and social activities to over 700 members in the local vicinity, but also provides an important ecological role in the area. The proposed site of Coombe Farm as a site for Gypsies and Travellers has come as a shock to everyone in the area, as borne out by the recent press coverage and attendance at the Consultation Meetings.

The history of unauthorised “pitches” in this area over the past few years has left a bitter resentment,
especially in view of the residual mess and threatening behaviour that has always accompanied their trespass. On each occasion that Gypsies/Travellers have been in the area, the club members here have been threatened with physical and verbal abuse. This behaviour is totally unacceptable and despite the subsequent eviction of the Travellers on each occasion, the residual psychological effect on tax payers and constituents’ lives cannot be trivialised.

I personally have experienced dreadful behaviour from the travellers. They have damaged the greens, used the golf bunkers as toilets, damaged course furniture & stolen equipment.

We also have a large Junior Section and children play the course during holidays as well as weekends. They are often unaccompanied and the parents need to know they are in a safe environment. This would certainly not be the case in the parents’ minds if there was any chance of aggressive behaviour, as previously experienced, towards these children. I am certain that you would not wish to be responsible for putting children in any sort of potentially dangerous situation.

Surely these detailed real issues must be taken into account when determining any permanent site. I understand that the proposed sites are not within the required distance to both schooling and medical needs, therefore I also object on that basis. The land is in private ownership at Coombe Farm, and any funds spent on “compulsory or otherwise” purchase could surely be spent more wisely on behalf of the population of Croydon. No doubt Central Grants will be available, but Council owned land in an area that will not radically impact on established residents’ lives would be a sensible and prudent choice.
Finally, and by no means least, I am extremely concerned by the possible establishment of Gypsy/Traveller sites in general and specifically on Conduit Lane. Policy DM44.2, Table 11.17, site 661 (p179). The council plans to create a Gypsy/Traveller site here. This is a greenbelt site, and it is not appropriate to put a traveller site here. Policy E of “Planning Policy for Traveller Sites”, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. Apart from the loss of yet more green belt I believe this would be folly of the highest order at so many levels it simply does not bear thinking about. This proposal should absolutely not be allowed to go forward.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Mr Richard Jeffries  

Object DM44.2 661  

I am writing to object to the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference 661; Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

I additionally comment that: 

The proposals are detrimental to the Amenities of Adjoining Owners Development is on Green Belt and would therefore require a change of land use 

The proposed Sites should be on Brownfield or Industrial Land not Green Belt 

There is an imbalance, with all sites being proposed in the South of Croydon Existing sites could/ should be expanded 

If a new site is to be developed for the travelling community, I would express a preference is for Pear Tree Farm & Pear Tree Farm Cottage, Featherbed Lane. This already virtually developed to the point where there would be no further detriment if the site were to be developed. However, there is no proposal as to where the existing activity would be relocated to. 

The Pear Tree Cottage/ Farm site, provides ample space for all or most to the 39 additional pitches. Any remaining pitches could be located at other, brownfield, sites within the borough. 

If the nurseries site is to be redeveloped, it would be far better for this to be used for the relocation of a school, thus freeing up land elsewhere in the borough for housing. 

The travelling community are by definition mobile whereas the proposed development(s) are permanent and in built form. This is contradictory and may suggest that the council is considering further redevelopment at some future point. If so, the council should either be open about this or unequivocally deny it. 

Other Sites that the Council should reconsider instead of both Coombe Lodge Nurseries and Coombe Farm are the following: 

518 - Land adjacent to 103 Goodenough Way, The Admirals Walk, Old Coulsdon 536 - Land of former Croydon Airport runway, south of Imperial Way, Waddon 552 - Land adjacent to Ashburton playing fields at rear of 2-88

Soundness - Justified

DM44.2 661

I am writing in order to object to the use of Green Land, especially in and around Croydon, for use as any kind of residential use, or any other kind of development for that matter. Such new developments, for Travellers or any kind of development, would be better made on non-green land, or in any suitable properties which are currently unused. Green land should be cherished and preserved because it takes a long time to become like that and there is less and less of it these days. The only real exception to that rule might be playgrounds for kids, but, even then, sensitivity to wild life, habitats and a location’s general “greeness” should always be employed.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Karen Muldoon

Soundness - Justified

DM44.2 661

I am very concerned about the plans to introduce traveller sites near Oaks road. Roads are already narrow and congested in this area. At peak times there are always queues in Oaks Rd and Coombe lane so I don’t believe adding the large entourage of vehicles used by travellers will be particularly helpful. We experience the mess left behind by travellers every year and this continually concerns me. I am not sure what happens at Coombe Farm but there is already a rubbish site building there on the edge close to Lloyds park. I know there have been campaigns for some time about this and it has not been closely monitored. I imagine this would also be the case if it became a traveller site. It seems to make far more sense that traveller sites be in open, easily accessible areas - not tucked away sites like Coombe farm.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

<td>Please be advised that I would like to enter an objection to Croydon Council's plans to de designate several land spaces in order to enable the positioning of three gypsy/traveler sites in the green belt and also the development of homes on some of the green spaces. The proposed locations for traveller sites brings great concern as to what impact this will have on the area as the locations are not really close to any public services. I believe there is also some question about whether the areas being proposed for the traveller sites can be used for this purpose due to a Government policy that states traveller sites (temporary or permanent) in the Green Belt are inappropriate development. As a resident of Shirley for the past 7 years I would be extremely disappointed to see any of these proposed developments come to fruition. Whilst I welcome the development of new homes I think Croydon Council should look for alternative locations instead of green land. I do hope to hear from your office in due course as to what the future may hold for our lovely green spaces that provide fresh air and outdoor enjoyment for our family and many others.</td>

Third, the Council has identified two locations on the edge of Shirley for gypsy/traveller sites:

- Coombe Farm off Oaks Road, which is identified as suitable for 15-20 pitches (pages 449-450, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 502); and
- Coombe Lodge Nurseries off Conduit Lane, which is identified as suitable for 15-25 pitches (pages 468-469, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 661).

I will be objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

"Traveller sites (temporary or permanent) in the Green Belt are inappropriate development".

The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

| Change | This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found. |

<td>Mr Tim Cattell</td>
<td>DM44.2 661</td>
</tr>
</tbody>
</table>

The purpose of Green Belt legislation has always been to preserve areas of amenity land for the benefit of local people, and other potential users, against any form of building development. I therefore consider it totally unacceptable, indeed absolutely incredible, that the Council would even consider designating areas of the Green Belt for potential gypsy/traveller sites as the Plan proposes for Coombe Farm, Coombe Lodge Nurseries and 2 sites on Featherbed Lane. The Coombe Lodge Nurseries site is especially inappropriate as it is very adjacent to Coombe Gardens, an important local amenity, and to the land along Conduit Land that has strong conservation value.
Mr Adrian Cowie

Object DM44.2

I object very strongly to the council's proposals to create Traveller sites on Green Belt Land. I believe the Green Belt is a resource which should be protected at all cost. Our countryside is a precious resource which provides recreation for walkers, cyclists, horse riders and separates urban sprawl. It should be held in trust for the enjoyment of future generations. Once it is gone, it is gone forever! Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". The Council’s approach is clearly in breach of that policy. The site is also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is). This area is one, which I regularly walk & cycle. Any development, such as the one above, would completely ruin the surrounding countryside. The proposals go against the government policies on Green Belt. Before any development of Green Belt, Brownfield sites should be used.

Ms A Pavon-Lopez

Object DM44.2

Coombe Lodge Nurseries off Conduit Lane, which is identified as suitable for 15-25 pitches (pages 468-469, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 661). Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Ms A Cheetham

Object

DM44.2

661

I would like to object to the proposed plans to set up gypsy and traveller sites for the following reasons:

* It is an inappropriate use of Green Belt Land - this classification of land has been created to protect green areas, not to develop on them.
* Should have proposed Brownfield or Industrial Land NOT green belt
* Might set a dangerous precedent for more Green Belt land to be developed on
* It will be potentially detrimental to the amenities of adjoining owners - for example, the business of The Coach House Café.
* Sites that are located on the Green Belt, considered to be inappropriate development for Traveller sites and against Government Policy ("Planning policy for Traveller Sites", DCLG, August 2015)
* Lack of relevant Amenities close at hand
* Insufficient Local Infrastructure to accommodate the plans
* Why are 2 proposed sites so close to each other?
* Why are sites all based in South Croydon - not balanced proposal
* Wouldn’t it make more sense to expand existing permanent sites in Lathams Way off Beddington Farm Road

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Ms A Cheetham

Object

DM44.2

661

Other sites the council should reconsider instead of both Coombe Lodge Nurseries and Coombe Farm are:

- Heath Clark playing fields, Stafford Rd, Waddon
- Timebridge Community Centre, Field Way, New Addington
- Land adjacent to 153 Goodenough Way, Old Coulsdon
- Wandale Road, car park, Wandale Rd, Croydon
- Croydon Land of former Croydon Airport runway, south of Imperial Way, Waddon
- Land adjacent to Ashburton playing fields at rear of 2-88 Colerdige Rd, Addiscombe
- By Pavilion Playing Fields, Purley Way
- Land south Of Threehalfpenny Woods, Kent Gate Way, Birdle Way
- Land west of Timebridge Community Centre, Lodge Lane, Elmside, Addington
- Cane Hill-south part, Hollymeak Road, Portnalls Rd, Coulsdon

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Mr Barnaby Powell

Object DM44.2 661

I am writing to object to the use of Coombe Lodge Nurseries off Conduit Lane, site reference 661 as a gypsy and traveller site. These sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b, with Policy SP7.2 and the protection of the green grid or with 6.15 Strategic Objective 10 relating to the green grid.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Rev B Warren

Object DM44.2 661

Both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b, with Policy SP7.2 and the protection of the green grid or with 6.15 Strategic Objective 10 relating to the green grid.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mr Amer Hameed

Object DM44.2 661

SP2.7 makes no mention of impact on the surroundings of the site and nearby residents. Accordingly, an additional criterion should be added: Must be entirely acceptable in relation to its impact on nearby public spaces and residents and businesses in the area. If this were included the proposals Ref 502, Coombe Farm, and Ref 661, Coombe Lodge Nurseries, would immediately be seen to be inappropriate. Coombe Lodge Nursery is by the lovely gardens of Coombe Wood with its popular tea room and wooded area. Coombe Farm is green belt land in Lloyd Park, left to the people of Croydon by the Lloyd family and where families enjoy the open space, kids play in the play area, joggers, dog walkers and of other walkers exercise, spots are played, families snack in the cafe and everyone feels reasonably safe.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
The grounds for my objection are:

1. The area has already suffered from illegal camps on several occasions.
2. The illegal camps have deposited substantial rubbish, including human waste, on each occasion.
3. The camps have been noisy and disruptive, and thefts have occurred from my garden shed whilst the travellers were in occupation.
4. This area is Metropolitan Open Land and/or Green Belt and as such is protected from the proposed development. Such proposals are against planning policy at both local and national level.
5. Coombe Farm is a listed building and the proposed development would be entirely detrimental to its setting even if not actually within its curtilage.
6. Coombe Farm is within the panoramic view of Addington Hills which is subject to local planning policies.
7. All land in the area is subject to covenants over the freehold titles set by the Garwood family which prohibit the proposed development.
8. There is little or no public transport provision, no shopping or schools within any reasonable distance of the sites. These are major requirements for any traveller settlement proposal in government guidance and policy.
9. Why are there no brownfield sites proposed which would be far more suitable, comply with planning policies and offer the amenities which are required to support the community of travellers.
10. What are the findings of an Equality Impact Assessment - which must have been carried out - comparing the alleged benefits to the travelling community and the residents of the area. Have similar assessments been carried out and published on suitable brownfield sites.
11. Why has Heathfield Ward been selected as the location for two proposed sites when it is on the fringes of Croydon with little amenity provision suitable to support the traveller sites.
12. The Local Plan sets no description of the council's statutory duties towards travellers. Do these proposals exceed the statutory responsibility and, if so, what are the council's reasons since none has been provided in the plan or in any consultations. Given the funding cuts leading to threatened reductions in services to residents and tax payers, has the council carried out any consultations or sought the views of residents as to the priority to be given to the provision of travellers' sites?
13. The council admits that the sites will not deter other illegal
encampments. What measures have been considered to protect vulnerable sites in the area from incursion by travellers if the site are full? The area has a population of protected wildlife including deer, badgers, owls as well as an abundance of other wildlife. No measures are proposed to minimise the effect of the proposed developments nor any mitigation measures.

15 Traffic in the area is already substantial. The junctions at both ends of Oaks Road are congested at peak times and are dangerous for pedestrians at all times. The proposed sites will increase the existing problems.

16 Little or no consideration has been given in the plan to the protection of local amenity and the local environment quite apart from the other deviations from or contravention of local and national planning policy.

17 It is clear from the plan that the council has ignored many alternative and more suitable sites which do comply with local and national planning policies and do not infringe on Green Belt Land. The proposals are illogical, counter to any tenets of sustainable development and appear to be prejudiced against a single ward - as no other options for location of the sites have been explored or have been dismissed without reason.

3414/01/008/DM44.2/O Mr Chris McInerney
Object Soundness - Justified DM44.2 661

3415/01/008/DM44.2/O Ms C Soroczynski
Object DM44.2 661
Please note my objections to planning Policy DM44.2 , Table 11.14, site 661

DM44.2 661
Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Similarly a site for travellers with amenities which would prevent them from invading current green spaces is a good idea, but where to put it needs to be sensibly planned and the current proposal in my view is not adequate.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Gypsy/traveller sites should not be built on existing Green Belt land. This is totally inappropriate, as Green Belt is designed to remain undeveloped.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
<p>| 3424/01/002/DM44.2/O | Ms Deborah Holman | Object Soundness - Justified | DM44.2 661 | Coombe Lodge nurseries off conduit Lane (ref. no. 661) | As a local resident I am writing to object to the use of the following locations as travellers/gypsy sites: Coombe Farm off Oaks Road, reference number 502 Coombe Lodge Nurseries off Conduit Lane, reference number 661 1. This site is also Green Belt and as such, according to Government Policy is deemed inappropriate for development. 2. The council have gone to great expense to protect the site from mobile travellers and this seems to have been a great waste of tax payers money if they now allow a permanent site. 3. Several businesses which make a big contribution to the local economy and also provide much needed amenity to the public will be detrimentally affected by the site. 4. Coombe Park which is a beautiful landscaped park containing many memorials to the war dead will be completely overwhelmed by the enormous traveller development for up to 25 mobile homes right next door. The huge amount of traffic going along conduit Lane make access to the park from the parking bays much more dangerous. This will affect the young and elderly alike as they use these parking bays. 5. The size of the site will totally overwhelm the nearest settlement of residents on coombe Road, Oaks Road and Coombe Lane These two sites are totally unsuitable for Traveller/Gypsy sites and will be contravening National Guidelines on the use of Green Belt Land. This proposal has not been thought through in its effects on local residents and the needs of the Traveller/Gypsy community who will be abandoned on sites with no close amenities and very poor and unsafe access to their homes. | Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found. |
| 3428/01/007/DM44.2/O | Mr Daniel Nuthall | Object DM44.2 661 | Also the proposal of a Gypsy site does not sit well with me at all. Firstly both the proposed sites ref 502 &amp; ref 661 are in a green belt, a clear breach of policy. The site at Stroud Green is also liable to flooding together with the land being owned by Thames Water and who's offices are a listed building. | Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. | Change | This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found. |
All three sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. Furthermore, Policy E of "Planning Policy for Traveller Sites", published by the Government in August, states very clearly that ‘Traveller sites (temporary or permanent) in the Green Belt are inappropriate development’. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites. I am also concerned by the evidence base for these selections, namely the ‘Assessment and Selection of Sites for Gypsy and Travellers’. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of ‘extensive political consultation’. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Mr & Mrs McAvoy Object  

We object to the use of the following locations in Green Belt areas as travellers/gypsy sites: Coombe Farm off Oaks Road (15-20 pitches); Coombe Lodge Nurseries off Conduit Lane (15-20 pitches); Pear Tree Farm on Featherbed Lane (15-20 pitches). National guidelines clearly state 'Travellers Sites (temporary or permanent) in the Green Belt are inappropriate development'. The Council's proposals, therefore, clearly breach such guidelines. Also, we question the Council's assertion that it needs to quadruple the number of travellers/gypsy sites in the Borough. Apart from this major objection, the above sites identified for such use would have poor access via narrow roads/lanes for large vehicles; consequent impact upon local traffic congestion with movements of large vehicles; no safe paved walking routes to schools, shops, doctors, etc.; additional requirement for services and facilities for hygienic occupation; increased pressure on local schools, medical facilities, waste disposal, etc.; impact upon local facilities and amenities of current residents.

Change  

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mr D Lane Object  

I object to the site being used for gypsy and traveller accommodation. As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". The Council’s approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is);
Ms D Richardson

Object

DM 44.2
661

Just outlying in objections to this proposal. We have had issues with travellers camping out in Lloyd Park and other areas around Croydon. They cause destruction, leave rubbish and building materials behind. They are very difficult individuals who have no respect for where they live. They don’t pay taxes and have no morals in what they do.

I have seen travellers in Lloyds park, millers lane and coombe farm over the past 10 years or so. I’ve seen their rubbish, and vandalism so much so it’s us the council tax payers who has to pay for the clearing up of rubbish and fixing the vandalism.

Mr & Mrs Shaw-Smith

We strongly object to the disturbing proposals of Croydon Council to quadruple the area of gypsy sites in the Croydon area, in particular to sites regarding Reference numbers 502, 661 and 755. Green Belt areas are invaluable and should be protected as per previous acknowledgements (c.f. Policy E of Planning Policy for Traveller Sites, published by the Government in August).

Also Croydon already has a bigger than average share of “problematic and challenging” social make-up than the rest of the country, and as such quadrupling gypsy sites in the borough seems a gross overreaction to pressure to ‘meet targets’. Policies and planning should focus on the development of an area rather than on enforcing undesirable land uses on the existing hard working population.

Existing traveller sites are appalling examples of living conditions, and building small blocks of flats in current sites could house a number of travellers either living there already or wishing to move to the borough.

I am writing to you to object to the use of a site off Oaks Road as a traveller site (Coombe farm). Reference number 502 and the use of Coombe Lodge Nurseries, off Conduit Lane as a further travellers site. Reference number 661

The three locations earmarked for gypsy and traveller sites are all located on green belt land.

Conduit Lane
Coombe Farm off Oaks Road and Pear Tree Farm
Featherbed Lane

Policy E, Planning Policy for Traveller Sites published by the Government and also backed by the London Plan states that they are inappropriate development.

On what basis therefore do Croydon consider they are better advised than more experienced authorities. They are high cost implications for Croydon should they proceed with this policy.

I am writing to add my objection to the proposal of traveller sites at Conduit Lane. I moved to the area 10 years ago because we are surrounded by green belt land, which would be totally inappropriate use of such dwellings. I feel very strongly that the land stay green and that we continue to protect our countryside. Please add my name to any list of objections - I will stand strong in this proposed as will my surrounding neighbours.

I am writing to add my objection to the proposal of traveller sites at Conduit Lane. I moved to the area 10 years ago because we are surrounded by green belt land, which would be totally inappropriate use of such dwellings. I feel very strongly that the land stay green and that we continue to protect our countryside. Please add my name to any list of objections - I will stand strong in this proposal as will my surrounding neighbours.
I have heard of Croydon Councils proposals for Traveller sites within the borough. I understand that "favoured sites" are Conduit Lane, Coombe Farm and Featherbed Lane. As a resident of Croydon, I am extremely concerned that this green belt area is being considered for use as residence. Addington hills and Coombe woods are an area of outstanding beauty and home to the largest area of heathland in London. Locating Traveller's encampments sites right on the doorstep of this green belt area would undoubtedly have dire consequences for flora, fauna, the natural habitat and wildlife as a whole, leading to irreversible damage. Please could Croydon Council reconsider this issue and please consider not going ahead with this proposal. The consequences to the natural environment and the delicate socio-ecological balance that currently exists would be damaged permanently with travellers' communities housed in a wildlife locality. There are better options to house people in Croydon and right in the middle of a green belt area which the residents of Croydon hold a lot of regard and pride for is not one of them. I would strongly advocate considering urban areas of the borough which are fit for housing - such proposals must not be made or favoured without a thorough ecological and environmental impact assessment and evaluation. I am very concerned with this proposal also because Croydon Council is meant to work in partnership with the British Trust for Conservation (BTCV) and a regional office is located on the woodland premises. Scraping this proposal is the right thing to do and the right thing for Croydon.

Change
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Object DM44.2

The proposal to develop Coombe Lodge Nurseries, Conduit Lane as a residential development for a Gypsy and travelers site does not fall within the Strategic Objectives because:-

Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise.

Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.

Objective 5: This development is not high quality and will not enhance the borough’s natural environment but will reduce the natural environment by turning a farm into a travelers housing site.

Objective 7: This development will reduce the area as a safe, healthy and cohesive community.

Objective 10: This development will reduce the quality and accessibility of green space and nature. This development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generation will suffer because of this. This proposed development of a travelers site within the Coombe Road area is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with out housing in the area.

Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area. Building a travelers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area. Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions. This development would diminish the striking view of the area of Addington Hills and Coombe Farm area.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Mr Alnoor Visram  

Object DM44.2 661

SP2.7 makes no mention of impacts on the surroundings of the site and nearby residents. Accordingly, an additional criterion should be added “f. Must be entirely acceptable in relation to its impact on nearby public spaces and residents and businesses in the area”. If this were included the proposals ref 502, Coombe Farm, and Ref. 661, Coombe Lodge Nurseries, would immediately be seen to be inappropriate.

Coombe Lodge Nursery is by the lovely gardens of Coombe Wood with its popular tea room and wooded area. Coombe Farm is green belt land in Lloyd Park, left to the people of Croydon by the Lloyd family and where families enjoy the open space, kids play in the play area, joggers, dog walkers and of other walkers exercise, spots are played, families snack in the café and everyone feels reasonably safe.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mr G von Gerard  

Object DM44.2 661

I wish to register my objection to the proposed locations for traveller sites, namely Coombe Farm (Ref 502) and Coombe Lodge Nurseries (Ref 661) in the Local Plan proposals. These sites are in the Green Belt and, as the Government’s policy (Policy E of Planning Policy for Traveller Sites) states, Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Objections raised to the use of the following locations as Gypsy/Traveller sites:
- Coombe Farm off Oaks Road Reference Number 502
- Coombe Lodge Nurseries off Conduit Lane Reference Number 661

1. How has the London Borough of Croydon involved its Community in the planning of the Coombe Farm and Coombe Gardens Traveller Sites? What opportunity was given by Croydon Council for the local residents to put forward their own ideas and participate in the development of the Sites? See - London Borough of Croydon’s “Statement of Community Involvement - October 2012” (https://www.croydon.gov.uk/sites/default/files/articles/downloads/involvement-oct12.pdf) Reference 2.11 & 2.12 - these Guidance Rules have been ignored

2. There is no pavement access to either of the proposed sites therefore most travel to and from these sites to local amenities, (shops/doctors/schools) would be by vehicle – causing even greater traffic problems to the Coombe and Oaks Road junction.

3. Residents call for an independent (i.e non-Labour) lead enquiry into the full extent Dr Anwar Ansari (owner of Coombe Farm, a proposed traveller site) has been able to influence Croydon Council specifically & Labour Government more broadly through financial bribery?

4. Under the freedom of information act, can you please confirm how planning applications Dr Anwar Ansari or a member of his family have submitted to Croydon Council and how many have been accepted/approved ( including those with conditions).

5. The restrictive Covenants for Coombe Farm, (defined as 80 Oaks Road) which are for “thesettlers and their successors in title” states “No part of the Property shall be used for any offensive noisy, dangerous pursuit or occupation or for any purpose which shall or may grow to be in any way a nuisance damage grievance or annoyance to neighbouring properties or the neighbourhood.”

Quote from the 2011 Localism Act; “Through the Localism Act, the Government has abolished the Standards Board regime. Instead, local authorities will draw up their own codes, and it will become a criminal offence for councillors to deliberately withhold or misrepresent a financial interest.”

Tens of thousands of pounds including cash equivalent goods &
services (e.g. supply of rent-free premises for council business, travel expenses and campaign donations) have been disclosed but misrepresented as donations. These are in fact bribes in return for planning leniency (see press article.)

4. Under the freedom of information act, can you please confirm how planning applications Dr Anwar Ansari or a member of his family have submitted to Croydon Council and how many have been accepted/approved (including those with conditions).

5. The restrictive Covenants for Coombe Farm, (defined as 80 Oaks Road) which are for "the Settlers and their successors in title" stated "No part of the Property shall be used for any offensive noisy, dangerous pursuit or occupation or for any purpose which shall or may grow to be in any way a nuisance damage grievance or annoyance to neighbouring properties or the neighbourhood."

I would also ask:
Why are the two sites in very close proximity to one another being proposed?
What is the rationale for creating an imbalance across the borough with all sites being proposed in the South of Croydon?
Why not expand the existing Permanent Gypsy Site in Lathams Way off Beddington Farm Road?
If one has to select one of the proposed sites, the preference is for Pear Tree Farm & Pear Tree Farm Cottage, Featherbed Lane

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

This site is in Green Belt and to create a Traveller site here constitutes "inappropriate Development" in contravention of Policy E of the Government's Planning Policy for Traveller Sites. I object to the proposal.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Mr Ian Engelback

I am writing to object to the use of the following locations as gypsy/traveller sites at Coombe Lodge Nurseries off Conduit Lane (reference number 661). These locations are designated Green Belt and close to sites of Nature Conservation Interest, allocation of such land to gypsy/traveller sites is in contradiction to established government policy as laid out in Planning Policy for Traveller Sites (Policy E).

Mr Terry Coleman

My objections to the proposed traveller site - plan ref: 661.
1) Close proximity to Coombe Wood Gardens and also the access point to the Vanguard Way nature trail.
2) Close proximity to three prestigious eating establishments: Chateau, Coach House Café and Coombe Lodge (which is also an hotel)
3) The proposed site is not suitable for residential purpose, there is no proper access Road.

Mrs Jolanta Berry

It has come to my attention, that the Council is currently considering to change the designation of areas of Green Belt and Metropolitan Open Land, in particular, that of Coombe Farm off Oaks Road, and Coombe Lodge Nurseries off Conduit Lane.

I am most surprised and disappointed, that people within the Council who have been employed to represent and implement the views and wishes of local residents, are pursuing such ideas.

I am very strongly objecting to the idea, and ask you to withdraw the proposals. They will have a detrimental effect on the quality of life for the local residents, and will forever change the character of the area for the worse.

I would ask you to withdraw any plans to change the current status, and to confirm in writing, that my objection and representation has been received, and will be given a due attention. As I understand, a large majority of residents are opposing the idea and expect that you will respect their wishes and views.
Jennifer Worstall
Object

I urge the Council to re-consider allowing traveller sites in the former Croydon nursery in Coombe Woods and at Coombe farm in Lloyd Park – both unsuitable sites, as they are not near amenities such as shops/schools etc which travellers may need to access. The A23 offers a better location for these traveller sites and has better road access too.

Change
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Katrina Neal
Object

I must virulently object against the proposal for gypsy traveller sites on Coombe Lodge Nurseries - Ref 661. This is because I have been a victim of travellers and their general anti social behavior/culture/damage/threatening behaviour in the past...most recently when they illegally took over property in Wickham Road (the old La Rijoca site) in 48 hours you cannot believe the damage they did and how awful it was...I will object to anything that is EVER planned to house them near anywhere I live.

Change
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Jenny Hayden
Object

Ref nos 502, and 661

I strongly object to the use of either of these sites for gypsy/traveller sites. They are both in the Green Belt and one of them borders a conservation site. Policy E of Planning Policy for Traveller sites, published by the Government in August, states unequivocally "Traveller sites, temporary or permanent, in the Green Belt are inappropriate." The Council's approach is clearly in breach of that policy. Both of these sites are some distance from public services. There is an existing site off the Purley Way, could this site not be increased? The public services in this area are far better than by the other proposed sites.

Change
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
As a local affected resident, I am registering my comments and objections to the proposals as documented in the Croydon Local Plans CLP1.1 and CLP2.

6 Proposed Policy DM43 Creation of Gypsy/Traveller sites at Coombe Farm, off Oaks Road, Coombe Lodge Nurseries, off Conduit Lane and Pear Tree Farm and Pear Tree Cottage, Featherbed Lane
As a local affected resident, I am registering my comments and objections to the proposals as documented in the Croydon Local Plans CLP1.1 and CLP2.

Policy DM43, reference Site 502 Coombe Farm reference Site 661 Coombe Lodge Nurseries and reference Site 755 Pear Tree Farm and Pear Tree Cottage. I object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and Coombe Farm is on a site of an Archaeological Priority Zone and contains an area of Nature Conservation Importance. Such development is in breach of Policy E of Planning Policy for Traveller Sites, which says that “Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development”. All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites by 2017, and 39 by 2036 is extremely excessive and will have a significant adverse impact on the borough.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Both my wife and I formally wish to object to the councils proposals for development to the green belt at Coombe Lodge Nurseries and especially for the creation of Travellers sites to them.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

With reference to the recently published ‘Croydon Local Plan’, as a resident of the past 25 years I give my views as follows:

Policy DM44.2, Table 11.17, site 661 (p175). Objection this is classed as Greenfield belt, refer to Policy E of “Planning Policy for Traveller Sites”.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
I wish to voice my concerns regarding the following:

I totally object to any reduction of green space in the borough of Croydon in favour of development. I agree wholeheartedly with Garvin Barwell MP and wish to oppose any such plans. In particular, the idea of a travellers site at the suggested sites is preposterous.

There have been problems in this borough with 'travellers' for many years. To the extent that defences, barriers built up grass mounds, have been created to keep out such illegal encampments. Whilst what the Council are proposing is to legalise such sites, I have witnessed the conditions these area have been left in when travellers have moved on, piles of rubbish including human waste and damaged the area! This has been a massive expense to the council over the years. Areas around Coombe Gardens and Lloyd park are much loved and used recreational areas for the people of Croydon and surrounding areas. A gypsy encampment would be a disaster!

If there is an obligation for the council to provide facilities for travellers, any such area should be very carefully assessed and considered, taking into account all the attributes of the area and how such a camp would affect it. In this instance the suggested areas are totally inappropriate.

DM44.2
661

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Object DM44.2 661

I object to the proposed sites of Coombe Lodge Nurseries 661, and Coombe Farm 502, being used as sites for gypsies and travellers because:

1. It will be detrimental to the amenities of adjoining owners.
2. It is inappropriate use of Green Belt Land. Sites that are located on the Green Belt are considered to be inappropriate for Traveller sites (temporary or permanent) and against Government Policy, “Planning policy for Traveller Sites,” DCLG, August 2015.
3. There is a total lack of amenities close at hand.
4. There is insufficient Local Infrastructure to accommodate the plans.
5. The selection of Proposed Sites should have a bias towards Brownfield or Industrial Land, not Green Belt.
6. Imbalance across the borough with all Sites being Proposed in the South of Croydon.
7. Why not expand of the existing Site in Lathams Way, off Beddington Farm Road.
8. If one has to select one of the proposed Sites, the preference would be for Pear Tree Farm & Pear Tree Farm Cottage, Featherbed Lane.

Other Sites that the council should consider are:

1. 16 Heath Clark playing fields, Stafford Road, Waddon.
2. 120 Timebridge Community Centre, Field Way, New Addington.
4. 522 Wandile Road surface car parks, Wandile Road, Croydon Opportunity Way.
5. 536 Land of former Croydon Airport Runway, south of Imperial Way, Waddon.
6. 552 Land adjacent to Ashburton playing fields, at rear of 2 - 88 Coleridge Road, Addiscombe.
9. 636 Land west of Timebridge Community Centre, Lodge Lane, Elmside, Addington.
10. 767 Cane Hill - south part, Holmmeaok Road / Portnalls Road Coulsdon

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

5. The use of the following locations as gypsy/traveller sites:

- Coombe Farm off Oaks Road; reference number 502; and
- Coombe Lodge Nurseries off Conduit Lane; reference number 661.

These are both in the Green Belt, where Policy E of Planning for Traveller Sites clearly says that “travellers sites (temporary or permanent) in the Green Belt are inappropriate development”.

This is also likely to have a negative effect on the Site of nature conservation interest that one of the sites would border, and both sites are a distance from public services. It is also likely to create increased traffic problems in an area that is not best suited for such sites.

Consideration should be given to the refurbishment of the existing sites, or where this is not possible, alternative and more appropriate sites.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
I have been a Croydon resident for many years (over 47), and have watched Croydon wax and wane. In all those years, Croydon has often been regarded as rather down at heel and a bit of a joke; it has been misrepresented in the media too many times in my view. Croydon remains a vital communications hub, which seems only recently to have been recognised. Given all the development in and around East Croydon station, your plan for these improvements is beginning to take shape. As we all know, London Victoria in 20 minutes, London Bridge in 20 minutes; not to mention the east/west Tramlink which has become so popular that TfL decided to grab it! Croydon's communications should be more widely acknowledged. You were elected on a ticket to not only improve Croydon for ALL its residents but also to preserve its assets such as the green belt and areas of special scientific interest. Imagine my dismay and great disappointment when I discovered in your proposal that you considered it perfectly legitimate to build on green belt – absolutely at odds with your manifesto. AND that you are prepared to ignore your promises in preserving Croydon's assets to the very people who elected you. How can the electorate trust you in the future, especially at the next council election, if you blatantly disregard your election pledges and set about to destroy the green spaces enjoyed by many of Croydon's residents? All green belt is part of Croydon's assets, it represents the lungs of Croydon, benefiting all and in many cases providing a haven for migratory birds as they stop-over en route and indeed other wildlife whose habitat is likely to be destroyed/diminished if the green belt is built on. Altering the status of green belt or areas of special scientific interest enabling it to be built on does NOT alter the fact that once built on it will never revert to green belt and therefore will be lost (to Croydon and its electorate), forever. I would urge you to reconsider your proposals to destroy part of the green belt and to maintain the status of the open spaces as is. Croydon occupies a vast area and I am certain you could find suitable alternatives for the travellers which met their needs of access to public transport and retail amenities without destroying the green belt or areas of special scientific interest if you tried hard enough. I am sure you are aware that Government policy states "Traveller sites temporary or permanent in the Greenbelt are..."
inappropriate development

</tr>
</tbody>
</table>
Happy for the Council to replace under-used garages with much-needed homes, but will be objecting to building on precious open space.

Objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.

The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services.

If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mr Mike Jones

Why build gypsy encampments? They are travellers and should be encouraged to continue travelling. If such land is available then it should be for social or normal housing

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mr & Mrs Adams

It is entirely inappropriate to consider creating Gypsy/Traveller sites in these locations. Not only are these greenbelt sites, they are also very close to residential areas and several schools. In August, the Government published "Planning Policy for Traveller Sites" in which Policy E states: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development".

