Every year one in five children under 5 have an accident serious enough to need a doctor or treatment in a hospital.

“Well, I know they look like sweets, but how was I to know she’d start eating them”

Keep medicines and cleaners out of sight, in cabinets with child resistant catches.

“I just put my coffee down by her for a moment, while I went to answer the phone”

Be aware of saucepan handles, flexes and tablecloths that could be pulled.

“Yes I suppose he’s seen me using the matches, but before I went out he seemed quite happy playing with his cars”

Fit a smoke detector and have an escape plan in case of fire.

Home safety

Helping to make homes safer for families with children under five

Home safety equipment for an average household

Let us help you to make your home a safer place. If you are a council tenant with children under five years old we are offering you a free home safety check.

This means that a specially trained Home Safety Officer will check all areas of your home and give practical help and advice on ways to improve safety for you and your children.

The practical help may be:

- 🏠 fitting safety equipment, such as cupboard catches and socket covers
- 🏠 checking plugs and fuses
- 🏠 The provision of up to two stair gates or fireguards free of charge

The home safety check may take about one hour. This will depend on the size of your home.

The home safety check is FREE.

You can book easily by:

✉️ Completing the form and send it to the FREEPOST address shown (no stamp needed)
