Town Centre Garden: There is need for a small Town Centre garden where people can sit and talk or eat their lunch during the day. This could be behind the library or near the Cane Hill site. It should be constructed in an open style that is attractive, but in a manner so as not to attract undesirable characters.

If the Calat Centre is closed the southern car park should be separated from the site and continue to be used as a public car park. The site could be used for other community uses, retail, commercial or housing. The site should provide a public car park and should also provide community uses, retail, commercial or housing.

A new entrance to the Calat Centre is not a matter for the Local Plan.
Public Parks: Coulsdon has three excellent parks at Coulsdon Memorial Ground Marlpi Lane, Grange Park Old Coulsdon and Rickman Hill Park. Between them they offer a good range of equipment for all ages except the 9-16 year olds. A skate park should be provided at one of the parks for the uses of 9-16 year olds and the best place for this would be Rickman Hill Park. The facilities need to be kept up to date. At Grange Park the children’s play area needs to be refreshed and brought up to date.

The safer Neighbourhoods Police Teams should be located in the Town Centre so as to integrate better into the local community. A site should be identified for this use.

The CALAT centre in Malcolm Road does not feature in the documents as a site of potential reuse, though its likely closure has been announced by the Council. This site, formerly the original Smitham Primary School, is of heritage significance and the buildings should be adapted to other educational or creative innovation use. The adjacent flint faced building, the original infants school built on land donated by Edmund Byron and with a Bourne Society plaque to that effect (now a day nursery) should be preserved for its present use.

I am very concerned that if the Coulsdon Calat Centre on the former Smitham School site were to close, the prime town centre site should be used for housing and retail. It is too good a site not to use to increase the density of population and bring new employment opportunities to the south of the borough. Does its current categorisation in the local plan permit such a change of use? I believe such a change as I suggest must be enabled.
Table 11.8 sets out the proposals for uses of land at specific sites in Coulsdon which are Ref 60, Ref 372, Ref 764, Ref 945 and Ref A329. It would have been helpful to have these proposals identified on a map so that one could see exactly which areas are being proposed.

The site maps should be published.

Object: A Vibrant Town Centre: For a Town Centre to be successful in the 21st century it needs to be a place that is attractive for people to come and just be there, whether they are working, on business, shopping, leisure activities or just meeting other people. To achieve this people need to believe that the centre is safe, secure, friendly, an attractive place to work, visit and live in for the whole age range of the population. The Town Centre has been in steady decline and a state of flux since the closure of Cane Hill Hospital 20 years ago and does not offer the local population what they need from a modern local Town Centre. This started to improve with the coming of Aldi to the town centre and the permission for Cane Hill and a number of residential developments in and near the town centre. As a result a number of small and new businesses started to move into and open up in Coulsdon. Unfortunately this has come to an abrupt halt since the closure of Lion Green car park in July 2015, with the loss of over 150 long term and 40 short term parking places. This has had a major effect on trade in the town with trade falling by anything up to 50% and a number of small outlets closing along with other businesses looking to relocate outside the town. 

Change: 

Lion Green: It is clear from the experience of the closure of Lion Green car park that a district centre like Coulsdon cannot compete with other local district centres without a public car park. The loss of Lion Green is severely undermining the town centre.

Object: Objects to the uses identified for the site - this site should be specified for retail and public car parking. 

Change: The site will be allocated for "mixed use development comprising leisure, community facilities and retention of car parking spaces. Retail so long as the current planning permission is extant". 

Object: Soundness - Effective 

Change: The site will be allocated for "mixed use development comprising leisure, community facilities and retention of car parking spaces. Retail so long as the current planning permission is extant".
I live in Coulsdon and wish to strongly object about the constant developments taking place without adequate parking being provided. Coulsdon where I have lived for 60 yrs is a shambles parking wise and is rapidly becoming a total dump. As a result many people including myself are unable to use Coulsdon as much as we want to as there simply is nowhere to park as all the street parking is always occupied and Aldi is only for 90 mins which is far too little and that park is already always full anyway with queues into the road a lot of the time blocking any through traffic. Coulsdon is basically full even before we have the absurd Cane Hill development which noone wants. After that opens parking will be even worse as people will still want to use their cars to go to the bigger shops in Coulsdon. The development of the Lion Green Road car park area is ok in theory but without at least as many places to park as there is now it will make things even worse. I can never eat out in Coulsdon now as even in the evenings there is nowhere to park now so I go elsewhere. Do you really want the legacy of this labour council to be that you effectively destroyed the small businesses in Coulsdon and drove the shoppers to other areas because thats what it will be unless we have more parking and now. The cost of parking in Coulsdon and Croydon is a joke. Are you aware that its possible to park in Lewes in Sussex for 1.50 for 8 hrs and surprise surprise the shops are thriving and very few empty ones unlike Coulsdon. What is it about providing car parks that is so difficult to solve? Without them Coulsdon will die as a shopping center but maybe that's what you want so all the shops can be turned into dwellings.

Reigate and Banstead Borough Co

With particular reference to the above items Ref 60, 372 and 764 above, it has already been noted that there is traffic congestion in the area. The above proposals are most likely to make this considerably worse, but I have not been able to find any reference to how this will be resolved. The Plan should make clear how traffic congestion as a result of these sites will be resolved.

Planning permission for this site has already been granted which would have included an assessment of the transport impacts. If another application is submitted for this site then it will be assessed against the relevant policies in the Local Plan.

<td>DM35 372</td>
<td>The Lion Green Road car park has already closed, causing considerable inconvenience to long term users of Coulsdon Town Centre and commuters. It seems that Croydon has taken a parochial view by closing this car park with inadequate alternatives. It may be desirable to encourage cycling and public transport. But the reality is that, in this area, cars are the predominant form of transport. Closure of the car park has made the use of Coulsdon South station more difficult and diverted commuters to other stations such as Chipstead and Purley, which also have inadequate facilities.</td>

Object DM35

Mrs Sally Justice 372

Thanks to Tesco we can park there for up to 3 hours, but of course seem people can’t walk very far as parking nearer to the shops is impossible, we don’t need more residential properties in Purley which would bring more car park problems plus many other overloads of local resources.

A new superstore Coulson Waitrose is frankly absurd, they already have a nice store where you can walk around easily and not far as with superstores, again think of the elderly and disabled. One Waitrose, Aldi and Tesco Metro all compliment each other. The huge pavement outside Aldi is causing huge traffic jams now so I would hope you sort this out before any further building works take place, just wait until Cane Hill is sorted this will cause even more problems for you, surely best to sort this all out now? A left hand turn into Aldi would help once the pavement is reduced which I am sure many people have already suggested to you.

I go running in Lloyd Park and Coombe Woods where many families go after school and at the weekend. It is a lovely quiet friendly area, plenty don’t let the gypsies in, they already have made huge problems for residents in those areas before.

Finally I do like to go to Sanderstead where you can find smaller shops and easy parking. This would all be lost if another superstore was built, there is Aldi is Selsdon and Coulson surely this is enough?

Object DM35

Mr Joe Toner 372

I would like to voice my object to the following plan DM35.

Object DM35

Mr & Mrs Belsey 372

The new Waitrose site in Coulson MUST have ample parking, due to the terrible problems that are there at the moment.

Comment DM35

Mr Charles King 60

At present, footpath 744 across the site is open to the public, and as work is completed on the site previous and new footpaths should be opened to the public to enable them to enjoy Green Belt and wild life on the site. New footpaths should be opened up within the development to allow the public to enjoy the Green Belt.

Object DM35

East Coulsdon Residents’ Association

The provision of public footpaths on the site is not a matter for the Local Plan.
0203/01/035/DM35/C Mr Charles King
East Coulsdon Residents' Associat

Comment

DM35 60

We are of the view that the best
solution to this will be to provide
Cane Hill with an exit direct onto the
A23 Coulsdon bypass. This clearly
would reduce future traffic congestion
in the town centre and on local roads
as the transport study into Cane Hill
clearly showed that 60% of traffic
from Cane Hill will want access to the
A23, north and southbound and this
would take this traffic out of the town
centre and local roads. The Council
should work with Barratt Homes and
TfL to provide a direct access from
Cane Hill to the A23 Coulsdon
bypass.

The Council should work with the
developer and TfL to provide a direct
access from Cane Hill to the A23
Coulsdon bypass.

No change

The provision of a direct
access from Cane Hill is not a
matter for the Local Plan.

0203/01/022/DM35/O Mr Charles King
East Coulsdon Residents' Associat

Object

DM35 60

We welcome the development on
Cane Hill and the way it will be linked
into the town. However, we have
concerns over the volume of larger
houses compared to those of smaller
two and one bedroom units and this
should be re-examined as part of
detailed planning for phases 3 and 4.
We are concerned that without an
adequate mix of housing that the
existing population will not be able to
afford to live here and will have to
move away.

The development should provide a greater
number of one and two bedroom homes.

No change

The mix of homes by size
would be assessed against
SP2.5 and DM1 due to the
need for larger homes in the
borough.

0203/01/007/DM35/C Mr Charles King
East Coulsdon Residents' Associat

Comment

DM35 60

We are of the view a temporary car
park should be created on Cane Hill
until the Lion Green Road site has
been completed.

Cane Hill should include a temporary car
park.

No change

The provision of a temporary
car park on the site is not a
matter for the Local Plan.

0203/03/032/DM35/S Mr Charles King
East Coulsdon Residents' Associat

Support

DM35 60

Access: We still strongly support a
direct exit from Cane Hill on to the
Coulsdon Bypass to allow access to
the site and any school without the
need to drive through the town
centre. The Cane Hill transport report
clearly shows that 60% of the traffic
from Cane Hill would wish to access
the A23 north and southbound and
this would be best undertaken by a
direct access on to the bypass in
order not to add traffic to the already
crowded town centre and local roads.

No change

The provision of a direct
access from Cane Hill is not a
matter for the Local Plan.

| We recognise this site has nature conservation interests and still meets Green Belt criteria, despite permission granted to build housing. Potential further encroachment on adjacent greenspace should be strongly resisted. | | | | |
| No change | | The development of this site is limited to what has been granted permission. |
| Rebecca Pullinger  
CPRE London | Object | Soundness - Effective | DM35 | 60 |
| The more specific site allocations represent a large reduction in the amount of designated and non-designated open space. While we acknowledge the need to build new homes and associated infrastructure such as schools, Croydon’s growing population also needs quality open spaces for all the human amenity and ecosystem services which they provide. The application for the development of 600 homes was initially approved in 2013 despite the site continuing to meet Green Belt criteria. As Barratt Homes and David Wilson Homes look to consult on future phases of the development the Council should ensure that the development represents an example of high quality, high density housing can work with good quality open spaces. Provisions must also be made to ensure that any associated infrastructure does not further encroach on Croydon’s Open spaces. | | | | |
| No change | | As a previously developed site in the Green Belt development will continue to be limited to the area which currently benefits from planning permission. |
Object Soundness - Effective

I note Option 1b of Policy DM27 and agree that developments should not have a detrimental impact on highway safety for pedestrians, cyclists, public transport users and private vehicles. I note also Option 1c of Policy DM27 and agree that developments should not have a severe impact on the transport networks local to the site. The proposed developments in Coulsdon (Ref 60, 372 and 764) will have a detrimental impact on highway safety and a severe impact on the local transport network and therefore do not comply with proposed Policy DM27. I note (page 238) that "there are a number of issues that need to be overcome before the site can be developed." I assume that one of these is the issue of access and, in this regard, I would point out that the elected representatives for Chipstead and Coulsdon have all called for direct access to be provided between the development and the A23.

No change

Policy DM35: Coulsdon Option 1 is misleading and should be amended. The Option fails to refer to planning permission 13-02527-P which is a live planning permission, which has been implemented and is under construction. It is incorrect to state that "there are a number of issues that need to be overcome before the site can be developed". This text should be removed. Planning permission 13-02527-P demonstrates exceptional circumstances why development in the Green Belt is acceptable and these circumstances should be referenced within the allocation. The planning permission does not include the need for a "new community, health and education facilities". Indeed as part of the planning application local needs were assessed and these facilities were not required. It is unclear why they are now proposed.

Change

Transport for London have advised that as a whole the road network of the borough can cope with the planned levels of development subject to the improvements they have already planned. Any site specific mitigation will have to be funded by developers as part of the development of their site.

</table>
The irony of this email is that the previous Conservative Council voted to build far too many houses on 207 acres of green belt land on the Cane Hill site; there was no need for it as there are plenty of brownfield sites across Croydon that could have been used. Something that you mention in your email, but of course not in connection with the Cane Hill development which you have supported. And now you complain politically against Labour for whatever they are doing, albeit that I gather it has been suggested that there were broken manifesto promises (doesn’t everyone?). For the record, I consider the current council at fault also in that they have not reversed the decision on Cane Hill when they had the chance; please note that this is not a political comment as I am not someone who supports anyone politically.

With due respect, I feel you need to act on stopping the Cane Hill development as it stands. In addition, pressure on the road issue, and to insist with them that they work with the local community group (which I am part of) who want to do something with the chapel. We had meetings with Barratt many months ago, but they appear to have done what we expected, and looked towards a more financially rewarding return for them, rather than enable a community group to be part of the development.

It just shows what we all knew, which was that they never had any intention of working with the community, as is always claimed to try and instil the feel good factor to the development. I recall your predecessor warning off a colleague of mine by telling him to “stay out because big bucks were involved” – which says everything I think! This development has all been pushed on us as a community in a way that shows that money was always going to override what was right, and that anyone benefitting was going to show little regard for what it is going to do to the town of Coulsdon.

I would like to think that you can right at least some of the wrongs done to our town re Cane Hill and prove that you really are serious about what you write in this email.

No change

This site is a key site in Croydon that is a previously developed site in the Green Belt that helps to meet the need for new homes in Croydon, a need that cannot be fully met by previously developed land outside of Green Belt. It is under construction but not all the site has full planning consent (only the parts that are under construction) so it will remain allocated in the Local Plan.
Object New School: The Cane Hill site plans propose a new senior school in Portnalls Road Coulsdon. We believe this would be the wrong location as the Cane Hill development already has permission to build houses on this part of the site. However, we do believe that there is room at the southern end of the Cane Hill site for a smaller two form entry primary school with entry from the Cane Hill site rather than Portnalls Road. This would provide relief for the existing local schools and reduce the need for extra class rooms. This would have a number of advantages. Not only would it provide a local school for Cane Hill and other local children. It would have less effect on traffic in Portnalls Road. The Cane Hill development will have public transport and this would provide reverse peak flow from Coulsdon Town centre and locations north of the town. It would be in a much more desirable location for the children from a health and environmental situation than the other proposed location in the plan. Access: A direct exit from Cane Hill on to the A23 Coulsdon Bypass would allow access to the site and school without the need to drive through the town centre.

No change The site has been identified to meet the need for secondary school places in the borough.

Object The Cane Hill site plans propose a new senior school in Portnalls Road Coulsdon. We believe this would be the wrong location as the Cane Hill development already has permission to build houses on this part of the site. However, we do believe that there is room at the southern end of the Cane Hill site for a smaller two form entry primary school with entry from the Cane Hill site rather than Portnalls Road. Access: A direct exit from Cane Hill on to the A23 Coulsdon Bypass would allow access to the site and school without the need to drive through the town centre.

This site is not suitable for a secondary school. A new 2FE primary school should be provided at the southern end of Cane Hill instead. No change The site has been identified to meet the need for secondary school places in the borough.
Object Soundness - Justified
Policy SP7 does not reflect the fact that part of the site here is proposed for de-designation from the Green Belt: none of the sites in SP7 are linked to Portnalls Road. Given the adjacent Cane Hill housing development we urge the Council to protect this open space and enhance it for the use by new residents, through designating it as MOL.

No change
There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to existing bus routes and therefore is capable of serving a wide area of the borough, in particular the south. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

Object DM35
I refer to the proposed secondary school to be built on green belt land adjacent to Portnalls road Coulsdon. Firstly there are already two schools situated at the bottom of Portnalls road one of which is about to be increased in size. Already we have appalling traffic problems twice a day about to be exacerbated by the secondary exit from the Cane Hill development on to Portnalls road. Secondly the construction problems associated with a school of this size with no obvious access to playing fields on a hill side would be immense. Thirdly surely there is no sense in a Grammar school which we imagine is intended to benefit the whole borough on the Surrey border Are you intending to bus children from Norbury and Thornton heath to Coulsdon every day. Fourthly it would be a shame to take away the little bit of green space surrounding the existing two schools which at various public enquires we were assured would not be built on.

No change
There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to existing bus routes and therefore is capable of serving a wide area of the borough, in particular the south. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
The WCGS Academy Trust would like to register an interest in the following site in response to Croydon’s Local Plan. (Site number 764)

The preferred option stated in the Local Plan is for a ‘secondary school’. We feel that this is the most appropriate use to enable Croydon to meet its strategic objectives. We would like to register an interest in the ‘preferred option’ which is for a secondary school. Our reasons for this are that Croydon seeks to provide a diverse educational offer for families across the borough. There is a basic need for more school places. By allowing a school to be built on this site Croydon will be able to meet local demand and offer the correct number of school places. In contrast to the Free School that WCGS Academy Trust hopes to develop on site number 662 the Trust would like to express an interest in developing an Annex or Satellite School for its existing Selective School which is based in Sutton. This is permitted under the right for every school to expand.

With the support of the Educational Funding Agency (EFA), the Department for Education (DfE) and Croydon Council a new ‘selective’ annex for Wallington County Grammar School can be delivered by 2020. We believe the phasing of development should be to open the school in 2020 rather than the phased development of post 2026 as suggested in the Local Plan. Our strategic objectives include bringing an aspirational educational offer to Croydon. This will provide families with a diverse educational offer which includes selective education. We aim to provide opportunities for all young people to reach their personal best.

The site does not meet Ark’s demographic criteria.

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to existing bus routes and therefore is capable of serving a wide area of the borough, in particular the south. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
The more specific site allocations represent a large reduction in the amount of designated and non-designated open space. While we acknowledge the need to build new homes and associated infrastructure such as schools, Croydon's growing population also needs quality open spaces for all the human amenity and ecosystem services which they provide. Note: Policy SP7 does not reflect the fact that part of the site here is proposed for de-designation from the Green Belt: none of the sites in SP7 are linked to Portnalls Road. The Council needs to make the proposed de-designation clear to ensure that the consultation is transparent. Given the adjacent Cane Hill housing development we would urge the Council to protect this open space and enhance it for the use by new residents, through designating it as MOL.

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to existing bus routes and therefore is capable of serving a wide area of the borough, in particular the south. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

<td>2016/01/004/DM35/O</td>
<td>Peter Jarvis - Chipstead Residents' Association</td>
<td>I note Option 1b of Policy DM27 and agree that developments should not have a detrimental impact on highway safety for pedestrians, cyclists, public transport users and private vehicles. I note also Option 1c of Policy DM27 and agree that developments should not have a severe impact on the transport networks local to the site. The proposed developments in Coulsdon (Ref 60, 372 and 764) will have a detrimental impact on highway safety and a severe impact on the local transport network and therefore do not comply with proposed Policy DM27. I note (page 242) that the development of a secondary school at this location is envisaged for the period after 2026. It is probable that, by then, traffic on the surrounding road network will have become even more of an issue. In any event, a detailed Transport Assessment, prepared by an independent expert will be required to show that it will not conflict with Policy DM 27 (1b and 1c).</td>

Items Ref 60, 372, and 945 refer to community, health and leisure facilities. I presume that this is to provide options and trust that they will not be duplicated or removed entirely. No such facilities are included with the school proposal, but may I suggest that this be considered with some school facilities doubling for community use. The allocation should include community facilities so that the school facilities can provide a community use.  
No change  
The comment is noted and a planning permission for a new secondary school could be granted with a community use agreement which would provide community access to the school’s facilities, however this would be subject to the details of the individual planning application and the organisation proposing a school development.

2787/01/005/DM35/O  
Cllr John Stephenson

Object  
DM35  
764  
With particular reference to the above items Ref 60, 372 and 764 above, it has already been noted that there is traffic congestion in the area. The above proposals are most likely to make this considerably worse, but I have not been able to find any reference to how this will be resolved. The Plan should make clear how traffic congestion as a result of these sites will be resolved.  
No change  
The site has met the criteria for the de-designation of Green Belt and has been identified to meet the need for school places across the borough. Once the school buildings are built the remainder of the site will remain designated as Green Belt. A transport assessment would be required with any planning application.

Ruth Woodward

I would like to comment on how something as important as building a Secondary School on green farm land is just posted on a lamp post that if by chance the residents happen to see while passing can become aware of this happening. I feel and object strongly to this happening due to two schools already in the road causing build up of traffic and a times very chaotic. The green land which is disappearing very quickly now due to the large amount of houses already being built will be gone forever spoiling the wildlife and trees.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to existing bus routes and therefore is capable of serving a wide area of the borough, in particular the south. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

3416/01/003/DM35/0

C Mortreuil

Croydon is currently running out of space and actually letting more people in through building more flats is putting pressure on our services: we do not have enough schools in the area to cater for all new arrivals. However taking green belt land is a step too far. Similarly a site for travellers with amenities which would prevent them from invading current green spaces is a good idea, but where to put it needs to be sensibly planned and the current proposal in my view is not adequate.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to existing bus routes and therefore is capable of serving a wide area of the borough, in particular the south. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
Ms E Potman

As a mother I know how important it is in this day and age to have open green spaces to go in the city, that are natural, unspoiled, spacious and adventurous. In this fast paced and pressurised computer era, children and families and everyone else, need spaces to go to unwind, to re-energise, to connect to the real, living world and to have clean air to breath. With down grading green belt land and woods, we jeopardise the physical and mental health of our children and fellow citizens. We disrespect the need for green spaces for wild life and trees to bring healthy air and a healthy eco-system. If we do not teach our children and everyone else the importance of green in a city, we set a bad precedent for the next generation. If we let money be our main aim, choices like this will become easier and easier made and we would be left with no green at all. The strongest thing that Croydon has going for itself are the green spaces and woods. The green belt had been established for a reason. It is not meant to be touched! It is meant to be preserved for the good of all!

Please re-consider your plans and leave the green spaces protected in the green belt. Don't let it be eroded in the name of 'progress'.

No change

Ms F Wood

Object  
DM35  
764

Please do not build on greenbelt areas. There is plenty of space in the empty building in central Croydon and in West Croydon. Spend money on empty land and leave the last green parts of Croydon alone. When those green belt areas are gone so will nature. We are not inner city. We have a history of enjoying our green spaces in Croydon.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to existing bus routes and therefore is capable of serving a wide area of the borough, in particular the south. It is also on the edge of the built up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.
I wish to voice my concerns regarding the following: I totally object to any reduction of green space in the borough of Croydon in favour of development.

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Therefore, the search for sites was expanded to encompass sites in Metropolitan Green Belt and Metropolitan Open Land. This site, although in Metropolitan Green Belt, is close to existing bus routes and therefore is capable of serving a wide area of the borough, in particular the south. It is also on the edge of the built-up area and could, therefore, be integrated into existing built form. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

I am emailing you to express my concerns about Croydon Council’s Plans to build houses on some of our precious green spaces, back gardens. I understand that there is a great need for housing in the Croydon area and that the number of homeless people in Croydon is high. However, I need assurance that in providing this need we do not destroy our few remaining green spaces as these are vital to the well-being of our environment and people’s health. When I received the information about these proposals from my MP and local residents' association I had been away from home and so have not studied these plans in depth. However, with the information I have I cannot visualize how these proposals would work without destroying the character of the Shirley area and the destruction of our few remaining green areas. In the hope for me to agree to these proposals I would not only require the assurance that these environmental issues were taken into account but the homes that are planned for were affordable to those who are in need of a home, and that they were of good quality, energy efficient homes. Finally, having lived in Shirley for many years I have seen the increase in traffic which has brought about an increase in air pollution which is detrimental to our health. This is another important factor that has to be borne in mind when increasing the density of the population of the area.
3754/01/002/DM35/O Myra Rand

Object DM35 764

I fully oppose the proposals to build on green land.

3857/02/001/DM35/O Mr Neil Morrison

Object DM35 764

We as a nation have maintained the principles of "the Green Belt" since its first inception in 1935 when it was part of a plan devised by the Greater London Regional Planning Committee eventually becoming law by virtue of the Town and Country Planning Act 1947. Recently the Government formally set out its policies and principles towards green belts in England and Wales in Planning Policy Guidance Note 2: Green Belts, but this planning guidance was superseded by the National Planning Policy Framework (NPPF) in March 2012. Planning Authorities are strongly urged to follow the NPPF's detailed advice when considering whether to permit additional development in the green belt. In the green belt there is a general presumption against inappropriate development, unless very special circumstances can be demonstrated to show that the benefits of the development will outweigh the harm caused to the green belt. The NPPF sets out what would constitute appropriate development in the green belt. I can not find any justifiable cause for allowing building on any "Green Belt" having viewed Gavin Barwell's email on the matter. This series of developments cannot seriously be described as "Appropriate Development" under any circumstances. Please do not build on land which we, as a nation, have preserved for future generations.
Mr Neil Morrison

Please do not build on "Green Belt" There is no necessity for it and our parents had the foresight to develop the legislation please don't soil there good intentions.

No change

There are insufficient sites within the urban area of the borough to meet the need for secondary schools. Once the school buildings are built the remainder of the site will remain designated as Green Belt.

Mr & Mrs Shutter

The de-designation of Green belt land and Metropolitan Open land for building is quite frankly the sort of policy which is incredibly short-sighted: the green belt was put in place to provide open space for local residents, not to provide cheap building land for development

The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.
The plan contemplates residential and healthcare uses. Ground floor retail should be allowed as well as potentially healthcare, and any development should require as many public car parking spaces as there are currently on the site. The parking is especially important given the current parking problems in Coulsdon.

No change

The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.

Following the parking problems caused in Coulsdon by the council’s mismanagement of development and developers, the soon-to-be-old Waitrose site is critical. There must be at least as many public parking spaces available in its new life as are currently available.

No change

The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.

I have strong objections and would like my objection to be considered before any decisions are made: Policy DM35, Table 11.8, Site 945 refers to the old Waitrose site which will become vacant once the new site is completed in Lion green road. The proposed use is to change it to residential and healthcare. The objection that I have to this is that currently it is the only car park available at the north end of Coulsdon and there is already a dire car parking problem in Coulsdon which prevents people from just parking for an hour to visit the local shops. This is in turn holding back the development of the town centre and will only get worse with the large residential development on Cane Hill as all these residents will want to park in the town for a short period. This area or at least half of it must be reserved for short term parking for the town centre.

This area or at least half of it must be reserved for short term parking for the town centre.

No change

The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.

Policy DM35, Table 11.8, Site 945 refers to the current Waitrose on Brighton Road, which will close when the new one on Lion Green road opens. The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.
The objection is noted but as there is no further information substantiating it no amendments the policy can be made as the basis for the objection is not known.

We would make the following objections to the proposed Draft Local Plan which is a poorly disguised attack on the southern part of the Borough.

Policy DM 35, table 11.8, Site 945

No change The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.

We believe that ground floor retail should be allowed with a requirement to maintain as many public car parking spaces as there are currently on the site. The parking is especially important given the current parking problems in Coulsdon.

The plan contemplates residential and healthcare uses, but ground floor retail should be allowed as well as potentially healthcare, and require as many public car parking spaces as there are currently on the site. The parking is especially important given the current parking problems in Coulsdon.

The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.

The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.

</tbody>
</table>
Network Rail notes that there are a number of sites adjacent to the Railway and attach a standard response which sets out the issues that need to be considered. In particular with large new developments there is a concern about the risk of trespass and all new developments should have proper and suitable boundary fencing. The risk of greater flooding and drainage that new developments could potentially have on the Network Rail infrastructure and we would not want any increase of flooding or the increase in run off onto Railway Infrastructure.

The developer must ensure that their proposal, both during construction and after completion of works on site, does not: encroach onto Network Rail land affect the safety, operation or integrity of the company’s railway and its infrastructure undermine its support zone damage the company’s infrastructure place additional load on cuttings adversely affect any railway land or structure over-sail or encroach upon the air-space of any Network Rail land cause to obstruct or interfere with any works or proposed works or Network Rail development both now and in the future

The developer should comply with the following comments and requirements for the safe operation of the railway and the protection of Network Rail’s adjoining land.

Future maintenance
The development must ensure any future maintenance can be conducted solely on the applicant’s land. The applicant must ensure that any construction and any subsequent maintenance can be carried out to any proposed buildings or structures without adversely affecting the safety of, or encroaching upon Network Rail’s adjacent land and air-space, and therefore all any building should be situated at least 2 metres (3m for overhead lines and third rail) from Network Rail’s boundary. The reason for the 2m (3m for overhead lines and third rail) stand off requirement is to allow for construction and future maintenance of a building and without requirement for access to the operational railway environment which may not necessarily be granted or if granted subject to railway site safety requirements and special provisions with all associated railway costs charged to the applicant. Any
less than 2m (3m for overhead lines and third rail) and there is a strong possibility that the applicant (and any future resident) will need to utilise Network Rail land and air-space to facilitate works. The applicant / resident would need to receive approval for such works from the Network Rail Asset Protection Engineer, the applicant / resident would need to submit the request at least 20 weeks before any works were due to commence on site and they would be liable for all costs (e.g. all possession costs, all site safety costs, all asset protection presence costs). However, Network Rail is not required to grant permission for any third party access to its land. No structure/building should be built hard-against Network Rail’s boundary as in this case there is an even higher probability of access to Network Rail land being required to undertake any construction / maintenance works. Equally any structure/building erected hard against the boundary with Network Rail will impact adversely upon our maintenance teams’ ability to maintain our boundary fencing and boundary treatments.

Drainage
Storm/surface water must not be discharged onto Network Rail’s property or into Network Rail’s culverts or drains except by agreement with Network Rail. Suitable drainage or other works must be provided and maintained by the Developer to prevent surface water flows or run-off onto Network Rail’s property. Proper provision must be made to accept and continue drainage discharging from Network Rail’s property; full details to be submitted for approval to the Network Rail Asset Protection Engineer. Suitable foul drainage must be provided separate from Network Rail’s existing drainage. Soakaways, as a means of storm/surface water disposal must not be constructed near/within 10 – 20 metres of Network Rail’s boundary or at any point which could adversely affect the stability of Network Rail’s property. After the completion and occupation of the development, any new or exacerbated problems attributable to the new development shall be investigated and remedied at the applicants’ expense.

Plant & Materials
All operations, including the use of cranes or other mechanical plant working adjacent to Network Rail’s property, must at all times be carried out in a "fail safe" manner such that in the event of mishandling, collapse or failure, no plant or materials are
capable of falling within 3.0m of the boundary with Network Rail.

Scaffolding
Any scaffold which is to be constructed within 10 metres of the railway boundary fence must be erected in such a manner that at no time will any poles over-sail the railway and protective netting around such scaffold must be installed. The applicant/applicant’s contractor must consider if they can undertake the works and associated scaffold/access for working at height within the footprint of their property boundary.

Piling
Where vibro-compaction/displacement piling plant is to be used in development, details of the use of such machinery and a method statement should be submitted for the approval of the Network Rail’s Asset Protection Engineer prior to the commencement of works and the works shall only be carried out in accordance with the approved method statement.

Fencing
In view of the nature of the development, it is essential that the developer provide (at their own expense) and thereafter maintain a substantial, trespass proof fence along the development side of the existing boundary fence, to a minimum height of 1.8 metres. The 1.8m fencing should be adjacent to the railway boundary and the developer/applicant should make provision for its future maintenance and renewal without encroachment upon Network Rail land. Network Rail’s existing fencing / wall must not be removed or damaged and at no point either during construction or after works are completed on site should the foundations of the fencing or wall or any embankment therein, be damaged, undermined or compromised in any way. Any vegetation on Network Rail land and within Network Rail’s boundary must also not be disturbed. Any fencing installed by the applicant must not prevent Network Rail from maintaining its own fencing/boundary treatment.

Lighting
Any lighting associated with the development (including vehicle lights) must not interfere with the sighting of signalling apparatus and/or train drivers vision on approaching trains. The location and colour of lights must not give rise to the potential for confusion with the signalling.
arrangements on the railway. The developers should obtain Network Rail’s Asset Protection Engineer’s approval of their detailed proposals regarding lighting.

Noise and Vibration
The potential for any noise/vibration impacts caused by the proximity between the proposed development and any existing railway must be assessed in the context of the National Planning Policy Framework which holds relevant national guidance information. The current level of usage may be subject to change at any time without notification including increased frequency of trains, night time train running and heavy freight trains.

Vehicle Incursion
Where a proposal calls for hard standing area/parking of vehicles area near the boundary with the operational railway, Network Rail would recommend the installation of a highways approved vehicle incursion barrier or high kerbs to prevent vehicles accidentally driving or rolling onto the railway or damaging lineside fencing.

Network Rail strongly recommends the developer contacts AssetProtectionSussex@networkrail.co.uk prior to any works commencing on site, and also to agree an Asset Protection Agreement with us to enable approval of detailed works. More information can also be obtained from our website at www.networkrail.co.uk/aspx/1538.asp.

Further to previous comments the New Waitrose should provide more, or at the very least an equivalent number of car parking spaces to the current site. The lack of any commitment here is again testament to the lack of commitment to providing public parking spaces, needed by many local residents who are perhaps elderly, or simply like anyone else, needs the car parked close by for the weekly shop.

No change

The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.

No change

The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.

No change

2785/01/008/DM35/O Ian Cutts Object Soundness - Effective DM35 945 The retail use should be continued together with adequate parking. The inadequate parking at the Aldi site results in the customers using the current Waitrose site which confirms there is a lack of parking in Coulsdon and the south of the borough generally. No change The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.

2808/01/001/DM35/C Ian Cryer Comment Soundness - Effective DM35 945 The new Waitrose store being built in the current Lions Green carpark will result in a massive loss of parking in Coulsdon, with consequent loss of trade to the large number of independent shops. An elegant solution would be to use the site of the current Waitrose store (your ref 945) to build a central multi-storey carpark. No change The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.

2812/01/030/DM35/O Cllr Jan Buttinger Object Soundness - Effective DM35 945 Site 945, Waitrose, 110-112 Brighton Road. Details residential and healthcare uses. Ground floor retail should be allowed with a requirement to maintain as many public car parking spaces as there are currently on the site. No change The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.

2817/02/001/DM35/O Tina Steele Object Soundness - Effective DM35 945 I object to the removal of any current parking facilities on or around this Waitrose site. I also object to this development not having retail space on the ground floor. No change The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.

2829/01/030/DM35/O Cllr Margaret Mead Object Soundness - Effective DM35 945 Site 945, Waitrose, 110-112 Brighton Road. Details residential and healthcare uses. Ground floor retail should be allowed with a requirement to maintain as many public car parking spaces as there are currently on the site. No change The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.
Object  
Jeff and Susanne Webb  
We feel that the reduction in public parking with affect the local traders. Parking is already very difficult in Coulsdon and this will aggravate the problem.  

No change

Object  
Kathleen Tomlin  
Of course, the Coulsdon fiasco continues apace - you now want to concrete over the Waitrose car park. Have you tried parking in Coulsdon to access doctor/dental services in recent months: almost impossible, thanks to the closure of the car park on Green Lion Rd. Thanks a million. If you continue in this vein, my husband & I will move out of the area, to somewhere up North, where they plan things differently!! Your loss, our gain - pity, as this should be a really nice place to live, but you are definitely spoiling it.

No change

Object  
Cllr Richard Chatterjee  
London Borough of Croydon  
Ground floor retail should be allowed with a requirement to maintain as many public car parking spaces as there are currently on the site.

No change

Support  
Elizabeth Killick  
The development sounds good but there must be car parking spaces provided.

No change

Object  
Mr James Marland  
The site should remain suitable for retail as long as the car park is also kept in any plans. Healthcare provision could be included above ground level if required.

No change

The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.

Joanne Darville

Object Soundness - Effective DM35 945

I object to the following policies: Dm35 table 11.8 site 945, any development should include as many parking spaces as are currently there, as you know the parking situation in coulsdon is dire and affects businesses.

No change

The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.
3039/01/006/DM35/O Samantha Freeman

Object: Soundness - Effective

DM35

In particular I object to:

6. (DM35 Table 11.8 Site 945) Waitrose site in Coulsdon should not be given up to residential development. The retail site and car park is valued and I would object to the site changing use. I understand that Waitrose is moving to a larger site but we do not need to increase residential pressure in the centre of town with the new developments both opposite and at Cane Hill so close by.

No change

3046/01/010/DM35/O Stephanie Lawson

Object: DM35

DM35

945

I believe that the current number of public car parking spaces available on this site definitely needs to be maintained, so as not to exasperate existing parking problems in the area. I believe ground floor retail should also be allowed for this site development (in addition to residential and healthcare uses) as this is in the best interests of those living locally.

No change

3075/01/006/DM35/O Mr Christopher Andrews

Object: DM35

DM35

945

As and when the current Waitrose site is redeveloped it must provide for parking spaces commensurate with usage of the site. It should be noted that the current Waitrose car park is one of the most useful car parks in the town.

No change

3162/01/020/DM35/O Mr Joe Toner

Object: DM35

DM35

945

I would like to voice my objection to the following plan DM35.

No change
Mr Stephen Woodward: We have lived in Sanderstead for over 40 years, and have thoroughly enjoyed the areas to the south of Croydon being unsullied. In our view these ill conceived proposals will change this area beyond recognition and take away that for which it is well known and valued. Please rethink, and do not continue with the proposed policies set out below and which can be found in your Local Plan: Policy DM35, Table 11.8, Site 945 (p146) The parking is especially important given the current parking problems in Coulsdon.

Saundra Dudman: 9) Policy DM35 Table 11.8 site 945 p146 the current Waitrose site in Coulsdon will close when the new Waitrose store is opened in Lion Green Road. I believe the vacant site should then be used for a retail property on the ground floor and the parking spaces there currently should be kept. This would help the chronic shortage of parking in Coulsdon.

Mr Richard Brandwood: Policy DM35, Table 11.8, Site 945 (p146) - Redevelopment of this site MUST allow similar provision for public car parking as at present. Provision in Coulsdon is inadequate at present!

Mr David Dudman: 9) Policy DM35 Table 11.8 site 945 p146 the current Waitrose site in Coulsdon will close when the new Waitrose store is opened in Lion Green Road. I believe the vacant site should then be used for a retail property on the ground floor and the parking spaces there currently should be kept. This would help the chronic shortage of parking in Coulsdon.

Ms C Sorozyński: Please note my objections to planning objections to Policy DM35, Table 11.8, Site 945
Mr Donald Speakman
Object: Soundness - Effective
DM35 946
Site 945, Waitrose, 110-112 Brighton Road. Details residential and healthcare uses. Ground floor retail should be allowed with a requirement to maintain as many public car parking spaces as there are currently on the site. No change
The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.

Mr Gregory Taylor
Object: DM35
DM35 945
Policy DM35, Table 11.8, Site 945 (p146), the current Waitrose on Brighton Road. The site redevelopment will be very important to that end of the high street. Currently the parking is used for visitors not only to Waitrose but other shops in the area, therefore substantial parking should be maintained on this site. The building on this site must be in keeping with the surrounding, and any multistorey building on the site must not exceed heights already seen in the town centre. No change
The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.

Mr Mike Rice
Object: DM35
DM35 945
Dear Sirs,
With reference to the recently published 'Croydon Local Plan', as a resident of the past 25 years I give my views as follows:
Policy DM35, Table 11.8, Site 945 (p146) Agreed but requires as many public car parking spaces as there are currently on the site. No change
The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.

Linda Hione
Object: DM35
DM35 945
Coulsdon Town centre – Current Waitrose Site
Policy DM35, Table 11.8, Site 945 (p146) is the current Waitrose on Brighton Road, which will close when the new one on Lion Green road opens. The plan contemplates residential and healthcare uses, but I believe that ground floor retail should be allowed as well as potentially healthcare, and require as many public car parking spaces as there are currently on the site. The parking is especially important given the current parking problems in Coulsdon. No change

The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.

Mrs J McDonald
Object: DM35 945
Policy DM35, Table 11.8, Site 945 (p.146) is the current Waitrose on Brighton Road, which will close when the new one on Lion Green road opens. The plan contemplates residential and healthcare uses, but I believe that ground floor retail should be allowed as well as potentially healthcare, and require as many public car parking spaces as there are currently on the site. The parking is especially important given the current parking problems in Coulsdon.
No change
The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.

Mr Nick Peiris
Object: DM35 945
We need to maintain (if not improve) the infrastructure the benefit Traders, shoppers as well as residents. Certainly easier access and MORE underground parking spaces with any suitable new developments. Coulsdon Waitrose site - need road infrastructure and more parking.
No change
The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.
Mr & Mrs Mott

I object to this site allocation. No change

Mrs Anne Turner

I would like to put in writing my objections to the following local plans:
I am listing the relevant Policy Numbers:
- DM35, Table 11.8, Site 945

Mr Malcom Mackenzie

Because Coulsdon already has considerable parking problems, we would have hoped that any plan for the development of the current Waitrose site, in Brighton Rd., Coulsdon, would have ensured that the level of public parking would be maintained. We do not believe that Policy DM 35 Table 11.8, Site 945 (p146) achieves this. Other proposed parking restrictions and a policy of requiring developers to provide fewer parking spaces in a number of areas, will not help the situation. No change

Mr Thomas Lawson

I believe that the current number of public car parking spaces available on this site definitely needs to be maintained, so as not to exacerbate existing parking problems in the area. I believe ground floor retail should also be allowed for this site development (in addition to residential and healthcare uses) as this is in the best interests of those living locally. No change

Mr Tony Sales

I am emailing to record my objection to the following policies within the ‘Local Plan’. No change

The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.

The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.

3804/01/028/DM35/C  Cllr L Hale
London Borough of Croydon

**Comment**

DM35 945

Site 945, Waitrose, 110-112 Brighton Road. Details residential and healthcare uses. Ground floor retail should be allowed with a requirement to maintain as many public car parking spaces as there are currently on the site.

No change

The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.

3807/01/003/DM35/O  Mr Geoff Bell

**Object**

DM35 945

The redevelopment should include retail on the ground floor. This is important if the town centre is to recover and thrive as a shopping area. Parking is tight and difficult already. There are significant numbers of elderly people in Purley and Coulsdon, while everyone doing significant amounts of shopping also needs transport. The loss of the Lion Green car park has caused serious parking issues in Coulsdon. These problems must be addressed for the town centres to remain viable - we need more parking spaces, not less.

No change

The site is in a good location to provide much needed homes and healthcare facilities for the borough rather than be used for providing car parking spaces. Site 372, Lion Green Road car park, will require the retention of car parking spaces which will address the need for some parking in Coulsdon.

</table>
Network Rail notes that there are a number of sites adjacent to the Railway and attach a standard response which sets out the issues that need to be considered. In particular with large new developments there is a concern about the risk of trespass and all new developments should have proper and suitable boundary fencing. The risk of greater flooding and drainage that new developments could potentially have on the Network Rail infrastructure and we would not want any increase of flooding or the increase in run off onto Railway Infrastructure.

The developer must ensure that their proposal, both during construction and after completion of works on site, does not:
- encroach onto Network Rail land
- affect the safety, operation or integrity of the company’s railway and its infrastructure
- undermine its support zone
- damage the company’s infrastructure
- place additional load on outlings
- adversely affect any railway land or structure
- over-sail or encroach upon the air-space of any Network Rail land
- cause to obstruct or interfere with any works or proposed works or Network Rail development both now and in the future.

The developer should comply with the following comments and requirements for the safe operation of the railway and the protection of Network Rail’s adjoining land.

**Future maintenance**

The development must ensure any future maintenance can be conducted solely on the applicant’s land. The applicant must ensure that any construction and any subsequent maintenance can be carried out to any proposed buildings or structures without adversely affecting the safety of, or encroaching upon Network Rail’s adjacent land and air-space, and therefore all building should be situated at least 2 metres (3m for overhead lines and third rail) from Network Rail’s boundary. The reason for the 2m (3m for overhead lines and third rail) stand off requirement is to allow for construction and future maintenance of a building and without requirement for access to the operational railway environment which may not necessarily be granted or if granted subject to railway site safety requirements and special provisions with all associated railway costs charged to the applicant. Any
less than 2m (3m for overhead lines and third rail) and there is a strong possibility that the applicant (and any future resident) will need to utilise Network Rail's land and air-space to facilitate works. The applicant/resident would need to receive approval for such works from the Network Rail Asset Protection Engineer, the applicant/resident would need to submit the request at least 20 weeks before any works were due to commence on site and they would be liable for all costs (e.g. all possession costs, all site safety costs, all asset protection presence costs). However, Network Rail is not required to grant permission for any third party access to its land. No structure/building should be built hard-against Network Rail's boundary as in this case there is an even higher probability of access to Network Rail land being required to undertake any construction/maintenance works. Equally any structure/building erected hard against the boundary with Network Rail will impact adversely upon our maintenance teams' ability to maintain our boundary fencing and boundary treatments.

Drainage
Storm/surface water must not be discharged onto Network Rail's property or into Network Rail's culverts or drains except by agreement with Network Rail. Suitable drainage or other works must be provided and maintained by the Developer to prevent surface water flows or run-off onto Network Rail's property. Proper provision must be made to accept and continue drainage discharging from Network Rail's property; full details to be submitted for approval to the Network Rail Asset Protection Engineer. Suitable foul drainage must be provided separate from Network Rail's existing drainage. Soakaways, as a means of storm/surface water disposal must not be constructed near/within 10 – 20 metres of Network Rail's boundary or at any point which could adversely affect the stability of Network Rail's property. After the completion and occupation of the development, any new or exacerbated problems attributable to the new development shall be investigated and remedied at the applicants' expense.

Plant & Materials
All operations, including the use of cranes or other mechanical plant working adjacent to Network Rail's property, must at all times be carried out in a "fail safe" manner such that in the event of mishandling, collapse or failure, no plant or materials are
capable of falling within 3.0m of the boundary with Network Rail.

Scaffolding
Any scaffold which is to be constructed within 10 metres of the railway boundary fence must be erected in such a manner that at no time will any poles over-sail the railway and protective netting around such scaffold must be installed. The applicant/contractor must consider if they can undertake the works and associated scaffold/access for working at height within the footprint of their property boundary.

Piling
Where vibro-compaction/displacement piling plant is to be used in development, details of the use of such machinery and a method statement should be submitted for the approval of the Network Rail’s Asset Protection Engineer prior to the commencement of works and the works shall only be carried out in accordance with the approved method statement.

Fencing
In view of the nature of the development, it is essential that the developer provide (at their own expense) and thereafter maintain a substantial, trespass-proof fence along the development side of the existing boundary fence, to a minimum height of 1.8 metres. The 1.8m fencing should be adjacent to the railway boundary and the developer/applicant should make provision for its future maintenance and renewal without encroachment upon Network Rail land. Network Rail’s existing fencing/wall must not be removed or damaged and at no point either during construction or after works are completed on site should the foundations of the fencing or wall or any embankment therein be damaged, undermined or compromised in any way. Any vegetation on Network Rail land and within Network Rail’s boundary must also not be disturbed. Any fencing installed by the applicant must not prevent Network Rail from maintaining its own fencing/boundary treatment.

Lighting
Any lighting associated with the development (including vehicle lights) must not interfere with the sighting of signalling apparatus and/or train drivers vision on approaching trains. The location and colour of lights must not give rise to the potential for confusion with the signalling
arrangements on the railway. The developers should obtain Network Rail’s Asset Protection Engineer’s approval of their detailed proposals regarding lighting.

Noise and Vibration

The potential for any noise/vibration impacts caused by the proximity between the proposed development and any existing railway must be assessed in the context of the National Planning Policy Framework which hold relevant national guidance information. The current level of usage may be subject to change at any time without notification including increased frequency of trains, night time train running and heavy freight trains.

Vehicle Incursion

Where a proposal calls for hard standing area/parking of vehicles area near the boundary with the operational railway, Network Rail would recommend the installation of a highways approved vehicle incursion barrier or high kerbs to prevent vehicles accidentally driving or rolling onto the railway or damaging lineside fencing.

Network Rail strongly recommends the developer contacts AssetProtectionSussex@networkrail.co.uk prior to any works commencing on site, and also to agree an Asset Protection Agreement with us to enable approval of detailed works. More information can also be obtained from our website at www.networkrail.co.uk/aspx/1538.asp.

A comprehensive redevelopment of the vacant lots and untidy buildings in Park Street should be considered

No change

The redevelopment of Park Street and the surrounding area is subject to the Mid-Croydon Masterplan. It is anticipated that any development within this area refers to the parameters set out in the masterplan to ensure the redevelopment of the area is cohesive and compliant with Local Plan policy. It is considered that the masterplan addresses the potential for the area appropriately. Furthermore, the majority of the area has been put forward as an allocation (site no. 194) and has been identified for residential and retail uses, and a civic space.

---

The Forum is concerned that if the cinema proposal is provided in the new Whitgift Centre it will lead to the closure of the Vue Cinema in the former Grants building. It appears that nothing has really worked there since it opened. There was a Playtown (kids' soft play centre) on the upper level at one stage but despite being very popular it closed. Other possibilities might be a skating rink, a free gym and an internet cafe. Above all the building should be retained as a community arts space. Its cinema areas could be the base for increasing the range of performance venue spaces. This would strengthen the offer in the Cultural Quarter, and attract customers for the bars and restaurants at ground floor level.

The use of the land in this location is considered D2 - should the cinema vacate the site, the land use would still remain a D2 use. This is a commercial building and any future uses of the site would need to be commercially viable. It is not considered appropriate to allocate the land for a use that may not be commercially viable.

Fairfield Halls should remain open until funding is in place to replace it.

This is not a planning consideration and so cannot be taken into account. The Local Plan considers the land use of the site and this has remained unchanged.

The Croydon Opportunity Area Planning Framework has already considered the need for car parks in the Opportunity Area, and its findings have been taken into account in proposing sites in the Croydon Local Plan.
2448/01/032/DM36.5/O  Andy Stranack  Croydon Council  
Object Soundness - Effective  DM36.5  A comprehensive redevelopment of the vacant lots and untidy buildings in Park Street should be considered  No change  The redevelopment of Park Street and the surrounding area is subject to the Mid-Croydon Masterplan. It is anticipated that any development within this area refers to the parameters set out in the masterplan to ensure the redevelopment of the area is cohesive and compliant with Local Plan policy. It is considered that the masterplan addresses the potential for the area appropriately. Furthermore, the majority of the area has been put forward as an allocation (site no. 194) and has been identified for residential and retail uses, and a civic space.

2635/01/021/DM36.5/O  Paul Sandford  Bourne Society  
Object DM36.5  DM36.5 allows for a number of car parks and parking areas to be redeveloped. A cumulative impact assessment should be undertaken to ensure that enough parking remains to satisfy the retail and office core  No change  The Croydon Opportunity Area Planning Framework has already considered the need for car parks in the Opportunity Area, and its findings have been taken into account in proposing sites in the Croydon Local Plan.

The respondent puts forward a site on behalf of the landowner. This representation fully supports DM36: Croydon Opportunity Area and the aspirations of the site could also complement the proposed Office Retention Area.

The site put forward is currently known as Norfolk House and has been identified as suitable for mixed use high density redevelopment which could include retail, office, hotel and residential uses. It would complement SP3of CLP1.1. Phasing of development could be 2018 - 2025 and could yield approximately 250 - 400 homes. The proposed allocation is submitted by the site owner and would therefore not have site ownership issues.

The site will be included as an allocation in the next stage of the Local Plan and will be allocated for uses which could include retail, office, hotel and residential units (up to 7000sqm of commercial floorspace and 125-255 residential units).

Network Rail notes that there are a number of sites adjacent to the Railway and attach a standard response which sets out the issues that need to be considered. In particular with large new developments there is a concern about the risk of trespass and all new developments should have proper and suitable boundary fencing. The risk of greater flooding and drainage that new developments could potentially have on the Network Rail infrastructure and we would not want any increase of flooding or the increase in run off onto Railway Infrastructure.

The developer must ensure that their proposal, both during construction and after completion of works on site, does not:
- encroach onto Network Rail land
- affect the safety, operation or integrity of the company’s railway and its infrastructure
- undermine its support zone
- damage the company’s infrastructure
- place additional load on outcrops
- adversely affect any railway land or structure
- over-sail or encroach upon the air-space of any Network Rail land
- cause to obstruct or interfere with any works or proposed works or Network Rail development both now and in the future.

The developer should comply with the following comments and requirements for the safe operation of the railway and the protection of Network Rail's adjoining land.

Future maintenance
The development must ensure any future maintenance can be conducted solely on the applicant's land. The applicant must ensure that any construction and any subsequent maintenance can be carried out to any proposed buildings or structures without adversely affecting the safety of, or encroaching upon Network Rail’s adjacent land and air-space, and therefore all any building should be situated at least 2 metres (3m for overhead lines and third rail) from Network Rail’s boundary. The reason for the 2m (3m for overhead lines and third rail) stand off requirement is to allow for construction and future maintenance of a building and without requirement for access to the operational railway environment which may not necessarily be granted or if granted subject to railway site safety requirements and special provisions with all associated railway costs charged to the applicant.

Any development proposals for the site would be subject to consultation and Network Rail would be consulted as required.
less than 2m (3m for overhead lines and third rail) and there is a strong possibility that the applicant (and any future resident) will need to utilise Network Rail land and air-space to facilitate works. The applicant / resident would need to receive approval for such works from the Network Rail Asset Protection Engineer, the applicant / resident would need to submit the request at least 20 weeks before any works were due to commence on site and they would be liable for all costs (e.g. all possession costs, all site safety costs, all asset protection presence costs). However, Network Rail is not required to grant permission for any third party access to its land. No structure/building should be built hard-against Network Rail’s boundary as in this case there is an even higher probability of access to Network Rail land being required to undertake any construction / maintenance works. Equally any structure/building erected hard against the boundary with Network Rail will impact adversely upon our maintenance teams’ ability to maintain our boundary fencing and boundary treatments.

Drainage
Storm/surface water must not be discharged onto Network Rail’s property or into Network Rail’s culverts or drains except by agreement with Network Rail. Suitable drainage or other works must be provided and maintained by the Developer to prevent surface water flows or run-off onto Network Rail’s property. Proper provision must be made to accept and continue drainage discharging from Network Rail’s property; full details to be submitted for approval to the Network Rail Asset Protection Engineer. Suitable foul drainage must be provided separate from Network Rail’s existing drainage. Soakaways, as a means of storm/surface water disposal must not be constructed near/within 10 – 20 metres of Network Rail’s boundary or at any point which could adversely affect the stability of Network Rail’s property. After the completion and occupation of the development, any new or exacerbated problems attributable to the new development shall be investigated and remedied at the applicants’ expense.

Plant & Materials
All operations, including the use of cranes or other mechanical plant working adjacent to Network Rail’s property, must at all times be carried out in a “fail safe” manner such that in the event of mishandling, collapse or failure, no plant or materials are
capable of falling within 3.0m of the boundary with Network Rail.

Scaffolding
Any scaffold which is to be constructed within 10 metres of the railway boundary fence must be erected in such a manner that at no time will any poles over-sail the railway and protective netting around such scaffold must be installed. The applicant/applicant’s contractor must consider if they can undertake the works and associated scaffold/access for working at height within the footprint of their property boundary.

Piling
Where vibro-compaction/displacement piling plant is to be used in development, details of the use of such machinery and a method statement should be submitted for the approval of the Network Rail’s Asset Protection Engineer prior to the commencement of works and the works shall only be carried out in accordance with the approved method statement.

Fencing
In view of the nature of the development, it is essential that the developer provide (at their own expense) and thereafter maintain a substantial, trespass proof fence along the development side of the existing boundary fence, to a minimum height of 1.8 metres. The 1.8m fencing should be adjacent to the railway boundary and the developer/applicant should make provision for its future maintenance and renewal without encroachment upon Network Rail land. Network Rail’s existing fencing/wall must not be removed or damaged and at no point either during construction or after works are completed on site should the foundations of the fencing or wall or any embankment therein, be damaged, undermined or compromised in any way. Any vegetation on Network Rail land and within Network Rail’s boundary must also not be disturbed. Any fencing installed by the applicant must not prevent Network Rail from maintaining its own fencing/boundary treatment.

Lighting
Any lighting associated with the development (including vehicle lights) must not interfere with the sighting of signalling apparatus and/or train drivers’ vision on approaching trains. The location and colour of lights must not give rise to the potential for confusion with the signalling
arrangements on the railway. The developers should obtain Network Rail’s Asset Protection Engineer’s approval of their detailed proposals regarding lighting.

**Noise and Vibration**

The potential for any noise/vibration impacts caused by the proximity between the proposed development and any existing railway must be assessed in the context of the National Planning Policy Framework which hold relevant national guidance information. The current level of usage may be subject to change at any time without notification including increased frequency of trains, night time train running and heavy freight trains.

**Vehicle Incursion**

Where a proposal calls for hard standing area/parking of vehicles area near the boundary with the operational railway, Network Rail would recommend the installation of a highways approved vehicle incursion barrier or high kerbs to prevent vehicles accidentally driving or rolling onto the railway or damaging lineside fencing.

Network Rail strongly recommends the developer contacts AssetProtectionSussex@networkrail.co.uk prior to any works commencing on site, and also to agree an Asset Protection Agreement with us to enable approval of detailed works. More information can also be obtained from our website at www.networkrail.co.uk/aspx/1538.asp.

More information can also be obtained from our website at www.networkrail.co.uk/aspx/1538.asp.
Object We have seen the site location plan included within the background 'Place Specific Policies' document. The plan appears to be incorrect. The land west of Cherry Orchard Road within the Red Line is land currently being developed on the Galaxy House site. The Red Line should therefore be drawn to the south of this area and include land up to the area including Bilton Hill and the Porter and Sorter public house south of Bilton Hill. In addition, the Cherry Orchard Gardens part of the site (to the east of Cherry Orchard Road) does not reflect the consented scheme where the site boundary extended to the junction of Cherry Orchard Road and Oval Road. The following comments are made on this basis that the site plans be amended accordingly:
The proposed use reflects the consented development for the site. The development has not yet been delivered, and in order to provide some flexibility for future market conditions it is recommended that the policy provides some flexibility on the basis that the development can comprise some or all of these uses. It is also expected that the commercial uses are not envisaged on the Cherry Orchard Gardens site and this should perhaps be made clear. The background 'Place Specific Policies' document refers to the local character of the area as "industrial estates" or "mixed type flats". This is incorrect.

Change The site location should be amended to reflect the consented scheme. The proposed uses should also allow for some flexibility for other uses.

2824/01/001/DM36.5/C Mark Slater I am writing to raise my objection to the construction of high-rise apartment blocks in the East Croydon and Addiscombe areas, such as the development on Cherry Orchard Gardens. As a resident in the area for many years, I feel that these developments are detrimental to the area for environmental reasons. In particular, they will block natural light to many of the adjacent two storey properties. They will also lead to extra traffic and put pressure on existing parking spaces and other amenities.

No change Any application put forward for the redevelopment of the site will be considered on its merits. The uses of the site are considered appropriate and the site will continue to be allocated for same.

3417/01/001/DM36.5/O Mr & Mrs Colin Read Object Soundness - Justified There is a plan for a massive 65-storey block in Cherry Orchard Road. This is vastly out of proportion to the rest of the buildings in Croydon and its planned height - if the building is needed at all - should be reduced.

No change This site has planning permission and it would be unrealistic to expect a lessor form of development on it now. The former Essex House site also has planning permission and the Council is waiting for development to commence.

02 September 2016
Mr Ian Leonard

My main concern about the proposals for Addiscombe and East Croydon is that the Council is not amending its tall buildings policy. When the Menta planning application for a 50+ storey tower on Cherry Orchard Road was approved by the previous Conservative Council, both Labour councillors and our local MP for Central Croydon agreed that very tall buildings were not appropriate on this site. However, now that they are running the Council those same councillors have not changed the previous Council’s policy. Why? Apparently, the MP for Central Croydon will be calling on the Council to amend its tall buildings policy so that the tallest buildings have to be in the centre of town, not right on the edge of the tall buildings zone next to two-storey residential housing.

No change

Mr & Mrs Shutter

We are writing to voice my our objections to the council’s planning policy. Specifically we object to: The continued approval of the 50-storey Menta Tower which when in opposition, your party agreed that very tall buildings were not appropriate to the site. Having voted for your party on the basis of your objection to the tower I am very disappointed that you have taken no steps to prevent its construction.

No change

Guildhouse Rosepride LLP

The allocation should include Voyager House to reflect longstanding Council aspirations and allow for development that optimises the site’s potential, including for over 900 homes. Some element of retail should be included within the allocation as the site is in an accessible location close to the primary shopping frontage. This would create greater flexibility in terms of the deliverability of any commercial element of the site. Including Voyager House within site 142 would enable optimal development at this location, securing sustainable regeneration across a wider area and creating a catalyst for the realisation of other schemes in the local context. The inclusion of Voyager House would also help deliver important place-making benefits for the Wellesley Road frontage.

The allocation should include Voyager House.

Change

Any application put forward for the redevelopment of the site will be considered on its merits. The uses of the site are considered appropriate and the site will continue to be allocated for same.

The scheme has been consented to and the permission has technically been implemented. In light of this, the permission will not expire.

The allocation will be amended to include Voyager House. It is not considered appropriate to allocate the site to include retail uses as the site is located beyond the Primary Shopping Area. A density will be applied of 419 - 441 to indicate the number of units that may be deliverable on the site. The number of units provided will be determined through any future planning application.

<td>Minerva</td>
<td>DM36.5 162</td>
<td>The allocation will be amended to include other town centre uses, however any redevelopment of the site will be expected to meet the required standards.</td>
</tr>
</tbody>
</table>

**Object**

The planning permission for this site includes a minimum of 7,285sqm up to a maximum of 10,900sqm of Class A floor space (including Class A1 retail).

The consented development on the site includes the surface car park to the north of Lansdowne Road. The overall number of homes set out in the proposed allocation for Site 172 is taken from the planning permission which includes site 243 (the surface car park) and this needs to be reflected in the proposed allocation.

Retail should be included in the preferred option to reflect the extant planning permission for the site. The surface car park north of Lansdowne Road (site 243) should be included as part of Site 172.

| Croydon Gateway Limited Partners | DM36.5 172 | The allocation will be changed to reflect the extant planning permission on the site which provides 550 - 625 residential units, office space, retail, 400 sqm community uses, a replacement theatre of 200 seats and energy centre. Site 243 will also be made part of the allocation to reflect the extant planning permission. |

**Object**

The proposed use identified reflects the current planning permission for the site. The site could be appropriate for other uses in this town centre location which, in the interest of flexibility, the policy should not discount. Within the background 'Place Specific Policies' document, it is stated that any conversion needs to adhere to London Plan and Local Plan standards to "improve the sustainability of the development". As noted elsewhere in the document, the site has planning permission for conversion. In any event, the standard should be treated with flexibility in conversion schemes.

The site should consider other uses appropriate to the town centre location in addition to the current planning permission.
Network Rail notes that there are a number of sites adjacent to the Railway and attach a standard response which sets out the issues that need to be considered. In particular with large new developments there is a concern about the risk of trespass and all new developments should have proper and suitable boundary fencing. The risk of greater flooding and drainage that new developments could potentially have on the Network Rail infrastructure and we would not want any increase of flooding or the increase in run off onto Railway Infrastructure.

The developer must ensure that their proposal, both during construction and after completion of works on site, does not: encroach onto Network Rail land affect the safety, operation or integrity of the company’s railway and its infrastructure undermine its support zone damage the company’s infrastructure place additional load on outfalls adversely affect any railway land or structure over-sail or encroach upon the air-space of any Network Rail land cause to obstruct or interfere with any works or proposed works or Network Rail development both now and in the future

The developer should comply with the following comments and requirements for the safe operation of the railway and the protection of Network Rail’s adjoining land.

Future maintenance
The development must ensure any future maintenance can be conducted solely on the applicant’s land. The applicant must ensure that any construction and any subsequent maintenance can be carried out to any proposed buildings or structures without adversely affecting the safety of, or encroaching upon Network Rail’s adjacent land and air-space, and therefore all/any building should be situated at least 2 metres (3m for overhead lines and third rail) from Network Rail’s boundary. The reason for the 2m (3m for overhead lines and third rail) stand off requirement is to allow for construction and future maintenance of a building and without requirement for access to the operational railway environment which may not necessarily be granted or if granted subject to railway site safety requirements and special provisions with all associated railway costs charged to the applicant. Any
less than 2m (3m for overhead lines and third rail) and there is a strong possibility that the applicant (and any future resident) will need to utilise Network Rail land and air-space to facilitate works. The applicant / resident would need to receive approval for such works from the Network Rail Asset Protection Engineer, the applicant / resident would need to submit the request at least 20 weeks before any works were due to commence on site and they would be liable for all costs (e.g. all possession costs, all site safety costs, all asset protection presence costs). However, Network Rail is not required to grant permission for any third party access to its land. No structure/building should be built hard-against Network Rail’s boundary as in this case there is an even higher probability of access to Network Rail land being required to undertake any construction / maintenance works. Equally any structure/building erected hard against the boundary with Network Rail will impact adversely upon our maintenance teams’ ability to maintain our boundary fencing and boundary treatments.

Drainage
Storm/surface water must not be discharged onto Network Rail’s property or into Network Rail’s culverts or drains except by agreement with Network Rail. Suitable drainage or other works must be provided and maintained by the Developer to prevent surface water flows or run-off onto Network Rail’s property. Proper provision must be made to accept and continue drainage discharging from Network Rail’s property; full details to be submitted for approval to the Network Rail Asset Protection Engineer. Suitable foul drainage must be provided separate from Network Rail’s existing drainage. Soakaways, as a means of storm/surface water disposal must not be constructed near within 10 – 20 metres of Network Rail’s boundary or at any point which could adversely affect the stability of Network Rail’s property. After the completion and occupation of the development, any new or exacerbated problems attributable to the new development shall be investigated and remedied at the applicants’ expense.

Plant & Materials
All operations, including the use of cranes or other mechanical plant working adjacent to Network Rail’s property, must at all times be carried out in a “fail safe” manner such that in the event of mishandling, collapse or failure, no plant or materials are
capable of falling within 3.0m of the boundary with Network Rail.

Scaffolding
Any scaffold which is to be constructed within 10 metres of the railway boundary fence must be erected in such a manner that at no time will any poles over-sail the railway and protective netting around such scaffold must be installed. The applicant/applicant’s contractor must consider if they can undertake the works and associated scaffold/access for working at height within the footprint of their property boundary.

Piling
Where vibro-compaction/displacement piling plant is to be used in development, details of the use of such machinery and a method statement should be submitted for the approval of the Network Rail’s Asset Protection Engineer prior to the commencement of works and the works shall only be carried out in accordance with the approved method statement.

Fencing
In view of the nature of the development, it is essential that the developer provide (at their own expense) and thereafter maintain a substantial, trespass-proof fence along the development side of the existing boundary fence, to a minimum height of 1.8 metres. The 1.8m fencing should be adjacent to the railway boundary and the developer/applicant should make provision for its future maintenance and renewal without encroachment upon Network Rail land. Network Rail’s existing fencing/wall must not be removed or damaged and at no point either during construction or after works are completed on site should the foundations of the fencing or wall or any embankment therein, be damaged, undermined or compromised in any way. Any vegetation on Network Rail land and within Network Rail’s boundary must also not be disturbed. Any fencing installed by the applicant must not prevent Network Rail from maintaining its own fencing/boundary treatment.

Lighting
Any lighting associated with the development (including vehicle lights) must not interfere with the sighting of signalling apparatus and/or train drivers vision on approaching trains. The location and colour of lights must not give rise to the potential for confusion with the signalling
arrangements on the railway. The developers should obtain Network Rail's Asset Protection Engineer's approval of their detailed proposals regarding lighting.

Noise and Vibration
The potential for any noise/vibration impacts caused by the proximity between the proposed development and any existing railway must be assessed in the context of the National Planning Policy Framework which hold relevant national guidance information. The current level of usage may be subject to change at any time without notification including increased frequency of trains, night time train running and heavy freight trains.

Vehicle Incursion
Where a proposal calls for hard standing area/parking of vehicles area near the boundary with the operational railway, Network Rail would recommend the installation of a highways approved vehicle incursion barrier or high kerbs to prevent vehicles accidentally driving or rolling onto the railway or damaging lineside fencing.

Network Rail strongly recommends the developer contacts AssetProtectionsussex@networkrail.co.uk prior to any works commencing on site, and also to agree an Asset Protection Agreement with us to enable approval of detailed works. More information can also be obtained from our website at www.networkrail.co.uk/aspx/1538.asp

I am expressing my extreme disquiet over the cavalier 'development' plans proposed by the current Croydon Council, especially in my own area, Shrublands and Shirley. I can well imagine there is council property that is lying empty. In my area, it has taken more than 15 years to bring two council properties back into use long after they became vacant and fell into extreme disrepair, namely the school keeper’s house by Forest Academy (formerly Spring Park School) and the former Children’s Home in Oak Avenue.

In Croydon town centre there are office blocks that have been empty for decades. There is a large, vacant, building ready plot, in Addiscombe Road, between Park Hill Road and Addiscombe Grove, neglected for more than 15 years. The shops and near derelict dwellings above them on Station Road, West Croydon, are a disgrace to the Borough and badly need redevelopment.

Until all such places have been developed, residential areas should not be considered and then only with great sensitivity to existing and future residents, who will want to find the green spaces the Shrublands and Shirley area is famous for.

Support

The preferred approach is appropriate provided that a primary school can be reasonably accommodated on the Stephenson House site alongside commercial and/or residential which would both enhance the local area and make any potential development commercially viable.

DM36.5

Welcome support

Object

The allocation in the Plan is for offices with residential and/or hotel with health care facility. This site has been in office use and still is in office use at present on the lower floors. Since 2013, it has had several prior approvals for conversion to flats and now holds consents for 134 units from the basement to the seventh floors. Work has commenced on the building. Under the terms of the GPDQ 2015, the prior approvals can be commenced within 3 years from approval and the scheme comprising the 134 units was approved in July 2015 so the building has to be converted by July 2018. To include in a Plan running until 2036 a policy which states that the building can remain as offices then converted around 2026 to include a hotel or health club or other such town centre use compliant with policy SP3 as mentioned is unrealistic since there is no chance at all that this will happen. A more appropriate policy would need to take account of this is a building being in residential use by 2018. The building is already being worked on and is expected to be in use as flats by 2018. To state that the building will not change from its existing use as offices until 2026 is not realistic given the permissions that already exist for the site. The amount of housing units stated to be required is 26-62. This is not at all plausible especially given the size and number of floors. The building has consent for 134 units and this should be acknowledged for its contribution to the housing targets. The Council makes it clear that it has a shortfall of housing yet it is looking for windfall development of around 10000 units. It would be more realistic and more likely that the Plan overall will pass Examination if the Council acknowledges that some of the shortfall in housing units is already provided in this and other Prior Approval schemes. It would not be difficult to contact the landowners about which schemes are being implemented-they are already being consulted as part of the current process.

DM36.5

Change

As there is prior approval in place for a change of use to residential and this is currently under construction, the site will no longer be allocated within the Local Plan.
Comment Soundness - Effective

Network Rail notes that there are a number of sites adjacent to the Railway and attach a standard response which sets out the issues that need to be considered. In particular with large new developments there is a concern about the risk of trespass and all new developments should have proper and suitable boundary fencing. The risk of greater flooding and drainage that new developments could potentially have on the Network Rail infrastructure and we would not want any increase of flooding or the increase in run off onto Railway Infrastructure.

The developer must ensure that their proposal, both during construction and after completion of works on site, does not:
- encroach onto Network Rail land
- affect the safety, operation or integrity of the company’s railway and its infrastructure
- undermine its support zone
- damage the company’s infrastructure
- place additional load on cuttings
- adversely affect any railway land or structure
- over-sail or encroach upon the air-space of any Network Rail land
- cause to obstruct or interfere with any works or proposed works or Network Rail development both now and in the future

The developer should comply with the following comments and requirements for the safe operation of the railway and the protection of Network Rail’s adjoining land.

Future maintenance
The development must ensure any future maintenance can be conducted solely on the applicant’s land. The applicant must ensure that any construction and any subsequent maintenance can be carried out to any proposed buildings or structures without adversely affecting the safety of, or encroaching upon Network Rail’s adjacent land and air-space, and therefore all/any building should be situated at least 2 metres (3m for overhead lines and third rail) from Network Rail’s boundary. The reason for the 2m (3m for overhead lines and third rail) stand off requirement is to allow for construction and future maintenance of a building and without requirement for access to the operational railway environment which may not necessarily be granted or if granted subject to railway site safety requirements and special provisions with all associated railway costs charged to the applicant. Any

Comment Evidence of Deliverability - The landowner has indicated that the site would be developed by themselves or by Joint Venture with another party.

DM36.5 186 Evidence of Deliverability - The landowner has indicated that the site would be developed by themselves or by Joint Venture with another party. Change The site will remain as an allocation in the Local Plan, however the evidence of deliverability will be amended to reflect that there is known interest in the site. The phasing of development will also be amended to fall within the period 2016 - 2021.

Comment Phasing of Development - The landowner has stated that it is their intention to bring the site forward for development prior to 2020.

DM36.5 186 Phasing of Development - The landowner has stated that it is their intention to bring the site forward for development prior to 2020. Change The site will remain as an allocation in the Local Plan, however the evidence of deliverability will be amended to reflect that there is known interest in the site. The phasing of development will also be amended to fall within the period 2016 - 2021.

Comment Justification for Option It is stated within the specific policies that "the site has been identified by the NHS as being in an area with a need for additional healthcare facilities. The inclusion of healthcare facilities should be explored with the NHS before development takes place". It is considered that should a deliverable scheme be brought forward on the site that helps to achieve the strategic objectives for the area without input from the NHS, this should be treated on its own merits and not be precluded by the mention of NHS within this policy. We are unclear as to why the NHS requirements are included for this site and would suggest reference is removed.

DM36.5 186 Justification for Option It is stated within the specific policies that "the site has been identified by the NHS as being in an area with a need for additional healthcare facilities. The inclusion of healthcare facilities should be explored with the NHS before development takes place". It is considered that should a deliverable scheme be brought forward on the site that helps to achieve the strategic objectives for the area without input from the NHS, this should be treated on its own merits and not be precluded by the mention of NHS within this policy. We are unclear as to why the NHS requirements are included for this site and would suggest reference is removed. No change Reference to the NHS will remain as part of this allocation as there is an identified need for such services in the area. There is no expectation that the NHS would pay less than the market value for the site and so this should not jeopardise the site coming forward for development.

Support Yes, redevelopment for the proposed uses outlined, offices, residential, hotel, class A2 (finance), would all be appropriate in this location along with any other town centre use.

DM36.5 186 Yes, redevelopment for the proposed uses outlined, offices, residential, hotel, class A2 (finance), would all be appropriate in this location along with any other town centre use. Welcome support

Support Metropolitan Properties' Site, Suffolk House, has been put forward as a proposed site specific allocation. This site is allocated for mixed use development with offices or residential dwellings above retail units at ground level. Metropolitan Properties is supportive of this allocation as it will assist in the development aims of both the Croydon Opportunity Area and the Fairfield Masterplan. Metropolitan Properties area also supportive of the flexibility of uses proposed. Metropolitan Properties would like to work with the London Borough of Croydon to develop the preferred development option further.

<tr>
<td>2749/01/002/DM36.5/C</td>
<td>Mr A Kennedy</td>
<td>Comment</td>
<td>DM36.5 194</td>
<td>The term “Civic Space” is inferior to the term “Town Hall Square” and if adopted, it would likely lead to an inferior space to that which was intended in the Masterplan reference MC1 and MC4 adopted by the Council in July 2012. A Town Hall Square opposite the Old Town Hall and the main Library entrance in Katharine Street capable of holding thousands of people. A Square such as we see in other major and minor European cities which can be used for all kinds of civil ceremonies and as a place that shows the best architecture that the city has to offer. A square that has multiple uses. Isolated from through traffic and with multiple purposes. An outside space for ceremonies, concerts, speeches, presentations as well as remembrance events. A hard surface, paved and partially cobbled. Not habitually used by vehicles. Possibly with a sculpture or memorional fountain in the middle demonstrating civic pride and giving inspiration to the population of Croydon. European cities often use them for market days too. Let’s up to you but first of all you have to create the space and divert traffic flow away from it.</td>
<td>No change</td>
<td>The allocation as a civic space supports and complements the “Town Hall Square” as set out in the Mid-Croydon Masterplan. Any redevelopment of the site will accord with the Local Plan and Mid-Croydon masterplan. “Civic space” does not alter the aspirations of this particular component of the Masterplan or what it will be used for, and its name will be defined thought the planning application process.</td>
</tr>
</tbody>
</table>
your terminology is wrong and may lead to an inferior outcome if not addressed. Presently you describe the preferred use as having a civic space”. This is unsatisfactory because that could be either internal or external. The Mid-Croydon Masterplan calls for a “Town Hall Square” and that is what the wording should be on the Local Plan. Let unchecked you are in danger of compromising the Strategic Objectives of the Local Plan under the heading “A Place to Belong” and “A Place with a Sustainable Future” SO 7 in particular - "Conserve and create spaces and buildings that foster safe, healthy and cohesive communities” SO 8 - Improve accessibility, connectivity, sustainability and ease of movement to, from and within the borough. As presently written you are in danger of under-delivering a scheme to the people of Croydon which could be so much better. We need an exterior ceremonial space that can accommodate many hundreds if not thousands of people in the open air around the memorial statue opposite the Town Hall as other major European Cities usually have. You the Council should decide what space is required and not be cow towed by the developer in whose prima facie interest is to minimise public realm space and maximise the amount of private office and interior space.

The allocation as a civic space supports and complements the "Town Hall Square" as set out in the Mid-Croydon Masterplan. Any redevelopment of the site will accord with the Local Plan and Mid-Croydon masterplan. "Civic space" does not alter the aspirations of this particular component of the Masterplan or what it will be used for, and its name will be defined thought the planning application process.
Object DM36.5

Minerva

This is a large site which is currently subject to early pre-application discussions. The development will be of significant scale with associated timescales and the content and make up of any scheme will inevitably be reviewed throughout the development process. Whilst any scheme is almost certainly going to include the identified residential and retail uses, other uses on the site should not be precluded on the site by the policy and the policy should provide this flexibility. It would be logical for this site to be extended to include the adjacent Seagas House site (reference 231) as both sites are within the same ownership and will likely come forward under one planning application.

With reference to the background ‘Place Specific Policies’ document, it is considered that whilst the site is not situated in East Croydon, it could be suitable for office use. Part of the site is in a Conservation Area, but the majority is outside the Conservation Area. The number of homes suggested for the site is 88-504. It is unclear how these figures have been derived but the site clearly has significant capacity for residential development, and we think it would be inappropriate to put a range of units on the site at this stage.

The allocation should be flexible enough to allow for other uses and should include Seagas House. The number of homes should be removed.

No change

It is not considered appropriate to include Seagas House (site 231) within this allocation given its status as a listed building. Redevelopment of the site will therefore require particular sensitivity. The site lies within the Primary Shopping Area and can therefore accommodate other town centre uses in accordance with Local Plan policy. The range is calculated using density matrix within the Mayor of London’s Housing SPG (2016) and applying the character of the extant character within the area as set out in the Croydon’s Borough Typology. This gives an indicative range of what may be provided on the site. However, all planning applications are decided on their merits and the number of units that are considered appropriate on the site will be determined as part of a planning application.

Support DM36.5

Cllr L Hale
London Borough of Croydon

A comprehensive redevelopment of the vacant lots and untidy buildings in Park Street should be considered.

Welcome support
Network Rail notes that there are a number of sites adjacent to the Railway and attach a standard response which sets out the issues that need to be considered. In particular with large new developments there is a concern about the risk of trespass and all new developments should have proper and suitable boundary fencing. The risk of greater flooding and drainage that new developments could potentially have on the Network Rail infrastructure and we would not want any increase of flooding or the increase in run off onto Railway Infrastructure.

The developer must ensure that their proposal, both during construction and after completion of works on site, does not encroach onto Network Rail land affect the safety, operation or integrity of the company’s railway and its infrastructure undermine its support zone damage the company’s infrastructure place additional load on outlings adversely affect any railway land or structure over-sail or encroach upon the air-space of any Network Rail land cause to obstruct or interfere with any works or proposed works or Network Rail development both now and in the future

The developer should comply with the following comments and requirements for the safe operation of the railway and the protection of Network Rail’s adjoining land.

Future maintenance

The development must ensure any future maintenance can be conducted solely on the applicant’s land. The applicant must ensure that any construction and any subsequent maintenance can be carried out to any proposed buildings or structures without adversely affecting the safety of, or encroaching upon Network Rail’s adjacent land and air-space, and therefore allenary building should be situated at least 2 metres (3m for overhead lines and third rail) from Network Rail’s boundary. The reason for the 2m (3m for overhead lines and third rail) stand off requirement is to allow for construction and future maintenance of a building and without requirement for access to the operational railway environment which may not necessarily be granted or if granted subject to railway site safety requirements and special provisions with all associated railway costs charged to the applicant.

Any development proposals for the site would be subject to consultation and Network Rail would be consulted as required.
less than 2m (3m for overhead lines and third rail) and there is a strong possibility that the applicant (and any future resident) will need to utilise Network Rail land and air-space to facilitate works. The applicant / resident would need to receive approval for such works from the Network Rail Asset Protection Engineer, the applicant / resident would need to submit the request at least 20 weeks before any works were due to commence on site and they would be liable for all costs (e.g. all possession costs, all site safety costs, all asset protection presence costs). However, Network Rail is not required to grant permission for any third party access to its land. No structure/building should be built hard-against Network Rail’s boundary as in this case there is an even higher probability of access to Network Rail land being required to undertake any construction / maintenance works. Equally any structure/building erected hard against the boundary with Network Rail will impact adversely upon our maintenance teams’ ability to maintain our boundary fencing and boundary treatments.

Drainage

Storm/surface water must not be discharged onto Network Rail’s property or into Network Rail’s culverts or drains except by agreement with Network Rail. Suitable drainage or other works must be provided and maintained by the Developer to prevent surface water flows or run-off onto Network Rail’s property. Full details to be submitted to Network Rail for approval. Suitable foul drainage must be provided separate from Network Rail’s existing drainage. Soakaways, as a means of storm/surface water disposal must not be constructed near/within 10 – 20 metres of Network Rail’s boundary or at any point which could adversely affect the stability of Network Rail’s property.

After the completion and occupation of the development, any new or exacerbated problems attributable to the new development shall be investigated and remedied at the applicants' expense.
capable of falling within 3.0m of the boundary with Network Rail.

Scaffolding
Any scaffold which is to be constructed within 10 metres of the railway boundary fence must be erected in such a manner that at no time will any poles over-sail the railway and protective netting around such scaffold must be installed. The applicant/applicant’s contractor must consider if they can undertake the works and associated scaffold/access for working at height within the footprint of their property boundary.

Piling
Where vibro-compaction/displacement piling plant is to be used in development, details of the use of such machinery and a method statement should be submitted for the approval of the Network Rail’s Asset Protection Engineer prior to the commencement of works and the works shall only be carried out in accordance with the approved method statement.

Fencing
In view of the nature of the development, it is essential that the developer provide (at their own expense) and thereafter maintain a substantial, trespass proof fence along the development side of the existing boundary fence, to a minimum height of 1.8 metres. The 1.8m fencing should be adjacent to the railway boundary and the developer/applicant should make provision for its future maintenance and renewal without encroachment upon Network Rail land. Network Rail’s existing fencing/wall must not be removed or damaged and at no point either during construction or after works are completed on site should the foundations of the fencing or wall or any embankment therein, be damaged, undermined or compromised in any way. Any vegetation on Network Rail land and within Network Rail’s boundary must also not be disturbed. Any fencing installed by the applicant must not prevent Network Rail from maintaining its own fencing/boundary treatment.

Lighting
Any lighting associated with the development (including vehicle lights) must not interfere with the sighting of signalling apparatus and/or train drivers vision on approaching trains. The location and colour of lights must not give rise to the potential for confusion with the signalling.
arrangements on the railway. The developers should obtain Network Rail’s Asset Protection Engineer’s approval of their detailed proposals regarding lighting.

Noise and Vibration
The potential for any noise/ vibration impacts caused by the proximity between the proposed development and any existing railway must be assessed in the context of the National Planning Policy Framework which hold relevant national guidance information. The current level of usage may be subject to change at any time without notification including increased frequency of trains, night time train running and heavy freight trains.

Vehicle Incursion
Where a proposal calls for hard standing area / parking of vehicles area near the boundary with the operational railway, Network Rail would recommend the installation of a highways approved vehicle incursion barrier or high kerbs to prevent vehicles accidentally driving or rolling onto the railway or damaging lineside fencing.

Network Rail strongly recommends the developer contacts AssetProtectionSussex@networkrail.co.uk prior to any works commencing on site, and also to agree an Asset Protection Agreement with us to enable approval of detailed works. More information can also be obtained from our website at www.networkrail.co.uk/aspx/1538.asp.
Network Rail notes that there are a number of sites adjacent to the Railway and attach a standard response which sets out the issues that need to be considered. In particular with large new developments there is a concern about the risk of trespass and all new developments should have proper and suitable boundary fencing. The risk of greater flooding and drainage that new developments could potentially have on the Network Rail infrastructure and we would not want any increase of flooding or the increase in run off onto Railway Infrastructure.

The developer must ensure that their proposal, both during construction and after completion of works on site, does not encroach onto Network Rail land affect the safety, operation or integrity of the company’s railway and its infrastructure undermine its support zone damage the company’s infrastructure place additional load on outlings adversely affect any railway land or structure over-sail or encroach upon the air-space of any Network Rail land cause to obstruct or interfere with any works or proposed works or Network Rail development both now and in the future

The developer should comply with the following comments and requirements for the safe operation of the railway and the protection of Network Rail’s adjoining land.

Future maintenance
The development must ensure any future maintenance can be conducted solely on the applicant’s land. The applicant must ensure that any construction and any subsequent maintenance can be carried out to any proposed buildings or structures without adversely affecting the safety of, or encroaching upon Network Rail’s adjacent land and air-space, and therefore all any building should be situated at least 2 metres (3m for overhead lines and third rail) from Network Rail’s boundary. The reason for the 2m (3m for overhead lines and third rail) stand off requirement is to allow for construction and future maintenance of a building and without requirement for access to the operational railway environment which may not necessarily be granted or if granted subject to railway site safety requirements and special provisions with all associated railway costs charged to the applicant. Any
less than 2m (3m for overhead lines and third rail) and there is a strong possibility that the applicant (and any future resident) will need to utilise Network Rail land and air-space to facilitate works. The applicant / resident would need to receive approval for such works from the Network Rail Asset Protection Engineer, the applicant / resident would need to submit the request at least 20 weeks before any works were due to commence on site and they would be liable for all costs (e.g. all possession costs, all site safety costs, all asset protection presence costs). However, Network Rail is not required to grant permission for any third party access to its land. No structure/building should be built hard-against Network Rail's boundary as in this case there is an even higher probability of access to Network Rail land being required to undertake any construction / maintenance works. Equally any structure/building erected hard against the boundary with Network Rail will impact adversely upon our maintenance teams' ability to maintain our boundary fencing and boundary treatments.

**Drainage**

Storm/surface water must not be discharged onto Network Rail's property or into Network Rail's culverts or drains except by agreement with Network Rail. Suitable drainage or other works must be provided and maintained by the Developer to prevent surface water flows or run-off onto Network Rail's property. Proper provision must be made to accept and continue drainage discharging from Network Rail's property; full details to be submitted for approval to the Network Rail Asset Protection Engineer. Suitable foul drainage must be provided separate from Network Rail's existing drainage. Soakaways, as a means of storm/surface water disposal must not be constructed near within 10 – 20 metres of Network Rail's boundary at any point which could adversely affect the stability of Network Rail's property. After the completion and occupation of the development, any new or exacerbated problems attributable to the new development shall be investigated and remedied at the applicants' expense.

**Plant & Materials**

All operations, including the use of cranes or other mechanical plant working adjacent to Network Rail's property, must at all times be carried out in a "fail safe" manner such that in the event of mishandling, collapse or failure, no plant or materials are
capable of falling within 3.0m of the boundary with Network Rail.

Scaffolding
Any scaffold which is to be constructed within 10 metres of the railway boundary fence must be erected in such a manner that at no time will any poles over-sail the railway and protective netting around such scaffold must be installed. The applicant/applicant's contractor must consider if they can undertake the works and associated scaffold/access for working at height within the footprint of their property boundary.

Piling
Where vibro-compaction/displacement piling plant is to be used in development, details of the use of such machinery and a method statement should be submitted for the approval of the Network Rail's Asset Protection Engineer prior to the commencement of works and the works shall only be carried out in accordance with the approved method statement.

Fencing
In view of the nature of the development, it is essential that the developer provide (at their own expense) and thereafter maintain a substantial, trespass-proof fence along the development side of the existing boundary fence, to a minimum height of 1.8 metres. The 1.8m fencing should be adjacent to the railway boundary and the developer/applicant should make provision for its future maintenance and renewal without encroachment upon Network Rail land. Network Rail’s existing fencing/wall must not be removed or damaged and at no point during construction or after works are completed on site should the foundations of the fencing or wall or any embankment therein, be damaged, undermined or compromised in any way. Any vegetation on Network Rail land and within Network Rail’s boundary must also not be disturbed. Any fencing installed by the applicant must not prevent Network Rail from maintaining its own fencing/boundary treatment.

Lighting
Any lighting associated with the development (including vehicle lights) must not interfere with the sighting of signalling apparatus and/or train drivers’ vision on approaching trains. The location and colour of lights must not give rise to the potential for confusion with the signalling
arrangements on the railway. The developers should obtain Network Rail's Asset Protection Engineer's approval of their detailed proposals regarding lighting.

Noise and Vibration
The potential for any noise/vibration impacts caused by the proximity between the proposed development and any existing railway must be assessed in the context of the National Planning Policy Framework which hold relevant national guidance information. The current level of usage may be subject to change at any time without notification including increased frequency of trains, night time train running and heavy freight trains.

Vehicle Incursion
Where a proposal calls for hard standing area/parking of vehicles area near the boundary with the operational railway, Network Rail would recommend the installation of a highways approved vehicle incursion barrier or high kerbs to prevent vehicles accidentally driving or rolling onto the railway or damaging lineside fencing.

Network Rail strongly recommends the developer contacts AssetProtectionSussex@networkrail.co.uk prior to any works commencing on site, and also to agree an Asset Protection Agreement with us to enable approval of detailed works. More information can also be obtained from our website at www.networkrail.co.uk/aspx/1538.asp.

| 2634/01/013/DM36.5/C | Charlie Fagan | Comment | DM36.5 | The site is not suitable for Ark as it is too close to another academy. | No change | Comment is noted. | ARK | 201 |
Network Rail notes that there are a number of sites adjacent to the Railway and attach a standard response which sets out the issues that need to be considered. In particular with large new developments there is a concern about the risk of trespass and all new developments should have proper and suitable boundary fencing. The risk of greater flooding and drainage that new developments could potentially have on the Network Rail infrastructure and we would not want any increase of flooding or the increase in run off onto Railway Infrastructure.

The developer must ensure that their proposal, both during construction and after completion of works on site, does not:
- encroach onto Network Rail land
- affect the safety, operation or integrity of the company’s railway and its infrastructure
- undermine its support zone
- damage the company’s infrastructure
- place additional load on cuttings
- adversely affect any railway land or structure
- over-sail or encroach upon the air-space of any Network Rail land
- cause to obstruct or interfere with any works or proposed works or Network Rail development both now and in the future

The developer should comply with the following comments and requirements for the safe operation of the railway and the protection of Network Rail’s adjoining land.

Future maintenance
The development must ensure any future maintenance can be conducted solely on the applicant’s land. The applicant must ensure that any construction and any subsequent maintenance can be carried out to any proposed buildings or structures without adversely affecting the safety of, or encroaching upon Network Rail’s adjacent land and air-space, and therefore all proposed buildings should be situated at least 2 metres (3m for overhead lines and third rail) from Network Rail’s boundary. The reason for the 2m (3m for overhead lines and third rail) stand off requirement is to allow for construction and future maintenance of a building and without requirement for access to the operational railway environment which may not necessarily be granted or if granted subject to railway site safety requirements and special provisions with all associated railway costs charged to the applicant. Any
less than 2m (3m for overhead lines and third rail) and there is a strong possibility that the applicant (and any future resident) will need to utilise Network Rail land and air-space to facilitate works. The applicant / resident would need to receive approval for such works from the Network Rail Asset Protection Engineer, the applicant / resident would need to submit the request at least 20 weeks before any works were due to commence on site and they would be liable for all costs (e.g. all possession costs, all site safety costs, all asset protection presence costs). However, Network Rail is not required to grant permission for any third party access to its land. No structure/building should be built hard-against Network Rail’s boundary as in this case there is an even higher probability of access to Network Rail land being required to undertake any construction / maintenance works. Equally any structure/building erected hard against the boundary with Network Rail will impact adversely upon our maintenance teams’ ability to maintain our boundary fencing and boundary treatments.

Drainage
Storm/surface water must not be discharged onto Network Rail’s property or into Network Rail’s culverts or drains except by agreement with Network Rail. Suitable drainage or other works must be provided and maintained by the Developer to prevent surface water flows or run-off onto Network Rail’s property. Proper provision must be made to accept and continue drainage discharging from Network Rail’s property; full details to be submitted for approval to the Network Rail Asset Protection Engineer. Suitable foul drainage must be provided separate from Network Rail’s existing drainage. Soakaways, as a means of storm/surface water disposal must not be constructed near / within 10 – 20 metres of Network Rail’s boundary or at any point which could adversely affect the stability of Network Rail’s property. After the completion and occupation of the development, any new or exacerbated problems attributable to the new development shall be investigated and remedied at the applicants’ expense.

Plant & Materials
All operations, including the use of cranes or other mechanical plant working adjacent to Network Rail’s property, must at all times be carried out in a “fail safe” manner such that in the event of mishandling, collapse or failure, no plant or materials are
capable of falling within 3.0m of the boundary with Network Rail.

Scaffolding
Any scaffold which is to be constructed within 10 metres of the railway boundary fence must be erected in such a manner that at no time will any poles over-sail the railway and protective netting around such scaffold must be installed. The applicant/applicant's contractor must consider if they can undertake the works and associated scaffold/access for working at height within the footprint of their property boundary.

Piling
Where vibro-compaction/displacement piling plant is to be used in development, details of the use of such machinery and a method statement should be submitted for the approval of the Network Rail's Asset Protection Engineer prior to the commencement of works and the works shall only be carried out in accordance with the approved method statement.

Fencing
In view of the nature of the development, it is essential that the developer provide (at their own expense) and thereafter maintain a substantial, trespass-proof fence along the development side of the existing boundary fence, to a minimum height of 1.8 metres. The 1.8m fencing should be adjacent to the railway boundary and the developer/applicant should make provision for its future maintenance and renewal without encroachment upon Network Rail land. Network Rail's existing fencing/wall must not be removed or damaged and at no point either during construction or after works are completed on site should the foundations of the fencing or wall or any embankment therein, be damaged, undermined or compromised in any way. Any vegetation on Network Rail land and within Network Rail's boundary must also not be disturbed. Any fencing installed by the applicant must not prevent Network Rail from maintaining its own fencing/boundary treatment.

Lighting
Any lighting associated with the development (including vehicle lights) must not interfere with the sighting of signalling apparatus and/or train drivers vision on approaching trains. The location and colour of lights must not give rise to the potential for confusion with the signalling
arrangements on the railway. The developers should obtain Network Rail’s Asset Protection Engineer’s approval of their detailed proposals regarding lighting.

Noise and Vibration
The potential for any noise/vibration impacts caused by the proximity between the proposed development and any existing railway must be assessed in the context of the National Planning Policy Framework which holds relevant national guidance information. The current level of usage may be subject to change at any time without notification including increased frequency of trains, night time train running and heavy freight trains.

Vehicle Incursion

**Addiscombe Residents Association**

Object: The proposal should have a Parcel Collection office and a cycle hub for those who travel on trains. The allocation should include a parcel collection office.

**Change:** The site has an extant planning permission for residential, hotel and/or office use as well as retail uses. It is considered appropriate for such uses, however it is considered a suitable site for a cycle hub and so will be included in the allocation. The provision of a parcel collection office is unlikely to come forward as the site is no longer owned by the Royal Mail and will not be commercially viable for a private developer to provide.

**Support:**

- DM36.5
- Mrs Mira Armour
- HOME Residents Association

SUPPORT the proposal to have here - the Parcel Collection office (easily accessible by residents ) - a cycle hub - for those that travel on by trains.