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mr Peter Newsham

I am a resident of Shirley and I wish to register my objection in the strongest possible terms to proposed developments in Shirley and to add my voice to that of my MP, Mr Gavin Barwell, whose views on this matter I echo.

The proposed Travellers’ site, ref. 661, contravenes present legislation because they are in the Green Belt and are therefore classed in Government documents as ‘Inappropriate development’. Does the Council propose to break the law as well as ride roughshod over massive public objection to this plan?

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Mr Peter West  
Object  
DM44.2  
661  
I object to this site as we need space and sensible development that compliments the environment.

Mrs Margaret Lawless  
Object  
DM44.2  
661  
I list below the relevant policy references to which I object. Table 11.17 site 662 (p179)

Mr Nick Barnes  
Object  
Soundness - Justified  
DM44.2  
661  
Having read both local plans for the Shirley area, I strongly object to all aspects in both plans, this includes the 750 new homes on Shirley Oaks Village, 35 new homes in Shrublands, the two gypsy sites at Combe Fram and Conduit Nursery and the development for up to the four storeys along Wickham Road.

Nicola Shipp  
Object  
DM44.2  
661  
As a resident of Croydon all my life, I wish to register my opposition to the following “plans”... DM44.2 SITE 661 – Coombe Woods Gardens, the site would be ruined if Travellers were allowed to have a permanent site in this lovely location. I have experienced the disgusting mess left behind by “Travellers” during my journey to work in Commerce Way, Croydon and the proposed Lidl site on the old BMW SITE, South Croydon.
I wish to object to some of the proposals in the Croydon Local Plan as follows:

I object to the proposal (policy DM44.2 Table 11.17) to create a Gypsy/Traveller site on Conduit Lane next to Coombe Wood Gardens (site 661) and/or Coombe Farm (site 502). Policy E of "Planning Policy for Traveller Sites" published by the Government in August states that "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". This would not comply with Policy SP2.7a and SP2.7b. Previous scenes from Traveller sites demonstrate that they end up as dump; not the sort of image we want to portray for Croydon.

I object to the proposed loss of Green Belt status for

1. Coombe Playing Fields - (site ref 662) and object to the proposal for development in Policy DM44.2 Table 11.17
2. Croham Hurst - this is a biological Site of Special Scientific Interest and a Site of Metropolitan Importance for Nature Conservation
3. Sanderstead Plantation

The de-designation of these sites would not comply with Policy SP7.2 and protection of the green grid.

I object to the proposed loss of Local Area of Special Character protection for many roads such as West Hill, Campden and Spencer Roads, the Woodcote Estates and Hartley Farm. Loss of protection will open up these roads to inappropriate development. Roads, such as Oakwood Avenue in Purley should also be included as new Local Heritage Areas.

I object to the possible "Garden Grabbing" that policy DM2 will make much easier. National and London policy classifies gardens as green field, but the proposed new policy DM2 says that the Council will allow building on gardens. We need to keep our green spaces.

I also object to the proposed retail development of the old "Good Companions Pub" site in Hamsey Green, which the proposed policy DM4 1.3 table 11.14 (site 306) would allow. A retail outlet in such a location would cause traffic chaos. It will be far better to develop it as a residential site (with ample parking) and in character with other housing in the area - not a block of flats.
On the question of parking, I note that some new developments do not seem to cater for this. Green Dragon House being a typical example. All new developments should provide for ample parking for residents and their families.

Please take the above comments into account when assessing the proposed Croydon Local Plan.

Yours faithfully

<td>DM44.2</td>
<td>J</td>
<td>I think it is important to state a case against the proposal to create a gypsy/traveller site on Conduit Lane which is at present, and has been for centuries, an unspoilt amenity for all who live in the borough. Our national government has the right idea i.e. Traveller sites (temporary or permanent) in the Green Belt are inappropriate development, so why is our local government even considering going against this policy? Certainly in this instance, the character of the area would be noticeably changed and adversely affect the lives of many, whilst not being a particularly convenient</td>

</tr>
</tbody>
</table>

Site 661, Coombe Lodge Nurseries, Conduit lane. Transition Town have expressed an interest in restoring this site to a proper nursery facility, utilising the existing greenhouses for the growing of food, which would be a sustainable and appropriate activity within this green belt site.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
All three sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. I am concerned that all three sites are also some considerable walking distance away from GP practices, shops, schools, public transport and other local services which would be contrary to the Council’s Health and Wellbeing Strategy.

Furthermore, Policy E of ‘Planning Policy for Traveller Sites’, published by the Government in August, states very clearly that ‘Traveller sites (temporary or permanent) in the Green Belt are inappropriate development’. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs with their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the ‘Assessment and Selection of Sites for Gypsies and Travellers’. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of ‘extensive political consultation’. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I would like you to note my strong objection to the granting of any Planning Application relating to the following Policy Ref. DM44.2, Table 11.17, Site 661.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

The council plans to create a Gypsy/Traveller site here. This is a greenbelt site, and it is not appropriate to put a traveller site here. Policy E of (Planning Policy for Traveller Sites), published by the Government in August, says very clearly: (Traveller sites (temporary or permanent) in the Green Belt are inappropriate development).

Flouts existing Government guidelines published in August 2015.

I would also like to object to the following applications for traveller sites. Application numbers: 502, 661 and 755. All three are in green belt land and therefore inappropriate developments and should not be allowed to go ahead.
Mr J Wilkinson  
Jamar  
Object

I would like to object to these proposals in particular as they seriously impinge on The Green Belt. They would be inappropriate development and not comply with relevant Policy. They are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Where I live in The Ballards Farm Area there is a significant number of development proposals annually - mainly back garden development - all with negative implications for the valuable Green Belt. Croydon needs more not less. “Protecting the borough’s open space and the (sic) distinctive heritage and character, alongside the necessary infrastructure to mitigate the impact of growth” is in everyone’s long term interest.

Mrs J Middleton  
Object

I object to the site for use for a gypsy and traveller site.

Mr Mike Marcroft  
Object

Please do not allow the above to settle on Green Belt land. There must be other sites in the Borough that can be made available. Our Green Belt land is precious to us all.

Sarah McNamara  
Object

I would just like to express my concern about Croydon Council’s plans to build in these three Green Belt areas. I understand and appreciate the need for more homes across the borough but could you, again, consider using all the empty homes and office spaces instead of filling up beautiful and plentiful land?

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

<td>Mr Tim Duce</td>
<td>I object to the building of gypsy traveller sites on Green Belt, especially as one of them borders a Site of Nature Conservation interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. Nature Conservation is indeed a very low priority to the travellers that I have seen. I voluntarily clear up the dumping at Addington Hills and have witnessed the appalling environmental destruction wreaked by visiting travellers. Cleaning up after their visits is a very costly exercise, so putting travellers close by a Conservation Site would be extremely foolhardy. Over the next few years, it would cost council tax payers a fortune.</td>
<td>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</td>
</tr>
</tbody>
</table>
I wish to register the strongest possible objection to the specific proposals in the Croydon Local Plan proposing a school or gypsy site at Conduit Lane, and a Gypsy site at Coombe Farm.

Regarding Conduit Lane, clearly, Niccolo Machiavelli would have been proud of the tactic of proposing a gypsy site or a school site. Presumably, the thought was that people are gullible enough to believe that these are either/or proposals!! They are certainly as different as chalk and cheese. I consider both options to be unhelpful, inappropriate and out of keeping with the current use of the area. I am also generally surprised that they are considered viable options worthy of serious consideration as they appear random in nature and devoid of any real local knowledge.

Regarding both gypsy site proposals, neither are in keeping with the existing 'texture' of the areas. They add nothing to the quality of life of local residents (quite the contrary) and generally they are so out of keeping with the current general use enjoyed by those neighbourhoods that one is left wondering how they even made it into a plan? Were the proposals drawn up by someone completely ignorant of the area?

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

SP2.7 makes no mention of impact on the surroundings of the site and nearby residents. Accordingly, an additional criterion should be added f. Must be entirely acceptable in relation to its impact on nearby public spaces and residents and businesses in the area. If this were included the proposals Ref 661, Coombe Lodge Nursery, would immediately be seen to be inappropriate. Coombe Lodge Nursery is by the lovely gardens of Coombe Wood with its popular tea room and wooded area. I consider both Coombe Farm and Coombe Lodge Nursery as wholly inappropriate places to locate gypsies and travellers.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Diane Simpson

Object Soundness - Justified

DM44.2

Happy for the Council to replace under-used garages with much-needed homes, but will be objecting to building on precious open space.

Objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.

The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services.

If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Juliet Stevenson

Object Soundness - Justified

DM44.2

I am objecting the the proposed sites - Coombe Lodge Nurseries, Coombe Farm, Pear Tree Farm - on the following grounds:

It is an inappropriate use of Green Belt land and the proposals are contrary to the Government policy (Policy E of the Planning Policy for Traveller sites) which states that "Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development".

Selection of proposed sites should have a bias towards Brownfield or Industrial land not Green Belt

It is detrimental to the amenities of the adjoining owners

There is a lack of relevant amenities close at hand

There is a lack of local infrastructure to accommodate the plans and additional traffic

All the proposed sites are in the south of the borough with two being very close together

There is already an existing permanent site in Lathams Way which could be expanded.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

<td><strong>Mr Michael Eldridge</strong></td>
<td>I am making representations against the proposed Travellers' sites at Coombe Lodge Nurseries, Conduit Lane, South Coombe Road, South Croydon, CR0 5RQ (Site reference number: 661) and at Coombe Farm, Oaks Road, Shirley, CR0 5HL (Site reference number:502). Both these proposed sites are within the Green Belt and the proposals are contrary to Government policy (Policy E of Planning Policy for Traveller Sites) which states that 'Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.' In addition the areas in question form a particularly precious 'green lung' not far from the centre of Croydon and any development would in my view be deleterious to this amenity. I cannot suggest alternative suggested sites but would prefer one that is not within Green Belt/Metropolitan Open land, of which I understand there are several in the Borough of Croydon.</td>

<td>I am emailing you to express my concerns about Croydon Council's Plans to build Gypsy/Traveller sites in Green Belt areas. I understand that there is a great need for housing in the Croydon area and that the number of homeless people in Croydon is high. However, I need assurance that in providing this need we do not destroy our few remaining green spaces as these are vital to the well-being of our environment and people's health. When I received the information about these proposals from my MP and local residents' association I had been away from home and so have not studied these plans in depth. However, with the information I have I cannot visualize how these proposals would work without destroying the character of the Shirley area and the destruction of our few remaining green areas. In order for me to agree to these proposals I would not only require the assurance that these environmental issues were taken into account but the homes that are planned for were affordable to those who are in need of a home, and that they were of good quality, energy efficient homes. Finally, having lived in Shirley for many years I have seen the increase in traffic which has brought about an increase in air pollution which is detrimental to our health. This is another important factor that has to be borne in mind when increasing the density of the population of the area.</td>

Subject: Object Soundness

I am objecting the following proposed sites:

- Coombe Lodge Nurseries (Site Reference Number 661)
- Coombe Farm (Site Reference Number 502)

The reasons for my objection are on the following grounds:

It is an inappropriate use of Green Belt land and the proposals are contrary to the Government policy (Policy E of the Planning Policy for Traveller sites) which states that “Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development”

Selection of proposed sites should have a bias towards Brownfield or Industrial land not Green Belt

It is detrimental to the amenities of the adjoining owners

There is a lack of relevant amenities close at hand

There is a lack of local infrastructure to accommodate the plans and additional traffic

All the proposed sites are in the south of the borough with these two in particular being very close together

There is already an existing permanent site in Latham’s Way which could be expanded.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object

I live on Coombe Lane in Croydon and would like to formally object to the proposal to build traveller sites at Coombe Farm (off Oaks Road) and Coombe Lodge Nurseries off Conduit Lane. I believe these proposals will change the character of this area which I live in significantly for the worse. I also understand that the proposals are contrary to Government policy (Policy E of Planning Policy for Traveller Sites) which states that traveller sites, temporary or permanent, may not be built on Green Belt land.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
1. This site is also in the green belt and according to Government Policy is deemed inappropriate.

2. Coombe Park which is a beautiful landscaped park and contains many memorials to war dead and families loved ones will be completely overwhelmed by this enormous traveller development for up to 75 mobile homes right next door.

3. The huge amount of traffic going along Conduit Lane will make access to the park from the parking bays on the other side of the road much more difficult and dangerous. These parking bays are used by the very young and the very old to give them easy and safe access to this beautiful public park.

4. Again the size of the site will totally overwhelm the nearest settlement of residents on Coombe Road, Oaks Road and Oaks Lane.

5. The closest schools are oversubscribed so would be unable to meet the needs of so many new children to the area.

6. The council has gone to great expense to protect the site from mobile travellers and this seems to have been a great waste of tax payers money if they now allow a permanent site.

7. Several businesses which make a big contribution to the local economy and also provide much needed amenity to the public will be detrimentally affected by the site.

The site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Mr John Clarke

Object DM44.2

Not in line with Government planning policy on the Green Belt Detail:
- Government planning policy with regards to traveller sites wants to ensure that plan-making and decision-taking should protect Green Belt from inappropriate development.
- The proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the Planning Policy: “Inappropriate development is harmful to the Green Belt and should not be approved, except in very special circumstances.”. There are no very special circumstances.
- The National Planning Policy Framework makes it clear that unmet housing need (including for traveller sites) is unlikely to outweigh the harm to the Green Belt and other harm to constitute the “very special circumstances” justifying inappropriate development on a site within the Green Belt.
- The local character description is clearly at odds with the proposal.
- The justification acknowledges the Green Belt issue, though insufficiently, but relies on the fact that there are existing structures. These are not in fact substantial “being glasshouses” and could be said to be at least environmentally consistent with the Green Belt. But there is no very special circumstance justification proposed as required by Planning Policies.
- Approving the proposal would set a precedent and open the surrounding areas to be subject to similar development. It is not in the community’s interests to allow the erosion of the green spaces surrounding the community and we object to the impact this site could have on the environment and wildlife. In the light of these issues, it is not appropriate simply to weight Green Belt as one of many factors to be considered, but rather it presents an overarching policy objection that cannot be over-ridden in the way proposed. To be considered deliverable, sites should be available now, offer a suitable location for development now and we do not believe that The Assessment and selection of sites for Gypsy and Travellers undertaken was credible. Plan makers have not considered the time it will take to commence development on site need for infrastructure improvements-roadsThere is basis for challenging the way in which this potential site has been selected.
- Para 3.1: Green Belt sites included for review of eligible sites “to ensure that all locations for a site considered”, but at the same time this site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
"Exclusion of sites in Croydon Metropolitan Centre and within District Centres and Strategic Industrial Locations and Conservation Areas due to viability, deliverability and impact on heritage considerations." Is this even-handed?

Para 4.1 sets out the criteria and weightings. As indicated above, Green Belt with no built form is given a weighting (-10) which, though high, is not very significant given that there are 29 or 30 criteria and can easily be outweighed by other factors that are less significant in policy terms.

SP2.7 on the Council’s proposals to deliver 39 additional gypsy and traveller sites indicates that land will be allocated in accordance with the proposals, but that any ADDITIONAL sites that are not so allocated should meet some stated criteria, including good access to local shops and essential services and good transport access; these seem to be criteria that were excluded from the proposed allocation, suggesting that any alternative proposals would need to meet stiffer criteria. Is this fair and even-handed?

The bases for site criteria weightings are unclear.

Note that paragraph 4.19 in referring to the need for good access to roads, states that “they often need to move larger vehicles as part of their livelihood and way of life” - this may be an assertion relevant to the assessment of sites and the narrowness of Coombe Lane. The objections may be summarized as:

- inappropriate use of Green Belt land
- lack of relevant amenities close to hand
- adverse effect on neighboring businesses and leisure amenities
- the site has a more appropriate use for a school

| 3764/01/002/DM44.2/0 | Mr & Mrs Chambers | Object DM44.2 661 | The proposed Traveller Sites are totally inappropriate developments for these Green Belt Areas. We strongly object to this part of the Croydon Plan. |

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Object: Soundness - Consistent with National DM44.2 661
Policy DM44.2: this refers to the proposal to allow a gypsy/traveller site, which is not appropriate for the area, and furthermore is against Government policy. We oppose this proposal.

Change: This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object: DM44.2 661
Given what I have recently observed at an illegal Traveller occupation at the former Rioja Tapas bar just outside Shirley I object to the use of areas off Oaks Road and Conduit Lane as Traveller sites. References 502 and 661.

Change: This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object: DM44.2 661
We note that there are alternative proposals to build a school and a gypsy and traveller site in this area. These we have been able to find on the local plan. We see the pressing need for additional secondary school places and would support the building of a secondary school - the need is sufficiently pressing to justify Coombe Lodge Nurseries being used for this purpose. We do not think the loss of the Coombe Road Playing Fields can be justified - there has been too great a loss of playing fields already, and the new school will need playing fields. Great thought will, however, be needed as to access and transport arrangements. These problems are not insuperable, but:
1. the main road and surrounding roads are already at high capacity in rush hours, and
2. there are great dangers to pedestrian and cyclist safety which will require a cycle path, tunnel or bridge or both, connecting the school to the tram and crossing the main road safely to the school, perhaps via the playing fields.

We do not think the loss of Green Belt land can be justified for a gypsy and caravan site. The access to the Nurseries is entirely unsuitable for a gypsy and caravan site.

Change: This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
RE: LAND ON EITHER SIDE OF SHIRLEY OAKS ROAD, SHIRLEY OAKS VILLAGE, POPPY LANE; STROUD GREEN PUMPING STATION; COOMBIE FARM, COOMBIE LODGE NURSERIES off Conduit Lane, land west of Shirley Oaks Road, rear of 5-13 Honeysuckle Gardens OBJECTION TO DE-DESIGNATION GREEN BELT; SHIRLEY, NEW ADDINGTON, FOREST HILL

We have lived in the Borough of Croydon for 30 years and value its vibrancy and diversity.

As Croydon ratepayers we object to the de-designation of Metropolitan Open Land generally, especially land detailed above, which will change forever Croydon’s character.

We would ask you to encourage policies/development to:

1. Build new housing on brown field sites by all means AND preserve invaluable green space for the benefit of the community of Croydon; 2. Protect green belt land and preserve the green corridors we desperately vital for wildlife and biodiversity; 3. Amend the tall buildings policy and keep the tall building zone where it is suited in the centre of town; 4. Utilise brownfield sites for new low-level housing only where it can be developed alongside new GP surgeries, schools and improved public transport; 5. Traveller sites are not appropriate in the green belt and is a clear breach Policy E of Planning Policy for Traveller Sites. When travellers camped on Addington Playing Fields in 2012/13 they left rubbish, debris, waste, and deterioration to a local green space. Sadly true of most traveller sites.

"Nowadays people know the price of everything and the value of nothing". Green Belt is vital and precious. Once lost for future generations and will not be replaced by developers.

We understand the need for housing, schools, hospitals and infrastructure. Are the Developers investing these also alongside their building investments?

Please protect our few remaining green spaces on the borough map, by making better use of brown field sites.

| Change | This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found. |
Can I remind you of the definition / meaning of GREEN BELT:

The Government formerly set out its policies and principles towards green belts in England and Wales in Planning Policy Guidance Note 2: Green Belts, but this planning guidance was superseded by the National Planning Policy Framework (NPPF) in March 2012. Planning Authorities are strongly urged to follow the NPPF's detailed advice when considering whether to permit additional development in the green belt. In the green belt there is a general presumption against inappropriate development, unless very special circumstances can be demonstrated to show that the benefits of the development will outweigh the harm caused to the green belt. The NPPF sets out what would constitute appropriate development in the green belt.

According to the NPPF, there are five stated purposes of including land within the green belt:

- To check the unrestricted sprawl of large built-up areas
- To prevent neighbouring towns from merging into one another
- To assist in safeguarding the countryside from encroachment
- To preserve the setting and special character of historic towns
- To assist in urban regeneration, by encouraging the recycling of derelict and other urban land.

Once an area of land has been defined as green belt, the stated opportunities and benefits include:

- Providing opportunities for access to the open countryside for the urban population
- Providing opportunities for outdoor sport and outdoor recreation near urban areas
- The retention of attractive landscapes and the enhancement of landscapes, near to where people live
- Improvement of damaged and derelict land around towns
- The securing of nature conservation interests
- The retention of land in agricultural, forestry and related uses.

This is a totally preposterous proposition and I am quite frankly astonished that such a ludicrous idea has been proposed.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.

The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services.

If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Object 661

Finally, the Council has identified two locations on the edge of Shirley for gypsy/traveller sites:

• Coombe Farm off Oaks Road, which is identified as suitable for 15-20 pitches (pages 449-450, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 502); and
  • Coombe Lodge Nurseries off Conduit Lane, which is identified as suitable for 15-25 pitches (pages 468-469, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 661).

I vigorously object to the use of either of these locations as gypsy/traveller sites. As you have to be aware, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

“Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question – there must be more suitable sites which are closer to local amenities (there is nothing in the way of shops or even a bus-stop at these sites, necessitating extra vehicular traffic on an already busy road at best or pedestrians attempting to cross at a very dangerous point with blind bends and junctions at worst), sites which are not in Green Belt land, perhaps even sites which already exist and could be expanded (such as the one on Purley Way).

Again, I stress that I am not opposed to development as such, and applaud the efforts that the council is making to build on the work of the previous administration and improve Croydon yet further. But these proposals go too far, and in my opinion they go in the wrong direction.
Fourth, the Council has identified two locations on the edge of Shirley for gypsy/traveller sites:
- Coombe Lodge Nurseries off Conduit Lane, which is identified as suitable for 15-25 pitches (pages 468-469, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 661).

I object to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.

Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

I strongly object to this policy and the plan to create a traveller site at this location as it is a greenbelt site and not appropriate for this purpose, as per Policy E of "Planning Policy for Traveller Sites".

With reference to the Local Plan which has been proposed, please note my objection to the following policies:
Gypsy/Traveller site on Conduit Lane, next to Coombe Wood Gardens Policy DM44.2, Table 11.17, site 661

I am emailing to record my objection to the following policies within the 'Local Plan'.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

The council has gone to great expense to protect the site from mobile travellers and this seems to have been a great waste of tax payers money if they now allow a permanent site. Several businesses which make a big contribution to the local economy and also provide much needed amenity to the public will be detrimentally affected by the site.
Policy E of “Planning Policy for Traveller Sites”, published by the Government in August, states very clearly that Traveller sites (temporary or permanent) in the Green Belt are inappropriate development. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 6 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the ‘Assessment and Selection of Sites for Gypsy and Travellers’. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of ‘extensive political consultation’. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Comment Site 661, Coombe Lodge Nurseries, Conduit lane. Transition Town have expressed an interest in restoring this site to a proper nursery facility, utilising the existing greenhouses for the growing of food, which would be a sustainable and appropriate activity within this green belt site

Site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document.

Mr Jon Adams

Object Policy DM44.2, Table 11.17, site 661 (p179). The council plans to create a Gypsy/Traveller site here. This is a greenbelt site, and it is not appropriate to put a traveller site here. Policy E of "Planning Policy for Traveller Sites", published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development".

Mr Jon Taylor

It is with regret that I feel the need to object to the following proposals:-
- Purley skyscraper Policy DM40.1. I feel this proposal is completely out of keeping with the surrounding area and I strongly oppose it.
- Garden acquisition Policy DM2. This will make ‘garden grabs’ far too easy in my opinion, is far too subjective and is therefore a far weaker form of protection.
- Sanderstead Lidl site Policy DM41.3. This proposal will likely cause real problems to traffic in the vicinity and I do not think it is an appropriate site for retail development.
- Loss of Green Belt at Coombe Playing Fields and Croham Hurst Policy DM44.2. I believe that both of these locations should remain Green Belt and that re-designation is inappropriate. It will impact the area badly and in conjunction with other changes steadily change the nature of the area for the worse. The Gypsy/Traveller site on Conduit Lane Policy DM44.2. Finally I must strongly object to Council plans to develop a Gypsy/Traveller site here. I feel it is totally inappropriate placing this on Green Belt land and is in direct contravention of the "Planning Policy for Traveller Sites" published by the Government just last August!

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
I object to the changing of this lovely open land into a Gypsy and Traveller site or made into residential land. It is vital some green spaces remain in the area.

I could not believe what I was reading on this point; this is a lovely green belt area. I frequently visit Coombe Wood Gardens, in fact I have been visiting it since I was a child. It is a lovely oasis in an increasingly overcrowded Croydon, it is so well maintained and a joy in each different season. I object very strongly to designation of the area next to it as a gypsy and traveler site or school, as it will increase traffic and make the area more noisy and messy. This area MUST stay designated as green belt, it is a jewel in Croydon's crown, and I am appalled that our Council could consider either of these options and I object to this proposal.

Change
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I object to Coombe Lodge Nurseries off Conduit Lane, which is identified as suitable for 15-25 pitches (pages 468-469, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 661). Change: This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
As a resident in Shirley I am utterly disgusted at the proposal for the gypsy/traveller site being proposed in Coombe Farm & Coombe Lodge Nurseries.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

We want to register our horror at the thought of a travellers site being allowed on this land. We feel that this land would be far better used as a school site or for affordable housing. It is a prime piece of land, which is a brownfield site, ripe for the right sort development and can be sold for a significant sum of money. Some of that money could be used to fund a travellers site in an area where the land value is cheaper. In this way funds will be released to the borough. If it is sold for development for housing, the council will also then reap the benefit of council tax.
I would like to object to object to Policy DM 44 and DM 43 for proposing Gypsy and Traveller sites on the Conduit Lane nursery and Coombe Farm off Oaks Road. Both sites are located on the Green Belt and clearly considered to be inappropriate development for Traveller sites (temporary or permanent) and against Government Policy. There are no very special circumstances that have been advanced by the council to allow the use of this land. It is not in the local community's interest to erode the Green Belt and would set a worrying precedent for future planning applications. This is not deliverable on either sites and they are clearly not a suitable location for development and the council has not taken into account the time it would take to bring the plan to fruition. There is a lot of implications for the local area that don't seem to have been taken into account: the road network is at capacity, local amenities are not ready to take an increase in demand (no space in local primary schools). The council has provided little credibility in the assessments that due diligence had been done regarding the sites: do we need an Environmental Impact Assessment to safeguard the local Coombe Gardens? How much would it cost to mitigate the impact of the sites on this local SAC? Impact on Lloyd Park? These two sites are not sustainable in the fact that they do not seem to meet the Gypsies and travellers needs. There are not enough local amenities for this community (where are the local shops they can walk to? Where are the local doctors they can walk to? What school would the children go to?). The proposed developments also compromise the future of the local area and are therefore not sustainable. There are an awful lot of issues that the council doesn't seem to have taken into account when looking at both sites of Conduit Lane and Oak Farm. These two sites are not too big for what the Travellers community express preference for. The sites are too far for local amenities that they prefer to walk to. The local road network would not be safe for moving larger vehicles. Coombe Lane is incredibly busy all day long and is too narrow to provide safe entrance and exit to larger vehicles. The visibility at the entrance and exit of the sites is not good enough to ensure there will be no accidents. The junction of Coombe Road / Oaks road and Conduit Lane is dangerous enough as it currently is.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
The council doesn't seem to have taken into account that travellers sites are generally mixed-use employment sites and does not address how commercial activities on site would be compatible with surrounding Green belt land and local SNCl. How can the council safeguard these local lands from waste materials and possible hazardous materials?

Mr & Mrs Brymer

Object

Soundness - Justified

DM44.2

661

I write in connection with the proposals for two traveller sites in South Croydon which have been identified by the Labour Council in the local plan. We are extremely concerned by this; these sites are in close proximity to where we live and we have seen the rubbish and human excrement that has been left around the area when they resided in Conduit Lane in recent years. Furthermore, an individual on the site verbally abused a family member when walking past to Coombe Gardens. Conduit Lane is used extensively by families and residents who are enjoying the footpaths and greenery of South Croydon. This is not an appropriate locality for such sites and we should be defending our green spaces from all threats, including traveller sites.

Mr & Mrs Posner

Object

DM44.2

661

I have lived in Croydon for nearly 50 years and am now retired. My husband and I are appalled at the proposed plans for Croydon. We have carefully studied the letter from our MP Mr Gavin Barwell and are totally in agreement with all his suggestions.

Overall, I would question whether our roads and other services would be able to cope with the proposed building ideas. To assume people will use fewer cars in the future is just plain silly. With regard to creating spaces for travellers by Coombe Wood Gardens, a brilliant and prize-winning park is totally irresponsible. The elimination of green areas by so much development would surely be injurious to the health, well-being and enjoyment of the citizens of Croydon.

My husband and I as Council tax payers over many years urge the Council to re-consider their plans in detail.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Development is on Green Belt. The Croydon Plan states: ‘The Council will seek to protect the special character of wooded hillsides and ridges. Development that would adversely affect the character of the area ... will be refused.’ (UDP Policy UD9). We feel very strongly that the character of the wooded hillside would not be maintained as there would not be space to grow trees. This development will simply add a built up area with little thought to conservation or environmental issues. The proposed new house would be visible from two areas of Green Belt: the grounds of Royal Russell School, Croham Hurst and Croham Hurst Golf Course. The Croydon Plan (UDP Policy RO6) states: ‘Development within or conspicuous from the Metropolitan Green Belt or Metropolitan Open Land will not be permitted if it would harm their visual amenity.’ Proposed Sites should be on Brownfield or Industrial Land not Green Belt. It is very odd that the proposed two sites are not only in very close proximity to one another but they are also both in South Croydon. This creates an imbalance across the borough with all sites being proposed in the South of Croydon. We are also concerned that DCLG good practice guidance: Designing Gypsy and Traveller Sites – A Good Practice Guide, 2008 has not been followed:
- Nothing has been done to encourage community cohesion - this is being forced on local residents and will do nothing to encourage social integration.
- These are semi-rural locations and noise from vehicles will disturb residents.
- Both the proposed sites are on green belt land, as stated above and thus the proposal is NOT in accordance with existing planning policies.
- A traveller site at these locations would in no way be in keeping with the local environment of a green belt area.
- Vehicles of this size would require a suitably large turning space to allow entry and exit from the site. High traffic volumes on Coombe Road and Oaks Road often travelling in excess of the speed limit, combined with the regular movement of large slow vehicles at these locations would introduce a substantial safety risk to road users.
- There is no evidence to suggest that there has been any gypsy family who has historically resided at, or near the proposed sites. There is no evidence of local family support existing in the vicinity of these sites.

We believe that instead of both Coombe Lodge Nurseries and Coombe Farm, the Council should consider the following sites:

- 16 - Heath Clark playing fields, Stafford Road, Waddon
- 120 - Timsbury Community Centre, Field Way, New Addington
- 518 - Land adjacent to 103 Goodenough Way, The Admirals Walk, Old Coulsdon
- 522 - Wandle Road surface car park, Wandle Road, Croydon Opportunity Area
- 536 - Land of former Croydon Airport runway, south of Imperial Way, Waddon
- 552 - Land adjacent to Ashburton playing fields at rear of 2-88 Colneidge Road, Addiscombe
- 553 - By Pavilion Playing Fields, Purley Way, Waddon
- 632 - Land south of Threethalpenny Woods, Kent Gate Way, Bride Way, Addington
- 636 - Land west of Timsbury Community Centre, Lodge Lane, Elmside, Addington
- 797 - Cane Hill-south part, Hollymoak Road / Portnalls Road, Coulsdon

Although a number of these following Sites may be Green Belt / Metropolitan Open Land, this should not preclude them, as they could be re-designated.
Where is the evidence that there is need for a site at these particular locations? This information has not been provided. When will the detailed site plans be made available? If not available at the start of the consultation period then this is surely a serious breech of government planning guidelines.

Object Soundness - Consistent with National DM44.2 661

Ms M de Villiers

I also object to the following policies in relation to Shirley (neighbouring area to where I live):
- Both proposed traveller sites are in the Green Belt and thus inappropriate as they are in breach of the Government Policy E, in relation to Planning Policy for Traveller Sites. They are also far from public services. I suggest the existing site on Purley way is reconsidered.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object Soundness - Consistent with National DM44.2 661

Lee Kirby-Walker

I am writing to object to:
- The use of the following locations as gypsy/traveller sites:
  - Coombe Farm off Oaks Road reference number 502
  - Coombe Lodge Nurseries off Conduit Lane reference number 661

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object Soundness - Consistent with National DM44.2 661

Cllr M Gatland

I wish to object to the following:
- The use of the following as traveller or gypsy sites Coombe Lodge Nurseries site ref 661 Coombe Farm. Site ref 502. This is inappropriate development on Greenbelt.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Object Sites are located on the Green Belt, considered to be inappropriate development for Traveller sites (temporary or permanent) and against Government Policy ("Planning policy for traveller sites", DCLG, August 2015): the proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the Planning Policy. Inappropriate development, harmful to the Green Belt, should only be approved in very special circumstances. There are no very special circumstances that have been, or can be, advanced to allow the use of this land (The National Planning Policy Framework makes it clear that unmet housing need (including for traveller sites) does NOT constitute exceptional circumstance). Inappropriate development is clearly harmful to the Green Belt. It is not in the surrounding community's interest to ensure the Green Belt to be eroded - approving this application would also set a precedent and open the surrounding areas to be subject to similar planning applications.

Negative impact on the local environment and wildlife. Inappropriate to simply weight Green Belt as one of many factors to be considered in the assessment process, rather it presents a policy objection that cannot be over-ridden in the way proposed.

To be considered deliverable, sites should be available now, and offer a suitable location for development now. The site is clearly not a suitable location for development. Plan makers have not considered the time it will take to commence development on site: need for infrastructure improvements (roads), need for local amenities improvement (primary school, doctor) Plan makers have not considered the time and necessity to show due diligence in assessing the sites: need for an Environmental Impact Assessment (this would be a schedule 2 development having significant effects on the environment and needing an EIA) need for a Local Biodiversity Action plan to determine the sensitivity of the location Plan makers have not ensured that the process has credibility and acceptance: the bases for site criteria weightings are unclear. Plan makers will need to provide robust, up to date evidence to support the deliverability of sites, ensuring that their judgements on deliverability are clearly and transparently set out. Plan makers have not taken the cost and time Sustainable development is development that meets the needs of the present, without compromising the ability of future generations to meet their own needs. The proposed development does not meets the needs of the present: Gypsies and Travellers needs are not addressed: not enough local amenities, sites are too big, unfit local roads. The proposed development does compromise the future of the local area. Government planning policy is to ensure local planning authorities have due regard to the protection of local amenities and the local environment. It is likely the proposals will have an adverse effect on local businesses Coombe Wood is a Site of Nature Conservation Interest (SNCO) (List of Historical Park and Gardens 2008) and borders the proposed Coombe Lodge Nurseries site, and would be negatively impacted by the plans. Croydon Council has already recognised this in its Development Management Policies document. The Borough Character Appraisal of 2015, the local area is listed as having special character. The proposed development is not sensitive to, and does not respect, this.
needed to mitigate the impact of the development on the sites. Croydon Council has already recognised in its Development Management Policies document that the Site of Nature Conservation Interest (SNCI) which borders the Coombe Lodge Nurseries Site, Coombe Wood (List of Historical Park and Gardens 2008) would be negatively impacted by the proposed development.

