1. Introduction

The Representation of the People Act 1983 and the Electoral Administration Act 2013 require each local authority to undertake periodic compulsory reviews of polling districts and polling places for UK Parliamentary elections. In accordance with these Acts, the next review must be completed by 31 January 2020.

The last compulsory review took place in 2014-15. There was a non-statutory review of polling districts and polling places in 2017 prior to the introduction of new local government wards in February 2018.

Prior to this review an audit of all the existing polling places was conducted. The audit examined the suitability of the polling places relating to their facilities and access for all voters including disabled voters.

As part of this review, the (Acting) Returning Officer must submit comments on existing arrangements and proposals for the future. This report constitutes the Croydon Council's initial proposals for future arrangements. Jo Negri, the Chief Executive of Croydon Council is the (Acting) Returning Officer for the Croydon Central, Croydon North and Croydon South parliamentary constituencies.

A consultation period will run from 5 August 2019 – 2 September 2019

2. Scope of this review

Polling districts and polling places are fixed by the local authority, in this case Croydon Council.

Polling districts are geographical areas created by sub-dividing the Croydon electoral area into smaller parts for voting.

Each polling district must be allocated a polling place which is a building or area in which the polling stations will be situated.

A "polling station" is a desk in the polling place at which ballot papers are issued. The number of polling stations at each polling place will be determined by the Returning Officer in advance of any election and will vary according to the size of the eligible electorate at that election and the likely turnout.

This review is regarding the polling districts used at parliamentary elections and will be subdivisions of the Croydon Central, Croydon North and Croydon South parliamentary constituencies.

However these polling districts will also be used at Local Government elections and any future referendums. Therefore polling district boundaries will not cross existing Local Government Ward Boundaries.

This review of polling districts and polling places will not affect Parliamentary Constituency or Local Government Ward boundaries.

3. Methodology

The principles underlying Croydon's approach to polling districts and polling places are:

- To retain, as far as possible, the current network of polling places and polling districts for the majority of electors to minimise disruption to voters.
- To ensure that, in line with Electoral Commission's guidelines, no more than 2,500 electors are allocated to each polling station.
- To ensure, as far as practicable, that polling places are accessible to people with disabilities.

The pattern of provision will never be ideal or suit all electors, but the current boundaries and places were drawn to try and maximise convenience to electors by using the best locations available.

4. Review timetable

5 August 2019

- Publication of the Notice of Review
- Publication of the (Acting) Returning Officer's Report on the existing arrangements and proposals for the future

5. Making representations

Electors may make representations to Croydon Council regarding the review and the content of this report. Croydon Council would also welcome any person or body with expertise in access for persons with any type of disability, to make a representation or comment on the content of this report. Persons or bodies making representations should, if possible, propose alternative places that may be used as polling places.

The consultation period will run from Monday 5 August until Monday 2 September 2019.

Maps showing the existing polling district boundaries are included in appendices 2-29 below. They show the current polling district boundaries and polling places. These came into force in February 2018 and were used at the Local Government elections in May 2018 and at the European Parliamentary election in May 2019. A map of all the existing polling districts is also available on Croydon Council's website: www.croydon.gov.uk/pollingreview

Information and documents regarding the review can be obtained from:

Seth Alker, Head of Electoral Services
Croydon Council
Town Hall
Katharine Street
Croydon
CR9 1DE

www.croydon.gov.uk/pollingreview

Representations should be made in writing to the above address, or emailed to electoral.services@croydon.gov.uk

Croydon Council Officers will investigate any representations. Final recommendations, taking into account the (Acting) Returning Officer's comments and representations made during the Consultation period, will be made in a report to the Full Council on 16 October 2019. Full Council will be asked to consider and approve the recommendations.

Any changes to the existing polling district boundaries agreed by Full Council will be incorporated into the electoral register published on 1 December 2019.

Should a General election or Referendum take place in the autumn of 2019, the publication of the electoral register and any changes had as a result of this review will be delayed to February 2020.

Addiscombe East Ward

Current polling place and polling district Information.