<td>Hyde Housing Association</td>
<td>Comment</td>
<td>DM36.5</td>
<td>21</td>
<td>We are supportive of the drive to enable development opportunities in the area. Table 11.9 site 21 refers to Hyde Housing Group’s Addiscombe Square site. The site is situated adjacent Croydon East Railway Station where the incorporation of some retail uses are considered wholly appropriate for this location. Suggested wording is as follows: Mixed use development incorporating residential and retail subject to satisfying the sequential test. Alternative uses could also be explored including a hotel and/or offices. There should be recognition that the redevelopment scheme could include the redevelopment of the Porter and Sorter Public House and improvements to Billington Hill.</td>
<td>No change</td>
</tr>
</tbody>
</table>

**Comment**

Sites are allocated based on their suitability of uses - should a proposal come forward in this location for retail uses; it would not be supported in the first instance (and is therefore not allocated as such) and would require a sequential test. The only exception to this in this instance is where retail development comes forward as part of the extent planning permission on the site.
Last year there was debate about the future of SEGAS House and suggestions made that it should be turned into a community arts centre, museum and art gallery, local history centre, etc. The Council has designated it for housing use in the detailed site proposals for the Croydon Opportunity Area (Town Centre). The Arts Network is totally opposed to this proposed use. It considers that such a use would be inappropriate and difficult to achieve without compromising the exterior of the building. The Arts Network considers that a community use for the building will assist in linking the two sides of the proposed Cultural Quarter together on both sides of Wellesley Rd, and that it would provide an attraction for people to come into the Town Centre during the period of the closure of the Fairfield Halls.

Replace ‘Residential conversion’ by ‘Arts and heritage centre’ in the listing of SEGAS House in Detailed Policies & Proposals Table 11.9.

The site lies within the Primary Shopping Area and can therefore accommodate other town centre uses in accordance with Local Plan policy, however the potential for community uses should be fully explored prior to any proposals for residential and/or retail uses on the site being considered. The site will not be safeguarded for community uses whereby development of this type may not occur.

Option 1 is misleading as it fails to make reference to planning application reference 15/01419/P & 15/01422/LB which is due for imminent determination and which will provide context to redevelopment of this site. This application seeks to deliver 232 residential units (well in excess of the 50 to 141 suggested in the draft policy). The site is well suited for retail development, up to the provision of existing, given its main street frontages and accessibility.

The allocation should reflect the planning applications 15/01419/P and 15/01422/LB.

The allocation will be amended to reflect the extant planning permission on the site which will provide 232 residential units as part of an over all redevelopment of the site which includes re-provision of retail uses, car and cycle parking and a public square.
I am expressing my extreme disquiet over the cavalier ‘development’ plans proposed by the current Croydon Council, especially in my own area, Shrublands and Shirley. I can well imagine there is council property that is lying empty. In my area, it has taken more than 15 years to bring two council properties back into use long after they became vacant and fell into extreme disrepair, namely the school keeper’s house by Forest Academy (formerly Spring Park School) and the former Children’s Home in Oak Avenue. In Croydon town centre there are office blocks that have been empty for decades. There is a large, vacant, building ready plot, in Addiscombe Road, between Park Hill Road and Addiscombe Grove, neglected for more than 15 years. The shops and near derelict dwellings above them on Station Road, West Croydon, are a disgrace to the Borough and badly need redevelopment. Until all such places have been developed, residential areas should not be considered and then only with great sensitivity to existing and future residents, who will want to find the green spaces the Shrublands and Shirley area is famous for.

**Object**

| 2750/01/001/DM36.5/O | Home Office | DM36.5 | The Home Office has concerns about the suggestion of a mixture of uses at both Lunar House and Apollo House. Owing to the nature of its functions the Home Office has concerns about sharing the sites with other uses/users for security reasons. This is due to the nature of the current operations on both sites (UK Visas and Immigration). Lunar House and Apollo House were built to operate as offices (Use Class B1a) and the Home Office wishes to ensure that the buildings can remain in office use for so long as required. | Change | The allocation which currently promotes office and residential and/or hotel (with healthcare facility if required by the NHS) will be amended to include, if the site is no longer required by the Home Office. |

<p>| 6471/02/001/DM36.5/O | Egan Property Asset Management | DM36.5 | This site is within a location that the Opportunity Area Planning Framework (OAPF) identifies as being within a “Tall Buildings Area” (Figure 4.6 within the OAPF). Thus, there is potential for a tall building on this site (at least 40 storeys) which could deliver c.400 dwellings. The development potential of this site is not correctly being optimised in this allocation. There is heritage and design evidential justification for 40+ storeys at this location. It is important to facilitate the development of this site promptly in order that its development does not detract from the use and layout of the Whitgift scheme once that is implemented. | No change | The use of residential has been established in principle however the number of homes can be considered through any forthcoming planning application. It is beyond the scope of the allocation to determine this definitively and the ranges applied to all sites are indicative and are subject to the surrounding character. |</p>

| 02 September 2016 | 2749/03/001/DM36.5/O Mr A Kennedy | SEGAS House is a Grade II statutory listed building which is NOT suitable for housing, the internal and external features of which would be seriously affected if it were to be converted for that purpose. The building is much more suited to community, commercial or public use, the use for which it was designed and intended. The principal features which would be downgraded by any other use would be the extra large windows, the division of which into smaller units would be detrimental to the appearance of the building, the plan fails to meet Statutory Objectives 502, 505, SOG and SO7. The best use for the building within the public, commercial, community realm would be as craft workshops, creative studios both in the artistic and digital industries, an industrial and craft centre shop, a gallery, museum and local information centre for visitors to Croydon and possibly and desirably with a performance space for 150 to 200 audience inside in an atrium or Shakespeare's Globe type theatre with banked seating. The resulting development could then meet some of Croydon's strategic objectives namely: -SO 2 Fostering an environment where both existing, and new, innovative, cultural and creative enterprises can prosper - So 4 Reduce social, economic and environmental deprivation ... by... reducing unemployment, improving skills education...community and environmental conditions. - SO 5 Ensure that high quality new development both integrates, respects and enhances the borough's natural environment and built heritage. - SO 7 Conserve and create spaces and buildings that foster safe, healthy and cohesive communities.
| DM36.5 231 | | Change |
| 2843/01/018/DM36.5/O Minerva | Other uses apart from residential conversion should be considered and should be extended to include site 194. | The proposed use is "residential conversion". The site does not lend itself to a residential conversion, and indeed, extension to provide additional floorspace. Equally, the site could suit other town centre uses. It is a listed building and the policy should not preclude any viable town centre use of the building in future. It would be logical for this site to be extended to include the adjacent St Georges Walk, Katherine House and Park House site (reference 194) as both sites are in the same ownership and will likely come forward under one planning application. Within the background 'Place Specific Policies' document, reference is made to the site having capacity for 40 homes, this has not been tested and the actual figure will be derived from more detailed work.
| DM36.5 231 | | Change |
| | | The site lies within the Primary Shopping Area and can therefore accommodate other town centre uses in accordance with Local Plan policy, however the potential for community uses should be fully explored prior to any proposals for residential and/or retail uses on the site being considered. The site will not be safeguarded for community uses whereby development of this type may not occur.
| | | The site lies within the Primary Shopping Area and can therefore accommodate other town centre uses in accordance with Local Plan policy, however the potential for community uses should be fully explored prior to any proposals for residential and/or retail uses on the site being considered. It is not considered appropriate to include site 194 as part of this allocation as this site is a listed building and will require particular sensitivity in its redevelopment.
This site is owned by LCR, we have been working with BDP and your colleagues in the Regeneration Team, within Development and Environment, for the past 12 months. A land owner’s workshop was carried out at the start of the year to discuss our proposals and further masterplanning work carried out for the urban block. Can I suggest you discuss the site and the work with your colleague James Collier who I have copied in to this email.

Proposals looked at both full redevelopment of the site and partial redevelopment and refurbishment. The leading schemes consulted on with the Council proposed mixed used development with between 310,000 - 550,000 sq.ft. of office and 290-340 residential units, along with the provision of new public squares and routes across the site, and around 7,000 sq.ft. of ancillary retail fronting public spaces.

As the owner and likely developers we would seek to consider development following the expiry of key leases in 2021, rather than 2026. Due to the new routes through the site, scale of development potential and location between East Croydon Station and Westfield we would expect there to be ancillary ground floor retail in order to create a successful and sustainable place.

We would therefore suggest the following amendments:
- Site area 0.84 ha
- Height 18 storeys
- The acceptance of ancillary retail at ground
- Phasing of development post 2021
- Incorporation of a summary of discussions with the landowner

In relation to accommodating any NHS demand, we would be happy to do this subject to market price/ rent being offered for premises.

DM36.5

The Home Office has concerns about the suggestion of a mixture of uses at both Lunar House and Apollo House. Owing to the nature of its functions the Home Office has concerns about sharing the sites with other uses / users for security reasons. This is due to the nature of the current operations on both sites (UK Visas and Immigration). Lunar House and Apollo House were built to operate as offices (Use Class B1a) and the Home Office wishes to ensure that the buildings can remain in office use for so long as required.

The allocation which currently promotes office and residential and/or hotel (with healthcare facility if required by the NHS) will be amended to include, if the site is no longer required by the Home Office.
This site forms part of the wider Ruskin Square development. As the landowner we would not make the site available for a primary school and as such the preferred option is not deliverable. As landowner we intend to build out the site (subject to Reserved Matters approval) for residential use in accord with the outline planning permission. The site does not have permission for any use other than residential so the alternative use on this site (listed as residential and/or hotel and/or office is also not deliverable.

2634/01/006/DM36.5/S Charlie Fagan Support DM36.5 243 We are aware that a planning application was submitted in 2011 including the site as part of a mixed development of offices and shopping units. The site itself is being proposed to be the parking for the development. However, if the proposed development were not to go ahead, we would certainly consider it as an option for the two-form entry primary school.
- The site is situated in an area identified as having a requirement for additional primary places in the coming years.
- The site is a good shape and size for a primary school.
- The site is located in an area which meets the demographic criteria of Ark schools.
- The site is located near Ark Oval Primary Academy and would therefore create an opportunity to establish a link between the two schools.

28 August 2016 Croydon Gateway Limited Partners
Network Rail notes that there are a number of sites adjacent to the Railway and attach a standard response which sets out the issues that need to be considered. In particular with large new developments there is a concern about the risk of trespass and all new developments should have proper and suitable boundary fencing. The risk of greater flooding and drainage that new developments could potentially have on the Network Rail infrastructure and we would not want any increase of flooding or the increase in run off onto Railway Infrastructure.

The developer must ensure that their proposal, both during construction and after completion of works on site, does not:
- encroach onto Network Rail land
- affect the safety, operation or integrity of the company’s railway and its infrastructure
- undermine its support zone
- damage the company’s infrastructure
- place additional load on outtings
- adversely affect any railway land or structure
- over-sail or encroach upon the air-space of any Network Rail land
- cause to obstruct or interfere with any works or proposed works or Network Rail development both now and in the future

The developer should comply with the following comments and requirements for the safe operation of the railway and the protection of Network Rail’s adjoining land.

Future maintenance

The development must ensure any future maintenance can be conducted solely on the applicant’s land. The applicant must ensure that any construction and any subsequent maintenance can be carried out to any proposed buildings or structures without adversely affecting the safety of, or encroaching upon Network Rail’s adjacent land and air-space, and therefore all new building should be situated at least 2 metres (3m for overhead lines and third rail) from Network Rail’s boundary. The reason for the 2m (3m for overhead lines and third rail) stand off requirement is to allow for construction and future maintenance of a building and without requirement for access to the operational railway environment which may not necessarily be granted or if granted subject to railway site safety requirements and special provisions with all associated railway costs charged to the applicant. Any
less than 2m (3m for overhead lines and third rail) and there is a strong possibility that the applicant (and any future resident) will need to utilise Network Rail land and air-space to facilitate works. The applicant / resident would need to receive approval for such works from the Network Rail Asset Protection Engineer, the applicant / resident would need to submit the request at least 20 weeks before any works were due to commence on site and they would be liable for all costs (e.g. all possession costs, all site safety costs, all asset protection presence costs). However, Network Rail is not required to grant permission for any third party access to its land. No structure/building should be built hard-against Network Rail’s boundary as in this case there is an even higher probability of access to Network Rail land being required to undertake any construction / maintenance works. Equally any structure/building erected hard against the boundary with Network Rail will impact adversely upon our maintenance teams’ ability to maintain our boundary fencing and boundary treatments.

Drainage
Storm/surface water must not be discharged onto Network Rail’s property or into Network Rail’s culverts or drains except by agreement with Network Rail. Suitable drainage or other works must be provided and maintained by the Developer to prevent surface water flows or run-off onto Network Rail’s property. Proper provision must be made to accept and continue drainage discharging from Network Rail’s property; full details to be submitted for approval to the Network Rail Asset Protection Engineer. Suitable foul drainage must be provided separate from Network Rail’s existing drainage. Soakaways, as a means of storm/surface water disposal must not be constructed near within 10 – 20 metres of Network Rail’s boundary or at any point which could adversely affect the stability of Network Rail’s property. After the completion and occupation of the development, any new or exacerbated problems attributable to the new development shall be investigated and remedied at the applicants’ expense.

Plant & Materials
All operations, including the use of cranes or other mechanical plant working adjacent to Network Rail’s property, must at all times be carried out in a “fail safe” manner such that in the event of mishandling, collapse or failure, no plant or materials are
capable of falling within 3.0m of the boundary with Network Rail.

Scaffolding
Any scaffold which is to be constructed within 10 metres of the railway boundary fence must be erected in such a manner that at no time will any poles over-sail the railway and protective netting around such scaffold must be installed. The applicant/applicant’s contractor must consider if they can undertake the works and associated scaffold/access for working at height within the footprint of their property boundary.

Piling
Where vibro-compaction/displacement piling plant is to be used in development, details of the use of such machinery and a method statement should be submitted for the approval of the Network Rail’s Asset Protection Engineer prior to the commencement of works and the works shall only be carried out in accordance with the approved method statement.

Fencing
In view of the nature of the development, it is essential that the developer provide (at their own expense) and thereafter maintain a substantial, trespass proof fence along the development side of the existing boundary fence, to a minimum height of 1.8 metres. The 1.8m fencing should be adjacent to the railway boundary and the developer/applicant should make provision for its future maintenance and renewal without encroachment upon Network Rail land. Network Rail’s existing fencing/wall must not be removed or damaged and at no point either during construction or after works are completed on site should the foundations of the fencing or wall or any embankment therein, be damaged, undermined or compromised in any way. Any vegetation on Network Rail land and within Network Rail’s boundary must also not be disturbed. Any fencing installed by the applicant must not prevent Network Rail from maintaining its own fencing/boundary treatment.

Lighting
Any lighting associated with the development (including vehicle lights) must not interfere with the sighting of signalling apparatus and/or train drivers vision on approaching trains. The location and colour of lights must not give rise to the potential for confusion with the signalling.
arrangements on the railway. The developers should obtain Network Rail’s Asset Protection Engineer’s approval of their detailed proposals regarding lighting.

Noise and Vibration
The potential for any noise/vibration impacts caused by the proximity between the proposed development and any existing railway must be assessed in the context of the National Planning Policy Framework which hold relevant national guidance information. The current level of usage may be subject to change at any time without notification including increased frequency of trains, night time train running and heavy freight trains.

Vehicle Incursion
Where a proposal calls for hard standing area/parking of vehicles area near the boundary with the operational railway, Network Rail would recommend the installation of a highways approved vehicle incursion barrier or high kerbs to prevent vehicles accidentally driving or rolling onto the railway or damaging lineside fencing.

Network Rail strongly recommends the developer contacts AssetProtectionsSussex@networkrail.co.uk prior to any works commencing on site, and also to agree an Asset Protection Agreement with us to enable approval of detailed works. More information can also be obtained from our website at www.networkrail.co.uk/aspx/1538.asp.

2637/01/002/DM36.5/S
Support DM36.5
Metropolitan Properties (Provincial) 247
96 George Street to the East of Suffolk House, has been put forward as a site specific allocation (Reference number 247). The identified preferred option for this site is for offices with residential development (19 to 52 units) or hotel and/or retail. Metropolitan Properties is supportive of this allocation as it will assist in the development aims of both the Croydon Opportunity Area and the Fairfield Masterplan.

Note: rep. (2807) of the landlord also supports designation.
The allocation in the Plan is for offices with residential and/or hotel with health care facility. This site has been in office use and this ceased in November 2014. Since 2013, it has had several prior approvals for conversion to flats and now holds consents for 62 units from the basement to the tenth floors. Work has commenced on the building. Under the terms of the GPDO 2015, the prior approvals can be commenced within 3 years from approval and the scheme comprising 56 of the units was approved in August 2015 so the building has to be converted by August 2018. To include in a Plan running until 2036 a policy which states that the building can remain as offices then converted around 2026 to include a hotel or health club or other such town centre use compliant with policy SP3 as mentioned is unrealistic since there is no chance at all that this will happen. A more appropriate policy would need to take account this is a building being in residential use by 2018. For the reasons outlined above—the building is already being worked on and is expected to be in use as flats by 2018. To state that the building will not change from its existing use as offices until 2020 is not possible given the permissions that already exist for the site. The amount of housing units stated to be required is 13–36. This is not at all realistic especially given the size and number of floors. The building has consent for 62 units and this should be acknowledged for its contribution to the housing targets. The Council makes it clear that it has a shortfall in housing yet it is looking for windfall development of around 10000 units. It would be more realistic and more likely that the Plan overall will pass Examination if the Council acknowledges that some of the shortfall in housing units is already provided in this and other Prior Approval schemes. It would not be difficult to contact the landowners about which schemes are being implemented—they are already being consulted as part of the current process.

The site should be allocated for residential as it is currently being converted. The number of housing units should be increased to 62 units.
Object Site 375 is described as No.7 Cairo New Road. There is no such number. The Council appear to be defining 5 Cairo New Road as two distinct sites, when that is not the case. Both sites are known as 5 Cairo New Road, with the buildings originally constructed for use as a single factory, with a central access point between two factory buildings, a service yard at the rear, and an interconnecting pedestrian bridge between the two buildings. Whilst the two connected buildings are under different ownership and their uses are no longer for factory purposes they are nevertheless connected and visually coherent as a whole. Both owners are currently considering the potential for redevelopment. It is inappropriate for the Council to suggest that the site of 5 Cairo New Road can be split into two and developed as two separate entities. The splitting of the site into two does not encourage a comprehensive or high quality development that will satisfy the Council’s aims and objectives for this area, and it will hinder the feasibility of any project.

Sites 375 and 178 should be seen as one site.

Object The site allocations as written suggest that a B1 use needs to be retained at the southern end closest to the town centre (Site 178) and that a D1 use is acceptable at the northern end of the site, furthest away from the town centre (Site 375). This is illogical as the community uses should be positioned in that part of the site closest to the Town Centre where the building and active use can face towards the open spaces, town square and former chapel building at Reeves Corner. This arrangement will also offer the opportunity to improve the relationship of buildings and spaces, and provide appropriate and compatible uses to the adjoining Tramstop. We question whether it is appropriate to encourage ground floor residential units directly adjacent the busy and noisy Tramstop, below a flyover. A community or commercial use would be more compatible. As the site allocations are currently written, any D1 use is restricted to the northern part of the site, in a location that is remote from the Centre and where it would potentially conflict with adjoining uses.

The D1 one use should not be restricted to the northern part of the site.

**3468/01/003/DM36.5/O**
Mr Chima Amiaka
New Life Croydon

Object DM36.5

375

The dividing line between the two sites is down the centre of the current access road to the shared parking and servicing area. One half of the site cannot therefore be developed without the other unless separate accesses are to be provided. This further prejudices the successful development of both sites and does not make optimum use of urban land.

Sites 375 and 178 should be seen as one site. No change

The two site allocations reflect the current planning permission for the southern part of the site which could be implemented. The fact that there are two allocations would not preclude both sites being brought forward as one development.

**3468/01/004/DM36.5/O**
Mr Chima Amiaka
New Life Croydon

Object DM36.5

375

The red line boundary should also include the parcel of land fronting Ruskin Road as this will otherwise become redundant land.

Include the land fronting Ruskin Road in the allocation Change

The land on Ruskin Road will be included as part of the site allocation as it is part of the site.

**3468/01/005/DM36.5/O**
Mr Chima Amiaka
New Life Croydon

Object DM36.5

375

With regard to the phasing of the development and the evidence of deliverability, the owners of the site are currently undertaking pre-application discussions with the Council (Reference 15/4747/PRE) and there is therefore strong community and developer interest and significant potential for development sooner than 2026

Change the phasing of the site to before 2026. Change

The phasing has been amended in light of the comments and is now anticipated to be delivered between 2021 - 2026.

**3581/01/002/DM36.5/O**
Mercy Sambol

Object DM36.5

375

I am writing to oppose the planning permission application number 15/04748/P for 5 Cairo New Road, Croydon, CR0 1XP. This application must not be granted because of:

1. The tram
2. Traffic

For years the situation around the tram (Reeves Corner) has been so smooth, because the area has been less congested. If the planning permission is granted, there will be so much congestion and traffic will be something else.

5 New Cairo Road is not designed for residential purpose, considering the location and therefore, the planning permission application must be refused with no right of appeal.

I am a tram user and work in Croydon and I support friends, family and residents of Croydon. The tram is the most wonderful thing that has ever happened to Croydon to decrease traffic congestion.

No change

The site has been consented to, was considered on its merits and took into account the traffic impacts generated by the site.

**The Whitgift Centre is listed at ref. no. 393 of Table 11.9 with a proposed use identified as “Expansion of shopping centre, improved transport infrastructure, public realm and residential development”. We consider that the wording cited within Table 11.9 is not accurate as it stands and suggest that reference to “improved transport infrastructure” be removed. This is on the basis that while the Whitgift Centre development proposals will result in improved transport infrastructure for the Borough as a whole, as far as the allocation goes, the site will not specifically deliver transport infrastructure, only parking. We therefore consider that the text as currently drafted is misleading and would request that this reference be removed.

### Change

- **Reference to “improved transport infrastructure”** will be removed from the Proposed Use, as it is not considered necessary. Reference to a car park will be included however as this is part of what is proposed for the site and will fall within the site boundary.

---

### Soundness - Effective

<table>
<thead>
<tr>
<th>DM36.5</th>
<th>393</th>
</tr>
</thead>
</table>

**The Council is staking a lot on the alleged benefits of the redevelopment of the Whitgift Centre by the developers Westfield and Hammerson’s Croydon Partnership. The working group is not convinced that these benefits will be for residents, but are mainly aimed to attract better-off customers from Surrey, Sussex and Kent.

10. The development of the Whitgift Centre redevelopment claim that 5,000 jobs mainly in retail and leisure and c 4,000 in construction are promised. But uncertainties are also leading to the loss of current jobs.

11. It is likely that many existing businesses will struggle to survive when they have to close or re-locate for the Whitgift Centre to be demolished. Those seeking to move into the new Centre will face higher rental costs of the new shop floor space and business rates compared with current levels. Existing businesses have no guarantee they will be able to move into the new Centre. Most jobs will be low wage retail and leisure jobs, many part-time.

### No change

- **There is no policy that would seek to provide affordable retail units and so in that respect cannot be considered a requirement. Furthermore, it is considered that there are affordable retail units already within the surrounding area that would meet a need should that arise.**
Policy DM36.5 refers to the allocated sites for development set out in Table 11.9. The reference to Corinthian House, 17 Lansdowne Road (ref number site 489), was considered in our response to the informal consultation exercise dated 10 June 2015, and we would like these comments to also be taken into account in respect of this current consultation exercise.

For the reasons set out in that letter, the Preferred Use should be amended to make clear it is a site suitable for redevelopment, and should state:

"Residential and/or any town centre use including hotel and offices. Retail use will be acceptable if the sequential and impact tests can be met."

The reasons for the preferred use also set out in our letter dated 10 June 2015 should also be taken into account in respect of this consultation.

No change

The proposed use of the site is "retention of offices with residential conversion, and/or hotel (with healthcare facility if required by the NHS)" and is therefore identified as a site for development/redevelopment. It is not considered appropriate to identify this site as suitable for other uses as set out in the representation as this would not achieve the objectives of the Office Retention Policy and would also create a tension with town centre policies which promote retail in suitable areas. Sites are allocated based on their suitability of uses - should a proposal come forward in this location for retail uses; it would not be supported in the first instance (and is therefore not allocated as such) and would require a sequential test.
<table>
<thead>
<tr>
<th>Object</th>
<th>DM36.5 522</th>
<th>Objection - suggested alternative sites below: 522, Wandle Road surface car park, Wandle Road, Croydon Opportunity area</th>
<th>No change</th>
</tr>
</thead>
</table>

As part of the assessment and selection of sites for Gypsy and travellers, this site was considered. Since the proposed site is situated within the COA and is ideally located for a district energy centre, bus stand and residential development. The majority of the site is in flood zone 3a, and in accordance with the National Planning Practice Guidance, caravans (which are a "Highly Vulnerable" use) are not considered appropriate in such locations.
Network Rail notes that there are a number of sites adjacent to the Railway and attach a standard response which sets out the issues that need to be considered. In particular with large new developments there is a concern about the risk of trespass and all new developments should have proper and suitable boundary fencing. The risk of greater flooding and drainage that new developments could potentially have on the Network Rail infrastructure and we would not want any increase of flooding or the increase in run off onto Railway Infrastructure.

The developer must ensure that their proposal, both during construction and after completion of works on site, does not:
- encroach onto Network Rail land
- affect the safety, operation or integrity of the company’s railway and its infrastructure
- undermine its support zone
- damage the company’s infrastructure
- place additional load on cuttings
- adversely affect any railway land or structure
- over-sail or encroach upon the airspace of any Network Rail land
- cause to obstruct or interfere with any works or proposed works or Network Rail development both now and in the future.

The developer should comply with the following comments and requirements for the safe operation of the railway and the protection of Network Rail’s adjoining land.

Future maintenance
The development must ensure any future maintenance can be conducted solely on the applicant’s land. The applicant must ensure that any construction and any subsequent maintenance can be carried out to any proposed buildings or structures without adversely affecting the safety of, or encroaching upon Network Rail’s adjacent land and air-space, and therefore all any building should be situated at least 2 metres (3m for overhead lines and third rail) from Network Rail’s boundary. The reason for the 2m (3m for overhead lines and third rail) stand off requirement is to allow for construction and future maintenance of a building and without requirement for access to the operational railway environment which may not necessarily be granted or if granted subject to railway site safety requirements and special provisions with all associated railway costs charged to the applicant.
less than 2m (3m for overhead lines and third rail) and there is a strong possibility that the applicant (and any future resident) will need to utilise Network Rail land and air-space to facilitate works. The applicant / resident would need to receive approval for such works from the Network Rail Asset Protection Engineer, the applicant / resident would need to submit the request at least 20 weeks before any works were due to commence on site and they would be liable for all costs (e.g. all possession costs, all site safety costs, all asset protection presence costs). However, Network Rail is not required to grant permission for any third party access to its land. No structure/building should be built hard-against Network Rail’s boundary as in this case there is an even higher probability of access to Network Rail land being required to undertake any construction / maintenance works. Equally any structure/building erected hard against the boundary will impact adversely upon our maintenance teams’ ability to maintain our boundary fencing and boundary treatments.

Drainage
Storm/surface water must not be discharged onto Network Rail’s property or into Network Rail’s culverts or drains except by agreement with Network Rail. Suitable drainage or other works must be provided and maintained by the Developer to prevent surface water flows or run-off onto Network Rail’s property. Proper provision must be made to accept and continue drainage discharging from Network Rail’s property; full details to be submitted for approval to the Network Rail Asset Protection Engineer. Suitable foul drainage must be provided separate from Network Rail’s existing drainage. Soakaways, as a means of storm/surface water disposal must not be constructed near/within 10 – 20 metres of Network Rail’s boundary at any point which could adversely affect the stability of Network Rail’s property. After the completion and occupation of the development, any new or exacerbated problems attributable to the new development shall be investigated and remedied at the applicants’ expense.

Plant & Materials
All operations, including the use of cranes or other mechanical plant working adjacent to Network Rail’s property, must at all times be carried out in a “fail safe” manner such that in the event of mishandling, collapse or failure, no plant or materials are
capable of falling within 3.0m of the boundary with Network Rail.

Scaffolding
Any scaffold which is to be constructed within 10 metres of the railway boundary fence must be erected in such a manner that at no time will any poles over-sail the railway and protective netting around such scaffold must be installed. The applicant/applicant’s contractor must consider if they can undertake the works and associated scaffold/access for working at height within the footprint of their property boundary.

Piling
Where vibro-compaction/displacement piling plant is to be used in development, details of the use of such machinery and a method statement should be submitted for the approval of the Network Rail’s Asset Protection Engineer prior to the commencement of works and the works shall only be carried out in accordance with the approved method statement.

Fencing
In view of the nature of the development, it is essential that the developer provide (at their own expense) and thereafter maintain a substantial, trespass proof fence along the development side of the existing boundary fence, to a minimum height of 1.8 metres. The 1.8m fencing should be adjacent to the railway boundary and the developer/applicant should make provision for its future maintenance and renewal without encroachment upon Network Rail land. Network Rail’s existing fencing/wall must not be removed or damaged and at no point either during construction or after works are completed on site should the foundations of the fencing or wall or any embankment therein, be damaged, undermined or compromised in any way. Any vegetation on Network Rail land and within Network Rail’s boundary must also not be disturbed. Any fencing installed by the applicant must not prevent Network Rail from maintaining its own fencing/boundary treatment.

Lighting
Any lighting associated with the development (including vehicle lights) must not interfere with the sighting of signalling apparatus and/or train drivers vision on approaching trains. The location and colour of lights must not give rise to the potential for confusion with the signalling
arrangements on the railway. The developers should obtain Network Rail’s Asset Protection Engineer’s approval of their detailed proposals regarding lighting.

Noise and Vibration
The potential for any noise/vibration impacts caused by the proximity between the proposed development and any existing railway must be assessed in the context of the National Planning Policy Framework which holds relevant national guidance information. The current level of usage may be subject to change at any time without notification including increased frequency of trains, night time train running and heavy freight trains.

Vehicle Incursion
Where a proposal calls for hard standing area/parking of vehicles area near the boundary with the operational railway, Network Rail would recommend the installation of a highways approved vehicle incursion barrier or high kerbs to prevent vehicles accidentally driving or rolling onto the railway or damaging lineside fencing.

Network Rail strongly recommends the developer contacts AssetProtectionSussex@networkrail.co.uk prior to any works commencing on site, and also to agree an Asset Protection Agreement with us to enable approval of detailed works. More information can also be obtained from our website at www.networkrail.co.uk/aspx/1538.asp.

We support the alternative option for this site (use as residential development) given the plan period runs to 2036 and the strategic approach towards car parking in the Croydon Opportunity Area (car parking requires rationalisation to ensure car parks are where they are needed to be to serve businesses and the residential community).

Allocate the site for residential development.

The site can be allocated for residential development and for use as a public car park.
Network Rail notes that there are a number of sites adjacent to the Railway and attach a standard response which sets out the issues that need to be considered. In particular with large new developments there is a concern about the risk of trespass and all new developments should have proper and suitable boundary fencing. The risk of greater flooding and drainage that new developments could potentially have on the Network Rail infrastructure and we would not want any increase of flooding or the increase in run off onto Railway Infrastructure.

The developer must ensure that their proposal, both during construction and after completion of works on site, does not:
- encroach onto Network Rail land
- affect the safety, operation or integrity of the company's railway and its infrastructure
- undermine its support zone
- damage the company’s infrastructure
- place additional load on outlings
- adversely affect any railway land or structure
- over-sail or encroach upon the air-space of any Network Rail land
- cause to obstruct or interfere with any works or proposed works or Network Rail development both now and in the future

The developer should comply with the following comments and requirements for the safe operation of the railway and the protection of Network Raft's adjoining land.

Future maintenance
The development must ensure any future maintenance can be conducted solely on the applicant’s land. The applicant must ensure that any construction and any subsequent maintenance can be carried out to any proposed buildings or structures without adversely affecting the safety of, or encroaching upon Network Rail’s adjacent land and air-space, and therefore all/any building should be situated at least 2 metres (3m for overhead lines and third rail) from Network Rail’s boundary. The reason for the 2m (3m for overhead lines and third rail) stand off requirement is to allow for construction and future maintenance of a building and without requirement for access to the operational railway environment which may not necessarily be granted or if granted subject to Railway site safety requirements and special provisions with all associated railway costs charged to the applicant. Any
less than 2m (3m for overhead lines and third rail) and there is a strong possibility that the applicant (and any future resident) will need to utilise Network Rail land and air-space to facilitate works. The applicant / resident would need to receive approval for such works from the Network Rail Asset Protection Engineer, the applicant / resident would need to submit the request at least 20 weeks before any works were due to commence on site and they would be liable for all costs (e.g. all possession costs, all site safety costs, all asset protection presence costs). However, Network Rail is not required to grant permission for any third party access to its land. No structure/building should be built hard-against Network Rail’s boundary as in this case there is an even higher probability of access to Network Rail land being required to undertake any construction / maintenance works. Equally any structure/building erected hard against the boundary with Network Rail will impact adversely upon our maintenance teams’ ability to maintain our boundary fencing and boundary treatments.

Drainage
Storm/surface water must not be discharged onto Network Rail’s property or into Network Rail’s culverts or drains except by agreement with Network Rail. Suitable drainage or other works must be provided and maintained by the developer to prevent surface water flows or run-off onto Network Rail’s property. Proper provision must be made to accept and continue drainage discharging from Network Rail’s property; full details to be submitted for approval to the Network Rail Asset Protection Engineer. Suitable foul drainage must be provided separate from Network Rail’s existing drainage. Soakaways, as a means of storm/surface water disposal must not be constructed near/within 10 – 20 metres of Network Rail’s boundary or at any point which could adversely affect the stability of Network Rail’s property. After the completion and occupation of the development, any new or exacerbated problems attributable to the new development shall be investigated and remedied at the applicants’ expense.

Plant & Materials
All operations, including the use of cranes or other mechanical plant working adjacent to Network Rail’s property, must at all times be carried out in a “fail safe” manner such that in the event of mishandling, collapse or failure, no plant or materials are
capable of falling within 3.0m of the boundary with Network Rail.

Scaffolding
Any scaffold which is to be constructed within 10 metres of the railway boundary fence must be erected in such a manner that at no time will any poles over-sail the railway and protective netting around such scaffold must be installed. The applicant/applicant's contractor must consider if they can undertake the works and associated scaffold/access for working at height within the footprint of their property boundary.

Piling
Where vibro-compaction/displacement piling plant is to be used in development, details of the use of such machinery and a method statement should be submitted for the approval of the Network Rail’s Asset Protection Engineer prior to the commencement of works and the works shall only be carried out in accordance with the approved method statement.

Fencing
In view of the nature of the development, it is essential that the developer provide (at their own expense) and thereafter maintain a substantial, trespass-proof fence along the development side of the existing boundary fence, to a minimum height of 1.8 metres. The 1.8m fencing should be adjacent to the railway boundary and the developer/applicant should make provision for its future maintenance and renewal without encroachment upon Network Rail land. Network Rail’s existing fencing/wall must not be removed or damaged and at no point either during construction or after works are completed on site should the foundations of the fencing or wall or any embankment therein, be damaged, undermined or compromised in any way. Any vegetation on Network Rail land and within Network Rail’s boundary must also not be disturbed. Any fencing installed by the applicant must not prevent Network Rail from maintaining its own fencing/boundary treatment.

Lighting
Any lighting associated with the development (including vehicle lights) must not interfere with the sighting of signalling apparatus and/or train drivers vision on approaching trains. The location and colour of lights must not give rise to the potential for confusion with the signalling
arrangements on the railway. The developers should obtain Network Rail's Asset Protection Engineer's approval of their detailed proposals regarding lighting.

Noise and Vibration
The potential for any noise/vibration impacts caused by the proximity between the proposed development and any existing railway must be assessed in the context of the National Planning Policy Framework which hold relevant national guidance information. The current level of usage may be subject to change at any time without notification including increased frequency of trains, night time train running and heavy freight trains.

Vehicle Incursion
Where a proposal calls for hard standing area/parking of vehicles area near the boundary with the operational railway, Network Rail would recommend the installation of a highways approved vehicle incursion barrier or high kerbs to prevent vehicles accidentally driving or rolling onto the railway or damaging lineside fencing.

Network Rail strongly recommends the developer contacts AssetProtectionSussex@networkrail.co.uk prior to any works commencing on site, and also to agree an Asset Protection Agreement with us to enable approval of detailed works. More information can also be obtained from our website at www.networkrail.co.uk/aspx/1538.asp.
Network Rail notes that there are a number of sites adjacent to the Railway and attach a standard response which sets out the issues that need to be considered. In particular with large new developments there is a concern about the risk of trespass and all new developments should have proper and suitable boundary fencing. The risk of greater flooding and drainage that new developments could potentially have on the Network Rail infrastructure and we would not want any increase of flooding or the increase in run off onto Railway Infrastructure.

The developer must ensure that their proposal, both during construction and after completion of works on site, does not:
- encroach onto Network Rail land
- affect the safety, operation or integrity of the company’s railway and its infrastructure
- undermine its support zone
- damage the company’s infrastructure
- place additional load on outbuildings
- adversely affect any railway land or structure
- over-sail or encroach upon the airspace of any Network Rail land
- cause to obstruct or interfere with any works or proposed works or Network Rail development both now and in the future

The developer should comply with the following comments and requirements for the safe operation of the railway and the protection of Network Rail’s adjoining land.

Future maintenance
The development must ensure any future maintenance can be conducted solely on the applicant’s land. The applicant must ensure that any construction and any subsequent maintenance can be carried out to any proposed buildings or structures without adversely affecting the safety of, or encroaching upon Network Rail’s adjacent land and air-space, and therefore all new buildings should be situated at least 2 metres (3m for overhead lines and third rail) from Network Rail’s boundary. The reason for the 2m (3m for overhead lines and third rail) stand-off requirement is to allow for construction and future maintenance of a building and without requirement for access to the operational railway environment which may not necessarily be granted or if granted subject to railway site safety requirements and special provisions with all associated railway costs charged to the applicant. Any
less than 2m (3m for overhead lines and third rail) and there is a strong possibility that the applicant (and any future resident) will need to utilise Network Rail land and air-space to facilitate works. The applicant / resident would need to receive approval for such works from the Network Rail Asset Protection Engineer, the applicant / resident would need to submit the request at least 20 weeks before any works were due to commence on site and they would be liable for all costs (e.g. all possession costs, all site safety costs, all asset protection presence costs). However, Network Rail is not required to grant permission for any third party access to its land. 2077/03/002/DM36.5/O Mr David Page

Mid Croydon Conservation Area A

Object DM36.5 A27

The alternative is totally inappropriate for a site of such historical importance.

No change

The site was consulted upon as an alternative option. It will not be included in the Proposed Submission draft of the Local Plan as there was no support for the alternative option.

---

0086/02/001/DM37/S Mr Andy Quinn

Support DM37

Generally approve of plans for Crystal Palace. The area does need greater co-operation with adjoining boroughs and greater emphasis on public realm.

No change

The Councils welcome support for Policy DM37

<td>Antenna Ltd</td>
<td>The site allocation is welcomed but the allocation of site no.28 solely for a cultural and creative industries enterprise centre misses an opportunity to achieve an enhanced redevelopment of the site to include an expanded recording studio as well as a remodelled market, further commercial space and residential accommodation. A more comprehensive redevelopment would offer an enhanced sustainable commercial and residential site, retaining and improving the existing market and studio uses. This would contribute well to the Croydon Vision and Strategic Objectives.</td>
<td>Object</td>
<td>As indicated in pre-application advice received from the Council, a revised scheme is required. A revised scheme will offer a more sustainable and viable mixed use redevelopment incorporating the expansion of the existing recording studio and market in addition to new commercial and residential space. Please refer to the attached documents submitted alongside this representation relating to a proposed redevelopment scheme that has been considered through the Council’s pre-application process.</td>
<td>Soundness - Effective 28</td>
<td>No change</td>
<td>If the existing recording studio is seeking to expand it would be subject to a planning application and dealt with on its merits although there would be no objection in principle.</td>
</tr>

</table>
2173/01/001/DM37/O  Anna-Katrina Hastie  Object  Soundness - Effective  DM37 28  We wish to make known that we would raise concern about any development across the road from us if it was not in keeping with the conservation area - ideally the facades and entry point and courtyard would be kept as they are. Our house relies on this layout as all of our natural daylight especially on the ground floor comes from this formation of buildings. Any change to this layout would result in a total lack of daylight due to the proximity of the original buildings. The gateway to the current market allows a significant amount of light to enter our ground floor.  No change  The comments are noted but any redevelopment of this site would be subject to the planning application process which would include the consideration of existing planning policies and the impact on the surrounding area.

2190/01/001/DM37/S  Mr Martin Jessup  Support  DM37 28  I believe that this site should continue to be a Cultural & Creative area of Interest ie. Artist studios. We are opposed to any change of use to residential or commercial.  Welcome support

2813/01/001/DM37/C  Lindsey Lawson  Comment  DM37 28  The respondent neighbours the site and requests the following - that the space between the new development and the borders of their property permit space for vehicle access as laid out in the property deeds. The respondent would like to view the architectural drawings of any prospective plans for the site. There are severe geological subsidence problems in the area; what steps will be taken to ensure the properties in Haynes Lane won’t be affected by the impacts of construction. What steps will be taken to install better street lighting to the bottom part of the street as the cultural centre might take the little light that we have? The respondent requests that the Organic Farmers Market will be retained on Saturdays.  No change  The proposals for the site do not circumvent the need for planning permission to be sought. All development would need to comply with Building Regulations, beyond the legislation which underpins the planning system but does ensure that construction is to a set standard. Should any planning application be submitted for the site, this would be made publically available on the Council’s website and comments are invited during a consultation period. An assessment of the groundworks would be required should the planning department consider this necessary before any excavation/construction at the site takes place. The installation of street lighting is not a matter which can be taken into consideration as part of this consultation process. It is not the intention of the Local Plan to remove the Organic Farmers Market.
Mrs Nikki Constantinides

Object

The area referred to (357) works well as it is. Building on this site would not be beneficial. Hundreds of people work in the shops there, any resulting job losses would have devastating effects. The area doesn’t need to be further developed there. Referring to ref no 357 Norwood Heights Shopping Centre, Westow Street. I think sainsburys supermarket and smaller retail units are fit for purpose, the Council may think it has potential for redevelopment but I think that area of the “triangle” is fine as it is. It has a thriving Sainsbury’s supermarket, parking for sainsburys and the surrounding independent shops and restaurants and a lovely garden centre that is there, and Westow Park, the community centre and salvation army. This area has a lot of resident locations already, and has become very popular for shopping, eating and visiting the parks. It doesn’t need to be disrupted. The one way system at present just copes with what’s going on there. Everyone I have discussed this with is not in favour of the proposed changes!

Sheila J Rogers

Object

The owners of the flats at Highland Lodge, who collectively form the Highland Lodge Management Company Ltd disapprove of the proposals for the redevelopment of the Norwood Heights site for up to 223 homes. Even the minimum number expressed (39 homes) would be a cause of further strain in an area that has seen additional housing development which has caused considerable stress on local amenities and transport.

The proposed number of homes could only be achieved by building a taller building on the site of the supermarket or by building on the garden centre and car park. Neither of these would be acceptable in the context of the Conservation Area status of the area. In fact they would destroy features such as the view from Westow Park.

We would also point out that there are other sites in the Westow Street area which have the potential for limited development without excessively damaging the Conservation Area.

A large number of the sites allocated for development through Detailed Policies and Proposals may result in the loss of green space. This appears to run counter to the Borough’s Strategic Objective 10 (The need to utilise brownfield areas first) and could be replaced with a goal to promote good quality high density developments that protect Croydon’s green spaces. Even undesignated green spaces provide important ecosystem services to Croydon’s growing population.

Redvelopment of this site would help meet the need for new homes in the borough although any planning application for development would have to take account of SP5 which protects community uses including churches. Any redevelopment should also include consideration given to the setting of the vicarage and its gardens.
Cllr M Neal

Object

DM37 82

St John the Evangelist Vicarage, Sylvan Road. Any redevelopment must take care not to damage the setting of the vicarage but rather to enhance it. A policy to promote the burgeoning cultural and creative quarter that is developing in the triangle should be framed, in a similar vein to the proposed Restaurant Quarter policy, DM7.

No change

Any redevelopment of the site would be subject to all other policies of the Local Plan which includes Design and Character. All planning applications are based on their merits and all relevant policies of the Plan will be applied.

Councillor M Fisher

Comment Soundness - Effective

DM37 82

Site 82, St John the Evangelist Vicarage, Sylvan Road. Any redevelopment must take care not to damage the setting of the vicarage but rather to enhance it.

No change

Redevelopment of this site would help meet the need for new homes in the borough although any planning application for development would have to take account of SP5 which protects community uses including churches. This should also include consideration given to the setting.

Mr Charles King

East Coulsdon Residents' Association

Comment

DM38

These are important in maintaining and reflecting the history of local areas. Bradmore Green Conservation area along with its listed buildings and St John’s church is one of the nicest parts of Old Coulsdon and Croydon should remain a conservation area and treated as such.

No change

Bradmore Green remains a conservation area. The Bradmore Green Conservation Area Appraisal and Management Plan will be prepared by the Council in the near future.

Councillor Luke Clancy

Comment Soundness - Effective

DM38

A further policy should be added to enhance and mark the entrance into the borough along the main A23 and A22 corridors.

No change

The A23 and A22 are part of the Transport for London Road Network, therefore the entry points to the borough on these roads are not under Croydon’s control. However, other entry points on borough roads will be enhanced in line with other area wide public realm improvements throughout the borough as appropriate. This will not form part of the Local Plan.

Councillor Dudley Mead

London Borough of Croydon

Comment

207/01/036/DM38/C Councillor Mario Creatura  
London Borough of Croydon  
Comment: Soundness  
DM38: Effective  
A further policy should be added to enhance and mark the entrance into the borough along the main A23 and A22 corridors  
No change: The A23 and A22 are part of the Transport for London Road Network, therefore the entry points to the borough on these roads are not under Croydon’s control. However, other entry points on borough roads will be enhanced in line with other area wide public realm improvements throughout the borough as appropriate. This will not form part of the Local Plan. |

Gayfere House at the junction of Tollers Lane and Coulsdon Road is located on the edge of Old Coulsdon, directly over the road from a number of shops and other facilities, on regular bus routes and close to schools. It is a sustainable location that is well related to the residential area that surrounds it on all sides.

Gayfere House and the paddock to the rear are located within the designated Green Belt, but effectively three sides are bound by the urban area outside the Green Belt, the other side bordering further residential development within the Green Belt.

Allocation of this site for housing would have a number of advantages to the Council, as follows:
1. It will assist the Council in providing much needed housing within the borough, helping to meet Council housing requirements;
2. It can provide a mix of housing tenures, types and sizes, in particular providing family houses (including some affordable houses) required by the Council;
3. It is a sustainable location, adjacent to services and facilities;
4. It would involve rounding off the Green Belt, utilising a site that is already in an appropriate urban use in a more sustainable manner; and
5. It will provide a more logical and defensible Green Belt boundary in this area.

This site is suitable, available and achievable for development.

The A23 and A22 are part of the Transport for London Road Network, therefore the entry points to the borough on these roads are not under Croydon’s control. However, other entry points on borough roads will be enhanced in line with other area wide public realm improvements throughout the borough as appropriate. This will not form part of the Local Plan.

However, other entry points on borough roads will be enhanced in line with other area wide public realm improvements throughout the borough as appropriate. This will not form part of the Local Plan.

The preferred option is far too vague. “Community use” is such a generalisation that it could be anything. The respondent believes that this is another attempt to push through a planning applications that was refused in 2013 to provide accommodation for homeless people. This type of development would seriously impact on our lives if such social issues and needs present themselves on our door or grounds. However, the site is deliverable if the right development and use is applied.

No change

Community facilities are defined as - facilities providing for the health and wellbeing, (excluding care homes, residential homes and nursing homes), social, educational, spiritual, recreational, leisure and cultural needs of the community including public houses - as set out in the Croydon Local Plan; Strategic Policies (Partial Review).
The wording of this policy contradicts the 'limited growth' of ????. It also is in danger of compromising the heritage building line of parades of properties above and behind shops units. This needs to be addressed by amendment.

Proposed amendment
Policy DM39.1 'Within Norbury District Centre, to facilitate growth ensure that the vision of limited growth and to enhance the distinctive character, developments should:

a. Complement the existing predominant building heights of 2 storeys up to a maximum of 5 storeys, and not exceed historic height levels in a parade.

b. Ensure proposal for large buildings are visually consistent with the predominant urban grain by not exceeding the current height limits; and

c. Seek opportunity to provide direct access from the south of London Road to Norbury railway station.'

No change
Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Norbury District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth.

The JPC welcomes the proposed Strategic Policy para 7.51 policy that there will be lower residential growth (para 7.51) it considers that Detailed Policy DM39.1 contradicts para 7.51 by stating 'to facilitate growth'.

The JPC is concerned at the growing number of applications to provide new homes, including studio to 2 bedroom flats, including about shops, which is contrary to the existing Council policy of 60% of new homes should be 3 and 4 bedrooms to meet needs. It is also concerned about the attempts to squeeze small new homes onto small backland sites, e.g. Tylecroft Mews with its existing 6 new homes and two more proposed.

The JPC hopes that once the Local Plan comes into effect it will enable the Council to reject planning applications that infringe the concept of 'lower residential growth'; and ensure that any new developments meet the needs for the proposed revised 50% of 3+ bedrooms.

Replace Detailed Policy DM39.1 by 'Within Norbury District Centre, to facilitate growth and to enhance the distinctive character, developments should:

a. Complement Maintain the existing predominant building heights of the shopping and housing parades 2 storeys up to a maximum of 5 storeys; b. Ensure proposal for large buildings are visually consistent with the predominant urban grain; and b. Retain the design features of the upper stories and roofs of shopping parades c. Seek opportunity to provide direct access from the south of London Road to Norbury railway station.

C. Propose heights the same as the neighbouring shopping parades where single and 2 storey parades are proposed for redevelopment.

D. Seek opportunity to provide direct access from the south of London Road to Norbury railway station.

Cllr M Neal

Object DM39.1

DM39.1 should only allow for 5 storey buildings on corner buildings and junctions; A further policy should be added to enhance and mark the entrance into the borough along London Road.

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Norbury District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. There are existing five storey high buildings in the area, including the rhythm of locally listed buildings No 1414-1432. This road is part of the Transport for London Road Network, therefore the entry points to the borough on these roads are not under Croydon’s control. However, other entry points on borough roads will be enhanced in line with other area wide public realm improvements throughout the borough as appropriate. This will not form part of the Local Plan.

Cllr S Brew

Object DM39.1

DM39.1 should only allow for 5 storey buildings on corner buildings and junctions; A further policy should be added to enhance and mark the entrance into the borough along London Road.

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Norbury District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. There are existing five storey high buildings in the area, including the rhythm of locally listed buildings No 1414-1432.

There are existing five storey high buildings in the area, including the rhythm of locally listed buildings.

Add DM39.2 to protect local green spaces from building encroachments other than facilities to enhance the usability of the spaces, and especially those which are sites of nature special interest from building developments on their borders which could damage their status.

No change

Policy SP 7.2 of the Croydon Local Plan: Strategic Policies provides sufficient protection to all designated green spaces in the borough, including Norbury Hall. This park is additionally protected due to its status of Historic Park and Garden.

Add DM39.6. to encourage business operating in buildings originally built as houses to re-locate to suitable units in the main and secondary retail parades, including floors over shops in order to release their buildings back for housing purposes.

No change

Policies DM4 (Development in Croydon Metropolitan Centre, District and Local Centres), DM6 (Development in Shopping Parades) and DM8 (Development in edge of centre and out of centre locations) regulate matters of business premises in the whole borough.

<tr>
<td>1610/01/024/DM39.2/O</td>
<td>Mr Sean Creighton</td>
<td>Norbury Residents Association</td>
<td>The Joint Planning Committee understands that there used to be a right of way to Norbury Hall Park from 1330 London Road. The property used to be part of the Norbury Hall Estate, a little nursery shop run by the gardener with a right of way leading directly to the park. It is the corner shop, which strangely has never operated as a shop as such, adjacent to The Edge Nightclub. If this right of way existed it should be re-instated. Add DM39.5. to protect public footpaths and to re-instate or make useable any public footpaths which have been blocked from public use.</td>
<td>1610/01/024/DM39.2/O</td>
<td>No change</td>
</tr>
<tr>
<td>1610/01/039/DM39.2/O</td>
<td>Mr Sean Creighton</td>
<td>Norbury Residents Association</td>
<td>The JPC is concerned that this policy does not adequately protect the heritage of the parades. It is opposed to changes in the heights of parades which will detract from their design heritage unity. It is also opposed to any changes at roof level which break the design heritage unit, such as has happened with the former Dreamlands shop building. The amendments seek to achieve this. Proposed amendment Policy DM39.2. Within Pollards Hill Local Centre, to ensure that proposals positively enhance and strengthen the character developments should: a. Retain the edge and separation of Pollards Hill Local Centre from other adjoining character areas by limiting the urban grain within its boundaries; b. Complement should not exceed the existing predominant building heights of 3 storeys up to a maximum of 4 storeys; c. Incorporate multi-stock brick as the predominant facing materials of the whole building; and d. Retain the extent and enhance the quality of the existing public realm within the development, including reinforcing a consistent building line.</td>

</tbody>
</table>
The achievement of the Strategic Objectives could be improved by the additional allocation of land at 1485-1489 London Road and Fairview Road for development. The Cooperative Group wishes to redevelop its landholding at the above site to provide a convenience foodstore along the London Road frontage and residential development on land to the rear on Fairview Road. Such development, including the re-instatement of Class A1 uses on London Road would improve the vitality and viability of the Nobury District Centre and contribute to the Borough’s new housing supply and would be consistent with both the Strategic Objectives and with national policy in the NPPF. The site should be included in Table 11.12 as an additional allocation.

Allocate 1485-1489 London Road and Fairview Road for development of retail and residential uses.

The site at 1485-1489 London Road is considered to be appropriate to be allocated for retail and residential uses.

It is acknowledged that the site is in Old Coulsdon and not Norbury. However, the site is no longer being considered for a proposed land use in the Plan.

There are no recent planning applications for this site.

The JPC is surprised that this has been included given the Council rejected the Lidl scheme, and given that the result of the appeal held on 8 December has not yet been announced. The Council should have designated this as ‘retain use’ and specified a possible alternative use as a site for improvements to St Joseph’s School. If the Inspector rejects the appeal then the designation will have to be amended in the report to the Cabinet on the outcome of the Local Plan consultation. If the appeal is upheld then the current designation can remain in the Plan. In the light of the news about the need for thousands more school places protecting this site may be the only way that St Joseph’s will be able to expand to take in more people.

Delete ‘Retail supermarket on ground floor with residential above’ in the site listing for S G Smith, 409-411 Beulah Hill.

No appeal decision has been issued yet. The principle of a retail supermarket on the ground floor is still considered appropriate for this site.
Further to the recent consultation I would like to submit my proposal for the above site as an alternative to the current detailed policies and proposals as submitted for a retail/residential mixed use development. It has been a very long term vision that the catalyst to Crown Point requires a much need revamp of the existing school offering as currently in situ at St Josephs College. The site and thus the whole area would gain by an enhanced Sixth Form College as already demonstrated by Lambeth Schools which have undergone substantial makeovers. Crown Point is entirely about an education base, the sheer volume of school children in the locality is undeniably like any other area. The travel sources are already in place and this puts no excess strain on an already dire traffic flow. The proposal of another retail operation to the area would cause significant traffic issues to say the least and quite clearly with the Tesco / local convenience shops and other small businesses it would create an unharmonised retail approach.

Therefore THE BASIS OF MY PROPOSAL:-
1. Revamp St Josephs College to the 21st century by building a new Block on site 320.
2. Create an addition entrance via Crown Lane (This will create an excellent flow for students commuting via the Lambeth borough and prevent the daily carnage and mayhem of boys running along a very busy Beulah Hill Road).
3. It will open the capability to encroach on the Lambeth Borders and stem argument to gain Inner London Teaching Pay scale. Crown Lane roadside is under Lambeth highways.
4. Provide a much needed further required residential facilities in addition from the Beulah Hill Frontage, more than the current proposed 5-11

Allocate the site for the extension of the existing St John's College

No change

No appeal decision has been issued yet. The principle of a retail supermarket on the ground floor is still considered appropriate for this site

| Comment | Soundness - Effective | DM39.3 A460 | The Policy is fine, i.e. the stated Policy for Heritage Assets- Conservation Areas is: to strengthen the protection of and promote improvements in the following Heritage Assets and their settings. The proposed use is simply retain existing use which is fine, but the alternative use which is stated as redevelopment including residential use is inconsistent with the site’s position in the middle of a Conservation Area (the Norwood Grove Conservation Area). The alternative use should therefore not be considered.

The site detailed above is the rear of 69-71 Ryecroft Road which is part of the Norwood Grove Conservation Area.

The Conservation Area consists principally of large detached properties built around the 1920s/30s, together with some older properties in Arnulf’s Road, all having large gardens, providing an open, green and leafy environment, with low density, which it is to be assumed is the rationale behind the establishment of the Conservation Area.

Prior to the establishment of the Conservation Area there was a certain amount of development which was at odds with this generality, materially some higher density apartments in Ryecroft Road, some new town houses at the end of Arnulf’s Road (nos 16-38) albeit that their style blends in with the pre-existing properties, and Gibson’s Lodge, together with some flats and townhouses in Crown Lane and Ryecroft Road which might not be permitted now, but mostly the Conservation Area remains true to the detached property/ substantial garden/ open, green and leafy environment concept.

Any development of further housing behind the properties in question on their large gardens and the resultant increase in housing density would detract from the character of the Conservation Area and would be quite contrary to SP4.13 since it would not strengthen the protection of the Conservation Area, but would instead undermine it and should therefore not be permitted. Any increase in density in this established residential area would also conflict with Policy UD8.

The alternative use for this site detailed as A460 should therefore be removed. |

No change | This site is in multiple ownership and is unlikely to come forward for development on this site |

This site is in multiple ownership and is unlikely to come forward for development on this site.
The Policy is fine, i.e. the stated Policy for Heritage Assets - Conservation Areas is to strengthen the protection of and promote improvements in the following Heritage Assets and their settings. The proposed use is simply to retain existing use which is fine, but the alternative use which is stated as redevelopment including residential use is inconsistent with the site’s position in the middle of a Conservation Area (the Norwood Grove Conservation Area). The alternative use should therefore not be considered.

The site detailed above is the rear of 12-28 Ryecroft Road which is part of the Norwood Grove Conservation Area.

The Conservation Area consists principally of medium/large detached properties built around the 1920s/30s, together with some older properties in Arnull’s Road, all having large gardens, providing an open, green and leafy environment, with low density, which it is to be assumed is the rationale behind the establishment of the Conservation Area.

Prior to the establishment of the Conservation Area there was a certain amount of development which was at odds with this generality, materially some higher density apartments in Ryecroft Road, some new town houses at the end of Arnull’s Road (nos 16-38) albeit that their style blends in with the pre-existing properties, and Gibson’s Lodge, together with some flats and townhouses in Crown Lane and Ryecroft Road which might not be permitted now, but mostly the Conservation Area remains true to the detached property/ substantial garden/ open, green and leafy environment concept.

Any development of further housing behind the properties in question on their larger than average gardens and the resultant increase in housing density would detract from the character of the Conservation Area and would be quite contrary to SP4.13 since it would not strengthen the protection of the Conservation Area, but would instead undermine it and should therefore not be permitted. Increased density in this established residential area would conflict with Policy UD8.

The alternative use for this site detailed as A466 should therefore be removed.

No change

This site is in multiple ownership and is unlikely to come forward for development on this site.
The JPC is very concerned at the fact that this list is so small, failing to protect buildings and therefore allowing the further loss of heritage and employment sites, and giving the nod to developers to proposed residential development when the Council’s stated preferred option is to retain use. This will undermine the overall vision of ‘limited growth’. By deleting the alternative option developers will know that they will have a more difficult task to achieve a change of use. Although many of the sites listed are outside the London Rd area which is covered by the RAs which take part in the JPC, the principles the JPC take apply to those sites in areas where there are no Residents Associations.

The JPC is concerned about the potential loss of green space in an area which is regards as of special character. It has been suggested to it that such redevelopment would prevent road access to other back gardens thus protecting them from development in the future. The alternative would be to give them Local Green Space designation. Inclusion of this site in the list draws its attention to developers. It would be better if it was deleted.

Delete ‘Redevelopment including residential use’ in every site in which it is designated as an alternative use in Detailed Policies and Proposals Table 11.12.

Delete the grounds to the rear of St Philip's Church and gardens to rear of 72 and 82, Pollards Hill North from the Norbury site list in Detailed Policies and Proposals Table 11.12.

No change

This site is in multiple ownership and is unlikely to come forward for development on this site.
Object Policy DM40.1 says that a skyscraper of 16 floors can be built in the centre of Purley. We are sure this policy is written with the specific site of the Baptist church on Purley Cross in mind. The RRA totally oppose this proposal. A building of 16 floors will completely change the character of Purley town centre and is wholly out of keeping with the rest of Purley town centre, which is no higher than 5 to 6 floors.

16 storeys should not be permitted in Purley Town Centre.

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London.

Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
My husband and I attended the consultation meeting at the Purley Baptist Church on the 8th December and we both felt that plans on show and the information given on what precisely was being proposed was vague to say the least, and the council staff were not able to clarify the details included in the information concerning such things as the amount of social housing, etc. Nor was there any copies of the plans which people could take away in order to be able to study them, and thereby understand what was being proposed. Also whereas the council has had up to two years to come up with these proposals, we have been given a very limited time to make any objections to them, that is ten days after the meeting, the 18th of December, hardly sufficient time given the paucity of information offered.

Nonetheless, there was an indication that the height of the proposed plan on this site would be in the order of sixteen stories.

My husband and I feel very strongly that this is entirely out of keeping with the area hardly in line with your description of Purley being a “market town located on wooded hillsides and in the valley”. Purley is not London where skyscrapers are totally acceptable or even Croydon where a profusion of skyscrapers exist. If this is built it will open up the floodgates for further buildings completely changing the character of Purley.

Purley also has massive traffic problems, which will not be helped by a building of this size. Let us also not forget that Purley also suffers from flooding problems as its sits on the sight of the Bourne, and a large site like this will only make matters worse.
Para (b) refers to existing predominant building heights of 3 to 8 storeys. PLEASE NOTE that we do not have any 8 storey buildings in Purley town centre. Whilst PWRA accepts the council strategy on the 16 storey landmark building, we do that on the proviso that the building sets a very high standard of design, as can be expected from a landmark building.

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. I totally disagree to the following planning applications which would spoil the character of our local environment and threaten our green belt. I choose to live in an area that is peaceful and quiet and resent the changes that are being forced upon me. In the spirit of true democracy I wish to make clear my objection to the following developments -

- Policy DM2 (p18); Policy DM40.1 (p165);
- Policy 40.4, Table 11.3, Site 30 (p165); Policy 40.4, Table 11.3, Site 61 (p168); Policy DM4.13, Table 11.14, Site 30 (p171); Policy DM4.2, Table 11.17, Site 661 (p179); Policy DM4.2, Table 11.17, Site 662 (p179); Policy DM35, Table 11.8, Site 945 (p146); and Policy DM31.4 (p126)

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. I understand the draft local plan is out for consultation and feedback is requested. Regarding the consultation my comments are as follows:

Policy DM40.1 : Development of a skyscraper in Purley is a ludicrous idea. It is wholly out of character in an area that does not have a single building over 5 stories high. It would be inappropriate development.

No change Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. I would like to object to item 40.1 (b) in the proposed local development plan.

A 16 story building in the centre of Purley would tower over the existing buildings as an eyesore, looming ominously over the one way system. My main objection - quite apart from the issues of parking, traffic and school places etc. - is that the attractive character of the town would be utterly ruined - it is a small suburban low rise shopping town, not city (or somewhere with ambitions to be one) where tall buildings might be more appropriate. Such developments should be restricted to Croydon Town Centre. Something so out of keeping height-wise could not possibly 'enhance the distinctive character of Purley Town Centre'.

I am assuming this item is anticipating the development of the Purley Baptist Church sites? Some of the draft plans I have seen also involve basement level community facilities - something which seems a ridiculous option considering the propensity for flooding in that area. Is it not an option for them just to build a normal sized church, and the community/meeting/hall space/whatever else that they want at the existing level of buildings on the adjacent parades - and be required to allocate plenty of land for parking so it isn't a nightmare there on a Sunday or for whatever events they might be aiming to hold there, and leave it at that?

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
The building of a 16-storey skyscraper in Purley, has already raised massive objections. It is totally inappropriate for a town where buildings have a maximum height of 4 or 5 floors. It has to be dropped as it will completely change the character of the community, and is ill thought-out, particularly in terms of the implications for traffic and parking.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from...
I have strong objections and would like my objection to Policy DM40.1 (p166) says that a skyscraper of 16 floors can be built in the centre of Purley on the original Sainsbury’s site. I believe that this is a totally inappropriate development for Purley town centre. It is out of keeping to the entire town centre and would bring a total change to the feel and character of the town.

The proposal is inappropriate and would out of keeping to the entire town centre and would bring a total change to its feel and character.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from
Policy DM40.1 says that a skyscraper of 16 floors can be built in the centre of Purley. I am aware of recent proposals to develop the site opposite Pizza Express on Purley Cross and I think that a skyscraper of 16 floors will completely change the character of Purley town centre and would be wholly out of keeping with the rest of Purley town centre which is no higher than 5 floors.

Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
The joke around Purley relates to the proposed skyscraper in the town centre. If it wasn't so ridiculous one would ask why you could possibly consider such a proposal which nobody except the Developers and the Council want. I understand the owners of the Land involved are also against it! There are serious parking problems in Purley already however many businesses or flats that can be accommodated will be to the point of saturation. Where will the people park and what a blot on the landscape of an essentially a low rise village if you go ahead.

16 storeys in Purley should not be permitted. There is already not enough parking.

No change
Policy DM40.1 (p166) says that a skyscraper of 16 floors can be built in the centre of Purley. This appears to be a policy written with the specific site opposite Pizza Express on Purley Cross in mind. I totally oppose this. A skyscraper of 16 floors will completely change the character of Purley town centre and is wholly out of keeping with the rest of Purley town centre which is no higher than 5 floors.

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Object:

Purley-Policy DM40.1 should not allow for up to 16 storeys as it will completely change the character of Purley town centre and is wholly out of keeping with the rest of the town centre which is no higher than 5 storeys;

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London.

Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee
It is unclear why a new landmark building is suggested for Purley District Centre as this is the only location where a building of this prominence and potential height is specified. Where the potential for relatively tall building is proposed, additional text or cross-referencing to wider design policies such as proposed policies of SP4.6 of CLP1.1 and DM15 of CLP2 should be included to ensure that such buildings are of an exceptionally high quality design and complement the existing streetscape, contribute to the public realm and wider character of the area and wider views.

Where the potential for relatively tall building is proposed, additional text or cross-referencing to wider design policies such as proposed policies of SP4.6 of CLP1.1 and DM15 of CLP2 should be included to ensure that such buildings are of an exceptionally high quality design and complement the existing streetscape, contribute to the public realm and wider character of the area and wider views.

The comments are noted regarding cross-referencing other policies, however other policies are only cross-referenced in the policy itself if they are uniquely applicable, as in Policy DM15.1 which references the locations identified for tall buildings and all the policies of the Croydon Local Plan should be referred to when making a planning application including the Strategic Policies of the Local Plan. Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. I wish to object to Policy DM 40, Purley Skyscraper. This is totally out of keeping with the area. Do we need a mini Croydon in Purley? This development will cause massive disruption on a very busy crossroads.

No change

The 16 storey block proposed for Purley town centre is totally out of keeping with the area and is far too tall in comparison with other buildings in Purley. Purley does not need a "landmark". Keep the "landmarks" to Croydon town centre.

No change Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Policy DM40.1. Here you may be planning a 16 floor skyscraper in the centre of Purley. This is a very bad idea indeed. As it is Purley has lost its original appeal with the amount of building and the vast increase in traffic. But a skyscraper? This is not down town Croydon where a 16 storey skyscraper might fit in nicely. This will utterly destroy the character of Purley. Suggest you restrict buildings to no more than 6 storeys.

No change Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
The proposed skyscraper is TOTALLY UNSUITABLE for the centre of Purley, so much so that it will stick out like a sore thumb as 5 storeys is the maximum height of surrounding buildings. Even the diagram looks like some soulless monster, lacking any aesthetic appeal whatsoever. A ghastly eyesore, a permanent blot on the landscape. Purley has its own distinctive character which has evolved over many years, and deserves better than this hideous No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Purley Leisure Centre, does not mention that any new leisure centre must include a pool and the policy should make this clear. There should be a requirement that the total number of public parking spaces is not reduced by any development.

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Support

We are supportive of Croydon Council’s DPP site allocation at Purley Baptist Church for mixed use residential development comprising a new church, community facility and residential uses. We are also supportive of the residential site allocation at 1-9 Barestead Road in Purley. Further support is given to the recognition of a new landmark in Paragraph DM40.1 (b) of Croydon Council’s DPP. However, we are currently undertaking extensive pre-application discussions with Croydon Council for a 17 storey development, rather than 16 storeys. We would request Policy DM40 is amended to identify potential for a 17 storey tower in all events, and particularly if planning permission in granted in the intervening period. An additional storey will provide more homes, helping to meet the increased minimum housing target as identified in Policy SP2 of the emerging Croydon Local Plan (Partial Review).

We recommend that bullet point ‘b’ of Paragraph DM40.1 is amended to read “Complement the existing predominant building heights of 3 to 8 storeys, with a potential for a new landmark of up to a maximum of 17 storeys.”

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
The Purley area of Croydon has long been a distinctive part of the borough and should be regarded by the Council as having special merit. Until very recently it consisted almost entirely of Edwardian and early 20th Century family home buildings. The positive aspects of this include a very settled and long standing community of tax payers, together with above average density of trees and green spaces, which are VITAL in this area due to the high levels of emissions and noise pollution from both the A22 and A23 roads. It is certain that huge areas adjacent to these roads already exceed current levels of permitted pollution and massively increasing multi occupancy dwellings will only add to this. It is also true that most existing buildings in Purley are mostly no more than 3 storeys high and it is vitally important that this remains the case to preserve the character of the area.

In the existing guidelines for the borough there are NO provisions for the height of buildings to increase to the extent proposed. We are fully aware that the centre of Croydon contains skyscrapers, but that has been the case for over 50 years since the massive redevelopments of the 1960s. Also, these buildings are in the central business district of Croydon, and although some of the newer developments of skyscrapers are for residential use they do no overlook long established low level residential areas.

We wish therefore to object in the strongest terms to the proposal of Policy DM40.1 to build a 16 floor skyscraper in the centre of Purley. It would be totally out of keeping with the nature of the existing town, would set a precedent that would be totally unacceptable and would radically alter the character of this part of the Borough. We also believe that it would generate a wind tunnel effect in the area, almost certainly increasing pollution problems. As is well known, the A22/A23 crossroads is above a number of now canalized rivers underground. Repeatedly in the past, and particularly within the past couple of years, there has been catastrophic flooding here, resulting in a month long closure of the A22, a major strategic road link. We do not believe that it is safe or sensible to build anything of this nature on any site in or around the centre of Purley.

We understand that in the past few years, with the proliferation of multi occupancy dwellings already built...
near the centre, this part of the
Borough has more than exceeded. It
is clear that the local infrastructure
can no longer cope with the number of
buildings and certainly not the
existing number of new dwellings
required. Again, this MUST be
recognised in all future developments.

Again, this MUST be taken into account.
We accept that all areas require some
alterations to provision of housing but
feel that what is essential for this area is
small, affordable family houses to
encourage people to be able to stay in
the area once they start a family.

Building an endless supply of shoddy,
poorly designed and totally out of
carehouse buildings in no way
helps improve the quality of life in the
Borough (which we are sure is an
important aim of all developments) and
is in no way achieved by providing a
"Landmark" building outside the
centre of Croydon.
This would appear to pave the way for the much feared “Purely Skyscraper”. There is considerable local opposition to this monstrous idea, to place a 14/16 story building in a town which currently has a max of a 5 story building. Completely out of place and will destroy on its own, what little character Purley town Centre has left. Linked with the totally inadequate parking provision planned for the accommodation, based on fantasy theories of new residents using public transport rather than cars. The truth is the council do not care what the impact will be or what the people of Purley want for their town, they will rake in millions in planning levies, create more on street parking (pay) bays in the surrounding area, with no impact on their borough wide electability for the ruling party. If this proposal goes ahead, the negative change to Purley will be irreversible.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high, it received positive recommendation from
Having a 15 storey building in Purley makes no sense as again as apart from being totally out of keeping with the area there is no parking and the area is already gridlocked most days.

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from
The proposed 16 storey Tower Block is totally out of character with the local architecture and landscape of Purley and will create a dangerous precedent for the future. Such a tall building would never been allowed in any other circumstances and is way beyond the original 6 storey proposal put forward by the Purley Baptist Church or the current building heights of 6 storeys. By simply calling the 16 storey Tower Block a "landmark" is no excuse to bulldoze through such a decision on the local community.

Such a mass development will have a tunnel effect in Purley, concentrating and increasing the levels of pollution that already exceeds EU guidelines thereby placing residents' health at increased risk from air pollution.

Traffic through Purley is set to increase further when "Westfield Croydon" is completed however despite this there appears to be no plan to take the opportunity to re-design the A22/A23 road layout other than side stepping the issue to TFL. To drive from Croydon to Purley (as I do every day) is a nightmare. It can take 45 mins and sometimes up to an hour if I leave Croydon at 5.15pm. There are no roadworks. It is sheer volume of traffic and everything gets clogged up at Purley Cross. This will make travelling for residents and for those travelling through Purley unbearable.

No details are available as to what impact such a development will have on the very real flooding issues in Purley, especially as rainwater can and has been dispersing naturally through the demolished Island site and properties located at 1-9 Banstead Road. As we know in 2014, Purley Town Centre and surrounding areas were under water and therefore this development will simply add to the likelihood of this happening again.

The developer has indicated the proposed development would create 200 2-3 bedroom homes with over 40% being affordable housing. This would add a further 500+ residents or 4% to Purley's population. There are no details available as to what measures are to be put in place with regard to local services having to deal with such an increase. Whilst much is made of the excellent transport services in Purley, trains are already at maximum capacity (you rarely get a seat in the morning and people fight to get on the carriages). The schools are also at maximum capacity and it is extremely difficult to get places for the new pupils. No change Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. If received positive recommendation from officers and the Planning Committee
difficult to get your child into a local school. If I want to make a doctors appointment, I have to wait up to 2 weeks for an appointment because they are so busy.

The developer's proposal states 50 car park spaces will be included for the Baptist Church's visitors but only 38 car park spaces for the 200 homes. It is naïve to think that only 38 of the 200 new home owners will not have one or more cars in their family. I own a buy to let flat in central Croydon and I regularly have couples renting who own 2 cars. In addition to this, each resident will have visitors who will also require somewhere to park! Deliveries will also be made to all 200 properties, including large lorries carrying furniture etc. This would be a regular occurrence as residents update their belongings and their properties. There are rarely spaces to park in Purley Knoll and we already see owners/tenants of apartments in Purley without parking provision buying permits and parking permanently on designated car park spaces in and around the town. What plans have been made to cope with this additional demand?

As a resident of Purley Knoll, I strongly object to the plans. Such a massive development will change Purley forever - for the worse - And it will open the door for further development of high storey towers which would rapidly turn Purley into another Croydon, which it is not.

I ask that the proposed 16 storey build is rejected. Purley needs more doctors, some nicer shops and other services for existing residents, never mind any additional residents. If there were to be any housing on the site (which should be no more than 6 storeys high), sufficient free parking needs to be made available for all the properties.
I am also a resident of Purley Knoll and feel equally as strongly as Mr Barnes that the proposed 16 storey building will be both an eyesore and will cause an inordinate amount of other negative issues on the community. It certainly will not have any benefits for the current residents of Purley.

I have not seen the notices on lamp posts and I am not able to make the meeting on 28 November at such late notice and I will be at work on 8 December 2015. Given that the residents of Purley Knoll will be so closely affected by the proposals, I am very disappointed not to have received any sort of advance notification of the meeting through my front door or given an opportunity to express my opposition to the current proposals.

I have not met any local resident who is in favour of the proposals. On the contrary, we are all vehemently against them. I would be grateful if you could please consider the opinion of the local residents who will be directly affected by the proposals. For my part, I ask that the proposals are scrapped.
Object DM40.1

I feel that a building of 16 stories would be completely out of character for the currently derelict area in central Purley. Such a tall building would not only look completely out of place, but the additional traffic that its occupants would create - whether they be residential or commercial - would only cause further disruption at an already extremely road interchange.

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. This is a poorly concealed attempt to allow one party to move forwards with plans which have already been roundly rejected by the local community, namely the redevelopment of the site opposite Purley Cross, formerly the site of Sainsbury’s. I fundamentally oppose policy as a skyscraper of 16 floors is completely out of keeping with the whole of the rest of Purley, where there are no buildings over five stories, and would profoundly change the character of Purley town centre.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. This totally out of scale and unnecessary over development is driven by the developer exploiting the supposedly benefit of ‘gifting’ amenity buildings to the site owner which in fact paid for by the increased over development. It will result in Purley centre being blighted and changed yet again beyond its current denuded state following the over development permitted on the Tesco ‘site’ over the years. This will result in Purley centre being blighted and changed yet again beyond its current denuded state following the over development permitted on the Tesco ‘site’ over the years.

The existing building heights: the report mentions the range of 3-8 storeys but please note that the character of Purley is defined predominantly by buildings at the lower end of this scale. The suggestion to allow this range to be extended up by factor of 100% (530% if based on the lower end of the scale) is outrageous – blatantly out of the existing character, as well as in violation of the Strategic Objective 5 (respecting & enhancing the borough’s natural environment and heritage). Such a drastic increase in the housing density would also create massive demands on local infrastructure (transport, parking, health services, schooling etc.).

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The suggestion that the existing building heights could be complemented by a 16 storey building is patently untrue and has been inserted presumably to permit a structure of that height on the site opposite Pizza Express. An appalling idea that is worrying most local people who do not wish to live with an enormous eyesore in the centre of Purley.

An attempt is made to justify this in item 11.121 where it is stated that "This area has a varied topography which presents opportunities for tall buildings ..." a completely subjective view that is totally at odds with local opinion. A small green space, possibly a town garden would be much more appropriate and would offset the busy road junction and shops in the centre of Purley.

This item also suggests that there are existing buildings up to 8 stories in height when I cannot think of anything that is currently above 5.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. Purley does not need a landmark building as it already has a distinctive office building on the corner of Whyteleafe Rd, opposite Tesco's. Keep taller buildings in central Croydon as it will be detrimental to spread them through the borough. No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Apart from being completely out of character with surrounding buildings (none of which are more than 5 floors), this site at 16 floors does not allow for enough parking. Any block of flats should be reduced in height. This would be another traffic hazard on exiting the site.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. we do not object to planning being obtained on brown field sites and in instances where gardens are double plots. Purley is already becoming over developed with new flats. We would like to see some new terraced properties with gardens suitable for first time buyers and possibly older residents.

The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from
PURLEY SKYSCRAPER

I STRONGLY OBJECTION TO THIS DAFT PROPOSAL AS THE BUILDING IS TOO NEAR A BUSY ROAD JUNCTION AND WILL BE AN EYESORE. THERE IS NO COMMON SENSE APPLIED HERE. 16 FLOORS IS AWAY TOO HIGH. IT WILL ALSO HAVE AN IMPACT ON THE AMOUNT OF DAYLIGHT IN THIS AREA. WHERE IS THE GREEN SPACE THAT IS MUCH-NEEDED FOR GENERAL HEALTH AND WELL-BEING? WHAT ABOUT THE NOISE FROM THE TRAFFIC AT PURLEY CROSS? THIS PROPOSAL IS NOTTHING BUT A VINDICTIVE AND NASTY ACT TAKEN BY THE LABOUR COUNCIL. I EXPECT THE LABOUR LOVIES WILL LONG BE GONE WHEN THERE IS A MAJOR INCIDENT IF THE PROPOSAL GOES AHEAD. ONLY LABOUR COULD THINK OF SUCH PROPOSALS IF THE FLOORS WERE REDUCED THEN I HAVE NO OBJECTION BUT WOULD NOT WISH TO LIVE AT PURLEY CROSS. IT WILL KEEP CROYDON SOCIAL SERVICES BUSY IN YEARS TO COME.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Though I support the need for more housing I believe the Purley Apartment block should be reduced to 12 floor maximum and more parking bays should be incorporated.

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. Object

DM40.1

You state that the current height of buildings in Purley is "3 to 8 storeys". There are not many, if any, that are 8 storeys high.

- A 16 storey building would be completely out of character for Purley.
- Any new development should be no higher than the adjacent premises.
- The new development on the corner of Pampisford Road is an example of what can be achieved with a contemporary design within an existing environment.

- A 16 storey building would not be a "landmark". It would be an EYESORE.
- Please ensure that this proposal is withdrawn.

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need.
I understand that the following Policies will threaten our green spaces. I was born in Croydon and have lived in this area all my life (I am now 63). My parents came here from Scotland in the early 1950s. They chose this area specifically for its green spaces and it is quite unique in that facility. I spent more than 35 years in Real Estate in this area and know very well that the reason people continue to move here is exactly for these facilities and yet remaining within easy reach of other amenities, London, the coast and airports. Of course, more housing is required but I believe the alternative suggestions to these proposals to be very valid and much more in keeping with the neighbourhood thus maintaining its attractiveness and good standard.

These proposals are ill conceived and will change this particular neighbourhood beyond all recognition and take away that for which it is well known and valued. Please hear the voices of people like me and do NOT continue with the proposed policies set out below and which can be found in your Local Plan:

2. Policy DM40.1 (p166)

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
I write as a long time resident (33 years) of Purley and am horrified that there is even consideration being given to a skyscraper building in Purley. We are not alone in living in Purley because whilst being convenient for London it is still very countrified and does not have a ‘London’ feel to it unlike for example Croydon. If the skyscraper goes ahead this will surely be the thin end of the wedge and open the floodgate for further developments of such size. Having said that even one tall building of the type proposed will significantly blight the look of the area. If as more homes are required, then keep building in Croydon – one additional skyscraper will make little difference. In Purley one single solitary building of this size will be a major blot on the landscape.

If more homes are needed, tax the overseas investors heavily so that they do not purchase homes in London for investments which are then left empty which then means more and more people need to look outside London which in turn moves the supply/demand curve increasing prices and people are left looking to living further and further out of London. If Purley has a skyscraper then where next – Godstone?

I vehemently oppose the above proposal.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Purley town centre has been sadly neglected for over 30 years. The council should adhere to its claim in the Croydon Local Plan document that “the ‘sixties boom’ added many buildings with a range of varied and interesting attributes. Newer development in our borough has been respectful of this historic legacy, including enhancement of Croydon’s distinctive District Centres and suburbs.” The proposed 16 storey block will be completely out of character and will not complement the surrounding buildings in Purley town centre.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Please please can the council listen to the local residents of Purley-we do not want a 16 floor sky scraper imposing over our small town. It will ruin the area creating pressure on parking/schools and not to mention traffic that is already at breaking point at the moment, not to mention the character of the town.

Purley High Street needs to be rejuvenated along the lines of Coulsdon building this eyesore will destroy Purley.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
I am writing to object to Purley Skyscraper authorisation.

Policy DM40.1 (p166) says that a skyscraper of 16 floors can be built in the centre of Purley. This will completely change the character of Purley town centre and is wholly out of keeping with the rest of Purley town centre which is no higher than 5 floors.

Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London.

Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
We do not want a skyscraper; there are enough homes in Purley and we have lost many of our local stands alone shops over years and more effort should be made in bringing small businesses back into the area. Who would want to live on a roundabout which is more than busy 24/7 with thundering juggernauts going round every day I cannot imagine? As for schools, doctor surgeries already bulging and the local hospital (still only open half days for A&E) I am sure they have had plenty to say.

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
In particular I object to:-

2. Purley Skyscraper (DM40.1) - totally out of keeping with the town centre

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
I object to this proposal on the premise that it is totally out of character with the rest of the town centre which consists of much shorter buildings.

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework.

The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London.

Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.

DM40.1

Object
A 16 floor building would be completely out of character in the town. On this site a building of 5/6 stories should be the maximum.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London.

Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Mr Paul Gomm

please note my objection to the following policy reference numbers within your current draft plan for planning & development:

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
DM40.1 - A 16 storey skyscraper would be totally out of character with the rest of Purley town centre. It would tower over the main Brighton Road, totally dominating the area, which would be entirely inappropriate.

11.121 - Tall buildings are not suited for the local area. They would diminish the character of a predominately low-rise residential area.

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
I am greatly concerned at some of the proposals for Purley, which if implemented, would be seriously detrimental and degrade local amenities. Specifically:

1. The proposal for a 16 storey skyscraper (which for some reason is not specifically mentioned in the plan) is wholly inappropriate. The site is unsuitable for such a building, which would not fit in with the area. Elsewhere the plan clearly envisions height restrictions on development to preserve the character of the area. These restrictions need to be consistently applied and include the Council’s own vanity projects. The roads to the sides of the site already suffer from congestion at and outside peak times and the additional traffic generated could not be reasonably accommodated. The proposed building has insufficient car parking for its residents and other tenants and this will put further pressure on parking in the centre of Purley. This is not helped by the Council’s intentions to reduce parking elsewhere. The residents of Purley do not deserve to have their suburb

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
A 16-floor building in the centre of Purley is not only objectionable for aesthetic reasons, being quite disproportional in height to the surrounding buildings, but housing such a large number of people at this spot will surely greatly increase the rush-hour traffic (both pedestrians and vehicles) at what is already a very congested junction.

<td>I am also opposed to the building of any high building in Purley which would be completely out of keeping with the area. Croydon’s planning permission team seem to have lost their minds in allowing the awful tall purple structure to build on Wellesley Road. Everyone I know thinks it is an eyesore, and even strangers on the train I overhear refer to it as a monstrosity. It does nothing to enhance Croydon’s reputation when awful and short sighted building is allowed. On this basis that all the high rise flats are being built on the back of the biggest credit bubble in human history that is going to fall apart in the next few months, I suggest it is better to make a plan for the next 100 years and therefore the protection of our wild areas and communities should be placed ahead of the need for more short term profits and buy to let flats which will be left empty once the next credit bubble pops, and become nightmares in the style of La Corbusier.</td>

Whilst I have no objection to building a residential property here as it is a brownfield site I can not see any reason for building this to the proposed height as this will be completely out of keeping with the surrounding environment.

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
I would like to voice my objection to the following plan DM40.1.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London.

Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Mr Stephen Woodward

Object DM40.1

We have lived in Sanderstead for over 40 years, and have thoroughly enjoyed the areas to the south of Croydon being unspoilt. In our view these ill conceived proposals will change this area beyond recognition and take away that for which it is well known and valued. Please rethink, and do not continue with the proposed policies set out below and which can be found in your Local Plan:

Policy DM40.1 (p166)

No change Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework.

The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London.

Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
I am writing to support my local MP Chris Phelp in his objections.

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London.

Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of the areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
I wish you to record my objections to this Plan as set out below:

2. Policy DM40.1 allows a 16 storey building which would change the ‘CHARACTER’ of PURLEY drastically. No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London.

Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
I specifically object to:
DM40.1 The skyscraper is out of character with Purley or do you want to create a precedent for future high rise development. This is greedy developer driven and you are in thrall to these people at the expense of ordinary citizens. High rise has been discredited everywhere and many 60’s blocks have been demolished thank God. Just because its mixed development doesn’t excuse it. The developers have done the maths and want the greatest height they can get away with.

No change
Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
I live in Purley, and am writing with regards to the Croydon Local Plan, about which I have the following comments:

Policy DM40.1 says that a building of 16 floors can be built in the centre of Purley. I strongly oppose this as it will completely change the character of Purley town centre and is wholly out of keeping with the rest of Purley town centre which is no higher than 5 floors. Purley centre is already congested, and cannot accommodate any 'landmark' high rise development.

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework.

The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London.

Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
The building of a 16 floor tower in the middle of Purley would be detrimental to the area. Purley has many problems with over development already. Many fine buildings have been bulldozed and the area seems to be deliberately left to run down. I beg the council to rethink this policy as it will destroy what was and could be again a perfectly acceptable low rise and vibrant community. The solution to housing/office space is seldom vertical as was proven during the late 1960’s and 70’s.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London.

Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
With reference to the Local Plan which has been proposed, please note my objection to the following policies:
> Garden Grabbing
> Policy DM2
> Purley Skyscraper authorisation
> Policy DM40.1
> Purley Pool
> Policy 40.4, Table 11.3, Site 30
> Purley Parking
> Policy 40.4, Table 11.3,
> Sanderstead "Lidl" Site
> Policy DM41.3, Table 11.14, site 306
> Gypsy/Traveller site on Conduit Lane, next to Coombe Wood Gardens
> Policy DM44.2, Table 11.17, site 661
> Loss of Green Belt – (1) Coombe Playing Fields, (2) Croham Hurst, (3) Sanderstead Plantation
> The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662
> Lack of Parking in new developments
> Policy DM28
> More Protection; Less "Intensification"
> Policy DM31.4

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Mr Richard Brandwood

Purley is a small regional 'town', with a typical characterful/classic early C20 shops/flats centre - a little faded admittedly! But to add a skyscraper of 16 floors is ridiculous, and a move totally based on church/developer greed. This policy should be rejected, and for any other similar sized local centre - like Coulsdon. It will totally change the character of the area, sticking out literally like a 'sore thumb'!

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
2) DM40.1 p166 Purley Skyscraper
16 floors, this will be out of character in this area where 5 stories is the maximum

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
As a resident of Purley Knoll (No 23) in Purley I write to make representations against the proposed 16-storey tower development at Purley Cross (as part of the Purley Baptist Church). I strongly oppose this development – inappropriate to the character of Purley which poses deep challenges to already congested roads and services and the local environment. I list below some points of objection:

- In a survey relating to the proposed development in excess of 2,500 people have pledged their opposition to the 16 storey tower block that would form part of this development of 200 homes. Furthermore some 97% of those who left a comment on the developers own website stated they were against the tower block. Surely with such overwhelming opposition from the local community the council would wish to reconsider its proposal for this tower block and amend their plans accordingly – if not then the community deserves an explanation as to what justification the council feels there is to impose such a out of character structure on the town.

- The proposed 16 storey Tower Block is totally out of character with the local architecture and landscape of Purley and will create a dangerous precedent for the future. Such a tall building would never be allowed in any other circumstance and is way beyond the original 6 storey proposal put forward by the Purley Baptist Church or the current building heights of 6 storeys. By simply calling the 16 storey Tower Block a “Landmark” is no justification to impose such a decision on the local community.

- Such a mass development as proposed by the Purley Baptist Church will have a tunnel effect in Purley concentrating and increasing the levels of pollution that already exceed EU guidelines thereby placing residents (including those that will live in the proposed new homes) health at increased risk from air pollution. Only this week the Global Summit in Paris agreed to reduce pollution worldwide and yet it would seem there is absolutely no interest from the Baptist Church or the Council to take steps to protect its residents health by the reduction of pollution on the contrary this development will concentrate levels of pollution further.

- Traffic through Purley is set to increase further when “Westfield Croydon” is completed however...
despite this there appears to be no plan to take the opportunity to re-design the A22/A23 road layout other than side stepping the issue to TfL. Why is the council not looking to incorporate traffic congestion solutions within the plan for Purley?

•No details are available as to what impact such a development will have on the very real flooding issues in Purley especially as rainwater can and has been dispersing naturally through the demolished Island Site and properties located in 1-9 Banstead Road. As we know as recently as 2014 Purley Town Centre and surrounding areas were under water and therefore this development will simply add to the likelihood of this happening again. The Council’s own Plan stresses developments “that sites at risk of flooding only allocated where absolutely necessary”. What plans do the council have to prevent future flooding events in Purley?

•With only 40 or so parking places planned – where are the majority of residents supposed to park? This can only have a further impact on already densely parked surrounding roads.

•What further plans are there to expand GP Services? The GP surgery at WoodCote Valley Practice is already overwhelmed and it is very hard to get appointments and receive good treatment. Local schools are already crowded to – so what plans are there to expand those in light of potentially a further 500 residents (many likely with children)?

This is a woefully ill-thought-through plan with very bad consequences. I strongly to join the only thousands of Purley residents to implore you to think again and seriously revise this proposal.

This is a woefully ill-thought-through plan with very bad consequences. I strongly to join the only thousands of Purley residents to implore you to think again and seriously revise this proposal.
DM 40.1. Skyscraper in the centre of Purley. A building of 16 floors is, in our opinion totally inappropriate for the centre of Purley. As in other parts of London, a building of this height will create strong wind along the Brighton Road and Russell Hill. It would also be totally out of character with our town centre.

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Stop building or selling out with high rise buildings. We all know humans do not do well in high rise buildings and it is already embarrassing to see a 'pink' building in West Croydon dominating our skyline. Do not do the same to Purley. It has already been damaged by Tesco's.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London.

Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
This refers to the Baptist Church site where the church propose to build a 16 storey tower block in the centre of Purley Cross and shopping centre. The tallest building in this area is 5 storeys and a 16 storey tower will be totally out of scale and will over dominate this small town shopping centre.

The Baptist Church have an over ambitious plan to provide church and facilities plus community facilities. There has been no consultation with the community to judge their preferences.

To cover the cost of their development they need to include flats for sale. The Croydon Council have demanded a £2m CIL and 20 social housing units, without parking facilities to cover the cost of the Council's demands which necessitates building to the height of 16 storeys.

The church should be required to reconsider their own proposals. For instance an open area on the 10th floor would rarely be used in our English climate and the people of South Croydon should have their own facilities incorporated in a new swimming baths and leisure centre.

A further blot on the area will be additional car parking required for the flats without car parking bays. Many people whether in social housing or other housing require a car for their living and other reasons. For the Council to assume all tenants will only use public transport is a lack of understanding of the needs of working / disabled tenants.

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
I object to this policy since I believe it is written for the building on the Purley Cross site. A multistorey building over a few storeys would not be appropriate in central Purley. This area is less intensively built on than further north in the borough since it is closer to the edge of London and the green belt. This is necessary since a graduated reduction in intensification allows a consistent change in character, rather than a sudden abrupt end to the intense building characterising a big city. At present the town centre is no higher than 5 floors, a significant increase to this would not be in keeping and should be blocked by the council not encouraged.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 3.1.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Mr Ian Leggatt  

Object DM40.1  

The proposal to allow development up to 16 storeys is totally out of keeping with the area and streetscape and adjoining buildings. I object to the proposal.

No change  

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Object DM40.1

16 storeys - Too high for the Purley Cross site! A sore thumb! It will cause even more chaos to the area, which is bad enough anyway with traffic from A22/Tesco traffic flow.

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. Object: DM40.1

Please reconsider many of the policies that change the character of Purley, Sanderstead and Sth Croydon. Please do not build a 16 storey skyscraper in Purley. Please be thoughtful with redevelopments that seriously change the character of these towns. Once changed they cannot be put back. Garden grabbing, etc.

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
I oppose the construction of a 16 storey block of flats in central Purley. This is out of keeping with the surrounding area and will result in traffic and parking problems in an already very congested area.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. DM40.1

I am writing to you to oppose, in the strongest possible terms, the building of a 16 storey block in the centre of Purley. It beggars belief that such an eyesore should be considered in an area where nothing else is above four or five storeys. It will stick out like a sore thumb and the upheaval of actually building there will be immense. Quite why this is being considered I can't think. There surely must be an alternative to this proposal.

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Policy DM40.1 which seeks to permit a 16-story skyscraper in the centre of Purley. It is claimed that this would ‘positively enhance and strengthen the character’ of Purley with a ‘new landmark’. The term ‘Landmark’ is overworked appearing over two dozen times in a lame attempt to bolster poor justification. The correct definition would be ‘monstrosity’ denying the area its current culture. Keep construction to no more than 5 floors.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London.

Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
As a resident of Croydon all my life, I wish to register my opposition to the following “plans”:
DM 40.1 – Purley Skyscraper. The site is completely unsuitable for a 16 storey development which would completely out of character for the area.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
The tower would ruin the skyline of Purley and is completely out of keeping with the rest of the town. A sympathetic design, preferably mock Tudor, 4 floors max, in a much smaller scale would be more appropriate. This would stick out like a Monstrous Carbuncle! (where have we heard that quote before?)