<td>I cannot believe that this proposal has even made it into print. What possible benefits could the local community gain from such a move. This is a beautiful Park area where local families spend their leisure time all year. We have already had a taste of what would happen when the travellers recently parked illegally in Conduit Lane. I was walking past their lines of vans with the residents sitting on the steps watching us. As we proceeded further up the lane, we had to walk through their excrement and toilet paper. On another occasion, we could not pass because they were playing in the lane en masse and to have walked through would not have been possible. This is a community with nothing in common with the local residents who will use the Park. There can be no hope of integration. I would like to hear the rationale behind this proposal. Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</td>

Mr Nicholas Barnes

Object: Soundness - Justified

DM44.2

661

Having read both local plans for the Shirley area, I strongly object to all aspects in both plans, this includes the 750 new homes on Shirley Oaks Village, 35 new homes in Shrublands, the two gypsy sites at Combe Fram and Conduit Nursery and the development for up the four storeys along Wickham Road.

None of these plans will benefit Shirley and I object to them all.

Change: This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mr Neil Walker

Object: DM44.2

661

This is a greenbelt site and not appropriate for such development.

Change: This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mr M Blount

Object: Soundness - Justified

DM44.2

661

I have considered details of the proposed Croydon Local Plan and have the following objections on the basis that they will:

detract from the local areas,

- dramatically change the local areas,

- dramatically change the character of local areas,

- have a significant adverse effect on an already overloaded infrastructure, including roads, public transport, public open space, environment and emergency, health and support services.

5. I object to the three proposed provision of Traveller sites at Conduit Lane, Coombe Farm and Featherbed Lane.

Change: This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Pauline Morgan

Object: DM44.2

661

Policy DM44.2, Table 11.17, site 661 (p179). The council plans to create a Gypsy/Traveller site here. This is a greenbelt site, and it is not appropriate for this purpose.

Change: This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

</tr>
<tr>
<td>------------------</td>
<td>--------</td>
<td>----------</td>
<td>---------</td>
<td></td>
</tr>
<tr>
<td>Coombe Lodge Nurseries, Conduit Lane is Green Belt land</td>
<td>Not in line with Government planning policy on the Green Belt</td>
<td>Government planning policy with regards to traveller sites wants to ensure that plan-making and decision-taking should protect Green Belt from inappropriate development.</td>
<td>This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Detail:</td>
<td>• The proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the Planning Policy: &quot;Inappropriate development is harmful to the Green Belt and should not be approved, except in very special circumstances.&quot;. There are no very special circumstances.</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>• The National Planning Policy Framework makes it clear that unmet housing need (including for traveller sites) is unlikely to outweigh the harm to the Green Belt and other harm to constitute the &quot;very special circumstances&quot; justifying inappropriate development on a site within the Green Belt.</td>
<td>• Approving the proposal would set a precedent and open the surrounding areas to be subject to similar development. It is not in the community's interests to allow the erosion of the green spaces surrounding the community and we object to the impact this site could have on the environment and wildlife.</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>• The local character description is clearly at odds with the proposal.</td>
<td>In the light of these issues, it is not appropriate simply to weight Green Belt as one of many factors to be considered, but rather it presents an overarching policy objection that cannot be over-ridden in the way proposed.</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>• The justification acknowledges the Green Belt issue, though insufficiently, but relies on the fact that there are existing structures. These are not in fact substantial – being glasshouses – and could be said to be at least environmentally consistent with the Green Belt. But there is no very special circumstance justification proposed as required by Planning Policies.</td>
<td>The decision making process is contrary to Government guidance.</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Approving the proposal would set a precedent and open the surrounding areas to be subject to similar development.</td>
<td>To be considered deliverable, sites should be available now, offer a suitable location for development now</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

To be considered deliverable, sites should be available now, offer a suitable location for development now.
and we do not believe that The Assessment and selection of sites for Gypsy and Travellers undertaken was credible.

Plan makers have not considered the time it will take to commence development on site need for infrastructure improvements – roads
There is basis for challenging the way in which this potential site has been selected.
1 Para 3.1 – Green Belt sites included for review of eligible sites “to ensure that all locations for a site considered”, but at the same time “Exclusion of sites in Croydon Metropolitan Centre and within District Centres and Strategic Industrial Locations and Conservation Areas due to viability, deliverability and impact on heritage considerations”. Is this even-handed?

4 Para 4.1 sets out the criteria and weightings. As indicated above, Green Belt with no built form is given a weighting (-10) which, though high, is not very significant given that there are 29 or 30 criteria and can easily be outweighed by other factors that are less significant in policy terms. Furthermore, Coombe Nurseries has been weighted -5 for Green Belt, in recognition of the fact that there are some structures on the site, AND has been given 5 for the fact that (in the assessor’s view) such structures as there are can be converted to traveller use (if the buildings had to be demolished, on a green field site, this would have attracted -5).

1 SP2.7 on the Council’s proposals to deliver 39 additional gypsy and traveller sites indicates that land will be allocated in accordance with the proposals, but that any ADDITIONAL sites that are not so allocated should meet some stated criteria, including good access to local shops and essential services and good transport access; these seem to be criteria that were excluded from the proposed allocation, suggesting that any alternative proposals would need to meet stiffer criteria. Is this fair and even-handed?

2 The bases for site criteria weightings are unclear.

Inadequate Road Access which is an issue made particularly acute because of the current traffic issues in the area

10.14 Based on survey responses, most Gypsies and Travellers living in the Croydon area would prefer small,
family sized sites. Stakeholder comments suggested that smaller sites have fewer inter-family tensions and are therefore easier to manage.

10.18 The settled community neighbouring the sites should also be involved in the consultation from an early stage. There may be scope for expanding existing sites to meet some of the need. However, the preference is for smaller sites which tend to be easier to manage.

10.19 In terms of identifying broad locations for new sites, there are a number of factors which could be considered including:

- Social
- School catchment areas

10.21 Gypsies and Travellers undertaking the survey also suggested that it is important that new sites are located close to amenities such as shops, schools and health facilities – the current proposal does not meet the needs identified by this criteria.

10.22 CLG (2012) guidance suggests that Local planning authorities should strictly limit new traveller site development in open countryside that is away from existing settlements.

The Croydon Local Plan Note that paragraph 4.19 in referring to the need for good access to roads, states that “they often need to move larger vehicles as part of their livelihood and way of life” – this may be an assertion relevant to the assessment of sites and the narrowness of Coombe Lane.

Mixed-use employment sites restrict commercial activities on site. Use of public transport amongst Gypsies and Travellers has been noted to be low. By providing sites in more accessible locations Pressure on public services, local school and medical facilities other needs of Gypsies/Travellers are not met. Particular concerns for the disabled and elderly, young people. A recent study states that there is a greater incidence of ill-health amongst Gypsies and Travellers. Adequate services would not be provided for Gypsies/Travellers. It is widely recognised by government sources that literacy can be an issue within the Gypsy/Traveller community, - extra pressure on local schools who
are over-subscribed as it is

• Some evidence of periodic overcrowding on site – year round and at peak in winter months - Scotland

• gypsy-traveller.org - The best type of land is a ‘brown field’ site. The site should be close to local amenities; it is very important that the site has a safe entrance and exit. There are very strict Highway regulations about visibility at the entrance/exit to sites to ensure there is no danger of accidents and this is very important.

The objections may be summarized as:

- inappropriate use of Green Belt land
- lack of relevant amenities close to hand
- adverse effect on neighbouring businesses and leisure amenities
- site has a more appropriate use for a school
- critical increase in traffic harming the local area
- proposed site does not meet the criteria as set down in the guidance.

I am writing to object to:

1. the use of the following locations as gypsy and traveller sites (policy DM44.2, Table 11.17):

   Coombe Lodge Nurseries off Conduit Lane, site reference 661;
   Coombe Farm off Oaks Road, site reference 502;

Both sites are on Green Belt land, in contravention of Policy E of “Planning Policy for Traveller Sites”, published by the Government in August, and in addition are in areas devoid of local amenities especially primary schooling.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object

Gypsy/traveller site on Conduit Lane, next to Coombe Wood Gardens. Policy E of “Planning Policy for Traveller Sites”, published by the Government in August, says: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

</tr>
</tbody>
</table>
I object in the strongest possible way to the plans outlined for this development in my local area, Shirley and Addiscombe. In particular, I understand the Council has identified two locations on the edge of Shirley for gypsy/traveller sites:

• Coombe Lodge Nurseries off Conduit Lane, which is identified as suitable for 15-25 pitches (pages 468-469, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 661).

I object to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

“Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.

The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs to quadruple the number of gypsy/traveller sites in the borough, I think they should look elsewhere (for example, off the Purley Way where the existing site is).

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mr & Mrs Croxford & Leese  
Object  
DM44.2 661  
We wish to object to the proposal to establish traveller sites at Coombe Lodge Nurseries (site ref no. 661) and Coombe Farm (site reference 502). Such use of these sites would, we feel, be inappropriate in the Green Belt, and contrary to Policy SP2.7a and SP2.7b, and not consistent with Policy E of the Government’s “Planning Policy for Traveller Sites”. The road hazards that would be associated with such use would require additional expenditure by the Council to resolve.

Mr Veldeman  
Object  
DM44.2 661  
Totally unacceptable that this is even being considered. Policy E of “Planning Policy for Traveller Sites”, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. This is a greenbelt site, and it is not appropriate to put a traveller site here and existing residents of the area should be considered first.

Cllr M Neal  
Object  
DM44.2 661  
Site 661, Coombe Lodge Nurseries, Conduit lane. Transition Town have expressed an interest in restoring this site to a proper nursery facility, utilising the existing greenhouses for the growing of food, which would be a sustainable and appropriate activity within this green belt site;
The sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. Furthermore, Policy E of 'Planning Policy for Traveller Sites', published by the Government in August, states very clearly that 'Traveller sites (temporary or permanent) in the Green Belt are inappropriate development'. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the 'Assessment and Selection of Sites for Gypsy and Travellers'. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of 'extensive political…consultation'. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document.

DM44.2

661

The sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. Furthermore, Policy E of 'Planning Policy for Traveller Sites', published by the Government in August, states very clearly that 'Traveller sites (temporary or permanent) in the Green Belt are inappropriate development'. This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Ms E Rudduck

Object

DM44.2
661

I object to the use of the following locations as gypsy/traveller site on Coombe Lodge Nurseries off Conduit Lane ref 661

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
1. Central Government is currently reviewing the approach to providing gypsy/traveller sites and so any proposals in the local plan should be subject to future government guidance.

2. Both sites are in the Green Belt and are contrary to Government policy which says that temporary or permanent gypsy/traveller sites in the Green Belt are inappropriate development.

3. Gypsy/traveller sites in both locations are completely out of character with the immediate surroundings - parkland, private schools, hotel, playing fields, golf course, middle/high value housing.

4. Access to public transport is poor - no buses and 15 minutes to the nearest tram stop.

5. Local doctors are difficult to get into.

6. There are no government schools nearby.

7. There are no shops within reasonable distance - closest are in Croydon town centre.

8. The evaluation system used to select the two sites is highly questionable and relies on LBC views of the relative importance of each criteria and then the points given. This form of weighted scoring is useful in giving guidance but not in delivering precise conclusions. It appears as if the wishes of the gypsy/travellers have been given more importance than those of local people. It would be interesting to see which sites were selected if more weight had been given to local interests and therefore how robust the evaluation system is to changes in how the criteria are viewed and scored.

9. Both sites will inevitably have a negative impact on property values.

10. Both sites pose a perceived increased security risk in the area.

11. Re site 661 the local plan in its justification says "the gypsy and traveller site will provide no greater impact on the openness of the Green Belt and the purposes of the Green Belt than the existing buildings". Impact does not only apply to the visual impact. Even on this narrow criteria it is hard to envisage the development from gypsy/traveller sites having a similar impact as the existing use which is periodic during the day and very much related to nature. Using the site for gypsy/travellers would mean a much higher overall impact on the local area - regular access, high activity, and a use out of character with the surrounding area, particularly the Site of Nature Conservation Interest.

12. Re site 502 the comment re "no greater impact" also applies.
The proximity to a school and existing housing means that this would have a significant impact on the character of the area in terms of increased traffic flow on a very quiet road and increased activity and noise in a very quiet area.

Mr & Mrs Golbourn  
Object DM44.2 661  
I am writing to object to the proposed use of Coombe Farm off Oaks Road (reference number 502) and Coombe Lodge Nurseries off Conduit Lane (reference number 661) as gypsy/traveller sites. I believe that both of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. We should not encroach on the Green Belt. Surely there must be brownfield sites that could be used instead.

Mr & Mrs Kingdom OBE, JP  
Object DM44.2 661  
My wife and I were distressed to learn that Croydon Council is considering opening a site for gypsies and travellers in Conduit Lane. Our main concern is using a Green Belt site for these dwellings particularly when other schemes have been turned down in the past. In addition we are concerned about the loss and inconvenience caused to a beautiful which is very much enjoyed by the people who visit. Finally there may be a loss or inconvenience to catering sites viz the Chateau Restaurant, the café in the grounds of the gardens and finally Coombe Lodge and the Premium Hotel all well used amenities in the area and sources of employment. We do wish to be branded NIMBYs but we are sure there are more appropriate sites in Croydon to fulfill these proposals and obligations.

Mr & Mrs Blissett  
Object DM44.2 661  
We oppose the proposal to create a travellers facility in this location.

Mr & Mrs Foggo  
Object DM44.2 661  
We are writing to object to the use of the locations (Coombe farm ref 502 and Coombe lodge nurseries drew 661) as gypsy/travellers sites. It would drastically change the area’s local character (policyDM35.1). We are very concerned by these plans and it is our opinion that these areas don’t suit for travellers sites at all.
Mr & Mrs Willis

Object

I strongly object to these proposals as they would both be in the Green Belt and one of them borders a site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". Therefore the Council's approach is clearly in breach of that policy. The Council should instead consider expanding the existing site off the Purley Way.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Ms L Chatfield

Object

I am writing my objections development on the following sites as a resident as well as in my capacity as Warden of Croydon Ecology Centre. The sites are in areas that are essential foraging grounds for wildlife, including badgers, which are a protected species. I believe that they are also all on Green Belt Land. I realise that local authorities are being given new powers that allows them to build on parts of Green Belt Land, but I sincerely believe that this will be a terrible mistake, for which future generations will not thank us. These sites are also part of one of the very few large stretches of open green spaces so close the the centre of Croydon, which makes an huge difference to the air quality in our town and to the visual aspect thereof. There is ample evidence to prove that these green urban spaces are essential for the mental well-being of crowded cities. All the open green spaces are there for the benefit of all Croydon's residents and those visiting our Borough, by building on them you are taking away this right from people all over the Borough. Please think again and make use of brown field sites instead. By using brown field sites you have the opportunity improve those sites with well planned and laid out housing and amenities. Coombe Lodge Nurseries would be better kept for the day when Croydon Council start to use it again as a nursery. This would save so much money, instead of paying out large sums annually on bedding plants. It could also be used as an extension to Coombe Woods Park. Part of it could be used as Saffron Farm and community garden or new allotments.

DM44.2

661

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
The Council is clearly in breach of "Policy E of Planning Policy for Traveller Sites", published by the Government in August 2015 stating "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". Local Development Framework policy states: "There are some policy differences in national planning guidance that reflect the nature of the use, for example sites for Gypsies and Travellers can be found in the countryside. However, Green Belt policy also applies and Gypsy and Traveller sites in the Green Belt are normally inappropriate development. Alternatives should be explored. The size of the proposed sites Coombe Farm is 15-20 pitches and Coombe Nurseries 15-25, both exceed the governments' guidelines - Designing Gypsy and Traveller Sites- Good Practice Guide states sites should not exceed 15 pitches. The Gypsy, Traveller representatives have stated in Government guidelines that sites should not be located too close together due to conflict issues within their social community. Coombe Farm and Coombe Nurseries are situated within yards of each other and are, therefore, unsuitable. It is also worth noting that the existing permanent site at Latham’s Way was originally sanctioned for 15 pitches but has enlarged by a further 4 pitches to 19. The Local Residents are fearful of further site expansion and the option of a temporary site provision added to the permanent proposed sites at Coombe Farm and Coombe Nurseries which have already exceeded the recommended volume. Can the Council define the time period on temporary / emergency stopping places/sites, is the 28 days limit on the total use of this land over a yearly period or is it 28 days per Gypsy and Travellers passing through? If the latter is true then the Local Residents could see this land being occupied on a continuous basis although not by the same people so cohesion with the Local Community will be further restricted. Please can the Council be clear and state if the sites will be managed directly by the Council or by a Private Management company? Will the ownership of both sites be under the same Company? Why have the Council contradicted the GLG guide lines and weighted Privacy highly on the scoring methodology for Travellers and Gypsy sites as this sways the scoring on Coombe Farm unfairly but does not take into consideration Local Residents Privacy rights? This site is change.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
already owned by the Council so no purchase costs involved. It has a lower risk of the site being exposed to unauthorised encampments due to its enclosed boundaries. Access to the site will be problematic with increased traffic danger to an outdated crossing will still apply. The detrimental affect on Local Businesses also applies. I believe all Local Businesses have lodged their objections due to the nature of their countryside selling point. The Nursery site could be a great revenue earner for the Council.

Allotments are a rare opportunity for Londoners. The existing greenhouses could be rented out to encourage the building of local communities, encouraging educational and healthy activities. This would be a huge advantage for the people who live in small flats to grow their own produce. I could see this spot being ideal for small growers to sell directly to Croydon residents. This will then attract and boost the existing businesses, bringing more people to enjoy the public gardens, Lloyd Park and the woods of the beautiful Addington Hills. With the intense regeneration program now being realised within central Croydon- residential flats converted from empty office blocks, increase of commercial premises such as the planned Westfield development, it is hugely important that Croydon Council recognises the future need to keep the integrity of this amazing nature conservation area, its adjoining Green Belt land which leads onto Lloyd Park. This space is for the enjoyment of all Croydon's population and a great tourist attraction who can enjoy the precious natural wildlife environment situated within the M25. This will need to become more apparent as Croydon is embraced into Central London, keeping the integrity of this unspoilt area will provide a unique attraction to Londoners and Croydon residents seeking country walks and open space. We must fight to continue to sustain the precious natural wildlife for everyone to benefit. The area is accessible to many as it's already serviced by a fantastic variety of public transport links to and from many parts of London.
This site is also in a green belt area and for reasons as described above this proposal would be in contravention of national guidelines.

Again the Council has gone to great expense to protect this area, removing travellers from this site and using Council Tax income to do so.

The only public transport near this location is the tram which is oversubscribed during peak times. There are no shops, schools or public amenities such as medical centres within walking distance and minimal public footpaths on either side of the road.

Adjacent to both of these sites are a beautiful landscaped park and an area of outstanding beauty, home to many species of wild life with unparalleled open green spaces sorely lacking in other parts of South East London.

We understand that there is an existing travellers site in the Purley Way that is underused and feel that the energy would be better expended in improving the facilities at this site, which is far better services by public transport et.

We strongly object to the plans for a permanent travellers sit at both of the above locations for the reasons given.

This site has been found to be unsuitable for any form of residential development, including Gipsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. The Council’s approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

We object to Policy DM44 table 11, 17 site 661 on page 179 - traveller sites temporary or otherwise are inappropriate in the green belt

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Mr & Mrs Isaac

Object DM44.2 661

We are writing to object to the above proposals. We have grown up in South Croydon and have been regular visitors to Coombe Wood and gardens, and now with our young daughter. This green belt refuge in dense suburban Croydon would suffer great from any development in Conduit Lane. A traveller site would be inappropriate and adversely affect the character of this special environment. We understand that there are always competing demands and needs for the council to meet in the borough but please recognise the amenity value of precious green areas in Croydon, that would be lost to future generations by insensitive development.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mrs Haywood

Object DM44.2 661

1. This site is in the Green belt and according to Government Policy is deemed inappropriate.

2. The council has gone to great expense to protect the site from mobile travellers and this seems to have been a great waste of taxpayers money if they now allow a permanent site.

3. Several business which make a big contribution to the local economy and also provide much needed amenity to the public will be detrimentally affected by the site.

4. Coombe park which is a beautiful landscape park and contains many memorials to war dead and families loved ones will be completely overwhelmed by this enormous traveller development for up to 75 mobile homes right next door. The huge amount of traffic going along Conduit Lane will make access to the park from the parking bays on the other side of the road much more difficult and dangerous.

5. Again the size of the site will totally overwhelm the nearest settlement of residents, and i am one of them, I only bought my home a year ago, and if there had been a traveller development there then i would have not purchased the property. And I don't want to have to move from this area. From when travellers that got access to the field opposite Lloyds park a few months ago and the state they left the field in was awful. South croydon is such a lovely area to live in, very quiet with beautiful parks and this should not be ruined. And from point 2 what would have been the point of spending all the money to keep them away then giving them place that we have trying to protect would be such a waste.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Mrs P Lamb

I wish to appeal against the proposed Traveller Sites in Coombe Farm, off Oaks Road, and Coombe Lodge Nurseries off Conduit Lane. As a resident of Oaks Road for over 20 years, I find this proposal extremely poorly planned. This is a Green Belt area, of which I believe, building is not permitted. Also, an area of Nature Conservation Interest. We have had the misfortune several times over the years, of travellers stopping in this area. We have had to put up with noise, litter, and general bad behaviour, including theft from our property. Since Labour have come into power at the council, the litter collection has been severely depleted, leaving our beautiful road a mess. I fear the unwanted traveller sites would only make things worse. Has anyone checked that the entrance to the site from Oaks Road is extremely narrow, and NOT suitable for large caravans to enter or leave? Also, the transport links from that area are poor. I suggest this is political, as the sites chosen are in a Conservative held part of the borough. Please look again at your proposals, and not attempt to damage one of the few remaining green and pleasant parts of this borough.

Mrs R Jennings

Policy DM44.2 - Gypsy traveller site on green belt - not appropriate - Policy E of Government Planning Policy for traveller sites states that traveller sites, temporary to permanent are not permitted.

Mr & Mrs N Patel

The site is in a Green belt area and according to Government policy is deemed inappropriate. The council has gone to great expense to protect the site from travellers and it would be a waste of taxpayers money if a permanent site was allowed. The size of the site will overwhelm the nearest residents.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Coombe Lodge Nurseries, ref. 661;

This site would also constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b;

Several businesses which make a big contribution to the local economy and also provide much needed amenity to the public will be detrimentally affected by the site. We have heard from local residents that some gypsies have been threatening staff in a small café near the site. They will not objecting now for fear of reprisal. We have three young children and would not take them to Lloyd Park or Coombe Woods if this traveller site was allowed to go ahead. Many local residents we have spoken would do the same, for the safety of their children. We have a friend living near a gypsy site and they are constantly causing trouble in parks and residents are continually being threatened with physical and verbal abuse. This behaviour is totally unacceptable.

Gypsies and Travellers often express their preference to be within walking distance of shops/ health centres/ schools/ local amenities. The proposed sites are not close to any of these. The proposed sites go against Gypsies and Travellers preferences and against environment and climate initiatives by promoting the use of their own vehicles for daily life.

Coombe Wood is a Site of Nature Conservation Interest (SNCI) (List of Historical Park and Gardens 2008) and borders the proposed Coombe Lodge Nurseries site, and would be negatively impacted by the plans.

Coombe Woods is a beautiful park and this massive traveller development would cause a huge amount of traffic going along Conduit Lane, Coombe Road and Oaks Road. This would make parking on the Conduit Lane and the other side of the road more difficult and very dangerous. These parking bays are used by families and the very old to give them easy access to the park.

Also, the size of the site would totally overwhelm the nearest settlement of residents on Coombe Road, Oaks Road and Oaks Lane.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

02 September 2016
Ms S Ikpa Object DM44.2
661
I am a Croydon resident and am writing to object to the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference number 661, policy number DM44: and Coombe Farm off Oaks Road, site reference number 502, policy number DM31.4. All three sites are in the Green Belt, with one bordering a site of Nature Conservation. The proposed use of each of these sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b and would not be consistent with Policy E of ‘Planning Policy for Traveller Sites’ published by the Government. If additional sites are required in the Borough it would more appropriate to expand existing sites eg the site off the Purley Way. In addition none of the sites has easy access to local school, healthcare, retail and other amenities; the vehicular access into sites 661 and 502 is problematic and egress onto Coombe Lane/Oaks Road at the road junction is likely to create additional road hazards.

Ms Olive Anne Bowyer Object DM44.2
661
Ref. 502. Proposed sites for gypsy/travellers in Green belt land. Government policy published in August says very clearly “travellers sites (temporary or permanent) in the Green Belt are inappropriate development.” This is in breach of this policy. Coombe farm and Ref. 755 Featherbed Lane (Pear Tree Farm Cottage near to Hutchingsons Nature Reserve) are all Green Belt.

Mr & Mrs Smith Object DM44.2
661
We are strongly against the planning ideas you have over green spaces. Please add these six against to planning ideas with references below DM40.1 DM52 40.4 DM44.2 DM28 DM31.4

</tbody>
</table>
3997/01/009/DM44.2/O Mr P Fitzpatrick

Object Soundness - Justified DM44.2 661

I am formally objecting to:

3. the use of the following locations as gypsy / traveller sights:

   Coombe Farm off Oaks Road REFERENCE NUMBER 502;
   Coombe Lodge Nurseries off Conduit Lane REFERENCE NUMBER 661; and
   Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane REFERENCE NUMBER 755;

As the Council acknowledges all three of these sites are in the Green Belt and one of them borders on a Site of Nature Conservation Interest. Policy E of "Planning Policy for Traveller Sites", published by the Government in August says very clearly

"Traveller Sites (temporary or permanent) in the Green Belt are inappropriate Development"

The Council's approach is clearly in breach of the policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Healthfield ward, one just over the border in Croham). Why has Healthfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy / traveller sites in the borough - which I would question - they should look elsewhere (for example off the Purley Way where the existing site is).

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

3998/01/004/DM44.2/O Mr P Skuse

Object DM44.2 661

I personally object to some of the proposals - The Local Plan Policy DM44.2, Table 11.17, site 661 (p179). The council plans to create a Gypsy/Traveller site here on a greenbelt site which is extremely inappropriate especially as it would be impossible to prevent any spoiling of Coombe Wood garden and woodland by occupants of such a site. The garden and associated land are a delight which should not risk further vandal damage!

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

</tr>
</tbody>
</table>
Conduit Lane and Coombe Farm sites are on greenbelt land. Government policy states "Traveller sites temporary or permanent in the Greenbelt are inappropriate developments". As well as damaging the local environment, there are not sufficient local amenities to cope with two traveller sites in close proximity.

I would like to object to the use of the following sites:
- Coombe Lodge Nurseries, site reference 661
- Coombe Farm site reference 502
Both these sites are Green Belt. Also the whole character of the area would change. The doctors surgeries are already overcrowded as are dentists and hospitals. The schools in the area are at bursting point. I use the trams and they are also overcrowded especially during the rush hour.

If the Green belt site is de-designated this could be the start of many more. There are other sites in Croydon that are not Green Belt. Why can't existing sites be expanded?

I hope you take my views into consideration as everybody that I know in the area is of the same view.

Yours faithfully,

I would like to lodge my objection to the use of this location as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest.

Proposed Gypsy/Traveller sites proposed for Addiscombe and East Croydon, Addington, Forresdale and Addington and Shirley - This sounds like a dreadful idea. I strongly object to the above proposal – This is a dreadful idea and surely anyone with any love or concern for Croydon would also object strongly.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

<td>Ms S Bailey</td>
<td>I register an objection to both of these proposals on the following grounds. Both are acknowledged to be in the Green Belt and the proposal is contrary to Policy E of Planning Policy for Traveller Sites which was published by the government in August 2015, which says &quot;Traveller sites (temporary or permanent) in the Green Belt are inappropriate development&quot;. One of the sites adjoins a Site of Nature Conservation Interest, which would suffer detrimentally as a result of this proposed development and the impact on such a site should be a criteria when assessing potential locations. A lack of suitable criteria, not to have an unacceptable adverse impact on biodiversity, have been used when looking at potential locations which has resulted in the rather perverse selection of two sites in the Green Belt. It seems turning green belt in to a gypsy / traveller site can only have an impact on biodiversity. Additional criteria should also be utilised, including: - Not in the Green Belt. - Does not impact upon important open spaces such as a Sites of Nature Conservation Interest / Areas of Outstanding Natural Beauty / SSSI's or other protected locations. - Residential properties or other recreational areas, such as parks and gardens, will not be impacted by the &quot;setting&quot;of gypsy / traveller sites. - Existing services (water, sewerage, highways) and other public services are already in place and easy to access. Suitable alternatives have not been considered. Even a cursory drive around the area of the existing gypsy / traveller site will reveal much more suitable locations in close proximity to existing facilities.</td>

<tr>
<td>Mr S Dhanda</td>
<td>The use of land to provide pitches at Coombe Farm, Oaks Road or Coombe Lodge Nurseries, Conduit Lane is entirely out of keeping with the character of those areas. Why ruin such beautiful areas so close to central Croydon for future generations? Once gone, that land will be gone forever. We should treasure areas such as these and put them to a much more appropriate use in keeping with the use of similar surrounding land. Housing/Residential/Pitches are not good uses of this land. The only real alternative if there has to be one is at Pear Tree Farm, Featherbed Lane where there already exists a large scale housing development and appropriate facilities including schools, transport and infrastructure nearby.</td>

<td>SP2.7 makes no mention of impact on the surroundings of the site and nearby residents. Accordingly, an additional criterion should be added: Must be entirely acceptable in relation to its impact on nearby public spaces and residents and businesses. If this were included the proposals Ref 502, Coombe Farm, and Ref 661, Coombe Lodge Nurseries, would immediately be seen to be inappropriate. Coombe Lodge Nursery is by the lovely gardens of Coombe Wood with its popular tea room and wooded area. Coombe Farm is green belt land in Lloyd Park, left to the people of Croydon by the Lloyd family and where families enjoy the open space, kids play in the play area, joggers, dog walkers and of other walkers exercise, spots are played, families snack in the cafe and everyone feels reasonably safe.</td>
</tr>
</tbody>
</table>
As a resident in the area, I am writing to object to the use of the following locations as gypsy and traveller sites:

a) Coombe Lodge Nurseries off Conduit Lane, site reference 661
b) Coombe Farm off Oaks Road, site reference 502

as above sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7A and SP2.7B;

The de-designation of: Croham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (SSSI) and a site of Metropolitan Importance for Nature Conservation; Coombe Road Playing Fields as Green Belt, site reference 662; as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid.

These proposals are clearly harmful for the Green Belt and would have a negative impact on the environment and wildlife in Coombe Wood, Shirley Hills and Lloyd Park. It would create a precedent for further erosion of our valuable local amenity. Coombe Road and Coombe Lane are already very busy roads and one of the main arteries into the town centre. The additional traffic emanating from these two sites, without significant road improvements, would exacerbate the traffic congestion, not to mention the additional pressure on the already stretched local services such as schooling and general practitioners. The access roads to these proposed sites are clearly unsuitable for the larger vehicles that this community use as part of their livelihood and way of life. The junctions at Coombe Road, Oaks Road and Conduit Lane are already dangerous for vehicles and this area has the potential with this proposal to become a major accident black spot without significant very costly improvements to the local road network.

Object

DM44.2

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object

DM44.2

I strongly object to this policy and the plan to create a traveller site at this location as it is a greenbelt site and not appropriate for this purpose, as per Policy E of (Planning Policy for Traveller Sites).

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Object DM44.2 This is a greenbelt site and is therefore not suitable for a gypsy site.

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object DM44.2 Happy for the Council to replace under-used garages with much-needed homes, but will be objecting to building on precious open space. Objecting to the use of either of those locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services.

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object DM44.2 Reasons for objecting:
1) It will be detrimental to the amenities of adjoining owners
2) It is an inappropriate use of Green Belt land
3) Sites that are located on the Green Belt are considered to be inappropriate development for Traveller sites (temporary or permanent) and are against government policy (Planning policy for Traveller Sites, DCLG August 2015)
4) There are a lack of appropriate amenities close at hand
5) There is insufficient local infrastructure to accommodate the plans
6) Selection of proposed sites should have a bias towards brownfield or industrial land, not Green Belt
7) the existing permanent site in Lathams Way off Bedding Farm Road could be expanded

Alternative suggestions for sites:
Site reference no: 661: Coombe Lodge Nurseries, Conduit Lane, Coombe Road, South Croydon CR0 5RQ

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
### Ms S Rhys-Davies

**Object DM44.2 661** Reasons for objecting:
1. It will be detrimental to the amenities of adjoining owners
2. It is an inappropriate use of Green Belt land
3. Sites that are located on the Green Belt are considered to be inappropriate development for Traveller sites (temporary or permanent) and are against government policy (Planning policy for Traveller Sites, DCLG August 2015)
4. There are a lack of appropriate amenities close at hand
5. There is insufficient local infrastructure to accommodate the plans
6. Selection of proposed sites should have a bias towards brownfield or industrial land, not Green Belt
7. the existing permanent site in Latham’s Way off Bedding Farm Road could be expanded

### Mr S Maniar

**Object DM44.2 661** I object as it would be: 1) Detrimental to the amenities of adjoining owners, 2) Insufficient local infrastructure to accommodate the plan, 3) Inappropriate use of green belt land. Alternative suggested sites: 1) 536: Land of Former Croydon Airport runway, South of Imperial Way, Waddon - 2) 767-Cane Hill-south Part, Hollymead Road, Purley - 3) 787-Portwallis Road, Coulsdon.

### Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
I would like to register my strong objection to the Council’s proposals for the consideration of Coombe Farm and Coombe Lodge Nurseries as gypsy/traveller as stated in the above documents and reference numbers. The sites are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. The Council’s proposals would be in breach of that policy. In addition to this policy breach, these sites are surrounded by parks which are regularly enjoyed by many local residents (including myself) for their natural beauty and relaxing environments. Their positive contributions to our well-being cannot be underestimated and will be significantly impacted by your proposals. It is therefore hard to imagine why such sites have even been considered at all, or in preference to other sites in the Council’s document ‘Assessment and selection of sites for Gypsy and Travellers August 2015’. The scoring method applied is rather confusing. For example, the GB/MOL criteria in the table in section 4.1 has the possible scores of -10, -5 or +10, yet the two references above have been given a GB/MOL score of 5, which is detrimental to their overall score. I would be grateful if the Council could reconsider its plans. Please explain regarding the issues raised around the above objections.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
I am grateful to the Council for consulting on the detailed policies and proposals that will make up the Croydon Local Plan. There is much in the document that I agree with, but some of the proposals would, in my opinion, change the character of parts of Croydon very much for the worse. I hope you will forgive me if I focus on these areas of contention. I am therefore writing to formally object to:

1. de-designation of the Metropolitan Open Land around Shirley Oaks Village;

2. the use of the following five sites for housing:
   • land at Poppy Lane reference number 128;
   • Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
   • land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
   • land to the west of Shirley Oaks Road reference number 542; and
   • land to the rear of 5-13 Honeysuckle Gardens reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

3. the use of the following locations as gypsy/traveller sites:
   • Coombe Farm off Oaks Road reference number 502;
   • Coombe Lodge Nurseries off Conduit Lane reference number 661; and
   • Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane reference number 750.