ADE1 - Beverley Hall, Grant Road, Croydon, CR0 6PJ

Number of properties	1336

Number of postal voters	408

ADE2 - St Mildred`s Church Hall, 30 Bingham Road, Croydon, CR0 7EB

Number of properties	1835
Total number of Electors	3049
Number of postal voters	564

ADE3 - Ashburton Hall, Byculla Suite, Ashburton Park, Lower Addiscombe Road, CR0 6RX

Summary of current arrangements and recommendations:

The current division of the Ward is satisfactory. The electorates for each polling districts are within the Electoral Commissions recommended number of electors per polling station and there is no over-whelming case for changing the boundaries so soon after the introduction of new ward and polling district boundaries in 2018.

Each polling station in the ward provides good facilities for voting, providing suitable access for voters including those with a disability.

The 2017 polling district review designated Ashburton Hall as the polling place for polling district ADE3. While the building is suitable, it is located within Ashburton Park, and additional lighting is required from the street to the building, particularly if there is a winter election at which there are longer hours without daylight. This is a significant additional expense. The location may also put electors off from voting at certain times if they have concerns over their safety entering the park after dark.

It was also not possible to use the venue at the 2019 European Parliamentary elections because of another booking. The Public Library at Ashburton Learning Village was used instead. This venue had previously been a polling station for many years, and it is in the building tenancy agreement that it is made available to be used as a polling place if needed. Using the Public Library on a permanent basis would ensure consistency for electors, reduce costs and alleviate some potential security concerns from electors.

Recommendation:

The polling place for polling district ADE3 should be changed to the Public Library, Ashburton Learning Village. No other changes are recommended.

CPU6 - St John`s Parish Hall, Sylvan Road, Upper Norwood, London, SE19 2RX

Number of properties	1582
Total number of Electors	2353
Number of postal voters	372

Summary of current arrangements and recommendations

The current division of the Ward is satisfactory, with the exception of a number of properties located on Beulah Hill that appear to be in the incorrect polling district. The following addresses are all currently on the register in polling district CPU5 but are located within the existing CPU4 polling district:

- 1-7 Beulah Hill SE19 3LQ
- Cintra House 9 Beulah Hill SE19 3LY
- Scoresdale 13 Beulah Hill SE19 3LH
- Blenheim Court 17 Beulah Hill SE19 3LJ
- Windsor Court 19 Beulah Hill SE19 3LU
- 12 Beulah Hill SE19 3LL
- Ravensroost 27 Beulah Hill SE19 3LN

Around 200 electors are affected by this. Moving the properties and electors into the CPU4 polling district would cause total electorate for the district would be slightly higher than the Electoral Commission recommended electorate for polling stations (2,500) however there when postal voters are removed from the electorate total, it falls comfortably below this figure.

Other than this, the electorates for each polling district are within the Electoral Commissions recommended number of electors per polling station and there is no over-whelming case for changing the boundaries so soon after the introduction of new ward and polling district boundaries in 2018.

Each polling place in the ward provides good facilities for voting, providing suitable access for voters including those with a disability.

Recommendation:

Amend the electoral register to move the addresses listed above from CPU5 to CPU4 polling district. No other changes are recommended.

Revised Electorates:

CPU4 - All Saints Church, Beulah Hill, Upper Norwood, London, SE19 3LS
2589

Summary of current arrangements and recommendations:

The current division of the Ward is satisfactory for FFD1, FFD3, FFD4 and FFD5 polling districts. The electorates for each of these polling districts are within the Electoral Commissions recommended number of electors per polling station and there is no overwhelming case for changing the boundaries for these so soon after the introduction of new ward and polling district boundaries in 2018.

Each polling place in the ward provides good facilities for voting, providing suitable access for voters including those with a disability.

Following the polling district review in 2017, the Council designated the Tamworth Hub as the polling place for polling district FFD1. Since that time it has been unavailable and Church of God 7th Day, Derby Road has been used as the polling station for the district. The Tamworth Hub is currently undergoing renovation. Once renovation work has been completed the venue will be assessed for its suitability as a polling place.