I understand it is part of the London Plan which provides housing, but no parking?! I think it quite naive to think that the occupiers will not have cars they need to park, and will therefore go into the community to locate spaces for their need. Thus pressurizing the local community even further, for example Purley Vale area, who are already squeezed for parking with further restrictions coming which are unwelcome. The proposed development is on the junction of the A/22 and A23, one of the busiest junctions in the south east, surely any development there would cause devastating traffic tailbacks, it only takes one white van to break down outside Purley Library for the whole area to grind to a halt. A construction site for a 16 storey tower, no thank you. Purley is congested enough on a regular basis (the whole of this week on the school run I might add) with various works on the roads and diversions. It is totally unacceptable.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London.

Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
A skyscraper in Purley will be totally out of character with the local scene!

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
I do not believe that a 16 storey building would add anything to Purley, but would be totally out of character. Apart from the aesthetic point of view it is difficult to see how a the junction of the A22/A23 could possibly cope with a building of this size. Will any parking could be incorporated into the site? If so, where would the entrance/exit be?

I believe that this plan has been opposed by local residents since its inception. Why are local residents consulted if their views are ignored?

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. No change

This comment is not clear enough as to what is being objected to.
Can you please explain how a brand new maximum 16 storey building “positively enhances and strengthens the character” of the existing average 5 storey area with town centre building styles dating mostly from about 100 years ago? A modern 16 storey development will merely cast a nasty pall over the town and obliterates the existing character before setting a precedent for future planning decisions which may then triple the height of local buildings forever into the future. The potential offered by the plan clearly does not “positively enhance and strengthen the character” but erases it. In order to “positively enhance and strengthen the character” the empty site at the centre of Purley should be developed to be in sympathy with the existing character and height of the immediate adjacent buildings. About half of those are retail premises of about 5 stories but many others, to the south are ordinary residential houses of 2 storeys. Quite what advantage the existing residents of the area gain by ruining the character of the town your planning document does not detail so, like the equally unacceptable flyover proposal mooted some years ago, any possibility of an out of character development beyond 5 stories also be kicked well into touch.

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Mr Malcom Mackenzie

We have objected separately to the plan to build a skyscraper in the middle of Purley Policy DM 40.1, as this will be completely out of character, with the rest of the town, as well as causing considerable traffic congestion.

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London.

Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
A Skyscraper in Purley is totally inappropriate, none of the designs seen so far will add to the character or ambiance of the town in any way.

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London.

Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Mr Thomas Lawson

I object to this proposal on the premise that it is totally out of character with the rest of the town centre which consists of much shorter buildings.

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
With reference to the Local Plan which has been proposed, please note my objection to the following policies:

Purley Skyscraper authorisation Policy DM40.1

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
I am emailing to record my objection to the following policies within the ‘Local Plan’.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London.

Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee
Object Policy DM40.1 should not allow for up to 16 storeys as it will completely change the character of Purley town centre and is wholly out of keeping with the rest of the town centre which is no higher than 5 storeys

No change Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
A 16 storey building will be so out of place in Purley town centre, I can't believe it is being considered. And what about the impact on traffic in an area which is already gridlocked for much of the day.

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework.

The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London.

Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Purley (centre) at present generally has a maximum build of 5 floors. This policy appears to be written specifically to allow a skyscraper of 16 floors to be built in this location. I totally oppose this as it would completely change the character of Purley town centre.

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Mr Peter Spragg

Object DM40.1

Policy DM40.1 (p166) says that a skyscraper of 16 floors can be built in the centre of Purley. A skyscraper of 16 floors will completely change the character of Purley town centre and is wholly out of keeping with the rest of Purley town centre which is no higher than 5 floors. I totally oppose such a development as it will completely annihilate what is left of the centre of Purley.

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Policy DM40.1 (p166) says that a skyscraper of 16 floors can be built in the centre of Purley. I am sure that this policy is written with the specific site opposite Pizza Express on Purley Cross in mind. I totally oppose this. A skyscraper of 16 floors will completely change the character of Purley town centre and is wholly out of keeping with the rest of Purley town centre which is no higher than 5 floors.

Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. No change.
Policy DM40.1 (p166) says that a skyscraper of 16 floors can be built in the centre of Purley, which will completely change the character of Purley town centre and is wholly out of keeping with the existing buildings which are no higher than 5 floors.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework.

The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London.

Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
It is with regret that I feel the need to object to the following proposals:

Purley skyscraper Policy DM40.1
I feel this proposal is completely out of keeping with the surrounding area and I strongly oppose it.

Garden acquisition Policy DM2
This will make ‘garden grabs’ far too easy in my opinion, is far too subjective and is therefore a far weaker form of protection.

Sanderstead Lidl site Policy DM41.3
This proposal will likely cause real problems to traffic in the vicinity and I do not think it is an appropriate site for retail development.

Loss of Green Belt at Coombe Playing Fields and Croham Hurst Policy DM44.2
I believe that both of these locations should remain Green Belt and that re-designation is inappropriate. It will impact the area badly and in conjunction with other changes steadily change the nature of the area for the worse.

The Gypsy/Traveller site on Conduit Lane Policy DM44.2
Finally I most strongly object to Council plans to develop a Gypsy/Traveller site here. I feel it is totally inappropriate placing this on Green Belt land and is in direct contravention of the “Planning Policy for Traveller Sites” published by the Government just last August!

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Policy DM40.1.b. with potential for a new landmark building to a maximum of 16 storeys; I object to the allowance of a skyscraper up to 16 storeys high. It will look out of place in the area and will not enhance the character of the traditional buildings around it. It will create extra traffic in an area that is already congested. This should not be permitted.

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore, the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
I notice that in your Local Plan for development of the area there are several proposals which deserve reconsideration before they are promulgated. A skyscraper of this size would further destroy the remaining character of Purley which has declined markedly since I moved back here 45 years ago.

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Object

Soundness - Justified

Purley Skyscraper – patently absurd to consider a building of 16 floor in the middle of an area of low buildings and surrounded by busy roads. The idea should be dropped immediately.

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Policy DM40.1. The proposal to allow a 16 floor skyscraper in Purley is totally out of character with the town and would add to congestion placed in any central area. In addition without adequate off street parking, congestion would increase.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Furthermore, the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
A skyscraper in Purley is simply madness. It is not in keeping with the area, the site does not lend itself to such a development and the area already struggles with traffic congestion (ask your delayed colleagues). It would not be able to cope with the additional pressure a skyscraper would bring.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Mr & Mrs Kim

We object to the following proposed plans.

DM40.1

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Policy DM40.1 (p166) says that a skyscraper of 16 floors can be built in the centre of Purley. I am sure that this policy is written with the specific site opposite Pizza Express on Purley Cross in mind. I totally oppose this. A skyscraper of 16 floors will completely change the character of Purley town centre and is wholly out of keeping with the rest of Purley town centre which is no higher than 5 floors.

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen the recognition and importance of Purley in the borough and also on the southern approach to Central London.

Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high.

It received positive recommendation from officers and the Planning Committee.
I object to the construction of a tower block on this site. It would be quite out of place and ruin the street scene and overpower the adjoining buildings.

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from
Mrs R Jennings

Object

DM40.1

Policy DM40.1 - I absolutely object to the massive overdevelopment that would be a skyscraper of any kind in Purley.

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Mr & Mrs Smith

We are strongly against the planning ideas you have over green spaces. Please add these six against to planning ideas with references below.

DM40.1

DM44.2
DM28
DM31.4

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
We are life long residents of Croydon. With reference to the local plan we would like to object to the following proposals:

- **DM40.1**: A skyscraper in Purley is total out of character for the town. Purley needs development but this is not the way to go about it.
- **DM40.4**: Purley Pool - whilst not objecting to this area being redeveloped it should include a swimming pool. Our children learnt to swim here and it is an important facility to the community. For instance our Further uses it regularly. It has been vital to maintaining his health and he would not be able to travel to more distant pools.
- **DM44.2**: It is not appropriate to have a travellers site on green belt land. We believe it is important to protect all Green Belt land from development.
- **DM31.4**: We are opposed to the intensification of these areas.

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework.

The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London.

Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
I object to this proposal on the premise that it is totally out of character with the rest of the town centre which consists of much shorter buildings.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London.

Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
I object to Purley Skyscraper Policy DM 40.1. It is completely out of character with the whole of Purley Town Centre where buildings are no more than 5 storeys high.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
I am writing to object to:

3. Purley Skyscraper authorisation as listed in policy DM40.1 (p166) says that a skyscraper of 16 floors can be built in the centre of Purley. This will completely change the character of Purley town centre and is wholly out of keeping with the rest of Purley town centre which is no higher than 5 floors.

Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
I would like to officially put forward to you my strong objection to some of the policies that you are proposing within Croydon. My objections are particularly directed to the following policies:

DM40.1 Purely sky scraper development. The proposed building is totally out of character for the area and in my opinion will be a blot on the landscape.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Firstly, congratulations on drawing together this informative document, which is clear and consistently prepared. The summary form, particularly in detailing possible alternative uses for sites, does leave plenty of scope for possible argument over interpretation and it might be useful to link sections to more detailed background material.

I do have a number of concerns as follows:

I am disappointed that support for a very tall building at Purley Cross appears to have support. I think this would further destroy the comfortable feel for the old centre and discourage the development that is necessary.

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London.

Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
I wish to appeal against the plans for the 19 storey building at the Baptist Church site, Banstead Rd. Whereas, I wouldn’t object to some flats there, the plan needs adapting.

1) 19 storeys is far too high for Purley. It will dominate the whole area.
2) It is not really a suitable site for housing as it surrounded by pollution from cars - both noise and sulphur dioxide. It is definitely not suitable for families. It would be quite dangerous, also as there will no outdoor space for children.
3) Nor is it suitable for shops because of the lack of easy crossing places and the amount of cars passing nearby. There are already far too many empty shops in Purley.
4) If it must be housing, flats for young people trying to get on the housing ladder would be more acceptable and appropriate. If you would provide help with the deposit, or allow part rent, part ownership. There is a tremendous shortage of such places.

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London.

Since consultation in 2013, the Further alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore, the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Object Soundness - Justified DM40.1

Policy DM40.1 (p166) - We totally oppose this. A skyscraper of 16 floors will completely change the character of Purley town centre and is wholly out of keeping with the rest of Purley town centre which is no higher than 5 floors.

No change Croydon will have sustainably grown to accommodate homes to contribute to the borough's housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework.

The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London.

Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.
Maurice Brennan

Object DM40.1

I strongly object to the inclusion of: Policy DM40.1 (p166) that says that a skyscraper of 16 floors can be built in the centre of Purley. This is wrong and will destroy Purley for years to come. Shame on you for including this.

No change

Croydon will have sustainably grown to accommodate homes to contribute to the borough’s housing need. Policy 31.2 should be read in conjunction with Policy 7.4 of the London Plan and Paragraph 58 of the National Planning Policy Framework. The Purley District Centre is one of areas with high level of accessibility to public services, including transport, and therefore suitable to accommodate its share of sustainable growth. The proposed landmark building, significantly taller than predominant up to 8 storey urban fabric, would maximise use of the sustainable location of the district centre, strengthen recognition and importance of Purley in the borough and also on the southern approach to Central London. Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. The currently proposed landmark scheme in Purley is 16 storeys high. It received positive recommendation from officers and the Planning Committee.

Dennis Carter

Object DM40.2

No change

The objection is noted but as there is no further information substantiating it no amendments the policy can be made as the basis for the objection is not known.

Ms C Soroczynski

Object DM40.2

Please note my objections to planning- Policy DM40

No change

The Council is unable to respond on this as no reasons are provided for the objection in relation to policy DM40.2.

Mr J Zhang

Object DM40.2

I certainly object to the following policies as DM40.2. We do need a health and green tone with its character.

No change

This comment is not clear enough as to what is being objected to.
No change

The objection is noted but as there is no further information substantiating it no amendments the policy can be made as the basis for the objection is not known.

Mr John Massie

Object

DM40.3

The junction of Brighton Road and Purley Downs Road items b) and c) seems to suggest that there should be a lot more 5 storey blocks of flats similar to Lansdowne Court along this stretch of the Brighton Road. Which would completely spoil the street scene and the area generally with too many over-large and visually intrusive buildings and put a huge strain on parking.

I note also in item 11.124 that Capella court is described as a "landmark" building when it is in fact a terrible eyesore, ugly and disliked by everyone who lives in the area, the result of 1960's planning failures. It can never be a focal point for decision making in the 21st century and should be demolished. Perhaps you should survey the local residents on this issue.

Since consultation in 2013, the Further Alterations to The London Plan (FALP) were adopted which incorporate a significant increase in housing target from 1330 to 1435. Furthermore the London Plan is clear that this target should be considered as minimum. The partial review of Croydon Local Plan (CLP 1.1) set the strategy to accommodate growth within urban area. Worting of the paragraph 11.124 refers to the future re-development as a landmark, a larger building terminating vistas from south and north due to its larger scale than surrounding buildings.

Dennis Carter

Object

DM40.3

The objection is noted but as there is no further information substantiating it no amendments the policy can be made as the basis for the objection is not known.

<td>112 Brighton Road is suitable for a primary school use. The site has a total area of 0.30ha, and can appropriately accommodate a primary school use. It is recognised in the Croydon Local Plan Strategic Policies (adopted in April 2013) that the South Western area of Croydon is in need of more primary school classrooms. The site has a long history of being developed. The existing land use is not protected. The Alternative Site is not subject to any relevant policies. A preferred or alternative option has not been specified for its use. It is considered that the Alternative Site is an ideal location for a primary school given its proximity to public transport and potential for access from both Brighton Road and Downlands Road (which also provides opportunity pupils to be dropped off away from the heavy traffic on the Brighton Road). It is unlikely that an educational (D1) use would result in adverse overlooking issues onto the adjoining properties while any acoustic impacts would be limited and occur within school hours only. No.112 Brighton Road presents a more appropriate location offering better safety and access outcomes and a quieter environment.</td>

No change can be made as a result of this policy as there is no detail as to what is being objected to. 112 Brighton Road has been assessed and will not be allocated as a primary school due to the lack of suitable access and the close proximity to the adjoining residential properties.
4117/01/024/DM40.4/O Cllr S Brew

Object DM40.4

Lord Roberts, 19 Upper Woodcote Village, Purley: Given the text of para 5.38 on p54 of the CLP1.1 partial review document, I recommend that the Lord Roberts should be designated as a community facility, which serves a relatively isolated group of homes around the village green.

Change

Agreed it will be designated as a community facility as post offices have been added to the definition of community facilities and will be protected by Local Plan policies.

4117/01/023/DM40.4/O Cllr S Brew

Object DM40.4

Purley Library site: (not currently discussed in local plan): The existing listed building should be retained but converted to offices. (AFTER new library has opened on site 30 above.

No change

Change Agreed it will be designated as a community facility as post offices have been added to the definition of community facilities and will be protected by Local Plan policies.

2657/01/004/DM40.4/O Rebecca Pullinger CPRE London

Object Soundness - Effective DM40.4 130

A large number of the sites allocated for development through Detailed Policies and Proposals may result in the loss of green space. This appears to run counter to the Borough’s Strategic Objective 10 (The need to utilise brownfield areas first) and could be replaced with a goal to promote good quality high density developments that protect Croydon’s green spaces. Even undesignated green spaces provide important ecosystem services to Croydon’s growing population. We are concerned about the potential loss of Green Infrastructure through the possible reduction of garden space through the proposed development. Any plans should seek to protect and enhance the green space.

The Council should provide additional text in these policies to encourage developers to propose good quality, high density developments which promote the protection and enhancement of green space.

No change

This allocation would not result in the loss of open space.

2781/01/005/DM40.4/C Graham Bass

Comment DM40.4 130

Concerned about the design of this large, predominantly affordable estate. Need to ensure that it will be attractive & in character with the area & its surroundings- not replicate the stereotypical tatty council house estates of the past.

The proposal would need to be attractive and in character with the area and its surrounding.

No change

Any proposal would be required to meet the standards set out in the Urban Design and the Places of Croydon policies in the Croydon Local Plan.

2982/01/003/DM40.4/O Mrs Jeanne Driscoll

Object DM40.4 130

I wish to add my objections made on this document by our local M.P. Chris Philp.

<td>DM40.4 30</td>
<td>We are broadly in agreement with the proposals but feel that with such a big site and a large development that the wording should not allow for any ambiguity. We suggest the following proposed use: Mixed use redevelopment incorporating a new leisure centre, to include a 25metre swimming pool and a fully equipped gym. Other community facilities such as, healthcare facilities, creative and cultural industries enterprise centre, retail, residential accommodation and public car park. We believe that there should be no ambiguity regarding this site as it was the subject of a massive public petition about a possible closure of the Pool. 6400 signatures were presented to the Council which bought about a full council debate. The debate finished with a 100% support of the Councillors from all sides to keep Purley Pool open. This should clearly indicate the wishes of the community and you should take note of them Change</td>
<td>The site is allocated for ‘Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation’.</td>
</tr>
</tbody>
</table>

02 September 2016
Purley is the only logical place in the south of the borough for swimming facilities:
- It is a public transport hub and has the best bus, road and rail connections in the area and hence is easily accessible to a large number of residents.
- The current pool is very well used by schools, disabled groups, clubs and has classes for all ages.
- For geographic reasons it is the most readily accessible pool for residents in Coulsdon, Sanderstead, Selsdon and Kenley as well as Purley itself (estimated 87,000 residents have access). Loss of the facilities would mean that significant numbers from these areas who currently go swimming will not have ready access, and hence will not be able to go.
- The nearest other pool is in Waddon which because of poor accessibility for the south of the borough (two bus journeys and poor bus timetables) is for all practical purposes out of reach for users in the wards of Kenley, Sanderstead, Selsdon and Coulsdon. For those travelling by car, Waddon has insufficient parking places to take extra users, as well as adding to the congestion on the Purley Way.
- Loss of swimming facilities in Purley would result in a significant inequity in provision of such facilities across the borough and would be counter to the ‘Opportunity Croydon’ initiative

However, table 11.13 in CLP 2 states for the existing Purley Pool site that its proposed use will be: Mixed use redevelopment incorporating new leisure facilities and/or other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation and public car park.

This wording creates significant doubt as to the future purpose of the site, does not guarantee a pool, and doesn’t even guarantee leisure facilities of any description. We believe that in order for the CLP to property meet the safeguards set out in the NPPF, the London Plan and the UDP it should explicitly set out plans to retain a 6 lane 25 metre pool in the centre of Purley. If the existing pool site does need to be redeveloped then a new pool should be built before the existing one is
<table>

I am writing in connection with the consultation documents for the Croydon community plan, which do not appear to guarantee the continuing provision of a swimming pool in Purley town centre. The plan appears to refer merely to ‘new leisure facilities and/or other community facilities’. All vague....

I am one of the many users of Purley Swimming Pool who protested a while ago at the threat of its closure and was at the meeting in the Town Hall when we were told that the Pool would be ‘saved’ for the foreseeable future (or words to that effect). I am contacting you now to emphasise what to me is perfectly obvious: a Purley municipal swimming pool is much needed and valued. It is no use if facilities are not easily accessible to those living in the borough, particularly in the south of it. Purley town centre is an absolutely ideal situation for a swimming pool: it is the hub of several bus routes and people can get to the pool easily from all over the borough. The pool is very, very, well used, particularly by the young and the elderly. As an elderly person myself, I know the value of swimming in keeping limbs supple and giving a sense of wellbeing. We oldies would be a much greater drain on social services if we couldn't get the good exercise that swimming provides....

I have lived in Purley since 1971 and well remember the free car park that was appropriated to build the (long gone) small Sainsbury’s store and multi-storey car park on the site. The provision of a municipal swimming pool in the town centre was at that time recognised as long overdue and was a condition of the whole building project. The site was then considered ideal: it is STILL the ideal site for a swimming pool. I swim regularly with users who come from Sanderstead and Coulsdon, as well as from Purley itself. It is just SO easy to get to. A new pool was built at Waddon the other year: this is of absolutely NO USE. WHATSOEVER to most people living in the south of the borough. There is virtually no car parking available there - and anyway who in their right mind would want to take a car along the Purley Way at any time of the day?! And there are few buses that go past Waddon Pool from Purley town centre.

A petition of many thousands of signatures was presented to you earlier in the year when the Pool was threatened with closure. You have...
ample evidence that a swimming pool in the centre of Purley is what your Community Charge payers want. Please listen to us and act accordingly: don’t even THINK of getting rid of our much-used and appreciated Purley swimming pool! It could well do with a bit of smartening-up, but it certainly does NOT warrant being replaced elsewhere.
I was pleased to learn that Purley pool is to remain open for the immediate future but that plans for closure still remain.

I am always shocked to learn that there is even mention of closure of the pool, which is a valuable resource for Purley town centre and its environs. As far as I am aware, the pool is only facility to the south of Croydon, serving not only Purley but also Sanderstead, Selsdon and the Coulsdon areas.

I appreciate that there is the new pool at the Waddon Leisure Centre but the bus service is poor and this means that one has to drive from Purley, sit in endless traffic along the perpetually congested Purley Way (so much for saving fuel and protecting the environment from pollution), whereas Purley pool is in a mainly residential area and can be easily accessed by public transport and even on foot by many users. Moreover, there is limited parking at the Waddon site, which is often full and involves the additional expense of car parking charges. We read endlessly in the press that fewer and fewer children learn to swim; I am not surprised. It is expensive enough having to pay entrance fees, for a parent and two or three children, let alone adding the cost of petrol and parking to a swimming session.

Whenever I visit the pool, it is usually busy and is obviously a valuable resource, not only for individuals but also for schools, and other groups with planned exercise activities. We are constantly urged to take more exercise and told of the associated health benefits but here we are facing a plan which will decrease the availability of local facilities for many users, in particular the over 65’s group, to which I belong.

I understand that a recent petition aimed against closure of Purley pool gained over 6,000 signatures; surely this is an indication of the level of objection by a significant number of local users and also council members against plans for closure of this valuable facility.
| 0145/02/001/DM40.4/O | Mr Bill Tubb | Object | DM40.4 30 | I understand you are collecting comments re future updating of the Leisure centre in Purley. I am a regular user of the existing facility and have been for several years. I recommend any new leisure centre will need to have a 25m swimming pool included in the plan. | Change | The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'. |
| 0150/02/001/DM40.4/O | Grant Georgiades | Object | DM40.4 30 | I note that the recently released Croydon Local Plan (CLP) does not guarantee a pool in Purley in the future, referring only to "new leisure facilities and/or other community facilities." I believe that the plan should contain a specific commitment to maintaining at least a 25m pool in Purley as Purley Pool is the only community swimming facility in the south of the borough. The accessibility of Purley town centre by public transport makes it the best location in the south of the borough for a pool (and convenient facilities encourage more use and exercise.) This is evidenced by the fact the current pool is widely used by schools, disabled groups, and has children and adult lessons, aqua aerobics and other activities. The popularity of the current pool both has been demonstrated in terms of usage and the fact that the petition to keep it open earlier this year received over 6000 signatures. Site 30 should include the requirement for a 25m pool | Change | The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'. |
| 0150/02/002/DM40.4/O | Grant Georgiades | Object | DM40.4 30 | The only alternative is the Waddon pool which has insufficient capacity, very few parking spaces and is difficult to get to for most people in Purley by public transport. As managing director of one of the biggest employers in Purley town centre it is already sufficiently difficult to sell Purley as a desirable working location for active employees. In recent years we have lost our cinema to a block of flats and the high street has deteriorated to the extent that footfall is hard to come by. Losing the pool, which is possibly the biggest attraction the high street has to offer, would be another nail in Purley town centre’s coffin! Site 30 should include the requirement for a 25m pool | Change | The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'. |
| 0150/02/003/DM40.4/O | Mrs Liz Marsden | Object | DM40.4 30 | Purley Pool - Redevelopment of Purley Pool would be good - but the policy does not specifically state there must be a pool in this complex - it should state a pool must be retained (it is heavily used and reduces NHS bills, as many people who use it are older and keeping themselves fit, which reduces NHS visits drastically). | Change | The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'. |
Sally Rodwell

Object DM40.4

I would like to add my support to the below comments from Chris Philp MP, Regarding the proposed Croydon Council Local Plan. As a resident of Purley I find your plans extremely worrying and ill thought out.

I am also a member of Enterprise Swimming Club who meet at Purley Pool on a Friday evening. We offer a vital service to disabled people in the form of swimming lessons and social activities (perhaps you should be more grateful to groups like ours who take responsibility for vulnerable groups in the community, allowing you to ignore them). Plans to close Purley pool would effectively end this club, which has been running for 56 years. Other swimming pools do not have transport links like Purley, or even adequate parking facilities. I hope you take note of the dissent and reconsider these plans.

Mr Roger Chapman

Object Soundness - Effective DM40.4

We need the pool in Purley to be kept open. It is the only one south of Croydon, I use it twice a week.

Change The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.
I have often been fighting for saving the swimming pool in Purley. It would appear that, whichever flavour of the council, they want to get rid of the pool which is heavily used in Purley.

It is heavily used by the over 60's which is the main group of people I am associated with. We need an easily accessible pool for easy exercising (with swimming as principal). Many other groups and families, from personal experience, also use this pool. It is essential for the schools who use it, to try to ensure all children learn to swim, a government mantra.

It is ideally situated for workers who travel towards or return from Croydon (which doesn't have a central swimming pool) or directly into/out of London and places in between.

Purley has excellent travel communications for most of the southern and western areas of Croydon.

If this pool has to be got rid of let a new pool be constructed in Purley in a very near location, (the buses and trains allow easy access and continued travel after the pool use), BEFORE THE CURRENT POOL IS CLOSED. I believe that once this pool is closed building a new one will easily be put off indefinitely. Waddon pool is not convenient to the vast majority of users as has been shown by the fact that despite it being a more modern pool most, early morning swimmers, still go to the Purley one. Only two of us have switched regularly, I because I have more control of my getting there (I walk) and the other because of it's earlier starting time. Waddon is badly served by buses, it isn't that close to Waddon train station. It doesn't have anywhere near enough parking spaces, which are required because of it's bad accessibility.

All the other Croydon swimming pools are totally out of reach of most people in this southern and western parts of the borough.

One further point is that the pool brings people into Purley, who might use it's shopping facilities, which are seriously lacking at Waddon pool (other than one supermarket).
Caroline Hughes

Comment

I refer to your notice, reference number 30, which has been placed on a sign-post in Purley High Street. It states: “there will be leisure facilities and/or community facilities..... etc.”

Can you please confirm that a) there WILL be leisure facilities and also that b) these WILL include a 25 metre pool?

As you know, over the years, there has been a number of campaigns to save the current swimming pool; the last being in January this year when over 6,000 signatures were gathered in a petition to save the pool from closure. It is obvious that there is a strong feeling among the people of Purley and in the rest of the south of the borough to keep a swimming pool in the town. If the pool were to be closed and not replaced, then there would be no swimming pool in the south of the borough. I know there are pools in other parts of the borough (Thornton Heath, New Addington, Waddon) but we all pay our Council Tax so why should the south be penalised? Not everyone is rich in the south with their own personal pool.

Roseline Laurence

Object

I was disappointed to see that you have not made it a certainty that whatever is built on the site of Purley pool and car park in the future includes a 25 metres long swimming pool in the draft consultation document. This is especially disappointing given the strong requirement amongst residents in the south of the borough for a pool in Purley town centre. This was well demonstrated when more than 6000 signed the petition to keep Purley Pool open. Swimming is a wonderful thing for children to learn for fitness and it can be a life saver. It is a good form of exercise for the more elderly and those with medical conditions that prevent other fitness regimes, eg. Where there is impact on the skeletal frame such as from running and jumping. Please would you make it a requirement on any developer to include a 25 metre pool on the site.

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.
My particular concern is that there is no mention of a swimming pool on the site. I am broadly in agreement with the proposal for a range of sports, leisure healthcare, community creative and cultural facilities, as well as residential and public car parking. Please include the mandatory requirement for a 25 metres Pool on the site.

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

Further to the draft of the above now being open for comment I would like to express a concern that it doesn’t guarantee Purley will retain its swimming pool. If it were to go I think it would have a detrimental impact on numerous people who regularly use it as not only a place to keep fit but also a place to meet friends and so it plays an important part in the community. Plus it’s also used by local schools and groups so given the recent press re children and lack of exercise/obesity Why we would even consider losing this resource for a healthier lifestyle. Unlike Waddon (which has totally insufficient parking and is a nightmare to get to even by public transport due to the volume of traffic on the Purley Way) it has excellent transport links and parking facilities and if it was closed it’s unlikely that Waddon could cope with the extra demands not only from Purley residents but other local areas as well i.e Selsdon Sanderstead & more.

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.
My family and I are very, very concerned that current redevelopment plans for Purley leisure centre do not state having a pool. We would like to clearly state that a pool is essential and should be specified within plans. Plus, a pool to the equivalent size of the current pool. We live in Sanderstead. Purley is our local hub. We use Purley Pool three to four times a week and then use shops, etc in the town. If the pool was not there we would not bother going to Purley nearly as often as we do. Both our children have learnt to swim at the Pool. My husband and I can use the pool before and after work due to the excellent transport links from central London. Going to Waddon Pool is simply not an option due to the lack of parking, congestion and lack of decent transport links. Like many families we also can not afford a private pool membership. We also voted for Tony Newman on the basis he had promised a pool in the town. Why not make Purley Pool a real destination as part of your plans? The pool is already well used my son’s primary school uses it but why not see having a pool as a real opportunity for the town? Swimming is the most inclusive form of exercise. The old, disabled, obese and very young can all benefit from it. Why lose this? I go for a bad back without swimming I need medication for it. By taking responsibility for my health by swimming, I am keeping out of the doctors surgery and being able to work - and pay my taxes. Keep a Pool in Purley.
I signed the petition to Save Purley Pool and was naively hopeful that when that garnered a stay of execution that would be the end of it. It is abundantly clear that there is a great need for a council run swimming pool at Purley that is accessible on low incomes and pensions.

I am very aware that in the current economic climate the council is under pressure to be financially viable and that the day of subsidised facilities are on the wain. That said, I have dedicated my working life to the long-term unemployed, people recovering from mental illness and to young offenders. It is vital to their rehabilitation that they have safe, affordable outlets for mixing with the community. Parks are wonderful but do not provide the feeling of safety required. Individual bursaries are not the answer.

I urge you to consider the hidden costs that will accrue if you remove another publicly funded leisure facility. The very fact that Purley Pool is so well attended despite its proximity to other, expensive, privately run pools and gyms must surely convince you that there is a real community need for the Pool.

I appreciate you are faced with very tough decisions about what can and can’t be funded in the area but I would like to add my voice to those campaigning to save Purley Pool.
I would like to register our concerns that within the Croydon Local Plans CLP1 and CLP2 that although “new new leisure facilities and/or other community facilities” are mentioned, the plan does not guarantee a pool in Purley.

May I remind you of the fact, that, when the pool was threatened with closure earlier in the year, 6000 signatures against the closure were collected in the very short time allowed by the council (indeed, had we had more time I am sure we could have gained many more signatures).

The inclusion of a new pool or the refurbishment of the old pool, we feel is essential to Purley for the following reasons:

The current pool is used by thousands of people in and around Purley, including Selsdon, Sanderstead, and Coulsdon.

It is used by most of the schools in the area, disabled groups, and has adults and children’s lessons, aerobics and other activities including the charity swimathon which takes place every year.

Purley is very convenient place for local transport making Purley an ideal place for a pool in the south of the borough.

Swimming is the perfect sport for everyone at any age, which keeps everyone healthy.

The nearest swimming pool at Waddon has insufficient capacity to accommodate Purley pool swimmers, is situated in a traffic hot spot, and has with few parking spaces.

Finally, why should we lose a valuable and well loved and used asset in Purley, which has been part of the town, and indeed, originally gifted to the town.

The site is allocated for ‘Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation’.
There are vague comments about leisure facilities, but I can see no reason why commitments already given should not be in the plan, and a failure to do this would ring alarm bells. As I am sure you are aware this is an important issue locally. It has been pointed out many times that the pool in Waddon is not practically accessible from Purley. For most people it is two bus journeys or a very tedious drive along a traffic saturated Purley Way, with no hope of parking when you get there. It makes a huge addition to the time needed to go and exercise. To be beneficial exercise needs to be taken regularly and at least twice a week. The Pool and Gymnasium are the only facilities in the South West of the Borough and serve not only Purley but Coulsdon, Kenley, Old Coulsdon, Riddlesdown, Sanderstead and South Croydon. They create many thousands of footfalls per annum in Purley and are a vital part of it being a sustainable community. The need for this facility will of course increase with the large housing development in Coulsdon, and the planned developments in Purley and surrounding areas. To bring in all these people whilst not having adequate leisure and exercise facilities is to condemn the area to being a dumping ground where people are expected just to sleep. This will likely cause an increase in anti-social behaviour in the town and a further decline in it as a community.

My suggestion for the future of the pool is to build alongside it a sports hall which will enable all sorts of activities including team events such as five-a-side football to provide activities for the new settlers in the area and of course the existing ones as well. If this area also included a new library building to serve the South west of the Borough then you would begin to create a community centre which would enhance the value of the area and increase the likelihood of the planned growth becoming successfully established.

The site is allocated for ‘Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation’.
Mrs Valerie Hunter

DM40.4

30

Purley Swimming Pool must be included in the new leisure facilities in Purley and retained/rebuilt in the centre of Purley for the following reasons:

SWIMMING IS NOT ONLY A HEALTHY EXERCISE, BUT A LIFE SAVER!

From young babies and toddlers learning to swim before they develop a fear of the water, or before they accidentally fall in water and drown - from older children and teenagers burning up their energy in a positive rather than a destructive way, the exercise helping them lose weight instead of turning into lethargic overweight ‘couch potatoes’ in front of television or computer, especially during school holidays - from adults keeping fit, using muscles that they are unable to use in any other activity, especially those with a sedentary job - from the elderly helping them to keep active and healthy, when other exercise is not possible for them - from the disabled who have difficulty in walking, but can still swim - to those recovering from accidents, water buoyancy helping them regain strength - to those learning to swim at any age who can save others’ lives, or save their own - all need the opportunity of a near swimming pool.

Other activities are limited to certain age groups, or need considerably more space per person, or only suitable for good weather. No other activity can provide so many people at the same time with healthy exercise. There should be MORE SWIMMING POOLS, not less.

Why in the centre of Purley and not elsewhere?

Because buses go directly to the centre of Purley from ALL directions - convenient not just for Purley itself, but Kenley, South Croydon (Purley Oaks part), Sanderstead, Selsdon, Woodcote and Coulsdon, and other places. Older children can easily travel on a one-bus journey to Purley. [Parents would not be quite so happy about children having to walk around at bus stops on their own for a second bus to take them the longer journey elsewhere.]

Or parents can go shopping in Purley while their children can swim in safety. Swimming clubs and schools use the pool.

The proposed Coulsdon pool was never built, and would not have been
so easily accessible to so many people anyway.

The Waddon Pool is in an area of considerable traffic congestion, with infrequent bus service, and inadequate parking, and would be unable to fit in their timetable the number of activities of the various groups using Purley Pool including the disabled, the considerable number of schools, swim schools etc.

What possible 'leisure' complex activity could provide so much enjoyable or needy activity for so many?

Therefore it is essential that new leisure facilities include a swimming pool in the CENTRE of Purley.
Purley Pool has been an important part of Purley High Street since the early 1980’s, providing a much needed leisure/learning/health/recreational facility for a full age range of local residents from Purley, Selsdon, Sanderstead and Coulsdon. I go to Purley at least three times a week for swimming, banking, visiting the post office, Tesco, Sainsburys, dentist, doctor, pub and library. Purley is a great little town because there are a lot of useful facilities in one small area, easily accessible by foot, bus, train and car, which must be good for reducing carbon emissions. Purley is very local to me and I find it very useful to be able to get there quickly on foot, by bicycle, bus, train or car. Purley swimming pool had to close during 2013 for routine maintenance and I did try to get to the new pool at Waddon but in the end it proved too time-consuming to fit into my busy schedule to drive over to the Purley Way amidst the rush hour traffic. Driving to the Waddon Pool is my only way of getting there as there is no direct bus or train link available to me from Sanderstead and it is certainly too far to walk. I know there is a move to get us all cycling but I have no intention of risking my life cycling on Croydon roads, due to congestion, breathing in noxious fumes and painful joints. Pool users range from infants, toddlers, school children, teenagers, young adults before and after work through to those in their 60’s, 70’s and 80’s and need to be able to reach the pool quickly, easily and safely. There are very few car parking spaces at Waddon meaning that the few who do venture over there meet with problems of where to put their cars. Additionally, the roads around the Waddon pool are always heavily congested.

As far as I know, there are no other current or planned local public swimming pools that would meet the needs of Sanderstead, Selsdon, Purley and Coulsdon residents other than Purley Swimming Pool so I believe it is vital to include a pool in any future leisure centre plans for Purley as this is the only public pool which serves the south of the borough.

The popularity of the pool is clear considering the 6000+ signature petition achieved earlier this year to keep it open – not to mention the full support promised by Croydon councillors to keep it open. According to the publication ‘Great Lengths’ by Dr Ian Gordon and Simon Inglis “Swimming is Britain’s most popular participation sport. Nearly one in five people swim at
least once a month, with around 80 million visits to swimming pools recorded every year. “What other sport caters for such a wide age range and has such a health/feel good benefit? I believe that any future leisure facility/centre plans for Purley should include a new swimming pool. Who gets to decide what the needs of the local residents are – the residents or the council?”
I would like to comment on the draft Croydon Local Plan, with particular reference to a swimming pool at Purley.

I note that the Plan does not guarantee a pool in Purley, but refers only to “new leisure facilities and/or other community facilities”. I consider that it is essential that Purley continues to have a 25 metre swimming pool for the following reasons:

- **location**: the pool in Purley is ideally placed to serve the south of the borough. In addition there are excellent public transport links, as well as adequate parking. The pool at Waddon is difficult to reach by public transport and has insufficient parking.
- **popularity**: 6,000 people signed a petition earlier this year in support of retaining the pool which is extensively used by local schools and disabled groups. This was recognised at a council meeting in January when the councillors were in complete agreement that the pool should remain open.
- **health benefits**: these are well documented. At my recent free NHS health check I was told that swimming twice a week would have contributed to maintaining my weight, blood pressure and cholesterol at optimum levels.

At the consultation at Purley Baptist Church on 8 December I was told by one of the council officials (Lee, I’m afraid I have forgotten her surname) that the Plan would be amended from “leisure facilities” to “sports facilities” in Purley. However it would not be possible to include a swimming pool in the plan as this would restrict the developer and could lead to the site becoming blighted. While I recognise the need for pragmatism, I am concerned that in deciding whether to include a pool in the plan for Purley it would appear more important to consider the requirements of a potential developer rather than those of the residents.

I urge you to amend the Plan to include a 25 metre pool in Purley.

Change The site is allocated for “Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation”.

Table 11.13 Proposals for uses of land of specific sites in Purley
Ref 30 Purley Leisure Centre
The local community has been campaigning for many years now to retain the existing Purley Pool or find an alternative site for this facility. It goes without saying that this pool is extremely well used not only by the residents but also by local school. Swinmalton is an excellent annual event and raises lots of money for charity. Equally important is to ensure that the multi storey public car park is not lost in any new redevelopment of the site. PWRA accept the fact that the building needs to be demolished and redeveloped but wish to stress the need to ensure that the pool and the parking is not lost.

Change
The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

C H M Marsh

Object

The proposal should specifically refer to a swimming pool and gym. The facility is well used by the public throughout the day. It is one of the only facilities in the south of the borough for young adults in the evening and should remain available. It is suggested that the use be amended as follows - Mixed use redevelopment incorporating a new leisure centre, to include a 25m swimming pool and a fully equipped gym. Other community facilities such as health care facilities, creative and culture industry centre, retail, residential accommodation and public car park.

Change
The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

Angie Nokes
British Medical Association

Object

I agree that the current site is in need of revamping, and as a regular user of the current facilities, I would like to stress that it is important to the residents, local business employees and schools that leisure facilities, including a public swimming pool and gymnasium should most definitely be included in any redevelopment plans. A petition earlier this year to keep Purley pool open proved that the community are passionate about this facility remaining in Purley.

Change
The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

1788/01/003/DM40.4/O Alice Desira

Object: Soundness - Justified

Policy 40.4, Table 11.3, Site 30 (p168) talks about redeveloping the current Purley Pool and multi-story car park site. Whilst I would welcome redevelopment of this site, I would hope that the council would introduce a much more improved leisure centre and swimming complex (for example Guildford Spectrum leisure centre is very popular) and something along these lines to accommodate more parking would be an excellent addition to the town centre.

Change

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

1792/01/001/DM40.4/O Emma Bennett

Object: Soundness - Justified

As a member of Fusion (Purley Leisure Centre) Gym I would like the leisure facilities to be kept in Purley. I am a regular user of the gym which is opposite where I work so situated really conveniently for me to use after work. I will be very disappointed if Croydon Council decide not to replace the facilities in the redevelopment, I think it is important to keep such facilities located in Purley for myself, residents and children/schools to use. It's important that people have fitness/gym facilities including a swimming pool for their wellbeing.

Retain Purley Pool in any redevelopment of Site 30.

Change

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

<td>I am a local resident writing in support of Purley Pool. Over the years Purley has changed considerably; as Tesco got bigger we saw the closure of the butcher, baker, greengrocer and fishmonger. The cinema became a block of flats and the red route saw other small businesses close – the only good thing to survive is the much loved pool. As a family of 5 all members have enjoyed the facilities at Purley Pool; when the children were younger they learnt to swim in the pool, and now I take my grandchildren there during the holidays when they come to visit. Personally I have attended aqua aerobics and found this a really beneficial way to exercise in light of my arthritis; if the pool were to be moved I would not be inclined to attend sessions as the logistics of attending lessons after a day’s work and negotiating traffic and parking would not be appealing, the grandchildren would miss out on quality time too as I would think twice if I had to travel too far. Admittedly the building does need a little bit of TLC - the gym could do with an update - but otherwise it would be a real shame to destroy such a wonderful facility. Please take into account how important this is for local people before making a decision.</td>

The wording of this is too vague. The current leisure centre, which includes a swimming pool and fully equipped gym, is an important community facility which provides healthy exercise for the young, old and disabled. The facility is well used by the public before and after work, with a complete cross section using it during the day. It is one of the only facilities in the South of the Borough for young adults in the evening. Having this facility supports Policy DM 18 and particularly DM 18a. It is clear that there is a need for a 25 metre swimming pool and fully equipped gym and therefore the loss of such a facility should not be permitted. This need was supported by a massive public petition about a proposed closure of the pool in April 2015. 6400 signatures were presented to the Council which brought about a full council debate. The debate concluded with a 100% support of the Councillors from all sides to keep Purley Pool open. I agree that the existing Sainsbury’s/carpark/leisure centre should be redeveloped, given the redundant former supermarket. Therefore the temporary loss of a pool and gym during redevelopment would be acceptable.

I propose Site ref 30 should be amended to:

Mixed use redevelopment incorporating a new leisure centre, to include a 25 metre swimming pool and a fully equipped gym and other community facilities such as, healthcare facilities, creative and cultural industries enterprise centre, retail, residential accommodation and public car park.

The site is allocated for ‘Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation’.
A swimming pool is a crucial resource for the local community. My eldest son goes to lessons with his school as they are able to walk to swimming lessons, and parents are available to help, because it is local. His progress has been very good thanks to the excellent teachers, and the opportunity to attend regularly as part of his PE lessons. Purley town centre is easily accessible for many schools by foot, or quick and frequent public transport links, which saves families the extortionate cost of coach transport and saves teaching time too, rather than spend hours trekking to a different pool: there is no-where else in the south of the borough. Waddon (the nearest alternative) is much less accessible by public transport - there is only one bus that goes from Purley (so if you can’t fit the whole class on, or that bus was late, you’d be in trouble) but it is very busy and when I looked at the times to get there in time for after school swimming lessons and back again at a decent time it just wasn’t practical, especially as no-one likes buggies on public transport in the rush hour! I wouldn’t drive there as on the occasions I have visited Waddon Pool by car to play badminton I have found the parking spaces to be limited, and often had to wait for someone to leave - not ideal if you have a lesson starting at a particular time. At least at Purley, for people coming from out of town, there is plenty of space in the multi-storey right next door, as well as a National Rail station, and buses every minute or so along the Brighton Road. The Leisure Centre (together with the Library) are the community centres of the town. People come to use them, and visit the shops and local businesses whilst they are here. Without them Purley really would become a nothing-but-Tescos place to pass through and not stop. A generic leisure facility (say gym or sports hall) would not be nearly so attractive to people without a swimming pool - it is essential for children to learn for their own safety, is lots of fun and healthy too, and is a perfect low impact exercise for people of all ages including the elderly, and is very popular with people from Purley and all the surrounding areas.
Policy 40.4, Table 11.3, Site 30 (p168) talks about redeveloping the current Purley Pool and multi-story car park site. Redevelopment would be welcome, but any new leisure centre must include a pool and the policy should make this clear. It should also make clear that the total number of public parking spaces should not go down. Change

The site is allocated for ‘Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation’.

Object DM40.4 30 I object to Policy 40.4 table 11.3, site 30. Change

The site is allocated for ‘Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation’.

Comment DM40.4 30 Similar to REP 11 I am concerned that there is no specific mention of a swimming pool in your proposed use of the site occupied by the above. This is a necessary facility serving the needs of those living in the south of the Borough. To this end you will be aware of the petition presented and accepted by the Council to save Purley pool earlier this year. Swimming is a great form of all-round exercise whatever your age, reducing risks of heart disease, type 2 diabetes and stroke etc. It is essential that a pool is centrally situated close to amenities particularly public transport and car-parking. Change

The site is allocated for ‘Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation’.

Comment DM40.4 30 Car parking in Purley is generally inadequate resulting in surrounding roads becoming increasingly congested by commuters and dangerous. Your suggestion for a public car park must therefore be of sufficient size to accommodate not only their cars but the needs of those using the mixed use development. If it is inadequate the development will fail. I am also concerned that if all your proposed uses are included in the development the site may be too small. A mega storey development would be entirely out of character with the surrounding area and unwelcome. Change

The site is allocated for ‘Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation’.
Object Policy 40.4, Table 11.3, Site 30 (p168) talks about redeveloping the current Purley Pool and multi-story car park site. Redevelopment would be welcome, but any new leisure centre must include a pool and the policy should make this clear. It should also make clear that the total number of public parking spaces should not go down.

Change The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

---

Redevelopment would be welcome, but any new leisure centre must include a pool and the policy should make this clear. It should also make clear that the total number of public parking spaces should not go down.

Change The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

---

Purley Pool Policy 40.4, Table 11.3, Site 30 talks about redeveloping the current Purley Pool and multi-story car park site. Redevelopment would be welcome, but as a pensioner and keen swimmer any new leisure centre must include a pool. Swimming is one of the best ways of ensuring elderly people are able to keep fit when other forms of exercise are not open to them. I believe the policy should make this clear. It should also make clear that the total number of public parking spaces available should not go down.

Change The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

---

Policy 40.4, Table 11.3, Site 30 talks about redeveloping the current Purley Pool and multi-story car park site. Redevelopment would be welcome, but any new leisure centre must include a pool and this policy should make this clear. It should also make clear that the total number of public parking spaces should not go down and there should be arrangements made to provide temporary parking during construction.

Change The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

---

We would make the following objections to the proposed Draft Local Plan which is a poorly disguised attack on the southern part of the Borough Policy DM40.4, table 11.3 Site 30

No change No change can be made as a result of this comment as it is not detailed enough as to what is being objected to.
Policy 40.4, Table 11.3, Site 30 (p168) talks about redeveloping the current Purley Pool and multi-story car park site. Redevelopment would be welcome, but any new leisure centre must include a pool and the policy should make this clear. It should also make clear that the total number of public parking spaces should not go down.

Redevelopment would be welcome, but any new leisure centre must include a pool and the policy should make this clear. It should also make clear that the total number of public parking spaces should not go down.

Change
The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

Amend DM40.4, Table 11.13, Site 30 to refer to a swimming pool.

The accessibility of Purley town centre by public transport makes it the best location in the south of the borough for a pool (and convenient facilities encourage more use and exercise helping to meet the council’s public health objectives). The Waddon pool is difficult to get to for most users of public transport, and has very little parking. There can’t be financial constraints forcing the pool to be closed or the council would not be borrowing several million pounds to build a completely new pool at New Addington.

I very much hope the document can be amended to include a specific reference to maintaining a pool in Purley.

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.
Site 30, Purley Leisure Centre, does not mention that any new leisure centre must include a pool and the policy should make this clear. There should be a requirement that the total number of public parking spaces is not reduced by any development.

Site is allocated for ‘Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation’.

Policy 40.4, Table 11.3, Site 30 talks about redeveloping the current Purley Pool and multi-story car park site. Any new leisure centre must include a pool and the policy should make this clear. As noted above, it should also make clear that the total number of public parking spaces should not go down.

The site is allocated for ‘Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation’.

Redevelopment of the Purley Pool and multi-story car park is to be welcomed, but any new leisure centre must include a pool and the policy should make this clear. It should also make clear that the total number of public parking spaces will not be reduced.

Site 30, Purley Leisure Centre, does not mention that any new leisure centre must include a pool and the policy should make this clear. There should be a requirement that the total number of public parking spaces is not reduced by any development.

The site is allocated for ‘Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation’.
This email is sent concerning the redevelopment of the current Purley Pool, and to request that the new leisure centre should include a pool (currently not made clear in the policy). The policy should also make it clear that the total number of public parking spaces will not go down.

The site is allocated for ‘Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation’.

The proposed development of Purley Pool and the multi-storey car park must include a pool and ensure that the existing number of public parking spaces are maintained.

The site allocation should include a pool and retain public parking spaces.

We are no longer active swimmers ourselves, our daughters have until relatively recently used Purley Swimming Pool frequently. We imagine that there are still many other people who still enjoy using Purley Swimming Pool and closing it would necessitate them to travel a considerable distance to alternative swimming facilities. We believe that Purley Swimming Pool is a valuable asset to the Purley area that should be retained.

The site is allocated for ‘Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation’.

The redevelopment of the old Sainsbury’s site and Purley Pool is a good idea, but no mention is made of including a swimming pool in this development and yet it has been proved in the past that this is a very important part of Purley. The old Sainsbury’s car park also provides essential parking. Losing this parking facility would put people off coming to Purley to shop or using Purley station.

The site is allocated for ‘Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation’.
Purley Pool should not be sacrificed to residential or commercial development. There are SO FEW leisure facilities in Purley as it is. A number of your development proposals seem to suggest a severe reduction in the number of parking spaces available in both Purley and Coulsdon. As there is currently an acute shortage of parking spaces in both towns, this aspect of your proposals is clearly flawed. If residents/visitors have little or no access to parking, even for limited periods, trade will suffer and eventually decline will be unstoppable.

Change

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

Object

Table 11.13, site 30 - The proposal does not make specific mention of a 25m swimming pool, although retail outlets, residential accommodation (flats) and others are.

Other than Tesco's and the many cafés, hairdressers, estate agents and restaurants, Purley has no community facilities such as the present Purley pool and gym. It is important that this leisure facility should remain available to people south of the borough even through development of the site may well cause disruption for a period of time.

Planning should take note of the wishes of the people as demonstrated when some 6400 signatures presented to the Council following announcement of pool closure of our pool a year or so ago.

Change

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.
We disagree with the wording of the proposal which we feel is ambiguous. If the proposal is approved as currently worded almost anything can be built on the site. Furthermore there is no specific mention of a swimming pool and we think there should be.

The site currently houses a swimming pool and a gym. This is an important facility and is currently well used by young and old throughout the day. Its location close to the station is particularly helpful for residents who want to exercise before going to work or on their way home. If it is proposed to demolish the current pool we feel that the provision of a pool and gym should be specifically written into the planning proposals. This facility should be in Purley, to provide such an amenity in the south of the Borough and ideally should be close to the station. The proposed use should be "Mixed use redevelopment, incorporating a new leisure centre, to include a 25m indoor swimming pool, a children's/lemners pool and a fully equipped gym. Other community facilities, such as healthcare facilities, creative and cultural industries enterprise centre, retail, residential accommodation and public car park". We believe there should be no ambiguity about the development as there was a massive petition when closure of the pool was mooted only recently with over 6400 signatures presented to the council objecting to pool closure. The debate which followed showed overwhelming support to retain the pool and we feel that this should now be

Regarding the current Public Consultation and invitation to comment on the Local Plan, Detailed policies and Proposals. I would comment as follows.

Government/DHSS has made clear that the UK as a whole - including Croydon - has a desperate need to encourage and provide facilities for increased exercise by all sections of the population. Whilst more affluent individuals and families can afford private facilities, it is perhaps stating the obvious that this today implies every opportunity should be taken by local authorities to provide such facilities for the less advantaged sections of the community.

The existing Swimming Pool and Gym currently serve to address this requirement in South Croydon. It is difficult to see how any move to change this can be justified when the area’s facilities already fall so far behind others - having recently returned from the Isle of Bute in Scotland where a similar facility to that currently at Purley serves an island population of perhaps five thousand, compared with South Croydon’s two or three facilities serving perhaps two hundred thousand!

The existing facility is much used by many sections of the community, not least the disabled, younger and older groups, schools, and has been strongly supported by the public whenever its continued existence has been questioned.

Inasmuch as the role of the Council, and its subordinate Planning bodies, should be reflective of the public’s wishes, it is clearly a deficiency of the current “Proposed use” of site ref. 30 that such a vague statement is proposed.

I would suggest that the “Proposed use” should be amended to specifically include: “…any redevelopment to include, as a matter of priority, the continued maintenance of the 25m swimming pool and fully equipped gym facilities throughout and beyond any redevelopment period”

</tr>
</tbody>
</table>
Redevelopment of this site would be welcome, but there are no commitments around maintaining Purley Pool, or the level of parking available to the town. Both of these resources need to be protected for local residents and visitors and the policy should make that clear.

There needs to be a new 25m swimming pool for the South of the Borough. It could be, but doesn’t have to be, on this site. For a good model for the use of the site see the pre-application plans drawn up by Polaska, in conjunction with our Planning Dept during 2008, comprising some 300 homes, a pool (which as I said above I’d trade for more housing), a Library (freeing up the existing inaccessible & too damp for books building for alternative/better use), Car Parking (to replace what is currently fully used to support local workers & shoppers plus an appropriate amount for new residents), Retail, plus an improved site layout that logically links the station & town centre.

While I agree that the current facilities in Purley do need redeveloping, I feel that retaining a swimming pool is essential in the area, and one with adequate parking, unlike the Waddon Leisure Centre at Fiveways.

Similarly, whilst redevelopment of the Purley Pool and multi-story car park site would be more than welcome the total number of public parking spaces should not go down given the problems with parking in Purley town centre. Additionally any new leisure centre must include a pool and the policy should make this clear. Currently there is no access to any other public pool in the south of the borough of Croydon without undertaking a substantial journey, especially if attempting to use public transport due to the lack of parking spaces (such as is encountered at the Waddon centre).
This site requires consultation and consideration without a reduction of parking, the current under use of parking is related to security issues and poor design of the original.

Change

The site is allocated for ‘Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation’.

Comments on Croydon Local Plan
As a Purley resident I would like to comment on the above. I hope that my comments will be considered in this format, as I did not pick up a representation form when I attended the meeting at Purley Baptist Church on 8.12.15.

Ref no. Site name
30  Purley Leisure centre etc

There is no mention of a swimming pool in the proposal – at least a 25 metre pool is required (otherwise a public swimming pool could be incorporated at the Ref 490 proposed school). The capacity of the development’s multi-storey car park will have to be much greater than the size of the current car park to accommodate today’s users and the new residential units in the development.

Change

The site is allocated for ‘Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation’.

It is welcomed that the current Purley Pool and multi-storey car park might be redeveloped but any new leisure centre must include a pool, if the current one is not to be refurbished, and the policy should make this clear. It should also be clear that the total number of parking spaces should not be reduced in any way whatsoever.

- Purley Pool is the only community swimming facility in the South of the borough.
- The current pool is widely used by schools, disabled groups and children and provides lessons.
- Swimming provides considerable health benefits, which benefit all and is particularly important in the South of the borough which has the highest proportion of over 65 year olds across Croydon.
- The accessibility of Purley Town Centre by public transport makes it the best location in the South of the borough for a pool.
- There is insufficient capacity at Waddon Pool to take the Purley Pool users, apart from Waddon being difficult to get to for many and having little parking provisions.

Change

The site is allocated for ‘Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation’.
Mr John Freeman

Object

DM40.4

30

Purley pool is the only community swimming facility in the south of the borough. The pool is widely used by schools, disabled groups and has children and adult lessons, aqua aerobics and other activities. Swimming provides considerable health benefits which is particularly important in the south of the borough which has the highest proportion of over 65s across Croydon. The accessibility of Purley by public transport makes it the best location in the south of the borough for a pool.

The popularity of the current pool, both in terms of usage and the fact that over 6000 signatures achieved earlier this year to keep it open. There is insufficient capacity at Waddon pool to take Purley pool users and current users are not just from Purley but also Selsdon, Sanderstead and Coulsdon, constituting a significant part of the borough’s population.

The site should provide a swimming pool.

Change

The site is allocated for ‘Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation’.

Comment

Soundness - Effective

DM40.4

30

Inadequate car parking in new developments would only increase demand for street parking and slow traffic flow as would reduction of existing public car parking.

In my opinion a car is no longer a luxury but more an essential for our way of life. I agree with you public transport should be used wherever possible. With it virtually a necessity for the husband and wife to work and at the same time bring up a family. Time is limited dropping off and collecting children at child minder, grand parents or school in some cases with babies before going off to work. Fitting in after school activities and shopping in such circumstances time is tight and public transport is not an option.

As regards to cycling I am not convinced how practical this is and when travelling around Croydon see very little use of cycling lanes. I agree it is desirable but I think it is being pushed by a small but vocal minority and not a suitable means of transport for the majority.

Change

The site is allocated for ‘Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation’.

ANY DEVELOPMENT MUST RETAIN / REPLACE THE POOL AND RETAIN CARPARKING SPACES. SWIMMING IS A GOOD FORM OF EXERCISE AND WE CONTINUE TO HAVE A PROBLEM WITH OBESITY ETC

### James Fleury

**Object**

I am writing to you as a Purley resident, young entrepreneur and local business manager regarding the uncertainty around the future of Purley Pool. Thanks to my dad Charlie, who is has been an active user of the pool for over 20 years, I learnt the value of Purley pool from such a young age - I was only a year old when he first started taking me there. An ex-Margaret Roper and John Fisher pupil, we were fortunate enough to learn to swim using Purley pool, and, now thanks to this training, I regularly swim, visiting the pool on average 3-4 times a week as part of my regular exercise routine. As a young entrepreneur who runs his business from home, the pool is perfect for me. It allows me to access it off-peak - when everyone's at work - and when I stay in Canary Wharf for work, I am still able to get to the pool via train and tube - something that I cannot do for either Waddon or South Norwood Leisure centre easily, because I don't drive. Did you know that many of my friends don't drive, because of our excellent travel facilities? We ALL rely on the accessibility of the pool - that's something that is vital to people coming to exercise regularly. I know that, if the pool closed, I probably would give up my routine, because I would lose so much time travelling on buses to an alternative leisure centre on the other side of the Borough. If there's one thing I can ask of you, it would be to listen to the people who live in the South of the borough. Speak to school children, elderly people of the area, disabled users of the pool, as well as active community members about what makes Purley pool so important, not just for our local area, but for the entire borough. If we love and invest in it as our Croydon residents do, we'll have a first-class leisure for all to enjoy in Croydon and beyond.

**Object**

I am writing to you as a Purley resident, young entrepreneur and local business manager regarding the uncertainty around the future of Purley Pool. Thanks to my dad Charlie, who is has been an active user of the pool for over 20 years, I learnt the value of Purley pool from such a young age - I was only a year old when he first started taking me there. An ex-Margaret Roper and John Fisher pupil, we were fortunate enough to learn to swim using Purley pool, and, now thanks to this training, I regularly swim, visiting the pool on average 3-4 times a week as part of my regular exercise routine. As a young entrepreneur who runs his business from home, the pool is perfect for me. It allows me to access it off-peak - when everyone's at work - and when I stay in Canary Wharf for work, I am still able to get to the pool via train and tube - something that I cannot do for either Waddon or South Norwood Leisure centre easily, because I don't drive. Did you know that many of my friends don't drive, because of our excellent travel facilities? We ALL rely on the accessibility of the pool - that's something that is vital to people coming to exercise regularly. I know that, if the pool closed, I probably would give up my routine, because I would lose so much time travelling on buses to an alternative leisure centre on the other side of the Borough. If there's one thing I can ask of you, it would be to listen to the people who live in the South of the borough. Speak to school children, elderly people of the area, disabled users of the pool, as well as active community members about what makes Purley pool so important, not just for our local area, but for the entire borough. If we love and invest in it as our Croydon residents do, we'll have a first-class leisure for all to enjoy in Croydon and beyond.

**Change**

The site should include a requirement for a pool.

**Change**

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

I understand that the following Policies will threaten our green spaces. I was born in Croydon and have lived in this area all my life (I am now 63). My parents came here from Scotland in the early 1950s. They chose this area specifically for its green spaces and it is quite unique in that facility. I spent more than 35 years in Real Estate in this area and know very well that the reason people continue to move here, is exactly for these facilities and yet remaining within easy reach of other amenities, London, the coast and airports. Of course, more housing is required but I believe the alternative suggestions to these proposals to be very valid and much more in keeping with the neighbourhood thus maintaining its attractiveness and good standard.

These proposals are ill conceived and will change this particular neighbourhood beyond all recognition and take away that for which it is well known and valued. Please hear the voices of people like me and do NOT continue with the proposed policies set out below and which can be found in your Local Plan:

3. Policy 40.4, Table 11.3, Site 30 (p168)

The site is allocated for Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation.

I have been reading parts of the Croydon Local Plan (my husband has attended one of your local meetings) and one aspect I am particularly concerned with is the lack of a specific commitment in the plan to a swimming pool in Purley. When we moved into the area in 1977 we were delighted when the Council let Sainsbury’s build on the central car park near Purley railway station - as long as they provided a multi storey carpark and public swimming pool.

We have made great use of the swimming pool in Purley over the years. Both our children learnt to swim there - lessons, family visits and school visits. Now I am retired I appreciate the opportunity to keep fit and mobile (especially the aqua aerobics helping my joints) using the pool. I know your plan mentions leisure facilities but we specifically need a public swimming pool. I now have two grandchildren living locally and hope they will be able to benefit from using a swimming pool in Purley in the years to come.

The site is allocated for Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation.

I was disappointed to see that the Croydon Local Plan only stipulates that leisure facilities should be incorporated in any future development of the site in Purley which currently includes the swimming pool. I would strongly urge that an amendment is made to ensure that a swimming pool will continue to be provided in Purley.

When the current administration proposed that Purley Pool be closed as part of the budget proposals a compelling argument was made by users, the local community and others to keep the pool open and I do not see the need to repeat those arguments here as they are already well documented and recorded. Suffice it to say that they did result in a change of policy which I assumed would have been reflected in the Local Plan. I will however make my own individual case. I am a pensioner living in Coulsdon and do not drive. Waddon is really not a practical alternative (even for drivers given the shortage of car parking space). I swim for 45 minutes twice a week and for me this is crucial for my health, fitness and well-being. I live on a hill and had to stop cycling as I could no longer manage it. I used to use the gym but suffer too badly now from osteo-arthritis and swimming not only keeps me fit but helps to control the pain. My life, and I am sure that of many others, would be seriously adversely affected if Purley Pool were to close without another pool being provided in the south of the borough.

Mr Charles Fleury

Object DM40.4 30

I am writing in relation to a notice displayed at Purley Leisure Centre, in relation to the "redevelopment of Purley Leisure Centre, car park and former Sainsbury's supermarket". Firstly, may I start by stating that I am a member of Purley Leisure Centre and have been for many years. I am fully aware that the redevelopment programme has been ongoing for quite a few years now and in principle I do not have any objections in this area. However, I do have concerns in relation to the uncertainty and lack of information surrounding the refurbishment of the swimming pool in the leisure centre redevelopment plans. The swimming pool and leisure centre is one of the few positives aspects of the town centre and surely must remain. I say this, as I have lived in all parts of this borough for almost all my life (54 years) and Purley has always been something that the borough can be proud of. The swimming pool and leisure centre is part of the Purley community, which also serves all residents and businesses in the south of the borough. I know the redevelopment will come at a cost which may result in increased subscriptions, but I would be prepared to accept this as long as the facility was greatly improved. Can you please confirm that the swimming pool will remain and be part of the redevelopment plans.

Mr John Harris

Object DM40.4 30

I am writing to object to Redeveloping Purley Pool and the car park at 54-58 Whyteleafe Road South

Redevelopment of the pool as detailed in Policy 40.4, Table 11.3, Site 30 (p168) would be welcome, but any new leisure centre must include a pool and the policy should make this clear. It should also make clear that the total number of public parking spaces should not go down.

Mr John James

Object DM40.4 30

I would like to register my objection to the following policy reference numbers DM 40.4, Table 11.3, Site 30 (Purley pool)

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.
Mr John Pewtress

Object

DM40.4
30

Car parking must be preserved or replaced with equivalent number of spaces within the immediate area.

Change

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

Mrs Julie Goacher

Object

DM40.4
30

I also, do agree that Purley pool needs re-development, but into a new leisure centre with updated services. I would definitely use a re-furbished leisure centre with a pool as Waddon is much further for us and the parking and traffic is very unfavourable in Waddon. I would love to support a local pool with all my family. My daughter recently used the pool with her school, Woodcote Primary, and this would not have been possible without a very local pool. It would definitely enhance the area and community to be updated and attract much more use. As many residents go to the next borough of Sutton to the re-furbished Westcroft as it was so much improved for being modernised.

Change

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

Joanne Darville

Object

Soundness - Justified

DM40.4
30

I object to the following policies:

40.4- any development should save the pool in purley. We have already lost a cinema, without a pool, there is no local things to do.

Change

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

Mrs Sally Justice

Object

DM40.4
30

The swimming pool is invaluable, even more so as Purley is full of old people now who need this type of exercise and cannot or couldn't travel to Waddon or Carshalton etc. What about the children who go there, how would the local schools be able to take them anywhere else?

Change

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

Samantha Freeman

</tbody>
</table>
When this is developed it is essential it includes a pool as the nearest alternative at Waddon is not viable as many of the people who currently use Purley are senior citizens who would find getting to Waddon very difficult.

I would like to voice my object to the following plan DM40.4.

I am writing to give my support for Purley pool. I work at Christ Church C of E Primary school and we have lessons weekly for the children in the school. These lessons are crucial to the children an essential life skill in swimming and whom many would otherwise not get the chance to go.

We have lived in Sanderstead for over 40 years, and have thoroughly enjoyed the areas to the south of Croydon being unspoilt. In our view these ill conceived proposals will change this area beyond recognition and take away that for which it is well known and valued. Please rethink, and do not continue with the proposed policies set out below and which can be found in your Local Plan: Policy 40.4, Table 11.3, Site 30 (p168)

The redevelopment of Purley Pool and multi-storey car park. These redevelopment should include a swimming pool and at least the same numbers of car parking spaces.

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.
Object DM40.4
30
I specifically object to: 40.4 Purley Pool. Again I suspect you really want to close it. It's a great amenity but is starting to show its age. What is wrong with updating or rebuilding the centre and including a new pool and leisure facilities? Why do I suspect that the developers are again driving this agenda and we all know what they want. Build to the boundaries with flats.

Change

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

Object Soundness - Justified DM40.4
30
I live in Purley, and am writing with regards to the Croydon Local Plan about which I have the following comments:

3.Policy 40.4 (Table 11.3, Site 30) talks about redeveloping the current Purley Pool and multi-story car park site. This would be welcome, but must include a new leisure centre with a pool and the policy should make this clear. The wording is such that multiple options are available including building only shops or residential accommodation. We need to maintain a leisure centre, and we already have plenty of shops and residential accommodation.

Change

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

Object DM40.4
30
The site is very much in need of redevelopment. However, I would appeal to the council to ensure the retention of a large swimming pool facility with ample parking. Public transport only goes so far to meeting the needs of residents who use the pool. I am able to walk to the pool despite being in near constant pain, if I lived any further away I would have to consider driving there and there are many people who would find being able to park at the facility more practical than relying on public transport.

Change

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

Object DM40.4
30
Please do not destroy your area of responsibility DM2 will lead to more flooding - it's already happened in Purley through too much development.

DM40.4 the Government want us to be fitting and this is the only public swimming pool in the area

DM44.2 Coombe Wood Gardens - a beautiful area for your voters both north and south of the borough the green belt is precious to everyone

DM28 If you don't want to destroy local businesses you must allow people to park their cars. More homes will just mean more cars

Change

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

| Object | DM40.4 30 | | Change | The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'. | Ms C Soroczynski |
Mr Donald Speakman

Site 30: High street leisure centre, pool, MSCP etc: This site should be completely redeveloped. New plan would include library, some residential, plus car park of same capacity as at present (note: no leisure centre - moved to site 490 - see below). Alternatively, if the leisure centre is retained at this site in a new replacement development, it should include a 25m pool as at present, and with the same amount of car parking as at present.

Also Site 30: In the detailed policies & proposals document, there is reference to a healthcare facility on this site. This should be removed; Purley Hospital site and the clinic in Whyteleafe Rd S are in the immediate vicinity and should be able to provide any required facility, thus avoiding duplication of services and facilities.

The Enterprise Swimming Club

With the support of Croydon Council, we have been providing swimming sessions for disabled people in Purley and the surrounding area for 56 years since 1959. We are concerned that the amended proposed plan for Purley has now been downgraded from the inclusion of a new Swimming Pool, previously promised, to "incorporating new Leisure Facilities", only. A replacement Swimming Pool in Purley is essential in view of the many organisations; schools; swimming lesson for children and adults; recreation for elderly and retired people and especially for disabled people of all ages for whom we cater. Purley has excellent transport links with all surrounding areas whereas other pools in the Croydon area are difficult to access by public transport and all have inadequate parking facilities for most users, who must therefore arrive by car. The preference for a replacement Pool in Purley has been clearly demonstrated by the petition signed by in excess of 6000 people a few months ago, to keep the existing pool open. Coupled with the above is the need to ensure that sufficient parking is provided close-by, not only for users of the pool, but also to enable the many excellent shops; restaurants and myriad of small businesses to survive and prosper.

Change

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation.'
DM 40.4 Site 30. Purley pool is an important part of the public amenities of our town, and is regularly used by a large number of people. Furthermore it is important to maintain the parking capacity of the current multi-storey which is extremely popular. Purley requires parking to maintain its commercial centre, to visit Purley Hospital and the numerous small shops in town. Lack of parking will destroy, rather than improve our town and reduce employment and the livelihood of small shopkeepers and specialist service providers.

Change

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

Ms F Wood

Object

DM 40.4

30

Policy 40.4, Table 11.3. Site 30 (p168) I am a strong supporter of developing this land and it is a travesty that this hasn't happened already. But any redevelopment must include a pool and provision for parking for people using purley town centre.

Change

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

Rosemary Wiseman

Object

DM 40.4

30

Site 30 Purley Pool development. The pool is well used by local residents, schools etc. and it should definitely not be closed. It is not acceptable to expect us to go the Waddon Leisure Centre which means ploughing down an already over busy Purley Way (Again caused by the Council allowing too many retail developments without improving the road system).

Change

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

Mr G Tubb

Object

DM 40.4

30

I am particularly concerned with regard to maintaining a swimming pool in Purley. This facility is popular and is good for health, the Purley location is very good for the South of the Borough and its site on bus and train routes enables these facilities to be reached easily by a wide section of persons, schools and clubs based in the South of the Borough. Maintaining the Pool therefore should be written into the local Plan.

Change

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

02 September 2016 Page 1674 of 4384
Rachel Thompson Object DM40.4

Please keep a Pool in Purley. Why do current redevelopment plans not state a pool? Purley is a hub, we live in South Croydon and can easily use the pool before or after work. Our children swim with the local school. There is no way we can get to Waddon - simple as that. Waddon pool is inaccessible to those in the south. The council may have the idea that the south of the borough is rich and we can all afford huge private membership fees to swim in private pools (that are often tiny) this is not the case. Let's make Purley a destination and have a great pool as part of this. The current pool is a great size and well used. Don't lose the good things about the place as part of so called 'redevelopment'. People are trying to take responsibility for their health and the south of the borough needs an accessible pool for people to do this. Swimming is an exercise everyone can do. Our neighbour goes for a swim at Purley pool as it keeps her arthritis in check, without it she is in pain. Keep a Pool in Purley!

Mr Mike Rice Object DM40.4

Dear Sirs,

With reference to the recently published 'Croydon Local Plan', as a resident of the past 25 years I give my views as follows:-

Policy 40.4, Table 11.3, Site 30 (p168) Redevelopment to include swimming pool & no reduction in parking spaces.

I welcome redevelopment of Purley leisure centre, but any new leisure centre must include a pool and the policy should make this clear. It is not fair that the South of the Borough should not have a swimming pool within easy reach. It should also make clear that the total number of public parking spaces should not decrease.

Linda Bevin Object DM40.4

I welcome redevelopment of Purley leisure centre, but any new leisure centre must include a pool and the policy should make this clear. It is not fair that the South of the Borough should not have a swimming pool within easy reach. It should also make clear that the total number of public parking spaces should not decrease.

Mr Michael Southwell Object DM40.4

Regarding the draft local plan I make the following objection - Purley Pool. This is at present heavily used particularly I understand by the disabled. Is the Council against facilities for these people?

Change

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

02 September 2016
Mr Tim Parsons

Object DM40.4 30

I am writing to add my support to the campaign to continue to have a pool in Purley. It is vital to have an explicit commitment to one in future plans.

- Purley pool is the only community swimming facility in the south of the borough.
- Swimming provides considerable health benefits, which benefit all and is particularly important in the south of the borough which has the highest proportion of over 65s across Croydon.
- The accessibility of Purley town centre by public transport makes it the best location in the south of the borough for a pool (and convenient facilities encourage more use and exercise).
- The current pool is very popular.
- At a Council meeting earlier this year keeping the pool open received full support from councillors.
- Current users are not just from Purley but also Selsdon, Sanderstead, Coulsdon constituting a significant part of the borough's population.

Mrs Anne Turner

Object DM40.4 30

I would like to put in writing my objections to the following local plans:

I am listing the relevant Policy Numbers:

3. 40.4 Table 11.3. Site 30 - Purley Pool

Change The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

Mr K Dawson

Object Soundness - Effective DM40.4 30

I have had the opportunity to read the proposals in the recently published Local Plan for Croydon and am submitting my views by the 18 December 2015 deadline.

Table 11.13: Ref 30:

I have previously signed a petition to oppose the closure of Purley Pool. Any redevelopment of that site MUST include a 25m pool for use by residents, schools, clubs, disability organisations etc. I note that it is on the list of potential developments, but that 'leisure facilities' don't appear to specify a pool.

Change The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.
Redevelopment would be welcome here, but the Purley Pool must be retained for the use of those living south of the borough.

Given the paucity of public swimming facilities in Croydon, and the ever increasing emphasis on more healthy lifestyles for all age groups, it is essential that this facility should be preserved whatever other changes may be made in this location. Furthermore adequate parking should be maintained in its support. Any version of the Plan should spell this out specifically.

I object to this proposal on the premise that it is totally out of character with the rest of the town centre which consists of much shorter buildings.

With reference to the Local Plan which has been proposed, please note my objection to the following policies: Purley Pool Policy 40.4, Table 11.3, Site 30

I am emailing to record my objection to the following policies within the 'Local Plan':
Comment

DM40.4

Site 30, Purley Leisure Centre, does not mention that any new leisure centre must include a pool and the policy should make this clear. There should be a requirement that the total number of public parking spaces is not reduced by any development.

Change

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

Object

DM40.4

This refers to the redevelopment of the current Purley pool. Sympathetic redevelopment would not be opposed, but any new leisure centre must re-instate a pool and the policy must make this clear. The existing number of parking spaces must not be reduced.

Change

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

Object

DM40.4

Policy 40.4, Table 11.3, Site 30 (p168) refers to redeveloping the current Purley Pool and multi-story car park site. Redevelopment may well be welcome, but any new leisure centre must include a pool and the policy should make this clear. It should also make clear that the total number of public parking spaces should not be reduced.

Change

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.

Policy 40.4, Table 11.3, Site 30 (p168) talks about redeveloping the current Purley Pool and multi-story car park site. Redevelopment would be welcome, but any new leisure centre must include a pool and the policy should make this clear. It should also make clear that the total number of public parking spaces should not go down.

Redevelopment and regeneration is good provided that public parking would not be less than that which exists. A swimming pool is good and is badly needed in this part.

Poor Purley! no bowling anymore, no Cinema anymore, we don’t have much left!!! please amend the new policy which leaves enough loopholes for there not to be a Pool in Purley, its sooo important; families can play together; babies to 100yr olds can enjoy, if you aren’t able bodied or fit, you can still enjoy, Purley pool is the only community swimming facility in the south of the borough, current pool widely used by schools, disabled people and groups, and has children and adult lessons, aqua aerobics and other activities, swimming provides considerable health benefits, which benefits all and is particularly important in the south of the borough which has the highest proportion of over 65s across Croydon, the accessibility of Purley town centre by public transport making it the best location in the south of the borough for a pool and convenient facilities encourage more use and exercises the popularity of the current pool both in terms of usage and the fact that over 6000 signatures achieved earlier this year to keep it open. Council meeting earlier this year received full support from councillors for keeping the pool open, insufficient capacity at Waddon pool to take Purley pool users as well as Waddon being difficult to get to for most, and having very little parking which is often full, current users are not just from Purley but also Selsdon, Sanderstead, Coulsdon constituting a significant part of the borough’s population. Please let it stay or be replaced like for like.

The site is allocated for ‘Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation’.

The site is allocated for ‘Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation’.

</table>
| 3986/01/02/DM40.4/O | Mr & Mrs Crane | Object Soundness - Effective | We are life long residents of Croydon. With reference to the local plan we would like to object to the following proposals:  
• DM40.1 - A skyscraper in Purley is total out of character for the town. Purley needs development but this is not the way to go about it.  
• DM40.4 - Purley Pool - whilst not objecting to this area being redeveloped it should include a swimming pool. Our children learnt to swim here and it is an important facility to the community. For instance our Farther uses it regularly. It has been vital to maintaining his health and he would not be able to travel to more distant pools.  
• DM44.2 - It is not appropriate to have a travellers site on green belt land. We believe it is important to protect all Green Belt land from development  
• DM31.4 - We are opposed to the intensification of these areas. |
| 3986/01/03/DM40.4/O | Mr P Skuse | Object DM40.4 | I personally object to some of the proposals - The Local Plan Policy 40, Table 11.3, Site 30 (p168) & Site 61. Purley Pool must stay a 25m swimming pool as the only one locally available to 38000 inhabitants. Car parking reduction can be coped with as the multi-storey is under-used, and there are very good public transport facilities throughout this area. |
| 3986/01/04/DM40.4/O | Ms S Lawson | Object DM40.4 | I object to this policy regarding the redevelopment of the current Purley Pool and multi-story car park site. It is important that the policy makes clear that any new leisure centre must include a pool and also that the total number of public parking spaces should not go down. |
| 4034/01/02/DM40.4/O | Ms S Quy | Object DM40.4 | Please don’t allow us to lose our pool. As a family of keen swimmers with Croydon Amphibians we know how hard it is to find pool time in our borough for either a leisure swim (we often have to go to West Wickham) or for clubs and schools to book regular slots. |

The site is allocated for 'Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation'.
Mr S Gattey

Object DM40.4

I would like to protest at the proposed redevelopment of Purley Leisure Centre (site reference number 30). It is clear from the ambiguous wording of the proposal that there is no intention to provide a gym and swimming pool comparable to the ones we have in the leisure centre, and indeed it is a disgrace that this proposal should be entertained in view of the 100% support for Purley Leisure Centre given by councillors only a few months ago, after the full council debate caused by the massive local support for the centre.

My wife and I use both the swimming pool and the gym regularly and would have great difficulty in accessing the alternative centres in Waddon or Roundshaw. We hope it is not necessary to ask our MP to once again intervene to protect the interests of local people whose views a Labour council seems determined to ignore. I hope soon to hear that the proposals have been scrapped, otherwise we will have to repeat the tedious ritual of a year ago, wasting the valuable time of councillors and residents when the outcome is completely predictable and bringing the council into disrepute.

Jenny White

Comment DM40.4

Purley Pool Policy 40.4

Redevelopment of new leisure centre would be welcome if it included a pool and that the existing no. of car parking spaces was not reduced.

Lister & Joyce D’Costa

Object DM40.4

I wish to object to the following items in Croydon Council’s Local Plan 2: Redevelopment of Purley Pool as listed in policy 40.4, Table 11.3, Site 30 (p.168). We are concerned as all the family are users. Redevelopment would be welcome, but any new leisure centre must include a pool and the policy should make this clear. It should also make clear that the total number of public parking spaces should not go down.

</table>
The site is allocated for ‘Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation’. The leisure centre is not to be moved to site 490 as this is required for a primary school to meet the need for school places in the borough.

No change The Council has worked with NHS partners to identify the need for additional facilities. For the Purley GP network they have identified a requirement of an additional 3,172sqm of GP practice floorspace required and this site has potential to contribute to this need. For any planning application on this site, the developer will be required to work with the NHS to assess whether additional facilities are still required.

The site is allocated for ‘Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation’. The site is allocated for ‘Mixed use redevelopment incorporating public car park, new leisure facilities including a swimming pool and other community facilities, healthcare facility, creative and cultural industries enterprise centre, retail or residential accommodation’.

The report should explicitly mention that any redevelopment should include a public pool facility; a loss of this facility would be retrograde and contravene Strategic Objective 7 (foster safe, healthy and cohesive communities).

Support Telephone exchange 88 – 90 Brighton Road-We accept its conversion to residential if existing use is not required any more.

I wish to add my objections made on this document by our local M.P. Chris Philp.

</table>
Network Rail notes that there are a number of sites adjacent to the Railway and attach a standard response which sets out the issues that need to be considered. In particular with large new developments there is a concern about the risk of trespass and all new developments should have proper and suitable boundary fencing. The risk of greater flooding and drainage that new developments could potentially have on the Network Rail infrastructure and we would not want any increase of flooding or the increase in run off onto Railway Infrastructure.

The developer must ensure that their proposal, both during construction and after completion of works on site, does not:
- encroach onto Network Rail land
- affect the safety, operation or integrity of the company’s railway and its infrastructure
- undermine its support zone
- damage the company’s infrastructure
- place additional load on outbuildings
- adversely affect any railway land or structure
- over-sail or encroach upon the air-space of any Network Rail land
- cause to obstruct or interfere with any works or proposed works or Network Rail development both now and in the future

The developer should comply with the following comments and requirements for the safe operation of the railway and the protection of Network Rail’s adjoining land.

**Future maintenance**

The development must ensure any future maintenance can be conducted solely on the applicant’s land. The applicant must ensure that any construction and any subsequent maintenance can be carried out to any proposed buildings or structures without adversely affecting the safety of, or encroaching upon Network Rail’s adjacent land and air-space, and therefore all future building should be situated at least 2 metres (3m for overhead lines and third rail) from Network Rail’s boundary. The reason for the 2m (3m for overhead lines and third rail) stand off requirement is to allow for construction and future maintenance of a building and without requirement for access to the operational railway environment which may not necessarily be granted or if granted subject to railway site safety requirements and special provisions with all associated railway costs charged to the applicant. Any...
less than 2m (3m for overhead lines and third rail) and there is a strong possibility that the applicant (and any future resident) will need to utilise Network Rail land and air-space to facilitate works. The applicant / resident would need to receive approval for such works from the Network Rail Asset Protection Engineer, the applicant / resident would need to submit the request at least 20 weeks before any works were due to commence on site and they would be liable for all costs (e.g. all possession costs, all site safety costs, all asset protection presence costs). However, Network Rail is not required to grant permission for any third party access to its land. No structure/building should be built hard-against Network Rail’s boundary as in this case there is an even higher probability of access to Network Rail land being required to undertake any construction / maintenance works. Equally any structure/building erected hard against the boundary with Network Rail will impact adversely upon our maintenance teams’ ability to maintain our boundary fencing and boundary treatments.

Drainage

Storm/surface water must not be discharged onto Network Rail’s property or into Network Rail’s culverts or drains except by agreement with Network Rail. Suitable drainage or other works must be provided and maintained by the Developer to prevent surface water flows or run-off onto Network Rail’s property. Full details to be provided to Network Rail’s Asset Protection Engineer for approval. Suitable foul drainage must be provided separate from Network Rail’s existing drainage. Soakaways, as a means of storm/surface water disposal must not be constructed near/within 10 – 20 metres of Network Rail’s boundary or at any point which could adversely affect the stability of Network Rail’s property. After the completion and occupation of the development, any new or exacerbated problems attributable to drainage must be solved by the applicant at their expense.

Plant & Materials

All operations, including the use of cranes or other mechanical plant working adjacent to Network Rail’s property, must at all times be carried out in a “fail safe” manner such that in the event of mishandling, collapse or failure, no plant or materials are a hazard to Network Rail’s property or at any point which could adversely affect the stability of Network Rail’s property.
capable of falling within 3.0m of the boundary with Network Rail.

Scaffolding
Any scaffold which is to be constructed within 10 metres of the railway boundary fence must be erected in such a manner that at no time will any poles over-sail the railway and protective netting around such scaffold must be installed. The applicant/applicant’s contractor must consider if they can undertake the works and associated scaffold/access for working at height within the footprint of their property boundary.

Piling
Where vibro-compaction/displacement piling plant is to be used in development, details of the use of such machinery and a method statement should be submitted for the approval of the Network Rail’s Asset Protection Engineer prior to the commencement of works and the works shall only be carried out in accordance with the approved method statement.

Fencing
In view of the nature of the development, it is essential that the developer provide (at their own expense) and thereafter maintain a substantial, trespass proof fence along the development side of the existing boundary fence, to a minimum height of 1.8 metres. The 1.8m fencing should be adjacent to the railway boundary and the developer/applicant should make provision for its future maintenance and renewal without encroachment upon Network Rail land. Network Rail’s existing fencing/wall must not be removed or damaged and at no point either during construction or after works are completed on site should the foundations of the fencing or wall or any embankment therein, be damaged, undermined or compromised in any way. Any vegetation on Network Rail land and within Network Rail’s boundary must also not be disturbed. Any fencing installed by the applicant must not prevent Network Rail from maintaining its own fencing/boundary treatment.

Lighting
Any lighting associated with the development (including vehicle lights) must not interfere with the sighting of signalling apparatus and/or train drivers’ vision on approaching trains. The location and colour of lights must not give rise to the potential for confusion with the signalling
arrangements on the railway. The developers should obtain Network Rail’s Asset Protection Engineer’s approval of their detailed proposals regarding lighting.

Noise and Vibration
The potential for any noise/vibration impacts caused by the proximity between the proposed development and any existing railway must be assessed in the context of the National Planning Policy Framework which hold relevant national guidance information. The current level of usage may be subject to change at any time without notification including increased frequency of trains, night time train running and heavy freight trains.

Vehicle Incursion
Where a proposal calls for hard standing area/parking of vehicles area near the boundary with the operational railway, Network Rail would recommend the installation of a highways approved vehicle incursion barrier or high kerbs to prevent vehicles accidentally driving or rolling onto the railway or damaging lineside fencing.

Network Rail strongly recommends the developer contacts AssetProtectionSussex@networkrail.co.uk prior to any works commencing on site, and also to agree an Asset Protection Agreement with us to enable approval of detailed works. More information can also be obtained from our website at www.networkrail.co.uk/aspx/1538.asp.

What is this all about? Admittedly it’s some way off, but it’s difficult to comment without some clarification! Are we anticipating that in some 10 years’ time Tesco’s will pull out & leave us with a large virgin housing site – a rather tenuous assumption I would have thought - or are we back with the idea, soundly trounced by the community a few years ago, to build massive high-rise housing over the existing supermarket & parking - which would still be a very bad proposal.

The allocation should be clearer on what is proposed for this site.

The allocation sets out the preferred uses if this site was to be redeveloped. There is currently no developer interest for this site so the Council would need to work with this landowner to bring the site forward.
2789/01/003/DM40.4/C R P Reed Comment DM40.4 347 There is potential for housing development on this site, but up to 990 units is totally unrealistic. The proposed maximum should be greatly reduced in order that:-- The residents of the proposed housing have a decent quality of life-- Tesco’s business is unaffected-- the impact of this development on the surrounding area is minimised No change The allocation sets out the preferred uses if this site was to be redeveloped. There is currently no developer interest for this site so the Council would need to work with this landowner to bring the site forward. The impact of the development on the surrounding area and on future occupiers would be assessed with any planning application.

2982/01/006/DM40.4/O Mrs Jeanne Driscoll Object DM40.4 347 I wish to add my objections made on this document by our local M.P. Chris Philp. No change This comment has not been substantiated so no changes can be made.

3102/01/004/DM40.4/O Mr Richard Horton Object DM40.4 347 3. The plan I have seen appears to envisage the closure or redevelopment of the Tesco retail store. I cannot understand why this should be part of the plans (just as I cannot understand why similar proposals appear in relation to supermarkets at Waddon such as Morrisons and Sainsbury’s). The Tesco store is used extensively by local residents. No change There are currently no plans to close the existing Tesco store. However, the site has been identified as being suitable for residential if the landowner wanted to redevelop the site within the lifetime of the Croydon Local Plan.

3162/01/006/DM40.4/O Mr Joe Toner Object DM40.4 347 I would like to voice my objection to the following plan DM40.4. No change The objection is not substantiated, (no reason given), so the Council is unable to respond.

3322/01/005/DM40.4/O Mr Richard Driver Object DM40.4 347 I should like to make it known that I object to this which is included in the recently published Local Plan. No change There is insufficient information to consider this comment further.

3430/01/005/DM40.4/O Mr Donald Speakman Object Soundness - Effective DM40.4 347 Site 347: The document refers to a range of 172-990 homes on this site - even 172 is excessive, and 990 is totally unacceptable. For ANY housing development on this site, it would be necessary to have several floors of underground parking, with risk of flooding due to the river Bourne being nearby. Also, remove reference to possible healthcare facility; Purley Hospital site and the clinic in Whyteleafe Rd S are in the immediate vicinity. No change The site is considered to be under-developed and could accommodate both a retail store and much needed new homes during the lifetime of the Local Plan. 990 homes is the upper end of an indicative range for the site. It is unlikely that it would be developed to that level and all proposals would still need to be assessed against other policies of the Local Plan.

3577/01/007/DM40.4/O Mr Peter West Object DM40.4 347 I object to Policy 40.4 table 11.3 - All of the above are unacceptable to me as a Sanderstead resident for the last 25 years. We need space and sensible development that compliments the environment. I totally agree with all the point that our member of Parliament has suggested. No change This allocation sets out that mixed use development is acceptable in principle. Any planning application for this site will be assessed against the Local Plan planning policies, which include an assessment on the local environment and character.
4117/01/019/DM40.4/0 Cllr S Brew

Object DM40.4 347

Site 347: The document refers to a range of 172-990 homes on this site - even 172 is excessive, and 990 is totally unacceptable. For ANY housing development on this site, it would be necessary to have several floors of underground parking, with risk of flooding due to the river Bourne being nearby. Also, remove reference to possible healthcare facility: Purley Hospital site and the clinic in Whytecliffe Rd S are in the immediate vicinity.

No change The GLA density matrix has identified this site as having capacity for between 172 to 900 new homes. The exact number of homes would be assessed once a planning application was submitted. Parking provision would need to be in accordance with London Plan and Local Plan policies. The NHS have identified that additional healthcare facilities in the Purley GP network are required and this site could contribute to this need.

0094/02001/DM40.4/0 Mr Ken Whittick

Object DM40.4 35

1) I strongly oppose this policy on the grounds that the erection of a building of 15 storeys in Purley is entirely out of character with Purley
2) CLP1 itself describes Purley as a market town. A building of this height is out of keeping with a market town.
3) Parts of Purley (High Street, west side) are designated as heritage sites. Again, out of keeping.
4) The owners (The Baptist Church) are against a development of this height. They were threatened by a politician that a CPO would be raised (later withdrawn) if they did not agree.
5) The Baptist web site declares that the council expect this to be a one off for Purley. Is this believable or enforceable or will the next block be only 13 storeys?
6) CLP2 says a building of this size fits in well. Local architects say otherwise.

No change The allocation for mixed use redevelopment is acceptable for this site. The height of the building relates to policy DM40.1.
I am not against development on a scale that is in keeping with the nature of the town's surroundings, but the size of some of the planned buildings horrifies me and, if enacted, will totally alter the nature of Purley. A 16-storey block of flats situated on the Baptist Church will be 3 times taller than any other building in Purley. Children living there will be imprisoned in a giant roundabout with no outside space.

Apart from the scale of the proposed developments, my main concern is over parking. Whilst it may be acceptable for inner London residents to live without cars and rely on public transport, this will not work in outer London towns like Purley. The Baptist Church/Banstead Road development will have 200 dwellings with 38 parking spaces. This will not deter residents from having cars and they will simply be parked in the surrounding roads to the detriment of the quality of life of the existing homeowners. And the presumption is that all other developments in Purley will have similar car parking to dwelling ratios that will exacerbate this problem throughout the town.

No change

The allocation for mixed use redevelopment is acceptable for this site. The height of the building relates to policy DM40.1.
My husband and I attended the consultation meeting at the Purley Baptist Church on the 8th December and we both felt that plans on show and the information given on what precisely was being proposed was vague to say the least, and the council staff were not able to clarify the details included in the information concerning such things as the amount of social housing, etc. Nor was there any copies of the plans which people could take away in order to be able to study them, and thereby understand what was being proposed. Also whereas the council has had up to two years to come up with these proposals, we have been given a very limited time to make any objections to them, that is ten days after the meeting, the 18th of December, hardly sufficient time given the paucity of information offered.

Nonetheless, there was an indication that the height of the proposed plan on this site would be in the order of sixteen stories.

My husband and I feel very strongly that this is entirely out of keeping with the area hardly in line with your description of Purley being a "market town located on wooded hillsides and in the valley". Purley is not London where skyscrapers are totally acceptable or even Croydon where a profusion of skyscrapers exist. If this is built it will open up the floodgates for further buildings completely changing the character of Purley.

Purley also has massive traffic problems, which will not be helped by a building of this size. Let us also not forget that Purley also suffers from flooding problems as its sits on the sight of the Bourne, and a large site like this will only make matters worse.

Places of Croydon-PURLEY

We accept the fact that the council recommends major residential growth in the district centre with high quality development that will respect the existing residential character and local distinctiveness.

If the above is to form the Council's policy, how is it likely to support 7 stories affordable housing on the opposite side of the Baptist Church proposals. This will be completely out of CHARACTER with the surrounding.
Policy DM40.1 (p166) says that a skyscraper of 16 floors can be built in the centre of Purley. A skyscraper of 16 floors will completely change the character of Purley town centre and is wholly out of keeping with the rest of Purley town centre which is no higher than 5 floors.

No change

The allocation for mixed use redevelopment is acceptable for this site. The height of the building relates to policy DM40.1.

A large number of the sites allocated for development through Detailed Policies and Proposals may result in the loss of green space. This appears to run counter to the Borough’s Strategic Objective 10 (The need to utilise brownfield areas first) and could be replaced with a goal to promote good quality high density developments that protect Croydon’s green spaces. Even undesignated green spaces provide important ecosystem services to Croydon’s growing population.

The Council should provide additional text in these policies to encourage developers to propose good quality, high density developments which promote the protection and enhancement of green space.

No change

This allocation would not result in the loss of open space.

I am pleased to see the new plan regularising its landmark high-rise feature.

Welcome support

This site is clearly ripe for development and the approach is sensible. In order to fit the quantity of housing onto this site I understand that it may be proposed to construct a tall building. Any such building should conform to the rule set out in DM15.1c. The design should be of exceptional quality and demonstrate that a sensitive approach has been taken to articulation and composition of the building which is proportionate to its scale.

No change

Any future development would be subject to all relevant policies in the Strategic Policies and Detailed Policies.

I object to the Purley Skyscraper development on the grounds it does not fit with the local area, its location on what is an already congested road layout, too high local area is around 5 floors in the main maximum and will not improve the local area for the better.

No change

The allocation for mixed use redevelopment is acceptable for this site. The height of the building relates to policy DM40.1.

I totally oppose this development. A skyscraper of 16 floors will completely change the character of Purley town centre and is wholly out of keeping with the rest of Purley town centre which is no higher than 5 floors.

No change

The allocation for mixed use redevelopment is acceptable for this site. The height of the building relates to policy DM40.1.

</table>
The Directors of Christchurch Road Residents' Association Ltd. have asked me to write to you with regard to the above proposals regarding Palmerston House.