As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site...
of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

“Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.”

The Council's approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is);

4. Focussed intensification associated with gradual change of an area's local character under Policy DM31.4 of the Shirley Road Shopping Parade, Shirley local centre and Forestdale. Shirley Road Shopping Parade is surely worthy of protecting rather than replacing with medium-rise blocks? Shirley local centre is defined not just as a stretch of the Wickham Road (where some intensification may be appropriate) but Ridgemount Avenue, Wickham Avenue, Peregrine Gardens, West Way Gardens, the northern section of Hartland Way and the western parts of Bennetts Way and Devonshire Way. Replacing the largely semi-detached buildings in these residential roads with medium-rise blocks would completely change the character of Shirley. Replacing the largely terraced housing and small blocks of flats in Forestdale with medium-sized blocks would completely change that area too;

5. Policy DM2 on development on garden land, which is too subjective and therefore too weak. There should be a much stronger presumption against development on garden land; and

6. Policy DM28, which should allow higher levels of parking in developments of low public transport accessibility. Restricting parking spaces in such areas doesn't lead to fewer people owning their own car; it just leads to greater competition for existing spaces.
Mr Matt Knight  
Object DM44.2  
661  
I object to the use of the site as a traveller site.  
Change  
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mr & Mrs Shah  
4051/01/009/DM44.2/O  
661  
We would like to notify you of our objection to the proposed traveller sites at Coombe Farm off Oaks Road and Coombe Lodge Nurseries off Conduit Lane, as described in your consultation on the detailed policies and proposals for The Croydon Local Plan.  
We understand that there are plans to change the designation of areas of Green Belt and Metropolitan Open Land. Specifically, we understand that the Council have identified two locations in the Shirley area for gypsy/traveller sites at Coombe Farm off Oaks Road and Coombe Lodge Nurseries off Conduit Lane.  
We wish to object to the Council's proposals as both these sites are in the Green Belt and the proposals are contrary to Government policy (Policy E of Planning Policy for Traveller Sites) which states "Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development". Clearly the Council's approach is in breach of this policy.  
It is also our understanding that one of these proposed locations for gypsy/traveller sites borders a Site for Nature Conservation Interest. Also both these proposed sites are some distance away from public services.  
It is our view that the proposals will change the character of our area very much for the worse.  
In the circumstances, these proposals should not be approved.

Mr & Mrs Shah  
4054/01/004/DM44.2/C  
661

Mr & Mrs Shah

Object DM44.2 661

We would like to notify you of our objection to the proposed traveller sites at Coombe Farm off Oaks Road and Coombe Lodge Nurseries off Conduit Lane, as described in your consultation on the detailed policies and proposals for The Croydon Local Plan.

We understand that there are plans to change the designation of areas of Green Belt and Metropolitan Open Land. Specifically, we understand that the Council have identified two locations in the Shirley area for gypsy/traveller sites at Coombe Farm off Oaks Road and Coombe Lodge Nurseries off Conduit Lane.

We wish to object to the Council’s proposals as both these sites are in the Green Belt and the proposals are contrary to Government policy (Policy E of Planning Policy for Traveller Sites) which states “Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development”. Clearly the Council’s approach is in breach of this policy.

It is also our understanding that one of these proposed locations for gypsy/traveller sites borders a Site for Nature Conservation Interest. Also both these proposed sites are some distance away from public services.

It is our view that the proposals will change the character of our area very much for the worse.

In the circumstances, these proposals should not be approved.

Mr & Mrs Ferguson

Object DM44.2 661

We are writing to object to: 1. the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference 661; Coombe Farm off Oaks Road, site reference 502; because both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b:

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". The Council’s approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object I am a Croydon resident and am writing to object to the use of Coombe Lodge Nurseries off Conduit Lane, site reference number 661, policy number DM44 as a gypsy and traveller site

This site is in the Green Belt, with one bordering a site of Nature Conservation. The proposed use would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b and would not be consistent with Policy E of ‘Planning Policy for Traveller Sites’ published by the Government. If additional sites are required in the Borough it would more appropriate to expand existing sites eg the site off the Purley Way.

In addition sites 661 and 502 does not have easy access to local schools, healthcare, retail and other amenities; the vehicular access into these sites is problematic and egress onto Coombe Lane/Oaks Road at the road junction is likely to create additional road hazards.

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object: DM44.2

Reasons for Objecting:
- The development would cause a detrimental effect to the Amenities of Adjoining Owners in the local area.
- The proposed development is on Green Belt.
- Surely a sensible site should be on Brownfield or Industrial Land as in an ever increasing urbanised area where developments and buildings are being built at an alarming rate we are losing all green space.
- To use the Sites would require a Change of Land Use.
- Why on earth are two of the proposed sites in such close proximity from one another in an area the size of the borough of Croydon?
- There is a complete imbalance across the borough with all Sites being Proposed in the South of Croydon.
- Potential increased crime in our local area (this was highlighted only last week when the South Croydon area (Brighton Road and surrounding areas) came to a stand still and hit national press with the eviction of travellers found to have firearms. The local School I worked in had to lock its gates and not allow students into the surrounding area until the conflict had been dealt with) my young families security and happiness are paramount, hence the reason I chose South Croydon to live in and paid the large additional house price to ensure my family were free from this sort of activity.
- My preference would be to simply expand the existing permanent Gypsy Site in Lathams Way off Beddington Farm Road, would this not provide a simple and cost effective option for the council and far less issues to a huge number of tax paying, law abiding citizens in the Croydon Borough???? If the council is unwilling to do this then from the proposals then Pear Tree Farm & Pear Tree Farm Cottage, Featherbed Lane should be one of the selected sites.

Change:
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Object: DM44.2

Reasons for Objecting:
- The alternative suggested site that would have far less impact on the local area and it residents (not all being on Green Belt either????? in my opinion would be:
  - 16 - Heath Clark playing fields, Stafford Road, Waddon
  - 120 - Timebridge Community Centre, Field Way, New Addington
  - 518 - Land adjacent to 103 Goodenough Way, The Admirals Walk, Old Coulsdon
  - 522 - Wandle Road surface car park, Wandile Road, Croydon Opportunity Area
  - 536 - Land of former Croydon Airport runway, south of Imperial Way, Waddon
  - 552 - Land adjacent to Ashburton playing fields at rear of 2-88 Cenridge Road, Addiscombe
  - 553 - By Pavilion Playing Fields, Purley Way, Waddon
  - 652 - Land south of Threehalffenny Woods, Kent Gate Way, Bridle Way, Addington
  - 636 - Land west of Timebridge Community Centre, Lodge Lane, Elmside, Addington
  - 76 - Crane Hill south part, Hollymead Road / Portnalls Road, Coulson

Change:
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Mr & Mrs Belsey

Object

DM44.2
661

The area where the travellers site is being suggested is Greenbelt. We must not build on Greenbelt sites, as these are areas for relaxation, wildlife and nature. Again this will result in a decrease in wildlife and more flooding.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Melissa Chu

DM44.2
661

I am a Croydon resident and am writing to object to the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference number 661, policy number DM44; and Coombe Farm off Oaks Road, site reference number 502; policy number DM43; Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane, site reference number 755, policy number DM32. All three sites are in the Green Belt, with one bordering a site of Nature Conservation. The proposed use of each of these sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b and would not be consistent with Policy E of 'Planning Policy for Traveller Sites' published by the Government. If additional sites are required in the Borough it would more appropriate to expand existing sites eg the site off the Purley Way. In addition none of the sites has easy access to local school, healthcare, retail and other amenities; the vehicular access into sites 661 and 502 is problematic and egress onto Coombe Lane/Oaks Road at the road junction is likely to create additional road hazards.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I object to the use of the site for gypsy and traveller accommodation.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Mr & Mrs Hyde

Object DM44.2

We object to:

the proposed de-designation of Croham Hurst and Coombe Road playing fields as Green Belt.

the proposed use of Coombe Lodge Nurseries (site 661) and Coombe Farm (site 502) as gypsy & traveller sites.

These linked areas, which connect with Lloyd Park & Shirley Hills, contribute hugely to the amenity of the borough. This public continuum is precious to many from across Croydon and beyond. Development and traveller sites would change the character of the amenity, particularly the Conduit Lane footpath.

Mr & Mrs Millward

Object DM44.2

I just want to register our strong protest at the proposal to have a gipsy camp (no matter what size) at Conduit Lane (or anywhere else in the area for that matter).

Philip Jupp

Object DM44.2

I object to the use of the site for gypsy and traveller accommodation.

Mr Reuben Gata-Aura

DM44.2

661

Proximity to Coombe Woods and a proposed Secondary School in Coombe Road Playing Field and a busy pub/restaurant is totally inappropriate for such use. The result will be a blight on the local area that will affect house prices negatively. We have lived in Melville Avenue since 2011 and on two occasions during this time travellers have set up camp in the Combe Road playing field directly behind our property. In the summer of this year, they parked a generator lorry right up against the hedge next to our garden which ran throughout the night on several occasions and had a noisy party with music and a large bonfire just the other side of this hedge, directly under a large Ash tree at the bottom of our garden. Despite several calls to the council on different occasions we were unable to obtain any help to mitigate the noise and nuisance, despite the fact this was happening on council-owned land, and we were clearing up bottles and other rubbish from our garden for several days after their eventual departure. The local police were also unable to help. Our recent experience is that the council is completely unable or unwilling to enforce any of the normal rules of behaviour to protect its taxpayers where travellers are concerned and how will this be different if travellers are given a site they can visit whenever they wish? The proposed site will be next to a school if that part of the plan goes ahead and will be adjacent to Coombe Woods, which attracts many families and senior citizens. There are no local amenities to serve the site and transport links are limited to the tram with stops some distance from the site. This is not a simple NIMBY response based on unfounded prejudice, but a very real worry based on our recent experience of travellers in this area. If the political aim behind this is to assimilate travellers into mainstream society, then any proposed site needs to be close to amenities. This proposal would exacerbate the traffic congestion that is already apparent in this area as the site is some way from any shops or other services. I cannot believe that anyone would seriously consider that locating a traveller site between a school (if that proposal goes ahead, and which we will have no objection to), busy local gardens with café and a busy restaurant/pub was a good idea.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

DM44.2

I would like to object to the proposed travellers sites for the following reasons which I believe are material grounds to refuse these plans:

• The Council has an obligation to consider all potential sites across the borough. It also needs to demonstrate this, and provide information that details what sites were considered (both private and publicly) together with full assessments on these sites. This I cannot see has been done.

• The suggested sites are in close proximity to each other in a huge borough. This cannot be correct.

• The noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

02 September 2016 Page 3310 of 4384
The use of the following locations as gypsy/traveller sites:

I object to the use of the following locations as gypsy/traveller sites: Coombe Farm off Oaks Road; reference number 502; and Coombe Lodge Nurseries off Conduit Lane; reference number 661.

These are both in the Green Belt, where Policy E of Planning for Traveller Sites clearly says that travellers sites (temporary or permanent) in the Green Belt are inappropriate development.

This is also likely to have a negative effect on the Site of nature conservation interest that one of the sites would border, and both sites are a distance from public services. It is also likely to create increased traffic problems in an area that is not best suited for such sites.

Consideration should be given to the refurbishment of the existing sites, or where this is not possible, alternative and more appropriate sites.

Ms W Mikiel

I have been made aware of the proposals for Site References 661, 502 and 755 for use as traveller sites.

I object on the grounds that these are Green Belt sites covered by Policy SP2.7a and SP2.7b and are therefore unsuitable for traveller camps. I use both sites near Coombe Lodge fairly regularly and was frightened by loose and dangerous dogs when the site was being used illegally by travellers, and I noticed that the woods were being used as a toilet. The amenities of that area would be lost to everyone else if these proposals were to proceed.

Mr & Mrs Kaczanowski

Below is a list of our objections:

3. Policy DM 44.2, site 661 Gypsy/Traveller site on Conduit Lane, next to Coombe Wood Gardens - we strongly object to a site to be placed on a green belt. This will certainly have a negative environmental impact on this one and surrounding sites. Such a development will very negatively impact on character of the local area and will ultimately lead to its downgrading.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

</table>
As a local Resident in the Croham Ward of South Croydon the subject area is well known to me and my family, and in my opinion its use as proposed, or indeed for any kind of development, is wholly inappropriate, and accordingly I object. I have carefully reviewed the documentation prepared by the Council, and specifically looked at the Assessment and Selection of Sites for Gypsy and Travellers. Whilst the document is very comprehensive, I am unclear as to whether or not it is a universally adopted one that is used for the whole Country, and in any event question the methodology with its use of selective criteria and the RAG scoring which is very subjective. I noticed that the scoring for the subject site includes a positive 5 under the criteria heading of Green Belt/Metropolitan Open Land. This appears incorrect, and if I am reading and interpreting the document accurately then this score should be a negative -5. Assuming this is an error then it distorts the resultant figure by ten. Given this error, are there indeed others aswell? I also noted in the Gypsy and Traveller Accommodation Needs Assessment prepared by Croydon Council that it highlights a substantially higher level of additional pitches required in the first five years (2013-2018) where 27 pitches are stated, whereas in the subsequent five year periods only 7 or 8 pitches are scheduled for each of the three periods through to 2033. I would suggest that these lower figures in the latter years are unrealistic and in all probability are likely to rise. If so, then the pressure to enlarge the overall area of the subject site will increase, and it will of course be easier for the Council to try and justify it and probably win the argument because of the established use and precedent. Therefore, the size of the subject site and/or another one in the locality, will in all probability substantially increase. Fundamentally, this location is ‘Green Belt’ land and notwithstanding that it has some development and land use, the proposed use, or indeed for any kind of development, is wrong and in my opinion would not comply with Policy SP2.7a and SP2.7b. It is also my understanding that under Central Government policy if such land is designated as ‘Green Belt’, then it should enjoy the protection from all forms of development and not favour any particular group or person within the community unless there are special circumstances. In this case there are no such special circumstances. If any private
business person or organisation wanted to create a caravan and/or static home site in this location it would not receive Planning Permission - this is the 'test' for such a proposal, and we should not have differing sets of rules for the Council and the Public. In addition to the above I also note a list of other salient points as to why in my opinion the use of the subject land as proposed is inappropriate:
- Notwithstanding some nominal use of the area for local business, housing, and school/education purposes, the general locality is one of woodland, playing fields, parkland, and rural space. Any kind of use for more intense housing, and possibly associated businesses as well, for any sector of the community whether it be caravans, static homes, prefabricated houses, or traditional housing would be inappropriate.- This area of Coombe is of some historical significance with several notable houses of architectural merit. Notwithstanding that some of the area and buildings have changed and indeed increased over the more recent decades, it still retains a relatively rural and spacious charm which should be respected and retained for current and future generations.- More intense housing for any sector of the community will increase noise and light pollution and would be inappropriate.- Local nature and wildlife is present in this area and as such should not be subjected to pressure from an increased resident population. Lloyd Park, Coombe Park, and the woods of Addington Hills which border and/or are in close proximity to the subject development site are of high public interest and could be negatively impacted by the proposals.- The access road from Oaks Road that will form the route to the subject site is relatively narrow and already used by other residents and those accessing the playing fields. This road would need to be up-graded at considerable expense if the proposal were to proceed.- Vehicle access onto Oaks Road is restricted with reduced visibility as well as being in very close proximity of the tram/road crossing.- Notwithstanding the presence of the local Tramlink service, public transport is otherwise very limited and as such will force new residents to use private vehicles and thus cause more environmental pollution in an otherwise rural locality.- Local amenities and facilities such as shops, health centres, possibly suitable schools are essentially non-existent and will force the residents to
use private vehicles unnecessarily.
- The proposed subject site is relatively large, and if approved, would potentially house a significant number of people and which may be further exacerbated by the possible location of another similar site in relatively close proximity. My understanding is that gypsy and traveller families actually prefer smaller sites.
- Development of this subject site with new and extended infrastructure in the form of services, sewage, power, fencing, roads, and hardstanding is likely to be very expensive, and indeed disruptive in providing.

Other locations, some thus far dismissed but there may be others, will almost certainly offer better use of the limited public funds available. Partial infrastructure may well be already in place or more readily available in these other locations and help to lessen the burden on the public purse. Also, in comprehensively reviewing other locations, it may be possible to address suitable brownfield sites that in all but easy situations private developers ignore and disregard, but which nevertheless remain a serious blight on the landscape of the Borough.

4121/01/004/DM44.2/O Janet Norris Object

I am writing to object to the use of Coombe Lodge Nurseries off Conduit Lane 661 as a gypsy/traveller site.

DM44.2
661

4125/01/046/DM44.2/C Councillor M Fisher Comment

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Site 661, Coombe Lodge Nurseries, Conduit lane. Transition Town have expressed an interest in restoring this site to a proper nursery facility, utilising the existing greenhouses for the growing of food, which would be a sustainable and appropriate activity within this green belt site.

DM44.2
661

02 September 2016
All three sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. Furthermore, Policy E of ‘Planning Policy for Traveller Sites’, published by the Government in August, states very clearly that ‘Traveller sites (temporary or permanent) in the Green Belt are inappropriate development’. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the ‘Assessment and Selection of Sites for Gipsy and Travellers’. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of ‘extensive political consultation’. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Not in line with Government planning policy on the Green Belt

Detail:

• Government planning policy with regards to traveller sites wants to ensure that plan-making and decision-taking should protect Green Belt from inappropriate development.

• The proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the Planning Policy: "Inappropriate development is harmful to the Green Belt and should not be approved, except in very special circumstances." There are no very special circumstances.

• The National Planning Policy Framework makes it clear that unmet housing need (including for traveller sites) is unlikely to outweigh the harm to the Green Belt and other harm to constitute the "very special circumstances" justifying inappropriate development on a site within the Green Belt.

• The local character description is clearly at odds with the proposal.

• The justification acknowledges the Green Belt issue, though insufficiently, but relies on the fact that there are existing structures. These are not in fact substantial – being glasshouses – and could be said to be at least environmentally consistent with the Green Belt. But there is no very special circumstance justification proposed as required by Planning Policies.

• Approving the proposal would set a precedent and open the surrounding areas to be subject to similar development. It is not in the community's interests to allow the erosion of the green spaces surrounding the community and we object to the impact this site could have on the environment and wildlife. In the light of these issues, it is not appropriate simply to weight Green Belt as one of many factors to be considered, but rather it presents an overarching policy objection that cannot be over-ridden in the way proposed.

The objections may be summarized as:

- inappropriate use of Green Belt land
- lack of relevant amenities close to hand
- adverse effect on neighboring businesses and leisure amenities
- site has a more appropriate use for a school

The decision making process is contrary to Government guidance

Mrs S Rudduck

DM44.2 661

Object

I object to the use of Coombe Lodge Nurseries off Conduit Lane Ref: 661 as a gypsy/traveller site.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Ms S Rao
I am a Croydon resident and am writing to object to Coombe Lodge Nurseries off Conduit Lane, (site reference 661 Policy DM44)

Change
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mrs S Chandanana
Build a school please. School is a viable option as there no schools in our area. The plan makers have missed a big point that existing infrastructure cannot cope with the influx of additional population at such a fast pace. Also it has to be planned over few years. It should never ben on a green belt attached to a green belt sites as it is disastrous for the environment. There are quite a few brownfield sites in Croydon should be explored. What are the criteria behind selecting two sites within 1 mile of each other? The plan makers do not know the grass root situation. They have just assumed things without actually knowing the facts. This is a grave situation. There are quite a few public and independent schools in the nearby area. Building a new school will support Selsdon and nearby citizens. Besides we do not have a Grammar school in Croydon. So, it would be ideal if we build a grammar school in Croydon on one of the proposed sites. Existing infrastructure just cannot cope with additional population in Croydon:
- We have to wait at least 4-5 days to get appointment at doctors- many times do not get appointment
- We have to wait at least 15 minutes to get a turn to play swing/slides for my son in any local park. The parks are so crowded during summer. Already children are getting very less exercise. If 40 families come over with more than 80 children then it would be extremely over crowded.
- There are not eough schools in the area. We should build more schools
- There is very limited green space in Croydon. Government policy states that you cannot build temporary or permanent sites on Green Belt. Putting the travellers sites near green belt will endanger.
- Conduit lane is a no drive zone. Increased traffic due to a planned school and travellers sites will cause traffic chaos.
- We need green belts for good health of the citizens. Steps like these would encourage the encroachment of green belts
Mr S Illingworth

There has been a history of unauthorised "pitches" in this area over the past few years, in particular on the field adjacent to the practice area and 5th hole on the golf course. On each occasion these pitches have been accompanied by residual mess, threatening behaviour and mindless theft of golf club property. Each time that Gypess/Travellers have been in the area, they have trespassed onto the golf course while club members are playing, threatening those members with physical and verbal abuse on numerous occasions. This behaviour is totally unacceptable and very demoralising, and should either of these pitches go ahead I am sure that it will have a serious detrimental affect on both the club and its members.

Mrs S Deshpande

Object Soundness - Consistent with National

I am writing to object to:

1. The use of the following locations as a gypsy and traveller site:
   - Coombe Lodge Nurseries off Conduit Lane, site reference 661
   - as the site would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

   There is also an error in the calculation for the Green Belt score in the selection criteria. The site should be scored -5 for being in Green Belt and not +5.

   There is an error in calculating the site access for this site. There are cars parked on the road and the entrance is through a very busy main road. The site cannot have a rating of +5. It should be -2.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
I will oppose the gypsy site on the following grounds:

1. Mis-calculation of the score while selecting the site:
   If a site is Green Belt/MOL-built form then it is marked as (Amber/Orange), which means a score of -5.
   If you go to page number 9 of the document in the link below, you can find that Amber is scored as +5 as opposed to -5.
   Also, the score for the site access should be -2 as there are issues with the site access. This brings the overall score down to 12. Please check the other scores too before finalising this site. This site is clearly not suitable for building on the gypsy site as it is a green belt site.

2. I will be objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:
   "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development." The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

Criteria of selection:
The plan makers have missed a big point that existing infrastructure cannot cope with the influx of additional population at such a fast pace. Also, it has to be planned over few years. It should never be on a green belt/attached to green belt sites as it is disastrous for the environment. There are quite a few brown field sites in Croydon. Those should be explored.

My answer: School is a viable option. Building a new school will support the Selsdon and nearby citizens. Besides we do not have a Grammar school in Croydon. So, it would be ideal if we build a grammar school in Croydon on one of the proposed sites.

Change
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
knowing the facts. This is a grave situation.

Building a new school will support the school and nearby citizens. Besides we do not have a Grammar school in Croydon. So, it would be ideal if we build a grammar school in croydon on one of the proposed sites. Existing infrastructure just cannot cope with additional population in Croydon:

1. We have to wait for at least 4-5 days to get appointment at doctors – many times we do not get appointment
2. We have to wait for at least 15 minutes to get a turn to play swing/slide for my son in any local park. The parks are so crowded during summer. Already children are getting very less exercise. If 40 families come over with more than 80 children then it would be extremely overcrowded.
3. There are not enough schools in the area. We should build more schools
4. There is very limited green space in Croydon. Government policy states that you cannot build temporary or permanent sites on green belt. Putting the travellers site near green belt will endanger the
5. Conduit lane is a no drive through zone. Increased traffic due to a planned school and travellers sites will cause traffic chaos.
6. We need green belts for good health of the citizens. Steps like these would encourage the encroachment of green belts.
| Mr & Mrs Andrews | 4145/01/008/DM44.2/O | Object | Soundness - Justified | DM44.2 661 | I am grateful to the Council for consulting on the detailed policies and proposals that will make up the Croydon Local Plan. There is much in the document that I agree with, but some of the proposals would, in my opinion, change the character of parts of Croydon very much for the worse. I hope you will forgive me if I focus on these areas of contention. I am therefore writing to formally object to:

3. the use of the following locations as gypsy and traveller sites:
   • Coombe Farm off Oaks Road reference number 502;
   • Coombe Lodge Nurseries off Conduit Lane reference number 661; and
   • Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane reference number 755;

As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest.

Policy E of Planning Policy for Traveller Sites, published by the government in August, says very clearly:

"Traveller sites (temporary or permanent) in the Green Belt are inappropriate development."

The Council’s approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough – which I would question – they should look elsewhere (for example, off the Purley Way where the existing site is).

| DM44.2 661 | Change | This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

| Mr & Mrs Carpenter | 4146/01/008/DM44.2/O | Object | DM44.2 661 | We object on the basis that both sites are on Green Belt land and one is adjacent to a Site of Nature Conservation Interest. This proposed siting appears to be contrary to the Government’s published policy which says that such sites in the Green Belt are inappropriate development.

| Change | This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

---

02 September 2016
4148/01/002/DM44.2/O Mr & Mrs Dennis

Object: Soundness - Justified

DM44.2 661

Under no circumstances do we agree with a Gypsy and Traveller site at this location.

Change: This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4152/01/002/DM44.2/O Mr & Mrs Munnery

Object: National guidelines clearly state ‘Travellers Sites temporary or permanent) in the Green Belt are inappropriate development’. The Council’s proposals, therefore, clearly breach such guidelines. Also, we question the Council’s assertion that it needs to quadruple the number of travellers/gypsy sites in the Borough. Apart from this major objection, the above sites identified for such use would have: - poor access via narrow roads/lanes for large vehicles; - consequent impact upon local traffic congestion with movements of large vehicles; - no safe paved walking routes to schools, shops, doctors, etc.; - additional requirement for services and facilities for hygienic occupation; - increased pressure on local schools, medical facilities, waste disposal, etc.; - impact upon local facilities and amenities of current residents. Also, we understand that the proposed pitches would accommodate considerably more caravans and associated vehicles than can be controlled by planning restrictions.

Change: This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4153/01/002/DM44.2/O Mr Gary Dean

Object: am writing to object to the use of the following locations as gypsy and traveller sites at Coombe Lodge Nurseries off Conduit Lane, site reference 661 and Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b;

Change: This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
The GTANA report (2013) does not consider why there is a requirement to provide such facilities and refers to the CLG’s document Planning Policy for Traveller Sites (March 2014) which states that Local Authorities should in producing their local plans, consider joint development plans that set targets on a cross authority basis. This proposal seems to have been produced in isolation from other neighbouring councils even though the above clearly indicates that nearby councils such as Sevenoaks, Tandridge and Bromley have higher demand. Proposals in the Housing and Planning Bill 2015-2016 are to remove the statutory requirement on local authorities to assess the specific accommodation needs of Gypsies and Travellers - the emphasis being that when authorities are carrying out a review of housing needs that it considers the needs of all the people residing in their district, without any reference to Gypsies and Travellers. We hope this means that Croydon Council will consider our needs and the needs of our neighbours and local services and businesses as weighty as those of Gypsy and Travelling people. We understand that there is a lot of opposition to the proposed sites from people currently residing in the district due to the threat to the Green Belt, increased traffic and increased pressure on local services. Surely such low scores within the "Assessment and Selection of Sites for Gypsy and Travellers" (August 2015) should have resulted in an acceptance that none of the sites are really particularly suitable and that the council will need to liaise with other council if determined to make provision. All three sites are in Green Belt land - Policy E of Planning Policy for Traveller Sites - traveller sites (temporary and permanent) in the Green Belt are inappropriate development. Further concern for the impact upon Green Belt is highlighted in the GTANA Stakeholder consultation. The sites are contrary to the Strategic Policies (April 2013) in terms of access from roads and proximity to bus routes; and access to essential services including health and education facilities.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Mr Trevor Watkins

Object

I am a Croydon resident and am writing to object to the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference number 661, policy number DM44: and Coombe Farm off Oaks Road, site reference number 502, policy number DM43: and Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane, site reference number 755, policy number DM32. All three sites are in the Green Belt, with one bordering a site of Nature Conservation. The proposed use of each of these sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b and would not be consistent with Policy E of ‘Planning Policy for Traveller Sites’ published by the Government. If additional sites are required in the Borough it would more appropriate to expand existing sites eg the site off the Purley Way. In addition none of the sites has easy access to local school, healthcare, retail and other amenities; the vehicular access into sites 661 and 502 is problematic and egress onto Coombe Lane/Oaks Road at the road junction is likely to create additional road hazards.

4161/01/003/DM44.2/O

Mr & Mrs Whitehead & Abbott

Object

We write to express our objections to the above proposals. We have lived in South Croydon since the late 1980’s and have been regular visitors to Coombe Wood and gardens, often walking to them up Conduit Lane from Croham Road. This area is a uniquely rural and beautiful enclave so close to central Croydon. It is well loved and visited by many residents and of great heritage and conservation value to Croydon. To have a traveller site on Conduit Lane would be very detrimental to this lovely place. It is a very confined area and such a development would urbanise and also introduce a high volume of vehicle use. The character of this special place would be lost forever.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
4166/01/003/DM44.2/O Carol Holmes Object DM44.2 661 I am writing to you to object to use of Green Belt Land for gypsy/traveller sites (reference numbers 502, 661) Coombe Farm off Oaks Road (reference number 502) and Coombe Lodge Nurseries off Conduit Lane (reference number 661) are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. These proposals are in breach of policy E of Planning Policy for Traveller Sites, published by the Government in August, which says that Traveller Sites in the Green Belt are inappropriate development. Alternative sites should be found.

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4167/01/002/DM44.2/O Mr A Majeed Object Soundness - Justified DM44.2 661 The proposed Gypsy and Traveller site is contrary to government policy as it is in Green Belt. In addition, based on past experience of unauthorised encampments I think there would be a threat to the safety, security and well-being of my family.

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4168/01/003/DM44.2/O Catherine Martin Object DM44.2 661 I object to the use of the site for gypsy and traveller accommodation.

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

4174/01/007/DM44.2/O Mr B Williams Object DM44.2 661 I object to the site being allocated for a gypsy and traveller site. It is in the Green Belt and one of the sites borders a Site of nature Conservation Interest. Policy E of Planning Policy for Travellers Sites published by the government in August says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate developments". The Council's approach is clearly in breach of this policy.

Change This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Mr Brian Mole  
Object DM44.2 661  
This site is also in the green belt and according to Government Policy is deemed inappropriate. Coombe Park which is a beautiful landscaped park and contains many memorials to war dead and families loved ones will be completely overwhelmed by this enormous traveller development for up to 75 mobile homes right next door. The huge amount of traffic going along Conduit Lane will make access to the park from the parking bays on the other side of the road much more difficult and dangerous. These parking bays are used by the very young and the very old to give them easy and safe access to this beautiful public park. Again the size of the site will totally overwhelm the nearest settlement of residents on Coombe Road, Oaks Road and Oaks Lane. The closest schools are oversubscribed so would be unable to meet the needs of so many new children to the area. The council has gone to great expense to protect the site from mobile travellers and this seems to have been a great waste of tax payers money if they now allow a permanent site. Several businesses which make a big contribution to the local economy and also provide much needed amenity to the public will be detrimentally affected by the site.  

Change  
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and one borders a site of Nature Conservation Interest. Such development is in breach of Policy Eat Planning Policy for Traveller Sites, which says that ‘Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development’.

All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites now, and 39 by 2036 is excessive and will have an adverse effect on the borough. If the number of Gypsy/Traveller sites really needs to be increased by this amount then a more appropriate location would be around the existing site at Purley Way. The positioning of a Gypsy/Traveller site adjacent to the car park for Coombe Woods, between the Chateau Restaurant and the Hotel/restaurant, would probably deter me from using any of these attractions.

For the reasons given above:
1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability of future generations to meet their own needs.
4. I recommend that consultation documents of such importance are given much wider publicity.

I have restricted my objections to those plans that primarily affect the area of Shirley I which I live, but the same objections apply to other proposals in other parts of the borough.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mr & Mrs DB Good

**Object**

Proposed Policy DM3 Creation of Gypsy/Traveller sites at Coombe Farm, off Oaks Road, Coombe Lodge Nurseries, off Conduit Lane

I object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and one borders a site of Nature Conservation Interest. Such development is in breach of Policy Eat Planning Policy for Traveller Sites, which says that ‘Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development’. All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites now, and 39 by 2036 is excessive and will have an adverse effect on the borough. If the number of Gypsy/Traveller sites really needs to be increased by this amount then a more appropriate location would be around the existing site at Purley Way. The positioning of a Gypsy/Traveller site adjacent to the car park for Coombe Woods, between the Chateau Restaurant and the Hotel/restaurant, is totally undesirable. As users of the restaurants, gardens, park and golf course it would be hard to imagine we will wish to visit these attractions if it is blighted in this way. As members of Shirley Park Golf Club we have experienced threatening behaviour, trespass, verbal abuse and stunning residual mess travellers create. The golf club provides social and sporting activity for some 700 members and many visitors including junior players who play during school holidays and weekends. Their safe environment will be endangered. We understand that the proposed sites fail to meet criteria with regard to schooling and medical needs and it seems obvious that these proposals need to be scrapped as soon as possible.

Mr J Turvey

**Object**

I am writing to object to:

1. the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference 661; Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

**Change**

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I object to the use of the following locations as gypsy/traveller sites: Coombe Lodge Nurseries off Conduit Lane (site reference number 661) - As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development. The Council’s approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).”