The current polling station electorate in polling district FFD2 is currently over 3,000 with the potential for a further increase due to future residential development. The recommendation is to split the existing polling district FFD2 and create a new FFD6 polling district with a new polling place east of Wellesley Road.

Recommendation:

Split the existing polling district FFD2 down the centre of Wellesley Road. All properties east of the new boundary to remain in FFD2 polling district. All properties west of the new boundary to be part of a new FFD6 polling district.

Amended FFD2 Polling District

This would include Bedford Park, Bedford Place, Caithness Walk, Lambert's Place, Lansdowne Road, Lewen Close, Saffron Central Square, St James's Road, Tavistoick Road, Wellesley Road (east side), Woburn Road.

Number of properties	2235
Total number of Electors	2424

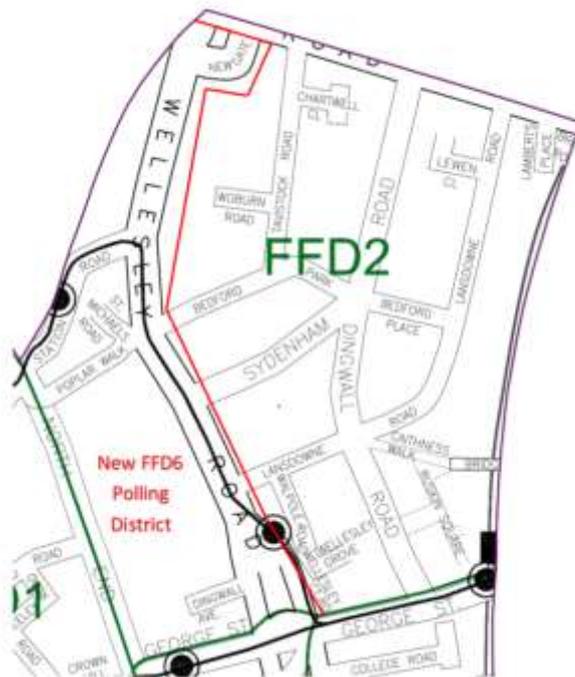

The polling place for the district to be located at a new venue on the east side of Wellesley Road. This could be Bedford Hall, 72-74 Wellesley Rd, Croydon CR0 2AR or another suitable alternative in the district.

New FFD6 Polling District

This would incorporate Dingwall Road, Newgate, North End, Poplar Walk, Station Road, Sydenham Road, Wellesley Road (west side).

Number of properties	1208
Total number of Electors	1202

The polling place for the district to be located at St Michael's Parish Church Hall, Poplar Walk, Croydon, CR0 1UA.

Total number of Electors	1791
Number of postal voters	315

Summary of current arrangements and recommendations:

In the current division of the size of the electorates for each polling districts are within the Electoral Commissions recommended number of electors per polling station. However there is a good case for part of the KLY1 polling district to be incorporated into the KLY4 polling district. The geography of the ward means that the polling station for KLY1 at Kenley Harris Primary School, Little Roke Road is at the bottom of a hill, with a significant part of the polling district at the top. This problem is exacerbated by the fact that there are no suitable footpaths down the hill, with pedestrians required to walk in the road.

There are also a small number of properties - Pine Croft 61 Welcomes Road CR8 5HA and 64-68 Welcomes Road CR8 5HD that are currently in KLY4 on the electoral register but are located in the KLY2 polling district.

Each polling place in the ward provides good facilities for voting, providing suitable access for voters including those with a disability.