For your reference Park View was built in 1976 and has 18 flats with parking places and garages for each flat. Palmerston House was acquired subsequently. There are only a few parking spaces in front of their offices for their staff and we allow the overflow to park in our spaces during the week only.

We have a brick built refuse area housing our 3 bins provided by the Council together with a food bin which is outside due to lack of space. We have allowed Palmerston House to have 2 bins for their refuse which is only just viable and any additional use would be impossible due to the limitations of the interior space.

Vehicle access to Park View and Palmerston House is via a single track which refuse collection vehicles only just manage to negotiate and any increase in use would not be possible. Other access to the site is not possible due to the lay of the land. Past investigations have established that this area lies in a flood plain and drainage problems would occur should there be an increased usage.

Finally we wish to record the above concerns against a change of usage of Palmerston House should they be proposed at any time in the future.

No change

The comments are noted and it is recognised that the issues raised may affect the deliverability of the site. However, in principle, the residential use of the site is acceptable and so no change is proposed.

The comment is noted. The Local Plan includes a policy on impact on health that will need to be considered in any detailed plans for this site.
| Object | Soundness - Justified | DM40.4 490 | The proposal for a primary school on the car park on Brighton Road is inappropriate for the following reasons:
- There is no suitable parking place for those who would need/wish to bring and/or collect children to/from the school. Brighton Road is a very busy A road and there are insufficient local parking opportunities.
- The removal of parking provision would be detrimental to the sustainability of the shops and other commercial premises on the opposite side of Brighton Road. |

</tbody>
</table>
Network Rail notes that there are a number of sites adjacent to the Railway and attach a standard response which sets out the issues that need to be considered. In particular with large new developments there is a concern about the risk of trespass and all new developments should have proper and suitable boundary fencing. The risk of greater flooding and drainage that new developments could potentially have on the Network Rail infrastructure and we would not want any increase of flooding or the increase in run off onto Railway Infrastructure.

The developer must ensure that their proposal, both during construction and after completion of works on site, does not:
- encroach onto Network Rail land
- affect the safety, operation or integrity of the company's railway and its infrastructure
- undermine its support zone
- damage the company's infrastructure
- place additional load on outbuildings
- adversely affect any railway land or structure
- over-sail or encroach upon the air-space of any Network Rail land
- cause to obstruct or interfere with any works or proposed works or Network Rail development both now and in the future

The developer should comply with the following comments and requirements for the safe operation of the railway and the protection of Network Rail's adjoining land.

Future maintenance
The development must ensure any future maintenance can be conducted solely on the applicant's land. The applicant must ensure that any construction and any subsequent maintenance can be carried out to any proposed buildings or structures without adversely affecting the safety of, or encroaching upon Network Rail's adjacent land and air-space, and therefore all new buildings should be situated at least 2 metres (3m for overhead lines and third rail) from Network Rail's boundary. The reason for the 2m (3m for overhead lines and third rail) stand off requirement is to allow for construction and future maintenance of a building and without requirement for access to the operational railway environment which may not necessarily be granted or if granted subject to railway site safety requirements and special provisions with all associated railway costs charged to the applicant. Any

No change

Any development proposals for the site would be subject to consultation and Network Rail would be consulted as required.
less than 2m (3m for overhead lines and third rail) and there is a strong possibility that the applicant (and any future resident) will need to utilise Network Rail land and air-space to facilitate works. The applicant / resident would need to receive approval for such works from the Network Rail Asset Protection Engineer, the applicant / resident would need to submit the request at least 20 weeks before any works were due to commence on site and they would be liable for all costs (e.g. all possession costs, all site safety costs, all asset protection presence costs). However, Network Rail is not required to grant permission for any third party access to its land. No structure/building should be built hard-against Network Rail’s boundary as in this case there is an even higher probability of access to Network Rail land being required to undertake any construction / maintenance works. Equally any structure/building erected hard against the boundary with Network Rail will impact adversely upon our maintenance teams’ ability to maintain our boundary fencing and boundary treatments.

Drainage

Storm/surface water must not be discharged onto Network Rail’s property or into Network Rail’s culverts or drains except by agreement with Network Rail. Suitable drainage or other works must be provided and maintained by the Developer to prevent surface water flows or run-off onto Network Rail’s property. Proper provision must be made to accept and continue drainage discharging from Network Rail’s property; full details to be submitted for approval to the Network Rail Asset Protection Engineer. Suitable foul drainage must be provided separate from Network Rail’s existing drainage. Soakaways, as a means of storm/surface water disposal must not be constructed near within 10 – 20 metres of Network Rail’s boundary or at any point which could adversely affect the stability of Network Rail’s property.

After the completion and occupation of the development, any new or exacerbated problems attributable to the new development shall be investigated and remedied at the applicants’ expense.

Plant & Materials

All operations, including the use of cranes or other mechanical plant working adjacent to Network Rail’s property, must at all times be carried out in a “fail safe” manner such that in the event of mishandling, collapse or failure, no plant or materials are
capable of falling within 3.0m of the boundary with Network Rail.

Scaffolding
Any scaffold which is to be constructed within 10 metres of the railway boundary fence must be erected in such a manner that at no time will any poles over-sail the railway and protective netting around such scaffold must be installed. The applicant/applicant’s contractor must consider if they can undertake the works and associated scaffold/access for working at height within the footprint of their property boundary.

Piling
Where vibro-compaction/displacement piling plant is to be used in development, details of the use of such machinery and a method statement should be submitted for the approval of the Network Rail’s Asset Protection Engineer prior to the commencement of works and the works shall only be carried out in accordance with the approved method statement.

Fencing
In view of the nature of the development, it is essential that the developer provide (at their own expense) and thereafter maintain a substantial, trespass-proof fence along the development side of the existing boundary fence, to a minimum height of 1.8 metres. The 1.8m fencing should be adjacent to the railway boundary and the developer/applicant should make provision for its future maintenance and renewal without encroachment upon Network Rail land. Network Rail’s existing fencing/wall must not be removed or damaged and at no point either during construction or after works are completed on site should the foundations of the fencing or wall or any embankment therein, be damaged, undermined or compromised in any way. Any vegetation on Network Rail land and within Network Rail’s boundary must also not be disturbed. Any fencing installed by the applicant must not prevent Network Rail from maintaining its own fencing/boundary treatment.

Lighting
Any lighting associated with the development (including vehicle lights) must not interfere with the sighting of signalling apparatus and/or train drivers’ vision on approaching trains. The location and colour of lights must not give rise to the potential for confusion with the signalling
arrangements on the railway. The developers should obtain Network Rail’s Asset Protection Engineer’s approval of their detailed proposals regarding lighting.

Noise and Vibration
The potential for any noise/vibration impacts caused by the proximity between the proposed development and any existing railway must be assessed in the context of the National Planning Policy Framework which hold relevant national guidance information. The current level of usage may be subject to change at any time without notification including increased frequency of trains, night time train running and heavy freight trains.

Vehicle Incursion
Where a proposal calls for hard standing area/parking of vehicles area near the boundary with the operational railway, Network Rail would recommend the installation of a highways approved vehicle incursion barrier or high kerbs to prevent vehicles accidentally driving or rolling onto the railway or damaging lineside fencing.

Network Rail strongly recommends the developer contacts AssetProtectionSussex@networkrail.co.uk prior to any works commencing on site, and also to agree an Asset Protection Agreement with us to enable approval of detailed works. More information can also be obtained from our website at www.networkrail.co.uk/aspx/1538.asp.

DM40.4
490

Ref 7.59 detailed policies: A new Primary School at this location on Brighton Road is ill considered. The site should better be assigned to housing with any new primary school located off main roads, with access to both parents obliged to use cars and those arriving by foot or public transport. In this case, an expansion of Woodcote Primary should be considered first.

No change

An extensive site search has identified that this is the only suitable site (in terms of size and location) within the urban area in the south west of the borough to build a new primary school.

2781/01/002/DM40.4/O Graham Bass

Object

DM40.4
490

The site should (as has been toyed with in the past) be enlarged to take in the under-exploited properties along that end of Old Lodge Lane. This would create an area large enough for both the proposed primary school and our 25m. pool/gym. Not only would this take advantage of the site’s excellent accessibility (train, bus, car) for the whole of the south of the borough, but be an excellent synergistic fit, school & pool.

The site should be extended to include the properties at the end of Old Lodge Lane and should provide a 25m pool/gym in addition to the primary school.

No change

The comment is noted. The site is allocated for a primary school use and the site includes three adjacent properties to the south of the car park. No land owner came forward to the Council with any additions to the site through the Call for Sites process.
Support

An excellent idea to use this large, vacant site for a much-needed school. Surely there would be space to incorporate a 25 metre public swimming pool into this development, which would take the pressure off Ref 30. Thank you for the opportunity to comment on the Plan, otherwise I think that the majority of the proposals are sensible given the great need for additional housing.

Welcome support

The school is not large enough to accommodate both a swimming pool and primary school. The site allocation for Purley Pool (site 30) sets out the requirement for a swimming pool as part of any redevelopment.
Parham Holdings Ltd

Object DM40.4 490

The purpose of this submission is to present an argument in response to the identification in Table 11.13 of the Subject Document of site 490, No. 95-111 Brighton Road, Purley ('the Subject Site') as a preferred use as a primary school, and instead to promote it as a preferred site for mixed uses including residential dwellings. There was a previous planning application for 08/03343 proposed the demolition of existing buildings; erection of 1 x six/seven storey building and 1 x six storey building comprising a total of 100 one bedroom, 81 two bedroom and 8 three bedroom flats; the formation of a 100 space parking area for commercial premises opposite and associated parking for flats with vehicular access road onto Brighton Road. The application was refused on the grounds that the proposed massing, bulk and scale was an overdevelopment of the site. The NPPF introduced a 'presumption in favour of sustainable development'. In response to the increase in London Borough of Croydon’s (LBC) existing housing requirements as directed by the Further Alterations to the London Plan (2014), the Subject Document has allocated certain sites for mixed use/residential development in order to ensure that the borough's housing land remains in surplus. It includes the identification of sites for future development within Section 11 - The Places of Croydon. Despite the Subject Site not having been identified as a preferred option for mixed uses, the intention for the land within the vicinity of Reedham Station as specified in policy DM40.2 of the Subject Document Environs of Reedham Station lends weight to the potential development of residential and mixed commercial developments, detailing: ‘In the environs of Reedham Station, to create the sense of place and facilitate growth proposals should:

a. Complement the existing predominant building heights of 2 storeys up to a maximum of 4 storeys;
b. Reinforce the predominant building lines and frontages which positively respond to the form of the Brighton Road/Old Lodge Lane junction;
c. Improve the pedestrian and cycle permeability, accessibility and connectivity across the railway between Brighton Road, Watney Close, Aveling Close and Fairbairn Close; and
d. Enhance the suburban shopping

The site should be allocated for mixed use, including residential.

No change The site is required to meet the need for primary school places in the south of the borough and will continue to be allocated for a primary school due to the unsuitability of 112 Brighton Road.
Although development of the site is yet to reach a conceptual design stage, it is evident that any future mixed uses scheme can integrate the above requirements within its design. The Subject Site has a total area of 0.83ha. This would permit in excess of 10 homes. Given the size of the Subject Site it is considered that there is also sufficient capacity to accommodate mixed uses including 3 bedroom dwellings (which are preferred for sustainable development under policy DM 1 of the Subject Document). There are no site specific policies currently relevant to the Subject Site that would prevent future mixed uses development. Moreover, the construction of mixed uses development on the Subject Site would fulfil the relevant national and local planning policies. The Draft Housing and Planning Bill 2015-2016 (The Bill) is currently at the debate stage. One of the primary objectives of The Bill is to provide starter homes for first time buyers. Potential development of the Subject Site would help facilitate an opportunity for LBC to meet any future starter home requirements likely to be directed from central Government following adoption of The Bill. There is capacity for the Subject Site to support 2 to 4 storey developments and therefore complement the existing surrounds recognised in part (a) of Policy DM 40.2 of the Subject Document. In keeping with part (c) of Policy DM 40.2, there is scope to incorporate pedestrian and cycle permeability between Reedham Station and Brighton Road, which unlike a primary school use would provide ‘casual surveillance’ throughout the day. There is additionally the potential to revive mixed uses on the Brighton Road frontage thereby upholding part (c) of policy DM 40.2, which seeks to enhance the character and vitality of the suburban area. The site is partially subject to a Network Rail Exclusion Zone. However this only affects a minor part of the Subject Site and it will not prevent future development. As maintained throughout this representation, the development of the site for mixed uses would assist the LBC in meeting its need for new housing. However an assessment to permit the Subject Site to be developed for alternative uses may not be undertaken until as late as 2021. Restricting the potential redevelopment of the Subject Site for a further six years would lead to stagnation and a blight on its area character of this section of Brighton Road.
potential while the uncertainty could be detrimental to the local community. The Subject Site comprises a developed area on brownfield land. Local bus links directly in front of the Subject Site allow easy access to wider public transport links at Purley and Easy Croydon. The Subject Site is prime for mixed uses development and would provide strengthened economic development. It is our view that mixed uses would improve the existing underused Subject Site and present a tremendous opportunity to create a range of high-quality, well-designed commercial uses, houses and apartments with associated amenities that create a desirable standard of living.

With reference to the Local Plan which has been proposed, please note my objection to the following policies:

- Garden Grabbing
- Policy DM2
- Purley Skyscraper authorisation
- Policy DM40.1
- Purley Pool
- Policy 40.4, Table 11.3, Site 30
- Purley Parking
- Policy 40.4, Table 11.3.
- Sanderstead “Lidl” Site
- Policy DM41.3, Table 11.14, site 306
- Gypsy/Traveller site on Conduit Lane, next to Coombe Wood Gardens
- Policy DM44.2, Table 11.17, site 661
- Loss of Green Belt – (1) Coombe Playing Fields, (2) Croham Hurst, (3) Sanderstead Plantation
- The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662
- Lack of Parking in new developments
- Policy DM28
- More Protection; Less “Intensification”
- Policy DM31.4

No change

There is insufficient information to consider this comment further.

The sites at 1-19 Old Lodge Lane is in different ownership meaning there would be land assembly issues making the site difficult to deliver. As an out of centre site it is not a preferred location for a leisure centre.

This allocation sets out that a primary school is acceptable in principle. Any planning application for this site will be assessed against the Local Plan planning policies, which include an assessment on the local environment and character.
4117/01/021/DM40.4/0 Cllr S Brew Object DM40.4 490 Site 490: I would prefer to see this site expanded to include properties 1-19 Old Lodge Lane, possibly also up to railway bridge. The enlarged site could then be used for new leisure centre to include 25M pool and associated parking, as well as new primary school. If school is not required, then still build leisure centre with parking facility, open it before old one (site 30) closes, and use rest of site 490 for residential. No change The sites at 1-19 Old Lodge Lane is in different ownership meaning there would be land assembly issues making the site difficult to deliver. As an out of centre site it is not a preferred location for a leisure centre.

2982/01/013/DM40.4/0 Mrs Jeanne Driscoll Object DM40.4 495 I wish to add my objections made on this document by our local M.P. Chris Philp. No change This comment has not been substantiated so no changes can be made.

3162/01/013/DM40.4/0 Mr Joe Toner Object DM40.4 495 I would like to voice my object to the following plan DM40.4. No change The objection is not substantiated, (no reason given), so the Council is unable to respond.

3322/01/012/DM40.4/0 Mr Richard Driver Object DM40.4 495 I should like to make it known that I object to this which is included in the recently published Local Plan. No change There is insufficient information to consider this comment further.

3577/01/014/DM40.4/0 Mr Peter West Object DM40.4 495 I object to Policy 40.4 table 11.3 - All of the above are unacceptable to me as a Sanderstead resident for the last 25 years. We need space and sensible development that compliments the environment. I totally agree with all the point that our member of Parliament has suggested. No change This allocation sets out that residential development is acceptable in principle. Any planning application for this site will be assessed against the Local Plan planning policies, which include an assessment on the local environment and character.

0092/02/015/DM40.4/0 Riddlesdown Residents Associatio Object DM40.4 61 The car park at 54-58 Whytecliffe Road South is being re-designated as residential. Given the parking problems in Purley town centre, any new scheme should have at least as many public parking spaces as the current car park. This in turn could add additional parking issues in the streets close to Riddlesdown station, as an alternative for commuters to park. The site should retain as many car parking spaces as there are now. Change Any development will require the retention of some of the existing parking spaces.

0117/02/003/DM40.4/0 Mr Richard Applebee Object Soundness - Justified DM40.4 61 The Council seems to have no clear cut policy to accommodate commuter parking. Development of the car park in Whytecliffe Road would remove parking access to Purley Station and create further problems with parking in residential roads. Change Any development will require the retention of some of the existing parking spaces.

0145/02/002/DM40.4/0 Mr BI Tubb Object DM40.4 61 Also the existing multi storey car park should be raised by at least another three stories to keep pace with the parking requirement in this part of the Borough. Change Any development will require the retention of some of the existing parking spaces.

Site 61, Car Park, 54-58 Whytecliffe Road South. Whilst the site is re-designated as residential, any new schemes should have at least as many public parking spaces as the current car park.

DM40.4 61

Change

Any development will require the retention of some of the existing parking spaces.
The provision of sensible parking options is essential for improving traffic flow and encouraging use of local businesses. Not providing parking does not stop people owning or using cars. I am concerned that under Policy 40.4, Table 11.3, Site 61 vital central parking capacity will be lost.

Should the site at 54-58 Whytecliffe Road South be re-designated as residential then any new scheme must have at least as many public parking spaces as the current car park.

Any development will require the retention of some of the existing parking spaces.

Policy 40.4, Table 11.3, Site 61 (p168). The car park at 54-58 Whytecliffe Road South is essential to Purley. If the site is to be re-designated as residential any new scheme should have at least as many public parking spaces as the current car park.

Any development will require the retention of some of the existing parking spaces.

Any development will require the retention of some of the existing parking spaces.

Any development will require the retention of some of the existing parking spaces.

Any development will require the retention of some of the existing parking spaces.

Any development will require the retention of some of the existing parking spaces.

Any development will require the retention of some of the existing parking spaces.

Any development will require the retention of some of the existing parking spaces.
Network Rail notes that there are a number of sites adjacent to the Railway and attach a standard response which sets out the issues that need to be considered. In particular with large new developments there is a concern about the risk of trespass and all new developments should have proper and suitable boundary fencing. The risk of greater flooding and drainage that new developments could potentially have on the Network Rail infrastructure and we would not want any increase of flooding or the increase in run off onto Railway Infrastructure.

The developer must ensure that their proposal, both during construction and after completion of works on site, does not:
- encroach onto Network Rail land
- affect the safety, operation or integrity of the company’s railway and its infrastructure
- undermine its support zone
- damage the company’s infrastructure
- place additional load on outgoings
- adversely affect any railway land or structure
- over-sail or encroach upon the air-space of any Network Rail land
- cause to obstruct or interfere with any works or proposed works or Network Rail development both now and in the future

The developer should comply with the following comments and requirements for the safe operation of the railway and the protection of Network Rail’s adjoining land.

Future maintenance
The development must ensure any future maintenance can be conducted solely on the applicant’s land. The applicant must ensure that any construction and any subsequent maintenance can be carried out to any proposed buildings or structures without adversely affecting the safety of, or encroaching upon Network Rail’s adjacent land and air-space, and therefore all/any building should be situated at least 2 metres (3m for overhead lines and third rail) from Network Rail’s boundary. The reason for the 2m (3m for overhead lines and third rail) stand off requirement is to allow for construction and future maintenance of a building and without requirement for access to the operational railway environment which may not necessarily be granted or if granted subject to railway site safety requirements and special provisions with all associated railway costs charged to the applicant. Any
less than 2m (3m for overhead lines and third rail) and there is a strong possibility that the applicant (and any future resident) will need to utilise Network Rail land and air-space to facilitate works. The applicant / resident would need to receive approval for such works from the Network Rail Asset Protection Engineer, the applicant / resident would need to submit the request at least 20 weeks before any works were due to commence on site and they would be liable for all costs (e.g. all possession costs, all site safety costs, all asset protection presence costs). However, Network Rail is not required to grant permission for any third party access to its land. No structure/building should be built hard-against Network Rail’s boundary as in this case there is an even higher probability of access to Network Rail land being required to undertake any construction / maintenance works. Equally any structure/building erected hard against the boundary with Network Rail will impact adversely upon our maintenance teams’ ability to maintain our boundary fencing and boundary treatments.

Drainage
Storm/surface water must not be discharged onto Network Rail’s property or into Network Rail’s culverts or drains except by agreement with Network Rail. Suitable drainage or other works must be provided and maintained by the Developer to prevent surface water flows or run-off onto Network Rail’s property. Proper provision must be made to accept and continue drainage discharging from Network Rail’s property; full details to be submitted for approval to the Network Rail Asset Protection Engineer. Suitable foul drainage must be provided separate from Network Rail’s existing drainage. Soakaways, as a means of storm/surface water disposal must not be constructed near within 10 – 20 metres of Network Rail’s boundary at any point which could adversely affect the stability of Network Rail’s property. After the completion and occupation of the development, any new or exacerbated problems attributable to the new development shall be investigated and remedied at the applicants' expense.

Plant & Materials
All operations, including the use of cranes or other mechanical plant working adjacent to Network Rail’s property, must at all times be carried out in a “fail safe” manner such that in the event of mishandling, collapse or failure, no plant or materials are
capable of falling within 3.0m of the boundary with Network Rail.

Scaffolding
Any scaffold which is to be constructed within 10 metres of the railway boundary fence must be erected in such a manner that at no time will any poles over-sail the railway and protective netting around such scaffold must be installed. The applicant/applicant’s contractor must consider if they can undertake the works and associated scaffold/access for working at height within the footprint of their property boundary.

Piling
Where vibro-compaction/displacement piling plant is to be used in development, details of the use of such machinery and a method statement should be submitted for the approval of the Network Rail’s Asset Protection Engineer prior to the commencement of works and the works shall only be carried out in accordance with the approved method statement.

Fencing
In view of the nature of the development, it is essential that the developer provide (at their own expense) and thereafter maintain a substantial, trespass proof fence along the development side of the existing boundary fence, to a minimum height of 1.8 metres. The 1.8m fencing should be adjacent to the railway boundary and the developer/applicant should make provision for its future maintenance and renewal without encroachment upon Network Rail land. Network Rail’s existing fencing/wall must not be removed or damaged and at no point either during construction or after works are completed on site should the foundations of the fencing or wall or any embankment therein, be damaged, undermined or compromised in any way. Any vegetation on Network Rail land and within Network Rail’s boundary must also not be disturbed. Any fencing installed by the applicant must not prevent Network Rail from maintaining its own fencing/boundary treatment.

Lighting
Any lighting associated with the development (including vehicle lights) must not interfere with the sighting of signalling apparatus and/or train drivers vision on approaching trains. The location and colour of lights must not give rise to the potential for confusion with the signalling apparatus.
arrangements on the railway. The developers should obtain Network Rail's Asset Protection Engineer's approval of their detailed proposals regarding lighting.

Noise and Vibration
The potential for any noise/vibration impacts caused by the proximity between the proposed development and any existing railway must be assessed in the context of the National Planning Policy Framework which hold relevant national guidance information. The current level of usage may be subject to change at any time without notification including increased frequency of trains, night time train running and heavy freight trains.

Vehicle Incursion
Where a proposal calls for hard standing area/parking of vehicles area near the boundary with the operational railway, Network Rail would recommend the installation of a highways approved vehicle incursion barrier or high kerbs to prevent vehicles accidentally driving or rolling onto the railway or damaging lineside fencing.

Network Rail strongly recommends the developer contacts AssetProtectionSussex@networkrail.co.uk prior to any works commencing on site, and also to agree an Asset Protection Agreement with us to enable approval of detailed works. More information can also be obtained from our website at www.networkrail.co.uk/aspx/1538.asp.

Object 61, Car Park, 54-58 Whyteleafe Road South. Whilst the site is redesignated as residential, any new scheme should have at least as many public parking spaces as the current car park.

Change Any development will require the retention of some of the existing parking spaces.

In general the provision of sensible parking options is vital, both for improving traffic flow and encouraging use of local businesses and must be central to all future developments, both commercial and residential. Not providing parking does not stop people owning or using cars. In particular we are concerned that under Policy 40.4, Table 11.3, Site 61 vital central parking capacity will be lost. Should the site at 54-58 Whyteleafe Road South be redesignated as residential then any new scheme must have at least as many public parking spaces as the current car park. We understand that the current free parking in Purley town centre is to be removed - obviously the Council wants to finish off remaining businesses (possibly to build even greater numbers of skyscrapers). This is a retrograde step, and should be reversed at once. We strongly believe that just refusing to include parking within developments really does not stop a relatively large proportion of people buying and using cars. If current policies continue all streets in Purley centre and adjacent roads will just become permanent car parks for developments which don't include parking provision, making roads far less safe and clogging up traffic. We have noticed, since the parking charges in Purley Knoll were reduced, that we now have obvious commuter cars (mostly very large and expensive) using the road as very cheap parking. We are in general concerned about lack of provision of parking spaces in developments. If adequate space is incorporated, and preferably underground to retain maximum green spaces, then roads can be kept free of parked cars, particularly during busy commuting times, which will increase traffic flow, ease congestion and improve pollution and road safety.

Change Any development will require the retention of some of the existing parking spaces.

</tr>
</tbody>
</table>
Parking is essential as car ownership increases and to reducing parking opportunities will drive shopper to out of town units resulting in empty high streets and loss of small shopkeepers.

The report should explicitly mention that any redevelopment should not reduce the number of public parking places, in fact, acknowledge a need to increase it. Purley already has a parking problem, with residential streets especially along Brighton Road being used by commuters. Purley is an important rail junction and is highly convenient for access to London as it incorporates both mainline services and two branch lines. Increasing population and growing employment opportunities in London will create increasing demands on these facilities further out.

The car park at 54-58 Whytecliffe Road South is being re-designated as residential why? Given the parking problems in Purley town centre, any new scheme should have at least as many public parking spaces as the current car park. Purley Station is very difficult to get to without a car. I oppose this change.

If you get rid of the pool/car park in Purley, you must replace it with equal car parking spaces & better pool. If you continue in this vein, my husband & I will move out of the area, to somewhere up North, where they plan things differently!! Your loss, our gain - pity, as this should be a really nice place to live, but you are definitely spoiling it.

Any development will require the retention of some of the existing parking spaces.

Any development will require the retention of some of the existing parking spaces.

Any development will require the retention of some of the existing parking spaces.

Any development will require the retention of some of the existing parking spaces.

2970/01/005/DM40.4/O Janet Dean Object DM40.4 61

I understand that the following Policies will threaten our green spaces. I was born in Croydon and have lived in this area all my life (I am now 63). My parents came here from Scotland in the early 1950s. They chose this area specifically for its green spaces and it is quite unique in that facility. I spent more than 35 years in Real Estate in this area and know very well that the reason people continue to move here, is exactly for these facilities and yet remaining within easy reach of other amenities, London, the coast and airports. Of course, more housing is required but I believe the alternative suggestions to these proposals to be very valid and much more in keeping with the neighbourhood thus maintaining its attractiveness and good standard.

These proposals are ill conceived and will change this particular neighbourhood beyond all recognition and take away that for which it is well known and valued. Please hear the voices of people like me and do NOT continue with the proposed policies set out below and which can be found in your Local Plan:

4. Policy 40.4, Table 11.3, Site 61 (p168).

2982/01/014/DM40.4/O Mrs Jeanne Driscoll Object DM40.4 61

I wish to add my objections made on this document by our local M.P. Chris Philp.

2987/01/004/DM40.4/O Mrs Jenny Andrews Object DM40.4 61

Soundness - Justified

As part of your consultations, please note my objections to the following in your Local Plan:

DM2, DM40, DM28, DM35, DM41.3, DM35, DM44.2, DM44.2 (11.17) Policy 40 (11.3), Policy 40.4 (11.3 site 61)

3003/01/005/DM40.4/O Mr John James Object DM40.4 61

I would like to register my objection to DM 40.4 Site 61 Purley Parking

3046/01/005/DM40.4/O Stephanie Lawson Object DM40.4 61

I object to this policy based on the existing parking problems in Purley and the fact that any new scheme should have at least as many public parking spaces as the current car park.

3075/01/007/DM40.4/O Mr Christopher Andrews Object DM40.4 61

It is proposed to re-designate the Whyteleffe Road car park as residential. Local Government plans must not reduce parking capacity under any pretext. Car usage is essential for local prosperity.
3081/01/004/DM40.4/O Mr John Morgan
Object DM40.4
61 Policy 40.4, Table 11.3, Site 61 (p168). This car park at 54-58 Whytecliffe Road South is being re-designated as residential. Any new development must provide the equivalent public parking.
Change Any development will require the retention of some of the existing parking spaces.

3091/01/004/DM40.4/O Mr Paul Gomm
Object DM40.4
61 please note my objection to the following policy reference numbers within your current draft plan for planning & development.
Change Any development will require the retention of some of the existing parking spaces.

3102/01/003/DM40.4/O Mr Richard Horton
Object DM40.4
61 2. It would appear that the long stay car park near the station is to be redeveloped with reduced car parking. This car park is the only long stay car park usable by commuters, of which there are large numbers. The designation of some spaces for the NHS has already put pressure on its capacity. Further reductions would be unreasonable.
Change Any development will require the retention of some of the existing parking spaces.

3162/01/014/DM40.4/O Mr Joe Toner
Object DM40.4
61 I would like to voice my object to the following plan DM40.4.
Change Any development will require the retention of some of the existing parking spaces.

3164/01/003/DM40.4/O Jenny White
Object DM40.4
61 The car park at Whytecliffe rd being re-designated as residential. There is very limited parking in Purley & this one should not go.
Change Any development will require the retention of some of the existing parking spaces.

3185/01/004/DM40.4/O Mr Stephen Woodward
Object DM40.4
61 We have lived in Sanderstead for over 40 years, and have thoroughly enjoyed the areas to the south of Croydon being unspoilt. In our view these ill conceived proposals will change this area beyond recognition and take away that for which it is well known and valued. Please rethink, and do not continue with the proposed policies set out below and which can be found in your Local Plan: Policy 40.4, Table 11.3, Site 61 (p168).
Change Any development will require the retention of some of the existing parking spaces.

3225/01/004/DM40.4/O Saundra Dudman
Object Soundness - Effective DM40.4
61 4) Policy 40.4 Table 11.3 Site 61 p168 Car park on 54-58 Whytecliffe Road South proposed re-designated residential. Parking is desperately short in this area.
Change Any development will require the retention of some of the existing parking spaces.

3234/01/005/DM40.4/O Mr Peter Newman
Object DM40.4
61 I specifically object to: 40.4 Whytecliffe Road car park. This rubbish strewn car park attests to another council failure to enforce proper standards of tidiness in the borough. Jeremy Paxman is not the only one depressed by our disgusting streets. Any development should duplicate the existing parking facilities and give respite to hard pressed local residents whose streets are parked out (both legally and illegally) by commuters on a daily basis.
Change Any development will require the retention of some of the existing parking spaces.

Mr Ron Thomas
Object Soundness - Effective DM40.4 61
I object to the following ridiculous proposals...
Policy 40.4, Table 11.3, Site 61 (p168) This car park is so useful - we need it.
Change Any development will require the retention of some of the existing parking spaces.

Mr Richard Driver
Object DM40.4 61
I should like to make it known that I object to this which is included in the recently published Local Plan.
Change Any development will require the retention of some of the existing parking spaces.

Mr Richard Veldeman
Object DM40.4 61
Policy 40.4, Table 11.3, Site 61 (p168) This car park at 54-58 Whyteleafe Road South is being re-designated as residential. Given the parking problems in Purley town centre, any new scheme should have at least as many public parking spaces as the current car park.
Change Any development will require the retention of some of the existing parking spaces.

Ms C Soroczynski
Object DM40.4 61
Please note my objections to planning Policy 40.4, Table 11.3, Site 61
Change Any development will require the retention of some of the existing parking spaces.

Mr Donald Speakman
Object Soundness - Effective DM40.4 61
Site 61: Public car parking should be retained at present capacity. There is scope here for major development of 4-6 storeys, well set back from road, and partially used to mask elevated railway, similar to current Fairfield Halls design phase 1.
Change Any development will require the retention of some of the existing parking spaces.

Mr & Mrs Batki-Braun
Object Soundness - Justified DM40.4 61
DM 40.4 Site 61 It is important to maintain the parking capacity of the car park which is extremely popular. Purley requires parking to maintain its commercial centre, to visit Purley Hospital and the numerous small shops in town. Lack of parking will destroy, rather than improve our town, and reduce employment and the livelihood of small shopkeepers and specialist service providers.
Change Any development will require the retention of some of the existing parking spaces.

Mr Dennis King
Object Soundness - Justified DM40.4 61
Car Parking in Purley the severe loss of car parking spaces to the 16 storey tower will generate severe street parking across the Purley centre, made worse by the policy to close the car park in Wycliffe Road car park which is close to main line Purley Station and the shopping area.
Change Any development will require the retention of some of the existing parking spaces.

Rosemary Wiseman
Object DM40.4 61
The car park is a disgrace - lifts no longer working, and I have seen evidence of drug taking, heavy drinking and the smell of urine is atrocious - particularly in the mezzanine well between ground and first floor. I do not feel safe using it. Parking in Purley is difficult. Spaces have been reduced in the High Street - two in particular replaced with concrete monstrosities supposed to be seats. More short term parking is urgently required.
Change Any development will require the retention of some of the existing parking spaces.
Mr Michael Southwell

Regarding the draft local plan I make the following objection - Purley Parking.
Following the leasing by the Council to the NHS of part of the Multi storey Car park owned by the Council opposite Purley railway station, this car park is usually full after the morning rush hour. The only car park with spaces at present is in Whytecliffe road nearby. To therefore make this residential as is proposed is therefore ridiculous.

Change

Any development will require the retention of some of the existing parking spaces.

Linda Hione

Purley Parking Policy 40.4, Table 11.3, Site 61 (p168). This car park at 54-58 Whytecliffe Road South is being re-designated as residential. Given the parking problems in Purley town centre, any new scheme should have at least as many public parking spaces as the current car park if not more.

Change

Any development will require the retention of some of the existing parking spaces.

Mr & Mrs Hewitt

Policy 40.4, Table 11.3, Site 61 (p168) This car park at 54-58 Whytecliffe Road South is being re-designated as residential. Given the parking problems in Purley town centre, any new scheme should have at least as many public parking spaces as the current car park.

Change

Any development will require the retention of some of the existing parking spaces.

Mr Peter West

I object to Policy 40.4 table 11.3 - All of the above are unacceptable to me as a Sanderstead resident for the last 25 years. We need space and sensible development that compliments the environment. I totally agree with all the point that our member of Parliament has suggested.

Change

Any development will require the retention of some of the existing parking spaces.

Mrs Margaret Lawless

I list below the relevant policy References to which I object: 40.4 Table 11.3 Site 61 (p168)

No change

No changes can be made as the result of this comment as it not detailed enough to determine what is being objected to.

Mr Nigel Jones

Table 11.13 Ref 61 significantly reduces the area’s parking capability (as has been done in Coulsdon). This will lead to illegal and dangerous parking and / or further encroachment into residential roads for commuter parking.

Change

Any development will require the retention of some of the existing parking spaces.
As a resident of Croydon all my life, I wish to register my opposition to the following “plans”...

The car park is a necessity in Purley. I volunteer at the Cats Protection Shop in Purley High Street, every Saturday after working full time all week. Car parking is of a premium in all of Purley. Tescos car park has a time restriction and the station is very busy.

Any development will require the retention of some of the existing parking spaces.

Site 61, Car Park, 54-58 Whytecliffe Road South. Whilst the site is re-designated as residential, any new scheme should have at least as many public parking spaces as the current car park.

Any development will require the retention of some of the existing parking spaces.

This car park at 54-58 Whytecliffe Road South is being re-designated as residential. Given the parking problems in Purley town centre, any new scheme should have at least as many public parking spaces as the current car park.

Any development will require the retention of some of the existing parking spaces.

I object to this site allocation.

Any development will require the retention of some of the existing parking spaces.

I would like to put in writing my objections to the following local plans: I am listing the relevant Policy Numbers: 4.40.4 Table 11.3 site 61 Purley Parking

Any development will require the retention of some of the existing parking spaces.

Policy 40.4 Purley Parking. This is an issue already and it would be wise to remove any parking facilities to allow further developments. If this happens additional parking must be found.

Any development will require the retention of some of the existing parking spaces.

I object to this policy based on the existing parking problems in Purley and the fact that any new scheme should have at least as many public parking spaces as the current car park.

Any development will require the retention of some of the existing parking spaces.

With reference to the Local Plan which has been proposed, please note my objection to the following policies:

Purley Parking
Policy 40.4, Table 11.3.

Any development will require the retention of some of the existing parking spaces.

<td>Parking is tight and difficult already. There are significant numbers of elderly people in Purley and Coulsdon, while everyone doing significant amounts of shopping also needs transport. The loss of the Lion Green car park has caused serious parking issues in Coulsdon. These problems must be addressed for the town centres to remain viable - we need more parking spaces, not less. Any development will require the retention of some of the existing parking spaces.</td>

Policy 40.4, Table 11.3, Site 61. I object to the removing of the much need parking facility in 54-58 Whytecliffe Road South. There is insufficient parking in Purley considering it has a busy station and many restaurants and shops. This parking space should remain and I object to the idea of designating it as residential.

Change  
Any development will require the retention of some of the existing parking spaces.

3837/01/007/DM40.4/O Mr & Mrs Hooper

Policy 40.4, Table 11.3, Site 61. This car park at 54-58 Whytecliffe Road South is being re-designated as residential. Any new development must provide the equivalent public parking.

Change  
Any development will require the retention of some of the existing parking spaces.

3896/01/011/DM40.4/O Mr M Veldeman  
Object  
DM40.4  
61  
Purley needs parking. A car park is required. People use cars and this will not change. Forcing cars out of the area will make all local businesses suffer and quite possibly fold as people will continue to use their cars and simply go somewhere more welcoming. Therefore losing the car park would be detrimental to people and to the environment as people will be driving further.

Change  
Any development will require the retention of some of the existing parking spaces.

3897/01/029/DM40.4/O Cllr M Neal

If the car park is redesignated an equal number of car spaces should be provided. Purley town centre demands this.

Change  
Any development will require the retention of some of the existing parking spaces.
Ms S Lawson  
DM40.4 61  
I object to this policy based on the existing parking problems in Purley and the fact that any new scheme should have at least as many public parking spaces as the current car park.

Jenny White  
Purley Parking Policy 40.4  
Any new development should maintain the existing no. of car parking spaces.

Mr & Mrs Belsey  
DM40.4 61  
If Whyteleffe Road South car park is built on, there must be the same number of car park spaces or more made in Purley, as parking is already a problem and will get worse when more building occurs.

Mrs Shelley Chatter-Singh  
DM40.4 61  
I would like to officially put forward to you my strong objection to some of the policies that you are proposing within Croydon. My objections are particularly directed to the following policies: 40.4 Table 11.3, site 61. Parking in Purley is vital if we are to encourage people to use the local facilities.

Vaughan Pomeroy  
DM40.4 61  
Car parking requirements may change with time, hopefully reducing if we can break the dependence on the car. However, there is clearly not sufficient provision near to shopping parades now and some of the proposals involve changing the use of existing parking facilities, such as the Whyteleffe Road car park close to Purley Station. On road parking near to Sanderstead and Purley Oaks stations is creating dangerous driving conditions and somehow the Council must address this situation. More parking is clearly needed, and there is a clear aversion to paying for it, hence the on road parking. I would hope that wherever car parks are subject of a change of use the available public car parking will be maintained or increased. I did not see any reference to the provision of charging points for electric cars but with the sustainability theme present I would hope that such facilities are incorporated.

The Chudasama Family  
Policy 40.4, Table 11.3, Site 61 (p168). – We have severe parking problems in Purley town centre, any new proposed scheme should have at least as many public parking spaces as the current car park.
Public car parking should be retained at present capacity. There is scope here for major development of 4-6 storeys, well set back from road, and partially used to mask elevated railway, similar to current Fairfield Halls design phase 1.

Any development will require the retention of some of the existing parking spaces.

Any development will require the retention of some of the existing parking spaces.

Any development will require the retention of some of the existing parking spaces.

An object to the inclusion of: Policy 40.4, Table 11.3, Site 61 (p168). Purley should NOT be losing public parking spaces.

Any development will require the retention of some of the existing parking spaces.

This comment has not been substantiated so no changes can be made.

The objection is not substantiated, (no reason given), so the Council is unable to respond.

There is insufficient information to consider this comment further.

The allocation requires the provision of a public car park.

Comment is noted.

</tbody>
</table>
Network Rail notes that there are a number of sites adjacent to the Railway and attach a standard response which sets out the issues that need to be considered. In particular with large new developments there is a concern about the risk of trespass and all new developments should have proper and suitable boundary fencing. The risk of greater flooding and drainage that new developments could potentially have on the Network Rail infrastructure and we would not want any increase of flooding or the increase in run off onto Railway Infrastructure.

The developer must ensure that their proposal, both during construction and after completion of works on site, does not:
- Encroach onto Network Rail land
- Affect the safety, operation or integrity of the company’s railway and its infrastructure
- Undermine its support zone
- Damage the company’s infrastructure
- Place additional load on outbuildings
- Adversely affect any railway land or structure
- Over-sail or encroach upon the air-space of any Network Rail land
- Cause to obstruct or interfere with any works or proposed works or Network Rail development both now and in the future

The developer should comply with the following comments and requirements for the safe operation of the railway and the protection of Network Rail’s adjoining land.

Future maintenance
The development must ensure any future maintenance can be conducted solely on the applicant’s land. The applicant must ensure that any construction and any subsequent maintenance can be carried out to any proposed buildings or structures without adversely affecting the safety of, or encroaching upon Network Rail’s adjacent land and air-space, and therefore all any building should be situated at least 2 metres (3m for overhead lines and third rail) from Network Rail’s boundary. The reason for the 2m (3m for overhead lines and third rail) stand off requirement is to allow for construction and future maintenance of a building and without requirement for access to the operational railway environment which may not necessarily be granted or if granted subject to railway site safety requirements and special provisions with all associated railway costs charged to the applicant. Any...
less than 2m (3m for overhead lines and third rail) and there is a strong possibility that the applicant (and any future resident) will need to utilise Network Rail land and air-space to facilitate works. The applicant / resident would need to receive approval for such works from the Network Rail Asset Protection Engineer, the applicant / resident would need to submit the request at least 20 weeks before any works were due to commence on site and they would be liable for all costs (e.g. all possession costs, all site safety costs, all asset protection presence costs). However, Network Rail is not required to grant permission for any third party access to its land. No structure/building should be built hard-against Network Rail’s boundary as in this case there is an even higher probability of access to Network Rail land being required to undertake any construction / maintenance works. Equally any structure/building erected hard against the boundary with Network Rail will impact adversely upon our maintenance teams’ ability to maintain our boundary fencing and boundary treatments.

Drainage

Storm/surface water must not be discharged onto Network Rail’s property or into Network Rail’s culverts or drains except by agreement with Network Rail. Suitable drainage or other works must be provided and maintained by the Developer to prevent surface water flows or run-off onto Network Rail’s property. Proper provision must be made to accept and continue drainage discharging from Network Rail’s property; full details to be submitted for approval to the Network Rail Asset Protection Engineer. Suitable foul drainage must be provided separate from Network Rail’s existing drainage. Soakaways, as a means of storm/surface water disposal must not be constructed near / within 10 – 20 metres of Network Rail’s boundary or at any point which could adversely affect the stability of Network Rail’s property. After the completion and occupation of the development, any new or exacerbated problems attributable to the new development shall be investigated and remedied at the applicants’ expense.

Plant & Materials

All operations, including the use of cranes or other mechanical plant working adjacent to Network Rail’s property, must at all times be carried out in a “fail safe” manner such that in the event of mishandling, collapse or failure, no plant or materials are
capable of falling within 3.0m of the boundary with Network Rail.

Scaffolding
Any scaffold which is to be constructed within 10 metres of the railway boundary fence must be erected in such a manner that at no time will any poles over-sail the railway and protective netting around such scaffold must be installed. The applicant/applicant’s contractor must consider if they can undertake the works and associated scaffold/access for working at height within the footprint of their property boundary.

Piling
Where vibro-compaction/displacement piling plant is to be used in development, details of the use of such machinery and a method statement should be submitted for the approval of the Network Rail Asset Protection Engineer prior to the commencement of works and the works shall only be carried out in accordance with the approved method statement.

Fencing
In view of the nature of the development, it is essential that the developer provide (at their own expense) and thereafter maintain a substantial, trespass-proof fence along the development side of the existing boundary fence, to a minimum height of 1.8 metres. The 1.8m fencing should be adjacent to the railway boundary and the developer/applicant should make provision for its future maintenance and renewal without encroachment upon Network Rail land. Network Rail’s existing fencing/wall must not be removed or damaged and at no point either during construction or after works are completed on site should the foundations of the fencing or wall or any embankment therein, be damaged, undermined or compromised in any way. Any vegetation on Network Rail land and within Network Rail’s boundary must also not be disturbed. Any fencing installed by the applicant must not prevent Network Rail from maintaining its own fencing/boundary treatment.

Lighting
Any lighting associated with the development (including vehicle lights) must not interfere with the sighting of signalling apparatus and/or train drivers’ vision on approaching trains. The location and colour of lights must not give rise to the potential for confusion with the signalling
arrangements on the railway. The developers should obtain Network Rail’s Asset Protection Engineer’s approval of their detailed proposals regarding lighting.

Noise and Vibration
The potential for any noise/vibration impacts caused by the proximity between the proposed development and any existing railway must be assessed in the context of the National Planning Policy Framework which hold relevant national guidance information. The current level of usage may be subject to change at any time without notification including increased frequency of trains, night time train running and heavy freight trains.

Vehicle Incursion
Where a proposal calls for hard standing area/parking of vehicles area near the boundary with the operational railway, Network Rail would recommend the installation of a highways approved vehicle incursion barrier or high kerbs to prevent vehicles accidentally driving or rolling onto the railway or damaging lineside fencing.

Network Rail strongly recommends the developer contacts AssetProtectionsSussex@networkrail.co.uk prior to any works commencing on site, and also to agree an Asset Protection Agreement with us to enable approval of detailed works. More information can also be obtained from our website at www.networkrail.co.uk/aspx/1538.asp.
Network Rail notes that there are a number of sites adjacent to the Railway and attach a standard response which sets out the issues that need to be considered. In particular with large new developments there is a concern about the risk of trespass and all new developments should have proper and suitable boundary fencing. The risk of greater flooding and drainage that new developments could potentially have on the Network Rail infrastructure and we would not want any increase of flooding or the increase in run off onto Railway Infrastructure.

The developer must ensure that their proposal, both during construction and after completion of works on site, does not:

- encroach onto Network Rail land
- affect the safety, operation or integrity of the company’s railway and its infrastructure
- undermine its support zone
- damage the company’s infrastructure
- place additional load on cuttings
- adversely affect any railway land or structure
- over-sail or encroach upon the air-space of any Network Rail land
- cause to obstruct or interfere with any works or proposed works or Network Rail development both now and in the future

The developer should comply with the following comments and requirements for the safe operation of the railway and the protection of Network Rail’s adjoining land.

All operations, including the use of cranes or other mechanical plant working adjacent to Network Rail’s property, must at all times be carried out in a “fail safe” manner such that in the event of mishandling, collapse or failure, no plant or materials are
capable of falling within 3.0m of the boundary with Network Rail.

Scaffolding
Any scaffold which is to be constructed within 10 metres of the railway boundary fence must be erected in such a manner that at no time will any poles over-sail the railway and protective netting around such scaffold must be installed. The applicant/applicant’s contractor must consider if they can undertake the works and associated scaffold/access for working at height within the footprint of their property boundary.

Piling
Where vibro-compaction/displacement piling plant is to be used in development, details of the use of such machinery and a method statement should be submitted for the approval of the Network Rail’s Asset Protection Engineer prior to the commencement of works and the works shall only be carried out in accordance with the approved method statement.

Fencing
In view of the nature of the development, it is essential that the developer provide (at their own expense) and thereafter maintain a substantial, trespass-proof fence along the development side of the existing boundary fence, to a minimum height of 1.8 metres. The 1.8m fencing should be adjacent to the railway boundary and the developer/applicant should make provision for its future maintenance and renewal without encroachment upon Network Rail land. Network Rail’s existing fencing/wall must not be removed or damaged and at no point either during construction or after works are completed on site should the foundations of the fencing or wall or any embankment therein, be damaged, undermined or compromised in any way. Any vegetation on Network Rail land and within Network Rail’s boundary must also not be disturbed. Any fencing installed by the applicant must not prevent Network Rail from maintaining its own fencing/boundary treatment.

Lighting
Any lighting associated with the development (including vehicle lights) must not interfere with the sighting of signalling apparatus and/or train drivers vision on approaching trains. The location and colour of lights must not give rise to the potential for confusion with the signalling
arrangements on the railway. The developers should obtain Network Rail’s Asset Protection Engineer’s approval of their detailed proposals regarding lighting.

Noise and Vibration
The potential for any noise/ vibration impacts caused by the proximity between the proposed development and any existing railway must be assessed in the context of the National Planning Policy Framework which hold relevant national guidance information. The current level of usage may be subject to change at any time without notification including increased frequency of trains, night time train running and heavy freight trains.

Vehicle Incursion
Where a proposal calls for hard standing area / parking of vehicles area near the boundary with the operational railway, Network Rail would recommend the installation of a highways approved vehicle incursion barrier or high kerbs to prevent vehicles accidentally driving or rolling onto the railway or damaging lineside fencing.

Network Rail strongly recommends the developer contacts AssetProtectionSussex@networkrail.co.uk prior to any works commencing on site, and also to agree an Asset Protection Agreement with us to enable approval of detailed works. More information can also be obtained from our website at www.networkrail.co.uk/aspx/1538.asp.
Network Rail notes that there are a number of sites adjacent to the Railway and attach a standard response which sets out the issues that need to be considered. In particular with large new developments there is a concern about the risk of trespass and all new developments should have proper and suitable boundary fencing. The risk of greater flooding and drainage that new developments could potentially have on the Network Rail infrastructure and we would not want any increase of flooding or the increase in run off onto Railway Infrastructure.

The developer must ensure that their proposal, both during construction and after completion of works on site, does not:
- encroach onto Network Rail land
- affect the safety, operation or integrity of the company’s railway and its infrastructure
- undermine its support zone
- damage the company’s infrastructure
- place additional load on cuttings
- adversely affect any railway land or structure
- over-sail or encroach upon the air-space of any Network Rail land
- cause to obstruct or interfere with any works or proposed works or Network Rail development both now and in the future.

The developer should comply with the following comments and requirements for the safe operation of the railway and the protection of Network Rail’s adjoining land.

Future maintenance
The development must ensure any future maintenance can be conducted solely on the applicant’s land. The applicant must ensure that any construction and any subsequent maintenance can be carried out to any proposed buildings or structures without adversely affecting the safety of, or encroaching upon Network Rail’s adjacent land and air-space, and therefore all railway building should be situated at least 2 metres (3m for overhead lines and third rail) from Network Rail’s boundary. The reason for the 2m (3m for overhead lines and third rail) stand off requirement is to allow for construction and future maintenance of a building and without requirement for access to the operational railway environment which may not necessarily be granted or if granted subject to railway site safety requirements and special provisions with all associated railway costs charged to the applicant. Any
less than 2m (3m for overhead lines and third rail) and there is a strong possibility that the applicant (and any future resident) will need to utilise Network Rail land and air-space to facilitate works. The applicant/resident would need to receive approval for such works from the Network Rail Asset Protection Engineer, the applicant/resident would need to submit the request at least 20 weeks before any works were due to commence on site and they would be liable for all costs (e.g. all possession costs, all site safety costs, all asset protection presence costs). However, Network Rail is not required to grant permission for any third party access to its land. No structure/building should be built hard-against Network Rail’s boundary as in this case there is an even higher probability of access to Network Rail land being required to undertake any construction/maintenance works. Equally any structure/building erected hard against the boundary with Network Rail will impact adversely upon our maintenance teams’ ability to maintain our boundary fencing and boundary treatments.

Drainage
Storm/surface water must not be discharged onto Network Rail’s property or into Network Rail’s culverts or drains except by agreement with Network Rail. Suitable drainage or other works must be provided and maintained by the Developer to prevent surface water flows or run-off onto Network Rail’s property. Proper provision must be made to accept and continue drainage discharging from Network Rail’s property; full details to be submitted for approval to the Network Rail Asset Protection Engineer. Suitable foul drainage must be provided separate from Network Rail’s existing drainage. Soakaways, as a means of storm/surface water disposal must not be constructed near within 10 – 20 metres of Network Rail’s boundary or at any point which could adversely affect the stability of Network Rail’s property. After the completion and occupation of the development, any new or exacerbated problems attributable to the new development shall be investigated and remedied at the applicants’ expense.

Plant & Materials
All operations, including the use of cranes or other mechanical plant working adjacent to Network Rail’s property, must at all times be carried out in a “fail safe” manner such that in the event of mishandling, collapse or failure, no plant or materials are
Scaffolding
Any scaffold which is to be constructed within 10 metres of the railway boundary fence must be erected in such a manner that at no time will any poles over-sail the railway and protective netting around such scaffold must be installed. The applicant/applicant's contractor must consider if they can undertake the works and associated scaffold/access for working at height within the footprint of their property boundary.

Piling
Where vibro-compaction/displacement piling plant is to be used in development, details of the use of such machinery and a method statement should be submitted for the approval of the Network Rail's Asset Protection Engineer prior to the commencement of works and the works shall only be carried out in accordance with the approved method statement.

Fencing
In view of the nature of the development, it is essential that the developer provide (at their own expense) and thereafter maintain a substantial, trespass proof fence along the development side of the existing boundary fence, to a minimum height of 1.8 metres. The 1.8m fencing should be adjacent to the railway boundary and the developer/applicant should make provision for its future maintenance and renewal without encroachment upon Network Rail land. Network Rail's existing fencing/wall must not be removed or damaged and at no point either during construction or after works are completed on site should the foundations of the fencing or wall or any embankment therein, be damaged, undermined or compromised in any way. Any vegetation on Network Rail land and within Network Rail's boundary must also not be disturbed. Any fencing installed by the applicant must not prevent Network Rail from maintaining its own fencing/boundary treatment.

Lighting
Any lighting associated with the development (including vehicle lights) must not interfere with the sighting of signalling apparatus and/or train drivers vision on approaching trains. The location and colour of lights must not give rise to the potential for confusion with the signalling
arrangements on the railway. The developers should obtain Network Rail's Asset Protection Engineer’s approval of their detailed proposals regarding lighting.

Noise and Vibration

The potential for any noise/vibration impacts caused by the proximity between the proposed development and any existing railway must be assessed in the context of the National Planning Policy Framework which hold relevant national guidance information. The current level of usage may be subject to change at any time without notification including increased frequency of trains, night time running and heavy freight trains.

Vehicle Incursion

Where a proposal calls for hard standing area/parking of vehicles area near the boundary with the operational railway, Network Rail would recommend the installation of a highways approved vehicle incursion barrier or high kerbs to prevent vehicles accidentally driving or rolling onto the railway or damaging lineside fencing.

Network Rail strongly recommends the developer contacts AssetProtectionSussex@networkrail.co.uk prior to any works commencing on site, and also to agree an Asset Protection Agreement with us to enable approval of detailed works. More information can also be obtained from our website at www.networkrail.co.uk/aspx/1538.asp.

2839/01/002/DM41.1/C Cllr Yvette Hopley London Borough of Croydon

Comment Soundness - Effective DM41.1

Whilst Sanderstead and Hamsey Green are grouped together as local centres. Sanderstead is a historic centre mentioned in the doomsday book of 1086 and warrants that note.

Welcome support

2839/02/002/DM41.1/C Cllr Yvette Hopley London Borough of Croydon

Comment Soundness - Effective DM41.1

Whilst Sanderstead and Hamsey Green are grouped together as local centres. Sanderstead is a historic centre mentioned in the doomsday book of 1086 and warrants that note.

Welcome support

2839/01/019/DM41.2/O Cllr Yvette Hopley London Borough of Croydon

Object Soundness - Justified DM41.2

Concerned about intensification of both Sanderstead village and Hamsey Green. Support appropriate development (such as Ken's Autos and McCarthy & Stone application) provided in line with planning. Area that could be intensified was site of the four properties on Addington Road rather than Onslow Gardens.

No change

The policy encourages very limited intensification complementing the existing character of the local centre in Hamsey Green.
Concerned about intensification of both Sanderstead village and Hamsey Green. Support appropriate development (such as Ken’s Autos and McCarthy & Stone application) provided in line with planning. Area that could be intensified was site of the four properties on Addington Road rather than Onslow Gardens.

The policy encourages very limited intensification complementing the existing character of the local centre in Hamsey Green.

The objection has not been substantiated in planning terms and cannot therefore be taken into consideration.

The Local Plan is required to allocate sites for development so it is not possible to remove this policy.

Local shopping parades are empty due to draconian parking charges Whitgift and Centrale are empty Office Blocks empty
We wish to promote 359-367 Limpsfield Road for a mixed use site allocation. The Site is within the jurisdiction of LB Croydon, in the southern part of the Borough. The boundary with Tandridge District Council is located approximately 50 metres to the south of the Site. The Site is also located within Hamsey Green Local Centre and the character of the surrounding area comprises a mix of uses, including retail/commercial uses and residential. The Site is occupied by two main buildings. The western portion of the site is currently occupied by a large unattractive two storey commercial building. We understand that this provides accommodation for Ken’s Auto MOT Centre, a car wash, car showroom and gym. The eastern portion of the site is occupied by detached bungalow with a large pitched roof and its associated garden. The Site is located within Flood Zone 1 and TfL’s website states that the Site has a Public Transport Accessibility Level (PTAL) 1b. The operator of the existing MOT Centre operation (Ken’s Autos) has a number of other similar operations within the area and, due to market competition, is proposing to consolidate these existing operations within their surrounding retained MOT Centres. The current operations do not generate sufficient custom to meet costs and this are partly as a result of the location of the site within a predominately suburban area. The existing commercial buildings have been constructed for a bespoke purpose and are not constructed to a modern day standard and are limited in terms of its flexibility to accommodate new types of operators. We consider that this severely limits to opportunities for securing an alternative commercial operator on the site, in the future. The site has physical constraints which are likely to limit its attraction for a commercial end user. This includes that the site does not form part of a larger industrial area and its proximity of existing residential properties including those which back onto the subject site from Audley Drive and Kingswood Lane. The type of commercial operator/function that would occupy this site is therefore likely to be restricted by this constraint on the basis that environmental effects (e.g. noise, dust, pollution, etc) that could have a detrimental impact upon surrounding amenity. It is considered that the existing buildings are not attractive and do not contribute positively to the appearance of the site should be allocated for a mixed use scheme of residential and commercial. The site will be included in the Proposed Submission draft of the Croydon Local Plan. A density range will be applied to the site of 10-22 residential units and 1-3 commercial units on the ground floor.
Hamsey Green and are not compatible with existing surrounding residential uses. We are aware that the existing LBC planning policy context seeks to resist the loss of employment uses (Policy SP3). However, we do not consider that this policy applies in this instance on the basis that the site comprises a ‘sui generis’ operation. Notwithstanding this, we understand that the site has been marketed for approximately 11 months (from January 2015) for industrial / warehouse uses (B use classes) without success and is continued to be marketed for these uses to establish if there is any emerging interest from this market sector. Prior to this the landowner has been trying to secure a new occupier for the site since January 2013 without interest from commercial operators. It is therefore considered that the existing site has limited scope for continuing to provide an employment function in the future. To maintain some form of employment function and job opportunities on this site this would be achieved through the construction of a mixed-use development where the residential element of the scheme cross-subsidises the construction of new commercial floorspace. This commercial floorspace would be built to a modern day standard and which is flexible to attract a variety of commercial operators. The site provides a good regeneration opportunity. We consider that the mixed-use redevelopment of the subject site would help to bring back this site into full use. This would include the reprovision of high-quality, flexible commercial floorspace which will more attractive the commercial operators in the future and therefore significantly improve the likelihood of providing long-term job opportunities on the site. It could also provide active commercial frontages within Hamsey Green Local Centre which contribute to the vitality of this Local Centre. The regeneration of the site for housing development provides the opportunity for the delivery of a range of new homes, including a proportion of affordable homes and family accommodation. The redevelopment of the site also provides the opportunity for a scheme of a high quality design which will contribute positively to Hamsey Green.

In our opinion, the mixed-use regeneration would provide a variety of planning benefits including:
- The replacement of unattractive buildings with a high-quality scheme which visually contributes to the surrounding area;
- A mixed-use scheme which is

Alice Desira

Object Soundness - Justified

DM41.3 306

Policy DM41.3, Table 11.14, site 306 (p171) says that retail can be built on the old Good Companions Pub site at the junction of Limpsfield Road and Tilgate Shaw Road. The traffic problem in Selsdon is a problem and this would just make matters much worse. There is no need for another supermarket in Selsdon. There is Sainsbury's and Waitrose and Tesco's in Purley, which is only a short drive away.

No change

The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

Andrea Telman

Object DM41.3 306

I totally disagree to the following planning applications which would spoil the character of our local environment and threaten our green belt. I choose to live in an area that is peaceful and quiet and resent the changes that are being forced upon me. In the spirit of true democracy I wish to make clear my objection to the following developments:

Policy DM2 (p18); Policy DM40.1 (p166); Policy 40.4, Table 11.3, Site 30 (p168); Policy 40.4, Table 11.3, Site 61 (p168); Policy DM41.3, Table 11.14, site 306 (p171); Policy DM44.2, Table 11.17, site 661 (p179); Policy DM44.2, Table 11.17, site 662 (p179); Policy DM28 (p115-116); Policy DM35, Table 11.8, Site 945 (p146); and Policy DM31.4 (p126)

No change

The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

Carly Litchfield

Object DM41.3 306

Objection to the policy. No further justification provided.

No change

The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

Christine Cafferkey

Object Soundness - Effective

DM41.3 306

Policy DM41.3, Table 11.14, site 306 (p171) says that retail can be built on the old Good Companions Pub site at the junction of Limpsfield Road and Tilgate Shaw Road. This site is owned by Lidl and has been the subject of a previous planning application by them. A Lidl or similar store on this site would cause traffic chaos.

This site should only be considered for tasteful residential development, and not for retail.

No change

The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.
1843/01/005/DM41.3/O Mrs A L Winkley
Object DM41.3 306 I object to Policy DM 41.3 table 11.14, site 306 No change The site will continue to be allocated in the Proposed Submission draft. Object Site 306, The Good Companions Public House, There needs to be a reduction in traffic movements from this site, and as such can the site cope with a mix of retail and residential.

No change The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

Comment Soundness - Justified

Site 306, The Good Companions Public House, There needs to be a reduction in traffic movements from this site, and as such can the site cope with a mix of retail and residential?

No change The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

Object It is outrageous that having had their application to build a store on the site of the Good Companions Pub declined, this issue is now back on the table. This is a classic situation of ‘money talking’ with absolutely no regard to the impact such a store would have on the local shops and community, let alone traffic chaos which is certain. If this goes ahead the local businesses and character of the area will be destroyed.

No change The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

Object The Good Companions site is already a traffic nightmare. With hundreds of children travelling to schools in Tithe Pit Shaw Lane mixing with lorries and general traffic to and from the M25 the last thing we residents need is extra activity from a Lidl supermarket. We are already served by Sainsbury’s, Waitrose and two Co-ops we have no need for any more large food outlets. Neither do we want our already over-parked side roads filled up with even more shoppers vehicles. Surely the Good Companions space would be better filled by residential development since there is such a great need for new housing.

No change The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.
I understand that the following Policies will threaten our green spaces. I was born in Croydon and have lived in this area all my life (I am now 63). My parents came here from Scotland in the early 1950s. They chose this area specifically for its green spaces and it is quite unique in that facility. I spent more than 35 years in Real Estate in this area and know very well that the reason people continue to move here, is exactly for those facilities and yet remaining within easy reach of other amenities, London, the coast and airports. Of course, more housing is required but I believe the alternative suggestions to these proposals to be very valid and much more in keeping with the neighbourhood thus maintaining its attractiveness and good standard.

These proposals are ill conceived and will change this particular neighbourhood beyond all recognition and take away that for which it is well known and valued. Please hear the voices of people like me and do NOT continue with the proposed policies set out below and which can be found in your Local Plan

5. Policy DM41.3, Table 11.14, site 306 (p171) This site should only be considered for tasteful residential development, and not for retail.

I wish to add my objections made on this document by our local M.P. Chris Philp.

DM41.3
306

I am writing to object to Allowing retail development at the junction of Limpsfield Road and Tithepit Shaw Road as detailed in Policy DM41.3, Table 11.14, site 306 (p171)

This site is owned by Lidl and has been the subject of a previous planning application by them which was refused by the council and the subsequent appeal dismissed due to traffic safety concerns. This site should only be considered for tasteful residential development, and not for retail.

DM41.3
306

The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.
3003/01/004/DM41.3/O Mr John James Object DM41.3 306 I would like to register my objection to DM41.3, Table 11.14, Site 306 (Sanderstead "Lidl" Site) No change The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

3004/01/004/DM41.3/O Mr John Pewtress Object DM41.3 306 The Good Companions site (now owned by Lidl) should not be developed as a supermarket unless ample parking, access and exit facilities can be provided. Congestion will kill the area and other local businesses. No change The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

3046/01/006/DM41.3/O Stephanie Lawson Object DM41.3 306 I object to a proposal to build retail on this site as it will have a negative impact on traffic and cause congestion and traffic chaos. I believe this site should only be considered for residential development that are in keeping with the local area and should not be used for retail. No change The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

3081/01/005/DM41.3/O Mr John Morgan Object DM41.3 306 Policy DM41.3, Table 11.14, site 306 (p171) says that retail can be built on the old Good Companions Pub site at the junction of Limpfied Road and Tilhept Shaw Road. This site is not suitable for retail as determined during the last planning application due to road safety issues. It should be designated residential only. No change The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.
Mr Paul Gomm
Object DM41.3 306
please note my objection to the following policy reference numbers within your current draft plan for planning & development; No change The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

Mr James Clarke
Object DM41.3 306
"Lidl" site at Hamsey Green DM 41.3 Building another retail outlet here is nothing short of insane. There are 4 similar businesses within half a mile of this site and the traffic problems that will be caused does not bear thinking about. No change The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

Mr Stephen Woodward
Object DM41.3 306
We have lived in Sanderstead for over 40 years, and have thoroughly enjoyed the areas to the south of Croydon being unspoilt. In our view these ill conceived proposals will change this area beyond recognition and take away that for which it is well known and valued. Please rethink, and do not continue with the proposed policies set out below and which can be found in your Local Plan: Policy DM41.3, Table 11.14, site 306 (p171) This site should only be considered for tasteful residential development, and not for retail. No change The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

Sheila Wicks
Object DM41.3 306
I am against this site as a use for retail. Traffic is nose to tail every day in front of this site in the rush hours and when the schools turn out. The proposed site of retail would kill the local shops. Build houses on the site of good quality that would blend in with the local ones already there, but please add doctor facilities in the build or nearby. No change The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.
3201/01/003/DM41.3/O Sharon Smith

> > Policy DM44.2, Table 11.17, site 661  
> > Loss of Green Belt – (1) Coombe Playing Fields, (2) Croham Hurst, (3) Sandenstead Plantation  
> > The Coombe Playing Fields, currently Green Belt, are being proposed for development in Policy DM44.2, Table 11.17, site 662  
> > Lack of Parking in new developments  
> > Policy DM28  
> > More Protection; Less "Intensification"  
> > Policy DM31.4  
No change
Mr William Wheeler  
Object: This proposed development has been previously refused and Lidl’s new proposals will not overcome the dangers involved with traffic and proximity to schools in the vicinity. The site should be reserved for a small residential development.

No change

Mr Matthew Dickson  
Object: Putting a supermarket in this site will make an already difficult traffic situation almost impossible. The Limpsfield Road forms part of my drive to work in Whyteleafe; I drive south in the morning. In the opposite direction going north the traffic is usually queuing from this site all the way to Sanderstead roundabout and it goes past 2 primary schools. The traffic is also very congested on Tithe Pit Shaw Lane going past a primary and then a secondary school. The entrance and exit to a supermarket will make this almost gridlocked both in the morning rush hour and then from 3pm when the schools finish. All the extra traffic fumes will be bad for the children. I think the most suitable development for this site is retirement flats.

No change

Mr Richard Brandwood  
Object: Policy DM41.3, Table 11.14, site 306 (p171) - this site should be reserved for suitable housing only - there is a crying need for it - NOT a retail store!

No change

Mr David Dudman  
Object: 5) policy DM41.3 Table 11.14 site 306 p171 proposed retail development on old Good Companions Pub site. A retail store would cause traffic chaos in this area and I think residential development more suitable.

No change
Mr Ron Thomas
Object  Soundness - Justified  DM41.3 306
I object to the following ridiculous proposals...
Policy DM41.3, Table 11.14, Site 306 (p171) I have always objected to a Lidl on this site. Traffic, schools, and the destruction of our community are all valid reasons to say NO NO NO!

No change
The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

Joy Gadsby
Object  DM41.3 306
I strongly oppose the building of another supermarket in the area. We already have Waitrose, two Sainsbury's, a Tesco at Purley and a Co-op in Hamsey Green - all of which are accessible by local public transport or have their own car parking facilities. I think they already have enough competition and the effect on traffic congestion and emissions from yet more cars would increase the present problems far more than, for example, housing.

No change
The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.
Mr A Coxe  
Object  
DM41.3  
306  
We also do not need another supermarket in Sanderstead the Limpsfield Road is extremely congested especially during rush hour, the proposed site for a Lidl would cause chaos and would be extremely dangerous as there are schools in such close proximity, it is time children’s safety is put before financial rewards for large companies.  
No change  
The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

<td>02 September 2016</td>
<td>Mr Dennis King</td>
<td>Sanderstead Residents' Associatio</td>
<td>This proposed development was rejected by the Government’s Planning Inspector when Lidl went to appeal having previously having their scheme rejected by both Croydon Council and Surrey County Council. This was not on the grounds of Lidl’s shop design, but the dangerous use of delivery vehicles having to cross two lanes of Limpfield Road to gain entry and exit to the shop. The recent purchase by Lidl of two adjoining properties in Tithepit Shaw Lane is an indication of their wish to proceed with the scheme encouraging the Council to support the application by the provision of possibly social housing flats above the shop. The site has already been rejected by the Planning Inspector for safety reasons, particularly because of hundreds of children using the area. The safety of the children is paramount and any retail proposal should be rejected which puts their lives in danger. The 2 acre site is ideal for housing and should be used for that much needed purpose.</td>

Comment
Soundness - Justified

DM41.3 Site 306, The Good Companions Public House, There needs to be a reduction in traffic movements from this site, and as such can the site cope with a mix of retail and residential?

No change

The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

Mr J Logan

Object

DM41.3 I am also opposed to the building of yet another supermarket in Tithepit Shaw Lane in Hamsey Green, an area which is totally unsuitable for such a development due to existing traffic problems. Another public house with additional small shops, or even new housing would be far more acceptable.

No change

The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

Mrs J McDonald

Object

DM41.3 Nothing should be allowed that will encourage traffic chaos, location is totally inappropriate for this and it should be a residential development, not retail.

No change

The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

Mr J Nolan

Comment

DM41.3
306

Site 306, The Good Companions Public House, there would need to be a reduction in traffic movements from this site in order for it to cope with a mix of retail and residential;

No change

The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

Joan Sabatini

Object

DM41.3
306

This policy appears to allow the site of the old Good Companions Pub to be re-developed. As the current owners are Lidl it is assume they or a similar store owner may apply for planning permission. I strongly object to this site being developed for a retail store as this would lead to a huge peak increase in traffic. This is an ideal site for residential development.

No change

The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

Mr Peter Spragg

Object

DM41.3
306

Policy DM41.3, Table 11.14, site 306 (p171) says that retail can be built on the old Good Companions Pub site at the junction of Limpsfield Road and Tithepit Shaw Road. This site is owned by Lidl and has been the subject of a previous planning application by them. One of the main tenets of the refusal to permit planning, was the increased traffic generated by such a retail development. It would appear therefore counter intuitive for a Lidl style or similar store on this site to receive planning permission. Residential development may well be the appropriate development of choice for this site rather than retail.

No change

The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

Mr Brandon Hannan

<tr>
<td>02 September 2016</td>
<td>Mr Jon Taylor</td>
<td>DM41.3</td>
<td>It is with regret that I feel the need to object to the following proposals:- Purley skyscraper Policy DM40.1. I feel this proposal is completely out of keeping with the surrounding area and I strongly oppose it. Garden acquisition Policy DM2 This will make ‘garden grabs’ far too easy in my opinion, is far too subjective and is therefore a far weaker form of protection. Sanderstead Lidl site Policy DM1.3 This proposal will likely cause real problems to traffic in the vicinity and I do not it is an appropriate site for retail development. Loss of Green Belt at Coombe Playing Fields and Croham Hurst Policy DM44.2 I believe that both of these locations should remain Green Belt and that re-designation is inappropriate. It will impact the area badly and in conjunction with other changes steadily change the nature of the area for the worse. The Gypsy/Traveller site on Conduit Lane Policy DM44.2 Finally I most strongly object to Council plans to develop a Gypsy/Traveller site here. I feel it is totally inappropriate placing this on Green Belt land and is in direct contravention of the “Planning Policy for Traveller Sites” published by the Government just last August!</td>
<td>No change</td>
</tr>
</tbody>
</table>
The residents in the area have made it clear that a retail facility is not required and would cause traffic issues in an area that is used by many school children. I object to the option of designating the site for retail use.

No change

The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

I notice that in your Local Plan for development of the area there are several proposals which deserve reconsideration before they are promulgated. 3 Old Good Companions site. Policy DM41.3 Table 11.14 site 306, Lidl and Aldi seem able to get away with destroying local amenities, often without permission,(cf The Red Lion site in Coulsdon), then eventually gaining acquiescence for their original plan with a few minor modifications. How do they achieve this? The chaos in Coulsdon, right on a roundabout, will be replicated in Hamsey Green on a very busy road junction. I would suggest that within 10 years if not 5 Aldi will obtain permission to turn their car park into a private one instead of a public one in direct contravention of their planning permission.

No change

The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

Lidl Site in Sanderstead – completely the wrong location for a large retail facility. The road system there could not cope with extra traffic and the numerous attempts at entering and leaving such a site. Health and safety should be the priority.

No change

The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

I sincerely hope that my objections will be noted. I have lived in this borough for many many years and I hate seeing it gradually destroyed.

No change

The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.
Object DM41.3 This should not be classed as a retail site. There would be traffic chaos. This is already a busy area. To add more retail outlets would be overkill for the community.

No change The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

Object DM41.3 Hamsey Green "Lidl" site Policy DM41.3, Table 11.14, site 306. This site is not appropriate for retail development but should be considered as residential instead.

No change The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

Object DM41.3 Policy DM41.3, Table 11.14, site 306 (p171) says that retail can be built on the old Good Companions Pub site at the junction of Limpfield Road and Tithepit Shaw Road. This site is not suitable for retail as determined during the last planning application due to road safety issues. It should be designated residential only.

No change The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

Object DM41.3 Below is a list of our objections:

5. Policy DM41.3 - Development of a new Lidl store - we strongly oppose these plans. Opening a new Lidl store on site will intensify traffic causing chaos on roads which are not ready for such volume. There are currently enough shops in the area (including Waitrose) and there are numerous large shopping and supermarket facilities nearby (Superstore Sainsbury's in Selsdon, Aldi in Selsdon, another Sainsbury's in Warlingham).

No change The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.
Policy DM41.3, Table 11.14, site 306 indicates retail development on the old Good Companions Pub site at the junction of Limpfield Road and Tithepit Shaw Road. A large store on this site will cause traffic chaos and damage the existing local shopping.

No change, The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

Policy DM41.3: The site owned by Lidl in Sanderstead should be for housing development, not a superstore that would cause great traffic problems in the area.

No change, The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

The arguments against a Lidl site still stand and it is unacceptable that we have to keep objecting to the idea because they tweak the application. There are schools in the area and the resulting extra traffic generated by having a Lidl on the site would be a danger to the children of the area. People must come before business.

No change, The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

The Good Companions Public House, There needs to be a reduction in traffic movements from this site, and as such can the site cope with a mix of retail and residential;

No change, The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.
3906/01/002/DM41.3/O Mr & Mrs Blissett  
Object: Soundness - Justified  
DM41.3 Table 11.14 site 306. This site is more suitable for residential development, or mixed used development such as residential accommodation over 'A' uses classes.  
No change: The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

3941/01/005/DM41.3/O Mr Frances Sell  
Object: DM41.3  
306  
No more supermarkets required, a very large one exits nearby. Supermarkets are now being closed, not new built. If built serious transffic congestion would arise, it is serious now.  
No change: The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

3960/01/004/DM41.3/O Mrs R Jennings  
Object: DM41.3  
306  
Policy DM41.3 table 11.14 - Sanderstead Lidl site should be kept for residential development only. The proposed commercial development would cause traffic chaos.  
No change: The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

4014/01/003/DM41.3/O Mr R Swatton  
Object: DM41.3  
306  
Policy DM43.3 (note: policy reference is incorrect in representation) Table 11.14 Site 306  
This site should only be considered for residential development or possibly additional schooling?  
No change: The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.
Ms S Lawson: I object to a proposal to build retail on this site as it will have a negative impact on traffic and cause congestion and traffic chaos. I believe this site should only be considered for residential development that are in keeping with the local area and should not be used for retail.

Mrs Shelley Chatter-Singh: This development will create unsafe traffic flows in the immediate area.

Valerie Wilshaw: I object to the proposal.

Valerie Wilshaw: I object to the proposal.
4095/01/006/DM41.3/O Vaughan Pomeroy
Object DM41.3 306 The use of the former Good Companions site continues to be problematic. It is not conducive to anything requiring heavy vehicle access which probably restricts sensible use to residential with limited entry points as far away from the main road junction as possible.
No change The site will continue to be allocated in the Proposed Submission draft. Any development of the site would be required to satisfy all other policies of the Local Plan which would include those which consider traffic generation and management. It is considered appropriate for both retail and residential uses.

I am sad to find these intentions of new housing heavily and one-sidedly impacting Shirley and Addington, but I must especially emphasise that with every new housing public transport has to be increased to adequate. I would propose to consider extending tramlink to Shirley as the area in between is poorly covered, before it is built up even more. Perhaps a new tram line ending via Ashburton fields, or from Elmers end to Addington. I am near Edenham school and the only bus 367 is a joke. Please develop the tramlink as London is expanding south then people would be more happy.

I would propose to consider extending tramlink to Shirley as the area in between is poorly covered, before it is built up even more. Perhaps a new tram line ending via Ashburton fields, or from Elmers end to Addington.

No change

Extension of the tramlink to Shirley has not been put forward by TfL. Should TfL consider this an option, the Council will work with TfL at such time.
To supplement the details set out within Table 11.16, which identify potential sites allocated for development, the Council has also produced a detailed proposal document; setting out for each site a reference number, postcode, description, local character area designation, location, public transport accessibility, description of option, justification for option, phasing of development, evidence of deliverability and the number of homes proposed. However, the detailed proposals document fails to provide empirical evidence that justifies:

- how the Council arrived at identifying these specific sites, especially in light of the policies set out in the National Planning Policy Framework, the population of the Borough (being the most populous in London) and the projected population growth expected by 2036;
- how the Council arrived at the number of homes/units proposed per site;
- the proposed use of the sites (i.e. residential development, gypsy and traveller site, retain existing use); and
- how the Council is tackling the housing need for the Borough and specifically how Shirley can play its part in delivering development requirements.

It is requested that in order to be considered as ‘sound’ the emerging Local Plan should address the above matters, and provide evidence on the deliverability of each of the proposed sites. Moreover, it would be helpful if Table 11.16 clearly sets out the proposed yield from each of the emerging sites.

Notwithstanding the above, the Council’s proposed allocated sites for development in Shirley need to be clearly laid out on a Borough-wide proposal’s map. As it currently stands, the Croydon Local Plan: Detailed Policies and Proposals (Preferred and Alternative Options) provides inset maps of the sites, however, this does not make it easy for the reader to identify exactly where the sites are in the broader context of the Borough.

A draft Policies Map will accompany the Proposed Submission draft of the Local Plan. Housing numbers will not be included within Table 11.16 themselves as this will make them part of the policy but a schedule will be included in the back of CLP2 with details of all the proposed allocations.

I’d like to know more about the proposed building on Shirley Oaks Village please.

The representation does not specify any particular document or policy and therefore this comment is considered as not duly made.

<td>Once again it would seem that you regard the South of the Borough as fair game, and we are a bit fed up of being regarded as the &quot;cash cow&quot; for the Council. Many people in the South are worse off than those in the North of the Borough, but appear to be penalised the most. I agree with all the concerns put forward by Chris Philip our MP, but have only listed those which personally affect me, and about which I have some knowledge - ie Lidl development at Hamsey Green - words fail me that you should ever consider such a scheme, but again it would seem that the South of the Borough is regarded as unimportant and just a resource to be exploited. As a rider, can I suggest that one way to save money is to cut paper work and thereby halving the number of Council employees earning more than £50,000 a year, with ridiculous sounding titles, and reducing salaries of all the Senior Executives. A lot of money could be saved by adopting this policy, particularly in the long term. You may then be able to reconsider redevelopment requests more sympathetic to local residents. No change</td>

Mrs Marilyn Arbisman

Object DM43.4

I do not have a Policy number for it, but I also understand that there is talk of Compulsory Purchasing of land and property in the private village of Shirley Oaks. I sincerely hope that this does not go ahead.

No change The Local Plan does not seek to Compulsory Purchase Order any land at this time, nor is it the purpose of allocating land. If sites are not developable they are not considered deliverable and cannot therefore be allocated within the Local Plan.

Mr Bob Sleeman

Object DM43.4

128

I am therefore writing to formally object to:

- the use of the following five sites for housing:
  - land at Poppy Lane reference number 128;

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Addiscombe Residents Association

Object DM43.4

128

If the Council will not keep them as Metropolitan Open Land, the five sites should at least be designated as Local Green Spaces and not used for housing.

No change The site should be Local Green Space. The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
I am therefore writing to formally object to:

1. de-designation of the Metropolitan Open Land around Shirley Oaks Village;

2. the use of the following five sites for housing:
   - land at Poppy Lane reference number 128;
   - Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
   - land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
   - land to the west of Shirley Oaks Road reference number 542; and
   - land to the rear of 5-13 Honeysuckle Gardens reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

A Arbysman

Object DM43.4

128

I hereby inform you of my STRONG OBJECTION to allow development on the land noted on your Policy Map 43, Ref 541; Ref 542; Ref 548; Ref 128; Ref 504. This land forms the reason why I, along with the majority of my neighbors purchased our homes. As freehold property owners we each have a shareholding in the company owning the land and do not wish for this OGLR land to be built on. We also find it unbelievable that the Council wishes to have a legal battle against 800 of its residents who not just own the land but are determined that the land keeps its Metropolitan Open Land protected status. The idea of building on these main green spaces when the existing houses were built with minimal sized gardens is disastrous, such development would obviously not just spoil the look and value of the area but would damage the health of the residents. This is the land where the residents catch the summer sun, go for walks, jog, children play, and has the most amazing natural wildlife that we all enjoy.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Balvir & Shobhna Patel

Object DM43.4

128

I as resident of Shirley Oaks Village am against any change of our Metropolitan Land (with protection to being built on) being allowed as acceptable for development. I have been living in the Village for almost 30 years and paying for this land to be maintained as grass areas. We own the land as shareholder in our management company (Once designated as Amenity Open Land and transference to our Management company). I strongly oppose any moves to develop on these grass areas.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Colin Ward

Object DM43.4

I am writing to express my objection to the planning proposals in the Shirley Oaks area. The land has been set aside for our use as we have very undersized gardens on the estate and we have also paid to keep those areas in a well maintained condition. The road around Shirley Oaks only has 2 exits as well, so would make it very congested as there are only 2 options for traffic to leave and enter and there are already a lot of problems at the Wickham Road end as people drive in and out. I object to the following Ref Numbers; Ref 541; Ref 542; Ref 548; Ref 128; Ref 504.

Re your development plans 541,542,548,128 and 504. Consultation. I am writing in response to your notices for development of the greenfield sites on the Shirley Oaks Village estate, changing the status of this land to allow development of around 700 new homes. When I bought my house here 18 years ago, it was on the understanding that this had been designated by Croydon Council as metropolitan amenity open land, an attractive feature of the original development, important not least due to the relatively small gardens of some properties, a mixture of unit sizes in an harmonious design. Thus there is a mixture of family unit sizes and age groups at home here. For many years, I and my fellow-resident members of the Shirley Oaks Management Ltd company have contributed regularly to First Port Property Services and their predecessors under our common upkeep obligation, including provision of boundary posts at various points of these areas to ensure that visiting Travellers could not reoccupy them. As I understand your plans, you now wish to “designate” this as non-metropolitan land, on which purchasers could build however suits their purposes. This does of course risk a complete change in the nature of our Village. I cannot pretend to understand how you can effectively cut a swathe through all of this, even if you do consider it justified. Some residents might I imagine now be considering the impact on their original investment and individual legal aspects. Against these general considerations, I would like to highlight some specific and practical concerns at the outset.

ROAD SAFETY

The perimeter road via Primrose Lane and Shirley Oaks Road is arguably no longer fit for purpose, increased car ownership and parking, fast through traffic including commercial and public transport all contributing. Buses on the 367 route for example frequently mount pavements to pass each other. There have been accidents, some serious, even fatal and involving elderly pedestrian residents. The road surface is nowadays subject to excessive heavy usage. Clearly, 700 new homes will surely accentuate these problems and dangers.

ENVIRONMENT

Your plans will effectively remove an important green-field area and with it much unique wildlife. Residents will lose many of the valuable areas for walking, exercise and fresh-air, as will visitors. Any balanced village...
appearance and community feel to the estate will be consumed by so many new properties of different designs. In summary many will surely feel betrayed by a Council which proposes removing green-fields against all promises. Some might also suspect that, whatever the social arguments, their interests are being sacrificed against political and ultimately commercial imperatives.

<td>1713/02/002/DM43.4/O Alison Connor</td>
<td>Once the area surrounding Shirley Oaks Village is re-designated the Council plans to build 751 homes on 5 separate sites. Supposing the average house is for 4 people, 3000 people in total will move to the area. The housing will attract families - potentially half being children. The Council mention no where in their 700 page document about the building of new schools (primary and secondary) nor the building of doctor surgeries, nor the expanding of the local shopping area let alone the already stretched local road infra structure. Our local area can't cope as it is - St John's primary school has applied for an extension to cope with the current demand on its places. During rush hour buses frequently don't stop at bus stops because they are full. Traffic is often diverted down our road, Shirley Church Road, if there is an accident on Wickham Road or Gravel Hill. The dual carriage way (Shirley Park) is crawling along during rush hour. The council are planning to add another 1000 plus cars to this equation. Shirley is often described according to estate agents as leafy, popular, excellent schools. Prices reflect this. Just walking around the area people look after their houses and take pride in living here. People pay more money to live in this area. By building 751 more homes the character of the area will change completely.</td>

We are also writing to object to Croydon Council’s plans to de-designate the Metropolitan Open Land on either side of Shirley Oaks Road and all around Shirley Oaks Village, changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Your draft Local Plan identifies five sites:
1. the land at Poppy Lane is identified as suitable for 51 to 107 homes (pages 445-446, reference number 128);
2. Stroud Green Pumping Station, 140 Princess Lane, including the conversion of the locally-listed pumping station, is identified as suitable for 26 to 68 homes (pages 451-452, reference number 504);
3. land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 80-215 homes (pages 453-454, reference number 541);
4. land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455-456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542);
5. land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes (pages 457-458, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 548).

No change
The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

As a resident of Shirley Oaks I am writing to object the proposals for housing development on the estate and surroundings. Having lived in Shirley all of my life I would be deeply disappointed to see it change unrecognisably. I envisage the property on Shirley Oaks Road will either be demolished or surrounded by high density housing. Either eventuality will be highly detrimental.

Objection to Site 128,

No change
The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Peter Docherty  
Object Soundness - Justified  
DM43.4  
128  
I am writing to object to: 1. THE DESIGNATION of the following five pieces of land as Metropolitan Open Land around Shirley Oaks Village and their proposed use as housing: 1.Land at Poppy Lane reference number 128; 2.Stroud Green Pumping Station, 140 Primrose Lane reference number 504; 3.Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541; 4.Land to the west of Shirley Oaks Road reference number 542; and 5.Land to the rear of S-13 Honeysuckle Gardens reference number 548. There is only one narrow very winding road which runs through the village and this could not cope safely with any additional traffic. It is single file around bends as it is and the local road infrastructure would be over-burdened. These open spaces are collectively designated as Metropolitan Open Land and it would be unacceptable to lose a link to this chain. Additionally, this area is a flood plain and there is a sink pond to the rear of Honeysuckle Gardens. There would be a detrimental effect and potential flooding of existing and planned properties. The land at Poppy Lane reference number 128 is a small parcel of land and behind it is the sink pond. If the sink pond overflows then there is a risk of flooding in any new and existing properties which include the BMI Shirley Oaks Hospital below it. 
No change  
The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
I am writing to voice my full-throated objections to the above proposals because of the imparable damage it would do to the character of one of the leafier, more pleasant, parts of the borough. The council seeks de-designation of Metropolitan open land that, as a homeowner in Shirley Oaks Village, I own a share of, and it is protected by covenant. Such thoughtlessly destruction of our precious little green space (we were granted this Amenity Open Land in 1985 by the council due to our under-sized gardens) is obnoxious, ill-conceived and damaging to the value of our properties, as planning blight could linger for a decade. Myriad other neglected parts of the borough are far more appropriate for such massive development and would not stir up so much ire from the current residents, nor would they require the politically-expedient moving of goalposts regarding land use. Our village simply does not currently have the infrastructure nor the capacity to expand in order to cope with these proposals. There is barely enough parking space available in the village at present, so quite where up to 683 other families will park and seek recreation, I do not know. Quite how all the construction vehicles involved in such huge building works would access the proposed sites without further detriment to the quality of life of the residents is another issue I raise. We are served by one bus route that can only use small, single decker buses. The roads are too narrow for larger vehicles. How would this be overcome? Additionally, the fact that the council would seek to house the travelling community so close to the town centre, on land where in 2012 a group of them set up an illegal encampment and defecated in our woodland, beggars belief. If the council has an inexplicable legal obligation to designate land to travellers, then expand capacity at their existing sites in Beddington Lane and Featherbed Lane rather than dispersing them further across the borough into otherwise salubrious areas. I do hope that common sense prevails and that all five of the above proposals are quickly abandoned. I chose to live in this area precisely because it is not blighted by these hideous developments. I am sure that many other residents echo my sentiments.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
I object to the de-designation of Metropolitan Open Land in the vicinity of Shirley Oaks Road and Shirley Oaks Village. The land should be at least be designated as Local Green Space, for its protection from development. This open space provides a green corridor between Shirley Oaks and the surrounding areas, and should be retained in its present form. I also object to the following specific proposals for the building of new homes on this site, as detailed in Changes to the Policies Map arising from Proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan, Detailed Policies & Proposals:

- Policy DM43, reference Site 128 to build new homes at Poppy Lane
- Policy DM43, reference Site 504 to build new homes at Stroud Green Pumping Station (including the conversion of the pumping station which is a locally-listed building)
- Policy DM43, reference Site 541 & 542 to build new homes on land to the East & West of Shirley Oaks Road
- Policy DM43, reference Site 548 to build new homes on land to the rear of Honeysuckle Gardens

Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the local schools are over-subscribed as well as the already-stretched social and healthcare facilities would be overloaded.

For the reasons given above:
1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability to meet the needs of future generations.
4. I recommend that consultation documents of such importance are given much wider publicity.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
Station (including the conversion of the pumping station which is a locally-listed building)
Policy DM43, reference Site 541 & 542 to build new homes on land to the East & West of Shirley Oaks Road
Policy DM43, reference Site 548 to build new homes on land to the rear of Honeysuckle Gardens
Mr C Johnson

Object DM43.4

128

This land is owned by Shirley Oaks Management Limited (SOML). This is the management company for the estate whose shareholders are the home owning residents. SOML owns and manages the open spaces on behalf of and for the benefit of the residents for whom the land is ‘amenity open land’, i.e. communal, recreational space. The land was transferred to SOML’s ownership in 1985 whilst the estate was under development. I believe that the developer had infringed planning regulations by reducing the sizes of the gardens included with the dwellings that it was building in order to increase the density of the housing beyond that which had been agreed with the local planning authority. The open land, which is currently being scrutinised as part of the Council’s policy proposals review, was effectively a penalty levied on the developer whereby an amount of green space was given over to SOML to own and manage as redress and compensation to the residents for skimping on the sizes of individual gardens. I am assured by a Director of SOML that the company has documentary proof of all of the above points. The residents pay a service charge that, inter alia, covers the cost of managing and maintaining these open spaces. SOML is bound by its covenants with the residents that this land shall be managed and maintained as communal open areas for the collective enjoyment and benefit of residents as long as the estate should be in existence. Thus, there is no scope on SOML’s part for participating in any effort to develop these spaces and any attempt to develop them undermines the importance of those spaces in providing amenity open land, as previously ordered by the local Council.

I have just read a letter from Mick Hewish, Resident Director of Shirley Oaks Management Ltd and I would like to object to the proposals for developing areas around Shirley Oaks. These are as follows: Ref: 541 Shirley Oaks Road East side; Ref: 542 Shirley Oaks Road West side; Ref: 548 Land rear of Honeysuckle Gardens; Ref: 128 Poppy Lane; Ref: 504 Water Board HQ Primrose Lane.

The high density of new homes would put considerable strain on the environment, including overcrowding, drainage, traffic and parking.

Objection to the allocation of site 128, Poppy Lane for proposed development as the high density of new homes would put considerable strain on the environment, including overcrowding, drainage, traffic and parking.

I strongly object to many of the proposed developments within the Shirley area. I believe that allowing low rise developments around Shirley library will alter the balance of properties in that area, which are mainly detached and semi detached. People have moved to this 'sought after area' precisely because of its current character. I also object to the intensive developments proposed on the Metropolitan open land around Shirley Oaks. We need open land to reduce carbon emissions, for wildlife and for our own well being. Both of the above developments would put a huge strain on the services in the area, schools, doctors, busses and the already congested road system. I urge you not to progress with these proposals.

I also think that the two proposed travellers site in Shirley are inappropriate as they would be on Green Belt land, which is against your own policy and would be a blight on one of the few areas that are beautiful and wildlife friendly within Croydon.

I am always defending Croydon to those that mock it, saying that we have some lovely open spaces in which to walk and enjoy the diversity of nature. They only see the high rise blocks and litter. If these proposals go ahead, Croydon will have nothing left to commend itself.
Site 128, Land at Poppy Lane, is identified as suitable for 51 to 107 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would totally change the character of the area and have a great impact on the local road infrastructure impacting Woodmere Avenue and Woodmere Gardens.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

1942/01/002/DM43.4/O Margaret West

Object DM43.4 128

Object to the de-designation of Metropolitan Land and proposed use for housing at sites 128 504 502 541 542 and 548. If development is allowed it will impact on the sense of community and have an adverse impact of trees and could be subject to flooding. It would also impact on access arrangements and the wildlife.

No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

1954/04/01/DM43.4/O John Coppard

Object DM43.4 128

This land was designated by Croydon Council in 1985 as “Amenity Open Land” because of our under-sized gardens & transferred to a Management Company, with each property owner as a shareholder in that company.

If the council will not keep it as Metropolitan Open Land it should at least be designated as Local Green Space.

No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

DM43.4

128

Shock at the scale of proposals for Shirley and will fundamentally change the nature of the area. Front gardens are an asset to the local street scene. The proposals for focussed intensification associated with gradual change of an areas local character under Policy DM31.4 put this stability at risk, and may have an impact on the services we all need from the Council. Object to the de-designation of MOL - at a minimum it should be designated as local green space. We object to this site being used for residential use as it would change the character of the area, overload the already difficult local road structure. It would damage the vital green corridor between Shirley Oaks and the surrounding areas and reduce the habitat for wildlife.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

I have just received a letter about proposals to Shirley Oaks Village open land being built upon. We have lived here happily for 15 years. We want to say we don't want houses or a gypsy site down the road. I will be writing to my local MP Gavin Barwell to defend our way of life in Shirley Oaks Village. Leave our open / green spaces alone.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

---
The proposal to build new houses in Poppy Lane does not fall within the Strategic Objectives because:

Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise.

Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.

Objective 5: This development is not high quality and will not enhance the borough’s natural environment but will reduce the natural environment by turning a green area into housing.

Objective 7: This development will reduce the area as a safe, healthy and cohesive community but making the area overcrowded with residential property.

Objective 10: This development will reduce the quality and accessibility of green spaces and nature.

If this development is undertaken it will not deliver the strategic objective. This development will compromise the ability of future generations to meet their own needs.

The development will change the outlook and community within the South Croydon area and future generation will suffer because of this.

This proposed development of new housing in Poppy Lane is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in the area.

Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area.

Building a travelers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area.

Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions.

This development would diminish the area of green fields and recreational land within the area.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
Site 128, Land at Poppy Lane, is identified as suitable for 51 to 107 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Woodmere Avenue and Woodmere Gardens.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

2131/01/001/DM43.4/O Ronald H. Street

Object DM43.4

I am emailing to object to the following proposal ref 128. If the Council will not keep the land as MOL it should at least be designated as Local Green Spaces. I am particularly concerned about the effect of local roads that the suggested development will have as, when Heron Homes built the original development some years ago they were prevented by the local council form building the number of houses now proposed because of inadequate access roads onto the estate. Under present conditions the A232 Wickham Road is particularly subject to traffic delays especially in term time. Your proposed developments would also have a detrimental effect on our already crowded local schools and doctor's surgeries.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

2135/01/001/DM43.4/O Mrs Susan Lockyer

Object DM43.4

It is accepted that more housing is needed but this site could not be developed in addition to site 541 or 542. It would have to be one only. Some may be achievable but certainly not 107. The land is privately owned and houses were purchased in the knowledge that this was the case and cannot therefore be built on. The local management company maintains the green area, suitable for wild life. It is used by residents as the properties do not have private gardens. The road around the estate is already congested with private cars making the bus route difficult. It is not deliverable as planned and therefore it will not meet the present needs, let alone future needs. There will be transport issues, sprawl and social problems as a result.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

2145/02/002/DM43.4/O Paul Vernon & Natalie Payne

Object DM43.4

I am writing to object to: The de-designation of the five pieces of land as metropolitan open land and their proposed use of housing land at poppy lane reference number 128. I feel that building more houses on the green land would totally destroy the wildlife in the area and would ruin an area of beauty, and that the one road into the village wouldn't be able to cope with more traffic as its already busy.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

<td>Object Site 128. I object to this. I am writing to you with regard to the recent changes in Planning policies by Croydon Council and their impact on the designation of grass areas in Shirley Oaks Village. These areas were formerly designated as Metropolitan Open Land and had protection from being built on. However, my understanding is that these areas may now be changed to no Metropolitan Land thus allowing their use for future housing developments. As a resident of Shirley, I would like to point out that our land was designated as 'Amenity Open Land' in 1985 by Croydon Council because of our undersized gardens and transferred to a Management Company, with each property owner as a shareholder of the Company. Whilst I fully accept the need for new housing in Croydon, in particular affordable housing for first-time owners, it is clear the sheer scale of the proposed development and the resultant destruction of a precious greenfield site in Shirley Oaks Village that I object to. I would have no issue with a much smaller scale development of the village, as part of an overall plan for Croydon where new housing was primarily targeted toward development of brownfield sites under the council's jurisdiction. I urge you to consideration of my suggestions in the weeks ahead and look forward to receiving feedback in due course. No change. The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run-off from the site is reduced, and development of the site does not increase flooding elsewhere.</td>

2429/02/010/DM43.4/O Mr & Mrs E Abdul-Nabi

Object

Soundness - Justified

Object to the use of this site for housing.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
Site 128, Land at Poppy Lane, is identified as suitable for 51 to 107 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Woodmere Avenue and Woodmere Gardens.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

I thoroughly object to these proposals, the traffic has built up over time and I wouldn't even want to begin to imagine what Shirley Oaks would be like if another 600+ homes where to be built, that would be practically doubling the size of Shirley Oaks as it is at present.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

I will be objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). If the Council won’t keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. I will also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn’t cope with the additional traffic.

No change

DM43.4
128

I object to the use of the Land at Poppy Lane reference number 128 for housing:

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces.

Developing these sites with the amount of homes suggested would increase the volume of traffic in an area which is already congested in morning and afternoon rush hours and would put increased pressures on local schools and public transport.

I am aware that more affordable houses are needed but please reconsider these plans which will totally change the area in which we have chosen to live and definitely not for the better.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

I wish to register my objection to the proposed plans for the housing development on the green areas around the Shirley Oaks Estate.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
Mrs Shirley M Kall

Object

DM43.4 128

Our Local Green Belt should remain as such and not be designated as Metropolitan Open Land which then could be used for new housing. Strongly object to this proposal.

Plans for residential development:

Ref. No. 128- the land at Poppy Lane is identified as suitable for 51-107 homes.

Ref. No. 504- Stroud Green Pumping Station, 140 Primrose Lane including the conversion of the locally-listed pumping station, is identified as suitable for 26-68 homes.

Ref. No. 541- land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 26-68 homes.

Ref. No. 542- land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes.

Ref. No. 548- land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes.

Development on any of these sites would change the whole character of the area, and surely add to the congestion of local roads, which would increase the risk of accidents.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Ms Karen Fletcher

Object

DM43.4 128

We wish to register our objection to the proposals to change the policy map 43 in relation to Metropolitan Open Land at Shirley Oaks Village.

Like many residents we purchased our home on the understanding that the MOL was owned by the residents themselves and would not be developed. It was a strong factor in our decision to purchase our house. The land itself was transferred to the management company by a transfer dating 30 July 1991 made between Heron Homes Limited and Shirley Oaks Management Limited. The third schedule to this transfer contains restrictive covenants and I have attached the relevant clauses. These clauses that the land is to be used as open space so I do not understand how you can ignore this and grant planning permission to build houses.

We understand the need for more housing but feel that this is not the way forward. It would be far better to look at the buildings/land owned by the London Borough of Croydon first to see which could be used as residential properties. The old Ashburton Library in Ashburton Park is such a building that could be redeveloped and used for housing and I am sure there are many more.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

<td>No change</td>
</tr>
</tbody>
</table>

- There has been insufficient notice of the consultation period, and the proposals are not clearly set out as pertaining to Shirley Oaks Village.
- This land is designated as Metropolitan Open Land, and I do not agree that it does not meet the criteria, as it does contribute to the physical structure of London, and there currently are open-air facilities, which serve significant parts of London.
- Increasing the housing density in this development will have a detrimental effect on the overall environment, and will decrease the value of these homes, as the development contains smaller gardens than those originally planned, and the surrounding green spaces were left vacant to compensate for the lack of adequate open space.
- Any change in the restrictions will adversely affect the accessibility to nature and wildlife of the area, which contains features of metropolitan importance.
- There is inadequate infrastructure in the locality to accommodate such an increase in population.
- There has not been a true 'fit for purpose' investigation of the brownfield sites, which already exist in the borough, or of other open land which could be used without.

In view of the above please register my objection to all five proposals, and please acknowledge receipt of this email.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Mr Lewis Reynolds

Object DM43.4 128

I wish to object to planned proposals; ref:128. These planned proposals will not fit within the current aesthetics of the estate so please accept this email as an objection to the proposal.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Mr Tau Wey

Object DM43.4 128

I am concerned about this proposal. When I bought my house in Angelica Gardens, Shirley Oaks Village, it was my understanding that I would also become a communal owner of the surrounding Amenity Open Land. This was guaranteed by each freeholder in Shirley Oaks owning a share of the Shirley Oaks Management Limited, which in turn owns and manages the Amenity Open Land. Like many residents, I purchased my house partly due to the pleasant areas of green space available in my surroundings. I also think that the character of the current surrounding gives each property the value that it currently has. I would also object to attempts by Croydon Council or other agencies to attempt to purchase the land from Shirley Oaks Management Limited in the future.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
I am emailing to outline my objections to the planning notices in relation to the above reference numbers which concern land near to Shirley Oaks Road, Honeysuckle Gardens, Poppy Lane and Primrose Lane.

I object to these proposed developments for the following reasons:

1. The move to unravel the protection of Metropolitan open land from significant housing developments is a disappointing and avoidable move by Croydon Council. This sets an unnecessary precedent. This land should be protected by its designation and the council has sufficient options elsewhere in the borough on land that has no such designation.

2. Much of the land concerned was designated by Croydon Council in 1985 as "Amenity Open Land" because of the under-sized gardens of many of the Shirley Oaks property. I live with a young family on Shirley Oaks with a very small garden and object to the loss of this open land which is regularly used by young families and residents of the area who do not have large gardens or any gardens at all in some instances.

3. Such proposals will unduly change the character and desirability of the local area which is defined by its open space. Shirley Oaks remains one of the few genuine peaceful residential areas within the borough and such thoughtless development will threaten this.

4. The roads leading to Shirley Oaks are roads not given to significant volumes of traffic. Increasing the density of the population within the immediate area as substantially as you are proposing creates challenges for traffic and parking. The scale of the developments will exponentially increase the volume of traffic and create challenges for parking.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

If the Council will not keep them as Metropolitan Open Land, the five sites should at least be designated as Local Green Spaces and not used for housing. The site should be Local Green Space. No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Object

The Society objects to the proposals to de-designate the Metropolitan Open Land on either side of Shirley Oaks Road and on land surrounding Shirley Oaks Village, in particular the proposals on page 68. This land is currently protected from development similar to protection of green belt land. The Society objects in principle to the decision of the council to de-designate land currently held as Metropolitan Open Land. Even if parts of the areas were designated as local green space, in accordance with the National Planning Policy Framework, there would still be a huge loss of open space. If development were allowed in these areas it would be detrimental to the amenity value of the area for the benefit of the public.

Object

Having lived in Shirley for over 50 years I strongly object to Croydon Council plans to de-designate the Metropolitan open land so that most of this land will be used for new housing. At the moment it has the same Protection as Green Belt. Firstly, this would entail the loss of a vital green corridor between Shirley Oaks and the surrounding area, changing the character of the area, more importantly the road infrastructure couldn't cope with the additional traffic. Try getting out to the Wickham Road from Orchard Avenue in rush hour.

Ms S Mawaziny

Object DM43.4 128

I object to the use of the Land at Poppy Lane reference number 128 for housing:

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Mr & Mrs Kellas

Object DM43.4 128

I would say to the Council Croydon is full and kindly leave our precious Shirley open spaces and attractive streets alone, we don’t need an odd assortment of blocks of flats amongst the semi-detached and small detached properties here, or in similar Croydon suburbs it would be an architectural disaster along the lines of the 1950s concrete jungle development of the centre of Croydon. And we don’t have the infrastructure to cope with more people, or the roads to cope with the traffic we already have.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
Mr Beresford Walker

Object

DM43.4

128

I object to the de-designation of Metropolitan Open Land in the vicinity of Shirley Oaks Road and Shirley Oaks Village. The land should be at least be designated as Local Green Space, for its protection from development.

This open space provides a green corridor between Shirley Oaks and the surrounding areas, and should be retained in its present form.

I also object to the following specific proposals for the building of new homes on this site, as detailed in Changes to the Policies Map arising from Proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan, Detailed Policies & Proposals:

Policy DM43, reference Site 128 to build new homes at Poppy Lane

Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the local schools are over-subscribed as well as the already stretched social and healthcare facilities would be overloaded.

For the reasons given above:

1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability to meet the needs of future generations.
4. I recommend that consultation documents of such importance are given much wider publicity.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run-off from the site is reduced, and development of the site does not increase flooding elsewhere.
Mr & Mrs Panagakis Object to the use of land at Poppy Lane (reference number 128) for housing

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Mr & Mrs C P Smith

Object to this site as this land was designated to residents of Shirley Oaks village as amenity open land in 1985 because of the undersized gardens and transferred to the management company. The Land should remain Green Belt

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Mr A Zelisko

Object

I object to the use of this site for housing.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
Mr & Mrs Hunt

I am writing to object to:

- Land at Poppy Lane reference number 128
- Stroud Green Pumping Station, 140 Primrose Lane reference number 504
- Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541
- Land to the west of Shirley Oaks Road reference number 542
- Land to the rear of 5-13 Honeysuckle Gardens reference number 548

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces.

People buy property on Shirley Oaks Village because of the green open spaces, the peace and tranquility, the beautiful Oak Trees. You cannot suddenly take that away these surroundings: people have spent hard earned money to live on this Village. Residents also pay for maintaining these green open spaces. The service road will not take any more traffic: two buses can hardly pass, and indeed were not supposed to drive round the estate together because of the small service road. There is a hospital and ambulance station on the estate, and any increase in traffic will interfere with their services.

C Banks

We are writing to object to the use of the following five sites for housing:

- Land at Poppy Lane, reference number 128
- Stroud Green Pumping Station, 140 Primrose Lane, ref no. 504
- Lane to the East of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541.
- Land to the west of Shirley Oaks Road, ref number 542.
- Land to the rear of 5-13 Honeysuckle Gardens, ref number 548.

If Council will not keep them as Metropolitan Open Land, these sites should at least be designated as green spaces.

Soundness - Justified

DM43.4 128

I am writing regarding the Council’s plans for a massive redevelopment in the Shirley area. More houses mean more traffic on our already crowded roads. I no longer go into Croydon because of the journey times. How long would it be before the Council considered bringing in a congestion charge? When you build all these properties do you consider the local amenities and the effect that more people would have on these. Where are the school places for all of these children? Regarding doctors. Unless it is an emergency I have to wait at least a week for an appointment. This waiting time can only increase if there are more patients. Is it the Council’s policy to build over green belt land to the detriment of locals? I sincerely hope not. I think you need to seriously reconsider these plans.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable. Subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

DM43.4

128

These open spaces are collectively designated as Metropolitan Open Land. It would be disastrous to lose a link in this chain. THE SHIRLEY GREEN CHAIN

The green open spaces of Shirley Oaks Village provide several links in the Shirley Green Chain. This chain starts at the South Norwood Country Park in the north and runs south through Ryland Fields, Long Lane Woods, Ashburton Playing Fields, the open spaces of Shirley Oaks Village, Trinity School playing fields, Shirley Park Golf Course and up to the Shirley Hills. From there the Green Chain continues through Heathfield, Bramley Bank Nature Reserve, Littleheath Woods and via Selsdon Park to Kings Wood at Hamsey Green. These open spaces are collectively designated as Metropolitan Open Land. It would be disastrous to lose a link in this chain. Planning Policy Guidance Note 9 -

This guidance stresses the importance of nature conservation, not only on nationally important sites, but also suggests that many urban sites for nature conservation have enhanced local importance as a consequence of the relative lack of wildlife sites in built up areas. Statutory and nonstatutory sites which provide wildlife corridors, links or stepping stones from one habitat site to another, all help to form a network necessary to endure the maintenance of the current range and diversity of our flora and fauna. The Green Spaces in Shirley Oaks were designated as Metropolitan Open Land and today still meet the criteria for this protection. The sites contain conservation and habitat interest of value at a metropolitan level and (2) forms part of the Shirley Green Chain. These are two of the criteria for Metropolitan Open Land. The Green Spaces in Shirley Oaks Village were designated as Metropolitan Open Land and today still meet the criteria for this protection. The sites contain conservation and habitat interest of value at a metropolitan level and (2) form part of the Shirley Green Chain. These are two of the criteria for Metropolitan Open Land. These sites possibly have a section 52 agreement, and are part ownerships shared by each of the Shirley Oaks Village residents.

Re-designation of MOL falls foul of the London Plan.

Existing dwellings to be retained or

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
demolished? If retained the Site Area should be adjusted to take account of the existing dwellings: The Lodge, Beech House & Ash House? On the East side And the Synagogue and the two house (can't read their names) on the West side.

Infrastructure not specified to support development.

Schools are oversubscribed; GP Surgeries oversubscribed

Road system could not cope with the increase in traffic during peak travel times

Area has high water table and is subject to flooding.

London Plan

POLICY 7.17 METROPOLITAN OPEN LAND

Strategic:
A The Mayor strongly supports the current extent of Metropolitan Open Land (MOL), its extension in appropriate circumstances and its protection from development having an adverse impact on the openness of MOL.

Planning decisions
B The strongest protection should be given to London's Metropolitan Open Land and inappropriate development refused, except in very special circumstances, giving the same level of protection as in the Green Belt. Essential ancillary facilities for appropriate uses will only be acceptable where they maintain the openness of MOL.

LDF preparation
C Any alterations to the boundary of MOL should be undertaken by Boroughs through the LDF process, in consultation with the Mayor and adjoining authorities.

D To designate land as MOL Boroughs need to establish that the land meets at least one of the following criteria:
   a) it contributes to the physical structure of London by being clearly distinguishable from the built up area
   b) it includes open air facilities, especially for leisure, recreation, sport, the arts and cultural activities, which serve either the whole or significant parts of London
   c) it contains features or landscapes (historic, recreational, biodiversity) of either national or metropolitan valued if forms part of a Green Chain or a link in the network of green infrastructure and meets one of the above criteria.

The London Plan 7.56
The policy guidance of paragraphs 79-
92 of the NPPF on Green Belts applies equally to Metropolitan Open Land (MOL). MOL has an important role to play as part of London’s multifunctional green infrastructure and the Mayor is keen to see improvements in its overall quality and accessibility. Such improvements are likely to help human health, biodiversity and quality of life. Development that involves the loss of MOL in return for the creation of new open space elsewhere will not be considered appropriate. Appropriate development should be limited to small scale structures to support outdoor open space uses and minimise any adverse impact on the openness of MOL. Green chains are important to London’s open space network, recreation and biodiversity. They consist of footpaths and the open spaces that they link, which are accessible to the public. The open spaces and links within a Green Chain should be designated as MOL due to their London-wide importance.

Do you think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3? No, the land is current Green Belt or Metropolitan Open Land or otherwise designated green land and should not be built on. I disagree that it “does not contribute to the physical structure of London”. Just because it has no facilities does not mean that it is not an asset to the life of London. Yes, it is deliverable but should not be delivered on that land. No, it is not sustainable because it removes the need for green space for future generations.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Object Residential development on either side of Shirley Oaks Road and around Shirley Oaks Village (reference numbers 128, 504, 541, 542, 548 on Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals) This is Metropolitan Open Land which is accorded the same level of statutory protection as the Green Belt. Changing this designation in order to allow building amounts to an abuse of the planning process. The area is liable to localised flooding, which anyway makes it unsuitable for residential housing. There appears to be no provision for additional infrastructure which would support the building of up to 750 new homes. In particular, local roads are already inadequate; morning traffic queues are already common in this area, especially towards the town centre. The proposals cannot but fundamentally alter the character of this part of Shirley, again, for the worse.

No change

02 September 2016 Page 1838 of 4384
2904/02/001/DM43.4/O Mrs C E Wilson

Object DM43.4

The highway access is owned by Shirley Oaks Management Limited Company. The site is currently protected as Metropolitan Open Land. The designation should remain. If the decision to de-designate remains, the site should be designated local green space. Development of the site would not be consistent with the NPPF, nor would it be sustainable development for the reasons set out and those identified in respect to the objection to SP7.

The highway is unadopted and is not suitable for use in relation to the potential development and is therefore inappropriate. The site is not deliverable because of the unadopted highway in private ownership. The highway network through Shirley oaks is already at saturation point and any proposed residential development would generate an unacceptable amount of traffic. The site has a high water table and the area is prone to flooding which affects properties in particular at the boundaries to the land. Any development is likely to worsen this situation for those surrounding properties.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

2905/03/001/DM43.4/O Mr S F A Wilson

Object Soundness - Justified DM43.4

The highway access to the site, Poppy Lane, is owned by the Shirley Oaks Management Limited (Company). It is also currently designated Metropolitan Open Land. This designation should remain or at least be replaced by Local Green Space.

The highway is unadopted and is not suitable for use in relation to development. The proposal is therefore inappropriate. The site is not deliverable because of the unadopted highway in private ownership.

The existing highway network in Shirley Oaks is at saturation point and new development would generate an unacceptable amount of traffic.

The site has a high water table and the area is prone to flooding which affects properties in particular at the boundaries to the land. Any development is likely to worsen this situation for those surrounding properties.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
I object to the use of the following five sites for housing:
• Land at Poppy Lane reference number 128;
• Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
• Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
• Land to the west of Shirley Oaks Road reference number 542; and
• Land to the rear of 5-13 Honeysuckle Gardens reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
I write concerning Croydon Council’s proposals contained in the consultation document of the Croydon Local Plan that includes the re-designation of Metropolitan Open Land in Shirley and specifically within the confines of Shirley Oaks. I consider these proposals and others listed above to be inappropriate as they would significantly change the character of the area in which I have lived all 61 years of my life and I wish to add my voice to those already expressing concerns and objections about these proposals.

I strongly object to the proposal to re-designate Metropolitan Open Land to facilitate the building of new homes on land in Shirley Oaks and the provision of temporary or permanent traveller/gypsy sites in areas that are acknowledged by the Council to be in the green belt at Coombe Farm and Coombe Lodge Nurseries in Conduit Lane.

These proposals are totally out of keeping with the character of the area which predominantly comprise owner-occupied semi and detached homes. Surely areas considered to be brownfield sites are more appropriate than the unacceptable use of Metropolitan Open Land?

The proposals affecting the area surrounding Shirley Library are also of concern as this would adversely change the character of the area and potentially result in the establishment of additional unsightly car-parking sites on the south side of Wickham Road, similar to that at the front of the Shirley Medical Centre at 370 Wickham Road.
Object

Mr Roohi F Khan

DM43.4 128

This area of land is privately owned. Previous planning applications have been rejected by Croydon Council as unsuitable for residential building, a garden of remembrance and a Nursing Home.

This area is prone to flooding and has a high water surface level. Adjacent residential properties both within the Shirley Oaks, Monks Orchard, the Shirley Oaks Hospital and the land within Addiscombe Woodside and Shirley leisure Gardens Ltd experience this. It is noted Croydon Council removed the Tree Protection Orders for many of the trees in this area, this has increased the high surface water level leading to further risk of flooding and drain collapse. Previous Environment Agency studies have been conducted. There is evidence of much wildlife including badger runs. The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

No change

</tbody>
</table>

This proposed development of new housing in Poppy Lane is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in the area. Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area. Building a travellers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area. Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions. This development would diminish the area of green fields and recreational land within the area.

The proposal to build new houses in Poppy Lane does not fall within the Strategic Objectives because:

- Objective 2: This development will not foster an environment where existing enterprise can prosper, but will reduce enterprise.
- Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions; the development is not in keeping with the surrounding area.
- Objective 5: This development is not high quality and will not enhance the borough’s natural environment but will reduce the natural environment by turning a green area into housing.
- Objective 7: This development will reduce the area as a safe, healthy and cohesive community but making the area overcrowded with residential property.
- Objective 10: This development will reduce the quality and accessibility of green space and nature.

This proposed development of new housing in Poppy Lane is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in the area. Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area. Building a travellers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area. Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions. This development would diminish the area of green fields and recreational land within the area.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
2974/01/003/DM43.4/O Jane Bowden
Object Soundness - Justified
DM43.4 128
2) I understand that the Council are seeking to de-designate various pieces of land on either side of Shirley Oaks Road and around Shirley Oaks village, so that it is no longer Metropolitan Open Land, with a view to potentially building between 304 and 751 new homes. (Reference numbers 128, 504, 541, 542 & 548). Open, green land is essential to maintain a pleasant living area, and to maintain the character of the area. In addition, this number of additional dwellings would seriously overwhelm the local infrastructure. In particular, the local road infrastructure could not cope with the additional traffic.

No change
The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

3001/01/002/DM43.4/O Mr John Helen
Object DM43.4 128
First, the Council plans to de-designate the Metropolitan Open Land on either side of Shirley Oaks Road and all around Shirley Oaks Village (page 68, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals). Metropolitan Open Land has the same protection from development as the Green Belt. The Council is proposing to remove this designation so that most of this land can be used for new housing. The draft Local Plan identifies five sites: the land at Poppy Lane is identified as suitable for 51 to 107 homes (pages 445-446, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 128).

I will be objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). If the Council won’t keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. I will also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn’t cope with the additional traffic.

I am happy for the Council to replace under-used garages with much-needed homes, but I will be objecting to building on precious open space.

No change
The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

3002/01/002/DM43.4/O Mr John Hitchcock
Object DM43.4 128
Our family has lived on Shirley Oaks Village approx 20 years ago and understood the village to be a Private estate and I am writing to object to the de-designation of the open land around the village and to the use of five sites for housing.

The land rightfully belongs to the residents, the area and roads will become congested and property values will decrease.

No change
The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
Mr John Roberts

Object

DM43.4

128

I am writing to object to:

The use of the Land to the west of Shirley Oaks Road, reference number 542, for housing:

If the Council will not keep these areas as Metropolitan Open Land, these 5 sites should at least be designated as Local Green Space.

My objections are based on the following:

i. The change in local designation and subsequent development would lead to a material reduction to an important green space and amenity within a basically urban area,

ii. The effect and congestion on the local infra-structure which would be caused by the building of more housing to an already densely developed site,

iii. The effect on existing property values of property to Shirley Oaks and surrounding areas caused by the reduced amenity and congestion.

I urge that the Council should take these and other objections in consideration and not continue with their plans to re-designate the areas described above.

Mr Joseph Rowe

Object

Soundness - Justified

DM43.4

128

Land currently designated as Metropolitan Open Land at Poppy Lane, Stroud Green Pumping Station, to the east of Shirley Oaks Road, to the west of Shirley Oaks Road and to the rear of 5-13 Honeysuckle Gardens has been identified as suitable for up to 741 homes (pages 446-446, 451-452, 453-454, 455-456, 457-458 Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Part 1 and the Croydon Local Plan: Detailed Policies & Proposals, reference numbers 128, 504, 541, 542 and 548).

I object to these proposals on the grounds that:

This land is designated as Metropolitan Open Land and there is no justification for re-designation. An increase of up to 741 homes on this land would put local services including schools, transport and already crowded roads under further pressure.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run-off from the site is reduced, and development of the site does not increase flooding elsewhere.
Once the area surrounding Shirley Oaks Village is redesignated the Council plans to build 751 homes on 5 separate sites. Supposing the average house is for 4 people, 3000 people in total will move to the area. The housing will attract families – potentially half being children. The Council mention no where in their 700 page document about the building of new schools (primary and secondary) nor the building of doctor surgeries, nor the expanding of the local shopping area let alone the already stretched local road infrastructure. Our local area can’t cope as it is – St John’s primary school has applied for an extension to cope with the current demand on its places. During rush hour buses frequently don’t stop at bus stops because they are full. Traffic is often diverted down our road, Shirley Church Road, if there is an accident on Wickham Road or Gravel Hill. The dual carriageway (Shirley Park) is crawling along during rush hour. The council are planning to add another 1000 plus cars to this equation. Shirley is often described according to estate agents as leafy, popular, excellent schools. By building 751 more homes the character of the area will change completely.

No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including infrastructure servicing, ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Having read both local plans for the Shirley area, I strongly object to all aspects in both plans, this includes the 750 new homes on Shirley Oaks Village, 35 new homes in Shrublands, the two gypsy sites at Combe Fram and Conduit Nursery and the development for up the four storeys along Wickham Road. None of these plans will benefit Shirley and I object to them all.

No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

<td>I strongly object to the proposed development plans for the Shirley Area. I have lived here all my life and have seen a steady influx of people, and a massive reduction in the green space in the area. The roads are already far too congested and the social infrastructure is already struggling to cope with the number of residents. There are many areas in the Croydon borough much more suited to such large scale development. I am thinking particularly of areas around Purley Way. There are also many brown field sites in the borough that could be put to more effective use as housing without affecting the green areas. I guess the council prefers to redevelop the green areas rather than the brown field areas due to cost. As I said I do not want my local area turned into a concrete jungle where there is nowhere for people to relax in the open.</td>

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
I am writing to object to all the proposed changes and plans affecting the Shirley neighbourhood as advised to me by Gavin Barwell and the Executive Committee of Spring Park Residents Association.

1) I object strongly to any plans to change the definition of existing land and use.
2) When dealing with the further extension of Shirley Oaks site I am disturbed by the fact there are just two access points i.e., Shirley Road and Wickham Road the latter being onto the A232 which is very busy all day and particularly during rush hour periods, when traffic backs up westwards to the Shirley Road roundabout and beyond. 3) The proposals for Shirley Oaks, given to me indicate land being suitable for between 304 and 751 additional homes. As many properties nowadays have at least one car this will have a serious additional congestion to Shirley and Wickham Roads.
4) Additionally, development of this size would have a serious demand on existing schools (primary particularly), doctors and other local services.

I am writing to object to all the proposed changes and plans affecting the Shirley neighbourhood

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

I object to all the proposals set out for new housing and travellers sites in Shirley. I feel it will ruin the area by taking up all the open spaces.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
I am writing to express my objection to the proposals of development to the Shirley oaks estate, on website www.croydon.gov.uk/policiesmap on "Changes to the policy Map 43" those being:-

Ref:541. Shirley oaks road East side, up to 215 new homes!!
Ref:542. Shirley oaks road west side, up to 236 new homes!!
Ref:548. Land rear of honeysuckle gardens, up to 125 new homes!!
Ref:128. Poppy lane, up to 107 new homes!!
Ref:504. Up to 68 new homes or gypsy site at the water board HQ, primrose lane!!!!!!!!

I brought my home on 5 Flag Close, Shirley Oaks, Surrey, CR0 8XT as it was on a green and pleasant estate and on the understanding this land was designated to us as because of our undersized gardens. We were told this land would never be built on and each of the properties on the estate are shareholders of this land as it was designated "amenity open land" by the Croydon council and transferred to our management company.

We are forming groups and seeking legal advice and looking into the legal implications and small print to your proposals and will not take this laying

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
Mr Paul Grosser

The planning permissions proposals below I object to ref 128
I have friends who live in Shirley oaks village and I know them and myself along with many others all object to the proposals to build on the green areas. This grass area is used by many and would totally change the area if built on and we don’t want it. Part of the charm of this area is those green areas and it has something that you don’t find often in Croydon so please let us keep the green areas as we all object to them being built on.

No change

Mr Derrick Thurley

De-designation of the Metropolitan Open Land around Shirley Oaks Village thus enabling the following sites to be built on.

a) Policy DM43, Reference 128 Land to build 51 to 107 homes in Poppy Lane
b) Policy DM43, Reference 504 Land to build 26 to 68 homes at Stroud Green Pumping Station, 140 Primrose Lane including conversion of the pumping station
c) Policy DM43, Reference 541 Land to build 80 to 215 homes to the east of Shirley road and rear of Beech House
d) Policy DM43, Reference 542 Land to build 88 to 236 homes to the west of Shirley Oaks Road
e) Policy DM43, Reference 548 Land to build 5 to 13 homes to the rear of 5 to 13 Honeysuckle Gardens

This entails loss of green space, changing the character of the area and local road infrastructure unable to cope.

No change

Mr Richard Horton

I wish to log my objection to the borough-wide planned changes Croydon Council are proposing to make in their Local Plans for 2016-2036. These proposals are 750 new homes in Shirley Oaks and 35 new homes on the Shrublands Estate. Also the proposed work to the two large gypsy/travellers site in Coombe Farm and the Conduit Nursery of Coombe Road.

No change
Mr Dominic Quinn
A3 Architecture London LTD

Object DM43.4 128

Object to the dedesignation of MOL around Shirley Oaks Village as it will change the character of the area if they are not MOL they should at least be Local Open Land. Building Houses on them would lead to the loss of avital green corridor and set a precedent

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Mr Stuart Beaton

Object DM43.4 128

I am writing to lodge my objection to some of the proposals contained in the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals.

In particular:

1. Shirley Oaks
   The proposal to re-designate the Metropolitan Open Land on Shirley Oaks Road and around Shirley Oaks Village so that it can be used for new housing (page 68, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals).

My main objections are:

   This would result in the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area. The local road network could not cope with the additional traffic. Insufficient local infrastructure to cope with the increased population.

Conclusion

   The proposals I have highlighted can only been viewed as negative. If adopted, they will increase the local population – and the density of that population – without providing any supporting infrastructure. The new residents from the planned apartment blocks and traveller sites will need additional public services such as schools, medical services and shops. Older residents will give way to young families who require greater social support, yet no additional resources are identified to help manage the changing demographic. Traffic congestion along already busy roads will increase, as will pollution and accident black-spots. The few remaining green spaces will disappear. Overall, the proposals signal a reduction in the quality of life for both the existing residents and the newcomer.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
I am writing to object to:
1. The use of the following locations as gypsy and traveller sites:
   • Coombe Lodge Nurseries (site ref 661)
   • Coombe Farm off Oaks Road (site ref 502)
   • Poppy Lane (site ref 128)
   • Stroud Green Pumping Station (site ref 504)
   • Shirley Oaks Road/Beech House (site ref 541)
   • Shirley Oaks Road (site ref 542)
   • Honeysuckle Gardens (site ref 548)
   • Pear Tree Farm & Pear Tree Cottage (site ref 755)

   All areas provide vital green space in already densely populated areas, and there is insufficient infrastructure to cope with the additional traffic/population. Some of these areas are in the Green Belt, others are in Metropolitan Open Land. They would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

DM43.4

128

I have major concerns over the planned development of the Shirley Area. This is currently one of the nicest areas of Croydon and you plan to swamp it with a number of housing developments and some travellers sites. This will be very detrimental to the whole area.

I understand that nationally we need to have more accommodation for families. We need to achieve this with ought destroying the whole fabric of our society. This scale of development will transform the whole area into a old fashioned “Estate”.

There are not sufficient services in the wider area to support such an influx of families.

The road infrastructure already struggles at time and these developments will make the whole situation much worse.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Mr Steve Hopkins

As a resident of Shirley Oaks from Day one, I totally oppose any new buildings to be approved or built on my private estate.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Mr Stephen Smith

Object

DM43.4

128

1. I am writing to object to re-designation of the Metropolitan Open Land around Shirley Oaks Village and the intention to build on open sites at Poppy Lane (ref 128), Primrose Lane (ref 504), Shirley Oaks Road (refs 541 + 542) and Honeysuckle Gardens (ref 548).

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
I am therefore writing to formally object to:

1. The de-designation of the Metropolitan Open Land around Shirley Oaks Village;

2. The use of the following five sites for housing:
   - Land at Poppy Lane reference number 128;
   - Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
   - Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
   - Land to the west of Shirley Oaks Road reference number 542; and
   - Land to the rear of 5-13 Honeysuckle Gardens reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

We bought our property at the original building phase in Shirley Oaks many years ago and were informed that there would be no further development in this area and that all grassed areas were to remain undeveloped and were for the use of residents and local people at leisure. Further to this we have paid yearly a maintenance cost to ensure these areas were kept up for this use. This is the main reason we invested in this property. The grassed areas are in constant use and development of these areas would change the natural village atmosphere that exists here and is one of the few areas of Croydon that there is an abundance of wildlife close to an urban area. The proposed development and designation of our grass areas is unacceptable and would infringe our rights as in our original contracts with Heron homes who built the site.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
Mr Peter Kenny

Object

I am writing to object to The use of the following sites for housing:

</table>

The area of Shirley Oaks Village and its adjacent road infrastructure is already at breaking point. Any slight build up of traffic seriously hinders movement for residents. The 2 main arterial routes into Croydon or towards Bromley (being Wickham Road & Lower Addiscombe Road) are extremely busy with traffic and often lead to extended journey times for those of us who wish to head in to one of these town centres or further afield in to London for work. As proven only yesterday when a traffic accident in the Shirley area led to a 3 hour journey home from Bromley back to Shirley. The road network around here is poor. The interlink between Shirley Oaks village and its surrounding area is poor. To add hundreds of houses within this area will only lead to increased volume of traffic on the surrounding roads and leave Shirley itself in an almost permanent state of gridlock. Shirley Oaks Road is always busy with vehicles parked up. This is due to a number of reasons; The excessive traffic on Wickham Road leading to people abandoning their vehicles to try and walk nearer to Croydon to catch a tram or bus. The unreliable 367 bus route which is often hindered by traffic or accidents outside of Shirley Oaks Village leading to people driving closer to other bus routes. The use of the local synagogue. Combine these issues above with the additional housing being proposed and the vehicles that come with them, Shirley Oaks will become even cut off than it already is. There are many elderly residents in this area that rely on carers (friends etc) being able to visit them. They often complain about the issues I have raised above and I can only see this getting worse should the proposals for Shirley go ahead. Croydon is a massive borough so there must be other areas that these proposals could be met.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

<td>In response to your notices for the development of the greenfield sites on Shirley Oaks Village and the intention to change the status of this land, I make the following observations: In 1985 Croydon Council designated land within Shirley Oaks Village as &quot;Amenity Open Land&quot; because our gardens were small due to the layout and construction of the area by Heron Homes. This amenity land is owned collectively by the property owners who own 1 share each. The shares are held by the current trust company - First Port, who also maintain this estate. Is compulsory purchase envisaged? If a total of some 700 homes the village would need vast changes to its infrastructure to accommodate these properties. The present main road - Primrose Lane/Shirley Oaks Road is barely able to cope now - with just a single decker bus allied to a growing number of cars. There is a regular flooding problem during heavy downpours - particularly from Primrose Lane into Laburnum Gardens. The loss of a wildlife conservation area is surely against wider interests including many present owners.</td>

If the Council won't keep it as MOL, it should at least designate it as Local Green Space so that it has some protection.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Claire Rutland

Object DM43.4 128

As a shareholder of the open space in Shirley Oaks I would like to object to the proposals made in Policy Map 43.

One of the reason I bought the property was for the nice open spaces that surround the houses.

Building unnecessarily on this land will change the whole look and feel of the community of Shirley Oaks Village. We have one road in and out of the village and cramping in 700+ homes onto our lovely open space will also create congestion on the one road. Shirley Oaks is privately owned and we take pride in our village and how it looks and will fight against these proposals.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Claire Corper

Object Soundness - Justified DM43.4 128

To whom this may concern

Ref:541
Ref:542
Ref:548
Ref:128
Ref:504

I strongly object to these plans as a resident of hazel close I am a shareholder of Shirley oaks management and feel strongly that the land be left as it is as we have very small gardens and pay for these open land areas to be kept and maintained for our use and enjoyment. Also these plans especially the ref 504 will devalue my property immensely and will downgrade the area dramatically

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
One of the requirements of the Pitt review of 2007 was for the Environment Agency to provide some warning for surface water flooding, as was already the practise for river and coastal flooding. The result was the LIDAR returns which are provided on the Environment Agency’s website under ‘what’s in my backyard’. This shows clearly how the lie of the land amongst the Shirley Oaks Estate causes surface water to run from South to North joining another stream which runs in from the SW from Shirley road into Primrose Lane. On numerous occasions over recent wet winters we have had a constant stream of water running across the kerb into Primrose Lane which has on occasion caused substantial amounts of ice to form. No doubt your winter maintenance department could confirm this is an area where they have to regularly do spot treatments of rock salt- since they do Primrose lane as it is a bus route, when other parts of the network are totally dry and do not require treatment.

From the Pitt Review of 2007, RECOMMENDATION 7: There should be a presumption against building in high flood risk areas, in accordance with PPS25, including giving consideration to all sources of flood risk, and ensuring that developers make a full contribution to the costs both of building and maintaining any necessary defences.

Section 5.14 of the report reiterates that PPS25 applies to all sources of flood risk. This states that an SFRA (surface flooding risk assessment) should assess surface water flood risk and identify critical drainage areas. Good information is therefore needed from sewerage undertakers and other sources, including local knowledge, historic flooding and risk modelling. Local authorities should ensure that SFRAs carried out on their behalf adequately address this type of flooding. I find it difficult to believe this has been done as otherwise there would have never been a suggestion of using the remaining green parts of the estate in this way.

Any increase in the built up area around the estate would thus exacerbate the already on occasion saturated surface. Having investigated in detail the benefits in the reduction of flooding by the provision of trees, I have found that Oak trees can use up to 50 gallons a day and some trees on a hot day will utilise 150-200 gallons (wiki-answers.com). Trees admittedly are most effective when we are in the dry season.
growing season at excess water removal, but that is also when we tend to have the most extreme rainfall events. Having looked at ‘Heavy falls in a day’ and ‘Heavy falls in short Periods’ both produced in part for British Rainfall by the Met Office (my employer), I have found that invariably the most extreme rainfall happens in SE England between June and September. This is just when a tree is in full leaf so not only intercepts falling rain by the size of its canopy, but also as it is growing, that rain which reaches the soil is quickly extracted for use in the tree’s transpiration. Preliminary research results from the University of Manchester indicate that trees can reduce runoff by as much as 80% compared to asphalt. Thus the best way to alleviate summer extreme rainfall surface water flooding is not to remove trees.

The soil on which Shirley Oaks is located is of a clay type and is therefore impervious: another reason why it reacts to surface water flooding the way it does. The large area of grassland is ideal for ‘making room for water’ as a water storage area, thus to remove this pooling facility will mean the rain will have to find somewhere else to go, which would inevitably mean flooding for Shirley Oaks residents. Also I have learned, from Meteorological Office memorandum No 80—the properties of soils in NW Europe, that the root system of grassland provides a channel through which some rainfall does manage to slowly percolate through beneath the surface even with clay soils. However, without the grassland root system the water just tends to form bodies of water lying on the surface. This effect of our grassland is very helpful in alleviating the surface water flooding in winter, which occurs when prolonged rainfall totally saturates the area, and the trees are no longer as effective at its removal.

So in conclusion:
- We need trees to mitigate effects of extreme rainfall in summer, something which will become increasingly frequent with global warming.
- We need open grassland for water to accumulate in winter when trees are less effective at water removal from the system, whilst in addition their root systems help to aid percolation beneath the soil reducing surface flooding. Over the last 40 years winter rainfall has been increasing throughout the UK.
- Soil behaviours also dictate risk of flooding. We have issues because:
1) We are on a clay soil type so low permeability and heavy rain does not soak in but floods.
2) We are on sloping ground with tendency for run off to flow south to north across the site.
3) We, also because of having a clay soil, have a high water table, so in winter many areas of the site are wet and all parts stay damp throughout. Thus water-logging very quickly occurs and there would with the proposed building work be less and less places for the water to flow to.

DM43.4
128

I am writing to you to object to the councils planned proposals Ref:541 Ref:542 Ref:548 Ref:128 Ref:504

I moved to the area with the understanding that the grass areas had protection from being built upon and I strongly object to the council proposing the new developments as referenced above. This will make the area I live in with my family crowded and I bought my property with the understanding that the grass areas would not be built on.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
First, the Council plans to de-designate the Metropolitan Open Land on either side of Shirley Oaks Road and all around Shirley Oaks Village (page 68, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals). Metropolitan Open Land has the same protection from development as the Green Belt. The Council is proposing to remove this designation so that most of this land can be used for new housing. The draft Local Plan identifies five sites:

- the land at Poppy Lane is identified as suitable for 51 to 107 homes (pages 445-446, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 128);
- Stroud Green Pumping Station, 140 Primrose Lane, including the conversion of the locally-listed pumping station, is identified as suitable for 26 to 68 homes (pages 451-452, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 504);
- land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House is identified as suitable for 80-215 homes (pages 453-454, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 541);
- land to the west of Shirley Oaks Road is identified as suitable for 88-236 homes (pages 455-456, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 542); and
- land to the rear of 5-13 Honeysuckle Gardens is identified as suitable for 59-125 homes (pages 457-458, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 548).

I will be objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
Mr Daniel James
Object
DM43.4
128
I am writing to object to the council’s proposition to allow the development at the following sites: Ref: 541, 542, 548, 128 and 504 in Shirley Oaks Village.

I have only lived on Shirley Oaks for 5 years, but one of the things I love the most is walking my children over to the grass areas so they can play. As you probably already know, our gardens are quite small so it’s really nice to have space to take full advantage of. Another thing that disappoints me, is that one of the selling points of our house, is the fact that all the land around the estate is protected from building on. I strongly disagree with any of your plans to build upon this land, and along with other Shirley Oaks residents will do my best to get our voices heard.

No change
The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface runoff from the site is reduced, and development of the site does not increase flooding elsewhere.

Ms Aileen Deeney

DM43.4
128
As a resident of Shirley Oaks Village, I wish to register my objection to the above proposals to allow the development of new homes on the designated Amenity Open Land which is available for my use and that of my fellow residents. This use was allowed by Croydon Council because of the undersized gardens which is a negative feature of the current development and which hinders enjoyment and comfort of my property. For example, it is not possible for children to play with footballs/other toys noisily without disturbing the adjoining and physically very close neighbours. You are no doubt aware that there are no nearby children’s parks. Also my garden can easily be overlooked by at least 4 sets of neighbours and which I believe is typical of the other gardens on the development. Having the Amenity Open Land available is some compensation for the above lack of privacy and if it was to be withdrawn it would have a detrimental impact on

Mr Daniel Nuthall

**Object**

DM43.4 128

I would like to object to the following Metropolitan open land proposals - Poppy Lane - Ref 128 - Stroud Green Pumping Station - Ref 504 - Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House - ref 541 - Land to the west of Shirley Road ref 542 - Land to the rear of 5-13 Honeysuckle Gardens ref 548. The Metropolitan land provide several links in the Shirley Garden Chain. Under the Planning Policy Guidance Note 9 the importance of nature conservation is stressed. This combined with the extra traffic seems unacceptable.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
Mr Donald Speakman

Site 128, Land at Poppy Lane, is identified as suitable for 51 to 107 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would totally change the character of the area and have a great impact on the local road infrastructure impacting Woodmere Avenue and Woodmere Gardens.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

---

Mr David Wilson

We wish to object in the strongest terms to the plans being discussed regarding the proposed development of land for new housing in the Shirley area, specifically the building of Gypsy/Traveller sites on our doorstep, and the inherent increase in crime and anti-social behaviour that always follows, and can be seen in many examples nationally.

Not only this, but the whole ‘Village’ feel of the area will be completely obliterated, and the very things that attracted us to move to Shirley (off Orchard Ave) will be no more. Of course people need a place to live and raise families, but time and again we have seen the resultant decline of neighbourhoods, with rubbish, noise and theft frequent occurrences. We urge you to think again and take heed of Gavin Barwells very real concerns, and those of what I’m sure are many of his constituents, and other Shirley dwellers. We are particularly concerned that you should take into account the fears of ordinary hard working people like us, who want to enjoy life (we’re not ‘oldies’) in a pleasant community, and think again about the following proposals; the land at Poppy Lane is identified as suitable for 51 to 107 homes (pages 445-446, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 128).

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

<td>DM43.4 128</td>
<td>Ref 541 Ref 542 Ref 548 Ref 128 Ref 504</td>
<td>I wish to lodge a serious objection to the proposals for the building of houses on Shirley Oaks Village. That name speaks for itself. I have lived on Shirley Oaks Village for 30 years and during that time I have paid the management company a contribution to maintain the amenity open land. The residents each own a share of the Land and over the years the open areas have been enjoyed by families for games walking and enjoying the lovely trees not to mention the wildlife. When the land was sold by Lambeth in 1984 the intention was to create a village. Has any thought been given to the effect on the infrastructure by adding 751 properties? the pressures on the roads in particular. The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.</td>
</tr>
</tbody>
</table>
The proposal to build new houses in Poppy Lane does not fall within the Strategic Objectives because:

Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise

Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.

Objective 5: This development is not high quality and will not enhance the borough’s natural environment but will reduce the natural environment by turning a green area into housing

Objective 7: This development will reduce the area as a safe, healthy and cohesive community but making the area overcrowded with residential property

Objective 10: This development will reduce the quality and accessibility of green space and nature. This development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the South Croydon area and future generation will suffer because of this. This proposed development of new housing in Poppy Lane is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with housing in the area. Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area and is not in keeping with the surrounding area. Building a travelers site will increase noise levels and ruin the character of the area and this development would overwhelm this green area.

Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions. This development would diminish the area of green fields and recreational land within the area.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Mr John Albert

Object: Soundness - Justified

DM43.4 128

As a long term resident and shareholder residing in Shirley Oaks Village, I and my partner object to the proposals to Changes to the Policy Map 43 - REF's 541, 542, 548, 128 & S04. These areas have metropolitan open land and had protection from being built on!

Our land was designated by Croydon Council in 1985, as Amenity Open Land because of our under sized gardens and transferred to the management company whom we our shareholders of and this land is for our use and want it to stay this way!! Having lived here for 20 years we do not want it further condensed by more homes and totally not fit for purpose!

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Katrina Neal

Object: DM43.4 128

As a long term resident of Shirley/West Wickham and one who has seen many changes over the years, I am strongly objecting to Poppy Lane - ref 128 for housing use. If these are not kept as MOL then at least keep them as Local Green Spaces.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
Jenny Hayden

Object

DM43.4 128

The proposals for Shirley will have a huge impact on the area, the current infrastructure is already at bursting point and the building of new homes on green spaces will add further stress to the current situation.

Ref nos, 128,504,541,542, 548... these relate to the building of additional homes. From the information available in the Council's documentation, this could be up to 800 new homes. I would like to know what sort of homes these are likely to be... social, housing associations or private... I doubt that any of them would be affordable homes for first time buyers. How will the local roads cope with the extra traffic. There will be a need for more schools, doctors' surgeries etc to support the intended increase to the local population. I would therefore like to object to the Council's decision to use these five sites for future residential development. Apart from putting extra burden on the local roads, it would also mean losing valuable green spaces. I believe any new residential development should be on brownfield sites. The addition of so many extra homes would have an adverse affect on the character of Shirley, in my opinion.

Rhodri Flower

Object

Soundness - Justified

DM43.4 128

I write with reference to your document 'Changes to the Policies Map (Policy DM43)'; and in specific reference to sites 541, 542, 548, 128 and 504. These sites are all open space surrounding the development known as Shirley Oaks Village.

I wish to object to the proposals to reclassify the land and make it eligible for planning permission and the building of homes. In my opinion it is essential to preserve the open space for the use of local residents. It is well used for recreation, dog walking etc. It is also an important part of the character of Shirley Oaks Village and would change the nature of that development.

I bought a house on Primrose Lane in June 2015 and a large factor in my decision to buy was the amount of open space available locally. I understand that Croydon Council designated this land as 'Amenity Open Land' in 1985 because of under-sized gardens in Shirley Oaks Village and transferred it to the Shirley Oaks Management Company, which has maintained it ever since. As a house owner I am a shareholder in that company.

I strongly object to your proposals.
I refer to the proposed changes to the planning policies to allow Croydon Council to build new homes on the Amenity Open Land at the above. The Amenity Open Land was granted in part, due to the extremely small rear gardens. Also I and other people in the village for many years here contributed to its upkeep at no cost to Croydon Council. To lose this land will greatly impact on the peaceful enjoyment that I and my neighbours have in using this land as well as the general impact on the area of high density building, changing the character of our village forever.

No doubt this development will result in many trees and flowers being sacrificed which help to sustain the urban wildlife such as various birds, bats, foxes, badgers and bees etc. There seems to be little consideration for this urban oasis!

Whilst I understand central government's drive for more houses, I find it hard to believe that Croydon Council needs this land in order to fulfil its housing quota, given the Westfield and other developments proposed in Croydon. There are also other lands, such as those owned by the local NHS hospital that would be suitable for development and at the same time give ready money to the NHS.

Furthermore, the existing main roads are already inadequate to service the village without adding a further 751 homes along with the years of road works that will be associated with upgrading the utilities, make travelling through the village more difficult and dangerous. I urge you to reconsider your plans.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
Mr Mark Hawkins

Object: Kindly note that as a homeowner (and shareholder) of Shirley Oaks Village, resident here for over 25 years, I am deeply concerned that Croydon Council seems to think it has the right to change the nature of the estate from being protected Metropolitan land to being unprotected land ripe for excessive building.

Not only is the green space around the current estate, a much loved feature, it also provides a sanctuary for wildlife and allows for nice walks for local people. The road was built to be narrow and already there are problems with passing places for traffic to the hospital and synagogue.

Last year the council allowed a resident to build a fence which obstructs drivers vision when turning out of Cornflower Lane and has caused several minor incidents. Simply put, the roads here were not built for traffic!

The idea of ruining my neighbourhood by cramming more housing onto unsuitable roads, lacking shops and facilities whilst depriving me of the green spaces I love and part own makes me sick to my stomach.

There are so many brownfield sites that could be built on and provide more suitable housing in and around Croydon that I feel that this attack on Shirley is politically motivated.

I formally ask the council to reconsider the proposals.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

---

Mr I Fuell

Object: Soundness - Justified

I am writing to object to:

3. The use of the following 5 sites for housing:

- Land at Poppy Lane: reference number 128;
- Stroud Green Pumping Station, 140 Primrose Lane: reference number 504;
- Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House; reference number 541;
- Land to the west of Shirley Oaks Road; reference number 542; and
- Land to the rear of 5 – 13 Honeysuckle Gardens; reference number 548.

If the Council will not keep them as Metropolitan Open Land, these 5 sites should at least be designated as local green spaces.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
Kalpana Patel Object DM43.4 128 We have got objection for above proposal. We are not happy, it would cause lots of traffic and not ideal for residents. No change

Karen Warwick Object DM43.4 128 I would like to raise my objection to the proposed land changes for the following references: Ref. 128 - Poppy Lane, up to 107 new homes. The land was designated by Croydon council in 1985 as “Amenity Open Land”, because of our under-sized gardens and transferred to the Management Company - with each property owner as a shareholder in that company. As for looking at a Gypsy site, you should have seen what a mess they made when they camped illegally at Shirley Oaks just over a year ago - it was disgusting! No change

Maureen Wilcox Object Soundness - Justified DM43.4 128 Objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). Also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn’t cope with the additional traffic. If the Council won’t keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. No change
Mr Mike Jones

Object DM43.4

The designation of the Metropolitan Open Land around Shirley Oaks Village in particular such as the use of the following for housing:-

- land at Poppy Lane
- Stroud Green Pumping Station, 140 Primrose Lane
- land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House
- land to the west of Shirley Oaks Road
- land to the rear of 5-13 Honeysuckle Gardens

Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. There is a lot of history around here and the loss of the Shirley Lodge in the late 1990s was a big mistake. Generally in Croydon there is no room for more traffic that new building will generate and judging from what I have seen around Croydon squeezed housing units with small garages not fit to store cars and little or no off street parking will only add to stress and problems in the future.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Mr Peter Newsham

Object DM43.4

I wish to register my objection in the strongest possible terms to the proposal for new housing, (ref:128), in these areas of Metropolitan Open Land, which is essential for recreational purposes in an already overcrowded place. The proposed re-designation of the land so that it can be used for high-density urban development will find no local support, but instead, a huge and vocal opposition.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Mr Michael Hewish

Object DM43.4

Please see my objections to your proposals as detailed below.

Ref: 128 Land at Poppy Lane. Poppy Lane is a private road with restricted access and is owned by Shirley Oaks Management Limited. Many previous planning applications have been refused due to the conservation value of the site. Drainage is a major problem locally, hence the Thames Water Board's Balancing Pond in the next field.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run-off from the site is reduced, and development of the site does not increase flooding elsewhere.

3580/02/002/DM43.4/D Mr Michael Hewish

Object

The designation as MOL should remain. If it is decided de-designation proceeds, the Site should be designated as local Green Space.

The proposed development of the Site in the event that the present designation remains or that re-designation takes pace as Local Green Space would not be consistent with national policy under the NPPF and such a proposal would be incompatible. The proposed approach is not appropriate nor would it enable sustainable development for the reasons set out above and those identified in respect to the objection to Policy SP7.

The highway is unadopted and is not suitable for use in relation to potential development. The proposal is therefore inappropriate. The Site is not deliverable because of the unadopted highway ownership. The highway network through Shirley Oaks is already saturated point and in any event any proposed residential development would generate an unacceptable amount of traffic.

The Site has a high water table and the area is prone to flooding which affects properties in particular at the boundaries to the land. Any development is likely to worsen this situation for those surrounding properties.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run-off from the site is reduced, and development of the site does not increase flooding elsewhere.

3591/01/003/DM43.4/D Mr Nick Barnes

Object

Soundness - Justified

Having read both local plans for the Shirley area, I strongly object to all aspects in both plans, this includes the 750 new homes on Shirley Oaks Village, 35 new homes in Shrublands, the two gypsy sites at Combe Fram and Conduit Nursery and the development for up to four storeys along Wickham Road.

None of these plans will benefit Shirley and I object to them all.
I am objecting to the proposal for de-designation of this area as Metropolitan Open Land. The council has consistently denied planning permission to successive owners of this land since The London Borough of Lambeth abandoned it as their tree nursery, because of damage to mature trees and the high water table. I can see no reason to change this. It forms a vital wildlife link between Ashburton Playing Fields via the back gardens of Woodmere Avenue behind Shirley Oaks hospital to the other green spaces around Shirley Oaks. This can be clearly seen from satellite photographs.

No change  The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Site 128, Land at Poppy Lane, is identified as suitable for 51 to 107 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would total change the character of the area and have a great impact on the local road infrastructure impacting Woodmere Avenue and Woodmere Gardens.

No change  The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

I object to the Councils proposal to de-designate the Metropolitan Open Land of Shirley Oaks Road and Shirley Oaks Village as the local infrastructure could not cope.

No change  The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
Ms J Stokes

Object

DM43.4

I object to the proposals to completely change Shirley Oaks Road which is a green lung for that part of the Borough. The amount of car ownership will rise significantly as the bus service is infrequent. The traffic will clog up the Wickham Road even more than now. St. John’s school has already plans for more classrooms and the intake will rise in all the local schools. Also pulling down established houses and putting up more flats is detrimental to the character of the area. We had a once in a lifetime chance to improve the look of Croydon, on a human scale. Instead of which we are building hideous tower blocks, while in other parts of the country they are pulling them down. Nobody should have to raise a family in a block 44 stories high. They will eventually become the slums of the future.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Jenny Tighe

Object

DM43.4

Development of these sites will have a negative impact on the local area by changing the character of Shirley, and well as being a loss of green space, wildlife habitat and a vital green corridor.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Mrs J Middleton

RE: LAND ON EITHER SIDE OF SHIRLEY OAKS ROAD, SHIRLEY OAKS VILLAGE, POPPY LANE, STROUD GREEN PUMPING STATION, COOMBE FARM, COOMBE LODGE NURSERIES off Conduit Lane, land west of Shirley Oaks Road, rear of 5-13 Honeysuckle Gardens OBJECTION TO DE-DESIGNATION GREEN BELT ; SHIRLEY, NEW ADDINGTON, FOREST HILL

We have lived in the Borough of Croydon for 30 years and value its vibrancy and diversity.

As Croydon ratepayers we object to the de-designation of Metropolitan Open Land generally, especially land detailed above, which will change forever Croydon's character.

We would ask you to encourage policies/development to:

1. Build new housing on brown field sites by means AND preserve invaluable green space for the benefit of the community of Croydon; 2. Protect green belt land and preserve the green corridors we desperately vital for wildlife and biodiversity; 3. Amend the tall buildings policy and keep the tallest building zone where it is suited in the centre of town; 4. Utilise brownfield sites for new low-level housing only where it can be developed alongside new GP surgeries, schools and improved public transport; 5. Traveller sites are not appropriate in the green belt and is a clear breach of Planning Policy for Traveller Sites. When travellers camped on Addington Playing Fields in 2012/13 they left rubbish, debris, waste, and deterioration to a local green space. Sadly true of most traveller sites.

"Nowadays people know the price of everything and the value of nothing", Green Belt is vital and precious. Once lost for future generations and will not be replaced by developers.

We understand the need for housing, schools, hospitals and infrastructure. Are the Developers investing these also alongside their building investments?

Please protect our few remaining green spaces on the borough map, by making better use of brown field sites.

No change
Mr & Mrs Barnes

Object

We are also writing to object to Croydon Council’s plans to de-designate the Metropolitan Open Land on either side of Shirley Oaks Road and all around Shirley Oaks Village, changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan:

We are objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). If the Council will not keep it as MOL, it should at least designate it as Local Green Space so that it has some protection. We are also objecting to any of these five sites being used for residential development.

Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure could not cope with the additional traffic.

The land does not meet the criteria for designation as Metropolitan Open Land. It has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
I am writing this email to voice my deep concern about the planned development in the private estate that I have lived in for many years, namely:

Ref 541, Ref 542, Ref 548, Ref 128 and Ref 504 – all on Shirley Oaks Village private estate.

Firstly, it would have been nice to be informed about any planning ideas in writing rather than see small notices pinned to lamp post around the estate. I would also like to draw your attention that our land was designated by Croydon Council in 1985 as ‘Amenity Open Land’ for the residents and for which we pay a quarterly fee for maintenance of the green open land, but more importantly can I bring to your notice that this land was transferred to the Shirley Oaks Management Company, with each property owner as a shareholder in that company. This land is for our use and not for developing a concrete jungle on every single green inch of land in Croydon.

The Shirley Oaks estate has a great community spirit and has become a real sought after location for families to live due to the community nature and the lovely open land that we have, by developing on this land you will be taking away all of the good that has been built up over the years by the many residents we have as well as making the village overcrowded, bringing in more traffic thus resulting in more danger on the main Primrose Lane for people crossing and driving, congestion for parking and so on. I can also bring to your attention that we have already had a couple of fatalities on that main road that runs through the village and this will make it worse for the safety of our kids.

I am sure you have now had many hundreds of emails from residents like myself voicing the same concerns with your planning proposals!

This land belongs to us as residents so I feel its harsh to take this away and start your own developments.
3785/01/006/DM43.4/O Jenny Greenland

3844/01/002/DM43.4/O Lee Kirby-Walker

Object DM43.4 128

I am writing to object to:
The use of the following five sites for housing:
- Land at Poppy Lane reference number 128
- Stroud Green Pumping Station, 140 Primrose Lane reference number 504
- Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541
- Land to the west of Shirley Oaks Road reference number 542
- Land to the rear of 5-13 Honeysuckle Gardens reference number 548

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated a Local Green Spaces.

No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

3845/01/002/DM43.4/O Mr M Foster

Object DM43.4 128

I wish to lodge an objection to all five sites where the decision to de-designate this land as Metropolitan Open space land and to build housing open them, not only would we be losing vital open space and change the very character of the area, I believe the local road infrastructure would not cope with any more traffic, why must the council continual to try and ruin areas that people like.
At the moment this area as a rural feel to it, nice green spaces and a open aspect which we would loose if these plans were to go ahead.
I would ask the council to think very hard before implementing these plans before we have another area that people want to move out of instead of to, these plans will not improve the area quite the reverse, where at the moment people like to live here.

No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
Miss Rebecca Thomas

I email to express my formal concern and objection to the proposal to build additional housing in the green areas of Shirley Oaks Village. I currently reside in Beckenham, 1 Hamilton House, Orchard Way, BR33ER, on the Shirley border and was previously a resident of Shirley for 30 years. The addition of these houses will not only bring down the areas reputation, spoil views from current properties but also cause additional congestion to an already busy area. We should be looking to preserve our green areas, and Shirley Oaks Village should remain just that, a village! I believe that the Wickham Road has already been flagged as one of the busiest roads in the area, with a fatal road accident occurring both this year and last. Additional housing/congestion will only add to this danger. This proposal will cause residents of the local area to be driven from their homes unfairly, I am sure that they did not purchase properties to be overlooked and to lose the view of the land that they have been paying to maintain for, in most cases, a number of years. I am contactable on my home address/phone should wish me to validate my views further.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Ms M Torres Ward

I am writing to express my objection to the planning proposals in the Shirley Oaks area. The land has been set aside for our use as we have very undersized gardens on the estate and we have also paid to keep those areas in a well maintained condition. The road around Shirley Oaks only has 2 exits as well, so would make it very congested as there are only 2 options for traffic to leave and enter and there are already a lot of problems at the Wickham Road end as people drive in and out.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
With regard to the ‘very scant’ notices that have been posted on Shirley Oaks Village in places that are not in visible of all residents, I must object VERY STRONGLY to these plans. 

1. The land is owned by the residents with a covenant on it. Our houses are condensed with tiny gardens, the compensation for which is the open ground (owned by all residents) that we are able to use. My understanding is that the original development was curtailed by the then council because of the density of housing/population on Shirley Oaks.

2. Drainage on Shirley Oaks is very poor. I am given to understand that the water table is very high and indeed during the winter months the open spaces are sodden, holding water which could probably present a flooding problem. It is so bad in some places that the ducks move in!

3. Could the services (sewerage etc) really support the number of properties proposed? There have already problems from time to time, especially down Shirley Oaks Road.

4. Realistically, whatever type of property would be built, you could expect an average of two cars per dwelling. Shirley Oaks Road/Primrose Lane are extremely hazardous and would not be able to sustain another probably 500/1000 cars. Where would people park.

5. Planning permission has been refused for the plot in Poppy Lane (128) a number of times. The area was declared as a nature reserve some time back and I was unaware that this had changed. Part of the reason for the last planning application was the high water table, so how come there has been a change of mind?

Soundness - Justified

DM43.4

128

Every year we get proposals and consultations for building more homes or structures on Shirley Oaks green land. But must admit the above proposal is the worst and the most ridiculous so far. From what we read, the proposal suggests to build around 750 new homes on what’s left of green patches in the village.

The village is already over crowded with Shirley Oaks road and Primrose road looking like a huge PARKING LOT throughout the day. One cannot begin to imagine what it would like with more residents and obviously with at least double the number of cars to that of the number of the new homes proposed.

We bought our property back in 1989, paying above market value at the time, for the sole purpose that the village is quiet and has some green land. Our home was one of the last phases of any buildings to be erected in the village, or so we were promised and confirmed in writing. Since then, a synagogue was built, bus 367 goes through the narrow winding road, every year for the last few years we get proposals to use our green land for one suggestion or another and now this proposal.

We completely oppose this proposal and hope that the council will appreciate that it’s not all about the money and just building more houses, but quality of life matters just the same. On one hand the government and councils encourage and push people to plant more trees, grow their veg, recycle etc... Yet on the other hand come up with proposals to use every last green patch to build more structures and homes. Doesn’t make any sense.
3897/01/03/DM43.4/O Cllr M Neal

Object DM43.4 128

Site 128, Land at Poppy Lane, is identified as suitable for 51 to 107 homes. This land should not be de-designated as Metropolitan Open Land as it is a vital green corridor between Shirley Oaks and the surrounding areas, providing much loved and well used amenity space. This would totally change the character of the area and have a great impact on the local road infrastructure impacting Woodmere Avenue and Woodmere Gardens.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

3899/02/003/DM43.4/O Ms E Rudduck

Object DM43.4 128

I object to the use of the Land at Poppy Lane reference number 128 for housing:

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces.

Developing these sites with the amount of homes suggested would increase the volume of traffic in an area which is already congested in morning and afternoon rush hours and would put increased pressures on local schools and public transport.

I am aware that more affordable houses are needed but please reconsider these plans which will totally change the area in which we have chosen to live and definitely not for the better.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

3901/01/002/DM43.4/O Mr & Mrs Frederick Banjo

Object DM43.4 128

As property owners/Residents and shareholders in the company that manages Shirley Oaks Village, we are writing to state our objection to the above mentioned proposal.

The land/s in question is designated as 'Amenity open Land' for the use of the property owners and residents of Shirley Oaks Village and must not be built upon.

The proposal to build on these lands will simply destroy the peace & tranquility of the village. The enjoyment of the open land by residents will be lost not to mentioned the increased traffic situation amongst other things.

We strongly object to these proposals to build upon these lands.

Objection to development of site 128

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere. Any development proposals that come forward will need to comply with all the policies of the Local Plan which included providing transport assessments for major development.
### Ms A Smithers

**Object**

I am emailing to object to the following proposal ref 128. I object to this as Shirley oaks village and surrounding areas are lovely and people go there for their green space to walk their dogs and have a nice time. This would ruin the whole area and what it currently stands for and I amongst many will be upset if the green areas are built on.

**No change**

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

### Mr & Mrs Peter & Brenda Mullings

I am a resident of Shirley and strongly object to the current proposals to build on green belt land on the Shirley Oaks and surrounding areas.

There are plenty of brown sites that are unoccupied and could fulfil the purpose of providing new homes. Shirley is already tight for school places. St John’s, in Spring Park Road, is increasing to 2 form entry already with the number of children living locally requiring education. The 367 bus serving the Shirley Oaks Village is infrequent and much more transport will be required. Parking is already a nightmare and with the lack of parking contemplated with the new build supply the problem will only get worse. There will be an incredible build up of traffic on the already congested Wickham Road and other local roads.

I believe this proposed building of traveller's sites and homes will change the whole ethos of Shirley and cause resentment and the lowering of living standards. This is a particular area of standard housing and should not be changed by the building of blocks of houses. Garden land should not be built on and this is an inappropriate development and should not be allowed to go ahead. Metropolitan Open Land has the same protection as the Green Belt and the rules should be followed accordingly.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

DM43.4

128

I object to the decision to de-designate this land as metropolitan open land for the use of residential development for the following reasons. These areas are also being used every day and regularly by myself, family members, neighbours, friends and many visitors wanting to take there dog for a walk or spending time with family and kids. Ref 548, 542, 541, and 128 are owned by Shirley oaks management. 488 residents are shareholders in this company. There was a decision in 1985 for this land to be open for use by the local residents because the gardens of all homes were considered small. I would also like to mention the increase in road traffic and pollution due to the development. So for those reasons I would once again like to object to building on this land.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Ms S Ilpa

DM43.4

128

The use of the following five sites for housing: land at Poppy Lane site reference number 128, Stroud Green Pumping Station, 140 Primrose Lane site reference number 504, land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House site reference number 541, and to the west of Shirley Oaks Road site reference number 542; and land to the rear of 5-13 Honeysuckle Gardens site reference number 548. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas and change the character of this area.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Patricia Wood

Object

Soundness - Justified

DM43.4

128

I am writing to object to the de-designation of Metropolitan Open Land around Shirley Oaks Village; in particular to the use of the following five sites for housing:

i) land at Poppy Lane reference number 128

ii)Stroud Green Pumping Station, 140 Primrose Lane reference number 504

iii)land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541

iv)land to the west of Shirley Oaks Road reference number 542

v) land to the rear of Honeysuckle Gardens reference number 548

If the Council cannot keep this land as Metropolitan Open Land, these five sites should be at least designated as Local Green Spaces.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
Mr P Andrews

Object: Soundness - Justified

DM43.4

I wholly disagree with the plans to develop the land on Shirley Oaks Village.

This is metropolitan land and will not be built on.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Mr P Fitzpatrick

Object: Soundness - Justified

DM43.4

I am therefore writing to formally object to:

1. de-designation of the Metropolitan Open Land around Shirley Oaks Village;

2. the use of the following five sites for housing:

   - land at Poppy Lane REFERENCE NO. 128,
   - Stroud Green Pumping Station, 140 Primrose Lane REFERENCE NUMBER 504;
   - land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House REFERENCE NUMBER 541;
   - land to the west of Shirley Oaks Road REFERENCE NUMBER 542, and
   - land to the rear of 5-13 Honeysuckle Gardens REFERENCE NUMBER 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building houses on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built upon. Why has Shirley Oaks been singled out in this way?

- Land to the rear of 5-13 Honeysuckle Gardens, ref 548

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

---

Object

Objecting to the decision to de-designate this land as Metropolitan Open Land (MOL). Also be objecting to any of these five sites being used for residential development. Not only would this entail the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of the area, the local road infrastructure couldn't cope with the additional traffic.

If the Council won't keep it as MOL, it should at least designate it as Local Green Space so that it has some protection.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

I am emailing to object to the following proposal ref 128. We don't want building on the green areas in Shirley Oaks people live there because they have choose a quiet place with green areas good for their mental and physical well being. This is a place for others to enjoy as well as residents there is no where else the same as this in Croydon.

---

Mrs S Hilu Abdo  

**Object**  

DM43.4  

**128**  

Ref: 541, 542, 548, 128 and 504 in Shirley Oaks Village I was shocked to learn about the changes proposed to our grass areas. These changes, if implemented, will change the very nature of our village. It will not only deprive the residents of very essential open green areas, but it will make the whole place very crowded, much more polluted and quite uglier. This would rob us of essential attractions that made us come to this village in the first place. I strongly object to any of these changes and trust that every resident on this estate feels the way I feel. I did not speak to everyone, but the many I spoke with feel as strongly as I do towards this unfair proposal. I have been living in this village with my family since 1985, I would like to see the Croydon Council improve it rather than ruin it. I hope the Council will reconsider its plans.
I am grateful to the Council for consulting on the detailed policies and proposals that will make up the Croydon Local Plan. There is much in the document that I agree with, but some of the proposals would, in my opinion, change the character of parts of Croydon very much for the worse. I hope you will forgive me if I focus on these areas of contention. I am therefore writing to formally object to:

1. de-designation of the Metropolitan Open Land around Shirley Oaks Village;

2. the use of the following five sites for housing:
   - land at Poppy Lane reference number 128;
   - Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
   - land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
   - land to the west of Shirley Oaks Road reference number 542; and
   - land to the rear of 5-13 Honeysuckle Gardens reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

3. the use of the following locations as gypsy/traveller sites:
   - Coombe Farm off Oaks Road reference number 502;
   - Coombe Lodge Nurseries off Conduit Lane reference number 661; and
   - Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane reference number 756.

As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site...
of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

“Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.

The Council’s approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is);

4. Focussed intensification associated with gradual change of an area’s local character under Policy DM31.4 of the Shirley Road Shopping Parade, Shirley local centre and Forestdale. Shirley Road Shopping Parade is surely worthy of protecting rather than replacing with medium-rise blocks? Shirley local centre is defined not just as a stretch of the Wickham Road (where some intensification may be appropriate) but Ridgemount Avenue, Wickham Avenue, Peregine Gardens, West Way Gardens, the northern section of Hartland Way and the western parts of Bennetts Way and Devonshire Way. Replacing the largely semi-detached buildings in these residential roads with medium-rise blocks would completely change the character of Shirley. Replacing the largely terraced housing and small blocks of flats in Forestdale with medium-sized blocks would completely change that area too;

5. Policy DM2 on development on garden land, which is too subjective and therefore too weak. There should be a much stronger presumption against development on garden land;

6. Policy DM28, which should allow higher levels of parking in developments of low public transport accessibility. Restricting parking spaces in such areas doesn’t lead to fewer people owning their own car; it just leads to greater competition for existing spaces.
Mr Matt Knight

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
As residents whose small rear garden backs onto part of the Shirley Oaks Metropolitan Open Land, we know full well what impact proposals 128, 504, 541, 542 and 548 would have to the area.

There would be an increase in noise from 1) the building work, 2) increased traffic.

There would be a substantial impact on the road system. Wickham Road already gets gridlocked at rush hours and school start/end times. The roads into Shirley Oaks are already too narrow for cars to pass if there are any cars parked, which there are always many of since the majority of driveways are too short to accommodate reasonable size car parking for many.

Shirley Road also has a problem with queuing traffic towards Long Lane which will also be compounded by these proposals.

These developments would increase the drainage issues this area suffers from. The whole area is built on London clay and regularly these areas suffer standing water which has gone through our property in the past. Increasing the density of building in Shirley Oaks will increase this problem too.

The lands around Shirley Oaks remain because of the compact nature of the village, whose properties, as well as our own, have small garden areas and as such these areas are used daily for sports activities, exercise and dog walking.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

The de-designation of Metropolitan Open Land status on Shirley Oak will be vigorously opposed. I can see no reasoned explanation in the planning document for such a course of action nor is there any evidence of the thinking of the Council in the previous plan or 2012 Inspector's Report to explain how MOL status has been revisited with the conclusion that MOL designation be withdrawn. It also seems to have escaped the planning process that Shirley Oaks is governed by a Section 52 Agreement under the 1971 Town and Country Planning Act controlling development of the 'amenity lands' on Shirley Oaks. Further, the land is owned by the 488 Shirley Oaks resident property owners as shareholders of Shirley Oaks Management Ltd that owns the land. There is, therefore, no likelihood of the land ever being sold voluntarily. In summary, this part of the proposed Local Plan is undeliverable.
We are writing to object to the proposals to:
1. De-designate the Metropolitan Open Land around Shirley Oaks Village.
2. The use of the following sites for housing:
   - Land at Poppy Lane reference number 128;
   - Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
   - Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
   - Land to the west of Shirley Oaks Road reference number 542;
   - Land to the rear of 5-13 Honeysuckle Gardens reference number 548;

The Shirley Oaks Village site currently provides a balance of high density housing offset by areas of green space. The proposals for de-designation of the Metropolitan Open Land and additional housing on the areas of green space would disrupt that balance and greatly increase the density of housing to an unacceptable level. Access to the Shirley Oaks site is by way of Poppy Lane and Shirley Oaks Road which feed into Shirley Road and Wickham Road respectively. Both Shirley Road and Wickham Road are used heavily throughout the day and subject of long delays particularly at peak times. This has resulted in Poppy Lane and Shirley Oaks Road experiencing heavier traffic flows than they were designed for as commuters cut through between Shirley Road and Wickham Road. Public transport within the Shirley Oaks site is limited to a small single decker bus due to the road infrastructure and road system. Whilst there are bus services which serve Shirley Road and Wickham Road these are already oversubscribed and subject to delay due to existing traffic congestion.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
Mr Trevor Watkins: The use of the following five sites for housing: land at Poppy Lane site reference number 128, Stroud Green Pumping Station, 140 Primrose Lane site reference number 504, land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House site reference number 541, and to the west of Shirley Oaks Road site reference number 542; and land to the rear of 5-13 Honeysuckle Gardens site reference number 548. If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas and change the character of this area.

Carol Holmes: I object to both the de-designation and also to the subsequent house-building at the following sites:

- Land at Poppy Lane (reference number 128);
- Stroud Green Pumping Station, 140 Primrose Lane (reference number 504);
- Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House (reference number 541);
- Land to the west of Shirley Oaks Road (reference number 542);
- Land to the rear of 5-13 Honeysuckle Gardens (reference number 548).

The very minimum designation for the proposed sites should be as Local Green Spaces, in order to give some protection against over-development.

Mr B Williams: I object to the de-designation of the land as Metropolitan Open Land and its proposed use for housing. The open spaces are collectively designated as Metropolitan Open Land and provide several links in the Shirley Green Chain. They help to form the sort of network necessary to ensure the maintenance of the current range and diversity of our flora and fauna. In addition this is a floodplain. There is a sink pond to the rear of Honeysuckle Gardens and if this overflows any properties would be flooded. There is also the potential for flooding of future planned properties. The one road through Shirley Oaks Village could not cope with the additional traffic and its exit on to the A232 would cause yet another bottleneck on this already congested road.
I am writing to object to the following matters in this document:

2. the use of the following five sites for housing:
   a) Ref No. 128 — land at Poppy Lane
   b) Ref No. 504 — Stroud Green Pumping station
   c) Ref No. 541 — land to the east of Shirley Oaks Road and to the rear of Ash House and Beech House
   d) Ref No. 542 — land to the west of Shirley Oaks Road
   e) Ref No. 548 — land to the rear of 5-13 Honeysuckle Gardens

If the Council do not keep these sites as Metropolitan Open Land, then at least these five sites should be designated as Local Green Spaces.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
Mr & Mrs King

Object

DM43.4

128

3. Proposed Policy DM43 De-designation of Metropolitan Open Land around Shirley Oaks Village. I object to the de-designation of Metropolitan Open Land in the vicinity of Shirley Oaks Road and Shirley Oaks Village. The land should be at least be designated as Local Green Space, for its protection from development.

This open space provides a green corridor between Shirley Oaks and the surrounding areas, and should be retained in its present form.

I also object to the following specific proposals for the building of new homes on this site, as detailed in Changes to the Policies Map arising from Proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan, Detailed Policies & Proposals:

Policy DM43, reference Site 128 to build new homes at Poppy Lane

Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the local schools are over-subscribed as well as the already stretched social and healthcare facilities would be overloaded.

For the reasons given above:
1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability to meet the needs of future generations.
4. I recommend that consultation documents of such importance am given much wider publicity.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
Object DM43.4

I object to the de-designation of Metropolitan Open Land in the vicinity of Shirley Oaks Road and Shirley Oaks Village. The land should be at least be designated as Local Green Space, for its protection from development.

This open space provides a green corridor between Shirley Oaks and the surrounding areas, and should be retained in its present form.

I also object to the following specific proposals for the building of new homes on this site, as detailed in Changes to the Policies Map arising from Proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan, Detailed Policies & Proposals:

Policy DM43, reference Site 128 to build new homes at Poppy Lane

Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local mad infrastructure would not be able to cope with the additional traffic. Also, the local schools are over-subscribed as well as the already stretched social and healthcare facilities would be overloaded.

For the reasons given above:

1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability to meet the needs of future generations.
4. I recommend that consultation documents of such importance are given much wider publicity.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

I am writing to object to the following matters in this document:–

2. the use of the following five sites for housing:
   a) Ref No. 128 — land at Poppy Lane
   b) Ref No. 504 — Stroud Green Pumping station
   c) Ref No. 541 — land to the east of Shirley Oaks Road and to the rear of Ash House and Beech House
   d) Ref No. 542 — land to the west of Shirley Oaks Road
   e) Ref No. 548 — land to the rear of 5-13 Honeysuckle Gardens

If the Council do not keep these sites as Metropolitan Open Land, then at least these five sites should be designated as Local Green Spaces.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
The Judge Family

Object DM43.4 128

3. Proposed Policy DM43 De-designation of Metropolitan Open Land around Shirley Oaks Village. We object to the de-designation of Metropolitan Open Land in the vicinity of Shirley Oaks Road and Shirley Oaks Village. The land should be at least be designated as Local Green Space, for its protection from development.

This open space provides a green corridor between Shirley Oaks and the surrounding areas, and should be retained in its present form.

We also object to the following specific proposals for the building of new homes on this site, as detailed in Changes to the Policies Map arising from Proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan, Detailed Policies & Proposals:

Policy DM43, reference Site 128 to build new homes at Poppy Lane

Not only would these developments entail the loss of the green corridor between Shirley Oaks and the surrounding areas, the local road infrastructure would not be able to cope with the additional traffic. Also, the local schools are over-subscribed as well as the already stretched social and healthcare facilities would be overloaded.

For the reasons given above:

1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability to meet the needs of future generations.
4. I recommend that consultation documents of such importance are given much wider publicity.

No change

2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability of future generations to meet their own needs.
4. I recommend that consultation documents of such importance are given much wider publicity.

No change The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
I object to the use of the land at Poppy Lane reference number 128 for housing:

-land at Poppy Lane site reference number 128;
-Stroud Green Pumping Station, 140 Primrose Lane site reference number 504;
-land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House site reference number 541;
-land to the west of Shirley Oaks Road site reference number 542; and
-land to the rear of 5-13 Honeysuckle Gardens site reference number 548;

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces;
I object to the use of the following five sites for housing - land at Poppy Lane reference number 128; Stroud Green Pumping Station, 140 Primrose Lane reference number 504; land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541; land to the west of Shirley Oaks Road reference number 542; and land to the rear of 5-13 Honeysuckle Gardens reference number 548; If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. The Council should focus on developing other land in the Croydon borough such as unused office blocks, derelict corporate buildings/factories/warehouses which have not been occupied for years instead of attacking the green areas which are enjoyed by the residents in their respective areas. The proposals to build circa 700 houses in such a small area will cause the following detrimental effects to the local residents: depreciation of the value of the houses purchased in the relevant areas, too much strain on the water and sewerage systems in the locality where there is already a high water table. This could result in undue flooding and drainage problems, structural problems in years to come as the land is not fit for such intensive building, increase in traffic on Shirley Road, Wickham Road, Lower Addiscombe and Addiscombe which is already congested. This will unduly increase pollution levels which are already toxic. This will undoubtedly cause an increase in the health problems of the people in the locality such as lung cancer and other respiratory illnesses which will in turn place greater stress on the NHS services, cause more people to take sick days which will result in lower incomes obtained and eventually less tax revenue generated. This will have a knock on effect on the economy which is to say at the very least, bleak, the three green spaces in the Shirley Oaks Village are owned by the 488 Freeholders. Each Freeholder owns one share in the nominee company, Shirley Oaks Management Limited which owns the land on behalf of its shareholders. Building upon this land would serious undermine the value of the land purchased by the Freeholders and reduce quality of life. If the residents wanted to move, it would prove near impossible because of the resulting lower sale prices of their respective houses imposed by the Council's building plans. This would appear to be unfair for the Council to impose
such hardship on the residents. I would urge the council to build upon land in the Croydon borough which is derelict and contains buildings which have not been used for years. These buildings can be knocked down to build the much needed housing for generations to come. These unused or derelict buildings serve no purpose to the local residents and are of no value to the residents. The Council should endeavour to create value where it is needed. This will in turn improve the condition of the abandoned areas. This will also prevent squatting and other unlawful uses of such buildings. I witnessed one example last year where the old post office building next to East Croydon Station was used as a rave containing over 1,000 people. This posed a risk to the safety of the passers by and the increase in crime. The Council’s redevelopment of such spaces could be highly beneficial to the area. The green spaces are however of great importance to the local residents. The residents enjoy these spaces for walking their dogs, recreational and outdoor activities, space for children to play, piece of mind for the resident who works in the city and comes home to a peaceful environment and it provides space for those residents who already have very small back gardens.

7284/01/003/DM43.4/0 Dr I Jayamanne

Object    Soundness - Justified
DM43.4 128

I wish to protest vehemently about your plans to destroy Shirley which is a village by building hundred of homes and setting up a Gypsy and Traveller site. You will destroy the Green Belt and increase the traffic in the area thus polluting the environment and the air we breathe.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
The use of the following five sites for housing:

- Land at Poppy Lane (ref number 128)
- Stroud Green Pumping Station, 140 Primrose Lane (ref number 504)
- Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House (ref number 541)
- Land to the west of Shirley Oaks Road (ref number 542) and land to the rear of 5-13 Honeysuckle Gardens (ref number 548)

When the London Borough of Lambeth closed the children’s home, known as Shirley Oaks, Croydon Council determined to keep the building redevelopment of the site broadly in line with the building density that had existed for most of the previous hundred years and subsequent applications by the then developer for increased housing density were rejected. There were a number of reasons for maintaining the original policy amongst which were the need to maintain the established green corridor, retain the character of the area and to maintain the surrounding traffic volumes at a manageable level. The decision to designate the land as Metropolitan Open Land was to ensure that in future further building on the land could not take place thus re-affirming the principles established by the original policy decisions. Nothing has changed in the ensuing years to justify any variation to that policy.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
I am dismayed at the consideration being given to the above, particularly concerning that proposed in the Shirley area.

I have been a Shirley resident for almost 30 years and to date have enjoyed what the area does offer both for the community and with regard to open green spaces, which are precious to the health and wellbeing of all ages. Why should future generations be unable to continue to benefit from an outdoor environment as hitherto?

I strongly object to de-designation of the current Metropolitan Open Land and would hope that at least it could be protected as Local Green Space with regard to future development.

This is particularly pertinent with regard to the proposals being considered for the Shirley Oaks area. The present road infrastructure through the estate leaves a lot to be desired and any more traffic will be a great cause for concern, to say nothing of the loss of wildlife and spacious living. If we had wanted to live in a highly densely populated area, we would not have chosen the Shirley area to relocate into, rather the centre of the town. The redevelopment of brownfield sites is more acceptable and there must be many of these in the Croydon area to develop without encroaching on valued green spaces.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
I wish to formally object to:

1. All the proposed policies relation to the re-designation of land to allow building development at Shirley Oaks Road and land around Shirley Oaks Village.
2. The land at Poppy Lane (reference 128)
3. Stroud Green Pumping Station, 140 Primrose Lane including the conversion of the locally listed pumping station (reference 504)
4. Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House (reference 541)
5. Land to the West of Shirley Oaks Road (reference 542)
6. Land to the rear of 5-13 Honeysuckle Gardens (reference 548)

These proposals are NOT appropriate for Croydon to meet its Strategic Objectives. Additionally the proposals are NOT DELIVERABLE or SUSTAINABLE as:

- Croydon have already announced that it is not necessary to deliberately destroy MOL to reach their housing requirements.
- National and London Plans do NOT require or expect Local Authorities to degrade MOL to generate additional housing.
- The loss of this MOL will entail the LOSS of a vital green corridor between Shirley Oaks through to Ashburton Playing fields, across to South Norwood Park and surrounding Areas.
- The above areas are vital to sustain the drainage of surrounding flood areas.
- The above mentioned areas are referred to the "lungs of Croydon" as they sustain carbon dioxide capture (photosynthesis), oxygen release (photosynthesis) and biodiversity. Local wildlife includes badgers and bats.
- Green areas increase the character, desirability and amenity of residential areas.
- Green areas have a strong positive impact of the character of surrounding residential areas.
- The proposed increase in housing will put an additional burden on public transport, roadways and street parking and other services. The additional volume of traffic will create additional road hazards.

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
Mr John Carley

Object: Soundness - Justified

I object to the de-designation of the Metropolitan Open Land around Shirley Oaks Village, reference Numbers 128, 504, 541, 542 and 548. This is currently Green Space and provides vital green recreational area and buffer between Shirley Oaks and the surrounding area.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Mr Steve Westray

Object: DM43.4

The de-designation of Metropolitan Open Land around Shirley Oaks Village and either side of Shirley Oaks Road. At present I understand that Metropolitan Open Land has the same protection as the Green Belt and I believe that it is vitally important to retain the controls around our green spaces in Shirley. If any additional homes were to be considered for this area then they should be restricted in number and carefully planned in order to retain the character of this area. The idea of building up to 750 new homes is totally out of keeping with this objective and would be considerable strain on local infrastructure and resources. New housing on this scale would lead to a significant increase in traffic along the Wickham Road which is already extremely busy not only servicing the residents of Shirley but as an important thoroughfare into Croydon.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Mrs Ann Sebire

Object: DM43.4

I am writing to object to;
2. The use of the following five sites for housing
a) Land at Poppy Lane reference number 128
b) Stroud Green Pumping Station reference Number 504
c) Land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541
d) Land to the west of Shirley Oaks Road reference number 542 and
e) Land to the rear of 5-13 Honeysuckle Gardens reference numbers 543

I just hope that there has been enough consideration about the fact that Shirley is built on springs and Heron Homes and Wren both had problems with flooding the area down at Woodmere Avenue.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
Mrs Olive Garton

Object DM43.4 128

Use of formerly open land for housing (references 128, 504, 541, 542 and 548): Again, this open land should not be lost. Furthermore, there is no infrastructure in place to support the huge increase in population density that such development would represent. Development of the site of the former pumping station (reference 504): It was established at the time the Shirley Oaks village was built that this land could not be built on, as there is an Artisan well on the land and any development would risk polluting the water source. Furthermore, a 'travellers’ site would be inappropriate on this site.

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Mrs M Davies

Object DM43.4 128

I am writing to object to the proposed use of:
- the land to the east of Shirley Oaks Road (541)
- the land to the west of Shirley Oaks Road (542)
- the land at Poppy Lane, Shirley Road (128)
- Stroud Green Pumping Station, 140 Primrose Lane (504)
- Land to the rear of honeysuckle gardens (548)
- Open space land at shrublands estate (938)

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.

Mr & Mrs K Davenport

Object DM43.4 456

Soundness - Justified

I am horrified at the proposals regarding Shirley. There may be a need for more housing but there are alternatives and it is up to the Council to find these rather than making it easier and more profitable for builders which is what is now happening.

Change

The site is unlikely to be deliverable during the Plan period due to there being long leasehold flats on the site and as such will not be carried forward.

Mrs M Davies

Object DM43.4 128

I am writing to object to the proposed use of:
- the land to the east of Shirley Oaks Road (541)
- the land to the west of Shirley Oaks Road (542)
- the land at Poppy Lane, Shirley Road (128)
- Stroud Green Pumping Station, 140 Primrose Lane (504)
- Land to the rear of honeysuckle gardens (548)
- Open space land at shrublands estate (938)

No change

The land does not meet the criteria for designation as Metropolitan Open Land, it has no public access, and there is a willing landowner, so it is considered developable subject to consideration of specific site circumstances including ensuring that development of the site incorporates sustainable urban drainage systems such that surface run off from the site is reduced, and development of the site does not increase flooding elsewhere.
Object  DM43.4  456

I was horrified to learn that Shirley Garden Centre is a proposed building site for the council. First of all there is very little room for the number of flats that is being proposed. If you were to build on the actual centre itself it would completely block the light to my flat and those next to me. We already know how gloomy winter can be and this would not help with anxiety and depression. There is a greater risk of flooding with that many more flats, not to mention (I am not sure if you are aware) that there are 6 flats on top of the garden centre already. Do you plan to knock these down? If not and you plan to build in the car park this brings yet ANOTHER issue as to parking, there is already a parking problem with 30 flats on the Cranwell Court site not least if you bring in more flats. I think this is a terrible idea and surely somewhere else would be more feasible.

Change

The site is unlikely to be deliverable during the Plan period due to there being long leasehold flats on the site and as such will not be carried forward.

Object  Soundness - Effective  DM43.4  456

1. Currently the flats from 13-24 Cranwell Court will have their light blocked as there is currently no buildings in that area.
2. Risk of flooding - with all the building on this site and Shirley Oaks can all the drains cope?
3. Harm to wildlife
4. This is a busy red route area and the increased housing can only put more strain on the already busy Wickham Road.

Change

The site is unlikely to be deliverable during the Plan period due to there being long leasehold flats on the site and as such will not be carried forward.

Comment  Soundness - Effective  DM43.4  456

Our house was originally part of the garden centre and the home of the garden centre owner. The deeds to the house state that the land is transferred “Together with the right of way for all purposes and at all times over the roadway leading from the garage at the rear of the property into 104 Wickham Road”. The plans for intensification of residential development (elsewhere in Shirley) are unacceptable and will change the character of the area and also overburden the already problematic local road infrastructure. However the additional residential proposals for the garden centre will not only add to these issues but directly affect us, our access from our property to Wickham Road, and blight our home unreasonably.

Change

The site is unlikely to be deliverable during the Plan period due to there being long leasehold flats on the site and as such will not be carried forward.

Object  DM43.4  456

I object to this site.

Change

The site is unlikely to be deliverable during the Plan period due to there being long leasehold flats on the site and as such will not be carried forward.
Mr & Mrs Uprichard

We are residents of Cranwell Court and strongly object to the site of Shirley Garden Centre being redeveloped into 15-39 semi-detached houses for reasons listed below:

1) houses sites to the rear of Cranwell Court at the site of the current nursery will obstruct the natural daylight into the flats of Cranwell Court, causing further problems with dampness
2) concern with losing current parking and an increase in the number of cars in the surrounding roads making parking very difficult
3) increase in traffic from Wickham Road and increased difficulty in entering and exiting Cranwell Court from Wickham Road due to traffic
4) reduction in the value of Cranwell Court properties due to close proximity of other houses, lack of natural daylight into our homes, reduced parking and increase in noise disturbance from close proximity of houses
5) heightened risk of flooding
6) a loss of local buildings will be detrimental to the area. The garden centre employs many young local people and Shirley is an area known for its large gardens which the garden centre serves year-round. There has been a garden centre and nursery on this site for decades and generations of families still use it.

The site should remain as a garden centre.

The site is unlikely to be deliverable during the Plan period due to there being long leasehold flats on the site and as such will not be carried forward.
Mr & Mrs Uprichard

Mrs Frances Pearce

Object

I am writing regarding the Council’s plans for a massive redevelopment in the Shirley Area. More houses mean more traffic on our already crowded roads. I no longer go into Croydon because of the journey times. How long would it be before the Council considered bringing in a congestion charge. When you build all these properties do you consider the local amenities and the effect that more people would have on these. Where are the school places for all of these children? Regarding doctors. Unless it is an emergency I have to wait at least a week for an appointment. This waiting time can only increase if there are more patients. Is it the Council’s policy to build over green belt land to the detriment of locals? I sincerely hope not. I think you need to seriously reconsider these plans.

The site is unlikely to be deliverable during the Plan period due to there being long leasehold flats on the site and as such will not be carried forward.
2767/01/001/DM43.4/O Mr Stuart Ford

Object DM43.4 456

I'd like to register a comment and with a view to making a potential objection on Local Planning Application Ref 456 - Shirley Garden Centre, Cranwell Court, 60 Wickham Road, which has been earmarked for the proposed use of "Residential Development". My father owns one of the other Cranwell Court flats that currently overlooks the Garden Centre & I am concerned that the proposed change of use could have a detrimental affect on the area concerned & also the surrounding area, including my fathers outlook/view. The proposed use of "Residential Development" is somewhat vague, hence at this stage this is not an objection, BUT I am seeking clarification on what exactly is being proposed on the land in question.

The proposed residential use should not impact on the surrounding area and current occupiers.

Change

The site is unlikely to be deliverable during the Plan period due to there being long leasehold flats on the site and as such will not be carried forward.