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I am a Croydon resident and am writing to object to the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference number 661, policy number DM44; and Coombe Farm off Oaks Road, site reference number 502, policy number DM43; Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane, site reference number 755, policy number DM32. All three sites are in the Green Belt, with one bordering a site of Nature Conservation. The proposed use of each of these sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b and would not be consistent with Policy E of ‘Planning Policy for Traveller Sites’ published by the Government. If additional sites are required in the Borough it would more appropriate to expand existing sites eg the site off the Purley Way. In addition none of the sites has easy access to local school, healthcare, retail and other amenities; the vehicular access into sites 661 and 502 is problematic and egress onto Coombe Lane/Oaks Road at the road junction is likely to create additional road hazards.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

DM44.2

661

Change

02 September 2016
Coombe Lodge Nurseries off Conduit Lane (ref. no. 661)
1. This is located in a Green Belt area. Under National Guidelines, Travellers/Gypsy sites in the Green Belt are inappropriate development. This means that planning permission should not be granted.
2. The presence of the site will totally overwhelm the nearest settlement of residents on Coombe Road, Oaks Road and Oaks Lane. Residents in these areas greatly value the peaceful and friendly environment they have nurtured in the local neighbourhood over many years and this will be greatly damaged and threatened by the proposed Traveller site.
3. Several businesses which make a big contribution to the local economy and also provide much needed amenity to the public will be detrimentally affected by the site such as the Coach House Café, Coombe Lodge Beefeater, The Chateau. This will additionally have a significant adverse impact on the people employed by the businesses and numerous suppliers that service these local businesses.
4. The proposed Traveller site is in very close proximity to the award winning Coombe Wood Gardens which attracts visitors and families all year round to enjoy the beautiful gardens and the local wildlife. The presence of the Traveller site would have a severely negative impact on the quiet, tranquil and serene characteristic of the area and drive away visitors from the gardens.
5. Previously the Council has gone to great expense to protect the site from mobile Travellers and this seems to have been a great waste of taxpayers’ money if they now allow a permanent site.
6. Coombe Park is a beautiful landscaped park and contains many memorials to war dead and families’ loved ones. It will be completely overwhelmed by this enormous Traveller development for up to 75 mobile homes right next door. The huge amount of traffic going along Conduit Lane will make access to the park from the parking bays on the other side of the road much more difficult and dangerous. These parking bays are used by the very young and the very old to give them easy and safe access to this beautiful public park.
7. This is a peaceful area used by the local community and visitors for walking routes, running and leisure activities. The location of a Traveller or Gypsy site here would
destroy the tranquil nature of the area and drive away visitors upon which the local businesses rely.

The history of unauthorised "pitches" in this area over the past few years has left a bitter resentment, especially in view of the residual mess and threatening behaviour that has always accompanied their trespass. On each occasion that Gypsies/Travellers have been in the area, the club members here have been threatened with physical and verbal abuse. This behaviour is totally unacceptable and despite the subsequent eviction of the Travellers on each occasion, the residual psychological effect on tax payers and constituents' lives cannot be trivialised. We also have a large Junior Section and children play the course during holidays as well as weekends. They are often unaccompanied and the parents need to know they are in a safe environment. This would certainly not be the case in the parents' minds if there was any chance of aggressive behaviour, as previously experienced, towards these children. I am certain that the Council would not wish to be responsible for putting children in any sort of potentially dangerous situation.

Surely these detailed real issues must be taken into account when determining any permanent site. I understand that the proposed sites are not within the required distance to both schooling and medical needs, therefore I also object on this basis. The land is in private ownership at Coombe Farm. Any funds spent on "compulsory or otherwise" purchase clearly could be spent more wisely on behalf of the population of Croydon. No doubt Central Grants will be available, but Council owned land in an area that will not radically impact on established residents' lives would be a sensible and prudent choice.
Object 5. Proposed Policy DM43 Creation of Gypsy Traveller sites at Coombe Farm, off Oaks Road, Coombe Lodge Nurseries, off Conduit Lane and Pear Tree Farm and Pear Tree Cottage Featherbed Lane.

I object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and one borders a site of Nature Conservation Interest. Such development is in breach of Policy Eat Planning Policy for Traveller Sites, which says that ‘Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development”. All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites now, and 39 by 2036 is excessive and will have an adverse effect on the borough. If the number of Gypsy/Traveller sites really needs to be increased by this amount then a more appropriate location would be around the existing site at Purley Way. The positioning of a Gypsy/Traveller site adjacent to the car park for Coombe Woods, between the Chateau Restaurant and the Hotel/restaurant, would probably deter me from using any of these attractions.

For the reasons given above:
1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability of future generations to meet their own needs.
4. I recommend that consultation documents of such importance are given much wider publicity.

I have restricted my objections to those plans that primarily affect the area of Shirley I which I live, but the same objections apply to other proposals in other parts of the borough.

DM44.2
661

I object to the use of the site for gypsy and traveller accommodation. These are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller sites, published by the Government in August states clearly “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. Both sites are also some distance from public services, schooling and medical needs. Coombe Park, a beautiful landscaped park, containing many war and family memorials will be completely overwhelmed by the enormous traveller development right next door and access to the parking bays will also be compromised. A preferred siting would be off the Purley Way where the existing site could be enlarged.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

5. Proposed Policy DM43 Creation of Gypsy/Traveller sites at Coombe Farm, off Oaks Road, Coombe Lodge Nurseries, off Conduit Lane and Pear Tree Farm and Pear Tree Cottage Featherbed Lane.

I object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and one borders a site of Nature Conservation Interest. Such development is in breach of Policy Eat Planning Policy for Traveller Sites, which says that ‘Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development’. All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites now, and 39 by 2036 is excessive and will have an adverse effect on the borough. If the number of Gypsy/Traveller sites really needs to be increased by this amount then a more appropriate location would be around the existing site at Purley Way. The positioning of a Gypsy/Traveller site adjacent to the car park for Coombe Woods, between the Chateau Restaurant and the Hotel/restaurant, would probably deter me from using any of these attractions.

For the reasons given above:
1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability of future generations to meet their own needs.
4. I recommend that consultation documents of such importance are given much wider publicity.

I have restricted my objections to those plans that primarily affect the area of Shirley I which I live, but the same objections apply to other proposals in other parts of the borough.

DM44.2  

Change  

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Mrs Kathleen Swan

Object

DM44.2 661

I understand the Council has identified two locations on the edge of Shirley for gypsy/traveller sites:

Coombe Lodge Nurseries off Conduit Lane, which is identified as suitable for 15-25 pitches (pages 468-469, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 661).

I object to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.

The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

Mrs Rita Evans

Object

DM44.2 661

The proposals for two Gypsy and Traveller sites on Green Belt land at the periphery of Shirley is in direct contravention of the Government's Planning Policy for Traveller Sites which clearly states that such are 'inappropriate development' in the Green Belt. It has been stated that any such sites must be for true Travellers. Planning Resource highlights that the new Planning Policy document published in August 2015 redefines Traveller to exclude those who no longer travel permanently, thus avoiding the need for static homes which has greatly reduced the number of pitches that Councils are required to provide.

Could this be a long-term strategy to de-designate Green Belt land, then when it is under-used, claim it for housing?

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
J Rayner

Object DM44.2 661

Coombe Lodge Nurseries off Conduit Lane, Ref No. 661.

This site is also green belt and according to Government policy is deemed inappropriate. The Council has gone to great expense to protect the site from mobile travellers and this seems to have been a great waste of taxpayers money if they now allow a permanent site. Several businesses which make a bit contribution to the local economy and also provide much needed amenity to the public will be detrimentally affected by the site.

Coombe Park which is a beautiful landscaped park and contains many memorials to the war dead and families loved ones will be completely overwhelmed by this enormous traveller development for up to 75 mobile homes right next door. The huge amount of traffic going along Conduit Lane will make access to the park from the parking bays on the other side of the road much more difficult and dangerous. These parking bays are used by the very young and the very old to give them easy and safe access to this beautiful public park.

Again the site of the site will totally overwhelm the nearest settlement of residents on Coombe Road, Oaks Road and Oaks Lane.

Mr M Buja

1. the use of the following locations as gypsy and traveller sites:
   Coombe Lodge Nurseries off Conduit Lane, site reference 661;
   Coombe Farm off Oaks Road, site reference 502;
   as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

Incorrect calculation in the second criteria for 661 (Conduit Lane) and 502 (Coombe Farm) - if a site is green Belt/MOL - built form then it is marked as (Ambiguous), which means it is a score of "-5". "+5" has been used which increases its rating by 10 points.

Incorrect calculating site access for 661: there are cars parked on that road and the entrance is through a very busy main road. The site cannot have a rating of "+5". It should be -2. That's a difference of 7 rating points.

I object to 4. the use of the following locations as gypsy/traveller sites:

a) Ref No. 502 — Coombe Farm off Oaks Road
b) Ref No. 661 — Coombe Lodge Nurseries off Conduit Lane

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Mr K Shah

Object DM44.2 661

I object to the use of the site for gypsy and traveller accommodation.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mr N Chanuarana

Object DM44.2 661

Incorrect calculation in the selection criteria for 661 (Conduit Lane)

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Ms P Allen

Object DM44.2 661

I am writing to object to the use of the following locations as gypsy and traveller sites at Coombe Lodge Nurseries off Conduit Lane, site reference 661 and Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mr P Bhanji

Object DM44.2 661

I am a Croydon resident and am writing to object to the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference number 661; Coombe Farm off Oaks Road, site reference number 502; Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane, site reference number 755. All three sites are in the Green Belt, with one bordering a site of Nature Conservation. The proposed use of each of these sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b and would not be consistent with Policy E of 'Planning Policy for Traveller Sites' published by the Government. If additional sites are required in the Borough it would more appropriate to expand existing sites eg the site off the Purley Way. In addition none of the sites has easy access to local school, healthcare, retail and other amenities; the vehicular access into sites 661 and 502 is problematic and egress onto Coombe Lane/Oaks Road at the road junction is likely to create additional road hazards.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Mr P Chapman
Object DM44.2 661

Ms B Fontaine
Object DM44.2 661
I am a Croydon resident and am writing to object to the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference number 661, policy number DM44: and Coombe Farm off Oaks Road, site reference number 502, policy number DM43 Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane, site reference number 755, policy number DM32. All three sites are in the Green Belt, with one bordering a site of Nature Conservation. The proposed use of each of these sites would constitute inappropriate development in the Green Belt and would not comply with Policy 5P2.7a and SP2.7b and would not be consistent with Policy E of 'Planning Policy for Traveller Sites' published by the Government. If additional sites are required in the Borough it would more appropriate to expand existing sites eg the site off the Purley Way. In addition none of the sites has easy access to local school, healthcare, retail and other amenities; the vehicular access into sites 661 and 502 is problematic and egress onto Coombe Lane/Oaks Road at the road junction is likely to create additional road hazards.

Ms H Lishmund
Object DM44.2 661
I object to the use of the site for gypsy and traveller accommodation.

Susana Winter
Object DM44.2 661
Gypsy and Traveller use is not appropriate development in the Green Belt and would not comply with Policy SP2.7. There is also an error in the scoring for this site in the evidence base.

Mrs Sarah Moise
Object DM44.2 661
I object to the use of Coombe Lodge Nurseries off Conduit Lane, Site 661 as a Gypsy and Traveller site. This site would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.
We object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and one borders a site of Nature Conservation Interest. Such development is in breach of Policy Eat Planning Policy for Traveller Sites, which says that 'Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development'. All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites now, and 39 by 2036 is excessive and will have an adverse effect on the borough. If the number of Gypsy/Traveller sites really needs to be increased by this amount then a more appropriate location would be around the existing site at Purley Way. The positioning of a Gypsy/Traveller site adjacent to the car park for Coombe Woods, between the Chateau Restaurant and the Hotel/restaurant, would probably deter me from using any of these attractions.

For the reasons given above:
1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability of future generations to meet their own needs.
4. I recommend that consultation documents of such importance are given much wider publicity.

I have restricted my objections to those plans that primarily affect the area of Shirley I which I live, but the same objections apply to other proposals in other parts of the borough.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Object DM44.2 661

5. Proposed Policy DM43 Creation of Gypsy Traveller sites at Coombe Farm, off Oaks Road, Coombe Lodge Nurseries, off Conduit Lane and Pear Tree Farm and Pear Tree Cottage Featherbed Lane.

I object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and one borders a site of Nature Conservation Interest. Such development is in breach of Policy Eat Planning Policy for Traveller Sites, which says that ‘Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development’. All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites now, and 39 by 2036 is excessive and will have an adverse effect on the borough. If the number of Gypsy/Traveller sites really needs to be increased by this amount then a more appropriate location would be around the existing site at Purley Way. The positioning of a Gypsy/Traveller site adjacent to the car park for Coombe Woods, between the Chateau Restaurant and the Hotel/restaurant, would probably deter me from using any of these attractions.

This site is also in the green belt and according to Government policy is deemed inappropriate. The Council has gone to great expense to protect the site from mobile travellers and this seems to have been a great waste of taxpayers’ money if they now allow a permanent site. Several businesses which make a big contribution to the local economy and also provide much needed amenity to the public would be detrimentally affected by the site. Coombe Park which is a beautiful landscaped park and contains many memorials to war dead and families loved ones will be completely overwhelmed by this enormous traveller development for up to 75 mobile homes right next door. The huge amount of traffic going along Conduit Lane will make access to the park from the parking bays on the other side of the road much more difficult and dangerous. These parking bays are used by the very young and the very old to give them easy and safe access to this beautiful public park. Again the size of the site will totally overwhelm the nearest settlement of residents on Coombe Road, Oaks Road and Oaks Lane.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Miss Jenna Manji

Object: Soundness - Consistent with National

DM44.2 661

I am writing to object to the use of the following locations as gypsy/traveller sites:
- Coombe Farm off Oaks Road reference number 502; and
- Coombe Lodge Nurseries off Conduit Lane reference number 661;

These proposals will have a detrimental effect on the settled community and in no way do they take into consideration the 2008 DCLG Designing Gypsy and Traveller Sites: Good Practice Guide, point 3.8, which states 'Consideration must be given to the relationship of sites to the surrounding community. The last time travellers settled in that area my nieces and nephews were confronted by gypsy kids and my sister’s property was trespassed by the gypsies who stole her kids' bikes and scooters. So I can voluich for the fact that having gypsies permanently in the area is not good consideration of the relationship of the site to the community already living there. Furthermore, if the Council were not willing to develop the Green Belt land to build more beautiful homes in line with the properties already in the area, how is it possible that there is now a proposal to create gypsy and traveller sites in the area and burden the area and the community there with all that comes with travellers such as anti-social behaviour and loud noise and to top it off destroy the current property prices?

I am strongly opposed to this proposal and feel that the gypsy site in Purley Way should be extended to house the more space needed gypsies and travellers there.

Ann & Alan Gibbs

Object: DM44.2 661

Both of these sites have been identified as potential locations for gypsy/traveller sites. These sites are both within the Green Belt and one borders a site of Nature Conservation Interest and therefore are wholly unsuitable for any form of development. The Government policy on traveller sites explicitly states they are an inappropriate development within the Green Belt. The existing Green Belt should be retained and not be undermined by the local authority.

DM44.2 661

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
This site is also in the green belt and according to Government Policy is deemed inappropriate. The council has gone to great expense to protect the site from mobile travellers and this seems to have been a great waste of taxpayers' money if they now allow a permanent site. Several businesses which make a big contribution to the local economy and also provide much needed amenity to the public will be detrimentally affected by the site. Coombe Park which is a beautiful landscaped park and contains many memorials to war dead and families' loved ones will be completely overwhelmed by this enormous traveller development for up to 75 mobile homes right next door. The huge amount of traffic going along Conduit lane will make access to the park from the parking bays on the other side of the road much more difficult and dangerous. These parking bays are used by the very young and the very old to give them easy and safe access to this beautiful public park. Again the size of the site will totally overwhelm the nearest settlement of residents on Coombe Road, Oaks Road and Oaks Lane.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Mr Ian Fraser

The proposed use of land to create gypsy/traveller sites (reference 502 and 661) is particularly unwelcome. Residents and the council have bitter experience of disruption and the waste left by travellers when they have visited Croydon. Any encouragement of this situation should be avoided, as it will encourage additional travellers to come to our town.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
I object to the proposed use of the following locations as gypsy/traveller sites: at Coombe Farm (off Oaks Road) ref Number 502 and at Coombe Lodge Nurseries (off Conduit Lane) ref Number 661. The areas proposed are completely unsuitable for the proposed purpose being adjacent to the Tram link, Lloyd Park, Golf Course, Recreational Woodland, Ornamental Park, School and Small Businesses. Both proposed the sites are in the Green Belt and one borders a Site of Nature Conservation interest. Government Policy E of Planning Policy for Traveller Sites states that “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.”

We have seen information suggesting that 3 Traveller sites maybe placed around the Forestdale and Shirley Areas, and also plans to Intensify the Housing of Forestdale! We believe the plans for Traveller sites are wholly unfair and building on land which is Green Belt is inappropriate development. Policy E of Planning for Traveller Sites, published by the Government in August indeed states this also. The building of such sites would also be hugely detrimental to house values, and totally unacceptable. We completely object to this so these plans need to be scrapped NOW!

I wish to object to the use of the following sites: The use of Coombe Lodge Nurseries for a gypsy/traveller site. This could only be allowed if other facilities were provided. Does the Council propose to import plants from Holland? (Ref 661).

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
In particular I have grave concerns about the choice of location for the proposed gypsy and traveller sites and also the building of 750 new homes at Shirley Oaks Village. The local schools are already struggling to cope with ever increasing numbers of children, and the journey from Shirley into Croydon can be extremely congested at peak times. The extra traffic generated by the proposals would cause misery in my opinion. The loss of green spaces in the proposed areas of development would also be most detrimental. I would therefore urge Croydon Council to consider and respect the very real concerns and fears of the majority of residents in the Shirley area.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

I am writing to object to the use of the following locations as gypsy/traveller sites: Coombe Farm off Oaks Road reference number 502; and Coombe Lodge Nurseries off Conduit Lane reference number 661; I am so upset to hear of these proposals for my family living close by to Coombe Farm. My daughter who lives in Scotland was also living close to gypsies and every single day she had a different problem. They steal, they fight, they make so much noise and they throw their rubbish all over the place and they have rough dogs who bark at everyone. We stopped visiting her because it was too much trouble. This area you are choosing is so nice and quiet, so clean and pretty. Why would you chose to ruin it with traveller sites. This is a most stupid decision and also very thoughtless to the people who live in that area. They will have to build 6 feet high walls all around their homes. Is the council going to pay for the extra security needed? I cannot stress enough how much I am against this proposal.

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
I am writing to object to the use of the following locations as gypsy/traveller sites:
• Coombe Farm off Oaks Road reference number 502; and
• Coombe Lodge Nurseries off Conduit Lane reference number 661;
I am strongly against these proposals for a number of reasons. Both the proposed sites are on Green Belt land and as such are inappropriate and harmful to the land. The area is pretty and supports plenty of wildlife which we love discovering with the grandchildren. The effect on the community already settled in that area, which includes my daughter and grandchildren, will be detrimental in many ways. I fear for their safety and security if this proposal were to be passed as the gypsies have tried to settle their before. My grandchildren were bullied and my daughter experienced vandalism to her property and theft from the garden. I cannot begin to imagine what it might be like if the travellers became permanent residents in the Coombe Farm and Coombe Lodge area. It would be disastrous. How can you think of placing a gypsy and traveller site in Conduit Lane, in the green belt, next to the award-winning Coombe Wood Gardens? That place would be ruined within a very short space of time. If gypsies began frequenting the Coombe Wood it would mean that elderly people such as myself would no longer feel safe taking our grandchildren to the gardens and that would be a huge loss for us in so many ways. I urge you to re-think and place the gypsies and travellers in areas that would be better suited to them and would less infringe upon the lives of already settled and happy communities.

Change
This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
Deborah Davis

Object Soundness - Justified DM44.2 661

am writing to object to Reference Numbers 502 and 661—Location of Gypsy and Travellers sites in Coombe Lane and Coombe Lodge Nurseries. The reasons of my objections are as follows:

• They are being built in Green Belt areas.
• The sites are built on single track lanes but in your document you state “In addition Gypsy and Traveller sites need good access to the road network as they often need to move larger vehicles as part of their livelihood and way of life”. Neither has good access especially for larger vehicles, if there are to be 39 pitches with at least 2 families on each pitch and an average of 3 vehicles per family that is 234 vehicles. I don’t think you could park that many vehicles in these sites let alone access on a one vehicle wide road.
• I really do not believe these pitches are within the required distance of schools, doctors, shops.
• I understand that Croydon wishes to increase Travellers sites fourfold yet I have seen no explanation why that number is used.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Gisela & Patrick Pachebat & Maguire

Object DM44.2 661

We are objecting very strongly to a gypsy and traveller site in Condull Lane and at Coombe Farm. Both sites are green belt and should not be used for any other purposes. You should listen to all the objections of all the people living around these sites. We can not understand why the council has to pick sites in South Croydon when other places would be much more suitable.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

P A J Galhia

Object Soundness - Justified DM44.2 661

A proposed Gypsy and Traveller site next to Croydon’s award winning Coombe Wood Gardens and at the end of a bridleway and popular walk beggars belief.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.

Owner of Royal Garden Chinese Bar Restau

Object DM44.2 661

Object to the 1e Travellers site as it would be in be in a Green Belt and in breach of government guidance and there would be no services local to the area.

Change

This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found.
| Object | DM44.2 661 | I object to the following:  
- The use of the site at Coombe Farm for a gypsy traveller site (502)  
- The use of the site at Coombe Lodge for a gypsy traveller site (661) | Change | This site has been found to be unsuitable for any form of residential development, including Gypsy and Traveller pitches, due to the noise from industrial machinery located on an adjacent site. Therefore, the proposed allocation will be deleted and an alternative site found. |

| Object | DM44.2 662 | All area policies should be in line with Sport England’s Land Use Planning Policy Statement ‘Planning for Sport Aims and Objectives’ and Paragraph 74 of the NPPF and Sport England’s Playing Fields Policy. The Coombe Road Playing Fields, Coombe Road site (Ref no 662) in South Croydon includes existing sports facilities. Furthermore, the remainder of the specific sites could also include existing sports facilities (it is unclear as the existing use of these sites is not provided within this document). Planning Policy Objective 1 within Sport England’s Land Use Planning Policy Statement ‘Planning for Sport Aims and Objectives’ aims to prevent the loss of sports facilities and land along with access to natural resources used for sport. Furthermore, it is understood that some of the above sites form part of, or constitute a playing field as defined in The Town and Country Planning (Development Management Procedure) (England) Order 2010 (Statutory Instrument 2010 No.2184). Sport England would be consulted as a statutory consultee on any forthcoming planning applications and they would be considered in light of its Playing Fields Policy. A site allocation and subsequent development on the playing field aspect of these sites (which did not accord with Sport England’s Playing Fields Policy) would contravene paragraph 74 of the NPPF, which includes a strong presumption against building on open space. Sport England objects to the allocation of the land unless the above policies are fulfilled. | Change | There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt. The proposed allocation will be amended to include the retention of playing pitches. |
Object

The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662. The site should remain as Green Belt.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. I object to the reclassification of Coombe Playing Fields, Croham Hurst Woods and Sanderstead Plantation from Greenbelt to Metropolitan Open Land. This is not appropriate. It is essential for the character, ecology and biodiversity of the borough that these green spaces remain fully protected and are recognised for what they are - Green Belt. To downgrade them would be an obvious 'thin end of the wedge' to losing them.

We would make the following objections to the proposed Draft Local Plan which is a poorly disguised attack on the southern part of the Borough. 

Policy DM 44.2, table 11.17, Site 662  

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
I object to the de-designation of the site as Green Belt.

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179). The site should remain as green belt. Croham Hurst Woods are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p55 of Policies Map). Sanderstead plantation is also being downgraded from Green Belt to Metropolitan Open Land. All these downgrades should be removed.

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
I also object to the de-designation of the following areas which are not even listed in the table on page 53 of the Policies Map, which highlights the changes to the green grid. This information only becomes apparent when looking at individual sites, which begs the question as what other significant changes have not been detailed in the strategic policy overviews: Coombe Road Playing Fields as Green Belt, site reference 662; The de-designation of all the above sites would not comply with Policy SP7.2 and protection of the green grid.

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

Croham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (SSSI) and a Site of Metropolitan Importance for Nature Conservation;

Coombe Road Playing Fields as Green Belt, site reference 662;

as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid;

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

Councillor Dudley Mead

London Borough of Croydon

662

I also object to the de-designation of the following areas which are not even listed in the table on page 53 of the Policies Map, which highlights the changes to the green grid. This information only becomes apparent when looking at individual sites, which begs the question as what other significant changes have not been detailed in the strategic policy overviews:

Coombe Road Playing Fields as Green Belt, site reference 662;

The de-designation of the above site would not comply with Policy SP7.2 and protection of the green grid.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Mr Subramanian Rupan

Object DM44.2 662

I object to your proposed development in policy DM 44.2, Table 11.17, Site 662 for the construction of a school at Coombe Playing field for reasons given below:

1. Coombe Playing field is currently falls within Green Belt and should not be degraded for construction of the school. Degrading would not comply with Policy SP7.2 and the protection of the Green Belt;

2. Melville Avenue is a short road and there are 2 schools at present. During school times a lot of traffic use this road. I object to adding more traffic on to Melville Avenue which will make the road unsafe for road users and add more traffic noise and pollution;

3. Coombe Playing fields are important resource for schools which do not have playing fields and should therefore be kept for current and future users.

Ms Cliona Moore

<td>Re Proposals for Traveller’s Site on Conduit Lane Proposal for School on Coombe Playing Fields</td>
<td>No change</td>
<td></td>
</tr>
</tbody>
</table>

We are writing to object to the above proposals. We have grown up in South Croydon and have been regular visitors to Coombe Wood and gardens, and now with our young daughter. This green belt refuge in dense suburban Croydon would suffer great from any development in Conduit Lane. A traveller site would be inappropriate and adversely affect the character of this special environment.

We understand that there are always competing demands and needs for the council to meet in the borough but please recognise the amenity value of precious green areas in Croydon, that would be lost to future generations by insensitive development.
The WCGS Academy Trust would like to register an interest in the following site in response to Croydon’s Local Plan. (site number 662) The preferred option stated in the Local Plan is for a ‘secondary school’. We would like to register an interest in the ‘preferred option’ which is for a secondary school. The WCGS Academy Trust has received approval from the Department for Education to open a comprehensive Free School with a sports specialism in the South Croydon area to open in September 2018.

Our attached document ‘A proposal for a brand new WCGS Academy Trust Secondary School, Coombe Road Playing Fields – Local Plan ref 662’ forms our representation to Croydon Council for our Free School with enhanced sports facilities to be located on site 662 and should be read in conjunction with this form. This new secondary school provision with enhanced sports facilities will meet the needs of local people and will support the development of younger generations to achieve their best educationally and through engagement in sporting activity. We aim to provide opportunities for all young people to reach their personal best. See our attached document ‘A proposal for a brand new WCGS Academy Trust Secondary School, Coombe Road Playing Fields – Local Plan ref 662’ for further information.

Welcome support

Whilst the Local Plan cannot endorse specific school providers we welcome the support for this site from the WCGS Academy Trust.
To date, the EFA and Cushman & Wakefield have undertaken a detailed search for a site in the area using the following property search criteria:

- Location within Croydon and location relative to the school catchment area;
- Sites available within suitable timescales;
- Likelihood of obtaining planning approval for a Secondary School;
- That the on-going service/maintenance costs offer good value;
- Technical risks associated with any redevelopment;
- Access to external play areas and open space;
- Good pedestrian access for local children to be able to walk to school;
- Local transport links and connections to the site.

We have identified a number of sites through this process which are not considered suitable due to size constraints, site ownership/ availability, conflicting ‘bad neighbor’ adjacent uses, and poor infrastructure linkages.

In summary there are no other suitable, available and deliverable sites in the area at present. WCGS is interested in the site and developing a new secondary school there.

Welcome support whilst the Local Plan cannot endorse specific school providers we welcome the support for this site from the WCGS Academy Trust.
Object

Archbishop Tenison's School

I am also objecting to the proposal to build a secondary school at site reference 662 where I understand that the preferred approach is to allow an Academy Trust from a neighbouring borough, which currently runs a single sex selective / grammar academy, to run the school on this site. My ground for objecting to this is that this is in conflict with SP5.9 which states that the Council will support investment in the improvement and expansion of primary and secondary schools. I attach in Appendix A a short history of the plans for the proposed move of Archbishop Tenison’s school to the Coombe Road site. As you will see in that summary, following the failure to proceed with that proposal, the Council undertook to find an alternative site to relocate and expand Archbishop Tenison’s. In fact it has not yet managed to do this and now has its opportunity to deliver on that undertaking by offering this original nursery site to this school and maintaining the playing fields as they are, which are an important facility for sport not just in this school, but for other existing secondary schools in the Borough. It seems completely wrong to make that important sporting site available for building to an out of borough academy trust with no experience of running a coeducational mixed ability school. It is also worth adding that this approach could free up the current Archbishop Tenison’s site in Park Hill for residential redevelopment close to central Croydon or for community use as a primary school. For obvious reasons we are strongly opposed to Croydon Council inviting a single sex, grammar / selective school from another borough to build a school on this site rather than meeting its objective under SP5.9 of supporting investment in the expansion of existing secondary schools in the borough.

No change

The Local Plan does not endorse specific school providers. It is allocating the site for use as a new secondary school and should the Archbishop Tenison’s School wish to open a new secondary school on this site then this would be in line with the proposed allocation. However, given the need for new school places in the borough the Council would not be in favour of the simple relocation of Archbishop Tenison’s School and the reuse of their current site for residential use as this would potentially leave the borough with a shortfall in secondary school places.

Support

Education Funding Agency

The Education Funding Agency has approved 3 new Free Schools currently looking for sites within Croydon. This site has been identified as being potentially suitable options for the permanent location of the WCGS Federation Free School. We would welcome the opportunity to work with Croydon Council and the respective trust to make these sites available options for these schools.

Welcome support

Whilst the Local Plan cannot endorse specific school providers we welcome the support for this site from the Education Funding Agency.
Comment

The site does not meet Ark's demographic criteria.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land.

This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

Object

I also object to the de-designation of the following areas: Coombe Road Playing Fields as Green Belt, site reference 662; Land to the west of Timebridge Community Centre, Lodge Lane, site reference 636. which are not even listed in the table on page 53 of the Policies Map, which highlights the changes to the green grid. This information only becomes apparent when looking at individual sites, which begs the question as what other significant changes have not been detailed in the strategic policy overviews. The de-designation of all the above sites would not comply with Policy SP7.2 and protection of the green grid.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

The more specific site allocations represent a large reduction in the amount of designated and non-designated open space. While we acknowledge the need to build new homes and associated infrastructure such as schools, Croydon’s growing population also needs quality open spaces for all the human amenity and ecosystem services which they provide.

The Local Plan states that the site "met the criteria for de-designation" from the Green Belt however the site is not mentioned the policy SPT which covers changes in Open Space Designations. The council should state clearly what reasons it gives for it no longer meeting criteria for designation as Green Belt. Even if the site does not meet Green Belt criteria, a change to MOL designation should be considered as the site has recreational use and therefore meets criteria for MOL. The Council should remove the proposed site allocation and designate the site as Metropolitan Open Land.
Mr Paul Quaintance

Object

DM44.2

I object to the de-designation of the site as Green Belt. No change

Mr Paul Quaintance

Object

DM44.2

Building a secondary school and traveller pitches in this area will not be in keeping with the area. The area is very green and popular as a place to spend time in Croydon's natural areas for many many people. Building these sites on green belt land here would not be appropriate. It would detract from the special characteristics of the local area. It would also bring heavy traffic with regards to the secondary school to an area where there is also difficulty parking in the week with other schools / nursery's also in this area. I believe it would affect negatively the local amenities and also would be inappropriate for people enjoying Lloyd Park, Coombe Lodge Café and the wooded areas around these very important local areas. Coombe Wood and Lloyd Park are some of Croydon's few special places. We should not be building on Green Belt land and detracting from the special characteristics of local areas. We should keep and protect the few special places that Croydon has such as Lloyd Park and its surrounding areas and woodland. This is critical given all the development in the centre of Croydon for people to escape and relax in.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. **The proposal does not meet Strategic Objectives 5, 9 and 10. It will have the greatest impact as the increased traffic, noise, light will affect the fauna of the area, including badgers, deer, owls and pheasants. Increased traffic and impact on tram services will adversely affect the area. Future generations will also need playing fields. Development in the Green Belt is inappropriate because the Green Belt is designed to prevent urban sprawl. The increased development in central Croydon will increase the population of the area and that population will need green space. People do not need to use the playing fields to benefit from them. The visual impact of green space versus a developed space is a benefit. Losing playing field space will have an impact on current users. The site should be retained as a playing field.**

**There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.**

The site should be retained as a playing field.

I object to the de-designation of the site as Green Belt.

We are extremely concerned to learn that proposals are being considered to build a school on the Coombe Lodge playing fields.

Clearly this would be a significant ‘change of use’ for a site which is located within the ‘Green Belt’. Furthermore, we understand that the area is designated as being ‘of Special Character’ within the Borough. As such it is protected from any re-development which would be contrary to conservation and local habitat.

As in other neighbouring boroughs, such developments tend to precipitate and accelerate the erosion of natural area which have been protected for many years for use by all residents of the borough as well as countless visitors. The proposed re-development site is adjacent to Addinton Hills, Coombe Gardens, Lloyd Park and Coombe Farm. We contend that such a development would be totally inappropriate for the area, as the character of these local areas of leisure and relaxation would be negatively affected.

More specifically, the potential re-development may have more obvious negative local impact. It is a matter of record that many inner-city schools and colleges no longer have adequate on-site playing fields to meet their National exercise through sport and physical activities, traditionally in games such as football, athletics and cricket. These are all played at Coombe Lodge. The loss or reduction of the facilities here would further exacerbate this situation within this area of the Borough.

Furthermore, any significant construction project at the proposed location such as a school, would inevitably cause major disruption to the local area for the entire project duration. Large industrial vehicles, construction work and plant deliveries, let alone environmental and noise pollution, would be a blight on the local area for many months, if not years.

No doubt you are aware there are already two schools in Melville Avenue- Old Palace School of John Whitgift and Rutherford Special Needs School. As a consequence, local residents are obliged to endure periods of chaotic traffic movements in Melville Avenue and other connecting roads. It is inevitable that the local roads and side streets would
be even more seriously congested especially at peak periods, due to the significant increase in traffic generated by the construction of a new school on the site of Coombe Lodge playing fields.

There is currently no bus service along Coombe Road and the only adjacent public transport is the Tram Link, so an increase in private vehicles in the area would be inevitable if the re-development proposal were put into practice.

As Croydon residents for many years, we certainly do not feel that this proposed re-development within our local community is appropriate, nor in the local interest. It will certainly not benefit our lifestyle.

We strenuously object to the proposed re-development of the Coombe Lodge playing fields site and urge the Council to abandon the proposed re-development this plot of land so that it continues to provide a much valued recreation facility whilst enhancing the local environment.