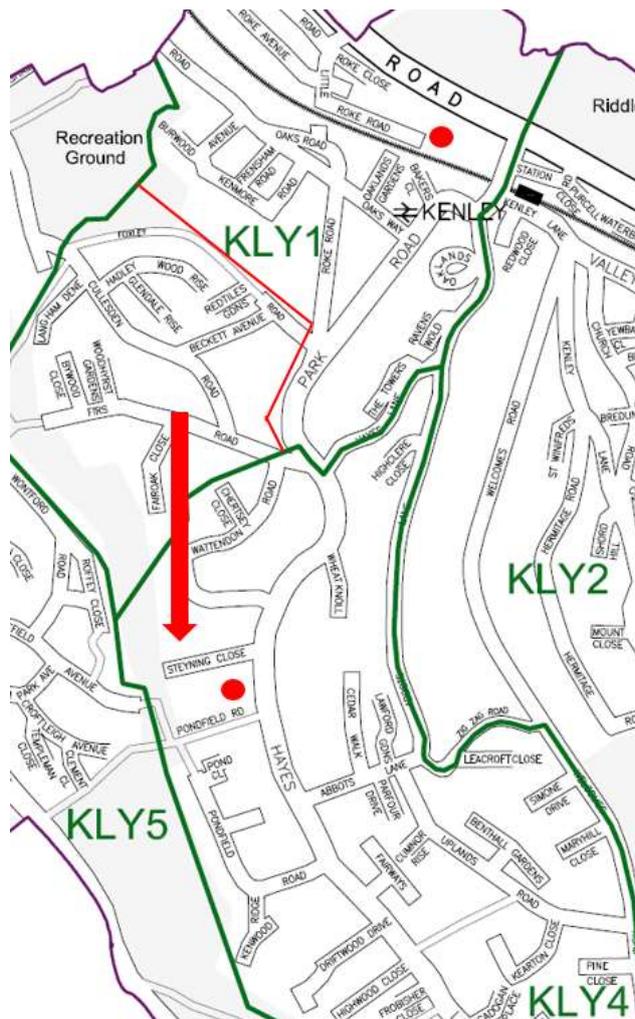

Recommendations:

Move the streets in KLY1 polling district that are located at the top of the hill from KLY1 polling district to KLY4 polling district so that the electors can vote at Hayes Primary School, Hayes Lane which is located a little further along the ridge of the hill.

Streets to be moved:

Beckett Avenue, Bywood Close, Cullesden Road, Fair oak Close, Firs Road, Foxley Road, Glendale Rise, Hadley Wood Rise, Langham Dene, Redtiles Gardens, Woodhyrst Gardens.

421 electors will be affected by the change.

Move the 4 properties in Welcome Road that are in KLY4 in error to KLY2.

Number of properties	791

Summary of current arrangements and recommendations:

The current division of the Ward is satisfactory for OCN2, OCN4, OCN5 and OCN6 polling districts. The electorates for each of these polling districts are within the Electoral Commissions recommended number of electors per polling station and there is no overwhelming case for changing the boundaries for these so soon after the introduction of new ward and polling district boundaries in 2018.

Each polling place in the ward provides good facilities for voting, providing suitable access for voters including those with a disability.

The polling stations for OCN1 and OCN2 polling districts are currently both located in the same polling place, Bradmore Green Library, Bradmore Way as there are no suitable polling places in the OC1 polling district. While the venue is suitable for a single polling station, the layout means that fitting two polling stations into the polling place is very tight.

As the electorates in both polling districts are relatively small, OCN1 – 638 and OCN3 – 1191, the two districts could be merged with a single Polling Station

Recommendation:

Merge OCN1 and OCN3 polling district – as polling district OCN1. OCN6 polling district renamed as polling district OCN3.

The current division of the Ward is satisfactory. The electorates for each polling districts are within the Electoral Commissions recommended number of electors per polling station and there is no over-whelming case for changing the boundaries so soon after the introduction of new ward and polling district boundaries in 2018.

In the 2017 polling district review Archbishop Tenison's CE School, Selborne Road was designated as the polling place for PHW2 polling district. However, the previous arrangements that allowed for the school to remain open while a polling place was located there are no longer possible. To avoid the disruption that shutting a secondary school would cause, particularly when elections fall close to exams, it was decided that the polling station for PHW2 would be located in the polling place for PHW1 district, the Main Hall, St Matthew's Church, Chichester Road which is one street away from Archbishop Tenison's CE School. The venue can comfortably accommodate two polling stations.

Each polling place in the ward provides good facilities for voting, providing suitable access for voters including those with a disability.

Recommendation:

Formalise the arrangement that the Main Hall, St Matthew's Church, Chichester Road, Park Hill, Croydon, CR0 5NQ is the Polling Place for Polling District PHW2.