2943/01/001/DM43.4/O Wyeval Garden Centres Ltd

Object DM43.4 456

Within the above document, Croydon Garden Centre is identified as a suitable site for a secondary school. As stated in our correspondence dated 14th September 2015, our client does not support the allocation of Croydon Garden Centre for development as a secondary school within the emerging Croydon Local Plan, as they are not satisfied that it would be economically viable to develop the site for educational purposes. Shirley Garden Centre is identified as a potential housing allocation for 15 – 39 units. Our client advises that the site is unlikely to be deliverable within the Plan period due to the presence of a number of long-leasehold flats on the site.

Change

The site is unlikely to be deliverable during the Plan period due to there being long leasehold flats on the site and as such will not be carried forward.

3072/01/003/DM43.4/O Christine McCarthy

Object DM43.4 456

I object to all the proposals set out for new housing and travellers sites in Shirley. I feel it will ruin the area by taking up all the open spaces.

Change

The site is unlikely to be deliverable during the Plan period due to there being long leasehold flats on the site and as such will not be carried forward.

3161/01/003/DM43.4/O Mr Jim Cowan

Object DM43.4 456

I have read Gavin Barwell’s assessment of policies and proposals in the Croydon Local Plan and totally agree that if implemented would destroy the character of Shirley. The infrastructure in Shirley is already stretched to the limit and cannot withstand any further burdens.

Change

The site is unlikely to be deliverable during the Plan period due to there being long leasehold flats on the site and as such will not be carried forward.
I have major concerns over the planned development of the Shirley Area. This is currently one of the nicest areas of Croydon and you plan to swamp it with a number of housing developments and some travellers sites. This will be very detrimental to the whole area.

I understand that nationally we need to have more accommodation for families. We need to achieve this with ougth destroying the whole fabric of our society. This scale of development will transform the whole area into a old fashioned “Estate”.

There are not sufficient services in the wider area to support such an influx of families.

The road infrastructure already struggles at time and these developments will make the whole situation much worse.

The site is unlikely to be deliverable during the Plan period due to there being long leasehold flats on the site and as such will not be carried forward.
If you demolish the Garden Centre where would you propose to put the people you make homeless in the existing flats above the Garden Centre? Do you actually know how many people currently live there? And who pays to re-house them? And where? Are you proposing to compulsory purchase the existing flats / garden centre?

How many people do you make unemployed by closing the Garden Centre? I was under the impression that local jobs were important to Croydon Council, has this policy changed? By closing the Garden Centre you may well also create additional unemployment with their suppliers?

I would imagine this Garden Centre Company pays local business rates? Is this not a valuable source of income that you will lose? This is a very popular facility with local people, do you consider local people needs/wants when you draw up your plans?

This is NOT A good way to improve morale amongst existing Garden Centre staff, and if now makes it more difficult to recruit new staff because they now know you plan to close it and knock it down, long term prospects zero!!! congratulations, job well done!!!

If the proposal went ahead, have you modelled for the additional car parking which is already a problem in this area. By keep concreting over open land areas are you going to create a future flooding issue? This is a busy area/road/ted route will you not be creating traffic congestion if you turn this into a construction site for X number of Months. By keep looking to increase the local population density have you calculated the impact on local services, Doctor Surgery, Dentist, Schools etc?? Why do you even consider sites such as this when you must have other brown field sites in the Borough that would be more suitable for your valuable time/attention? Have you got any well paid jobs vacant in the Planning Department because I know a candidate that will be ideally suited and come up with better plans than the majority that I have recently seen issued by this Department?
My initial comments to your proposed plan would be:-
If you demolish the Garden Centre where would you propose to put the people you make homeless in the existing flats above the Garden Centre?
Do you actually know how many people currently live there? And who pays to re-house them?
Are you proposing to compulsory purchase the existing flats / garden centre?
How many people do you make unemployed by closing the Garden Centre?
I was under the impression that local jobs were important to Croydon Council, has this policy changed?
By closing the Garden Centre you may well also create additional unemployment with their suppliers?
I would imagine this Garden Centre Company pays local business rates? Is this not a valuable source of income that you will lose?
This is a very popular facility with local people, do you consider local people needs/wants when you draw up your plans?
This is NOT A good way to improve morale amongst existing Garden Centre staff, and it now makes it more difficult to recruit new staff because they now know you plan to close it and knock it down, long term prospects zero!!!

Have you got any well paid jobs vacant in the Planning Department because I know a candidate that will be ideally suited and come up with better plans than the majority that I have recently seen issued by this Department?

---

I am writing to object against the following as they will change the character of our area very much for the worse. First, the land for Shirley Garden Centre is identified as suitable for 15-39 homes including medium rise blocks and semi-detached houses, reference number 456. I very strongly object to this as my property backs onto this land and the planned development will drastically block out the natural light into the gardens of properties along this housing row. It could also have a significant impact on changing the character and reducing the value of properties in this area.

The site is unlikely to be deliverable during the Plan period due to there being long leasehold flats on the site and as such will not be carried forward.

I object to the use of the site for housing.

The site is unlikely to be deliverable during the Plan period due to there being long leasehold flats on the site and as such will not be carried forward.

I wish to protest vehemently about your plans to destroy Shirley which is a village by building hundred of homes and setting up a Gypsy and Traveller site. You will destroy the Green Belt and increase the traffic in the area thus polluting the environment and the air we breathe.

The site is unlikely to be deliverable during the Plan period due to there being long leasehold flats on the site and as such will not be carried forward.
Hidden in the depths of the documents without any detailed maps and no backing documentation are plans to allocate Traveller sites: Addington, Shirley, South Croydon

Ref no  Site name  Proposed use
755  Pear Tree Farm & Pear Tree Farm Cottage, Featherbed Lane Gypsy and traveller site
502  Coombe Farm, Oaks Road Gypsy and traveller site
661  Coombe Lodge Nurseries, Conduit Lane Gypsy and traveller site

There is no reference to any national mechanism for rating such sites, so has Croydon invented a scoring regime without any accreditation? There should be a review including increased weighting for needs for transport, education and health facilities for all sites suitable for 15+ pitches with site area greater than 4.0

DM43.4
502
As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. The Council’s approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Croydon has very few green places that are actually loved and residents are proud of so they need to be left as they are or enhanced. The proposal to place travellers site is not acceptable. These sites are stated by the Council to be in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. Also these sites are far from schools and shops therefore not suitable for the proposed change of use.

The site should not be allocated as gypsy and traveller site.
Addiscombe & Shirley Park RA

Object Soundness - Consistent with National DM43.4 502

3. the use of the following locations as gypsy/traveller sites:
• Coombe Farm off Oaks Road reference number 502;
• Coombe Lodge Nurseries off Conduit Lane reference number 661; and
• Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane reference number 755;

As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

“Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Object We note the council comment “should not have an unacceptable adverse impact on the biodiversity of the borough. In spite of this we feel that the 3 sites that are being offered will have a biodiversity impact. I have received many comments on the wrong choice of sites, but do understand that the choice is limited. Any chance of a review?”

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
I am emailing to formally object to your worrying proposals to build 3 gypsy traveller sites in Croydon on Green Belt sites, and your proposals to build housing on some of our precious green spaces and back gardens. We have to protect our green belt at all costs, and we feel that as residents that we are under constant attack having to protect land which is sacrosanct. You can't just keep changing the goal posts to suit your purposes. I have lived in the area all my life and have never been so alarmed about council proposals. It is hugely stressful for residents, who use and appreciate the green spaces, to be threatened with your proposals. I fully support and agree with the objections raised by my MP Gavin Barwell, and ask you to reconsider your plans to prevent irreversible damage to Croydon and its green spaces.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Complete total eternal objection. Green space is exactly that. Coombe Farm and Coombe Lodge have the peaceful rural names that they do. Existing residents have the right to the peaceable enjoyment of their land and everyone can at different times enjoy the countryside and low density this is only healthy both physically and mentally. It is vital to preserve these unbuilt areas which are the nearest lungs we can escape to. Government Green belt Polly E has deemed any development inappropriate and Croydon Council must obey as the most important vote of the electorate was for the Conservative Government.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

When Gypsies and Travellers set up an unauthorised encampment near Coombe Lane tramstop the Council had to clear up 85 pieces of used toilet paper with faeces on it that were blowing around into people's gardens. It was a health hazard.

A Gypsy and Traveller site will also ruin the countryside. Green space is exactly that. Leave it alone.

Therefore I object to a Gypsy and Traveller site at Coombe Farm.

Change

The site is in private ownership and the landowners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Proposals in General:
Green Belt and Metropolitan Open Land ensure that areas close to high density building, and in particular house, were maintained such that people who lived and worked nearby could benefit from open green space to exercise, relax and maintain a balanced lifestyle. By de-designating the space, not only is a very valuable facility being removed, but the population density that need to benefit from the space is being increase. The proposals fail to identify what alternative facilities of equivalent benefit would be made available and how many people will be affected by the loss of these facilities.

Proposal Ref 502:
I specifically object to this proposal as they are contraty to Policy E of the Planning Policy for Travellers Sites "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". If the land is misguidedly de-designated it makes no difference in that the site has not changed, nor have the environment or the reason for it being designated in the first instance. Hence the reasoning for deeming it inappropriate for travellers still stands.

Notwithstanding the reasons for maintaining the current use of the areas in question, the occupation of these areas raises significant security issues for both travellers or any other new inhabitants, and those enjoying the adjacent areas. Access to both Coombe Farm and Coombe Lodge Nurseries have very poor sight lines onto Oaks Road and Coombe Road presenting a traffic hazard to both pedestrians and goods vehicles turning in and out.

The lack of local transport infrastructure in the area and the lack of pedestrian pavements and other walkways would result in a significant increase in vehicle movement.

Notwithstanding the reasons for maintaining the current use of the areas in question, the occupation of these areas raises significant security issues for both travellers or any other new inhabitants.
Object Gypsy/traveler sites

Croydon has very few green places that are actually loved and residents are proud of so they need to be left as they are or enhanced. The proposal to place travelers site is not acceptable. Also, these sites are far from schools and shops therefore not suitable.

Reference 502: Coombe Farm off Oaks Road – within Lloyds Park
Reference 661: Coombe Lodge Nurseries off Conduit Lane – with Coombe Tea Room
Reference 755: Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane;

These sites are stated by the Council to be in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development".

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
A few years ago we had travellers in the car park at the top of my road, Sandilands. They remained there for some time as they arrived just before a bank holiday. For over a week they ran a fleet of lorries up and down our roads dumping waste on the site - the police were unable to stop this. I have pictures showing the devastation they caused. After they were eventually removed, Croydon council had to foot a hefty bill for the toxic waste that was left behind although it was in a private car park. In the meantime people in my road were subjected to stones being thrown and intimidation from both children and adults. The sports club at the top of the road could not function.

Now I see that Croydon Council is proposing to put travellers and gypsies on what is in effect all greenbelt land at the end of my road i.e. Lloyd park specifically and also Coombe Lodge Nurseries. Although it is recognised that permanent sites do not carry the same level of mess, dumping, and intimidation, these sites are designated as combined, so passing itinerants would not presumably have the same degree of responsibility for the area.

Given the nature of the proposal i.e. in Lloyd Park, a place where children, schools, playing fields, dog walkers and women feel safe, it does not seem like a good idea to put gypsies/travellers alongside these groups without facing up to the fact that they might no longer feel safe in what is an open space/greenbelt land. This proposal borders on the obscene.

I understand from sources that the Council feel they have 'no choice' that they are under pressure from Westminster but I would say to you that if this was a Conservative council they would be fighting this pressure and putting travellers in a place where the general public are not put at risk. I speak from experience not prejudice, and we all know that when a site is concreted and permanent it can never be reclaimed however bad it gets. Please think again.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

The Policies laid out by the Mayor London- London Assembly website, without a doubt, states that the Mayor’s office really supports the safety of Metropolitan Open Land and claims that “the strongest protection should be given to London’s MOL and inappropriate development refused”. I therefore vigorously object to any interference to MOL and in particular if the neighbourhood is simply going to be used differently with little or no consultation with the local residents and businesses.

The site should not be used for a Gypsy and Traveller site.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

I am writing to strongly object to the Travellers site proposed for Coombe Farm which is on Green Belt Land contrary to National Guidelines. The site has no safe walking route to schools, shops, doctors etc.. Along Oaks Lane of Oaks Road. The access road (Oaks Lane) is far too narrow especially as large aggregate lorries already use this poorly lit lane. The national guide lines state that the site should not overwhelm the next nearest settlement along Oaks Land & Oaks Road which it will. This will be a private site which can easily expand into its Green Belt surroundings in Dcoombe Dfarm and Lloyds Park.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

The Council are proposing in total 45 permanent pitches. Both sites are some distance from public services. They should consider instead the expanding the existing site off the Purley Way. More importantly the Council are in breach of policy E Planning Policy for Traveller Sites published by the Government in August which clearly states: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". The Council have acknowledged both sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

object to the travellers sites in Shirley as it is against government policy and inappropriate development in area which attracts many visitors.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
I have been a resident and homeowner in South Croydon for over 40 years. I was attracted to the area because of the green belt within its boundaries as well as very good railway connections to Central London. I am dismayed to learn that Croydon Council have identified three locations where they propose to set up permanent Gypsy and Traveller sites. I am particularly concerned with the proposed sites on Conduit Lane and Coombe Farm off Oaks Road. Both these are on green belt and in an area of natural beauty that I would have thought our elected council would go out of its way to preserve. How can this be when The Department for Communities and Local Government's Planning policy for traveller sites dated August 2015 states under Policy E: Local Government's Planning policy for traveller sites dated August 2015 states under Policy E: Local Government's Planning policy for traveller sites dated August 2015 that Traveller sites in Green Belt paragraph 16 that “Inappropriate development is harmful to the Green Belt and should not be approved, except in very special circumstances. Traveller sites (temporary or permanent) in the Green Belt are inappropriate development. Subject to the best interests of the child, personal circumstances and unmet need are unlikely to clearly outweigh harm to the Green Belt and any other harm so as to establish very special circumstances”?

What are the very special circumstances that make your proposals “appropriate”? How can you go against current Government Policy so blatantly when surely in Croydon, with its many industrial estates, brownfield sites and urban sprawl, there are far more suitable sites for such developments. The Government policy/guideline is to have new sites near to existing developments. Clearly this would not be the case with this recommendation.

These proposals are clearly harmful for the Green Belt and would have a negative impact on the environment and wildlife in Coombe Wood, Shirley Hills and Lloyd Park. It would create a precedent for further erosion of our valuable local amenity. Coombe Road and Coombe Lane are already very busy roads and one of the main arteries into the town centre. The additional traffic emanating from these two sites, without significant road improvements, would exacerbate the traffic congestion, not to mention the additional pressure on the already stretched local services such as schooling and general health centres, schools and other local amenities. The traveller community favour smaller sites to avoid risk of inter-family tensions. These sites go against this.

Does not comply with Government policy of new sites near existing development, is inappropriate development in the Green Belt and very special circumstances are not explained. Croydon has many industrial, brownfield sites and urban sprawl where there must be more appropriate sites for such developments. Sites 661 and 502 will have a negative impact on the environment and wildlife, and impact on traffic congestion, add to an already dangerous junction of Coombe Road and Oaks Road and Conduit Lane. Road improvements would be needed. Will add pressure on local schools and general practitioners. The two sites will not meet the needs of the Traveller community not within walking distance of shops, health centres, schools and other local amenities. The traveller community favour smaller sites to avoid risk of inter-family tensions. These sites go against this.

How can this be when The Department for Communities and Local Government's Planning policy for traveller sites dated August 2015 states under Policy E: Local Government's Planning policy for traveller sites dated August 2015 that Traveller sites in Green Belt paragraph 16 that “Inappropriate development is harmful to the Green Belt and should not be approved, except in very special circumstances. Traveller sites (temporary or permanent) in the Green Belt are inappropriate development. Subject to the best interests of the child, personal circumstances and unmet need are unlikely to clearly outweigh harm to the Green Belt and any other harm so as to establish very special circumstances”?

What are the very special circumstances that make your proposals “appropriate”? How can you go against current Government Policy so blatantly when surely in Croydon, with its many industrial estates, brownfield sites and urban sprawl, there are far more suitable sites for such developments. The Government policy/guideline is to have new sites near to existing developments. Clearly this would not be the case with this recommendation.

These proposals are clearly harmful for the Green Belt and would have a negative impact on the environment and wildlife in Coombe Wood, Shirley Hills and Lloyd Park. It would create a precedent for further erosion of our valuable local amenity. Coombe Road and Coombe Lane are already very busy roads and one of the main arteries into the town centre. The additional traffic emanating from these two sites, without significant road improvements, would exacerbate the traffic congestion, not to mention the additional pressure on the already stretched local services such as schooling and general health centres, schools and other local amenities. The traveller community favour smaller sites to avoid risk of inter-family tensions. These sites go against this.
practitioners. The access roads to these proposed sites are clearly unsuitable for the larger vehicles that this community use as part of their livelihood and way of life. The junctions at Coombe Road, Oaks Road and Conduit Lane are already dangerous for vehicles and this area has the potential with this proposal to become a major accident black spot without significant very costly improvements to the local road network.

In summary not only do I feel that these proposed sites are very unsuitable for the area but also they would not meet the needs of the traveller community. Neither of the proposed sites are within walking distance of shops, health centres, schools and other local amenities which I believe is their preference. The Traveller Community favour smaller sites as there is less likelihood of inter-family tensions. These plans clearly go against this.

I would urge you to give more thought to and reconsider this planning application as it is my strong opinion that it neither suits the Traveller Community nor the local residents.

| 1727/01/006/DM43.4/D | Anthony Barber | Object | DM43.4.502 | I am writing to object to:
1. the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference 661; Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b
2. the additional traffic at the junctions of Coombe Road of Oaks Road and Conduit Lane that this proposal will generate. These junctions are already dangerous for vehicles and this area has the potential with this proposal to become a major accident black spot without significant very costly improvements to the local road network.

| Change | The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use. |
This is Green Belt land which is inappropriate for traveller sites. Our community does not wish to lose any of its green belt land. We don't want the start of development in green belt leading to a precedent and subsequent further loss. Also there would be a negative effect on the environment, wildlife etc to lose any green belt land. The site does not meet anyone's needs. It would be detrimental to one local community. Also, it doesn't meet the needs requested by gypsy and traveller communities. They prefer smaller family sites. They require good access to roads, especially for their large vehicles. They do not request public transport, which was stated as a benefit, but it is not relevant to these communities. There are not any shops or amenities near by. These community groups request that too. On every level these sites do not fit traveller needs and they would create a negative impact on the local community's needs. This site is unsuitable to develop. There are not adequate roads, schools, shops, health facilities etc to cope with such development. The cost to put this infrastructure in place is huge. I think that overwhelming costs would outweigh any benefits. The site has local, environmental, conservation, historical and natural significance. It is too important to lose. I think that the area doesn't suit the needs of any travellers. As stated there is no infrastructure to cope with these numbers. Our local area would be compromised. It is most likely there will be an adverse reaction on local businesses. The areas (e.g. Coombe Woods, Coombe Lodge Nurseries) would be negatively impacted by the plans.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
I have lived at my address for nearly 30 years and am writing to object to the use of land at Coombe Farm, off Oaks Road (site reference 502) on the following grounds:

The site would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

The site is located within the Green Belt considered to be inappropriate for development as ‘traveler sites’, Planning Policy for Traveler Sites, DCLG, August 2015.

Selection of the site should have a bias towards ‘brownfield or industrial land’ not Green Belt.

Insufficient local infrastructure to accommodate the plans

Lack of necessary amenities in the vicinity

Imbalance across the Croydon Borough with two proposed sites [Sites 661 and 502] being in South Croydon in close proximity to each other.

It would be detrimental to the rights of adjoining owners.

Could I respectfully suggest that alternative sites such as Pear Tree Farm, Featherbed Lane or that at Lathams Way, Beddington Farm Road, would be much less detrimental to the environment.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

With regards to ref 502 converting green belt areas to a Traveller site.

Both myself and my family (5 no adults) are very very strongly against both of these proposals.

In every regard to the environment, local communities, progress towards the regeneration of Croydon, security and property values, schools we completely disagree with any local areas being made available to travelers on a permanent or temporary basis.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

I wish to place on record my objection to the above proposal with is contrary to Government policy (Policy E of Planning Policy for Traveller Sites ) which state “Traveller Sites ( temporary or Permanent ) in the Green Belt are inappropriate development” I assume that you are aware of Government Policy.

Croydon Council tell me that money is tight and they are cancelling the Green Waste collection, I am therefore at a loss to understand why you are wasting time and money considering this proposal in an area that is not near any schools or shop.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Alan and Anne Pearson

My wife and I wish to object strongly to the proposal for two traveller sites in our local area. As a couple keen on wildlife, we moved to Melville Avenue mainly for its green location and quick access to unspoilt lanes and open areas in what we were led to believe were green belt. Now these are under threat.

We have had a fair bit of experience with travellers in the local area in the past, encamped on the Coombe Lodge Playing Fields, in Lloyd Park and on Addington Hills and in all cases have been dismayed by their lack of conscience. They have taken down fences and burnt them as bonfires, destroyed turf on pitches, disturbed our neighbours’ beehives, and left considerable amounts of rubbish scattered behind, making no effort even to tidy it into one spot. You will see why then we are less than enthusiastic about the proposals.

Both Conduit Lane and Oaks Lane are tranquil places, very good for wildlife which we enjoy watching. There are few such places within easy access of Croydon and we feel very strongly they should be.

Ann Kellaway

I am writing to object to the use of the following locations as gypsy and traveller sites at Coombe Lodge Nurseries off Conduit Lane, site reference 661 and Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

Barbara Wilkins

I would like to register my opposition to allowing gypsy sites on Coombe Farm. Croydon is a densely populated and built-up area. To allow gypsy sites on these two areas of precious Green Belt is totally inappropriate and I understand contrary to Government planning policy.

I wish to notify you of my objections to some of the Council’s proposals in the Croydon Local Plan, which has recently been brought to my attention. As I understand from Gavin Barwell MP (Croydon Central) there are plans to build three gypsy/traveller camps in the Green Belt (eg Coombe Farm), and to allow large housing developments on some of our precious green spaces. Once gone these are gone forever. The character of parts of the Borough could be dramatically changed for the worse and this might discourage people from living, working, shopping and investing in the area. Whilst I acknowledge that there is a need for more accommodation in Croydon it is preferable to utilise effectively those brownfield sites which I am given to understand do exist in the area. More brownfield sites might become available in the future and I should like to think that the Council is establishing and/or maintaining and updating a list of suitable locations.

Whilst I acknowledge that there is a need for more accommodation in Croydon it is preferable to utilise effectively those brownfield sites which I am given to understand do exist in the area. More brownfield sites might become available in the future and I should like to think that the Council is establishing and/or maintaining and updating a list of suitable locations.

particularly concerned with the proposed sites on Conduit Lane and Coombe Farm off Oaks Road. Both these are on green belt and in an area of natural beauty that I would have thought our elected council would go out of its way to preserve. How can this be when The Department for Communities and Local Government's Planning policy for traveller sites dated August 2015 states under Policy E: Traveller sites in Green Belt paragraph 16 that "Inappropriate development is harmful to the Green Belt and should not be approved, except in very special circumstances. Traveller sites (temporary or permanent) in the Green Belt are inappropriate development. Subject to the best interests of the child, personal circumstances and unmet need are unlikely to clearly outweigh harm to the Green Belt and any other harm so as to establish very special circumstances"?

What are the very special circumstances that make your proposals "appropriate"? How can you go against current Government Policy so blatantly when surely in Croydon, with its many industrial estates, brownfield sites and urban sprawl, there are far more suitable sites for such developments. The Government policy/guideline is to have new sites near to to existing developments. Clearly this would not be the case with this recommendation.

These proposals are clearly harmful for the Green Belt and would have a negative impact on the environment and wildlife in Coombe Wood, Shirley Hills and Lloyd Park. It would create a precedent for further erosion of our valuable local amenity. Coombe Road and Coombe Lane are already very busy roads and one of the main arteries into the town centre. The additional traffic emanating from these two sites, without significant road improvements would exacerbate the traffic congestion, not to mention the additional pressure on the already stretched local services such as schooling and general practitioners. The access roads to these proposed sites are clearly unsuitable for the larger vehicles that this community use as part of their livelihood and way of life. The junctions at Coombe Road, Oaks Road and Conduit Lane are already dangerous for vehicles and this area has the potential with this proposal to become a major accident black spot without significant very costly improvements to the local road.
network.

In summary not only do I feel that these proposed sites are very unsuitable for the area but also they would not meet the needs of the traveller community. Neither of the proposed sites are within walking distance of shops, health centres, schools and other local amenities which I believe is their preference. The Traveller Community favour smaller sites as there is less likelihood of inter-family tensions. These plans clearly go against this.*

Whilst I personally oppose the idea of gentrification, the above sites are a heritage of South Croydon and surrounding areas, but are also a wildlife sanctuary that needs protection. I do not see how gypsy and travelers sites will have wildlife protection in their best interests and thus would destroy a beautiful area that is part of the Greenbelt.

It is my strong opinion that the planning application will neither suit the traveller community nor local residents. I strongly urge you to give more thought to and reconsider this planning application.

Soundness - Justified

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Happy for the Council to replace under-used garages with much-needed homes, but will be objecting to building on precious open space.

Objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.

The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services.

If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should lock elsewhere (for example, off the Purley Way where the existing site is).

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
We are opposed to the green belt land being used for the above uses because there are not amenities in the area. There are no shops, post office, schools, libraries, or public transport i.e. bus route and therefore this area is not suitable. We will oppose any plans of this nature.

This location is in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Travellers Sites published by the government in August say very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". The Council’s approach is clearly in breach of this policy.

We strongly object to the following: The use of the following as gypsy/traveller sites: Coombe Farm off Oaks Road reference number 502

I object to the use of the site for gypsy and traveller accommodation.

I am writing to object to: 1. the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference 661; Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b;

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Policy DM3, reference Site 502 Coombe Farm reference Site 661 Coombe Lodge Nurseries and reference Site 755 Pear Tree Farm and Pear Tree Cottage. I object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and Coombe Farm is on a site of an Archaeological Priority Zone and contains an area of Nature Conservation Importance. Such development is in breach of Policy E of Planning Policy for Traveller Sites, which says that “Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development”. All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites by 2017, and 39 by 2036 is extremely excessive and will have a significant adverse impact on the borough.

I have restricted my objections to those plans that primarily affect our area of Shirley in which I live, but the same objections apply to other proposals in other parts of the borough.

DM43.4
502

DM43.4
502

Coombe Farm off Oaks Road reference number 502; As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. The Council’s approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is);

I am writing to register my objections for the following proposed sites for Gypsy and Travellers Sites:

- Coombe Farm, Oaks Road - Reference 502

The Policies laid out on the Mayor of London - London Assembly website, and Policy 7.17 clearly states that the Mayor’s office truly supports the protection of Metropolitan Open Land, and indeed states that “The strongest protection should be given to London’s MOL and inappropriate development refused”. The Policy lays out what needs to be established to designate an area as MOL, but does not make it clear how a Council can re-designate an area. I therefore object to any permanent Traveller site being constructed on MOL and especially if the area is simply going to be re-designated without any consultation with the local residents and businesses.

I object strongly that Croydon Council can re-designate Metropolitan Open Land or Green Belt land to suit their needs to accommodate a permanent pitch. I cannot see any Planning justification to change the designation, nor for the intrusion into the lives of the residents of Oaks Road and surrounding area. This will massively affect the urban attractiveness of the area and have both emotional and financial repercussions on many lives.

Policy 7.18 relating to Protection of Open Spaces clearly states that open spaces in London must be protected, and any loss must be resisted. I cannot believe the Council would want to go against both of these policies laid down by The London Assembly.

This Club not only provides sport and social activities to over 700 members in the local vicinity, but also provides an important ecological role in the area. The proposed site of Coombe Farm as a site for Gypsies and Travellers has come as a shock to everyone in the area, as borne out by the recent press coverage and attendance at the Consultation Meetings.

The history of unauthorised "pitches" in this area over the past few years has left a bitter resentment, especially in view of the residual
mess and threatening behaviour that has always accompanied their trespass. On each occasion that Gypsies/Travellers have been in the area, the club members here have been threatened with physical and verbal abuse. This behaviour is totally unacceptable and despite the subsequent eviction of the Travellers on each occasion, the residual psychological effect on taxpayers and constituents’ lives cannot be trivialised. We also have a large Junior Section and children play the course during holidays as well as weekends. They are often unaccompanied and the parents need to know they are in a safe environment. This would certainly not be the case in the parents’ minds if there was any chance of aggressive behaviour, as previously experienced, towards these children. I am certain that you would not wish to be responsible for putting children in any sort of potentially dangerous situation.

Surely these detailed real issues must be taken into account when determining any permanent site.

I understand that the proposed sites are not within the required distance to both schooling and medical needs, therefore I also object on that basis. The land is in private ownership at Coombe Farm, and any funds spent on “compulsory or otherwise” purchase could surely be spent more wisely on behalf of the population of Croydon. No doubt Central Grants will be available, but Council owned land in an area that will not radically impact on established residents’ lives would be a sensible and prudent choice.
Object

DM43.4
502

We want to object to the locating of three traveller sites in and around South Croydon. The building of these sites on green land is wrong and will change significantly the area we live in. We live in Gravel Hill between Featherbed Lane and Coombe Lodge Nurseries and we will therefore be impacted by two if not all three of these sites. As the Council acknowledges this site is in the Green Belt. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development" and the Council’s approach is clearly a breach of this policy.

Gypsy and Traveller sites should not be located in the Green Belt.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
I am writing to register my objections for the following proposed sites for Gypsy and Travellers Site:

Coombe Farm, Oaks Road - Reference 502

The Policies laid out on the Mayor of London - London Assembly website, and Policy 7.17 clearly states that the Mayor’s office truly supports the protection of Metropolitan Open Land, and indeed states that “The strongest protection should be given to London’s MOL and inappropriate development refused”. The Policy lays out what needs to be established to designate an area as MOL, but does not make it clear how a Council can re-designate an area. I therefore object to any permanent Traveller site being constructed on MOL and especially if the area is simply going to be re-designated without any consultation with the local residents and businesses.

I object strongly that Croydon Council can re-designate Metropolitan Open Land or Green Belt land to suit their needs to accommodate a permanent pitch. I cannot see any Planning justification to change the designation, nor for the intrusion into the lives of the residents of Oaks Road and surrounding area. This will massively affect the urban attractiveness of the area and have both emotional and financial repercussions on many lives.

Policy 7.18 relating to Protection of Open Spaces clearly states that open spaces in London must be protected, and any loss must be resisted. I cannot believe the Council would want to go against both of these policies laid down by The London Assembly.

This Club not only provides sport and social activities to over 700 members in the local vicinity, but also provides an important ecological role in the area. The proposed site of Coombe Farm as a site for Gypsies and Travellers has come as a shock to everyone in the area, as borne out by the recent press coverage and attendance at the Consultation Meetings.

The history of unauthorised “pitches” in this area over the past few years has left a bitter resentment, especially in view of the residual mess and threatening behaviour that has always accompanied their trespass. On each occasion that Gypsies/Travellers have been in the area, the club members here have
been threatened with physical and verbal abuse. This behaviour is totally unacceptable and despite the subsequent eviction of the Travellers on each occasion, the residual psychological effect on tax payers and constituents' lives cannot be trivialised. We also have a large Junior Section and children play the course during holidays as well as weekends. They are often unaccompanied and the parents need to know they are in a safe environment. This would certainly not be the case in the parents' minds if there was any chance of aggressive behaviour, as previously experienced, towards these children. I am certain that you would not wish to be responsible for putting children in any sort of potentially dangerous situation.

Surely these detailed real issues must be taken into account when determining any permanent site.

I understand that the proposed sites are not within the required distance to both schooling and medical needs, therefore I also object on that basis. The land is in private ownership at Coombe Farm, and any funds spent on "compulsory or otherwise" purchase could surely be spent more wisely on behalf of the population of Croydon. No doubt Central Grants will be available, but Council owned land in an area that will not radically impact on established residents' lives would be a sensible and prudent choice.

1896/01/002/DM43.4/O Divya Kumar Object DM43.4 502 I object to the use of the site for gypsy and traveller accommodation.

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

1904/01/007/DM43.4/O Emma Smith Object DM43.4 502 I object to the use of the following locations as gypsy/traveller sites: Coombe Farm off Oaks Road reference number 502

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
These Gypsy and Traveller sites are being situated in Green Belt areas which goes against Policy E of Planning Policy for Traveller Sites issued by the Government. The sites also do not match the criteria described in Paragraph 4.17 in that the location of new pitches do not enable the residents to access services including schools and health facilities in the same way that residents of new houses need to be able to access community facilities. Both sites by any stretch of the imagination give Gypsy and Traveller sites good access to the road network. Indeed both or accessed by single track roads. For reasons stated above I do not believe this approach is deliverable and also will alienate existing Croydon residents to building these sites in Green Belt areas. The approach does not enable sustainable development as it compromises areas of outstanding beauty with vehicles which are the opposite. The main tenet of this proposal is Strategic Objective 10: Improve the quality and accessibility of green space and nature, whilst protecting and enhancing biodiversity.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

I object to the use of Coombe Farm as a gypsy and traveller site. Traveller sites (temporary or permanent) in the Green Belt are inappropriate development according to Government guidelines. Gypsy and Traveller sites should not be proposed in the Green Belt.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: Traveller sites (temporary or permanent) in the Green Belt are inappropriate development. The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services.

If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough – which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
We are writing to say that we strongly object to the proposed plans in regards to two locations in Croydon becoming traveller sites.

i) Coombe Farm off Oaks Road
ii) Coombe Lodge Nurseries off Conduit Lane

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
All three sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. Furthermore, Policy E of ‘Planning Policy for Traveller Sites’, published by the Government in August, states very clearly that ‘Traveller sites (temporary or permanent) in the Green Belt are inappropriate development’. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the ‘Assessment and Selection of Sites for Gypsy and Travellers’. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of ‘extensive political consultation’. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be 6. This begs the question as to how many other inaccuracies are in the document.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
1927/01/001/DM43.4/O Ron Lamb
Object DM43.4 502

I am e-mailing you to register total opposition regarding your proposal to put traveller’s sites in Coombe Farm and Coombe Lodge. I am and have been a resident of Oaks Road for 20 years and apart from myself being strongly against such an idea, I do not know of one neighbour that is in agreement with this proposal. Apart from there not being adequate amenities in these areas, there is insufficient transport, road ways, schools to support such a venture. Why would you want to put caravans in these areas, surely in this modern day and age people should live in houses? Also, both these areas are a natural area of beauty with wild life, birds etc… travellers would lower the whole tone of this and bring mess and litter, such as in the past when we had illegal “visits” before they were moved on. I am also informed that these areas are “green belt” and that no such proposal would or should be allowed. I state once again that I am totally against these potential destructive proposals that would spoil a very beautiful part of Croydon if you go ahead with this scheme, or perhaps this is your plan as this is one of the other Conservative Wards that you are targeting to make your changes?

Change
The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

1929/02/002/DM43.4/O Mr Charles Marriott
Object DM43.4 502

objection to extremely worrying proposals to build 3 gypsy traveller sites in Croydon on Green Belt sites.

Change
The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Object Writing to object to the proposed sites for Gypsy and Travellers at Coombe Lodge Nurseries off Conduit Lane, Reference 661. The Policies laid out on the Mayor of London-London Assembly website and Policy 7.17 clearly state that the Mayor's office truly supports the protection of Metropolitan Open Land and states the strongest protection should be given and inappropriate development refused. The Policy does not make it clear how a Council can de-designate an area. I object to any permanent Traveller site being constructed on MOL and especially if the area is simply going to be de-designated without any consultation with the local residents and businesses.

I object strongly that Croydon council can de-designate Metropolitan Open Land or Green Belt land to suit their needs to accommodate a permanent pitch. I cannot see any Planning justification to change the designation, nor for the intrusion into the lives of residents of Oaks Road and surrounding area. This will massively affect the urban attractiveness of the area and have both emotional and financial repercussions on many lives. Policy 7.18 relating to the Protecting of Open Spaces clearly states that open spaces in London must be protected, and any loss must be resisted. I cannot believe the Council would want to go against both of these policies laid down by the London Assembly.

In relation to Shirley Park golf course and 700 members, the club provides sport and social activities and also provides an important ecological role in the area. The proposed site of Coombe Farm as a site for Gypsy and Travellers has come as a shock to everyone in the area, as borne out by the recent press coverage and attendance at the Consultation Meetings. The history of unauthorised ‘pitches’ in this area over the past few years has left a bitter resentment, especially in view of the residual mess and threatening behaviour that has always accompanied their trespass. On each occasion that Gypsy /Travellers have been in the area, the club members here have been threatened with physical and verbal abuse. This behaviour is totally unacceptable and despite the subsequent eviction of the Travellers on each occasion, the residual effect on tax payers and constituents’ lives cannot be trivialised. We also have a large Junior section and children play the course during holidays as well as weekends. They are often unaccompanied and the parents...
need to know they are in a safe environment. This would certainly not be the case in the parent's minds if there was any chance of aggressive behaviour as previously experienced, towards these children. I am certain that you would not wish to be responsible for putting children in any sort of potentially dangerous situation. Surely these detailed real issues must be taken into account when determining a permanent site. I understand that the proposed sites are not within the required distance to both schooling and medical needs, therefore I also object on that basis. The land is in private ownership at Coombe Farm and any funds spent on 'compulsory or otherwise' purchase could surely be spent more wisely on behalf of the population of Croydon. No doubt central grants will be available, but Council owned land in an area that will not radically impact on established residents' lives would be a sensible and prudent choice.

Surely these detailed real issues must be taken into account when determining a permanent site. I understand that the proposed sites are not within the required distance to both schooling and medical needs, therefore I also object on that basis. The land is in private ownership at Coombe Farm and any funds spent on 'compulsory or otherwise' purchase could surely be spent more wisely on behalf of the population of Croydon. No doubt central grants will be available, but Council owned land in an area that will not radically impact on established residents' lives would be a sensible and prudent choice.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

I am writing to object to: Coombe Farm off Oaks Road, site reference 502 for use as a gypsy and traveller site, as this site would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b; or with Policy E of "Planning Policy for Traveller Sites" published by Government in August which states "Traveller sites in the Green Belt are inappropriate development".

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Strongly objects to the proposals for permanent encampments on the grounds of safety of the people who use the area, expenditure and environmental damage. The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
1957/01/002/DM43.4/O Charlotte Varrow
Object DM43.4 502 The site has no safe walking route to schools, shops, doctors etc. along Oaks Lane or part of Oaks Road. This is not a suitable site for a Gypsy and Traveller site. Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

1957/01/004/DM43.4/O Charlotte Varrow
Object DM43.4 502 The national guide lines state the site should not overwhelm the nearest settlement along Oaks Lane and Oaks Road which it will. This is not a suitable site for a Gypsy and Traveller site. Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

1957/01/003/DM43.4/O Charlotte Varrow
Object DM43.4 502 The access road (Oaks Lane) is far too narrow especially as large aggregate Lorries already use this poorly lit lane. This is not a suitable site for a Gypsy and Traveller site. Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

1957/01/001/DM43.4/O Charlotte Varrow
Object DM43.4 502 I strongly object to the Travellers site proposed for Coombe Farm which is on Green Belt land contrary to National Guidelines. Gypsy and Traveller sites should not be in the Green Belt. Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

1957/01/005/DM43.4/O Charlotte Varrow
Object DM43.4 502 This will be a private site which can easily expand into its Green Belt surroundings in Coombe Farm and Lloyds Park. This is not a suitable site for a Gypsy and Traveller site. Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Object Soundness - Justified DM43.4 502

Object to the proposed Gypsy and Traveller site at Coombe Farm (site 502).

The London Plan in Policy 7.17 supports the protection of Metropolitan Open Land and inappropriate development should be refused. This policy sets out the criteria for designation as Metropolitan Open Land but does not make it clear how a Council can re-designate an area. I object to any permanent Traveller site being constructed on MOL.

I cannot see any planning justification to change the designation, nor for the intrusion into the lives of residents of Oaks Road and surrounding area. This will massively affect the urban attractiveness of the area and have both emotional and financial repercussions on many lives.

Policy 7.18 of the London Plan relating to open spaces clearly states that open spaces in London must be protected and any loss must be resisted. I cannot believe the Council would want to go against both Policy 7.17 and Policy 7.18 laid down by the London Assembly.

The history of unauthorised pitches in the area over the past few years has left a bitter resentment, especially in view of the residual mess and threatening behaviour that has been accompanied by their trespass. On each occasion that Gypsies and Travellers have been in the area the club members of Shirley Park Golf Club have been threatened with physical and verbal abuse. This behaviour is totally unacceptable and despite the subsequent eviction of the Travellers on each occasion, the residual psychological effect on people’s lives cannot be trivialised. The golf club has a large junior section and children play the course during holidays as well as weekends. They are often unaccompanied and parents need to know they are in a safe environment. This would certainly not be the case in the parent’s mind if there were any chance of aggressive behaviour as previously experienced towards the children.

Surely these detailed real issues must be taken into account when determining any permanent site.

I understand that the proposed site is not within the required distance to both schooling and medical needs, therefore I object on that basis. The land is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Coombe Farm, and any funds spent on compulsory purchase or otherwise could surely be spent more wisely on behalf of the population of Croydon.

This land is designated as Metropolitan Open Land and there is no justification for re-designation. An increase of up to 741 homes on this land would put local services including schools, transport and already crowded roads under further pressure.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Object

I object to the proposal as Coombe Farm is Green Belt Land. Policy E of the Planning Policy for Traveller Sites, published by the Government in August states very clearly that "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". Previous use does not mitigate this policy. The proximity of this site to the Coombe Lodge Nurseries site, also proposed, would mean a total of up to 45 pitches on 2 sites within a very small area of the Borough. Paragraph 4.19 refers to the need for good access to roads, stating that Gypsies and Travellers "often need to move larger vehicles as part of their livelihood and way of life". Coombe Road junctions with Oaks Road and Conduit Lane are busy and potentially hazardous intersections and are unsuitable for increased, safe movement and manoeuvring of larger vehicles, especially entering and exiting these sites. Oaks Road itself is a narrow rural road with a number of blind bends and an adjacent bridle way, making it unsuitable for large vehicles. The Local Plan has not taken sufficient account of the potential increased danger for motorists and pedestrians, horses and riders.

The close proximity of the proposed sites to one another has not been taken into account. All three sites are proposed for a small area in the South of the Borough when there seems to be a successful site in Purley Way which could be expanded. None of these sites proposed has good access to schools, shops and other services. The consequent need for private transport goes against environment and climate initiatives. Government Guidelines ask that local planning authorities policies ensure that children can attend school on a regular basis. These three sites are well away from schools, particularly primary schools and clearly do not reflect the aims of Guidelines or facilitate regular school attendance.

The number of Gypsy/Traveller sites in Croydon is to increase from 1 to 4 when our recent experience locally is of travellers responsible for damage, parking illegally, leaving piles of rubbish behind when they are moved on an even engaged in firearms confrontation with the police.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Mr John Webster

I am writing to object to the use of Coombe Farm off Oaks Road, site reference 502 as gypsy and traveller site as this site would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
The site is Green Belt. The proposal would exceed the current built on area and therefore the Green Belt would be lost. The Combe Farmhouse is also noted in many historical books of Croydon. It is my understanding that the current owner has lodged numerous planning applications over the years which had been denied by the Council. Please can the Council clearly describe why they are now prepared to change the use of the land for the gain of fulfilling their Traveller/Gypsy site quota? The site is also currently privately owned. In order for the Council to proceed with their plans they will need to purchase the site. I challenge this use of Croydon’s finance budget as, with all compulsory purchases; the Council should review the return of the investment on any such cost for the benefit of their tax paying community. Increase risk and detrimental impact to the local wildlife such as deer, badgers, newts, toads, hedgehogs, numerous bird life including woodpackers, owls, hens, etc. The range of flora and fauna including protected trees such as the large oaks all of which form the beautiful unique Addington Hills Public Open Space and adjoining Green Belt area. The site is also situated near open land which has previously been victim to unauthorised Traveller and Gypsy encampments. A thorough review and statement regarding how the Council and Police propose to exercise control over any additional families encamping on unauthorised land surrounding the site must be produced. Through past experience it has been a difficult and lengthy process for the Police, Council and Local Residents. The general public have been denied safe access to public open land or intimidated when using the Tram or Bus stop during these encampment periods. The Council have to pay the legal and policing costs of the unauthorised encampment removal, the environmental cost to clean up the rubbish, the consideration of the impact to wildlife and the continued safety of the public to relax and enjoy the open countryside and public services. The site proposes a detrimental impact to local business revenue. Oaks farm is an established countryside wedding venue. It would have an increase in traffic at the dangerous junction joining Oaks road and Conduit Lane.
The site is Green Belt. The proposal would exceed the current built on area and therefore the Green Belt would be lost. The Combe Farmhouse is also noted in many historical books of Croydon. It is my understanding that the current owner has lodged numerous planning applications over the years which had been denied by the Council. Please can the Council clearly describe why they are now prepared to change the use of the land for the gain of fulfilling their Traveller/Gypsy site quota? The site is also currently privately owned. In order for the Council to proceed with their plans they will need to purchase the site. I challenge this use of Croydon’s finance budget as, with all compulsory purchases, the Council should review the return of the investment on any such cost for the benefit of their tax paying community. Increase risk and detrimental impact to the local wildlife such as deer, badgers, newts, toads, hedgehogs, numerous bird life including woodpeckers, owls, herrons, etc. The range of flora and fauna including protected trees such as the large oaks all of which form the beautiful unique Addington Hills Public Open Space and adjoining Green Belt area. The site is also situated near open land which has previously been victim to unauthorised Traveller and Gypsy encampments. A thorough review and statement regarding how the Council and Police propose to exercise control over any additional families encamping on unauthorised land surrounding the site must be produced. Through past experience it has been a difficult and lengthy process for the Police, Council and Local Residents. The general public have been denied safe access to public open land or intimidated when using the Tram or Bus stop during these encampment periods. The Council have to pay the legal and policing costs of the unauthorised encampment removal, the environmental cost to clean up the rubbish, the consideration of the impact to wildlife and the continued safety of the public to relax and enjoy the open countryside and public services. The site proposes a detrimental impact to local business revenue. Oaks farm is an established countryside wedding venue. It would have an increase in traffic at the dangerous junction joining Oaks road and Conduit Lane.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
The proposal to develop Coombe Farm, Oak Road as a residential development for a Gypsy and travelers site does not fall within the Strategic Objectives. This proposed development of a travelers site within the Shirley area is not in keeping with the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with our housing in the area. Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area. Building a travelers site will increase noise levels, and ruin the character of the area and this development would overwhelm this green area. Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions. This development would diminish the striking view of the area of Addington Hills and Coombe Farm area.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
I object to the use of Coombe Farm off Oaks Road, site 502, as a gypsy and traveller site as it would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

Furthermore, Policy E of ‘Planning Policy for Traveller Sites’, published by the Government in August, states very clearly that Traveller sites (temporary or permanent) in the Green Belt are inappropriate development. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites. I am also concerned by the evidence base for these selections, namely the ‘Assessment and Selection of Sites for Gypsy and Travellers’. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of ‘extensive political…consultation’. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Object Soundness - Justified DM43.4 502

All three sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. Furthermore, Policy E of ‘Planning Policy for Traveller Sites’, published by the Government in August, states very clearly that ‘Traveller sites (temporary or permanent) in the Green Belt are inappropriate development’. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). I also strongly object to building of traveler camps in Shirley. One, these would be built on green belt land or Mob land against current legislation as. Understand, two, if they are 'travellers' why do they need homes? Surely they just move on in there caravans? If they do need homes, the. Why are they not added to current council housing schemes! Also publish national stats show that most traveler sites are in the south of England, yet the regulations should be to place them evenly through out the country, therefore the south would have over its required quota and ten north needs to provide more and as they are travellers they can easily relocate to these areas. Why over burden an increasingly overpopulated south London area? Also, as shown with the traveler homes in woodmanstern, there is the potential for an increase in fly tipping, and local crime leading to further costs to the council to clean up and provide policy support, yet I have just had a letter from the council saying you have had £90 million cut from central government, and we will have to pay for our own garden waste collecting now as wont be included in our council tax, so plea answer me how you can afford to pay for these developments, and not at the direct or indirect expense of the tax payer in Shirley or Croydon borough. Please show me your business model that shows how this will be funded.

<td>The Club with Junior section not only provides sport and social activities to over 700 members in the local vicinity, but also provides an important ecological role in the area. The proposed site of Coombe Farm as a site for Gypsies and Travellers will massively affect the urban attractiveness of the area and have both emotional and financial repercussions on many lives. The history of unauthorised &quot;pitches&quot; in this area over the past few years has left a bitter resentment, especially in view of the residual mess and threatening behaviour that has always accompanied their trespass. On each occasion that Gypsies and Travellers have been in the area, the club members here have been threatened with physical and verbal abuse. This behaviour is totally unacceptable and despite the subsequent eviction of the Travellers on each occasion, the residual psychological effect on tax payers and constituents' lives cannot be trivialized. The proposed sites are not within the required distance to both schooling and medical needs, therefore I also object on that basis. The land is in private ownership at Coombe Farm, and any funds spent on &quot;compulsory or otherwise&quot; purchase could surely be spent more wisely on behalf of the population of Croydon.</td>

1.1 Object to use of Coombe Farm as stated in Policy E of Planning Policy for Traveller Sites 2015 that `Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development`. Previous use does not mitigate against this policy.

1.2 The site is too close to the Coombe Lodge Nurseries Site also proposed and would mean a total of up to 45 pitches on 2 sites in a very small area of the Borough.

1.3 The Croydon Local Plan paragraph 4.19 (CLP1.1) refers to the need for good access to roads. Coombe Road junctions with Oaks Road and Conduit Lane are busy and potentially hazardous intersections and are unsuitable for increased safe movement and manoeuvring of larger vehicles, especially entering and exiting these sites. Travellers `often need to move larger vehicles as part of their livelihood and way of life`.

1.4 Oaks Road is a narrow rural road with a number of blind bends and adjacent bridleway making it unsuitable for large vehicles. The Local Plan has not taken sufficient account of the potential increased danger for motorists, pedestrians, horses and riders. None of the three sites have good access to schools, shops and other services. The consequent need for private transport goes against environment and transport initiatives. Government Guidelines ask that local planning authorities` policies ensure that children can attend school on a regular basis. These three sites are well away from schools, particularly primary schools and clearly do not reflect the aims of the Guidelines or facilitate regular school attendance. None of the three sites take into account the need for good access to roads as in CLP1.1 Para 4.19. Oaks Road, Coombe Road, Conduit Lane and Featherbed Lane are unsuitable for safe increased movement and manoeuvring of larger vehicles, especially entering and exiting these sites.

Object to location as issues with busy, potentially hazardous roads for larger vehicles the travellers need and junctions and entrance and exit from both sites 502 and 661. Oaks Road is narrow, no account taken of potential increased danger for motorists, pedestrians, horses and riders. None of the three sites have good access to schools, shops and other services. The consequent need for private transport goes against environment and transport initiatives. Government Guidelines ask that local planning authorities` policies ensure that children can attend school on a regular basis. These three sites are well away from schools, particularly primary schools and clearly do not reflect the aims of the Guidelines or facilitate regular school attendance. Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
The site would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. Furthermore, Policy E of 'Planning Policy for Traveller Sites', published by the Government in August, states very clearly that 'Traveller sites (temporary or permanent) in the Green Belt are inappropriate development'. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites. I am also concerned by the evidence base for these selections, namely the 'Assessment and Selection of Sites for Gypsy and Travellers'. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of 'extensive political...consultation'. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document.

The site should not be allocated as a Gypsy and Traveller site.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

I object to the planned new sites for travellers, why not expand the site they have at present, on the same basis as the expansion of the housing that is being mooted for estates such as Forestdale and New Addington. I object to Travellers being treated differently. Why should they be given new private prime sites?

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

The council have chosen two sites within approx 1/2 mile of one another. Both sites are an area of greenbelt and would not comply with policy SP1.7a and SP2.7G. However, I have no objection to the building of a secondary school on the site of Coombe Wood playing field, as it does bring benefit to future generations.

We already know that a travellers site will result in higher crime, flytipping and vandalism in the area, as we have recently recorded evidence, when travellers pitched up in both Conduit Lane and Coombe Wood Playing fields on two separate occasions.

Travellers sites at Coombe Lodge and Combe Farm are both inappropriate in the Green Belt as both are in the Green Belt and one is close to a SNCI. This is contrary to Government guidance on Travellers sites and both are some distance from public services.

The Council should look towards the existing site at Purley Way for any future need.

It would also compromise the ability of future generations to enjoy these green spaces.

Given the redevelopment in Central Croydon there will be more people who need to make use of these "green lungs". This would reduce employment opportunities and the need for businesses to consider environmental factors when locating in Croydon.

Sites 502 and 661 would be contrary to the Green Grid concept and detract from the value of green spaces on the local heritage character.

On the site selection process, the scoring does not reflect the importance given to green spaces and is subjectively high. It should be reconsidered for "privacy" and "local character" as well.

502 is on a narrow track and both sites GB/MOL should have a score of minus 5 not plus 5.

The social deprivation category is illogical as pressures on local services apply equally across Croydon.

The assessment should be reconsidered by an independent party.

Sites 502 and 661 if allowed would be contrary to the Green Grid concept and detract from local greenspaces and their contribution to local heritage.

On the site selection process, the scoring system does not reflect the importance of green spaces, the scoring is subjectively high, especially for "privacy" and "local character".

502 is on a narrow track and for both MO/L/G SF2.7 makes no reference to the impact on surroundings or local residents.
| 2164/01/002/DM43.4/O Mr John Mills | **Object** | Soundness - Justified | DM43.4 502 | **Change** | The respondent objects to the proposal to site three gypsy and travellers sites in the green belt, allowing housing on some of the precious green space and back gardens and would completely change the character of the borough. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use. |
I am writing to object to the proposed traveller sites at Coombe Farm and Coombe Lodge Nurseries. I grew up in this area and work at Oaks Farm Wedding Venue so I am very concerned about both of these proposed sites. I consider the development at Coombe Farm to be inappropriate for the following reasons:

- The site is in a green belt area. National guidelines say that Traveller sites in the green belt are an inappropriate development.
- There is a long history of planning application refusals on the site, so it is unclear why this development would be allowed in the green belt when other developments have not.
- The access road to this site, Oaks Lane, is completely unsuitable for a large number of large vehicles - it is a narrow road and simply was not designed for the high traffic levels we can expect with the proposed additional residents.
- There is no pavement on Oaks Lane so the additional traffic will make the road extremely unsafe to pedestrians.
- It is a tight turning on the entrance on Oaks Road so it will be extremely difficult for large mobile homes and trailers to turn in and out.
- The access from Oaks Road is very congested at rush hour and is also very close to the tram line and traffic lights. It is an accident black spot and there have been a number of road traffic incidents on this stretch of road.
- The proposed size of the traveller site is 15-20 pitches, which can each house 3 mobile homes. Therefore, there could be up to 60 mobile homes on the site. Should further caravans pitch up to use the site, it is unclear how this could be monitored or controlled - so the numbers could increase further. Even at the proposed level, the size of this traveller population, compared to the local community, which is relatively small on Oaks Lane and Oaks Road is totally overwhelming and would not be conducive to social cohesion in the area.
- The location of Coombe Farm is beautiful and adjacent to the fabulous local amenity Lloyds Par. This is a sanctuary for wildlife and local residents and visitor. Green Spaces like this are short supply in Croydon. The appearance of this large traveller site in such a location and the affect on wildlife should be taken into account. A brown fitted site would be much more appropriate.
- Coombe Farm is listed by the London Borough of Croydon as a grade II listed building of historic
interest. The view of this important historical building will be ruined by the proposed settlement. Furthermore I understand that the building itself will be used for toilets and kitchens for the site (up to 60 families). Is this an appropriate change of use for such an important part of local heritage?

- The cost of this site will be enormous, in ground rent or compulsory purchase, removing existing outbuildings, and the work required to make the site ready, building toilets/kitchens, additional drainage, plumbing and electrical work, etc. Croydon Council has an enormous shortfall in council housing for the community already resident in Croydon. Surely it would be better to spend taxpayers' money on addressing the housing needs of ordinary families who are currently resident in the borough.

- The schools in this area are so over subscribed that there have been some proposals that a new school needs to be developed off Coombe Road. With such a lack of school places for the existing community, there must be insufficient infrastructure to educate the children from up to 60 extra families.

- Since there is no pavement on Oaks Lane and insufficient lighting when it is dark, there is not safe access for the travellers and their children to safely reach essential amenities such as schools, doctors and shops on foot. If they can only go

<td>Comment</td>
<td></td>
<td></td>
<td>Objection to the proposals for gypsy and travellers as not the most appropriate for Croydon and unsuitable for the lovely country area of Croydon visited throughout the year by families, residents and visitors. The approach is deliverable but undesirably and will ruin the only real part of the country area in Croydon, which grows with housing and office blocks almost daily. The preferred approach will not enable sustainable development as it will spoil the existing areas where sites are suggested and which will never be the same again. It will also affect schooling, health, and cause disturbance around all areas. If Croydon must comply, areas such as Purley Way or an extension of facilities at Laythams Farm should be the correct options.</td>

<td>Mr Noel Vas</td>
<td>The council plans to create a Gypsy/Traveller site here. This is a greenbelt site, and it is not appropriate to put a traveler site here. Policy E of “Planning Policy for Traveller Sites”, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. I would have thought it would be in the Council’s interest to arrange for travellers to be in permanent housing and send their children to school. This is because I understand that many travellers do have permanent housing that they live in during the winter and other months when their caravans would get stuck in the mud.</td>

<tr>
<td>2361/01/001/DM43.4/O</td>
<td>Alan Chitty</td>
<td>My objections are based on the fact that the proposals are not in the best interests of the electorate of the borough and that the proposals will only be harmful to the environment offering no benefits to the community. Building on the Green Belt is not the best option. In the case of the proposed traveller sites PTF is green belt, there are no suitable transport, school or social services in the vicinity. Combe Farm is green belt and Conduit Lane are both close to well established businesses which will be blighted by having such sites in close proximity.</td>

<td>Miss Lorraine Gooding</td>
<td>I strongly object to the proposals for a Gypsy and Traveller site in this area of Croydon. It will certainly change the character of this beautiful part of Croydon. The two locations (Coombe Farm and Coombe Lodge Nurseries) are in the Green Belt and therefore contrary to government policy (Policy E of Planning Policy for Gypsy Sites) which states traveller sites temporary or permanent in the Green Belt are inappropriate. Our neighbourhood has encountered continual and numerous travellers campsites over the years. They left rubbish, human excrement and were seen trying to steal vehicles and prowling around private homes. It took weeks to clear up. I also have weekly encounters near where I work on Imperial Way.</td>

<td>Object to the use of Coombe Farm as a Gypsy and Traveller site as it would constitute inappropriate development in the Green Belt and would not comply with Policy SPZ.7a and SPZ.7b.</td>
</tr>
</tbody>
</table>
All three sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. Furthermore, Policy E of ‘Planning Policy for Traveller Sites’, published by the Government in August, states very clearly that ‘Traveller sites (temporary or permanent) in the Green Belt are inappropriate development’. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the ‘Assessment and Selection of Sites for Gypsy and Travellers’. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of ‘extensive political consultation’. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -6. This begs the question as to how many other inaccuracies are in the document.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Mr & Mrs Jeffrey

Object

Not too long ago we recently had to remove Gypsies from our village at cost to our residents as they left the village in a complete mess.

Mr & Mrs Jeffrey

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Mr & Mrs Jeffrey

Object

I will be objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

Alan Warner

Object

The purpose of this e mail is to register my objections to the proposed change to the designation of Green Belt and Metropolitan Open Land. I understand that the Council have identified two locations for travellers/gypsy sites at Coombe Farm ref 502. These proposals are contrary to Government Policy (Policy E of Planning Policy for Traveller sites) which states that Travellers sites (temporary or permanent) in the Green Belt are inappropriate development.

I have lived in this area for 25 years and in conjunction with the efforts of our Residence Association and Croydon Council they have maintained the beauty of the area for the good of all that live here. I cannot protest strongly enough to ensure that these changes do not proceed as it can only make the area much worse for all concerned. Please consider my objection seriously as I do not want the character of the area changed for the worse. I look forward to receiving your acknowledgement and response at your earliest convenience.

<td>Object to proposed Gypsy and Traveller site at Coombe Farm (reference number 502). This site is in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. Inappropriate development is harmful to the Green Belt and should not be approved, except in exceptional circumstances. Traveller sites (temporary or permanent) in the Green Belt are in appropriate development. There are no ‘very special circumstances’ that warrant the proposed use of these Green Belt sites. The site does not have any local amenities-shops, healthcare, primary schools (I think there is only one secondary school in the immediate area), so will not serve the traveller community. Surely expanding the existing brownfield site in Purley Way would be more cost effective and preferable to the travellers as it provides opportunities for employment, schools and medical care in the immediate vicinity, which the proposed sites do not.</td>
<td>Change: The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.</td>
</tr>
</tbody>
</table>
Objection to Site 661 and 502 for Gypsy and Traveller sites as inappropriate development within the Green Belt, with traffic issues at Coombe Road junction, and the proposed sites are not within reasonable walking distance of local amenities. Walkways are inadequate and it is difficult for pedestrians to cross Coombe Road in heavy traffic. Also object to the alternative option of a school on site 661 as there is already a school at the other end of Melville Avenue which causes traffic during term time in the morning and evening in the surrounding area. Traffic in Melville Avenue which is approached via Crohan Road or Coombe Road (busy roads) is often chaotic and any increase should not be countenanced and may lead to accidents.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Objection to Site 661 and 502 for Gypsy and Traveller sites as inappropriate development in the Green Belt and the impact on local traffic, with traffic issues at Coombe Road junction, and the proposed sites are not within reasonable walking distance of local amenities. Walkways are inadequate and it is difficult for pedestrians to cross Coombe Road in heavy traffic. Objection to alternative use of site 661 as a school on grounds of traffic impact.

The plans for travellers sites on the local green belt are unacceptable and will change the character of the area and also overburden the already problematic local road infrastructure.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

I am writing to object to: Coombe Farm off Oakes Road, site reference 502. This site would constitute inappropriate development in the green belt and would not comply with policies SP2.7a and SP2.7b. In the consultation process with the Gypsy and Travellers they requested small sites that are more manageable. This site is close to a busy road and tram lines that could be dangerous to children. They also requested sites near to doctors, primary schools and shops. There is a suitable brownfield site existing alongside the Purley Way, offering more opportunities for employment. It is very important that the sites offer safe entrance and exits to sites to ensure there is no danger of accidents. This site is not suitable and would be costly to the council's already stretched budget. The consultation refers to the need for good access for roads as "they often move larger vehicles as part of their livelihood and way of life". Coombe Road and Oakes Road are already very busy, the sites would cause no end of delays and frustration to drivers.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

</tr>
</tbody>
</table>
Object

I am writing to object about Site References 661/502, both being inappropriate use and development of Green Belt land. There are adjacent areas of outstanding beauty, sites with biological significance, as well as playing fields for the local community. These would all be affected, not least during the construction of Travellers Sites. The London Plan does not advocate such a development and seems unrealistic for two such sites to be located in the London Borough of Croydon, already over-stretched owing to refugees and asylum seekers arriving at the borough’s Home Office. Not only will this proposed development overburden Croydon as a whole, but also our homes (within 2 miles of said sites). Amenities, Schools, GPs practices and the like will be inadequate for an influx of such a population.

Without adequate provision of facilities more than homes alone, not only will the Travellers be disappointed but also local residents who chose to live, close to this location owing to the outstanding open spaces. We have seen the Riots of 2012. Many foreign visitors have sought to live in our Borough. However, the very nature of the name ‘Traveller’, suggests this new group of people may be transitory; we may find our Schools and Hospitals will be overstretched and with a nomadic population, teachers and doctors to name but a few will be unable to provide continuity of care, to the excellent standard we desire for the existing community.

Our objections in respect of the Coombe Farm are as follows:
1. The site is in a green belt area. National guidelines say that travellers/gypsy sites in the greenbelt are inappropriate development. Even if the properties are demolished to provide for the pitches there will still be a large spillover into the Green Belt. This means that planning permission should not be available.
2. The site is on a single track lane with a very narrow access onto Oaks Road which the large mobile homes will not be able to access. The lane is also used by aggregate Lorries (shorter than mobile homes), local residents, members of the sports ground and opposing teams and visitors to Lloyds Park, a much loved public amenity.
3. The site has no safe walking route to schools, shops, doctors, etc. There is no pavement along Oaks Lane and very poor lighting when dark. There is only partial pavement on one side of the road along Oaks Road as well. How will it be possible to safeguard so many additional people including a great number of children? This development is unsustainable as everyone will have to use cars to access the basics of life.
4. The size of the pitches would accommodate a far greater number of caravans than can be controlled by planning restrictions. Even if the restrictions are adhered to, there could be as many as three families on each pitch. With planning for 20 pitches this would mean 60 families and 60 mobile homes, not to mention additional caravans in tow, trucks, vans, trailers and cars.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

</table>
Summary:
Not in line with Government planning policy on the Green Belt

Detail:
• Government planning policy with regards to traveller sites wants to ensure that plan-making and decision-taking should protect Green Belt from inappropriate development.

• The proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the Planning Policy: “Inappropriate development is harmful to the Green Belt and should not be approved, except in very special circumstances.” There are no very special circumstances.

• The National Planning Policy Framework makes it clear that unmet housing need (including for traveller sites) is unlikely to outweigh the harm to the Green Belt and other harm to constitute the “very special circumstances” justifying inappropriate development on a site within the Green Belt.

• The local character description is clearly at odds with the proposal. The justification acknowledges the Green Belt issue, though insufficiently, but relies on the fact that there are existing structures. These are not in fact substantial — being glasshouses — and could be said to be at least environmentally consistent with the Green Belt. But there is no very special circumstance justification proposed as required by Planning Policies.

• Approving the proposal would set a precedent and open the surrounding areas to be subject to similar development. It is not in the community’s interests to allow the erosion of the green spaces surrounding the community and we object to the impact this site could have on the environment and wildlife.

In the light of these issues, it is not appropriate simply to weight Green Belt as one of many factors to be considered, but rather it presents an overarching policy objection that cannot be over-ridden in the way proposed. The decision making process is contrary to Government guidance. To be considered deliverable, sites should be available now, offer a suitable location for development now and we do not believe that the site is deliverable.
Assessment and selection of sites for Gypsy and Travellers undertaken was credible.

Plan makers have not considered the time it will take to commence development on site need for infrastructure improvements – roads, GPS, schools and transport.

There is basis for challenging the way in which this potential site has been selected.

1 Para 3.1 – Green Belt sites included for review of eligible sites "to ensure that all locations for a site considered", but at the same time "Exclusion of sites in Croydon Metropolitan Centre and within District Centres and Strategic Industrial Locations and Conservation Areas due to viability, deliverability and impact on heritage considerations". To me, this view appears unbalanced and un-evidenced, as if other relevant criteria have not been considered. Why is a ‘conservation area’ or ‘industrial location’ not viable, yet a very pleasant piece of open parkland near central Croydon which is accessible to most residents of the borough suddenly is viable? There is no evidence for these assertions of viability.

4 Para 4.1 sets out the criteria and weightings. As indicated above, Green Belt with no built form is given a weighting (-10) which, though high, is not very significant given that there are 29 or 30 criteria and can easily be outweighed by other factors that are less significant in policy terms. Furthermore, Coombe Nurseries has been weighted -5 for Green Belt, in recognition of the fact that there are some structures on the site, AND has been given 5 for the fact that (in the assessor’s view) such structures as there are can be converted to traveller use (if the buildings had to be demolished, on a green field site, this would have attracted -5).

1 SP2.7 on the Council’s proposals to deliver 39 additional gypsy and traveller sites indicates that land will be allocated in accordance with the proposals, but that any ADDITIONAL sites that are not so allocated should meet some stated criteria, including good access to local shops and essential services and good transport access; these seem to be criteria that were excluded from the proposed allocation, suggesting that any alternative proposals would need to meet stiffer criteria. Is this a fair view?
The bases for site criteria weightings are unclear. The proposed development does not meet the needs of the present (see further info in section 3). Gypsies and Travellers needs are not addressed: not enough local amenities, sites are too big, unfit local roads.

The proposed development does compromise the future of the local area.

• Government planning policy is to ensure local planning authorities have due regard to the protection of local amenities and the local environment.

• It is likely the proposals will have an adverse effect on local businesses.

• Coombe Wood is a Site of Nature Conservation Interest (SNCI) (List of Historical Park and Gardens 2008) and borders the proposed Coombe Lodge Nurseries site, and would be negatively impacted by the plans. Croydon Council has already recognised this in its Development Management Policies document.

• The Borough Character Appraisal of 2015, the local area is listed as having special character. The proposed development is not sensitive to, and does not respect, this.

Based on survey responses, most Gypsies and Travellers living in the Croydon area would prefer small, family sized sites. Stakeholder comments suggested that smaller sites have fewer inter-family tensions and are therefore easier to manage. The plan goes against these wishes.

• The proposed plan does not take into account the need for good access to roads. The Croydon Local Plan paragraph 4.19 refers to the need for good access to roads, stating that Gypsies and Travellers "often need to move larger vehicles as part of their livelihood and way of life" – this may be an assertion relevant to the assessment of sites and the narrowness of Coombe Lane.

The proposed sites are not suitable for traveller vehicles.

• It is very important that the site has a safe entrance and exit. There are very strict Highway regulations about visibility at the entrance/exit to sites to ensure there is no danger of accidents. This links into the insufficient local infrastructure and we know how dangerous the junctions Coombe Road/Oaks Road/Conduit Lane can be. Both sites are accessed by single lane roads and the proposed plans do not take into consideration the potential extensive
alterations needed to the local road network.

10.18 The settled community neighboring the sites should also be involved in the consultation from an early stage. There may be scope for expanding existing sites to meet some of the need. However, the preference is for smaller sites which tend to be easier to manage.

• Is there not scope for extending existing sites in the Borough to meet some of the need? It is not clear how much consideration has been given to this.

10.19 In terms of identifying broad locations for new sites, there are a number of factors which could be considered including:

• Social
• School catchment areas

• The area is not in a school catchment area.

10.21 Gypsies and Travellers undertaking the survey also suggested that it is important that new sites are located close to amenities such as shops, schools and health facilities.

• There are no local shops and amenities
• There are no local buses although there is a Tram.
• The GPs in the area are already full to bursting.
• Croydon University hospital cannot cope with the influx of patients already. This would add further nursing and Finance pressures.

10.22 CLG (2012) guidance suggests that Local planning authorities should strictly limit new traveller site development in open countryside that is away from existing settlements.

• Gypsies and Travellers often need mixed-use employment sites (as they often run a business from the place where they live). The proposed plan does not address this in a Green Belt location where commercial activities on site could lead to substantial hazardous contaminants and waste materials escaping from the site.

• Gypsies and Travellers often express their preference to be within walking distance of shops/health centres/schools/local amenities. The proposed sites are not close to any of these. The proposed sites go against Gypsies and Travellers preferences and against environment and climate
initiatives by promoting the use of
their own vehicles for daily life.

• From Government Guidelines, Local
planning authorities should ensure
that their policies ensure that children
can attend school on a regular basis.
The site is well away from schools
(particularly primary school provision)
and clearly does not reflect the above
aim, or facilitate regular school
attendance. Widely recognised by
Government source that Literacy can
be an issue within the Travelling
community, this would place even
more pressure on local schools to
provide for support of their needs.
Recent studies suggest a greater
proportion of ill-health amongst the
travelling community, adding more
pressure to local health centres. In
addition to going against Government
Planning Policy for traveller sites, the
closest services will therefore have
further demands placed on them.

• There is evidence of periodic
overcrowding on traveller sites,
throughout the year and at a peak
during winter months. This would yet
further increase demand on local
services. The plan makers have
made no indication that they would
take this into consideration or look to
limit overcrowding.

The Croydon Local Plan Note that
paragraph 4.19 in referring to the
need for good access to roads, states
that “they often need to move larger
vehicles as part of their livelihood and
way of life” – this may be an assertion
relevant to the assessment of sites
and the narrowness of Coombe Lane.
The local roads would not be suitable
for the continuous use of “larger”
vehicles.

• gypsy-traveller.org - The best type of
land is a ‘brown field’ site. The site
should be close to local amenities. It
is very important that the site has a
safe entrance and exit. There are
very strict Highway regulations about
visibility at the entrance/exit to sites
to ensure there is no danger of
accidents and this is very important.

The objections may be summarized
as:

- inappropriate use of Green Belt land
- lack of relevant amenities close to
town
- Lack of supportive infrastructure
- Adverse effect on neighboring
businesses and leisure amenities
- site has a more appropriate use for a
2599/01/007/DM43.4/O Helen Armstrong

Object: Coombe Farm should be acknowledged as Green Belt

Change: Coombe Farm should be acknowledged as Green Belt

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

2600/01/001/DM43.4/O Hitesh Patel

Object: DM43.4 502

I am writing to register my objections for the following proposed sites for Gypsy and Travellers Site Coombe Farm, Oaks Road - Reference 502.

Following up from the letter sent by Steve Murphy (General Manager). I too am not happy with what you are planning to impose on our lives. Reiterate, the travellers/Gypsies are very rude & me being of Indian origin, little children of no older than 6 or 7 came over, took our golf balls, calling me racially abusive names with their guardians not standing more than few yards. I do not believe a society of such vulgarity should be accommodated at the cost of decent law abiding citizens. I'm not being a Nimby, just want to enjoy my time at this beautiful golf course at the weekends in the main, so please put yourself in our shoes. Please reconsider your options. As a suggestion, opposite Purley way playing fields would be ideal place to create an enclosure.

It's also not fair that whereas we pay for our way in life these get handed pieces of land at our expense. I've every faith in you & your team to make the right choice without upsetting the apple cart.

2604/01/002/DM43.4/C I and W Smith

Object: DM43.4 502

We are writing to object to the use of the following locations as gypsy/traveller sites.

Coombe Farm off Oaks Road reference number 502

Change: The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Ian Broyd  
Object DM43.4 502  
Croydon has very few green places that are actually loved and residents are proud of so they need to be left as they are or enhanced. The proposal to place travellers site is not acceptable. These sites are stated by the Council to be in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". Also these sites are far from schools and shops therefore not suitable for the proposed change of use.

Richard Parrish  
Archbishop Tenison's School  
Object DM43.4 502  
I am writing on behalf of the school and its Governors to object to the use of the following locations as gypsy and traveller sites: Coombe Farm off Oaks Road, site reference 502.
The ground for my objections is: both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b, with Policy SP7.2 and the protection of the green grid or with 6.15 Strategic Objective 10 relating to the green grid.

Miss P Jones  
Object DM43.4 502  
I most strongly object to the use of either the locations planned as Gypsy/travellers sites as they are both in green belt and one borders a site of Nature Conservation interest. The Government clearly states that "Traveller sites (temporary or permanent) in the green belt are inappropriate development."

Mr T A Braim  
Object Soundness - Justified DM43.4 502  
Why do Gypsies and Travellers have preferential treatment with regard to having sites where public transport accessibility is not an issue disregarding government guidance. Likewise over privacy.
This site will require access to Coombe Road at a staggered junction which is congested at the best of times and a nightmare in the morning and evening peaks.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

<td>Mr Marin Little</td>
<td>DM43.4 502</td>
<td>The proposed site is not suitable for the proposed development; it is not close to any amenities such as schools, shops, medical services. It would create a significant road hazard and greatly increased traffic. It would be inappropriate use of green belt. There are many more suitable sites for the proposed development. There is a complete lack of local infrastructure, funds and acceptance by local ratepayers and tax payers. Probable hostility between local residents and inhabitants of the proposed site. There is a lack of local amenities, adverse effect on local residents and businesses. Inappropriate use of green belt land; negative impact on local environment, flora and fauna.</td>
<td>The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.</td>
</tr>
</tbody>
</table>
I object to the use of the following locations as gypsy and traveller sites:

- Coombe Lodge Nurseries off Conduit Lane, site 661;
- Coombe Farm off Oaks Road, site 502;
- Pear Tree Farm and Pear Tree Farm Cottage, Featherbed Lane, site 755;

as all three sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. Furthermore, Policy E of 'Planning Policy for Traveller Sites', published by the Government in August, states very clearly that 'Traveller sites (temporary or permanent) in the Green Belt are inappropriate development'.

The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the 'Assessment and Selection of Sites for Gypsy and Travellers'. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of 'extensive political consultation'. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria.

Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be 6. This begs the question as to how many other inaccuracies are in the document.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Mrs Krystyna Joanna  
Object Coombe Lodge Nurseries, Conduit Lane is on the Green Belt. 

Not in line with Government Planning policy on the Green Belt. 

- Government Planning Policy with regards to traveller sites wants to ensure that plan-making and decision-taking should protect Green Belt from inappropriate development. 

- The proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the Planning Policy 

"Inappropriate development is harmful to the Green Belt and should not be approved, except in very special circumstances. There are no very special circumstances. The preferred approach is not deliverable. To be considered deliverable, the sites should be available now, offer a suitable location for development now and we do not believe that the Assessment and selection of the sites for Gypsy and Travellers undertaken was credible. 

Plan makers have not considered the time it will take to commence development on site, need for infrastructure improvements - roads. 

There is basis for challenging the way in which this potential site has been selected. 

1. Para 3.1. Green Belt sites included for review of eligible sites "to ensure that all locations for a site considered" but at the same time "Exclusion of sites in Croydon Metropolitan Centre and within District Centres and Strategic Industrial Locations and Conservation Areas due to viability, deliverability and impact on heritage considerations". Is this even handed? 

4. Para 4.1 sets out the criteria and weightings. As indicated above, Green Belt with no built form is given a weighting (-10) which, though high, is not very significant given that there are 29 or 30 criteria and can easily be outweighed by other factors that are less significant in policy terms. 

Furthermore, Coombe Nurseries has been weighted -5 for green belt, in recognition of the fact that (in the assessors view) such structures as they are can be converted to traveller use (if the buildings had to be demolished, on a green field site, this would have attracted -5). 

1. SP2.7 on the Council's proposals to deliver 39 additional gypsy and traveller sites indicates that land will be allocated in accordance with the proposals, but that any ADDITIONAL sites that are not so allocated should meet some stated criteria, including good access to local shops and essential services and good transport
access; these seem to be the criteria that were excluded from the proposed allocation, suggesting that any alternative proposals would need to meet stiffer criteria. Is this fair and even handed? The basis of the criteria weightings are unclear.

- The national planning policy framework makes it clear that unmet housing need (including for traveller sites) is unlikely to outweigh the harm to the Green Belt and other harm to constitute the “very special circumstances” justifying inappropriate development on a site within a green belt.
- The local character description is clearly at odds with the proposal.
- The justification acknowledges the green belt issue, though insufficiently, but relies on the fact that there are existing structures. These are not in fact substantial – being glass houses, and could be said to be at least environmentally consistent with the green belt. But there is no very special circumstance justification proposed as required by planning policies.
- Approving the proposal would set a precedent and open the surrounding areas to be subject to similar development. It is not in the community’s interests to allow the erosion of the green spaces surrounding the community and we object to the impact this site could have on the environment and wildlife.

In light of these issues, it is not appropriate simply to weight Green Belt as one of the many factors to be considered, but rather it presents an overarching policy objection that cannot be over-ridden in the way proposed. The decision-making process is contrary to Government guidance.
Buildign on green belt land does not meet the Strategic objectives. National Planning Policy for Traveller Sites states that temporary or permanent sites are inappropriate development in the green belt. There are no apparent exceptional circumstances that could warrant the proposed use of this green belt site. It would set an unwanted precedent.

The road infrastructure is inadequate to allow vans and caravans in and out of Coombe Farm and the road is currently a single track. There are no local services such as schools, shops or healthcare facilities and would therefore not serve the traveller community very well.

National policy dictates that in planning for traveller sites, the Council must relate the number of pitches or plots to the circumstances of the specific size and location of the site and the surrounding population's size and density. An area impact assessment must be considered by the Council as part of the planning process.

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

The following should be added to SP2.7:

IT MUST BE ENTIRELY ACCEPTABLE IN RELATION TO ITS IMPACT ON NEARBY PUBLIC SPACES AND RESIDENTS AND BUSINESSES IN THE AREA

If this was included for site 502 it would be realised that the development was inappropriate due to the green belt and the lovely gardens of Coombe wood

These areas should be left to families and dog walkers to enjoy the open space

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Object

I object to the use of the site for gypsy and traveller accommodation.

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Mr John Walsh
Object

DM43.4
502

Objects to all gypsy and traveller sites (as chairman of Campion Close Freeholders Limited and Parkland Management Company Limited which comprise 75 properties). The proposals conflict with Policy E 'Planning Policy for Traveller Sites' which states that temporary or permanent sites are inappropriate development in the green belt. What happens if the travelling community outgrow these sites? Surely the many industrial sites in the area would be more suitable, or Valley Park?

The proposals would clearly harm the green belt and would have a negative impact on the environment and wildlife in Coombe Wood, Shirley Hills and Lloyd Park some of which is a Site of Nature Conservation Interest and it would create a precedent for further erosion of our valuable local amenity.

Coombe Road and Coombe Lane are already very busy roads. These proposals would exacerbate this problem if significant road improvements were not carried out. These proposals would also exert pressure on local services that are already stretched. The junctions at Coombe Road, Oaks Road and Conduit Lane are already dangerous.

What social and economic benefits would a gypsy and travelling community bring to the existing local community in this area as well?

Mrs E Ballard

Soundness - Justified

DM43.4
502

I object to the allocation of Coombe Farm as a Gypsy and Traveller site. In the past few years we have suffered from frightening results from unauthorised Travellers sites. Residents and local businesses alike have experienced unacceptable behaviour problems and unacceptable mess, with both physical and psychological effects. I urge you to see that these plans are not allowed.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
I am writing to object to: The use of the following locations as traveller sites: Coombe Lodge Nurseries off Conduit Lane Site reference 661, Coombe Farm off Oaks Road Site reference 502, Pear Tree Farm Featherbed Lane 755. Because these sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

To build so close to award winning gardens such as Coombe Gardens, Heathfield or a picturesque Wedding Venue such as Coombe Farm will be detrimental for the local businesses and residents. People from the wider area also enjoy these places. People travel from miles around - even by the coachload - to see these parks in Croydon. If they are built right up to with mobile homes or prefabs and other semi-permanent residences, they cannot fail to appear less attractive.

With regard to homes for Travellers, I do not wish to stereotype any group in our society, but first-hand experience of travellers staying recently in Sunken Lane has shown that they do not respect our precious green areas in the same way as the Heathfield and Ballards Farm residents do. I visited Sunken Lane after their recent departure and saw bathroom suites, mattresses and piles of other waste including dirty nappies and rubbish dumped in and around the beautifully Shirley Hills area. Pathways were blocked and cars could not turn in Sunken lane. Street lights in the local area had been broken so that this fly-tipping could not be filmed by CCTV. In the days before, my sons had felt intimidated when travelling home from school by the travellers' children and had to call me to collect them by car from the Coombe Rd tram stop. I took the time to visit the Layhams Farm Traveller site so that I could make an informed opinion and I was greeted by dogs off leads and groups of men gathering as soon as I approached. They did not trouble me, but I was made to feel decidedly unwelcome. Outside of the area some of the teenagers were crouched in the road and were smashing the top off bottles and then sprinkling glass in the road where cars were passing. If the sites proposed are to be like this, then I would be very unhappy if the plans were to go ahead.

Change: The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Traveller site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Object

The assessment and selection of sites for Gypsy and Travellers has been unacceptably skewed in favour of remote and unsustainable sites. Premier Inn Hotel Ltd objectives to the proposed allocation for the following reasons:

- The site is located in Metropolitan Green Belt. The DCLG’s Planning Policy for Traveller Sites explicitly states in Policy E that traveller sites are inappropriate development in the Green Belt. It also notes that unmet need is not ‘very special circumstances’ that would justify development in the Green Belt. The proposed allocation is contrary to this policy.

- In the Council’s assessment it states that a score of -5 will be applied to sites with ‘built form’ in the Green Belt. However, in the assessment a score of +5 was applied to this site. The importance of this site’s Green Belt designation has been undervalued. The assessment draws a distinction between Green Belt sites with and without ‘built form’, a distinction that is not supported by national level policies and guidance. Other assessment criteria (e.g. Flood Zone) with -5 is given a “red” status whereas the -5 for Green Belt has only been given “amber”. This indicates that the Green Belt has not been properly taken into account.

- The Council notes that the Gypsy and Traveller population prefer to use their own transport and be located away from the existing residential community. This is contrary to CLG guidance.

- The changes proposed in the Housing and Planning Bill are also relevant as this indicates that Central Government is against Gypsy and Traveller housing being treated in isolation from the rest of the population, contrary to the approach adopted by Croydon Council in this assessment.

- The Council’s assessment under ‘privacy’ gives a score of +10 to sites away from existing residential areas and -10 for sites in existing residential areas. Other criteria only have a 5 point swing. The assessment therefore gives a strongly weighted preference to comparatively remote and unsustainable potential sites that are considered to be ‘private’ while underrating factors that are relevant to the sustainability of potential sites which is directly contrary to the NPPF.

In conclusion the proposed allocation is the result of a flawed assessment and should be removed from the Local Plan in favour of a more sustainable site.

Change

The site should not be allocated for a Gypsy and Traveller site and the assessment criteria should be reviewed.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Oaks Farm Receptions Ltd objects to the proposed allocation of Coombe Lodge Nurseries, Conduit Lane and Coombe Farm, Oaks Road as Gypsy and traveller sites for the following reasons.

Both sites are located within the Metropolitan Green Belt. Policy E of the DCLG’s Planning Policy for Traveller Sites (August 2015) explicitly states that traveller sites are inappropriate development in the Green Belt. It also notes that unmet need is not a "very special circumstance" that would justify development in the Green Belt. The proposed allocation is therefore contrary to this policy.

In conclusion, the proposed allocation of Coombe Farm, Oaks Road (site number 502) and Coombe Lodge Nurseries, Conduit Lane (site number 661) as Gypsy and traveller sites is the result of a flawed assessment process. These proposed allocations should be removed from the Local Plan and more sustainable sites that would not result in inappropriate development in the Green Belt should be sought.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
I am writing to strongly object to the permanent Travellers site proposed on Coombe Farm. I have numerous points to raise with Croydon Council.

1. The access road to Coombe Farm is very narrow especially where it joins Oaks Road. Large mobile homes will not be able to gain access.
2. As far as I am aware it does not have main drainage. Who will pay for that improvement?
3. The land is constantly water logged even in the summer and prone to flooding. Who will pay for the necessary new drainage?
4. Oaks Road suffers from traffic jams due to the tram crossing and the difficulty in turning right onto Coombe Road. Caravans, trailers and lorries owned by Travellers will only add to this problem. Oaks Road has also had numerous accidents due to speeding hence the speed monitor on the road.
5. This area already has a serious problem (as in deed does all the borough) with Travellers. The area is surrounded by green fields and a permanent Travellers site will only be a magnet to other Travellers.
6. Will new street lighting be necessary and who will pay for it?
7. If the Travellers have access to the house at Coombe Farm, will you be contacting English Heritage for their approval for any work that is carried out on the property as it is listed.

Travellers have occupied the field in front of our house and adjacent to it on numerous occasions, causing many difficulties and anxiety to us. These are some of the many problems we have had to deal with;

1. Many times they have driven lorries and vans at speed through our front garden when a wedding was taking place. Young children are playing in this area as well as adults socialising. It is a very frightening experience for everyone and we cannot stop them.
2. I have been swore at and shouted at when I have been attempting to clear up the rubbish they have left in the lane before a wedding. This includes bags of faeces on the ground and hanging from the trees.
3. We have witnessed young adults and children from the Travellers site stealing scooters, tricycles and space hoppers belonging to our grandchildren from our garden. We have been told by the police not to approach them. The security man and the dog handler that was on the field told me they took our garden toys away with them.
4. On one occasion the travellers...
arrived in our lane at about 7.00 pm just as some guests at the wedding were leaving and others were arriving for the evening party. The Travellers completely blocked the lane and nobody could move. They were very abusive to the wedding guests. A neighbour called the police on our behalf. The police tried to stop the Travellers getting onto the field but eventually they had to let them enter the field because the Travellers were becoming very nasty. The residence of Oaks Road and Oaks Farm had to then live with these people next to their houses until the council removed them. We were very grateful for the council’s action, thank you.

We have taken the advice of the police and never approached the Travellers, they warned us how aggressive they can be. Our house is quite isolated and we have no street lighting. We are very concerned about having Travellers so close. We have always cooperated with the police and Croydon Council in trying to stop the Travellers occupying the fields in this area and have had to report numerous incidences of fly tipping.

A few years ago Croydon Council asked us to contribute £6,000, half the cost of a bund running along the length of our access road. This we agreed to do. Unfortunately a gate had to be put in the bund for access for grass cutting purposes. The Travellers have broken the lock on the gate twice and entered the field. The golf course have recently kept a trailer across the gate to stop the Travellers entering. They have also had many problems with the Travellers.

Having three Traveller’s sites so closely located in an area will form a strong and sometimes difficult Traveller and Gypsy community (Romany Gypsies dislike Travellers). This will change the demographics of the Heathfield Ward. As I have said before and cannot emphasise enough, it will attract other Travellers to the green fields in this ward. Croydon Council are storing up a serious problem for themselves, especially as some of the sites are privately owned. Has nobody learnt the lessons of Dale Farm in Essex! Do you really want this to happen in Heathfield in five or six years’ time.
1. Travellers/Gypsy Sites: We echo concerns raised by other voices in Croydon. While accepting the need for appropriate sites for travellers and gypsies we question the ability of the Council with current levels of resourcing to manage an increased number of sites effectively. With specific reference to Coombe Lodge Nurseries and Coombe Farm:

•The loss of the greenhouses at the Nurseries site (Conduit Lane) has potential significance for community, educational and employment opportunities
•This will be a new, permanent development on green belt land
•Access to and from the site on a dangerous section of Coombe Road will impact on traffic flow and road safety more generally.
•There is no overflow space if and when the site becomes full.
•There is likely impact on parking for access to Coombe Woods, the café and on the elderly visiting the area.
•As the two nearest schools (Royal Russell and Cedars Catholic) are independent, does this satisfy the criteria that travellers sites be located close to schools?
•Similarly, the criteria that sites should be close to shops will not be met.
•There is a real concern that there will be a negative impact on the environment of Coombe Woods, its biodiversity and the contamination of groundwater. Recent experience in Lloyd Park demonstrates a potentially serious problem with litter and lack of rubbish disposal. This leads to the Council having to collect rubbish and the creation of a hazardous refuse collection point.
The more specific site allocations represent a large reduction in the amount of designated and non-designated open space. While we acknowledge the need to build new homes and associated infrastructure such as schools, Croydon’s growing population also needs quality open spaces for all the human amenity and ecosystem services which they provide.

This area of Green Belt has not been removed from the Green Belt via the Review process; therefore it must be assumed that it continues to meet the criteria for designation. Therefore, the proposed Gypsy and Traveller Site would be considered to be an inappropriate development (following Policy E of Planning Policy for Traveler sites published by the Government in August 2015) and the Council must prove that exceptional circumstances exist. The fact that it may in part be brownfield is not a reason in itself to waive this protection. We request clarification that any proposed development at the site must ensure that they use the same footprint of the building and do not increase any height, ensuring that the openness of the Green Belt is not affected.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

I object to the use of the site for gypsy and traveller accommodation.

Incorrect calculation in the selection criteria for 502 (Coombe Farm)
object to the proposals for site 502 because it is contrary to Policy 7.17 of the London Plan which states that strong protection should be given to MOL and the site should not be redesignated without consultation with residents and local businesses. Policy 7.18 states that open spaces in London must be protected and their loss resisted as it will affect the urban attractiveness of the area and have both emotional and financial repercussions. It would impact on the social and sport activities in the area and have an adverse ecological impact. Also object on grounds that the sites are not within the required distance for both schooling and medical services.

Mr Terrence Pais

Ms Alison Lawton

Object

I object to the use of the site for gypsy and traveller accommodation as it would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. I believe that in your report you have miscalculated. The category where the mistake has been made is GB/MOL where an amber rating has been correctly given. The score for an amber is -5 and a +5 score has been incorrectly allocated. This reduces the overall score for the site by ten points from 26 to 16.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

I would say to the Council Croydon is full and kindly leave our precious Shirley open spaces and attractive streets alone, we don't need an odd assortment of blocks of flats amongst the semi-detached and small detached properties here, or in similar Croydon suburbs. It would be an architectural disaster along the lines of the 1950s concrete jungle development of the centre of Croydon. And we don't have the infrastructure to cope with more people, or the roads to cope with the traffic we already have.

DM43.4

5. Proposed Policy DM43 Creation of Gypsy Traveller sites at Coombe Farm, off Oakes Road, Coombe Lodge Nurseries, off Conduit Lane and Pear Tree Farm and Pear Tree Cottage Featherbed Lane.

I object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and one borders a site of Nature Conservation Interest. Such development is in breach of Policy Eat Planning Policy for Traveller Sites, which says that ‘Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development’. All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites now, and 39 by 2036 is excessive and will have an adverse effect on the borough. If the number of Gypsy/Traveller sites really needs to be increased by this amount then a more appropriate location would be around the existing site at Purley Way. The positioning of a Gypsy/Traveller site adjacent to the car park for Coombe Woods, between the Chateau Restaurant and the Hotel/restaurant, would probably deter me from using any of these attractions.

For the reasons given above:
1. I do not think that the preferred approach is the most appropriate for Croydon to help us meet our Strategic Objectives set out in Section 3.
2. The preferred approach is deliverable, but not acceptable.
3. I do not think the preferred approach enables sustainable development, because it will compromise the ability of future generations to meet their own needs.
4. I recommend that consultation documents of such importance are given much wider publicity.

I have restricted my objections to those plans that primarily affect the area of Shirley I which I live, but the same objections apply to other proposals in other parts of the borough.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

</tbody>
</table>
We wish to object to the proposal Gypsy/Traveller site Ref 502 for the following reasons:

- Sustainability of the proposed site and the need for any such provision

The current proposals seem to have been produced in isolation from the other neighbouring Councils even though the above clearly indicated that nearby councils such as Sevenoaks, Tandridge and Bromley have a higher demand. Proposals in the Housing and Planning Bill 2015-16 are to remove the statutory requirement on local authorities to assess the specific accommodation needs of Gypsy and Travellers - the emphasis being that when authorities are carrying out a review of housing need that it considers the needs of all the people residing in or resorting to their district, without any references to Gypsies or Travellers.

We hope that the Council will consider the needs of our neighbours and local services and businesses as weighty as those of the Gypsy and Traveller people. There is a lot of opposition to the proposed sites from people currently residing in the district due to the threat of the Green Belt, increased traffic and increased pressure on local services.

The Assessment selection for the sites for Gypsies and Travellers scored lowly should have resulted in an acceptance that none of the sites are really particularly suitable and that the Council will need to liaise with other Councils if determined to make provision.

With regard to the sustainability of the sites, following on utilising the scoring assessment, we strongly object on a number of grounds:
- All sites lie within the Green Belt. This raises concerns about the impact on the Green Belt as a result of having to provide amenity blocks, communal facilities, safe play areas and areas for grazing horses.
- All three sites are unsuitable because they do not have good means to transport.
- Sites should have access to essential services including health and education facilities and access to local shops. None of the sites have good access to local schools (the nearest primary is over subscribed and the nearest post office is 1.7 miles away.)

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Mr & Mrs Rowlands

We enclose our statement of objection to the local development plan which we believe would profoundly damage the Shirley area and the in particular, we wish to oppose the proposed use of the Coombe Farm site Ref 502 for use as a Gypsy/Traveller site.

We have unpleasant first-hand experience of living in close proximity to gatherings of travellers who have from time to time descended on fields neighbouring our house. We believe that allowing large groups to have sites in the same vicinity as the borough is proposing, is likely to bring similar problems. In the past the site of their encampment has been left strewn with litter and with evidence close to the mobile homes themselves, of illegal fly tipping. At times, we found the behaviours of some individuals to be intimidating.

The case against the broader proposals as well as against the choice of the traveller sites as is well made in the documents to which we have added our signatures.

There may in, the fullness of time be a case for making a legal objection to the Borough’s plans along the lines of a judicial review, given the apparent breach by the borough of regulations designated to protect the green belt in the interest of the wider community, a legal objection we believe would command the support of many local residents who share our views.