We trust we can count on your vigorous support to counter the local planning changes which have raised these current proposals and also to reject any similar inappropriate schemes within the Croyham Ward of the Borough.
Object I note with some concern the proposals in the Croydon Council Local Plan dated August 2015. In particular, the proposal to develop three sites in close proximity for the use of the Travelling population and the proposal to build a new Secondary School on Coombe Road Playing Fields. Croydon is acknowledged as the 'greenest' Borough in South London, with many Croydon parks and open spaces achieving 'Green Flag' status including Lloyd park and Coombe Woods. These are accreditations that we should be proud of and wish to preserve. Royal Russell School objects to these proposals on the basis of the development of Green Belt land and flaws and inconsistencies in the scoring criteria that identified these sites as appropriate for development.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

Once the school buildings are built the remainder of the site will remain designated as Green Belt.
Object DM44.2
662
The new secondary school would require redesignation and this would be contrary to London policies to protect the Green Belt and would detract from the attractiveness of the open space. It would also cause traffic and access problems in the area. The appropriateness of a school adjacent to a travellers site is questionable.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

Object DM44.2
662
DM44.2, Table 11.17, site 661 Coombe Lodge Nurseries proposes this be used in future as a Gypsy and Travellers site. As I understand it this is currently green belt land and it is totally inappropriate to use green belt land in this way. Such land is precious for wildlife and the community as a whole and should not be allowed to be lost for this purpose. Indeed all green belt land should be regarded as sacrosanct and not be allowed to be downgraded. This also applies to site 662 Coombe Road Playing Fields which again should remain as green belt land and not be allowed to be built upon.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
| 2773/01/001/DM44.2/5 | David Peschier | Support | DM44.2 662 | Support - The Coombe Road playing field would be a suitable site for a school.  
1. Endorse the plan to build a school subject to approving the site plan.  
2. but have concerns about:  
- The lack of transport links serving the proposed new school with approx 1200 pupils and staff - there is currently no bus route along Coombe Road  
- The tram system has insufficient capacity to cope with additional numbers as is already over-loaded in peak times around Lloyds Park area due to pupils and staff travelling to and from the two established schools in close proximity.  
- The road layout would need to be amended to enable safe and secure delivery of pupils to the new school  
- Suggest the school entrance on Conduit Lane with a large new roundabout created at the junction with Oaks Rd to allow access in/out of the school. | No change | There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. Once the school buildings are built the remainder of the site will remain designated as Green Belt.** |
The proposal to build a secondary school at site reference 662 where I understand that the preferred approach is to allow an Academy Trust from a neighbouring borough, which currently runs a single sex selective / grammar academy, to run the school on this site. This is in conflict with SPS.9 which states that the Council will support investment in the improvement and expansion of primary and secondary schools. Croydon Council had a previous proposal, which they could revive, to use this site to relocate and expand Archbishop Tenison’s school - the borough’s most successful co-educational secondary school which is highly popular with strong leadership and which has already invested time and effort in planning for such a move under the previous proposals. Following the failure to proceed with that previous proposal the council undertook to find an alternative site to relocate and expand Archbishop Tenison’s - it has failed to do so and, with this current opportunity of delivering on that undertaking, is now failing to do so by offering this original site to an out of borough academy trust with no experience of running a coeducational mixed ability school. In addition this approach would free up the current Archbishop Tenison’s site in Park Hill for residential redevelopment close to central Croydon or for community use as a primary school. I am deeply opposed to Croydon Council inviting a single sex, grammar / selective school from another borough to build a school on this site rather than meeting its objective under SPS.9 of supporting investment in the expansion of existing secondary schools in the borough.

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

I understand that the following Policies will threaten our green spaces. I was born in Croydon and have lived in this area all my life (I am now 63). My parents came here from Scotland in the early 1950s. They chose this area specifically for its green spaces and it is quite unique in that facility. I spent more than 35 years in Real Estate in this area and know very well that the reason people continue to move here, is exactly for those facilities and yet remaining within easy reach of other amenities, London, the coast and airports. Of course, more housing is required but I believe the alternative suggestions to these proposals to be very valid and much more in keeping with the neighbourhood thus maintaining its attractiveness and good standard.

These proposals are ill conceived and will change this particular neighbourhood beyond all recognition and take away that for which it is well known and valued. Please hear the voices of people like me and do NOT continue with the proposed policies set out below and which can be found in your Local Plan:

7. The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179). The site should remain as green belt. Croham Hurst Woods are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p55 of Policies Map). This is an area of specific natural beauty and scientific interest. Sanderstead plantation is also being downgraded from Green Belt to Metropolitan Open Land. I object to all these downgrades and feel very strongly about it.
Mr James Marland Object DM44.2 662 No downgrade of (1) Coombe Playing Fields. They should remain greenbelt land and protected.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop and therefore is capable of serving a wide area of the borough. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop and therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
Jennifer Houghton

I object to the proposal to down grade the above site from green belt to Metropolitan, Croydon is a London Borough known for having green spaces and parks which are much appreciated by all the local residents and adds to its positive image.

I also object to the proposed provision of Gypsy/ Traveller site at Conduit Lane this is a green belt site. There are limited facilities for families who would be living there - no local shops or health centre. There is a shortage of local primary school places and no primary school within walking distance, I understand it is of paramount importance to encourage traveller family to send their children to school so that they can continue their education.

Mr Joseph Trickey

Object DM44.2 662

I wish to state my strong objection to any diminution of local green spaces. The draft local plan Policy DM 44.2 and Policy SP7 propose redesignation from Green Belt status to Metropolitan Open Land for Croham Hurst and also for the Sanderstead Plantation and Coombe Playing Field. The value of maintaining protection for these spaces for health and environmental reasons must be evident to everyone responsible for their protection. For many years I, along with many others, have used these open spaces and woodlands to walk around the area and also for walking into Croydon town. One of Croydon’s great assets is in the number of green spaces available for the public’s recreation, and it is clear from public meetings that the people of Croydon see them as of great benefit. Not only is the public prepared to use them but as is seen from the associations like the Friends of Croham Hurst Woods and the Friends of Wetton Gardens people are also prepared to work for their improvement. I should like reassurance that the redesignation of the land will not result in any erosion of the areas open for walking and for leisure in general.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

Mr Nicholas Hook

Object DM44.2 662

The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2 Table 11.17, site 662 (pg175). The site should remain as green belt.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
I object to the development plans detailed in this policy and believe the site should remain as green belt. These sites should not be downgraded as proposed.

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

I should like to protest against the site chosen for gypsy camps and a new secondary school being built on green belt. There must be better sites for them as we must protect our green belt sites.

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

I object to the de-designation of the site as Green Belt.

No change
There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
I also want to express my total opposition to the idea of a school from another borough running another school on site 662. The idea that a Sutton school might be given a site in Croydon, when there are schools here that would dearly love to expand, is incomprehensible. One of the proposals in the plan (SP5.9) says that the council will support investment in the improvement and expansion of primary and secondary schools.

Archbishop Tenison's School was asked to prepare for a move to the Coombe Lane nursery site back in 2008 and, with the full support of the Education Department, the Governors planned the move in great detail. They were dealt a heavy blow, however, when in 2010 the site was withdrawn. The governors were told at the time that no one could build on the Coombe Lane site, because it was greenbelt land. In the last few years the School has expanded as much as it can and the Selborne Road site has been developed in a number of small ways to accommodate extra pupils, but there is a desperate need for large scale development on the site, or a relocation to another, more suitable site.

I want to express just how deeply opposed I am to the plan to allow a Sutton school to build on Coombe Lane. It would be intensely insulting to Archbishop Tenison's leadership and Governors. They have a prior claim on the site, they have been straining to expand for several years, and they have already demonstrated that they can run a school that is successful and popular. If any school moves to the Coombe Lane site, it should be Archbishop Tenison's.

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop and therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
Mr Gerald Lambert

Object DM44.2

Those policies seem to pose considerable threat to the greenbelt, which is a major cause for concern. Degrading the greenbelt for short term expediency is short-sighted. Surely more appropriate areas can be found for redevelopment!

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. Dave Cooper

Object Soundness - Consistent with National DM44.2

I would like to object to parts of the recent Croydon Local Plan with particular reference to the following proposals, as they all will lead to degradation of the natural environment:

DM2 Infill building on existing gardens

DM44.2 Table 11.17 site 661 Loss of Green belt (it's there for a reason!) There must be more suitable site

DM44.2 Table 11.17 site 662 Loss of Green belt

DM31.4 Reclassification of areas of special interest

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
The application to develop a secondary free school at site reference 662 where I understand is to permit an Academy Trust from another borough, currently running a single sex grammar academy to manage the school on that site. I feel this is conflict with SP5.9 which states that the Council will support investment in the improvement and expansion of primary and secondary schools. Croydon Council had a previous proposal which could be revived and used to relocate and expand Archbishop Tenison's school. It is the borough’s most successful co-educational secondary school, it is highly popular with an excellent leadership and which has already invested time and effort in planning for such a move under the previous proposals. Following the failure to proceed with that previous proposal the council undertook to find an alternative site to relocate and expand Archbishop Tenison’s school. I believe it has failed to do so and with this current opportunity of delivering on that undertaking, it is now failing to do so by offering this original site to an out of borough academy trust with absolutely no experience of running a coeducational mixed ability school. In addition this approach would free up the current Archbishop Tenison’s site in Park Hill for residential redevelopment which is close to central Croydon or for community use like a primary school. I am totally opposed to Croydon Council inviting a single sex grammar school from another borough to build a school on this site rather than meeting its objectives set under SP5.9 of supporting investment in the expansion of existing secondary schools in the borough.

No change

I am objecting to:
The proposal to build a secondary school at site reference 662 where I understand that the preferred approach is to allow an Academy Trust from a neighbouring borough, which currently runs a single sex selective / grammar academy, to run the school on this site.

This is in conflict with SP5.9 which states that the Council will support investment in the improvement and expansion of primary and secondary schools. Croydon Council had a previous proposal, which they could revive, to use this site to relocate and expand Archbishop Tenison’s school - the borough’s most successful co-educational secondary school which is highly popular with strong leadership and which has already invested time and effort in planning for such a move under the previous proposals. Following the failure to proceed with that previous proposal the council undertook to find an alternative site to relocate and expand Archbishop Tenison’s - it has failed to do so and, with this current opportunity of delivering on that undertaking, is now failing to do so by offering this original site to an out of borough academy trust with no experience of running a coeducational mixed ability school.

In addition this approach would free up the current Archbishop Tenison’s site in Park Hill for residential redevelopment close to central Croyden or for community use as a primary school. I am deeply opposed to Croydon Council inviting a single sex, grammar / selective school from another borough to build a school on this site rather than meeting its objective under SP5.9 of supporting investment in the expansion of existing secondary schools in the borough.
Mr Stephen Woodward

We have lived in Sanderstead for over 40 years, and have thoroughly enjoyed the areas to the south of Croydon being unspoilt. In our view these ill conceived proposals will change this area beyond recognition and take away that for which it is well known and valued. Please rethink, and do not continue with the proposed policies set out below and which can be found in your Local Plan:

The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179). The site should remain as green belt. Croham Hurst Woods are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p58 of Policies Map). This is an area of specific natural beauty and scientific interest. Sanderstead plantation is also being downgraded from Green Belt to Metropolitan Open Land. I object to all these downgrades and feel very strongly about it.

Mr Steve Simms

I strongly object to any of these new proposals to build on any green belt land.

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
Sheila Wicks

Object  DM44.2 662

I object to all these down grades in Policy DM44 2 Table 11.17 site 662 p179. They should all stay the same as they are. The now playing fields should stay as they are and local schools should be encouraged to use them.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. Saundra Dudman

Object  Soundness - Justified  DM44.2 662

7) DM44.2 Table 11.17 site 662 p179 Coombe Playing Fields, Croham Playing Fields and Croham Hurst should remain Green Belt and not be downgraded to Metropolitan Open Land which could then be used for development, our green belt is precious and we should protect it.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
I wish to register my strong objection (via daughter's email) on the proposed Loss of Green Belt proposals which will have a detrimental effect on the residential amenity of the neighbourhoods around Sanderstead Plantation, Croham Hurst Woods and Coombe Playing Fields. I strongly object to Croydon Council's proposals to change the status of Sanderstead Plantation from Metropolitan Green Belt to Local Green Space, Croham Hurst Woods designated from Green Belt to Metropolitan Open Land, and Coombe Playing Fields being proposed for development. The current designation of Sanderstead Plantation and Croham Hurst Woods sites provides the protection the sites need from unwanted development and there are no benefits to residents in changing the designation. The proposals will destroy the character of the areas which need to be preserved. Other objections:

- Adverse effect on the residential amenity of neighbours, by reason of noise, disturbance, overlooking, loss of privacy, wildlife, overshadowing, etc.
- Unacceptably high density / overdevelopment of Coombe Playing Fields site, especially as it involves loss of the open aspect of the neighbourhoods.
- Visual impact of the sites and surrounding neighbourhoods and a detrimental effect on the character of our area.
- As the local plan sets out what the Council will allow to be built over the next 20 years, all planning applications on Sanderstead Plantation or Croham Hurst Woods need to do is be consistent with the local plan to be passed thus ruining these sites and the neighborhood amenities forever.
- Increased density of the population of these sites including overcrowding which is also a health and safety concern.
- The detrimental effects change of land status of Sanderstead Plantation and Croham Hurst Woods and the proposed development of Coombe Playing Fields on the character of the neighbourhood. Croome Hurst Woods is a mature wood with beech and oak trees which will be under threat e.g. less trees, increase in noise, litter.
- Design (including bulk and massing, detailing and materials, if these form part of the application)
- The proposed development of Coombe Playing Fields would be over-bearing, out-of-scale or out of character in terms of its appearance.

Object: Soundness - Justified

I object to the following ridiculous proposals...

Policy DM44.2, Table 11.17. Site 662 (p179) NO! Leave Sanderstead these valued GREEN spaces, they make Sanderstead what it is.

No change

Ed Owen

Object: DM44.2 662

I wish to lodge my objection to all the proposals set out in policy number SP7. I am particularly annoyed at the thought of losing Coombe playing fields as my property looks out over this beautiful piece of greenfield site, and to lose it would be an abomination to the local environment and a great loss for the flora and fauna living there!

Object

DM44.2 662

I object to the de-designation of the site as Green Belt.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

Mrs Kim Vella

Object

DM44.2 662

Loss of Green Belt – (1) Coombe Playing Fields, (2) Croham Hurst, (3) Sanderstead Plantation

The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179). The site should remain as green belt. Croham Hurst Woods are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p55 of Policies Map). Sanderstead plantation is also being downgraded from Green Belt to Metropolitan Open Land. I object to all these downgrades.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. Mr A Young

Object DM44.2

662

The changes would change the character of our local area. Therefore, I would like to object to the above policy changes.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
The proposal to build a secondary school at site reference 662 where I understand that the preferred approach is to allow an Academy Trust from a neighbouring borough, which currently runs a single sex selective / grammar academy, to run the school on this site.

This is in conflict with SP5.9 which states that the Council will support investment in the improvement and expansion of primary and secondary schools. Croydon Council had a previous proposal, which they could revive, to use this site to relocate and expand Archbishop Tenison’s school - the borough’s most successful co-educational secondary school which is highly popular with strong leadership and which has already invested time and effort in planning for such a move under the previous proposals. Following the failure to proceed with that previous proposal the council undertook to find an alternative site to relocate and expand Archbishop Tenison’s - it has failed to do so and, with this current opportunity of delivering on that undertaking, is now failing to do so by offering this original site to an out of borough academy trust with no experience of running a coeducational mixed ability school.

In addition this approach would free up the current Archbishop Tenison’s site in Park Hill for residential redevelopment close to central Croydon or for community use as a primary school.

I am deeply opposed to Croydon Council inviting a single sex, grammar / selective school from another borough to build a school on this site rather than meeting its objective under SP5.9 of supporting investment in the expansion of existing secondary schools in the borough.

</table>
Croydon is currently running out of space and actually letting more people in through building more flats is putting pressure on our services: we do not have enough schools in the area to cater for all new arrivals. However taking green belt land is a step too far.

Similarly a site for travellers with amenities which would prevent them from invading current green spaces is a good idea, but where to put it needs to be sensibly planned and the current proposal in my view is not adequate.

We wish to object to the downgrading of status of the following open spaces: Coombe Playing Fields, Croham Hurst, Sanderstead Plantation. Under NO circumstances should these open spaces be downgraded.
I also object to the de-designation of the following areas which are not even listed in the table on page 53 of the Policies Map, which highlights the changes to the green grid. This information only becomes apparent when looking at individual sites, which begs the question as what other significant changes have not been detailed in the strategic policy overviews:
Coombe Road Playing Fields as Green Belt, site reference 662: The de-designation of all the above sites would not comply with Policy SP7.2 and protection of the green grid No change

I understand that you are planning to change the current status of The plantation and Croham Woods and Coombe Playing Fields from Green belt to Metropolitan Open Land. I can only assume that this would allow these current open spaces to be built on in the future. If this is not the case, I cannot see why the current statuses would need to change. I am unable to understand why, as residents, we have not been told directly of your plan to change the status by Croydon Council. These spaces are key to this local community. We currently enjoy walking in the woods and teaching our children about nature and eco systems. There is a wealth of wildlife which habitats the woods, badgers, rabbits, deer and not to mention the different species of birds. Where would they go if the trees were cut down. Sanderstead is a lovely location because of the woods and open spaces, to build on this would be detrimental to the area and a mistake No change
Ms E Rispin

Object DM44.2

662

Please note my objection to the following development of land outlined in recent area plans. These open spaces are vital to the quality of life of the area. As someone whose family has been in Sanderstead for three generations I object as I would like to see my children have the same quality of life and access to open space as their parents, grandparents and great-grandparents.

Loss of Green Belt Coombe Playing Fields. The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179). I object to all this downgrade.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

Ms E Hook

662

The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2 Table 11.17, site 662 (p179). The site should remain as green belt. Croham Hurst Woods are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p55 of Policies Map). Sanderstead Plantation is also being downgraded from Green Belt to Metropolitan Open Land. I object to all these downgrades.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
As a mother I know how important it is in this day and age to have open green spaces to go in the city, that are natural, unspoiled, spacious and adventurous. In this fast paced and pressured computer era, children and families and everyone else, need spaces to go to unwind, to re-energise, to connect to the real, living world and to have clean air to breathe. With down grading green belt land and woods, we jeopardise the physical and mental health of our children and fellow citizens. We disrespect the need for green spaces for wild life and trees to bring healthy air and a healthy eco-system. If we do not teach our children and everyone else the importance of green in a city, we set a bad precedent for the next generation. If we let money be our main aim, choices like this will become easier and easier made and we would be left with no green at all. The strongest thing that Croydon has going for itself are the green spaces and woods. The green belt had been established for a reason. It is not meant to be touched! It is meant to be preserved for the good of all!

Please re-consider your plans and leave the green spaces protected in the green belt. Don't let it be eroded in the name of 'progress'.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

Please do not build on greenbelt areas. There is plenty of space in the empty building in central Croydon and in West Croydon. Spend money on empty land and leave the last green parts of Croydon alone. When those green belt areas are gone so will nature. We are not inner city. We have a history of enjoying our green spaces in Croydon.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
Mr Derek Smith

Object DM44.2 662

We are horrified and strongly object to learn recently that Croydon Council has proposals for the re-designation of a number of open areas (public playing fields and woodland) in the Selsdon/Sanderstead, South Croydon area. The purpose of the proposed re-designation is clear to everyone that is to say, new development at some point in time. We recognise the need to increase housing stock, however, the need for adequate public amenities increases with development, and finding the space to provide these becomes increasing more difficult. We should not try solving one problem only to create a more serious one. When public green spaces are no longer available it will become impossible to remove developments to create such spaces. We should therefore treasure the few public open spaces that exist, and not see them as opportunities for development when there are opportunities still existing in brown field sites. It should be kept in mind that the creation of mature woodland etc. would typically take 50 or more years. South Croydon does not have an abundance of such areas, therefore, we need to think seriously when considering changes to any public spaces especially woodland.

Mr Gregory Taylor

Object DM44.2 662

Policy DM44.2, Table 11.17, site 662 (p179). For the good of all Londoners greenbelt must be cherished and maintained. As a council in a greenbelt area Croydon Council are responsible for protecting our greenbelt, to reclassify this land goes against that aim. The site should remain as green belt. Croham Hurst Woods are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p55 of Policies Map). Sanderstead plantation is also being downgraded from Green Belt to Metropolitan Open Land. I object to all these downgrades.

Once the school buildings are built the remainder of the site will remain designated as Green Belt.

Mr & Mrs Adams

DM44.2 662

Object

It is also of vital importance to retain playing fields where they exist. Increasingly, schools have fewer and fewer playing fields available to practice sport, as so many have been already sold, to the detriment of the health of our children, so where such playing spaces exist, they should be protected. We believe all these plans will devastate our green spaces, and will have a very damaging impact to the character of the local area, and we object strongly.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. Nicola Shipp

Object DM44.2 662

As a resident of Croydon all my life, I wish to register my opposition to the following plans:

DM44.2 SITE 662 – The change of status for Coombe Playing Fields, Croham Hurst Woods and Sanderstead Plantation is of great concern. Homes must not be built on these sites as the whole area would suffer by additional traffic and the already growing strain to services. Not to mention, spoiling lovely open spaces.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
I wish to object to some of the proposals in the Croydon Local Plan as follows:

I object to the proposal (policy DM44.2 Table 11.17) to create a Gypsy/Traveller site on Conduit Lane next to Coombe Wood Gardens (site 661) and/or Coombe Farm (site 502). Policy E of “Planning Policy for Traveller Sites” published by the Government in August states that “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. This would not comply with Policy SP2.7a and SP2.7b. Previous scenes from Traveller sites demonstrate that they end up as dump; not the sort of image we want to portray for Croydon.

I object to the proposed loss of Green Belt status for (1) Coombe Playing Fields - (site ref 662) and object to the proposal for development in Policy DM44.2 Table 11.17 (2) Croham Hurst - this is a biological Site of Special Scientific Interest and a Site of Metropolitan Importance for Nature Conservation (3) Sanderstead Plantation

The de-designation of these sites would not comply with Policy SP7.2 and protection of the green grid.

I object to the proposed loss of Local Area of Special Character protection for many roads such as West Hill, Campden and Spencer Roads, the Woodcote Estate and Hartley Farm. Loss of protection will open up these roads to inappropriate development. Roads, such as Oakwood Avenue in Purley should also be included as new Local Heritage Areas.

I object to the possible “Garden Grabbing” that policy DM2 will make much easier. National and London policy classifies gardens as green field, but the proposed new policy DM2 says that the Council will allow building on gardens. We need to keep our green spaces.

I also object to the proposed retail development of the old “Good Companions Pub” site in Hamsey Green, which the proposed policy DM4 1.3 table 11.14 (site 306) would allow. A retail outlet in such a location would cause traffic chaos. It will be far better to develop it as a residential site (with ample parking) and in character with other housing in the area - not a block of flats.
On the question of parking, I note that some new developments do not seem to cater for this. Green Dragon House being a typical example. All new developments should provide for ample parking for residents and their families.

Please take the above comments into account when assessing the proposed Croydon Local Plan.

Yours faithfully

Mr Malcom Saunders
3594/01/007/DM44.2/C

Object to the proposed loss of Green Belt status for
(1) Coombe Playing Fields - (site ref 662) and object to the proposal for development in Policy DM44.2 Table 11.17
(2) Croham Hurst - this is a biological Site of Special Scientific Interest and a Site of Metropolitan Importance for Nature Conservation
(3) Sanderstead Plantation
The de-designation of these sites would not comply with Policy SP7.2 and protection of the green grid.

No change

I would like you to note my strong objection to the granting of any Planning Application relating to the following Policy Ref. DM44.2, Table 11.17, Site 662.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

Ms J MacEvoy

Object DM44.2 662

I believe that this de-designation would have a major negative impact on the character of our neighbourhood and would ask you to re-consider this action.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
Mrs J McDonald

Object DM44.2 662

The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179). The site should remain as green belt.

No change. There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

Mr Nick Peiris

Object DM44.2 662

No change. There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Mr & Mrs Mott  
Object DM44.2 662
I object to this site allocation.  
No change

DM44.2

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

Mr Tom Tannion  
Object DM44.2 662
I wish to register the strongest possible objection to the specific proposals in the Croydon Local Plan proposing a school or gypsy site at Conduit Lane, and a Gypsy site at Coombe Farm.

Regarding Conduit Lane, clearly, Niccolo Machiavelli would have been proud of the tactic of proposing a gypsy site or a school there. Presumably, the thought was that people are gullible enough to believe that these are either / or proposals!! They are certainly as different as chalk and cheese. I consider both options to be unhelpful, inappropriate and out of keeping with the current use of the area. I am also generally surprised that they are considered viable options worthy of serious consideration as they appear random in nature and devoid of any real local knowledge.

Regarding both gypsy site proposals, neither are in keeping with the existing ‘texture’ of the areas. They add nothing to the quality of life of local residents (quite the contrary) and generally they are so out of keeping with the current general use enjoyed by those neighbourhoods that one is left wondering how they even made it into a plan? Were the proposals drawn up by someone completely ignorant of the area?

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
Mrs Anne Turner

Object DM44.2 662

I would like to put in writing my objections to the following local plans:

I am listing the relevant Policy Numbers:

7. DM44.2, Table 11.17, site 662

Green belt

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
I have lived in Sanderstead for nearly 30 years and wish to register my strong objection on the proposals which I believe will have an adverse effect on the sites and residential amenity of the neighbourhoods around Sanderstead Plantation, Croham Hurst Woods and Coombe Playing Fields.

I strongly object to Croydon Council's proposals to change the status of Sanderstead Plantation from Metropolitan Green Belt to Local Green Space, Croham Hurst Woods designated from Green Belt to Metropolitan Open Land, and Coombe Playing Fields being proposed for development.

The current designation of Sanderstead Plantation and Croham Hurst Woods sites provides the protection the sites need from unwanted development and there are no benefits to residents in changing the designation. If the proposals for the Coombe Playing Fields are passed Croydon will LOSE one of the few areas of natural beauty. There will be fewer places to go for family walks, fewer oak and beech trees which will have an adverse effect on the health and well being of local residents potentially resulting in detrimental effects of mental health ultimately putting a strain on Croydon Council's Social Service and local NHS.

- Adverse effect on the residential amenity of neighbours, by reason of noise, disturbance, overlooking, loss of privacy, wildlife, overshadowing, etc.
- Unacceptably high density / overdevelopment of Coombe Playing Fields site, especially as it involves loss of the open aspect of the neighbourhoods
- Visual impact of the sites and surrounding neighborhoods and a detrimental effect on the character of our area
- As the local plan sets out what the Council will allow to be built over next 20 years, all a planning application on Sanderstead Plantation or Croham Hurst Woods need to do is be consistent with the local plan to be passed thus ruining these sites and the neighborhood amenities forever
- Increased Density of the population of these sites including overcrowding which is also a health and safety concern
- The detrimental effects change of land status of Sanderstead Plantation and Croham Hurst Woods and the proposed development of Coombe Playing Fields

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
Playing Fields on the character of the neighbourhood. Coombe Hurst Woods is a mature wood with beech and oak trees which will be under threat eg less trees, increase in noise, litter.

- Design (including bulk and massing, detailing and materials, if these form part of the application)
- The proposed development of Coombe Playing Fields would be over-bearing, out-of-scale or out of character in terms of its appearance compared with existing vicinity
- The loss of existing views from neighbouring properties would adversely affect the residential amenity of neighbouring owners

I am emailing you to express my concerns about Croydon Council’s Plans to build houses on some of our precious green spaces, back gardens. I understand that there is a great need for housing in the Croydon area and that the number of homeless people in Croydon is high. However, I need assurance that in providing this need we do not destroy our few remaining green spaces as these are vital to the well-being of our environment and people’s health. When I received the information about these proposals from my MP and local residents’ association I had been away from home and so have not studied these plans in depth. However, with the information I have I cannot visualize how these proposals would work without destroying the character of the Shirley area and the destruction of our few remaining green areas.

In order for me to agree to these proposals I would not only require the assurance that these environmental issues were taken into account but the homes that are planned for were affordable to those who are in need of a home, and that they were of good quality, energy efficient homes. Finally, having lived in Shirley for many years I have seen the increase in traffic which has brought about an increase in air pollution which is detrimental to our health. This is another important factor that has to be borne in mind when increasing the density of the population of the area.

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
Myra Rand

This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

Mr Tony Sales

Object  DM44.2 662

I am emailing to record my objection to the following policies within the 'Local Plan'.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
Loss of Green Belt (1) Coombe Playing Fields, (2) Croham Hurst, (3) Sanderstead Plantation

The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2. Table 11.17, site 662 (p179). The site should remain as green belt. Croham Hurst Woods are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p55 of Policies Map). Sanderstead plantation is also being downgraded from Green Belt to Metropolitan Open Land. I object to all these downgrades.

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

Object to DM44.2 table 11.17 Site 662, we don't want to risk development on these open space sites - we need to encourage people to get out onto green space and exercise!

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
Object I also object to the de-designation of the following areas which are not even listed in the table on page 53 of the Policies Map, which highlights the changes to the green grid. This information only becomes apparent when looking at individual sites, which begs the question as what other significant changes have not been detailed in the strategic policy overviews: Coombe Road Playing Fields as Green Belt, site reference 662.

The de-designation of all the above sites would not comply with Policy SP7.2 and protection of the green grid.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

Object to Coombe Road Playing Fields as Green Belt being proposed for development in Policy DM44.2, Table 11.17, site 662 (p179).

It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
Those should remain as Green Belt. The whole nature of the area will be destroyed if they are not protected in this way.

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

There is no necessity for it and our parents had the foresight to develop the legislation please don't soil there good intentions.
We as a nation have maintained the principles of "the Green Belt" since its first inception in 1935 when it was part of a plan devised by the Greater London Regional Planning Committee eventually becoming law by virtue of the Town and Country Planning Act 1947. Recently the Government formerly set out its policies and principles towards green belts in England and Wales in Planning Policy Guidance Note 2: Green Belts, but this planning guidance was superseded by the National Planning Policy Framework (NPPF) in March 2012. Planning Authorities are strongly urged to follow the NPPF’s detailed advice when considering whether to permit additional development in the green belt. In the green belt there is a general presumption against inappropriate development, unless very special circumstances can be demonstrated to show that the benefits of the development will outweigh the harm caused to the green belt. The NPPF sets out what would constitute appropriate development in the green belt. I can not find any justifiable cause for allowing building on any "Green Belt" having viewed Gavin Barwell’s email on the matter. This series of developments cannot seriously be described as "Appropriate Development" under any circumstances. Please do not build on land which we, as a nation, have preserved for future generations.

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

Once the school buildings are built the remainder of the site will remain designated as Green Belt.

Object DM44.2 662

Dowgrading of any green spaces is again unacceptable. Our green spaces are valuable for people, the environment and wildlife. It is becoming more relevant these days, not a luxury but a necessity and dowgrading it is a slippery slope to losing it. Maybe this is the intention.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land.

This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. Cllr M Neal  
Object DM44.2 662
I also object to the de-designation of the following areas which are not even listed in the table on page 53 of the Policies Map, which highlights the changes to the green grid. This information only becomes apparent when looking at individual sites, which begs the question as what other significant changes have not been detailed in the strategic policy overviews:
Coombe Road Playing Fields as Green Belt, site reference 662. The de-designation of all the above sites would not comply with Policy SP7.2 and protection of the green grid.

Ms L Chatfield  
Object DM44.2 662
I am writing my objections development on the following sites as a resident as well as in my capacity as Warden of Croydon Ecology Centre. The sites are in areas that are essential foraging grounds for wildlife, including badgers, which are a protected species. I believe that they are also all on Green Belt Land. I realise that local authorities are being given new powers that allows them to build on parts of Green Belt Land, but I sincerely believe that this will be a terrible mistake, for which future generations will not thank us. These sites are also part of one of the very few large stretches of open green spaces so close the the centre of Croydon, which makes an huge difference to the air quality in our town and to the visual aspect thereof. There is ample evidence to prove that these green urban spaces are essential for the mental well-being of crowded cites. All the open green spaces are there for the benefit of all Croydon's residents and those visiting our Borough, by building on them you are taking away this right from people all over the Borough. Please think again and make use of brown field sites instead. By using brown field sites you have the opportunity improve those sites with well planned and laid out housing and amenities.

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
Mr & Mrs Shutter
Object DM44.2 662
The de-designation of Green belt land and Metropolitan Open land for building is quite frankly the sort of policy which is incredibly short-sighted; the green belt was put in place to provide open space for local residents, not to provide cheap building land for development.

Shirley Shephard
Object DM44.2 662
The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662 (p175). The site should remain as green belt. Croham Hurst Woods are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p55 of Policies Map). Sanderstead plantation is also being downgraded from Green Belt to Metropolitan Open Land. I object to all these downgrades.
Mr Frances Bell

Object DM44.2 662

I disagree with all proposal's, greenbelt area's should not be downgraded in the way suggested.

No change There are insufficient sites within the urban area of the borough to meet the need for secondary schools. 4027/01/004/DM44.2/O Debby Stanhope Object DM44.2 662 I object to the de-designation of the site as Green Belt. No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

4028/01/004/DM44.2/O Mrs S Dixon Object Soundness - Justified DM44.2 662 Object to the de-designation of: Craham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (SSSI) and a Site of Metropolitan Importance for Nature Conservation; Coombe Road Playing Fields as Green Belt, site reference 662; as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid;

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
Object DM44.2 662

As a resident in the area, I am writing to object to the use of the following locations as gypsy and traveller sites:

a) Coombe Lodge Nurseries off Conduit Lane, site reference 661
b) Coombe Farm off Oaks Road, site reference 602

as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7A and SP2.7B.

The de-designation of Croham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (SSSI) and a site of Metropolitan Importance for Nature Conservation; Coombe Road Playing Fields as Green Belt, site reference 662; as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid.

These proposals are clearly harmful for the Green Belt and would have a negative impact on the environment and wildlife in Coombe Wood, Shirley Hills and Lloyd Park. It would create a precedent for further erosion of our valuable local amenity. Coombe Road and Coombe Lane are already very busy roads and one of the main arteries into the town centre. The additional traffic emanating from these two sites, without significant road improvements, would exacerbate the traffic congestion, not to mention the additional pressure on the already stretched local services such as schooling and general practitioners. The access roads to these proposed sites are clearly unsuitable for the larger vehicles that this community use as part of their livelihood and way of life. The junctions at Coombe Road, Oaks Road and Conduit Lane are already dangerous for vehicles and this area has the potential with this proposal to become a major accident black spot without significant very costly improvements to the local road network.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a train stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

the de-designation of Chorham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (5551) and a Site of Metropolitan Importance for Nature Conservation; Coombe Road Playing Fields as Green Belt, site reference 662, as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

The Chudasama Family

Object Soundness - Justified

Policy DM44.2, Table 11.17, site 662 (p179). The site should remain as green belt. Croham Hurst Woods are being de-designated from Green Belt to Metropolitan Open Land in Policy SP7 of the Strategic Plan (p55 of Policies Map). Sanderstead plantation is also being downgraded from Green Belt to Metropolitan Open Land. I object to all these downgrades.