DM43.4
502

Mr Alan Magrath

It is a green belt area and national guidelines say that traveller sites in the green belt are inappropriate. Planning permission should not be available. The site is accessed via a narrow road. There is poor lighting and no pavements. The sheer number of caravans, cars, trucks and vans on one site would be an eyesore on the edge of one of the few large green spaces in central Croydon.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

DM43.4
502
Mrs & Mrs Rutherford

Object

DM43.4 502

I am writing to object to:

Coombe Farm off Oaks Road, site reference 502 for use as a gypsy and traveller site, as this site would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b; or with Policy E of "Planning Policy for Traveller Sites" published by Government in August which states "Traveller sites in the Green Belt are inappropriate development;"

Based upon the Scoring criteria Table 1, there are errors in the scoring in the policy designation assessment table under the GB/MOL. In view of the errors the following site should be considered:

16 - Heath Clark playing fields, Stafford Road Waddon
518 - Wandle Road surface car park, Wandle Road, Croydon Opportunity Area.
536 - Land of former Croydon Airport runway, south of Imperial Way, Waddon.
552 - Wandle Road surface car park, Wandle Road Croydon Opportunity Area.
632 - Land south of Threehalfpenny Woods, Kent Gateway, Bridle Way Addington.
767 - Cane Hill south part, Hollymeak Road, Portnalls Road, Coulsdon.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Mr Chris Hutchinson

Royal Russell School

DM43.4

Page 5 Green Belt designation - the applicable scores are -10, -5 and +10. The proposed sites all scored +5. The applicable score should be -5. Page 6 Privacy - this attracts +10 or -10. A Green Belt/Open Land site will naturally provide greater privacy and so attracts +10, meaning the difference in score from a site with privacy to a site without privacy is 20 points - a sizable margin that impacts heavily on the ultimate score for each site. Page 6 Social Deprivation - why should these areas be treated differently and therefore attract a score of +10? Page 6 Access to Services - attracts a neutral 0 score. Why is access to essential services scored as unimportant? Page 6 Employment and community use re-provision - only scores -5. This should be higher if businesses need to relocate or cease to exist with loss of employment, such as the Wedding venue business on the Oaks Farm land. Page 7 Brownfield vs Greenfield site - The criteria indicated that a brownfield site that has a building that can be converted for traveller use will score 0, whilst a Greenfield site with the same criteria score +5. Please explain.

DM43.4

502

GBMOL should be 5, not +5 as shown. Site access should be -2 and not +5. Building on Greenfield site should be 0 not +5. Overall score should be 4 not 26. Not including the +10 for Privacy.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Mr A Zelisko

Object

Soundness - Justified

DM43.4

502

I object to the use of this site as a Gypsy and Traveller site. The site is in Green Belt and contrary to national policy (as it is inappropriate development in the Green Belt).

The immediate area is sparsely populated. National guidelines state the such sites should not overwhelm the nearest settlements and this site would.

The Croydon GTANA 2013 specifies that proposed sites for Gypsies and Travellers should have good access to local shops. There are none near this site.

The Croydon GTANA 2013 specifies that proposed sites for Gypsies and Travellers should be near bus routes and have good access to roads, with a specific reference to larger vehicles. This site is a considerable distance from public transport and access is down a single track road.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Mr Alan Weeks  
Object DM43.4 502  
Can you please advise me as to why there is only one notification in Shirley Avenue CR0 8SQ (approx. 150 houses) regarding the above plans.  
Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Mr & Mrs Reynolds  
Object DM43.4 502  
Please don’t tell us that we have to put up with gypsy/traveller sites at places that are used by locals and non local residents for pleasure. I have a caravan on a site not too far from Croydon and when travellers are allowed to come on to the site they always leave the site in a dreadful state and ruin the enjoyment for everyone on site.  
Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Mr David Martin

Residential development is a viable option. We already have very limited housing. However, this should never be built over green belt.

Existing infrastructure just cannot cope with additional population in Croydon:
1. We have to wait for at least 4-5 days to get appointment at doctors – many times we do not get appointment.
2. We have to wait for at least 15 minutes to get a turn to play swing/slide for my son in any local park. The parks are so crowded during summer. Already children are getting very less exercise. If 40 families come over with more than 80 children then it would be extremely overcrowded.
3. There are not enough schools in the area. We should build more schools.
4. There is very limited green space in Croydon. Government policy states that you cannot build temporary or permanent sites on green belt. Putting the travellers site near green belt will endanger the
5. Increased traffic due to a planned school and travellers sites will cause traffic chaos.
6. We need green belts for good health of the citizens. Steps like these would encourage the encroachment of green belts.

Existing infrastructure just cannot cope with additional population in Croydon:
1. Travellers should be encouraged to settle down and mix with the local community. So permanent housing is better. This way they will avoid the stigma too. Their future generations can have better life. But this needs to be planned properly on the brown field sites.
2. We have to wait for at least 4-5 days to get appointment at doctors – many times we do not get appointment.
3. We have to wait for at least 15 minutes to get a turn to play swing/slide for my son in any local park. The parks are so crowded during summer. Already children are getting very less exercise. If 40 families come over with more than 80 children then it would be extremely overcrowded.
4. There are not enough schools in the area. We should build more schools.
5. There is very limited green space in Croydon. Government policy states that you cannot build temporary or permanent sites on green belt. Putting the travellers site near green belt will endanger the
6. Conduit Lane is a no drive through zone. Increased traffic due to a planned school and travellers sites will cause traffic chaos.

7. We need green belts for good health of the citizens. Steps like these would encourage the encroachment of green belts.

Incorrect calculation in the selection criteria for 661 (Conduit Lane) and 502 (Coombe Farm) - If a site is Green Belt/MOL-built form then it is marked as (Amber/Orange), which means a score of -5. "+5" has been used which increases the rating by 10 points. Error in calculating site access for 661: There are cars parked on that road and the entrance is through a very busy main road. The site cannot have a rating of +9. It should be -2. That is a difference of 7 rating points.

The site is in the green belt. Coombe Farm is a listed historic property with covenants on its usage. It is classified as an Archaeological Priority Zone and part of the site is designated a Site of Nature Conservation Importance. Increased vehicle movements to the site would be hazardous because of the present restricted and unsuitable road access to the site, the junction with Oaks Road being near the tram link crossing and the increased congestion at Oaks Road/Coombe Lane/Coombe Road that already exists at peak hours. There appear to be inadequate safe walking routes to schools/shops/medical facilities and limited pavement facilities in Oaks Road. 15-20 pitches could overwhelm the existing community. |

DM43.4

502

The Council acknowledges that the site is in the Green Belt (and one of the sites borders an SNCI). The Planning Policy for Traveller Sites states that traveller sites in the Green Belt are inappropriate development. The Council's approach is clearly in breach of that policy. Brownfield or industrial land should have been proposed not green belt. Why does the Council need to quadruple the number of sites for gypsy and travellers? The intention may be to do away with illegal encampments but may instead mean the area becomes a hub for travellers.

Why were no appropriate sites suggested for Coulsdon? Opening sites at Coombe Lodge Nurseries and Coombe Farm will be detrimental to the amenity of adjoining owners. There is a lack of amenities close as hand. There are insufficient local infrastructure to accommodate the plans.

Other sites the council should reconsider instead of both Coombe Lodge Nurseries and Coombe Farm are: Expand existing permanent sites in Latham's Way off Beddington Farm Road, Heath Clark playing fields, Stafford Rd, Waddon, Timebridge Community Centre, Field Way, New Addington, Land adjacent to 103 Goodenough Way, Old Coulsdon, Wandle Road, car park, Wandle Rd, Croydon, Land of former Croydon Airport, runway, south of Imperial Way, Waddon, Land adjacent to Ashburton playing fields at rear of 2-88 Coleridge Rd, Addiscombe, By Pavilion Playing Fields, Purley Way, Land south Of Threashalpenny Woods, Kent Gate Way, Bridle Way, Land west of Timebridge Community Centre, Lodge Lane, Elmside, Addington, Cane Hill-south part, Hollymeak Road, Portivals Rd, Coulsdon.

Cllr Susan Winborn

Objects to this site being used for a gypsy and traveller site. It would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Object Soundness - Justified DM43.4 502

All three sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

Furthermore, Policy E of ‘Planning Policy for Traveller Sites’, published by the Government in August, states very clearly that ‘Traveller sites (temporary or permanent) in the Green Belt are inappropriate development’. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the ‘Assessment and Selection of Sites for Gypsy and Travellers’. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of ‘extensive political consultation’. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document.

DM43.4 502

Furthermore, Policy E of ‘Planning Policy for Traveller Sites’, published by the Government in August, states very clearly that ‘Traveller sites (temporary or permanent) in the Green Belt are inappropriate development’. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the ‘Assessment and Selection of Sites for Gypsy and Travellers’. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of ‘extensive political consultation’. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross-party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document.

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
we are absolutely devastated to find out this shocking plan that the council has in mind for Shirley.

I strongly suggest that you consider elsewhere like New Addington and alongside Addington Road (mad mile), open space in Purley Way after the Colonnades, alongside Mitcham Road and Beddington Lane and the list goes and let remain the beautiful green belt area in Shirley unspoiled and untouched, so that we, our children and the elders that arrange walking groups can all continue to benefit from walking, jogging around the area of Oaks Road, Coombe Park, Oaks Farm leading to Lloyd's Park and up to the Royal Garden restaurant, I healing fresh air rather than the pollution from the cars like we see so many people jogging on the pavement else where.

We wish to object to the above referenced Sites which are being considered for the location of two gypsy and traveller locations on the following grounds:

• Inappropriate use of Green Belt Land
• Sites that are located on the Green Belt, considered to be inappropriate development for Traveller sites (temporary or permanent) and against Government Policy ("Planning policy for Traveller Sites", DCLG, August 2015)
• Selection of Proposed Sites should have a bias towards Brownfield or Industrial Land not Green Belt
• Detrimental to the Amenities of Adjoining Owners
• Lack of relevant Amenities close at hand
• Insufficient Local Infrastructure to accommodate the plans

However, we do wish to be seen as entirely negative and would ask that consideration be given to locating at the Existing Permanent Gypsy Site in Lathams Way off Beddington Farm Road.

Objections summarised as:
- Inappropriate use of Green Belt land
- Lack of relevant amenities close to had
- adverse effect on neighbouring businesses and leisure amenities
- site has a more appropriate use for a school
Object: Soundness - Justified

DM43.4 502

All three sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. Furthermore, Policy E of ‘Planning Policy for Traveller Sites’, published by the Government in August, states very clearly that ‘Traveller sites (temporary or permanent) in the Green Belt are inappropriate development’. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the ‘Assessment and Selection of Sites for Gypsy and Travellers’. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of extensive political consultation. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -6. This begs the question as to how many other inaccuracies are in the document.

Change: The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Coombe Lodge Nurseries, Gypsy and Traveller Sites:
- Detrimental to the amenities of adjoining owners.
- Inappropriate use of green belt land.
- Sites that are located on green belt, considered to be inappropriate development for traveller sites (temporary or permanent) and against Government Policy (*Planning policy for Traveller Sites* DCLG, August 2015).
- Lack of relevant amenities close to hand.
- Insufficient Local Infrastructure to accommodate plans.
- Selection of proposed Site should have bias towards brownfield or industrial land not green belt.
- Why are two sites in very close proximity to one another being proposed.
- Imbalance across the borough with all sites being proposed in the south of Croydon.
- Why not expand the existing permanent gypsy site in Lathams Way off Beddington Farm Road.
- If one has to select one of the proposed sites, the preference’s for Perar Tree Farm and Pear Tree Farm Cottage, Featherbed Lane.

Other sites that the Council should reconsider instead of both Coombe Lodge Nurseries and Coombe Farm are the following.
- 16 Heath Clark playing fields, Stafford Road Waddon
- 120 Timebridge Community Centre Field Way, New Addington
- 518 Land adjacent to 103 Goodenough Way, The Admirals Walk, Old Coulsdon
- 622 Wandle Road surface car park, Wandle Road, Croydon Opportunity Area
- 536 Land of farmer Croydon Airport runway, south of imperial way, Waddon
- 592 Land adjacent to Ashburton playing fields at rear of 2.88 Croydon Road, Addiscombe
- 533 By Pavillion playing fields Purley Way, Waddon
- 632 Land south of Threehalfpenny Woods, Kent Gate Way, Birdle Way, Addington
- 636 Land west of Timebridge Community Centre, Lodge Lane, Elmside, Addington
- 767 Cane Hill south part, Hollywood Road/Pontins Road, Coulsdon

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
The Whitgift Foundation

Object     DM43.4
Number     502

Our client is deeply concerned about the manner in which the Evidence for the Croydon Local Plan: Detailed Policies and Proposals (Preferred and Alternative Options) ("the Evidence Paper") has been prepared. The scoring assessment applied by the Council is reductionist and disregards the wider context (for example outreach programme and supports) within which sites sit. Without that appreciation we do not consider that the Evidence Paper adequately supports the Council's Strategic Objectives. The Evidence Paper identifies four "absolutes" for the initial screening. In the absence of any justification and evidence backed rationale behind these "absolutes" we are left to conclude that there is none. A site should be available and deliverable. We consider that to be an appropriate test in determining the suitability of a site for development. There is little explanation as to what factors the Council has taken into account for the purposes of scoring whether a site is deliverable—particularly over a 20 year period. No consideration is given to the use of CPO powers where a site for example could be suitable save for possible issues over deliverability. The use of CPO powers should be a consideration for the purposes of deliverability. The existence of contamination cannot be considered in isolation. There does not appear to be any detailed analysis of whether the extent of contamination on some sites, and the costs of remediating that contamination, would render that site undeliverable in the plan period. A failure to acknowledge the need for sites to be located in proximity of public transport services does not support the principle of sustainable development.

In adopting this flawed approach the Council have failed to consider the contribution that smaller sites could make in delivering sites for gypsy and traveller communities. As a result, the initial screening process was biased towards larger sites despite the evidence base showing that such sites were not supported by the gypsy and traveller community. As a result, the Council has not properly considered if there are exceptional circumstances which justify any of the identified Green Belt sites coming forward for use as traveller sites.

For the reasons detailed above, the assessment proceeded from an erroneous starting point of "absolute" requirements that were neither justified nor supported by the Council's existing gypsy and traveller policy. The Evidence Paper is lacking in detail, and the scoring criteria overly simplistic. As a result, the evidence put forward by the Council is lacking in transparency and is an unsound base for policy making.

To ensure transparency in the planning process the same tests should be applied to allocated sites and windfall sites.

For the reasons detailed above, the site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Incorrect calculation in the selection criteria for sites 661 and 502. If a site is Green Belt/MOL built form then it is marked Amber/Orange which means a score of -5 but +5 has been used which increase rating by 10 points.

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Object Soundness - Justified  
DM43.4  502

All three sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. I am concerned that all three sites are also some considerable walking distance away from GP practices, shops, schools, public transport and other local services which would be contrary to the Council's Health and Wellbeing Strategy.

Furthermore, Policy E of 'Planning Policy for Traveller Sites', published by the Government in August, states very clearly that Traveller sites (temporary or permanent) in the Green Belt are inappropriate development. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the 'Assessment and Selection of Sites for Gypsy and Travellers'. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of 'extensive political consultation'. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document.

Change  The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Residential development is a viable option. We already have very limited housing. However, this should never be built over green belt.

Existing infrastructure just cannot cope with additional population in Croydon:
1. We have to wait for at least 4-5 days to get appointment at doctors – many times we do not get appointment
2. We have to wait for at least 15 minutes to get a turn to play swings/slides for my son in any local park. The parks are so crowded during summer. Already children are getting very less exercise. If 40 families come over with more than 80 children then it would be extremely over crowded.
3. There are not enough schools in the area. We should build more schools
4. There is very limited green space in Croydon. Government policy states that you cannot build temporary or permanent sites on green belt. Putting the travellers site near green belt will endanger the
5. Increased traffic due to a planned school and travellers sites will cause traffic chaos.
6. We need green belts for good health of the citizens. Steps like these would encourage the encroachment of green belts.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Incorrect calculation in selection criteria for site 661 and 502. If site is in Green Belt/MOL built form than it is marked as Amber/Orange which means a score of -5. +5 has been used which increase the rating by 10 points.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

<td>In appropriate development in the green belt. There is an imbalance in the borough with both this site and 502 being in the south of the borough and in close proximity to each other. Such proposals should be located on industrial/brownfield land rather than greenbelt. As an alternative, expand Laytham's Way. Other sites considered suitable are: 552, 536, 120 - which would not interfere with the little green space we have left.</td>
</tr>

Additional Objections raised to the use of the following locations as Gypsy/Traveller sites:-

Coombe Farm off Oaks Road Reference Number 502
Coombe Lodge Nurseries off Conduit Lane Reference Number 661

1. How has the London Borough of Croydon involved its Community in the planning of the Coombe Farm and Coombe Gardens Traveller Sites? What opportunity was given by Croydon Council for the local residents to put forward their own ideas and participate in the development of the Sites? See - London Borough of Croydon's “Statement of Community Involvement - October 2012” (https://www.croydon.gov.uk/sites/default/files/articles/downloads/involvement-oct12.pdf) Reference 2.11 & 2.12 these Guidance Rules have been ignored

2. There is no pavement access to either of the proposed sites therefore most travel to and from these sites to local amenities, (shops/doctors/schools) would be by vehicle – causing even greater traffic problems to the Coombe and Oaks Road junction.

3. Residents call for an independent (i.e non-Labour) lead enquiry into the full extent Mr Ansari (owner of Coombe Farm, a proposed traveller site) has been able to influence Croydon Council specifically & Labour Government more broadly through financial bribery?

Quote from the 2011 Localism Act;
"Through the Localism Act, the Government has abolished the Standards Board regime. Instead, local authorities will draw up their own codes, and it will become a criminal offence for councillors to deliberately withhold or misrepresent a financial interest."

Tens of thousands of pounds including cash equivalent goods & services (e.g. supply of rent-free premises for council business, travel expenses and campaign donations) have been disclosed but misrepresented as donations. These are in fact bribes in return for planning leniency (see press article.)

4. In the restrictive Covenants for Coombe Farm, (defined as 80 Oaks Road) which are for "the Settlers and their successors in title" stated "No part of the Property shall be used for any offensive noisy, dangerous
pursuit or occupation or for any purpose which shall or may grow to be in any way a nuisance damage grievance or annoyance to neighbouring properties or the neighbourhood.”

</table>
I am objecting to the following sites being considered as suitable as Permanent Sites for the above use:
1) Coombe Lodge Nurseries, Conduit Lane, Coombe Road, South Croydon, CR0 5RQ
2) Coombe Farm, Oaks Road, Shirley, CR0 5HL

I am very disturbed to hear of the proposed plans for providing permanent sites for the Gypsy and Traveller people on these sites, mainly on the grounds that they are both much valued and appreciated areas of natural beauty and relatively unspoiled areas on Green Belt land, which I consider is an inappropriate use of such areas. I understand, in fact, that it is against stated Government Policy (“Planning policy for Traveller Sites” DCLG, August 2015).

My objections are based on the following grounds:
1) Neither of these areas has local amenities nearby, or sufficient infrastructure to accommodate these plans.
2) Whilst it is a statutory duty of local councils to provide these sites for travelling people - and, indeed, an act of common humanity that such groups are catered for - it is usual that brownfield or industrial land is used, rather than open greenbelt land.
3) Both these sites are comparatively close to each other; certainly both are in residential areas in South Croydon, thus impacting on amenities of local owners, and arousing local feelings. What is the reason behind this decision?
4) Can the existing permanent site in Latham's Way off Beddington Farm Road be expanded?

There are many sites which might be considered which are not near areas of heavy residential occupancy, in the Waddon playing fields areas, for example. The Pear Tree Farm area in Featherbed Lane is also more suitable.
Incorrect calculation for site 502 and 661. If the site is Green Belt/MOL built form then it is marked Amber / Orange which means a score of -5. +5 has been used which increases the rating by 10 points.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Object Soundness - Justified DM43.4 502

1. Mis-calculation of the score while selecting the site:

If a site is Green Belt/MOL-built form then it is marked as (Amber/Orange), which means a score of -5

If you go to page number 9 of the document in the link below, you can find that Amber is scored as +5 as opposed to -5.

Please, check the other scores too before finalising this site. This site is clearly not suitable for building on the gypsy site as it is a green belt site.

2. I will be objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

“Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.

The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

Existing infrastructure just cannot cope with additional population in Croydon:

1. Travellers should be encouraged to settle down and mix with the local community. So permanent housing is better. This way they will avoid the stigma too. Their future generations can have better life. But this needs to be planned properly on the brown field sites.

2. We have to wait for at least 4-5 days to get appointment at doctors – many times we do not get appointment

3. We have to wait for at least 15 minutes to get a turn to play swing/mats for my son in any local park. The parks are so crowded during summer. Already children are getting very less exercise. If 40 families come over with more than 80
children then it would be extremely overcrowded.

4. There are not enough schools in the area. We should build more schools.

5. There is very limited green space in Croydon. Government policy states that you cannot build temporary or permanent sites on green belt. Putting the travellers site near green belt will endanger the

6. Increased traffic due to a planned school and travellers sites will cause traffic chaos.

7. We need green belts for good health of the citizens. Steps like these would encourage the encroachment of green belts.
Residential development is a viable option. We already have very limited housing. However, this should never be built over green belt.

Existing infrastructure just cannot cope with additional population in Croydon:
1. We have to wait for at least 4-5 days to get appointment at doctors – many times we do not get appointment
2. We have to wait for at least 15 minutes to get a turn to play swing/slide for my son in any local park. The parks are so crowded during summer. Already children are getting very less exercise. If 40 families come over with more than 80 children then it would be extremely over crowded.
3. There are not enough schools in the area. We should build more schools.
4. There is very limited green space in Croydon. Government policy states that you cannot build temporary or permanent sites on green belt. Putting the travellers site near green belt will endanger the environment.

5. There is very limited green space in Croydon. Government policy states that you cannot build temporary or permanent sites on green belt. Putting the travellers site near green belt will endanger the environment.

Build a residential estate instead of a travellers site

Change
The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
6. Conduit lane is a no drive through zone. Increased traffic due to a planned school and travellers sites will cause traffic chaos. 

7. We need green belts for good health of the citizens. Steps like these would encourage the encroachment of green belts. 

Incorrect calculation in the selection criteria for 661 (Conduit Lane) and 502 (Coombe Farm) - If a site is Green Belt/MOL- built form then it is marked as (Amber/Orange), which means a score of -5. -5 has been used which increases the rating by 10 points. Error in calculating site access for 661: There are cars parked on that road and the entrance is through a very busy main road. The site cannot have a rating of +5. It should be -2. That is a difference of 7 rating points.
Object

DM43.4

502

I am writing to register my strongest possible objection to the following proposals for gypsy and travellers sites:
- Coombe Farm, Oaks Road - Reference 502
- Coombe Lodge Nurseries off Conduit Lane - Reference 661

I am an active member of Shirley Park Golf Club and vividly recall the hugely, disruptive presence of the gypsies when they trespassed onto Coombe Farm a couple of years ago. There is sometimes a romantic notion that gypsy/traveller community wish to get on with their lives and not affect the urban population wherever they pitch up; I am afraid that the bare facts reveal that this to be a complete fallacy and the stark reality is far from this rosy, TV documentary image.

It will come as no surprise to you to learn that there were numerous, illegal intrusions onto the golf course during their uninvited stay. Sadly but I am afraid rather predictably, these incursions resulted (of course) in a plethora of petty thefts and incidents of mindless damage to the course as well as necessitating a "marshalling" of parts of the course. These factors coupled with the constant verbal abuse made play almost untenable and at one point, a decision was made to close certain parts of the course until they were finally evicted.

I think it is important to stress that this is not just about my personal feelings, there are more far reaching implications. Certainly if their presence was to be made permanent, there is no way I personally would continue my membership at Shirley Park Golf Club and I can safely say a lot of the members feel the same way.

It was apparent what the inhabitants of Croydon thought when another historic business at Reeves Corner was attached not so long ago. Shirley Park Gold Club has been a valuable part of our community for over 100 years providing enjoyment for thousands of members, safe recreation for youngsters and of course valuable employment for many, not to mention the thousands of pounds raised to help Croydon Opportunities.

The success of the club also allowed the purchase of the land in recent history and it often surprises my guests to see this beautiful side of Croydon. Surely it is not right to jeopardise this great part of our local heritage in attempting to temporarily resolve this long running problem?

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
hard to shake off its previous image - please do not put this progress at risk.

Soundness - Justified

DM43.4

502

It is inappropriate to identify Coombe Farm off Oaks Road and Coombe Lodge Nurseries off Conduit Lane as suitable sites for gypsy/traveller pitches as they are both in Green Belt and one of them borders a Site of Nature Conservation Importance.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

2885/01/002/DM43.4/O Mrs Anita Pepper

Object DM43.4 502

- Detrimental to the Amenities of Adjoining Owners
- Inappropriate use of Green Belt Land. Sites that are located on the Green Belt, considered to be inappropriate development for Traveller sites (temporary or permanent) and against Government Policy (Planning policy for Traveller Sites, DCLG, August 2015)
- Lack of relevant Amenities close at hand
- Insufficient Local Infrastructure to accommodate the plans
- Selection of Proposed Sites should have a bias towards Brownfield or Industrial Land not Green Belt
- Why are the Two Sites in very close proximity to one another being proposed and also imbalance across borough with all Sites being Proposed in the South of Croydon.
- Expansion of the Existing Permanent Gypsy Site in Lathams Way off Beddington Farm Road would be better solution
- If one has to select one of the proposed sites, the Preference is for Pear Tree Farm & Pear Tree Farm Cottage, Featherbed Lane as this would have least impact of the 3 sites.

Other Sites that the Council should reconsider instead of both Coombe Lodge Nurseries and Coombe Farm are the following. Just because a number of the following Sites are GB/MOL (Green Belt / Metropolitan Open Land) this should not preclude them, as it’s not impossible to have them redesignated:

16 - Heath Clark playing fields, Stafford Road, Waddon
120 - Timebridge Community Centre, Field Way, New Addington
518 - Land adjacent to 103 Goodenough Way, The Admirals Walk, Old Coulsdon
522 - Wandle Road surface car park, Wandle Road, Croydon Opportunity Area
536 - Land of former Croydon Airport runway, south of Imperial Way, Waddon
552 - Land adjacent to Ashburton playing fields at rear of 2-88 Coleridge Road, Addiscombe
553 - By Pavilion Playing Fields, Purley Way, Waddon
632 - Land south of Threehalfpenny Woods, Kent Gate Way, Bridle Way, Addington

Change

I am a member of Shirley Park Gold Club as well as a local resident. I am writing to register my objection to the following proposed gypsy and traveller sites:

- Coombe Farm, Oaks Road, Ref 502
- Coombe Lodge Nurseries, Conduit Lane, Ref 661

The policies laid out on the Mayor of London, policy 7.7 clearly states that the mayor's office fully supports the protection of Metropolitan Open Land, and states that the strongest protection should be given to London MOL and inappropriate development refused. The policy lays out what needs to be established to designate an area as MOL but does not make it clear how Council can de-designate an area.

I therefore object to any permanent traveller site being constructed on MOL, especially if the area is simply going to be de-designated without any consultation with local residents and businesses.

I object strongly that Croydon Council can de-designate MOL or Green Belt to suit their needs to accommodate a permanent pitch. I cannot see any justification to change the designation, and intrude into the lives of the residents of Oaks Road and surrounding area. This will massively affect the attractiveness of the area and both the emotional and financial reprehensive for many lives.

Policy 7.18 relating to protection of open spaces clearly states that open spaces within London must be protected and any loss must be resisted. I cannot believe the Council would want to go against both of these policies laid down by London assembly.

The Shirley Gold Club provides sport and social activities for up to 700 members in the local vicinity, and also provides an important ecological node in the area. The proposed sites for gypsies and travelers has come as a shock to everyone in its area, as come out of the recent press coverage and attendance at the consultation meetings.

The history of unauthorised "pitches" in this area over the past four years has left a bitter resentment, especially in view of the residual mess and littering, and crime that is accompanied their trespass. This does not change when the site is official.

On each occasion that gypsies/travellers have been in the area, the residents have been affected by verbal and physical abuse. We also have a junior section at the club and children play in the comp during holiday period, as well as weekends. They are often unaccompanied and parents need to...
know that they are in a safe environment. The proposed sites would change that. Please consider other sites.

2913/01/001/DM43.4/O Wendy Wilkinson

Shirley Park Golf Club
Object
I am deeply concerned about the proposed site. As a ladies golf member of the golf club, I use the area by the 4th hole regularly to play and practice golf. I remember the last time when the traveller/Gypsies were in the area and the mess and debris that were constantly left behind on the Shirley Park golf course. It was extremely upsetting and worrying. There was a lot of unacceptable behaviour like verbal abuse and bikes being used on the golf course. Additionally, as a mother of two teenage boys who are very fond of this sport and play golf I felt extremely uncomfortable and unsafe for them to use that area for practice or golf play when the gypsies and travellers were in the area last time. I would certainly discourage them to use that area in the future if these plans go ahead due to possible aggressive behaviour and verbal abuse from the gypsies and travellers. I agree with the Club that Policy 7.18 relating to Protection of Open Spaces clearly states that open spaces in London must be protected and any loss resisted. I am shocked that Croydon Council would want to go against both of these policies laid down by the London Assembly.

Change
The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
I write concerning Croydon Council’s proposals contained in the consultation document of the Croydon Local Plan that includes the re-designation of Metropolitan Open Land in Shirley and specifically within the confines of Shirley Oaks. I consider these proposals and others listed above to be inappropriate as they would significantly change the character of the area in which I have lived all 61 years of my life and I wish to add my voice to those already expressing concerns and objections about these proposals.

I strongly object to the proposal to re-designate Metropolitan Open Land to facilitate the building of new homes on land in Shirley Oaks and the provision of temporary or permanent traveller/gypsy sites in areas that are acknowledged by the Council to be in the green belt at Coombe Farm and Coombe Lodge Nurseries in Conduit Lane.

These proposals are totally out of keeping with the character of the area which predominantly comprise owner-occupied semi and detached homes. Surely areas considered to be brownfield sites are more appropriate than the unacceptable use of Metropolitan Open Land?

The proposals affecting the area surrounding Shirley Library are also of concern as this would adversely change the character of the area and potentially result in the establishment of additional unsightly car-parking sites on the south side of Wickham Road, similar to that at the front of the Shirley Medical Centre at 370 Wickham Road.
Elizabeth Wood

Object

The planning authorities should protect local amenity and environment. These do the opposite and will do nothing but harm. Travellers sites in the Green Belt are inappropriate development. The scale of such sites should not dominate the nearest settled community whose interest should be respected. These sites will have a highly deleterious effect on four neighbouring businesses namely The Chateau restaurant, Coach House Café in Coombe Wood, the Premier Inn and the Oaks Farm wedding venue. The numbers being housed will be greater than the occupants already living along Oaks Road. In addition there is no nearby public transport, schooling, doctors surgery or shops. There are not even pavements on both sides of the roads involved. They will be damaging to the nearby site of Nature Conservation Interest. The Council has already spent time and money ensuring that travellers could not park in Conduit Lane. They must have had a reason for so doing. If travellers are allowed on the nursery site there is will make Coombe Wood and gardens a no go area. Why is the Council intending to destroy one of the few remaining unspoilt green spaces in the borough. There must be less sensitive sites within the Croydon boundary where the establishment of a base for the travelling and gypsy communities would be more harmonious.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Mr Michael R Brookbank

Object

The proposals are contrary to the Government's Planning Policy for Traveller Sites and are totally unsuitable for the location for large numbers of families with young children.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
I object to the use to the site for a gypsy and traveller site. All three sites are in the Green Belt and one borders a site of Nature Conservation. The proposed use would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b and would not be consistent with Policy E of Planning for Traveller Sites published by the Government. If additional sites are required in the borough, it would be more appropriate to expand existing sites eg. Off the Purley Way. None of these sites have easy access to local schools, healthcare, retail and other amenities. The vehicular access into sites 661 and 502 is problematic and egress onto Coombe Lane/Oaks Road at the junction is likely to create additional road hazards.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

I object to the use of the site as a gypsy and traveller site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

I object to the use of the site for a gypsy and traveller site as it would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. There are incorrect calculations in the selection criteria for the site. If a site is Green Belt/MOL - built form then it is marked as (Amber/Orange), which means a score of -5. A score of +5 has been used which increases the rating by 10 points.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

The proposed travellers sites are not suitable and are in breach of the Government's statement that "sites are inappropriate in the Green Belt". These sites are also some distance from public services.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
| Object | DM43.4 502 | This would be in breach of the Government's intentions - Policy E of the Planning Policies for Traveller Sites and that travellers sites (temporary or permanent) are inappropriate development in the greenbelt. This would drain Council resources and reflect on the quality of other services that the Council is required to provide. It would result in the reduction in free and easy access that is currently enjoyed by many. The proposal would have a considerable effect on the business at Oaks Farm and the Premier Travel Inn, forcing these to close potentially. Extending the site at Purley Way should be considered. | Change | The site is in private ownership and the landowners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use. |
We note that there is a recent (2013) report ‘Croydon Gypsy and Traveller Accommodation Needs Assessment 2013 Final Report November 2013 which indicates that there is extra need for gypsy and traveller sites in the period 2015-2036. Coombe Farm is not appropriate because under the criteria in paragraph 4.15 of the Strategic Policies (Partial Review), the site is not well-located or accessible to health facilities, shops or education. It is noted that these criteria have been amended from the earlier draft to omit access via public transport-the site is over 15 minutes walk from a tram or bus stop and this would also have made the site unacceptable. The site at Coombe Farm is not deliverable since it is already being developed using existing buildings being converted for housing in accordance with Development Control advice from Croydon Council planning department in 2009. The use of this site for a gypsy and traveller site would not be sustainable because of its distance from existing facilities such as health, shops and education-see why it is not appropriate. The site is in a Green Belt and use of the site for Gypsy and Traveller Accommodation contravenes the advice given in ‘Planning Policy for Travellers 2014’. With regard to need, the Housing and Planning Bill 2015 advises that assessment for accommodation for Gypsies and Travellers would no longer be separate from assessment for other housing needs. Accessibility to public facilities is a consideration when assessing new housing locations. The site has been identified because of an increase in the requirement for gypsy and traveller sites in the 2013 Gypsy and Traveller Accommodation Needs Assessment along with two other sites The site is accessible only by a narrow lane and is not suitable for long wheel-base vehicles such as are used by travellers including fairs or circuses including lorries and caravans. To introduce gypsy pitches with portable/moveable vehicles whilst retaining the main existing buildings is likely to reduce the openness of the Green Belt. Like residential uses, gypsy sites need amenity space, parking and refuse storage and this will add to the development of the site. Such development within Green Belts is opposed in ‘Planning Policy for Travellers 2014’. The site was formerly used as a residential school. Some of the existing buildings are of local historical interest including the

Coombe Farm should not be allocated as a Gypsy and Traveller site as it is not deliverable.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Traveller site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Locally Listed farmhouse. This was extended in the early 20th century to create a larger residential property which takes up a significant part of the building complex. Parts of the complex of buildings on the site are in use by the landowner and parts as housing. The Plan expects that there will be no additional housing on the site. There are at present around 15 units occupied at Coombe Farm and there are also current planning applications for conversions of other buildings to housing being developed in response to planning advice from Development Control, Croydon in 2009 (pre-application advice). By 2021-6 when this site is expected by the Plan to be in use as a traveller site the landowner would expect that most of the existing buildings will be converted with areas allocated around the dwellings for amenity space and parking. Planning Policy for Travellers 2014 advises that gypsy and traveller sites should not be located within the Green Belt. Just because there is at present a need for increased number of gypsy and traveller sites, there is no justification for using this site. Such allocations would no longer be appropriate at all if the Housing and Planning Bill comes into force which advises councils not to allocate separately for accommodation for gypsies and travellers. The site is not suitable for traveller vehicles because of access via narrow lanes. With regard to ruling out the alternative option for residential, the length of journey to reach facilities in central Croydon applies just as much to gypsies as other residents so should not be used to rule out other types of residents than gypsies.
Object

DM43.4

502

The LB Croydon Cabinet determined on 21.9.15 that consultation be carried out in relation to, inter alia, the prospective allocation of sites for a proposed development plan document.

Amongst the prospective allocations is Coombe Farm, a complex of buildings with a large curtilage off Oaks Road in that part of the borough that the Council defines as Shirley. The document puts forward as the 'Proposed use' a Gypsy and Traveller site and as an 'Alternative option for site' - 'Residential development (conversion or new build)' n.b. the objector owns 'Coombe Farm' but not the adjoining former quarry also forming part of site 502. In a letter of 10.9.15 to the owner the Council states that the 'Reasons for preferred use' are:

- Although the site is in the Green Belt, it already has built form and following an extensive sequential search for sites in the urban area, the site is proposed for a gypsy and traveller site for 15-20 pitches, including a stopping place, with its built form accommodated within the area of the original buildings.

The proposed use as a Gypsy and Traveller Site is objected to on policy and site specific grounds as set out below.

The National Planning Policy Framework does not directly cover the issue. Policy is now set out in the DCLG document 'Planning policy for traveller sites' of August 2015 which planning authorities must take account of in both plan preparation and planning application decisions.

The document contains all national policy pertinent to the proposed site allocation, specifically the following:

16. Inappropriate development is harmful to the Green Belt and should not be approved, except in very special circumstances. Traveller sites (temporary or permanent) in the Green Belt are inappropriate development. London-wide policy on gypsy and traveller accommodation is set out in policy 3.8 of the Mayor’s adopted Housing Supplementary Planning Guidance, which is directed towards both Local Development Frameworks and planning decisions, viz.:

3.8 (i) The accommodation requirements of gypsies and travellers (including travelling showpeople) are identified and addressed in line with national policy, in coordination with neighbouring boroughs and districts as appropriate.

The Croydon Local Plan (adopted 2013) sets out policy for Gypsies and Travellers in strategic policy SP2.7 which reads:

- The site should be allocated for residential instead of a Gypsy and Traveller site.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
The Council will seek to deliver ten additional Gypsy and Travellers pitches in the borough by 2021 to meet the needs of Croydon’s Gypsy and Traveller community. This will be achieved by allocating land for Gypsy and Traveller pitches in the Croydon Local Plan: Detailed Policies and Proposals DPD. Proposals for sites should meet the following criteria:

a. Should be available and deliverable.
b. Should have good access to essential services including health and education facilities and access to local shops; and
c. Have good means of access from roads and be near bus routes and other transport nodes; and
d. Not be located in areas of high flood risk (Flood Risk Zone 3); and
e. Should not have unacceptable adverse impact on the biodiversity of the borough.

In parallel with the consultation on the ‘Detailed Policies’ prospective DPD, LB Croydon have consulted on a partial review of strategic policies set out in the Local Plan (2013). Policy SP2.7 is now proposed to read:

The Council will seek to deliver 39 additional Gypsy and Traveller pitches in the borough by 2036 to meet the need of Croydon’s Gypsy and Traveller community. Land is allocated for Gypsy and Traveller pitches in the Croydon Local Plan: Detailed Policies and Proposals DPD. Any proposals for additional sites that are not allocated should meet the following criteria: The criteria are as per those in the existing Local Plan except that c. now reads:

c. Have good means of access from roads.

i.e. reference to public transport is deleted.

The site is a large complex of buildings with a mainly soft surfaced curtilage. Any site would need to be to the rear of the complex in terms of space. The complex has a number of planning permissions for the use of constituent parts as dwelling units (Class C3). All the site falls within the Metropolitan Green Belt. The site allocation is contrary to national policy as set out in the government’s ‘Planning policy for traveller sites’ (August 2015) and the requirement of the London Housing Supplementary Planning Guidance that gypsy and traveller accommodation requirements be addressed in line with national policy in proposing the use of a site within the Metropolitan Green Belt. Coombe Farm does not meet the locational criteria set out in Croydon Local Plan policy SP2.7 as existing and as proposed to be amended in that:

(a) The owner does not wish to make
the premises available for this purpose.
(b) For a London location it is remote from essential services with the nearest retail premises, GP surgery and state primary school all being nearly 2 km distant.
(c) With regard to public transport accessibility the score for Coombe Farm on Transport for London’s ‘PTAL’ assessment is 0. This is the worst possible accessibility rating. It is noted that the supporting text for policy SP2.7 as proposed to be altered reads: ‘In addition Gypsy and Traveller sites need good access to the road network as they often need to move larger vehicles as part of their livelihood and way of life. It is submitted that the single lane approach road to Coombe Farm with blind corners and no footpath would be both unsuitable and unsafe for such larger vehicles. (d)(e) Whilst the site is not in a high flood risk zone the former quarry which is included as part of site 502 is a Site of Nature Conservation Importance as defined by the Council in its proposals map.
In its letter of 10.9.15 the Council include as ‘Reasons for Preferred Use’ that ‘. . . already has built form.’ . . . It is not considered that this should be seen as an advantage for a use that primarily requires an open site. In view of the policy and site specific issue set out above the Council is requested to delete ‘Gypsy and Traveller site’ as the Proposed Use for site 502 and instate ‘Residential (conversion or new build)’ as the Alternative option for the site as the Proposed Use.

</table>
The proposal to develop Coombe Farm, Oak Road as a residential development for a Gypsy and travelers site does not fall within the Strategic Objectives because:

Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise.

Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions, the development is not in keeping with the surrounding area.

Objective 5: This development is not high quality and will not enhance the borough’s natural environment but will reduce the natural environment by turning a farm into a travelers housing site.

Objective 7: This development will reduce the area as a safe, healthy and cohesive community.

Objective 10: This development will reduce the quality and accessibility of green space and nature.

This proposed development of a travelers site within the Shirley area is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with out housing in the area.

Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area. Building a travelers site will increase noise levels, and ruin the character of the area and this development would overwhelm this green area.

Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions. This development would diminish the striking view of the area of Addington Hills and Coombe Farm area.

this development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the Shirley area and future generations will suffer because of this.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
2965/01/003/DM43.4/O Janet Nightingale Object DM43.4 502 Recently I have heard of Croydon Council’s plans for the borough over the next 20 years. I object strongly to the plans for permanent sites for travellers using green belt land. My experience of travellers is not a happy one. In my opinion they are inclined to make a dreadful mess of any area they occupy. They then move on leaving the Council to clear up after them. If they have to be provided with another permanent site please choose somewhere which is not green belt.

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

2971/01/001/DM43.4/O Janet Borawia Object Soundness - Justified DM43.4 502 Having learnt from reading frightening stories regarding the above, I now understand they are true. I hope you are going to listen to the people of Croydon in that this is not what we want

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

2974/01/009/DM43.4/O Jane Bowden Object Soundness - Justified DM43.4 502 4) I understand that the Council has identified two sites in Shirley for gypsy/traveller sites, Coombe Farm off Oaks Road and Coombe Lodge Nurseries off Conduit Lane. (Reference numbers 502 & 661). Both of these are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. Both Coombe Farm and Coombe Lodge Nurseries are some distance from public services and traveller sites here risk damaging some of the Borough’s precious green spaces. Extending sites in areas such as the one at Purley Way would be more suitable.

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

2980/01/001/DM43.4/O Jean Ure Object DM43.4 502 I am writing to register the strongest protest possible to any plans for allowing a traveller site at Coombe Farm. If there is a need for more traveller sites in the borough then please do let them be located in brownfield rather than greenfield sites. The latter are so very precious to the people of Croydon and it would be utterly shameful were parts of them to be eroded.

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Mr Jonathan Bone

Object Soundness - Justified

DM43.4 502 

I am writing to you to express my objection to potential travellers sites in two locations and to detail the reasons why.

Coombe Farm (ref no 502)

1. The land is green belt land and therefore deemed inappropriate by national guidelines.
2. The site has no existing structures so will adversely impact the natural environment which is green belt protected.
3. The site is borders Lloyd Park nature reserve. Any overspill and increase in residents will have an adverse affect on the reserve.
4. There is no safe walking route to local amenities. Oaks lane has no pavement and the site is accessed via a busy single track lane (used by the sports ground and aggregate lorries)
5. The site will totally overwhelm near by residents on Coombe Lane and Oaks Road.
6. The site has no amenities near by - shops, post offices etc and none within walking distance which means a massive increase in traffic to the local area.

Both locations would massively change the local characteristics of an area of Croydon which is largely unspoilt by development in an area with very few local amenities.

Schooling is already an issue in this area. In my view Green Belt land is specifically created to prevent urbanisation of green spaces which this proposal amounts to.

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Mr Jonathan Butcher

Object Soundness - Justified

DM43.4 502 

I object in the strongest possible terms to the Council’s proposal to build gypsy/traveller sites in Croydon!!!

We absolutely mustn’t lose our green open spaces. We have too few of them as it is.

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Justified
3010/01/001/DM43.4/O Mr Joseph Rowe Object Soundness -
GYPSY/TRAVELLER SITES.
The Council has identified three location within 3 miles of our home for gypsy/traveller sites:
1. Coombe Farm off Oaks Road, which is proposed as a site for 15-20 pitches (pages 449-450, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 502).
I object to this proposal on the following grounds:
1.1 Coombe Farm is Green Belt Land. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly that “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. Previous use does not mitigate against this policy.
1.2 The proximity of this site to the Coombe Lodge Nurseries site, also proposed, would mean a total of up to 45 pitches on 2 sites within a very small area of the Borough.
1.3 The Croydon Local Plan paragraph 4.19 refers to the need for good access to roads, stating that Gypsies and Travellers “often need to move larger vehicles as part of their livelihood and way of life”. Coombe Road junctions with Oaks Road and Conduit Lane are busy and potentially hazardous intersections and are unsuitable for increased, safe movement and maneuvering of larger vehicles, especially entering and exiting these sites.
Oaks Road itself is a narrow rural road with a number of blind bends and an adjacent bridal way, making it unsuitable for large vehicles. The Local Plan has not taken sufficient account of the potential increased danger for motorists and pedestrians, horses and riders.
All of the three preferred sites are on Green Belt Land, contrary to Government Policy.
The close proximity of the proposed sites to one another has not been taken into account. All three sites are proposed for a small area in the South of the Borough where there seems to be a successful site in Purley Way which could be expanded.
None of the three sites proposed has Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
good access to schools, shops and other services. The consequent need for private transport goes against environment and climate initiatives. Government Guidelines ask that local planning authorities policies ensure that children can attend school on a regular basis. These three sites are well away from schools, particularly primary schools, and clearly do not reflect the aims of the Guidelines or facilitate regular school attendance.

The proposed plan does not take into account the need for good access to roads. The Croydon Local Plan paragraph 4.19 refers to the need for good access to roads. "Oaks Road, Coombe Road, Conduit Lane and Featherbed Lane are unsuitable for safe increased movement and manoeuvring of larger vehicles, especially entering and exiting these sites.

The number of Gypsy/Traveller sites in Croydon is to increase from 1 to 4, when our recent experience locally is of travellers responsible for damage, parking illegally, leaving piles of rubbish behind when they are moved on and even engaged in firearms confrontation with the police.

I am emailing to object to the proposed travellers sites to be built in the Shirley/Croydon/South Croydon areas.

There are numerous reasons for my objections.
1. This is green belt land and should remain as such. We are lucky to have local green areas that I have enjoyed since my childhood and that my own family benefit from now. Green belt land is not appropriate for any form of dwelling. We need to preserve what we have in the area. Travellers are know to leave there mess around them, this is not what we want on our green belt land
2. There are insufficient local school places as it is. The children (including my own) in the area will be adversely affected by an influx of travellers who normally have large extended families
3. Travellers cause trouble, my son was set upon by a group of travellers in Lloyd's Park recently and we now avoid this area when the travellers are illegally staying there. I would like my children to be able to use the local parks and amenities without worrying about people who regularly do not abide by the law of the land.
4. My elderly parents who live in the Shirley Hills area are vulnerable victims of crime as it is. Do we really need to add to their fears by making the area less safe with a group of people who generally have no regard for the law?
5. Crime rates in Croydon are up as it is. Do we really need more residents for our already overstretched police force to watch over?
6. And finally, the clue is in the name. These people are travellers and therefore travel, meaning there is no need for a permanent dwelling for them.

Change
The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
The Council are proposing in total 45 permanent pitches. Both sites are some distance from public services. They should consider instead the expanding the existing site off the Purley Way. More importantly the Council are in breach of policy E Planning Policy for Traveller Sites published by the Government in August which clearly states: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". The Council have acknowledged both sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. The access to both Coombe Farm and Coombe Lodge is totally inadequate and the additional traffic would be dangerous. The Council should be promoting the interests of the people of Croydon who they are supposed to represent.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Policy DM43, reference Site 502 Coombe Farm reference Site 661 Coombe Lodge Nurseries and reference Site 755 Pear Tree Farm and Pear Tree Cottage. I object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and Coombe Farm is on a site of an Archaeological Priority Zone and contains an area of Nature Conservation Importance. Such development is in breach of Policy E of Planning Policy for Traveller Sites, which says that "Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development". All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites by 2017 and 39 by 2036 is excessive and will have an adverse effect on the borough.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
I am writing to object to the use of the following locations as gypsy/traveller sites:-

• Coombe Farm off Oaks Road
  Reference Number 502
• Coombe Lodge Nurseries off
  Conduit Lane Reference Number 661

1. What is the Council's rationale for proposing Traveller Sites on the very land previous illegal incursions, fly tipping and theft have occurred?
2. On what basis has Croydon’s Labour Council rejected the prior Conservative Council’s proposal for a second Traveller site located on the Purley Way, Roundshaw Open Space?
3. Under the Freedom of Information Act, what is the total tax payer investment, Croydon Council has made over the last 5 years securing land, preventing and obstructing illegal incursions?
4. Council representatives are referring to Travellers (universally) as "homeless Croydon residents", yet they are of 'no fixed abode', not registered (with the Council) as homeless, not on the electoral role - let alone contributing to the use of local amenities. Please clarify the difference between a resident and a visitor.
5. Council representatives advise 'It is the right of a Traveller to live in a caravan and is part of their ethnic rights'. Has an Equality Impact Assessment (Government Planning Document) been conducted to ensure the rights of the settled community are not being infringed? (It is understood this is a requirement where there has been significant local opposition as in the case of Croydon).
6. Please confirm a) whether a traveller must reside within a given schools catchment area to attend and b) whether the proposed sites were selected with this in mind?
7. Actual number of fixed plots revealed during (verbal) consultation was 49, not 39 as documented, indicating likely expansion of a site(s) at later date. (See Dale Farm, Essex for unauthorised ‘sprawl’ beyond designated site)

https://en.m.wikipedia.org/wiki/Dale_Farm
8. What consideration has the Council given to the societal impact of introducing both Romany Gypsy & Irish Travellers (known to feud) into two locations just 500m apart on local community?
9. Government planning for Gypsies & Travellers determined Green Belt Development as 'inappropriate'. (See Dale Farm, Essex eviction from Green Belt land). What is the rationale for Croydon looking at Green Belt vs. Brown Field?

9. Two of proposed sites in same Ward and the third in adjoining area, all held as Conservative seats with 2 locations less than 500m apart. Why are there no suitable locations in Labour held seats?

10. Croydon Council acknowledge these proposals will not prevent further illegal incursions, fly tipping, damage and theft at the resident/taxpayer’s expense, suggesting more fixed sites are not the solution. The current investments in the prevention of illegal incursions are working to protect the settled community.

11. Coombe Farm itself is a listed building, yet at least one other site was dropped from the shortlist for this very reason. Why has the evaluation criteria for site selection not been applied in an unbiased, uniform manner?

12. Note Basildon Council ended up “leasing” land they did not already own to accommodate travellers. If Croydon Council is blocked from using its own land for the purpose of a Traveller Site, can it be confirmed that the Council will uphold Green Belt planning restrictions and decline private planning applications for the same? (Ref: Dr A Ansari). Https://en.m.wikipedia.org/wiki/Dale_Farm

13. ‘Homeless’ travellers evicted from Dale Farm returned to their “homes” in Ireland. (4:08 onwards. Http://youtu.be/T253zUOfXe0). What is Croydon Council’s position where a “homeless Traveller” owns property? What investigation is carried out into the legitimacy of their homeless claim?

14. Taxpayers in Essex ended up funding Traveller-only amenities such as a community hall. What societal integration studies have been completed for homes, schools & businesses adjoining Coombe Farm and Coombe Lodge Nurseries? Precedent suggests their needs are greater than just plots.

15. Why was Coombe Farm initially considered for both Residential and Traveller site prior to Consultation only to be changed to Traveller-only during Consultation?

16. The proposed Coombe Farm Traveller site is:-
   a) Green Belt
   b) A listed Historic Property
   c) Is within ‘panoramic view’ of
Addington Hills

d) Has a number of covenants on its usage dating back to the 1950's set by the Garwood Family.

17. On what basis has Croydon Council classified these Travellers as homeless? They have the means to purchase their own vehicles, mobile accommodation and plant machinery. Why wouldn't they register with Croydon Council as homeless (if that is indeed their claim) and be 'Means Tested'?

17 a) Council representatives (at the recent Consultation) deemed adding Travellers to the homeless register as 'unworkable' as the housing waiting list was too long. Does this mean Travellers are being given PRIORITY over legitimate refugees and asylum seekers who are already on the housing register?

18. The introduction of a single traveller site (let alone two) in the Green Belt Heathfield Ward will increase localised fly tipping (please see area immediately surrounding the existing fixed site. Latham's Way, CROYDON) and will therefore be in direct contravention to the NATURE CONSERVATION STRATEGY, Supplementary Planning Guidance No.5 for Croydon on the following grounds;

4.41 "Five of the 8 Golf Courses in Croydon (note; Shirley Park adjoins Oaks Farm) contain all or parts of Metropolitan Nature Conservation Importance in Croydon."

4.63 Problems - cites 'pollution' as one of 7 key problems identified which particularly apply to Croydon".

5.5 "66 sites in Croydon are outlined in the Ecology Handbook 32 'Nature Conservation Guidelines for London' (updated in 1994). The criteria have been used by the Council to protect sites from harmful development through the operation of its own town planning powers".

6.9 Have the "Wardens for the green belt" (a role within the Council) a) been appointed in line with this policy and b) been consulted on the potential impact?

6.6 - Access [to the countryside] for All: "There are physiological & physical barriers [...] putting the countryside beyond the reach of some residents [...] They may be restricted by [list of reasons] or of not feeling safe in the countryside." The presence of at least one Traveller Site will be viewed as a deterrent with valid concerns for the personal safety of local residents and visitors alike.

- What consideration has been given to existing Tree Preservation Orders, Ancient Woodland (Oaks) & Hedgerows both on the Coombe Farm site as well as the shared access? Development of the access
The new policy will help ensure that traveller sites are developed in appropriate places and not on Green Belt land, ensure planning policy is clear and consistent and thus can operate most effectively in a new localist planning system, and reduce community tensions that can arise over perceptions that planning policy for traveller sites is more lenient than planning policy for housing for settled communities. *Perception upheld.*

20a. During local Consultation, Counsellors advised repeatedly of a Central Government target being applied to Croydon for Traveller Sites. Excerpt from the 'Planning policyholders traveller’s sites - Equality Impact Assessment'
suggests otherwise; “Now the Localism Act is in place, the current policy points to a process that no longer exists for setting future traveller site targets because the Act removed the framework for regional strategies meaning that no further regional strategies can be created. The Government will expect local authorities to plan for strategic matters, including accommodation for Gypsies and Travellers, in their Local Plans. Through this process, local authorities will have to justify their policies for traveller site provision using robust evidence that will be tested at the Local Plan examination. However, it will not be clear if the circulars were left in place that local authorities should set targets as part of their decisions on the right level of provision in their areas. The new policy, therefore, asks local authorities to set targets based on their evidence of need and to bring forward land in their plans to meet these.”

21. Under the Freedom of Information Act, please supply burglary, assault, theft, disturbances, illegal incursion, damage and arrest data relating specifically to Travellers of ‘No Fixed’ address immediately following their arrival up to and including their eviction.

22. Under the Freedom of Information Act, please provide all Environmental Agency data relating to the treatment of Travellers waste during and after their occupation and specifically how a fixed site (providing basic sanitation & waste collection) will prevent illegally fly tipped builders waste all over the surrounding area. (See reports for all prior illegal incursions).

23. How has the London Borough of Croydon involved its Community in the planning of the Coombe Farm and Coombe Gardens Traveller Sites? What opportunity was given by Croydon Council for the local residents to put forward their own ideas and participate in the development of the Sites? See - London Borough of Croydon’s “Statement of Community Involvement - October 2012” (https://www.croydon.gov.uk/sites/default/files/articles/downloads/involvement-oct12.pdf). Reference 2.11 & 2.12 - these Guidance Rules have been ignored.

24. In the restrictive Covenants for Coombe Farm, (defined as 80 Oaks Road) which are for “the Settlers and their successors in title” states “No part of the Property shall be used for any offensive noisy, dangerous pursuit or occupation or for any purpose which shall or may be grow to be in any way a nuisance damage grievance or annoyance to
neighbouring properties or the neighbourhood."
25. There is no pavement access to either of the proposed sites therefore most travel to and from these sites to local amenities, (shops/schools) would be by vehicle – causing even greater traffic problems to the Coombe and Oaks Road junction.
26. If these proposals go ahead will the council be offering blight compensation to all of the affected local residents and businesses?
27. Will the travellers be required to pay council tax, rent, gas, electricity, and all other charges?
I look forward to your response to the above questions/concerns.

As a resident whose property borders Addington Hills, I am extremely concerned regarding the resulting detrimental effect of Travellers’ sites in the area. There have been numerous illegal instances of Travellers siting themselves in the car park adjacent to the restaurant in Addington Hills and also in the Sunken road making access to the tram stop impossible by vehicle as the entire road was filled with broken glass and metal and concrete. Building rubbish, human detritus, and many hazardous waste materials have been dumped in and around the Hills. If permanent legal sites are provided as proposed, the surrounding areas will be the perfect place for limitless dumping, it will in fact be their idea of utopia. I strongly object to this proposal and the inappropriate use of the Green Belt. This beautiful area of Croydon will be seriously changed for the worse for the many people who enjoy its unusual, unspoilt beauty.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

I am writing to protest in the strongest possible terms to the council’s proposals to create traveller sites at Coombe Lodge Nurseries and Coombe Farm. As you know, both of these sites are in the green belt, with one of them bordering a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, states: “Traveller sites (temporary or permanent) in the green belt are inappropriate development.”

The areas of Coombe Lodge Nurseries and Coombe Farm are not wasteland nor are they brownfield sites (as the current travellers’ encampment in Croydon is). Instead, they are precious stretches of green land well loved and well used by Croydon residents for sports and leisure activities. They also provide an invaluable habitat for wildlife, including deer.

I urge you to reconsider and will be continuing to campaign against this entirely inappropriate plan which will result in the desecration of two of Croydon’s valuable green spaces.
Object  | DM43.4  | The use of Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane as a location for a Gypsy/traveller site. (reference number 755) You know that this is Greenbelt Land. It is not appropriate for a site to be placed there particularly as you are planning to make it larger in the future and it has no local amenities close by. No transport links and already there is a vast amount of fly tipping in that area, which is a site of natural beauty with a scout camp nearby. Look at Policy E of planning policy for traveller sites published by the government which states that it is inappropriate development whether temporary or permanent. In all these areas I believe you should be looking at brownfield sites and not greenbelt, let us protect the little greenbelt we have left. | Change  | The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use. |

Object  | DM43.4  | I object to the use of the site for gypsy and traveller accommodation. | Change  | The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use. |

Object  | DM43.4  | I should like to protest against the site chosen for gypsy camps and a new secondary school being built on green belt. There must be better sites for them as we must protect our green belt sites. | Change  | The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use. |

Object  | DM43.4  | I object to all the proposals set out for new housing and travellers sites in Shirley. I feel it will ruin the area by taking up all the open spaces. | Change  | The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use. |
3074/01/002/DM43.4/O Christine Younger

Object DM43.4 502

I strongly object to this council building or using Green Belt sites for this and any other purpose. Also high rise flats will upset the balance of the areas. I do accept that we need more housing but these should be built on existing empty or land filled sites.

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

3077/01/002/DM43.4/O Mrs Clare Gardner

Object DM43.4 502

I am writing to object to:

1. The use of the following locations as gypsy and traveller sites: -
   • Coombe Lodge Nurseries off Conduit Lane, site reference 661;
   • Coombe Farm off Oaks Road, site reference 502;
   • Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane, site reference 756

   as all these sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

   (If the Council really needs to quadruple the number of gypsy/traveller sites in the borough they should look elsewhere, e.g., off the Purley Way where the existing site is).

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

3080/01/008/DM43.4/O Mr John Mills

Object DM43.4 502

I object to the use of the site for a gypsy and traveller site. As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". The Council's approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham).

Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

</tbody>
</table>
Object  

Third, the Council has identified two locations on the edge of Shirley for gypsy/traveller sites: Coombe Farm off Oaks Road and Coombe Lodge Nurseries off Conduit Lane. I am objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in Green Belt areas and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.

The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs to quadruple the number of gypsy/traveller sites in Croydon why don’t you develop the existing site at Purley Way? It is an outrage that our diminishing open spaces will be turned into Gypsy sites. Coombe Road is so busy. It is the link between Shirley, Addington, Forestdale, Warlingham, Selsdon etc to central Croydon. It does not need more traffic nor traveller sites on it.

We should be trying to diminish traveller sites, not expanding them or using valuable land to allow for more. I currently work for the Department of Work and Pensions and we have a joint operation with the local Police and other local service providers in our area to reduce fraud, rubbish, fly tipping etc. and we have been very successful in concentrating our efforts on gypsy areas. I do not want that for Croydon, especially near to where I live and where my children will grow up. My husband has his own house removals business and the amount of families he is moving from Croydon to other areas in England is astonishing. These families are not just moving down the road to the next borough to get away from Croydon, they are moving to Sussex, Devon and Scotland etc. I wonder why??

Change  

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Coombe Farm is on the Green Belt.

Summary:
Not in line with Government planning policy on the Green Belt

Detail:
• Government planning policy with regards to traveller sites wants to ensure that plan-making and decision-taking should protect Green Belt from inappropriate development.

• The proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the Planning Policy: “Inappropriate development is harmful to the Green Belt and should not be approved, except in very special circumstances.” There are no very special circumstances in this case.

• The National Planning Policy Framework makes it clear that unmet housing need (including for traveller sites) is unlikely to outweigh the harm to the Green Belt and other harm to constitute the “very special circumstances” justifying inappropriate development on a site within the Green Belt.

• The local character description is clearly at odds with the proposal.

• The justification acknowledges the Green Belt issue, though insufficiently, but relies on the fact that there are existing structures. These are not in fact substantial – being glasshouses – and could be said to be at least environmentally consistent with the Green Belt. But there is no very special circumstance justification proposed as required by Planning Policies.

• Approving the proposal would set a precedent and open the surrounding areas to be subject to similar development. It is not in the community’s interests to allow the erosion of the green spaces surrounding the community and we object to the impact this site could have on the environment and wildlife.

In the light of these issues, it is not appropriate simply to weight Green Belt as one of many factors to be considered, but rather it presents an overarching policy objection that cannot be over-ridden in the way proposed.

The decision making process is contrary to Government guidance.

NO - To be considered deliverable, sites should be available now, offer a suitable location for development now
and we do not believe that the assessment and selection of sites for Gypsy and Travellers undertaken was credible.

Plan makers have not considered the time it will take to commence development on site:

- Need for infrastructure improvements (roads), need for local amenities improvement (primary school, doctor)
- Plan makers have not considered the time and necessity to show due diligence in assessing the sites:
  - Need for an Environmental Impact Assessment (this would be a schedule 2 development having significant effects on the environment and needing an EIA)
  - Need for a Local Biodiversity Action plan to determine the sensitivity of the location
- Plan makers have not ensured that the process has credibility and acceptance; the bases for site criteria weightings are unclear.
- Plan makers will need to provide robust, up to date evidence to support the deliverability of sites, ensuring that their judgements on deliverability are clearly and transparently set out.
- Plan makers have not taken the cost and time needed to mitigate the impact of the development on the site: Croydon Council has already recognised in its Development Management Policies document that the Site of Nature Conservation Interest (SNCI) which borders the Coombe Lodge Nurseries Site, Coombe Wood (List of Historical Park and Gardens 2008) would be negatively impacted by the proposed development.

Sustainable development is development that meets the needs of the present, without compromising the ability of future generations to meet their own needs.

The proposed development does not meet the needs of the present (see further info in section 3):

- Gypsies and Travellers needs are not addressed: not enough local amenities, sites are too big, unfit local roads.
- The proposed development does compromise the future of the local area.
- Government planning policy is to ensure local planning authorities have due regard to the protection of local amenities and the local environment.
- It is likely the proposals will have an adverse effect on local businesses.
- Coombe Wood is a Site of Nature Conservation Interest (SNCI) (List of...
Historical Park and Gardens 2008) and would be negatively impacted by the plans. Croydon Council has already recognised this in its Development Management Policies document.

- The Borough Character Appraisal of 2015, the local area is listed as having special character. The proposed development is not sensitive to, and does not respect, this.

- From the Croydon Gypsy and Traveller Accommodation Needs Assessment 2013, Gypsies and Travellers living in the Croydon area prefer small family sized sites, with smaller sized sites having fewer inter-family tensions. The plans clearly go against this.

- The proposed plan does not take into account the need for good access to roads. The Croydon Local Plan paragraph 4.19 refers to the need for good access to roads, stating that Gypsies and Travellers “often need to move larger vehicles as part of their livelihood and way of life”, – this may be an assertion relevant to the assessment of sites and the narrowness of Coombe Lane. The proposed sites are not suitable for traveller vehicles.

- It is very important that the site has a safe entrance and exit. There are very strict Highway regulations about visibility at the entrance/exit to sites to ensure there is no danger of accidents. This links into the insufficient local infrastructure and we know how dangerous the junctions Coombe Road/ Oaks Road/ Conduit Lane can be. Both sites are accessed by single lane roads and the proposed plans do not take into consideration the potential extensive alterations needed to the local road network.

- It is Government policy / guideline to have new sites near existing development. The proposed plan does not take this into consideration. Is there not scope for extending existing sites in the Borough to meet some of the need. It is not clear how much consideration has been given to this.

- The proposed plan highlights the benefit of close public transport to the sites but use of public transport amongst Gypsies and Travellers has been noted to be low.

- Gypsies and Travellers often need mixed-use employment sites (as they often run a business from the place where they live). The proposed plan does not address this in a Green Belt.
location where commercial activities on site could lead to substantial hazardous contaminants and waste materials escaping from the site.

• Gypsies and Travellers often express their preference to be within walking distance of shops, health centres, schools, and local amenities. The proposed sites are not close to any of these. The proposed sites go against Gypsies and Travellers preferences and against environment and climate initiatives by promoting the use of their own vehicles for daily life.

• From Government Guidelines, Local planning authorities should ensure that their policies ensure that children can attend school on a regular basis. The site is well away from schools (particularly primary school provision) and clearly does not reflect the above aim, or facilitate regular school attendance. Widely recognised by Government source that literacy can be an issue within the Travelling community, this would place even more pressure on local schools to provide for support of their needs. Recent studies suggest a greater proportion of ill-health amongst the travelling community, adding more pressure to local health centres. In addition to going against Government Planning Policy for traveller sites, the closest services will therefore have further demands placed on them.

• There is evidence of periodic overcrowding on traveller sites, throughout the year and at a peak during winter months. This would yet further increase demand on local services. The plan makers have made no indication that they would take this into consideration or look to limit overcrowding.

The prime objection can thus be summarised as being an inappropriate use of Green Belt Land, together with the lack of relevant amenities to hand.

30B/01/002/DM43.4/O Mr Paul Grant Object DM43.4
502

• Site reference 661 – Coombe Lodge Nurseries off Conduit Lane and site reference 502 Coombe Farm off Oaks Road – both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Mr Paul Simner

Object DM43.4

Travellers Site Coombe Farm, Oaks Road, Ref 502

Some years ago we had unwanted visitors camp on a plot of land in Oaks road adjacent to Shirley Park Golf club. At the time I was the junior organiser for the club and we had untold problems with these people, invading the course, stealing golf balls and trying to steal unattended golf clubs. There was constant abuse given to members who dared to stand up to these people and it came to the point that when they were camped in order to make sure the kids were not harmed or have their equipment stolen. Whilst I understand their need for permanent site I do think that this location could cause many problems to our membership and especially for the juniors who regularly play there. A golf course is a place for kids to enjoy themselves and a place their parents should feel confident they are in a safe environment. I would like to point out this is not in any way an attempt to discriminate against anyone but just my concerns, after first hand experience, the problems this could cause and mainly for the safety of our junior members.

Mr Ben Lynam

Object DM43.4

Policy DM43, reference Site 502 Coombe Farm reference Site 661 Coombe Lodge Nurseries and reference Site 755 Pear Tree Farm and Pear Tree Cottage. I object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and Coombe Farm is on a site of an Archaeological Priority Zone and contains an area of Nature Conservation Importance. Such development is in breach of Policy E of Planning Policy for Traveller Sites, which says that “Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development”. All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites by 2017 and 39 by 2036 is excessive and will have an adverse effect on the borough.

Mr Derrick Thurley

Object DM43.4

Locations for 15 to 20 gypsy/traveller sites at Coombe Farm off Oaks Road. These are both on Green Belt land which is in breach of Government policy which states as being inappropriate development. Existing site at Purley Way should be expanded

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Mr Varsha Patel
Object  DM43.4
502
Build a school please? School is a viable option as there are no schools in our area. The Plan makers have missed a big point that existing infrastructure cannot cope with the influx of additional population at such a fast pace. Also, it has to be planned over a few years. It should never be on a green belt attached to a green belt sites as it is disastrous for the environment. There are quite a few brownfield sites in Croydon. Those should be explored. What are the criteria behind selecting two sites within 1 mile of each other? The plan makers do not know the grass root situation. They have just assumed things without knowing the facts. This is a grave situation. There are quite a few public and independent schools in the nearby area. Building a new school will support the schools and nearby citizens. Besides we do not have a grammar school in Croydon. So it would be ideal if we build a grammar school in Croydon on one of the proposed sites. Existing infrastructure just cannot cope with additional population in Croydon:
1) We have to wait at least 4-5 days to get a drs appointment
2) We have wait for at least 15 minutes to get a turn to play swing/baddle for my son in any local park. The parks are so crowded during summer. Already children are getting very less exercise. If 40 families come over with more than 80 children then it would be extremely crowded.
3) There are not enough schools in the area. We should build more schools.
4) There is very limited green space in Croydon. Government policy states that you cannot build temporary or permanent sites on green belt.
5) Conduit lane is a no drive through zone. Increased traffic due to a planned school and travellers sites will cause traffic chaos.
6) We need green belts for good health of the citizens. Steps like these would encourage the encroachment of green belts. Build a school instead of a travellers site.

Mr Varsha Patel
Object  DM43.4
502
I object to the use of the site for gypsy and traveller accommodation.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

</tbody>
</table>
The proposals to locate traveller sites at Coombe Farm, Ref 502 and Coombe Lodge Nurseries, Ref 661, are both inappropriate. As the Council acknowledges, both sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development."

The Council's approach is clearly in breach of that policy. Both sites are also some distance from public services. If the council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

The proposals to locate traveller sites at Coombe Farm, Ref 502 and Coombe Lodge Nurseries, Ref 661, if adopted, would compromise the ability of the current generation and future generations to enjoy these green spaces. Enjoyment of green spaces is a basic need of any community. This is particularly relevant given the redevelopment of Croydon and the fact that many more people will be living in the centre of Croydon and will want and need to use these green spaces ("green lungs") of Croydon. Companies looking to relocate businesses to Croydon do not only consider factors such as cost. Transport links and housing for staff - they also consider environmental factors. The damage to these two green spaces, which would inevitably arise should these proposals go ahead, would make Croydon a less attractive place to live in and would discourage businesses relocation to the area. This would reduce employment opportunities for Croydon's residents.

SP2.7 makes no mention of impact on the surroundings of the site or local residents. Accordingly, an additional criterion should be added as follows:

"1. Must be entirely acceptable in relation to its impact on nearby public spaces and residents and businesses in the area"

If this were included in the proposals, Ref. 502 Coombe Farm and Ref 661, Coombe Lodge Nurseries, would immediately be inappropriate. Coombe Farm is green belt land in Lloyd Park. Lloyd Park was left to the people of Croydon by the Lloyd Family. At present families enjoy the open space, children play in the play
area, joggers and walkers exercise, people walk their dogs, sports are played, and families snack in the café.

Coombe Lodge Nursery is by the lovely gardens of Coombe Wood with its popular tea room and wooded area. The proposals RE 502 and ref 661 if implemented would not be in accordance with the Green Grid concept (reference green Spaces 6.1, 6.15, 6.16) in that they would significantly damage these two valuable assets and discourage their use by the residents of Croydon. I note under the Plan: “Local Green Spaces which make a contribution to the borough’s heritage value, visual character, recreational opportunities, tranquility, and amenity qualities will be protected and safeguarded. These proposals would have exactly the opposite effect.

I would make the following comments on the "Assessment and Selection of Sites for Gypsy and Travellers":
A) The scoring system does not reflect the importance of the preservation of Green Spaces and is inconsistent with the Green Grid concept.
B) For both sites the scoring appears highly subjective.
C) In particular for both sites the scores for "green space", "impact on local character", "privacy", and "local character" need to be reconsidered - they are all quite clearly wrong.
D) Site 502 is on a single track lane with very narrow access to Oaks Road. It would be practically inaccessible for large mobile homes. This fact is not reflected in the assessment.
E) For both sites "GB/MOL" is shown as amber and should therefore be minus 5 not plus 5.
F) The "social deprivation" criterion is illogical as pressures on local services apply equally across Croydon. If one was considering a large area such as a Country Park it would make sense, it makes no sense at the borough level. This criterion should be removed from the assessment.

I would recommend that this Assessment be reassessed by an independent party. I am sure that such a reassessment would indicate the unsuitability of these two sites.

I value Lloyd Park and Coombe Wood very highly, as, I am sure, do many other residents of Croydon. Lloyd Park and Coombe Wood are important and irreplaceable assets of our town, to be cherished. They should not be damaged by proceeding with these proposals.
Mrs Michelle Sawyer Object DM43.4 502

It is inappropriate development to locate Travellers sites at Coombe Farm (502) and Coombe Lodge Nurseries (661) as they are both in the Green belt.

Dr Natasha Newlands Object DM43.4 502

1) The two sites are proposed to be in locations that are not in easy walking distance of everyday amenities such as shops, schools and health services. This means that the Travellers who move in to these sites will have to drive to use these services adding further burden to an already very congested main route in to Croydon, Coombe Road.
2) Local schools and health services are also already stretched in catering for the current local population.
3) I feel it is important to discuss these proposals with local residents as many are unaware of the plans, it may alter how residents and visitors use the park and also the developments are likely to have a significant impact on local businesses.
4) Coombe Farm is situated within Lloyd Park and any change in usage should comply with the conditions with which it was donated.
5) These sites are in Green Belt areas and government publications advise that Traveller sites in the Green Belt are inappropriate developments - Ref: Policy E of Planning Policy for Traveller Sites.

Mr Dominic Quinn Object DM43.4 502

Object to the dedesignation of MOL around Shirley Oaks Village as it will change the character of the area. The Travellers site would be in breach of government guidance and there would be no services local to the area.
Object to the use of the following locations as gypsy and traveller sites:

Coombe Lodge Nurseries off Conduit Lane, site reference 661;

Coombe Farm off Oaks Road, site reference 502;

as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b;

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Not in line with government planning policy on the Green Belt.

Detail:
- Government planning policy with regards to traveller sites wants to ensure that plan-making and decision-taking should protect Green Belt from inappropriate development.
- The proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the Planning Policy. "Inappropriate development is harmful to the Green Belt and should not be approved, except in very special circumstances." There are no very special circumstances.
- The National Planning Policy Framework makes it clear that unmet housing need (including traveller sites) is unlikely to outweigh the harm to the Green Belt and other harm to constitute the "very special circumstances". Justifying inappropriate development on a site within the Green Belt.
- The local character description is clearly at odds with the proposal.
- The justification acknowledges the Green Belt issue, although insufficiently, but relies on the fact that there are existing structures. These are not in fact substantial, being glass houses - and could be said to be at least environmentally consistent with the Green Belt. But there is no very special circumstance justification proposed as required by the planning policies.
- Approving the proposal would set a precedent and open the surrounding areas to be subject to similar development. It is not in the community's interests to allow the erosion of the green spaces surrounding the community and we object to the impact this site could have on the environment and wildlife.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
The proposal to use two locations in Shirley for traveller sites: Coombe Farm off Oaks Road (pages 449-450, reference number 502) and Coombe Lodge Nurseries off Conduit Lane (pages 468-469, reference number 661).

My main objections are:
Both sites are some distance from the nearest public services, making them inherently inappropriate locations for the purpose intended.
Increased congestion in the adjacent, and rather narrow, local roads. In turn, this will result in increased pollution and accident black-spots.
Both sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, states: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. If enacted, the Council would be in breach of that policy.

Conclusion
The proposals I have highlighted can only be viewed as negative. If adopted, they will increase the local population – and the density of that population – without providing any supporting infrastructure. The new residents from the planned apartment blocks and traveller sites will need additional public services such as schools, medical services and shops. Older residents will give way to young families who require greater social support, yet no additional resources are identified to help manage the changing demographic. Traffic congestion along already busy roads will increase, as will pollution and accident black-spots. The few remaining green spaces will disappear. Overall, the proposals signal a reduction in the quality of life for both the existing residents and the newcomer.

Mr Simon Smith
Object DM43.4 502
I want to object very strongly to the use of Conduit Lane (661) and Coombe Farm (502) being used as gypsy and traveller sites. It would be totally inappropriate for these greenfield, Green Belt sites being used for this kind of development. It would also be in contravention of other policies (SP2.7a and SP2.7c) which are there to protect the green grid.

Change
The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
With reference to the above mentioned document, I am writing to strongly object to the following:
The use of the following locations as gypsy/traveller sites:
1. Coombe Farm off Oaks Road (reference no. 502)
2. Coombe Lodge Nurseries off Conduit Lane (reference no. 661)
The selection of these sites is clearly in breach of Policy E of the Planning Policy for Traveller Sites - published by Government in August 2015, which clearly states;
"Traveller sites (temporary or permanent) in the green belt are in inappropriate development."
Can you please confirm why the Council is considering the use of Green Belt sites over Brownfield sites?
I live very close to the above mentioned sites and feel that this inappropriate development will destroy the local area and community. I have worked extremely hard to be able to afford to live in this area and would like the Council to re-consider their proposal.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
I am writing to object to the use of the following locations as gypsy/traveller sites on Green Belt Land:
• Coombe Farm off Oaks Road reference number 502 1]. This site will very much change the character of the area and should be located on alternative disused industrial sites, not our precious green space.

When camped illegally near the hills, these people have shown no respect for local residents or our beautiful surroundings.
The children sped across Addington Hills on electric scooters and cars making it very dangerous for families, dog walkers and their dogs who have made good use of this location for many years.
The rubbish and excrement was abysmal.

The proposed locations of these sites will adversely affect the local businesses such as the Coombe Garden Café, as no doubt the parking bays will be in constant use by the travellers and not available to those people who frequently use the café but who have to drive to that location. It will make Conduit Lane and other local roads a hazard.
The local schools are also not within walking distance of these sites and as there is very little public transport nearby this will put more pressure on the already overcrowded trams.

As someone who has lived in Shirley for 25 years and a frequent walker in our surrounding area I see these proposals changing our local environment for the worst.

Please, please, please do not proceed with these sites but find alternatives away from our precious green space.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Gypsy / Traveller sites in Featherbed Lane and off Coombe Road / Conduit Lane / Oaks Lane - These areas are Green Belt so why would the Council consider these suitable for such developments when this contravenes the current legislation? Additionally, the areas currently have considerable residential and community leisure activities and facilities, so again why would the Council be wanting to destroy the environment to create these Gypsy/Traveller sites for persons of no fixed abode and who are temporary residents to the borough only. It strikes me that this is an imbalance of priorities over the current fixed residents of Croydon and a set of proposals that I object to most strongly.
Mr Leonard Gregory

Object  

DM43.4  502

May I register my strong objection to the proposal that Coombe Farm (an historic farmhouse, circa 15th Cent.) be turned into a site for Travellers. I have watched the deterioration of Coombe Farm over the last two decades as the grounds have been progressively turned into an ill legal recycling centre by the current owner (Anwar Ansari) and about which Croydon has done nothing, despite many complaints.

Surely, in the current climate where massive nationwide redevelopment is seen as the answer to the ever increasing pressure for social housing, not just for the indigenous population, but also to cope with the requirement of immigrants and refugees, we should be protecting what little beauty we have. There must be many other alternatives to using beautiful green belt land – such as expansion of the old airfield on Purley Way - and other under-used plots in Croydon?

Change  The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Carole Shorey

Object  

DM43.4  502

I am emailing to object to a number of the proposals.

My parents live in Forestdale so are close to Addington and Shirley and I worry for them if there are more gypsy sites located in the area.

My son was involved in a road traffic incident with a traveller from the Layhams Farm site, the traveller caused the accident by pulling out of the road next to the site in front of my son’s oncoming right of way car, he then jumped out of his car and ran from the scene and the police were too frightened to enter the site. My view of the police has been very jaded since this incident. My son could have been killed in this crash. If the police are too frightened to patrol these sites, these people are above the law, I definitely do not want to see more sites in or around my local area, I feel very strongly about this.

I basically do not agree with many of the plans listed in Gavins email. I do agree we need more housing but that is mainly because too many people are being let into the country in the first place, housing them all is not the answer as other amenities will not be able to cope even if we build more houses.

Change  The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Carolyn Heath

Object  DM43.4  502

I am writing to object to:
1. The use of the following locations as gypsy and traveller sites:
   • Coombe Lodge Nurseries (site ref 661)
   • Coombe Farm off Oaks Road (site ref 502)
   • Poppy Lane (site ref 12B)
   • Stroud Green Pumping Station (site ref 540)
   • Shirley Oaks Road/Beech House (site ref 541)
   • Shirley Oaks Road (site ref 542)
   • Honeysuckle Gardens (site ref 548)
   • Pear Tree Farm & Pear Tree Cottage (site ref 755)

All areas provide vital green space in already densely populated areas, and there is insufficient infrastructure to cope with the additional traffic/population. Some of these areas are in the Green Belt, others are in Metropolitan Open Land. They would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

Change

DM43.4

502

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Caroline Kohn

Object  DM43.4  502

I am writing concerning the draft Croydon Local Plan. I have objections to the sites which have been designated for travellers sites including Coombe Lodge Nurseries Policy DM44 Site number 661, and Coombe Farm, Policy DM43, Site 502.

While accepting the need for appropriate sites for travellers and gypsies, I question the ability of the Council with current levels of resourcing to manage an increased number of sites effectively. In addition, this will be a new, permanent development on green belt land, which is against government policy.

Access to and from the site on a dangerous section of Coombe Road will impact on traffic flow and road safety. There is no access to local amenities at these sites, including shops, schools and doctors surgeries, something recommended for travellers sites. There is also a concern that there will be a negative impact on the environment of Coombe Woods, its biodiversity and the contamination of groundwater.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
I am writing to object to the use of the following locations as travellers / gypsy sites:

- Coombe farm site (ref no 502)
- Coombe lodge nurseries (ref no 661)

Both sites are in a beautiful green belt area which the public use a lot. I believe national guidelines do not agree with the use of green belt areas for these sites.

There are covenants which bind Croydon council to use the Lloyd park area only for recreational purposes which does not include these proposed sites.

The lane from busy oaks rd to Coombe farm is very narrow with pot holes and no pavements. The lighting is poor and obviously this area is not suitable for lots of heavy traffic and caravans.

The families who would live on these sites would have children and need to use the lane to get to all needs facilities such as shops, schools, buses and trams etc.

There would be much coming and going along the narrow lane on to busy oaks rd and Coombe rd which are main thoroughfares to Croydon. This all creates a dangerous situation.

Nearby is Cedars school who use Lloyd park for rugby and other sports and this school is receiving more pupils in the future increasing the number of vehicle and people movement in the area of Lloyd park and the main roads to and from Croydon.

Large number of people use not only Lloyd park but also the nearby conduit lane these visitors need to park in conduit lane to go to Coombe woods and gardens and to the local cafe there.

School parties often visit these woods and have to use conduit lane and it would be crazy and dangerous to have gypsy travellers using this lane to get to a permanent site there.

All of us have seen the terrible mess that these travellers have created wherever they have been and the owner of Coombe farm has himself allowed rubbish accumulation on his land in Lloyd park which the public have had to complain about.

The Coombe farm and conduit lane areas are just not suitable for permanent gypsy travellers sites and the council should find more suitable areas with less problems.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Lisa Dinnick

Object

I live on the Forestdale Estate and thankfully our management committee via Gavin have advised us of the Councils plans to build three gypsy/traveller sites in the Green Belt. I totally agree with Gavin that these plans will completely change the character of parts of the borough, including where I live. As resident of Croydon and employee of Croydon Council I completely understand the need for more housing and I am looking forward to the regeneration taking place in the town centre over the next few years. However one of the reasons I love Croydon and continue to defend its negative reputation is the mix of city feel and countryside. If the Council continue with these plans you will effect the character of the area and you will ultimately fail in your efforts to change peoples perception of Croydon.

Mr David Perry

Object

I would like to register my objection to the proposal for a site for travellers which is being considered to be situated at the rear of Shirley Park Golf Club land.

I have been a member for over 20 years and there have been "visitors" on that land before - always causing problems for members and guests whilst playing golf. They have disrupted games (taking balls during games), the iron flag poles on holes have been stolen, members and guests have been verbally abused, some threatened and there has even been the disgusting habit of defecating on greens.

I pay a substantial amount in membership fees and do not want my golfing experience and that of fellow members/guests to be marred by a group of people with absolutely no respect for our club. Please keep me informed of developments ... a definite NO to this proposal.

Mr David Harwood

Object

I object to the following sites for use of Traveller sites at the following locations

Coombe Farm off Oaks Road reference number 502

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

I am writing to object to the proposed new travellers site at Coombe Farm and Conduit lane.  
The siting of a permanent traveller camp will have a serious detrimental effect on the local areas Residents and Businesses, and our ability to enjoy safely the local area and amenities.  
The Premier Inn and Coombe Lodge are major draws in the immediate area adjacent to Conduit Lane and Coombe Farm. I have seen first-hand in areas in and around parts of Chelmsford where large groups of travellers have completely overwhelmed local businesses including bars & restaurants and leisure facilities rendering them unusable by anyone else unconnected with the traveller community.  
On a couple of occasions recently we have seen Travellers illegally set up camp in Sunken Road next to Coombe Lane tram stop. This road and the near surrounding areas become a ‘no go’ area with mountains of rubbish dumped in the road and in Shirley hills. We see youths riding around on motorbikes in the parks and woods without helmets apparently unchecked by the local Police force. This coincides with a rise in thefts from Gardens and Sheds in the area, as well as an increase in unsolicited and sometimes aggressive doorstep sales techniques for various building or landscaping works.  
We are absolutely positive that this area cannot support a large community of people that will not assimilate, and actively distance themselves from the wider community in this area.

Sheila Childs

I attended the open meeting on Wed 25th in Selondon and wish to express my concern over the 3 proposed travellers sites. Whilst I understand the council have to provide these I have to ask why are they all within a few miles of each other and all south of the borough ? Indeed the Oaks Farm and Conduit Lane are only yard away. If you could address these proximity issues I would be pleased to hear why they cannot be more evenly spread and assume the plans will improve assess to them .

02 September 2016
3224/01/001/DM43.4/O Sarah Anderson

Object DM43.4 502

I would like to make my objection known regarding the proposed travellers sites at Coombe Lodge Nurseries, Conduit Lane and Coombe Farm, Oaks Road. Detrimental to the amenities of adjoining owners, inappropriate use of green belt land. Sites that are located on the green belt, considered to be inappropriate development for Traveller sites (temporary or permanent) and against Government Policy (planning policy for Traveller sites DCLG, Aug 2015).

Lack of relevant Amenity close at hand.

Insufficient local infrastructure to accommodate the plans.

Selection of proposed sites should have a bias towards Brownfield or Industrial Land and not Green Belt. The two proposed sites are in very close proximity to one another. Imbalance across the borough with all sites being proposed in South Croydon.

Could the existing permanent Gypsy Site in Lathams Way be expanded?

If one has to select one of the proposed sites, the preference is for Pear Tree Farm & Pear Tree Farm Cottage, Featherbed Lane.

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

3228/01/002/DM43.4/O Mr Paul Ashton

Object DM43.4 502

I would like to register my strong objection to the Council’s proposals for the consideration of Coombe Farm and Coombe Lodge Nurseries as gypsy/traveller sites (Croydon Local Plan: Strategic Policies Partial Review and Croydon Local Plan: Detailed Policies & Proposals).

The sites are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. The Government’s policy is I believe that traveller sites should not be located in the Green Belt, but that hardly needs stating, surely? I cannot imagine why such sites would be considered at all, or in preference to other, clearly more suitable and higher-scoring sites cited in Assessment and selection of sites for Gypsy and Travellers August 2015 – there appears to be no logic to this approach.

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

3230/01/003/DM43.4/O Patricia Jakeman

Object DM43.4 502

I object to the proposal to create three gypsy/traveller sites reference numbers 502/661/755. All sites are in the Green Belt which makes them an inappropriate development. In addition they are some distance from schools, public services etc.

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

</table>
The location in Green Belt should preclude all development per se apart from GDO rights to the few existing dwellings at Coombe Farm. The Conduit Lane site has been rejected in the past as unsuitable. Such erosion of the Green Belt runs wholly against the interests of the local community. It would set a precedent that can be used to further erode local and national planning policy. The impact would be more pronounced on both sites as the subject Group need mixed use sites. This is because they often run businesses from where they live. This issue is not addressed by the Consultation. Such a mixed use requirement is wholly inappropriate on both sites. Both sites are not deliverable now. Each would require the construction of a new access road as a minimum particularly to Coombe Farm. The construction of a two lane highway here with footpaths either side is bound to change the semi rural nature of this location as the existing access here is a narrow lane. A new access at Conduit Lane might be shorter but would put further pressure onto an already dangerous staggered junction with Oaks Road. This is again contrary to current policy. The Coombe Farm site is bound to require the application of more scarce resources into the maintenance of Lloyd Park if a large number of new residents are located onto its edge. This is a facility that serves the whole Borough, not just the surrounding area. Any impact here due to the development will affect adversely many in the Borough. Coombe Farm is not immediately available and as such again puts it outside Government policy. The proposal highlights the proximity to public transport at both sites. This is a consideration of low importance here as the subject socio economic group concerned are known to be infrequent users of public transport. It ignores however the dear lack of local facilities nearby. The lack of local facilities goes against the stated preference of the particular Group concerned to be within a short walk of everyday amenities. These circumstances will promote the use of personal vehicles which is against environmental policy. The proposal mentions only the number of pitches at each site. No account is taken of the number of people who might use each site due to the tight knit nature of the subject community. The number of residents may therefore result in overstraining which will be difficult to control. This is detrimental to public health and so in breach of environmental policy.

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
I strongly object to the Council’s proposals for gypsy/traveller sites at Coombe Farm (Ref 502) and Coombe Lodge Nurseries (Ref 661). Both these sites are in the Green Belt and the proposals are contrary to Government policy (Policy E of Planning Policy for Traveller sites) which states “Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development”.

The sites are also unsuitable as they are not near any public services and would completely change the character of the area in an extremely detrimental way.

If more space must be provided, why not expand the existing site off the Purley Way?

Mr Matthew Blanshard
Object Soundness - Justified
I am writing to strongly object to proposals to change Shirley regarding changes in green areas from MOL so it can be built on along with proposals to create traveller sites near Coombe gardens or the farm.

Shirley has always been a beautiful place with lots of green land, please don't ruin it.

Mr Barry O'Neal
Object
I object in the strongest possible way to the plans outlined for this development in my local area, Shirley and Addiscombe. In particular, I understand the Council has identified two locations on the edge of Shirley for gypsy/traveller sites. I object to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs to quadruple the number of gypsy/traveller sites in the borough, I think they should look elsewhere (for example, off the Purley Way where the existing site is).
In my years of dog walking at Lloyd Park, there has been a number of occasions where travellers have set up site for weeks at a time. They seem to have no respect for the park and leave rubbish and mess all around. Plus they do not clean up after their animals which is a hazard for my young children who often use the park. Another concern of mine is the impact which travellers will have on the ratings of local schools and also the decrease in house prices. It is exciting times for Croydon with the new building developments, including Westfield - much needed for the reputation of Croydon after the riots and fires of 4 years ago. I strongly urge you not to approve the proposals for the traveller sites at Coombe Farm and Coombe Lodge Nurseries. It will result in good families and people who care about the community moving away from Croydon.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Finally, the Council has identified two locations on the edge of Shirley for gypsy/traveller sites:

• Coombe Farm off Oaks Road, which is identified as suitable for 15-20 pitches (pages 449-450, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 502); and

• Coombe Lodge Nurseries off Conduit Lane, which is identified as suitable for 15-25 pitches (pages 468-469, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 661).

I vigorously object to the use of either of these locations as gypsy/traveller sites. As you have to be aware, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

“Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.”

The Council’s approach is blatantly in breach of that policy. Both sites are a considerable distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question – there must be more suitable sites which are closer to local amenities (there is nothing in the way of shops or even a bus-stop at these sites, necessitating extra vehicular traffic on an already busy road at best or pedestrians attempting to cross at a very dangerous point with blind bends and junctions at worst). There have to be sites which are not in Green Belt land, perhaps even sites which already exist and could be expanded (such as the one on Purley Way).

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

<td>DM43.4</td>
<td>I thought Metropolitan Open Land was protected, but then having said that the council are proposing building Gipsy encampments on Green Belt land - ridiculous, immoral and probably illegal! Has anybody in the council actually had first hand experience of a Gipsy Site - we have as we back onto Ashburton playing fields, and the last invasion of Gipsy's cost tens of thousands of pounds to clear up! Are the council going to keep these proposed sites clean and properly policed? Are the Gipsy's going to be charged a going rate for using these sites, or are we subsidising them out of our council tax? In short I am totally opposed to Green Belt land being destroyed in this manner, also I am opposed the proposed enlargement of the Shirley Oaks estate hence destroying the Metropolitan Open Land, for all the reasons stated above.</td>

Mr Keith Povah

Object Consultation on Croydon Local Plan: Detailed Policies & Proposals (Preferred & Alternative Options)

I am writing to register my objections for the following proposed sites for Gypsy and Travellers Sites:

- Coombe Farm, Oaks Road - Reference 502
- Coombe Lodge Nurseries off Conduit Lane - Reference 661

The Policies laid out on the Mayor of London - London Assembly website, and Policy 7.17 clearly states that the Mayor’s office truly supports the protection of Metropolitan Open Land, and indeed states that The strongest protection should be given to London’s MOL and inappropriate development refused”. The Policy lays out what needs to be established to designate an area as MOL, but does not make it clear how a Council can re-designate an area. I therefore object to any permanent Traveller site being constructed on MOL and especially if the area is simply going to be re-designated without any consultation with the local residents and businesses.

I object strongly that Croydon Council can re-designate Metropolitan Open Land or Green Belt land to suit their needs to accommodate a permanent pitch. I cannot see any Planning justification to change the designation, nor for the intrusion into the lives of the residents of Oaks Road and surrounding area. This will massively affect the urban attractiveness of the area and have both emotional and financial repercussions on many lives. Policy 7.18 relating to Protection of Open Spaces clearly states that open spaces in London must be protected, and any loss must be resisted. I cannot believe the Council would want to go against both of these policies laid down by The London Assembly.

I am a member of Shirley Park Golf Club, which not only provides sport and social activities to over 700 members in the local vicinity, but also provides an important ecological role in the area. The proposed site of Coombe Farm as a site for Gypsies and Travellers has come as a shock to everyone in the area, as borne out by the recent press coverage and attendance at the Consultation Meetings.

The history of unauthorised pitches in this area over the past few years has left a bitter resentment, especially in...
view of the residual mess and threatening behaviour that has always accompanied their trespass. On each occasion that Gypsies/Travellers have been in the area, the club members here have been threatened with physical and verbal abuse. This behaviour is totally unacceptable and despite the subsequent eviction of the Travellers on each occasion, the residual psychological effect on tax payers and constituents' lives cannot be trivialised.

I personally have experienced dreadful behaviour from the travellers. They have damaged the greens, used the golf bunkers as toilets, damaged course furniture & stolen equipment.

We also have a large Junior Section and children play the course during holidays as well as weekends. They are often unaccompanied and the parents need to know they are in a safe environment. This would certainly not be the case in the parents' minds if there was any chance of aggressive behaviour, as previously experienced, towards these children. I am certain that you would not wish to be responsible for putting children in any sort of potentially dangerous situation.

Surely these detailed real issues must be taken into account when determining any permanent site. I understand that the proposed sites are not within the required distance to both schooling and medical needs, therefore I also object on that basis. The land is in private ownership at Coombe Farm, and any funds spent on compulsory or otherwise purchase could surely be spent more wisely on behalf of the population of Croydon. No doubt Central Grants will be available, but Council owned land in an area that will not radically impact on established residents' lives would be a sensible and prudent choice.
Object
DM43.4
502

I am writing to object to the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference 661; Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

I additionally comment that:

- The proposals are detrimental to the Amenities of Adjoining Owners
- Development is on Green Belt and would therefore require a change of land use
- The proposed Sites should be on Brownfield or Industrial Land not Green Belt
- There is an imbalance, with all sites being proposed in the South of Croydon
- Existing sites could/should be expanded
- If a new site is to be developed for the travelling community, I would express a preference for Pear Tree Farm & Pear Tree Farm Cottage, Featherbed Lane. This already virtually developed to the point where there would be no further detriment if the site were to be developed.
- However, there is no proposal as to where the existing activity would be relocated to.
- The Pear Tree Cottage Farm site, provides ample space for all or most to the 39 additional pitches. Any remaining pitches could be located at other, brownfield, sites within the borough.
- If the nurseries site is to be redeveloped, it would be far better for this to be used for the relocation of a school, thus freeing up land elsewhere in the borough for housing.
- The travelling community are by definition mobile whereas the proposed development(s) are permanent and in built form. This is contradictory and may suggest that the council is considering further redevelopment at some future point. If so, the council should either be open about this or unequivocally deny it.

Other Sites that the Council should reconsider instead of both Coombe Lodge Nurseries and Coombe Farm are the following:

- 518 - Land adjacent to 103 Goodenough Way, The Admirals Walk, Old Coulsdon
- 536 - Land of former Croydon Airport runway, south of Imperial Way, Waddon
- 552 - Land adjacent to Ashburton playing fields at rear of 2-88

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Mr & Mrs Haslam

Object

DM43.4
502

I object The use as gypsy/traveller sites of Coombe Farm (502) and Conduit Lane (661) These are in the Green Belt and Government Policy (Policy E of “Planning Policy for Traveller Sites”) classifies traveller sites in the Green Belt as “inappropriate development.”

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Happy for the Council to replace under-used garages with much-needed homes, but will be objecting to building on precious open space. Objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.

If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Mr Dan Camalich

Object Soundness - Justified DM43.4 502

I am writing in order to object to the use of Green Land, especially in and around Croydon, for use as any kind of residential use, or any other kind of development for that matter. Such new developments, for Travellers or any kind of development, would be better made on non-green land, or in any suitable properties which are currently unused. Green land should be cherished and preserved because it takes a long time to become like that and there is less and less of it these days. The only real exception to that rule might be playgrounds for kids; but, even then, sensitivity to wild life, habitats and a location's general “greenness” should always be employed.

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Karen Muldoon

Object DM43.4 502

I am very concerned about the plans to introduce traveller sites near Oaks road. Roads are already narrow and congested in this area. At peak times there are always queues in Oaks Rd and Coombe lane so I don’t believe adding the large entourage of vehicles used by travellers will be particularly helpful. We experience the mess left behind by travellers every year and this continually concerns me. I am not sure what happens at Coombe Farm but there is already a rubbish site building there on the edge close to Lloyds park. I know there have been campaigns for some time about this and it has not been closely monitored. I imagine this would also be the case if it became a traveller site. It seems to make far more sense that traveller sites be in open, easily accessible areas - not tucked away sites like Coombe farm.

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

<td>Please be advised that I would like to enter an objection to Croydon Council's plans to de designate several land spaces in order to enable the positioning of three gypsy/traveler sites in the green belt and also the development of homes on some of the green spaces. The proposed locations for traveller sites brings great concern as to what impact this will have on the area as the locations are not really close to any public services. I believe there is also some question about whether the areas being proposed for the traveller sites can be used for this purpose due to a Government policy that states traveller sites (temporary or permanent) in the Green Belt are inappropriate development. As a resident of Shirley for the past 20 years I would be extremely disappointed to see any of these proposed developments come to fruition. Whilst I welcome the development of new homes I think Croydon Council should look for alternative locations instead of green land. I do hope to hear from your office in due course as to what the future may hold for our lovely green spaces that provide fresh air and outdoor enjoyment for our family and many others.</td>
<td>The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.</td>
</tr>
</tbody>
</table>
Third, the Council has identified two locations on the edge of Shirley for gypsy/traveller sites:
• Coombe Farm off Oaks Road, which is identified as suitable for 15-20 pitches (pages 449-450, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 502); and
• Coombe Lodge Nurseries off Conduit Lane, which is identified as suitable for 15-25 pitches (pages 468-469, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 661).

I will be objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

“Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.”

The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

The purpose of Green Belt legislation has always been to preserve areas of amenity land for the benefit of local people, and other potential users, against any form of building development. I therefore consider it totally unacceptable, indeed absolutely incredible, that the Council would even consider designating areas of the Green Belt for potential gypsy/traveller sites as the Plan proposals for Coombe Farm, Coombe Lodge Nurseries and 2 sites on Featherbed Lane. The Coombe Lodge Nurseries site is especially inappropriate as it is very adjacent to Coombe Gardens, an important local amenity, and to the land along Conduit Land that has strong conservation value.

DM43.4

502

I would like to object to the proposed plans to set up gypsy and traveller sites for the following reasons:

* It is an inappropriate use of Green Belt Land - this classification of land has been created to protect green areas, not to develop on them.
* Should have proposed Brownfield or Industrial Land NOT green belt
* Might set a dangerous precedent for more Green Belt land to be developed on
* It will be potentially detrimental to the amenities of adjoining owners - for example, the business of The Coach House Café.
* Sites that are located on the Green Belt, considered to be inappropriate development for Traveller sites and against Government Policy ("Planning policy for Traveller Sites", DCLG, August 2015)
* The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

3410/01/001/DM43.4/0

Mr B Chantler

Mr B Chantler

The grounds for my objection are:

1. The area has already suffered from illegal camps on several occasions.
2. The illegal camps have deposited substantial rubbish, including human waste, on each occasion.
3. The camps have been noisy and disruptive and thefts have occurred from my garden shed whilst the travellers were in occupation.
4. This area is Metropolitan Open Land and/or Green Belt and as such is protected from the proposed development. Such proposals are against planning policy at both local and national level.
5. Coombe Farm is a listed building and the proposed development would be entirely detrimental to its setting even if not actually within its curtilage.
6. Coombe Farm is within the panoramic view of Addington Hills which is subject to local planning policies.
7. All land in the area subject to covenants over the freehold titles set by the Garwood family which prohibit the proposed development.
8. There is little or no public transport provision, no shopping or schools within any reasonable distance of the sites. These are major requirements for any Gypsy and Travellers settlement proposals.
9. Why are no brownfield sites proposed which would be far more suitable, comply with planning policies and offer the amenities which are required to support the community of Gypsies and Travellers.
10. Why have Heathfield Ward been selected as the location for two proposed sites when it is on the fringes of Croydon with little amenity provision to support the Gypsy and Travellers sites.
11. The Local Plan sets no description of the council's statutory duties towards travellers. Do these proposals exceed the statutory responsibilities and, if so, what are the council's reasons since none has been provided in the plan or in any consultations. Given the funding cuts leading to threatened reductions in services to residents and tax payers has the council carried out any consultations or sought the views of residents as to the priority to be given to the provision of travellers' sites?

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
encampments. What measures have been considered to protect vulnerable sites in the area from incursion by travellers if the site are full 14 The area has a population of protected wildlife including deer, badgers, owls as well as an abundance of other wildlife. No measures are proposed to minimise the effect of the proposed developments nor any mitigation measures. 15 Traffic in the area is already substantial. The junctions at both ends of Oaks Road are congested at peak times and are dangerous for pedestrians at all times. The proposed sites will increase the existing problems. 16 Little or no consideration has been given in the plan to the protection of local amenity and the local environment quite apart from the other deviations from or contravention of local and national planning policy. 17 It is clear from the plan that the council has ignored many alternative and more suitable sites which do comply with local and national planning policies and do not infringe on Green Belt Land. The proposals are illogical, counter to any tenets of sustainable development and appear to be prejudiced against a single ward - as no other options for location of the sites have been explored or have been dismissed without reason.

Object Soundness - Justified DM43.4 502

As a local resident I am writing to object to the use of the following locations as travellers/gypsy sites:

Coombe Farm off Oaks Road, reference number 502
Coombe Lodge Nurseries off Conduit Lane, reference number 661
Coombe Farm site (ref. no. 502)

1. It is in a Green Belt area. National guidelines say that travellers/gypsy sites in the Green Belt are inappropriate development. Even if the properties are demolished to provide for the pitches there will still be a large spill over into the Green Belt. This means that planning permission should not be available.

2. The site is on a single track lane with a very narrow access into Oaks Road which the large mobile homes will not be able to access. The lane is also used by aggregate lorries which are smaller, local residents, members of the sports ground and teams and visitors to Lloyd Park, a much loved and used public amenity.

3. The site has no safe walking route to schools, shops, doctors etc. There is no pavement along Oaks Lane and very poor lighting when dark. There is only partial pavement along one side of Oaks Road. How will this be safe to accommodate a large number of people including children? This means that the incomers will have to use their own means of transport to access the basics of life.

4. The size of the pitches would accommodate a far greater number of caravans than can be controlled by planning restrictions. Even if the restrictions are adhered to, this means there could be as many as three families on each pitch. With planning for 20 pitches this would mean 60 families and 60 mobile homes, not to mention cars, trucks, vans and caravans in tow.

5. National guidelines state that the site should not overwhelm the nearest settlement. The residents of Oaks Farm, Oaks Road and Oaks Lane would certainly be overwhelmed, how would social cohesion be achieved with local residents and potential conflict between Travellers of different nationalities?

6. There has been a long history of planning application refusals and avoidance of planning permission at Coombe Farm and the reasons for this should be re-visited. There is a history of unauthorised "pitches" in areas of Croydon over the past few years that has left a bitter resentment, especially in view of the residual mess and threatening...
behaviour that has accompanied Travellers/Gypsies trespass. This behaviour is totally unacceptable and would not be tolerated in other groups in society. Despite their eviction it is the taxpayer who has to clean up their mess.

These two sites are totally unsuitable for Traveller/Gypsy sites and will be contravening National Guidelines on the use of Green Belt Land. This proposal has not been thought through in its effects on local residents and the needs of the Traveller/Gypsy community who will be abandoned on sites with no close amenities and very poor and unsafe access to their homes.

| 3428/01/006/DM43.4/O | Mr Daniel Nuthall | Object | DM43.4 502 | Also the proposal of a Gypsy site does not sit well with me at all. Firstly both the proposed sites ref 502 & ref 661 are in a green belt, a clear breach of policy. The site at Stroud Green is also liable to flooding together with the land being owned by Thames Water and who's offices are a listed building. | Change | This site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use. |
All three sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b.

Furthermore, Policy E of ‘Planning Policy for Traveller Sites’, published by the Government in August, states very clearly that ‘Traveller sites (temporary or permanent) in the Green Belt are inappropriate development’. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the ‘Assessment and Selection of Sites for Gypsy and Travellers’. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of ‘extensive political consultation’. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
We strongly object to the disturbing proposals of Croydon Council to quadruple the area of gypsy sites in the Croydon area, in particular to sites regarding Reference numbers 502, 661 and 755. Green Belt areas are invaluable and should be protected as per previous acknowledgements (c.f. Policy E of Planning Policy for Traveller Sites, published by the Government in August).

Also Croydon already has a bigger than average share of “problematic and challenging” social make-up than the rest of the country, and as such quadrupling gypsy sites in the borough seems a gross overreaction to pressure to ‘meet targets’. Policies and planning should focus on the development of an area rather than on enforcing undesirable land uses on the existing hard working population.

Existing traveller sites are appalling examples of living conditions, and building small blocks of flats in current sites could house a number of travellers either living there already or wishing to move to the borough.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
I wish to log my objection to the borough-wide planned changes Croydon Council are proposing to make in their Local Plans for 2016-2036. These proposals are 750 new homes in Shirley Oaks and 35 new homes on the Shrublands Estate. Also the proposed work to the two large gypsy/travellers site in Coombe Farm and the Conduit Nursery of Coombe Road.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Object DM43.4

502

I object to the proposal to create three gypsy/traveller sites reference numbers 502/661/755. All sites are in the Green Belt which makes them an inappropriate development. In addition they are some distance from schools, public services etc.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Object DM43.4

502

I strongly object to the following proposals which will have a negative impact on either green belt land or the character of an area. Coombe Farm off Oaks Road, which is identified as suitable for 15-20 pitches (pages 449-450, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 502);

Change

Object DM43.4

502

I am writing to object to: The use of a site for Oaks Road as a traveller site (Coombe farm). Reference number 502 and Coombe Lodge Nurseries (ref 661) as gypsy/travellers site

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Object DM43.4

502

I am writing to you to object to the use of a site off Oaks Road as a traveller site (Coombe farm). Reference number 502 and the use of Coombe Lodge Nurseries, off Conduit Lane as a further travellers site. Reference number 661

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Mr Dennis King
Sanderstead Residents' Association

Soundness - Consistent with National Policy

The three locations earmarked for gypsy and traveller sites are all located on green belt land.

Conduit Lane
Coombe Farm off Oaks Road and Pear Tree Farm
Featherbed Lane

Policy E, Planning Policy for Traveller Sites published by the Government and also backed by the London Plan states that they are inappropriate development. On what basis therefore do Croydon consider they are better advised than more experienced authorities. They are high cost implications for Croydon should they proceed with this policy.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Depal Patel

I have heard of Croydon Councils proposals for Traveller sites within the borough. I understand that "favoured sites" are Conduit Lane, Coombe Farm and Featherbed Lane. As a resident of Croydon, I am extremely concerned that this green belt area is being considered for use as residence. Addington hills and Coombe woods are an area of outstanding beauty and home to the largest area of heathland in London. Locating Traveller's encampments sites right on the doorstep of this green belt area would undoubtedly have dire consequences for flora, fauna, the natural habitat and wildlife as a whole, leading to irreversible damage. Please could Croydon Council reconsider this issue and please consider not going ahead with this proposal. The consequences to the natural environment and the delicate socio-ecological balance that currently exists would be damaged permanently with travellers' communities housed in a wildlife locality. There are better options to house people in Croydon and right in the middle of a green belt area which the residents of Croydon hold a lot of regard and pride for is not one of them. I would strongly advocate considering urban areas of the borough which are fit for housing - such proposals must not be made or favoured without a thorough ecological and environmental impact assessment and evaluation. I am very concerned with this proposal also because Croydon Council is meant to work in partnership with the British Trust for Conservation (BTCV) and a regional office is located on the woodland premises. Scraping this proposal is the right thing to do and the right thing for Croydon.
The proposal to develop Coombe Farm, Oak Road as a residential development for a Gypsy and travelers site does not fall within the Strategic Objectives because:

Objective 2: This development will not Foster an environment where existing enterprise can prosper, but will reduce enterprise.

Objective 4: This development will not reduce social, economic and environmental deprivation. It will not reduce unemployment, improve skills and education and improve environmental conditions; the development is not in keeping with the surrounding area.

Objective 5: This development is not of high quality and will not enhance the borough’s natural environment but will reduce the natural environment by turning a farm into a travelers housing site.

Objective 7: This development will reduce the area as a safe, healthy and cohesive community.

Objective 10: This development will reduce the quality and accessibility of green space and nature. This development will compromise the ability of future generations to meet their own needs. The development will change the outlook and community within the Shirley area and future generation will suffer because of this. This proposed development of a travelers site within the Shirley area is not within keeping of the current development within this area. Shirley comprises of large semi and detached houses with large green areas. This development is in no way in keeping with out housing in the area. Changing a green area to an area of residential housing will cause harm and reduce the outlook of the area. Building a travelers site will increase noise levels, and ruin the character of the area and this development would overwhelm this green area. Paragraph 64 of the National Planning Policy Framework states that permission should be refused for development of poor design that fails to take the opportunities available for improving the character and quality of an area and the way it functions. This development would diminish the striking view of the area of Addington Hills and Coombe Farm area.

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
3485/01/003/DM43.4/O Mr Alnoor Visram

Object DM43.4 502

SP2.7 makes no mention of impacts on the surroundings of the site and nearby residents. Accordingly, an additional criterion should be added "f. Must be entirely acceptable in relation to its impact on nearby public spaces and residents and businesses in the area". If this were included the proposals ref 502, Coombe Farm, and Ref. 681, Coombe Lodge Nurseries, would immediately be seen to be inappropriate. Coombe Lodge Nursery is by the lovely gardens of Coombe Wood with its popular tea room and wooded area. Coombe Farm is green belt land in Lloyd Park, left to the people of Croydon by the Lloyd family and where families enjoy the open space, kids play in the play area, joggers, dog walkers and of other walkers exercise, spots are played, families snack in the café and everyone feels reasonably safe.

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

3487/01/001/DM43.4/O Mr G von Gerard

Object DM43.4 502

I wish to register my objection to the proposed locations for traveller sites, namely Coombe Farm (Ref 502) and Coombe Lodge Nurseries (Ref 681) in the Local Plan proposals. These sites are in the Green Belt and, as the Government's policy (Policy E of Planning Policy for Traveller Sites) states, 'Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development'.

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Objections raised to the use of the following locations as Gypsy/Traveller sites:-
- Coombe Farm off Oaks Road Reference Number 502
- Coombe Lodge Nurseries off Conduit Lane Reference Number 661

1. How has the London Borough of Croydon involved its Community in the planning of the Coombe Farm and Coombe Gardens Traveller Sites? What opportunity was given by Croydon Council for the local residents to put forward their own ideas and participate in the development of the sites? See - London Borough of Croydon’s “Statement of Community Involvement - October 2012” (https://www.croydon.gov.uk/sites/default/files/articles/downloads/involvement-oct12.pdf) Reference 2.11 & 2.12 - these Guidance Rules have been ignored

2. There is no pavement access to either of the proposed sites therefore most travel to and from these sites to local amenities, (shops/doctors/schools) would be by vehicle – causing even greater traffic problems to the Coombe and Oaks Road junction.

3. Residents call for an independent (i.e non-Labour) lead enquiry into the full extent Dr Anwar Ansari (owner of Coombe Farm, a proposed traveller site) has been able to influence Croydon Council specifically & Labour Government more broadly through financial bribery?

4. Under the freedom of information act, can you please confirm how planning applications Dr Anwar Ansari or a member of his family have submitted to Croydon Council and how many have been accepted/approved (including those with conditions).

Quote from the 2011 Localism Act;
“Through the Localism Act, the Government has abolished the Standards Board regime. Instead, local authorities will draw up their own codes, and it will become a criminal offense for councillors to deliberately withhold or misrepresent a financial interest.”

Tens of thousands of pounds including cash equivalent goods & services (e.g. supply of rent-free premises for council business, travel expenses and campaign donations) have been disclosed but misrepresented as donations. These are in fact bribes in return for planning leniency (see press article) - http://insidecroydon.com/2015/08/21/property-developer-ansari-donates-to-cooper-and-khan/4. Under the freedom of information act, can you please confirm how

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
planning applications Dr Anwar Ansari or a member of his family have submitted to Croydon Council and how many have been accepted/approved (including those with conditions).

5. the restrictive Covenants for Coombe Farm, (defined as 80 Oaks Road) which are for "the Settlers and their successors in title" states "No part of the Property shall be used for any offensive noisy, dangerous pursuit or occupation or for any purpose which shall or may grow to be in any way a nuisance damage grievance or annoyance to neighbouring properties or the neighbourhood."

I am writing to object to the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference 661; My objection is based on the fact that the use of both sites for such a purpose would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. To summarise my objections to the location of traveller sites at either (or both) Conduit Lane and/or Coombe Farm, these would be that:
• they would be detrimental to the amenities of adjoining owners
• it would constitute inappropriate use of Green Belt Land
• sites that are located on the Green Belt, considered to be inappropriate development for Traveller sites (temporary or permanent) would be against Government Policy ("Planning policy for Traveller Sites", DCLG, August 2015)
• there would be a lack of relevant amenities close at hand
• there would be insufficient local infrastructure to accommodate the plans
• the selection of proposed sites should have a bias towards 'brownfield' or industrial land, not Green Belt

I am writing to object to the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference 661
I would also ask:
• Why are the two sites in very close proximity to one another being proposed?
• What is the rationale for creating an imbalance across the borough with all sites being proposed in the South of Croydon?
• Why not expand the existing Permanent Gypsy Site in Lathams Way off Beddington Farm Road?
• If one has to select one of the proposed sites, the preference is for Pear Tree Farm & Pear Tree Farm Cottage, Featherbed Lane

Change
The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Mr Ian Harris

Mr Ian Leggatt
Object DM43.4 502
This site is in Green Belt and to create a Traveller site here constitutes “inappropriate Development” in contravention of Policy E of the Government’s Planning Policy for Traveller Sites. I object to the proposal.

Mr Ian Enlgeback
Object DM43.4 502
I am writing to object to the use of the following locations as gypsy/traveller sites at Coombe Farm off Oaks Road (reference number 502). These locations are designated Green Belt and close to sites of Nature Conservation Interest, allocation of such land to gypsy/traveller sites is in contradiction to established government policy as laid out in Planning Policy for Traveller Sites (Policy E).

Gaynor Lawrence
Object DM43.4 502
Please see this email as my objection to the proposed housing. This is ridiculous. The village is small and the road going through the village would NOT suffice the extra traffic. I pay a maintenance charge and moved here as it is a quiet location. I have been burgled a couple years back due I believe to the travellers that squatted on the land here and I do not want that fear again. Please rethink this crazy idea and let me know how I can further stop this.
Mr Gary Kenney

Object DM43.4 502

I am writing to show that I object to a number of your plans around the Shirley area. I contest that you need to build on our green sites and bring in new ‘traveler’ sites into Shirley.

On top of this I cannot understand the need to bring ‘medium’ high rise buildings in and around Shirley, including Devonshire way and the new proposals around Hartland way.

Please can you let me know if my objection has been noted and how I can make it more official?

Mrs Jolanta Berry

Object DM43.4 502

It has come to my attention, that the Council is currently considering to change the designation of areas of Green Belt and Metropolitan Open Land, in particular, that of Coombe Farm off Oaks Road, and Coombe Lodge Nurseries off Conduit Lane.

I am most surprised and disappointed, that people within the Council who have been employed to represent and implement the views and wishes of local residents, are pursuing such ideas.

I am very strongly objecting to the idea, and ask you to withdraw the proposals. They will have a detrimental effect on the quality of life for the local residents, and will forever change the character of the area for the worse.

I would ask you to withdraw any plans to change the current status, and to confirm in writing, that my objection and representation has been received, and will be given a due attention. As I understand, a large majority of residents are opposing the idea and expect that you will respect their wishes and views.

Jennifer Worstall

Object DM43.4 502

I urge the Council to re-consider allowing traveller sites in the former Croydon nursery in Coombe Woods and at Coombe Farm in Lloyd Park -- both unsuitable sites, as they are not near amenities such as shops/schools etc which travellers may need to access. The A23 offers a better location for these traveller sites and has better road access too.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

</tbody>
</table>
As a local affected resident, I am registering my comments and objections to the proposals as documented in the Croydon Local Plans CLP1.1 and CLP2.

6 Proposed Policy DM43 Creation of Gypsy/Traveller sites at Coombe Farm, off Oaks Road, Coombe Lodge Nurseries, off Conduit Lane and Pear Tree Farm and Pear Tree Cottage, Featherbed Lane
As a local affected resident, I am registering my comments and objections to the proposals as documented in the Croydon Local Plans CLP1.1 and CLP2.

Policy DM43, reference Site 502 Coombe Farm reference Site 661 Coombe Lodge Nurseries and reference Site 755 Pear Tree Farm and Pear Tree Cottage. I object to the use of any of these locations for the creation of Gypsy/Traveller sites. All three locations are within the Green Belt and Coombe Farm is on a site of an Archaeological Priority Zone and contains an area of Nature Conservation Importance. Such development is in breach of Policy E of Planning Policy for Traveller Sites, which says that "Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development". All three sites are also a considerable distance from public services. I believe that the proposal to create three new Gypsy/Traveller sites by 2017, and 39 by 2036 is extremely excessive and will have a significant adverse impact on the borough.

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Both my wife and I formally wish to object to the councils proposals for development to the green belt at Coombe Farm and especially for the creation of Travellers sites to them.
I wish to voice my concerns regarding the following:

I totally object to any reduction of green space in the borough of Croydon in favour of development. I agree wholeheartedly with Garvin Barwell MP and wish to oppose any such plans. In particular, the idea of a travellers site at the suggested sites is preposterous.

There have been problems in this borough with 'travellers' for many years. To the extent that defences, barriers built up grass mounds, have been created to keep out such illegal encampments. Whilst what the Council are proposing is to legalise such sites, I have witnessed the conditions these area have been left in when travellers have moved on, piles of rubbish including human waste and damaged the area! This has been a massive expense to the council over the years. Areas around Coombe Gardens and Lloyd park are much loved and used recreational areas for the people of Croydon and surrounding areas. A gypsy encampment would be a disaster!

If there is an obligation for the council to provide facilities for travellers, any such area should be very carefully assessed and considered, taking into account all the attributes of the area and how such a camp would affect it. In this instance the suggested areas are totally inappropriate.
Object DM43.4

I object to the proposed sites of Coombe Lodge Nurseries 661, and Coombe Farm 502, being used as sites for gypsies and travellers because:

1. It will be detrimental to the amenities of adjoining owners.
2. It is inappropriate use of Green Belt Land. Sites that are located on the Green Belt are considered to be inappropriate for Traveller sites (temporary or permanent) and against Government Policy, “Planning policy for Traveller Sites,” DCLG, August 2015.
3. There is a total lack of amenities close at hand.
4. There is insufficient Local Infrastructure to accommodate the plans.
5. The selection of Proposed Sites should have a bias towards Brownfield or Industrial Land, not Green Belt.
6. Imbalance across the borough with all Sites being Proposed in the South of Croydon.
7. Why not expand of the existing Site in Lathams Way, off Beddington Farm Road.
8. If one has to select one of the proposed Sites, the preference would be for Pear Tree Farm & Pear Tree Farm Cottage, Featherbed Lane.

Other Sites that the council should consider are:

1. 16 Heath Clark playing fields, Stafford Road, Waddon.
2. 120 Timebridge Community Centre, Field Way, New Addington.
4. 522 Wandle Road surface car park, Wandle Road, Croydon Opportunity Way.
5. 536 Land of former Croydon Airport Runway, south of Imperial Way, Waddon.
6. 552 Land adjacent to Ashburton playing fields, at rear of 2 - 88 Coleridge Road, Addiscombe.
9. 636 Land west of Timebridge Community Centre, Lodge Lane, Elmside, Addington.
10. 767 Cane Hill - south part, Hollymeak Road / Portnalls Road Coulsdon.
I object to plans to de-designate the metropolitan open land on either side of Shirley Oaks Road and all around Shirley Oaks Village as it is Green Belt and precious open land. I also object to gypsy/travellers sites: Coombe Farm off Oaks Road (Ref No. 502), as they are both in the Green Belt and one of them borders a site of Nature Conservation interest. Policy E of Planning Policy for Travellers Sites published by the Government clearly states: ‘Travellers sites (temporary or permanent) in the Green Belt are inappropriate development’. The Council is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/travellers sites in the borough - they should look elsewhere (for example, off the Purely Way where the existing site is).

Change
The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Mr I Fuell

Object Soundness - Justified

5. The use of the following locations as gypsy/traveller sites:

- Coombe Farm off Oaks Road; reference number 502; and
- Coombe Lodge Nurseries off Conduit Lane; reference number 661.

These are both in the Green Belt, where Policy E of Planning for Traveller Sites clearly says that “travellers sites (temporary or permanent) in the Green Belt are inappropriate development”.

This is also likely to have a negative effect on the Site of nature conservation interest that one of the sites would border, and both sites are a distance from public services. It is also likely to create increased traffic problems in an area that is not best suited for such sites.

Consideration should be given to the refurbishment of the existing sites, or where this is not possible, alternative and more appropriate sites.

Change
The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Mr Martin Payne

I have been a Croydon resident for many years (over 47), and have watched Croydon wax and wane. In all those years, Croydon has often been regarded as rather down at heel and a bit of a joke; it has been misrepresented in the media too many times in my view. Croydon remains a vital communications hub, which seems only recently to have been recognised. Given all the development in and around East Croydon station, your plan for these improvements is beginning to take shape. As we all know, London Victoria in 20 minutes, London Bridge in 20 minutes; not to mention the east/west Tramlink which has become so popular that TfL decided to grab it! Croydon’s communications should be more widely acknowledged. You were elected on a ticket to not only improve Croydon for ALL its residents but also to preserve its assets such as the green belt and areas of special scientific interest. Imagine my dismay and great disappointment when I discovered in your proposal that you considered it perfectly legitimate to build on green belt – absolutely at odds with your manifesto. AND that you are prepared to ignore your promises in preserving Croydon’s assets to the very people who elected you. How can the electorate trust you in the future, especially at the next council election, if you blatantly disregard your election pledges and set about to destroy the green spaces enjoyed by many of Croydon’s residents? All green belt is part of Croydon’s assets, it represents the lungs of Croydon, benefitting all and in many cases providing a haven for migratory birds as they stop-over en route and indeed other wild life whose habitat is likely to be destroyed/diminished if the green belt is built on. Altering the status of green belt or areas of special scientific interest enabling it to be built on does NOT alter the fact that once built on it will never revert to green belt and therefore will be lost (to Croydon and its electorate), forever. I would urge you to reconsider you proposals to destroy part of the green belt and to maintain the status of the open spaces as is. Croydon occupies a vast area and I am certain you could find suitable alternatives for the travellers which met their needs of access to public transport and retail amenities without destroying the green belt or areas of special scientific interest if you tried hard enough. I am sure you are aware that Government policy states “Traveller sites temporary or permanent in the Greenbelt are

| 3566/01/007/DM43.4/O | Maureen Wilcox | Object  | Soundness - Justified | 502  | Happy for the Council to replace under-used garages with much-needed homes, but will be objecting to building on precious open space. Objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.

The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is). |
| 3568/01/004/DM43.4/O | Mr Mike Jones  | Object  | DM43.4  | 502  | Why build gypsy encampments? They are travellers and should be encouraged to continue travelling. If such land is available then it should be for social or normal housing                                                                                                                                                                                                                                                                                                                                 |
| 3570/01/004/DM43.4/O | Mr & Mrs Adams | Object  | DM43.4  | 502  | It is entirely inappropriate to consider creating Gypsy/Traveller sites in these locations. Not only are these greenbelt sites, they are also very close to residential areas and several schools. In August, the Government published “Planning Policy for Traveller Sites” in which Policy E states: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. |
| 3574/01/002/DM43.4/O | Mr Peter Newsham | Object  | DM43.4  | 502  | I am a resident of Shirley and I wish to register my objection in the strongest possible terms to proposed developments in Shirley and to add my voice to that of my MP, Mr Gavin Barwell, whose views on this matter I echo.

The proposed Travellers’ site, ref. 502, contravenes present legislation because they are in the Green Belt and are therefore classed in Government documents as ‘Inappropriate development’. Does the Council propose to break the law as well as ride roughshod over massive public objection to this plan? |

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Having read both local plans for the Shirley area, I strongly object to all aspects in both plans, this includes the 750 new homes on Shirley Oaks Village, 35 new homes in Shrublands, the two gypsy sites at Combe Fram and Conduit Nursery and the development for up the four storeys along Wickham Road.

None of these plans will benefit Shirley and I object to them all.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
I wish to object to some of the proposals in the Croydon Local Plan as follows.

I object to the proposal (policy DM44.2 Table 11.17) to create a Gypsy/Traveller site on Conduit Lane next to Coombe Wood Gardens (site 661) and/or Coombe Farm (site 502). Policy E of "Planning Policy for Traveller Sites" published by the Government in August states that "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". This would not comply with Policy SPF:7a and SPF:7b. Previous scenes from Traveller sites demonstrate that they end up as dump; not the sort of image we want to portray for Croydon.

I object to the proposed loss of Green Belt status for (1) Coombe Playing Fields - (site ref 662) and object to the proposal for development in Policy DM44.2 Table 11.17 (2) Croham Hurst - this is a biological Site of Special Scientific Interest and a Site of Metropolitan Importance for Nature Conservation (3) Sanderstead Plantation. The de-designation of these sites would not comply with Policy SP7.2 and protection of the green grid.

I object to the proposed loss of Local Area of Special Character protection for many roads such as West Hill, Campden and Spencer Roads, the Woodcote Estates and Hartley Farm. Loss of protection will open up these roads to inappropriate development. Roads, such as Oakwood Avenue in Purley should also be included as new Local Heritage Areas.

I object to the possible "Garden Grabbing" that policy DM2 will make much easier. National and London policy classifies gardens as green field, but the proposed new policy DM2 says that the Council will allow building on gardens. We need to keep our green spaces.

I also object to the proposed retail development of the old "Good Companions Pub" site in Hamsey Green, which the proposed policy DM4 1.3 table 11.14 (site 306) would allow. A retail outlet in such a location would cause traffic chaos. It will be far better to develop it as a residential site (with ample parking) and in character with other housing in the area - not a block of flats.
On the question of parking, I note that some new developments do not seem to cater for this. Green Dragon House being a typical example. All new developments should provide for ample parking for residents and their families.

Please take the above comments into account when assessing the proposed Croydon Local Plan.

Yours faithfully
All three sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. I am concerned that all three sites are also some considerable walking distance away from GP practices, shops, schools, public transport and other local services which would be contrary to the Council’s Health and Wellbeing Strategy.

Furthermore, Policy E of ‘Planning Policy for Traveller Sites’, published by the Government in August, states very clearly that Traveller sites (temporary or permanent) in the Green Belt are inappropriate development. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the ‘Assessment and Selection of Sites for Gypsy and Travellers’. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of ‘extensive political consultation’. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Ms J Doran

Object Soundness - Justified DM43.4 502

As a supplier to Oaks Farm I am objecting to the use of Coombe Farm as a Gypsy and Traveller site.

The site is in Green Belt and is contrary to national policy that says that Gypsy and Traveller sites are inappropriate development in Green Belt.

There is a long history of planning application refusals and avoidance of planning permission at Coombe Farm.

The access road is single track and not suitable for larger mobile homes, or trucks, cars, vans or trailers.

There is no safe walking route to schools, shops or doctors as there is no pavement and very poor lighting when dark. Local schools are oversubscribed and too far away.

The land is in private ownership and any funds spent on purchasing the site by Croydon Council could surely be better spent elsewhere on behalf of the population of Croydon.

Several businesses which make a big contribution to the local economy and provide much needed amenity to the public will be detrimentally affected by the site.

There could be up to three families per pitch as won't be controlled by planning condition and this would overwhelm the residents of Oaks Farm, Oaks Road and Oaks Lane and would not be cohesive to social cohesion.

Mrs J Horton

Object DM43.4 502

I wish to log my objection to the borough-wide planned changes Croydon Council are proposing to make in their Local Plans for 2016-2036. These proposals are 750 new homes in Shirley Oaks and 35 new homes on the Shrublands Estate. Also the proposed work to the two large gypsy/travellers site in Coombe Farm and the Conduit Nursery of Coombe Road.

Ms J Fasham

Object DM43.4 502

I object to the use of these locations as traveller sites, as they are both in green belt land and one of them borders a site of Nature Conservation interest, this is clearly in breach of policy E. Both sites are some distance from Public Services and the road here could not cope with more traffic.

<td>I wish to register the strongest possible objection to the specific proposals in the Croydon Local Plan proposing a school or gypsy site at Conduit Lane, and a Gypsy site at Coombe Farm. Regarding Conduit Lane, clearly, Niccolo Machiavelli would have been proud of the tactic of proposing a gypsy site or a school there. Presumably, the thought was that people are gullible enough to believe that these are either / or proposals!! They are certainly as different as chalk and cheese. I consider both options to be unhelpful, inappropriate and out of keeping with the current use of the area. I am also generally surprised that they are considered viable options worthy of serious consideration as they appear random in nature and devoid of any real local knowledge. Regarding both gypsy site proposals, neither are in keeping with the existing ‘texture’ of the areas. They add nothing to the quality of life of local residents (quite the contrary) and generally they are so out of keeping with the current general use enjoyed by those neighbourhoods that one is left wondering how they even made it into a plan?! Were the proposals drawn up by someone completely ignorant of the area?</td>
</tr>
<tr>
<td>3743/01/002/DM43.4/O</td>
<td>Mr Bryan Baker</td>
<td>SP2.7 makes no mention of impact on the surroundings of the site and nearby residents. Accordingly, an additional criterion should be added. Must be entirely acceptable in relation to its impact on nearby public spaces and residents and businesses in the area. If this were included the proposals Ref. 502, Coombe Farm, would immediately be seen to be inappropriate. Coombe Farm is green belt land in Lloyd Park, left to the people of Croydon by the Lloyd family and where families enjoy the open space, kids play in the play area, joggers, dog walkers and other walkers exercise, sports are played, families snack in the café and everyone feels reasonably safe. I consider both Coombe Farm and Coombe Lodge Nursery as wholly inappropriate places to locate gypsies</td>

DM43.4

502

I am making representations against the proposed Travellers' sites at Coombe Lodge Nurseries, Conduit Lane, Coombe Road, South Croydon, CR0 5RQ (Site reference number: 661) and at Coombe Farm, Oaks Road, Shirley, CR0 5HL (Site reference number: 502). Both these proposed sites are within the Green Belt and the proposals are contrary to Government policy (Policy E of Planning Policy for Traveller Sites) which states that ‘Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.’ In addition the areas in question form a particularly precious ‘green lung’ not far from the centre of Croydon and any development would in my view be deleterious to this amenity. I cannot suggest alternative suggested sites but would prefer one that is not within Green Belt/Metropolitan Open land, of which I understand there are several in the Borough of Croydon.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

I am emailing you to express my concerns about Croydon Council’s Plans to build Gypsy/Traveller sites in Green Belt areas. I understand that there is a great need for housing in the Croydon area and that the number of homeless people in Croydon is high. However, I need assurance that in providing this need we do not destroy our few remaining green spaces as these are vital to the well-being of our environment and people’s health. When I received the information about these proposals from my MP and local residents’ association I had been away from home and so have not studied these plans in depth. However, with the information I have I cannot visualize how these proposals would work without destroying the character of the Shirley area and the destruction of our few remaining green areas.

In order for me to agree to these proposals I would not only require the assurance that these environmental issues were taken into account but the homes that are planned for were affordable to those who are in need of a home, and that they were of good quality, energy efficient homes. Finally, having lived in Shirley for many years I have seen the increase in traffic which has brought about an increase in air pollution which is detrimental to our health. This is another important factor that has to be borne in mind when increasing the density of the population of the area.

</tbody>
</table>
1. It is in a green belt area. National guidelines say that travellers/gypsy sites in the greenbelt are inappropriate development.

2. There is a long history of planning application refusals and avoidance of planning permission at Coombe Farm. The reasons for this should be re-visited.

3. The site is on a single track lane with a very narrow access onto Oaks Road which is not suitable for large mobile homes, or the additional traffic from travellers’ trucks, cars, vans and trailers as well.

4. The site has no safe walking route to schools, shops, doctors, etc. There is no pavement along Oaks Lane and very poor lighting when dark. There is only partial pavement on one side of the road along Oaks Road as well.

5. The size of the pitches would accommodate far greater number of caravans than can be controlled by planning restrictions.

6. Even if the restrictions are adhered to, there could be as many as three families on each pitch, allowing for 60 mobile homes. This would totally overwhelm the residents of Oaks Farm, Oaks Road and Oaks Lane and would not be conducive to social cohesion.

7. The proposed site is not within the required distance to both schooling and medical needs. The closest schools are oversubscribed so would be unable to meet the needs of so many new children to the area.

8. The land is in private ownership at Coombe Farm, and any funds spent on “compulsory or otherwise” purchase could surely be spent more wisely on behalf of the population of Croydon.

9. Several businesses which make a big contribution to the local economy and also provide much needed amenity to the public will be detrimentally affected by the site.
Mr John Clarke

DM43.4
502

Not in line with Government planning policy on the Green Belt Detail:
- Government planning policy with regards to traveller sites wants to ensure that plan-making and decision-taking should protect Green Belt from inappropriate development.
- The proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the Planning Policy: “Inappropriate development is harmful to the Green Belt and should not be approved, except in very special circumstances.”. There are no very special circumstances.
- The National Planning Policy Framework makes it clear that unmet housing need (including for traveller sites) is unlikely to outweigh the harm to the Green Belt and other harm to constitute the “very special circumstances” justifying inappropriate development on a site within the Green Belt.
- The local character description is clearly at odds with the proposal.
- The justification acknowledges the Green Belt issue, though insufficiently, but relies on the fact that there are existing structures. These are not in fact substantial “being glasshouses” and could be said to be at least environmentally consistent with the Green Belt. But there is no very special circumstance justification proposed as required by Planning Policies.
- Approving the proposal would set a precedent and open the surrounding areas to be subject to similar development. It is not in the community’s interests to allow the erosion of the green spaces surrounding the community and we object to the impact this site could have on the environment and wildlife.
In the light of these issues, it is not appropriate simply to weight Green Belt as one of many factors to be considered, but rather it presents an overarching policy objection that cannot be over-ridden in the way proposed. To be considered deliverable, sites should be available now, offer a suitable location for development now and we do not believe that The Assessment and selection of sites for Gypsy and Travellers undertaken was credible. Plan makers have not considered the time it will take to commence development on site need for infrastructure improvements-roads.There is basis for challenging the way in which this potential site has been selected.
Para 3.1: Green Belt sites included for review of eligible sites “to ensure that all locations for a site considered”, but at the same time...
"Exclusion of sites in Croydon Metropolitan Centre and within District Centres and Strategic Industrial Locations and Conservation Areas due to viability, deliverability and impact on heritage considerations". Is this even-handed? Para 4.1 sets out the criteria and weightings. As indicated above, Green Belt with no built form is given a weighting (-10) which, though high, is not very significant given that there are 29 or 30 criteria and can easily be outweighed by other factors that are less significant in policy terms.

SP2.7 on the Council's proposals to deliver 39 additional gypsy and traveller sites indicates that land will be allocated in accordance with the proposals, but that any ADDITIONAL sites that are not so allocated should meet some stated criteria, including good access to local shops and essential services and good transport access; these seem to be criteria that were excluded from the proposed allocation, suggesting that any alternative proposals would need to meet stiffer criteria. Is this fair and even-handed?

The bases for site criteria weightings are unclear. Note that paragraph 4.19 in referring to the need for good access to roads, states that "they often need to move larger vehicles as part of their livelihood and way of life" - this may be an assertion relevant to the assessment of sites and the narrowness of Coombe Lane.

The objections may be summarized as:

- inappropriate use of Green Belt land
- lack of relevant amenities close to hand
- adverse effect on neighboring businesses and leisure amenities
- site has a more appropriate use for a school

Mr & Mrs Chambers

Object

DM43.4 502

The proposed Traveller Sites are totally inappropriate developments for these Green Belt Areas. We strongly object to this part of the Croydon Plan.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Given what I have recently observed at an illegal Traveller occupation at the former Rioja Tapas bar just outside Shirley I object to the use of areas off Oaks Road and Conduit Lane as Traveller sites. References 502 and 661.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
We have lived in the Borough of Croydon for 30 years and value its vibrancy and diversity. As Croydon ratepayers we object to the de-designation of Metropolitan Open Land generally, especially land detailed above, which will change forever Croydon’s character.

We would ask you to encourage policies/development to:

1. Build new housing on brown field sites by all means AND preserve invaluable green space for the benefit of the community of Croydon; 2. Protect green belt land and preserve the green corridors we desperately need for the benefit of wildlife and biodiversity; 3. Amend the tall buildings policy and keep the tall building zone where it is needed in the centre of town; 4. Use brownfield sites for new low-level housing only where it can be developed alongside new GP surgeries, schools and improved public transport; 5. Traveller sites are not appropriate in the green belt and is a clear breach of Policy E of Planning Policy for Traveller Sites. When travellers camped on Addington Playing Fields in 2012/13 they left rubbish, debris, waste, and deterioration to a local green space. Sadly true of most traveller sites.

"Nowadays people know the price of everything and the value of nothing". Green Belt is vital and precious. Once lost for future generations and will not be replaced by developers.

We understand the need for housing, schools, hospitals and infrastructure. Are the Developers investing these also alongside their building investments?

Please protect our few remaining green spaces on the borough map, by making better use of brown field sites.
Mr & Mrs Wakelam

Jenny Greenland

Object

DM43.4
502

I object to the use of either of the two sites in the Shirley locations or Forestgate as gypsy/traveller sites. As the Council acknowledges, they are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

"Traveller sites (temporary or permanent) in the Green Belt are inappropriate development".

The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough they should look elsewhere (for example, off the Purley Way where the existing site is).

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Can I remind you of the definition / meaning of "GREEN BELT": The Government formerly set out its policies and principles towards green belts in England and Wales in Planning Policy Guidance Note 2: Green Belts[4] but this planning guidance was superseded by the National Planning Policy Framework (NPPF) in March 2012. Planning Authorities are strongly urged to follow the NPPF’s detailed advice when considering whether to permit additional development in the green belt. In the green belt there is a general presumption against inappropriate development, unless very special circumstances can be demonstrated to show that the benefits of the development will outweigh the harm caused to the green belt. The NPPF sets out what would constitute appropriate development in the green belt. According to the NPPF, there are five stated purposes of including land within the green belt:

• To check the unrestricted sprawl of large built-up areas
• To prevent neighbouring towns from merging into one another
• To assist in safeguarding the countryside from encroachment
• To preserve the setting and special character of historic towns
• To assist in urban regeneration, by encouraging the recycling of derelict and other urban land.

Once an area of land has been defined as green belt, the stated opportunities and benefits include:

• Providing opportunities for access to the open countryside for the urban population
• Providing opportunities for outdoor sport and outdoor recreation near urban areas
• The retention of attractive landscapes and the enhancement of landscapes, near to where people live
• Improvement of damaged and derelict land around towns
• The securing of nature conservation interests
• The retention of land in agricultural, forestry and related uses.

This is a totally preposterous proposition and I am quite frankly astonished that such a ludicrous idea has been proposed.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.

The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services.

If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Finally, the Council has identified two locations on the edge of Shirley for gypsy/traveller sites:

- Coombe Farm off Oaks Road, which is identified as suitable for 15-20 pitches (pages 449-450, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 502); and
- Coombe Lodge Nurseries off Conduit Lane, which is identified as suitable for 15-25 pitches (pages 468-469, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 661).

I vigorously object to the use of either of these locations as gypsy/traveller sites. As you have to be aware, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

“Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.

The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question – there must be more suitable sites which are closer to local amenities (there is nothing in the way of shops or even a bus-stop at these sites, necessitating extra vehicular traffic on an already busy road at best or pedestrians attempting to cross at a very dangerous point with blind bends and junctions at worst), sites which are not in Green Belt land, perhaps even sites which already exist and could be expanded (such as the one on Purley Way).

Again, I stress that I am not opposed to development as such, and applaud the efforts that the council is making to build on the work of the previous administration and improve Croydon yet further. But these proposals go too far, and in my opinion they go in the wrong direction.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Object DM43.4

Fourth, the Council has identified two locations on the edge of Shirley for gypsy/traveller sites:
- Coombe Farm off Oaks Road, which is identified as suitable for 15-20 pitches (pages 449-450, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 502);

and

I object to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". Both sites are also some distance from public services. If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Object DM43.4

We understand our local Member of Parliament, Mr Gavin Barwell, has produced a comprehensive assessment and objection to the Proposed Croydon Local Plan. We agree and support his objections.

In particular the proposed positions of the Gypsy/Travellers' encampments (Refs 502 + 661) would be in suburban residential/Green Belt areas and as such are totally unacceptable. The most suitable positioning could be near Recycling Centres and situated in commercial/factory estates where the Travellers' encampments would not impinge upon residential properties.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
It is in a green belt area. National guidelines say that travellers/gypsy sites in the greenbelt are inappropriate development. There is a long history of planning application refusals and avoidance of planning permission at Coombe Farm. The reasons for this should be re-visited.

The site is on a single track lane with a very narrow access onto Oaks Road which is not suitable for large mobile homes, or the additional traffic from travellers trucks, cars, vans and trailers as well. The site has no safe walking route to schools, shops, doctors, etc. There is no pavement along Oaks Lane and very poor lighting when dark. There is only partial pavement on one side of the road along Oaks Road as well. The size of the pitches would accommodate far greater number of caravans than can be controlled by planning restrictions. Even if the restrictions are adhered to, there could be as many as three families on each pitch allowing for 60 mobile homes. This would totally overwhelm the residents of Oaks Farm, Oaks Road and Oaks Lane and would not be conducive to social cohesion. The proposed site is not within the required distance to both schooling and medical needs. The closest schools are oversubscribed so would be unable to meet the needs of so many new children to the area. The land is in private ownership at Coombe Farm, and any funds spent on 'compulsory or otherwise' purchase could surely be spent more wisely on behalf of the population of Croydon. Several businesses which make a big contribution to the local economy and also provide much needed amenity to the public will be detrimentally affected by the site.

Change: The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Policy E of ‘Planning Policy for Traveller Sites’, published by the Government in August, states very clearly that ‘Traveller sites (temporary or permanent) in the Green Belt are inappropriate development’. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 6 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the ‘Assessment and Selection of Sites for Gypsy and Travellers’. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of ‘extensive political consultation’. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
I object to the use of the following sites as gypsy/traveller sites: Coombe Farm off Oaks Road, which is identified as suitable for 15-20 pitches (pages 449-450, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 502); and Coombe Lodge Nurseries off Conduit Lane, which is identified as suitable for 15-25 pitches (pages 468-469, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 661).

I object to the use of either of these locations as gypsy/traveller sites, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.” The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Change: The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
I would like to object to Policy DM 44 and DM 43 for proposing Gypsy and traveller sites on the Conduit Lane nursery and Coombe Farm off Oaks Road. Both sites are located on the Green Belt and clearly considered to be inappropriate development for Traveller sites (temporary or permanent) and against Government Policy. There are no very special circumstances that have been advanced by the council to allow the use of this land. It is not in the local community’s interest to erode the Green Belt and would set a worrying precedent for future planning applications. This is not deliverable on either sites and they are clearly not a suitable location for development and the council has not taken into account the time it would take to bring the plan to fruition. There is a lot of implications for the local area that don’t seem to have been taken into account: the road network is at capacity, local amenities are not ready to take an increase in demand (no space in local primary schools). The council has provided little credibility in the assessments that due diligence had been done regarding the sites; do we need an Environmental Impact Assessment to safeguard the local Coombe Gardens? How much would it cost to mitigate the impact of the sites on this local SNCI? Impact on Lloyd Park? These two sites are not sustainable in the fact that they do not seem to meet the Gypsies and travellers needs. There are not enough local amenities for this community (where are the local shops they can walk to? Where are the local doctors they can walk to? What school would the children go to?).

The proposed developments also compromise the future of the local area and are therefore not sustainable. There are an awful lot of issues that the council doesn’t seem to have taken into account when looking at both sites of Conduit Lane and Oak Farm. The sites seem to be too big for what the travellers community express preference for. The sites are too far for local amenities that they prefer to walk to. The local road network would not be safe for moving/larger vehicles. Coombe Lane is incredibly busy all day long and is too narrow to provide safe entrance and exit to larger vehicles. The visibility at the entrance and exit of the sites is not good enough to ensure there will be no accidents. The junction of Coombe Road / Oaks road and Conduit Lane is dangerous enough as it currently is.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
The council doesn't seem to have taken into account that travellers sites are generally mixed-use employment sites and does not address how commercial activities on site would be compatible with surrounding Green belt land and local SNCI. How can the council safeguard these local lands from waste materials and possible hazardous materials?
We believe that instead of both Coombe Lodge Nurseries and Coombe Farm, the Council should consider the following sites:

1. Heath Clark playing fields, Stafford Road, Waddon
2. Timebridge Community Centre, Field Way, New Addington
3. Land adjacent to 103 Goodenough Way, The Admirals Walk, Old Coulsdon
4. Wandle Road surface car park, Wandle Road, Croydon Opportunity Area
5. Land of former Croydon Airport runway, south of Imperial Way, Waddon
6. Land adjacent to Ashburton playing fields at rear of 2-88 Copley Road, Addiscombe
7. By Pavilion Playing Fields, Purley Way, Waddon
8. Land south of Threehalfpenny Woods, Kent Gate Way, Bridge Way, Addington
9. Land west of Timebridge Community Centre, Lodge Lane, Elsmore, Addington
10. Cane Hill-south part, Hollymeak Road / Portnalls Road, Coulsdon

Although a number of these following sites may be Green Belt / Metropolitan Open Land, this should not preclude them, as they could be re-designated.
- Where is the evidence that there is need for a site at these particular locations? This information has not been provided.
- When will the detailed site plans be made available? If not available at the start of the consultation period then this is surely a serious breach of government planning guidelines.

Ms M de Villiers  

Object Soundness - Consistent with National DM43.4 502  

I also object to the following policies in relation to Shirley (neighbouring area to where I live):

- Both proposed traveller sites are in the Green Belt and thus inappropriate as they are in breach on the Government Policy E, in relation to Planning Policy for Traveller Sites. They are also far from public services. I suggest the existing site on Purley way is reconsidered.

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Lee Kirby-Walker  

Object DM43.4 502  

I am writing to object to:

The use of the following locations as gypsy/traveller sites:

- Coombe Farm off Oaks Road reference number 502
- Coombe Lodge Nurseries off Conduit Lane reference number 661

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Cllr M Gatland  

Object Soundness - Consistent with National DM43.4 502  

I wish to object to the following:

The use of the following as traveller or gypsy sites Coombe Lodge Nurseries site ref 661 Coombe Farm. Site ref 502 This is inappropriate development on Greenbelt.

Change The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Sites are located on the Green Belt, considered to be inappropriate development for Traveller sites (temporary or permanent) and against Government Policy ("Planning policy for traveller sites", DCLG, August 2015): the proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the Planning Policy. Inappropriate development, harmful to the Green Belt, should only be approved in very special circumstances. There are no very special circumstances that have been, or can be, advanced to allow the use of this land (The National Planning Policy Framework makes it clear that unmet housing need (including for traveller sites) does NOT constitute exceptional circumstance).

Inappropriate development is clearly harmful to the Green Belt. It is not in the surrounding community's interest for the Green Belt to be eroded - approving this application would also set a precedent and open the surrounding areas to be subject to similar planning applications. Negative impact on the local environment and wildlife. Inappropriate to simply weight Green Belt as one of many factors to be considered in the assessment process, rather it presents a policy objection that cannot be over-ridden in the way proposed.

To be considered deliverable, sites should be available now, and offer a suitable location for development now. The site is clearly not a suitable location for development. Plan makers have not considered the time it will take to commence development on site. Need for infrastructure improvements (roads), need for local amenities improvement (primary school, doctor)

Plan makers have not considered the time and necessity to show due diligence in assessing the sites: need for an Environmental Impact Assessment (this would be a schedule 2 development having significant effects on the environment and needing an EIA), need for a Local Biodiversity Action plan to determine the sensitivity of the location. Plan makers have not ensured that the process has credibility and acceptance: the bases for site criteria weightings are unclear. Plan makers will need to provide robust, up to date evidence to support the deliverability of sites, ensuring that their judgements on Sustainable development is development that meets the needs of the present, without compromising the ability of future generations to meet their own needs.

The proposed development does not meet the needs of the present: Gypsies and Travellers needs are not addressed: not enough local amenities, sites are too big, unfit local roads.

Government planning policy is to ensure local planning authorities have due regard to the protection of local amenities and the local environment. It is likely the proposals will have an adverse effect on local businesses. Coombe Wood is a Site of Nature Conservation Interest (SNCI) (List of Historical Park and Gardens 2008) and borders the proposed Coombe Lodge Nurseries site, and would be negatively impacted by the plans. Croydon Council has already recognised this in its Development Management Policies document.

The Borough Character Appraisal of 2015, the local area is listed as having special character. The proposed development is not sensitive to, and does not respect, this.

The site is not deliverable. The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsies and Travellers would now be difficult it will no longer be considered for this use.
deliverability are clearly and transparently set out. Plan makers have not taken the cost and time needed to mitigate the impact of the development on the sites. Croydon Council has already recognised in its Development Management Policies document that the Site of Nature Conservation Interest (SNCI) which borders the Coombe Lodge Nurseries Site, Coombe Wood (List of Historical Park and Gardens 2008) would be negatively impacted by the proposed development.

Having read both local plans for the Shirley area, I strongly object to all aspects in both plans, this includes the 750 new homes on Shirley Oaks Village, 35 new homes in Shrublands, the two gypsy sites at Combe Fram and Conduit Nursery and the development for up the four storeys along Wickham Road.

None of these plans will benefit Shirley and I object to them all.

I have considered details of the proposed Croydon Local Plan and have the following objections on the basis that they will: detract from the local areas, dramatically change the character of local areas, have a significant adverse effect on an already overloaded infrastructure, including roads, public transport, public open space, environment and emergency, health and support services.

5. I object to the three proposed provision of Traveller sites at Conduit Lane, Coombe Farm and Featherbed Lane.

I object to the use of the site for gypsy and traveller accommodation.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
We understand that there are plans to change the designation of areas of Green Belt and Metropolitan Open Land - in particular two areas identified as locations for gypsy/traveller sites at Coombe Farm and Coombe Lodge Nurseries off Conduit Lane. Such plans would fundamentally change the character of the area for the worse.

We wish to register our objections to these plans since the proposals are contrary to Government policy (Policy E of Planning Policy for Traveller sites) which states that ‘Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.’

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

I object to the use of the site for gypsy and traveller accommodation.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Summary:
Not in line with Government planning policy regarding the use of Green Belt land.

Detail:
• Government planning policy with regards to traveller sites wants to ensure that plan-making and decision-taking should protect the Green Belt from inappropriate development.

• The proposal to create a permanent traveller site on land designated as Green Belt land is contrary to Policy E of the Planning Policy: "Inappropriate development is harmful to the Green Belt and should not be approved, except in very special circumstances." There are no very special circumstances.

• The National Planning Policy Framework makes it clear that unmet housing need (including for traveller sites) is unlikely to outweigh the harm to the Green Belt and other harm to constitute the "very special circumstances" justifying inappropriate development on a site within the Green Belt.

• The local character description is clearly at odds with the proposal.

• The justification acknowledges the Green Belt issue, though insufficiently, but relies on the fact that there are existing structures. These are not in fact substantial – being glasshouses – and could be said to be at least environmentally consistent with the Green Belt. But there is no very special circumstance justification proposed as required by Planning Policies.

• Approving the proposal would set a precedent and open the surrounding areas to be subject to similar development. It is not in the community’s interests to allow the erosion of the green spaces surrounding the community and we object to the impact this site could have on the environment and wildlife.

In the light of these issues, it is not appropriate simply to weight Green Belt as one of many factors to be considered, but rather it presents an overarching policy objection that cannot be over-ridden in the way proposed.

The decision making process is contrary to Government guidance.

To be considered deliverable, sites should be available now, offer a suitable location for development now.

Change
The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
and we do not believe that the Assessment and selection of sites for Gypsy and Travellers undertaken was credible.

Plan makers have not considered the time it will take to commence development on site need for infrastructure improvements – roads
There is a basis for challenging the way in which this potential site has been selected.
1 Para 3.1 – Green Belt sites included for review of eligible sites “to ensure that all locations for a site considered”, but at the same time “Exclusion of sites in Croydon Metropolitan Centre and within District Centres and Strategic Industrial Locations and Conservation Areas due to viability, deliverability and impact on heritage considerations”. Is this even-handed?

4 Para 4.1 sets out the criteria and weightings. As indicated above, Green Belt with no built form is given a weighting (-10) which, though high, is not very significant given that there are 29 or 30 criteria and can easily be outweighed by other factors that are less significant in policy terms. Furthermore, Coombe farm has been weighted -5 for Green Belt, in recognition of the fact that there are some structures on the site, AND has been given 5 for the fact that (in the assessor’s view) such structures as there are can be converted to traveller use (if the buildings had to be demolished, on a green field site, this would have attracted -5).

1 SP2.7 on the Council’s proposals to deliver 39 additional gypsy and traveller sites indicates that land will be allocated in accordance with the proposals, but that any ADDITIONAL sites that are not so allocated should meet some stated criteria, including good access to local shops and essential services and good transport access; these seem to be criteria that were excluded from the proposed allocation, suggesting that any alternative proposals would need to meet stiffer criteria. Is this fair and even-handed?

2 The bases for site criteria weightings are unclear.

Inadequate Road Access which is an issue made particularly acute because of the current traffic issues in the area

10.14 Based on survey responses, most Gypsies and Travellers living in the Croydon area would prefer small,
family sized sites. Stakeholder comments suggested that smaller sites have fewer inter-family tensions and are therefore easier to manage.

10.18 The settled community neighbouring the sites should also be involved in the consultation from an early stage. There may be scope for expanding existing sites to meet some of the need. However, the preference is for smaller sites which tend to be easier to manage.

10.19 In terms of identifying broad locations for new sites, there are a number of factors which could be considered including:

- Social
- School catchment areas

10.21 Gypsies and Travellers undertaking the survey also suggested that it is important that new sites are located close to amenities such as shops, schools and health facilities – the current proposal does not meet the needs identified by this criteria.

10.22 CLG (2012) guidance suggests that Local planning authorities should strictly limit new traveller site development in open countryside that is away from existing settlements.

The Croydon Local Plan Note that paragraph 4.19 in referring to the need for good access to roads, states that “they often need to move larger vehicles as part of their livelihood and way of life” – this may be an assertion relevant to the assessment of sites and the narrowness of Coombe farm.

mixed-use employment sites restrict commercial activities on site.

Use of public transport amongst Gypsies and Travellers has been noted to be low, by providing sites in more accessible locations.

Pressure on public services, local school and medical facilities

other needs of Gypsies/Travellers are not met. particular concerns for the disabled and elderly, young people. A recent study states that: There is a greater incidence of ill-health amongst Gypsies and Travellers adequate services would not be are provided for Gypsies/Travellers. It is widely recognised by government sources that literacy can be an issue within the Gypsy/Traveller community, - extra pressure on local schools who are over-subscribed as it is
Some evidence of periodic overcrowding on site – year round and at peak in winter months - Scotland

gypsy-traveller.org - The best type of land is a ‘brown field’ site. The site should be close to local amenities. It is very important that the site has a safe entrance and exit. There are very strict Highway regulations about visibility at the entrance/exit to sites to ensure there is no danger of accidents and this is very important.

The objections may be summarized as:
- inappropriate use of Green Belt land
- lack of relevant amenities close to hand
- adverse effect on neighbouring businesses and leisure amenities
- site has a more appropriate use for a school
- critical increase in traffic harming the local area
- proposed site does not meet the criteria as set down in the guidance

I object in the strongest possible way to the plans outlined for this development in my local area, Shirley and Addiscombe. In particular, I understand the Council has identified two locations on the edge of Shirley for gypsy/traveller sites:

- Coombe Farm off Oaks Road, which is identified as suitable for 15-20 pitches (pages 449-450, Changes to the Policies Map arising from proposals contained within the Croydon Local Plan: Strategic Policies Partial Review and the Croydon Local Plan: Detailed Policies & Proposals, reference number 502);

I object to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

“Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.

The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services. If the Council really needs to quadruple the number of gypsy/traveller sites in the borough, I think they should look elsewhere (for example, off the Purley Way where the existing site is).

DM43.4

502

It is a green belt area. National guidelines say that travellers sites in the greenbelt are inappropriate development. Even if the properties are demolished to provide for the pitches there will still be a large spill over into the Green Belt. This means that planning permission should not be available. The site is on a single-track lane with a very narrow access onto Oaks Road that the large mobile homes will not be able to access. The lane is also used by aggregate lorries (shorter than mobile homes), local residents, members of the sports ground and opposing teams and visitors to Lloyd Park, a much loved public amenity. The site has no safe walking route to schools, shops, doctors etc. There is no pavement along Oaks Lane and very poor lighting when dark. There is only partial pavement on one side of the road along Oaks Road. How will it be possible to safeguard so many additional people including a great number of children? This development is unsustainable, as everyone will have to use cars to access the basic of life. The size of the pitches would accommodate a far greater number of caravans than can be controlled by planning restrictions. Even if the restrictions are adhered to there could be as many as three families on each pitch. With planning for 20 pitches this would mean 60 families and 60 mobile homes, not to mention additional caravans in two, trucks, vans, trailer and cars.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

We wish to object to the proposal to establish traveller sites at Coombe Lodge Nurseries (site ref no. 661) and Coombe Farm (site reference 502).

Such use of these sites would, we feel, be inappropriate in the Green Belt, and contrary to Policy SP2.7a and SP2.7b, and not consistent with Policy E of the Government's "Planning Policy for Traveller Sites".

The road hazards that would be associated with such use would require additional expenditure by the Council to resolve.
The sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b. Furthermore, Policy E of ‘Planning Policy for Traveller Sites’, published by the Government in August, states very clearly that ‘Traveller sites (temporary or permanent) in the Green Belt are inappropriate development’. The provision relating to travellers/gypsies in the Housing and Planning Bill will also remove sections 225 and 226 of the Housing Act 2004 which placed a duty on housing authorities to carry out an assessment of the accommodation needs of this group when reviewing housing conditions and needs within their areas (a process required by section 8 of the Housing Act 1985). Section 8 will also be amended to make it clear that the duty covers consideration of the needs of people residing in, or resorting to the district for, caravan sites and houseboat mooring sites.

I am also concerned by the evidence base for these selections, namely the ‘Assessment and Selection of Sites for Gypsy and Travellers’. This assessment contains a vast number of very subjective criteria against which to judge site suitability and has been the subject of ‘extensive political consultation’. This political consultation has only taken place with the Labour Administration and has not been conducted on a cross party basis. This begs the question as to what undue political influence may have been placed on the particular criteria which have been used and indeed the selection of the preferred sites. There is also some question as to why the same scoring system has not been used for each set of criteria, rather than subjectively giving weight to certain criteria. Furthermore, the scoring for individual sites has not been carried out in accordance with the table shown at 4.1. A number of sites have been marked incorrectly, for example, site 661 has been scored at 5 for Greenbelt/MOL, when the score should be -5. This begs the question as to how many other inaccuracies are in the document.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

<tr>
<td>DM43.4 502</td>
<td>I object to the use of the following locations as gypsy/traveller site on Coombe Farm off Oaks Road Ref 502.</td>
</tr>
</tbody>
</table>

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
1. Central Government is currently reviewing the approach to providing gypsy/traveller sites and so any proposals in the local plan should be subject to future government guidance.

2. Both sites are in the Green Belt and are contrary to Government policy which says that temporary or permanent gypsy/traveller sites in the Green Belt are inappropriate development.

3. Gypsy/traveller sites in both locations are completely out of character with the immediate surroundings - parkland, private schools, hotel, playing fields, golf course, middle/high value housing.

4. Access to public transport is poor - no buses and 15 minutes to the nearest tram stop.

5. Local doctors are difficult to get into.

6. There are no government schools nearby.

7. There are no shops within reasonable distance - closest are in Croydon town centre.

8. The evaluation system used to select the two sites is highly questionable and relies on LBCC views of the relative importance of each criteria and then the points given. This form of weighted scoring is useful in giving guidance but not in delivering precise conclusions. It appears as if the wishes of the gypsy/travellers have been given more importance than those of local people. It would be interesting to see which sites were selected if more weight had been given to local interests and therefore how robust the evaluation system is to changes in how the criteria are viewed and scored.

9. Both sites will inevitably have a negative impact on property values.

10. Both sites pose a perceived increased security risk in the area.

11. Re site 661 the local plan in its justification says "the gypsy and traveller site will provide no greater impact on the openness of the Green Belt and the purposes of the Green Belt than the existing buildings". Impact does not only apply to the visual impact. Even on this narrow criteria it is hard to envisage the development from gypsy/traveller sites having a similar impact as the existing use which is periodic during the day and very much related to nature. Using the site for gypsy/travellers would mean a much higher overall impact on the local area - regular access, high activity, and a use out of character with the surrounding area, particularly the Site of Nature Conservation Interest.

12. Re site 502 the comment re "no greater impact" also applies.

<td>Ms L Chatfield</td>
<td>I am writing my objections development on the following sites as a resident as well as in my capacity as Warden of Croydon Ecology Centre. The sites are in areas that are essential foraging grounds for wildlife, including badgers, which are a protected species. I believe that they are also all on Green Belt Land. I realise that local authorities are being given new powers that allows them to build on parts of Green Belt Land, but I sincerely believe that this will be a terrible mistake, for which future generations will not thank us. These sites are also part of one of the very few large stretches of open green spaces so close to the centre of Croydon, which makes an huge difference to the air quality in our town and to the visual aspect thereof. There is ample evidence to prove that these green urban spaces are essential for the mental well-being of crowded cities. All the open green spaces are there for the benefit of all Croydon's residents and those visiting our Borough, by building on them you are taking away this right from people all over the Borough. Please think again and make use of brown field sites instead. By using brown field sites you have the opportunity improve those sites with well planned and laid out housing and amenities.</td>
<td></td>
<td></td>

Change: The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
The site does have existing brick buildings including the grade listed Coombe Farmhouse. The proposed volume of 15 - 20 pitches, each individual pitch requiring a sizeable plot to accommodate a mobile home / touring caravan, a utility brick building and ample space for parking cars / vans. This would mean the proposed planning would exceed the current built on area and therefore, the Green Belt land would be lost. The Coombe Farmhouse is also noted in many historical books of Croydon. It is my understanding that the current owner has lodged numerous planning applications over the years which had been denied by the Council. Please can the Council clearly describe why they are now prepared to change the use of land for the gain of fulfilling their Traveller / Gypsy site quota? The site is also currently privately owned. In order for the Council to proceed with their plans they will need to purchase the site. I challenge this use of Croydon’s finance budget as, with all compulsory purchases; the Council should review the return of the investment on any such cost for the benefit of their tax paying community. Increase risk and detrimental impact to the local wildlife such as deer, badgers, newts, toads, hedgehogs, numerous bird life including woodpeckers, owls, herons etc. The range of flora and fauna including protected trees such as the large Oaks all of which form the beautiful unique Addington Hills Public Open Space and adjoining Green Belt area. The site is also situated near open land which has previously been victim to unauthorised Traveller and Gypsy encampments. A thorough review and statement regarding how the Council and Police propose to exercise control over any additional families encamping on unauthorised land surrounding the site must be produced. Through past experience it has been a difficult and lengthy process for the Police, Council and Local Residents. The general public have been denied safe access to public open land or intimidated when using the Tram or Bus stop during these encampment periods. The Council have to pay the Legal and Policing costs of the unauthorised encampment removal, the environmental cost to clean up the rubbish, the consideration of the impact to wildlife and the continued safety of the public to relax and enjoy the open countryside and public services. This site proposes a detrimental impact to local business.
revenue. This was proven during the periods of unauthorised encampments. Oaks Farm is an established countryside wedding venue situated next door to Coombe Farm. The local cafe and gardens have been enjoyed by local families together with some of the long established dining destinations in Croydon. The golf course next to Coombe Farm has also dealt with complaints of aggressive behaviour towards their junior members from unauthorised encampment dwellers so building trust and integration is an important consideration especially due to low levels of the Local Residential population. National guidelines state “that the site should not overwhelm the next nearest settlement”. The proposals clearly would overwhelm the entirety of the settled area and is, therefore, in breach of the guidelines. It is worth noting all the affected businesses rely and up-sell their countryside location as a key benefit to their business and service delivery. Increased traffic at the dangerous junction joining Oaks road and Conduit Lane onto Coombe Road the safety risk is further increased due to the Tram track / crossings situated yards from the junction. The suitability of this site access is limited via the single track road which would require reconfiguration for access to the site due to the type of vehicles used by the Traveller and Gypsy communities. The track road would also require additional lighting for safety of the site residents. Although the Traveller and Gypsy community are against CCTV coverage, the existing cameras on this road must be kept in place due to Croydon’s fly tipping issues. It is also worth noting the lack of immediate access to schools and Doctors surgeries are over a 20 minute walk which is too far in accordance to government guidelines. Coombe Farm should have been excluded due to its Green Belt status and recent planning applications by the current owner. I understand the pressure Croydon Council is under ensuring the regeneration programme goes to plan and budget. I also understand the need to fairly accommodate all communities within the town. However, to me the Councils plans are flawed and serve no good outcome for any party involved.

1. The two site locations are not ideal for the: Traveller / Gypsy Community, Local Residents or Local Businesses and also has a detrimental affect on the wildlife and breaks the policy of the protected green spaces.

2. It will fulfill the Croydon Councils target but if the outcome does not
satisfy any of the groups then the Council have failed in their duty.

3. Traveller sites are recommended to remain for a minimum of 10 years. Due to the increased risks and the close location of the two sites has the Council factored in the on-going additional legal, environmental and policing costs?

4. Coombe Farm's recent planning applicants have not been permitted, is this due to the potential compulsory Council purchase? If the Council do buy this land is it their ultimate objective to sell the land for a housing development? This brings me to question if the wildlife and countryside have to suffer due to the growing human population. Then the best use of purchasing Coombe Farm would be to covert the existing built-on land into a small housing development as part of the Council's housing quota, retaining the Listed Farmhouse. This proposal would provide social and private occupation in a sort after location. Certain risks raised above would still be applicable but a number would be resolved, mainly the Council's housing target and provision of a very good revenue return on the taxpayer investment.
This proposed site is in a green belt area, and national guidelines state that traveller/gypsy sites are an inappropriate development in the green belt. Even if existing properties are demolished to provide the pitches the site would still encroach on green belt land.

The site has no safe walking route to, and is not within a reasonable distance of schools, medical facilities, shops etc. and there does not appear to be any specific plans to increase the numbers of these amenities, nor is there the space to create such amenities in the local area. Oaks Road only has partial footpaths and increased pedestrian use without footpaths will undoubtedly lead to increased chances of road traffic incidents.

The plan is for 20 pitches but the size of the plot could accommodate three times as many unplanned, unauthorised pitches and planning restrictions would not be able to “police” this.

National guidelines also state that such sites should not overwhelm the next nearest settlement. Residents in Oaks Farm, Oaks Road and Oaks Lane will almost certainly be overwhelmed.

We understand that the Council has historically refused countless planning applications. At Coombe Farm yet seems keen to approve this one, the reasons for the refusals need to be addressed if this is accurate.

We feel that the adjacent businesses would be adversely affected by the introduction of this site.

The Council has spent, would assume, hundreds of thousands of pounds both removing unauthorised travellers and clearing the remaining detritus for many years at this and other areas such as the Sunken Road, yet now seems to feel it appropriate to create permanent pitches in the same locations. On a personal note the only time that we have felt intimidated or abused is by travellers illegally pitched in the Sunken Road, what measures and what costs are involved to Croydon Council Tax payers for the inevitable additional policing and refuse removal?

Adjacent to both of these sites are a beautiful landscaped park and an
area of outstanding beauty, home to many species of wildlife with unparalleled open green spaces sorely lacking in other parts of South East London.

We understand that there is an existing travellers site in the Purley Way that is underused and feel that the energy would be better expended in improving the facilities at this site, which is far better suited for public transport etc.

We strongly object to the plans for a permanent travellers site at both of the above locations for the reasons given.

3933/01/01/DM43.4/O Mr & Mrs Thacker

Object | Coombe Farm off Oaks Road reference number 502.
        | As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". The Council’s approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). I wish to appeal against the proposed Traveller Sites in Coombe Farm, off Oaks Road, and Coombe Lodge Nurseries off Conduit Lane.

As a resident of Oaks Road for over 20 years, I find this proposal extremely poorly planned. This is a Green Belt area, of which I believe building is not permitted. Also, an area of Nature Conservation Interest.

We have had the misfortune several times over the years, of travellers stopping in this area. We have had to put up with noise, litter, and general bad behaviour, including theft from our property. Since Labour have come into power at the council, the litter collection has been severely depleted, leaving our beautiful road a mess. I fear the unwanted traveller sites would only make things worse.

Has anyone checked that the entrance to the site from Oaks Road is extremely narrow, and NOT suitable for large caravans to enter or leave?

Also, the transport links from that area are poor. I suggest this is political, as the sites chosen are in a Conservative held part of the borough.

Please look again at your proposals, and not attempt to damage one of the few remaining green and pleasant parts of this borough.
The site is in a Green Belt area. Traveller/gypsy site are inappropriate in Green Belt areas as per national guidelines. Even in properties there will still be a large overspill in the surrounding Green belt area. The proposed site is off Oaks Road where access is via a very narrow lane. The lane is used by local residents, members of the sports ground and supporting teams and visitors to Lloyds park where the venue is used for charity events. Large mobile homes will not be able to access the site with ease. There is no safe walking route from the site to schools shops, Doctors surgery etc. due to lack of paving along Oaks road. The pavement is only there further up the road. The route is very busy during peak times and any development of this nature will add greatly to the congestion on Oaks road and Coombe lane. The site of the pitch will accommodate a greater number of caravans the controlled by planning restrictions. I feel the restriction will not be adhered to and if they were there would be three families per pitch and with planning for 20 pitches 60 families and additional vans, cars, trucks, trailers. National guidelines state that the site should not overwhelm the nearest settlement. The residents of Oaks Farm, Oaks Road and Oaks lane (all in isolated positions) would certainly be overwhelmed. How will cohesion be achieved with the local residents? I am in the vicinity of Oaks road and I am concerned about conflict between different Travellers. There is a long history of planning refusals and avoidance of planning permission at Coombe Farm. These reasons should be re-visited. The history of unauthorised pitches in neighbouring areas has left bitter resentment as there is a residual mess and threatening behaviour that has accompanied their trespass. I have a retail business in another area and whenever travellers come in they are a degree of pilferage and I can’t see this being any different. There would also be a big worry when pupils go to school and is the council going to take responsibility in case of a confrontation and thing getting out of hand. The proposed site is not within required distance for schooling and medical needs therefore I object on that basis. The land is in Private ownership at Coombe farm and any funds spent on “compulsory or otherwise” should be spent more wisely for the population of Croydon.
We are writing to object to:

1. The use of the following locations as gypsy and traveller sites:

   Coombe Farm Site, ref. 502

   This would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b:

   Policy E of “Planning Policy for Traveller Sites”, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”

   The site is on a single track lane with a very narrow access onto Oak Road which the large mobile homes will not be able to access. The lane is also used by local residents, members of the sports ground and visitors to Lloyd Park, a much loved public amenity.

   The site has no safe walking route to schools, shops, doctors etc. There is no pavement along Oaks Lane and vary poor lighting when dark. There is only a partial pavement on one side of the road along Oaks Road as well. How will it be possible to safeguard so many additional people including a great number of children?

   The size of the pitches would accommodate a far greater number of caravans than can be controlled by planning restrictions. Even if the restrictions area adhered to, there could be as many as three families in each pitch. With planning for 20 pitches, this would mean 60 families and 60 mobile homes, if not more.

   National guidelines state that the site should not overwhelm the next nearest settlement. The residents would certainly be overwhelmed. Also, how will social cohesion be achieved with local residents?

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
### Mr N Robinson

Object Soundness - Justified  
DM43.4 502

I have received an e-mail from Steve Murphy regarding the proposed traveller's site close to Shirley Park Golf Club. As a member of the club for 31 years I have seen the rubbish and general mayhem the travellers cause. In the last few years they got into our course and we had children running over the greens and stealing flags. When they left the rubbish was terrible.

Whilst I appreciate they will be on a site you propose, you will not have the manpower to stop the travellers from entering our club grounds and doing anything they want to do.

Perhaps you would like to live near them and see what it is like, just look at the bottom of West Wickham High Street as a good example.

Therefore I am greatly opposed to them being anywhere in the vicinity of Shirley Park Golf Club.

### Ms S Ikpa

Object  
DM43.4 502

I am a Croydon resident and am writing to object to the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference number 661, policy number DM44: and Coombe Farm off Oaks Road, site reference number 502, policy number DM43 Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane, site reference number 755, policy number DM32. All three sites are in the Green Belt, with one bordering a site of Nature Conservation. The proposed use of each of these sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP3.7b and would not be consistent with Policy E of ‘Planning Policy for Traveller Sites’ published by the Government. If additional sites are required in the Borough it would more appropriate to expand existing sites eg the site off the Purley Way. In addition none of the sites has easy access to local school, healthcare, retail and other amenities; the vehicular access into sites 661 and 502 is problematic and egress onto Coombe Lane/Oaks Road at the road junction is likely to create additional road hazards.

I am formally objecting to:

3. the use of the following locations as gypsy / traveller sights:
   Coombe Farm off Oaks Road REFERENCE NUMBER 502;
   Coombe Lodge Nurseries off Conduit Lane REFERENCE NUMBER 661; and
   Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane REFERENCE NUMBER 755;

As the Council acknowledges all three of these sites are in the Green Belt and one of them borders on a Site of Nature Conservation Interest. Policy E of "Planning Policy for Traveller Sites", published by the Government in August says very clearly

"Traveller Sites
(temporary or permanent) in the Green Belt are inappropriate Development"

The Council’s approach is clearly in breach of the policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Healthfield ward, one just over the border in Croham). Why has Healthfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy / traveller sites in the borough – which I would question - they should look elsewhere (for example off the Purley Way where the existing site is).

---

We are writing to object to the following sites for housing and traveller sites.
(502)
Happy for the Council to replace under-used garages with much-needed homes, but will be objecting to building on precious open space.

Objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

Traveller sites (temporary or permanent) in the Green Belt are inappropriate development.

The Council’s approach is clearly in breach of that policy. Both sites are also some distance from public services.

If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is).

---

Object Conduit Lane and Coombe Farm sites are on greenbelt land. Government policy states "Traveller sites temporary or permanent in the Greenbelt are inappropriate developments".

As well as damaging the local environment, there are not sufficient local amenities to cope with two traveller sites in close proximity.

---

Object I would like to object to use of the following sites; Coombe Lodge Nurseries, site reference 661 Coombe Farm site reference 602. Both these sites are Green Belt. Also the whole character of the area would change. The doctors surgeries are already overcrowded as are dentists and hospitals. The schools in the area are at bursting point. I use the trams and they are also overcrowded especially during the rush hour.

If the Green belt site is de designated this could be the start of many more. There are other sites in Croydon that are not Green Belt. Why can't existing sites be expanded?

I hope you take my views into consideration as everybody that I know in the area is of the same view.

Yours faithfully,
Ms R Magee

Objective: Proposed Gypsy/Traveller sites proposed for Addiscombe and East Croydon, Addington, Forresdale and Shirley - This sounds like a dreadful idea. I strongly object to the above proposal – This is a dreadful idea and surely anyone with any love or concern for Croydon would also object strongly.

Mr R Appadu

Objective: Soundness - Justified

I would like to lodge my objection to the use of this location as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest.

Mr & Mrs Smith

Objective: I wish to object to the proposed 'Permanent Gypsy & Traveller sites in: Coombe lodge nurseries, conduit lane, coombe road, south Croydon – ref 661 & Coombe farm, oaks road, Shirley – ref 502

My main reasons for objecting are that this land is Green belt and we only recently moved to our home in this area due to the fact that we did have this open land, of which at least the green belt we had been lead to believe was 'protected' from development of or for other uses such as permanent homes or structures. I strongly believe that the proposals would be an inappropriate use of Green Belt land and would also actually be against the government’s policy for Traveller sites, DCLG aug 2015. I believe any site proposal should look instead at Brownfield or industrial land.

Alternatively, I feel it is much more logical to expand existing permanent Gypsy sites in Lanthams Way off Beddington Farm Road. Other alternatives which would in our view be much more appropriate use of land would be: the land of the former Croydon Airport runway south of Imperial Way, Waddon ref 536 or Cane Hill-south part, Hollymeak Road/Portnalls Road Coulsdon ref 767.

Ms S Bailey

Object: DM43.4

I register an objection to both of these proposals on the following grounds. Both are acknowledged to be in the Green Belt and the proposal is contrary to Policy E of Planning Policy for Traveller Sites which was published by the government in August 2015, which says "Traveller sites (temporary or permanent) in the Green Belt are inappropriate development". One of the sites adjoins a Site of Nature Conservation Interest, which would suffer detrimentally as a result of this proposed development and the impact on such a site should be a criterion when assessing potential locations. A lack of suitable criteria, not to have an unacceptable adverse impact on biodiversity, have been used when looking at potential locations which has resulted in the rather perverse selection of two sites in the Green Belt. It seems turning green belt into a gypsy / traveller site can only have an impact on biodiversity. Additional criteria should also be utilised, including:

- Not in the Green Belt.
- Does not impact upon important open spaces such as a Sites of Nature Conservation Interest / Areas of Outstanding Natural Beauty / SSSI's or other protected locations.
- Residential properties or other recreational areas, such as parks and gardens, will not be impacted by the "setting" of gypsy / traveller sites.
- Existing services (water, sewerage, highways) and other public services are already in place and easy to access.

Suitable alternatives have not been considered. Even a cursory drive around the area of the existing gypsy / traveller site will reveal much more suitable locations in close proximity to existing facilities.

Change: The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Mr S Dhanda

Object: Soundness - Justified

The use of land to provide pitches at Coombe Farm, Oaks Road or Coombe Lodge Nurseries, Conduit Lane is entirely out of keeping with the character of those areas. Why ruin such beautiful areas so close to central Croydon for future generations? Once gone, that land will be gone forever. We should treasure areas such as these and put them to a much more appropriate use in keeping with the use of similar surrounding land. Housing/Residential/Pitches are not good uses of this land.

The only real alternative if there has to be one is at Pear Tree Farm, Featherbed Lane where there already exists a large scale housing development and appropriate facilities including schools, transport and infrastructure nearby.

Change: The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

<tr>
<td>4029/01/002/DM43.4/O</td>
<td>Mr Islam Hameed</td>
<td>SP2.7 makes no mention of impact on the surroundings of the site and nearby residents. Accordingly, an additional criterion should be added 'Must be entirely acceptable in relation to its impact on nearby public spaces and residents and businesses in the area.' If this were included the proposals Ref 502, Coombe Farm, and Ref 661, Coombe Lodge Nurseries, would immediately be seen to be inappropriate. Coombe Lodge Nursery is by the lovely gardens of Coombe Wood with its popular tea room and wooded area. Coombe Farm is green belt land in Lloyd Park, left to the people of Croydon by the Lloyd family and where families enjoy the open space, kids play in the play area, joggers, dog walkers and of other walkers exercise, spots are played, families snack in the café and everyone feels reasonably safe&quot;</td>
<td>The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.</td>
</tr>
</tbody>
</table>
As a resident in the area, I am writing to object to the use of the following locations as gypsy and traveller sites:

a) Coombe Lodge Nurseries off Conduit Lane, site reference 661
b) Coombe Farm off Oaks Road, site reference 502

each site would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7A and SP2.7B;

The de-designation of: Croham Hurst as Green Belt, despite being a biological Site of Special Scientific Interest (SSSI) and a site of Metropolitan Importance for Nature Conservation; Coombe Road Playing Fields as Green Belt, site reference 662; as the de-designation of both sites would not comply with Policy SP7.2 and protection of the green grid.

These proposals are clearly harmful for the Green Belt and would have a negative impact on the environment and wildlife in Coombe Wood, Shirley Hills and Lloyd Park. It would create a precedent for further erosion of our valuable local amenity. Coombe Road and Coombe Lane are already very busy roads and one of the main arteries into the town centre. The additional traffic emanating from these two sites, without significant road improvements, would exacerbate the traffic congestion, not to mention the additional pressure on the already stretched local services such as schooling and general practitioners. The access roads to these proposed sites are clearly unsuitable for the larger vehicles that this community use as part of their livelihood and way of life. The junctions at Coombe Road, Oaks Road and Conduit Lane are already dangerous for vehicles and this area has the potential with this proposal to become a major accident black spot without significant very costly improvements to the local road network.

Change

The site is in private ownership and the landowners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Ms S Wheeler-Kiley
Object Soundness - Justified DM43.4 502

Happy for the Council to replace under-used garages with much-needed homes, but will be objecting to building on precious open space.

Objecting to the use of either of these locations as gypsy/traveller sites. As the Council acknowledges, they are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Ms S Rhys-Davies
Object DM43.4 502

Reasons for objecting:
1) It will be detrimental to the amenities of adjoining owners
2) It is an inappropriate use of Green Belt land
3) Sites that are located on the Green Belt are considered to be inappropriate development for Traveller sites (temporary or permanent) and are against government policy (Planning policy for Traveller Sites, DCLG August 2015)
4) There are a lack of appropriate amenities close at hand
5) There is insufficient local infrastructure to accommodate the plans
6) Selection of proposed sites should have a bias towards brownfield or industrial land, not Green Belt
7) the existing permanent site in Lathams Way off Bedding Farm Road could be expanded

Alternative suggestions for sites:
632, Land south of Threehalfpenny Woods, Kent Gate Way, Bridle Way, Addington

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Ms S Rhys-Davies

**Object Reasons for objecting:**
1) It will be detrimental to the amenities of adjoining owners
2) It is an inappropriate use of Green Belt land
3) Sites that are located on the Green Belt are considered to be inappropriate development for Traveller sites (temporary or permanent) and are against government policy (Planning policy for Traveller Sites, DCLG August 2015)
4) There are a lack of appropriate amenities close at hand
5) There is insufficient local infrastructure to accommodate the plans
6) Selection of proposed sites should have a bias towards brownfield or industrial land, not Green Belt
7) The existing permanent site in Lathams Way off Bedding Farm Road could be expanded

**Alternative suggestions for sites:**
Site reference no: 502: Coombe Farm, Oaks Road, Shirley, CR0 5HL

**Change**
The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

Ms S Rhys-Davies

**Object Reasons for objecting:**

Mr S Maniar

**Object**
I object as it would be: 1) Detrimental to the amenities of adjoining owners, 2) Insufficient local infrastructure to accommodate the plan, 3) Inappropriate use of green belt land.

**Alternatives suggested sites:**
1) S36: Land of Former Croydon Airport runway, South of Imperial Way, Waddon
2) T57: Cane Hill, south part, Hollymoor Road, Portnalls Road, Coulston.

**Change**
The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
I would like to register my strong objection to the Council’s proposals for the consideration of Coombe Farm and Coombe Lodge Nurseries as gypsy/traveller as stated in the above documents and reference numbers. The sites are both in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. The Council’s proposals would be in breach of that policy. In addition to this policy breach, these sites are surrounded by parks which are regularly enjoyed by many local residents (including myself) for their natural beauty and relaxing environments. Their positive contributions to our well-being cannot be underestimated and will be significantly impacted by your proposals.

It is therefore hard to imagine why such sites have even been considered at all, or in preference to other sites in the Council’s document ‘Assessment and selection of sites for Gypsy and Travellers August 2015’. The scoring method applied is rather confusing. For example, the GB/MOL criteria in the table in section 4.1 has the possible scores of -10, -5 or +10, yet the two references above have been given a GB/MOL score of 5, which is detrimental to their overall score. I would be grateful if the Council could reconsider its plans. Please explain regarding the issues raised around the above objections.

Change

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
I am grateful to the Council for consulting on the detailed policies and proposals that will make up the Croydon Local Plan. There is much in the document that I agree with, but some of the proposals would, in my opinion, change the character of parts of Croydon very much for the worse. I hope you will forgive me if I focus on these areas of contention. I am therefore writing to formally object to:

1. de-designation of the Metropolitan Open Land around Shirley Oaks Village;

2. the use of the following five sites for housing:
   - land at Poppy Lane reference number 128;
   - Stroud Green Pumping Station, 140 Primrose Lane reference number 504;
   - land to the east of Shirley Oaks Road and to the rear of Beech House and Ash House reference number 541;
   - land to the east of Shirley Oaks Road reference number 542; and
   - land to the rear of 5-13 Honeysuckle Gardens reference number 548.

If the Council will not keep them as Metropolitan Open Land, these five sites should at least be designated as Local Green Spaces. Building housing on them would mean the loss of a vital green corridor between Shirley Oaks and the surrounding areas, changing the character of this part of Shirley. As far as I can see, these are the only bits of Metropolitan Open Land in the whole borough which the Council is proposing to de-designate and allow housing to be built on. Why has Shirley Oaks been singled out in this way?

3. the use of the following locations as gypsy/traveller sites:
   - Coombe Farm off Oaks Road reference number 502;
   - Coombe Lodge Nurseries off Conduit Lane reference number 661; and
   - Pear Tree Farm and Pear Tree Farm Cottage on Featherbed Lane reference number 755.

As the Council acknowledges, all three of these sites are in the Green Change. The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly:

“Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”.

The Council’s approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is);

4. Focussed intensification associated with gradual change of an area’s local character under Policy DM31.4 of the Shirley Road Shopping Parade, Shirley local centre and Forestdale. Shirley Road Shopping Parade is surely worthy of protecting rather than replacing with medium-rise blocks? Shirley local centre is defined not just as a stretch of the Wickham Road (where some intensification may be appropriate) but Ridgemount Avenue, Wickham Avenue, Peregrine Gardens, West Way Gardens, the northern section of Hartland Way and the western parts of Bennetts Way and Devonshire Way. Replacing the largely semi-detached buildings in these residential roads with medium-rise blocks would completely change the character of Shirley. Replacing the largely terraced housing and small blocks of flats in Forestdale with medium-sized blocks would completely change that area too;

5. Policy DM2 on development on garden land, which is too subjective and therefore too weak. There should be a much stronger presumption against development on garden land; and

6. Policy DM28, which should allow higher levels of parking in developments of low public transport accessibility. Restricting parking spaces in such areas doesn’t lead to fewer people owning their own car; it just leads to greater competition for existing spaces.

We understand that there are plans to change the designation of areas of Green Belt and Metropolitan Open Land. Specifically, we understand that the Council have identified two locations in the Shirley area for gypsy/traveller sites at Coombe Farm off Oaks Road and Coombe Lodge Nurseries off Conduit Lane.

We wish to object to the Council’s proposals as both these sites are in the Green Belt and the proposals are contrary to Government policy (Policy E of Planning Policy for Traveller Sites) which states “Traveller Sites (temporary or permanent) in the Green Belt are inappropriate development”. Clearly the Council’s approach is in breach of this policy.
We would like to notify you of our objection to the proposed traveller sites at Coombe Farm off Oaks Road and Coombe Lodge Nurseries off Conduit Lane, as described in your consultation on the detailed policies and proposals for The Croydon Local Plan.

We understand that there are plans to change the designation of areas of Green Belt and Metropolitan Open Land. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. The Council’s approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is);</td>

<td>Mr &amp; Mrs Whitehead</td>
<td>We also wish to object to the plans for traveller sites around the Coombe Lane and Oaks Road areas. We have seen first hand what travellers have done to an area of land. In a matter of two days we had piles of rubble, plastic and human waste on the open land to the rear of us. The residents of Shirley Oaks were forced to pay for the cleanup, on two separate occasions. Groups have repeated this mess in numerous places around Shirley over the last few years and have no respect for the area, so why should we create space for them at our expense.</td>

<td>Mr Gregory Boyce</td>
<td>I am writing to object to: 1. the use of the following locations as gypsy and traveller sites: Coombe Lodge Nurseries off Conduit Lane, site reference 661; Coombe Farm off Oaks Road, site reference 502; as both sites would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b;</td>

</tbody>
</table>
Coombe Farm off Oaks Road reference number 502; As the Council acknowledges, all three of these sites are in the Green Belt and one of them borders a Site of Nature Conservation Interest. Policy E of Planning Policy for Traveller Sites, published by the Government in August, says very clearly: “Traveller sites (temporary or permanent) in the Green Belt are inappropriate development”. The Council’s approach is clearly in breach of that policy. All three sites are also some distance from public services and they are all in the same part of the borough (two are in Heathfield ward, one just over the border in Croham). Why has Heathfield been singled out in this way? If the Council really needs, as it claims, to quadruple the number of gypsy/traveller sites in the borough - which I would question - they should look elsewhere (for example, off the Purley Way where the existing site is); The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.

I am a Croydon resident and am writing to object to the use of Coombe Farm off Oaks Road, site reference number 502, policy number DM43 as a gypsy and traveller site. This site is in the Green Belt, with one bordering a site of Nature Conservation. The proposed use would constitute inappropriate development in the Green Belt and would not comply with Policy SP2.7a and SP2.7b and would not be consistent with Policy E of ‘Planning Policy for Traveller Sites’ published by the Government. If additional sites are required in the Borough it would more appropriate to expand existing sites eg the site off the Purley Way.

In additional sites 681 and 502 does not have easy access to local schools, healthcare, retail and other amenities; the vehicular access into these sites is problematic and egress onto Coombe Lane/Oaks Road at the road junction is likely to create additional road hazards.

The site is in private ownership and the land owners have indicated they would not be interested in developing it as a Gypsy and Travellers site. As the deliverability of this site for Gypsy and Travellers would now be difficult it will no longer be considered for this use.