Once the school buildings are built the remainder of the site will remain designated as Green Belt.
The open area of Coombe Road Playing Fields (site reference 662) also appears to be de-designated from its status as ‘Green Belt’. In both the above cases it is an inappropriate proposal, and any lower classification is considered potentially worrying with the possible intention of making it easier to allow other uses and/or development. Furthermore, such de-designation would not comply with Policy SP7.2 and the protection of the ‘Green Grid’.

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. 2. The de-designation of:

- Croham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (6861) and a site of Metropolitan Importance for nature Conservation;
- Coombe Road Playing Fields as Green Belt, site reference 662, because the de-designation of both sites would not comply with Policy SP7.2 and the protection of Green Belt.

Yet again Croydon should surely be encouraging schools to teach children conservation in all its forms and visits to these sites will have a greater impact on a child’s learning than sitting in a class room being taught theory, not practical experience. Croydon School children have a great advantage of having these truly natural sites on their doorstep unlike some Inner London schools, And teaching can be done by parents as well as teachers taking their children at weekends. It will be sad for future generations of Croydon children to be classed in an Inner London School with only a park and no natural areas for children to learn about the world around them. We received the benefits from past generations of Croydon residents, so we should not be destroying it for future generations.

The de-designation of Croham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (SSSI) and a Site of Metropolitan Importance for Nature Conservation and Coombe Road Playing Fields as Green Belt, site reference 662 as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

The proposal to build a secondary school next to the proposed Gypsy and Traveller site seems provocative, as the Croydon planning committee only recently finally rejected a similar proposal for the site. Surely councils should be preserving school playing fields.

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to a tram stop therefore is capable of serving a wide area of the borough. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

A policy should be considered for Portland Road that would help to manage the return of retail units to residential use, thereby concentrating the retail offer. A number of shopping parades have been designated on Portland Road. These designations aim to concentrate the retail offer and will support the conversion of other retail units to residential.

Comment: A policy should be considered for Portland Road that would help to manage the return of retail units to residential use, thereby concentrating the retail offer.

No change: A number of shopping parades have been designated on Portland Road. These designations aim to concentrate the retail offer and will support the conversion of other retail units to residential.

Comment: A policy should be considered for Portland Road that would help to manage the return of retail units to residential use, thereby concentrating the retail offer.

No change: A number of shopping parades have been designated on Portland Road. These designations aim to concentrate the retail offer and will support the conversion of other retail units to residential.

Comment: DM45.3 should refer to South Norwood and Woodside and not South Croydon.

Change: DM45.3 has been changed to reference South Norwood and Woodside.

Comment: DM45.3 should refer to South Norwood and Woodside and not South Croydon.

Change: DM45.3 should refer to South Norwood and Woodside and not South Croydon; a policy should be considered for Portland Road that would help to manage the return of retail units to residential use, thereby concentrating the retail offer.

Change: The Proposed Submission draft will be accompanied by a draft Policies Map which should be clearer. In addition the draft will include in the introduction an improved guide on how to use the plan and which policies would apply for different types of development to make it easier to use. It is noted that the Preferred and Alternative Options draft did include a table which showed what type of changes to designations were being made in each Place.

Comment: DM45.3 should refer to South Norwood and Woodside and not South Croydon.

Change: This is a typographical mistake and it will be corrected.

Comment: DM45.3 should refer to South Norwood and Woodside and not South Croydon.

Cllr M Neal  3897/01/038/DM45.3/O

**Object**  DM45.3

DM45.3 should refer to South Norwood and Woodside and not South Croydon; A policy should be considered for Portland Road that would help to manage the return of retail units to residential use, thereby concentrating the retail offer.

**Change**

This will be amended as part of the Proposed Submission. The Shopping Parades Policy sets out to consolidate the retail offer as set out.

Cllr S Brew  4117/01/040/DM45.3/O

**Object**  DM45.3

DM45.3 should refer to South Norwood and Woodside and not South Croydon;  

**Change**

This is a typographical error and it will be corrected.

Councilor M Fisher  4125/01/047/DM45.3/C

**Comment**  Soundness - Effective  DM45.3

DM45.3 should refer to South Norwood and Woodside and not South Croydon

**Change**

This is a typographical mistake and it will be corrected.

Mr Clark Dunstan  2166/01/001/DM45.3/O

**Object**  Soundness - Effective  DM45.3  121

The use of Metropolitan open land as described in reference number 121 is retrospective as this land is already being used developed as a school. If this is not a retrospective application then there needs to be no change as the current designation is therefore permissible. It fails to limit any further development of the site by increasing the size and scale of the educational use. The current usage is only 120 pupils yet significant disruption to residents is caused by parents visiting the school for open evenings by car. They have consistently ignored parking restrictions and regulations and the Local Authority either choose to ignore or have insufficient resources to implement the regulations and enforcement. The use of the car park area of MOL is now a MUGA and this should remain the case and any future policy should protect the residents from any development of this area other than an open games area and restrict any further buildings within the designated boundary.

**Change**

As site 121 is under construction it will be removed from the Local Plan.

Charlie Fagan  2634/01/008/DM45.3/C

**ARK**

**Comment**  Soundness - Effective  DM45.3  121

Croydon Council have confirmed site has been assigned to another development.

**Change**

This site is now under construction so it will be removed from the Local Plan.

Rebecca Pullinger  2657/01/035/DM45.3/S

**CPR/ London**

**Support**  Soundness - Justified  DM45.3  121

We support this allocation, and feel it shows appropriate consideration of the value of MOL "any proposed development should seek to ensure that any loss of loss open land is mitigated through alternative provision".

**Welcome support**
Network Rail notes that there are a number of sites adjacent to the Railway and attach a standard response which sets out the issues that need to be considered. In particular with large new developments there is a concern about the risk of trespass and all new developments should have proper and suitable boundary fencing. The risk of greater flooding and drainage that new developments could potentially have on the Network Rail infrastructure and we would not want any increase of flooding or the increase in run off onto Railway Infrastructure.

The developer must ensure that their proposal, both during construction and after completion of works on site, does not:
- Encroach onto Network Rail land
- Affect the safety, operation or integrity of the company’s railway and its infrastructure
- Undermine its support zone
- Damage the company’s infrastructure
- Place additional load on outbuildings
- Adversely affect any railway land or structure
- Over-sail or encroach upon the airspace of any Network Rail land
- Cause to obstruct or interfere with any works or proposed works or Network Rail development both now and in the future

The developer should comply with the following comments and requirements for the safe operation of the railway and the protection of Network Rail’s adjoining land.

Future maintenance
The development must ensure any future maintenance can be conducted solely on the applicant’s land. The applicant must ensure that any construction and any subsequent maintenance can be carried out to any proposed buildings or structures without adversely affecting the safety of, or encroaching upon Network Rail’s adjacent land and air-space, and therefore all future building should be situated at least 2 metres (3m for overhead lines and third rail) from Network Rail’s boundary. The reason for the 2m (3m for overhead lines and third rail) stand off requirement is to allow for construction and future maintenance of a building and without requirement for access to the operational railway environment which may not necessarily be granted or if granted subject to railway site safety requirements and special provisions with all associated railway costs charged to the applicant. Any
less than 2m (3m for overhead lines and third rail) and there is a strong possibility that the applicant (and any future resident) will need to utilise Network Rail land and air-space to facilitate works. The applicant / resident would need to receive approval for such works from the Network Rail Asset Protection Engineer, the applicant / resident would need to submit the request at least 20 weeks before any works were due to commence on site and they would be liable for all costs (e.g. all possession costs, all site safety costs, all asset protection presence costs). However, Network Rail is not required to grant permission for any third party access to its land. No structure/building should be built hard-against Network Rail’s boundary as in this case there is an even higher probability of access to Network Rail land being required to undertake any construction / maintenance works. Equally any structure/building erected hard against the boundary with Network Rail will impact adversely upon our maintenance teams’ ability to maintain our boundary fencing and boundary treatments.

Drainage
Storm/surface water must not be discharged onto Network Rail’s property or into Network Rail’s culverts or drains except by agreement with Network Rail. Suitable drainage or other works must be provided and maintained by the Developer to prevent surface water flows or run-off onto Network Rail’s property. Proper provision must be made to accept and continue drainage discharging from Network Rail’s property; full details to be submitted for approval to the Network Rail Asset Protection Engineer. Suitable foul drainage must be provided separate from Network Rail’s existing drainage. Soakaways, as a means of storm/surface water disposal, must not be constructed near to within 10 – 20 metres of Network Rail’s boundary or at any point which could adversely affect the stability of Network Rail’s property. After the completion and occupation of the development, any new or exacerbated problems attributable to the new development shall be investigated and remedied at the applicants’ expense.

Plant & Materials
All operations, including the use of cranes or other mechanical plant working adjacent to Network Rail’s property, must at all times be carried out in a “fail safe” manner such that in the event of mishandling, collapse or failure, no plant or materials are
capable of falling within 3.0m of the boundary with Network Rail.

Scaffolding
Any scaffold which is to be constructed within 10 metres of the railway boundary fence must be erected in such a manner that at no time will any poles over-sail the railway and protective netting around such scaffold must be installed. The applicant/applicant’s contractor must consider if they can undertake the works and associated scaffold/access for working at height within the footprint of their property boundary.

Piling
Where vibro-compaction/displacement piling plant is to be used in development, details of the use of such machinery and a method statement should be submitted for the approval of the Network Rail’s Asset Protection Engineer prior to the commencement of works and the works shall only be carried out in accordance with the approved method statement.

Fencing
In view of the nature of the development, it is essential that the developer provide (at their own expense) and thereafter maintain a substantial, trespass proof fence along the development side of the existing boundary fence, to a minimum height of 1.8 metres. The 1.8m fencing should be adjacent to the railway boundary and the developer/applicant should make provision for its future maintenance and renewal without enroachment upon Network Rail land. Network Rail’s existing fencing/wall must not be removed or damaged and at no point either during construction or after works are completed on site should the foundations of the fencing or wall or any embankment therein, be damaged, undermined or compromised in any way. Any vegetation on Network Rail land and within Network Rail’s boundary must also not be disturbed. Any fencing installed by the applicant must not prevent Network Rail from maintaining its own fencing/boundary treatment.

Lighting
Any lighting associated with the development (including vehicle lights) must not interfere with the sighting of signalling apparatus and/or train drivers vision on approaching trains. The location and colour of lights must not give rise to the potential for confusion with the signalling
arrangements on the railway. The developers should obtain Network Rail’s Asset Protection Engineer’s approval of their detailed proposals regarding lighting.

Noise and Vibration

The potential for any noise/vibration impacts caused by the proximity between the proposed development and any existing railway must be assessed in the context of the National Planning Policy Framework which hold relevant national guidance information. The current level of usage may be subject to change at any time without notification including increased frequency of trains, night time train running and heavy freight trains.

Vehicle Incursion

Where a proposal calls for hard standing area/parking of vehicles area near the boundary with the operational railway, Network Rail would recommend the installation of a highways approved vehicle incursion barrier or high kerbs to prevent vehicles accidentally driving or rolling onto the railway or damaging lineside fencing.

Network Rail strongly recommends the developer contacts AssetProtectionSussex@networkrail.co.uk prior to any works commencing on site, and also to agree an Asset Protection Agreement with us to enable approval of detailed works. More information can also be obtained from our website at www.networkrail.co.uk/aspx/1538.asp.

A large number of the sites allocated for development through Detailed Policies and Proposals may result in the loss of green space. This appears to run counter to the Borough’s Strategic Objective 10 (The need to utilise brownfield areas first) and could be replaced with a goal to promote good quality high density developments that protect Croydon’s green spaces. Even undesignated green spaces provide important ecosystem services to Croydon’s growing population.

We are concerned about the potential loss of open space through this site allocation.

The Council should provide additional text in these policies to encourage developers to propose good quality, high density developments which promote the protection and enhancement of green space.

No change

Policies DM10.1 and DM10.2 aims to ensure good quality development that would complement and sensitively responds to its surroundings and improves the quality of the boroughs public spaces and that would include green spaces.

2657/01/007/DM45.3/O Rebecca Pullinger CPRE London

Object Soundness - Effective DM45.3 486

DM46.2 should avoid buildings up to 6 storeys unless they are on corner plots or landmark sites.

DM46.2 should avoid buildings up to 6 storeys unless they are on corner plots or landmark sites.

DM46.2 should avoid buildings up to 6 storeys unless they are on corner plots or landmark sites.

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Thornton Heath Pond Local Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed maximum height for new development would enable growth, enhance the local centre and complement local character of surrounding areas.

DM46.2 should avoid buildings up to 6 storeys unless they are on corner plots or landmark sites.

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Thornton Heath Pond Local Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed maximum height for new development would enable growth, enhance the local centre and complement local character of surrounding areas.

We write on behalf of our clients, Euro Hotels Limited, to comment upon the London Borough of Croydon’s draft Croydon Local Plan: Detailed Policies and Proposals document. Our clients' interest relates to the extent of land that is outlined in the accompanying site plan (see Appendix 1) and we are proposing to shortly submit a planning application to comprehensively redevelop the site. The site (0.94 hectares) includes the recently commenced hotel building at 2 Dunheved Road South, and all of the existing buildings which comprise 585 – 603 London Road. In total, the existing buildings include 256 hotel rooms, however this will increase to 336 upon completion of the development at 2 Dunheved Road South (permitted under LBC ref; 14/03259/P at appeal in September 2015). The buildings within the site are used for hotel accommodation and lawfully fall within Class C1 of the Town and Country Planning (Use Classes) Order 1987 (as amended). The aforementioned development at 2 Dunheved Road is ‘Phase 1’ of the proposed comprehensive redevelopment of the wider site. The existing buildings have an inefficient layout and an opportunity exists to redevelop the wider site to provide a better quality of hotel accommodation in more sustainable buildings and to provide a more efficient use of the site which is more aligned with the recently renovated Ibis Styles hotel (former Norfolk Hotel). We anticipate submitting an application for the wider masterplan in mid-2016. Our client owns the site in entirety and is committed to delivering a series of new hotel buildings as part of a comprehensive redevelopment. This will result in the demolition of the existing buildings between 585-603 London Road which are currently occupied by the Ibis Croydon, Gilroy Court Hotel and Croydon Court Hotel. The Proposed Development is anticipated to follow on from the ‘Phase 1’ redevelopment proposals which are currently being constructed at 2 Dunheved Road South and these demonstrate the commitment to provide quality hotel accommodation on this site and to deliver this new development. Euro Hotels Ltd have no plans or strategy to redevelop the site for an alternative use and given the commitment to redevelopment and the identifiable demand for hotel accommodation on this site, we are requesting that the site is included in Table 11.19 of the draft Croydon Local Plan: Detailed Policies and Proposals as ‘Continued hotel use’.
CPRE London supports the inclusion of the requirement that any proposals must address environmental impacts of redevelopment.

Welcome support
Network Rail notes that there are a number of sites adjacent to the Railway and attach a standard response which sets out the issues that need to be considered. In particular with large new developments there is a concern about the risk of trespass and all new developments should have proper and suitable boundary fencing. The risk of greater flooding and drainage that new developments could potentially have on the Network Rail infrastructure and we would not want any increase of flooding or the increase in run off onto Railway Infrastructure.

The developer must ensure that their proposal, both during construction and after completion of works on site, does not:
- Encroach onto Network Rail land
- Affect the safety, operation or integrity of the company’s railway and its infrastructure
- Undermine its support zone
- Damage the company’s infrastructure
- Place additional load on outfalls
- Adversely affect any railway land or structure
- Over-sail or encroach upon the airspace of any Network Rail land
- Cause to obstruct or interfere with any works or proposed works or Network Rail development both now and in the future

The developer should comply with the following comments and requirements for the safe operation of the railway and the protection of Network Rail’s adjoining land.

Future maintenance
The development must ensure any future maintenance can be conducted solely on the applicant’s land. The applicant must ensure that any construction and any subsequent maintenance can be carried out to any proposed buildings or structures without adversely affecting the safety of, or encroaching upon Network Rail’s adjacent land and airspace, and therefore all railway building should be situated at least 2 metres (3m for overhead lines and third rail) from Network Rail’s boundary. The reason for the 2m (3m for overhead lines and third rail) stand off requirement is to allow for construction and future maintenance of a building and without requirement for access to the operational railway environment which may not necessarily be granted or if granted subject to railway site safety requirements and special provisions with all associated railway costs charged to the applicant. Any
less than 2m (3m for overhead lines and third rail) and there is a strong possibility that the applicant (and any future resident) will need to utilise Network Rail land and airspace to facilitate works. The applicant / resident would need to receive approval for such works from the Network Rail Asset Protection Engineer, the applicant / resident would need to submit the request at least 20 weeks before any works were due to commence on site and they would be liable for all costs (e.g. all possession costs, all site safety costs, all asset protection presence costs). However, Network Rail is not required to grant permission for any third party access to its land. No structure/building should be built hard against Network Rail’s boundary as in this case there is an even higher probability of access to Network Rail land being required to undertake any construction / maintenance works. Equally any structure/building erected hard against the boundary with Network Rail will impact adversely upon our maintenance teams’ ability to maintain our boundary fencing and boundary treatments.

Drainage
Storm/surface water must not be discharged onto Network Rail’s property, except by agreement with Network Rail. Suitable drainage or other works must be provided and maintained by the Developer to prevent surface water flows or run-off onto Network Rail’s property. Full details to be submitted for approval to the Network Rail Asset Protection Engineer. Suitable foul drainage must be provided separate from Network Rail’s existing drainage. Soakaways, as a means of storm/surface water disposal must not be constructed near/within 10 – 20 metres of Network Rail’s boundary or at any point which could adversely affect the stability of Network Rail’s property.

After the completion and occupation of the development, any new or exacerbated problems attributable to the new development shall be investigated and remedied at the applicants’ expense.

Plant & Materials
All operations, including the use of cranes or other mechanical plant working adjacent to Network Rail’s property, must at all times be carried out in a “fail safe” manner such that in the event of mishandling, collapse or failure, no plant or materials are lost or damaged. No plant or materials are to be stored against or in the vicinity of Network Rail’s boundary or on any part of Network Rail’s property.
capable of falling within 3.0m of the boundary with Network Rail.

Scaffolding
Any scaffold which is to be constructed within 10 metres of the railway boundary fence must be erected in such a manner that at no time will any poles over-sail the railway and protective netting around such scaffold must be installed. The applicant/applicant’s contractor must consider if they can undertake the works and associated scaffold/access for working at height within the footprint of their property boundary.

Piling
Where vibro-compaction/displacement piling plant is to be used in development, details of the use of such machinery and a method statement should be submitted for the approval of the Network Rail’s Asset Protection Engineer prior to the commencement of works and the works shall only be carried out in accordance with the approved method statement.

Fencing
In view of the nature of the development, it is essential that the developer provide (at their own expense) and thereafter maintain a substantial, trespass proof fence along the development side of the existing boundary fence, to a minimum height of 1.8 metres. The 1.8m fencing should be adjacent to the railway boundary and the developer/applicant should make provision for its future maintenance and renewal without encroachment upon Network Rail land. Network Rail’s existing fencing/wall must not be removed or damaged and at no point either during construction or after works are completed on site should the foundations of the fencing or wall or any embankment therein, be damaged, undermined or compromised in any way. Any vegetation on Network Rail land and within Network Rail’s boundary must also not be disturbed. Any fencing installed by the applicant must not prevent Network Rail from maintaining its own fencing/boundary treatment.

Lighting
Any lighting associated with the development (including vehicle lights) must not interfere with the sighting of signalling apparatus and/or train drivers vision on approaching trains. The location and colour of lights must not give rise to the potential for confusion with the signalling...
arrangements on the railway. The developers should obtain Network Rail’s Asset Protection Engineer’s approval of their detailed proposals regarding lighting.

Noise and Vibration
The potential for any noise/ vibration impacts caused by the proximity between the proposed development and any existing railway must be assessed in the context of the National Planning Policy Framework which hold relevant national guidance information. The current level of usage may be subject to change at any time without notification including increased frequency of trains, right time train running and heavy freight trains.

Vehicle Incursion
Where a proposal calls for hard standing area / parking of vehicles area near the boundary with the operational railway, Network Rail would recommend the installation of a highways approved vehicle incursion barrier or high kerbs to prevent vehicles accidentally driving or rolling onto the railway or damaging lineside fencing.

Network Rail strongly recommends the developer contacts AssetProtectionsSussex@networkrail.co.uk prior to any works commencing on site, and also to agree an Asset Protection Agreement with us to enable approval of detailed works. More information can also be obtained from our website at www.networkrail.co.uk/aspx/1538.asp.
We wish to make you aware of a number of strong objections that we have with regard to the Proposed Development in between Torridge Road and Haslemere Road, referred to as the "Proposed Development".

As an immediate neighbour to the site of the Proposed Development, we are of the view that the development will have a serious impact on our standard of living and we refer to the Council's rejection in 2012 of the site. The reasons for refusal were which we believe to be valid:

1) Loss of employment generating use
2) Overdevelopment of the site and having inadequate private amenity space for the occupiers
3) Development would not provide a high standard of design and layout
4) No affordable housing.

The most important point the Council fail to acknowledge in their limited literature is that the site as a whole is currently used by two local businesses, but also their a property upon the 3b Torridge Road site which houses a young family with three children. The site is not derelict or can be classed as a brown field site. In order to densely populate a small area of land, the Council are willing to displace two local businesses which provide employment to local people. The scaffolding yard has been part of the local community for over 25 years and provides an invaluable local amenity. The council in their efforts to push for housing, maybe the efforts should concentrate of land that is disused and help local businesses rather than push them away and potentially destroy a business which is literally vital to the community. It is important to note, that due to the Council's intense takeover of disused land where would the Council suggest the two scaffolding firms be located? Unfortunately for the residents of the surrounding areas, the Council in their proposal have only provided very limited information regarding the intentions for the Proposed Development. However, we are aware that 10-30 homes are planned. Therefore we can only assume, the proposed site of development would overlook our properties from the top rooms of the new development, resulting in a serious invasion of our privacy. We believe that the Proposed Development is a direct contravention our human rights. Any potential design of the proposed development does not afford adequate privacy for the occupants adjacent residential properties, particularly with regard to our right to the quiet enjoyment of

The site should not be allocated for residential development.

Change

The site will not be allocated for residential development as it will result in the loss of a protected employment use.
garden amenities. We would urge you to consider the responsibilities of the Council under the Human Rights Act in particular Protocol 1, Article 1 which states that a person has the right to peaceful enjoyment of all their possessions which includes the home and other land. We believe that any proposed development would have a dominating impact on us and our right to the quiet enjoyment of our property. Article 8 of the Human Rights Act states, that a person has the substantive right to respect for their private and family life. As residents we have a right to light and therefore the maintenance of such light levels we currently enjoy is of vital importance otherwise this would be a direct infringement of our human rights. The natural lights we currently enjoy from sunlight and in particular the evening sunlight would be impacted due to new structures overshadowing our properties which would be an infringement. Therefore, on this basis alone any Proposed Development should be rejected. Upon review of the Council’s local plan, we believe the proposed development would be in contravention to current planning policies. Any proposed plan would not be in keeping with the current local context and street pattern or, in particular, the scale and proportions of surrounding buildings and would be entirely out of character of the area, the detriment of the local environment. The properties facing the proposed development would be seriously impacted if the proposed development is so densely concentrated that properties are built up against our back gardens. We understand the maximum build of the development could potentially be 10 to 30 homes, towering a maximum of 3 storeys tall, which is not in keeping with our homes, which are two storeys tall therefore any planned development would encroach on our properties style and character. We are unable to fully understand what the Council are actually planning or what any potential developer would plan. Therefore, the objections within this letter are purely speculative and do not allow us as residents to fully argue our oppositions - no surveys, site plans and/or architectural designs have been submitted/provided to the residents and we would request more information is provided. It is all well and good to include the site on a local plan - but on what grounds, what advice, what surveys of the neighbouring community, land and environment surveys/plans. This lack of information is very disturbing and
puts residents in the dark of what the council are actually planning. How can the council reject a site planning application one year and then a few years down the line potentially grant permission on the same grounds the application was rejected. However, despite the lack of information any development behind Torridge/Haslemere Road would be a massive stress on local amenities such as transport, parking, hospitals, local schools, GP Clinics, etc. The adverse noise, smell, pollution from the building/new residents would be of serious concern and potentially would impact directly on our daily lives and our health. We believe that the Proposed Development would be in contravention of any local plan and town and planning regulations. The proposed dwellings would significantly alter the fabric of the area and amount to serious ‘cramming’ in what is a low density roads. The development would allow for very little space currently enjoyed by both roads and we believe that it would lead to gross over-development of the site. The Proposed Development would not result in a benefit to the environment and residents around the area would suffer increased pollution levels as a direct result. In conclusion, the proposal would demonstrably harm the amenities enjoyed by local residents, in particular safe and available on-road parking, valuable enjoyment of privacy and light and the right to enjoy a quiet and safe residential environment. The development of any site would involve vast amounts of digging, excavation and preparing the land – the noise, pollution and fumes, to ensure the land is strong enough to withstand such large structures such as the aforementioned development. Also, any excavation work could have a serious adverse impact upon the stability of the existing structures. In addition, the works will also require the demolition current large structures, these are major works to be carried out on a circa-1960s property and we have serious concerns about the impact that such works could have on the stability of our own adjoining properties, health and safety and potential contamination. We believe that the Proposed Development would not provide sufficient parking space. In addition to this, there is already intense on-street parking pressure on Torridge Road/Haslemere Road and Bensham Lane, and we believe the proposed additional parking provision will damage both highway safety and residential amenity. We also have serious concerns that the plot size
and orientation will not easily accommodate cars within the proposed development if on-site parking is planned. The area concerned is limited in space and the entrance into the development from Torridge Road is very narrow with two houses either side and would make access to the proposed spaces limited and only possible from one direction and would affect the stability of the houses on either side, there would be serious disturbances in noise/vibration from cars at all hours of the day and late night activities. Road safety would be compromised for other road users, pedestrians including the local children who are able to play/run around freely on Torridge Road. We understand the Council have a quota that must be met in respect of affordable housing however there are other sites within the Croydon area that can fulfil the Council’s requirements without encroaching on resident’s human rights, such as the site on Bridgstock Road opposite the Hindu Temple or the large structure opposite Thornton Heath rail station. We would like to point out that the dwellings proposed would not fall within the definition of affordable housing. House prices on Torridge Road are increasing at a considerable pace and the average price is currently circa in excess of GBP 350,000 and as the new development would inevitably be priced at a value with reference to this, we do not believe the new dwellings would be considered to be affordable to people on a low income.

You have incorrectly and illegitimately categorized the site as disused.

I can confirm that there is currently, and has since I have been resident there (in 2009) 2 x legitimate companies working out of that yard and employing up to 20 people (NEW ERA scaffold and P. J. MORGAN scaffold.)

I am somewhat confused, you have apparently visited the site (see document detailed record) and surmised that the site is disused, clearly you were not able to see the two legitimate and tax paying scaffold companies both working out of the site. Could you shed some further light on your record of that visit, as the categorized aspect of your assessment is clearly incorrect and most likely a mistake on your part?

Furthermore you go on to assert that the site has been disused for 18 months in the accompanying ‘background’ document. Again, as we have established you have conveniently overlooked the 2 legitimate companies working out of the site. Could you please provide the site assessment document that must have accompanied this visit and assessment please? Failure to do so renders your assessment of the site mute from this juncture on in the event you are not able to provide evidence that the site is [and has been for at least 18 months] disused.

Finally, I am again surprised to see that there is no reference in your documentation to the previous proposal being refused on the grounds of density and the removal of legitimate business from the site to enable development. Correspondence from your office informed me that two overarching reasons for refusing the initial proposal of 11 homes on the site were refused on the grounds that it was too dense a proposal for the site in terms of access, and secondly that it would take desired employment out of the area. Please could you address both of those points in detail prior to moving on with this as I can see you have not only overlooked those initially salient points, you have outright contradicted them.

To surmise, you have failed to supply me with any meaningful density calculator as it applies to your estimated 10-37 homes on the site. You have failed to even acknowledge that there are existing businesses working there and your actions will serve to move those businesses out...
of the area. You have also failed to address the logic for a U turn on both the density aspect and the removal of legitimate business from the area, as was your position only 2 years ago.

286/01/001/DM46.3/S Mr John Curley
Curley Skip Hire

Support

Soundness - Justified

DM46.3 286

Site 286 is an outdated factory that has been vacant for many years. It is the only non-residential building on this side of Osborne Road and it is entirely proper that it should be developed for residential use especially as there is a need for more housing and especially affordable homes.

Welcome support
Network Rail notes that there are a number of sites adjacent to the Railway and attach a standard response which sets out the issues that need to be considered. In particular, with large new developments there is a concern about the risk of trespass and all new developments should have proper and suitable boundary fencing. The risk of greater flooding and drainage that new developments could potentially have on the Network Rail infrastructure and we would not want any increase of flooding or the increase in run off onto Railway Infrastructure.

The developer must ensure that their proposal, both during construction and after completion of works on site, does not:
- Encroach onto Network Rail land
- Affect the safety, operation or integrity of the company’s railway and its infrastructure
- Undermine its support zone
- Damage the company’s infrastructure
- Place additional load on outlings
- Adversely affect any railway land or structure
- Over-sail or encroach upon the air-space of any Network Rail land
- Cause to obstruct or interfere with any works or proposed works or Network Rail development both now and in the future

The developer should comply with the following comments and requirements for the safe operation of the railway and the protection of Network Rail’s adjoining land.

**Future maintenance**

The development must ensure any future maintenance can be conducted solely on the applicant’s land. The applicant must ensure that any construction and any subsequent maintenance can be carried out to any proposed buildings or structures without adversely affecting the safety of, or encroaching upon Network Rail’s adjacent land and air-space, and therefore any ferry building should be situated at least 2 metres (3m for overhead lines and third rail) from Network Rail’s boundary. The reason for the 2m (3m for overhead lines and third rail) stand off requirement is to allow for construction and future maintenance of a building and without requirement for access to the operational railway environment which may not necessarily be granted or if granted subject to railway site safety requirements and special provisions with all associated railway costs charged to the applicant.
less than 2m (3m for overhead lines and third rail) and there is a strong possibility that the applicant (and any future resident) will need to utilise Network Rail's land and airspace to facilitate works. The applicant/resident would need to receive approval for such works from the Network Rail Asset Protection Engineer, the applicant/resident would need to submit the request at least 20 weeks before any works were due to commence on site and they would be liable for all costs (e.g. possession costs, site safety costs, asset protection presence costs). However, Network Rail is not required to grant permission for any third party access to its land. No structure/building should be built hard-against Network Rail's boundary as in this case there is an even higher probability of access to Network Rail land being required to undertake any construction/maintenance works. Equally any structure/building erected hard against the boundary with Network Rail will impact adversely upon our maintenance teams’ ability to maintain our boundary fencing and boundary treatments.

Drainage
Storm/surface water must not be discharged onto Network Rail’s property or into Network Rail’s culverts or drains except by agreement with Network Rail. Suitable drainage or other works must be provided and maintained by the developer to prevent surface water flows or run-off onto Network Rail’s property. Proper provision must be made to accept and continue drainage discharging from Network Rail’s property, full details to be submitted for approval to the Network Rail Asset Protection Engineer. Suitable foul drainage must be provided separate from Network Rail’s existing drainage. Soakaways, as a means of storm/surface water disposal must not be constructed near/within 10 – 20 metres of Network Rail’s boundary or at any point which could adversely affect the stability of Network Rail’s property. After the completion and occupation of the development, any new or exacerbated problems attributable to the new development shall be investigated and remedied at the applicants’ expense.

Plant & Materials
All operations, including the use of cranes or other mechanical plant working adjacent to Network Rail’s property, must at all times be carried out in a “fail safe” manner such that in the event of mishandling, collapse or failure, no plant or materials are
capable of falling within 3.0m of the boundary with Network Rail.

Scaffolding
Any scaffold which is to be constructed within 10 metres of the railway boundary fence must be erected in such a manner that at no time will any poles over-sail the railway and protective netting around such scaffold must be installed. The applicant/applicant’s contractor must consider if they can undertake the works and associated scaffold/access for working at height within the footprint of their property boundary.

Piling
Where vibro-compaction/displacement piling plant is to be used in development, details of the use of such machinery and a method statement should be submitted for the approval of the Network Rail’s Asset Protection Engineer prior to the commencement of works and the works shall only be carried out in accordance with the approved method statement.

Fencing
In view of the nature of the development, it is essential that the developer provide (at their own expense) and thereafter maintain a substantial, trespass-proof fence along the development side of the existing boundary fence, to a minimum height of 1.8 metres. The 1.8m fencing should be adjacent to the railway boundary and the developer/applicant should make provision for its future maintenance and renewal without encroachment upon Network Rail land. Network Rail’s existing fencing/wall must not be removed or damaged and at no point either during construction or after works are completed on site should the foundations of the fencing or wall or any embankment therein, be damaged, undermined or compromised in any way. Any vegetation on Network Rail land and within Network Rail’s boundary must also not be disturbed. Any fencing installed by the applicant must not prevent Network Rail from maintaining its own fencing/boundary treatment.

Lighting
Any lighting associated with the development (including vehicle lights) must not interfere with the sighting of signalling apparatus and/or train drivers vision on approaching trains. The location and colour of lights must not give rise to the potential for confusion with the signalling
arrangements on the railway. The developers should obtain Network Rail’s Asset Protection Engineer’s approval of their detailed proposals regarding lighting.

Noise and Vibration
The potential for any noise/vibration impacts caused by the proximity between the proposed development and any existing railway must be assessed in the context of the National Planning Policy Framework which hold relevant national guidance information. The current level of usage may be subject to change at any time without notification including increased frequency of trains, night time train running and heavy freight trains.

Vehicle Incursion
Where a proposal calls for hard standing area/parking of vehicles area near the boundary with the operational railway, Network Rail would recommend the installation of a highways approved vehicle incursion barrier or high kerbs to prevent vehicles accidentally driving or rolling onto the railway or damaging lineside fencing.

Network Rail strongly recommends the developer contacts AssetProtectionsSussex@networkrail.co.uk prior to any works commencing on site, and also to agree an Asset Protection Agreement with us to enable approval of detailed works. More information can also be obtained from our website at www.networkrail.co.uk/aspx/1538.asp.

Site 468 at land adjacent to 55 Pawsons Road is proposed to be allocated for residential development. A need has been identified for additional housing sites in Croydon and Pawsons Road meets the criteria. The Council acknowledges that a balance needs to be struck between this need and the impact that additional sites has on the environment and nearby residents.
strong objection to Pawsons Road site for residential development as new residents will make the parking situation worse. A car park or dog friendly area would be better options

Rowland Brothers

Object Soundness - Effective 468

Our clients would like to make a representation in support of the de-designation of the above land from local open land. Our clients are also broadly supportive of the idea that the land be used as land for residential development.

However, our clients would like the Council to give consideration to the use of part of the site as a parking area for their business.

Rowland Brothers are an established local funeral director and they are a known and trusted company in Croydon. Rowland Brothers are also a major local employer with over 100 employees providing a vital local service to people at a very difficult time in their lives.

Rowland Brothers have operated from their premises on the Whitehorse Road since before the Second World War and have grown and adapted to meet the needs of Croydon's diverse community.

The growth of the service has meant that there are more vehicles using the premises. Not only hearses and funeral cars, but also private ambulances and the vehicles used by family members of the deceased.

This intensification of vehicular activity over the years has resulted in congestion and parking difficulties most particularly in Northbrook Road, but there has also been spillover into Mayo Road and Broadway Avenue opposite Rowland Brothers.

Due to the congestion in and around Rowland Brothers at times it has been necessary to park private ambulances in Northbrook Road after bringing the deceased to Rowland Brothers. The sight of these vehicles can be distressing for the neighbours and Rowland Brothers would like to be in a position to park these vehicles off the public highway.

Rowland Brothers also cater to the needs of various communities and faiths in Croydon and are providing new facilities that will allow different communities and faith to be able to see through the bereavement/funeral process on the premises. There are new facilities that allow family members to wash the deceased and the chapels of rest are now more intensively used by mourners sitting with the deceased until the funeral.

Due to the differing funerary customs of diverse communities sometimes a number of people will be visiting the

Therefore, Rowland Brothers would like to support the de-designation of this land as local open land, but with the addition of a car parking area on the area marked in red on the attached plan.
Rowland Brothers would like to add a car park at the rear of their premises to allow relatives and visitors to deceased persons and Rowland Brothers employees to be able to park without causing disruption to their neighbours.

Rowland Brothers have the support of the local community for their suggested car parking area and a petition with 70 local signatures is attached. Rowland Brothers have always tried very hard to maintain good relationships with their neighbours and they feel that it would be a distinct improvement to the area for some off road parking to be provided for their employees and customers, thereby easing parking and congestion problems for the neighbours.

I write as a long standing resident of Saxon Road. I wish to state that parking has been an ongoing issue. And I agree with Rowland Brothers that the TARMAC area should serve a purpose that will ultimately relief the lack of parking spaces and congested situation we face on my road and adjoining streets in particular as train commuters take up most of the spaces; this is worsened during football season. Please therefore allow Rowland Brothers to use the tarmacked area as a car park.

Any loss of green space is a tragedy; however the current use of the space seems to only serve the use of people with dogs which in itself discourages other people using the same in particular children for fear disease resulting from the dog defecation.

I have noted the proposal put forward by Rowlands Brothers. Their proposal extend only to the current tarmac area the intention of which is to secure parking for their business. I appreciate Rowlands Brothers business interest however there evidence that proposal would ease the current parking congestion. It seems the only beneficiary from this proposal would be Rowlands Brothers and this cant represent value for money for the use of a community asset.

The second proposal in to building housing. There continue to be a shortage of social housing and therefore would support the development of social housing providing that adequate parking so as not to increase current parking congestion.

The third option should be to make the area dog free and encourage the local community to manage the green area, you have one volunteer!!!

Welcome support

A need has been identified for additional housing sites in Croydon and Pawsons Road meets the criteria. The Council acknowledges that a balance needs to be struck between this need and the impact that additional sites has on the environment and nearby residents.

There are other open spaces in the area that are better maintained and utilised; therefore there is provision in this area.

Site 468 at land adjacent to 55 Pawsons road is proposed to be allocated for residential development. A need has been identified for additional housing sites in Croydon and Pawsons Road meets the criteria. The Council acknowledges that a balance needs to be struck between this need and the impact that additional sites has on the environment and nearby residents.

<tbody>
<tr>
<td>A285</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

This site is immediately adjacent to, and shares a common boundary with site 286 (which is a preferred proposal site). Site A285 is a waste transfer station which has been in continued, uninterrupted use for many years, and complies with all current regulatory requirements. However the dust and noise created by the operation of the site and the movement of skip lorries is detrimental to the amenity of neighbouring residential properties, 14 of which share a common boundary with the site. There have been a fair number of complaints to the local authority over this matter. The access is not suited to skip lorries either being a narrow road with cars closely parked.

A waste transfer site is not appropriate in a residential area and should be included in the list of preferred sites.

No change

54 Northwood Road is an operational employment site and there is a presumption against the loss of employment uses.
In regards to Table 11.19 of the Croydon Local Plan: Detailed Policies and Proposals (Preferred and Alternative Options), the preferred option for a continuation of the existing use at site A400 (324-340 Bensham Lane, Thornton Heath) would not facilitate Council in meeting the relevant Strategic Objectives. However, how these objectives would be met were the site’s preferred option to be identified for residential uses as outlined below.

Strategic Objective 3: As detailed in the attachment to this representation form, the site is ideal for residential development and fulfils the criteria in Appendix 1 identified as factors that are considered when recognising sites as preferred options for new housing. The site is of an appropriate size to accommodate in excess of ten dwellings, and will assist Council in providing housing of various types and tenures throughout the residents’ lives.

Strategic Objective 4: The existing development has a significant detrimental impact on the streetscape and urban grain. Allocating the site for a preference of residential uses in place of the continuation of the existing use would revitalise the streetscape and create a renewed opportunity for housing. Furthermore, as demonstrated in the attachment to this representation form, the benefits of identifying the site as a preferred option for residential uses would not necessarily result in the loss of employment land or residential uses. Issue is raised over the impact a continuation of the use would have on the amenity achieved at the future residential uses at the 2nd and 3rd floors where prior approval has been granted. Omitting the site as a preferred option for residential uses would be a missed opportunity to renew the site and surrounds.

Strategic Objective 5: Permitting residential uses on the site is an excellent opportunity to encourage high quality development that enhances and integrates into the surroundings. The existing warehouse use is out of keeping with the remaining streetscape and would be better located elsewhere within the Borough. This consideration is expanded on in greater detail in the attachment.

Strategic Objective 8: As detailed in the attachment to this representation form, the site is ideally located for residential development, being within close proximity to a range of

As demonstrated in this statement Day Lewis House, 324-340 Bensham Lane should be considered as a preferred option for residential uses within Table 11.19 of the exhibited Croydon Local Plan: Detailed Policies and Proposals (Preferred and Alternative Options). The site presents an exceptional opportunity for residential development and has proven its suitability against the assessment criteria in Appendix 1 (used to identify sites as having a preferred options for residential uses). It has further been confirmed that the site is compatible with such identified sites.

The submission has demonstrated that residential uses would revitalise the existing undesirable urban character, and can be accommodated on the site. Furthermore the loss of such an opportunity based on the reasoning that it would result in a loss of employment land and a community facility would be to the detriment of the future growth and development of the site, its surrounds and the Borough.

Change
The lawful use of this site is an office (Class B1a) which, outside of the Office Protection Area in the Metropolitan Centre, is not proposed to be protected in the Local Plan. Therefore, this site is suitable for residential development and can be allocated as such in the Local Plan.
sustainable transport modes. Providing dwellings in such locations encourages connectivity to, from and within the Borough.

The approach is not deliverable. The preferred option for land uses at site A400 should be reviewed to ensure the optimum development potential and the accumulative social, economic and environmental benefits for the site, vicinity and Borough are achieved. How identifying the site’s preferred option of residential uses can deliver this is demonstrated in greater detail in the attachment to this representation form.

The preferred approach does not encourage sustainable development. As identified in greater detail within the attachment to this response, allocating site A400’s preferred land use option as a continuation of the existing use does not capitalise on the opportunities for sustainable development. The site is capable of accommodating a range of residential housing types, is ideally located to sustainable transport options, and (given the availability of alternative sites for the warehousing and community facility, and the expectant release of industrial land within the Borough) would not necessitate a loss of employment land or community uses. Consideration should also be given to the revitalisation and projection of a sense of place new housing could give to the urban design and built environment. The provision of new housing would meet the needs of future generations and contribute to fulfilling the Borough’s housing requirements.

Day Lewis House’s current use is a large office/industrial building. Prior approval has been granted for the conversion of the 2nd and 3rd floors from B1 (office) use to C3 (residential) uses. The 1st floor comprises B1 office uses with the exception of a small unit, which is leased to a church user at the moment. The ground floor use is occupied by a warehousing.

Prior Approval (14/01005/GPDO) was granted on 16/05/2014 for the conversion of the site’s offices to houses to provide 14 two bedroom and 4 one bedroom flats on the second and third floors.

Council’s reasoning for not including the site as a preferred option advised that:

1) The site is operational as an employment site and there is a presumption against non-employment
uses; and

2) The site is an operational community facility and there is a presumption against non-community uses.

Part 1) of this reasoning should be viewed with regard to paragraph 22 of the NPPF, which requires planning policies to avoid the long term protection of sites allocated for employment uses where there is no reasonable expectation of the continued use for that purpose, and that land allocations should be regularly reviewed.

The London Borough of Croydon’s Employment Land Review Update 2013 identifies this type of site as being a ‘small pocket of unallocated local market employment land’, catering for the needs of small to medium sized business requiring warehousing. The Review projected the land demand for such uses within the Borough to be broadly balanced with supply.

Additionally The Land for Industry and Transport SPG advises that although Croydon is a ‘Restricted Transfer’ Borough, meaning that despite there being a relatively low level of industrial land, the possibility of small scale releases is not precluded.

A property search identified a number of currently vacant industrial sites within Croydon to which the use could be relocated.

The continuation of the warehouse use would exacerbate the detrimental impact the existing development has on the urban fabric and street’s functionality. Indeed, the development of the site would dramatically revitalise the appearance and viability of the streetscape, in which a high standard of urban design can be provided to engage the street, replacing the current hardstand parking, dominating facade and traffic confusion associated with the egress and access of heavy vehicles associated with the use.

The loss of the community facility identified in point 2) is a reference to the RWR Church operating in a single small unit of the six located on the first floor. The Church has been semioperational since 2011. Its D1 use is not a lawful use; and the conversion of offices to places of worship is not permitted under use class orders. Its operational purpose within the existing building was to occupy vacant space. It was not intended as a long term use.
In considering that this use commenced unlawfully, is not a permanent use and does not fall within Council’s use description of the site; restricting the redevelopment for residential uses on the basis community facilities would be lost would be onerous in this instance.

Consideration is additionally given to the appropriateness of this use and impacts of noise, music and traffic movements associated with the worshippers on the occupiers of the future residential uses permitted at the second and third floors. Reference is made to the Black Sheep Bar, Croydon which closed in recognition of being in the wrong location following the evolution of its surrounds and conversions of adjoining uses to residential development.

Dialogue has recently been established with council (in the form of two pre-application meetings held on 01/04/15 and 02/08/15) in which the redevelopment of the site to permit a purely residential scheme was discussed. The initial response received from Council’s Place Making Officer over whether the existing uses should be replaced with residential dwellings has been positive.

Appendix 1 of the Croydon Local Plan: Detailed Policies and Proposals (Preferred and Alternative Options) identifies the basic criteria in assessing each site as being preferable for residential uses. Below each criterion is a response as to how the subject site demonstrates it is ideally suited for residential uses.

a. Is the site big enough for 10 or more new homes?
   This site has a total area of 0.25ha. This would permit in excess of 10 homes. Given the size of the site it is considered that there is also sufficient capacity to accommodate a range of units including 3 bedroom dwellings (which are preferred for sustainable development under Policy DM 1 of the Croydon Local Plan: Detailed Policies and Proposals (Preferred and Alternative Options)). Furthermore the site is ideally located for residential development, being within close proximity to a range sustainable transport modes, services, commercial premises and job opportunities. The site’s orientation will not necessitate an unreasonable loss of solar access or loss of privacy on the adjoining sites were residential uses to be developed.

b. Are there any existing or proposed...
policy constraints that would prevent the development of the site altogether?

There are no current policies specifically relevant to the site that would prevent future residential development. However the construction of residential developments on the site would fulfill the relevant national and local policies. The objectives of the NPPF in relation to sustainable development is outlined above. It is considered that the location of the site would adequately uphold these objectives, while the allocation of residential uses would demonstrate compliance with paragraph 151 of the NPPF to encourage sustainable development through plan making. The Housing and Planning Bill 2015-2016 is targeted to be adopted in April 2016. One of the primary objectives of The Draft Bill is to provide Starter Homes for first time buyers. Potential development of the site would facilitate an opportunity for LB Croydon to meet any future starter home requirements likely to be directed from Central Government following the gazettal of The Bill.

c. Is the existing land use protected from development unless certain criteria are met (such as demonstrating lack of demand for an industrial premises or community use);

A property search has identified a number of vacant alternative industrial sites within the Borough, while a practicing church is located next door to the site. This demonstrates an adequate supply of alternative locations for these uses, and that the development of residential uses would not necessitate their loss.

d. Are there any factors that would prevent the site being developed (such as legal covenants or viability issues);

Associated factors which have the potential to affect the development of the site are assessed below:

- Sustainability: The site is located on brownfield land. The location of the site allows easy access to public transport links including the rail stations at Thornton Heath and Selhurst. The location is prime for residential uses and would encourage strengthened economic development.
- Flooding: The site falls outside of any associated flood zones.
- Topography: The site is relatively flat. This permits opportunities for innovative designs including the potential introduction of defensible space and an upgrade of the Bensham Lane streetscape.
- **Trees/Vegetation**: There are no mature trees on the site. However, there is opportunity for future development to introduce planting within the Bensham Lane frontage, upgrading the existing character of the streetscape.

- **Community**: The site is capable of accommodating the level of growth anticipated for Thornton Heath. Associated Section 106 Agreements and Affordable Housing will be included as part of development applications.

e. Could better use be made of the site for another use such as a new school based on the criteria in the following paragraphs?

Although Appendix 2 of the Croydon Local Plan: Detailed Policies and Proposals (Preferred and Alternative Options) has identified the north west of the borough as an area in need of primary school classrooms, Ecclesbourne Primary School is located just 300m from the site, while the preferred option for No. 843 London Road 700m to the west is additionally identified as a primary school use.

It should be noted, that our client was surprised to see the proposed allocation in the current consultation document. In the era of Localism, engaging with the landowner on the options for future redevelopment would have been expected. Paragraph 155 requires authorities to have early and meaningful engagement with a variety of bodies, including business; the site is occupied by a well-established business and the Council has not sought to establish whether the owner and/or the business has any intentions regarding the sites future within the plan period that makes an allocation deliverable. Moving forward however, the Trust welcomes the opportunity for discussions with the Council regarding any potential allocation.

The garden centre has been put forward as part of these site allocations. The proposed allocation promotes the site for a secondary school to come forward for development between 2021 and 2026, the second phase of development in the emerging local plan. The site is considered by the Council to be of a suitable size for a secondary school albeit at this stage no consideration has been given as to how the listed diving board might impact the design of a new secondary school, given the requirements of national guidance and other plan policies. The supporting sustainability appraisal recommends that the site requires public transport improvements as part of the development to mitigate against the current low public transport accessibility rating. The Trust does not consider this is a suitable or appropriate allocation for the site which is currently occupied by a successfully trading business; namely the garden centre. Nor has the supporting evidence base been sufficiently provided to justify the allocation in addition to the sites location on the edge of the urban area, its geographical relationship to its potential catchment area. These matters are considered below.

A number of evidence base documents support the emerging Local Plan Part 2. Of note for this site is the Education Evidence Base (September 2015). This provides a vague and preliminary assessment of the anticipated pupil place projections for Croydon. Within this document it is stated that the Borough will need sites to deliver additional school places (at secondary level) in between 2018/19 and 2023/24, which will coincide with the expected

In summary and for the reasons set out above, the Trust objects to the emerging allocation (Site 11) and requests the site should not be allocated for educational purposes. The site is not located in a suitable location for a school, nor does it have the transport infrastructure in place to accommodate delivery. Furthermore, the site is not considered to be a sufficient size to accommodate a secondary school of the size required and identified in the evidence base document. All of these factors make the site unsustainable in terms of the guidance set out in the NFFP and therefore ‘unsound’ when factored against the relevant tests for policies and allocations.

I would be grateful if we as agents for the Trust can be kept up-to-date on the process of consideration of these representations, and would also welcome engagement with the Council regarding the options for the site’s redevelopment.

There is no willing landowner to bring this site forward as a secondary school. As it has been identified as being undeliverable the allocation for a secondary school has not been taken forward.

deliverability of the site between 2021 and 2026. Borough wide, up to 24 FE are required to be provided by 2022 in the possible configurations of: - 2 new 8FE and 1 new 6FE school; or, - 4 new 6FE schools

We do not consider the current Education Evidence Base to sufficiently support the allocation. It does not assess site suitability, or approach the assessment of sites for secondary schools. Therefore, there is no assessment of the site nor is there an assessment of other suitable sites. As part of the supporting evidence base, we would expect to see a full site assessment alongside the other preferred or alternative options to ensure that the allocation meets the Soundness Tests of the NPPF; that the allocation and policy is justified. In addition, the projected pupil places has been presented within this document, however there is no evidence presented which details the specific calculations and methodology employed to reach these assumptions in terms of housing and population growth.

Secondly, the Trust questions the suitability of the site for redevelopment as a secondary school and the size of school required. The site is located in a mixed use area, which has a wide range of uses including, retail, leisure and commercial which the current garden centre use complements.

The Department for Education Guidance identifies for a secondary school (11-16 years) the minimum guidance size for a school building as 1050sqm + 6.3sqm per pupil. Based on average school class capacity of 30 pupils and for an average 6 form entry school this equates to approximately 900 pupils. A school of this size would require a building of approximately 7,000sqm, which at one storey would cover the vast majority of the site. Even if a 2-storey school was proposed, there would still be a requirement for external space such as playing fields and associated car parking and servicing. Considering that the development of the site will also need to accommodate the listed structure, and ensure that any proposals preserve and enhance the setting of the listed structure, it is too small to accommodate such development unless the school’s design and facilities are to be compromised.

The site presently, has a PTAL rating of 1b which equates to a low accessibility rating. As outlined in the Sustainability Appraisal transportation
Improvements are required prior to the site being redeveloped for educational purposes to make the site suitable and accessible. The delivery of these improvements falls to third parties and cannot at this time be guaranteed to ensure the delivery of the school. Moreover, the required improvements to public transport access cannot be funded by a school in the same way as a major development scheme might be expected to do so.

The NPPF places a presumption in favour of sustainable development, but when you look at the location of the site in the context of its catchment area, it is not in a location where you could expect that alternative forms of transport could overcome the lack of public transport. Links to the adjoining residential areas are limited and where walking to the site was an option, the overall proportion of students likely to be within a reasonable walking distance would be small. There can therefore be an expectation that mechanical transport will dominate.

It is therefore considered that the lack of accessibility undermines the deliverability of the site for education purposes.

2629/01/004/DM47.2/S Jamie McFarland
Support The Education Funding Agency has approved 3 new Free Schools currently looking for sites within Croydon. This site has been identified as being potentially suitable options for the permanent location of the Ark Croydon Secondary Academy. We would welcome the opportunity to work with Croydon Council and the respective trust to make these sites available options for these schools.

2634/01/003/DM47.2/S Charlie Fagan
Support We are confident that a successful secondary school could be developed on this site.
- The site is situated in an area which has been identified as requiring additional secondary pupil places in the coming years
- The site is a suitable size to accommodate the development of a secondary school
- The site is located in an area which meets the demographic criteria for Ark schools
- The site is located near Ark Oval Primary Academy and would therefore create an opportunity to establish a link between the two schools.

</tr>
</tbody>
</table>
Croydon College is the freehold owner of the site, Title number: SGL 618428. The site is cleared and available for development immediately. Access to the site will hopefully be improved as part, or as a consequence, of the proposed Fiveways junction improvements recently approved by the Council. We believe the site is well suited, given its location, access and surrounding uses, for an extension of the housing development previously granted. We believe that issues related to access and the current designation could be dealt with to free up a very suitable housing site.

The College has previously considered the development of a feeder school, either on this site, near its main campus in Fair Field, or elsewhere in the borough, but we are able to confirm that the Heath Clark site is not required by the College for school use and will not be in the future. The College therefore believes that sustainable housing provision should be delivered on this site.

Croydon College owns the site freehold and there are no restrictions on its development. It is a cleared, open site. The northern part of the site was developed by Bellway Homes in 1999 and existing access roads can potentially be opened up to service the remainder of the site. The nursery could be relocated within a high density residential led scheme with some community and commercial elements. Access and local open space designations need to be addressed, but the Sustainability Appraisal recommends any loss of open space is mitigated by much needed development.

The site is sustainably located, in an urban location with excellent transport links. The proposed improvements to the Fiveways junction will add to the PTAL rating of the site. The site is not restricted by surrounding uses or topography, and a fully sustainable scheme could be developed without risk of high cost. We believe the site is highly suited to sustainable building technologies and amenity spaces.

Croydon College is very supportive of the concept of housing development on this site and has made previous representations to this effect, including the call for sites refresh in April 2014. The College can confirm it does not need the site for educational purposes, and in discussions with the Council over recent years, believes that it may be a more sustainable location for housing.

The College believes that sustainable housing is welcome. However, the site will remain allocated for mixed use as a secondary school is required to meet the identified need in the borough.
housing development in the Borough is extremely important and welcomes the number and quality of sites that are identified by the Council in these documents.

2634/01/006/DM47.2/C Charlie Fagan ARK

Comment DM47.2 16

This site would not be suitable for Ark due to being a mixed development.

No change

Comment is noted.

2657/01/008/DM47.2/O Rebecca Pullinger CPRE London

Object Soundness - Justified DM47.2 16

A large number of the sites allocated for development through Detailed Policies and Proposals may result in the loss of green space. This appears to run counter to the Borough's Strategic Objective 10 (The need to utilise brownfield areas first) and could be replaced with a goal to promote good quality high density developments that protect Croydon's green spaces. Even undesignated green spaces provide important ecosystem services to Croydon's growing population. We are concerned about the potential loss of designated Local Open Land.

The Council should provide additional text in these policies to encourage developers to propose good quality, high density developments which promote the protection and enhancement of green space.

No change

The site did not meet the criteria for Local Green Space and is considered appropriate for a mixed use development.

2818/01/002/DM47.2/S Keisha John Support I am currently applying through Croydon for a free school, the proposed name for the school is MADE academy. MADE academy will like to express interest in the site mentioned in section 1. We aim to provide a creative and robust curriculum.

My question is; Will the borough need another school before the dates suggested on the sites? Will there be negotiations on the intake size, such as five form entry instead of an eight form entry for the suggested school?

MADE academy will like to express interest in the site. My question is; Will the borough need another school before the dates suggested on the sites? Will there be negotiations on the intake size, such as five form entry instead of an eight form entry for the suggested school?

No change

The proposed dates align with the borough's need for additional secondary school places. The Council would seek to achieve a minimum of 6 forms of entry in order to meet this need.
Mr Richard Jeffries

Object DM47.2

Other Sites that the Council should reconsider instead of both Coombe Lodge Nurseries and Coombe Farm are the following:

- 16 - Heath Clark playing fields, Stafford Road, Waddon
- 120 - Timebridge Community Centre, Field Way, New Addington
- 518 - Land adjacent to 103 Gander Green Lane, The Admirals Walk, Old Coulsdon
- 522 - Wandle Road surface car park, Wandle Road, Croydon
- 536 - Land of former Croydon Airport runway, south of Imperial Way, Waddon
- 552 - Land adjacent to Ashburton playing fields at rear of 2-88 Caledon Road, Addiscombe
- 553 - By Pavilion Playing Fields, Purley Way, Waddon
- 632 - Land south of Threehalfpenny Woods, Kent Gate Way, Waddon
- 636 - Land west of Timebridge Community Centre, Lodge Lane, Elmerslie, Addington
- 767 - Cane Hill-south part, Hollymead Road / Portsdown Road, Coulsdon

Use as a Gypsy and Traveller site No change

This site did not meet the criteria to be used as a Gypsy and Traveller site. It is also required to meet the need for school places in the borough.

Linda Stevens

Object DM47.2

Soundness - Justified

16

I wish to voice my concerns regarding the following:

I totally object to any reduction of green space in the borough of Croydon in favour of development.

No change

There are very few sites available in the borough large enough to accommodate a secondary school such that some sites currently designated open space have been proposed for new schools.

Councillor Luke Clancy

Object DM47.2

Soundness - Justified

25

Site 25, Morrisons Supermarket, 500 Purley Way. The creation of up to 1028 homes on a mixed use site would be extremely challenging in an area where the road network already struggles with parking and vehicular movements. The loss of employment land would need to be justified.

No change

The site has been allocated for a mixed development of residential, retail commercial and community uses. The Council acknowledges that a balance needs to be struck between this need and the impact that additional sites has on the environment and nearby residents.

Councillor Dudley Mead

The loss of employment land would need to be justified. The site has been allocated for a mixed development of residential, retail commercial and community uses. The Council acknowledges that a balance needs to be struck between this need and the impact that additional site has on the environment and nearby residents.
Network Rail notes that there are a number of sites adjacent to the Railway and attach a standard response which sets out the issues that need to be considered. In particular with large new developments there is a concern about the risk of trespass and all new developments should have proper and suitable boundary fencing. The risk of greater flooding and drainage that new developments could potentially have on the Network Rail infrastructure and we would not want any increase of flooding or the increase in run off onto Railway Infrastructure.

The developer must ensure that their proposal, both during construction and after completion of works on site, does not:
- encroach onto Network Rail land
- affect the safety, operation or integrity of the company’s railway and its infrastructure
- undermine its support zone
- damage the company’s infrastructure
- place additional load on cuttings
- adversely affect any railway land or structure
- over-sail or encroach upon the air-space of any Network Rail land
- cause to obstruct or interfere with any works or proposed works or Network Rail development both now and in the future

The developer should comply with the following comments and requirements for the safe operation of the railway and the protection of Network Rail’s adjoining land.

Future maintenance
The development must ensure any future maintenance can be conducted solely on the applicant’s land. The applicant must ensure that any construction and any subsequent maintenance can be carried out to any proposed buildings or structures without adversely affecting the safety of, or encroaching upon Network Rail’s adjacent land and air-space, and therefore all works or proposed works over Network Rail’s boundary should be situated at least 2 metres (3m for overhead lines and third rail) from Network Rail’s boundary. The reason for the 2m (3m for overhead lines and third rail) stand off requirement is to allow for construction and future maintenance of a building and without requirement for access to the operational railway environment which may not necessarily be granted or if granted subject to railway site safety requirements and special provisions with all associated railway costs charged to the applicant. Any...
less than 2m (3m for overhead lines and third rail) and there is a strong possibility that the applicant (and any future resident) will need to utilise Network Rail land and air-space to facilitate works. The applicant/resident would need to receive approval for such works from the Network Rail Asset Protection Engineer. The applicant/resident would need to submit the request at least 20 weeks before any works were due to commence on site and they would be liable for all costs (e.g. all possession costs, all site safety costs, all asset protection presence costs). However, Network Rail is not required to grant permission for any third party access to its land. No structure/building should be built hard-against Network Rail’s boundary as in this case there is an even higher probability of access to Network Rail land being required to undertake any construction/maintenance works. Equally any structure/building erected hard against the boundary with Network Rail will impact adversely upon our maintenance teams’ ability to maintain our boundary fencing and boundary treatments.

Drainage
Storm/surface water must not be discharged onto Network Rail’s property or into Network Rail’s culverts or drains except by agreement with Network Rail. Suitable drainage or other works must be provided and maintained by the Developer to prevent surface water flows or run-off onto Network Rail’s property. Proper provision must be made to accept and continue drainage discharging from Network Rail’s property; full details to be submitted for approval to the Network Rail Asset Protection Engineer. Suitable foul drainage must be provided separate from Network Rail’s existing drainage. Soakaways, as a means of storm/surface water disposal must not be constructed near within 10 – 20 metres of Network Rail’s boundary or at any point which could adversely affect the stability of Network Rail’s property. After the completion and occupation of the development, any new or exacerbated problems attributable to the new development shall be investigated and remedied at the applicants’ expense.

Plant & Materials
All operations, including the use of cranes or other mechanical plant working adjacent to Network Rail’s property, must at all times be carried out in a “fail safe” manner such that in the event of mishandling, collapse or failure, no plant or materials are
capable of falling within 3.0m of the boundary with Network Rail.

Scaffolding
Any scaffold which is to be constructed within 10 metres of the railway boundary fence must be erected in such a manner that at no time will any poles over-sail the railway and protective netting around such scaffold must be installed. The applicant/applicant’s contractor must consider if they can undertake the works and associated scaffold/access for working at height within the footprint of their property boundary.

Piling
Where vibro-compaction/displacement piling plant is to be used in development, details of the use of such machinery and a method statement should be submitted for the approval of the Network Rail’s Asset Protection Engineer prior to the commencement of works and the works shall only be carried out in accordance with the approved method statement.

Fencing
In view of the nature of the development, it is essential that the developer provide (at their own expense) and thereafter maintain a substantial, trespass proof fence along the development side of the existing boundary fence, to a minimum height of 1.8 metres. The 1.8m fencing should be adjacent to the railway boundary and the developer/applicant should make provision for its future maintenance and renewal without encroachment upon Network Rail land. Network Rail’s existing fencing/wall must not be removed or damaged and at no point either during construction or after works are completed on site should the foundations of the fencing or wall or any embankment therein, be damaged, undermined or compromised in any way. Any vegetation on Network Rail land and within Network Rail’s boundary must also not be disturbed. Any fencing installed by the applicant must not prevent Network Rail from maintaining its own fencing/boundary treatment.

Lighting
Any lighting associated with the development (including vehicle lights) must not interfere with the sighting of signalling apparatus and/or train drivers vision on approaching trains. The location and colour of lights must not give rise to the potential for confusion with the signalling
arrangements on the railway. The developers should obtain Network Rail’s Asset Protection Engineer’s approval of their detailed proposals regarding lighting.

Noise and Vibration
The potential for any noise/vibration impacts caused by the proximity between the proposed development and any existing railway must be assessed in the context of the National Planning Policy Framework which hold relevant national guidance information. The current level of usage may be subject to change at any time without notification including increased frequency of trains, night time train running and heavy freight trains.

Vehicle Incursion
Where a proposal calls for hard standing area/parking of vehicles area near the boundary with the operational railway, Network Rail would recommend the installation of a highways approved vehicle incursion barrier or high kerbs to prevent vehicles accidentally driving or rolling onto the railway or damaging lineside fencing.

Network Rail strongly recommends the developer contacts AssetProtectionsSussex@networkrail.co.uk prior to any works commencing on site, and also to agree an Asset Protection Agreement with us to enable approval of detailed works. More information can also be obtained from our website at www.networkrail.co.uk/aspx/1538.asp x.

My specific representations are four fold:

i) Notwithstanding the Article 4 Direction - it is the relationship with the Local Plan policies and proposals that is important - the Plan should be the - single source of truth - and currently there appears to be inconsistency, lack of vision, possibly leading to confusion and missed opportunities for regeneration and good forwards planning.

ii) There appears to be no reflection of the potential for the currently derelict and unsightly portion of the Waldron's Conservation Area - specifically No 34 Waldrons - a possible key small site and / or one which could supporting delivery of starter homes (see attached below) identified in adopted Supplementary Planning Document [adopted by Full Council 22 April 2013].

iii) Finally to bring to attention to the Council that under its general powers an LPA can serve a Section 215 notice (Town & Country Planning Act 1990) on the owner or occupier where the building or land is clearly adversely affecting the amenity of the area and can require them (the owner or occupier) to clean up the building or site.

iv) I am concerned that the permitted development rights for properties in the vicinity of this site have had an article 4 direction applied (removing permitted development rights) yet there appears to be no regard to the proper planning of the area by specifically omitting to include the remaining portion of the conservation area site of the a key and visually prominent part of the Conservation Area which currently is adversely affecting the amenity of the area.

A34 THE WALDRONS

9.2.3 Though there was evidence of neglect of the locally listed building from 2008 onwards, it suffered significant damage during a fire on New Year’s Eve 2010. Damage to the structure is ongoing due to the lack of protection against the elements. If, at all possible, the building should be retained, or at least part retained, in recognition of the significant contribution it makes to the character of the conservation area as an important point of entry from the Croydon Flyover. Part retention would involve calculated decisions about what elements of the building are salvageable, which initially appear to be the south end of the site, including the ‘turreted’ tower, and could be potentially retained and part reconstructed alongside some new
build elements to allow for the site to be brought back into active use. 9.2.4 If it is justified to a satisfactory degree that the site must be re-developed then all proposals must be carefully designed to preserve and enhance the special character of the conservation area, including height, scale, mass, architectural detailing and materials.

Soundness - Justified
Site 301, Sea Cadet Training Centre, 34 The Waldrons. Any new development should complement and enhance the adjoining Waldrons conservation area.

Change
A need has been identified for additional housing sites in Croydon and the site allocated meets the criteria. The loss of the community use on this site has recently been justified by evidence provided as part of the recent planning approval (reference 16/00879/P) which has given planning approval for the erection of a part four/five/six storey building to provide 19 one bedroom, 17 two bedroom and 6 studio flats.

**Object**

The allocation of the site for development is supported, but the requirement for community use (in additional to residential use) is opposed. In this regard, UK Land Assets (UKLA) own the land and purchased it after the marketing agents had undertaken soft marketing of the site to community organisations. This marketing exercise failed to attract a suitable community organisation and accordingly, UKLA purchased the site in good faith on the assumption that the land could be redeveloped for a mixture of open market and affordable housing. The site is considered to be ideally suited to open market and affordable housing and therefore the preferred approach would be most appropriate for Croydon if the site were allocated for open market and affordable residential development only. Redevelopment of the site is deliverable, but if the site must be delivered for both residential and community use, the amount of affordable housing will not be maximised. If community use is required, the level of affordable housing that can be delivered will significantly decrease, resulting in a less sustainable development.

Object

Sainsbury's Supermarkets Ltd

Object

Object to proposed allocation. It should be amended to supports retention of supermarket or mixed use retaining the store

No change

The allocation was incorrectly named with the wrong map and did not in fact include Sainsbury's but rather an adjacent site.

Object

Henderson Global Investors

Object

Object to proposed allocation. It should be amended to supports retention of supermarket or mixed use retaining the store

No change

The site has been allocated for a mixed development of residential, retail commercial and community/health uses. The Council acknowledges that a balance needs to be struck between this need and the impact that additional site has on the environment and nearby residents.

The site is part of a well-trading and established retail area. Whilst the opportunity for residential would help the council meet housing strategic objectives we feel that this is less appropriate for the site than an approach offering an improvement and enhancement of the retail offer. Furthermore, commercial space located in Croydon centre (i.e. not on the 294-330 Purley Way site) would be more appropriate in helping the Council meet their Strategic Objectives.

We feel that a mix of retail, commercial and residential would not be deliverable since commercial tenants are seeking accommodation in Croydon centre rather than out of town and the values in residential accommodation would not be attractive enough in a strong-trading and established retail area.

We consider that the site and surrounding areas would benefit more from an improved and enhanced retail offer since the area is already established as such.
